Workers Capitulate to Maytag Demands, Return to Factory

By JOHN MOONEY
Daily Iowan Editor
NEWTON, Aug. 4 (Special to The Daily Iowan) — The heart of Newton—the Maytag Washing Machine company—throbbed again this afternoon after a three months' siege of heart trouble which paralyzed this community and at times threatened to kill the industry which furnishes the city with its life.

and shifted with kaleidoscopic suddenness from the ballyhoo of a major political convention over to the fiery harangues of the soap box orators in Chicago's Washington Square and then away to the almost hysterical fervor of a southern camp meeting—did little except praise the fortitude of the strikers and then capitulate to the company demands.

strategy for the present. We are working under protest, and are accepting something against our wills, forced on us by the governor in relieving us of our sole collective bargaining rights... However, once the troops and their bayonets are withdrawn from Newton, we shall settle this issue once and for all... We are not whipped, we are not surrendering, we are just playing the game, but our time will come and then we will get out of the factory and stay out until hell freezes over."

plan when it was apparent that the strikers wished it. Until the very moment when the hands were raised for vote, it was apparent that the union officials confidently believed that the measure would be defeated and that the strikers would continue their holdout.

To which someone in the crowd yelled back, "Just wait until we get in there and it will be hot enough for you."

parently quiet—on the surface at least—and it was only a precautionary measure such as any troop commander would have taken that I took when I asked for more troops today. The extra men—four troops of cavalry—are here to relieve the infantry troops which must leave for their training period at Camp Dodge in Des Moines Sunday. It is my own opinion that all the troops will be out of Newton within 10 or 12 days.

Tonight, men who have neither worked nor received pay for the last 13 weeks are sleeping once again. National guardsmen have relaxed their vigilance somewhat in the streets of the town and the whole aspect is brighter and more cheery. Yet underneath all this happiness lies the threat of the union men "to see this thing through if it takes two or three years." Hidden forces are wrestling and striving for the power which shall determine whether labor shall organize and master capital or whether labor once again shall be shoved aside by the great American dollar. Yes, tonight Newton sleeps, but it is a troubled sleep of one in great torment, of one who has been afflicted with deep and painful wounds which may take months to heal.

Cooper Takes Lead In Tennessee Demo Race

Browning Lags In Vote For Renomination

Complaints of Election Irregularities At Memphis Received

NASHVILLE, Tenn., Aug. 4 (AP)—Prentice Cooper, Shelbyville attorney endorsed by the organization of National Committeemen E. H. Crump, took the lead for the democratic gubernatorial nomination tonight on returns from approximately one-half of Tennessee's precincts, mostly rural, in today's primary.

Cooper's coalition ticket running mates—A. Tom Stewart for the United States senate and W. D. Hudson for public utilities commissioner—also were ahead.

Complaints of election irregularities at Memphis, storm center of Tennessee's bitter political feud between National Committeeman E. H. Crump and Governor Browning, highlighted the democratic primary today.

While hundreds of armed peace officers patrolled the streets and polls there, Browning supporters complained to authorities that Crump's friends were marking Negroes' ballots for Cooper, opponent of the governor for renomination, and that Browning watchers had been driven from some precincts.

The Shelby county (Memphis) political organization headed by Crump and wielding a bloc of votes estimated to exceed 80,000, supported Cooper, Shelbyville attorney. Two years ago when Crump and Browning were allies, Shelby county handed the governor a majority of more than 59,000.

Now they are bitter enemies. The cause of their break was never revealed but their feud overshadowed all campaign issues.

Browning has made repeated efforts to "purge" the Shelby registration lists and once considered sending 1,200 national guardsmen to Memphis. A federal judge in Memphis enjoined him from this step.

Lifer Tells His Story
Dwyer Says Father Of His Sweetheart Strangled Littlefields

Writer Says Reich Ready To Use Force
States Germany Wants Mastery Of Central, Southeastern Europe

SOUTH PARIS, Me., Aug. 4 (AP)—Paul N. Dwyer acknowledged late today that not until he became a prison "lifer" for the strangulation of Dr. James G. Littlefield did he attempt to implicate Francis M. Carroll in the crime.

The admission from the one-time sweetheart of Carroll's 18-year-old daughter, Barbara, came in cross-examination at the deposed deputy sheriff's trial for the doctor's murder. Dwyer had been on the stand since yesterday morning, and cross-examination was unfinished when Judge William H. Fisher adjourned court.

All day, Defense Counsel Clyde R. Chapman struggled against broiling heat and Dwyer's calmness, trying to shake the youth's accusations that Carroll garroted the county doctor and his wife, Lydia, 63.

The frail, pallid youth previously had confessed both crimes, attributing one to his anger at a deprecatory remark Dr. Littlefield made about his "girl" and the other to Mrs. Littlefield's suspicions of her husband's fate.

Mother, Son Shot to Death At Davenport

DAVENPORT, Ia., Aug. 4 (AP)—Mrs. C. A. Nash, 45, and her 14-year-old son, Burton, were found shot to death in their home here tonight by Mr. Nash, who had just returned from a business trip to Omaha.

Nash, vice president of the United Light and Power company here, found the body of his wife, which had been slashed and shot twice, on the kitchen floor.

WASHINGTON, Aug. 4 (AP)—Zasu Pitts and the Mayor of Ponce, Puerto Rico, tried to dance the rumba here today, although they couldn't speak the same language.

Claims Troops Kept Workers From Shooting

WASHINGTON, Aug. 4 (AP)—The senate civil liberties committee received testimony today that only the arrival of national guardsmen prevented non-striking employes from carrying out an intention to shoot their way through the picket lines, if necessary, during last year's "little steel" strike at Youngstown, Ohio.

