# HULL SENDS PROTEST TO JAPAN

## 'Scorched Earth' Policy Surpasses Sherman

**By An Associated Press Correspondent**  
YUANCHIU, Shansi Province (by courier to Hankow) Aug. 26 (AP)—Japan's "scorched earth" policy has reduced to ashes 40 walled towns and over 800 villages in shattered Shansi province, leaving behind scenes of death and desolation.

This I found on a just completed 1,200-mile journey by foot and horseback through the mountainous western battle areas in four provinces—Hopeh, Shansi, Honan and Shensi.

through the heart of China, often crossing Japanese battle lines. I found Japan's interpretation of the "scorched earth" policy to mean burning every Chinese town or village that supported the guerrilla armies which wage unceasing warfare against the Japanese.

Chinese charges of looting and burning apparently were substantiated by the finding of Japanese-manufactured chemical strips which villagers said were used by Japanese to start the fires. Civilians supported the statements of Chinese army authorities and officials that Japanese army trucks had been used to transport loot from homes to railways.

But despite the loss of their homes, the majority of the farmers are still tilling fields where the crops are excellent this year. One guerrilla commander told me: "For every farmer murdered by Japanese, we get two recruits."

## Age-Old Racial Hatreds Flame Anew as Jaffa Bombing Stirs Palestine's Melting Pot

**By JAMES A. MILLS**  
JAFFA, Palestine, Aug. 26 (AP)—Jaffa seethed tonight with racial hatred fanned to violence by a terrific bomb explosion in a crowded vegetable market.

At least 20 Arabs were killed by the blast and 74 wounded, 10 of them gravely. Fighting broke out as Arabs sought revenge for the bombing. Two banks were attacked, with wild rioting a result. Shops were fired, Jews stoned and shot.

Arabs called a strike throughout the Holy Land in sympathy with the victims and in protest to the government of the British-mandated territory.

Business suspended in the city was suspended and an indefinite curfew imposed. Arab shops were closed also in Jerusalem and Haifa, both Arab strongholds. Snipers midway between Jaffa and Jerusalem harried auto traffic taking pot shots at passing autos and stoning them.

Troops were rushed to all danger spots. Armored cars took positions in Jaffa's main street while machine-gun posts were set up to guard the border between Jaffa and the all-Jewish city of Tel Aviv.

Explosion shortly after dawn, the bomb threw the vegetable market into an indescribable confusion of mangled bodies. An ugly Arab crowd flocked police rushing to the scene. Seeking revenge the throng attacked Barclay's bank, the Anglo-Palestine bank, setting fire to shops and attacked Jewish pedestrians hurrying to Tel Aviv for refuge.

Police fired into the crowd and restored some order after the situation became even more threatening. Ten Jews were taken to hospitals after the attacks. Five young boys were among those killed in the bomb blast and seven other youths were injured.

Raised Casualty List The blast and ensuing violence raised to 1,100—including almost 300 dead—the Holy Land's casualties since July 5 when a new chapter in terrorism started when a Jewish bus was fired on.

To prevent further Arab demonstrations, authorities ordered all victims of the explosion whose bodies were badly mangled to be interred in a common grave. The wounded were taken to the French hospital and a government dispensary.

FOR SALE  
Unemployed Man Offers Self as Slave  
BALTIMORE, Aug. 26 (AP)—Robley D. Stevens, 30, and jobless, offered himself for sale on a street corner here today as a "white man slave" who must have work or starve.

## Republicans Muster Forces for Extensive Midwest Vote-Securing Campaigns

INDIANAPOLIS, Aug. 26 (AP)—Republican leaders, heading with bands and battle cries to a novel "cornfield" rally at Washington, Ind., to open the party's congressional campaigns, mapped midwestern vote-getting plans at an 11-state conference here today.

Fluent predictions of November triumph were kindled. John D. M. Hamilton, national chairman, asserted the party would gain a minimum of "40 or 50" congressional seats" adding the gain might be even larger.

"Our chances are getting better all the time," he said. Rep. Joseph W. Martin Jr., of Massachusetts, chairman of the republican congressional committee, drew a still brighter picture of party success. He predicted a gain of 70 seats in the house.

"Men and women of all parties," said Martin, "are rallying to the republican battle slogan, 'Let's put America back to work.'"

Homer E. Capehart, 41-year-old Buffalo, N. Y., manufacturer and native of Indiana, is footing the bill for the "cornfield" rally, which will be staged tomorrow in a tent city on his 40-acre farm.

"We can't beat those democrats with firecrackers," is the way Capehart explains it. "I'm sick and tired of listening to businessmen and others cuss the new deal and then do nothing about it."

Fried chicken and baked clams, as well as oratory, will be featured. Capehart will have 8,500 Indiana republican workers, from precinct committeemen to statewide officers, as his guests at a noon-day dinner.

A tent city with a spread of 100,000 square feet of canvas has been erected for the all-day program, making the setting like that of a gigantic circus. Thirty-eight tents make up the "city."

Roosevelt, Farley Confer Over Policies—See Eye to Eye Now  
HYDE PARK, N. Y., Aug. 26 (AP)—President Roosevelt, after discussing with James A. Farley his drive against anti-administration democrats, told reporters today that the two saw eye to eye on the general political situation.

Rescuers Find Mrs. Graf, 54, Lost 33 Days  
CUMBERLAND, Wis., Aug. 26 (AP)—Mrs. Barbara Graf, 54, who wandered the desolate brush country of northern Wisconsin for 33 days until found today less than two miles from her timberland farm home, tonight was in a hospital on a special diet to rebuild her strength.

## Weinberg Alibi Given at Trial

SAYS HE 'WAS HOME' THE NIGHT 'DUTCH' SCHULTZ WAS KILLED  
By JOHN FERRIS  
NEW YORK, Aug. 26 (AP)—With a cryptic smile, George Weinberg, 36, once manager of the multi-million-dollar Dutch Schultz policy racket, today denied he killed Schultz in a Newark, N. J., beer tavern in 1935 and insisted he had not "framed" his story linking Tammany District Leader James J. Hines to the Schultz mob.

"Did you put Schultz on the spot?" demanded Defense Counsel Lloyd Paul Stryker. "No, sir," Weinberg grinned. He said he was "home" the night Schultz was killed.

Clinging tenaciously to his testimony that he had paid Hines \$500 a week "and sometimes more" as political "fixer" for the gigantic numbers racket, Weinberg was finally excused after a total of more than 25 hours on the witness stand.

Throughout the late stages of the session, District Attorney Thomas E. Dewey strove to counteract the effects of Stryker's cross-examination of Weinberg. Stryker had shown that Weinberg was mistaken on two of the major dates involved in the trial.

The witness had shown he began paying Hines in the spring of 1932 at the Tammany chieftain's apartment on Central Park West. Stryker introduced documents showing Hines did not move into the apartment until Oct. 1 of that year.

Similarly, Weinberg had testified before the grand jury that Hines joined the Schultz syndicate at a meeting late in March, 1932. Stryker emphasized that Weinberg changed the date to April—after Hines had returned from Hot Springs, Ark.—during the current trial.

Stryker charged that Weinberg changed the date after Dewey's office had ascertained from the Arlington hotel, in Hot Springs, that Hines did not leave there until March 29.

Press Statement Says 'We Are in Complete Agreement—As Usual'  
Mr. Roosevelt placed some emphasis on the words, "as usual," apparently giving an indirect reply to often-circulated reports that the postmaster general opposed his intervention in state democratic primaries.

Farley, who came here yesterday and remained overnight at the summer White House, talked with the president about the political situation in all states where the new deal has something at stake. These include Maryland, New York, Georgia, South Carolina, and Idaho.

It generally was reported that Farley had urged the president to go into Maryland with a fighting address against Senator Millard Tydings, a new deal foe who is opposed for renomination by Representative David Lewis, an administration stalwart.

## Mourner Animal Affection Is Scientific Puzzler

RICHMOND, Va., Aug. 26 (AP)—Why a 10-week old Rhode Island Red rooster should mourn four days at the grave of his Scotch terrier pal was a baffling question to two poultry experts who watched the unusual barnyard drama.

Mrs. Margaret Kaighn's Scotty was killed by an automobile Tuesday after holding a tug-of-war over an anglo-worm with the rooster. The dog was buried the same day.

The rooster soon found the grave and sat down on it. Each day he has squatted there until Mrs. Kaighn has put him on the roost at dusk.

L. M. Walker Jr., assistant agricultural commissioner of Virginia, and S. H. Shomo, state supervisor of poultry standardization, agreed that, by all laws of nature and poultrydom, he should not act that way.

Asks Ouster of Prison Staff  
While a triple investigation was launched into the deaths of four hunger-striking prisoners in the Holmesburg county prison near Philadelphia, Coroner Charles D. Hersch said he will ask Gov. George H. Earle to replace every guard and official at the institution with Pennsylvania motor police. Hersch charged previously that the prisoners were scalded to death by steam being turned on them.

Top, workmen removing steam pipes from the prison; below, left to right, William Donovan, John A. Boyle and William Mills  
Warden William Mills denied any steam or physical punishment was used on the prisoners. Photos show workmen removing steam pipes from the prison and two officials who are figuring in the investigation talking with Warden Mills, seen at right. The officials are William Donovan, left, institutional inspector of Pennsylvania state department of welfare, and Assistant District Attorney John Boyle of Philadelphia.

Yacht Explodes; Passengers Are Forced to Flee  
SCITUATE, Mass., Aug. 26 (AP)—Forced by a mysterious explosion to flee their small schooner yacht, two men and a woman were rescued unhurt tonight from a dory six miles off Massachusetts' south shore.

Attracted by the flames spurted from the 85-foot vessel, Liria, the New York-bound steamer, New York, raced to aid, six miles off this town. The New York took aboard Mayo Hammond, of Rockport, John Cole, of Gloucester, and Margaret Freshman, of Kittery Point, Me., and landed them three hours later at the Sandwich Coast Guard station on the Cape Cod canal.

Fleming Held  
MT. PLEASANT (AP)—Oral Fleming, 48, Burlington, was being held in the Henry county jail here last night for questioning in connection with what Sheriff Manning Cline said was the dice-game slaying of Henry Marshall, 54, of Winfield.

Czech Government Makes Take It or Leave It Offer to Sudetens  
PRAHA, Aug. 26 (AP)—The Czechoslovakian government has made a "take-it-or-leave-it" offer to settle the dispute with the Sudeten German minority. The government committee of six has worked out what was described as maximum concessions to the autonomy-seeking minority.

time by reports that Germany had indicated abroad an intention to support the demands on behalf of the 3,500,000 minority with any measures deemed necessary but that any action to this end was not to be interpreted as aggression. These reports said approaches were made to Britain and Soviet Russia but not France, Czechoslovakia's principal ally. (The reports could not be confirmed in Berlin—nor were they denied. The London foreign office said no such representations had been made and a spokesman for the German embassy at Moscow denied any had been made there). According to information reaching the Praha government, German diplomats emphasized that if a solution were too long delayed Germany would have to sponsor the Sudeten German demands by every possible means short of actual attack.

## Clergyman Aids in Protest

Pickets in London, Mary Sheridan Jones, right

When a Japanese military attaché snatched an anti-Japanese pamphlet from her hands while outside the Nippon embassy in London, Mary Sheridan Jones, assistant organizer of the London China campaign committee, enlisted the aid of this clergyman to protest against the bombing of civilians in China. Miss Jones walks alongside of her friend.

## Mississippi's \$25,000 Motorized Flotilla to Parade This Morning

Caravan En Route To National American Legion Convention  
Mississippi's \$25,000 motorized flotilla—representing the state's American Legion—will parade through the Iowa City streets shortly after 10:30 this morning, it was announced last night in Davenport.

The group will stop here en route from Davenport, where they were entertained last night, to Des Moines. The caravan is appearing just as it will be in the National American Legion parade Sept. 22 at Los Angeles. The caravan consists of a pilot car, five floats and a service car. The leading float will symbolize peace—the general theme of the convention; the others will interpret the history of Mississippi.

Elaine Russell of Vicksburg, Miss., "Queen of Peace" on the flotilla and "Miss American Legion" at last year's national convention, will be interviewed in a special program over WSUI at 10:45 this morning. Miss Russell has been chosen to convey greetings to Iowa City through the radio interview.

## Rescuers Find Mrs. Graf, 54, Lost 33 Days

CUMBERLAND, Wis., Aug. 26 (AP)—Mrs. Barbara Graf, 54, who wandered the desolate brush country of northern Wisconsin for 33 days until found today less than two miles from her timberland farm home, tonight was in a hospital on a special diet to rebuild her strength.

In words almost incoherent, the widowed mother of 11 at first told of becoming lost, but later asserted she had wandered off purposely because "they were always after me."

"I felt I wasn't wanted at home," Mrs. Graf said, "and thought I would rather be in the woods with God."

The woman lost 65 pounds on her diet of apples and berries, washed down by water from pools and streams. She had been given up for dead two weeks ago. When Arthur Ailing, a WPA timekeeper, found her lying in a pasture in the cutover lands of Burnett county, he and a neighbor had to carry her home. Tonight she was fed milk toast. Dr. R. C. Thompson, a Cumberland physician, said that except for Mrs. Graf's greatly weakened condition she is physically sound and should recover.

## Emphatic Note Sent in Protest of Air Attack

Warns Nippon That American Public Opinion Is Aroused

WASHINGTON, Aug. 26 (AP)—Cordell Hull, secretary of state, warned Japan today that American public opinion was aroused over the destruction of a Chinese-American commercial airliner by Japanese war planes.

He sent the Tokyo government an emphatic protest against the machine-gunning of the liner, which dispatches to the state department indicated cost 14 Chinese lives.

Hull's protest was based primarily on the fact that an American, Hugh L. Wood of Winfield, Kan., was the pilot of the destroyed craft, and that the company which operated it was financed partly by an American company, Pan-American Airways.

In a note presented in Tokyo by Joseph C. Grew, the American ambassador, the secretary said the American government desired "to express its emphatic objection to the jeopardizing in this way of the lives of Americans as well as other noncombatant occupants of unarmed civilian planes engaged in clearly recognized and established commercial services over a regularly scheduled air route."

Hull called Japan's attention to the fact "that not only was the life of an American national directly imperiled but loss was also occasioned to American property interests, as the Pan-American Airways has a very substantial interest in the China National Aviation corporation (operator of the airliner)." At the state department this interest was estimated at 45 per cent of the total capital.

Hull cited to the Japanese the story told by Pilot Wood, who was among the survivors. "The China National Aviation corporation plane was pursued by Japanese planes which started machine-gunning," the secretary said. "After the China National Aviation corporation plane had successfully landed it was followed down by Japanese pursuit planes which continued to machine gun it until it had sunk; and when Pilot Wood started swimming across the river he was followed by one of the Japanese planes which continued to machine gun him."

The secretary said the attack was "unwarranted" and that it resulted "in the total destruction of the commercial airplane, the loss of the lives of a number of noncombatant passengers, and the endangering of the life of the American pilot."

Dispatches to the department recounted that the plane, on being machine-gunned by a Japanese pursuit plane 55 miles from Hong Kong, made a forced landing on the Pearl river.

The American note did not bring up the question of indemnification for the loss suffered by the American company. This may be the subject of further discussion by American diplomats.

U. S. Government to Buy Up Wheat  
WASHINGTON, Aug. 26 (AP)—The government undertook today to place 100,000,000 bushels of surplus American wheat in highly competitive world grain markets, even if it has to take a loss of as much as \$25,000,000 on the operation.

The agriculture department notified grain traders it would buy wheat this week and Monday for shipment to foreign countries under a subsidy program, the details of which are to be announced later.

Officials described the buying and export arrangement as an "emergency" measure designed to prevent loss of American wheat markets to other major wheat producing countries, several of which have announced they would subsidize exports.

A survey showed, officials said, that because of a bumper world crop and the subsidy programs, this country could not expect to export more than 50,000,000 bushels during the current marketing year unless it met subsidies with subsidies.

# Banner Year Expected for the University of Iowa Band

## Colorful Musical Organization Begins Practice in 1st Week

### Early Homecoming Makes Heavy Schedule For Musical Group

Directs S. U. I. Band

PROF. C. B. RIGHTER

The University of Iowa band, faced with perhaps the heaviest schedule in its history this fall, will open what is expected to be a banner year before the hustle of freshman week has ended.

It's scarlet uniforms newly cleaned and pressed, instruments inspected, and repaired, Prof. Charles B. Righter, director of the band, calls prospects for a large and well balanced organization "extremely bright."

More colorful than ever before, each member of the marching band this year will wear a pair of gold colored, light weight cotton gloves, matching the trim of the uniforms. The drum major will be newly-equipped with a complete West Point type uniform in gold whipcord with black trim, a black shako and red plume.

An unusually early Homecoming Oct. 8, followed immediately by a trip to Chicago Oct. 15, will necessitate early rehearsals by the band, according to Professor Righter.

#### Issues Call

Prof. C. B. Righter has requested all new and old members of the university band to report to room 15, music studio building, for auditions as early as possible during Freshman week and before making out class schedules. Early applicants will be given preference for places in the marching band.

Meetings of incoming freshmen and preliminary drill sessions have been scheduled for freshman week, with a complete rehearsal Saturday, Sept. 24, in preparation for the university induction ceremonies at 7:45 a. m., Monday, Sept. 26.

It is expected that the University of Wisconsin band will come to Iowa City for the Homecoming game. Karl King, famous Ft. Dodge bandsman, has been invited to be guest conductor as a feature of the super-demonstration of the bands that afternoon, conducting the combined bands in "Wisconsin Pride" and the new "Hawkeye Glory" march, both compositions of his own.

Through the cooperation of the athletic department, and Prof. E. G. Schroeder, its head, a drill field will be prepared for the band this year. The tennis court area south of the fieldhouse will be lined for that purpose.

In addition, temporary storage rooms have been provided for in the fieldhouse, and for the first time this year, a more compact playing band will be possible at the fieldhouse.

#### Well Dressed—

More than a hundred scarlet-clad bandsmen, like the one above, will provide much of the between-halves entertainment at Iowa football games this fall.

football games by the provision of two sections in the west stadium stands. The band has been seated previously on the west sidelines.

Professor Righter reports that about 80 members of last year's 100-piece unit are expected to return this year, and that plans have been completed for a fully equipped band of more than 100 members.

Hugh Gunderson of Sheboygan, Wis., will be one of the director's assistants again this year, with another assistant to be named later.

