Foreign Help Given Rebels, Vargas Claims

Nazis Are Suspected But No Proof Found For Assertion

RIO DE JANEIRO, May 13 (AP)—President Getulio Vargas declared tonight that fascist integralists who besieged his presidential palace in an abortive putsch Wednesday did so "with foreign help."

His statement came after Foreign Minister Oswald Aranha returned by airplane from Rio Grande do Sul with a police dossier on German Nazi activities in that state.

"As we repelled extremists of the left in the recent past, so today we confront unwaveringly the extremists on the right," Vargas said in addressing a celebration commemorating the sesquicentennial of the abolition of slavery and his escape from Wednesday's revolt.

The presidential offices, meanwhile, announced the arrest of the prominent industrialist, Raul Leite, while he was in a waiting room at the presidential palace. He is a reputed integralist.

Another powerful integralist leader, Manoel Bernardi, director of the mint, was arrested when he attempted to enter the palace during a labor manifestation in favor of Vargas.

Although authorities said they had evidence the Wednesday putsch received foreign aid, no responsible official would designate the source of such aid.

They said they had no concrete proof to support charges that the German Nazi party supported the rebellion, financially or otherwise.

Vargas referred to the green-shirt integralists as "fanatics misled by the obsession of imposing upon the country an exotic ideology seizing upon all possible sources without regard to their origin and unheeding the fact that with foreign help they compromised the very sovereignty of Brazil."

Paroled Convict Voluntarily Asks Return to 'Pen'

DES MOINES, May 13 (AP)—The state parole board announced tonight Don Stafford of Sioux City, on parole from Ft. Madison penitentiary, has asked it voluntarily to send him back to serve the remainder of his 10-year sentence.

The board said members would interview Stafford tomorrow and then decide what action to take.

Stafford received a 10-year sentence in Polk county in 1924 for theft of an automobile. He said that if he returns he would have about 10 months to serve of the sentence from which he was paroled last December.

Belgian Leader Seeks Cabinet To Replace Old

BRUSSELS, May 13 (AP)—Belgium's socialist ex-Foreign Minister Paul H. Spaak sought tonight to form a "take it or leave it" cabinet to replace that of Paul Emile Janson which resigned in a squabble over government tax proposals.

King Leopold showed his influence in the government by the unprecedented action of giving the broad-faced, pudgy Spaak a mandate after consulting only three political chieftains.

The king, a close friend of Spaak, conferred only with the senate and chamber of deputies speakers and the veteran Burgomaster Adolphe Max.

All three told the monarch to give the task to Spaak—one-time firebrand revolutionary who gave way to Janson in efforts to form a government when Premier Paul Van Zeeland resigned last Nov. 24.

Blinking under a wide, high crowned sombrero as he left the palace, Spaak announced his immediate plan to seek a cabinet.

"I have a program," he said. "I am not going to start party discussions. I am going to try to form a 'take it or leave it' government and if I succeed it will take office May 17."

Church Leaders Act To Unite Protestants

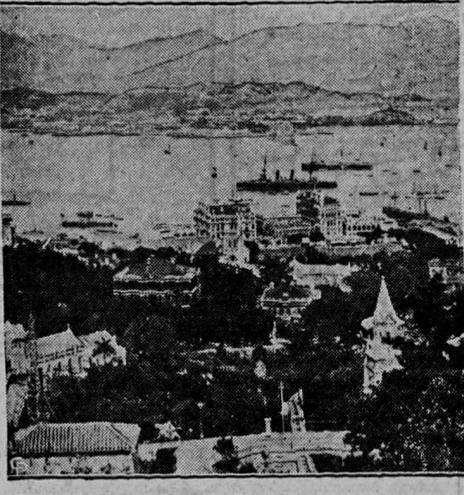

UTRECHT, The Netherlands, May 13 (AP)—Protestant leaders acting for 350,000,000 constituents throughout the world today laid the foundation of a great "fellowship of churches," an organization for world-wide church cooperation exceeding in scope anything ever before effected.

Scene of Invasion

Amoy on the map

Here is a view of Amoy, 525 miles south of Shanghai, where a terrific Japanese naval and aerial bombardment placed 250 foreign residents, including 28 Americans, in serious danger and reduced the city to a shambles. The attack on Amoy, a city of 250,000 population, was the first invasion of South China by the Japanese in the 10-month-old war.

Mexico Severs Formal Relations With Britain

Japan's Armies Near Conquest

Chinese Admit Danger As Enemy Nears Central Front

SHANGHAI, May 14 (Saturday) (AP)—Japan's armies, swiftly nearing the Lunghai railroad from north and south, today virtually had sealed 400,000 Chinese troops in a tight circle on the vital central front.

Chinese acknowledged they were losing ground against dozens of Japanese columns spread-eagled around the dwindling territory they are defending between Japan's conquests in north and central China.

Apparent imminent success of Japan's months-long efforts to reach the east-west Lunghai, central China's main communications line, endangered the defenders' whole resistance on the seaboard.

China's armies, Japanese declared, would be trapped without hope of escape, Japan's northern and southern forces would be joined and Suchow, where the important north-south Tientsin-Pukow railroad crosses the Lunghai, no longer could be defended.

A Japanese army spokesman early today declared the Lunghai would be cut within a few hours.

He said shock troops, advancing northward, had crossed the Honan province border into Kiangsu and were about 13 miles south of Tangshan, an important point on the railroad 51 miles west of Suchow.

North of the Lunghai, Japanese declared, another column, striking south, was about 30 miles from the railroad at Yutai. On the opposite side of the front, Japanese yesterday said a third column was only three miles north of the Lunghai, 65 miles east of Suchow.

Thus, apparently within hours, the Japanese had compressed the gap between their armies west of Suchow to less than 45 miles. Dispatches late last night had said the columns were within 72 miles of a junction.

Japanese declared 20,000 Chinese soldiers had been killed in 24 days from April 14 to May 6 on the Shantung province front by the great Japanese campaign against Suchow to redeem the blow six weeks ago at Taiherchwang. There the first offensive collapsed under the most crushing defeat of a modern Japanese army.

Family of 4 Killed As Train Crashes Auto at Crossing

NEW ULM, Minn., May 13 (AP)—Mr. and Mrs. Frank Prokosch, about 35, and their two children, were instantly killed this afternoon when their car was struck by a Northwestern passenger train at a crossing near their farm home six miles from here.

Prokosch, a WPA worker living on a 20-acre tract, and his daughter, Marie, 4, and son Andrew, 7, had left the farm with the mother for town when their sedan was struck broadside.

Their car was carried 500 feet down the track and the bodies were spilled out over a distance of 40 feet after the train ground to a stop.

Riots Kill Four In Colombian City Disorders

BOGOTA, Colombia, May 13 (AP)—Four persons were killed and 50 wounded in disorders in three Colombian cities, belatedly advised tonight.

A decree was issued by President Alfonso Lopez prohibiting any demonstrations or radio broadcasts of news relating to public disorders following the outbreaks in Pasto, Popayan and Cartagena.

The four dead were at Pasto, capital of Narino state, where students, strikers and an angry crowd attacked the government palace. The palace guard was stoned.

The demonstrators, demanding freedom of prisoners in Pasto jails, took possession of the palace and burned some of its archives and furniture.

Forty persons were wounded there.

Polish Fliers Make First Leg of Flight

MEXICO CITY, May 13 (AP)—The Mexican aviation company announced tonight that five Polish fliers who took off from Los Angeles this morning on the first leg of a flight to Warsaw landed at Mazatlan, on the west coast of Mexico, at 4:40 p. m., CST.

A LUCKY DAY Herbert Hoover Lands Eleven Trout

NORFOLK, Conn., May 13 (AP)—Former President Herbert Hoover caught 11 trout this afternoon, one of them a 16-inch, 13-4-pound beauty.

The ex-president, as the guest of former Senator Frederic C. Walcott, fished the Hammerton brook, near Taconic.

Walcott, a republican who served in the senate during Hoover's administration and who now is Connecticut welfare commissioner, said that the other guests at the dinner were "fishing friends" of his and that the gathering had no political significance.

F.D.R. Names Harry Slattery For Interior Job

WASHINGTON, May 13 (AP)—Secretary Ickes had the satisfaction today of seeing his right hand man, Harry Slattery, nominated by President Roosevelt to be undersecretary of the interior in place of Charles West, whose office Ickes virtually stripped of personnel recently.

The interior department chief had complained that West was never in his office, and had observed to reporters that "I like to see that the people in my department earn their salaries."

West's resignation from the \$10,000 a year undersecretaryship was announced at the White House this morning a short time before Slattery's nomination was sent to the senate.

Thieves' Honor Arrest Burglar With Burglar Alarm

NEW YORK, May 13 (AP)—Morris Kutler—held by police as the "phantom burglar" responsible for scores of breaks in Queens—must have heard that one about the lack of honor among thieves.

After a two-day search detectives found Kutler's apartment in the Bronx. Protecting the furnishings, including numerous articles identified by the "phantom's" victims, was an elaborate burglar alarm.

New Escorts Grid Stars Suggested For Jersey City

WASHINGTON, May 13 (AP)—A group of American university students proposed today that members of the 1937 all-American football squad be recruited as an escort for Representatives O'Connell (D-Mont.) and Bernard (FL-Minn.) on their next attempt to speak at Jersey City.

The students, headed by Lewis C. Frank of Detroit, wired a number of college newspaper editors suggesting formation of a "national student anti-Hague committee," to protest against activities of Jersey City's mayor, Frank Hague.

In addition to the football squad escort, the students said, "thousands of students within reach of Jersey would represent their colleagues throughout the nation in a protest against Jersey's dictatorship."

Billion Dollar Expansion Bill For Navy Goes to Roosevelt After Receiving Senate Okay

WASHINGTON, May 13 (AP)—The billion dollar navy expansion bill, designed to give the nation the most powerful fleet in its history, went to the White House today for President Roosevelt's signature after the senate approved it.

Almost immediately it became known that the navy hoped to start work without delay on some of the 46 new fighting ships, 26 auxiliaries and 950 planes the measure authorizes.

After conferring with President

Bela Imredi, New Hungarian Leader, Lays Anti-Nazi Plans

BUDAPEST, May 13 (AP)—Bela Imredi, hailed as a "strong man" who will squelch Hungary's rapidly growing Nazi movement, tonight formed a new government and immediately outlined a program for restoring confidence and public order.

Two hours after succeeding resigned Premier Koloman Daranyi, the powerful financial and economic leader addressed a meeting of the government party and disclosed plans to introduce two far-reaching measures before parliament tomorrow.

Both will be aimed at clamping the lid on extremist agitation. One would provide more drastic penalties for disturbing public peace; the other would tighten restrictions on the right of public assembly.

The new premier also stressed a five-point program for social and economic reconstruction which he said his government would push through without delay.

He said Hungary's foreign policy would remain unchanged.

Prison Guards Lift Protesting Man to Death

MOUNDSVILLE, W. V., May 3 (AP)—Raymond Styers plunged to his death on the gallows tonight, Friday the 13th, strapped in a straightjacket and protesting his innocence of the murder of a woman killed in a Wheeling beer parlor robbery.

While a crowd of some 70 spectators waited, the 29-year-old slayer refused to walk from the death cell. Husky guards quickly placed him in the jacket and carried him up the 13 steps of the gallows.

"I am innocent," the condemned man was repeating as the black hood was adjusted over his head and the trap sprung.

Ten minutes and 50 seconds later prison physicians pronounced Styers dead.

Warden Disciplines San Quentin Convicts For Leading Strike

SAN QUENTIN, Cal., May 13 (AP)—Solitary confinement was ordered today for 15 convict ringleaders in a "folded arms" strike in crowded San Quentin prison after 350 prisoners refused to work.

It was the second day of strike demonstrations by the convicts who protested reduction of recreation time.

Warden Court Smith said the disciplinary action caused about 150 of the strikers to return to work. The others still refused.

Earlier in the day the number of those in the demonstration was about 500.

British-French Leadership In League Suffers Severe Set-Back

1,400 Cadets to Parade for Governor Military Units Will March to Sound of Drums, Bugles and Bagpipes

Governor's day—second only to commencement among old university ceremonies—will bring to Iowa City today its martial air as the bands play and the military students parade in honor of Gov. Nelson G. Kraschel.

As usual special military groups will be very much in prominence during the day's festivities. Cavalry Troop I of the Iowa National Guard, the Pershing Rifles organization, the Pontoniers group, the Scottish Highlanders drum and bugle corps.

Governor's day will begin officially at 10 o'clock this morning when the governor and his party attend the regimental review of the R. O. T. C. units west side of the armory.

Cavalry Troop I of the Iowa National Guard will escort the cars of the Governor's party to the armory. At Grand avenue the convoy will be joined by the Pershing Rifles organization, the Pontoniers group and the Scot-

tish Highlanders drum and bugle corps.

Over 1,400 Cadets

When the governor and his party arrive at the parade grounds between the fieldhouse and the stadium, more than 1,400 military cadets, comprising all units of the R. O. T. C., will be drawn up in regimental review. After the regiment has formally been presented to the governor by the cadet colonel, awards for proficiency in various military work will be made.

(See REVIEW, page 3)

Loyalist Spain Asks for Help In Civil Strife

Only 2 Nations Follow
Britain-France In
Refusing Plea

GENEVA, May 13 (AP)—Anglo-French leadership in the League of Nations suffered a severe blow at its prestige today as two war-torn nations, China and Spain, sought moral and material help in this capital of collective security.

White-haired Julio Alvarez del Vayo, representative of government Spain, lost a dramatic fight to end the international policy of non-intervention in Spain's civil war, but in the league council's vote on his resolution was bitter medicine for France and Britain.

Of the 15 nations voting, only two, Poland and Rumania, followed France and Britain in rejecting the resolution.

Russia Represented

This gave a sufficient margin to turn it down since only Soviet Russia joined Spain—the latter being given a temporary place at the council table—in the affirmative.

The blow to the Anglo-French leadership was in the nine abstentions including even Belgium, previously the most loyal follower of the two big powers.

Others abstaining included China and New Zealand, which had been expected to vote for Spain; Ecuador, Latvia and Peru, who had been expected to follow the London-Paris line, and Bolivia, Sweden and Iran.

Sympathy for China

China won from the council only warm expressions of sympathy in her fight for material aid in her war with Japan, but Chinese sources declared some powers, including Britain and France, had agreed to grant China credits for purchase of arms and also assurance of aid in getting the arms into the country.

The council arranged to go on public record as flatly refusing material aid.

Even in a secret session Viscount Halifax, British foreign secretary, supported by Georges Bonnet, French foreign minister, declared he did not see a possibility of international aid since "such a proposition would certainly not be unanimously approved by the council."

Calls Legation From London

LAST MARRIAGE? Gilda Gray Divorces Third Husband

LOS ANGELES, May 13 (AP)—Gilda Gray shook off her third and maybe her last husband in superior court here today.

The shimmy star of some years back won a divorce from Hector De Bricono, Venezuela government official, on the charge he put his duty to country ahead of marital responsibilities.

The former dancer also spoke of De Bricono's abusive, profane and indifferent conduct. She said she married him in New York six years ago when De Bricono was a member of the Venezuelan diplomatic service.

Three years later, Miss Gray related, he was called home but told her he would return in six months.

Brave Souls Disregard Friday The 13th Jinx

ATLANTA, May 13 (AP)—Bidding on Friday 13th for a contract for work on the 13th street bridge over the Savannah river in Augusta, Wannamaker & Wells, Inc., of Orangeburg, S. C., submitted the figure \$115,113.13.

The bid failed to win the contract. It was about \$13,000 above the lowest figure.

Film Star Injured

HOLLYWOOD, Cal., May 13 (AP)—Joe E. Brown defied the jinx and tried to play football today unfortunately.

He was carrying the ball for David Loew, Inc., which is not a school but a film-making concern, on the U. C. L. A. field when he slipped.

Joe tore a tendon in his right leg and was taken to a hospital for X-rays to determine how long he'll be on the bench.

Wrong Number Accident Kills Boy

DES MOINES, May 13 (AP)—Friday the 13th has a real significance to Jack Gilbert, courthouse elevator operator here.

When 13 passengers boarded his elevator today he politely asked one of them to get off. The passenger consented.

U. S. Surprised At Mexico's Move

WASHINGTON, May 13 (AP)—State department officials received with surprise tonight news dispatches from Mexico City that Mexico had broken diplomatic relations with Great Britain.

They declined to comment until official dispatches had been received but they gave the impression they regarded the development with anxious interest.

Asked whether Mexico had consulted the United States before severing diplomatic relations, they said that at first sight this was a matter directly between Mexico and Great Britain and they did not see that Mexico was required to consult this country.

Action Follows Protests On Expropriation Of Oil Firms

MEXICO CITY, May 13 (AP)—Authoritative sources said tonight Mexico was preparing to withdraw her diplomatic representation to London.

A statement was being prepared at the government press bureau announcing the recall of Primo Villa Michel, Mexican minister plenipotentiary to the British government.

13's Jinx Contract

ATLANTA, May 13 (AP)—Bidding on Friday 13th for a contract for work on the 13th street bridge over the Savannah river in Augusta, Wannamaker & Wells, Inc., of Orangeburg, S. C., submitted the figure \$115,113.13.

The bid failed to win the contract. It was about \$13,000 above the lowest figure.

British to Counter

It was expected Great Britain would counter immediately with withdrawal of her minister to Mexico, Owen St. Clair O'Malley.

O'Malley said this evening he had as yet received no advices from London. He added that he probably would not decide until morning any cable arriving from the British foreign office tonight.

The British minister was notified of Mexico's decision when he called at the foreign office this afternoon to receive checks for 361,737.17 pesos (about \$84,518) due as an annual installment on the civil war claims.

