## Frey Says Lewis' CIO Honeycombed With Communists

### Testifies To House Group About Rivals

#### Head of Department In A. F. of L. Says Lewis Not Communist

WASHINGTON, Aug. 13 (AP)—John P. Frey of the American Federation of Labor charged today that John L. Lewis' rival labor organization was honeycombed with members of the communist party, whose purpose he said was revolution.

Informing a house investigating committee that 280 communist party members were or had been on CIO payrolls as organizers and officials, he added "in fairness" that Lewis himself and the majority of his followers were opposed to communism.

Frey, chief of the metal trades department of the A. F. of L., peered gravely over his spectacles and waved an unlighted cigar in vigorous emphasis as he told the committee:

"It's time the public knew the truth about efforts of the communist party in the United States to carry out the purpose of Moscow and the Third International, which purpose is revolution."

Held in Check  
For 20 years, he said, the American Federation of Labor had held communist influences in check in the American labor movement.

But the communists had gained a foothold in recent years, Frey charged, through their influence in and in some cases domination of CIO unions.

In addition to charging that 280 communist party members were or had been on CIO payrolls, he gave the committee a list of 60 others high in the CIO ranks who, he said, were communists or closely linked with communism.

Among these were John Brophy, a CIO director; Francis Gorman, international president of the United Textile Workers; Wyndham Mortimer, vice president of the United Automobile Workers of America, who, Frey said, was a communist official elected recently under the party name of George Baker; and Harry Bridges, chief of the Maritime Union of the Pacific.

Frey produced in evidence what he said was a photographic copy of Bridges' party membership card.

Promises Names  
Names of 230 more communist volunteer workers in CIO affiliates were promised by Frey when he resumes testimony next week.

Chairman Dies (D-Tex), of the investigating committee, said names of the complete party membership had been obtained and would be introduced as evidence.

"They run into the thousands," he said, without disclosing how the committee obtained the documents.

"I've only skimmed the surface," Frey said when he concluded four hours of testimony.

The rise of communism in the American labor movement, Frey said, dated from 1935, when "the communist party in the United States completely scrapped its program so that it could secure a controlling position within the CIO."

That was the year of the communist international congress in Moscow, in which communists were instructed to discard many old precepts and join with instead of opposing groups and parties with democratic interests.

Bomb Central China  
SHANGHAI (Sunday) (AP)—Japanese reported today that their planes had bombed a number of central China points in moonlight raids last night.

### LAYING PLANS

#### Filipinos Will Safeguard Their Patrimony

MANILA, Aug. 14 (Sunday) (AP)—President Manuel Quezon said publicly today the Filipinos were "laying plans intended to safeguard our patrimony."

The chief executive of the Philippine commonwealth made the statement in an interview with Paul V. McNutt, American high commissioner, in a broadcast to the United States.

He spoke in connection with the celebration of the fortieth anniversary of American occupation.

### Europe Would Avert Coup

#### Fear Nazi Stroke On Czechoslovakia After Preparations

LONDON, Aug. 13 (AP)—Germany's preparations for nationwide military maneuvers have put other European powers on an unusually vigilant lookout to prevent anything which might lead to a swift Nazi stroke against Czechoslovakia.

Reassuring reports, however, reached European capitals from envoys in and around Germany. Moreover, Germany, in a Berlin press release today, sought to allay suspicion over the military exercises which are expected to reach their peak between Sept. 9 and 14.

The press release, made available to all German newspapers by DNB, German official news agency, accused "interested foreign circles" of attempting to stir up uneasiness in the European general public.

Nevertheless, the high government and military officials of other nations kept their staffs in a state of preparedness.

Fear Incident  
Their chief fear was that some incident might topple the delicately balanced peace structure of Europe. Closely linked with the fear was the fact that Germany's whole economic life as well as military was on a wartime basis.

The British war office warned all Britons holding military rank that they must get special certificates in order to avoid "trouble" if and when they travel in Germany. This resulted from a recent German order to guard the secrets of her fortified zones.

All quarters recognized that Europe faced a crucial period in the next few weeks of summer with peace possibly hanging upon Viscount Runciman's efforts to work out a solution of the Czechoslovak-German minority quarrel.

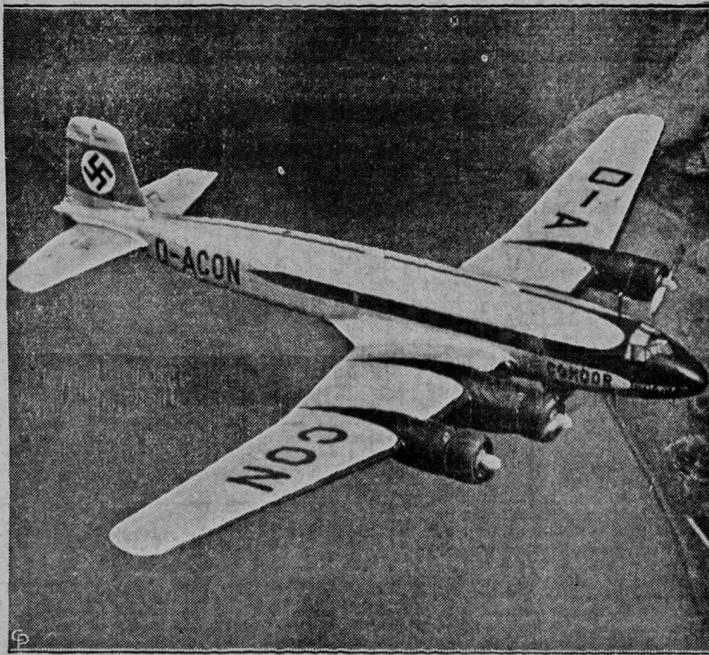

Is Mediator  
The viscount is Britain's unofficial mediator in the long-standing friction between the Prahva government and the 3,500,000 Sudeten German minority—a minority among Europe's Germanic peoples whom Reichsfuehrer Adolf Hitler has vowed to "protect from suffering."

The German maneuvers served as an ominous reminder of what form that "protectorate" might take if Viscount Runciman fails.

