OFFICIAL DAILY BULLETIN

Items in the UNIVERSITY CALENDAR are scheduled in the office of the President, Old Capitol. Items for the GENERAL NOTICES are deposited with the campus editor of The Daily Iowan, or may be placed in the box provided for their deposit in the offices of The Daily Iowan. GENERAL NOTICES must be at The Daily Iowan by 4:30 p.m. the day preceding first publication; notices will NOT be accepted by telephone, and must be TYPED or LEGIBLY WRITTEN and SIGNED by a responsible person.

VOL. XII, No. 107 Thursday, October 6, 1938

University Calendar

Thursday, October 6

Conference on Administration and Supervision, Old Capitol.

11:00 a.m.-1:00 p.m.; 3:00 p.m.-

5:00 p.m.; 8:00 p.m.-10:00 p.m.—

Concert, Iowa Union music room.

4:15 p.m.—Meeting of sorority presidents, board room, Old Capitol.

7:30 p.m.—Iowa Union Board, Iowa Union.

Friday, October 7

Homecoming Conference on Administration and Supervision, Old Capitol.

Dental Alumni Clinic.

10:00 a.m.-12:00 m.; 2:00 p.m.-

4:00 p.m.—Concert, Iowa Union music room

8:00 p.m.—Homecoming mixer, University club.

9:00 p.m.—Homecoming party, Iowa Union.

Saturday, October 8

HOMECOMING—Classes suspended.

Dental Alumni Clinic.

10:00 a.m.-12:00 m.—Concert, Iowa Union music room.

2:00 p.m.—Football, Iowa vs. Wisconsin, Iowa Stadium.

Sunday, October 9

8:00 p.m.—Vesper Service; Address by Dr. Chas. R. Brown, Iowa Union.

Monday, Oct. 10

12:00 m.—A.F.I., Iowa Union.

Tuesday, October 11

7:30 p.m.—Sigma Xi, Room 408, pharmacy-botany building.

7:30 p.m.—Bridge, University Club.

Wednesday, October 12

7:30 p.m.—Lecture: "The Development and General Application of Fiberglas," by T. R. Simms, under the auspices of the Iowa section, American Chemical Society, chemistry auditorium.

8:00 p.m.—Cadet Officers club, Iowa Union.

Thursday, October 13

3:00 p.m.—Tea honoring new-comers, University club.

7:30 p.m.—Iowa Union Board, Iowa Union.

Friday, October 14

Mathematics conference, senate chamber, Old Capitol.

Annual conference of Quad-City section of American Foundrymen's Association, Chemistry Auditorium.

Profitable Publishing short course, Iowa Union.

Saturday, October 15

Saturday classes.

Mathematics conference, Senate Chamber, Old Capitol.

Annual conference of Quad-City section of American Foundrymen's Association, Chemistry Auditorium.

Profitable Publishing Short Course, Iowa Union.

Monday, Oct. 16

7:30 a.m.—A.F.I., Iowa Union.

Tuesday, October 17

7:30 p.m.—Sigma Xi, Room 408, pharmacy-botany building.

7:30 p.m.—Bridge, University Club.

(For information regarding dates beyond this schedule, see reservations in the President's office, Old Capitol.)

General Notices

Pershing Rifles

The National Society of Pershing Rifles wish to announce to all first and second year military students that a smoker will be held in the cafeteria of Iowa Union, Thursday, Oct. 6th, for the purpose of bringing together all students who are interested in becoming members of Pershing Rifles.

And even while they prayed, new forces were marching to reduce the small space left where such freedom of life is still possible for the Jews.

Truly, today Jews and Gentiles alike might offer a prayer for forgiveness and peace.

During the past years the spirit of intolerance has gained new territory. In Italy, during the last two months, Mussolini has come to the conclusion that it is impossible for a man to be a Jew and also a good Italian. In the Sudeten area German storm troopers are already ushering in a new era of hatred for fellow men.

It is significant that Tuesday night the walls of the temporary synagogue in the community building were draped with red, white and blue bunting. It is significant that the services were conducted in both the ancient Hebrew and in English. It is significant that those were University of Iowa students who were praying Tuesday night, since this is one of the few remaining countries of the world where vision and tolerance still rule education.

As long as we remember the words that head this editorial, there is little danger that it will not always be thus.

A San Antonio woman was arrested for tearing up money to keep her husband from getting it. Don't they wear stockings in Texas?

As we get it, the whole trouble in Europe is that too many people over there think the world peace is spelled piece.

Eduard Benes Resigns

What will happen to Eduard Benes is still a question as we write. Probably he will be one of those wandering internationalists, like Alfonso of Spain or Edward of England. Like them he will be a man without a country.

And always, we think, he will be nobler than either of these, because he will be a man who completed a great task and saw it fail through a fault that wasn't his own.

He, with Thomas G. Masaryk (Czechoslovakia's "George Washington") dreamed of the country that was Czechoslovakia and saw their dreams come true after the World war. Both served their nation well in the years of its existence.

Now, as the powers of the world are yielding to force and to hatred, Eduard Benes is leaving his country. But it's entirely proper that he should. When a ship of state has sunk, there is little need of the captain drowning with it.

Today's quiz: What would happen if the countries of Europe suddenly decided to claim territory in the United States peopled

JONATHAN A. WOLCOTT, Captain Commanding

French Examinations

The examination for certification of reading ability in French will be given Thursday, Oct. 20, from 6 p.m. in room 314 Schaeffer hall.

Please make personal application and leave all material in major field to be submitted for the examination with Vacie Knease by Monday, Oct. 17, in room 307 Schaeffer hall. No applications will be received after this date.

Office hours: Monday, Wednesday and Friday from 9 to 10 a.m.; Tuesday and Thursday from 10 to 11 a.m.—room 307 Schaeffer hall.

ROMANCE LANGUAGES DEPARTMENT

Pi Lambda Theta

Members of Pi Lambda Theta will meet at 6 p.m. Thursday at Iowa Union. Following the dinner, the group will go to the chemistry auditorium to hear I. L. Kandel's lecture. Mr. Kandel is a speaker at the school supervision conference.

MARY NEWELL, President

Employment

Students who have applied for work at the university employment bureau are urged to leave their Iowa City addresses and telephone numbers at the employment bureau immediately.

Class schedules should also be left at the office.

LEE H. KANN, Manager

Employment

There is a board job available for a student having no classes from 9 to 11 a.m. each day. Inquire at the employment bureau in the old dental building.

LEE H. KANN, Manager

Recreational Swimming

Recreational swimming for women students will begin Monday, Sept. 26, at the Women's gymnasium. The pool will be open regularly at the following hours:

Monday through Friday — 4:50 p.m. to 5:30 p.m., beginning Oct. 4.

Gymnasium fee should be paid at the university treasurer's office by those wishing to participate.

JANET CUMMING, Women's Physical Education Department

Modern Dance

A dance class for faculty, faculty wives and administrative staff will be held at the women's gymnasium Tuesday and Thursday evenings at 7:30 p.m.

Miriam Raphael, a former member of the Humphrey-Weidman concert dance group, will teach the class, which will start Tuesday, Oct. 4.

Gymnasium fee should be paid before coming to class.

JANET CUMMING, Women's Physical Education Department

Recreational Swimming

Recreational swimming for women students will begin Monday, Sept. 26, at the Women's gymnasium. The pool will be open regularly at the following hours:

Monday through Friday — 4:50 p.m. to 5:30 p.m., beginning Oct. 4.

Saturday—10 to 12 a.m.

GLADYS SCOTT

Seals Club

Seals club try-outs will be held in the pool room of the women's gymnasium at 7 p.m. Wednesday, Oct. 5, and at 4 p.m. Thursday, Oct. 6. All university women interested in swimming are invited to try out.

ANNABEL HINKLE

Sunday Vespers

Dean Charles R. Brown, distinguished preacher and alumnus of the University of Iowa, will speak at university vespers Sunday, Oct. 9, at 8 p.m. in Iowa Union.

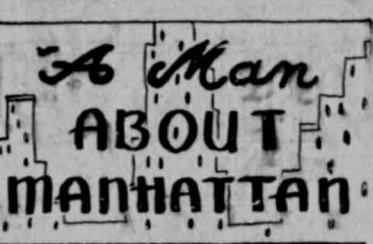

His subject will be "Doors to Life." Instrumental and vocal music will be furnished by the music department. Admission will be free.

Prof. M. WILLARD LAMPE,

Chairman Senate Board on Vespers

A Washington dispatch says

the European powers did not ask the United States for advice in the Czech crisis. They'll get around to us when they need some money.

By GEORGE TUCKER

NEW YORK—In an atmosphere distinctly reminiscent of Joe Cook and the illogical contrivances he used to figure out for the opening of doors, floors, ceiling, the canary, and other semi-impossible feats, the inventor's show got off to a good start in New York this season.

It was held at a midtown hotel and some 800 inventors were on hand from every part of the country to display their gadgets. One of the items that struck my eye right off was a weird looking contraption fastened to a young lady's leg.

At first glance I thought it must be a new sort of splint for the setting of broken bones, but in a few moments the young lady unstrapped herself and walked away with a look of pain, and so I made a few discreet inquiries and discovered that the gadget was for cows, not people, and that its purpose was to keep boosie from kicking over the milk pail at milking time.

The inventor's show continued its clinical aspect with a young man in a sort of horse-collar which I instantly decided must be a new type of brace for a broken neck. But the wearer of it was smoking a cigar and having such an excellent time that I began to suspect that this, like the "splints," was designed for other purposes. It was. This is no idle gossip. The mothers of America already have written in, and they will do so again. To Deanna, to Deanna's mamma, to Joseph Pasternak, Deanna's producer, letters rushed in perishing—the thought that Deanna might be allowed a screen boy-friend in "That Certain Age."

Right now, on the threshold of the sweetest possible 16, Deanna is a young lady of quiet poise and assurance which masks a natural shyness she is given to deliberate, serious answers to some of your casual questions—and again, with a laugh that is half smile, half giggle, she'll chatter away for all of two minutes at a stretch. She did this about putting her hair "up" for the first time, and she repeated on the matter of the possible "boy-friend."

"Oh, I can't," she said. "There are so many people who object—and then there are SOME newspaper critics," she added with just the ghost of a pout, "who always look for a chance to write up things like that. I went with Jackie Cooper to the 'Tom Sawyer' preview—my mother and father and his mother and father went with us—and the next day someone wrote that Jackie and I were seen together at some cheap night club and how awful it was!"

"But were you?" the prosecution demanded sternly.

