### Japanese-British Negotiations Approach in Tientsin Situation

#### Milk Appears Mysteriously In Concession

TIENTSIN, June 26 (AP)—Milkmen mysteriously reappeared part of their rounds in the blockaded British and French concessions today amid increasing reports that negotiations were under way with Japan to lift the military blockade.

#### Food Remains Scarce; Unconfirmed Reports Hint Stricter Measures

TIENTSIN, June 27 (Tuesday) (AP)—Milkmen mysteriously reappeared part of their rounds in the blockaded British and French concessions today amid increasing reports that negotiations were under way with Japan to lift the military blockade.

### Tientsin's Chinese Suffer

By J. D. WHITE  
TIENTSIN, June 26 (AP)—You have to pinch yourself now and then to come to realize that this is China.

The welfare of a few thousand foreigners here has overshadowed completely the lot of more than 10,000 Chinese inside the Japanese-blockaded British and French concessions and the 1,500,000 outside, all of whose economic welfare is affected directly or indirectly.

The Chinese do not get into the headlines, but he is chief sufferer because he lives on a smaller economic margin.

**Noodles for Coolies**  
The "taiwan" — rich foreign merchant — inside the concessions may have to cut down on his fresh vegetables, iced drinks and other luxuries. But the Chinese coolie there these days eats nothing but plain ungarlished noodles. He can't afford his usual portion of vegetables and meat because of soaring prices.

Three P's in A Pod

AS SENSIBLE an outline of economic thinking as we can remember seeing is the summary of his views on recent economic changes and the present economic challenge given by Dr. S. Howard Patterson, president of Pi Gamma Mu, in his lecture here Saturday.

"The founding fathers," Dr. Patterson said, "found a conflict between the ideal of liberty of Alexander Hamilton and the ideal of equality of Jefferson and Jackson. Today the old conflict comes up again between the ideal of liberty of a Hoover or a Landon and the ideal of security of President E. D. Roosevelt."

The alternative Dr. Patterson's speech was titled "Three P's in a Pod." He spoke, therefore, about "Three postulates, three periods, three problems, three policies, three parties, three possibilities of prices, and three positions in government."

In the French revolution, the postulate was "liberty, equality, and fraternity." The American revolution spoke of "life, liberty and the pursuit of happiness."

Following the industrial revolution of 1914-1929, there came the great depression and the period of reconstruction. Out of this grew three problems, economic inequality, insecurity and instability.

To meet these three problems Roosevelt set forth three policies: these were relief, recovery and reform.

These, Dr. Patterson pointed out, are often in conflict as may be the ideal of liberty with the ideal of equality or that of security.

These same periods mentioned by the economics gave us three products, politicians, platitudes and panaceas.

Dr. Patterson spoke of the menace of the crack-pots, who promise anything, like 30 dollars every Thursday. The ability of the government to make such payments was verified by Dr. Patterson; the wisdom of it he considers not so optimistically.

In the gilded twenties the captains of industry were in control. Then, the labor leaders came suddenly into power and we had an epidemic of sit-down strikes. For the future, for the nation's welfare, Dr. Patterson believes Mr. John Public — the consumers — must be given consideration.

There are three places we can go in government, says Dr. Patterson. The first is socialism, government ownership and operation; the second is rugged or ragged individualism or anarchism. To both of these he gives an emphatic "no."

The third position, that of regulation, is favored. "Regulation, but wise and sympathetic regulation and not ruthless regimentation," says Dr. Patterson.

"Charity," he says, "is better than starvation. Social insurance is better than charity. Public work is better than public dole. Private work is better than public work."

The wisdom of Dr. Patterson's views are expressed in the creed which he presented: "I still believe," he says, "in private enterprise, but under governmental regulation."

"The government can't play the game and umpire it at the same time."

"I believe in public work instead of relief for the able-bodied, but public work to supplement and not to supplant private enterprise."

their right to retire in security in their declining years.

"I do not believe in equality, but in equality of opportunity — the true American concept of liberty."

There is room in the American scheme of things for more men with the ability to think straight — men like Dr. Patterson.

Education—A Challenge To Meet

AMERICAN education is undergoing a barrage of accusations that it is not taking on the responsibility it should for the preservation of democracy.

This may be true. It is doubtful, however, if the full responsibility can be so glibly thrown off on one institution, remembering that any institution in democracy is an institution of the people.

In the child welfare conference discussions, speakers pointed to the schools for a solution to our youth problems—problems, which ultimately involve the questions of liberty and its preservation.

When Secretary Wallace spoke here last week, he challenged education to keep up with the times by changing from an autocratic basis of education to one of democracy.

The same vein of thought was reflected in the speech which the superintendent of Atlanta's schools gave at the men's dinner.

What all these speakers seem to be asking for is equality of educational opportunity. If that is what they want, we believe there is a challenge for schools to meet—but a challenge that can not be met without the sanction of the masses.

Unless those who provide for the financing of educational institutions are willing to provide also for unlimited educational opportunity, it can not be brought into existence.

If these men are challenging education to begin participating in politics, the challenge must go unmet. There is certainly a challenge to education — but what are the limits to which these institutions can go? How can they do what is asked of them and be sure that the means will not defeat the ends?

Prof. Norman Foerster in his "American State University" is fully aware of the predicament of the universities. He presents in detail a picture of the situation and fully suggests a solution to it.

We believe education should meet as best it can the challenge presented in today's social problems. Two things, brought to the front by Professor Foerster's work must be remembered. First, in bringing about equality of opportunity, we must not substitute quantity in place of quality to the point that educational standards are lowered. Second, it is to be remembered that "the state university is, properly, free to exercise the dispassionate pursuit of knowledge; it is not free to apply its knowledge to the practical direction of affairs. Its function is intellectual, not political. The moment it claims the privilege of directing society, it is in danger of losing its privilege of studying society."

These, Dr. Patterson pointed out, are often in conflict as may be the ideal of liberty with the ideal of equality or that of security.

These same periods mentioned by the economics gave us three products, politicians, platitudes and panaceas.

Dr. Patterson spoke of the menace of the crack-pots, who promise anything, like 30 dollars every Thursday. The ability of the government to make such payments was verified by Dr. Patterson; the wisdom of it he considers not so optimistically.

Stewart Says—

Reader Points Out That Dictatorships Are Only Temporary

By CHARLES P. STEWART Central Press Columnist

A highly intelligent reader of mine writes in to take issue with me concerning a comparison I recently made between communism, fascism, and Nazi-ism on the one hand and A. P. A.-ism and K. K. K.-ism on the other. I know he's intelligent, for one reason, because, though he mildly disagrees with me as to this particular matter, he nevertheless says I'm his favorite columnist. Aside from that he made some remarks that strike me as exceedingly well worth consideration.