General anxiety was reflected in continued heavy buying of gold in London as a security against political-financial developments. Sales today totaled 1,358,000 pounds (about \$6,748,000). The price reached 142 shillings, nine pence an ounce (\$34.7774), a penny higher than yesterday.

Czech Officials Confer  
PRAHA, Czechoslovakia (AP)—Czechoslovakia's minister to Berlin conferred with government leaders yesterday and observers believed their talk centered on the forthcoming German army maneuvers.

## German Plane Spans Atlantic on Home Flight

The German plane, Brandenburg, in flight

Germany's latest contribution to the 1938 aviation record, the Brandenburg, 24-passenger transport plane, which hopped across the Atlantic in 25 hours, is pictured in flight. The Brandenburg is the first plane to make the east-west crossing from Berlin to New York. Last night the airplane was in mid-Atlantic, homeward bound.

## German Plane Homeward Bound

### 'Brandenburg' Reports 'All's Well' at Half-Way Point on Return Flight

BERLIN, Aug. 14 (Sunday) (AP)—The German airliner Brandenburg reported at midnight (5 p.m. C.S.T.) that she was approximately half-way home on her nonstop return flight from New York to Berlin.

The midnight report gave the plane's position as 50.17 north latitude and 34.05 west longitude and said she was flying at 4,000 meters (13,120 feet) altitude.

Coast guard headquarters in New York picked up a series of "all's well" messages from the giant German airliner today as it headed out over the ocean toward rain squalls on the 13th trans-Atlantic flight of the summer.

The all-metal plane, homeward bound on a round trip flight between Berlin and New York, wirelessed its position at frequent intervals as it droned past Cape

Race, Newfoundland, and swung out along the great circle route. Rain and low clouds were forecast over the ocean, but Capt. Alfred Henke said he planned to fly 2,000 to 3,000 feet higher than on the westward passage in an attempt to beat the record of 25 hours, 45 minutes, established by the late Wiley Post on the first leg of his "round-the-world" flight in 1933.

### WORKING MAN

#### F. R. Begins Task Of War Problems

WASHINGTON, Aug. 13 (AP)—President Roosevelt gave attention today to the problem of safeguarding the life-line of the nation's industry—electric power—in time of war.

For years, war department strategists have hoped for a stronger system of power transmission between such big industrial centers as Philadelphia and Baltimore, Newark and New York, Cleveland, Buffalo, Rochester and Detroit.

Sabotage or aerial destruction of the power facilities of any one of these cities could isolate them electrically, the strategists argue.

### Two Americans Die in German Airliner Crash

KEHL, Germany, Aug. 13 (AP)—Two Americans were among 16 persons killed today when a Czechoslovak air liner crashed on a mountain top here in a fog and exploded. It was the republic's worst aviation disaster.

Air line officials in Praha said the Americans were Dorothy Cohen and Moritz Abeles, both of New York.

The only survivor was Martha Krentner, 23, stewardess, who was thrown from the plane and left hanging on a tree branch 20 feet above the ground.

Other identified victims of the ill-fated Praha-to-Paris liner were Harold Frank, a Czechoslovak cameraman attached to the Praha branch of Fox Movietone, and Margaretha Than, Vienna film actress known as Grit Hald.

## Preparation for Fall Political Campaign Begins in Des Moines

### Prison Mates Dwyer, Carroll Live In One Cell-Block

THOMASTON, Me., Aug. 12 (AP)—A prison cell's barred door clanged shut today on Maine's prisoner No. 6907—Francis M. Carroll, 43, sentenced to pass the rest of his "natural life" in the state penitentiary here for the murder of Dr. James G. Littlefield, 67.

In the same cell-block was Paul N. Dwyer, 19, also under life sentence for murder—the same strangulation for which Carroll, a one-time law officer, was convicted at his native South Paris last night.

For 10 days, at least, said Deputy Warden Stanley A. Macgowan there was little chance Carroll would meet the slender boy whose accusations founded the state's case against him.

During that period, the official said, Carroll would remain "in solitary" for the customary medical quarantine.

Afterward, Macgowan said, he "probably" would work on the rock-pile until officials had determined to what kind of prison labor he was best suited.

Dwyer, as the state's star witness, testified he had pleaded guilty to garrotting "Doctor Jim" in the Dwyer Paris Hill home 10 months ago tonight solely through fear Carroll would slay him.

Within "three or four minutes" after Carroll's arrival at prison, Dwyer knew of it, Macgowan said, but showed "no reaction."

## Republican Session Under Way, Demos To Deliberate Wed.

By JOHN CHAPMAN  
DES MOINES, Aug. 13 (AP)—Most of the heat was coming from Newton, but the Iowa political pot was beginning to boil here today in preparations for the fall campaign.

Candidates making up the republican state ticket met here today to map a plan of action. Members of the republican state central committee were to join in the deliberations tomorrow.

The democratic state central committee will be here Wednesday for a similar session.

These conferences will determine much of the strategy which the two major parties will attempt during the weeks leading up to the election November 8.

Iowa this year elects a United States senator, governor and other state administrative officers, four supreme court justices, nine congressmen, and a full slate of county officials.

Everywhere today were indications that the summer long labor strife involving 1,500 employees of the Maytag Washing Machine company at Newton would be a major issue in the coming fall campaign.

By process of evolution, the dispute which began quietly enough May 9 when the men walked out in protest against a 10 per cent wage cut, has resulted in nearly every complication which might arise.

## Group Adjourns Before Replacing CIO Contract

### Party Sights Burning Plane In Mountains

#### Believe All Aboard Mexican Airliner Killed in Disaster

MEXICO CITY, Aug. 13 (AP)—The burned wreckage of a missing Compania Mexicana de Aviacion air liner was sighted late today in a deep mountain gorge near the southeastern gulf coast of Mexico.

The 11 persons aboard when the liner disappeared yesterday in a severe storm were all believed to have been killed.

Capt. Luis Boyer, chief of pilots for the air line, reported the plane was found about four miles from Apalapan, in the Tuxtla mountains of Veracruz state.

The ship was directly on its route from Villa Hermosa to Mexico City when it plunged into the gorge.

Ground parties were organized and started immediately toward the scene, about four miles east northeast of Tlacotalpan, on Alvarado bay in southeastern Mexico.

