# BRITISH, ITALIAN FLEETS IN CLASH

## Battle of the Mediterranean Rages as Powers Fight For Control of Vital Sea Routes

### Powerful Naval Squadrons Thunder Against Each Other for First Time In Smoke-Screened Battle

BY THE ASSOCIATED PRESS  
 LONDON, July 10—(Wednesday)—British and Italian surface warfleets and war planes clashed today in the new battle of the Mediterranean, fighting fiercely for control of the vital sea routes from Gibraltar to the Suez.  
 Powerful naval squadrons thundered against each other for the first time last night in the blue waters in a smoke-screened battle of long-range shelling that lasted through the night.  
 Today news agencies of both sides reported damage to the other fleet's ships—and each said the enemy squadron fled, hotly pursued.  
 Three separate engagements were reported: east of Gibraltar, just below the "boot" of Italy, and near the island of Crete in the eastern Mediterranean, south of Greece.  
 Altogether, the British claimed a long-range shell hit on an Italian capital ship and listed four Italian airplanes shot down and seven others badly damaged.  
 Reuters, British news agency, dispatches from Rome listed the Italian claims by the Italian Stefani news agency as one British cruiser sunk, a battleship and an aircraft carrier damaged, and other British warships bombed from the air.  
 Perhaps the most significant engagement was the action between units of the two fleets in mid-Mediterranean, off Cape Spartivento, extreme southern point of the Italian "boot."  
 The British admiralty said a British squadron encountered two Italian battleships (Italy has six) and several 8-inch and 6-inch gun cruisers and destroyers.  
 With details of the fighting still sketchy, the admiralty reported that:  
 "Almost immediately after contact was gained, the enemy retired behind a smoke screen laid by their destroyers but before the enemy was obscured one hit at extreme range was obtained by one of our capital ships on an Italian battleship."  
 The announcement added that the Italians were being pursued and it was implied that the action continued.  
 Another Version  
 An Italian version of the same fight, reported by Reuters from the Stefani account in Rome, said the battle "raged" for 5 1-2 hours, then continued through the night with Italian ships chasing the British to the south.  
 The Italian source was quoted as saying the Italian ships were supported by wave after wave of planes which bombed the British with heavy explosives. The Italian ships were described as returning from a convoy to Libya.  
 To the west, the British admiralty reported, another British force swept eastward from Gibraltar toward the central Mediterranean. This force sighted no surface ships but was credited with bagging four Italian planes and damaging seven others.  
 The third engagement, Reuters said, was described by Stefani as taking place Monday off the island of Crete. Reuters quoted this Stefani account:  
 "Italians Attack  
 "On Monday an Italian airplane, carrying our reconnaissance work, reported that a British squadron was navigating in the Mediterranean near the island of Candia (Crete).  
 "The squadron was composed of one battleship, two cruisers and an aircraft carrier.  
 "Italian air formations, after a flight of 500 miles across the sea, reached the enemy and dropped heavy calibre bombs despite anti-aircraft fire and an attempt by the enemy to put out a smoke screen.  
 "A battleship and an aircraft carrier were damaged and a cruiser was sunk."

French, British to Clash Here?

This Central Press map shows the Caribbean sea area which may become the scene of belligerent action between French and British naval units as result of a reported blockade by the British of the French island possession of Martinique. The map shows the proximity of Martinique to the Panama Canal and the American mainland. The photo is of the Bearn, France's only aircraft carrier, reported to be in port at Martinique with 100 American-made planes aboard.