My original thesis was that A. P. A.-ism, K. K. K.-ism and Know-Nothing-ism, long before them, were "isms" of our American own, which, although respectively pretty formidable for a while, petered out in due season and now are in a state of what Grover Cleveland called "innocuous desuetude."

The question I raised was: "Won't communism, fascism and Nazi-ism finally frazzle out similarly?"

Quite a Difference "Ah," rejoins my reader, "but you forget to mention that these 'isms' of ours never were entrenched in our government. And neither did any of our Know Nothings, A. P. A.'s and Kluxers ever attempt to propagandize their dope in foreign countries."

"Communism, fascism and Nazi-ism, however, are governmentalized in Russia, Italy and Germany, and their 'bunds' and things unmistakably are doing their best to 'born in' in our midst."

"Just so long as they're rampant in Europe they'll plague us until we eradicate their branches."

Right here my reader injects a bit of extremely snappy comment. "It will be mighty difficult," he says, "for a country like the U. S. A. to do this eradicating, because we believe in free speech. If we tried to indulge in some democratic propagandizing in Russia, Italy or Germany, Stalin, Mussolini or Hitler could squelch it in jig time."

That's one of the advantages of a dictatorship—from the standpoint of the dictators and their supporters. But here we have our complications about "liquidating" an agitator, no matter how much we may dislike the cause he's agitating for."

It's true enough. We can deport agents from overseas, but we can't easily muzzle American-born communists, fascists and nazis, even if they're inspired from Moscow, Rome or Berlin.

Perhaps their out-and-out organizations can be extinguished, but their individual spokesmanship can't readily be extinguished, no matter where it's financed from. An alien disturber can be dealt with, but an American hyphenate's a different proposition. If he merely propagandizes, without starting anything physically, the constitution makes him very hard to handle.

Well, it seems he is to put away those spottish white uniforms and break out his polar equipment once more. He is going to contribute the famous barkentine, Bear of Oakland, and himself raise \$100,000 in private funds to help finance another trip to the Antarctic—this time to remap all the hundreds of thousands of square

miles of polar territory claimed for the United States.

The government, he hopes, will make up the rest, roughly about \$900,000. Exploration costs are fantastic. Byrd himself says he never knew an explorer who wasn't close to bankruptcy. They'll have to equip an expeditionary force of 200 men. They'll have to provide food enough to last two years. They'll have to outfit two ships in addition to the Bear of Oakland. They'll have to get planes that are adaptable to flying in the high southern altitudes and carry them thousands of miles across broiling tropic seas until they dip from sight over the earth's curve and come to the great ice packs and the limitless polar lands beyond.

They'll eat pemmican until they are sick of pemmican, and drink tea, and then they'll eat fresh seal meat, and suck lemons to drive away surly.

They'll take 75 or 80 dogs with them, big huskies from the north, to supplement plane travel. But it will be the planes, more valuable to explorers than seven league

boots, that make remapping possible in a relatively small space of time. You can cover more polar territory by plane in three hours than you can in a month by dog sled.

One of the reasons why this expedition is scheduled to sail about Oct. 1 is because at least half a dozen governments are planning extensive operations in the Antarctic. The Germans have just returned after a year and a half there, claiming a quarter of a million square miles of territory and warning bluntly that the claims "will be backed by the full weight of our world political power."

In the meantime, Byrd has said that in his opinion much of the southern polar continent is a continuation of South America and therefore within the scope of the Monroe Doctrine. For some strange reason the United States never made much of an effort to back up her polar claims, feeling that if an emergency ever arose she wouldn't have much trouble in establishing them. Now Byrd's activities indicate that America is at last going to tie up the loose strings.

THE ONLY ONE THAT DOESN'T SEEM TO 'CATCH'!

A MAN ABOUT MANHATTAN

By George Tucker

NEW YORK—Every time I see Admiral Byrd I have the feeling that I should salute him or lift my hat and stand at attention until he passes or accord him some other act or mark of courtesy.

I suppose this is because of the tremendous adventures he has had and because of the satisfaction I have derived from reading his books, and also because not many of us are ever entirely free of hero worship.

I used to see him now and then at one of the better hotels, always immaculate in white, talking to friends and drinking coffee. And coming upon him that way always gave me a start because I usually think of him in a hooded parka, with snow matting his beard, plodding across some wind-swept barren.

Well, it seems he is to put away those spottish white uniforms and break out his polar equipment once more. He is going to contribute the famous barkentine, Bear of Oakland, and himself raise \$100,000 in private funds to help finance another trip to the Antarctic—this time to remap all the hundreds of thousands of square

HEALTH HINTS

By Logan Clendening, M. D.

A woman reader writes me that she is much too heavy for her own good and energy. She eats in spurts for a week or two, and during that time she says she can't seem to get enough to eat. Then for another week she doesn't feel like eating.

She notices also that she over-sleeps. "I have two alarm clocks which I never hear. I am constantly late for appointments. Unless someone awakens me violently by shaking me, I sleep 12 or 14 hours."

Her third complaint is that her skin is dry and itches, for which she can find no remedy. "I went to a doctor but he didn't do me any good."

Condition Plain As I said in answer to this correspondent, I never feel that it is satisfactory to try to make a diagnosis by mail or to prescribe treatment through correspondence, but in this case it seems to me the condition is so plain that a diagnosis may be ventured. The symptoms plainly point to a deficiency in the secretion of the thyroid gland. In fact, it seems to be a full-fledged case of myxoedema. There are thousands of such cases going around, and many—too many—of them consult doctors without obtaining a satisfactory opinion.

The condition seems to occur more often in women than in men—4 to 1. It comes on in middle life with an increase in weight and, particularly, a thickness of the skin. To illustrate the sleepiness, one case I saw occurred in a night watchman. He claimed he had been discharged because his employer had lost all his money. As I happened to know that his employer was particularly prosperous, I suspected that perhaps sleeping on the job was the cause of his discharge, and on telephoning the employer found that my surmise was correct. What my correspondent should

do is to go to a doctor and ask for a basal metabolism test. This test is simple to make and any city in the United States is in close touch with a laboratory which can give the test. It is painless and harmless.

It consists in measuring the amount of oxygen which the patient consumes. Any animal of given weight and given body surface consumes a definite amount of oxygen at rest in a definite period of time, if bodily conditions are normal. The most important organ in disturbing oxygen intake is the thyroid gland. If it begins to increase its secretion, the oxygen consumption goes up. If it begins to decrease its secretion, the oxygen consumption goes down. And it does so in proportion to the extent of the lack or increase of the secretion.