The country in the vicinity is mountainous, with numerous risky gorges making it difficult to negotiate the distance.

An airways official said he believed all the passengers were Mexicans except one who was booked as Eugene Carlson. His address is not known.

The report that the wreckage had been sighted was the first word of the plane since its radio became silent at noon yesterday after reporting it was encountering rough weather.

### Wage-Hour Bill May Affect Four Million More

WASHINGTON, Aug. 13 (AP)—Labor department officials estimated today that as many as 4,000,000 workers—about 1,750,000 more than congress counted on—might obtain shorter working hours ultimately under the new wage-hour law.

Estimates as to the maximum number who would receive wage increases by the time the law's provisions for a general 40-cent-an-hour minimum takes effect—in 1945—remained unchanged at upwards of 1,000,000.

Officials said the upward revision of the number to receive shorter hours resulted largely from two factors:

1. A narrowing of the interpretation of "seasonal" industries which are exempt from the law's regulation of hours.

2. Indications that many employers, in a so-called "twilight zone" of uncertainty as to whether they were subject to the law, would comply with its provisions.

### SCHOOL DAYS Welfare Workers School Will Open

DES MOINES, Aug. 13 (AP)—County board of social welfare and their employees, together with staff members of the state board, will attend a school Aug. 25, 26 and 27 at Ames, state headquarters announced today.

County welfare directors and investigators will be required to attend the sessions, A. J. Draper, educational director for the state board of social welfare, said.

Prof. G. D. Haskell of the State University of Iowa has spent the summer in a study of the Iowa set-up. He is expected to report a plan for better coordination of the state program with the federal branch when the welfare workers meet at Ames.

### Senator Minton Hits Papers

#### Says News Control In Hands of Wealth And Selfish Forces

NEW YORK, Aug. 13 (AP)—Sen. Sherman Minton, Indiana democrat, told a luncheon of newspaper men and women today that American newspapers "are big business and they give the people . . . today what they want of the people to think tomorrow."

The newspapers, he said, are controlled "by wealth and selfish forces," by the money of men who, in his opinion, "would not scruple to throw this country into fascism rather than surrender their privileges."

In an open forum after he delivered his prepared speech, Senator Minton said in response to questions:

"I think the majority of newspapers are on the up and up. I think the great majority of working newspaper men and women are on the up and up . . ."

The senator addressed the American Press society, Paul Scott Mowrer, president of the society and editor of the Chicago Daily News, who introduced Minton described the organization as "a national professional organization of working newspaper men and women . . . dedicated to the belief that theirs is an honorable profession which is in the nature of a public trust."

In the question period several members of the society expressed disagreement with Senator Minton's criticisms, declaring that in years of newspaper work they never had been asked to write an untruth, or distort a news story.

Iowans Hold Reunion  
LONG BEACH, Cal. (AP)—Thousands of former Iowans, visitors from Iowa and their friends, came into Bixby park yesterday for the annual summer picnic of the Iowa association of California.

Fire Destroys Barn  
CRESCO (AP)—Fire of unknown origin, breaking out about 1 p.m. yesterday, destroyed a large barn filled with hay, a granary, wood pile and straw stack at the farm of Joe Miller, 11 miles west of Cresco.

## Sac and Fox Indians to Forget Ways of White Men for Four Days During 25th Pow Wow

TAMA, Aug. 13 (AP)—For four days, beginning Aug. 18, ways of the white man will be forgotten while the dull beat of tom-toms and weird Indian chants are heard on the Sac and Fox reservation near Tama.

The Mesquiques will be having a silver jubilee pow wow. They have taken long strides forward since the first pow wow 25 years ago when they endeavored to show visitors the ceremonies of their forefathers. In those days the pow wow lasted a week and consisted of little more than dancing, with the Indians per-

forming in the hot August sun on a "baked" plot of ground.

Next Saturday and Sunday, the last two days of the red men's show, they will present a special jubilee feature, a historical pageant depicting early Indian life in beautiful native scenes and "early modes of travel" in five episodes. Real Indian ponies will be used in scenes showing the movements of the Sacs and Foxes across the prairies.

Little papposes of the reservation are being spruced up to appear in the Indian baby health contest on Saturday. Physical examinations will be in charge of Dr. Ira D. Nelson, reservation superintendent, and Clara Anderson, Tama county health nurse.

Ceremonies Thursday will begin with the Friendship dance, a greeting to visiting tribesmen, and the exchange of gifts. While a group of men sit in a circle chanting and pounding the tom-tom with a leather-covered beater, young and old braves will present a rare and colorful picture as they dance, arrayed in purple, orange, red and every bright hue known.

# Spanish, Chinese Battles Are Test-tubes of War as Europe Prepares—Just in Case

### By RADER WINGET

LONDON, Aug. 13 (AP)—Mimic battlefields of Europe are reounding with grim practice for the "next war," making use of deadly lessons learned in Spain and China.

This does not mean another war necessarily is coming, or coming soon, but Europe is making ready just in case.

Shanghai and Madrid, Nanking and Bilbao constituted the test-tubes of war in which general staff officers have tried weapons and tactics designed since the

World war to kill more swiftly. And world powers through the eyes of their military observers have watched closely.

From those battlefields and others have come startling facts to change war-making plans of the world.

One eminent military authority said the general staffs of Europe are simply whistling in the dark. They don't know what is coming or how to meet it.

But nearly all agree that the next war, when or where no one knows, will be won in the end

by the balance of economic power as was the last World War.

The two most important new factors, as far as known now, are airplanes and the mechanization of armies for quick transport.

Highest military authorities of half a dozen powerful nations agree in principle on "how to wage a war" but differ widely on details.

Most of them anticipate a lightning-like thrust which would crush one side almost instantly, but failing that they believe there will be a lengthy campaign in-

corporating all the horrors of war and ending in utter collapse.

As to war weapons they see: 1. Tanks, extremely vulnerable against anti-tank gun defenses, as future auxiliary units.

2. Airplanes, as yet incompletely tried in warfare, as an unknown force with terrific potential destructive power.

3. Machine guns, the greatest weapon to come into general use out of the World War, as a powerful death-dealing instrument in the hands of almost every soldier.