## Order Rumania to Forfeit Transylvania Border Area

### German-Italian Leaders Give Site to Hungary

### Munich Consultation Expects Bucharest Officials To Agree

By ROBERT B. PARKER, JR.  
 BUDAPEST, Hungary, July 9 (AP)—Germany and Italy were reported tonight to have decided to call on Rumania to give up a slice of Transylvania to Hungary.  
 A preliminary agreement was said to have been made with Hungary even before the beginning of scheduled consultations in Munich between Premier Pal Teley and Foreign Minister Istvan Csaky of Hungary; Foreign Minister Joachim von Ribbentrop of Germany and Foreign Minister Count Galeazzo Ciano of Italy.  
 There was no official confirmation.  
 Counts Teley and Csaky entrusted for Munich only today. Diplomatic quarters said a special Rumanian envoy who is flying from Bucharest to Munich tomorrow will be told that the Bucharest government must agree immediately to the cession.  
 Just how much of Transylvania was demanded was not known, but the area in question was understood to comprise the border regions where the Hungarian minority is centered. It was pointed out, too, that that area also is the site of Rumania's powerful "Carol line," considered the only obstacle to an invading army.  
 That part of Transylvania which is inhabited chiefly by those of German blood—there are 500,000 such according to the last census—is expected under the plan to be left to Rumania, but with almost complete autonomy within the Rumanian state.  
 It was understood that the Transylvanian German "fuhrer," Hans Otto Roth, was holding back from taking the oath as minister of minorities in the Rumanian cabinet pending assurances that such autonomy would be discussed at Munich tomorrow.  
 It was stressed that the reported German-Italian-Hungarian agreement was only preliminary, and was subject to change.  
 Nevertheless, diplomats saw this as the first step in an expected campaign by Germany and Italy to change the pattern of southeastern Europe quickly on the British Isles.  
 Counts Teley and Csaky, long avowed followers of the Rome-Berlin axis, left here specifically to discuss with Count Ciano and von Ribbentrop Hungary's demands upon hard-pressed Rumania.

### 'Great Pluck' Rewarded

LONDON, (AP)—King George VI awarded the medal of the Order of the British Empire last night to Mrs. Nora Cardwell, who with "great pluck and presence of mind" captured a German aviator who parachuted from his disabled plane.

## Japan Demonstrates Discontent; Posts Anti-American Handbills

### 'Insult' Will Be Discussed By Residents

SHANGHAI, July 9 (AP)—Handbills carrying the slogan "Down with America" were posted in Shanghai's streets today and a Japanese warship emphasized Tokyo's attitude toward England by seizing a British ship in Shanghai's harbor.  
 These manifestations of Japanese discontent with United States and British policies in the far east coincided with a Japanese protest against "mistreatment" of Japanese gendarmes arrested by U.S. marines July 7 and Tokyo's rejection of the British refusal to close the Burma supply route to China.  
 The anti-American handbills were posted by "indignant Japanese patriot," said the newspaper Tairiku Shimpo, which announced that a mass-meeting of Japanese residents tomorrow would discuss the marines' "insult" to Japanese authority.  
 The gendarmes were arrested after they appeared armed, in plain clothes, in the marine-guarded zone of the international settlement. The Japanese commander of gendarmes demanded an apology for asserted mistreatment of his men. Tairiku Shimpo suggested that the marines were "gentlemen with human faces, but with the skins of animals."  
 The British ship seized here was the 3,000-ton steamer Shengkang. Domei (the Japanese news agency) charged she was carrying munitions belonging to "a certain belligerent country" into Japanese-occupied territory.  
 British sources said that the Shengkang was carrying rifle ammunition from the French concession at Tientsin to the French concession here, and that Japanese had approved her manifest.

## Giant Airliners Span Nation In Record Time

NEW YORK, July 9 (AP)—Two giant new airliners raced time through the stratosphere today and spanned the nation—from east to west and west to east—in record schedule.  
 Inaugurating upper level coast-to-coast passenger flights for transcontinental and western air express, each set new records for transport planes on scheduled passenger trips, although faster flights have been made by transport ships not on regular service.  
 First to "beat the clock" was the west-east stratosliner, when the 4-motored, 23-ton, \$450,000 Boeing craft landed at La Guardia airport at 8:29 a. m. (CST), an hour and 11 minutes ahead of schedule, completing the flight from Burbank field, Los Angeles, in 12 hours and 14 minutes. Previous best time on a scheduled passenger flight, set March 16, 1935, by a TWA plane, was 12 hours, 44 minutes.

## Patrolmen Set Dagnet For Escaped Fugitives Near State Border

DES MOINES, July 9 (AP)—Three desperate convicts who have blazed a trail of robbery, murder and car theft in three midwestern states were believed to be racing east tonight on Missouri highway 46 after eluding officers who sought to trap them in a timber patch near Allendale, Mo.  
 The Missouri state highway patrol reported that an automobile believed bearing the three fugitives from the Iowa state penitentiary at Fort Madison was spotted several miles northeast of Allendale and was being pursued by a posse of farmers.  
 Earlier this evening officers believed two of the men had made a mad dash for freedom, leaving behind the third in the timber of the Charles Stave farm, eight miles east of Allendale, six miles south of the Iowa line.  
 But after officers thoroughly searched the timbered tract they reported all three apparently had fled.  
 A great dagnet was spread throughout northern Missouri and southern Iowa tonight as highway patrolmen, county, city and state officers continued their man-hunt for the three desperadoes.  
 The suspected fugitives were first spotted by Herman Murray, working on the Stave farm. He summoned Sheriff Kier from Grant City, Mo.