Following last year's general plan, the football and varsity bands will be recognized on the basis of instrumentation, ability and regularity of attendance to form two concert units.

Freshman and sophomore students accepted for membership in either band may substitute band for required military science, effective only in the event that a student meets all requirements of band membership.

Juniors, seniors and graduate students may register for band for credit on an elective basis.

Included in the band's yearly schedule are formal concerts and a series of weekly radio broadcasts during the second semester. The concert band is available for appearances in other Iowa cities.

The men of the varsity band, in addition to required members of the concert band, play for home basketball games.

### Women Have Place In Iowa Bands

Women have a place in the setup of the University of Iowa bands. All women accepted for band will rehearse with the varsity band until the close of the football season. Professor Righter has announced after which those qualified will be transferred to the concert band.

A woman's band will be organized if a sufficiently large number of girls audition for band positions.

### Harriette Lois Wilson Marries John Jackson

#### Rev. F. C. Scott Officiates at Single Ring Ceremony

Before an improvised altar of hydrangeas and tall baskets of gladioli and baby breath, Harriette Lois Wilson, daughter of Mr. and Mrs. Robert E. Wilson of Toledo, became the bride of John Wesley Jackson, son of Mr. and Mrs. J. W. Jackson of Kennebec, S. D., in a single ring ceremony at 3 o'clock August 11. The service was solemnized in the United Brethren church in the presence of near relatives and close friends, by Rev. F. C. Scott. The bride, gowned in a navy blue silk chiffon dress trimmed in pink and wearing a corsage of rose buds, descended the stairs and joined the bridegroom at the altar. She was attended by her sister, Jean Wilson, who wore a blue embroidered marquisette and a corsage of yellow rosebuds. The groom's attendant was Carroll Arnold of Sioux Falls, S. D. Mrs. Jackson was a graduate

Table with columns for days of the week (Monday Sept. 19 to Saturday Sept. 24) and rows for hours (7:00 a.m. to 8:00 p.m.). It lists various activities such as 'Part I. Qualifying Examinations', 'All University Freshman Assembly', 'Registration', 'Engineering Assembly', 'Physical Education', and 'Open House'.

The above schedule of freshman week activities will give new students an idea of their first week at the university. Starred events are required.

The program of freshman week opens with vesper services at 3:30 p.m. Sunday, Sept. 18. The final two days of freshman week, not included in the above chart, list services in Iowa City churches at 10:45 a.m. and church programs of the respective student church societies at 5:30 p.m. Sunday, Sept. 25. The freshman week program closes with the annual induction ceremonies at 7:50 a.m. Monday, Sept. 26, following which the first classes of the new year will take place.

As well as happiest in a job that called for a lot of writing. I feel better now.

From this we went to the vocabulary test. Mr. O'Connor read off 100 words; at the mention of each I was to give a word suggested by it. A second or two was all the time allowed. I managed to keep up with him, almost word for word. Again Mr. O'Connor beamed.

Up to the writing part of the test, Mr. O'Connor explained, my aptitudes indicated I could be a success either at law or writing; but lawyers, he pointed out, seldom wrote more than a paragraph or two in the 10-minute writing test. Why that was, he didn't know—perhaps it's because their paragraphs are longer.

### Reporter Learns All About It

#### Tries Aptitude Test to Get Out of Rut, But Sinks Deeper Instead

By CHARLES NORMAN AP Feature Service Writer

HOBOKEN, N. J.—For a long time I have been dissatisfied with my job. Not because I don't like to work, but because I—well, maybe because I don't like to work. I am afraid my boss may have noticed this. (He has—Ed.)

This is strange, because I wanted to be a writer. When I got a writing job, I should have been happy. For a long time I was. Then the thought came to me—perhaps I was not in the right profession. Perhaps I had other aptitudes—anyway, another one which I could develop. This cheered me up.

Full of Hope The other day I heard of the Human Engineering Laboratory, an adjunct of Stevens Institute of Technology, Hoboken, N. J. The laboratory has been conducting experiments in personal aptitudes

of Toledo high school and attended Cornell college, Iowa State Teachers college and the University of Iowa. Mr. Jackson was graduated from the high school at Kennebec, S. D. He received his B.A. from the University of Iowa in the summer convocation.

Mr. and Mrs. Jackson left immediately after the ceremony for a short wedding trip after which they will be at home in Lennox, S. D., where Mr. Jackson is the principal and debate coach. The first thing he showed me

was a photograph containing 15 or 16 miscellaneous objects ranging from a comb to a cigarette. He let me study the photograph for a minute, then turned it face down. As he did this, he slipped under my gaze another photograph of the same size and appearance as the first, but I could tell at once that some of the objects pictured in the first were missing from the second. The only thing I couldn't remember were the missing objects.

He Did Not Shine He had six other photographic variations of the first picture; in some, objects instead of disappearing completely had merely changed places in the picture.

I did not shine in this test. A factory inspector, Mr. O'Connor said, would have romped off with the prize. If there had been a prize. There wasn't.

The second test was, if anything, more difficult and more tantalizing. I was shown a "wiggly block," made up of nine wiggly pieces of wood. Mr. O'Connor took the block apart and I was to put it together, to demonstrate my aptitude in structural visualization, if any. Anyone with engineering or structural ability would have succeeded in two or three minutes. I took seven and a half and was jittery at the end.

The next test was to discover whether I had inductive reasoning. Inductive reasoning, Mr. O'Connor said, was essential in any work that dealt with synthesis—in law, medicine, research, writing. It is the faculty of linking seemingly unconnected things.

Twenty More Strips I was shown 20 picture strips. Each strip had six pictures. Out of the six I was to select three that were linked by something they had in common. For exam-

ple one row showed: (1) a boy leading a blind man, (2) a group of boys playing baseball, (3) a boy feeding birds, (4) a boy rolling a hoop, (5) a boy patting a dog, (6) a boy skating. The first, third and fifth pictures went together because they had the quality of kindness in common: "See? I went through this test in quick time, and Mr. O'Connor beamed.

From this we went to the vocabulary test. Mr. O'Connor read off 100 words; at the mention of each I was to give a word suggested by it. A second or two was all the time allowed. I managed to keep up with him, almost word for word. Again Mr. O'Connor beamed.

Up to the writing part of the test, Mr. O'Connor explained, my aptitudes indicated I could be a success either at law or writing; but lawyers, he pointed out, seldom wrote more than a paragraph or two in the 10-minute writing test. Why that was, he didn't know—perhaps it's because their paragraphs are longer.

His conclusion was that I am an extremely subjective personality (my friends think I'm just self-centered); that I have a large English vocabulary; inductive reasoning to a remarkable degree—I had scored A—and creative imagination. He therefore thought I would be the most successful

as well as happiest in a job that called for a lot of writing. I feel better now.

### And Science Speaks

#### Oglethorpe University Installs Phonograph, Peep Show for Science

By PAUL SIMMONS AP Feature Service Writer ATLANTA, Ga.—An adaptation of an ordinary penny peep show machine and a phonograph may give archeologists of 8113 A.D. a key to aid them in deciphering the civilization of this era.

The apparatus is an invention of T. K. Peters, a former news reel photographer and moving picture man. It will be placed in Oglethorpe university's "crypt of civilization," the founders of which expect it to be opened by the inhabitants of this planet 6,175 years hence.

Date for the opening of the crypt was chosen, Peters explained, because in 1936, the year the crypt was started, 8113 A.D. was the same distance in the future as the "first fixed date" in history, 4241 B.C., was in the past. The Egyptian calendar is supposed to date from that year.

The crypt, when completed, will be a large rust-proof steel vault of specially sealed microphotographic records in metal of all phases of 20th century culture and knowledge. It also will contain models of typical machines, specimens of food and clothing and other objects.

Modern Rosetta Stone While Peters, now a member of the Oglethorpe staff, and Dr. Thornwell Jacobs, president of the university, worked on the crypt, it occurred to them that English might not be spoken or known in 8113 A.D. They thought of the Rosetta Stone, an inscribed slab of basalt which Egyptians erected as a key to their language and civilization.

Although this stone, discovered in 1799 near Rosetta, Egypt, solved the mystery of Egyptian hieroglyphics, it required several decades to decipher. So Peters decided to remove any such difficulty for the finders of the Oglethorpe crypt by making a "talking Rosetta Stone."

You See and Hear He obtained a microscope (peep show) and now is equipping it with rust-proof gears and bearings and connecting it up with a phonograph. When a crank is turned pictures of objects with their names in English will appear on non-corrosive metal sheets in the machine and a voice from a carefully preserved metal phonograph record will name the objects.

As well as happiest in a job that called for a lot of writing. I feel better now.

### Her Heart Was Crumbling-- Even Time Hadn't Healed It

Judy Rogers had put the memory of Craig Denby aside. She thought he did not matter so much any more. Now he was smiling at her, holding out his hand, saying something. And her heart was crumbling just as it had crumbled before. Yet she could blame no one but herself because she had lost him... because she had been

The two buildings above are "home" nine months of the year for almost 1,500 University of Iowa men and women. Well-

known as a home for boys is the ivy-clad, the Quadrangle this year has a neighbor dormitory, just across the drive. It's the new Hillcrest. Currier hall, pictured

below, is one of the largest girls' dormitories on the campus. Like the Quadrangle, it too will soon be filled with University of Iowa students as the beginning of the new school year approaches. Other University dormitories include Eastlawn for girls, the Law Com-

mons, Westlawn, the nurses home, and a group of cooperative dormitories for both men and women.

### Inez Marie Hansen to Marry Dr. E. D. Zeman in October

#### Bride's Parents Announce Daughter's Troth to S. U. I. Grad

Mr. and Mrs. Albert Hansen of Kennard, Neb., announce the engagement and approaching marriage of their daughter Inez Marie to Dr. E. D. Zeman of Belleville, Ill.

Miss Hansen was graduated from the University of Nebraska and was employed by Marshall Field and company. For the past two years she has been teaching the schools of Millard, Neb.

Dr. Zeman is the son of Mr. and Mrs. W. F. Zeman of Holstein and a graduate of the Holstein high school. He received his B.A. degree from the University of Iowa and also his M.D. He is now practicing in the St. Elizabeth's hospital in Belleville.

Miss Hansen is a member of Chi Omega and Dr. Zeman is a member of Pi Kappa Alpha and Phi Rho Sigma. The wedding is planned for some time in October.

Rome has over 300 churches. Sir James Clark Ross discovered the north magnetic pole in 1831.

### Alice Eaton To Wed Vette Kell

#### Couple Announce Their Attendants For Approaching Marriage

Announcing their wedding attendants and plans for their marriage which will be an event of Sept. 3 are Alice Eaton, daughter of Mrs. O. C. Eaton, 1 S. Dubuque street, and Vette Eugene Kell of Marengo, son of Mrs. Florence Kell. The ceremony will be solemnized in the Trinity Episcopal church with the Rev. Richard E. McEvoy officiating.

Miss Eaton will have as her attendants, Mrs. Harry Watters as matron of honor and Charlotte Whitmore as maid of honor. She will be given in marriage by her brother, Robert Eaton.

Serving as his brother's best man will be Richard Kell of Marengo. Gaylord Watland of Cedar Rapids, Bill Vogt of Des Moines, Arthur Hatter of Marengo and Mr. Watters will be ushers.

Miss Eaton will be honored at a party series planned for next week.

### Fashion's Newest—The 'Swing' Back

Natural leather, and this time it's pigskin, is one of the outstanding notes in this fall's fashion parade. Here Eileen Cochenour, daughter of Mr. and Mrs. H. T. Cochenour, is wearing one of the new sleek brown fur coats, with its chic

—Daily Iowan Photo, Engraving boxed shoulder effects and its "swing" back. Pin-stitching on the leather trim, conveniently placed pockets and a matching fur bag trimmed with leather complete the coat, designed for fashion, comfort and Iowa's wintry days.

### Party Honors Mrs. Carver

#### Former Elsie Voparil Is Guest of Honor At Post Nuptial Shower

Mrs. David Carver, formerly Elsie Voparil was guest of honor at a post nuptial shower given by four co-hostesses entertained at a miscellaneous shower at the home of Mary Frances Regan,

431 E. Market street. Those giving the courtesy were Miss Regan, Mrs. Ralph Martin, Gwenda Brownell, and Mrs. LeRoy Conklin. Sharing the courtesy were Anna Mahony, Mary Frances Kinney, Mrs. Dwight A. Mathes, Alma Ruth Findly, Mrs. Burl E. Vandear, Edna Calvin, Mrs. Amos Kelso, Eileen Olson, Mrs. F. E. Hotchkiss, Esther Olson, Mrs. John Dee, Mrs. Forest Hartsook, Catherine Looney, Gertrude Prull, Edna Loan, Catherine Welch, Mrs. Frank Voparil, aunt of the bride, and the honoree.

### When You Feel Like Splurging, Tear Loose on a Rich Dessert

By LOUISE BENNETT WEAVER

There comes a time in every home when an extra-fancy dessert is in order.

Time is not considered. Budget worries, too, may be flung out the kitchen window.

The big consideration is that the dessert be deliciously different.

Perhaps it's for a pre-nuptial shower. Maybe there's a special anniversary. Or it might even be that there's a visitor who's famed for her culinary accomplishments or his gourmet tastes.

#### A Starting Point

Peach Alaska is a fine show-off dessert. First you need two one-inch layers of baked angel-food cake. Put one layer on heavy white or yellow paper spread on a wooden plank or a medium-sized bread board. Cover with sliced fresh peaches that have been slightly sweetened. Put the other layer of cake on top of peaches.

Now lay a one-inch layer of vanilla brick ice cream over the cake. Now cover the sides and top with a one-and-a-half-inch thickness of creamy-flavored, sweetened meringue. Sprinkle with shredded almonds and bake or broil for about seven minutes—until the meringue is a delicate brown. Promptly slip off of the board to a chilled platter. Garnish with peach halves filled with ice cream and decorated with fresh or candied mint leaves.

There's one thing to remember when you start to make an Alaska dessert: You can prepare the ingredients in advance but you can't assemble or bake it until you're about ready to serve it.

#### Coffee Marlow

Cut about 15 marshmallows into small pieces. Pour over them a fourth of a cup of strong, hot freshly-brewed coffee. Let stand for about one hour or until the marshmallows are set. Stir. Add two-thirds of a cup of milk, an eighth of a teaspoon of salt and a cup of cream which has been whipped. Pour into a tray in the automatic refrigerator and let freeze for about four hours.

#### Trick With Pineapple

Fruit Surprise is another aristocrat among desserts. Follow a fresh pineapple. (Save the pulp for use in other dishes.) Fill the hollow with fresh fruits and ice cream which have been blended quickly. Replace the top.

Now cut some rings from a baked layer cake with a doughnut cutter and cover them with pastel shades of frosting. Lay them on a flat tray, with the edges overlapping or arrange them in a circle around the pineapple.

How about attempting a Melon Medley? Cut a large ripe watermelon into two-inch slices; then cut the slices into two-inch squares or rounds. Follow them

out and fill them to overflowing with honeydew and cantaloupe balls that have been chilled in grape juice. Top with a dash of green lime or mint sherbet and serve on grape leaves.

As a final suggestion, here's a dessert that looks and tastes extra special, but is rather simple

to make: Add chopped dates, nuts and marshmallows to a gelatin mold and top it with an orange hard sauce.

### French Repairing Lift In Arc de Triomphe

PARIS (AP)—Part of the money the French government will spend on tourists this year will be used to grease and repair the ancient elevator in the Arc de Triomphe.

Wearry tourists have had to climb up the 161 feet of the structure for the last ten years.

Tigers Close In In Battle For First Division

**WASHINGTON, Aug. 26 (AP)**—The Detroit Tigers advanced within a game and a half of the Washington Senators today in their battle for a first division berth, winning the second of the three-game series, 9 to 3, behind Benton's steady hurling.

Four unearned runs in the third inning, all scored after errors by Shortstop Cecil Travis and Third Baseman Buddy Lewis of the Senators, put the eventual winners out in front to stay. Benton's only bad inning was the sixth, when Zeke Bonura hit his 17th home run of season with Lewis and Al Simmons aboard.

Yankees Take Opening Game From Cleveland Indians; Both Feller and Ferrell Ineffective

Joe DiMaggio Leads Yanks to Victory, Drives in 7 Runs

**NEW YORK, Aug. 26 (AP)**—The Yankees and Cleveland Indians split a doubleheader today before a ladies' day crowd of 37,139, leaving the New Yorkers 12 games in front in the American league race.

Joe DiMaggio drove in seven runs to lead the way to a 15-9 victory in the opening slugfest. In the nightcap, Willis Hudlin pitched his best game of the year, a five-hitter, and Frankie Pytlak batted five runs in as the Tribe clicked for an 8-5 decision.

Neither starting pitcher—Wes Ferrell and Bobby Feller—was effective in the first game, as the Yanks collected 15 hits and the Tribe came up with 18. A big seven-run rally in the fifth inning, during which they batted around, put the game on ice for the Yanks.

DiMaggio clouted his 26th homer, two doubles and a single. Lou Gehrig also hit his 26th four-bagger of the year.

In the nightcap, three errors in a row—two by Skeeter Webb and one by Lyn Lary—almost threw Hudlin's fine pitching effort away in the eighth inning but Pytlak's homer inside the park in the same frame kept the Indians one run in front, and a two-run barrage in the ninth, with Frankie driving both tallies across with a timely single, sewed up the game. Pytlak also hit a triple which was good for two more runs.

Iowan Will Meet Patty

Edith Estabrooks To Play Miss Berg For Championship

By CHARLES DUNKLEY

**CHICAGO, Aug. 26 (AP)**—A pair of school girls, Patty Berg, freckled-faced redhead from Minneapolis and Edith Estabrooks of Dubuque, Ia., a bespectacled youngster of 17, will battle tomorrow for the women's western closed golf championship in a 36-hole final at Olympia Fields Country club.