Recent Staff Note

He had several times protested delay in payment of the amount, most recently in a stiffly worded note dated Thursday which said Mexico's "attitude toward government indebtedness generally" was "far from reassuring."

Previously, O'Malley had handed the foreign office two sharp notes protesting in vigorous terms the taking over eight weeks ago of the properties of Aguilera (Royal Dutch Shell) oil company, which company officials had estimated to be worth \$250,000,000, along with those of 16 other foreign companies.

Judge F. Allen Alters Ruling On Labor Act

COVINGTON, Ky., May 13 (AP)—Reversing the National Labor Relations board for the third time within a week, the sixth United States circuit court of appeals held today that an employer cannot be accused of "discrimination" when his repeated and "sincere" attempts have failed to produce agreement on a labor policy.

The decision by Judge Florence E. Allen, declared that the board's findings against the Sands Manufacturing Co., of Cleveland, makers of heaters and valves, were not substantiated by the evidence.

In May and August, 1935, the Sands plant was closed by strike. The NLRB, issued in May, 1936, directed that 48 men, assertedly locked out, be reinstated with back pay. The labor board sought enforcement and charged discrimination.

Judge Allen found evidence that the Sands company negotiated with the Mechanics' Educational society of America for two months. The opinion said "the statute merely requires the employer to negotiate sincerely. The sincerity is to be tested by the length of time involved in the negotiations, their frequency and the persistence with which the employer offers opportunity for agreement."

Pray Stresses Individualizing Relief Methods

Social Workers Hear Pennsylvania Man At Institute

The need of treating relief persons as individuals rather than mere cases was emphasized by Kenneth L. Pray, dean and professor of social planning and administration at the University of Pennsylvania, at the first meeting of the two-day social work institute yesterday in Old Capitol.

People who come for help, he asserted, are individuals with individual stories. Each case is unique and must be handled differently. Much harm is done to relief clients by merely giving them their check for food. Instead, the relief client should be allowed to tell his story and be made to feel that he is an individual worthy of respect.

Since relief clients have come to be numbered in the millions, there has been too strong a tendency to rush them through as cases instead of individuals, he said.

In speaking of the part the community plays in relief work he said, "The community in the last analysis must and should have the right to determine its attitude towards relief work. It is not the policy of social workers to dictate to the communities what they should do, but to help them understand the needs of relief workers."

In today's sessions Dean Pray will discuss further how to interpret to the community the needs of relief workers. He will also deal with questions brought up in yesterday's round-table discussion.

Tonight at a 6:30 dinner the Iowa chapter of the American Association of Social Workers will hold its regular monthly meeting at Reich's cafe. The meeting, usually held in Des Moines, has been transferred to Iowa City because of the social work institute.

Members of the institute were the guests of honor yesterday afternoon at a tea given by the students of the school of social administration in the river room of Iowa Union.

Club Will Hear Cleland Speech

Australian Professor To Address Group Monday

J. B. Cleland, professor of pathology at the University of Adelaide, South Australia, will deliver an illustrated lecture on "Botanical Features of Australia" before the botany club at 4 p. m. Monday in room 314, pharmacy and botany building.

Professor Cleland has made notable contributions in the field of pathology in Australia. He has studied on Dengue and Papapatici fevers, smallpox, acute Encephalomyelitis, influenza and the blood grouping of Central Australian aborigines.

His contributions to botanical knowledge of Australia include "Toadstools and Mushrooms and other Larger Fungi of South Australia" and a work on the ornithological fauna of Australia.

There are 700 species of wild flowers growing on the Madeira island, many of them found nowhere else in the world.

Much of the furniture designed by Duncan Phyfe was characterized by the use of the acanthus leaf in bas relief.

New Solution to an Old School Problem

"Foolproof machinery" is the name William R. Wood of the University high school English department gives his new method for handling the old school problem of "outside reading." Mr. Wood is shown explaining the record blank to Robert Berry, high school junior.

—Daily Iowan Photo, Engraving

This Reading Is Fun!

William R. Wood Devises New Plan For High School Outside Reading

By LENORE DE VRIES

"Gee, this is fun. Reading isn't so bad after all." Thus Johnny, typical University high school pupil, tells us he likes the new way of handling "outside reading" at the high school. Standardized units used in the plan worked out by William R. Wood of the English department are now being published.

Previously Johnny didn't like this business of reading for "extra credit" with formal book reports and all, especially when the books were assigned from an arbitrary list. But this new plan he likes. Now he picks a book himself because of its value and interest to him personally. Then, after he has finished his selection, he discusses it with his teacher who helps him pick another.

Pupils Benefit

Explains Mr. Wood: "There has long been the recognition that every pupil benefits from wide reading of good selections. Now, in addition to this value of outside reading, there is another—the basis it can give for the program of instruction and for guidance in future reading."

However, in order to make it possible for Johnny's reading to form this basis, it is necessary that the teacher have some means of securing a complete record of all the reading he does, a more comprehensive picture than that of his required readings. In this way the tabulation of reading records becomes more significant with additional problems and questions involved.

Reading Record

The answer? After 10 years' experimentation in dealing with high school pupils, Mr. Wood feels that he has arrived at a recording method with practically fool-proof machinery, the "Permanent Progressive Reading Record."

Largely eliminating the old problem of how to give "credit" for outside reading, he merely records data on each student's outside reading, thus constructing a file of each book Johnny has read from the seventh through the 12th grades.

It is really very simple, he says. First there is the record folder providing space for 101 book entries with information on title, author, number of pages and subject for which Johnny read the book, whether he read it as an assignment, from suggestion or by his own choice.

Additional Insert

To facilitate handling, the folder is made of stiff paper and

S. U. I. Sing in Outdoor Setting

Six Groups Compete for Loving Cups; Double Quartet From Quad Entertains

A brilliant flash of flares will announce the beginning of this year's All-University Sing finals tomorrow at 7:30 p. m. on the east lawn of the fine arts building. The time has been set ahead one-half hour from the hour previously announced.

If the weather is pleasant the songfest will be a floodlighted musical pageant, held outdoors along the river banks. This is the first time the annual event has been an outdoor contest.

In case of rain, the program will be presented in the lounge of the fine arts building.

Donald R. Mallett will be master of ceremonies. A special feature of the program will be a performance by the Quadrangle double quartet, singing on the steps of the fine arts building.

In torchlighted canoes on the river the other members of the Quadrangle chorus, which is in

the Tri-Delts and the Quadrangle, last year's winners. The cups will become permanent possessions of groups which win them three years in succession.

The committee in charge of the Sing includes Betty Bauserman, A4 of Des Moines, chairman; Madge Jones, A4 of Cedar Rapids; Jane Hart, A3 of Des Moines;

child, acting police judge, yesterday.

C. D. Kent, P. S. Hsing and Betty Puckett were fined for using the street for storage. Overtime parking cost Wilfred Brogla and Richard Fick \$1 each. Ed Callahan Jr. was fined for failing to obey a stop sign.

Six Motorists Fined \$1 Each by Fairchild

Six \$1 fines were levied against motorists by T. M. Fair-

child, acting police judge, yesterday.

C. D. Kent, P. S. Hsing and Betty Puckett were fined for using the street for storage. Overtime parking cost Wilfred Brogla and Richard Fick \$1 each. Ed Callahan Jr. was fined for failing to obey a stop sign.

keep in his own notebook the record of his own reading.

As a third part of the device there is the pupil report slip on which Johnny reports to the teacher each book he reads, giving it his personal interest rating according to a simple five-point scale. From these slips, handed in at the end of each week, the teacher transfers the information to the record folder.

As to what value the revelations made through the study of a pupil's reading may have in future teaching, Mr. Wood is confident it will be a great one. For this reason, though he has made much progress in his study so far, he is continuing his experimentation surveying not only schools in Iowa, but also those in other states.

Memorial Day Group Makes Services Plans

Prof. Thornton to Give Talk; School Band Will Parade

Members of the Memorial Day committee, supported by Iowa City's patriotic organizations, made additional plans for the Memorial Sunday church events and the Memorial day parade and services at the cemetery, at a meeting in Riley's chapel last night.

Although Memorial day events at Iowa City have not been spoiled by rain for 18 years, Mrs. Martin Pederson, secretary, said the usual arrangements for indoor accommodations would be made nevertheless.

Other speakers in addition to Prof. H. J. Thornton, who will deliver the principle address, will be the Rev. W. W. Hayne, the Rev.

Ralph M. Krueger, and the Rev. Carspar C. Garrigues, who will deliver invocation and benedictions during the services.

Lieut. Col. Will J. Hayek will be marshal of the parade, scheduled to start at 9:30 a. m., and Cromwell Jones will preside at the cemetery. Music will be supplied by the Iowa City high school band, under the direction of Lloyd F. Swartley. Additional musical groups will be added later, Mrs. Pederson said.

A reading of "General Logan's Order" will be given by John Ray, and Lincoln's Gettysburg address will be read by John J. Roessler.

The parade route will begin at Clinton street and Iowa avenue, proceed north to Church street and east to the cemetery.

A house to house canvas for flowers will be made by Boy Scouts on Memorial Sunday.

Jolly, the dog that drifted with four Soviet explorers on an ice Greenland sea, now occupies a cage in the Moscow zoo.

Rome's Colosseum, finished by Titus in 80 A. D., held 100,000 spectators.

Review--

(Continued from page 1)

Then the order "passing in review" will be given and the 1,400 military students will parade before the governor and his party.

Approximately 500 guests will attend the luncheon-reception to be held in the governor's honor at noon today in Iowa Union. Included among the guests will be the governor's staff, Iowa executive officials, United States senators and representatives from Iowa, members of the state supreme court, state senators, the speaker of the house of representatives, members of the board of education and university executives.

Capt. Miles to Talk
Speeches will be made by Governor Kraschel and other guests attending the function. The main speaker will be Capt. Frank Miles of the Iowa National Guard who will discuss "Americanism."

Governor Kraschel will present awards to students who have distinguished themselves in military during the academic year, as a major ceremony in the day's festivities.

Medals From Governor
The awards follow:
Best infantry company, company "G" — a streamer to the company; best engineer company, company "A" — a streamer to the company; "color company," company "A" engineers, a streamer to the company.

Best infantry squad, 1st squad, 3d platoon, company "A", a bronze medal to each member of the winning squad — Dwight Hunter of Iowa City, Irwin J. Miller of Evansville, Ind., Clarence J. Lang of Iowa City; Lester L. Pike of Nicholas, Howard J. Wiebener of Durant, Arthur J. Bellaire of Sioux City, James A. Butch of Owatonna, Minn., Lloyd C. Larson of Van Hornie.

Best Engineer
Best engineer squad, 3d squad, 1st platoon, company "A", a bronze medal to each member of the winning squad — Harold M. Gibbons of Burlington, Robert W. Sebastian of Chicago, Ralph J. Arnold of St. Louis, Harry Greenspan of New York, Richard D. Borgstadt of Muscatine, Harry L. Cuthbert of Upper Darby, Pa., Leon Franklin of Bonaparte, George C. Fewson of Clarinda.

Best company commander, infantry unit, gold medal — George A. Walker of Council Bluffs; best company commander, engineer unit, gold medal — Edward P. Myers of Iowa City; best platoon commander, infantry unit, gold medal — George

Highway Safety Possible

Sufficient Public Opinion Would Start Action, Student Says in Broadcast

George Prichard, A2 of Onawa, presented the students' views on highway safety when interviewed by Don Davis on the Highway Safety program over WSUI at 7:15 last night.

"The present trouble is not that we don't know what to do about automobile accidents, but that we have not used what we do know," Prichard explained. "This country stands ready and willing to take precautions, but there must be some vigorous inspiration to get it in motion," he stated.

Prichard insisted that we need more articles like J. C. Furnas' "And Sudden Death" to arouse public opinion enough to get some concerted action. He pointed out that when disease claims too many victims each year, the country throws all its scientists, educators and law-enforcing officials into the struggle until the death rate is cut down.

The national safety council has pointed out that if we were to use all the knowledge at our command we could reduce traffic accidents 50 per cent in an amazingly short time," he said by way of showing we had the tools. "Myriad before-and-after studies of street and highway intersections tell the same story: traffic engineering saves lives."

Among the more obvious remedies which would reduce the death toll is a more severe punishment of drunken driving, for "Statistics tell us 17 per cent of

all motor vehicle accidents that occur in Iowa are caused by people who have been drinking. I firmly contend that more stringent and comprehensive laws should be set up for the punishment of those driving while under the influence of liquor," he asserted.

Another obvious abuse is letting youthful and inexperienced drivers handle cars, and this should be taken care of by a national minimum driving age law if necessary.

"At least six states have no minimum driving age, so that a child can legally jump from his kiddie car to the wheel of a 100 horsepower auto and drive it through a crowded thoroughfare," contended Prichard. He crusaded for more public action, because: "When in a city of 200,000 people, 40,000 tickets of traffic offenders are fixed through political influence each year, it cannot be said that we have seriously come to grips with the problem."

"The tools are at hand; the job calls for unstinting cooperation of every public official; of every school teacher; of every police officer; and it calls for the conscientious acceptance by every individual of his personal responsibility to drive safely," Prichard concluded.

The Highway Safety program is broadcast every Friday night at 7:15, and is sponsored by the local Iota of the Forty and Eight.

Senior Students Accept Positions With Companies

Two senior mechanical engineering students have accepted positions and will begin work soon after graduation.

Russell W. Lortz, E4 of Millersburg, will spend a year in the training department of the General Electric company, Schenectady, N. Y., and will then be assigned to a specific engineering position.

Vernon H. Jungjohann, E4 of Davenport, will begin work July 13 in the designing engineering of camera works department of the Eastman Kodak company, Rochester, N. Y.

Preview College and Life Are Book's Subjects

Dean-Emeritus Carl E. Seashore, for 41 years connected with the psychology department of the University of Iowa, has combined his letters to college students in a single publication, "A Preview to College and Life."

This volume, the 55th in the series on aims and progress of research, will prove valuable to college students and prospective students, and to parents, counselors, deans and personnel officers. It is a handbook of guidance for those who are wondering what college life is all about and what, at its best, it may hope to achieve."

In the preface to this collection you sleep was demonstrated by P. A. Loyet, technical director of WHO, Des Moines. Instead of projecting on a screen as in television, however, the light waves are projected on a film-like paper for perusal at leisure.

The conference opened yesterday at 10 a. m. with Charles Quentin, technical director of station WMT, Cedar Rapids, talking on "Practical Considerations in Broadcast Studio Design." Frank Davis, engineer of Collins Radio company, Cedar Rapids, also spoke on "The Development of Speech Input Equipment."

of letters, Dean George D. Stoddard of the graduate college says, "Dean Seashore's observations, at once subtle and friendly, are presented with a clearness and vigor of special appeal to college youth. Everywhere the reader is struck by the felicitous word and the revealing anecdote."

Republicans To Have Meeting

Walker Hanna of Burlington, first district committeeman, will preside at a republican rally for southeastern Iowa at 7:30 p. m. Thursday in the courtroom of the Johnson county courthouse, County Chairman Robert Larson said yesterday.

Candidates in the republican primary will be invited to speak at the meeting.

SCRAMBLED Trailer Upsets, Spilling Load of Eggs

Estimated damage of \$25 kept the trailer truck driven by Harry Weinberg, Deerfield, Wis., in Iowa City for repairs after the trailer carrying 210 cases of eggs upset on Burlington street between Johnson and Van Buren streets at 7:45 a. m. yesterday.

Neither Weinberg nor his companion, John F. Mackay, Chicago, were injured, but most of the egg shipment was destroyed.

Weinberg told officers the motor stopped as the truck was climbing the hill thus throwing the brakes on the trailer out of commission. In backing down the hill for a fresh start, the trailer "jackknifed" and rolled over on one side. The truck didn't turn over.

The truckers were enroute from Baxter to Chicago.

Blacks and Golds to Clash Today

Annual Intra-Squad Football Tilt to Start at 3:15 on Practice Field East of Iowa Stadium

Fans Invited to a Preview Of 1938 Season's Prospects

Table with columns for BLACKS and GOLDS, listing names like Ernie Nevers, Pat Boland, Coach SMITH, LE NORGAARD, etc.

By G. K. HODENFIELD Daily Iowan Sports Editor

A civil war that promises to be more bitterly fought than any battle of the famous Martin and McCoy feud will start at 3:15 this afternoon with the opening whistle for the intra-squad football game between the Golds and the Blacks.

The annual game, climax of the spring drills and marking the last time the team will be in action until next fall, will be witnessed by University of Iowa fans from all over the state as well as the students on the campus. With no admission price being charged and accommodations being made for over 3,000 fans around the practice field directly east of the stadium, prospects for a large crowd are very high.

Game Starts Yesterday's drill was confined to limbering up exercises and checking out uniforms for the game. The numbers that the men will wear in today's game will be the same ones they will don next year for the regular games on the schedule.

The Blacks, under the direction of Ernie Nevers, Hawkeye backfield coach, and the Golds, who have been working out under the tutelage of Line Coach Pat Boland, will enter the fray on nearly even terms. Several weeks ago the squad was divided into two equal groups of 28 men each and since that time both teams have been pointing for the game.

Much of the interest in today's game will be centered on the freshmen who will be ready for varsity berths next fall. Mike Enich of Boone, Otto Huebner of Glenwood, Jerry Niles of Clinton, Ray Murphy of Des Moines, Ken Pettit of Logan, Iowa City's own Jens Norgaard and Ham Snider and Jack Edling of Moorhead, Minn., will be some of the players who will have a great deal to say about the fortunes of the Hawkeye grid team next fall.

For the only time during the year, Coach Irl Tubbs will find himself in a neutral position as his two assistants manage both teams and make all the substitutions.