## Duke of Windsor Named Governor Of British Bahamas

LONDON, July 9 (AP)—The Duke of Windsor, royal wanderer on the road of romance, tonight was named governor and commander-in-chief of the Bahamas, British island playgrounds off the coast of Florida.  
 The ex-king and his American commoner wife, the former Wallis Warfield Simpson, fled from their exile home in France, to Spain, then Portugal, in advance of the Nazi tide last month.  
 They now are in Lisbon, and it was presumed they would go directly to Nassau, capital of the sunny Bahamas. It was not immediately disclosed just when the Duke would take up his new post.  
 The Duke was said to have received the appointment as a result of his personal request to the king that he be given a job to do for Britain.

## Petaun Given New Powers

VICHY, France, July 9 (AP)—Stricken France's parliament signed the death warrant of the democratic third republic today by giving Premier Marshal Henri Philippe Petaun unrestricted powers to write a new totalitarian constitution.  
 The vote of the chamber of deputies and senate, born of defeat and desperation, gave the Petaun government authority to frame its own laws and constitution, then create its own national assembly to ratify them.  
 The measure, voted with only four negative voices raised against it, declared the new constitution "must guarantee the rights of labor, family and country."  
 The chamber vote was 395 to 3, the senate, 225 to 1.  
 Only formal joint approval by both houses tomorrow remains before Marshal Petaun is expected to emerge as a figurehead ruler in a government dominated by a triumvirate composed of Gen. Maxime Weygand, former allied commander-in-chief, former premier and foreign minister Pierre Laval, and former labor minister Adrien Marquet.  
 (Geneva dispatches said France had little choice.  
 These dispatches said Vice-Premier Laval told parliament as much — that the only hope for an "honorable peace" lay in adopting a new constitution.)

## Axis Allies Choose Tasks Against British

By The Associated Press  
 ROME, July 9—The axis allies have chosen their respective tasks for the battle of England, it was stated authoritatively tonight.  
 Their broad purpose — determined, presumably, during Italian Foreign Minister Ciano's current trip to Berlin — was stated by the informed writer, Virginio Gayda, to be three-fold:  
 1. Blockade the British Isles.  
 2. Break Britain's empire contacts.  
 3. Defeat her "at home, on the sea and in imperial territories" to the extent necessary for ending the war.  
 Italy's part in this, according to Gayda, will be to strike at Britain in Egypt, the Anglo-Egyptian Sudan, Kenya colony and British Somaliland; to harass British shipping from the Atlantic to the Indian ocean and, above all, to immobilize a large part of the British fleet in the Mediterranean.

## Rumania Fears Oil Transfer

### Tornado Hits Western Iowa; Many Injured in Portsmouth

### Germans Say Scandinavia Lies in 'Orbit'

BERLIN, July 9 (AP)—Germany's manifest destiny calls for creation of a great Germanic realm including "the entire area from which Germanic peoples once emigrated," Reichsleiter Alfred Rosenberg told the foreign press tonight, stressing the Scandinavian position in the Nazi orbit.  
 Rosenberg, often chosen to enunciate and elucidate Adolf Hitler's policies, advised the Scandinavian countries to adjust their mentalities to the new era of protection under a great German reich.  
 Destiny, he pointed out, has thrown them together, economically and politically, into the German living space. Realistic acceptance of this fact is not a sign of weakness but plain recognition of vital law.

### Signs Decree To Avoid Sale Of British Stock

BUCHAREST, July 9 (AP)—A government decree prohibiting the sale outside this country of stock in any foreign-owned Rumanian company was signed tonight a few hours after reports had spread that the \$100,000,000 British oil interests in Rumania might be transferred to Soviet Russia.  
 Speculation that such a transfer was in prospect had arisen simultaneously with disclosures for weeks British-produced oil actually has been going to Germany.  
 British and other foreign interests had been "forced by circumstance," the general manager of one oil company said, to send all their oil to the Nazis, save for small quantities to Yugoslavia, Hungary and Bulgaria.  
 The war in the Mediterranean, he explained, had prevented British exportation, and at the same time under Rumanian law the British were compelled to pay royalties on oil to the Rumanian government, which has been exporting it in turn to Germany.  
 During the day, armed soldiers appeared at offices of all foreign oil companies, including American concerns, to prevent the removal of records concerning oil supplies which are so vital to Germany's army.  
 While this maneuvering over the greatest war resources of Rumania went on, the new totalitarian government moved rapidly to set up a model Nazi state, and refused baldly to give up another inch of Rumanian territory.