Mediators Get Task of Ending Wage Tangle

Railroads, Employes Fail to Agree On 15 Per Cent Cut

CHICAGO, Aug. 4 (AP)—The task of attempting to break a deadlock between the nation's railroads and 840,000 employes over a proposed 15 per cent wage cut rested tonight with the national mediation board.

Protracted negotiations ended today with railroad management insisting wages must be reduced lest their cost "break the back" of the industry.

Railroad labor remained adamant in its stand that the cut was unjustified and would not be accepted.

The carriers voted in May to make the cut July 1 and save \$250,000,000 a year. Conferences with the brotherhoods had been carried on intermittently since June 28.

Second Statement On Roosevelt Made Within Week by Nebraskan

WASHINGTON, Aug. 4 (AP)—For the second time this week a democratic senator voiced the view today that the democratic party would be split and the president defeated if he tried to obtain a third term.

No Relief In Politics
Johnson Tells C. O. P. Program Committee To End Corruption

Moscow Says Tokyo Will Not Dictate Terms

CHICAGO, Aug. 4 (AP)—Robert L. Johnson, former relief administrator of Pennsylvania, told the republican program committee tonight "relief must be kept out of politics."

Containing the administration of aid to the needy should be returned to the states and that counties and cities should assume their share of the responsibility and expense, he set forth in a prepared address.

"Until this is done there will be no end of the present wastefulness and corruption. It is of the greatest importance that each state and county carry as much of the burden as possible. For, once the individuals in each town realize that it is their money which is being used to support the people on relief in their own towns, the relief program will be run more efficiently."

Johnson said town and county leaders in many states built strong political machines among relief workers and intimidated to "many a person on relief that unless he votes right, his only means of livelihood will be taken away."

Government Begins Action Against Trusts

WASHINGTON, Aug. 4 (AP)—The securities commission made a major move today to carry out the Roosevelt administration's program of breaking far-flung utility holding company networks up into geographical "integrated" systems.

The agency set Dec. 1 as the deadline for 66 companies to come forward with proposals for re-vamping their structures under the integration and simplification sections of the holding company act.

Russians Demand Enemy's Withdrawal From Borderland

Japan Offers Compromise Terms

MOSCOW, Aug. 4 (AP)—Soviet Russia informed Japan tonight that she could have peace on the Manchoukouan border but could not dictate the terms.

In conditional acceptance of Japanese proposals for diplomatic settlement of the dispute, Foreign Commissar Maxim Litvinoff told Japanese Ambassador Mamoru Shigemitsu that if Japanese soldiers got back where they belonged, Soviet military activity in the disputed area would end automatically. (Tokyo dispatches said Japan suggested mutual withdrawal from the area.)

Litvinoff assured Tokyo's representative that the Soviet government always was willing to discuss peaceful settlement of frontier disputes, but any such discussion must be based on recognition of Soviet boundaries as established in existing treaties.

Japan's conquest of Manchuria, he emphasized, was no valid reason for altering the Russian-Manchoukouan border.

The tone of Litvinoff's reply was regarded in foreign circles as an indication that Moscow not only was convinced of the legality of its claim to the disputed area, but confident of the ability of red arms to repel any attack on the far eastern frontier.

Once again, the next move in the course of the Changkufeng hostilities was left to Japan. Shigemitsu, in two conferences, submitted Japan's proposals for peaceful settlement of the intensified renewal of border warfare in the Changkufeng area at the junction of Russian Siberia, Japanese Korea and Japanese-dominated Manchoukou.

Abandon Hunt For Clipper

MANILA, Aug. 5 (Friday) (AP)—The United States navy today abandoned its vast search for the missing Hawaii Clipper, which disappeared over the Pacific with 15 occupants a week ago.

Irishmen 'Jump the Gun' To Greet 'Doug'

By PATRICK McGRADY
NEW YORK, Aug. 4 (AP)—Douglas Corrigan, the daring young man of the flying machine—a \$900 bargain that rumbled across the Atlantic from here to Ireland last month instead of proceeding properly to California—came home all aglow today to a roaring welcome that was but a meek prelude of what is ahead.

Irishmen, north and south, but the others, Germans, Jews, Italians and all the rest, who had waited hours on the pier to scream a few greetings ahead of the official reception tomorrow.

Tomorrow, indeed, is the big day, with a parade up the old via fortissima—Broadway. Along that buoyant route of bedlam the stenographers, clerks and executives downtown in the Wall street district and on uptown were readying everything, tearing up telephone books, pulling out the ticker tape and generally preparing to loose such a shower of white as hasn't been seen here since Lindbergh came home from the most famous flight of all.

After the liner passed quarantine and started through the narrows she became visible to those standing on the Battery; and a great fleet of nondescript vessels—Staten island ferryboats, river steamers, tugs, excursion boats—sent up a series of melancholy roars. Aloft from shore flew a single green kite, trailing the words, "Welcome Corrigan."

Civilian and army airplanes stunted high above; and Corrigan from the Manhattan's bridge thrashed his arms in greeting. A flotilla of perhaps 40 craft went out to meet the Manhattan and escort her to the dock. Many with bands thumping and Irish flags flying.

Japan Offers Compromise Terms

TOKYO, Aug. 5 (Friday) (AP)—Japan today offered Soviet Russia compromise peace terms for ending border warfare that holds the threat of additional major conflict in the troubled far east.

Some of The People, Some Of The Time

ONCE in a while we get a bit discouraged about the electoral system; it looks, when we read about O'Daniels in Texas, Davey in Ohio, Earle in Pennsylvania, almost as if governments might be more efficiently run if we had a one-man system, directing us from the top.