Several major letter-winners of last year's team will not take part in the game. Nile Kinnick, all-conference quarterback, and Erwin Prasse, substitute end, will not be in the fray as Kinnick is devoting his time to his studies and Prasse is working for his third major I of the year with the baseball team. Bill Gallagher of last year's team injured his ankle in a recent scrimmage and will watch the game from the sidelines.

Coach Tubbs is having motion pictures made of the game today to make sure that mistakes that might crop out in today's battle will not occur when the regular season starts next fall.

Today's Hurlers NEW YORK, (AP)—Probable pitchers in the major leagues (season won-lost records in parentheses): American Philadelphia at New York; Ross (2-1) vs. Donald (0-1). Chicago at Cleveland; Dietrich (1-2) vs. Whitehill (2-0). St. Louis at Detroit; Hildebrand (0-3) vs. Auker (3-3). Washington at Boston; Leonard (3-2) vs. Ostermuer (2-0).

National New York at Philadelphia; Schumacher (2-1) vs. Walters (2-3). Boston at Brooklyn; Turner (2-2) vs. Fitzsimmons (1-1) or Pressnell (3-1). Cincinnati at St. Louis; Hollingsworth (2-0) vs. Macion (0-3). Pittsburgh at Chicago; Tobin (2-2) vs. Lee (1-2).

Baron von Cramm On Trial Today For 'Moral Delinquency'

BERLIN, May 13 (AP)—Handsome, slender Baron Gottfried von Cramm, for years the idol of the tennis world, faces trial tomorrow in the grim Moabit criminal court on a moral delinquency charge. The 28-year-old baron, who is regarded as the world's second best amateur tennis player, has been held at Moabit prison since March 7. He was arrested three days earlier on a train between Munich and Hanover as he was returning home from a six month's world tennis tour.

Exact charges against von Cramm have not been disclosed, but it has become known that his case comes under article 175 of the criminal code, bearing on morals offenses.

Reports that he had spoken impudently about the Nazi regime while abroad could not be confirmed.

Bob Christians First in Swim

Bill Tesla Finishes In 2nd Place Behind Iowa Captain

Before a large crowd of spectators that lined the banks of the Iowa river and stood on the Iowa avenue bridge, Bob Christians, captain of the Iowa swimming team, yesterday afternoon nosed out sophomore Bill Tesla by a few yards to win the annual river swim in the fast time of 18 minutes, 15 seconds, only 12 seconds slower than the all-time record hung up by Bruce Grove in the high water of 1932.

Starting at the island above the park bridge, 13 contestants began the grueling swim in the cold and muddy waters at about 5 o'clock. A canoe accompanied each swimmer.

The field was soon strung out, with Tesla and Christians maintaining a neck-and-neck pace in front of the others for the entire race. Tesla pulled up even at the boathouse but Christians had regained his lead by the foot bridge and held it till the finish line at the Iowa avenue bridge.

Other Positions Ahlgren finished third with Gerber fourth, Draves fifth, Bremer sixth, Sweitzer seventh, Clark eighth, Lowry ninth, Sebastian 10th, Poulos 11th, followed by Brown and Coulter. The first 10 men will receive trophies or medals at the sports dinner Tuesday night.

Every type of stroke was employed as the swimmers shifted from one to another to give rest to tired, overworked muscles. Christians varied his smooth crawl stroke with the backstroke, as did Tesla and Ahlgren. A number resorted to the breaststroke to give them the much-needed breathing spell and even this proved hard to get due to the choppy condition of the water.

Canoe Race Today The interfraternity canoe race will get under way from the park avenue bridge at 2 o'clock this afternoon and the contestants will paddle their course to the Iowa avenue bridge which marks the finish line.

Fraternities are eligible to enter three canoes each and each canoe will be manned by two men. Last year the first place trophy went to Phi Epsilon Kappa paddlers who upheld the succession of the athletic fraternity's wins for the past three years. The winning canoe was paddled by Ray Walters and Bob Reed.

The all-university canoe race will take place on Monday afternoon at 5:30 and all entries for this event will be taken at the bridge just before the start of the race.

Gophers Rally To Conquer Wildcats

MINNEAPOLIS, May 13 (AP)—Timely hitting and wild pitching in the last of the ninth produced an 8 to 7 Western conference baseball victory for Minnesota over Northwestern on a rain-drenched diamond today.

Northwestern 100 300 300—7 9 3 Minnesota .000 000 000—8 10 7 Syring, Kaufman and Keepen, Schultz, Sowa and Siedeberg.

War Admiral

War Admiral, shown above, who is favored to run Sea Biscuit when these two great thoroughbreds meet Memorial Day at Belmont park, has been flashing superb form in pre-race workouts.

Hawk Thinclads Engage Gophers At Minneapolis

The University of Iowa's well balanced track team is expected to be more than a match for an improved Minnesota team in the concluding dual meet of the season at Minneapolis this afternoon.

The Hawkeyes have a string of victories over the Gophers stretching from 1922, and although figured as winners in five departments, Minnesota is again the underdog. Iowa will find its main strength in the track events, but can count on victories and points by co-captain Bush Lamb in the javelin and broad jump, and Merrill Harkness in the discus throw.

Leading the Hawkeye assault will be Lamb, whose real specialty is the high hurdle race. Sophomore John Collinge may beat Lamb to the tape in his favorite department. Last week Collinge scored his third high hurdles victory over his team mate during the outdoor season when he outbounded Wisconsin's Fred Smith.

Carl Teufel, Big Ten indoor quarter mile champion, and Milton Billig, holder of the state quarter mile championship, should lead in making that event a one, two, three affair for Iowa. Minnesota's lack of quarter milers should make it unnecessary to use the Kansas relays championship mile relay team.

John Graves has returned to the half mile, where, with Co-Captain Jimmy Lyle, he will in all probability put the half mile on the credit side of the Iowa score sheet.

In the 220-yard low hurdles Fred Teufel is favored for an Iowa victory, and in the dash Teufel can be expected to make it a close race.

Minnesota's greatest strength is in the shot put, broad jump and pole vault where Iowa will have Dale Roberts doing the vaulting and Wilbur Nead and Bill Leuz putting the shot.

Wolverine Pitcher Blanks Ohio State

ANN ARBOR, Mich., May 13 (AP)—Southpaw Herman Fishman pitched shutout baseball today as Michigan defeated Ohio State, 6 to 0, to score its second Big Ten victory of the season.

Fishman yielded five hits, struck out seven and issued three walks while his teammates collected eight hits off Mark Kilmer, Ohio State .000 000 000—0 5 3 Michigan .103 000 20x—6 8 3 Kilmer and Wolfhorst; Fishman and Beebe.

Griffith in 16th Year as Commissioner

Speaker for Sports Dinner Originated Drake Relays in 1911

Thirty-six years ago, Young John L. Griffith one year out of college and director of athletics at an obscure South Dakota institution. Today, Maj. John L. Griffith in his sixteenth year as commissioner of athletics of the Western conference, president of the National Collegiate Athletic association, a man with an impressive record as a wartime and peacetime athletic administrator.

Those contrasts give some idea of the rise to positions of national prominence of the principal speaker at the all-university men's sports dinner next Tuesday night in the main lounge of Iowa Union.

Well Known in Iowa Born in Illinois, Major Griffith was educated at Beloit college in Wisconsin and after his graduation in 1902 served for three years as athletic director of Yankton college at Yankton, South Dakota.

For more than a dozen years he was closely identified with athletics in Iowa, first as coach of all teams and director of athletics at Morningside college in Sioux City, and between 1908 and 1918 at Drake university where he was coach and director of athletics, dean of men, and regent.

The Drake relay carnival, one of the nation's greatest track and field events, was founded by Griffith in 1911. About two years was passed in the service of the United States government. In August, 1917, he entered the army as athletic director at Camp Dodge, Des Moines, and soon was commissioned a captain. At Camp Dodge, Maj. Griffith had charge of organized recreation of some 30,000 men.

Included in his wartime work was service at Camp Gordon, aiding in the establishment of a school of physical training and bayonets; at Camp Pike in similar work, and at Washington as executive officer of the athletic division of training camp activities. In 1919, he won a major's commission.

His wartime work completed, Major Griffith went to the University of Illinois in 1919 as director of the coaching school, where he remained until appointed Big Ten athletic commissioner in 1922. With a rich background of experience in athletics, the all-sports dinner speaker is known as a forceful but entertaining talker, much in demand at important functions throughout the midwest.

Persons planning to attend the banquet are urged to purchase their tickets immediately in order that proper accommodations may be made. A deadline of Monday noon has been set for the sale of the tickets.

Tickets for the all-university sports dinner Tuesday night are on general sale to townspeople as well as students and faculty members. Tickets may be purchased at Whetstone's, Iowa Union, the Quadrangle office and the fieldhouse office.

CHICAGO, May 13 (AP)—The Pittsburgh Pirates pushed their three runs across in the tenth inning today to whip the Cubs 4 to 1. The Cubs' only run was tallied by Tony Lazzeri's fifth homer of the year, in the second inning.

NEW YORK, May 13 (AP)—Connie Mack shook up his woeful Athletics lineup for their 1938 debut in Yankee stadium, and the revamped set-up clicked for an 8 to 6 victory over the Yankees.

Badgers Rally In Eighth; Nip Hawkeys, 3-2

Bill Vogt Leads Iowa's Attack With Two For Three

MADISON, Wis., May 13 (AP)—An eighth inning rally which netted three runs enabled the University of Wisconsin baseball team to defeat the University of Iowa today, 4 to 3.

Iowa scored twice in the sixth to take a 2 to 1 lead. Opening the Badger eighth, D'Orazio hit a pinch single. Dismier flied to left, scoring Demark, who ran for D'Orazio. Bietila and Gerlach walked. A Smith singled to left, scoring both.

Bob Henrichs, Wisconsin pitcher, struck out eight and walked one. Smith led the offense with two singles. Bill Vogt led the Hawkeys with a double and single in three trips. Haub of Iowa pitched well except for two bad innings. He walked five. Good fielding aided both nines; with Gerlach starting for Wisconsin.

Prof. Newburn Lists Program For Graduation

Names Dates of U. High Baccalaureate And Commencement

Programs for University high school's baccalaureate and commencement services were completed yesterday by Prof. Harry K. Newburn, principal.

The baccalaureate program, at 4 p.m. May 29 in the dramatic arts building is as follows: professional, "Triumphal March" by Grieg, played by the high school orchestra; invocation, Rev. Robert H. Hamill; chorus, "Lift Thine Eyes," by Mendelssohn, sung by the girls' vocal ensemble.

Scripture and prayer, the Rev. Ilton T. Jones; violin solo, "Air Varié" by Reiding, played by Betty Ellett; "Minuet" from "Quintet in C Major" by Mozart, played by the string ensemble; sermon, the Rev. Ilton T. Jones; benediction, the Rev. Robert H. Hamill, and recessional, "March Pontificale" by Gounod, played by the high school orchestra.

The commencement program at 8 p.m. May 31 in the dramatic arts building, will be: professional, "Triumphal March" by Grieg, high school orchestra; invocation, the Rev. Richard E. McEvoy; "Les Berceux" by Mendelssohn, and "Now May Again," girls' chorus.

Address, Prof. Forest C. Ensign; clarinet solo, "Clarinet Concerto, second movement, opus 107" by Mozart, played by Louis Ward; presentation of diplomas; benediction, the Rev. Richard E. McEvoy, and recessional, "March Pontificale" by Gounod, high school orchestra.

PERSONALS

Mrs. Julia Hook of Des Moines is spending a few days at the home of her son and daughter-in-law, Mr. and Mrs. Harry Hook, 209 Kirkwood avenue.

Mrs. Rena Thomason, her son, Ralph, and her daughter, Genevieve, 216 Kirkwood avenue, and Dorothy Miller, 811 Orchard street, visited Thursday at the home of Mr. and Mrs. Eli Holliday in Conesville.

Mr. and Mrs. Frederick Goodson Higbee Jr. of Kankakee, Ill., visited Mr. Higbee's parents, Prof. and Mrs. F. G. Higbee, 320 Ronalds street, last week end.

Guests of Prof. and Mrs. J. Van der Zee, 130 Person avenue, this week end will be Mrs. Van der Zee's mother, Mrs. Addie McKnight, and Flo Norton, both of Marengo, who have been wintering in California.

Zae Hayes, 20 S. Lucas street, left Thursday for a two week's vacation at Cedar Crest, a resort in Albuquerque, N. Mex. She will visit Gertrude Wright, who lived in Iowa City until about five years ago.

Attorney and Mrs. Burke N. Carson, 906 E. College street, will return today from a visit of several days in Chicago.

Dr. Robert J. Prentiss, 235 Koser avenue, returned last night from Des Moines, where he has been attending the state medical convention.

Genevieve Thomason, 216 Kirkwood avenue, and Dorothy Miller, 811 Orchard street, are spending the week end at the home of Lemar Foster in West Branch.

Mrs. Gilmore To Give Party

Will Entertain Raphael Club at Luncheon; 22 Expected

Mrs. Eugene A. Gilmore will entertain the Raphael club at its annual luncheon Monday. The party will be at 1 p.m. in Mrs. Gilmore's home, 102 E. Church street.

Twenty-two members are expected to be present at the luncheon.

The Raphael club is a literary group, one of the oldest clubs in Iowa City. Its president is Mrs. Edward Bartow, 304 Brown street.

City to Honor Official Today

President and Mrs. Eugene A. Gilmore will entertain informally this afternoon at a tea in honor of Governor and Mrs. Nelson G. Kraschel. The affair will be in the Gilmore's home, 102 E. Church street, after the Governor's day luncheon this noon in Iowa Union.

Another guest of honor will be Gen. Campbell B. Hodges of Ft. Snelling. Present at the tea will be Col. and Mrs. George F. N. Dailey and the faculty members of the military department and their wives.

Colonel and Mrs. Dailey will entertain at a 7 o'clock dinner this evening in their home, 223 S. Johnson street, in honor of visiting officers. President and Mrs. Gilmore will also be among the 20 guests.

Club Re-Elects Mrs. D. Gatens As President

Mrs. Dan J. Gatens was re-elected president of the St. Thomas Aquinas club yesterday afternoon at the home of Kate Donovan, 408 S. Summit street. It was the last meeting until September.

Mrs. P. A. Dooley, secretary, and Mrs. Thomas Kelley, press correspondent, are the other new officers.

Prof. Mott, Others Attend Meeting Of Journalism Society

Prof. Frank L. Mott, director of the school of journalism, Prof. Edward F. Mason and Earl English, also of the school of journalism, will return this afternoon after attending a convention in Des Moines.

The West Central Region of the American Association of Teachers of Journalism met to discuss plans for the association, problems of administration and policy for schools of journalism and teaching techniques.

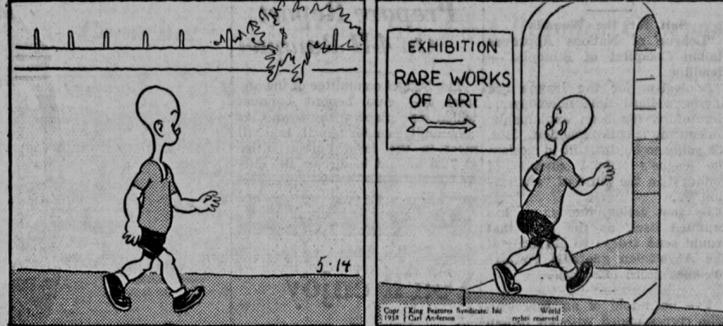

Professor Mason is regional director of the association and Professor Mott will lead a round table discussion this morning on "Teaching the History of Journalism."

The West Central region includes North and South Dakota, Wisconsin, Kansas, Iowa, Missouri, Minnesota and Nebraska.

Judges Will Select Winners of Poppy Day Poster Contest

Judges will select the prize-winning posters in the Poppy day poster contest, sponsored by the American Legion auxiliary, this morning in the Community building. Each school will choose one judge to represent it in the contest.

Prizes will be awarded in three groups, fourth, fifth and sixth grades, seventh, eighth and ninth grades and 10th, 11th and 12th grades.

The winning posters will be sent to the state legion auxiliary convention to be held later in the summer.

Those With Changes Of Address, Party Must Register Soon

Iowa Citizens who plan to vote at the June 6 primaries and have changed ward or precinct addresses since the last election or wish to alter party affiliations, have until May 26 to register changes, according to County Auditor Ed Sulek.

Registration can be made at County Clerk R. N. Miller's office. Party affiliations can be changed at the polls, also.

Judge Evans Grants Waldbauer Divorce

Louis J. Waldbauer was granted a divorce yesterday from Mrs. I. Jocelyn Patton Waldbauer by Judge Harold D. Evans. The judge awarded Mrs. Waldbauer custody of two children, and Waldbauer is to pay \$25 a month for the support of each child.

New Stamp Issued

A new airmail stamp commemorating National Airmail week, May 15 to 21, will go on sale at all post offices tomorrow morning.

TODAY'S CLUBS

Rainbow girls, Masonic temple, 1:30.

Delta Gamma alumnae, seniors, Mrs. Earl Weidner, east of Iowa City, noon.

Pilgrim chapter, D.A.R., Delvena, Vera and Louise Anderson, 521 S. Lucas street, 2:30.

Going Up Vehicle Registration Increases 141

Motorists have registered 141 more passenger cars and trucks in Johnson county than were licensed in the same period last year, County Treasurer W. E. Smith said yesterday.

Since registration began, 8,548 cars and 1,189 trucks have been licensed. Records for a year ago show 8,409 cars and 1,117 trucks registered.

During April 129 new cars and trucks were registered in the county treasurer's office.

Prof. Everet Lindquist to Speak At University High Honor Event

Annual Banquet Fetes 35 Students Chosen By Council

Prof. Evert P. Lindquist of the college of education, will be guest speaker at the University high school honor banquet at 6:30 this evening in the school cafeteria. The annual banquet will fete 35 students ranging from freshman to senior grades.