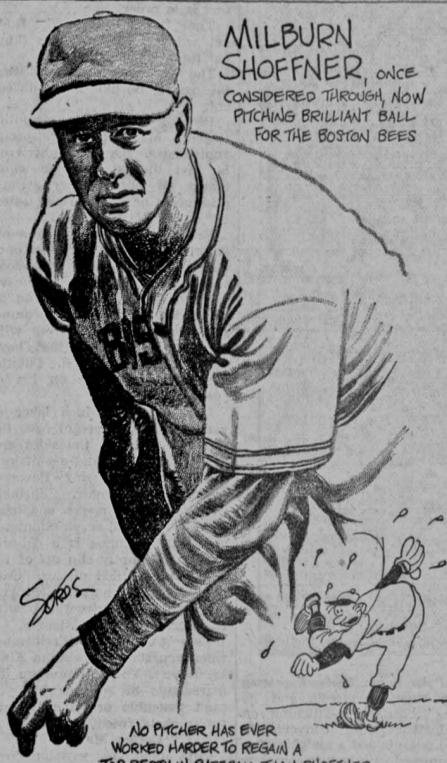

Miss Berg, playing another sensational round of sub-par golf, charged through the 18-hole semi-finals with a 3 and 2 triumph over Shirley Ann Johnson, Chicago.

But the real heroine was sturdy, little Miss Estabrooks, the former western junior champion, who was forced to go 23 nerve wracking holes to conquer Mrs. Burt Well seasoned campaigner from Cincinnati, one up on the fifth extra green.

The Dubuque miss staged a brave and strong battle all the way with Mrs. Well also displaying plenty of courage. Going to the 15th hole Mrs. Well was one down. She touched her ball there, drawing a penalty shot that cost her the hole and put her two down.

She came back, however, to take the 16th by sinking an eight foot putt for a birdie. After halving the 17th, she won the 465-yard 18th with a birdie four, squaring the match.

They halved the first four extra holes, each with birdies on the second. Then on the next, with each driving into the bunkers, Miss Estabrooks won with two putts for a bogey five while Mrs. Well three putted from 30 feet, missing a four-foot effort to take a six.

Budge, Mako Will Play Quist, Bromwich In National Doubles Tennis Matches

**BROOKLINE, Mass., Aug. 26 (AP)**—The national doubles tennis championship finals become dress rehearsal for part of next week's Davis cup competition when Don Budge and Gene Mako advance today into the title round with Australia's unbeaten Adrian Quist and Jack Bromwich before 4,000 spectators at Longwood Cricket club.

Quist and Bromwich, who have won every match they have played since they teamed up 10 months ago, including three over Budge and Mako in Australia, were not hard pressed at any stage as they built up a 7-5, 4-6,

6-3, 6-3 victory over their countrymen, Harry Hopman and Leonard Schwartz.

The championship match in the women's division became an international affair after Mme. Rene Mathieu, of France, and Jadwiga Jedzejowska, of Poland, caused the only upset of the day by eliminating the top-seeded Australians, Nancy Wynne and Thelma Coyne, 6-4, 6-2. That surprising triumph moved the Franco-Polish team, a very capable one, against the defending champions, Alice Marble and Mrs. Sarah Palfrey Fabyan.

Philadelphia Trims Pittsburgh For Third Consecutive Time; Comes From Behind for Victory

WPA Man In Tourney

To Play Railroader In Finals for Public Links Championship

**CLEVELAND, Aug. 26 (AP)**—A plucky little Cleveland WPA worker and a cool headed railroad man from Oregon fought their way into the finals of the National Public Links golf championship today—with one of the victories representing the greatest comeback in the tournament's 17-year history.

Al Leach, 26-year-old Cleveland city public links titleholder, after being seven down at the end of 18 holes, defeated Bart Taro of Seattle, Wash., one up over 36 holes.

Louis Cyr of Portland, who overcame a three hole deficit to eliminate a fellow townsman, Eddie Beck, also by a one hole margin.

Leach and Cyr will meet tomorrow in the 36-hole final.

Leach, employed as a timekeeper by the works progress administration, crashed into the finals with a spectacular reversal of form. In the morning round he held the 16-year-old Taro even for four holes and then went to pieces before the Seattle youngster's steady game.

At nine holes, Leach was three down and at the end of 16, trailed by eight holes, making one of them up by taking the 18th as Taro missed a short putt.

Hitching up his belt and remarking: "I'll give him a battle yet," the 130-pound Leach halved the 19th and 20th holes and then won the next two with a par and a birdie as Taro's tee shots became wild.

Taro, with one out of bound drive and several pulled seconds, lost the 24th and 25th before he steadied to take the 26th with a birdie. Leach picked up two more holes as Taro was short on the 27th and, in a trap on the 28th.

A great second shot led to a birdie and a win for Leach on the 30th

Southpaw Al Smith Earns First Game From Shaky Pirates

**PITTSBURGH, Aug. 26 (AP)**—Philadelphia's Phils walloped the wobbling Pittsburgh Pirates for the third straight time today, 6-4, clustering five runs in the fifth inning to come from behind.

Lefty Al Smith, who like old Bill Hallahan yesterday, had not won a game all season, hand-cuffed the jittery Pirate hitters with seven safe blows.

The National league leaders collected four of these, including Paul Waner's triple and Pitcher Jim Tobin's double, in the first two innings for three runs. But the Phils chased Tobin with their barrage in the fifth and Pittsburgh never threatened thereafter.

The entire visiting team went to the plate in their big inning, making their five runs on a combination of five singles, an error and a sacrifice.

Gil Brack's triple off Mace Brown scored the Phils' final run in the eighth and the Pirates made a parting gesture in the same frame—Arky Vaughan scoring from second when the Philadelphia infield let Pep Young's pop-up drop untouched between second and third.

Pittsburgh played with John Dickshot in leftfield and Bill Brubaker at third, but afterward Manager Pie Traynor said he intended to put Johnny Rizzo back into the outfield tomorrow and probably would return Lee Handley to the hot corner "in a day or two."

and he was only one down.

After halving four holes Leach squared the match on the 35th with a par 4 as the obviously tired, nervous Taro failed to get on in two. On the 36th, Leach's drive bounced into and out of a creek and he was on in three and down with two putts. Taro, flubbing his second and pulling his third, was on in four and missed an eight footer which would have kept him in the battle.

What Do You Think?

By ART GOLDBERG

About the five-man line? Perhaps the opinions of some of the country's coaches will help you decide:

**Bernie Bierman, Minnesota:** "The five-man line will be used considerably again, although possibly not as much as last season. Multiple passing will be used as much as ever. The most notable thing, I believe, will be varied defenses. Instead of everybody using a standardized defense, changes will be made in setups frequently."

**Jock Sutherland, Pittsburgh:** "The tendency toward the open game undoubtedly will continue this year. We might, mind you, I won't say we will, try the five-man line ourselves a few times this season."

**Ray Morrison, Vanderbilt:** "The five-man line reached its peak last season. I haven't seen evidence of any new and outstanding trends for the game this fall. I'm sure the razzle-dazzle style of play is here to stay, but I hardly expect more pigskin-tossing this fall than last."

**Wallace Wade, Duke:** "As has been true in the past, teams will be most successful that have a well-balanced attack, mixing running, passing and kicking. Deception is probably more necessary in offense today than it has ever been due to the fact that backfield defensive play is getting better each year."

**Ray Wolf, North Carolina:** "The five-man line will, probably, be more widely used this year than in previous seasons, especially throughout the south. The general tendency of defensive play is variations, in other words, changing of the defense according to down, distance, score and position on the field. The changing of defenses on various downs is certainly an advantage in stopping the offense."

**Maurice (Clipper) Smith, Villanova:** "I expect a general return to the older football formations, including the seven-man line and the diamond backfield defense. Pro football has advanced and colleges face a real challenge from the pros. The crowds like to see a game with plenty of scoring. College teams need to play more of a scoring game if they are to hold the crowds."

**Bill Kern, Carnegie Tech:** "It's still the touchdowns that count and nobody cares how you get them."

Cubs Win While Giants Lose

Chicago Climbs To Possession Of Third Place

Stetch Win Streak To Four Straight; Bryant Hurls Game

**CHICAGO, Aug. 26 (AP)**—The Cubs climbed into undisputed possession of third place in the National league today by whipping the Brooklyn Dodgers, 7-3, on the strength of a six-run outburst in the fifth inning.

The win stretched the Cub streak to four straight. Clay Bryant went the route and chalked up his 12th win of the year. He also contributed a homer to the attack.

The loss was the Dodgers' sixth in a row. Bill Posedel, who started, pitched shutout ball for four frames.

How Do They Stand?

A Check on Records of All Major League Clubs Since July Fourth

**NEW YORK, Aug. 26 (AP)**—Putting two and two together—and getting four—after a check on the records since the July 4th games when the big league races are supposed to be settled:

**NATIONAL LEAGUE**

Team	July 4 Standings	Record Since	Standings Today
Pittsburgh	38-25 Pct. .603	31-20 Pct. .608	First Pct. .605
New York	45-25 Pct. .643	20-25 Pct. .444	Second Pct. .565
Chicago	38-30 Pct. .559	26-23 Pct. .531	Tie 3rd Pct. .547
Cincinnati	35-31 Pct. .530	29-22 Pct. .569	Tie 3rd Pct. .547
Boston	31-32 Pct. .492	25-26 Pct. .490	Fifth Pct. .491
Brooklyn	28-40 Pct. .412	25-22 Pct. .532	Sixth Pct. .461
St. Louis	29-35 Pct. .453	23-28 Pct. .451	Seventh Pct. .452
Philadelphia	19-45 Pct. .297	17-30 Pct. .362	Eighth Pct. .324

**AMERICAN LEAGUE**

Team	July 4 Standings	Record Since	Standings Today
New York	41-25 Pct. .621	38-11 Pct. .776	First Pct. .687
Boston	39-28 Pct. .582	26-18 Pct. .591	Second Pct. .586
Cleveland	41-25 Pct. .621	23-24 Pct. .489	Third Pct. .566
Washington	35-37 Pct. .486	25-20 Pct. .556	Fourth Pct. .513
Detroit	35-36 Pct. .493	22-23 Pct. .489	Fifth Pct. .491
Chicago	27-34 Pct. .443	21-28 Pct. .429	Sixth Pct. .436
Philadelphia	27-38 Pct. .415	14-35 Pct. .286	Seventh Pct. .360
St. Louis	22-44 Pct. .333	18-28 Pct. .391	Eighth Pct. .357

Note: Table does not include today's games.

All of which shows the Yankees and Brooklyn made the best rallies; the Cleveland and New York Giants took the sharpest nose dives. The Pirates show a steady all-gait though the figures do not show the collapse they've suffered the last two weeks. Maybe the big National league secret is that nobody cares much about getting into the world series but is loaded down with the responsibility of upholding league prestige against those Yankees. Joe McCarthy's club looks far too strong, though all the experts are agreed the current model of Yankee power is a soap box model compared with the great Yankee machine of 1927.

All star... inasmuch as now is the real time to name the all-gait though the figures do not show the collapse they've suffered the last two weeks. Maybe the big National league secret is that nobody cares much about getting into the world series but is loaded down with the responsibility of upholding league prestige against those Yankees. Joe McCarthy's club looks far too strong, though all the experts are agreed the current model of Yankee power is a soap box model compared with the great Yankee machine of 1927.

Robert Lafferty of Aurora, Illinois New Junior Rifle Corps Champion

**CAMP PERRY, Ohio, Aug. 26 (AP)**—Robert Lafferty, Aurora, Ill., today won the junior rifle corps small bore championships in the national rifle matches with a score of 375 out of a possible 400.

There were nearly 200 contestants, ranging from 12 to 18 years, in the match which was fired from four positions, prone, sitting, kneeling and standing.

Byron Sherman, Marshtown, N. J., was second with 371, and Donald Jeskel, Dubuque, Ia., third with 366.

Lafferty also won the group "A" match with the same score, 375, and Jeskel was second with 367. Richard Johnson, Sandusky, Ohio, was third with 363.

Fourteen-year-old Anna Lou Ballow of Mannington, W. Va., won her third championship of the meet by taking the group "B" title

Don Gutteridge Nips New York For Cardinals

Boosts St. Louis In League Standings With Timely Triple

**ST. LOUIS, Aug. 26 (AP)**—Don Gutteridge's second triple of the day, with two out and a mate on first in the ninth inning, broke a deadlock and scored the run that gave the Cardinals a 7 to 6 victory over the New York Giants today.

The win boosted the Cards into a tie for sixth place in the National league, and left the Giants 4 1-2 games behind the pace-setting Pittsburgh Pirates.

Gutteridge also had a double in addition to his pair of three-baggers, and drove in a total of four runs.

JoJo Moore and Bob Seeds hit homers for the Giants.

Foxx Hits Two Homers as Sox Split Twin Bill

**BOSTON, Aug. 26 (AP)**—Jimmy Foxx, Red Sox "muscle man," made the 2,000th hit of his major league career today, then added two home runs for good measure as the Red Sox split a double-header with the Chicago White Sox.

The veteran Ted Lyons pitched the visitors to a 12 to 2 victory in the opener, but the Red Sox came back to squeeze out a 9 to 8 triumph in 10 innings of the nightcap. The double-header was the second the teams are scheduled to play in three consecutive days.

Doc Cramer scored the winning tally in the second game. He walked, advanced on a sacrifice and an error and came home on Higgins' single.

with 354 points. Billy Frey, Bloomington, Ill., had 341 and Ralph Everly, Dubuque, 339.

Anna Lou Ballow won the Whistler trophy in group "B" with 1001 points, Ralph Everly had 987.

# Iowa's Rivals Featured In Races at Fair

## Gus Schrader And Emory Collins Split Dirt Track Honors

DES MOINES, Aug. 26 (AP)—Iowa's foremost rivals on the dirt track speedways, Gus Schrader of Cedar Rapids and Emory Collins of LeMars, divided honors in the feature events on the racing program at the Iowa state fair today.

Collins won the first heat of the territorial sweepstakes, a seven-lap event, in which Schrader finished third after a bad skid that caused him to lose considerable time and distance.

But Schrader came back in the five-mile feature event and set a blistering pace that enabled him to set competitive records for the intermediate distances of one mile, three miles and four miles.

Change Time

The time of this race was announced as 5 minutes 19.90 seconds, but veteran race followers and the drivers insisted that a mistake had been made. The timers had left the track, however, and it was not until later in the evening when a check of the time by laps was made, that it was learned that Schrader had circled the half mile track 10 times in 4 minutes, 43.05 seconds, and had set three records.

The Cedar Rapids pilot, apparently chagrined by his defeat in the first race of the day, set such a hot pace in the final event that by the end of one lap he had a lead of several yards over Collins, who in turn was well ahead of the remainder of the field.

Schrader kept increasing his lead and even after it became apparent that he could not lose except by accident, continued his mad flight around the oval without letup.

He was clocked in 56 seconds for the first mile, in 2 minutes 48 seconds for the three miles and 3 minutes 44 seconds for four miles.

Collins finished second in his Offenhausser, the same make car that Schrader drives; Jimmy Wilburn, Fortland, Ore., was third, and Linton Musick, Dallas, Tex., was fourth.

In the opening race Schrader was being pushed so hard by Collins that the former tried to take the final turn in the fifth lap with too much speed. His car skidded, turned at right angles to the track, and for the moment appeared that it might roll over, but the veteran pilot straightened it out.

By this time, however, Collins had acquired a good lead and Ben Shaw, Newark, N. J., also had crowded ahead of the Cedar Rapids driver. Both Collins and Shaw held their places and finished ahead of Schrader.

New Record

Both Schrader and Collins were caught in 25.30 seconds in the time trials for a track record, the old mark, held by Schrader, being 25.37 seconds. However, this is seventeen-one hundredth seconds slower than the International Motor Contest association's record, set by Schrader at Cedar Rapids early this season.

Forty-eight cars, said to be the largest number ever entered here, were on the track and all but four of them qualified.

The drivers will get into action again Sunday afternoon and on the third time next Friday afternoon.

# Athletics Split Double Header With St. Louis

PHILADELPHIA, Aug. 26 (AP)—The Athletics and Browns split another double-header here today. St. Louis winning the second game, 6-4, after Philadelphia had pounded three pitchers for an 11-6 decision in the first.

Lynn Nelson, who received credit for the first victory, was put on the shelf with an injured arm when a muscle gave way as he threw a fast ball in the seventh inning. Up to then he had pitched a three-hit shut-out.

In the second game the Browns' coach, Oscar Melillo, was hit by a line drive from Billy Sullivan's bat. He was knocked down and helped off the field with a badly bruised left leg.

Bob Johnson of the A's hit his 27th home run in the first game. In the nightcap Fred Johnson and Ed Cole held the A's to eight hits while their mates slugged Bud Thomas for 11.

# Files Suit On Ball Club

MILWAUKEE, Aug. 26 (AP)—A \$65,000 damage suit was filed against the Milwaukee baseball club in circuit court today by Mrs. Rose Plantz following the death last March of her daughter, Katherine, 21.

The plaintiff charges the girl was struck between the eyes by a foul ball at Borchert field July 16, 1936, because the grandstand was not screened properly. The suit supersedes one of \$50,000 filed before the girl's death.

# Mike Jacobs Will Widen Fistic Empire

NEW YORK, Aug. 26 (AP)—Mike Jacobs took steps to expand his fistic empire today by forming a virtual partnership with Madison Square Garden and serving notice that he plans to invade both Detroit and Chicago.

Last October, after two years of warfare, Jacobs went into the Garden on a strictly rental basis. He paid the Garden \$5,000 for each show he staged and took his own losses.

# Vagnone, Mat Villain, Slams Cook

DES MOINES, Ia., Aug. 26 (AP)—Gino Vagnone, the red-haired Italian, slammed Ed Cook, Iowa's newest mat villain, to the canvas so often and so hard that the Cedar Rapids boy stayed put after 36:20 of the main event of a wrestling show here tonight.

Earl Wampler, Scranton, Ia., and Jack Hader, Dallas, Tex., went to a draw in their 30-minute event.

Joe Hubka, Dodge, Neb., got the referee's nod over Bob Jesson, Minneapolis, who was disqualified for breaking some rule or other over the Nebraska boy's ears after 15:01 of the opening bout.

# Bees Get Three Of Four Against Cincinnati Reds

CINCINNATI, Aug. 26 (AP)—The Boston Bees took the third game of the four-game series with the Cincinnati Reds here today, 6 to 1, as Johnny Lanning allowed seven hits.

Paul Derringer was sent to the showers in the ninth after a three-run eighth inning uprising. The Bees scored three in the fifth, including a homer by Vince DiMaggio.

Jersey Joe Stripp was chased from the mound by Umpire Lee Ballanfant in the third inning when he was called out on a slide at second base.

# Age-Old Policies Once Deemed Vital, No Longer Rule, According to Davies

Business and politics sometime will acquire professional standing and will use science for material ends and to achieve ideals of American progress.

Traditional policies, once deemed vital, no longer rule, according to Prof. George R. Davies of the University of Iowa business research bureau.