### Extensive Damage In Shelby County Caused by Storm

A tornado, floods and hail left a trail of damage over western Iowa today in the wake of the severest storms of the summer Monday night and early Tuesday.  
 There was no loss of life but more than a score were injured, several severely, when tornadic winds twisted through the hillside village of Portsmouth in northwestern Shelby county.  
 Tearing through the rural areas the storm cut a wide swath, leveling corn and killing livestock.  
 First surveys fixed the property damage in the village at close to \$80,000; there was no estimate of the loss to farmers in the storm-swept area.  
 The tornado hit about 11:30 and was preceded by a downpour of rain. Many had taken to storm cellars but others had no time to escape.  
 Scarcely a frame structure in the village of 328 persons escaped some damage. Trees were uprooted by the vicious southeast winds. The steeple of St. Mary's church was blown off but the building proper was little damaged.  
 Hail the size of hen eggs later pelted the area and was piled up by the water in deep drifts.  
 Fleet Stays in Pacific  
 WASHINGTON, (AP)—President Roosevelt said yesterday that there was no present plan to move the United States fleet from Hawaii to the Atlantic.

## Secretary of War Senate Confirms H. L. Stimson Appointment, 56-28

WASHINGTON, July 9 (AP)—President Roosevelt's nomination of Henry L. Stimson, republican, to be secretary of war was confirmed by the senate today, 56 to 28, after majority leader Barkley, of Kentucky, had urged such approval in the "interests of American unity."  
 Senators who had bitterly criticized the appointment as a "step toward war" conceded that similar confirmation would be voted tomorrow for Frank Knox, republican selected for the key national defense post of secretary of navy.  
 Party lines split wide open on the Stimson vote with 45 democrats, 10 republicans and 1 independent approving and 14 democrats, 12 republicans, 1 progressive and 7 farmer laborites opposing.  
 Senator Barkley, confident he had the necessary votes, used only a few minutes to reply to two days of caustic criticism of the nominations. He said the chief objections to Stimson were that he had advocated repeal of the neutrality act, use of his country's naval bases for the British fleet, and naval convoy of munitions for England.  
 "I would, myself, disagree with that view," Barkley said and then added that neither Stimson nor Knox could do these things as cabinet members unless they were authorized by congress.  
 Recalling that Stimson served as secretary of war under President Taft and secretary of state under President Hoover, Barkley said no one had questioned Stimson's "ability, his patriotism, or his integrity."

# Dr. O. R. Latham, I.S.T.C. President, Dies

Dr. Orval R. Latham, for almost 12 years president of Iowa State Teachers college at Cedar Falls, died at University hospital here yesterday. He was 50 years old.  
 The primary cause of his death was terminal pneumonia; the secondary cause a ruptured appendix and rheocele abscess.  
 The death of Dr. Latham ended at its peak a career devoted to education, primarily in his native state. Born at Boone in 1890, educated at Boone and at the University of Iowa, he spent his entire life as a teacher and administrator of public schools and colleges.  
 Under his direction, Iowa State Teachers college grew to a new peak in importance. His greatest contributions to higher education were made in the past decade.  
 His physical plant expanded during his tenure to a \$4,000,000 level, Iowa State Teachers college grew internally under his guidance. He added the administrative department, the research bureau, the bureau of religious activities, the bureau of alumni affairs and the bureau of publications to the school.  
 He created the office of dean of the faculty, organized and unified the college's departments.  
 Born April 13, 1890, he graduated from high school in 1907. The University of Iowa awarded him the B.A. degree in 1911, the M. A. in 1919, the Ph.D. in 1928.  
 He began teaching at Coggon, taught for five years at Pomeroy, was superintendent for four years at Ida Grove, and at Le Mars for one year.  
 For two years he was assistant superintendent of schools and director of research in the public schools of Duluth, Minn. He headed the department of education at Ohio university from 1924 until 1927. In 1928 he took office as president of Iowa State Teachers college.  
 He was a member of the American Association of School Administrators, American Educational Research association, National Society of College Teachers of Education, National Society for Study of Education, Kappa Delta Pi and Phi Delta Kappa.  
 In 1932 he was appointed a member of a committee of seven distinguished educators who surveyed California's institutions of higher education. In 1936 he was a member of the teachers education division of a regents inquiry into the character and cost of education in New York.  
 "In every position he occupied from the superintendency of schools of a small town to the presidency of the outstanding Teachers College of America, he gave everything he possessed and succeeded in everything he undertook," commented W. R. Boyd, Cedar Rapids, of the Iowa State Board of Education.  
 A memorial service will be held in the chapel of the Iowa State Teachers college at 4 p. m. tomorrow. Interment will be at Cedar Falls.