"Oh, NO-O-O-O-o!" Deanna's blue eyes widened. "I've never been in a night club—except to sing when the studio used to send me. And oh, yes—I saw some in New York but that was because Mr. Pasternak told me to. So I'd know what they were like, because in the picture I had to go to one."

"No, really I can't do anything—but I MANAGE," she brightened. "Manage?"

"

Homecoming Parade to Start Seven-thirty Tomorrow Night

Mass Meeting And Parades To Be Friday

R. Sandler, P. E. P. Pres., Tells of Pep Meeting and Parade

With the pageantry of scarlet-coated University of Iowa bandmen and Scottish Highlanders opening the program, the annual Homecoming parade and mass meeting will launch the university's biggest celebration of the year tomorrow night.

The line of march of the four parade units has been announced by Col. George F. N. Dailey, head of the department of military science and tactics, co-chairman of the parade committee.

Headed by units of the university band and Scottish Highlanders, parades will begin in front of the Sigma Nu house on north Dubuque street, before Delta Upsilon fraternity on Ellis street, at the Quadrangle and at Washington street park.

The parade units will move off promptly at the appointed hours, converging on the west front to Old Capitol at 7:35 p.m.

The Quadrangle group will leave at 7:20 p.m.; the Delta Upsilon detachment at 7:18 1-2 p.m., the Sigma Nu group at 7:22 1-2 p.m. and the Washington street park group at 7:24 1-2 p.m.

The Quadrangle parade will travel to Newton road, then east on Iowa avenue, south to Washington street and east to the physics building, where it will turn north to Old Capitol.

The Delta Upsilon group will move toward the river on River street and Templin road, turning east on Iowa avenue, north to Jefferson street, east to university hall and south to Old Capitol.

The Sigma Nu group will travel south on Dubuque to Church street, west to Clinton street, south to Jefferson street and west to University hall, then south to Old Capitol.

The Washington street park parade will march west on Washington street to the physics building, then north to Old Capitol.

University of Iowa students and townspeople were urged by officials yesterday to go to their nearest parade unit meeting place, coming with the groups to Old Capitol for the mass meeting.

Robert G. Sandler, president of Pi Epsilon Pi, national pep fraternity, is chairman of the committee on notification and attendance. Other members are presidents of fraternities, sororities, cooperative dormitories, the Quadrangle, Currier hall and Westlawn.

Prof. Harry G. Barnes of the speech department is chairman of the program committee.

Governor Kraschel Speaks on Program Of Soil Conservation

CHARITON, Oct. 5 (AP)—Governor Nelson G. Kraschel declared in a speech prepared for delivery tonight before a democratic rally here that the "basic support" of Iowa's conservation program "is to protect every square foot of soil itself."

Homecoming Paraders to Follow This Route

Here is the parade route which will be followed tomorrow night when the Homecoming season is launched on the University of Iowa campus. Headed by units of the university band and the Scottish Highlanders, four individual parades will be staged, culminating in a giant mass meet-

ing on the west approach to Old Capitol. The four parade centers are: before the Sigma Nu house on north Dubuque street, at Washington street park on east Washington street, before Delta Upsilon fraternity on Ellis street and at the Quadrangle. Students in each of these vicinities

Thirtieth Annual Dents' Alumni Meeting To Be Here; Lectures Planned for Next Two Days

Demonstrations And Talks To Be Features Of Saturday Clinic

The alumni association of the college of dentistry of the University of Iowa will hold its 30th annual meeting here tomorrow and Saturday.

President Eugene A. Gilmore will welcome the practitioners tomorrow morning, immediately after their registration. Dr. A. P. Atkins and Dr. O. E. Hoffman of Des Moines will discuss "Valuable and Interesting Methods of Oral Diagnosis."

The discussion will continue after luncheon, and at 3:30 p.m. Prof. Mason Ladd of the college of law will speak on the subject, "Some Legal Aspects of the Practice of Dentistry."

Saturday morning, beginning at 9 o'clock, a series of clinics will be conducted by Iowa dentists. They are: "Helpful Operative and Laboratory Hints" by Dr. A. J. Tanner of Cherokee.

"Observations in Regard to Preventive Dentistry" by Dr. E. C. Prall of Mt. Vernon; "Gold Inlay for Anterior Teeth in Dentures" by Dr. G. T. Livermore of Okaloosa, "The Application of the Spencer-Atkinson Appliance in Orthodontia" by Dr. M. A. Dahl of Maquoketa.

"Immediate Dentures, Stressing

Value of Parfait Demonstrating the Oil Technic in Producing a Parfait Immediate Denture" by Dr. L. F. Bailey of La Porte City. "The Uses of Howes Silver Nitrate Solution in Pedodontia" by F. B. Lehman of La Porte City.

"Compounding Wax Impression and Impression for Full Lower, Practical Case" by Dr. E. S. Smith, Dr. L. C. Dirksen and Dr. B. F. Patrick of Iowa City.

"Recent Concepts of Fixed Bridge Abutments" by Dr. A. O. Klaffenbach of Iowa City, "A Simple Mechanism for Expanding a Deciduous Arch," by Dr. T. D. Speidel.

"Early Demineralization, Diagnosis and Treatment" by Dr. F. D. Francis of Iowa City, "Fractures" by Dr. R. A. Fenton, Dr. A. M. Maris and Dr. L. Larson of Iowa City.

"Duplicated Models — A Process for Quantity Duplication of Plaster and Other Models" by Dr. C. Burkhardt of Iowa City, "Practical Application of Children's Dentistry" by Dr. J. C. Brauer of Iowa City.

"Wax Models for Three Quarter Crowns, Direct Method" by Dr. L. L. DeYarmon of Cedar Rapids, "An Aid in Eliminating Wax Distortion in the Removal of Inlay Impressions" by Dr. C. V. Lehman of Cedar Rapids and "Is This Malpractice?" by Dr. E. W. Anderson of Cedar Rapids.

Turkish Student Here to Study Customs

Amazed at Health and Beauty of U. S. Girls, But 'They Lack Poise'

By MARVIN TAUB

"American customs are very practical," says Sinan Korle, foreign correspondent for "Tan," largest newspaper in Turkey, and a graduate student in political science at the University of Iowa.

Tall, dark, scholarly, Mr. Korle smiled as he spoke. He is also a correspondent for "Genclik" or "Youth," student paper of the University of Istanbul where he was a graduate student. Mr. Korle also writes for "Les Annales de Turquie," a French paper published in Turkey.

"One of my main purposes in coming to America," said Mr. Korle, speaking in faultless English, "is to study the American ways and customs so that I may publish accounts of them in the newspapers of my own country and thus create better understanding and amity between the two countries."

"When I first came to America, I had intended to attend Brown university where I was offered a scholarship. But then I decided to go to the University of Iowa, primarily for two reasons:

"First, because Iowa is in the middlewest where the people seem to be more real than they are in the east and therefore are a truer example of the typical American peoples, and secondly, because I think that the political science department of the University of Iowa is superior."

Mr. Korle intends to be a newspaperman in Turkey. He thinks that it is much easier to be a journalist in America than in Europe because the public here is much more interested in newspapers and believe in them more than they do in Europe.

"Americans are lovers of the sensational," he says, "and it is far easier to write sensational stories. In Europe one has to con-

Sinan Korle, foreign correspondent for "Tan," largest newspaper in Turkey, and a graduate student on the University of Iowa campus, thinks, among other things, that football is a barbaric sport and that American girls are beautiful but lack poise. "America is a wonderful place," he says. "You have so many facilities for comfort."

and that American girls are beautiful but lack poise. "America is a wonderful place," he says. "You have so many facilities for comfort."

Technology and is studying hydraulic engineering.

He flew here from Boston and his hobby is flying and taking colored moving pictures. Mr. Muratzaide has had over one hundred hours in the air and intends to get a pilot's license. Every year, for five years, he has gone home for a visit, a round trip of approximately 12,000 miles.

The other three Turkish students are Mukkader Mimaroglu, graduate, holder of the record for the javelin throw in Turkey; Orhan Akurek, graduate, and Muzaffer Ulusahin, undergraduate.

Besides speaking fluent English, in one week these Turkish students have become thoroughly Americanized and use expressions like "Okay Kidd" and "You said it!" with native facility.

London telephone girls are learning to work in gas masks. The masks are the same as those for the general public except that they have a microphone built in on the side. Earphones are worn separately, as usual.

The Hungarians had hoped to enter in consultation with the Czechoslovaks on the issue at a conference here tomorrow, but Baron Bothmer of the Hungarian foreign office announced tonight that the parley had been post-

First Homecoming Program Broadcast Will Be Tomorrow Night's Mass Meeting

WSUI, the University of Iowa's radio station, will begin a series of special Homecoming programs tomorrow evening when it broadcasts the mass meeting at 7:35.

Following the meeting, a broadcast will originate at Iowa Union where the Homecoming dance will be held. From 9 to 9:10 p.m. will be heard a description of the festivities and informal interviews with alumni guests, followed by 20 minutes of dance music.

Saturday morning at 9 a.m., a Homecoming concert will be played from south Music hall. At 11:15, Merle Miller will interview Homecoming alumni.

A play by play broadcast of the Wisconsin-Iowa football game will go on the air at 1:45.

The series of special broadcasts will end Sunday evening with the Homecoming Vesper service. Dr. Charles R. Brown, dean emeritus of Yale's divinity school will speak on "Doors Into Life" at 8 p.m.

Dr. Brown is an alumnus of the University of Iowa, having received his B. A. here in 1883 and his M. A. in 1886.

2 Day Delay Of Hungarian Forces Made

KOMAROM, on the Hungarian-Czechoslovak border, Oct. 5 (AP)—Hungarian military forces ready to march into Czechoslovakia territory claimed by Hungary held back tonight as diplomats postponed for two days negotiations which had been scheduled to open here tomorrow.

Hundreds of Hungarians waited on the Czechoslovak side ready to welcome Hungarian troops with flags and flowers, anxious to be present at the historic moment of crossing the "former border" into regained Hungarian territory.

Hungary, acting after Germany and Poland regained regions of Czechoslovakia in which their minorities reside, claims a region along 450 miles of the border in which approximately 800,000 Hungarians live.

The Hungarians had hoped to enter in consultation with the Czechoslovaks on the issue at a conference here tomorrow, but Baron Bothmer of the Hungarian foreign office announced tonight that the parley had been post-

Hawkeyes Flash Improved Defense in Fast Session

Smith Demonstrates Improved End Play in Drill; Frosh Used Rather Roughly By Aroused Varsity

The Hawkeyes are tapering off the hard way — hard work — for Saturday's Homecoming game. Although yesterday's session didn't approach that of the day previous in longevity, it gave no ground in the matter of intensity.