This last fact gives the physician a most valuable guide in the direction of treatment. The treatment of lack of thyroid secretion is naturally to supply it artificially with the administration of thyroid extract. But the patient should never attempt to do this for himself. The doctor, after the proper examination, can give the proper dosage.

TUNING IN

with D. Mac Showers

TWO NEW programs and an old program with a new name enter the Tuesday night field this evening. "For Men Only" has changed its name to "George Jessel's Celebrity program"—reason, women.

Bob Crosby's orchestra replaces Benny Goodman and his band on the Camel, Caravan tonight and "Mr. District Attorney" replaces the Bob Hope show with the new show broadcasting first time tonight.

PERSONAL INTRODUCTIONS for every man in the band will be the feature of the Bob Crosby Caravan this evening at 7:30 over CBS when the young maestro makes his network debut.

Johnny Mercer has written a song entitled "Meet the Boys" for the occasion. One of Crosby's Dixieland swing band's original tunes will also be played on the program — "The Big Noise from Winnetka."

DWIGHT WEST will play the title role when the first program in the new "Mr. District Attorney" series is heard tonight at 8 over the NBC-Red network.

Dealing with the activities of a national arson ring and how the ring is smashed by the law, the initial broadcast will also star Frank Lovejoy, Arlene Frances, Adelaide Klein and the Dillon brothers, John, Andy and Paul. Ed Byron will produce the series.

HARRY SALTER and his band are the latest recruits to the show cast. The orchestra, long known as a leader in the field of musical addicts, will furnish background music and cue the show.

Skinny Ennis, who served the musical portions for Bob Hope's show, has been re-signed for the show when it returns next Oct. 3. Meanwhile, the orchestra will play one-night engagements on the west coast, for the present, at least.

ALEC TEMPLETON, star of the Fibber McGee summer replacement show starting next Tuesday, will be introduced on the final pre-vacation broadcast tonight at 7:30 over NBC-Red.

Don Novis will sing "My Wild Irish Rose" and the Four Notes will do "Goodbye, My Lover, Goodbye." The new program will be called "Alec Templeton" and will have Conrad Nagel as master of ceremonies, Edna O'Dell as singer and Billy Mills' orchestra.

SULFANILAMIDE. If a new drug is to be prescribed intelligently the physician should understand its mode of action. When sulfanilamide and its chemical relatives were first administered in the treatment of infections caused by streptococci (micro-organisms linked in chains), as well as pneumonia, meningitis, gonorrhea and some similar diseases, no one knew why miracles occurred. The discovery of the properties of the original chemical from which sulfanilamide is derived was purely empirical. Unless the pharmacologist determines why a drug is effective, physicians have no better off than was the primitive Peruvian who discovered, also empirically, that quinine reduced malarial fever, but never troubled to find the reason.

# STRICKLAND WHIPS PAYCHEK

DES MOINES, June 26 (AP) — Maurice Strickland of New Zealand stopped Johnny J. Paychek's winning streak here Monday before 17,500 wild boxing fans when he won a newspaper decision over the Des Moines heavy-

weight in 10 torrid rounds. It was Paychek's first setback in 24 fights. Two nine-count knockdowns gave the New Zealander the edge, according to a majority of the ringsiders. Strickland dropped Paychek

for a nine-count in the fifth and for another nine-count in the seventh. Strickland weighed 193 3-4, Paychek, 192. Benny Leonard, former lightweight champion of the world, awarded Paychek the

decision. The Des Moines boy rallied in the eighth, ninth and tenth rounds and had the foreigner on the verge of a knockout at the final bell. Despite the knockdowns, Strickland's margin was close, winning five rounds to

the Des Moines heavy-weight's four. One round was even. The attendance of 17,500 set an all-time attendance record for Iowa. Promoter Pinkie George announced. Gross receipts totaled \$20,

000, he said. Pat Comiskey, sensational Irish heavyweight from Paterson, N. J., hit Glen Dawson, a 195-pound Negro from Barberton, Ohio, with a left hook on the cheek in the first round and was credited with

a knockout in one minute, 10 seconds. In the preliminaries, Quentin Hill, 185, Des Moines, outpointed Happy Graham, 195, Ft. Des Moines, six rounds; Tony Yates, 144, Minneapolis, Minn., outpointed Don

Miligan, 138, Des Moines, four rounds, and Al Powell, 162, Des Moines, defeated Johnny Eggenberg, 160, Des Moines, four rounds. Alex Fidler, veteran Cedar Rapids referee, shared the evening's work with Benny Leonard.

## Tigers Beat Cleveland 11-2; Earl Averill Stars

### Clouts Three Hits Against Former Mates

CLEVELAND, June 26 (AP) — The rampaging Detroit Tigers smashed the Cleveland Indians today, 11 to 2, and rode into third place over the Tribe on Tommy Bridges' 10th triumph of the campaign.

The Tigers combed Cleveland's Mel Harder and two successors for 15 bunched hits — three of them for the bat of Earl Averill in his first appearance against his old teammates. Averill walked to the plate five times, and was put out only once. He produced a double, two singles and a walk. Leading 2-0, Detroit found the range in the seventh for four runs and bagged five more in the eighth before the Indians could avert a shutout by counting twice in their half.

CHICAGO, June 26 (AP) — Milt Aron, sharp-punching Chicago welterweight, joined the comeback hopes of Jackie (Kid) Berg tonight, Aron scoring a technical knockout over the veteran battler from England in their scheduled 10-round match at Marigold Gardens.  
Berg, who weighed 145 3-4 to Aron's 150 pounds, failed to come out for the sixth round. Berg complained he had injured his thumb, after finishing the second round but was ordered to continue.

### Aging Grove Blanks Nats With 7 Blows

WASHINGTON, June 26 (AP) — The veteran Lefty Grove won his seventh victory of the season by blanking Washington 3-0 today with a seven hit performance. Although touched by Washington batsmen for at least one hit in six of the nine innings, the Boston hurler kept the blows well scattered to escape unscathed.

Meanwhile his mates were slapping Joe Haynes for nine and Walter Masterson for one blow, four of which off Haynes they bunched effectively in the second and third innings to score their runs. The Sox tallied the first time when Joe Cronin walked, Ted Williams singled and Louis Berger doubled, and they got a pair in the next inning when Joe Vosmik singled, Jimmy Foxx walked and Williams tripled.