"Once policies were shaped in accordance with memories of the past, rather than in terms of realistic understanding of the present," Prof. Davies said.

He pointed out three differences between the past and the changed conditions of the present. For instance, inflationary tendencies once were stimulating but now the arouse fear and resentment in the hearts of the bondholders who exercise prestige leadership.

Tariffs, he said, no longer encourage "infant industries" but rather discourage the expansions of enterprise. Now "free competition" and laissez faire individualism merely encourage monopoly, both of capital and labor.

Present indications of national business, judged by traditional standards, are favorable and in the past would have brought a confident forecast of prosperity ahead.

But the regularity of a century of experience was overthrown by the World war

# Opening Day Crowds Surpass State Fair Attendance Mark

## Officials Prepare for Second Day's Rush at Centennial Fair

### Feature Attractions Expected to Lure Many Thousands Today

By GLENN LOYD  
DES MOINES, Aug. 26 (AP)—With opening-day record threatened by an exposition jam that may surpass the 65,000 mark, before the last nose is counted, Iowa centennial state fair officials tonight prepared for a huge second day throng on Saturday.

Fair officials said today's attendance up to 6 o'clock tonight was 61,733 compared with 53,694 for the like time of the first day a year ago.

The second-day program included all manner of attraction. For the agricultural minded there will be the start of 4-H baby beef and lamb judging, while in the afternoon open and club class swine will go on the auction block.

Scoring will start in the baby health contest, and judging will be well underway in all other departments of the fair. The opening rounds will be played off in the mid-west national horseshoe contests; old fiddlers will get into action, and the various women's demonstration projects will start.

Judging of prize winning poultry will begin at 10 a. m., in the new poultry building, dedicated this afternoon with an appropriate program.

Saturday is a combination of days. It will be "thrill day" before the grandstand where a program of circus acts and auto stunting will be presented. Veterans of the wars will be guests of the fair management, and it will be "press day" for Iowa editors, also guests of the state fair board.

Tonight the fair presented the first section of its rodeo program, with a series of events from fancy roping and riding to steer bulldogging and chuck wagon races and topped it off with hippodrome acts and fireworks.

W. H. Lightner of Belle Plaine, literally walked away with the prize money and grand championship ribbons in the open class market barrow show.

His heavyweight Berkshire Poland China crossbred won the grand championship, while his lightweight barrow was adjudged reserve grand champion.

Then came the grand championship pen of three judging. Lightner's heavyweight entry in that class won the purple ribbon, while his lightweight pen took the reserve grand championship ribbon.

The Belle Plaine farmer was not present at the judging. His pigs were shown by Lowell Smith of Belle Plaine and Kenneth Nelson of Story City.

Winners in the various divisions of the open class were included: Durocs—Champion, R. Alan Williams, Iowa City, on lightweight; champion pen, Ralph Eastridge, Runnels, best heavy barrow, John Kastler, Woolstock, a 4-H club boy.

Chester Whites—Champion, R. Alan Williams, on lightweight; champion pen, W. Alvin Hitz and Son, Polk City.

Spotted Poland Chinas—Champion—H. M. Menough, Grimes, on lightweight; champion pen, R. W. Hansell and Son, Indianola.

Hampshires—Champion, E. J. Morrissy and Sons, Valeria; champion pen, E. J. Morrissy and Sons, Tamworth and Yorkshire—Champion, Frank G. Hull, New Sharon, on lightweight; champion pen—Frank G. Hull.

Crossbreds—Champion, W. H. Lightner, Belle Plaine; champion pen, W. H. Lightner.

### IOWA TOUCH

#### California Picnic To Be Held

DES MOINES, Aug. 26 (AP)—The California picnic idea is going to have an Iowa touch next Tuesday.

There won't be any picnic but Californians, many of them native Iowans home for centennial, will get together at the state fair varied industries building at 10 o'clock for a reunion.

The affair will be held opposite the Los Angeles county display and is being arranged by Clarence W. Schouboe of the chamber of commerce of that city.

### STRAYS

#### Twenty-Five Small Tots Run Away

DES MOINES, Aug. 26 (AP)—No less than 25 small tots got away from their parents, or vice versa, on the crowded Iowa Centennial Fair grounds today.

One wee boy, tears streaming down his eyes, appeared at the grandstand loudspeaker in search of his mother, father and older brother, who soon joined him.

Last youngsters are cared for at the public safety office until missing relatives are located.

## Change Hollywood Shifts Style In Picture Industry

By HUBBARD KEAVY  
HOLLYWOOD, Aug. 26 (AP)—The direct action girl-socked-in-the-jaw, body-falling-in-the-door type of motion picture has been abandoned for more subtlety and finesse.

"Screwball" comedy is back on the shelf; the funny papers can have it exclusively again.

Gangster pictures are still being made, but they approach their subject from "a more serious sociological angle."

Better pictures, say the movie makers, are resulting. These are among the enlightening items in the first all-industry forecast ever made in the history of pictures. It was made possible because the \$250,000 movie quiz contest, in connection with a national drive to fill vacant theater seats, compelled the producers to announce all films to be released between now and Oct. 31.

During the coming three months 94 features will be released, representing an investment of almost \$50,000,000, and including practically every top star in the business.

The 94 pictures fall in 12 general classifications. Comedy, drama tops the list, with 22 promised. Comedies follow, the number being 17, but none are the dizzy type. There are 13 crime or gangster films, seven musicals and the others are straight dramas, mysteries, melodramas, westerns, dramas with incidental music, action and family types.

The high budget pictures include "Marie Antoinette," "Alexander's Ragtime Band," "Carefree," "Sweethearts," "My Lucky Star," and "The Great Wall." Spectacle dramas are "Suez," "Spawn of the North," "Too Hot to Handle," "The Texans," "The Crowd Roars," "Algiers" and "Men With Wings."

Big-time comedies include "Professor Beware," "Room Service," and "You Can't Take It With You." "That Certain Age" and "The Sisters" also come in the big budget class.

## NATIVE PRIDE

### Iowans Are Proud Of Tall Corn

DES MOINES, Aug. 26 (AP)—Native pride, quite naturally, bobs up often at the Iowa State Fair. Before the Los Angeles (California) exhibit today it was at its best for a moment.

Said one onlooker, after viewing scores of types of fruits and vegetables, "Where's the sweet corn?"

Rejoined a neighbor, "Humph, they don't grow it there." Both moved away with a beam of satisfaction.

### Brides Trip Gaily Off But Leave a Glove

SAN FRANCISCO (AP)—This city's marriage license bureau has quite a collection of lost gloves, but they're nearly all right-handed. Herbert Riley, clerk, explains it this way:

"In this state brides-to-be have to appear at the license bureau along with their fiancés. The girls take off their right gloves to sign the papers. Then, nervous or happy or both, they trip away and forget them."

"Marie Antoinette," "Alexander's Ragtime Band," "Carefree," "Sweethearts," "My Lucky Star," and "The Great Wall." Spectacle dramas are "Suez," "Spawn of the North," "Too Hot to Handle," "The Texans," "The Crowd Roars," "Algiers" and "Men With Wings."

Big-time comedies include "Professor Beware," "Room Service," and "You Can't Take It With You." "That Certain Age" and "The Sisters" also come in the big budget class.

The bride, the daughter of Mr. and Mrs. John C. Arn of West Branch, was gowned in a floor length frock of white lace over white crepe. She wore the floor length tulle veil, worn by her sister when she was married, which was gathered into a cap of orange blossoms and roses. She carried a bridal bouquet of white gladioli.

A frock of aqua taffeta fashioned with a fitted bodice and a long bouffant skirt was worn by the matron of honor. She carried a bouquet of salmon-colored gladioli and wore gold accessories.

The bridesmaids were attired in gold taffeta frocks carrying bouquets of lavender asters and with brown accessories.

Mrs. Arn's costume was of navy blue lace and copper accessories. Mrs. I. E. Isaacs, mother of the groom wore a teal blue crepe gown and a matching hat.

In Youde's Inn, immediately after the ceremony, the couple received congratulations. Decorations were in pastel gladioli and fall flowers. Hostesses at the reception were Mrs. Donald Arn, Eddythe Riecke, Agnes Kurz, Mrs. Allen Hurley, Harriet Fink, Eugenia Elliott, and Jesse Moss.

The couple left soon after the reception for a wedding trip in the west. The bride chose as her travelling costume a brown crepe frock with white Chinille trim on the yoke and brown accessories. The couple will be at home after Sept. 10, in the Commonwealth apartments.

Both Mr. and Mrs. Isaacs are graduates of Iowa City high school. Mrs. Isaacs received a B.A. degree from the University of Iowa in home economics in 1933. She taught in Tiffin at the same time she was finishing her work for her

## Gladys Arn Is Married To Fremont Isaacs Thursday Eve; Rev. Ralph Krueger Officiates

### Rev. J. A. Weary Sang Nuptial Solos During The Ceremonies

Banked with sumac greenery and white asters and gladioli in tall baskets, the altar of the English Lutheran church was the scene of the wedding of Gladys Arn and Fremont Isaacs. The nuptials were solemnized Thursday evening at 7:30, with the Rev. Ralph Krueger officiating.

Music before and during the ceremony was furnished by Mrs. J. A. Weary at the organ. The Rev. Weary, minister of the local Welsh church sang nuptial solos. The organist played "Lohengrin" and "Mendelssohn" wedding marches.

Attending the couple were Mrs. Kennard L. Jones, of Detroit, sister of the bride, matron of honor, Martha Ann Isaacs, sister of the bridegroom, and Anna Fisher, bridesmaids.

The bridegroom was attended by Leslie Remley, best man, and William Arn, of West Branch, brother of the bride, Pearl Gilchrist, Frank Fisher, and Theodore Lewis, ushers.

The bride, the daughter of Mr. and Mrs. John C. Arn of West Branch, was gowned in a floor length frock of white lace over white crepe. She wore the floor length tulle veil, worn by her sister when she was married, which was gathered into a cap of orange blossoms and roses. She carried a bridal bouquet of white gladioli.

A frock of aqua taffeta fashioned with a fitted bodice and a long bouffant skirt was worn by the matron of honor. She carried a bouquet of salmon-colored gladioli and wore gold accessories.

The bridesmaids were attired in gold taffeta frocks carrying bouquets of lavender asters and with brown accessories.

Mrs. Arn's costume was of navy blue lace and copper accessories. Mrs. I. E. Isaacs, mother of the groom wore a teal blue crepe gown and a matching hat.

In Youde's Inn, immediately after the ceremony, the couple received congratulations. Decorations were in pastel gladioli and fall flowers. Hostesses at the reception were Mrs. Donald Arn, Eddythe Riecke, Agnes Kurz, Mrs. Allen Hurley, Harriet Fink, Eugenia Elliott, and Jesse Moss.

The couple left soon after the reception for a wedding trip in the west. The bride chose as her travelling costume a brown crepe frock with white Chinille trim on the yoke and brown accessories. The couple will be at home after Sept. 10, in the Commonwealth apartments.

Both Mr. and Mrs. Isaacs are graduates of Iowa City high school. Mrs. Isaacs received a B.A. degree from the University of Iowa in home economics in 1933. She taught in Tiffin at the same time she was finishing her work for her

## Senate Campaign Expenditure Group Chairman Warns Workers' Alliance

WASHINGTON, Aug. 26 (AP)—Chairman Sheppard (D-Texas), of the senate campaign expenditures committee, warned the Workers' Alliance tonight that if it went ahead with a proposal to raise a \$50,000 political fund among relief workers the matter might be called to the justice department's attention.

He took this action shortly after President Roosevelt had been asked for comment on the fund-raising proposal, and had made this statement to reporters at Hyde Park:

"I very much hope that people on relief will not contribute any money for the purpose of aiding any party."

Sheppard wrote Davis Lasser, president of the alliance, an organization of relief recipients: "When you collect from a federal employe funds which you use for or against any senator or member or delegate to congress or resident commissioner, or for or against any political object whatever, you are in my judgment aiding and abetting such employe in a violation . . . and subject to prosecution."

Sheppard added: "Personally, I warn you, therefore, not to carry out this proposed plan."

In a statement issued to the press before he received Sheppard's letter, Lasser said that, if it could be shown conclusively that the alliance would be violating the law by raising a fund to

"explain the issues in the campaign," it would cease such activities. But he declared the question involved was not primarily a legal one.

"While the Georges, the Smiths, the Tidings are permitted to raise huge funds from their financial backers," Lasser said, "concerted attempt is being made to prevent our organization from speaking the voice of the unemployed and WPA workers in this campaign."

NEW YORK (AP)—The war in China is having no visible effect on the supply of fireworks in the United States for the July Fourth celebration.

Leading distributors here report it is a popular misconception that China is the chief source of this commodity. Firecrackers are imported, but most of the display works are manufactured here.

One official remarked, "The only change we have noticed is that China is now importing flares from us for military purposes."

## Fireworks Still Plentiful Despite Chinese War

NEW YORK (AP)—The war in China is having no visible effect on the supply of fireworks in the United States for the July Fourth celebration.

Leading distributors here report it is a popular misconception that China is the chief source of this commodity. Firecrackers are imported, but most of the display works are manufactured here.

One official remarked, "The only change we have noticed is that China is now importing flares from us for military purposes."

### PERSONALS

William McNally of Des Moines is visiting relatives in Iowa City for a week or 10 days. He will be a guest at the F. B. McNally residence at 738 Oakland avenue, and the H. B. McNally home, 648 S. Governor street.

Mrs. Vergie Hickerson, and her three sons, Loren, Lindon and Luther, returned Thursday from a 10-day vacation. They visited in Mt. Ayr and Manning.

John Evans is visiting in Iowa City after returning from a vacation trip in Colorado.

Derrelle Atkinson who has spent the early part of the summer in Chicago and Indiana, was in Iowa City yesterday to spend the day with friends. She will spend the remainder of the summer in Des Moines before returning to the university this fall.

Mr. and Mrs. Frank Lorenz, 435 Grant street, drove home yesterday from Hazelhurst, Wis., where they went to get Shirley, their daughter, who has been at Joy camps this summer.

Mrs. J. W. Kinney, 318 S. Gilbert street, and Estella Marie Horst, 837 Seventh avenue, are visiting relatives of Miss Kinney in Peoria, Ill. They left Iowa City Thursday and plan to remain in Peoria for two weeks.

## Cry if You Must, Says Writer, Here's How to Un-Puff Eyes

Go ahead, little girl. Have a good cry, if you must. But remember to allow yourself 15 minutes between the time you stop crying and the time you must face the world again. You'll have to cool off that red, swollen nose, deflate your puffed eyes and erase the woe lines from your forehead.

Crying is a stimulant that upsets the system, says Gloria Bristol, New York beautician. Maybe you'll have to get it out of your system. But you might try to head it off. Perhaps you can avoid it by doing something you haven't done for a long time: going shopping for a favorite hat or shoes or perfume. Just window-shopping may do the trick, says Miss Bristol.

But if you have to cry, here's Miss Bristol's recipe for recovery. Take a small bowl of ice, a

saucer of witch hazel or eye lotion and four pieces of cotton the size of the palm of your hand. Squeeze the pads out in ice water, dip them into the lotion, squeeze them semi-dry and then proceed.

1. Press a pad over each eye so that it covers the whole socket, letting the other two pads soak in the icewater. Alternate each set of pads so as to keep your eyes as cold as you can stand it.

2. Use your eyedrops to brighten your eyes, but allow your self five minutes for make-up. Apply a light powder over face and neck. Use rouge sparingly, then preferably on your ear lobes.

3. Put a tiny bit of vaseline, but no eye shadow, on your eyelids. Darken and lengthen your eyebrows, but don't touch up the corners of your eyes. Use mascara only on the outside eyelashes.

4. Use your eyedrops to brighten your eyes, but allow your self five minutes for make-up. Apply a light powder over face and neck. Use rouge sparingly, then preferably on your ear lobes.

5. Put a tiny bit of vaseline, but no eye shadow, on your eyelids. Darken and lengthen your eyebrows, but don't touch up the corners of your eyes. Use mascara only on the outside eyelashes.

6. Use your eyedrops to brighten your eyes, but allow your self five minutes for make-up. Apply a light powder over face and neck. Use rouge sparingly, then preferably on your ear lobes.

7. Put a tiny bit of vaseline, but no eye shadow, on your eyelids. Darken and lengthen your eyebrows, but don't touch up the corners of your eyes. Use mascara only on the outside eyelashes.

8. Use your eyedrops to brighten your eyes, but allow your self five minutes for make-up. Apply a light powder over face and neck. Use rouge sparingly, then preferably on your ear lobes.

9. Put a tiny bit of vaseline, but no eye shadow, on your eyelids. Darken and lengthen your eyebrows, but don't touch up the corners of your eyes. Use mascara only on the outside eyelashes.

10. Use your eyedrops to brighten your eyes, but allow your self five minutes for make-up. Apply a light powder over face and neck. Use rouge sparingly, then preferably on your ear lobes.

11. Put a tiny bit of vaseline, but no eye shadow, on your eyelids. Darken and lengthen your eyebrows, but don't touch up the corners of your eyes. Use mascara only on the outside eyelashes.

12. Use your eyedrops to brighten your eyes, but allow your self five minutes for make-up. Apply a light powder over face and neck. Use rouge sparingly, then preferably on your ear lobes.

13. Put a tiny bit of vaseline, but no eye shadow, on your eyelids. Darken and lengthen your eyebrows, but don't touch up the corners of your eyes. Use mascara only on the outside eyelashes.

Thomas Mann Says Literature Ruined

By ELIZABETH INSKIP WYE  
AP Feature Service Writer

NEW YORK — Thomas Mann's pleasant intelligent face sobered under the pressure of his thoughts as he paced the length of a hotel room and told Mrs. Mann—in German—all about the future of German literature as he sees it.

Her short-haired gray head bobbed excitedly while I, sitting silently by, deplored my forgotten grammar and strained to catch the sense of the flow of his words.

"Under Hitler," said Dr. Mann to me at last, in hesitant English, "literature will be ruined. The only hope is that this government will not last forever."

He Makes a Face

If it does last forever, it's quite likely that Dr. Mann himself will remain an expatriate. A world-renowned novelist and 1929 Nobel prize winner whose latest work, "Joseph in Egypt," has been received almost reverently by American reviewers, he was deprived of citizenship by the German government in 1936 because of his political views.