Following the procedure of the past several days, the freshmen were again called on to test varsity's defense against the tricky Wisconsin attack.

The yearlings — seemingly confident after their fine play against the first stringers Tuesday — received a rude awakening when the Hawks, goaded on by the jibes of the coaching staff, started hitting the freshmen with loud resounding smacks which echoed over the practice field.

The same plays that had been successful before suddenly lost their effectiveness as Fred Smith, holding down the left flank position, and Dick Evans, on the other side of the line, cut in to pile up the interference before it had a chance to get the ball carrier under way.

Smith was particularly impressive. He cut in many times to land on the runner and bounce him for a loss.

It was obvious the fighting peak which Tubbs has striven to attain for his men, has taken hold and that from now on until the Homecoming game is over they will be hard to handle.

The abrupt change came as a complete surprise to most observers who had watched the team in half-hearted attempts during the week. The weather might have something to do with it, but, whatever it is, it's to be hoped that it lingers until after the Wisconsin game.

Tackling, which had caused some worry since the team's re-

Two Holdover All-Americans Battle for Recognition Again

Goldberg, Holland Returning for Bid At Grid Honors

NEW YORK, Oct. 5 (AP) — Since nine of the players who made the 1937 Associated Press all-American football team were seniors, the race for positions on this year's all-star squad is bound to be a lusty and wide open one.

The two holdovers, Marshall "Biggie" Goldberg of Pittsburgh and Jerome (Brud) Holland of Cornell, have gained a lap on the field by submitting determined bids with the season barely started.

Nine of the 22 players who won places on the second and third all-Americans still are upholding the honor of their alma maters and the coaching systems of their tutors.

Of the five backfield men, the one who has taken the biggest step toward promotion is Sid Luckman, Columbia's quadruple threat who will operate behind one of Lou Little's best lines in one of the east's main battles against Army at West Point.

Al Schenk, Halfback

—Daily Iowan Engraving
Al Schenk, above, is known around the gridiron as a tough luck player. Al came to the university from Chicago in 1935. He was considered a fine prospect, and was, until the injury jinx began to take its toll. Winner of a major "I"

Cubs Fighting Mad for Today's Game

By CHARLES DUNKLEY

CHICAGO, Oct. 5 (AP) — Tense and brooding silence ruled the Cubs' clubhouse as Manager Gabby Hartnett trooped in with his players beaten 3 to 1 in the opening game of the world series today.

Then the grumbling and snarling started.

"What the hell," screamed Hartnett. "Those guys better look better tomorrow than they did today or they had better look out. They were just lucky, that's all. They got three cheap runs.

A base on balls and an infield boot gave them a couple of them. Lee should never have had a run scored on him, the way he was pitching."

Suddenly Hartnett's voice rose to the breaking point he was screaming so loud.

"Get this you guys," he yelled. "We'll battle them silly tomorrow.

They're more scared than we are."

Pulling on a big black cigar, Hartnett went to his private office and doffed his 220-pound frame into a chair. Then he mumbled to himself, "Oh, I have an announcement to make. I got to make this one myself."

He jumped up, dashed to the middle of the players' dressing room and shouted:

"Dean goes tomorrow."

The great one, completely naked, was reading a telegram in front of his locker when Hartnett announced him as tomorrow's pitcher. He didn't say a word.

Asked what he expected to do against the Yankees, Dean, grim and sober, said:

"I ain't making no predictions. I'll give them all I've got; that's the best I can do."

Hartnett, beside praising Bill Lee's work, also lavished praise on Frankie Crosetti, Yankee shortstop, who played a sparkling game.

"That pickel headed so and so really was the guy that beat us."

Hartnett said: "He cut off the running at third base and was in a couple of double plays that really hurt us. He really played a hell of a game."

"That's right; that's right," chimed in Johnny Corriden, one of the Cub coaches.

"It was a tough game for Lee to lose," he said. "We'll tear into them tomorrow."

Pitcher Tex Carleton drawled in his best Texas manner:

"You're telling me they are lucky. Lee should have never lost. The breaks went against him, that's all. He pitched a swell game."

Hartnett said that Lou Gehrig,

who flew into a violent rage and threatened to annihilate Charley Moran in the eighth inning, fouled out and then attempted to steal a base on balls.

"He cried like a big baby," Hartnett added.

Manders On Injured List

Star May Be On Sideline When Drake Plays Northwestern

DES MOINES, Oct. 5 (AP) — Coach Vee Green juggled his Drake university football squad again today as the Bulldog mentor sought to develop a winning combination for the Northwestern game at Evanston Saturday.

Art Lorenz, tackle and former Des Moines prep star, replaced Dick Tomlinson, first string tackle, and Charley Lyon, last year's star guard, was moved back to the first string in place of Bob Huston.

In the backfield, Bobby Underwood and Thell Fisher went in for Holtz and Peterson. Pug Manders was still on the sidelines with a chest injury but may get into the Wildcat game, the coach said.

Feller Fans Ten Batters In Exhibition

VAN METER, Oct. 5 (AP) — Bob Feller, helped by a pair of Cleveland Indians buddies, showed 10,000 Iowa fans how he gained the title of major league strike-out king by fanning 10 batters in an exhibition

Badgers Polish Passing Attack for Invasion Of Hawkeye Territory and Homecoming Tilt

Olympic Star Seeking Job As Mentor

ST. LOUIS (AP) — After a great Olympic performance and subsequent professional engagements, Helen Stephens, the world's fastest woman sprinter, is ready to settle down. She's looking for a school or college athletic coaching post.

The 20-year-old Missouri farm girl who flashed into prominence in the spring of 1935 at the woman's national indoor track meet here by beating the then champion of woman sprinters — Stella Walsh — and remarking, "Who's Settla Walsh?" is very much the business woman today.

Miss Stephens turned pro in September, 1937, three months after graduation from William Woods college of Fulton, Mo. A year before at the Olympics in Berlin she had established a world record for 100 meters at 11.5 seconds.

game at the homecoming celebration for the young pitcher.

Bob, playing with Hal Trosky and Rollie Hemsley in an "all-stars" team, held the mound for five innings to defeat the Omaha Negro Monarchs 15 to 3.

Schmitz and Weiss Connect With 50 Per Cent of Passes

MADISON, Wis., Oct. 5 (AP) — Three University of Wisconsin backs — Tony Gradišnik, Bill Schmitz and Howie Weiss — connected with more than 50 per cent of their passes today as Coach Harry Stuhldreher sent the Badgers through their last body contact session before Saturday's game with Iowa. The workout stressed defenses for passers.

COLUMBUS, Ohio, Oct. 5 (AP) — Apparently satisfied that Ohio State's linemen could stop Southern California's charging backs, Coach Francis Schmidt carefully groomed his "aerial circus" today for Saturday's inter-sectional football classic here, in the hope of avenging last year's 13 to 12 defeat on Trojan soil.

ANN ARBOR, Mich., Oct. 5 (AP) — A reserve eleven failed to make headway with Chicago plays against the University of Michigan varsity today as the Wolverines concluded hard work for their Big Ten opener with the Maroons here Saturday.

MINNEAPOLIS, Oct. 5 (AP) — Minnesota went through its mid-week practice routine today in strict secrecy with even the press being barred from the workout. Coach Bernie Bierman also missed most of the practice session, being forced to leave the field early because of a severe cold.

BLOOMINGTON, Ind., Oct. 5 (AP) — Coach Bo McMillin of Indiana University tried out Floyd Tipmore of Elkhart and Ray Dunke of St. Joseph, Mich., sophomores, at fullbacks in a drill of the Hoosier squad against freshmen today as he sought replacements for Cobb Lewis and Joe Tofil, crippled rookie backs. An alternating backfield expected to be used against Illinois Saturday practiced again today.

LAWRENCE, Kas., Oct. 5 (AP) — Monte Merkel, 215-pound tackle who was kept out of the Notre Dame game by an attack of boils, returned to his post with the University of Kansas football team today.

Coach Ad Lindsey said his starting backfield against Washburn Saturday probably will be Sullivan, Miller, Reagle and Bunsen.

Mike ToSaw, Tackle

—Daily Iowan Engraving
Mike ToSaw, above, is as rugged as he looks, which is plenty. Mike weighs in a shade under the 200-pound mark and stands 6-1. A sophomore, he hails from Logan where he played considerable football for the local high school eleven. Mike has been making a

bid for regular service on the squad and does better than average. Lacking only in experience, he will probably provide Iowa opposition many anxious moments before he hangs up his cleats and calls it a day after his senior year. Atlanta Friday.

Mighty Ruppertmen Get Off to a Winning Start

Dickey and Ruffing Prove Too Tough For Cubs; Dean Probable Starter in Today's Game, Will Face Gomez in Duel

By PAUL MICKELSON

WRIGLEY FIELD, Chicago, Oct. 5 (AP) — Everything a championship team must have to win great games — power, pitching, superb fielding and that intangible something called luck — combined to send the mighty New York Yankees off victorious in their quest for a third straight, record-breaking sweep of world series baseball plunder this chill blustery day.

Record Crowd

Before a near record crowd of 44,242 customers, who packed every nook and cranny of the remodeled stadium, the Yankees chilled the hot Chicago Cubs, 3-1, in the opener. They beat the best Gabby Hartnett and his gallants had to offer, belting their pitching pride, General Bill Lee, for 11 of their 12 hits, four of them by Catcher Bill Dickey, who equalled a series record. Jack Russell who pitched the ninth after Lee was lifted for a pinch-hitter, gave up the other.

The defeat left the Cubs with no alternative than to take a long gamble in tomorrow's second game by sending the once great, but now ailing, Dizzy Dean to the mound against the long invincible Lefty Gomez.

Dickey and Ruffing

Dickey and big Charles (Red) Ruffing, strong-arm men of the Yankee batting and pitching departments, were the heroes today for the world champions, but pressing them was almost the entire lineup of the champions, who came through not only at bat but and the second Yankee run was home.

x—Batted for Lee in 8th

Score by Innings

New York 020 .001 000-3
Chicago 001 000 000-1

Earned runs—New York 3, Chicago 1. Runs batted in—Hack, 2; Selkirk, Gordon, Hack. Two base hits—Crosetti, Henrich, Gordon. Three base hit—Hartnett. Stolen base—Hack. Sacrifice—Ruffing. Double plays—Crosetti to Gehrig; Gordon to Crosetti to Gehrig; Collins to Hartnett to Gehrig; Jurges to Herman to Collins; Collins (unassisted). Left on bases—New York 8, Chicago 4. Bases on balls—Lee 1 (Gehrig). Strike-outs—Ruffing 5 (Demaree, Cavarretta, Hartnett, Jurges 2); Lee 6 (Crosetti 2, Henrich, Gehrig 2, Gordon). Pitching summary—off Lee 3 runs, 11 hits in 8 innnings; off Russell 0 runs, 1 hit in 1 innning. Hit by pitcher—by Lee (Crosetti). Losing pitcher—Lee (Crosetti).