Two or three things happened this week. Knowing of them we're a bit happier about America and the American voters.

In Missouri Tom Pendergast, responsible for some of the most odorous political deals in the nation, was disastrously defeated by St. Louis and outstate voters, disastrously and perhaps permanently. That's encouraging.

And in Kansas that alleged nazi-sympathizer, prejudice-stirring republican, the Rev. Gerald Winrod, finished a bad third in a four-way race for the republican senatorial nomination. That's encouraging.

From Tennessee as we write comes word that Gordon Browning, governor, and his running mate, Sen. George L. Berry, are lagging far behind in early returns. It was Browning who threatened to call out the national guard in his opponent's stronger districts, obviously to intimidate voters there. His apparent defeat is again encouraging.

Yes, the voters are usually right. Along the way a few Maury Mavericks may be lost, but they'll come back. A few Pendergasts may find temporary victory. There are flaws in the method.

But, if nobody minds, we'll take it, flaws and all—until something better comes along. To date nothing has. The horizon is rather empty of better methods, as we see it.

Iowa Continues To Lead The Educational Parade

In the largest summer convocation ceremony ever to be held on the University of Iowa campus, 435 persons will receive degrees tonight as the university's summer session ends.

The number is 29 greater than last year's total, which was itself a record-breaker. Last year, 406 degrees were granted.

Which only goes to show that, year after year, records continue to be broken—the university continues to advance.

Our only comment, save that of congratulation, is that of repeated: Let's not let our desire

General Notices Independent Study Unit The three-week independent study unit is designed only for such students as are registered this summer in the graduate college, in case it appears to them, and the departments in which they may wish to register, practicable to undertake a definite study project, not exceeding three semester hours, independent of regular, daily meetings with professors for instruction and discussion, though with the advantage of the daily use of the other facilities of the university, chiefly the libraries.

Graduate students who register in this way are required to remain on this campus, as resident students, throughout the three-week period.

A graduate student who contemplates registering in this way should, at the outset, and as soon as possible within the present week, have a preliminary conference with the head of the department concerned (or another professor in the department more immediately concerned) for the purpose of a mutual determination of the feasibility of the plan for him. If, together, they find the plan practicable they should agree upon a descriptive title (within the department title) of the course, or study project, to be undertaken (with a suitable course number if at all practicable.)

Only after this preliminary conference and the agreement indicated the student should proceed as follows:

- 1. Call at the registrar's office for his registration materials. 2. Fill the registration forms as usual (though omitting what is called for on the backs of the cards.) 3. Obtain the approval signature of the head of the department in which he registers. 4. Obtain the signature of the dean of the graduate college (East hall, room W513.) 5. Return to registrar's office to have fees assessed. 6. Pay fees at treasurer's office. 7. Registration in the independent study unit for 1938 must be completed by Monday, Aug. 8.

In the conference with the department concerned, each student should make as definite arrangements as possible for submitting the results of his study to the appropriate professor, as basis for the latter's report, to the registrar's office, of the outcome in terms of semester hours and a grade mark. This should be accomplished, so far as possible, at the end of the period, Aug. 26-29.

This three-week independent study unit may serve to accommodate the special group of graduate students who plan to complete this summer the nine semester hours in graduate courses in educational supervision and administration necessary for the standard superintendent's certificate. These students will have completed, during the present session, eight study hours of this requirement.

They should proceed, as indicated above, by arranging with the dean of the college of education for the descriptive title of the course (within the department title) and the amount of work to be undertaken; with a suitable course number wherever practicable.

According to the Iowa State Board of Education's tuition regulations for the student who studies registers for only one semester hour in this independent study unit (less than half work) the tuition fee will be three-fifths of the normal tuition fee—nine dollars.

The three-week independent study unit is not available for undergraduate students, but the attention of such undergraduate students as may wish to employ the latter weeks of the summer in further systematic study is directed to the availability of correspondence courses.

Doubtless any such student can enroll for such a correspondence course immediately after the close of the present session, Aug. 6, and at least make a substantial start upon the completion of such a course prior to the opening of the new university year, Sept. 27, if he contemplates registering at that time as a resident student.

H. C. DORCAS, Registrar

Independent Study Unit Students who plan to register for the three-week independent study unit according to the instructions printed in The Daily Iowan are asked to defer calling for registration materials until Monday, Aug. 1.

H. C. DORCAS, Registrar

to break records get ahead of our desire for perfection.

We're glad that more people will receive degrees tonight than Iowa has ever granted before in the summer time. We think it symbolizes something. We

think it symbolizes a definite movement forward in middle-western education. We think it symbolizes the increased efficiency and popularity of this university as a place to go to school.

Classes on Friday Classes will continue through Friday, August 5. SUMMER SESSION OFFICE

University Hi Exams University high school will hold a series of examinations for pupils entering grades 7 to 12 at the fall term. Pupils will enroll in grade 7 will report Monday, Aug. 8. Pupils entering grade 9, and those entering grades 8, 10, 11 and 12 for the first time will report Wednesday, Aug. 10. At the time of examination pupils will have an opportunity to register for the fall session, which begins at 9 a.m. Sept. 19.

Examinations for pupils expecting to enter grades 7, 8, 10, 11 and 12 are not entrance examinations, but serve for purposes of classification and guidance.

Because it is impossible for University high school to accept all pupils applying for entrance to the ninth grade, examinations will also serve as a means of determining the quality of each candidate applying for admission to this grade.

No student who has not been enrolled previously will be considered for admission unless the examinations have been completed.

Students who were enrolled in the eighth grade of the school last year will take the examinations for purposes of classification and guidance, not for entrance.