At 62, Dr. Mann has iron gray hair and mustache, round alert eyes and physical agility as marked as his speech. While talking, he circled the room several times, gripped the back of a chair, and alighted every now and then on a couch.

I asked if he had read any books acceptable to the Nazi regime but he only made a face and snorted.

"Even in Italy it is not so bad," he said. "Mussolini does not care about culture, but Hitler thinks he is an artist. He has very poor taste."

They Cannot Write

Mrs. Mann, who was perched on the edge of a chair, her eyes darting from me to her husband and eager that he not miss a single cue, put in:

"They cannot write about the Germany of today. There is nothing important they can write about. Oh, perhaps something historical."

I asked Dr. Mann about the literature of America.

"America!" His sweeping gesture indicated approval. "I read the American authors. Dreiser, Upton Sinclair, Ernest Hemingway, Sinclair Lewis."

Especially he likes Hemingway's "Farewell to Arms," and he thinks "It Can't Happen Here" by Sinclair Lewis a powerful book that shows remarkable knowledge of the national-socialist state.

Our Own Country

When asked if he thought criticism of Sinclair Lewis for his attacks on American institutions had been justified, Dr. and Mrs. Mann broke into conversational counterpoint.

"No," she said, "it is because of his love for his country that he criticizes it."

Dr. Mann interjected: "We are inclined always to be more harsh toward our own country because we want to improve it."

For his halting English, Dr. Mann was sorry.

"I am studying English from the translations of my own lectures," he said. "There are always new words."

Mrs. Mann beamed. "Every time we come to this country, he is learning more and more."

This time he will make a cross-country lecture tour ending in California next month. Then back to Switzerland where he is editing a new bi-monthly magazine, including articles sent secretly from Germany.

### French Foreign Minister Usher to Shine at Last

PARIS (AP) — Maurice Carriere, after a long career as plain usher at the foreign ministry of the French republic, has come at last into glory — haberdier of His Royal Highness, King George VI of England.

Resplendent in a uniform of braided livery, he will bear the royal halberd, long-handled broad-axe, at the head of the ushers' corps while the king is living at the ministry on the Quai d'Orsay during his state visit to France June 28 to July 1.

Carriere, for many years usher in the press service of the Quai d'Orsay, has been serving recently in the foreign minister's office.

# Education's Importance Will Be Portrayed

## Committee of Education Makes Exhibit Plans After Much Study

Dramatic portrayal of education as "the one great force standing between civilization and catastrophe" will be the subject of one of the major exhibit groups at the New York World's Fair 1939, Grover A. Whalen, President of the Fair Corporation, disclosed in announcing creation of a Department of Education in the Exposition.

Organization of the department followed a six-months' study of education plans for the Fair by a Committee on Education, of which Dr. Harry Woodburn Chase, Chancellor of New York University, is chairman. Functions of the department will be to plan and supervise education exhibits and programs at the Exposition, to interpret other exhibits in terms of their educational content and to keep the thousands of educators who will come to New York next year informed of events in their profession throughout the metropolitan area.

Donald Slesinger, former Dean of Social Sciences at the University of Chicago and executive secretary of the education committee, has been named director of the department.

Space has been set aside for education exhibits in Building N-5, one of the major Fair-built exhibit halls, with an entrance fronting on the Fair's principal esplanade, Constitution Mall. An auditorium will be available for lectures and motion pictures.

A striking feature of the education program, according to Dr. Chase, will be a series of demonstrations of the place the motion picture is making for itself in the profession. Films, he said, will be grouped according to special interests and will be drawn from every possible production source.

In discussing the Fair's education plans Dr. Chase said: "The problem we faced was that of dramatizing educational material in such a way as to make it compete for interest with industrial and amusement displays. We had no doubt of the importance of the story we had to tell. Our challenge was to tell it in a way exciting enough to compel attention.

"The theme of the exhibit will be the role of education as the one great force standing between civilization and catastrophe. The struggle of the child to free himself from the emotional ties of infancy; of the youth to lay the foundations of family life, of economic security, of successful living; of the citizen to become an independent cooperating member of a democratic society—all that will be dramatized against the possible catastrophes that would follow failure.

"For the child, failure would mean pathetic shyness; for the youth, unhappiness bordering on breakdown; for the citizen, unemployment, depression and war. Education will not necessarily prevent these disasters. But at least it can give human beings a fighting chance which they do not have where knowledge and education are forced into the service of temporary rulers."

### Argues That Relief Is Too 'Comfortable'

LOS ANGELES (AP)—Rex Thomson, county superintendent of charities, believes relief should be made "a little uncomfortable."

"The philosophy has grown up among reliefers that they are an aristocracy entitled to be maintained in laziness and comfort at the taxpayers' expense," he says. "They regard indigency as a vocation."

### Welcome!

Commander B. M. Ricketts of the Roy L. Choepok post of the American Legion will be on hand this morning to greet the Mississippi flotilla when it passes through Iowa City at about 10:30 this morning. The caravan will parade through the Iowa City streets.

## Stamp-ede Local Philatelists Rush Post Office

There was a mad scramble at the local post office when \$840 worth of the new Iowa centennial three-cent postage stamps were sold in less than two hours.

The University of Iowa, capitalizing on the stamps because the Old Capitol is featured, made the largest individual purchase of 10,000 to be used for mailing university literature and registration material. Local collectors and business men brought the total number of the stamps sold to 28,000.

Every effort is being made to push the sale of this stamp issue. The first order of 50,000 is considered inadequate, and a double order is expected to arrive by the first of the week.

## RETURNED

### Son's Diary Returned 20 Years Late

GENESEO, N. Y., Aug. 26 (AP)—A diary kept by her son, killed in the World war, has been returned to Mrs. William Nixon, 20 years after his death.

Corporal George Nixon, her son, a member of Company G, 319th U. S. infantry, was killed in the front lines Oct. 18, 1918. The diary had been kept daily until Sept. 1 of that year.

Somewhat, the diary got into Germany and in the possession of a former German soldier who, through war files in Washington, located Mrs. Nixon.

## Ralph McKinzie Named Coach, Athletic Director

Ralph McKinzie of Eureka, Ill., who received a master of arts degree from the University of Iowa at the August convocation, has been named director of athletics and coach at Wartburg college in Waverly.

McKinzie was formerly director of athletics and coach at Eureka college, where he received his A.B. degree in 1923.

The new director wrote his master of arts thesis on "Federal Promotion of Recreation."

## Horrabin Gets Road Contract

### Bid of Nine Cents A Cubic Yard Is Awarded Grading Job

The contract for putting to grade a new Johnson county road in Monroe township was awarded to the Horrabin Contracting company of Iowa City yesterday.

The local contracting company's bid of nine cents a cubic yard for removing 44,800 cubic yards of dirt—a total bid of \$4,032—was lower than that of the only other bidder, J. B. Hannahs of West Point.

Work on the project will start immediately and should be completed by Sept. 15. It forms a part of the county three-year road program.

Lightning Hits Twice MANILA, P. I. (AP)—The saying that lightning never strikes twice in the same place was tragically refuted at Bicoc Tuao. A house struck two years ago recently was the target of a second bolt, which killed a 32-year-old woman.

## New Version of 'Round Peg' Theory

Clinic's Puzzles Show Youths Just What Kind of Jobs They'll Fill Best

By AURELIUS KINSEY AP Feature Service Writer

CHICAGO (AP)—Youngsters put round pegs in ROUND holes at Northwestern university to help them be sure they won't end up in square-holed jobs.

That's part of the technique employed at an unusual job clinic. Set up specifically to train vocational guidance workers, the clinic is said to be the first in the country working on such broad lines. In it young men and women find out whether they should be salesmen or clerks, farmers or writers.

Two to Ten Hours The round pegs come in as part

## Friends Give Mrs. Dunlap Farewell Party

Mrs. O. H. Dunlap, 316 S. Johnson street, was the honored guest at a farewell courtesy in the home of Mrs. G. F. Gardner, 905 S. Summit street. Mrs. Dunlap is leaving Iowa City to make an extended visit in Los Angeles, Cal. Guests at the bridge party were the members of a bridge club. Mrs. H. A. Dunlap and Mrs. Roy Snyder received prizes for scores. After the games, refreshments were served and the honoree received a handkerchief shower from the group.

No More Car Crashes, Maybe SPARTA, N. C. (AP)—The new Blue Ridge parkway sweeping from Virginia through Western North Carolina will cross all state highways on bridges with clover-leaf approaches to eliminate danger of collisions.

Old Capitol, first the symbol of a newborn government, later of a great educational institution...

Issue, Old Capitol has seen generations of students come and go since it became the property of the university...

lowa and its state university, Old Capitol stands ready to greet the class of 1942...

Board, Room Employment Same as Usual

Cash Jobs Are Rare Again, According To Lee H. Kann

Opportunities for "board and room" employment at the University of Iowa this fall are much the same as last year...

Prospects for students interested in obtaining board and room in exchange for work are bright in some fields...

Girls who have had household experience, cooking or caring for children are faced with good opportunities for obtaining board and room employment in private homes...

There are also possibilities for boys with farming experience to earn board and room on farms near Iowa City...

The bureau director warned, however, that only in the rarest cases are students capable of earning all of their college expenses during the year...

One phase of the situation was brightened however, by an approximate 20 per cent increase in the federal NYA payroll...

Mr. Kann revealed that a decrease in the evident need of applicants so far this year indicates a possible larger enrollment at the university this fall because of slightly increased financial independence from student employment...

About 50 per cent of the university enrollment applies for some sort of aid through the university employment bureau...

One out of four applicants get board jobs, while only one out of about 25 receive cash employment, the bureau director said.

Nothing 'Green' About Her

Freshman Orientation Groups Give Pointers To Petite Mary Freshman

Entering the university for the first time this fall need not be a nightmare for Mary Freshman...

During August and September she will receive a specially prepared handbook besides letters from older university girls...

As a part of the U.W.A. freshman orientation system, these older girls have been carefully selected to serve as leaders or assistants in quads composed of a leader, two assistants and a faculty wife adviser...

Preliminary to the opening of school there will be a series of programs broadcast from the university radio station, WSUI...

Problems that confront Mary when she is registering Sept. 23 may easily be solved when she consults the information booth which will be open in the main lounge of Iowa Union all that day...

A pleasant informal Sunday afternoon tea at the home of a faculty wife Sept. 25 will no doubt be Mary's first opportunity to meet the leaders and members of her particular freshman orientation group...

As a result of the afternoon's fun, the group will no doubt make plans for other meetings...

At the first freshman lecture Mary will attend Sept. 27 in the river room of Iowa Union she will join with the members of her group in meeting other groups and their leaders...

Knowing that recreation and relaxation after a couple of weeks of classes will probably be welcome to Mary, U.W.A. along with the Women's Athletic association has arranged a "play" day...

Besides these affairs which have already been planned for Mary, her own group will plan to have other gatherings, for which they will make arrangements themselves...

Welcome Chorus, Orchestra, Band Waiting

Musicians are welcome! Prof. Philip G. Clapp, head of the music department...

The two directors of university organizations have issued a call to all freshman students who have applied for a special music scholarship and those interested in applying for membership in the university orchestra and chorus...

Religion Is Not Neglected

Campus Organizations And Church, Student Groups Are Popular

Religion is an important factor in the life of a University of Iowa student.

Campus organizations, churches and church student groups, open to those who care to belong, allow religious activity to assume its proper place in student life.

Membership in both Y.M.C.A. and Y.W.C.A. organizations is open to all women and men in sympathy with their broad purposes.

Included in the group of churches are the Baptist, Bethel A.M.E., Christian, Christian Science, Congregational, English Lutheran, Episcopal, Evangelical and Reform, Latter Day Saints, Methodist, Presbyterian, St. Patrick's, St. Mary's, St. Paul's, St. Wenceslaus, Unitarian, Zion Lutheran and the Interchurch council of the Protestant student societies.

The Student Religious council consists of delegates from different student religious societies, campus and church, and fosters, with the Religious Activities board, such cooperative activities as the freshman conference, freshman-faculty discussion groups, "fireside" discussions, hospital entertainment and international relations work.

The Religious Activities board is composed chiefly of faculty members, and represents informally the university at large and different campus and religious interests.

A dredging program, removing silt from between the levees along Iowa river and filling in Old Iowa field and west-shore hollows, will lead to further landscaping activities.

The long-range program of the university calls for constant planning and constant change — the symbol of progress in the educational field, as well as in any other field.

1,500 New Students Expected To Participate in Freshman Week Activities, Conferences

Programs so Scheduled as to Familiarize New Students With the University Of Iowa, Its Aims, Its Tradition, Its Campus

University of Iowa freshmen will start to school Sept. 19! Although the new university year does not begin until 7:50 a.m. the following Monday, Sept. 26, when the impressive induction ceremony ushers in the new academic year...

The freshman week program is a regular part of the year's work for all freshmen. This year's program of events has been prepared to aid each freshman in becoming acquainted with the university, its campus, its traditions and its academic and extra-curricular opportunities.

Under the direction of Prof. Harry G. Barnes of the speech department, freshman week's schedule will aid the new student in preparing appropriate study programs, and will acquaint him with the value of the courses in which he is enrolled.

Opening with the Sunday vesper service at 3:30 p.m. Sept. 18, when new students will be unofficially welcomed to the campus, and closing with the induction ceremonies, freshman week will include almost 30 events, ranging from a broad, interpretative outline of the functions of the university as a whole, to meetings designed to acquaint students with their specific individual subjects before the school year begins.

Freshman students who plan to enroll in the university should have completed all necessary arrangements prior to Sept. 19. When a transcript of their high school credits have been received and approved by H. C. Dorcas, university registrar, students will be mailed an admission card.

If students who do not plan to live in the university dormitories have not made arrangements for living quarters, they should consult the university housing service in Old Capitol by letter or immediately upon arrival.

Liberal arts freshman registration materials may be obtained at the south entrance of Macbride hall as early as Saturday and Sunday of the week preceding freshman week. An assignment booklet, listing the optional and required events of freshman week, is presented to new students when they receive their registration materials.

The Iowa qualifying and placement examinations will keep all freshmen in liberal arts, engineering and pharmacy busy Monday, Sept. 19, with sessions scheduled from 8:30 to 11:30 a.m. and from 1:30 to 4:30 p.m. in the fieldhouse.

The placement examinations are the first of the required events. Three required freshman assemblies will orient students in liberal arts, engineering and pharmacy in the general program of the university.

Following the assembly series, meetings of the students by colleges will take place, with the deans of the colleges as speakers. These meetings will afford students a clear understanding of the programs of the individual colleges and departments.

Pre-registration meetings will acquaint students with the registration procedure. Registration in the school of nursing will begin at 7 a.m. Wednesday. Freshmen in the college of liberal arts will be assigned to advisors Wednesday night, and will register Thursday, a day earlier than last year.

On Friday, freshmen will attend meetings in a subject orientation, when they will receive a birds-eye view of the courses for which they have registered, and when texts will be discussed.

Monday night is play night at the women's gymnasium and athletic field. Iowa Union will feature open house Tuesday night, and all freshmen are invited to attend. (See FRESHMEN Page 11)

Seven Speakers Scheduled for Lectures

Linton Wells Opens S. U. I. Series Oct. 25

Seven leaders of contemporary thought in widely diversified fields will be presented on the 1938-39 series of university lectures, it is announced by Prof. Benj. F. Shambaugh of the political science department, chairman of the senate board on university lectures.

Included in the list are Linton Wells, foreign correspondent and staff writer for newspapers, syndicates and magazines since 1911; Alexander Kerensky, premier of Russia in 1917; Harlan Tarbell, world famous magician.

Wendell Chapman, America's foremost wild animal photographer; John Mason Brown, dramatic critic of the New York Evening Post; Andre Maurois, France's foremost biographer-essayist, and Edward Weeks, editor-in-chief of the Atlantic Monthly Press.

Wells, who will appear as the first speaker on the series Oct. 25, has circumnavigated the globe nine times, and visited all but five countries of both hemispheres.

As one of the world's outstanding correspondents, he has covered assignments from the South Seas to Addis Ababa and from HsinKing to Helsingfors.

Among other experiences, his nose for news got him imprisoned by the Bolsheviks, expelled from Italy, and the pleasure of hobnobbing with former King Edward VIII.

His "Blood on the Moon" is an account of his interesting life. Kerensky will lecture here Nov. 22. He is an active man in politics. (See LECTURES Page 11)

Unionized Students Get 'Campus Habit' at Union

It's known as the campus habit. And it's making use of the facilities of Iowa Union, center of all social activities on the University of Iowa campus.

Frequently the scene of university parties, concerts and lectures, Iowa Union is the social home of every student.

For those who like fine music, there's the Iowa Union music room, newly-located in the northeast corner of the main lounge, where anything from Benny Goodman's latest swing tune to Rachmaninoff's "Prelude" will be played each day this year, with requests granted for number on file.

For a pleasant chat and a "coke," there's nothing like the sunporch, with its white-coated waiters and collegiate atmosphere. And of course the cafeteria is the "center of things" at mealtime.

For those who like to read, just for the fun of it, the quiet browsing library, with its splendid array of all the latest materials in the literary field, is a dandy place to while away an hour or two.

The Union's a place to study, too, with its comfortable chairs in the main lounge and river room, and its "study" atmosphere.

Private parties, under the auspices of the dining service, fit into the setup. WSUI's central broadcasting studio is there, as well as the offices of Dr. Earl E. Harper, new head of the fine arts department and Iowa Union's director.

And there are administrative offices for other departments there as well, including the Religious Activities board, the two "Y" organizations, and others.

University's Theater Begins Third Season

Its revolving stage and other modern facilities tested by two years of exacting performances, University theater will begin its third season this fall with a new series of plays.

In addition, the facilities of the drawing room theater in the studio annex will bring new productions to university audiences.

The drawing room theater, opened last year as an experiment by Prof. E. C. Mabie, head of the speech and dramatic arts department and director of University theater, accommodates an audience of 60 persons who sit in a double row around the room.

The actors use no stage but take the center of the room to enact their parts, thus bringing the audience into close contact with the players themselves.

University theater, continuing its past policy, will present an additional cycle of drama this year under Professor Mabie's direction. Plays of all ages and types, representing the classic Greek, the Shakespearean, the Elizabethan and the modern influences, will be produced.

University theater's summer schedule included Dodie Smith's "Call It a Day," the historical drama, "Richard of Bordeaux" by Gordon Daviot, "The Youngest" by Philip Barry, "Stage Door" by Edna Ferber and George Kaufman and Royal Tyler's "The Contrast."