CHICAGO, June 26 (AP) — Frank Parker of Pasadena, Cal., making a great bid for a place on the Davis Cup squad, virtually made a one-man show of the national clay court tennis championships today.  
The 23-year-old California star won the singles title by defeating Gardner Mulloy of Miami, Fla. Then Parker teamed with Gene Mako of Los Angeles to win the doubles' crown with a four-set victory over Wayne Sabin of Portland, Ore., and Johnny Doeg of Newark, N. J., 6-3, 3-6, 6-3, 6-4.  
Parker, fresh from tournament victories in California, Kansas City and St. Louis, took singles' honors with a 6-3, 6-0, 5-7, 6-1 triumph over Mulloy. Displaying a strong forehand drive—something his game lacked a few years ago—Parker was in command almost all the way. Mulloy rallied to win six straight games and the third set before Parker steadied and won easily.  
The victory was Parker's second singles triumph in the event, his first being in 1933. He was once rated No. 2 nationally, but was eighth last year. Mulloy duplicated his 1938 clay court's performance. Last season he was runner-up to Singles Champion Bobby Riggs, now competing in England.

### ODDS 6 to 1 THAT JOE LOUIS WINS

By WHITNEY MARTIN  
NEW YORK, June 26 (AP) — There is a little scrambling for footholds on the Tony Galento bandwagon as his bout with Joe Louis nears, but despite the noise there is the vague idea that even those who are shouting loudest for "Two-Ton Tony" are trying to drown out their own misgivings. All they want is 20 to 1 that Tony wins by a knockout.

"And they aren't getting it," tersely commented Jack Doyle, Broadway betting commissioner. "The price on Galento to win is 6 to 1," he continued. "It is even money that he doesn't come up for the fourth round, 5 to 2 that he doesn't come up for the 10th, and 5 to 1 that he doesn't come up for the 15th." There was no price on whether he comes up to the Stadium.

"The price on him winning probably will drop to 3 1-2 or 4 to 1 Wednesday, the night of the fight," Doyle explained. "It always drops that way. Louis was an 8 or 10 to 1 favorite over Schmeling a few days before their first fight, but the price dropped to 3 1-2 and 4 to 1 on fight night. It's the old law of supply and demand. They take what they can get."  
The 6 to 1 win and 20 to 1 knockout prices would appear to contradict each other, inasmuch as it is the general opinion that if Galento wins at all it must be by a knockout. The critics just can't visualize Tony lumbering through 15 rounds to a decision over a man who is a better boxer, a better two-handed puncher and has a sharp advantage in reach.

Numerous factors have conspired to drop the price on Galento in the last few days. A major item is the fact that Galento has looked fine, for Galento, in training, while Louis has been his usual apathetic self, looking good only when aroused.  
Another reason is the gradual realization that no fight is a sure thing, and that even Little Sir Echo would at least have a chance. The 6 to 1 odds mean that Galento is conceded the same chance that a blindfolded man would have of picking a black match from among five white ones. He might even do it twice in a row.

This corner likes Louis to win in five rounds or less, but is conceding Galento the chance to connect and end the bout abruptly in his favor. If that happened and they fought again we'd still like Louis, figuring that if they met 10 times Louis would win nine times. Even the Yankees don't win every game.  
Galento has shown no sign of fear, and it is our guess that he'll come out fighting, and go out the same way. He may even go out on his feet, as there is a fair chance of Louis opening up the old scar tissue around Tony's eyes, with the referee stepping in and Tony stepping out.

### Hawkeyes In Seventh Place

DES MOINES, June 26 (AP) — Rus Vitquain, an Iowa State agricultural lad, selected the "choicetime" darkness here tonight to shoot a sizzling 33 and project his team and himself to the head of the national collegiate tournament parade.  
The unheralded player earned himself a par 72, a tie for the day's medal honors, by sinking birdies on Wakonda's last two holes in darkness so thick that some of the other rear guard contestants gave up without finishing the 18.

His 39-33 gave the Iowa State college team, not even considered a threat in the foursome competition, a first day's score of 301 strokes. Second was Northwestern, the Big Ten champion, with 305, while Stanford, the defending champion, and Yale were in a third place tie with 309.  
The team play title will be decided on the basis of the 36 holes of qualifying play which ends tomorrow night.

The gathering dusk caught six players with as many as three holes to play in the morning before starting on the second round. The inability of all 181 contestants to complete their rounds caused tournament officials to push tomorrow's starting time up an hour to 7 a.m.  
Before Vitquain, the son of an Iowa State college personnel director, shattered the golfing pence hereabouts, top medal honors for the day belonged to Lewis Oehms of Virginia and Vincent D'Antoni of Tulane, both of whom shot 72's.

### Deadline for Entries Set at July 11 By Coach W. T. Swenson

Players planning to enter the ninth annual Mississippi Valley championship tourney at the University of Iowa July 12-15 are urged to send in their entries now, according to Coach W. T. Swenson, referee in charge of the meet. Deadline for entries is July 11.  
Tourney events include men's singles and doubles and ladies' singles, and trophies will be awarded to the winners and runner-ups in each class. Only amateurs are eligible for competition.  
The board in control of university athletics is sponsoring the championship tournament as in former years.  
Last year Dick Hainline of Rock Island won the men's singles by defeating his brother Forrest in a bitter five-set final. Then the two finalists teamed up to lose the doubles championship to Ed Davis and Ken Black of Peoria, Ill.  
Ladies' singles honors went to Peggy Kerr of Hollywood, Cal., who defeated Carol Mundhenk of Dubuque.

### But Experts Disagree With The 'Yussel'

Few Figure Tony Will Come Up For Sixth Round of Go  
By SID FEDER  
NEW YORK, June 26 (AP) — With less than 48 hours to go, the experts dug back into fistic history tonight looking for the "reasonable doubt" in the lop-sided superiority Joe Louis appears to have over Tony Galento for their 15-round heavyweight title bout in Yankee stadium Wednesday night.  
Maybe So  
"If" went the general trend, "Max Schmeling and Jim Braddock, a couple of 10 to 1 long-shots, were able to whip Louis and Max Baer, respectively, then why not concede Galento his chance, because he can hit harder than either of those gentlemen."  
This may have been whistling in the dark by the chronic long-shot players, but not to Joe Jacobs, Tony's master-minding manager, who, incidentally, also piloted Schmeling to his kayo conquest of Louis.  
"Look," he shouted, taking a fighting pose. "Louis shuffles in at you like this. Then he shoots a straight left. Then he feints you to open you for his right hand shot."  
"Not me," said his listener. "I know better than to get in the ring with him."  
Sure, Sure  
"Yeah, I know. But here's the tip-off. As he feints, he moves forward, and in moving up, he drags his back foot. He always does it. Now, when he does, Tony is gonna pitch that left hand. That's the way Joe's gonna get licked. Mark my words, now. Tony's gonna do it — and inside of five rounds."