All examinations will be held at the high school, with headquarters in the gymnasium. Monday examinations for seventh grade students will begin promptly at 1 p.m. Wednesday examinations will start at 8:30 a.m. Those who take the Wednesday tests must attend both morning and afternoon series.

HARRY K. NEWBURN, Principal

Library Hours Library reading rooms in Macbride hall and the library annex will close at 6 p.m. Aug. 5. They will be open from 8:30 a.m. until noon and from 1 to 5 p.m. Aug. 6. Special hours for departmental libraries will be posted on the doors.

For the three weeks designated as a period of independent study, from Aug. 8 to Aug. 26, the library reading rooms will be open from 8 a.m. until noon, and from 1 to 5 p.m.

The education-philosophy-psychology library will be open from 3 a.m. to 10 p.m. Special hours for other departmental libraries will be posted on the doors.

GRACE VAN WORMER, Acting director

Tuning In with Loren Hickerson

OUR VOTE for the most inspiring radio program of the year goes to the non-commercial hour and a quarter honoring Irving Berlin Wednesday night.

A masterpiece of radio's endless ability, the broadcast switched from New York to Chicago to Hollywood and back again in the presentation of an aggregation of the nation's entertainment leaders I've never imagined could ever be brought together.

Eddie Cantor, Al Jolson, Sophie Tucker, Guy Lombardo, Tommy Dorsey, Alice Faye, Connie Boswell, Rudy Vallee . . . all were there, and so many others I can't remember them all.

Irving Berlin, whom I truly believe is one of the three finest popular song writers in America, if not the greatest, was there himself . . . and there were 30 of the 600 songs he has composed, since his earliest in the first decade of the century.

the most beautiful songs one could hear . . . "Always," "Remember," "All Alone," "A Pretty Girl is Like A Melody," "This Year's Crop of Kisses" . . .

Yet Irving Berlin, according to this week's Radio Guide, can't play the piano; he can't even read, musically, the songs he writes . . .

And while we're indulging in the bad practice of talking about past programs, I thought last Sunday's Charlie McCarthy appearance one of the finest I've ever heard.

Margarette Shanna, the former University of Iowa student, is, we hear, a frequent visitor to the "It Can Be Done" show. She is a good friend of Eddie Galt, poet star who directs the program. They used to work together on the "Welcome Valley" series.

And Guest's program, starring Connie Mack last week, graciously relinquished 15 minutes of its time so that the Irving Berlin show might run over the hour mark.

When "Pepper Young's Family" players are supposed to be eating one of Mrs. Young's famous dinners over the air, they get the effect by chewing gum and speaking their lines between chews.

Andre Kostelanetz' first concert in Hollywood Bowl, in 1936, with Lily Pons as guest soloist, broke all existing attendance records.

The biggest and tiniest singers in radio are the best of friends: 287 pound Amanda Snow and 89 pound Pet La Centra of the "For Men Only" show.

That fireball meteor which flashed across the heavens not only has the astronomers puzzled but, we understand, every big baseball scout in the country is trying to find out who threw it.

AROUND THE TOWN With MERLE MILLER

AND SO TO WORK . . . By the by, a couple of political-minded faculty men, indomitable each, have a wager the losing backer in tomorrow's Chandler-Barkley race will walk downtown carrying a sign, "I'm a Lousy (Republican-or new dealer)" . . . Watch for developments of interest . . .

Columbia, Mo., has three dance restaurants. Why wouldn't Iowa City support one? . . .

At the post office these days they have trouble keeping the stamps from curling. . . . And one university department has a NYAer who does nothing but lick stamps. . . .

And once it took three weeks to send a letter from Iowa City to New York. . . . And now there's university mail. . . . That takes three weeks to send a letter from Iowa City to Iowa City. . . .

And yesterday's mail contained a cheery suggestion from a fan. . . . "I'd enjoy your column more," it said, "were it printed in invisible ink." . . .

C. Bowman has the best male telephone voice I know. . . . As every good radio man knows, a smile penetrates the air-waves. . . . Try it. . . .

A Sarah O. Hulswit, housewife, of Suffer, N. Y., sends me a Women's Rebellion pamphlet. Her platform demands "free enterprise, thrift and the Old American recipes for prosperity." . . . Three we need less of than anything else, as a nation. . . .

In looking over tonight's thesis list, I actually saw half-a-dozen in varied departments with an iota of importance. . . . And there's a card game—mostly bridge—on a certain upper floor of the Johnson County Bank building some afternoons. . . . When the boss's away, the stenographers play. . . .

The even half-dozen campusites who've studied under F. Frankfurter are plugging him in conversation for the supreme court seat. . . . And Ed Eicher's new job will necessitate permanent residence in Washington, D.C. I mean. . . .

OVERHEARD: "His lectures are one long quotation, without the marks." . . . A scout reports grim predictions where Newton's concerned. . . . When the N. G.'s (I mean National Guards) go home, expect a new walk-out, he declares. . . .

Wouldn't He? Bill Borah'd be a good columnist. . . . A Washingtonian says he's the most listened-to, least-respected member of the senate—and the most-feared. . . .

Before the summer's over you'll

Hollywood Sights and Sounds

By ROBBIN COONS

HOLLYWOOD — Mr. David O. Selznick is welcome to step into his own shoes every morning from now on as far as I'm concerned.

Mr. Selznick has very nice shoes, too—the kind a young, ambitious, and successful movie producer can afford. But I wouldn't be in them for ten times the \$50,000 he paid for the privilege of screening "Gone With the Wind."

Little David slew a giant at a bargain. He thought. So did everybody else. From his own little sling he tossed a few golden pebbles, and the best-selling Goliath of modern literature fell in his lap.