4. "The iron horse," mechanization of armed units, as a means of tripling the speed and casualties of war.

There have been more preparations for the next war than probably any war in history.

Soldiers, weapons and tactics have been tried recently in Palestine, Waziristan (where British troops put down northwest tribesmen), Changkufeng, Ethiopia and the Gran Chaco of South America in addition to major wars in Spain and China.

Small mobilization tests have been carried out under wartime

conditions during political quarrels between nations.

Those powers which have not tried their weapons against human targets are holding tactical war games like the United States.

The generals all seem satisfied the next war will come with even more swiftness than the Germans marched into Belgium 24 years ago.

Then an army could move only 15 miles a day. Today mechanized units can race sometimes 50 or 100 miles daily.

General staffs expect four stages in the next war:

1. The first is expected to consist of open field maneuvers, as in the American war between the states but with a tremendously accelerated tempo. Such maneuvering in the World War lasted about three months before trench warfare started. Similar but faster open maneuvering probably would last six months next time unless a knockout blow ended the war quickly.

2. Trench warfare is expected as the second stage. It will be much the same as the last war but with dread new weapons.

3. The third stage would come when one side smashes the trench system and breaks through for more widespread field maneuvers.

4. The fourth stage really coincides with the other three, envisioning a constant aerial bombardment of capitals, industrial centers and staff headquarters.

Each country of Europe is prepared to fight in any manner on any frontier and all realize the four-step character of tactics. The long-drawn fighting in Spain and China has weakened the lightning-bolt theory.

# Expect 400,000 Attendance at Great Centennial State Fair

DES MOINES, Aug. 13 (AP)—State fair executives today pushed final preparations for the annual exposition, beginning August 24, with the prediction this year's attendance would be swelled to 400,000 by the centennial celebration.

Livestock entries have "fairly swamped" the state fair offices, officials reported. Numerous former Four-H club boys who are now breeders and exhibitors on their own will vie in the showings with exhibitors of former years and others showing at the

fair this year for the first time. The first entertainment programs begin two days earlier at this year's fair. August 24 and 25, formerly preparation days, have been designated "Centennial Pageant Days." On those two nights the statewide territorial centennial pageant, "Cavalcade of Iowa," with a cast of more than 1,000 characters, will be presented in front of the grandstand.

Officials also announced a change in the program of the final day, Friday, September 2. Heretofore the fair has ended at

4 p.m. This year there will be auto races in the afternoon and there will be an evening program consisting of a "musical extravaganza," centennial fireworks, open air circus and other special festivities.

The annual "Thrill Day" will be Saturday, August 27. Last year the Thrill Day was on Sunday. Auto races will be held on Sunday afternoon this year.

Other special days at this year's exposition follow:

Friday, Aug. 26—Children's

Day; Saturday—World War Veterans' and Press Day, with free admission for war veterans and special entertainment for Iowa newspaper editors.

Monday—Farm Bureau Day; Tuesday—"California Day," featuring the California picnic to which native Iowans have been invited to return from the west coast, and Old Soldiers' and Spanish War Veterans' Day, with free admission to Spanish war veterans.

Wednesday—State Day and Iowa Four-H Club Day, with club

members who have completed their record work as the fair's guests.

Thursday—"Pioneer Day," featuring centennial exhibits and events.

Officials estimated that more than a million dollars worth of fine stock would be on display when the fair opens. Many of the top ranking show herds of the country are listed among the entries, they reported.

Iowa entries in the Hereford show include Hillandale farm, Muscatine; C. A. Meyer of Belle-

vue and Ed Weise and son of Manning.

Matt Baker of Mitchellville will present his 61st showing in the Angus division of the competition. Elliot Brown of Rose Hill, former Four-H club boy, also will show in that classification.

Entries in the Jersey show include the Campbell Jersey farm of Jesup, and Graceland college, Lamoni, while in the Guernsey division one of the outstanding entries will be the herd of the Ft. Dodge creamery.

Percheron horse show exhib-

itors will include Ward Dyer of Pleasantville, E. F. Dygett of Manchester and F. Berkey and son, Ankeny.

C. G. Good and son of Ogden, winner of the Breeders' Banner for several years, will return this year with 20 head of Belgians. Frank Laverty of Indianola, also will show in that division.

Shire breeders entered include F. A. Huddleston of Webster City, Henry McCracken and son, Gowrie, D. B. Coon, Carlisle, and Fox Chemical farm, Des Moines. Exhibitors in the Clydesdale show

include H. E. Jarard, New Sharon; Stringham brothers, Dexter; and Charles Willhoit, Batavia.

Swine show entries include: Poland China—S. B. Hudson and sons, Montezuma; I. J. Conrad, Melbourne; H. Menough, Grimes.

Duroc—C. D. Giltner and son, Ottumwa; Henry county home, Mount Pleasant.

Spotted Poland China—Willard McClanahan, Bondurant; Miles M. Mann, Woodbine. Hampshires—Edward Morrissey and sons, Valeria.

## Miss Coultas, W. F. Morrison Take Marriage Vows at Moline

### Iowa Graduates Wed At Home of Bride's Parents Yesterday

The home of the bride's parents, Mr. and Mrs. Wilbur J. Coultas of Moline, was the scene of the wedding of Elizabeth Jane Coultas and Attorney William F. Morrison, son of S. T. Morrison, 515 N. Dubuque street yesterday. Nearly 100 guests attended the ceremony.

The bride was graduated from the University of Iowa in 1936 with a bachelor of science degree in physical education. She was a member of Alpha Delta Pi social sorority, Y.W.C.A. and Seals club.

Attorney Morrison was graduated from the university receiving a B.A. in 1935. He graduated in 1937 from the college of law, attended the Baltimore Bonding school in the fall of 1937 and is now practicing law in Iowa City. He was affiliated with Beta Theta Pi, social fraternity.

The couple will reside in Iowa City after Sept. 1.

ment are listed for remedial care, she added.

"These men and women are much more interested in restoration of their sight than in the prospect of pensions," she said. The state blind division paid 1,204 pensions Aug. 1 and had 577 other applications for pensions pending on that date.