### Epitaphs of Nations

The death throes of nations, the rapidly shifting balance of power, the kaleidoscope that is Europe, have accustomed a dazed world to tragic endings. Epitaphs of mighty nations, lost causes and dying hopes are being written daily. A bewildered world reads, blinks, and looks ahead, straining to see the shape of things to come.

For some time, now, the shop windows of America have been writing epitaphs dramatic in their terseness, pathetic in their implications. "Made in—" displayed above beautifully worked linens, brightly colored pottery—is becoming a familiar sign in shop windows up and down the land. Buy these now. There may never be any more. And yet, there is something more than opportunism behind these displays and their pitiful signs. A crushed people will not soon create more beauty for a world. Literature, song and art lie buried beneath these signs, at least for a time.

"Made in Austria," "Made in Poland," "Made in Czechoslovakia," "Made in Finland"—rapidly one sign replaces another. The passerby pauses; perhaps he buys. Surely he wonders what name will appear next week.

A nation dies, headlines appear, history is written. The beauty the nation has created remains to remind us. Sorrowfully we buy. Anxiously we look ahead. The shape of things to come—"Made in—?"

### Whence Funds for Defense?

Did you go to a movie this week, buy a package of cigarettes or drive to the country in your automobile? If you did, you have already contributed a small bit toward supplying the Treasury with the money it needs for the national defense.

Gasoline tax has risen from 1 cent to 1 1/2 cents a gallon, cigarette tax from 6 to 6 1/2 cents per pack and movie duty of 5 cents has been added on all tickets selling for 21 cents and over. These prices were effective July 1.

Taxes on new cars have increased from 3 to 3 1/2 per cent but this is only half the story. The dissent heard now will probably be very slight compared with protesting voices raised next March when income tax blanks are sent out.

For here is where the bulk of the revenue will come. Exemptions have been lowered and now a single person making an income of \$800 will be forced to pay taxes. The married man's salary exemption has been changed from \$2,500 to \$2,000. The \$400 dependent credit remains unchanged. Approximately 2 million people will file returns who have never done so before.

Surtax income assessment on \$6,000 has been raised from 4 to 6 per cent and other surtax incomes have been increased accordingly. A special defense levy will be assessed upon all income tax payers amounting to 10 per cent of the tax liability as computed by the new rates.

In comparison the United States tax rate is 79 per cent while England's peak rate is 85 per cent.

This is a composite picture of what happens to a nation which suddenly discovers that the state of the world requires that it be ready to protect its borders, its ideals and ways of life.

Taxes are inevitable; we cuss 'em and pay 'em, and they go up and up. But take a look at England, France or Germany!

### Time's Latest Achievement

Time magazine has made, and improved, a name for itself in its service in its field. No less important has been "The March of Time," that organization's pictorial "publication" which appears each month.

Now Time announces the release of its first full-length feature picture—"The Ramparts We Watch"—a motion picture which "reveals how irrevocably the present crisis is linked with the war of a generation ago, shows how and why America fought the first World war, and reviews the folly and miscalculations of the post-war generation which, through lack of courage and foresight, failed to keep the peace."

Fully cognizant of the service of Time to the nation, we join the rest of the nation in awaiting the timely arrival of "The Ramparts We Watch." We shunt a lot about subversiveness and propaganda, but no one will deny that contributions such as those of Time fill an American need—to see and consider the problems that face the nation. Time makes the task easier.

### Mad Clubs Go Political

Inasmuch as we started, a few weeks ago, to give you a more or less coherent picture of what the Amalgamation of Mad Clubs is doing to enhance the state of the nation, we can't very well avoid passing on the latest dope that comes to us via the New York office.

You'll remember, in order to keep the story straight, that the Amalgamation is meeting at the World's fair Thursday to organize a sixth column to combat the fifth column, "and the possible eventual elimination of the opportunity to form a club at the drop of a pin."