Man, was he lucky! "Gone With the Wind" for 50,000 beams! A golden eagle trapped with chicken-feed!

And the You and You and You began dropping him a line. You said you'd like to see Gable do Rhett Butler. You said you'd like to see Miriam Hopkins or K. Hepburn or Bette Davis as Scarlett. You mentioned Norma Shearer also, some of you, and others of you had other favorites. But you cared intensely, and you said so.

Not long ago the "tentative" casting of Gable and Shearer was allowed to "leak" and you've been bombarding Selznick with lines. Miss Shearer is on the spot.

But where David O. Selznick is on the spot, aside from the matter of casting, is 'way down South in Dixie. If Davey doesn't do right by "Gone With the Wind" I'm afraid Dixie is going to secede again—from Hollywood.

Mr. Sunday M. Shipp, editor of the Nelson Ledger-Enquirer at Columbus, Ga., is generalissimo

of a "little nation - wide campaign" to save "Gone" from the kind of "Southern talk" and manners "that have detracted so from a number of otherwise more or less creditable cinema productions and made of them a gross and unfair misrepresentation so far as the South was concerned."

Mr. Shipp was practically forced into command because he made some remarks on the subject at a Confederate Memorial Day gathering in Cusseta, Ga. Some picture interests, he charged, have promoted through their films the idea "that Southerners are no more than a lot of lazy, slow-drawing, sun-basking good-for-nothing, mint-julep-drinking people who bestow the title of 'colonel' upon the one who can say 'youall' the loudest."

And "Gone," he said, was Hollywood's "big, grand opportunity to do the fine square thing and put the taboo once and for all upon the sorry fiction that Southerners have ever had the speech and manners of imbeciles."

Those remarks at Cusseta started something. Widely quoted, they made Mr. Shipp standard-bearer in the campaign, of which the Selznick studio has taken cognizance with heartiest assurances that it will do its best. Knowing Selznick's past camera encounters with literary works, I can join in those assurances.

But as noted, I still wouldn't like to be in his shoes. I can picture him, the evening "Gone" opens in Atlanta gorging on headache tablets, hearing imaginary rebel yell, his baggage packed for instant retreat. (He'd better be packed if Scarlett and Rhett are made to affect phony Southern accents!)

Until a few years ago it was a commonplace for bank and jewel robbers to race out to hidden points on the sound and make their getaway in speedy motor-boats. The most classic example on record was that half-million armed-truck robbery in Brooklyn a few years ago. They never have solved that one. They followed the trail to a ragged point on the sound, where a boat had been cached. But there the trail ended.

Now the Coast Guard has a number of ships, some as long as 300 feet, and armed with heavy guns and anti-aircraft equipment. They have crews of over 100 men and depart regularly on five day cruises. Their range is from New London, Conn., to Cape May, N. J., and as far as 500 miles out to sea.

That must be an exciting task, that job. Because you never know what the next assignment will be. You may be cruising calmly off Nantucket one minute and be after turn runners the next. Narcotic runners have to be taken care of too. And the Coast Guard does a lot of rescue work.

Just the other day a call came through that a robbery had taken place and they thought the robbers were making for the Sound. Within five minutes fast boats were racing to that point from New York and from Connecticut. And at that moment planes began droning over head, blanketing the Sound and taking cognizance of every ship in sight. If they saw a boat they couldn't identify, no matter how small (and that means rowboats and canoes) they made it their business to find who they were and where they were headed.

On this particular call no prisoners were taken because the bandits didn't take off that way. They probably knew better. Once a haven of escape, the Sound is now about as healthy, for fugitives, as a crocodile slough.

Short Short: About a year ago she won a beauty contest and went to Hollywood to become a glamorous actress. They gave her a bit, and then another bit, and probably she could be playing bits yet if she cared for them. But this girl was smart. She realized she knew next to nothing about acting. So she came back to New York. . . . And got a part-time job, and signed up in a school of the drama.

The job she had had was selling cigarettes on a roofgarden at one of the hotels. She wanted to learn all the little tricks of acting before she went to Hollywood again.

But sometimes even an actress' plans get changed. And this girl's certainly are. For she fell in love with the drama teacher and married him. . . . And today she is his assistant, giving instruction to students who want to learn how to act.

Health Hints By Logan Clendening, M.D.

Allergy, or hypersensitiveness, which we have been discussing this week in connection with hay fever, may have many peculiar manifestations. Often puzzling are the skin eruptions that can come from articles of clothing.

"Dress dermatitis" is an entity that should be easily recognized because it consists in an eruption, usually from a dye in the dress, that occurs in sharply localized parts of the skin—places where the dress most often touches and where perspiration may dissolve the dye. These places are around the armpits, the fold of the arms, and the neck. The eruption may extend over the chest, but only to the line where the underclothes come to protect the skin. The eruption has all the features of eczema—an itching, weeping, crusting inflammation.

The eruption around the armpits is most characteristic—it affects the sides and periphery of the armpits, not the pit. This is markedly different from other skin diseases which affect the top of the pit especially.

While the material—silk or wool—of the dress is sometimes responsible, it is usually the dye. This is proved by patch tests—when the dye is laid directly on the skin and covered with adhesive plaster, and left there an hour, the characteristic eruption appears on that spot. Blue dresses are most often implicated, although this is not absolute, and in one patient a blue, black and a green dress all produced the eruption.

Shoe dermatitis is another form of clothing sensitiveness. People with this have an eruption that resembles athlete's foot. And as a matter of fact, many of them are treated for a long time for athlete's foot, until the true cause is discovered. The eruption is likely to be on the side and sole of the foot. The leather, the linings and brown shoe polish have all been found responsible as the cause. One man was found who was sensitive, as shown by the patch test, to leather from 17 different shoes. He has to wear canvas foot covering.