Mrs. Regel told of a 74-year-old woman who recently underwent a cataract operation in which such a material improvement in sight is promised that she probably no longer will be eligible for a blind pension. The case probably will be transferred to the old age assistance rolls, Mrs. Regel said.

## Theater, Union Air Cooling Made Possible

### University Receives \$15,750 Grant From PWA for Project

A step was taken yesterday toward what has long been regarded a vital improvement to two University of Iowa buildings.

A PWA grant of \$15,750 to the university received presidential approval, it was announced by the Associated Press. The fund will help defray the cost of air conditioning University theater and a part of Iowa Union.

University officials said that work will start immediately, enabling the project to be completed by spring.

The total cost of the project is expected to amount to some \$35,000. The PWA will pay 45 per cent of this amount.

Present plans call for air conditioning the auditorium of the dramatic arts building, seat of all University of Iowa theater plays, and the main lounge and dining rooms in Iowa Union.

Iowa Union, the social hub of the campus, has often been criticized for lack of adequate ventilation for university parties, concerts and lectures.

University theater has also been criticized for lack of ventilation.

## Sight Again 13 Get Treatment For Blindness

DES MOINES, Aug. 13 (AP)—An eye operation, so that he can continue to earn his own living. . . . Removal of a cataract to enable her to support herself and her child in a job as housekeeper.

Iowa blind pension officials today reported they have 13 cases of afflicted persons under treatment in which at least partial restoration of sight is the goal.

Many of the requests, the officials said, came from persons who did not want blind pensions but operations or treatment which will help them to see sufficiently well to take care of themselves.

The so-called "remedial program," just beginning under the relatively new Iowa blind pension law, permits the state division to provide that kind of assistance if the applicants are citizens, residents and in need.

Ten of the cases thus far listed require cataract operations, Mrs. Bessie Regel, blind division official, said. Only those cases offering a reasonable hope of visual improve-

## Memories of Vienna 'Putsch'

Rudi and Eva Dollfuss

Two children of the late Engelbert Dollfuss, one-time Austrian chancellor who was murdered in the 1934 "putsch" in Vienna, now seek refuge in England. They are

## HOSTESS HINTS

Warm summer days call for cool refreshing foods, and sandwiches prove to be real standbys. They may be varied to fit into practically any meal, snack-time or refreshment menu. Plump, hearty sandwiches are popular for summer lunches while dainty open-faced ones are perfect to serve with iced drinks in the late afternoon.

Sandwich making gives a woman's imagination a chance to reveal. There are no end of tasty fillings. If you let your inventive feelings have their way, you can concoct many different and delicious spreads. For instance, using cream cheese as a foundation, many delectable variations may be made. Scraped cucumber, peanut butter, jam, dates, green pepper or shredded pineapple may be added to the cheese which has been combined with a little milk or cream to make it light and fluffy.

Variation in sandwiches is not confined to the fillings. Delightfully different ones are made from orange bread, pecan butterscotch bread, chocolate bread and banana bread. A filling of chopped dates and nuts, moistened with mayonnaise, is especially nice with orange bread. A good filling for nut bread sandwiches is quince or currant jelly.

Vegetables have invaded the sandwich field and now-a-days a sandwich tray is not complete without some sort of "garden" sandwich. A delicious one is made of diced cucumber, finely shredded carrot, chopped tender spinach leaves, finely minced chives and mayonnaise to moisten.

On hot midsummer days no one has the energy to make difficult sandwiches, yet every hostess wishes her sandwich tray to look attractive. Clever ones can be made for a bridge party with little effort, by cutting the sandwiches with bridge cookie cutters. Some of the sandwiches, too, could be open-faced "finger" sandwiches, which are simply narrow strips of bread spread with sandwich filling.

Doughnut and biscuit cutters may be used to make attractively shaped sandwiches. Cutting them in different ways takes such a little time and adds so much to their appearance and appetite appeal.

A sandwich loaf is very nice for party refreshments and here is a new way to serve it. Instead of cutting servings from one large loaf, frost individual sandwiches with cream cheese. They help to make a pretty party table. Decorate the individual plates with sprigs of parsley and radish roses.

## PERSONALS

Mr. and Mrs. Harry L. Johnson, 848 S. Summit street, left Iowa City yesterday morning on a motor trip to Providence, R. I. Mr. Johnson will make a continuation of his studies of university libraries, under the Carnegie foundation. They will be gone about a week.

Twin sons were born to Lieut. and Mrs. Robert E. Griffin of Ocean Port, N. J., July 29. Both Mr. and Mrs. Griffin were University of Iowa graduates, Mrs. Griffin being the former Margaret Hutchison. The twins have been named Thomas Raymond and Robert William.

Mrs. C. H. Block and son David left this morning for Grand Rapids, Mich., where they will make their home. Mr. Block will follow at the close of the summer school and will take up a law practice.

Mrs. C. G. Pratt concluded a six weeks visit Wednesday with her son-in-law and daughter, Mr. and Mrs. H. G. Rummells, 415 N. Van Buren street. She will be the guest of Mr. and Mrs. Irwin Aikins in Davenport and other relatives and friends in Urbana and Chicago, Ill., before returning to her home in Tuckahoe, N. Y.

Mrs. Mary Swab and her granddaughter, Eunice Parizek, 719 E. Fairchild street, are guests in the home of Mr. and Mrs. George Swab in Cedar Rapids. Miss Parizek will also spend some time in the home of Mary Jane and Betty Ann Klines in Cedar Rapids.

Lavona Kohl left Thursday morning for Westwood Village in Los Angeles, Cal., after a 10 day visit in the home of her parents, Mr. and Mrs. W. G. Kohl, 414 N. Van Buren street.

Ethel Mae Huges, 420 E. Davenport street, is the guest of her uncle and aunt, Mr. and Mrs. George Hughes of Arlington Heights, Ill. She plans to remain there three weeks.

Mrs. Barbara Kohl and her grandson, Ted Holub of Cedar Rapids are visiting in the homes of Mrs. Kohl's two sons and daughter, Leo H. Kohl, W. G. Kohl and Mrs. George J. Unash.

**See Nazi Railroads**  
BERLIN (AP)—More than 200 English railroad officials are visiting Western Germany to observe Germany's new railroad and auto road systems.