Progress University Keeps In Step With Times

They're busy building the University of Iowa.

That isn't an exaggeration, for constant change toward larger and finer facilities is always noticeable on the campus.

For the first time this fall, a new men's dormitory will be opened, offering added facilities in the housing division. There are prospects for additional dormitory construction in the near future.

No long ago, the university fine arts and dramatic arts buildings were opened for their respective functions, and a new fine arts "colony" on the west shore of Iowa river was begun, to be added to and eventually completed.

North of the dramatic arts building two large lagoons are under construction, designed not only to become one of the campus beauty spots, but to provide a skating rink for students in the winter time.

WSUI, the university's radio station, will soon launch a \$90,000 building program enabling it to cover the state as an educational and entertainment medium.

A dredging program, removing silt from between the levees along Iowa river and filling in Old Iowa field and west-shore hollows, will lead to further landscaping activities.

The long-range program of the university calls for constant planning and constant change — the symbol of progress in the educational field, as well as in any other field.

"Greetings, Freshmen!"

"In September a large number of young men and women, members of the class of 1942, will come to the University of Iowa for the first time. When they arrive on the campus for the events of freshman week, they will be cordially welcomed to membership in the university's family. "For these freshman students, this first year at the university will be a new experience, an introduction to an institution filled with rich opportunities for those who have the inclination and capacity to take advantage of them. The best that the state has to offer in educational, cultural and social advantages will be at their disposal. "The members of the faculty greet the freshmen and all new students with the wish that their stay at the university will be both profitable and happy." EUGENE A. GILMORE, President

SATURDAY, AUG. 27, 1938

The University Of Iowa Extends A Sincere Greeting

ONLY three more weeks!

Then, with a rush unprecedented in the lives of almost 1,500 last year's high school seniors, the University of Iowa campus will become a megalopolis of activity, after a period of comparative quiet.

You, ladies and gentlemen of the class of 1942, will be the source of that activity!

Many of you will be leaving your homes, in Iowa and other states, for the first time. You'll be traveling dozens, hundreds, perhaps thousands of miles to this university, wondering what you'll find.

For those of you who haven't seen a great university and have never been a part of it will be in a world entirely new and different from anything you have known.

There will be those of you who regret leaving your respective high schools, for high school holds memories of events that you think can never be duplicated.

There will be those of you who are glad of a change to something bigger. There will be others who are neither looking forward nor regretting the beginning of a different sort of life—those of you who are indifferent to change.

But as you prepare to come to Iowa, each of you will be expecting to find something of which you may become a part. Remember this: Iowa will be exactly what you make it. This university, like any other institution of its kind, holds for you exactly what you would have it hold!

You will find here what you come to seek for the University of Iowa is broad enough, complete enough to offer anything for which you are looking.

May we urge you to come to Iowa with the expectation of getting from it all that you desire. May we urge you to become a part of Iowa, a son or daughter of whom Iowa may be proud!

To those of you who fear you cannot maintain sufficiently high standards of scholarship to get along, we would remind you that college work is not harder than high school work. The only danger is in falling behind. The remedy: remain abreast from the start.

To those of you who expect to set the world on fire, those of you whose ambitions may exceed your abilities, our only suggestion is to take things as they come. If you can astonish Iowa with feats of athletic or scholastic prowess, Iowa will be the first to congratulate you.

To those of you whose life exists in the comradeship and pleasant experiences that come primarily through extra-curricular activities, we would remind you that such activities in college are as eager for what you have to offer as were the same activities in high school.

To those of you who dread the thought of leaving friends, remember that those friends will be there when you return—but among the thousands you'll meet here are other friends.

As the approaching school year opens, come to the University of Iowa with the determination to know it thoroughly, to enjoy it completely, to appreciate it fully. For every one of you who comes to Iowa with that determination, there is a place for you, and you will not be disappointed.

OFFICIAL DAILY BULLETIN

Items in the UNIVERSITY CALENDAR are scheduled in the office of the President, Old Capitol. Items for the GENERAL NOTICES are deposited with the campus editor of The Daily Iowan, or may be placed in the box provided for their deposit in the offices of The Daily Iowan. GENERAL NOTICES must be at The Daily Iowan by 4:30 p.m. the day preceding first publication; notices will NOT be accepted by telephone, and must be TYPED or LEGIBLY WRITTEN and SIGNED by a responsible person.

VOL. XII, No. 74 Saturday, August 27, 1938

General Notices

Employment Board, three meals a day, can be earned at the University Hospital from the present time until Sept. 25. The work occurs at mealtime hours.

In order that we may retain the maximum number of student jobs during the school year, these openings must be filled now. We urge men and women students, non-students, and others available for this work to inquire at the Employment Bureau, Old Dental Building, immediately.

LEE H. KANN, Manager.

Men May Swim The fieldhouse pool will be open daily from 2 to 5:30 p.m. for recreational swimming for all men registered in the independent study unit.

D. A. ARMBRUSTER, Gymnasium Director

Recreational Swimming The pool in the women's gymnasium will be open the following hours for recreational swimming for all women registered for the independent study unit:

Monday to Friday—4:30 to 5:30 p.m. Saturday: 10:30 to 11:30 a.m. GLADYS SCOTT

Library Hours For the three weeks designated as a period of independent study, from Aug. 8 to Aug. 26, the library reading rooms will be open from 8 a.m. until noon, and from 1 to 5 p.m.

The education-philosophy-psychology library will be open from 8 a.m. to 10 p.m. Special hours for other departmental libraries will be posted on the doors. GRACE VAN WORMER, Acting director

Health Hints By Logan Clendening, M.D.

One of the most interesting matters confronting the medical profession is the study of the problems of human behaviorism and their effect upon society.

Very little is actually known about the brain and its workings. We know that certain parts of it have to do with voluntary acts such as walking, talking, eating, etc.; but the major portion of it remains a great mystery. We speak rather glibly about "emotional centers," but do not know where they are situated or if they actually exist. If a human brain is examined after death it cannot be determined if that person during life possessed an unusual intelligence or was just average.

It cannot be determined if the person was highly emotional or very sober and serious-minded. It remains for future generations to disclose, if they can, why nature turns out of its mold a Webster, a Shakespeare, a Napoleon or a Charlie Chaplin. It remains for them to disclose just how such brains differ from the average.

While so little is actually known about the construction and workings of the human brain, the situation is far from hopeless because a great deal is actually known about behaviorism and many of the motives which activate it.

It is difficult or impossible to explain why individuals in a family choose to become farmers, lawyers, doctors or ministers. Furthermore, it is not easy to explain why certain ones are successful and others are not. It may be advanced that some are just indolent by choice; some achieve success by accident; others simply have hard luck; yet there may be something more behind the scenes that makes for success or failure.

Elements Insure Success Possibly the eminently successful are the unwitting recipients of more complete germ plasma, and endowed from the start with the elements that insure success. Possibly it is a matter of environment or chance contacts or mental impressions during the adolescent years.

Whatever the reason, it is true to say that the greatest difference does develop with mature years, and it may be that this is beneficial to society. Certainly it is evident that a great diversity in occupations and tastes is necessary to build and maintain a society. At times it seems that the world becomes a bit too heavy with certain classes, just as at present with our large group of politicians and government employees, but this is merely a symptom of a distorted mental balance and will pass. There also seems to be a growing conviction that everyone is entitled to be a captain or colonel in the scheme of things, leaving only a bedraggled remnant to do the work of the world—another distorted point of view which will pass.

Diversity and difference of opinion add interest to life. Certainly it would be embarrassing if all of us were endowed with the same desires and fell in love with the same girl.

Economy is what a young man adopts when he carries an automobile so he can carry his lunch to work.

Rabbit Flat, Ore., has changed its name to Wocus. Well, that's better than Hocus Pocus, I guess.

John Roosevelt has taken a job at \$18 a week in a Boston department store. "We're watching the magazines to find out what kind of pressure he had to use to get that kind of a position."

IN THE WRONG SCHOOL

Health Hints

By Logan Clendening, M.D.

One of the most interesting matters confronting the medical profession is the study of the problems of human behaviorism and their effect upon society.

Very little is actually known about the brain and its workings. We know that certain parts of it have to do with voluntary acts such as walking, talking, eating, etc.; but the major portion of it remains a great mystery.

We speak rather glibly about "emotional centers," but do not know where they are situated or if they actually exist. If a human brain is examined after death it cannot be determined if that person during life possessed an unusual intelligence or was just average.

It cannot be determined if the person was highly emotional or very sober and serious-minded. It remains for future generations to disclose, if they can, why nature turns out of its mold a Webster, a Shakespeare, a Napoleon or a Charlie Chaplin.

It remains for them to disclose just how such brains differ from the average.

While so little is actually known about the construction and workings of the human brain, the situation is far from hopeless because a great deal is actually known about behaviorism and many of the motives which activate it.

It is difficult or impossible to explain why individuals in a family choose to become farmers, lawyers, doctors or ministers. Furthermore, it is not easy to explain why certain ones are successful and others are not.

It may be advanced that some are just indolent by choice; some achieve success by accident; others simply have hard luck; yet there may be something more behind the scenes that makes for success or failure.

Elements Insure Success Possibly the eminently successful are the unwitting recipients of more complete germ plasma, and endowed from the start with the elements that insure success.

Possibly it is a matter of environment or chance contacts or mental impressions during the adolescent years.

Whatever the reason, it is true to say that the greatest difference does develop with mature years, and it may be that this is beneficial to society.

Certainly it is evident that a great diversity in occupations and tastes is necessary to build and maintain a society. At times it seems that the world becomes a bit too heavy with certain classes, just as at present with our large group of politicians and government employees, but this is merely a symptom of a distorted mental balance and will pass.

There also seems to be a growing conviction that everyone is entitled to be a captain or colonel in the scheme of things, leaving only a bedraggled remnant to do the work of the world—another distorted point of view which will pass.

Diversity and difference of opinion add interest to life. Certainly it would be embarrassing if all of us were endowed with the same desires and fell in love with the same girl.

Economy is what a young man adopts when he carries an automobile so he can carry his lunch to work.

Rabbit Flat, Ore., has changed its name to Wocus. Well, that's better than Hocus Pocus, I guess.

John Roosevelt has taken a job at \$18 a week in a Boston department store. "We're watching the magazines to find out what kind of pressure he had to use to get that kind of a position."

So Says the American Press

EDITOR'S NOTE—In adhering to The Daily Iowan's policy of presenting both sides of the picture, the following editorial clipped from the Des Moines Register is reprinted below. The views presented in this editorial do not necessarily represent the views of the editor or of The Daily Iowan but are printed to show another trend in American thought as shown by the American press.

Refusal of the Spanish rebel leader, General Franco, to consent to the British plan for shipping foreign troops out of Spain so as to leave the fighting there to Spaniards themselves makes some things very plain.

For one thing, it is a virtual admission of what everyone except his more prejudiced supporters in other countries have long known and admitted—the fact that far more foreign troops have been and are fighting on Franco's side than have been or are fighting on the loyalist side.

It is virtually a confession that Franco is dependent on those foreign auxiliaries for his chances of victory, despite the great territorial gains he has made in the last year largely because of their participation.

To be sure, Franco did not in so many words tell the British he would have nothing to do with their plan for making non-inter-

vention real. But, in the first place, he dawdled as long as possible—delayed until the British put pressure on—about making any reply at all. This has been the regular method of Italy and Germany as well as Franco ever since attempts began to be made to stop intervention. They have never given the slightest evidence of good faith willingness to get out.

Quite possibly, if so unfair a scheme were accepted, which it cannot be, it would mean that after the loyalists had sent home 10,000 men, most technical advisers and experts (which is what they would have to do, since their foreign assistance is chiefly of that type) Franco would send home an equivalent number of his least useful Italian troops, while keeping all the best units and in particular keeping the experts.

Moreover, since Italy at this same time admits that it has been sending in some additional troops

and supplies, though it says these are only replacements, plus the necessary ammunition for troops actively engaged, it is plain that Mussolini is back of Franco in his attitude. No such confirmation was really needed. It was perfectly obvious that whatever answer Franco returned to the British would be determined by those in Italy and Germany, especially Italy, who have the power of withdrawing their help or augmenting it.

What the effects of Franco's refusal will be is for time to show. It is pretty certain to increase sympathy with the loyalists in America, throughout the British empire, and in various other countries. Since his refusal is a major defeat for the program of the Chamberlain government in Great Britain—the program of trying to establish peace in western Europe by settling all British differences with Italy, of weakening the German-Italian alliance, and of letting the fascists win in Spain—the effect in Great Britain must be either further to undermine the Chamberlain cabinet or to force that cabinet into taking a line closer and closer to that which the "liberal" factions in Great Britain want.

We suspect that Walter Lippman sized up the drift of opinion in Britain fairly accurately recently when he wrote from there that British opinion is "hardening" with respect to the dictators. After all, there is nothing more calculated to bring about that result than to have tried a placating and compromising plan and to have found that it gets nowhere.

Moreover, it is probable that a firmer line toward the dictators would be more effective now than it would have been a while back. Japan, Asiatic ally of the European fascists combine, is not only bogged down in China, but has had to beat a diplomatic retreat in the face of Russia; Japan's inquiry of Germany as to whether she could expect military help if she tangled with Russia now brought a polite but unambiguous "No."

While the Italian-German front is unbroken, while the British effort to weaken it has failed, there are certainly many and deep reservations among responsible Germans as to the value of Italy as a military ally. Perhaps the reservations are unfair, but it cannot be doubted that they exist.

It is also fair to assume that in one way or another the fascist sabotaging of the plan for progressive and mutual withdrawal of help from the Spanish factions will lead to a larger inflow of supplies if not of men to the loyalists. While it would be premature to conclude that very recent loyalist defensive successes can be continued, there is at least an increased possibility that Franco will fail to overrun the loyalist parts of Spain within the next few months. Time is not working for him.

The most dangerous aspects of the situation are Franco's domestic troubles and turmoil and the German pressure on Czechoslovakia, coupled with the wooing of Hungary. But still, taking all things together, things are not going too well for the fascist powers. The cost of their decision to go on with their Spanish intervention may be much above the gain.

Harlan Miller may drop in one day soon. He's Des Moinesing it, you know. And Walter Fleischmann goes by as I write, dickering between two or three chances. He being one person I'd plug for the white lights.

(And have already reserved seats for the Des Moines showing of the "Pins and Needles" show. It's Oct. 3, and the original cast.)

"Je Ne Sais Pas Pas" is the cutest of the new tunes, along with "Small Fry." Quite a few around the townners are annoyed no end because their tributes to Iowa City's civilization aren't mentioned in the WPA book.

Henry Felsen was on the contributing staff, did most of I. C. stuff.

A wise man once said, "A young man who isn't a socialist has no heart; and an older man who isn't a conservative has no head."

Glenn Frank's speech of Thursday night was beautifully dogmatic. "The 12 million Americans shall be given jobs," he said. Which is safe and indisputable. Everybody figure out his own way, with a velvet-colored no-nut hole for the winner.

Supporters on all sides—always confident of victory—prepare the "tomstones" for the opposition well in advance. Usually done in crude verse, the epitaphs attempt to lampoon the "deceased" on the stand he took in the campaign. "Wreaths" of turnips, carrots and other vegetables are used to bedeck the "graves."

With the reopening of school beginning to worry him, Junior has come out for calendar reform. He wants the month of August to be made twice as long.

Politicians Attend Own 'Burial' Rites

FORT MYERS, Fla. (AP)—A defeated politician or one who supported an unsuccessful candidate in this city can count upon a well attended "funeral" the day after election. Many of them good-naturedly attend their own "burials," a mock ceremony held in a conspicuous downtown lot.

Supporters on all sides—always confident of victory—prepare the "tomstones" for the opposition well in advance. Usually done in crude verse, the epitaphs attempt to lampoon the "deceased" on the stand he took in the campaign.

"Wreaths" of turnips, carrots and other vegetables are used to bedeck the "graves."

With the reopening of school beginning to worry him, Junior has come out for calendar reform. He wants the month of August to be made twice as long.

Oil Company's Bonus Brings Profit to British

LONDON (AP)—Announcement of a dividend and bonus totalling 25 per cent for 1937 by the Anglo-Iranian Oil company, means a windfall for the British government.

Holding \$56,250,000 of Anglo-Iranian ordinary stock, the government receives \$14,062,500 as its share of dividend. The net profit of the Anglo-Iranian company for 1937 was \$30,275,470 compared with \$30,617,345 in 1936.

"Living Fossil" Found

HOBART, Tasmania (AP)—The Tasmanian marsupial tiger, a descendant of the world's first mammals and hence known to science as the "living fossil," has not become extinct, as scientists feared.

The Animals and Birds Protection Board has found specimens in the dense timber of the west coast of this island.

By GEORGE TUCKER

NEW ORLEANS—Impression of a Manhattan columnist in New Orleans; people dine well here. And they seem happy. I asked Seymour Weiss how he explains this, and he replied: "There isn't much outside capital here. The people own everything themselves. And there's oil all over Louisiana. New wells come in every day."

And people dress well here. There is an easy formality to the general picture. During summer in New York people go around in sport shirts and shirt sleeves, frequently without ties. They dress to suit their own moods. It isn't like that in New Orleans. You dress comfortably, but you don't sit down to dinner without a necktie or coat.

Native Orleanians are devoted to sea foods, of which there is always an abundance. When the shrimp fleet goes out each season it is blessed by high dignitaries of the church. Shrimp are very important here, they are a culture, and you can never hope to be a connoisseur until you know the difference between river shrimp and lake shrimp.

Crabs, both hardshell and soft shell, are obtainable at all seasons. And they are surprisingly inexpensive. In the west end, along the Pontchartrain drive, are a number of notable but small sea-food diners where bathers emerge from the water and appease their appetites over quantities of clams, shrimp, oysters and other gifts from the sea. This is one of the things to do—go swimming at night and follow with a seafood dinner.

At night the bars and supper clubs in the exclusive hotels are always crowded. The Roosevelt bar is perhaps the most unusual in the city. It is brand new. It is paneled entirely in African walnut, the wood coming from one gigantic tree. To this unusual setting Paul Ninas has lent four murals, the subject matter of which are peculiar to the Deep South. There is a cotton-picking scene, a market scene, a river front scene, and a procession of tourists on a tour of the French Quarter. All are in brilliant colors and set in graceful curves.