Great Fielding

The Yanks were not alone in fielding gems, the Cubs tying the Yanks with a pair of lightning double plays. Great catches were made all afternoon as the wind howled and the Ruppert guns boomed. Gordon, Crosetti and Gehrig each turned sure hits into outs. So did Ripper Collins, the big money playing man operating on first, Bill Jurges, who made perhaps the greatest catch with a bare-hand stop of Joe DiMaggio's terrific smash in the fourth innning, and Herman, though his one error in the second sent in the first Yankee run and set up another.

Steady Attack

As fortunes go, only DiMaggio, leading hitter of the champs, and Ruffing went hitless in the well-timed consistent attack. Henrich and Gordon had a pair of hits, the others settling on one each—all but one coming off Lee's delivery before he was jerked for a pinch-hitter in the eighth and replaced by Jack Russell in the ninth. Russell yielded but one hit—a double by Crosetti—in the innning he worked.

Capacity

The large crowd, second largest in Wrigley field's history and largest since the beautiful park was remodeled, paid \$20,025 to see—and they saw—one of the best played games in series history.

It was a good day for the players, too, as their pool swelled to \$107,112.75.

At the start, it looked as if General Lee finally would get even with the Yankees. Though never as good on a chilly day, the

Time of game—1:53.

Attendance—44,242 (official).

Risko Loses

PITTSBURGH, Oct. 5 (AP) — Eddie (Babe) Risko, who won the world's middleweight title here a few years ago and later lost it, was knocked out tonight in the third round of a scheduled 10-round fight by Billy Soose of Farrell, Pa.

Definite Work of Legion's Boys' Town Will Start Today

Noel Thoen, Acting Mayor Of Group Will Issue First Order

Each School Will Hold Own Councilmen Election on Oct. 15

By DEAN ROGERS

Plans for Boys' Town, sponsored by the Iowa City American Legion post, will definitely get underway today when Noel Thoen, acting mayor, issues a proclamation to each school for an election of councilmen to be held Oct. 15.

Meeting last night in the Legion building a committee composed of C. J. Butterfield, chairman; Dr. Erling Thoen, Don Davis, Robert Barry, Kenneth M. Dunlop and William Bender outlined a schedule for immediate procedure.

Following the general election of councilmen, complete city government will be set up. Officers will include a mayor, city clerk and city council.

Since the junior government will issue ordinances, a police department will be provided to insure peace and order in Boys' Town. The law enforcement body will consist of a chief and several patrolmen.

Special membership cards are to be issued to all authorized citizens partaking in the project.

Commander B. M. Ricketts of the American Legion expressed the belief that such a practical plan of government, actually carried out by the boys of Iowa City, will do much to impress them with the responsibilities they will inherit as they grow older.

Air Railroad Wage Troubles Before Board

WASHINGTON, Oct. 5 (AP)—President Roosevelt's emergency fact-finding board heard today that a small group of railroad presidents originated the move for a 15 per cent wage reduction early this year as the means of saving the industry from complete collapse.

M. W. Clement, president of the Pennsylvania railroad, explained this to the board, appointed to try to avert a protest strike by nearly 1,000,000 workers.

Dean James M. Landis of Harvard Law school, a member of the board, questioned the rail executive, who said his salary of \$100,000 a year now was \$50,000 under the 1929 level.

"Is it true a number of railroad presidents sat down and said, 'We'll have to do something about wages?'" Landis asked.

"Well, I'll have to reflect," Clement replied. Then he related how "12 or 15 presidents" agreed to ask the railroad brotherhoods for the 15 per cent pay cut.

"It was just what we did in 1932 when the brotherhoods took a voluntary 10 per cent wage reduction," Clement said.

"How did you pick 15 per cent?" Landis asked. "Did you have all these charts and graphs offered this board?"

Clement explained that railroad managers and personnel directors decided that 15 per cent would save about \$250,000,000 annually. He said that continual increases in taxes as well as high labor costs were part of the long-time problem, and added:

"We are trying to give our-

Start Plans for Memorial Day Platform in Oakland Cemetery

Memorial Group Discusses Means Of Raising Fund

Plans for the erection of a Memorial day platform in Oakland cemetery were advanced last night at a meeting of the Memorial Day association held in the Community building.

The city engineer, Harold J. Monk, met with the group and discussed the possibilities of such a monument. Lou E. Clark, chairman of the organization, led the discussion to determine ways and means of raising a fund for construction, although no definite action was taken.

The Memorial association is an alliance of 11 patriotic organizations, all of which were represented last night. These organizations are the Daughters of the American Revolution, Women's Relief Corp., Daughters of Union Veterans, Sons of Union Veterans, Sons of Union Veterans Auxiliary, Spanish American War Veterans, Spanish American War Veterans Auxiliary, Veterans of Foreign Wars and Auxiliary and the American Legion and its Auxiliary.

The next meeting will be held Oct. 28 in the same building.

AROUND THE TOWN

With MERLE MILLER

DUNKING O. K.

Mrs. Emily Post Says Anything Goes

NEW YORK, Oct. 5 (AP)—Doughnut—dunking with no holds barred—was approved today by Emily Post, who is to table manners what the Marquis of Queensberry was to boxing.

Informed that Mrs. Gertrude Binney Kay had told Emerson college's class in social usages at Boston that dunking is "all right at an informal house party or a little snack after theater," Mrs. Post laughed and agreed.

"Any place that you could have doughnuts would be like a picnic where you could do pretty much as you pleased," Mrs. Post said. "Of course, you wouldn't have doughnuts at a formal dinner, anyway."

Mrs. Kay added that dunking was never correct under any circumstances "unless you hold the doughnut and are dunking between the thumb and third finger of your right hand."

Mrs. Post opined, however, "it doesn't matter much how you hold it. If you are going to dunk, you are going to dunk. But dip it not too far and spread it to wide."

Bond Company Retracts Offer

Chicago Firm Will Not Issue Bonds To Buy Water Plant

Stating "it now appears that an effort is being made by certain individuals to jeopardize the success of our business proposition by injecting the electric light issue," H. E. Smith, representative of the Chicago bond firm of Stifel Nicolaus and company, has withdrawn the offer of his company to issue bonds for the properties of the Iowa Water Service company.

Smith maintained that the electric light plant issue would "re vive old animosities and controversies and disturb the present existing harmony and cooperation between the various elements in the community. To stir up a civil controversy was farthest from our intentions."

In concluding his formal letter to the community, Smith thanked "the mayor and city council and the group of representative business men and all others of Iowa City who gave us the opportunity to present the merits of our proposal."

Australia's falling birth rate is a greater menace to the country than the possibility of war, declared the Anglican Archbishop of Sydney.

"Well, I'll have to reflect," Clement replied. Then he related how "12 or 15 presidents" agreed to ask the railroad brotherhoods for the 15 per cent pay cut.

"It was just what we did in 1932 when the brotherhoods took a voluntary 10 per cent wage reduction," Clement said.

"How did you pick 15 per cent?" Landis asked. "Did you have all these charts and graphs offered this board?"

Clement explained that railroad managers and personnel directors decided that 15 per cent would save about \$250,000,000 annually.

He said that continual increases in taxes as well as high labor costs were part of the long-time problem, and added:

"We are trying to give our-

self a breathing spell in order to pull this industry through."

Tom Davis, one of the railway labor attorneys, broke in to point out that the brotherhoods were promised that employment would not be reduced and rates would be cut in 1932 when they took a voluntary 10 per cent cut.

"And yet neither promise was kept," he added.

Sorry, you'll have to ask him...

Looking at the local news, come the last few days, I'm again reminded the slogan that every news nose hears... "The best stories

Childs' newest book, "This Is Democracy," is the 12th on the best-seller lists...

Time Signal — The rental library I frequent says "Gone With the Wind" hasn't been gone from the shelf since Dec. 12...

Frank Balazs had practically the perfect description of the Grand Canyon... You get the idea better in two words than in the Grofe music...

Sorry, you'll have to ask him...

Here's the lineup of one "eleven" which has names known from coast to coast for high calibre pigskin reporting:

Paul Mickelson, New York; Charley Dunkley, Chicago; Whitney Martin, Kansas City; Fritz Howell, Columbus; Eddie Brietz, New York; Robert Myers, Los Angeles; Russ Newland, San Francisco; Kenneth Gregory, Atlanta; Gayle Talbot, New York; Earl Hilligan, Chicago; and Bill King, Boston.

Every Saturday, you'll find this all-star cast in the press boxes at the great gridirons of the country. And they are only part of the team.

Their expert stories are augmented by those of a hundred other Associated Press correspondents who cover the football fields in every state of the union.

Together, this vast array of sports writing talent produce an average of 57,000 words every Saturday afternoon,—enough to fill 70 newspaper columns!

Read the complete story of football this fall in this paper.

Elks Will Hold Party Saturday In Club House

Convention Movies Shown by C. Fieseler At Wednesday Meeting

A Homecoming celebration will be held in the club house of Iowa City Elks Lodge Saturday at 7:30 p.m., according to Dr. Jesse Ward, head of the entertainment committee of the local chapter. All Iowa City Elks and out-of-town guests are invited.

The feature of last night's meeting was the showing of a 500-foot color film of the Elks convention in Atlantic City and scenery enroute, given by Charles C. Fieseler, exalted ruler of the Iowa City Lodge. Mr. Fieseler also gave a report of the proceedings at the national conclave, discussing the business meetings.

The semi-annual reports of the secretary and treasurer were read to the chapter and accepted.

Henry Adams wrote his Education story in 1918, closing it optimistically...

"Perhaps some day — say 1938, our centenary — they may be allowed to return together for a holiday, to see their mistakes made clear in the light of their successors; and perhaps, then, for the first time since man began his education among the carnivores, to find a world that sensitive and timid natures could regard without a shudder."

But not yet, Henry, not yet...