Senior students who will attend are Eleanor Colony, Barbara Kent, Robert Carson, Bruce Blackstone, Hamilton Ries, George Miller, Reva Wilson, Richard Neff, Donald Spencer, Charles Robbins, Mary C. Kuefer, and Dorothy Welt.

Juniors are John Mattill, Paul Bordwell, Wilma Lee Hudson, Bill Boiler, Duane Carson, Irene Waters, Louise Warren, Kathryn Barr, and Priscilla Pollock.

Sophomores are Genevieve Slemmons, Helen Beye, Cyrus Beye, Henry Pelzer, Janet Kurtz, Owen Morgan, Betty Beer, Joe Bodine, Mary Lou Rutledge, and Kathryn Hahn.

Freshmen are Arthur Heusinkveld, Mary Ann Kurtz, Bruce Adams, and Helen Pollock.

The honor students were selected by student council on a scholarship, character and citizenship basis.

Prof. Thomas J. Kirby and Prof. Harry K. Newbirt will also speak.

Eureka Lodge Meets Tuesday At I.O.O.F. Hall

Iowa City Eureka lodge No. 44 of the I. O. O. F. will hold a regular business meeting at 7:30 p.m. Tuesday in Odd Fellow hall. The drill team, headed by John Frenzen, will perform, in preparation for the Cedar Rapids convention Thursday.

Mrs. Lippitt Fined \$1 by J. M. Kadlec

Mrs. R. Lippitt of Iowa City was fined \$1 yesterday by Justice of the Peace J. M. Kadlec on a charge of driving without a driver's license.

She was arrested on U.S. highway 6 by state highway patrolmen.

'Hell Divers' Aerial Show to Open Airmail Week

Planes will zoom and roar above the municipal airport tomorrow afternoon as the Hell Divers Air Show company thrills spectators at the official opening of Iowa City's observance of National Airmail week.

The aerial show, sponsored by the Roy L. Choepk post of the American Legion, is scheduled for 2:30 p.m. It will continue for two hours with four pilots of the troupe and local aviators participating in the various events.

The program will open with a parade through Iowa City's business district followed by a mile-high power dive. Many feats of skill and daring are in store for spectators as daredevil pilots guide their ships through breathtaking stunts. Balloon bursting, top wing riding, "crazy" flying, ribbon cutting and dog fighting are among the stunts performed.

One of the special features will be a parachute jump from an altitude of one mile. Another will be the handkerchief pick up with the wing tip of a plane traveling at 100 miles an hour.

As if stunts in the air aren't enough, one of the troupe will drive his speeding motorcycle through a flaming board wall. A few seconds later a speeding car will be bombed, and a ship with a dead motor will be stunted by one of the daredevils.

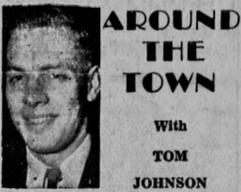

During the two hours of thrills six tickets for free airplane rides will be dropped over the crowd, and a wrist watch attached to a tiny parachute will be dropped for some lucky spectator.

E. H. Hamann is in charge of the touring pilots. The men appearing with the show are Archie Gieser, K. V. Benesh, Paul Millner, Red Lanctot, Al Fullerton and Jerry Worth.

R. Neilson Miller Issues Licenses

County Clerk R. Neilson Miller yesterday issued marriage licenses to two couples.

They were Albert Bisone, 29, and Genevieve Hogan, 27, both of Iowa City, and Bernard Mayhall, 25, and Esther Larson, 22, both of Galesburg, Ill.

AROUND THE TOWN
With **TOM JOHNSON**

Cyclone Cellar?

Fearful perhaps, of the heralded "recession," an increasing number of employed university graduates are pondering this month whether to return to school...

They feel that an additional year or two, spent working for an advanced degree, will help them in the future...

Then, too, the next few years may be dark... College life is inexpensive, and one can always be S. A. T. C. — safe at the college...

I'm Neutral, Too!

Despite my attempt to sprinkle the political wisecracks on each side of the fence, look what turns up:

R. C. F., chairman of the republican city central committee, writes to Merle Miller and forwards a copy of the letter to me...

"I see that you are still harping on the old theme of quoting Mr. Hoover as saying that grass would grow on American streets if Roosevelt were made president..."

"The papers at the time did not quote him as saying that, and the erroneous report has been denied again and again..."

"The correct version appears in Mr. Hoover's book entitled 'Campaign Speeches of 1932'... On page 182 he declared himself as follows:

"The grass will grow in streets of a hundred cities, a thousand towns; the weeds will overrun the fields of millions of farms if that protection be taken away. Their churches and schoolhouses will decay..."

"The context proves clearly that the protection referred to is that of the protective tariff which the democratic platform of 1932 proposed to modify..."

"It is obvious that this is quite a different thing from the way in which... people quote Mr. Hoover..."

"If the present 'recession' continues long enough, it is possible that what Mr. Hoover is represented as saying may still prove true, but the fact remains that that is not what he said..."

Thank you, Mr. Chairman, for your comments. Yet, in such matters we must proceed armed with a sense of humor...

Any statement made by a political figure will be held against him — if possible. Enemies are willing to "bounce it back."

That is why we agree with the poet, who scribbled, "Consistency — thou art a jewel." It's best to stay on one side of the fence. Otherwise, we're liable to rip our trousers clambering over...

While Mr. Hoover may not have intended his remark as a blanket prediction, it certainly has been construed as such... Conse-

quently, we think he's a poor prognosticator.

You perhaps remember a statement made by President Roosevelt in 1936, concerning the financial, business and economic status of the country—which he characterized as "Excellent... and improving." He was proud of it... proud of the work of the new deal. Consequently:

"This condition," said the president, "did not merely 'come about.' It was achieved by planning!"

Now, Mr. Chairman, you mention a "recession." Isn't it easy to see why many anti-new dealers today are glancing at the state of the nation and inquiring gleefully: "Is this 'planned,' Mr. President?"

Salt for the Wounds

"League of Nations Approves Italian Conquest of Ethiopia!"—Headline...

Apologists for the league are having a hard time nowadays... Heretofore, it's been explainable. I mean the league's inaction. But, it's going to be difficult to explain the league's official sanction of conquest in the guise of "civilization..."

By that action, the league has branded itself as the type that would send troops to aid Italy if the Abyssinian guerrilla warfare becomes more effective...

I've been told of an American who corresponded with an Italian soldier in Ethiopia. A letter arrived, its contents telling of "glorious Italian victories," etc., etc.

But, they had pre-arranged to write the news on the envelope—and to cover it with postage stamps. Steaming them off, the American was amazed to read:

"We are starving and dying like flies."

There's been no letter since...

Girl Receives \$144 Judgment

Nancy James, Oxford, was awarded a \$144 judgment yesterday by Judge Harold D. Evans against the Knaus Trucking company. She asked \$2,000 for injuries received in a car-truck accident near Iowa City Jan. 3.

The case was filed yesterday. Both parties waived a jury case and Judge Evans heard the trial immediately. Attorney Harold W. Vestermark appeared for Miss James, and the law firm of Messer and Cahill represented the trucking company.

Junior Odd Fellows Meet Monday Night In Business Session

Iowa City Old Capitol Junior lodge No. 1, will meet for a regular business session at 7:30 p.m. Monday at Odd Fellow temple.

In addition to the discussion of routine business, plans will be completed for the drill exhibition at the Cedar Rapids jubilee Thursday. Eugene De Witt, chief ruler, will preside.

Ray S. Taylor Given 25 Years

Ray S. Taylor of Iowa City was sentenced to 25 years in Ft. Madison state penitentiary yesterday by Judge Harold D. Evans after pleading guilty to a county attorney's information charging a statutory offense.

Sheriff Don McComas took Taylor to Ft. Madison yesterday afternoon. He had been held in the Johnson county jail since his arrest Monday in lieu of a \$5,000 bond.

Committee Will Prepare Report On 4-H Banquet

The budget committee of the annual 4-H club benefit banquet which took place in the Iowa City community center April 18, will meet in the farm bureau office at 7:30 tonight to discuss the out-

S.U.I. READY FOR BANNER SUMMER

Forums Offered During Session

Peterson Will Be Leader Of 1st Discussion

Meetings to Be Held In Old Capitol On Wednesdays

Weekly campus forums open to the public will again be offered during the summer session in connection with the one-hour course in forum technique taught by Prof. Kirk H. Porter of the political science department.

As in previous years, the public forums will be held in Old Capitol each Wednesday at 3 p.m. during the six weeks' term of the summer session. The forum leaders, chosen from different fields of learning, are all members of the university faculty.

The procedure of the weekly forum hour includes the presentation of the subject by a leader followed by discussion by the group. Students enrolled in the course will supplement these public forums with class discussion of forum technique each Friday at 3 p.m. and attendance at university lectures and round tables.

These campus forums were originally a closed classroom project under the direction of Professor Porter, but continued public interest served to broaden their scope until they have been opened to the public as one of the prominent features of the annual summer session.

The University of Iowa forum schedule will open with a discussion on "The Federal Government and Public Education" by Prof. Elmer T. Peterson of the college of education, June 15. Other forums will include "Pressure Groups and Congress," Prof. Ethan Allen of the political science department, June 22; "The National Labor Relations Board," Prof. Karl E. Leib of the college of commerce, June 29.

"The Thirst of Dictatorship," Prof. George F. Robeson of the political science department, July 6; "Reciprocal Trade Agreement," Prof. Paul R. Olson of the college of commerce, July 13, and "Constitutional Obstacles to Social Progress," W. Willard Wirtz of the college of law, July 20.

New Site Aids Botany Studies

Summer session students will be among the first to take advantage of the new botanical laboratory, built to offer greater opportunities for research work and to serve as a "beauty spot" of the campus.

The finished structure, located west of psychopathic hospital, contains three parts—a plant physiology laboratory, a treehouse and a greenhouse. The building was designed by George L. Horner, university architect.

In addition to a room for fungus growths, provided with outdoor atmospheric conditions, the first floor of the botany building contains research rooms for students, offices, and a supply and service room.

Plant physiology study will be carried out on the second floor of the laboratory, where a large room, equipped with the latest apparatus, will be devoted to research.

The greenhouse, built entirely below the ground except for glass panes and rafters, providing the maximum amount of light, contains all the latest conveniences.

CALENDAR

Summer Session, 1938
June 11, Saturday—Registration begins, 8 a.m.
June 13, Monday—Classes begin, 7 a.m.
June 16, Thursday—Summer session assembly, 11 a.m.
June 18, Saturday—All-university reception.
Aug. 5, Friday—University convocation, 8 p.m.
Aug. 8 to Aug. 26—Independent study unit.

SOCIAL CALENDAR

Four Events Planned For Students

The 1938 summer session will not be without a social calendar, as four events are now scheduled for the eight-week session.

The all-university reception, honoring both faculty members and students, will be the evening of June 18 in Iowa Union. Dates have not been set yet for the annual summer session party, the all-university men's dinner and the all-university women's dinner.

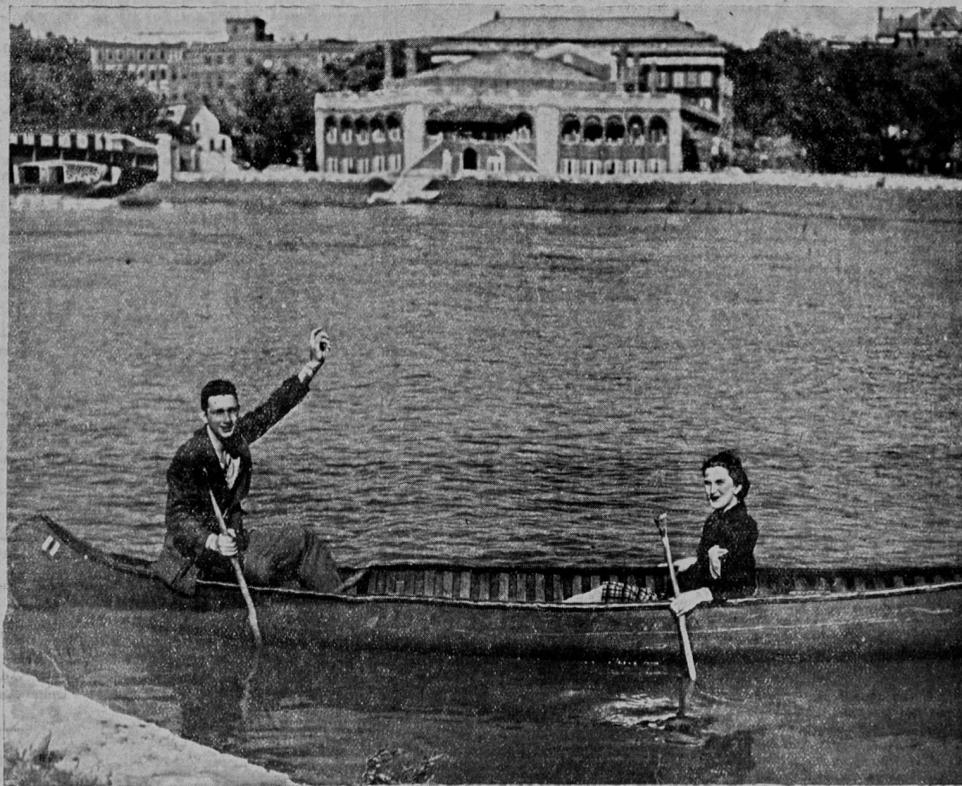

Stoddard Will Replace Travis

Will Assume Position As Psychology Dept. Head July 1

Dean George D. Stoddard will become head of the psychology department July 1, succeeding Prof. Lee E. Travis who resigned last January. Announcement of the appointment was made recently by President Eugene A. Gilmore.

Since 1929, the new department and a wave of the hand these university students start for a lazy trip down the beautiful Iowa river. Canoeing, like the Iowa

Canoeing and the Iowa River—A Popular Campus Tradition

"We're off!"—and with a smile and a wave of the hand these university students start for a lazy trip down the beautiful Iowa river. Canoeing, like the Iowa

river, is one of the most popular and historic traditions of the University of Iowa—especially with students of the summer session. If there's a better way to

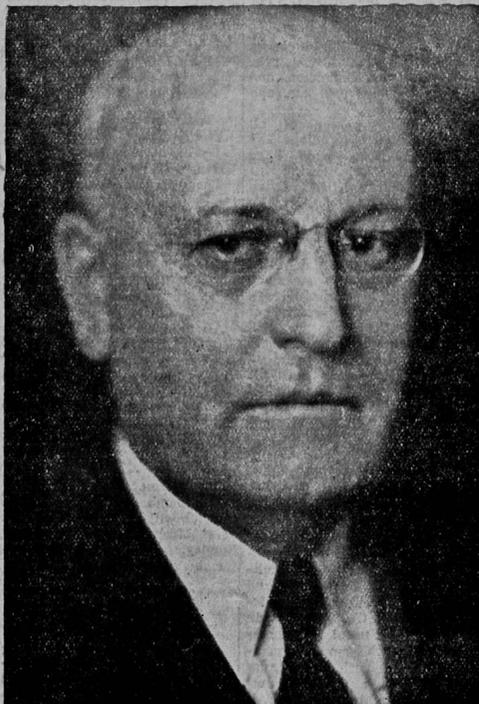

spend a hot summer afternoon than canoeing up the river and drifting placidly back down, these student's don't know about it. In the background is Iowa Union,

another popular Iowa tradition closely associated with the Iowa river. Summer as well as winter students and faculty meet at the Union for diversions of all kinds.

Photo by Ruth Weller

Theater Offers Variety in Summer Plays

Pres. Gilmore Greets Summer Students

Most sincerely I extend a cordial welcome to all students who are planning to attend the University of Iowa during the coming summer session.

Many of you will be on the campus for the first time, while many others will be returning to continue your work. To each and every one the university offers its hospitality.

This summer for the second year we are following the plan of study inaugurated last year: an eight weeks' formal teaching period followed by three weeks of informal and independent study.

As you prepare for the summer's study, I wish for you the fullest measure of satisfaction from your university pursuits.

E. A. GILMORE, President
State University of Iowa

Earle McGill, CBS Casting Director, To Offer Students Special Radio Work

Earle McGill of New York, casting director of the Columbia Broadcasting system, will offer University of Iowa students valuable training in connection with the speech department's radio courses for two weeks, beginning June 13.

One of the best known of radio directors today, McGill has been in charge of the American School of the Air and Brave New World for CBS, in addition to several other programs. This summer he and Prof. H. Clay Harshbarger of the speech department will work together in courses in speech in radio broadcasting and the radio program, its planning and construction.

McGill was formerly stage manager for Jed Harris, Broadway theatrical producer and will probably direct several programs over WSUI this summer. Professor Harshbarger was associated with him during his six months' study with CBS the first semester of the year.

Radio-minded students will be able to take work emphasizing all fields of radio—production, writing, news, education and the technical side, with opportunity for actual experience over WSUI.

Besides the speech department courses, work will be offered in the electrical engineering department, the school of journalism and the child welfare research station.

From 1918 to 1922 Mr. Alloo was associate conductor of the Cincinnati symphony orchestra. He was professor of music at the University of California from 1923 to 1934.

Mr. Alloo will act as instructor in brass instruments this summer and will appear as guest conductor with the university symphony orchestra. In addition, he will work with the percussion

ensembles for adult symphony will be held during the first five weeks of the session, while an adult band will rehearse during the last three weeks. All eight

weeks of the session will be used by the adult chorus.

From the second to the sixth week inclusive will be devoted to all-state groups, while Iowa City high school vocal and instrumental groups will rehearse all eight weeks of the session.