(These are made by cutting "petals" or slicing down around the radishes and placing them in ice water until ready to serve.)

Since the bread in party sandwiches is sliced very thin, it is best to use bread that is a day old. Sandwiches may be stored for a few hours by covering them with a clean damp cloth and placing in the refrigerator.

## Iowa Student Weds in Neb.

### J. Edgar Blumgren, Dorothy Frazier Marry at Omaha

Frazier-Blumgren Married July 12 in Omaha, Neb., were Dorothy Frazier, daughter of Mr. and Mrs. A. R. Frazier of near Logan, and J. Edgar Blumgren, son of Mr. and Mrs. J. Blumgren of Logan.

The bride is a graduate of Logan high school and Iowa State college at Ames. Later she was employed in the Harrison county AAA office.

Mr. Blumgren is also a Logan high school graduate. He is a student in the college of medicine. The couple will be at home in Iowa City.

**Brynteson-Gruber**  
In a double ring ceremony solemnized June 26 Harriet Helen Brynteson, daughter of Mr. and Mrs. Charles Brynteson of Sac City, became the bride of Dr. M. D. Gruber of Spencer, son of the Rev. and Mrs. J. W. Gruber of Allerton. The marriage ceremony was performed at the home of the bride's parents with the bridegroom's father officiating.

Mrs. Gruber is a graduate of the university, where she became a member of Alpha Delta Pi sorority and Eta Sigma Phi. During the past two years she has been an instructor in the Chicago public schools.

Dr. Gruber is a graduate of the university college of dentistry. He is a member of Omicron Kappa Upsilon honorary fraternity.

Following a wedding trip to the Black Hills, Dr. and Mrs. Gruber will be at home in Spencer.

**Hahn-Stevens**  
The July, 1937, marriage of Alice Lucille Hahn, daughter of Mr. and Mrs. Ernest C. Hahn of McCausland, and Richard Lee Stevens, son of Mr. and Mrs. Frank B. Stevens of McCausland, has been announced by the parents of the bride.

The ceremony was performed July 24, 1937, at the parsonage of the Methodist Episcopal church in Kahoka, Mo. The Rev. W. N. Giddens officiated. There were no attendants.

**White-Kindig**  
Esther W. White, daughter of Mr. and Mrs. Andrew White of Howard, S. D., became the bride of Lowell Crossan Kindig, son of Judge and Mrs. J. W. Kindig of Sioux City, July 17 in the Episcopal church in Howard.

The couple was attended by Mrs. Mathew Johnson of Howard, a sister of the bride, and Burgette C. Kindig, the bridegroom's brother.

The bride is a graduate of Morningside college and has served as secretary to the college business manager and taught at Pringhar for two years.

The bridegroom was graduated from East high school in Sioux City and from Morningside college. He received a degree in June from the college of law of the university, where he became affiliated with Delta Theta Pi law fraternity.

The couple will be at home in Sioux City, where Mr. Kindig is associated with the law firm of Kindig, Faville and Mathews.

## Librarians Go On Vacations

Members of the University of Iowa library staff are leaving this week end for vacation trips.

Grace Van Wormer, acting director of the University of Iowa library, left yesterday for Estes Park, Col., with her sister, Winifred Wormer, and Mr. and Mrs. Eldon Denison of Center Point.

Sarita Robinson, superintendent of the catalog department of the university library, also is among members of the library staff who is on vacation.

Miss Robinson, with Frances Warner, serials librarian at Iowa State college, will go by motor to Lake Louise in the Canadian Rockies. They will also visit other points in the west.

Illiterate Negroes Get Chance, Learn Writing

BOGALUSA, La. (AP)—The district office of the Louisiana Department of Labor assigned some home work to unemployed adult Negroes who could not write their names and were too embarrassed to attend school. The department gave each a piece of paper with his name written in longhand and instructed him to copy and recopy it until learned. The office reported that within a month 60 could write their names without having to copy it and about 100 could sign the papers for their unemployment compensation benefits, with a copy before them. Some accomplished the feat in two or three days.

Germans Now Shun Iron Burial Fences

BURG, Germany (AP)—Goering's four-year plan for self-sufficiency has invaded even the cemeteries. In the local cemetery 800 iron fences which hitherto set off one family burial place from another were removed and the iron used for industrial purposes. Hereafter only hedges may be used for demarcation purposes.

Smoke Came Miles

BILLINGS, Mont. (AP)—Smoke from forest fires in western Washington state and Canada, as far as 1,000 miles away, recently drifted across Montana. Weather bureau officials said it cut visibility to 10 miles.

SALLY'S SALLIES

There are worse things than being hard-boiled—being half-baked, for instance.

# Insists Japanese Seized By Marines Had No Military Status

## Chief of Japanese Political Service Promises Punishment

SHANGHAI, Aug. 13 (AP)—The chief of the Japanese army political service in Shanghai insisted tonight that three Japanese seized as trouble-makers in a clash with United States marines were without military status.

However, two of the men admitted they were army personnel. Col. Hitoshi Hamada said the men were "merely army employees" but he added there would be an investigation and possible punishment for them.

The men were taken into custody today in the American defense sector of the international settlement after an encounter which occurred during widespread disorders involving also British and Italian sentries, on the first anniversary of Chinese-Japanese hostilities in Shanghai.

Linked with their arrest was the whole jurisdictional tangle of this highly internationalized metropolis. One of the three Japanese, injured in the brush with the marine patrol, was taken to a hospital from which he escaped to the Japanese-occupied area north of Soochow creek.

The other two, taken before Japanese consular police and settlement authorities, admitted they were Japanese army personnel. Thereupon settlement authorities refused to exercise jurisdiction and it was understood the Japanese consular police likewise refused to handle the case.

As the day drew to a close with scattered outbreaks, settlement authorities and various defense forces became more certain that Japanese actions were part of a carefully planned program.

The purpose, it was believed, was to defeat a reported Japanese consular proposal that Japanese military forces withdraw from portions of the settlement north of Soochow creek Sept. 1.

At least three Chinese were killed and 17 injured in bombings and other disorders yesterday and today.