On only one point did the boys agree with "Yussel." The fight doesn't figure to go more than five rounds with all that artillery inside the ring, regardless of the winner. Otherwise, almost to a man the boxing writers and the folks who bet a bob or two on the ups and downs of the cauliflower industry figured Louis couldn't miss.

## Brewers Beat Chicago Cubs In 7-6 Game

### Cubs Lose Early Lead to Farmhands As Foth Hits Homer

MILWAUKEE, June 26 (AP)—The Milwaukee Brewers of the American association rallied to defeat their big brothers, the Chicago Cubs, 7 to 6.

After taking a 6 to 2 lead behind the curving of Gene Lillard, the Cubs sent Vance Page to the mound, Outfielder Hank Leiber to first base and Pitchers Clay Bryant and Larry French to the outfield.

Thereupon the Brewers, with whom the Cubs have a working agreement, pushed over five runs in a sixth inning spurge capped by Gordie Foth's homer with two aboard. Southpaw Ed Carnett, Cub optionee, went the route for the Brewers.

Score by innings:

Chicago	200	400	000	—6	13	1
Milwaukee	002	005	00x	—7	11	2

## Avery Brundage Predicts Great 1940 Olympic Games Program

NEW YORK, June 26 (AP)—Avery Brundage, president of the American Olympic committee, returned from a world tour today with the prediction that the 1940 Olympic games will be the best ever from a spectator standpoint, and that the Olympic program, virtually unchanged in 40 years is due for sharp revision.

"The sports plant at Helsinki, Finland, has been so arranged that all of the competitions—in the main stadium, swimming stadium, on the rowing course and in the minor sports arenas—will be held within half an hour of the center of town," said Brundage, who is one of the three United States members of the international Olympic committee.

"The whole layout is extremely compact, and should be completed this year. Everyone in Finland is working enthusiastically to make the games a success and, as I see it, the only problem is likely to be one of housing all the visitors.

"Finland reserved half of the tickets for its own people, and already that quota has been over-subscribed four times, while Norway, Sweden and a dozen other countries have exhausted their allotments and even the United States hasn't many left."

Brundage made a flying trip to Helsinki after attending the I. O. C. meeting at London. One of the more important actions taken by the latter body, he said, was to empower the executive committee, of which Brundage is a member, to make a thorough study of the games program.

London has been awarded the 1944 games.

Brundage reported that about 3,000 athletes were expected to compete in Finland from July 20 to August 4. This compares with 2,000 to 2,500 at Los Angeles in 1932, and 5,000 at Berlin in 1936.

## Riggs, McNeill, Cooke Sweep First Round

### Americans Win As They Please Before Wimbledon Crowd

By SCOTTY RESTON  
WIMBLEDON, Eng., June 26 (AP)—That old American terror spread over Wimbledon's trim green courts today as Bobby Riggs, Don McNeill and Elwood Cooke dominated the first round of the all-England tennis championships before the queen mother and a crowd of 12,000.

The Americans, losing only one of their six-man team, started this tournament in the doghouse but by 8 o'clock they were ready to move into the royal box. Only Bill Robertson of California fell by the wayside as Gene Smith of Berkeley, Cal., and Owen Anderson of Los Angeles joined the big three in the second round. Of the five only Cooke was carried to more than three sets.

Nice Goin'

For the first time since he arrived in this part of the world, Riggs deserted the baseline and showed that he can really play aggressive tennis if he so desires. The 21-year-old Chicagoan thumped a good Indian player, J. Dhamija 6-3, 6-0, 6-4, without removing his sweater. Most of the seven games he lost he dropped out of generosity.

If possible the fair-haired McNeill was even better. The difference between the Oklahoma City star and Riggs was that McNeill wasn't generous. He simply walloped portly K. Aschner of Hungary off the court and lost only two games in winning 6-1, 6-1, 6-0.

Cooke proved that even if there's no American genius in this tournament, there's still a lot of American courage. When the Portland, Ore., youth arrived on the center court for the first time in his life there was Queen Mary sitting in the royal box, leaning on her Victorian parasol and chatting to Home Secretary Hoare.

Another Rout

Across the net was Christian Boususs, familiar with the regal atmosphere of Wimbledon, and an inspired Boususs at that. The left-handed Frenchman simply whistled line drives past young Cooke and had five straight games before the Oregonian knew where the royal box was. But once Cooke forgot about the atmosphere and got away from the baseline he chased the wily Boususs all over the court, winning 1-6, 6-4, 6-0, 6-3.

Anderson, a cocky kid from the west coast, took care of M. E. Lucking of Great Britain, 7-5, 6-1, 7-5 and Smith, who like Cooke overcame a shaky start, beat Ed Andrews of New Zealand, 6-2, 6-3, 6-4. Robertson, who couldn't keep his feet on the sticky turf, lost to Otto Szeglet of Hungary, 12-10, 6-4, 6-4.

One reason for America's stock standing so high tonight was that the favorite, England's H. W. (Bunny) Austin, took two hours to beat Hungary's young star, Joseph Asboth, 6-1, 6-4, 12-10.

Nobody blamed Bunny for having trouble with Asboth for this graceful loose-limbed boy probably would give any of the favorites a tussle. The trouble with Austin was that he couldn't hold his own service. Seven times in

### Commissioner Asks Iowans To Become More Safety-Minded

DES MOINES, June 26 (AP)—Karl Fischer, Iowa public safety commissioner, tonight issued a new plea to Iowa motorists to drive carefully as Iowa highway facilities soared to 217 for the year, 34 more than for the same period last year.

Adherence to motor vehicle laws, particularly to stop signs and bans against passing on hills and curves, was especially pleaded for by Commissioner Fischer who described as "tragic" the high fatality rate for this year.

"It's particularly important that Iowans become more safety minded as the Fourth of July and the height of the vacation season approaches," Fischer said. "A little more care on the part of everyone will help tremendously in reducing our highway deaths."

## F. M. Ford, Noted Author, Dies in France

DEAUVILLE, June 26 (AP)—Ford Maddox Ford, an outstanding figure of British, French and American literature since the turn of the century, died today. He was 66.