It was here that Meigs Frost, newspaperman and local character, introduced me to the El Dictador. This is a cocktail based on rum. The story goes that some friend of his returned from Cuba very angry at the El Presidente, which is the strongest of Cuban cocktails. So they staged a revolution because a dictator, they explain, alone can kick the pants off a president.

Meigs Frost is one of two "institutions" here that visiting scribes will do well to communicate with. The other is Mel Washburn. They can save many hours for you because they know everybody and everybody's telephone number. Both have been newspapermen for years. They know New Orleans as you know your own attic. They know it as O. Henry knew New York.

Harlem youngsters could learn a neat trick from the little Negro boys in the Quarter. You walk along and suddenly one of them leaps to his feet and begins to tap. All the little boys wear taps on their shoes. And they tap in front of you, looking back over their shoulders, until you toss them a coin. It's another of the countless vignettes of New Orleans you never forget.

NBC-Red network for General Electric beginning Oct. 3.

That organization, for years the headliner of its kind, continues to rank way up among the top ones.

And I sometimes wonder how much University of Iowans would pay for university party tickets, if Phil and the girls were scheduled to play.

SPEAKING OF programs that seem to maintain their popularity over long periods of time, Lucky Strike's Hit Parade (tonight's night again) is one of the old timers.

Through varied changes, the Hit Parade has never-the-less maintained its standing as "not just a program of dance music," but really a program of the nation's favorites among the popular tunes.

I like "America at its Best," the latest feature of the hour, as well as the 10 top tunes of the nation!

And you can look for "A Tiskit" in its top spot again tonight.

In case you haven't seen "Alexander's Ragtime Band," pay a visit to your local theater at the earliest opportunity for a couple of hours of splendid entertainment, with old and new songs by the dean of all America's popular composers, Irving Berlin!

AROUND THE TOWN

With MERLE MILLER

NOTES FROM A COLUMNIST'S NOTEBOOK

It probably doesn't mean a thing, but it's an interesting rumor. I mean that those "Waltham Watches" plates you see on the cars about town are really signs of the German-American Bund. They say there's a hidden meaning.

Funny thing is, I've asked several who have them, and they declare they've no idea how they got there. "Someone must have put them on" they say.

And the jeweler I talked to thinks the Waltham company has nothing to do with the signs. Anyway, watch for them, on the rear bumper of the cars usually. "Waltham Watches!"

(And that, if you've wondered, is how rumors are made.)

Civil service in England is a career, so much so that when an administration leaves office only a few more than a hundred appointees go along. The rest're called the "untouchables."

Also the bishop of St. Paul's is an admitted communist, but the English don't seem much worried.

Before I leave the subject, someone will surely comment soon that a communist is one who'd rather be left than president.

Note to Horrabin, contractors—Who's responsible for the "Horrabin" misspelling fronting the St. Mary's school sidewalk? . . .

"The Key of the Door" from the new H. C. Bailey opus is among the better mysteries. . . Introduces Reggie Fortune. . .

Browning said it—and I do mean Robert. "When it comes to matters of taste, there is no argument."

Glenn Frank's speech of Thursday night was beautifully dogmatic. "The 12 million Americans shall be given jobs," he said. Which is safe and indisputable. Everybody figure out his own way, with a velvet-colored no-nut hole for the winner.

Supporters on all sides—always confident of victory—prepare the "tomstones" for the opposition well in advance. Usually done in crude verse, the epitaphs attempt to lampoon the "deceased" on the stand he took in the campaign.

"Wreaths" of turnips, carrots and other vegetables are used to bedeck the "graves."

With the reopening of school beginning to worry him, Junior has come out for calendar reform. He wants the month of August to be made twice as long.

Tuning In with Loren Hickerson

RADIO'S LATEST game is the one in which you see how many stations you can tune in without catching "A Tiskit, A Taskit" or one of the other frothy little bits of similar nature.

And the tunes on the nation's stations continue to grow in abundance, beauty and popularity.

Which bears out my original supposition (which has been shared by some few thousand other people) that swing is on the down grade.

You may still enjoy Tommy Dorsey, Benny Goodman and the rest of the swing maestros, but constantly cropping up are those beautiful new songs, on and off the Hit Parade.

including "Rain in My Eyes," "Where in the World," "My Walking Stick," and dozens of others.

And for the benefit of the still dyed-in-the-wool swing addicts, we might ask the question: "If swing is here to stay, or was, where is it?"

Of course "A Tiskit," "Stop Beating Round the Mulberry Bush," "What Can the Matter Be" and the rest weren't written primarily as swing tunes, but followed the craze for nursery rhyme ditties that happened along.

I'm very glad to discover that Phil Spitalny is scheduled to bring his all-girl orchestra back to the

# Religious Activities Conference Will Bring Together Freshmen

### 100 Picked Men, Women Will Convene Here Sept. 17

Some 100 freshman men and women, chosen on basis of leadership, scholarship and character, will meet on the campus of the University of Iowa Saturday, Sept. 17, for the annual conference on "living significantly."

The two-day meeting precedes the formal opening of Freshman week, with the final conference meeting on Sunday afternoon also scheduled as the opening event of Freshman week.

Its purpose the consideration of questions which are important to those just starting to college, the conference has, during each year of its activity, given new students an opportunity to get their bearings under able guidance and in a broad spirit to clarify their goals, enabling each to do his own thing from the start of his college career.

The conference also provides an opportunity for the freshmen who participate to know some of the upperclassmen and faculty, as well as other freshmen, and to discuss with other participants questions which rise in their minds as their college life begins.

Outstanding upperclassmen, prominent in journalism, social life, athletics, scholarship, religion and other activities direct the conference course, sponsored by the Religious Activities board and the Student Religious council.

A complete program of interesting and helpful sessions will be augmented by dinners, periods of recreation and sports.

"Talk fests" are the foundation of the conference — sessions in which new students, in an atmosphere of friendliness and congeniality, air their mutual "starting-to-school" problems.

The last event of the conference, —also the opening event of freshman week,—is the Sunday afternoon vespers service and reception for all new students (not just freshmen attending the conference).

Prof. H. J. Thornton of the history department is the vespers speaker.

Others who will appear as speakers on the program are Prof. Stephen H. Bush, head of the Romance languages department; President Eugene A. Gilmore and

Dean George Stoddard of the graduate college.

The activities of the freshman conference do not end with the opening of school. Frequent get-togethers of conference participants, hikes and meetings are planned during the fall and winter, and the entire program of the conference is designed to be helpful throughout the student's college career.

Other faculty members who will take part in this year's conference activities are Dean of Women Adele Burge, Dean of Men Robert E. Rienow, Prof. M. Willard Lampe, director of the school of religion, Prof. C. J. Lapp of the physics department, Prof. Ethan Allen of the political science department, Prof. William H. Morgan, head of the religious activities at the university.

Prof. J. W. Kistler of the men's physical education department, Prof. Harry G. Barnes of the speech department, director of Freshman week activities, Donald Mallett, head of the university housing service, the Rev. Hon. T. Jones, pastor of the First Presbyterian church, Loraine Frost of the women's physical education department, Mrs. F. M. Pownall and others.

A conference fee of \$1.80 covers all expenses of the two-day session. Information concerning the conference, or accepted invitations to attend should be sent to Prof. William H. Morgan at the religious activities office.

## University Offers Saturday Classes Again This Year

As in past years, the University of Iowa will offer Saturday classes on 10 week ends, permitting teachers and others who cannot attend the university as resident students to get extra credit during the school year.

A maximum of six hours of credit may be earned for the two courses which one may take under the system. Classes in the college of liberal arts and the graduate college are offered.

The meetings this year, which begin at 8 a.m. each Saturday, will take place Oct. 1, Oct. 15, Oct. 29, Nov. 19, Dec. 10, Jan. 7, Jan. 21, Feb. 4, Feb. 18 and March 11.

## Conferences

### University Annually Plays Host

Each year, the University of Iowa is host to conferences which attract thousands of persons to the campus.

Outstanding among the meetings are the Iowa child welfare conference, the music supervisors' conference and the scholarship contest.

But there are others. The Iowa peace officers short course, the conference on secondary school methods, the photographers' short course, the physics colloquium—all bring hundreds of visitors to the campus to hear nationally-known speakers present the latest phases of their respective fields.

University of Iowa students are not the only ones to whom the campus offers training.

## Freshmen--

(Continued from page 1)

its services will be functioning, including the Silver Shadow, Iowa's dry night club, with an appropriate floor show.

Dancing, radio broadcasts, exhibits and recorded music will assume their respective roles in the entertainment of the evening. A freshman stag for men and a co-ed party for women will hold the spotlight at the fieldhouse and fine arts building Thursday night.

On Friday night, freshmen will attend activities mixers with open house featured in the following schools and departments: home economics, journalism, music, men's and women's physical education, religious activities and speech.

Other events to take their place on the varied freshman program include an open football practice, natural color moving pictures of the university's campus and activities, instruction in the use of the library and informal recreational and sports periods.

Freshman week is designed to start freshmen men and women on the right foot, and to simplify and enrich their college careers as a result.

Chinese imports for the first five months of 1938 were 28 per cent under that period for 1937. Exports declined 37 per cent.

## Lecturers--

(Continued from page 1)

in Paris and London most active in a new Russian organization that has supplanted the old Constitutional Democrats, an anti-communist organization — the Republican-Democratic bloc.

Highly recommended, the mystic holds six educational degrees. He is the master of "eyeless vision," the power of seeing and understanding without the use of his eyes.

Chapman will present an illustrated lecture Jan. 5. Well known through his articles in the National Geographic, Natural History, Field and Stream, Travel and Scribners magazines, the scientist has spent years making friends and photographing American wild animals.

Brown will present an afternoon lecture Jan. 31. He is the author of "The Modern Theater in Revolt," "Upstage," "Letters from Greenroom Ghosts" and other works dealing with the theater.

Also well known as an author is Mr. Maurois, who will appear here Mar. 15. Although a Frenchman, Maurois has won his fame chiefly through books in English, about the English. One of the outstanding biographers and essayists today, he is the author of "The Miracle of England," "Prophets and Poets," "Captains and Kings," "Private Universe" and many other works.

Weeks will close the lecture series April 12. Constantly in touch with outstanding books and authors during the past 10 years, the well known editor attended Cornell, Harvard and Trinity college. He understands writers as a result of continuous association with

such writers as James Truslow Adams, Mazo de la Roche, Theodore Dreiser, Eugene O'Neill and Bertrand Russell.

Plaid are good. Be sure to include some item in your collegiate wardrobe that's made of a vivid Scotch plaid. Perhaps it'll be a pleated skirt, a suit, a simple dress for the classroom, ankle sock or just a kerchief. They're all so colorful and oh, how popular.

Fourteen of France's 25 radio broadcasting stations are operated by the government.

## MORE RECORDS

### Convocation Ceremonies See Larger Numbers

Year after year, the University of Iowa's convocation ceremonies see more and more students graduated from its halls.

The summer convocation Aug. 5, the second under the university's new summer plan of only one session, again broke all records for the summer event.

A total of 435 degrees were awarded to graduates. The previous record of 406 was set last summer.

# Iowa Water Service Co.

PROF. GEORGE KELLER, Manager

# Pure Water

is the Foundation of Good Health

Iowa City' water supply meets the most exacting tests to assure absolute safety and efficiency to the consumer.

A specialized staff of experts is constantly testing the city's water supply for the protection of the city's health. The state board of health cooperates further by checking with the local staff and has given the water supply its unqualified approval.

Excellent modern equipment brings the city a continuous supply of good pure water.

We hope that circumstances will permit you to come to the University of Iowa this fall—that you may enjoy the many opportunities this community has to offer the young people of today.

Ready for its Housewarming

New from top to bottom, Hillcrest awaits the opening of its first academic year. The new men's dormitory, located just east of the Quadrangle overlooking the east campus and Iowa river, will house more than 240 men this year. Re-

servations for living quarters at Hillcrest are almost completely gone. Soundproof throughout, with new, up-to-date furnishings in its many rooms, Hillcrest is representative of the newest trends in men's dormitories. A game

—Daily Iowan Engraving  
room, dining hall and kitchen, sub post office and laundry facilities, and a spacious lounge are a few of Hillcrest's many features. Mrs. Jessie E. Saunders, for many years director of the Quadrangle, will be the first director at Hillcrest.

University's New Dormitory, Hillcrest, Almost Completed

Dormitory Will House More Than 240 Men This Fall

Hillcrest, the University of Iowa's new men's dormitory, will be ready for the influx of students who will crowd its halls within the next month!

Day by day, the "home for fellows" assumes a more finished atmosphere as carpenters continue their activities.

With practically all of its reservations taken, Hillcrest will house more than 240 men. Situated on the bluff west of Iowa River, the new dormitory overlooks the valley. Its proximity to the Quadrangle, just across the drive, will make that particular portion of the campus predominate the home of University of Iowa men.

Hillcrest boasts the newest in architecture and facilities for a men's dormitory. From the wide entrance foyer, with an office and sub post office toward the north, to the last rooms in each of the buildings two wings, Hillcrest is complete.

Immediately south of the entrance, in the east wing, is the dormitory's dining room and kitchen, where a la carte service will be featured at meal times, with a complete soda fountain functioning from early morning until late evening.

Another feature of Hillcrest is a sound-proof, spacious game room in the northeast corner of the building. There university men may relax and enjoy themselves. Each of the single and double rooms of the building boasts the

latest and most home-like furnishings for men. A spacious lounge, immediately above the entrance and overlooking the river, with fireplace and bookshelves packed with a variety of fine reading, is the nucleus of the building.

The main entrance to Hillcrest is on the northeast, with new roadways and walks leading westward and eastward. Doors on the south and west of the wings permit ready access. A trunk entrance on the north, soon to be a busy entrance for incoming luggage, and an elevator which will carry schooltime equipment to its four floors, solves Hillcrest's baggage problem.

A large trunk room has been provided for the storage of trunks, permitting more space in the dormitory's rooms.

Cleaning and laundry will be handled through the office agencies.

FAVORITE

Skirt-and-Jacket Frock Leads the Parade

A favorite for classroom wear this fall will be the skirt-and-jacket frock, which can be a suit, too, with a blouse or sweater added. This type of costume is being designed in a variety of interpretations and tweeds, flannel, cashmere, velveteen with dots or paisley patterning and zephyr-jersey in off-tone pastels are being used for these frocks.

Usually congress designates one day during a session to eulogize recently deceased members of congress.

Interesting Fall Sweaters Have Novel Features

Sweaters shown for fall wear will have a number of interesting features. In the first place the subtle hues of the soft yarns used, and distinctive patterns in knitting make attractive sweaters selling at prices well within the reach of the woman who has little to spend.

A sweater and flannel skirt may give almost the effect of a dress this fall, as they have been produced in colors which match exactly.

One leading designer has chosen his colors from Gainsborough's paintings. In his cashmere, angora and zephyr yarn sweaters we find the blue of "The Blue Boy's" suit, soft greens, browns and roses. Most of them are knitted with crew or boat necks. With them goered flannel or wool skirts to match will be popular. There are cardigan sweaters in the same hues, also.

Another designer shows suits of flecked tweeds in brown and beige or gray and cherry mixtures fashioned with simple cardigan jackets and worn with sweaters knitted of the same flecked yarn.

Also in the picture are stripes and plaids. There are colorful casual suits knitted in striped or plaid effects to resemble hand-woven wool. Their designers say they have been processed so that they will neither stretch nor shrink in cleaning.

In one of them a brown knitted wool fabric skirt is worn with a lumberjack jacket of beige, yellow and brown plaid knit wool. Another is a combination of a red and green plaid knit cardigan suit and a green zephyr yarn sweater. In some, the lumber jackets have suede fronts of a harmonizing hue.

Greek Letter Sororities Open Doors for Fall Rushing Sept. 18

Continued Round Of Teas, Breakfasts And Dinners for Rushees

The 13 Greek letter sororities on the University of Iowa campus will open their chapter houses for an informal reception from 7 to 10 p.m. Sept. 18 to begin the annual fall formal rushing period. Rushing will continue until 10 p.m. Sept. 21.

As each sorority is permitted to entertain at seven parties, there will be a continued round of teas, breakfasts, luncheons and dinners for rushees to attend. Invitations to these events will be mailed to rushees by the rushing chairman of each sorority. However, no invitations will be issued for the open house Sunday night but all rushees are encouraged to attend open house at as many chapter houses as possible during the three hour period. Acceptance of other party dates are not to be returned by the rushees until Sept. 1 or as soon as possible thereafter.

Each sorority will entertain the rushees it is especially interested in at a "preferred" party. Invitations for the preferred parties are not listed on the date slip and the guests are generally invited personally during earlier parties.

Since this is the "preferred" party the guest must stay there the full two hours without dividing her party time as she will probably do for most other parties.

Following a procedure instituted last year, sororities will issue special invitations through the Panhellenic offices for the Wednesday night party. The Wednesday night party is a reception from 8 to 10 p.m. and rushees are urged to be at the house of their choice from 9:30 to 10 p.m., for this indicates a rushee's interest in a group.

Following the Wednesday night party each rushee must go to Iowa Union to secure her preference card on which she is given the opportunity to name three sororities in order of her preference and file it with the rushing attorney before 11 p.m.

At 5 p.m. Thursday sororities and girls will be notified as to which rushees will belong to each group, and formal pledging will take place soon afterward in a secret ceremony at the chapter house.

As a climax to the rushing and pledging activities, all the sororities will join in honoring their new pledges at a formal party known as the Pledge Prom. The affair will be Thursday night in

the main lounge of Iowa Union. Attorney Arthur Left will again serve as rushing attorney and will referee bidding. Officials will explain rushing rules and answer questions concerning the system at a compulsory meeting for all rushees, at 4:30 p.m. Sept. 18 in Iowa Union.

During rushing week, rushees will be housed in official Panhellenic quarters in the Hotel Jefferson. Information concerning these arrangements along with any other information concerning rushing may be obtained from the Panhellenic office in Iowa Union.

Organizations Abound at SUI

Sororities and fraternities will be bidding for the attention of Joe and Mary College when they come to the University of Iowa next month.

Among the sororities with chapters at Iowa are Alpha Chi Omega, Alpha Delta Pi, Alpha Xi Delta, Chi Omega, Delta Delta Delta, Delta Gamma, Gamma Phi Beta, Kappa Alpha Theta, Kappa Kappa Gamma, Phi Mu, Pi Beta Phi, Sigma Delta Tau and Zeta Tau Alpha.