S.U.I. to Celebrate Homecoming This Week With Many Events

Many Events Planned For Homecomers

40,000 Persons Are Expected for Annual Iowa Celebration

Homecoming sweeps across the University of Iowa campus and Iowa City this week end, as it has done for the past 26 years.

In June alumni return for class reunions and hours of pleasant reminiscence, but in the fall, emphasis is upon surging action, built around the football motif.

At kickoff time Saturday, some 40,000 persons will be in Iowa stadium to see Iowa open its Big Ten season against Wisconsin. About 3,000 of them will be from Wisconsin.

Can Play Golf

Plenty of activities, all in the nature of appetizers for the football game, await the returning alumni. They can play in the golf tournament Friday and that evening cheer as they did in the old days at the giant mass meeting.

Receptions at the Triangle and University clubs and the Homecoming Party fill Friday evening. Exhibits, concerts, open house by departments and the alumni luncheon in the Iowa Union and the luncheon for "I" men in the field house are events of Saturday before the game.

Proceedings of the day will be enlivened by the presence of the Wisconsin 110-piece band, which will perform spectacular maneuvers, along with Iowa's 120-piece band and the Scottish Highlanders, between halves of the game.

Decorations Planned

Brilliant decorations of Iowa's Gold and Black and Wisconsin's Cardinal and White will bedeck the business district, fraternities and sororities will work out elaborate displays in front of their houses with the conquest of the Badgers as their theme.

Visitors by the hundreds are expected, among two of the notable ones being Gov. Nelson G. Kraschel of Iowa and President Clarence A. Dykstra of Wisconsin, an Iowa alumnus of 1903.

Brown U. Hires Prof. Lindsley

Dr. Paul Lindsley, graduate of the University of Iowa, has been appointed assistant professor of psychology at Brown university, effective with the beginning of Brown's 174th academic year this week, according to an announcement by President Henry M. Wriston of that institution.

Prof. Lindsley received his M.A. and Ph.D. degrees from the University of Iowa, where he began his teaching career in 1932. During 1933-34 and 1934-35 he held National Research Council fellowships for study at the Harvard medical school and the Massachusetts General hospital.

A recognized authority on the psycho-neurology of the brain, Professor Lindsley will teach courses in child psychology. Much of his instruction and research, including technical studies of electrical impulses from the human brain, will be conducted at the Bradley hospital, with which Brown university has cooperative arrangements.

Fall Rehearsal At Recreational Center Begins

Townspeople interested in joining the Recreational Center Community chorus are asked to attend the first fall rehearsal of the group Monday at 7:30 p.m. All former members are also asked to communicate with Mrs. Howard R. Bowen, 2382, before next Monday.

This adult group, which is beginning its third year of chorus work, has given numerous programs. This year's first performance is planned for sometime before Christmas. Mrs. Bowen is serving as director.

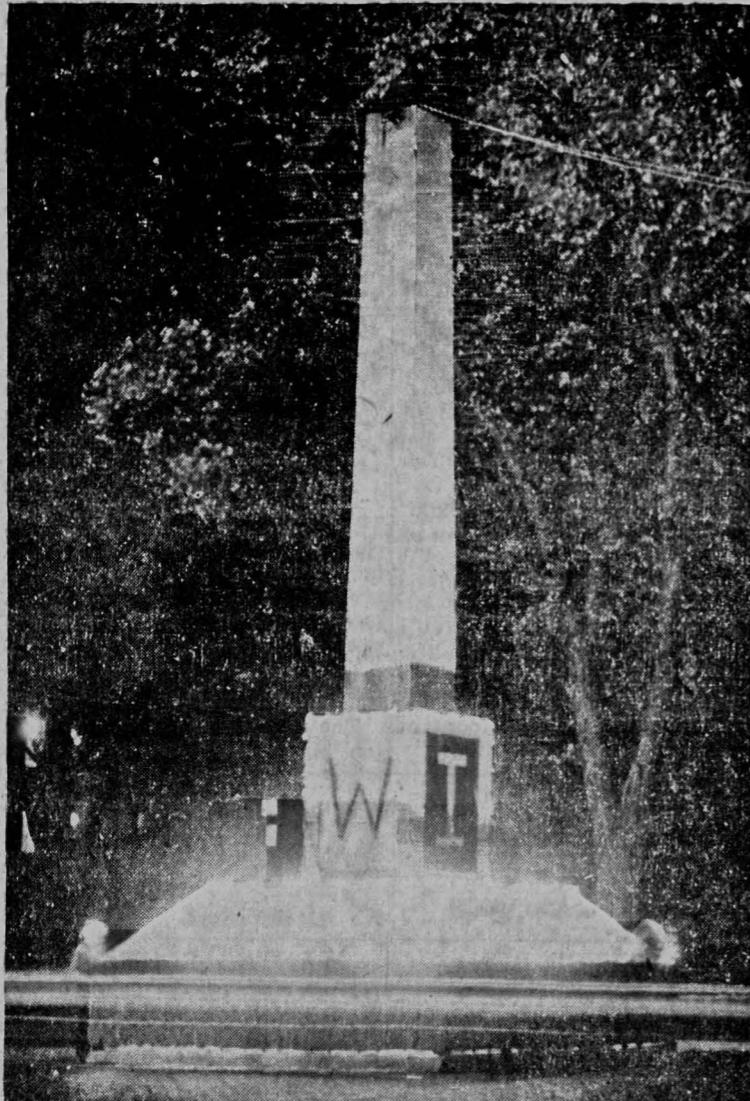

Monogrammed Sox Are Fashion News

Anklets have at last acquired individuality — that makes them fashion news. The newest ones, introduced by a well known hosiery concern, can be had decorated with three-letter monograms or the first name. Although designed primarily for the college girl, the anklets will be equally smart for wear on the golf courses and tennis courts.

Model Flies 10 Miles

WICHITA, Kan. (AP)—Twelve-year-old Roy Lee Rambo of Wichita recently sent his rubber-powered model plane aloft. It was picked up 10 miles away, later the same day, by Mrs. Zoe Alley of Derby, Kan.

A Homecoming Tradition—

The badges of Homecoming began to adorn University of Iowa students and townspeople Tuesday, but the Homecoming motif became even more apparent last night when, for the first time, this year's Homecoming corn monument was completely lighted for the first time. Brilliantly illuminated with floodlights and neon, the spire of the obelisk-

HOSTESS HINTS

Cookie making dates back to the ancient Egyptians who prepared them for religious ceremonies. Every country since then has fashioned its own cookies. Each seems to have its favorite kind—Germany is famous for Christmas cookies; Holland is proud of her Spritz cookies; Norway its Selskab and Denmark its Smor Kringle. American women, however, have originated the greatest variety of cookie recipes. The filled cookie jar on the pantry shelf has always been popular with the whole family in this country and the task of keeping it full has encouraged women to invent new recipes.

Cookies answer so many needs—from large old-fashioned sugar ones to dainty little macaroons and bars. They are appropriate on the most elaborate tea tables, in children's lunch boxes or packed in fancy boxes as gifts.

Jane Blair And Lowell Dutton Married Sunday

Married Sunday in Des Moines were Jane Blair, daughter of Mr. and Mrs. John L. Blair of Des Moines and Lowell Dutton, son of Mr. and Mrs. Walter Dutton of Toledo.

Attending the couple were Maxine Dutton of Toledo and Harold Bichel of Marshalltown.

Mrs. Dutton has been dancing professionally for the WHO artist bureau. Mr. Dutton was graduated from the Toledo high school and attended the university. He is now associated in business with his father at the Dutton Ice company and is a member of Bob Crosby's orchestra.

If cookie dough is difficult to work with (and this is especially true of rich cookies), place it in the refrigerator to chill before handling it.

Rolled cookies are easier to make if the chilled dough is rolled out on a lightly floured pastry cloth. To make cookie cutting easy, dip the cutter in flour before cutting each cookie. By tapping the cutter on the pastry board, there will be no excess flour on the cookies.

Drop cookies are a quick kind of cookie to make. They contain less flour than rolled cookies but are stiff enough to hold their shape after being dropped from a spoon.

A foundation drop cookie recipe may be varied in several ways. The cookie dough is divided into three parts and different flavorings, fruits or nuts may be added to each part. For instance, to one bowl of dough add chopped pecans and chopped dates; to another, a dash of cinnamon and chopped candied orange peel, and to the third, shredded coconut and vanilla extract.

Filled cookies may be made from a rolled cookie dough. Children like this type of cookie because of the "surprise" inside. Such cookies are a little fancier than usual and are nice to serve with tea. The filling may be a thick jam, a mixture of chopped dates and nuts or any preserved fruits which will not absorb quickly into cookie dough. For there will be a social hour.

Auto Show Plans Made By Lions' Club

Formation of plans for the annual auto show was the chief business transacted by the Lions' club at their regular meeting yesterday noon in Reich's pine room.

Unique entertainment was provided for the club members by several of their number who participated in the Hunter-version of indoor ice hockey.

Chinese Student Club Elects New President

C. H. Yen, University of Iowa student from China, was elected president of the Chinese Student club at the first meeting of the semester recently.

C. T. Li was named secretary of the organization and C. L. Pien, treasurer.

Meeting of Chorus Will Be at School

Hostesses at a meeting of the Mothersingers chorus tonight at 7:30 in Horace Mann school will be the alto section of the chorus. Following the regular rehearsal, there will be a social hour.

Issue Invitations to Tea For Mrs. Earl E. Harper Wednesday

One Hundred To Share Courtesy At Home of Mrs. Kay

Invitations have been issued to a tea in honor of Mrs. Earl E. Harper Wednesday in the home of Mrs. George F. Kay, 6 Bella Vista place. Entertaining for Mrs. Harper are Mrs. Kay, Mrs. Edward C. Mabie, Mrs. Philip G. Clapp and Mrs. L. D. Longman.

One hundred guests will share the courtesy, which will be from 3 until 6 p.m.

Mrs. Harper is one of the city's newcomers this fall, accompanying Prof. Harper, new director of the school of fine arts, here this fall to make their home. They, with their daughter, Shirley Ann, and their sons, Craig and Hugh, are making their home at 324 Hutchinson avenue.

Tallman Sets University Aid

NYA Quota Reaches \$60,885 for Iowa University Students

University of Iowa students will receive \$60,885 in financial aid during the next nine months, according to an announcement by Dr. R. W. Tallman, state director for the NYA, included in an Associated Press dispatch.

Iowa is one of the 65 Iowa colleges where student aid will be received. Dr. Tallman states that the quotas allowed each college are approximately nine per cent of the 1936 enrollment.