Outstanding visiting instructor in the department will be Modeste Alloo of Boston, guest conductor in America and Europe since 1934. A graduate of the Brussels Royal Conservatory of Music and the Verviers conservatory in Belgium, Mr. Alloo was professor of brass instruments at the Bruges conservatory in Belgium until 1910. He played first trombone in the Boston symphony orchestra from 1910 to 1918 and served as director of military music at Camp Devens during the World war.

Tentative Plans Call for Weekly Play Offerings

A wide variety of plays, ranging from the first American comedy to the newest dramas by university student playwrights, will be presented by University theater during the summer, Prof. E. C. Mabie, director, has announced. Tentative plans include a play a week, beginning June 20.

"Stage Door" by Edna Ferber and George Kaufman, Royall Tyler's "The Contrast" and "Richard of Bordeaux" by Gordon Daviot will be among the plays presented in the regular community series, according to present plans.

In the experimental theater, devoted to original plays by university students, will be a play on New Mexico by Marcus Bach. Others in the series will be selected from "The Gilded Prairie" by Warren Lee, "The Man Without a Party" by Myrl Bristol and "Johnny Appleseed" by Prof. Ellsworth P. Conkle.

William D. Coder, professor of dramatic art in the College of the Pacific in Stockton, Cal., will direct "The Contrast," the forerunner of American comedy dramas.

A comedy satire on manners of the time, it was first produced in the John Street theater in New York in 1787.

"Stage Door," which was given in the drawing room theater this year, will be given a full production this summer under the direction of Harry Darks Albright of Cornell university's speech department, a visiting staff member.

"Richard of Bordeaux" will be directed by Prof. Vance M. Morton. The play is a modern version of Shakespeare's history, "King Richard II."

Plans are also being made for programs of short plays during the summer. All-state high school speech students will also present a play, as yet unannounced.

Teachers to Meet
Teachers of physical education will meet at the annual health and physical education conference here during the early part of the summer session. Outstanding leaders in the field will speak and lead round tables in the two-day conference.

Nearly Completed
The new \$325,000 men's dormitory, Hillcrest, is nearing completion on the west campus. The new structure, located northeast of the Quadrangle and overlooking the Iowa river, will have its formal opening sometime in August.

AMERICAN PREFACES
S.U.I. Literary Magazine Will Continue
American Prefaces, university literary magazine, will continue publication during June and July under the editorship of Prof. Wilbur Schramm of the English department. The summer edition of the magazine will be twice as large as the regular number.

Professor Schramm will edit the magazine in Breadloaf, Vt., where he will teach during the summer in the Breadloaf summer school of English.

University to Operate Two-Fold Summer Session Program Again

Eight Weeks' Teaching Program Starting June 13 To Precede Three Weeks' Independent Study Unit; Registration June 11

With the beginning of the 39th summer session less than a month away, the University of Iowa is making final arrangements for welcoming the influx of summer students.

For the second year the university will operate under the two-fold program of a eight weeks' teaching unit followed by the three weeks' independent study unit.

Registration will begin June 11 at 8 a.m., and classes will start June 13 at 7 a.m. The three-week unit will extend from Aug. 8 to Aug. 26.

Students may enroll for courses in the colleges of liberal arts, education and commerce, the graduate college, the Iowa Lakeside laboratory, and the professional colleges of law, medicine and engineering.

A full schedule for the eight weeks will offer eight semester hours' credit. Graduate students, recommended by their major department heads, will enroll in the independent study unit for three semester hours' credit.

The climaxing event of the term will be the university convocation Aug. 5 at 8 p.m., when baccalaureate and advanced degrees will be awarded.

University officials are expecting a record enrollment. Last summer's net attendance was a total of 4,151 students, which included 2,470 graduate students and 1,681 undergraduates, representing 45 states and seven foreign countries.

A total of 406 degrees was conferred at last summer's convocation, the largest summer graduation ceremony in the university's history. Of these 230 were M.A. degrees, 43 M.S. degrees, 45 Ph.D. degrees, and 88 baccalaureate awards.

Since the first summer session in 1900, when 100 students enrolled, the growth in registration has been gradual but regular. Along with increased numbers of students have developed greater and greater number of courses.

S.U.I. to Offer Short Course For Policemen

More than 200 Iowa peace officers, chiefs of police, sheriffs and deputies will attend the short course for peace officers here July 11 to 16. The course was inaugurated on the University of Iowa campus last summer.

Prof. Rollin M. Perkins of the college of law will serve as administrative director.

The course will feature special demonstration laboratories showing the latest methods of scientific crime detection. In addition to one on poisons conducted by Dean Emeritus Wilber J. Teeters of the college of pharmacy, others on fingerprinting, ballistics, moulage casting and first aid will be given.

Dean Wiley B. Rutledge of the college of law and Prof. Mason Ladd and Professor Perkins will present several lectures. Dr. R. B. Gibson of the college of medicine will lecture on finding proof of alcohol, and Dr. Fred Jarvis of the college of medicine will speak and give demonstrations on first aid.

Attorney General John Mitchell, W. W. Akers, chief of the state bureau of investigation, and a special representative of J. Edgar Hoover, chief of the federal bureau of investigation, will discuss general problems with the group. Special sessions will meet to consider individual problems.

The course will offer training in pistol practice, and in addition to the practice range in the armory, arrangements will be made for an outdoor range.

Movies Offer Course in Visual Education Dept.

An organization for students interested in making motion pictures will be offered by the visual education department during the summer session, Lee Cochran, supervisor of the department, has announced.

Members of the group will have the opportunity to learn photography and the cutting and editing of films. The motion pictures will be in natural color and will consist of scenes in the laboratories and events of the summer session.

A series of 10 lecture demonstrations in visual education, starting June 28 and continuing until July 28, will also be included in the department's summer program. The lectures will be given every Tuesday and Thursday at 4 p.m. during this period.

The latest equipment of both sound and silent films will be demonstrated, and various forms of visual education will be presented by the department and by instructors from other departments in the university. At the first meeting, persons interested in the lectures will participate in a round-table discussion. Topics suggested at the meeting will be used for the following lectures.

SATURDAY, MAY 14, 1938

The University Summer Session

MANY STUDENTS will think it out of place to be speaking of a summer session before the regular school year has been concluded. Nevertheless, The Daily Iowan presents this morning a special edition devoted to that subject, confident that not even the approaching ordeal of final examinations will lessen appreciation of the opportunities of the university summer term.

The summer session, after all, has long since become an integral and very important part of the university schedule. No more is it a mere appendage. The old notion that the schooling process automatically ceases in June and hangs suspended until the following September has fallen completely into the discard.

That the summer term offers entertainment fully equal to that of the winter session, and in many ways far more enjoyable, would be surprising to those whose residence here has always ended the first day of June. But it is true. As for the advantages in education, one need only glance through the summer session catalogues or read this morning's Daily Iowan to find them.

Hitler and Mussolini have pledged eternal friendship. This is all very beautiful if one forgets that in a dictator's dictionary the definition of "eternal" means a period of time extending until at least day after tomorrow.

What Constitutes Judicial Reversal?

SECRETARY OF Agriculture Wallace has charged Chief Justice Hughes with reversing his position on an important point of legal procedure. Such an accusation is one which faces most judges some time during their careers.

The classic answer, of course, is that their position has not shifted but conditions have so changed as to make a reversal appear where none exists. Although perhaps Secretary Wallace would not admit it, we believe that this answer is applicable in the present controversy.

Briefly, Wallace charges that in 1936 the supreme court remanded a Kansas City livestock market commission rate case to a lower court with the statement that the validity of the hearing did not require the agriculture department examiner to give commission men a chance for rebuttal before ordering rates lowered.

This position was reversed, Wallace states, in a supreme court decision April 25 invalidating the rate reduction order on the grounds that commission men were not given the opportunity to rebut findings of fact made by the examiner.

Two years intervened between the two court decisions—years during which there sprang up in the administrative branch of government a whole flock of quasi-judicial agencies. It was to impress these agencies with the absolute necessity of maintaining judicial procedure and a judicial attitude that the court invalidated the Wallace order, even though two years previously it had decided that, while judicial methods would have been more satisfactory, the department had made a fair investigation without resorting to them.

It is apparent, then, that whatever change has been made by Hughes and the court has been a

change, not in position as charged by Wallace, but in degree of emphasis upon the necessity of quasi-judicial administrative bodies adopting judicial methods in making decisions.

We think that in this case the point is an important one; but, even so, we still would not regard it as a crime for any man, even a judge, to change his mind.

The R. O. T. C. On Review

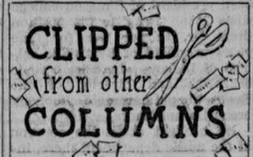

AN ARMY is mobilizing in Iowa City this morning. Scattered about in numerous dormitories, fraternities and rooming houses, men are sliding into knife-creased military trousers, administering a last-minute rub to already-immaculate brass and removing microscopic specks of dust from super-polished shoes—all in preparation for the Governor's day review.

There is little of war in their preparations, however, for today's review is not a war demonstration. It will not be viewed by a dictator or militarist, but by a state executive, an executive who will not measure worth in terms of flesh and blood or of potential charges and retreats.

So this morning the governor will look out over one of the most colorful bits of pageantry in the year's observance of university traditions. Men moving in unison, colors rippling, commands echoing out over the field, the crisp strains of martial music—all these the governor will see and hear. But we feel sure that he will see more than mere the eye.

We feel that he will see a job well done; months of drilling and detailed training faithfully completed. We hope above all that he will see—not soldiers at the back of Mars—but a display of clean-cut, coordinated manhood, trained and grounded in the essentials of discipline and order. That is what nations must depend upon in time of war, it is true. But it is even more true that this is the kind of purposeful manhood upon which the nation and the state must depend in time of peace.

The approach of the annual international 500-mile auto race in Indianapolis should serve as a reminder to all Sunday drivers that the speed championship was never won by any of them.

CLOUD-TOPPED TOWERS

Big cities in the United States are having a lot of trouble because the average height of their buildings has increased, whereas the average width of their streets has not. There is vastly more floor area but not much more street area. Traffic congestion is a result. This congestion consists almost wholly of motor vehicles, but it is a mistake to blame the motor car for it. Going back to the horse and buggy would make it worse, since a horse takes up far more room than an automobile engine in proportion to its hauling power, and gets over the ground at a far slower gait.

It we are to continue having tall cities they will probably have to be provided with tall streets—that is, streets with more than one level. We already have some. New York city's Park avenue viaduct, enfolding the Grand Central station, is an old example, the West Side highway a newer one. Dr. Miller McClintock, who has recently transferred his Bureau for Street Traffic Research from Harvard to Yale, predicts a separation of motor traffic from pedestrian traffic, the automobiles on what is now the street, the pedestrian strolling safely and serenely about one story up. One can imagine what a blessing this would seem to the shopper in midtown New York, the Loop district of Chicago or that part of Boston which lies between the Common and the Harbor.

It we wish to continue to concentrate the shopping, banking, wholesaling, bookkeeping, luxury manufacturing and amusements of hundreds of thousands of even millions of people in small areas, we shall probably have to make up our minds for double-decked or even many-decked streets. This means, however, that we will get less and less natural sunlight. There is, or used to be, a golden mean in all things. Elevated highways and sidewalks would make parts of the cities we have more livable. But if this is the only means we take to lessen congestion, the price will be more than the gain. Every urban area has its square miles of under-developed or blighted land. Congestion at one point often means neglect at another. If we were spread out a little more evenly, we wouldn't need to go to H. G. Wells for a pattern for our cities.

The cloud-topped towers of the "city of the future" are very pretty. But on a planet which still has so much vacant land they seem unnecessary. The best city planners will always be those who keep their feet on the ground. —The New York Times

NOT GOING TO BE SO EASY TO 'WHIFF' THIS TIME!

Proverbial Beliefs Regarding Tuberculosis Cure Repudiated

Once a week in this column will be printed a discussion of a medical superstition. Readers are invited to contribute.

By LOGAN CLENDENING, M.D. "There probably is no disease around which so many misleading statements have been made as about tuberculosis," says Dr. Bernard Hudson in the British Journal of Tuberculosis. He instances the following false proverbs:

"You should be cured in the place where you will have to live." This has a superficial air of common sense, but it is easy to see that the patient should be placed in those circumstances where healing can best take place. By "healing" is meant the formation of fibrous tissue and the shutting off of the diseased areas of the lung. There is no reason why a lung that has been healed in one part of the world should break down when a patient returns to another. Of course, it is true that people go to such climates as Colorado, and make a very rapid apparent recovery. They do not realize

that their cure is not complete, and when they do return to their own homes they are likely to break down again. "You can be cured just as well on a balcony at home as in a climate." If this applies to large industrial towns as well as country places, it is not true. The smoke-laden air of towns can hardly be compared with the pure, thin, invigorating air of a mountain climate. Economic considerations enter in, and it should be said that with rest and a nourishing diet there is hope for recovery anywhere, even though it be not an ideal climate. "You ought to go and sit about in the sun." People with tuberculosis of the lungs are frequently told that if they go to some sunny part of the world and lie about in the sun, they will be all right again. In some cases of tuberculosis, localized in the bones or joints, sunlight is beneficial, but in tuberculosis of the lungs, it is the general experience that sunlight does more harm than good.

Tuning In with Betty Harpel

Abbott and Costello, capering comers heard on Kate Smith's program, have their own reason for working without a script—at least Costello has. Abbott has always worked without one, but Costello, clung tenaciously to his. Even after he began memorizing his lines, he liked the comforting touch of the script in his hands. One day he got before the mike, ready to go, took a glance at the sheets and nearly lost his mind. In place of the clear typing, there was nothing but a jumble of odd Chinese characters. Abbott had taken the script down to a Chinese laundryman and had it translated for his friend. Now Costello doesn't dare put his trust in scripts.

Since Peter Van Steeden has been swapping banter with Fred Allen on "Town Hall Tonight," he has been surprised to find many queries in his mail as to how to become a radio comedian!

Jack Fulton's softball team, composed of members of his "Just Entertainment" cast, has started spring training. Between early and repeat broadcasts they work out on a diamond near the studios.

It's a funny thing, but as many times as many of the radio performers have been on the air they still show signs of nervousness when they are behind the mike. Gertrude Berg fusses with a rebellious lock of hair while reading "Molly's" lines on her "Goldbergs."

Nadine Connor fingers a ring on her right hand, letting go only on the high notes on her "Song Shop" programs. Genevieve Rowe is an inveterate gum chewer except when the time for her song on the Johnny Presents program comes round.

The Kidodlers are kept so busy picking up and laying down horns, sticks and gadgets to blow, hit and squeeze that they haven't time to show any signs of nervousness.

Nancy Kelly, the girl who graduated from the "Aunt Jenny's Real-Life Stories" program to a contract with 20th Century-Fox, arrived in Hollywood this week and is expected to get her first picture assignment in a few days.

Friday, May 20 10:00 a.m.—Annual Dental Seniors Lecture, Senate Chamber, Old Capitol. 10:00-12:00 m.; 3:00-6:00 p.m.—Concert program, Iowa Union Music Room. 3:00 p.m.—University Club Lawn Party, at the homes of Mrs. F. M. Dawson and Mrs. J. H. Scott. Saturday, May 21 10:00-12:00 m.; 3:00-6:00 p.m.—Concert program, Iowa Union Music Room. Sunday, May 22 2:30-5:30 p.m.; 6:30-9:30 p.m.—Concert program, Iowa Union Music Room. Monday, May 23 Examinations begin. 12:00 m.—A.F.L. Iowa Union. Tuesday, May 24 Examinations. 7:30 p.m.—Lecture, Professor Herbert Jasper, "Electrical Signs of Disordered Brains," Chemistry Auditorium. (For information regarding dates beyond this schedule, see reservations in the president's office, Old Capitol.)