The A.M.A.C.A. now turns to political issues.

Here is the latest report: "Feeling that the democrats got a raw deal in view of the fact that republicans can start out their election campaign with 700 odd Willkie-for-President clubs already functioning, the committee on arrangements for the A.M.A.C.A. today offered their unqualified assistance in meeting this unfair competition."

"It should be understood," said K. Blyth Emmons of the Anna society, who is also chairman of the committee on arrangements, "that we are doing this out of a spirit of fair play and not because of any democratic sympathies. It seems awkward for the republicans to catch the democrats amidships and without clubs, when everybody knows, and as the Amalgamation of Mad Clubs has always maintained, that clubs are everything."

"The extent of this sacrifice is indicated, according to Mr. Emmons, by the fact that Fred Smith, whose International Order of Fred Smiths, with 5,000 members named Fred Smith and which society is one of the mainsprings of the Amalgamation, also happens to be one of the chief impressarios of the 700 Willkie-for-President clubs.

"It is expected that the Amalgamation of Clubs will pass a resolution at the convention turning over their souls and charters to Mr. Farley. Then it only remains for Mr. Farley to instruct in the democratic doctrine delegates from such groups as the Spunked Wives club of Iowa, the Liars club, the Blubber society, the Society in Search of a Semblance of Sanity, the Mousetrap club and about 25 others not including the Murderers club of Sing Sing. However, it is understood that the Murderers club will lend its support to the democratic ticket if pressed."

We can hardly wait for the next chapter in this thrilling episode.

### Cod Liver Oil and the War

America faces a decrease of 70 per cent in imports of cod liver oil, thanks to the German invasion of Norway.

So medical authorities at Battle Creek sanitarium have announced that they will meet the situation by turning to dairy products, replete with vital vitamin A, together with synthetic vitamins.

American biochemists are making marked progress and are solving new and difficult problems in the field of vitamin research, reports indicate.

It would seem we can't name a field not affected by some phase of Europe's war.

## A Man About MANHATTAN

### Comedians Have Greatest Following Down Cuba Way

By GEORGE TUCKER  
NEW YORK—We asked Patsy Kelly, the movie comedienne, the other day about her fan mail. She usually plays tough-gal roles, and while she isn't homely, she isn't exactly beautiful, and we wondered what sort of mail responses those circumstances elicited.

At lot of letters are "gimmies," she says—"you must make a lot of money, loan me a thousand," etc. But there are still quite a few proposals of marriage.

A surprising proportion of the letters come from Australia and New Zealand, where she has never been, but which she regards with breathless awe because she is an ex-vaudevillian and Australia and New Zealand are the vaudeville valhalla, with a circuit of 40 or more weeks of work a year.

She also has a great following in Cuba. "When I went to Havana last winter," she says, "they treated me like I was a transatlantic flier or something. They don't consider a reception is a party unless they barbecue at least 150 pigs. And then when you get home, you find a note thanking you for coming. Imagine that."

In Cuban popularity she concedes the palm, however, to her fellow comedians, Laurel and Hardy.

"Why," she says with amazement, "there were three theaters in one block in Havana all playing Laurel and Hardy pictures the same day."

She even went herself, and now considers that Laurel and Hardy, speaking dubbed-in Spanish dialogue are the funniest thing on earth.

Our mail this morning contained a post card from Violet Heming, the blond Broadway star who is in Toronto playing the lead in "Susan and God." Violet is now the owner of one of the famous thousand islands in the St. Lawrence river. It was presented to her by a fan who was too poor to send flowers. "It's a tiny crumb of land hardly big enough for a cabin," she says, "but it's cute."

The island is not necessarily a great real estate windfall, as it is listed in value at \$15. To retain ownership she must pay 72 cents in taxes a year to the Canadian government. To get around this yearly nuisance Violet offered the government the bulk sum of \$10 if they would declare it tax-free. "The Canadian Government doesn't do business that way," she was informed.

### Hollywood's Sweetness and Light

BY ROBBIN COONS  
HOLLYWOOD—Ideals—in the movies—are born in peculiar ways.

I give you Towne and Baker, the producing pair who even now are preparing a third in their series of good, stock, standard, sweet, wholesome (and the rest of the adjectival catalogue, if you wish) yarns for filming.