Sock dermatitis also occurs, and should be easy to spot because the distribution of the rash is exactly that of contact with the sock. Dyes, rather than the material of which the sock is made, are the cause, and the cure, logically enough, is to wear white socks.

MacFayden Hurls Victory Over Pirates

Besppectated Danny Puts 4-3 Check On Dash of Pacesetters

BOSTON, Aug. 4 (AP)—Besppectated Danny MacFayden hurled the Boston Bees to a 4 to 3 win over Pittsburgh's league-leading Pirates today, giving him his tenth victory of the season and his fourth straight. He allowed 12 hits but held the Pirates in check in the pinches. Pittsburgh drew first blood in the third when Lee Handley, who got three for five, scored on Paul Waner's long fly. The Bees came back in the same frame as Vince DiMaggio's sixth home run of the season scored Al Lopez and Rabbit Warstler.

Iron Man of Tennis

BOBBY RIGGS, 20-YEAR-OLD CALIFORNIAN—THE 'IRON MAN OF THE COURTS' HE HAS COMPETEED IN 16 TOURNAMENTS SINCE JANUARY, WINNING 12 TITLES

Riggs' Triumph Over Surface Features Meadow Club Meet

Bobby Will Oppose Kovacs Today for 4th Time This Season

SOUTHAMPTON, N. Y., Aug. 4 (AP)—With Bobby Riggs' 6-2, 7-5 victory over Hal Surface blazing the path, four players today fought their way into the semi-final round of the 48th annual Meadow club invitation tournament without yielding a set as they easily disposed of quarter-final opponents.

Riggs was joined in the upper bracket by Frank Kovacs of Oakland, Cal., and the two will clash tomorrow for the fourth time this season. The lower bracket semi-finalists are Sidney Wood of New York and Don McNeill of Oklahoma City, the only unseeded one of the quartet.

The top-seeded Riggs required only 15 minutes to capture the first set from his Kansas City, Mo., rival, and although his task was a bit harder in the second set, he was always in complete command. Surface never once broke through Riggs' service, as the 21-year-old Chicagoan played all corners of the court with precision.

The fifth-seeded Kovacs triumphed, 6-4, 7-5, over Joe Hunt of Los Angeles. He was a master tactician, keeping the ball away from Hunt's strong backhand, but he made numerous errors that shaved down his 5-1 game advantage in the first set and permitted Hunt to hold 3-2 and 4-3 leads in the second.

Wood's conquest of Bryan (Betsy) Grant of Atlanta, 7-5, 8-6, was outstanding. Wood discarded his hard-hitting tactics through most of the match and his soft game so befuddled Grant that the nation's fourth ranking player was repeatedly sucked in for accurate passing shots.

Kelley Checks St. Louis; Nats Breeze In, 10-4

Cubs Score Second Shutout of Series With New Yorkers

NEW YORK, Aug. 4 (AP)—Backing up Larry French's six-hit pitching with a five-run blast in the sixth inning, the Chicago Cubs blanked the Giants 6 to 0 today for their second shutdown win of the current series.

It was the 12th whitewash job painted on the Giants this season, and left them 5 1-2 games behind the pace-setting Pittsburgh Pirates in the National league chase.

Gabby Hartnett's sixth homer of the year, with two aboard, featured the game-winning inning for the Cubs.

Largest Summer Session Convocation to Be This Evening

435 Degrees, Two Certificates Will Be Awarded by University

Prof. Hudson Strode Of Alabama to Deliver Address to Graduates

In a ceremony which will hold the distinction of being the largest of its kind ever to be held on the University of Iowa campus, 435 degrees and two certificates will be awarded tonight as the 1938 summer session of the university comes to a close. This year's record-breaking number of degrees is 29 greater than last year's all time high total of 406.

Prof. Hudson Strode of the University of Alabama, well known educator and author, will deliver the convocation address.

His topic "An Adventure in Understanding: The Importance of Our Friendship with South America," Professor Strode's address will be a plea for American comprehension of Latin America and her importance to this country as a friendly power.

To Be at Old Capitol
Tonight's convocation ceremony will be held, weather permitting, on the west front of Old Capitol. If weather conditions are unfavorable, the commencement exercises will be held in Iowa Union.

A total of 243 persons will receive master of arts degrees this year, almost four times as many as the total number of awards to received in any other group, and almost twice as many as all other groups combined.

Next largest number of degrees will be presented in the bachelor of arts division. Sixty-six will receive that degree. Forty-seven will receive doctor of philosophy degrees and 45 the degree of master of science.

Fifteen persons will be awarded degrees of bachelor of science in commerce; six will receive that degree in chemical engineering and four will receive the degree of juris doctor.

Prof. Shambaugh in Charge
Other degrees to be awarded include one bachelor of science in liberal arts and medicine, two in home economics, three in physical education, one in civil engineering and two in pharmacy.

Two certificates in journalism will be awarded. Prof. Benj. F. Shambaugh will act as tonight's master of ceremonies and Prof. Vance M. Morton as the university marshal.

Following the invocation by Prof. M. Willard Lampe of the school of religion, the summer session band under the direction of Prof. Charles B. Richter will play Moniuszko's "Halka" overture.

The award of certificates will follow the convocation address by Prof. Strode, and President Eugene A. Gilmore will confer baccalaureate and advanced degrees.

Will Be Broadcast
The ceremony will close with the singing of the university hymn, "Old Gold," the benediction and recession.