NYA regulations stipulate that the collegiate workers may earn not to exceed \$15 a month during the school year while the maximum earnings for one month is set at \$20.

Modern Mixers Name McGinnis Head of Cooks

Mrs. Margaret McGinnis was elected president of Modern Mixers, an organization of fraternity and sorority cooks, at a meeting in the home of Mrs. Clara Reiter, 120 E. Davenport street, Tuesday evening.

Mrs. Maurine Black was chosen secretary and Mrs. Theresa Emanuel, chairman of the remembrance committee.

The discussion of the evening concerned modern methods in kitchen preparations. The time of the meeting was changed from the first Tuesday in every month to the second one.

First Luncheon Of E.O.S. Club Will Be Today

The first meeting of the year for the E.O.S. club will be luncheon-meeting this noon at the home of Mrs. J. J. Hinman, 121 Melrose avenue.

Mrs. R. A. Kuever will read two one-act plays, "Freedom" by John Reed and "Privilege and Privation" by Alfred Kreymborg.

Four Persons Receive Fines

Police Judge Burke N. Carson fined four persons in Iowa City police court yesterday.

C. D. Grecia, Thomas E. Martin and Ellis sign company were each fined \$1 for overtime parking. Mike Jensen paid a \$10 fine and \$1 costs for intoxication.

Auto Show Plans Made By Lions' Club

Formation of plans for the annual auto show was the chief business transacted by the Lions' club at their regular meeting yesterday noon in Reich's pine room.

Unique entertainment was provided for the club members by several of their number who participated in the Hunter-version of indoor ice hockey.

Chinese Student Club Elects New President

C. H. Yen, University of Iowa student from China, was elected president of the Chinese Student club at the first meeting of the semester recently.

C. T. Li was named secretary of the organization and C. L. Pien, treasurer.

Meeting of Chorus Will Be at School

Hostesses at a meeting of the Mothersingers chorus tonight at 7:30 in Horace Mann school will be the alto section of the chorus. Following the regular rehearsal, there will be a social hour.

Iowa Dental Graduate Weds

Marcella Busch Bride Of Dr. M. M. Kuhn, Prominent Alumnus

Marcella Busch, daughter of Mr. and Mrs. H. J. Busch of Calmar, became the bride of Dr. M. M. Kuhn of Calmar, son of Mr. and Mrs. D. C. Kuhn of Charles City Sept. 27 at the St. Aloysius rectory in Calmar.

The Rev. A. S. Peikert read the nuptial vows with Bette Busch, a sister of the bride, and Russell Elliott of Charles City, attending the couple.

The bride is a graduate of Calmar high school and the bridegroom a graduate of Charles City high school. He was graduated from the university college of dentistry and was affiliated with Kappa Sigma fraternity and Psi Omega dental fraternity. He also played three years on the varsity football team.

The couple will reside in Calmar.

Celebration Of State Birthday Comes to End

Some 750,000 Iowans attended 58 major pageants and centennial celebrations in Iowa during the past five months, and some 750,000 copies of special centennial editions of newspapers were published in the state during the past four months. J. C. Hammond, managing director, and Robert Burlingame, executive secretary, reported today to J. R. Bahne of Eldora, chairman of the Iowa Territorial Centennial committee of 122 members. The Centennial Committee completed its activities Sept. 30.

In addition there were great numbers of smaller observances reaching into virtually every township of Iowa, with approximately 80 centennial observances staged by 4-H girls and centennial plays and feature reaching into thousands of little red and white school houses throughout lowland.

All these are in addition to the more than 430,000 visitors at the Iowa State Fair and the centennial news features carried in the Des Moines, Chicago, New York, and many out-of-state publications, magazines and trade journals.

After having had repeated applications for the issuance of an Iowa Centennial Stamp rejected, even by President Roosevelt and Postmaster General Farley, consistent appeals through Sen. Clyde Herring finally resulted in an authorization for an issue of some 50 million 3-cent Iowa Territorial Centennial stamps. The first day sale in Des Moines, Aug. 24, 1938, is reported to have been one of the greatest in history, with some 90,000 applications sent to the Des Moines post office for "First Day Covers," which is the description given to first day mailings by stamp collectors.

Secretary A. R. Corey and the Iowa State Fair Board gave the committee every possible cooperation, including financing the entire office expense of the committee.

Noted Pastor To Speak At Religion Week

Dr. William Henry Boddy, pastor of the Westminster Presbyterian church of Minneapolis, Minn., contributing editor to the Presbyterian Banner and the Presbyterian Tribune, will be another speaker in the series of participants for Religious Emphasis week.

Dr. Boddy received his academic training at the University of Washington and at Reed college. He holds an honorary degree from Whitman college.

Dr. Boddy's pastorates include Seattle, Wash.; Portland, Ore., and Chicago, Ill., where he was for eight years pastor of the first Presbyterian church.

He has served the Westminster Presbyterian church of Minneapolis since 1932. Westminster is recognized as the "cathedral" Presbyterian church of the northwest. It is an institutional church, operating its own hospital, social settlement and summer camp.

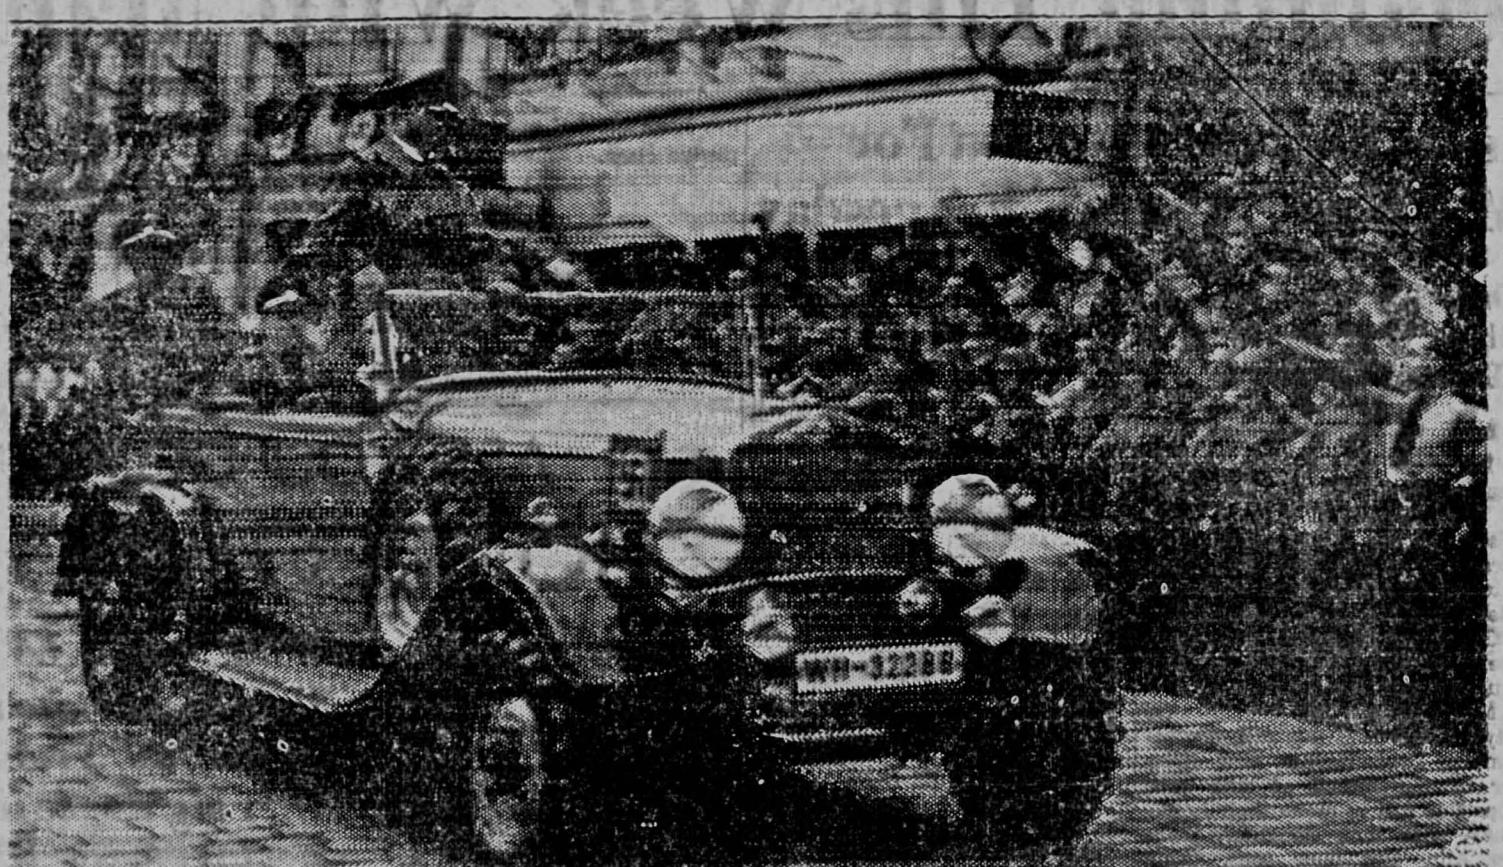

Dental Group Entertained By Dr. Mrs. Higley

Dr. and Mrs. L. B. Higley entertained the staff members of the orthodontic department of the university college of dentistry and their wives at a dinner last night in their home, 714 Iowa avenue.

Decorating the tables was miniature corn monuments.

Out-of-town guests were Dr. and Mrs. Ernest Anderson of Cedar Rapids.

Der Fuehrer's Triumphal Entry Into Sudetenland

In triumph, Adolf Hitler rides less occupied by his troops in through the streets of Eger, blood accordance with the Munich pact.

S.U.I. Begins Navy Career Pontoniers to Give First Fleet Exhibition Homecoming Day

The S. U. I. navy took shape yesterday with a flotilla of five barges and one captain's gig under the sponsorship of the local branch of the United States army.

Originator of the army-controlled navy is Col. George F. N. Dailey,

head of the department of military science and tactics. He said

that the fleet would be manned by the Pontoniers, members of

the engineering R. O. T. C. unit.

The purpose of the navy is to make S. U. I. students more river conscious. Colonel Dailey said that the University of Iowa is one of the few midwestern schools located near water and that advantage should be taken of the fact.

Names of honorary cadet colonels of the past four years will designate the vessels. The fifth barge is being named at present with a question mark, which will be changed when this year's honorary cadet colonel is selected.