# Police Probe Theory For Gang Killing

CHICAGO, Aug. 13 (AP)—The police investigated tonight a theory that violation of the underworld's code of silence was the motive for the eighth of Chicago's current series of gang-style killings.

The theory was advanced by Sgt. Joseph Healy of the state's attorney's police in seeking to learn why three gunmen stood Joseph Laporte against a brick wall on Chicago's west side last night and fired a volley of bullets into his head.

Healy said Laporte was seized last March 6 with Michael Messina, by East Chicago, Ind., police and was questioned about tavern holdups and, later, about tur robberies, but both were released.

The sergeant said he was seeking Messina for questioning to find if he could aid in the investigation of Laporte's assassination.

Laporte was described by Healy as a former member of the old "RW" gang, powerful here in prohibition days. His death followed by a few days the killings of James G. Dungan, business agent for the Painters and Decorators union, and Sam "Frog Legs" Picciotto. Both were slain in gang-like style. They were numbers six and seven on the current list of victims. Five other men have been assassinated during the past seven weeks.

# Tennis--

(Continued from page 3)

ently in the second set, forcing their foes into several errors and placing their drives just inside the baseline. The lobbing efforts of Weeber and Ebert proved unsuccessful, many of them falling short and providing easy shots for the losers.

Net play featured the last two sets with the winning pair having the edge in the volleying. Hatch played erratically at the net, missing badly on many of his attempted returns.

**End Match**  
Weeber's service and net play were good, his first service coming in hard and often causing poor returns. The champs took points with ease in the last two games of the final set to run out the match, 6-1.

Champions crowned Friday were Kay Rummells in the junior boys' singles, Rummells and Bob Simpson in the junior boys' doubles, and Betty Braverman in the women's singles. Junior winners received ribbons while senior division champions were given plaques, all the awards being made by the Iowa City Recreational board.

## Awaited Verdict

Mrs. Ruby Carroll loyal to mate

Mrs. Ruby Carroll, loyal wife of Francis M. Carroll, ex-deputy sheriff who "morals" murder trial at South Paris, Me., drew large crowds, is shown in court as she awaited the verdict which sent her husband to prison. Carroll was accused of the slaying of Dr. James G. Littlefield, for whose death Paul Dwyer, 18, was sentenced to life in prison.

# Booty Spurs Lloyds' Hopes

## Salvage Gold From Bottom of Ocean After 139 Years

By WALTER M. HARRISON  
LONDON, Aug. 13 (AP)—Golden booty from the bottom of the sea, recovered from the 139-year-old wreck of the British frigate Lutine, spurred the hopes of brokers at Lloyds today that the salvaging of the long-lost hoard may be imminent.

As a bar of gold recently taken from the ship went on display, favorable reports from dredging operations indicated that the quest for the sunken treasure, dating back to Napoleonic days, may soon be ended.

The giant dredger Karimata, working 24-hour shifts, reported changing her position slightly for a better thrust at the sea-guarded cache after finding a number of gold coins on Thursday.

**Bell Is Signal**  
News of the initial success came in the time-honored manner—signalled by the bell of the ill-starred frigate itself.

Brokers at Lloyds listen for that bell today as they have for nearly 100 years.

Hanging in the center of the underwriting room, it tolls once a long and dolorous peal, for bad news. Two crisp strokes signal brighter news from the ships at sea.

So, on Thursday, the traders shouted with joy when the bell jangled twice and they heard that ancient gold coins had been recovered from the wreck of the Lutine, locked in her sandy grave off Terschelling, Holland.

The Lutine's bell was recovered in 1859, at the end of a fruitless, expensive search for the frigate's hoard of \$2,500,000 in yellow slabs destined for English soldiers fighting against Napoleon.

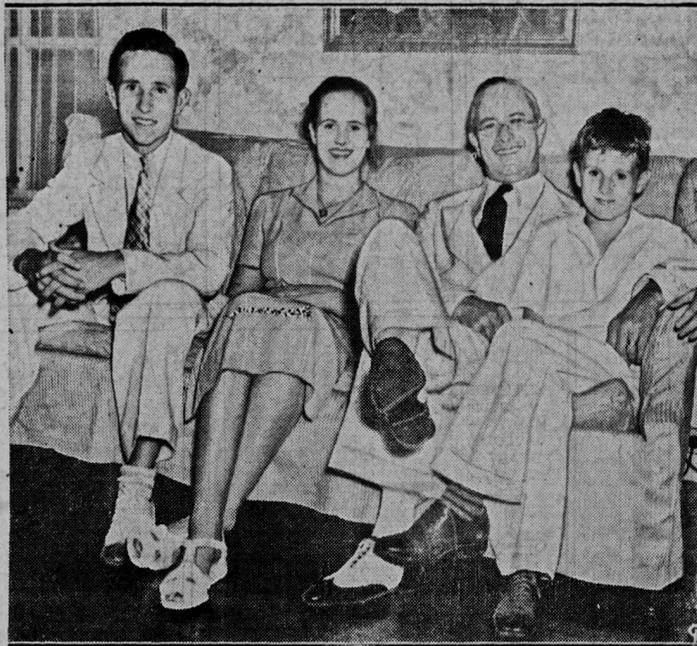

**Tolls Fortunes**  
Since that time the salt-bitten bronze bell has tolled off the good fortune and the bad luck of men who go down to the sea in ships, informing the brokers who make their living backing the cargo carriers of the seven oceans. Ceaselessly through the day and night the Karimata, world's largest dredger, pans the sand that is the endless chain of steel fingers tears from the bottom of the clay slip which guards the entrance to the Zuyder Zee.

While the searchlights were playing on the "dog-watch" shift of early morning a few weeks ago, an engineer found in the screenings a bar weighing 7 pounds, 10 ounces, worth \$4,200. Immediately identified from its markings as the Lutine's own, the village of Terschelling launched a celebration like that which followed at Sutter's mill in California in 1849 when news of the gold strike spread.

