Prof. Deutsch Discusses Two World Wars

"Propaganda Not As Powerful Today Due To Informed Public"

By J. B. Frey

"We must discuss the true story," said Professor of History Robert J. Deutsch, "and realize that only a truly informed public can combat the mass propaganda that is being fed out today by various sources." The Professor indicated that the average person is not aware of the various sources of propaganda.

He continued, "It is difficult to combat by moral means, but those who are truly informed can combat by their own actions. Propaganda is not as powerful as it once was because of the increasing amount of information available to the public."