Saturday the fleet will go through its first maneuvers for the benefit of Homecoming crowds here for the Iowa-Wisconsin football game.

at some distant city. Today a third of the nation's air patrons are women. Reduction of air fares has been an important factor in attracting new traffic reservoirs. Rates have been reduced by fifty per cent in ten years and even greater reductions are in sight for the next decade with the advent of still larger flight equipment in the near future.

The government has done a great deal to perfect the science of air navigation. The Federal government pioneered the carrying of mail by air, thus laying the basic foundation for our air transport system as we know it today. Government aid has made possible night flying through the erection of airway beacons at strategic points along the airways of the nation. Emergency landing fields have been constructed by the government and completely lighted for night use. When radio first appeared as an integral part of air navigation, the government came forward to establish a network of radio directional beams that serve much the same purpose as do rails and highways for surface transportation. With the rapid approach to instrument flying, and the importance of finer weather interpretation, the government established a chain of weather reporting stations that today form the backbone of weather prognostication the country over.

The results of weather studies, made at key points are immediately flashed to all corners of the nation by a government-operated teletype system.

With these government aids it

has been possible for the air lines to fly as efficiently and safely at night as by day. In fact about 45 per cent of the nation's air schedules are operated during hours of darkness.

From a business of speculation in 1928, the air line industry has grown to a fifty million dollar business in ten short years.

It provides employment for 12,000 persons in contrast to the handful of persons employed by the air lines in 1928. Air transportation needs and has become a potent adjunct to national defense.

The acceptance of air transpor-

tation by business men has

been the support that air lines have sought even more enthusiastically during the closing years of this decade. As we have seen the air traveler of '28 was more or less of an adventurer. The woman who traveled by plane ten years ago was front page news—she was invariably traveling for the publicity involved or because some dire emergency demanded her immediate presence.

CHAPTER 33

HOW SHE got out of the room Judy wondered a long time later. Why she didn't wait for Ronald's answer when Abbey asked him to marry her, she did not know. Perhaps because she was so certain what it would be.

He loved Abbey—he must love Abbey—hadn't they planned together? Hadn't they asked each other desperate questions that morning in the dining room when she came down to an early breakfast?

Even if they had not, there was only one answer that a gentleman could make at such a time.

So Judy began to plan her life again. Sometimes it seemed to her that she was a workman who built, pulled down, adopted another pattern, and tried again. She wondered, then, if any edifice would stand strong and triumphant against the storms.

Then the design contest made its announcement, and Judy, reading it in the paper on the subway, clung to a strap because her knees were suddenly weak, the world was instantly glorious. She had won!

She knew now that she had not really believed that she would—that she had formed a life buoy of her eager hope and used it to keep her head above the swirling waters of the last weeks.

A man left the train and she sank into the seat. And the train rushed on through station after station and she did not know it. She was savoring for the first time the rich happiness of recognized accomplishment. Later she would get in touch with the contest headquarters, give them her address. They had only her father's law firm address now. Why, how stupid she was! Doubtlessly there was a letter for her there. Maybe the check itself.

But it wasn't the check that was important. It was the fact that the merit of her work had stood out.

She looked, then, at the number on the posts of the subway and saw that she was in Brooklyn. Laughing at her own absent-mindedness, she changed trains and started uptown. At Wall street she left the subway and walked down a narrow canyon to the law office.

Miss Martin came when Judy announced her name. The secretary had a new deference in her manner. Even in her glow of happiness Judy sensed it. Success changed people's attitudes toward you; she observed fleetingly. Her voice litled, as though a flute and a flute and a violin played together, when she asked: "Is there any mail for me, Miss Martin?"

"Lots of it, Miss Rogers. From everywhere. And Mr. Heaton has been trying to locate you. May I congratulate you?"

"Oh, thank you! Isn't it wonderful?"

"I suppose you'll be opening the town apartment again, won't you?"

"The town apartment? Oh, no, that's closed, waiting to be leased. Besides, it's such a small check. But I do think maybe I can get a job now . . ."

"A job? But you won't need one!" Miss Martin observed.

For the first time doubt entered Judy's mind. She and Miss Martin might be talking about different things.

"What do you mean—have I an offer, too?" she asked.

"An offer?" The girl's brows were perplexed. "No, I don't think so. I don't know. But your father. Those oil wells coming in! It's like a fairy tale!"

Judy sat down, suddenly limp. "You mean we're rich again?"

"Yes, didn't you know? Oh, of course, you couldn't. I'm so stupid. You disappeared."

It was Mr. Heaton, the senior partner, who talked to Judy. Her father had relented for his harshness. A bank account was at her disposal. The town apartment was

Nominee Visits Johnson G.O.P.

Dickinson Guest At Local Luncheon For County Party Men

Lester J. Dickinson, republican nominee for congress, was the guest of Johnson county republican leaders yesterday noon at the Jefferson hotel.

Attending the luncheon were Judge Harold D. Evans, Atty. Thomas E. Martin, Atty. Robert L. Larson, Robert J. Phelps, R. C. McCann, Prof. Roy C. Flickinger, Atty. William F. Morrison and S. T. Morrison.

Candidate Dickinson stopped here on his way to a campaign rally in Mt. Pleasant.

Farley Predicts Demo Victory In November

WASHINGTON, Oct. 5 (AP)— Democratic Chairman James A. Farley spurned today the idea of supporting any liberal republicans or other non-democratic in this fall's campaigns.

The democratic national committee, he emphasized to reporters, would go down the line for democrats.

This recalled that President Roosevelt made known several weeks ago that he would have no objection to election of a good liberal running on a republican ticket.

When Farley was asked whether he thought that Mr. Roosevelt might "work at cross purposes" with the democratic committee, he replied: "I don't think so."

An example of party support for all nominees Farley mentioned Senator Tydings of Maryland, who won renomination despite White House opposition. He said also that support would be given Senator Gillette of Iowa, often classed as an administration critic.

In discussing Kansas, Farley said flatly that "the administration is interested in the election of George B. McGill." The democratic choice for re-election to the senate. Some persons had suggested Mr. Roosevelt might support Clyde Reed, the republican nominee.

Farley predicted heavy democratic victories in November. "The situation will be better when we go to the polls than it is now," he declared. "The swing is toward the democratic party. The republicans — what have they got to offer?"

He predicted victory for both Sheridan Downey, the democratic senatorial nominee, and Culbert L. Olson, the gubernatorial nominee, in California.

As for the progressive party, Farley said he thought its leaders would be "very much disappointed at the votes they receive — outside of Wisconsin."

"They stepped out too soon," he said.

384 Licenses Issued During September In Johnson County

Receipts from game licenses issued in Johnson county for September totaled \$398.50, according to a report sent to the state conservation commission at Des Moines by R. J. Jones, county recorder.

Of the 384 licenses issued, two were for non-resident fishing, four for resident fishing, 29 for resident fishing and hunting and 349 for resident hunting.

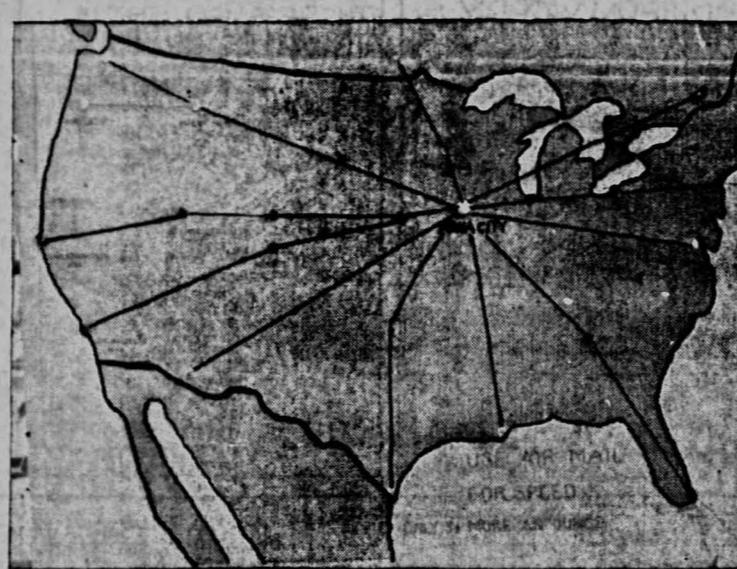

County Asks Bids On Secondary Road

Johnson county asked yesterday for bids on two miles of secondary road grading in Scott township, according to R. H. Justen, county engineer.

Bids will be opened Oct. 19.

This project is part of a three-year program to bring Johnson county roads to permanent grades, preparatory to surfacing.

From Coast to Coast

Iowa City's the center of this airline map on the walls of the local post office. The map has been placed to show air-mail routes in the United States in relation to the local airport.

Mrs. E. Kurtz Named Head

Community Chest Drive Goal Set At \$19,890 Taylor Says

Mrs. Edwin B. Kurtz, 221 River street, has been named director of the residential district of the 1938 Community Chest drive, Roscoe E. Taylor, general director, announced last night.

Mrs. Kurtz, who will have charge of solicitations in the residential districts of Iowa City, has captained groups of solicitors in former drives for the last five years.

She was the 1937-38 president of chapter HI of the P. E. O., and is also at present active in the Longfellow school P. T. A. and University club.

Solicitations for the local campaign will begin Oct. 17 and continue until the quota of \$19,890 has been reached.

Dean Stoddard Will Speak To Social Council

Members of the Co-ordinating Council of Social Agencies in Iowa City will meet at 6 o'clock tonight in Reich's pine room.

The Rev. Edwin E. Voigt, president of the council, announced that monthly dinner meetings will be held throughout the year.

Dean George D. Stoddard of the University of Iowa graduate college will speak tonight on "The Importance of Social Agencies in Character Formation."

The objective of the council, which was organized two years ago, is to bring together all those agencies which work with the young people of the city in order that each agency may know the work of the others.

Representatives of approximately 35 social agencies are expected to be in attendance at tonight's meeting.

Missouri River Ducks Beware!

Iowa duck hunters will enjoy the privilege of hunting anywhere on the Missouri river on their Iowa licenses this year, it was announced last night.

Nebraska and Iowa game officials have entered into a reciprocal agreement whereby the Iowa hunter may hunt anywhere on the Missouri river between the two states and his resident Iowa license will be recognized by Nebraska authorities. The Iowa hunter, under the arrangement, may not hunt on any land attached to the mainland of Nebraska.

The Nebraska hunter may enjoy the same privilege in Iowa territory on his resident Nebraska license, but may not hunt on any land attached to the mainland of Iowa.

Bids will be opened Oct. 19.

This project is part of a three-year program to bring Johnson county roads to permanent grades, preparatory to surfacing.