General Notices

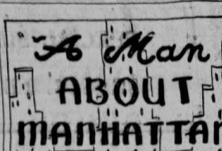

Coffee Hour Any university man or woman interested in serving on the coffee hour committee for the coming year will please turn in his or her name at the assistant dean of women's office this week. RUTH HOUSE Chairman of Coffee Hour Governor's Day Review At 10:30 a.m. on Saturday, May 14, 1938, the Honorable NELSON G. KRASCHEL, Governor of the State of Iowa, will review the cadet regiment on the field west of the armory. For this purpose, the University authorities have excused military students from attending all classes in the colleges of liberal arts, engineering, law, commerce, and pharmacy between 9:50 a.m. and noon on that date. For the information of all those spectators who might like to attend, arrangements have been made for the following signals. If the national flag is flying over Old Capitol on May 14, 1938, the review will take place as scheduled. But if there is no flag flying over Old Capitol at 10:00 a.m. on that day, there will be no review on the field, but an alternate ceremony will be held inside the armory, at which time the Governor will present certain medals and awards to members of the cadet regiment. However, regardless of the weather, all members of the cadet regiment will report to the armory in uniform for roll call at 10:05 a.m. on that day. COLONEL DAILEY Peace Council There will be a meeting of the peace council Tuesday, May 17, in the north conference room of Iowa Union. Results of the petition against compulsory military training will be discussed and plans made for pressing this issue throughout the summer. In addition to the usual representatives from each campus organization, anyone with a particular interest in the campaign against compulsory military training is urged to come. COMMITTEE Town Coeds Town Coeds will have a steak fry Monday at City park. All those planning to attend should leave their names and 10 cents at the office of the dean of women tomorrow or Friday. This is the last meeting of the year. Everyone going to the steak fry should meet in the recreation rooms, Currier hall at 6:30 p.m. Monday. ELIZABETH POWLER Chairman Cosmopolitan Club The scheduled meeting of the Cosmopolitan club for Sunday evening has been postponed until further notice. SECRETARY

Dolphin Picnic The annual Dolphin picnic will be Sunday, May 15, at 1:30 p.m. All of those who plan to attend should report to the pool before Friday. BOB LOWRY. Summer Vacation Employment Men and women, students or non-students, interested in earning three meals daily board during any part of the summer months, please register at the university employment bureau, old dental building, immediately. Most of these jobs, within university units, cafeterias, dormitories and hospitals, occur at the meal hours and are easily adaptable to class or employment schedules. LEE H. KANN Manager

Today in the Music Room The program to be presented today in the music room of Iowa Union will be as follows: The afternoon program from 4 to 6 o'clock will include Concerto No. 2 in D Minor, Wieniawski; Dolly Op. 58, Faure, and Faust-Ballet Music from Act 5, Gounod. UNION STAFF Graduate Theses Due All graduate students who expect to receive degrees at the June convocation should check in their theses at the graduate college office, room 116, University hall, not later than 5:00 p.m., May 23. GEORGE D. STODDARD Dean

Cosmopolitan Club The members of the cosmopolitan club will be the guests of Margaret Moehring, 1010 Woodlawn, Sunday, May 15, at 7 p.m. All members are welcome. SECRETARY Botany Club Dr. J. B. Cleland, professor of pathology, University of Adelaide, South Australia, will deliver an illustrated lecture on "Botanical Features of Australia," in room 314, pharmacy-botany building at 4 p.m. Monday, May 16. COMMITTEE

Notice to Graduate Students in History All candidates for higher degrees in history, majors and minors, will write the written examinations on Friday, May 20, in room 208, Schaeffer hall, from 9 to 12 a.m. and 1 to 5 p.m. W. T. ROOT. Mathematics Club The undergraduate mathematics club banquet will be held at Iowa Union on Wednesday, May 18, at 6 p.m. Those wishing to attend, kindly leave their names with Miss Smith in the mathematics-physiology office. LEO NORDQUIST, President

NEW YORK — The story of Veloz and Yolanda is one of the classic you-can-get-there-if-you-try-hard-enough tales of ballroom dancing. Ten years ago they were winning bronze medals at amateur contests. Then they got married, turned professional, and started after a little four-letter thing called FAME.

They danced in New York, and in Chicago, and in San Francisco. They danced in Kansas City, and in Detroit, and in Los Angeles. They began to see their names more frequently in newspapers. People began saying: "Have you seen Veloz and Yolanda? I wonder where she gets those gorgeous gowns. And how they dance!" Before they quite realized it that little-four letter word was trotting at their heels, saying "uncle."

Perhaps you read about the recital they gave in Carnegie Hall not long ago. People said it couldn't be done — successfully. Through 15 numbers, which represent, roughly, an hour and 15 minutes of continuous dancing, they waited and floated and swirled and glided to irresistible music, much of it written by Veloz himself. When the finale came the people were amazed. Why they had hardly gotten in their seats. It didn't seem possible that an evening had passed away.

"But wasn't it tough?" I asked Veloz, "I mean all that rehearsing work that must have been necessary?" That made Veloz laugh. "No," he said. "As a matter of fact, we didn't have a chance to rehearse. The hall was busy practically every night. But we were fortunate in having Pancho's orchestra to play for us. He knew all our numbers. He has played them for us frequently."

Here is an item about these two that may prove interesting. When I invited their suite at the Plaza I expected to enter an atmosphere of the dance world such as you would expect in the habitat of two such prominent figures. Instead, I encountered the casual confusion of a ping-pong table set up. . . There were pictures of race horses all over the walls, including all the big favorites and a couple of young horses, "Red" and "Yolanda," a filly, which they own.

Washington World

By CHARLES P. STEWART WASHINGTON, D. C. — Washington shortly is to start on another spree of government building.

Funds for this program hardly can be provided at the current session of congress but already it is agreed that more federal construction is urgently needed and the cash undoubtedly will be forthcoming at the next session.

The idea is that more office room for Uncle Sam not only is required but that the program will furnish a deal of employment. To be sure, the actual building will be concentrated in the capital but it is pointed out that the raw material for it will have to come from here, there and nearly everywhere throughout the country, creating jobs in all directions.

Nevertheless it does call attention to the fact that Uncle Samuel's demands for his government's accommodations appear to be well-nigh insatiable.

Illustratively, when I first saw Washington in 1915, the state, war and navy departments were housed in a single structure—the so-called State, War and Navy building. Today it is known as the State and War building. However, the state department occupies nearly the whole of it. The war department retains only a few offices. The bulk of its activities center in the Munitions building, a vast, much more newly built edifice. The navy department has been evicted entirely to quarters of its own, adjoining Munitions.

War-Time Expansion Of course the government expanded enormously in war-time and built furiously to shelter itself.

The Munitions and Navy buildings are pretty good pieces of workmanship. They are not ornamental but both are substantial, convenient and tolerably commodious. Plenty of other buildings (whole city blocks of them) consisted of little more than lath and plaster. Signs were plastered all over them, warning against smoking. They were not necessary. Any man who would have scratched a match in one of these shacks would do so in a powder magazine. Several of them did burn up and were gone before firemen could arrive.

10th All-State High School Music Courses Begin June 20th

Chorus, Band Orchestra Will Be Organized

Wide Program Open To Select Group From State

For the 10th consecutive year, three major courses—chorus, orchestra and band—will be offered to selected high school students from all parts of the state beginning June 20. The courses will provide a complete unit in the theory and practice of music.

In addition to training in the three large groups, which will also include boys' and girls' glee clubs in the vocal division, students may take advantage of group lessons, training in small ensembles, theory and appreciation classes, recitals, concerts, radio broadcasts and an extensive program of sports and recreation.

Prof. Charles B. Righter, director of the University of Iowa band, will be in charge of the orchestra; Prof. Herald Stark, director of the university chorus, will conduct the all-state high school chorus, and Paul C. Dawson, director of instrumental music at Thomas Jefferson high school in Council Bluffs, will direct the band.

Eligibility
Any high school student or high school graduate of 1938 with musicianship and performing qualifications is eligible. Selections are made from recommendations submitted by school administrative officers and music instructors, with satisfactory scholarship, personal dependability and the ability to acceptably sing or play music of a medium grade of difficulty taken into consideration. Participation in a music contest is not a condition of membership.

Members of the all-state groups will be housed in university dormitories under the supervision of staff members of the music department. The boys will stay in the Quadrangle, with H. Charles Stump of Morgantown, Pa., as their supervisor. The girls will be housed in Eastlawn, with Ardith Larson of the Mediapolis public schools as their supervisor.

Daily rehearsals of the complete groups or sections will be held in all three groups. Schedules will be arranged so that students may participate in two of the groups. Sev-

eral class meetings each week will be devoted to theory and music appreciation. Students may register for individual instruction in both vocal and instrumental fields for additional fees.

Credit Extended
Undergraduate high school students will be awarded certificates showing the scope of their summer music work, which may be accepted by local schools as a basis for granting music credit.

Frequent public performances will be scheduled for each group and weekly solo and ensemble recitals will be held. Advanced performers will be chosen to participate in weekly radio broadcasts over radio station WSUI. Public concerts, also broadcast, will be given by the chorus, orchestra and band at regular intervals.

Sports and recreation will play an important part in the summer schedule. Supervised athletic programs, picnics and parties will be offered.

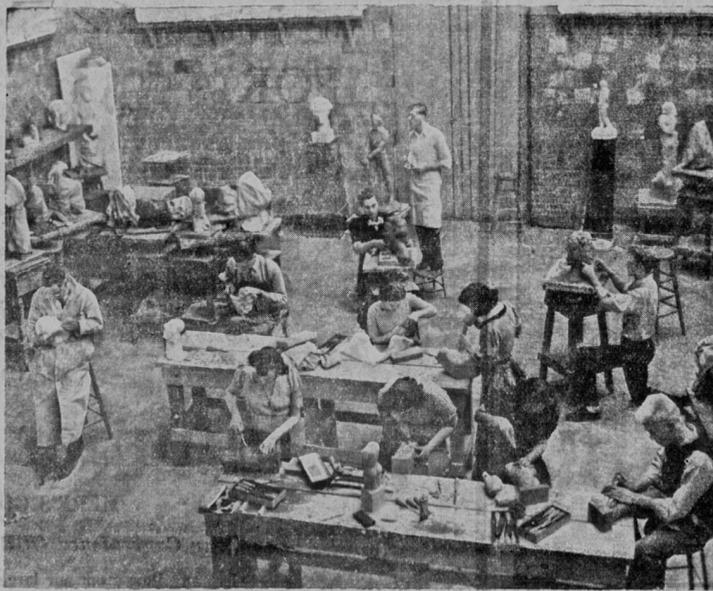

Faculty
Members of the regular winter faculty who will assist with the high school groups are Prof. Philip G. Clapp, head of the music department; Prof. Hans Muenzer, instructor in violin and chamber music; Prof. Anne Pierce, head of the music department of the university experimental schools; Professors Esther Swisher, Addison Alsbach and Howard Snyder of the piano and theoretical department; Thomas Muir, voice instructor; Himie Voxman, woodwind instructor, and Professor Stark and Professor Righter.

Visiting lecturers will include Modeste Alloo, prominent conductor in both Europe and America, who will handle brass and percussion instruction; Harold Cerny of Kearney, Neb., violin; Mr. Stump and T. C. Collins of Davenport, woodwind; Miss Larson and Margaret Brandt, G of Hastings, Neb., voice; Marianne Witschi, a graduate of the university who has been studying in New York, violin, and Dr. Dawson, brass.

Full Schedule
A full program of courses will be offered by the eight divisions of the chemistry department this summer. Work is planned so that the regular sequence of work in the academic year may be followed.

Delegates representing 600 villages in which 200,000 Mixtex Indians live, plan to assemble at Tlaxiaco, Oaxaca, to discuss the tribe's problems.

Students at Work in the Sculpture Studio

For students interested in the university's graphic and plastic arts department will prove a popular division of the university.

Here a class in sculpture is in session in the fine arts building. The students are doing work in varied fields of activity—modeling in

clay, wood-carving and plaster of paris castings. Harry E. Stinson will instruct sculpturing classes.

A Way to Spend Leisure Time

Book ends, leather billfolds, metal plates, ash trays and puppets are among the things that the classes in handcraft will make in the women's physical education department this summer. Here a student is showing a selection of

the objects done for class. During the summer special emphasis will be placed on craft projects as adapted to school, club and community center activities, camp and playground programs and for personal hobbies.

Professor Dony Of Belgium To Teach French

The only new member of the Romance languages department staff during the summer session will be Prof. Francoise Dony of the University of Brussels, Belgium. Prof. C. E. Cousins, in charge of the department during the period, has announced.

Professor Dony will teach a course in contemporary European drama. In this course students will translate Eugene O'Neill's "The Great God Brown" and study French style through other translations.

Summer session students may also take a full-year course in either elementary or second-year French in the eight-week period. Courses in French phonetics will also be available. Catherine Miller of the department will be in charge of the phonetics classes which will have access to the use of the new phonetics laboratory. The Romance languages department will also offer courses in Spanish on the same basis as the first and second year courses in French—a year in eight week.

Graduate Work In Physical Ed. Will Be Given

For students interested in doing advanced work in health and physical education, an extensive program of courses in both the men's and women's physical education departments will be presented this summer.

The University of Iowa, one of the first schools in the country to offer graduate work in physical education, offers many graduate courses, leading toward specialization in a variety of fields.

Coaches who wish to make further study of the technique of coaching can enroll in courses taught by the head coaches of varsity sports at the university.

Ruth Murray of Wayne university, Detroit, will be in charge of courses in the modern dance. Courses pointing to leadership in the recreational field will be taught by W. K. Streit, supervisor of health and physical education of Cincinnati.

Guest Artist

Visiting instructor in the graphic and plastic arts department during the summer session will be Carleton Safford of New York.

Music--

(Continued from Page 9)
instruments of the all-state high school groups.

Hans Muenzer
Outstanding among the resident instructors during the summer session will be Prof. Hans Muenzer, concert violinist of the symphony orchestra and instructor in the music department.

Professor Muenzer is a graduate of the Leipzig Conservatory of Music in Germany. From 1917 to 1919 he was solo cellist of the Breslau opera orchestra, and from 1919 to 1922 of the Leipzig philharmonic orchestra. Since 1922 he has been a member of the Muenzer trio. From 1923 to 1930, he was solo cellist of the Chicago theater orchestra, and since 1922 has been solo cellist of the Chicago civic opera orchestra.

Professor Muenzer will act this summer as instructor in violin and in chamber music.

Other summer instructors, members of the regular faculty, are Prof. Philip G. Clapp, head of the music department and director of the university symphony orchestra, who will also conduct the summer symphony; Prof. Herald I. Stark, conductor of the university chorus, who will conduct the all-state vocal groups; Prof. Charles B. Righter, director of bands, who will direct the all-state orchestra; Prof. Anne Pierce, head of the music department of the university experimental school; Prof. Esther Swisher, Prof. Addison Alsbach and Howard Snyder of the piano and theoretical departments; Thomas Muir, an associate in voice, and Himie Voxman, instructor in woodwinds.

Guest instructors on the campus will include Hans Koebel of Chicago, cellist of the Chicago civic opera company, and Alan Richardson of Cedar Rapids, who will assist Mr. Koebel in cello instruction; Lorene Liston of Scotts Bluff, Kan.; H. Charles Stump of Morgantown, W. Va., and T. C. Collins of the Davenport public schools, who will assist Mr. Voxman in woodwind instruction; Paul C. Dawson, head of the instrumental music department at Thomas Jefferson high school in Council Bluffs, who will act as instructor of brass instruments and will conduct the all-state band.

Ardith Larson of the Mediapolis public schools and Margaret Brandt, G of Hastings, Neb., instructors in voice; Marianne

Prof. Wylie to Teach Astronomy Courses

The astronomy department will present two courses, both taught by Prof. Charles C. Wylie, university astronomer, to summer school students.

One is a general course designed especially for the teachers of general science, and the other is a study of the problems to which astronomers now devote the most attention. The classes will meet one evening a week for study of constellations and use of the telescope.

Witschi of Iowa City, a graduate of the university, and Harold Cerny of Kearney, Neb., who will act as instructors in violin; and Ansel Martin and Lloyd Swartley, directors of vocal and instrumental music respectively at Iowa City high school.

Full Schedule Of Courses in Math Set for Summer

A full schedule of courses for both graduate and undergraduate students with the same teaching staff as during the academic year will be given for the summer by the mathematics department.

In addition to regular courses, seminars and courses in reading and research for preparation of theses will be provided for graduate students.

Botany Laboratory
The botany library is located adjacent to the classrooms and laboratories of the new laboratory. About 200 botanical periodicals and several thousand volumes are available to students and faculty members.

'Swing' or Opera - Take Your Choice

When warm weather comes this year, summer students will find comfortable chairs in the music room of Iowa Union where they can listen to complete operas or "swing music" during their leisure hours.

The University of Iowa is the first to install the new set of the library of the world's best music prepared by the Carnegie corporation. In February the library was installed in the offices formerly occupied by Prof. Rufus H. Fitzgread, now provost of the University of Pittsburgh.

The music room offers a self-educating music device through the use of recordings, books and scores. The listener may follow the music as it is played with the musical score and study the interpretation of the masters.

The library of the world's best music contains 955 phonograph records, 150 scores, 80 titles and other scores, record albums, album shelves and a two-unit recording machine. An additional amplifier is used to give special concerts in the lounge of Iowa Union.

Eric T. Clarke and other experts collected the music which includes seven complete operas, selections from 68 other operas, 150 symphonies and two oratorios. The operas of which there are complete recordings are "Orphee" by Gluck, "Faust" by Gounod, "Mozee di Figaro" by Mozart, "Dido and Aeneas" by Purcell, "Iolanthe" by Sullivan, "Aida" by Verdi and "Tristan and Isolde" by Wagner.

During the day the music room will be open for reading and use of the four-way cross file which tells the composer's name, birth and death dates, the recording artist, the selection on the reverse side of the record, the number of the record as listed in the album books and whether or not a score may be found on the book shelf.

Records will be played during scheduled hours which will be announced each Sunday for the week. Students may file request numbers in the main office of Iowa Union. The daily programs of which requested selections will be played will be posted on the bulletin board in the lobby.

Commencement June 1

The university's commencement program will begin June 1, a day earlier than usual, and will continue with from two to eight events daily until June 6. Awarding of degrees at the formal commencement exercises will occur on the morning of June 6.

Where Students Gather To Hear Fine Music

Many a leisure hour will be spent at the new music library in Iowa Union this summer. The university's newest nook will attract students and faculty members who want to listen to operas, clas-

sical selections or "swing" music as played by the favorite dance bands. An informal room equipped with comfortable chairs, the music room was opened in February and has since become a pop-

ular campus meeting place. In addition to the special electric phonograph and two large amplifying speakers, a library of some hundred books on music is included.

—Daily Iowan Engraving

Romance Language Department's New Phonetics Laboratory Open for Summer

The new phonetics laboratory will operate for its first summer this year, as it works in conjunction with the Romance languages department during the summer session.

The laboratory, composed of a suite of two rooms in East hall, is under the direction of Prof. Paul K. Hartstall of the Romance languages department. Dr. J. Milton Cowan of the German department is the technical director of the laboratory and the instructor of German phonetics.

With the use of the short-wave radio and equipment which Dr. Cowan designed and constructed, direct phonograph recordings of foreign and domestic broadcasts may be made.

In addition to contact with the spoken languages by broadcasts, a

large collection of commercial records in German, French, Italian, Spanish and English are on file in the record library.

The files are augmented by commercial recordings of foreign dialects, and recordings of dialects spoken in various Iowa and mid-western communities made on portable equipment by staff members.