The entire ceremony will be broadcast by WSUI tonight beginning at 7:45, with Prof. H. Clay Harshbarger of the speech and radio department acting as commentator.

Tonight's convocation speaker is best known for his authoritative books on South America, Cuba and Bermuda.

Most recent among his published works is "South By Thunderbird," published last year, dealing with modern South American life, which has been called "unquestionably the best book on modern South America by the Chicago Daily News."

The book, based upon a trip to that country two years ago, will appear in the Swedish language in October. Professor Strode's works have been translated into Danish, German, French, Spanish and Hungarian.

Known as Critic
"The Pageant of Cuba," a history of that country which appeared in 1934, will be published in German in September.

His next book, "Immortal Lyrics," will appear this fall. Professor Strode is well known as a critic. He has published short stories, articles, poems and reviews in such magazines as Forum, Bookman, Harper's, the New Republic, Saturday Review of Literature, New York Times and Herald Tribune and Scribners.

A graduate of the University of Alabama and Columbia, he was associate professor of English at the University of Alabama from 1916 to 1921, and since that time has been professor of English there.

Convocation Speaker

Prof. Hudson Strode of the English department of the University of Alabama, where he has taught since 1916, will address the summer convocation of the University of Iowa at 8 o'clock tonight on the west front to Old Capitol. dinner in the main lounge of Iowa Union last night.

President Eugene A. Gilmore delivered the only address at the dinner, at which Prof. Bruce E. Mahan, director of the extension division, presided.

Deploring the fact that universities have lost much of the idealism of education, and that, far worse than that, the loss of that idealism isn't realized, the president pointed out that the student body is the most important thing about a university.

"We're too materialistic and matter of fact," he said, urging graduates to seek the "grail of education which embodies the spirit of education."

The president pointed out that the summer student body on the University of Iowa campus has been a cosmopolitan group, coming from 29 states and one foreign country.

Twenty institutions in Iowa and the same number in Illinois have representatives here, in addition to scores of other schools throughout the nation, he said.

He pointed out that graduates

HOSTESS HINTS

Balls of cottage cheese are tasty garnishes for fruit salads. Select firm cheese. Use butter paddles to form the balls.

Use equal parts of lemon and orange extracts when you want to change the flavor of sponge cakes or custard sauces. The combination will give your family a rest from overworked vanilla and lemon.

It takes longer to beat egg whites if the kitchen is hot or steamy. It is best to beat egg whites in front of an open window or out-of-doors.

Always moisten the lower rim of a two-crust pie. Use a few drops of water. Then apply the top crust. Such a procedure forms a seal which aids in preventing the pie filling from running over.

Combine fresh pineapple, strawberries and raspberries. Chill them and serve the combination as a dessert.

Keep a spice mix handy for your breakfast toast. Mix together one tablespoon of cinnamon with one teaspoon each of cloves, nut-

meg and mace. Keep the combination in a sugar shaker.

Children often like banana "boats" filled with frozen foods or fresh fruits. Split bananas in half, lengthwise. Remove the centers carefully. Sprinkle the bananas with a little lemon or grapefruit juice—to prevent the fruit from darkening. Then stuff them with the selected mixture.

Shrimp appetizers are popular on the buffet table. Select firm uniform shrimps, clean and chill. Arrange them in a shallow bowl in which is placed chili sauce, mayonnaise or any other relish. Serve wood picks for spearing the shrimps.

For stuffed celery, use small stalks or cut large stalks into two-inch lengths. Any of the following make good stuffing: chopped pimiento-stuffed olives and minced ham; rouffort cheese and minced parsley; snappy cream, cheese and mayonnaise; finely-minced tuna, celery, pickles and salad dressing; cream cheese mixed with dates and pecans; sardines, chopped shrimps, tuna, salmon or crab added to cream cheese and salad dressing; liver paste mixed with chopped olives and cream.

Death— which never quite caught up with Pearl White in serial movie thrillers of 20 years ago— came to her today in American hospital.

She died of a liver ailment for which she had been under hospital care since early last month. Friends said a private funeral probably would be held Saturday with burial in a Paris cemetery. Twenty-four hours of coma preceded the death of the former film star. Nurses and staff physicians were present.

Miss White had given her age as 49.

(Edward C. White of Springfield, Mo., Miss White's 84-year-old father, said she was 41 years old, not 49, explaining that his daughter had added a few years "to keep ahead of Mary Pickford.")

Long before the American movie had found its voice, comely, blonde, blue-eyed Pearl White had risen from circus bareback rider to typify the ultimate in cinematic thrills—thrills without benefit of a double.

She had lived in France for the last 14 years on a fortune amassed from her film career. A year ago she bought a plot in Passy cemetery, near her Paris town home.

Fire Losses Drop in July

Chief Reports \$27.50 Damage for Month; \$260 for July, 1937

Fire Chief J. J. Clark yesterday reported only \$27.50 was lost by fire in Iowa City during the month of July as compared to a \$260 loss the same period last year.

Thirteen calls were answered by the firefighters during the month, the report said.

Three hundred, forty nine mercantile buildings, five theaters, 32 apartment houses and 18 gas stations were inspected by the fire department in the downtown business section.

Four hundred four inspections and 211 recommendations were made during the month. Fifteen notices were served after inspections.

men were on hand to keep some sort of order.

The roar of the reception at the pier was so overwhelming that the sturdy flier, his long smile fading perceptibly for a moment, looked awed at the scene about him and murmured:

"Gee, I never thought it would be like this for me."

He was not able to leave the liner for some time after she docked, so persistent was the adulation of the crowd for him. He had to go back to his cabin for a time to escape, members of the official committee going along to guard his door.