Auto Accidents Show Decline

Chief W. H. Bender's monthly police report to the city council shows that traffic law violations suffered a decrease in September from the July and August totals.

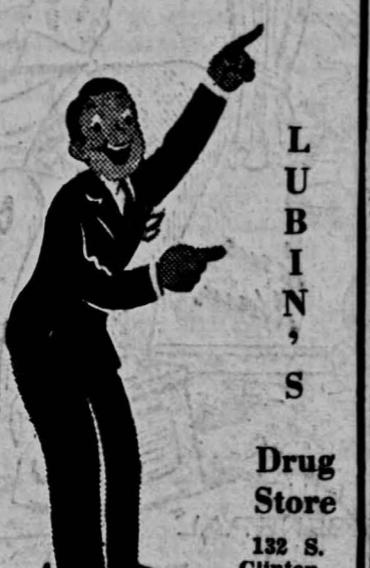

The report states that 127 motorists received tickets for traffic law violations in September while 152 received them in August and 160 in July.

Twelve automobile accidents took place in the city during September, as compared to 10 in August and 15 in July. In September six persons were charged with reckless driving.

A decrease was also noted in intoxication charges, 31 persons being arrested in September as compared to 33 in August and 35 in July.

"I'll Say The Food Is Good—"

And that's what you will say, too, when you have tried Lubin's. Many college students find that Lubin's is the best and cheapest place to eat. Buy a meal ticket this week, and try it. The food is delicious.

Highway Dips Repaired With New Process

A new mudjacking process was being used yesterday to take the dips out of about 60 feet of pavement on Muscatine avenue between Fourth and Fifth avenues.

Roy Mushrush, in charge of the Iowa City state highway district office, explained the process.

A hydraulic pump or mudjack was used to pump a mud solution into the cavity under the pave-

ment. The mud solution consists of about 30 parts of dirt to one of cement.

The mixture is pumped into the cavity under extreme pressure through holes bored in the pavement. Spreading rapidly beneath the surface the tremendous force raises and levels the surface.

Similar work will be undertaken this week on the streets of Curtis hill.

English is to remain the principal foreign language taught in all schools in Latvia, according to an order issued by the Latvian minister of education.

Vacancies exist for one clarinet player, one flute player, four cornet players, one french horn

Miller Names Nine Vacancies In Army Band

Young men who have knowledge of music and who desire to enlist in the United States army for a period of three years can make application through recruiting stations in the following cities of Iowa: Des Moines, Waterloo, Cedar Rapids and Mason City, Sgt. August Miller of Des Moines announced last night.

Registrations or changes of address for the Nov. 8 election must be completed by Oct. 28, it was stated at the city clerk's office yes-

terday. Persons who are not registered in Iowa City, those who have not voted during the last four calendar years, and all newly married women must register in order to vote.

All voters who have changed residence since the last election must sign change of address card in the city clerk's office before Oct. 28.

Germany is shy some 18,000 to 20,000 engineers. To encourage young men to study engineering, the Technical High school of Karlsruhe has brought out a film entitled "Engineers Forward" to awaken enthusiasm.

Registrations or changes of address for the Nov. 8 election must be completed by Oct. 28, it was stated at the city clerk's office yes-

A Statement of Public Policy

by The Great Atlantic & Pacific Tea Company

4. The Interests of the Farmer

Eight million farm families are engaged in producing the food consumed by the American people. All of the farm homes in America, therefore, comprising one-fourth of all the population of the United States, have a direct interest in the methods of distribution by which the products of their labor and of the soil are marketed.

Approximately 30% of their production is marketed through the chain food stores; about 70% through individual grocers. Their fruits, vegetables and other foodstuffs are sold through the chainstores at prices averaging 8% to 10% cheaper than the prices at which they are sold by many grocers. If the farmer sells a given product to both at the same price, the individual grocer must charge the public more to take care of his higher costs.

In arriving at a decision, the interests of several groups of people deserve consideration—the management, the 85,600 employees of the company, the consuming public, the millions of farmers producing the country's food, and labor.

1. The Interests of the Management

The interests of the management can be dismissed as of very little importance.

The Great Atlantic & Pacific Tea Company is managed by George L. Hartford and John A. Hartford under an arrangement made by their father, George Huntington Hartford, the founder of the business. George L. Hartford has been actively engaged in the grocery business for 58 years, working generally six days a week, 52 weeks a year during that entire period.

John A. Hartford has been actively engaged in the grocery business for 50 years, working generally six days a week, 52 weeks a year during that period. Both of these men could, of course, retire without personal or financial inconvenience and live very comfortably if chain stores were put out of business.

The record of the last calendar year shows that out of any money earned annually from the business, in the case of George L. Hartford, 82 percent is paid to government in taxes; in the case of John A. Hartford, 83 percent is paid to government in taxes.

As neither of the brothers has any children, any monies left out of their earnings would accrue to their estates, and in the event of their death, inheritance taxes would probably amount to two-thirds of such accrued earnings, leaving approximately 6 cents on the dollar as a motive for continued personal service.

It is therefore apparent that the interests of management need hardly be taken into consideration in arriving at a decision.

2. The Interests of the Employees

The interests of the employees of the company are, however, a matter of very grave concern.

It is simply a statement of fact to say that the employees of The Great Atlantic & Pacific Tea Company generally throughout the United States receive the highest wages and have the shortest working hours of any workers in the grocery business, whether chain store or individual grocer. Many of them have devoted all of their working lives to the interests of the company.

The management, therefore, has a definite obligation and duty to defend the interests of these 85,600 employees against legislation intended to throw all of them out of work.

3. The Interests of the Consumer

Since this business has been built by the voluntary patronage of millions of American families, we believe that we must give consideration to their interests in this matter. Millions of women know how acute is the present problem of providing food, clothing and shelter for themselves, their husbands and their children out of their present income. When food prices go up it is not a question of paying more for the same food. They do not have the additional money with which to pay. Therefore, they must buy less and eat less. A & P Food Stores last year distributed at retail \$881,700,000 worth of food at a net profit of 1%.

This food was sold to the public at prices averaging from eight to ten percent lower than the prices of the average individual grocer. Literally, millions of sales were made at prices twenty-five percent lower than those of the average individual grocer. This saving of eight to twenty-five cents on each dollar is of vital importance to these millions of families. If they were denied the opportunity to buy at these lower prices it would simply mean that in millions of homes they would have to leave meat off the table another day a week, eat less fresh fruits and vegetables, give the growing child one bottle of milk less every week or stint on butter, cheese, poultry, eggs and many other of the most nourishing foods.

In the last 10 years during the greatest period of chain store growth, the number of individual dealers has increased rather than decreased. We maintain that there is nothing wrong when these dealers charge more than we charge. They must charge these prices in order to make a fair profit. The average grocer will, upon request, deliver the groceries to the customer's door and in many cases extends credit to some of his customers. Delivery service costs money. The grocer must put this added cost in the prices to his customers. In the same way the extension of credit involves the expense of bookkeeping, the tying up of capital, and credit losses. There is nothing wrong in the higher mark up of the individual grocer, because he is rendering a service that justifies his prices.

If some customers can afford and voluntarily elect to pay a higher price for groceries and meats because they want credit or because they want delivery to their homes it is quite proper that they should pay an additional price for such service. However, the millions of families in this country whose income is limited and who can have more and better food because they are willing to pay cash and carry home their own purchases, should not be denied this opportunity. Millions of families of limited incomes can only enjoy their present standard of living through these economies and savings. These millions of American families have helped us build a great business because they believe we have rendered them a great service. The company, therefore, has an obligation and a duty to protect the interests of these customers.

5. The Interests of Labor

Every business in this country has a vital interest in the purchasing power of labor. When labor has high wages and great purchasing power, everyone is prosperous. When labor's purchasing power is curtailed, all business suffers and the American standard of living is impaired. For many years it has been the wise policy of the national government to protect real wages and the purchasing power of the worker's dollar. Combinations or agreements to raise prices, thus reducing real wages, have been declared illegal.

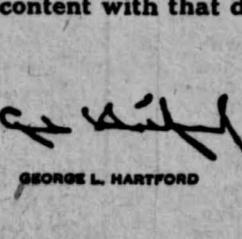

It certainly seems strange that it should now be proposed to destroy a group of businesses for the frankly admitted reason that they furnish the necessities of life to the wage earner and his family at low prices. There are approximately 900,000 workers directly employed in the chain store industry. What course is open to us but to oppose the action of a man who, at a time when more than 11,000,000 wage earners are already out of work and 3,000,000 families on relief, proposes a bill that would add almost another million to the roll of unemployed, wipe out 30% of the distributing machinery of all of the farmers of the United States, and raise the cost of living of the earners of the United States.

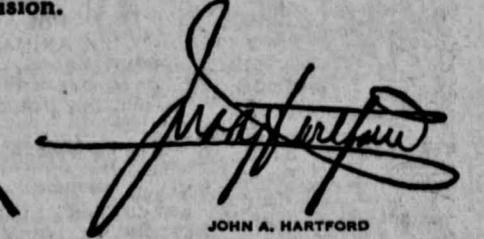

We believe that our organization has rendered a great service to the American people and that it is as a result of that service that we have prospered. If we consulted our own interest it would be very easy to stop and enjoy whatever leisure we have earned. No one is dependent upon us except our fellow workers. However, after the fullest consideration of all interests, we have arrived at the decision that we would be doing less than our full duty if we failed to oppose, by every fair means, legislation proposed by the Honorable Wright Patman.

As we have said, Mr. Patman is an able politician, an able lobbyist and an able propagandist. In that field he is an expert. We are experts only in the grocery business. We believe the chain stores have a right to present their case to the American people. We will not go into politics, nor will we establish a lobby in Washington for the purpose of attempting to influence the vote of any member of the Congress. We expect only a full and fair opportunity to present the case for the chain stores as a great service organization for the American people.

Since the task we have set before us is one involving the widest dissemination of complete information to all of the American people, and since this is a profession in which we are not expert, we have engaged Carl Boivin & Associates, public relations counsel, to do this work. We realize that our views are seldom news. We know, therefore, that we must be prepared to spend a substantial sum of money in telling our story to all of the American people. We declare now that this money will be spent in the dissemination of information through paid advertising and every medium available to us, and in cooperating in the work or formation of study groups among consumers, farmers and workers, which provide open forums for a discussion of all measures affecting the cost of living.

We believe that when the American people have all of the facts they will make their decision known to their representatives in Congress. As Americans we will be content with that decision.

GEORGE L. HARTFORD