During the summer Dr. Cowan will be in charge of the laboratory and with Prof. Erich Funke, head of the German department, expects to carry on some special work in the field of German dialect recording.

Besides the live speech and "canned" speech of other people, students will be able to dissect their own voices by means of high quality recordings made from

time to time. These recordings are available for both personal and instructor's criticism.

Classes in advanced German and French phonetics will be held in the laboratory during the summer, in addition to elementary training required in the beginning French and German courses.

Physics Department To Offer Complete Schedule of Courses

A complete schedule of courses designed to suit either graduate or undergraduate students will be offered for the summer session by the physics department.

The resident staff and one visiting staff member, Dr. Leonard O. Olson of the Case School of Applied Sciences in Cleveland, Ohio, will be in charge.

Forecasts Record Enrollment For S.U.I. Lakeside Laboratory

Prof. Bodine Directs Research Station On Okoboji

A record enrollment is forecast for the Iowa Lakeside laboratory this summer, as there have already been more applications for registration than can be accommodated. Prof. J. H. Bodine, head of the zoology department, has announced.

The laboratory has been a state research station and educational institution since May, 1936, when it was decided in trust to the state by the Iowa Lakeside Laboratory association.

It is located on a 100-acre plot adjacent to Miller's bay on the west shore of West Okoboji lake in the vicinity of various conditions and habitats of interest to biologists. Recently constructed buildings, including a library, four laboratories and four cottages, all of natural stone have greatly helped living and studying conditions. The management hopes to have more equipment available for study this summer.

Bodine Is Director

Professor Bodine is director of the laboratory; Prof. R. L. King of the zoology department is in charge of the course in field biology, and Prof. William A. Anderson of the botany department is in charge of the botany section.

Other members of the staff include Prof. L. O. Nolf and Prof. T. L. Jahn, both of the zoology department, Prof. Charles H. Carter of Parsons college, Prof. George Huff of Drake university, Prof. Benjamin Peterson of Coe college and Dr. Aubrey Taylor of the University of Illinois.

Two Summer Terms

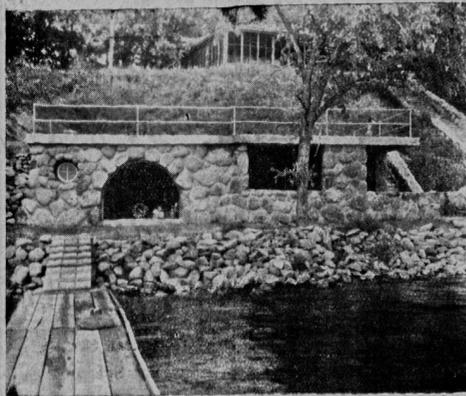

The courses are divided into two terms, the first beginning June 13 and ending July 15 and the second beginning July 18 and ending Aug. 19. Dormitories will open June 4. Individual research work is done along various lines including conservation under supervision of the staff. Besides this, courses in field biology and protozoology are offered.

Started in 1909

The laboratory was established in 1909 to provide a place where the plant and animal life of the northern Iowa lake and prairie regions could be studied and conserved. It has always been used as a field biological station by students of the University of Iowa and other institutions.

The laboratory is now managed by a board of managers appointed by the state conservation commission, the state board of education, the Iowa Lakeside laboratory association, the U. S. Biological Survey and the University of Iowa.

Hub of Lakeside Lab Boating Activity

Only one of several new buildings of the Iowa Lakeside laboratory is the natural stone boathouse on the west shore of West Okoboji lake. Along with four new stone laboratories, a library and additional cottages, it was built recently as an extension of this

Coke, Coffee, Or Chatter--

Iowa Union Presents Varied Amusements For Summer Students

On the east bank of the Iowa river there's a cool pleasant building that becomes the hub of social activity during the summer session — Iowa Union.

The information desk in the lobby is the best-known spot, because there you may learn the location of buildings and schedules of events; you may check out playing cards and ping pong paddles, or buy tickets for university functions. If you have lost anything in the vicinity of the Union, you will look for it there.

The most spacious spot is the main lounge, where students study or rest from study, chatting with friends. The third annual Big Ten art exhibit will be on display there all summer. Established by the university in 1936 to foster student interest in art in the Big Ten and to provide an opportunity for student artists to exhibit their work, each work displays the official seal of the exhibit.

Radios in the lounge provide entertainment for those who wish to hear their favorite programs. The latest books, fiction and non-fiction, are in the Union library, located in the northwest corner of the building.

In the lounge will be held seven summer concerts, the men's and women's dinners and the summer session party. Competent and experienced men quickly transform the lounge to its appropriate setting, whether it involves the setting up of chairs for a concert, or the removal of all furniture for a dance.

The music room, a library of the world's best music, and the main studios of radio station WSUI border the lounge on the north. During special hours, recorded concerts are played on a two-unit recording machine in the music room, which may also be used for study.

"Meet me on the sunporch" is the favorite agreement of students who enjoy refreshments at the fountain overlooking the river and west campus.

Downstairs are the river room, the ping pong room and the cafeteria; upstairs are offices of university organizations. Here, in short, can be found represented all the phases of the social life at Iowa.

Making Ready the Botany Laboratory

The new botanical laboratory west of psychopathic hospital will be the center of all work in botany this summer. Adding a few finishing touches to the work of moving in equipment from the

botany-pharmacy building, two graduate students are shown re-potting plants in the new plant house, which provides growing material for class work and research.

12 Instructors Teach History

Four Guests to Help Staff in Giving 20 Courses

A staff of 12 members, including four visiting instructors, will teach 20 courses in the history department this summer.

The guest instructors will be Prof. Chester Kirby of the history department of Brown university, William B. Brown, director of the secondary curriculum section of the Los Angeles public schools, Prof. Philip D. Jordan of the history department at Miami university, and Prof. Zoe A. Thralls of the geography department of the school of education of the University of Pittsburgh.

The regular faculty members of the university who will be here during the summer will include Prof. Cornelius W. de Kiewiet of the history department, Prof. Forest C. Ensign of the college of education, Prof. Erich Funke, head of the German department, Prof. W. Ross Livingston of the history department.

Dr. Oscar E. Nybakken of the classical languages department, Dr. William J. Petersen of the state historical society, Prof. Winfred T. Root, head of the history department, and Prof. Harrison J. Thornton of the history department.

Offers Varied Botany Studies

Thirteen courses will be offered by the botany department to undergraduate and graduate students at the university summer session.

Undergraduates may take a combined lecture and laboratory course in the biology of plants. Lectures will be illustrated with lantern slides and films. Occasional field trips will provide first-hand study and collection of outdoor plants.

Eight courses will be offered for undergraduates and graduate students. A laboratory and field study

Offer Geology Field Courses In Black Hills

Prof. Runner to Teach Both Sessions in South Dakota

Two field courses in the Black Hills of western South Dakota and Wyoming under Prof. Joseph J. Runner will be offered by the geology department this summer.

The first course, to be given from June 12 to July 9, is designed to furnish illustrations of principles already studied in the classroom and to give training in observation and interpretation of geological phenomena, the construction of geological maps and the writing of a report.

In the second course from July 10 to Aug. 3, study will be made of the pre-Cambrian rocks of the Lead region.

The camp for both field courses is Pine Crest, near Deadwood, S. D., at an elevation of approximately 5,000 feet. Tents or cabins are available for living quarters, and a large electrically lighted community house furnishes a place for baths, study and recreation.

The Black Hills courses are two of the seven offered under the auspices of the Midwest Association for the Geologic Field Instruction. This is a cooperative association of the University of Iowa, Northwestern university and the University of Wisconsin. The combined facilities for field instruction of the four universities are made available to their students and to students from other universities and colleges.

The other courses include two in Ste. Genevieve county, Mo., offered by the University of Chicago; two courses in Devil's Lake Region, Wis., offered by the University of Wisconsin and the University of Chicago, and one on the Lake Superior region of northwestern Minnesota and Ontario offered by Northwestern university.

A Loudon newspaper would like to see Britain lift the customs duties against Americans as a symbol of the "warm friendship" the country holds for her cousins across the seas.

Literature?

Available Books Reach One-half Million

Students attending the University of Iowa summer session will have nearly one-half million books available in the University libraries for study, reading and reference.

General library in Macbride hall contains the biggest collection of books. Included are books on economics, English, history, home economics, speech, political science, sociology and general subjects. The library accommodates approximately 200 readers.

Reserve library, containing the largest reading room, is located at the foot of Old Capitol hill and accommodates 360 readers. The library also has a periodical reading room, accommodating 100 readers, and a document reading room with space for 36 readers.

One of the students' favorite reading spots is the informal library in Iowa Union. Quiet comfort, non-supervision and book chats are among its outstanding features.

A special collection of more than 3,000 volumes, pertaining chiefly to natural history, exploration and travel will be found in the Talbot library in the chemistry building. Another well-known collection is the Ranney library of 4,500 volumes in Schaeffer hall.

Departmental libraries open during summer are the botany-chemistry, engineering, medical, commerce, geology, education - philosophy - psychology - child welfare, mathematics and law.

Prof. Dill Will Deliver Series Of Five Talks

Prof. Homer R. Dill, director of the university museum, will give a series of five lectures on subjects of general interest in the fields of natural history and museum work during the first five weeks of the summer session.

The lectures will be illustrated with slides and motion pictures and will be given in chemistry auditorium June 11, 19 and 25, and July 2 and 9.

The first of the series will be on "Bird Rookeries of Laysan Island." In this lecture Professor Dill will describe the habits of such birds as the albatross and the higate bird.

Summer Session Features Lecture, Round Table Program

Series to Open With Talk By Durant June 17

Will Present Speeches On Fridays at Old Capitol

One of the outstanding features of the University of Iowa's summer session is the annual university lecture and round table program. Opening this year's series June 17 will be Will Durant, distinguished American writer and philosopher.

The lectures will be given Fridays at 8 p.m. on the west approach to Old Capitol, and the round tables will be on Saturdays at 9 a.m. in the house chamber of Old Capitol.

Other speakers for the summer include Earnest A. Hooton, June 24 and 25; Thomas V. Smith, July 1 and 2; Charles W. Gilkey, July 8 and 9; Joseph B. Keenan, July 15 and 16, and Glenn Frank, July 22 and 23.

Durant, the author of several popular books on philosophy and Russia, received a Ph.D. degree from Columbia university, later becoming an instructor of philosophy there. From 1914 to 1917 he was director of the Labor Temple school in New York. Among his books are "A Program for America," "On the Meaning of Life" and "The Tragedy of Russia."

Anthropology Expert

An expert in anthropology, Dr. Hooton is a member of the faculty of Harvard university. He is the author of "The Indians of Pecos," "Up from the Ape," and is editor of the Harvard African Studies. He received a Ph.D. degree from the University of Wisconsin and was a Rhodes scholar at Oxford university from 1910 to 1913.

Professor Smith is a member of the philosophy department of the University of Chicago and editor of the International Journal of Ethics. He has written "The Democratic Way of Life," "The Philosophic Way of Life," and "A Preface to the Universe."

Rev. Mr. Gilkey

A prominent figure in the world of religion, the Rev. Mr. Gilkey is dean of the chapel at the University of Chicago. He has studied at Harvard, Berlin and Marburg, Oxford, Yale and Brown universities. From 1910 to 1928 he was pastor of the Hyde Park church in Chicago. He has also served as university preacher at Harvard, Yale, Princeton, Cornell, Wellesley, Stanford and Purdue.

Keenan has been assistant attorney general in charge of the criminal division of the department of justice since 1933. He was cited by Gen. John Pershing "for meritorious service." He attended Brown and Harvard law schools.

The man who has been appointed to serve as head of the committee to draft a new republican platform — Glenn Frank — will close the series. Until a year and a half ago he was president of the University of Wisconsin.

College Offers Medical Studies In Three Fields

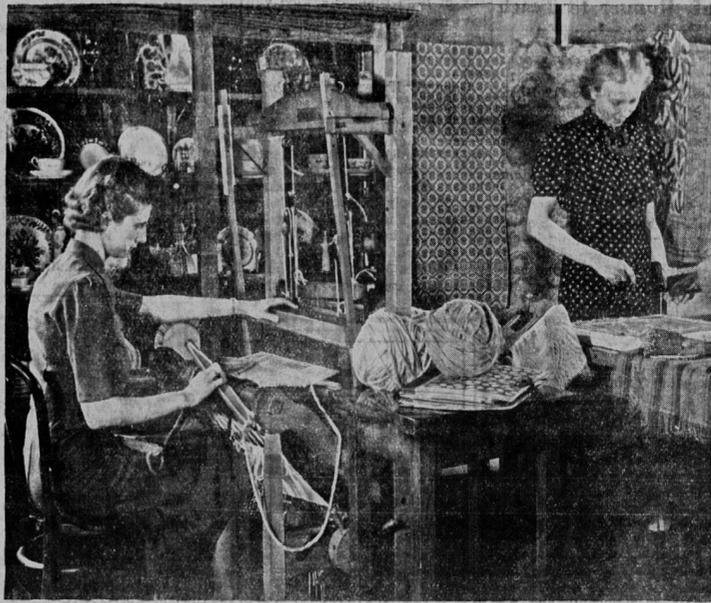

Courses in anatomy, physiology and hygiene, and preventive medicine will be offered by the college of medicine during the summer session. The courses are designed for those wishing to review the subjects or desiring some preliminary work for the regular medical course.

In the anatomy group will be a surgical and applied anatomy course for practitioners. Also available will be a course in genetics and another in the anatomy of ear and vocal organs.

Of the three physiology courses planned, one will be a general course in human physiology for liberal arts students.

In the hygiene and preventive medicine group, there will be seven courses offered.

Exemplifying Recreational Phases of Home Economics

Textile crafts play an important part along with the more basic courses offered by the university home economics department. Recognized today as particularly practicable in the recreational phase of

the department, handicraft work is being stressed in the summer session courses. The view of weaving and dyeing shown above is an example of the emphasized crafts adaptable to school, club and com-

—Daily Iowan Engraving
munity activities. Courses along these lines will also include work in leather and other materials as well as in the construction of toys, games and puppets.

Short Course For Librarians Offered Again

The university will again offer a short course in library training this summer during the first six-week term from June 13 to July 23. This course is made available to library students at alternate summer sessions only.

A staff of four instructors will work with Emma Felsenthal, acting director of the library school, during the term. The staff includes Mrs. Sarah Gilbert Garris, professor of library science at the University of Kentucky; Carrie E. Scott, supervisor of work with children in the Indianapolis public library; Julia A. Robinson, executive secretary of the Iowa library commission, and Mrs. Janet Arie Roe of Cedar Rapids.

Professor Garris received her M.A. degree at Columbia university and is an instructor in book selection. Mrs. Scott is noted for her book, "Anthology of Children's Literature," written in collaboration with Edna Johnson, which is used in the library courses of many schools.

Mrs. Roe has been on the campus for eight summers and Miss Robinson has taught during the summer session since becoming a member of the library commission in 1913.

The majority of courses offered are essential for all library workers — both those already in the field and those who expect to enter it. Class recitations, lectures and study halls will take place in the engineering building.

4 Courses Offered In Philosophy For Summer Session

The philosophy department will offer four courses under the supervision of Prof. Herbert Martin, head of the department, and Prof. Herbert Feigl during the summer session.

The courses taught by Professor Martin will include the history of medieval and ancient philosophy, and contemporary philosophy. Professor Feigl will conduct two classes in formal and inductive philosophy.

S. U. I. Campus To Have 10th 'Brain Derby'

336 Schools Enrolled; Largest Number Since 1931

The 10th annual Iowa scholarship contest, popularly known as the "brain derby," will be among the first of the events on the Iowa campus this summer, scheduled for June 6 and 7.

Tests were held in high schools throughout the state last Monday and Tuesday to determine students from each school who will participate in the contest.

Three hundred and thirty-six schools have enrolled in the testing program this year, making the largest enrollment since the record year of 1931 when 395 entered.

The testing program, sponsored annually by the college of education and the extension division of the University of Iowa, is a co-operative regional testing project. Its fundamental purposes are to provide instruments for the measurement of educational achievement, facilitate improvement in high school instruction and encourage better scholarship.

Schools are to report their results to the university by today, and by May 25 a summary reports of results, including the names of those qualified for the final tests, will be released.

Approximately 1,100 students will be selected as final contestants, no class A school having more than three contestants and no smaller school having more than two contestants in any one subject.

The major features of the program for the brain derby will consist of the administration of the tests and a final dinner and convocation program at which winners will be announced and trophies awarded.

Subjects in which tests are to be given this year include ninth year algebra, plane geometry, general science, biology, physics, world history, United States history, American government, first and second year Latin, English correctness, reading comprehension in literature, and contemporary affairs.

Offer Courses In Child Care During Summer

Courses in child development and parent education of interest to graduate students, teachers, social workers, study group leaders, and parents will be offered by the Iowa Child Welfare Research station and allied departments during the summer.

Work dealing with the child from infancy through adolescence has been planned, with additional courses in the fields of genetics, statistics and home economics.

The preschool laboratories of the station will be open to meet research needs and accommodate out-of-town preschool children who are in Iowa City for the summer. The laboratories will open June 14 to children from two to five and one-half years of age.

Juniors and seniors may secure credit for work in the station upon securing a major permit card signed by the head of their major department.

The summer staff will include Dean George D. Stoddard, director, Prof. Kurt Lewin, Prof. Howard V. Meredith, Prof. Charles H. McCloy, Prof. Ralph H. Ojemann, Prof. Ruth Updegraff, Prof. Beth L. Wellman, Prof. Harold M. Skeels, Prof. May Pardee Youtz, Prof. Orvis Carl Irwin, Afton Smith, Eleanor Lack, Prof. Amy L. Daniels, Prof. Everett F. Lindquist, Prof. Frances Zuill and Prof. William Rees B. Robertson.