# Funeral Rites For Mollie Smith Will Be This Afternoon

Funeral service for Mollie Smith, 78, who died Friday night at her home, 221 S. Linn street, will be at 2:30 this afternoon at the Hohenschuh mortuary. The Rev. Mr. Holland will be in charge, and burial will be in Oakland. Miss Smith died after a paralytic stroke suffered several weeks ago. Survivors include one sister, Mrs. O. Boyd of Iowa City and two brothers, Charles N. Smith of Hills and Harry S. Smith of Texas. A third brother preceded her in death.

# Sawyer and Children Pose After Davey Defeat

Charles Sawyer, Ohio's new democratic candidate for governor, poses with three of his five children at their home in Cincinnati following his defeat of Gov. Martin L. Davey in the primary election. Left to right are Charles Jr., Anne, Charles Sr., and Edward. Two other children, John and Jean, were at camp when this picture was made. Sawyer ran on a pro-new deal platform.

# Jews Scrub Vienna Streets in Nazi 'Purge'

Elderly Jews scrubbing Vienna streets as Nazis watch. This striking photograph showing elderly Jews scrubbing the streets in Vienna was smuggled out of the city at great risk by a refugee, himself a victim of the Nazi persecution, and is the first such picture showing how the Nazi "purge" of Jews in former Austria continues. Swastika-wearing nazis look on while their former neighbors humble themselves.

# Elks Lodge Will Have Picnic At Clubhouse Tues.

Members of the Elks lodge will have their annual all day picnic Tuesday. The picnic will start at 11:30 with a fish dinner served at noon. There will be a fried chicken supper in the evening. The affair will be at the clubhouse.

# Petersen Rites Will Be Held

Funeral service will be held at 10 a.m. Tuesday for Detlef R. Petersen, newspaper man and University of Iowa graduate who was killed early Friday in an automobile collision near Decatur, Ill. The Rev. Ralph M. Krueger, pastor of the Iowa City English Lutheran church, will be in charge, and burial will be in Miles cemetery. The body will be at the Oathout funeral home until time of the service.

# Sees Lots of Shades

BELVIDERE, Ill. (AP)—Jay Taylor counted 37 shades of sweet peas on a 50-foot trellis at his home. He has been experimenting with sweet peas 20 years.

# Rebels Take Loyalist City

HENDAYE, France (at the Spanish frontier) Aug. 13 (AP)—The southwest city of Cabeza Del Buey, long considered the key to Almaden's rich mercury mines, fell to the insurgents today, but a reinforced government army kept the door to Almaden closed with new defense in the mountains. Heavy fighting still raged around the nearby little town of "Ox Head." There Insurgent General Quiapo De Llano's forces met General Jose Miaja's central armies for the first time of the war. Cabeza Del Buey and its ancient plastered houses, ruined by insurgent artillery in the past two days, now were the target of government artillerymen. Government reinforcements arrived too late to save the town, but they established new positions dominating the Castuera-Almaden railway line just west of Cabeza. (In Madrid a government report said pilots of 12 government planes had shot down four insurgent planes on the Cabeza Del Buey front.) Insurgents held the advantage, however, for they took not only Cabeza but the strategic mountains dominating it to the north.

# Senator George Has Chance To Defend Himself

ATLANTA, Aug. 13 (AP)—Senator Walter F. George (D-Ga.) takes the stump Monday for the first time since his unqualified acceptance of the challenge in President Roosevelt's bid to defeat him. The gray-haired senator declined today to disclose what he would say in the address to be broadcast (over WSB) at 11:30 a.m. (EST) from Waycross in deep southeast Georgia but acknowledged there would be "references to the president's history - making speech at Barnesville last Thursday. George, who has opposed several important administration bills, suavely took up the gage of battle from his president and party chief on the Barnesville platform by shaking hands with Mr. Roosevelt and saying, "I accept the challenge." Democratic voters will decide the winner Sept. 14.

# Bring the Family to CHURCH

**First English Lutheran**  
Dubuque and Market  
Rev. Ralph M. Krueger, pastor  
8:30 — Morning worship with sermon by the pastor, "Lessons from the Life of a Rascal." A children's nursery is conducted each Sunday during the morning worship period. 9:30 — Sunday school. We extend a cordial invitation to all to attend each Sunday during the worship hour. Wednesday afternoon a church picnic will be held at the home of Mrs. Nate Moore Sr. on Rochester road. The picnic will be sponsored by the Ladies Guild. A basket lunch will be served at 6:30 p.m., and all members and friends are urged to be present.

**St. Paul's Lutheran**  
Jefferson and Gilbert  
Rev. L. C. Wuerffel, pastor  
9:30 — Sunday school with Bible classes. 10:30 — Divine services in which the pastor will speak on "The Gain in Godliness." In this service two adult catechumens will be received into the communicant membership. Holy communion will also be celebrated.  
Thursday, 7:30 p.m. — Sunday school teachers meeting in the chapel.

**First Church of Christ, Scientist**

Mrs. Smith will play organ numbers "Cantilena" by Bach; "Intermezzo" by Paula Szalit; "Andante" from the Sixth Symphony by Tschalkowsky.

Nursery class during the morning service. Dorothy Rankin in charge.  
**Bethlehem Chapel**  
Sunday school every Sunday at 3 o'clock. The Rev. Mrs. Joseph

# Sculptor Was Well Known In Iowa City

Sculptor David Edstrom, who died Friday night in a Los Angeles hospital, was well-known in Iowa City, particularly among university faculty members.

He had lived in Ottumwa and Burlington from 1882 to 1884, when his talent for art was discovered and he was encouraged to study in the Royal Academy at Stockholm, Sweden, near the place of his birth.

Edstrom, whose autobiography—"The Testament of Caliban"—was published last year, mentions the university and Iowa City. Several of his pieces are in the fine arts building.

# No Aug. Session For Underwriters

Fred W. Roberson, president of the Iowa City Life Underwriters association, yesterday announced that no August meeting will be held. The next meeting will be Sept. 19.

E. Shaw will speak to the children today. Union revival meetings will continue for another week. Thirty minutes of special singing every evening. The Rev. Joseph E. Shaw will give his life story this evening. Service begins at 7:30 o'clock.

**Zion Lutheran Church**  
Johnson and Bloomington  
Rev. A. C. Proehl, Pastor  
Sunday school and church service will be omitted on this Sunday due to the absence of the pastor.