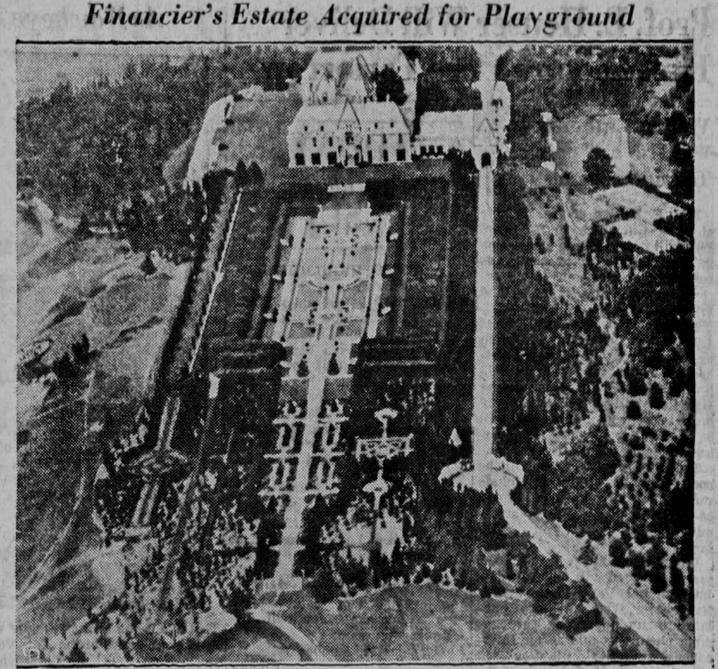

Novelist, dramatist, poet, and critic, Ford was one of the most prolific authors of his generation with more than 60 full length works and 1,000 newspaper and magazine articles to his credit.

The British-born writer arrived in France from the United States three weeks ago and went to his home at Honfleur, on the coast of northern France.

He had been in ill health for several years. Yesterday he was stricken with a severe heart attack and was rushed to a Deauville clinic where he died.

His widow said he probably would be buried at Deauville Wednesday.

Ford was born of English-German parents but during the World war he became such an enemy of Germany that he changed his name from Ford Maddox Hueffer because he did not like the Germanic sound.

## Drudgery Outruns Field, Wins Arlington Inaugural Handicap

### Winner Owned By Winston Guest, Star Of International Polo

CHICAGO, June 26 (AP)—Drudgery, owned by Winston Guest, New York international poloist, won the \$5,500 inaugural handicap opening the rich 30-day meeting at Arlington park today before a crowd of 20,000.

Ridden by Jockey J. Longden, Drudgery took the lead on the back stretch and ran the seven furlongs in 1:23 2-5, paying \$20 to win, \$9.80 to place and \$7.40 to show.

Easy Mon, entry of Warren Wright of Chicago, finished second, two lengths back of the victor, with Joe Schenck third and Flying Lil fourth in a field of 15.

The race had a gross value of \$5,540, with \$4,230 going to the winning owner.

Merritt of Yale and Tom Hook of Iowa State had 74S. Six players, including defending champion Johnny Burke, hit the 75 mark. Bert McDowell of Louisiana State, who lost to Burke on the 37th green in last year's final, turned in a 76 and Robert Babish of Detroit, the other 1938 semi-finalist and present western amateur champion, needed a 78.

Sixty-nine of the 181 players broke 80 today, tournament officials reported, and all this talk of qualifying with 162 scores has died down. Thirty-nine entries completed the first 18 with cards of 77 or better.

The best 64 at the end of the 36-hole qualifying round tomorrow will battle it out for the national collegiate individual title. Two 18-hole matches will be played Wednesday, two more Thursday, the 36-hole semi-finals Friday and the 36-hole finals Saturday.

At the annual National Collegiate golfers dinner tonight, the players elected Neil Cronquist of the University of Minnesota

## Hatch Would Limit Political Activity of Federal Employees

WASHINGTON, June 26 (AP)—Senator Hatch (D-NM) called on both democrats and republicans tonight to stand by party pledges and support his bill restricting political activity by federal employees.

Asserting the measure would go far toward ending abuses against which both major parties have spoken out in the past, Hatch said in an address broadcast on the Washington Evening Star radio forum (NBC):

"In the light of party platform promises, I truly hope the pending measure will receive the ardent support of both major parties, and that it may soon become the law of the land. If it should be defeated, I trust the responsible persons will be prepared to assume full responsibility for that defeat, for assuredly that responsibility will not be difficult to fix."

Hatch's bill passed the senate last April and now is pending before the house judiciary committee. Representative Martin (R-Mass), the house republican leader, charged recently that administration leaders did not want it to pass. He threatened to file a petition to bring it to the house floor.

Subsequently, Speaker Bankhead said he thought there would be a vote at this session, and President Roosevelt said at a press conference that everyone was agreed on the bill's objectives, but that it had been badly drawn and the house committee was redrafting it.

Hatch said he had no doubt as to "ultimate passage" of legislation forbidding solicitation of campaign funds from relief workers, or coercion of their votes. Some members of the house committee, he said, had indicated a willingness to add to this section of his bill a provision forbidding receipt of campaign funds from relief workers.

## Kent Admits Hall Slaying

EAST LANSING, Mich., June 26 (AP)—State Police Captain Ira A. Marmon announced tonight Daniel M. Kent, scar-faced former convict sought for investigation in connection with the slaying of George H. Hall, has been arrested in Grand Rapids and that he admitted the crime.

Captain Marmon said the man was en route to the state police headquarters here, in custody of two state troopers and two Grand Rapids police officers. He said he had no details concerning the arrest.

Hatch said he had no doubt as to "ultimate passage" of legislation forbidding solicitation of campaign funds from relief workers, or coercion of their votes. Some members of the house committee, he said, had indicated a willingness to add to this section of his bill a provision forbidding receipt of campaign funds from relief workers.

## Fire Sale Bargain

PAPEETE, Tahiti (AP)—A profit estimated by local traders at 1,000,000 francs was made by speculators who bought 500 tons of copra lying at the bottom of the ruins of a burned warehouse. Bid in at a small price at the insurance company's auction, the copra was found to be undamaged.

### Girl Truck Driver Says Job Beats Office Work

MIAMI, Fla. (AP)—Billie Todd is a pretty, dark-haired, brown-eyed girl—and a truck driver. Day in and day out she drives a laundry truck over a city route, and likes it.

"I wouldn't go back to working in an office for anything," she confides. Nearly two years ago she applied at a laundry for work after losing a seasonal job at a hotel. "All I need is a truck driver," the manager told her. "I'll do that," she told him, and she has ever since.

A famed radio engineer says that television will be a good means of "keeping the farm boys down on the farm." Not when they see how cute those city girls are.

### Iowa Aviators To Visit City Next Sunday

#### Invite Flyers To Aid In Official Opening Of Centennial Program

Aviators from all sections of Iowa and bordering states have been invited here to help with the official opening of the centennial celebration Sunday, C. A. Bowman, secretary of the chamber of commerce announced yesterday.

Invitations were mailed out yesterday to about 100 aviation enthusiasts. The guests will arrive here for a 7 o'clock breakfast which will be served at the airport for them and their passengers.

The pilots will tour the business section following the breakfast.

A prize will be awarded by centennial officials to the pilot who comes dressed in the most authentic pioneer aviation suit.