Included in the social and professional fraternities on the campus are the following: Alpha Chi Sigma, Alpha Kappa Kappa, Alpha Phi Alpha, Alpha Sigma Phi, Alpha Tau Omega, Beta Theta

Pi, Delta Chi, Delta Sigma Delta, Delta Tau Delta, Delta Theta Phi.

Delta Upsilon, Gamma Alpha, Gamma Eta Gamma, Nu Sigma Nu, Phi Beta Pi, Phi Chi, Phi Delta Theta, Phi Epsilon Pi, Phi Gamma Delta, Phi Kappa Si, Phi Kappa Sigma.

Phi Rho Sigma, Pi Kappa Alpha,

Psi Omega, Sigma Alpha Epsilon, Sigma Chi, Sigma Nu, Sigma Phi Epsilon, Theta Tau, Theta Xi and Triangle.

The age of a rattlesnake is not computed by the number of his rattles. A rattler grows anywhere from two to three or four buttons a year.

# University Concert Course To Present Six Outstanding Features During Fall, Winter

### Nino Martini Opens Series October 26; Symphony Here Feb. 16

Will Appear Here

Opening with Nino Martini, star of opera, screen and radio, the 1938-39 university concert course will present six outstanding concerts during the fall and winter.

The St. Louis symphony orchestra, one of the finest in the world and a permanent favorite with University of Iowa and Iowa City audiences, will return this season for its fifth appearance.

The course also includes the world's most brilliant double piano team — Vronsky and Babin; Robert Virovai, young Hungarian violin prodigy, and Josephine Antoine, young American coloratura soprano of the Metropolitan opera company.

Martini opens the concert series Oct. 26. Virovai will play here Dec. 5. Vronsky and Babin will appear Feb. 8. The St. Louis symphony will play afternoon and evening concerts Feb. 16, and the concert course will be closed by Miss Antoine March 8.

Brought to this country from his native Italy by Jesse L. Lasky, the famous Hollywood showman, the young lyric tenor, Martini,

Nino Martini, famous star of stage, screen and radio, will open the University of Iowa's 1938-39 concert course here Oct. 26.

soon achieved fame on the motion picture screen.

He has been re-engaged for the sixth consecutive year for appearances in Washington, D. C.,

and for the fourth consecutive year in Toronto and Montreal, Canada. He has appeared on the concert stage in all parts of the United States.

Virovai, the young violinist, is new to America. The 19-year-old artist will open the New York Philharmonic orchestra series as soloist this fall. He has been engaged as soloist by five leading symphony orchestras, and for an appearance on the Ford Sunday evening hour.

Vronsky and Babin, with whom the concert course committee has for several years attempted to arrange appearances, is also comparatively new to America. For the past three years, the famous Russian man-wife team has received the finest criticism from all reviewers.

The St. Louis symphony will appear under the direction of its young conductor, Vladimir Golschmann. This year's symphony performances will take place on the opening day of the annual three-day music supervisor's conference, affording music instructors from all parts of the state an opportunity to hear the orchestra.

Miss Antoine made her debut at the Metropolitan at the age of 21, the first American coloratura soprano at the opera company in the last 25 years.

After studying at the Juilliard school in New York, Miss Antoine became an active figure in the music world. She was signed to appear in the role of Philine in her first Metropolitan performance of the opera "Mignon" in 1935.

She has appeared with such leading artists as Richard Crooks,

# Hillcrest Aids University In Housing Work

### 55 Per Cent of Students Live in Fraternities, Sororities, Dormitories

With Hillcrest housing more than 240 additional University of Iowa men this fall, university dormitories, sororities and fraternities will provide rooms for about 55 per cent of the student body, as the university enters its third year under the new housing setup.

Donald R. Mallett is director of the university housing service, with offices in Old Capitol. Under his supervision, the university's students are provided with places in which to live.

Only between 40 and 45 per cent of the student body will live in private homes this year.

As in past years, the housing service will provide room inspection, a scholastic program and extra-curricular activities during the year.

Undergraduate students are required to live in room approved by Lawrence Tibbett and Lucrezia Bori.

This year's concert course, presenting a world famous symphony, national solo artists and the world's finest double piano team, is one of the most brilliant in the history of the university.

the university, and freshmen women are not allowed to room in private homes without special permission.

Included among the university's dormitories are the Quadrangle and the new Hillcrest for men, Currier hall and Eastlawn for women, and the nurses' home and the Law Commons.

Cooperative dormitories have been established for students who must have inexpensive living quarters and who are unable to secure board jobs — those who are able to bring with them or earn while in college the amount of money they require to live at one of these

houses. Residents do their own cooking and housework. Women's cooperative dormitories include Breene house, Russell house and Tudor house. Men's cooperative dormitories are the Gables, Jefferson house, Kellogg house, the Manse, Whetstone house and Wilson house.

Information concerning dormitories and approved rooms may be obtained from Mallett, manager of the housing service, Old Capitol.

The armor of a knight during the middle ages in Europe frequently weighed more than 200 pounds.

# Bigger, Better Than Ever—1940 Hawkeye

The 1940 Hawkeye will be bigger and better than ever!

An all-year job, the work involved in the presentation of this year's Hawkeye, to be the year-book of the junior class, will be under the direction of John Evans, A3 of North English, editor, and George Pritchard, A3 of Onawa, business manager. All sorts of new ideas will be

used in the publication, outstanding of which will be the presentation of a junior popularity king and queen at the Pica ball, an annual university party, after a contest in which juniors will choose the winning students.

The Hawkeye staff will be picked later in the year, and those interested in any phase of the work involved — art, advertising, or writing — are invited to pay a visit to the Hawkeye office in the journalism building.

The highest recorded year for forest fires was 1910 when 25,842 acres per millions acres of trees burned over.

# 700 Under Her Wing

Typical of the hosts of house mothers who "look after" the men and women in the University of Iowa's fraternities, sororities and dormitories is Mrs. Maude Tindall, director of the Quadrangle. She is

—Daily Iowan Photo, Engraving shown here in her suite of rooms at the Quadrangle. Mrs. Tindall succeeds Mrs. Jessie E. Saunders, who will supervise the new Hillcrest.

A Coed's 'Date' Dress

For dress-up occasions the University of Iowa coed will be smartly outfitted in a "date" dress similar to this one. Both metallic trim on a wide belt and the new broad shoulder effect accentuate the for-

—Daily Iowan Photo, Engraving  
eign influence in milady's fall wardrobe. Barbara Kent, daughter of Mr. and Mrs. Frederick W. Kent, is modeling the dress, with which she wears one of the new short fur jackets and a doll hat.

Nationally Known Dance Bands Attract Carefree Couples To Various College, School Parties

Special Events Help Make Each Party A Little Bit Different

Almost any Friday night during the school year the main lounge of Iowa Union can be found decorated in festive style and filled with many gay couples dancing to the melodies of a nationally known orchestra — this is one of the many all-university parties which are provided for University of Iowa students.

The parties are given by various colleges and schools on the campus and each one has a special event to make its party distinctive. The university social committee is composed of 10 faculty members appointed by the president and six students chosen each November from the junior and senior classes. Faculty members are Dean Ewen M. MacEwen, Dean George D. Stoddard, Dean Adelaide Burge, Prof. Frances Zuill, Prof. Clara M. Daley, Prof. H. J. Thornton, Prof. Henry L. Rietz, Prof. O. K. Patton and Prof. Lonzo Jones.

The Associated Students of Journalism entertained at the first party on the social calendar last year when they played hosts at the Pica Ball. Carlos Molina and his orchestra provided rumba rhythm for the affair. Old gold and black I-blankets decorated the Union when A.F.I., honorary senior men's organization, entertained students and visiting "dads" at the I-Blanket Hop

Dad's day week end last year. Opening the activities of the university Homecoming week end, Emil Velasco and his orchestra presided at the Homecoming party which Union Board gave.

Because turn about is fair play university women entertained at the Spinsters' Spree, performing from corsage to cab fare the duties of the perfect hostess. The high spot of the evening was the presentation of Iowa's three, most eligible bachelors, as chosen by university women. Their identity was revealed by Master of Ceremonies Joe Sanders, whose orchestra provided dance tunes for the occasion.

The formal season opened just before Christmas vacation with the sophomores as hosts at the annual Sophomore Cotillion at which the Sugar Blues orchestra of Clyde McCoy played.

Lawyer-to-be entertained at the Barristers Ball, their yearly formal dance, while the future M.D.'s entertained at the Aesculapian Frolic. The Commerce Mart (Herbie Kay played for it last year) is the annual dance sponsored by the college of commerce. Students in the school of nursing cut capers at their Cape Caprice. One of the outstanding social events of the formal season is the Military Ball at which is presented the Honorary Cadet Colonel and the Cadet Colonel. The former is a senior coed chosen by the military department for her personality, appearance, achievement and popularity. The Cadet Colonel is an advanced military student who has been elected to this honor by his fellow officers. Preceding the ball at which Kay Kyser played, several of the university military organizations entertained at formal dinners.

Confetti, balloons and serpentine combine to make a prevailing carnival spirit at both the Pep Jamboree and Freshman Party. At the Pep Jamboree Pi Epsilon Pi, pep fraternity, host at the party, presents the pep queen and her two attendants as selected by the fraternity.

Another queen is crowned when the college of engineering presents the queen of Mecca Week at the Mecca Ball.

Returning to the university where he was once a student, Little Jack Little brought his orchestra to the campus to provide dancing tunes for the Senior Hop. This is one of the four formal parties for which women's hours are extended one hour, making them 1:30 instead of 12:30.

Smiling Eddie Duchin and his orchestra provided the musical setting for the formal Junior Prom and the presentation of the six Hawkeye Beauties. Last year Cecil B. de Mille, Hollywood director was selector of the beauties.

Mothers, fathers and dates were guests of university women when Mortar Board entertained at the May Frolic, one of the events of Mother's Day week end. This was another "ladies' choice" affair.

Most brilliant social activity of the year is the Club Cabaret, a formal dinner dance given by Union Board. Ticket sales are limited and tables are arranged around the main lounge to give the air of a night club. Frankie Masters played dance melodies for last year's Club Cabaret.

Directs Orchestra

Prof. Philip G. Clapp, head of the University of Iowa's music department, is the director of the university symphony orchestra.

Our sun is self-luminous while the moon is seen by us through the aid of reflected light. No portion of the earth's surface is wholly without earthquakes. Oil production in Louisiana increased 81 per cent from 1935 to 1937.

Libraries Offer Pleasure And Information

Almost half a million books, shelved in the general and departmental libraries of the University of Iowa, offer pleasure and information for Iowa students.

A total of 441,396 volumes, 13,252 more than ever before, were listed in the annual report of Grace Van Wormer, acting director of the library, July 1.

Fifty-one periodicals were added to the library's list during the past year, bringing the total number of periodicals received by the library to 3,368.

The university's library is the largest in the state. The general division in Macbride hall, which accommodates 285 readers, houses the largest portion of the books. In the library annex are the reserve reading room, accommodating 350 readers, the periodical reading room and the government documents reading room.

The university also has special collections of books, including the Talbot library of more than 3,000 volumes, the Ranney Memorial library of about 4,500 volumes and the Brewer Leigh Hunt collection, all to be found in Schaeffer hall.

Among departmental libraries, the education - philosophy - psychology department in East hall is the largest. There is also the foreign languages library, the medical library, the botany - chemistry-pharmacy library, the mathematics-physics library and the dentistry library.

Recreational reading rooms, also under the supervision of the central system, are to be found in university dormitories.

No matter what material Joe College may seek, university library places it at his disposal.

Huge Statue of Stalin Ordered for World Fair

MOSCOW (AP)—The Georgian features of Joseph V. Stalin will dominate the Soviet building at the 1939 World's Fair in New York, instead of red symbolism. Two prominent sculptors, Bogobuff and Ingal, have been ordered to design a statue of the communist dictator, sealed to the size of the building, for which architects are drawing designs. A gigantic statue of a man and a woman, holding aloft a hammer and a sickle, crowned the Soviet building at the Paris exposition last year.

Orioles, Woodpeckers Get Official Okay

WASHINGTON (AP)—The Department of Agriculture says U. S. farmers are unfair to organized orioles. For example, the Baltimore oriole, though accused of damaging grapes and garden peas, really helps crops by eating caterpillars, plant lice, ants, wasps, weevils and grasshoppers. Woodpeckers, also on the suspect list, are really valuable forest conservationists, says the department. When they drill a hole it means they have located the larva of a destructive wood-boring insect.

### Military Drill Occupies 3 Hours a Week

#### Compulsory Training For All Freshmen Is Given in Fieldhouse

Freshman and sophomore students at the University of Iowa devote three one-hour periods each week to military training, a requirement at state educational institutions.

Under the direction of Col. George F. N. Dailey and his staff, some 1,500 students receive basic and advanced training each year. During the fall and winter, the drills are conducted in the fieldhouse—twice weekly in civilian clothes, and each Friday with R. O. T. C. members dressed in their uniforms.

Students are divided into infantry and engineering units. Highspots of the year in the department are the annual federal inspection and Governor's day ceremonies.

Members of the University of Iowa bands are excused from regular military classes. The band cooperates with the military department in its activities. Members of the military units are selected each year to take part in the activities of the Pershing Rifles, infantry unit, and the Pontoniers, engineering unit. The two units take an active part in displays at football games and other events.

The University of Iowa's nationally-clad Highlanders, the largest bagpipe unit in the United States, were also organized under the auspices of the military department and are widely known for their impressive displays.

#### Award 38,078 Degrees

From the time the late Dexter E. Smith won the first award granted by the University of Iowa in 1858, 38,078 degrees have been awarded to graduates.

### WSUI Presents Series of Talks For Freshmen

University of Iowa's radio station, WSUI, will present a series of programs designed for freshmen as the new school year approaches.

The tentative schedule, to which programs will be added, includes a series of four University Women's association programs, to be heard at 8:15 p.m. Sept. 6, Sept. 8, Sept. 13 and Sept. 15.

A freshman question box will be presented at 8 p.m. Sept. 7 and Sept. 14 at the same hour.

The university Y.W.C.A. will broadcast at 8:15 p.m. Sept. 12, and the freshman open house program in Iowa Union will be heard over the station at 8 p.m. Sept. 20.

### Radio Station WSUI Plans Wide Program

A broad program of expansion is in the offing for the University of Iowa's radio station WSUI.

With \$90,000 available for necessary improvements, work will begin in the near future on a new studio building, to house new equipment, located south of the engineering building, where WSUI's Old Gold studios are housed.

A new transmitter, replacing the obsolete set in use since 1919, when WSUI entered the broadcasting field as a pioneer, will also be installed.

During the past month, Carl Menzer, the station's director, has conducted an extensive testing survey of WSUI's power and reception in various parts of Iowa and surrounding states.

His data will be used as the foundation for a request to the federal communications commission for an increase in daytime power from the present 1,000 watts to 5,000.

Such an increase in power would permit the installation of directional antennae to eliminate much in-

### Costume Suits for Fall

When in doubt, wear a suit—this is a popular adage among all university coeds. Mary Margaret O'Leary, daughter of Mr. and Mrs. J. A. O'Leary, is wearing one of the new costume suits. Fur, and lots of it, sets the keynote for this charming outfit, black broadcloth trimmed with silver fox. —Daily Iowan Photo, Engraving

### S. U. I. Offers New Degrees

For the first time this fall, students will enroll in the university of Iowa courses leading to two new degrees — bachelor and master of fine arts.

These semi-professional programs will be offered in the school of fine arts, under the administrative direction of the new executive, Dr. Earl E. Harper.

The bachelor of fine arts, known as the B.F.A. degree, will offer greater opportunity for concentration in the freshman and sophomore years than is possible in a B.A. course.

All freshman students who want information concerning the professional curriculum in fine arts—dramatic, graphic and plastic arts or music — leading to the B.F.A. degree are asked to confer before Thursday, Sept. 22, with the heads of the respective departments: Prof. E. C. Mabie in the dramatic arts department, Prof. Lester D. Longman in the graphic and plastic arts department, and Prof.

Philip G. Clapp in the music department.

Intended only for talented students with a serious interest in art, dramatics or music, the B.F.A. course provides also a chance for a larger proportion of the work in the major field throughout all four years.

The master of fine arts course demands a high order of accomplishment in one of the three fields. It is designed for students preparing themselves professionally in such fields as painting, mural decoration, sculpture, commercial art, play writing, acting, producing, stage designing, music performance, instrumentation and composition.

Two years ordinarily will be required to complete the M.F.A. course, but exceptional students may earn the degree at the end of one year.

#### Boys Excel At Sewing

ROSEVILLE, Cal. (AP) — Girls and boys both participated in a sewing contest in the city park here. When it was over, surprised feminine contestants heard the prizes announced as follows: First award — Wayne Hunter. Second award — J. S. Whitehead.

You'll Do Well to Choose—

## Iowa 'U'

for Your Future Alma Mater

Iowa University, located in Iowa City, is widely recognized as having one of the most beautiful campuses in the Middle West. Flowing through the campus, the Iowa River lends beauty and charm to the newly constructed buildings that lie in the shadows of "Old Capitol."

The Following Are Just a Few of the Reasons for Choosing the University of Iowa:

- It is one of the top-ranking universities academically, and affords all of the desirable facilities for social and cultural improvement.
- It is a member of the foremost Athletic Conference in the United States, "The Big Ten." — For the athlete, major league competition, for the spectator, tops in entertainment.
- It promotes a well balanced, planned social program, centering around the beautiful "Iowa Memorial Union."
- Cooperation between the Iowa City Chamber of Commerce and University officials assures the student of a warm welcome and enjoyable school year.

— and for Savings

### You'll Choose Sears

Every department in our large Store is filled with a host of money saving "buys" which will appeal to the "thrift-conscious" student.

The Following Are Just a Few of the Typical Values Regularly Offered by Sears:

#### ● Ladies' "Royal Purple" Hose

Certainly they look like far more than 69c. That's because of their flawless, ring-free clarity, their exquisite sheerness. Full fashioned crepe construction of Pure Silk. Flattering new fall shades.

69c PAIR

#### ● Men's "Tru-Point" Dress Shirts

Shirt royalty. A particularly handsome shirt made of preshrunk super count broadcloth. Meticulously tailored with famous "Tru-point" willless collars. Variety of colors and patterns.

\$1.35 EACH

#### ● Men's "Sandy Nevin" Dress Oxfords

One of the greatest bargains in town—and one of the finest values you'll find anywhere, we believe! Smart French toe model with English welt. Leather soles.

\$3.39 PAIR