English Department To Add Three For Summer Session

Three visiting instructors, Prof. Thomas M. Parrott of Princeton university, Prof. Hudson Strode of the University of Alabama and Prof. Françoise Dony of the University of Brussels, Belgium, will join the regular English faculty in offering 39 courses during the 1938 summer session. The work of the department will be carried out under the supervision of 21 faculty members in all.

Courses taught by Professor Strode will include one on Shakespearean tragedies and one in advanced imaginative writing. Professor Dony's contribution to the summer English courses will be studies in contemporary European drama. Professor Parrott will offer a course in Victorian literature and one on English drama.

To Offer Varied Studies in Home Economics Field

A varied program of 16 courses in textiles, consumer education, design and nutrition, will be provided by the home economics department for summer students this year.

Many opportunities for a combination of home economics with a wide variety of related fields—child welfare, education, fashion illustration, interior design, stage costuming, psychology of art, chemistry, economics and sociology—will also be offered.

The summer staff will include Prof. Frances Zuill, head of the home economics department, Prof. Lula Smith, Prof. Merle Ford, Prof. Edna Hill, and Helen Waite, in addition to faculty members of allied departments.

Among the courses will be those in recent developments in textiles and clothing, current problems in consumer education, housing and home furnishings, institutional nutrition, crafts in the recreational program and experimental problems in foods.

Engineers Have Good Schedule For Hydraulics

Advanced undergraduate and graduate courses in hydraulic engineering will be offered by the college of engineering during the summer.

In addition to members of the regular faculty, two visiting instructors will be on the staff — Samuel Shulits, assistant professor of hydraulics at the Colorado School of Mines, and Prof. J. F. Mangold of the Armour Institute of Technology, Chicago.

Among the courses in mechanics

Meier Teaches Public Opinion In Psychology

Featured in the summer session courses offered by the psychology department will be one on public opinion and propaganda under the supervision of Prof. Norman C. Meier.

Other outstanding work to be offered includes demonstrations of laboratory experiments and the learning process from the experimental point of view by Claude Buxton.

Prof. William Line of the University of Toronto, who has been at Iowa in previous summers, will offer two courses—one on introduction to the psychological clinic and the other on modern approaches to psychology.

In addition to East hall's central laboratory, devoted entirely to advanced work and thoroughly equipped for research in both pure and applied psychology, adequate supplementary facilities will be found in other buildings.

Elementary work in psychology is conducted by the project method in University hall. Abnormal psychology, mental health and psychiatry are under the direction of the staff in the psychopathic hospital. Physiological psychology is provided in the physiology department of the college of medicine.

The facilities for the study of infant behavior are continued in the lying-in unit of University hospital. The psychology unit of music is associated with work in the music department.

and hydraulics will be mechanics of engineering materials, hydrology, water power engineering, hydraulic turbines, and transportation of silt and detritus. Two courses will also be offered in civil engineering.

Summer Fun

Departments Plan For Play Nights

Saturday nights at the University of Iowa this summer will be play nights.

Plans are being made by the men's and women's physical education departments for the weekly play fests, to alternate between the fieldhouse one week and the next at the women's gymnasium.

Dancing, softball, horseshoes, badminton, ping pong and volleyball are just a few of the amusements. There will be many more, such as shuffleboard, tethball, cageball, and small games such as box hockey, devil-in-the-deep and bowling.

Everybody is invited to the weekly parties which will be held every week except the first and last of the eight weeks' session.

The play nights are a regular part of the summer program and are under the supervision and planning of committees from the classes in community recreation and co-recreation.

For over 60 years we have served the faculty and students of the University of Iowa.

Social Studies Research Will Develop Teaching Materials

Dr. Brown Will Direct Laboratory During Summer Term

Recognizing the need for developing teaching materials that are interesting and adapted to the needs of the pupils, a social studies curriculum laboratory will be organized as part of the regular summer program this year.

Dr. William B. Brown, recently appointed director of the secondary curriculum in the Los Angeles public schools, will be the director of the new laboratory. He will be assisted by staff members of University high school, each equipped to offer special service in one or more phases of the work.

Professors Cooperate

Dr. Brown's assistants will be Harry Berg, John Haefner and Wallace Taylor. Cooperating consultants will be Prof. Winfred T. Root, head of the university history department, Prof. Benj. F. Shambaugh, head of the university political science department, and Prof. Harry K. Newburn, principal of University high school.

High school teachers, wishing to develop definite courses for teaching purposes, may enroll for the regular eight-week session, extending from June 13 to Aug. 5, and concentrate their efforts around the preparation of such teaching units.

Give Education Credit

The laboratory will be equipped with all the necessary textual materials relating to the curriculum as well as a collection of recent courses of study in the field. The plan provides that a general course in the principles of curriculum construction be taken for education credit, and that laboratory work in education, political science or history be taken. A content course in the social studies field will also be included in the laboratory program.

Up-to-Date Auditorium Offers Latest Aids To Public Speakers

One of the most up-to-date lecture rooms on the campus—that's the new fine arts auditorium.

As Prof. Lester D. Longman, head of the graphic and plastic arts department, began the lecture in his history of art class recently, the lights began to fade, and a lantern slide was thrown on the screen. Both operations were controlled by Professor Longman from his place at the front of the room.

With a button at his fingertip, he dimmed the rheostat-controlled lights; and with another he operated the tube which dropped a lantern slide automatically into position. Mounted on a bulb at the end of a long rubber tube, the button can be carried about the platform and will fly back into a panel when released. Still another button controls ventilation.

The screen upon which the slides are shown is of a new beaded type which results in more sharply drawn pictures. It is 18 feet wide, and two pictures can be shown at a single time for comparison. A button controls the raising of the sheet, and when not in use it disappears in the ceiling.

The architecture of the auditorium is simple and pleasing, with a minimum of decoration. The wall space is constructed for exhibition purposes, nearly doubling exhibition space of the building.

The new auditorium, exemplifies the modern way of studying old things.

Pre-School Offers Advantages

University Project Sponsors Supervised Work, Play for Iowa City Youngsters

Training in art and art appreciation is one of the many services offered children between the ages of two and six at the pre-school laboratories of the Iowa Child Welfare Research station. This little fellow, brush in hand, is just beginning to try out his artistic genius, while an admiring little miss, another pre-school pupil, looks on. The pre-schools will be open during the summer to accommodate out-of-town children.

Lots of play, playthings and playmates are the attractions offered by the four university pre-schools to children living in Iowa City during the summer. For mothers who work or children who have no playmates in their neighborhood, or just for a scientific and healthy training of a child, the schools are ideal. Approximately 90 youngsters, ranging from two to five years of age, spend their waking hours in healthy play at the school. Some of them even eat their noon meal there, a meal planned particularly for children's needs being served. The advice of a specialist in child nutrition is also provided for parents.

The children's activities are as varied as those of any university student, with periods devoted each day to music, art, play, rest and story-telling. Their day may even include a trip to the farm or the airport. The children are taught to take responsibility in caring for their personal needs, to cooperate with others of the same age and are generally directed toward emotional stability. A head teacher and two assistants in each laboratory work with the children during the entire period of their attendance. In addition psychologists and educational, nutritional, dental and medical specialists see the children for varying periods of time. They are grouped according to age in the four schools, groupings centered around the ages of two, three, four and five years. The work in each group is so coordinated that a child may progress easily from one to the next. From the fourth group, under the joint supervision of the University elementary school and the station, the child may go into the first grade of the elementary school.

As well as being advantageous to the children, the preschools offer excellent facilities for experimental work in child study. In order to accommodate the large number of preschool children from out of town who come to Iowa City for the summer, and to meet the research needs of the station, the preschool laboratories are open during the eight weeks of the summer session.

Law Session To Start June 13th

Maximum of 10 Hours Credit Possible In Two Terms

The summer session of the college of law will be divided into two terms of approximately five and one-half weeks each, Dean Wiley B. Rutledge of the college of law has announced.

The first term will extend from June 13 to July 20, and the second one from July 21 to Aug. 26. Registration for the first term will be June 10 and 11.

Courses in the college of law will be arranged so that a student may take work during either or both terms. The session is equivalent in time and credit value to one-third of the regular academic year. A maximum of five credit hours per term may be completed. Both students commencing the study of law and advanced students will be admitted to the course.

Albert Salisbury Abel, assistant professor of law at Washington university, St. Louis, Mo., will be the visiting faculty member. Professor Abel received his juris doctor's degree from the University of Iowa in 1930.

Other faculty members will be Prof. Percy Bordwell, Prof. Rollin Perkins, Prof. Odus Patton, Prof. Mason Ladd, Prof. Philip Mechem, Prof. Paul L. Sayre, and Willard Wirtz, all regular members of the law faculty.

Arthur Zimmerman of the Waterloo bar will lecture on "Examination of Abstracts of Title." Prof. Frank Strong and Prof. Sidney Winter, both of the college of commerce, will also be members of the law faculty for the summer session.

Summer Jobs Now Available

University students may work on a board accumulation project during the summer and earn a cash equivalent of \$240, Lee H. Kann, manager of the employment bureau, has announced.

Starting June 1 and working seven days a week through the summer months, the student will be employed until school opens in September. Some time during the summer the department will grant him a 10-day vacation.

The student will earn his board while he is working and also accumulate credit which will insure him board during the school year. Meals will be served in the hospital cafeteria and will be charged off at the rate of three per day, during both the summer and the school year.

Three regular student jobs will be combined and worked by the employee in three hour shifts on a nine-hour-day basis. The project will employ 65 men and several women.

The plan has proved successful for those students who have funds for their room cost during the summer, about \$30, and for registration and room cost during the school year. As carried out by the university employment bureau, the plan is especially desirable for students whose class schedules are unusually heavy, as in the colleges of engineering, medicine or dentistry, or those whose schedules are not adaptable to the usual board job.

Summer Students!

Photographers To Meet Here

To Come for Contests, Demonstrations, Lectures

Iowa amateur and news photographers will meet in Iowa City July 28 to 30 for contests, demonstrations and lectures on photography, as part of the school of journalism's summer program. Prof. Frank L. Mott, director of the school of journalism, has announced.

The speakers on the photography conference program will be well-known authorities in photography and news photography. The regular work of the school

Heart Trouble

Bing Crosby is a crooning physician who masquerades as a policeman only to lose his heart on his first assignment in "Doctor Rhythm," the new musical comedy,

which opens Sunday at the Englebert Theatre. Pearl-blonde Mary Carlisle is his romantic interest, while Beatrice Lillie is also cast. Others include Andy Devine and Rufe Davis.

U. High School To Coordinate With University

Summer Session Will Work With Speech Department

For the second consecutive year the University high school summer session program will be coordinated with the program of speech training under the direction of the university speech and dramatic arts department. This plan has been carried out in an attempt to supplement the work of the regular school year.

Instruction in the high school work will also be offered by the regular staff members in commerce, English, foreign languages, graphic and plastic arts, home economics, industrial arts, mathematics, music, science, social studies, speech and swimming.

Any student who has completed the work in the seventh grade and has not yet been graduated from high school is eligible for enrollment. Certain courses are open to all students while others are open only to specific grade groups.

With this arrangement a high school student may register for two or more morning academic subjects and participate in dramatics, public discussion and debate, or speech corrective in the afternoon. Although no formal credit is given for summer work, reports will be forwarded to the parents and local school officials if they are desired.

An intensive training in dramatic interpretation will be provided for those students interested primarily in acting and interpretive reading. Others more interested in preparing for next year's contests in debate and public speaking will find a concentrated program of instruction in that field. Students who have voice and articulatory defects will receive individual instruction in the speech clinics.

Supervised dormitory privileges will be available for out-of-town students.

Northern Ireland is predominantly protestant, southern Ireland (Eire) predominantly Catholic.

Iowa City's Water Supply

Meets the Most Exacting Tests to Assure Absolute Safety and Efficiency to the Consumer

A specialized staff of experts check and test the city's water supply for the protection of the consumer's health.

The State Board of Health cooperates by further checking with the Local Staff and has given the city water's supply unqualified approval. Excellent modern equipment brings the city's continuous supply of good pure water.

We hope that you can come to the University of Iowa and Iowa City this summer—that you may take full advantage of the many opportunities this community has to offer you.

IOWA WATER SERVICE COMPANY

Child Welfare Conference To Meet June 21

Largest Conference To Attract 1,000 For Discussions

"The Child as a Social Product" will be the theme of the 12th annual Iowa conference on child development and parent education, the university's largest conference, which will meet here June 21, 22 and 23.

Three round-table sessions and one symposium, permitting free discussion of the vital problems of the day, will be features of the meeting which is expected to attract more than 1,000 persons.

A number of well-known specialists from all parts of the country will participate, as well as the University of Iowa authorities.

Sanford Bates, executive director of the Boys' Clubs of America with headquarters in New York, N. Y., will lead a round table on "What Children Need in the Community."

One of the most popular round tables will be the one on "Behavior Problems of the Normal Child," conducted by Lois Murphy, sociologist of Sarah Lawrence college, New York. Regina Flannery of the anthropology department of the Catholic university, Washington, D. C., will lead a discussion of "Progress in Child Development Through Cultural Change."

The symposium is entitled "A Look at Some Current Educational Problems." Leaders and their topics will include Dr. Ernest Osborne of Columbia university, New York, "How Parents May Effectively Influence School Practice," Prof. Elmer T. Peterson of the university college of education, "What Parents Should Know About Their School Systems," and Prof. Harold Skeels of the child welfare research station and the psychology department, "Some New Light on the I. Q."

Among other visiting speakers will be Dr. Ruth Brickner of the consultation service of the Child Study Association of America, Dr. William H. Bristow, general secretary of the National Congress of Parents and Teachers, Dr. Malcolm MacLean, director of the general college of the University of Minnesota and Elmer A. Stephan, director of art education in public schools at Pittsburgh, Pa.

13 Will Teach In College Of Education Here

Thirteen visiting lecturers and staff members will offer courses in the college of education during the summer session on the Iowa campus this year.

Courses in education will be open to juniors, seniors, graduate students and those registered as unclassified, with a prerequisite of a standard elementary course in psychology for any of the work offered.

Guest instructors will include Dr. Philip Milo Bail, president of the Chevy Chase school of Washington, D. C.; William B. Brown, director of the secondary curriculum section of the Los Angeles public schools; Dr. Helen C. Davis, director of student teaching at the Colorado State college of education at Greeley, Col.; Frances Ross Dearborn of the State Normal school at Oswego, N. Y.; Elaine Dickinson of the Lincoln school of Teachers college, Columbia university; Dr. Arvin N. Donner, principal of the Thomas Jefferson high school, Port Arthur, Tex.; James Glass, professor of education at Rollins college.

Lillian Hethershaw, professor of general science at Drake university; Royal F. Netzer, professor of education at Arizona State Teachers college; Rufus H. Palmer, assistant superintendent in charge of elementary education, Denver public schools.

Hazel Prehm, elementary supervisor in the public schools of East Waterloo; Prof. Zoe A. Thralls, assistant professor of geography at the school of education of the University of Pittsburgh, and Prof. James B. Stroud, head of the psychology department of Kansas State Teachers college.

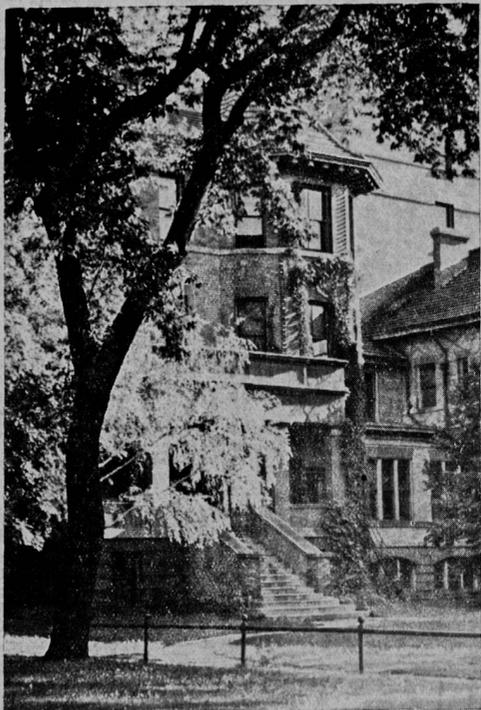

Beginning German Can Be Completed In 8-Week Session

The German department will offer summer session students the opportunity to study German from the beginning up to thesis work for graduates. Prof. Erich Funke, head of the German department, has announced.

Students will be able to get a full year of first- or second-year German in the eight-week session.

German courses in phonetics will use the facilities of the new laboratory for the first time during the summer session under the supervision of Dr. J. Milton Cowan, technical director of the laboratory.

Home of the Summer Session

The busiest place on the campus during the summer is East hall, home of the summer session. Besides containing the summer session office, room W-9, the building houses many other departments, including the college of education, the child welfare research station, the psychology department and laboratories, the phonetics laboratory and the speech clinic. Offices of the director of the summer session, Dean Paul C. Packer, are in the west wing of the building, and private offices of staff members are situated on the ground floor.

Dr. W. H. Hale To Join College Of Medicine

Dr. William M. Hale will join the University of Iowa college of medicine faculty July 1 as professor and head of the bacteriology department.

During the last year Dr. Hale has been on leave of absence from the Yale university bacteriology department doing work in government service.

In 1924 the new Iowa appointee took a baccalaureate degree in science at the University of New Mexico and served a year as bacteriologist in the state public health laboratory. For three years he was an instructor at Yale and in 1932 was promoted to an assistant professorship.

He has published a number of scientific papers and in addition to teaching at Yale he directed theses for the doctorate in philosophy in bacteriology. He was trained under Dr. George Smith, one of the nation's outstanding bacteriologists.