Lain Guthrie and Paul Shaw are the airport co-hosts for the affair. Roland Smith is chairman of the chamber of commerce special centennial committee in charge of the event.

Plans for the spectacle will be cancelled if flying conditions next Sunday are bad, chamber of commerce officials report.

### W. P. Buckner Tells Story Of Bond Lobbying

#### Promoter Described As 'No Thief' In Mail Fraud Trial

NEW YORK, June 26 (AP) — William P. Buckner Jr., pictured himself today as a cocktail lobbyist who in good faith had done his best to have the defaulted bonds of the Philippine Railway company redeemed either by the insular or United States government, and blandly acknowledged in that campaign he never had supposed that he "had to become a monk."

Buckner, a gay young promoter whose counsel described him as "perhaps a trifle bibulous, but no thief," is on trial with four others on charges of mail fraud and conspiracy.

**Two-Fold Accusation**

The government's accusation against him is two-fold: first, that as chairman of the Philippine Bondholders Protective committee he wasted in conviviality the money they put up in the hope of having their securities made good; and second that it was part of the accused conspirators' plan to buy up the bonds at a low market in anticipation of their redemption.

Buckner, a smiling and airy witness in a British-tailored suit, spent most of the day on the witness stand.

He said that he hadn't sought the job as chairman of the prospective committee and that when it had come to him he had spent a considerable amount of his own money to help pay for his expenses.

It was, as he told it, a job that required a great deal of winning and dining.

**Entertained Anybody**

"In Washington," he explained, "we entertained anybody in the government or anybody who was related to anybody in the government."

"Why?" asked Defense Attorney John Minton.

"Because," said Buckner, "I was vitally interested in getting some favorable legislation and there is nobody in Washington who will listen to you in his office. We took them to cocktail parties and fights. We took Senator Walsh (D-Mass) and his secretary, congressmen and their secretaries, newspapermen, any number of people."

The young promoter testified that by a system of telegraphic pressure — inducing certain Massachusetts holders of Philippine bonds to wire their wishes to Walsh — the senator had reluctantly introduced on Aug. 21, 1937, near the end of the session, a bill by which the U. S. government would have guaranteed payment of the defaulted bonds.

**Reports Missing Watch**

Louise Cross, 1205 Ginter avenue, yesterday reported to police the loss of her wrist watch which she missed about two weeks ago.

**Police Officers Ask Cooperation During Celebration Days**

Police officials warned Iowa Citizens yesterday to exercise good judgment and care during the remaining days of the centennial celebration and to cease shooting pistols downtown. Two women were injured during the street dance last Saturday night.

Mrs. Carl Douglas received severe powder burns about the left ankle from a blank cartridge in a "six-shooter" fired by a celebrant.

**Come Across Tibbett Catches Up With Old Boss**

The famous American baritone, Lawrence Tibbett, who will be heard at the University of Iowa field house July 19, at 8:15 p.m., can enjoy a good joke on himself as well as others.

When Tibbett was recently recording a sound picture at the Twentieth Century studios in Hollywood, the singing by him of big numbers resulted in thronged "opera parties," for people came sneaking by scores from all over the "lot" to hear him.

One day, along with this multitude came Mike Newman, the showman, who gave Tibbett his first public chance to sing at Grauman's old Million Dollar theater.

"Hello, Mike," called Tibbett genially, "you owe me some money."

"Some money?" echoed the astounded man, "how's that?"

"You've been telling everybody you meet that you paid me 15 dollars for every time I sang. It was only 10. Hand over the balance."

### Long--

(Continued from page 1)

overlooked provisions for a governor to resign.

Late today the university board of supervisors met with Leche to go over auditors' reports which informed persons said showed unauthorized issue of university bonds that might total up to \$750,000.

The mystery of Smith's disappearance, apparently with his wife and another couple, was heightened by the cryptic remark of one official here today that despite the ascribed "irregularities" the university "might not lose a cent."

**Handled Funds**

Smith handled the expenditure of more than \$13,500,000 in building up the university from enrollment of less than 2,000 to more than 8,000 since he was put in as president by Huey Long in 1930.

Police throughout the state watched highways and trains for Smith. The man who by his own statement made it his creed to "get along with the politicians" apparently began to slip in administration grace last week when he said university sale of material for private purposes was not its policy and would be stopped.

This statement was in disagreement with a previous explanation by Governor Leche defending use of university trucks in delivery of university-fabricated material to a building site near New Orleans, owned by a close friend of the governor.

**Many Conferences**

Anxious politicians streamed into the governor's mansion today for conferences with the chief executive, who several days ago said he would quit today because of ailing health and a desire to travel.

The governor was closeted almost throughout the day with Lt. Gov. Earl K. Long, Mayor Robert S. Maestri of New Orleans, Louisiana political boss, and state officials.

None knew whether these parleys dealt with the alleged university scandal or were conferences called to lessen the strain on the administration's political machine, weakened by uncertainty, failing leadership and unexplained maneuvers that left politicians gasping.

**Long Makes Statement**

Long himself was authority for the statement that Leche would definitely quit soon, despite today's developments.

"He told 25 people last night in my presence he would quit just as soon as possible," Long said, indicating this might be within a few hours.

Almost the entire legislature and scores of out-state politicians meanwhile milled in the lobby of the nearby Heidelberg hotel, themselves as much in the dark as the lieutenant-governor appeared to be by the swift changes. None seemed to know whether they would witness the swearing in of a new governor, or even more alarming political changes within the next few hours.

**Knew Nothing**

Long arrived here last night, freshly tailored and barbered to take the oath of office. He said he knew nothing of the impending change of schedule until then.

Skeptical still that he would at last become governor, Long said "if and when" he became the chief executive, the university affairs would be thoroughly examined.

Armed guards patrolled the university campus, guarding Smith's house and his office. Federal investigators pored over university books and examined witnesses pursuant to the WPA investigation ordered last week following published charges in connection with WPA work around the university.

The first lieutenants were selected by examinations held in March of members of the medical reserve corps. Donovan had been in the corps three years.

**Heidt Loses Order to Pay Cash After Divorce**

RENO, Nev., June 26 (AP) — Horace M. Heidt of swing band fame lost his wife and a sizeable amount of cash in a secret divorce action at Carson City 10 days ago.

The orchestra leader, it was learned today, was ordered to pay \$25,000 to Mrs. Florence W. Heidt by July 1, with other cash payments to be made later. The court also approved alimony of \$100-a-month for five years and instructed Heidt to pay their daughter, Patricia, now 11, \$10,000 when she reaches 21 or upon her marriage, if that should occur first.