Corrigan from all over the nation and Irishmen from virtually every country in the "auld sod," raising their voices in every known brogue, boarded the Manhattan to greet the flier. Twenty-seven of these Corriganes were New York City employes.

The Corrigan was raised to the burly shoulders of Brooklyn and Manhattan admirers and tossed about as no winds had buffeted

Others to Be Named in Trial of James Hines, Tammany Leader?

Thomas Dewey Prosecutor . . . anti-Tammanite

Justice Ferdinand Pecora New Dealer . . . trial judge

James J. Hines Tammany leader . . . central figure

Lloyd Paul Stryker . . . heads defense counsel

J. Richard (Dixie) Davis

New York has been waiting with unusual interest disclosure of names of judges allegedly influenced in the case of James J. Hines, Tammany leader, accused of participation in a huge policy racket. Justice Ferdinand Pecora, new dealer, brushing aside arguments of Hines' defense coun-

sel, Lloyd Paul Stryker, ordered a special "blue ribbon" jury. Then the justice directed that District Attorney Thomas Dewey supply by Aug. 2 a list of judges as being subject to the alleged influence, coercion or bribery of Hines or others. Dewey had not desired to make these names public until

Hines' trial, Aug. 15. Hines' counsel, asserting the defense was entitled to a knowledge of all charges, pleaded for the names. Meanwhile, J. Richard (Dixie) Davis, one-time lawyer for the late Dutch Schultz and accused with Hines and two others in the policy racket case, has turned state's evidence in the prosecution of

Hines. Davis made the move after a series of bargaining conferences with Dewey. Davis was promised leniency and allowed to visit his sweetheart. Since, he has been paroled. If the trial should result in a conviction, it is presumed that Dewey would be nominated by the republicans for governor.

him on his way east and no waves on his way west.

Policemen, firemen, political office holders, big men, little men—but almost all Irishmen—milled about the 120-pound flier, wringing his hand, hugging him, slapping him on the back.

Stanley Howe, the mayor's secretary and representative, explained that Brooklyn and Manhattan, rivals for days for the honor of celebrating Corrigan's arrival, had

"become one again to welcome you."

Corrigan's grin widened and he said, "I'm glad to hear that."

Frank Tichenor, representing "all American aviation," was pushed through the crowd. He said, "We knew you could do it, Douglas."

"Then you knew more than I," responded Corrigan with a chuckle. Much of the time he appeared so delighted and overwhelmed with the attention he received that he could only giggle.

Two Armies In Bitter Struggle At Ebro River

HENDAYE, France (at the Spanish frontier) Aug. 4 (AP)—Spanish government and insurgent armies locked in a bitter struggle along the Ebro river today with a battle decision still in doubt while government troops thrust forward to gain the advantage in their Teruel-Albarracin offensive.

The main strength of Insurgent Generalissimo Francisco Franco's northern armies was concentrated before Gandesa, center of the Ebro fighting in eastern Spain, doing the utmost to block further progress in that sector.

West of Albarracin, however, Gen. Jose Miaja's central government armies reported another victory behind Villar del Cobo which government reports said brought them to the outskirts of Albarracin itself.

155 Licenses To Fish Issued By Recorder Here

One hundred and fifty-five fishing licenses were issued by County Recorder Dick Jones during July. The number is the smallest issued during any month this year.

Ninety-four combination hunting and fishing licenses were sold at \$1.50 during the period. Three hunting licenses were also issued, at \$1 each. The fishing licenses also cost \$1.

Two non-resident six-day licenses were issued during the month, and one non-resident season license was sold.

Total revenue from sale of the licenses amounted to \$304 during the month. The June total was \$870.50.

Roosevelt Says Good Neighbor Policy Working

BALBOA, C. Z., Aug. 4 (AP)—President Roosevelt said today that by and large the good neighbor policy in the America's was working out very well.

The statement was made at a press conference shortly after the chief executive arrived here in glowing health from a 19-day fishing trip in the Pacific.

Wearing an open-necked sport shirt, Mr. Roosevelt received United States and Central American newsmen aboard the Houston.

Circus Day? Sure Thing Show Delays Tour To Reorganize At Winter Quarters

The Cole Brothers circus may still appear in Iowa City this summer, although the show date may be delayed by a week or so, according to word from Rochester, Ind., last night.

Company officials said the show will remain at its winter headquarters at Rochester for a few days to cut down on personnel and attempt to iron out labor difficulties and then resume its tour, officials said.

Bad weather has cut down office receipts for a good part of the summer, it was said.

The show is scheduled to give a street parade and two performances here Aug. 17.

Tokyo Reports Gains in China

SHANGHAI, Aug. 5 (Friday) (AP)—A band of 3,000 Chinese guerrillas was reported surrounded and facing annihilation today by Japanese forces in the Hangchow area, 100 miles southwest of Shanghai, territory normally under Japanese control.

A Japanese army spokesman said that additional scattered guerrilla forces had been crushed in that sector and that the Chinese hit-and-run campaign there was doomed to speedy termination.

On the other hand, Chinese military leaders reported their mobile forces were dealing increased

punishment to the invaders moving up the Yangtze river toward Hankow, provisional capital, and in other main centers of combat. Yangtze river floods aided the Chinese, who said dikes broken by rising waters 30 miles above Kiukiang had inundated large areas and threatened to block the Japanese advance.

Japanese naval authorities reported their air force had sunk another Chinese gunboat and 14 munitions-laden junks above Kiukiang.

Dogs Don't Count

PARIS (AP)—Slander law does not apply to animals, say the courts here, and a woman who said her terrier lost prize ribbons at a dog show because of "slanderous statements," failed in her case.