Under terms of a separation agreement made last April and approved by District Judge Clark J. Guild at the divorce hearing Mrs. Heidt was given custody of the daughter, with right of visitation accorded the father.

A \$20,000 insurance annuity policy in favor of the child also was involved.

The Heidts married at Berkeley, Cal., Oct. 2, 1924. Mrs. Heidt charged cruelty, it was learned.

### Posse Marks Time in Search For Fugitive Wisconsin Slayer

#### Ray Olsen Remains At Large as Police Watch Swamp Land

HAYWARD, Wis., June 26 (AP)—A cordon of heavily-armed possemen kept a vigil in the rain today around a swampy area where Ray Olsen, fugitive slayer of two deputy sheriffs, apparently had taken refuge.

Sheriff George Seehuetter delayed plans to close in on the north woods killer as the steady downpour made footing so uncertain that the swamp was virtually impenetrable.

The rain halted further tracking by bloodhounds, which were returned to La Crosse by their owner, George Brooks, mild-mannered soda fountain attendant.

Finding of a newly killed and dressed deer in the woods not far from Olsen's cabin led the sheriff to believe Olsen shot the animal and ate the meat raw, since no fire was seen.

Olsen, an ex-con, has been the object of a manhunt by more than 200 woodsmen since he shot and killed deputies Carl Johnson and Fred Scott as they sought to arrest him June 17 on a theft charge.

### Sweetening Rites To Be Today At Riley Chapel

preparing for an even more strict blockade.

This report, also unconfirmable, said that stricter measures would be enforced next Friday if the British had not then complied with a demand presented by Mayor Wen last Saturday for "closer cooperation" of foreigners with the Chinese section of Tientsin, over which the Japanese military rules.

British military authorities have taken sharp exception to action of the Japanese soldiery late Monday afternoon in holding up a British military truck seeking to enter the concession with foodstuffs from Chinese areas for the British garrison in the concession.

**Hold Truck**

The Japanese held the British vehicle for one hour while officers of the two forces argued. The Japanese insisted the British were "not sufficiently identified," while the British recalled the Japanese military declaration when the blockade began that the personnel of the various foreign garrisons and their maintenance would not be interfered with.

Chinese members of the British and French concession municipal police whose families live in Japanese-controlled areas received another threat against their own lives and those of their families.

**Receive Warnings**

Last week these men received letters from seemingly established Japanese sources saying that unless they resigned their families would be endangered. The new threat came in anonymous letters advising the men that they might be put to death and their families "punished" unless they ended their connection with British authorities.

"You are assisting the evil British and French rulers in their oppression of the people and protection of communists, thereby making Tientsin a city of terrorism," the letters read. "Thus you are responsible for these conditions and from this day of warning it is better for you to sever relations with them."

"Otherwise you shall be dealt with by violent means, and even your whole family will be punished as well and all of you may be put to death. This shall be carried out absolutely. Take warning."

**Pioneer Resident Of Johnson County Dies Here Saturday Night**

Funeral service for Chauncey Loveless Sweeting, 68, 628 S. Lucas street, will be held at 2 o'clock this afternoon in the Riley funeral chapel with the Rev. John B. Dalton, pastor of the First Christian church, officiating. Burial will be in Oakland cemetery.

Mr. Sweeting died Saturday night at his home. He was a native of Iowa City and lived for many years in Tiffin.

Born in Iowa City Dec. 19, 1870, Mr. Sweeting lived in Tiffin but returned to Iowa City in 1925. He married Josephine Walker, Tiffin, who preceded him in death in October, 1930. In 1933 he married Mrs. Anna Maybelle Stallard.

He is survived by his widow; six children, N. J. Sweeting, Dave Sweeting and Carson Sweeting, all of Iowa City, Mrs. W. H. Stevens, Omaha, Neb., Arthur P. Sweeting, Riverside, and T. W. Sweeting, Center Point; two sisters, Mrs. Cora Williams, Des Moines, and Mrs. Blanche Williamson, Macum, Saskatchewan, Canada; 12 grandchildren and one step-son, R. L. Ellis, Missoula, Mont. One brother preceded him in death.

The body will be at the Riley chapel until the funeral.

**Fifty-Six Cattle Shown Saturday At West Liberty**

Fifty-six cattle were shown by 10 exhibitors Saturday at the Holstein parish show in West Liberty, with Glen Householder, Brattleboro, Vt., serving as judge. Alfred Paper, Stockton, presented the senior champion bull and the senior champion cow. The Frasseur farms of Tipton brought the junior champion bull and the junior champion heifer.

Others winning first places included Martin Warren, Iowa City, junior yearling; Aaron Kleuver, Walcott, heifer calf class; and the Iowana farms of Bettendorf, producer of cow.

Winners of the judging contest were Mrs. Edwin Schroeder, Stockton, women's division, and Albert Robertson, Long Grove, men's division. George Frasseur won in the boys' and girls' class.

**Heidt Loses Order to Pay Cash After Divorce**

RENO, Nev., June 26 (AP) — Horace M. Heidt of swing band fame lost his wife and a sizeable amount of cash in a secret divorce action at Carson City 10 days ago.

The orchestra leader, it was learned today, was ordered to pay \$25,000 to Mrs. Florence W. Heidt by July 1, with other cash payments to be made later. The court also approved alimony of \$100-a-month for five years and instructed Heidt to pay their daughter, Patricia, now 11, \$10,000 when she reaches 21 or upon her marriage, if that should occur first.

Under terms of a separation agreement made last April and approved by District Judge Clark J. Guild at the divorce hearing Mrs. Heidt was given custody of the daughter, with right of visitation accorded the father.

A \$20,000 insurance annuity policy in favor of the child also was involved.

The Heidts married at Berkeley, Cal., Oct. 2, 1924. Mrs. Heidt charged cruelty, it was learned.

Residents of tropical Hawaii may now climb up and play in the snow via a park service trail up lofty Mauna Kea volcano.

**Whisker Boys Hang 'Old Man Gloom'**

Just to be sure that "Old Man Gloom" will not be in Iowa City until July 4, members of the whisker club lynched him in effigy last night in front of the city hall.

A big crowd and "centennial vigilantes" were on hand to witness the event.

**Donovan Gets Appointment To U. S. Army Post**

Dr. William H. Donovan Jr., 23, son of Dr. and Mrs. W. H. Donovan, 1002 E. College street, was one of 35 reserve officers appointed yesterday by the war department to the post of first lieutenant in the regular army, effective July 1. The Associated Press reports.

Donovan graduated from the college of medicine here in 1936. He is a graduate of Iowa City high school.

The first lieutenants were selected by examinations held in March of members of the medical reserve corps. Donovan had been in the corps three years.