Messrs. Towne and Baker, having made movies of "Swiss Family Robinson" and "Tom Brown's School Days," are going to give Louisa M. Alcott's "Little Men" a new whirl at the cameras. This is funny only because, of all the writing gentry in town, these two in their pre-producing days were most likely to get pointed notes from Joe Breen, the self-censor man, to the effect that "you CAN'T do that!"

Baker (who gets a chance to talk at length only when the louder-lunged Towne is out of town) freely expresses their delight in what must be Mr. Breen's suspicious astonishment that so far, in Towne-Baker's new scripts, there has been nothing in the least shady.

Messrs. Towne and Baker, by virtue of their screen subjects, are championing the cause of screen purity—and this is how it all came about:

"As writers," Baker relates, "we never got to see our stories on the screen as we'd written them. We decided to produce our own. We hit on the name—'The Play's the Thing Productions.' This was an expedient alibi for not being able to afford Gables and Lombards as stars. We would forget the stars, and stress the play. There we hit another snag. The new plays on Broadway cost too much, and we couldn't modestly turn to plays by Towne and Baker. We still hadn't decided what to do, and Gene was in New York to tell the RKO convention about the pictures we would make. He went around to the public library for ideas. They told him the most widely read book of all time was the Bible, but DeMille had borrowed that already. Then they gave him other long-time best-sellers—the books we've filmed and are filming. So Gene took a look inside 'Swiss Family' and saw a picture of the boat, and he said that's a movie and it's good enough for me. Besides, the movie rights were free. So he went to the convention and announced the pictures, and then he read the books and he turned white."

That's why the boys have had to re-vamp the "classics" which had stories of a sort that make a movie. They are doing many things to "Little Men"—Miss Alcott herself in the book admitted she had no plot—and not the least of these alterations is to good old Buttercup, the cow, who will play in support of Kay Francis, Jimmy Lydon, Jack

Oakie and the rest. Buttercup offered opportunity for a stroke of genius in the exploitation line. For at the New York World's Fair was there not Elsie, the beautiful Jersey who symbolizes a nationally advertised brand of milk?

Elsie, whose pretty face is reminiscent of some current feminine star I can't quite place, is making her film debut for art's sake only—"If, that is," as wily Graham Baker hastens to add, "we can't work out a deal for the milk company to pay US!"

### Dictators Disrupt Hull Trade Plan

WASHINGTON—Mr. Hull has announced that changes in his trade agreements section have been designed to "strengthen it and make it more efficient," but it is evident he is only strengthening and making more efficient a dead horse.

This is only the latest official attempt to make it appear that the reciprocal trade arrangements upon which Mr. Hull has worked ardently and successfully many years are still a living, breathing policy. These statements lately, however, have had an increasingly hollow ring, especially as all the European nations with whom we have such trade pacts are either conquered or immersed in war and the remainder of our pacts with Latin America are being paralleled with this administration's substitute cartel plans to compete with the barter programs of the dictators.

When asked why the department continued to hold out public hope for the Hull reciprocity arrangement, a government official (not in the state department) replied with an unofficial grin:

"When a gentleman has been out playing poker and has lost all his money, he does not come home and announce his loss to his wife, does he?"

That seems to sum up the situation.

The facts which are apparent to government economists are simply these:

Reciprocal trade agreements are impossible either in a warring or a nazi-fascist world. They can work only when trade is unfettered. This is necessarily true because each tariff concession granted in each treaty is general, not exclusive. For instance, if we granted a tariff reduction to Argentina on wheat, every other nation having trade treaty relations with us would be entitled to the same tariff concession.

The Hitler barter plans are exclusive. If he grants Argentina a price-exchange concession on wheat (which in the last analysis is the same as a tariff or price concession) only Argentina enjoys that preference.

It would be ridiculous, therefore, for this government to continue a policy of generalized tariff reductions by individual agree-

ments against dictatorial competitors practicing exclusive agreements. We would simply be giving the whole world, including possibly the dictators if they signed up, the benefit of our tariff concessions while they kept their concessions exclusive. Few nations would want to make an agreement with us on that basis when they could get a restricted price-protective agreement from the dictators.

For this reason and many related ones, (chiefly the fact that price is no object to Hitler) the Hull policy must be put on the shelf not only for the duration of the war but as long as dictators control any substantial percentage of world trade after the war. In other words, only a British victory can revive the Hull method.

The situation has already been recognized in fact, although not in announcements, by this government. Various proposals for buying Latin goods with block-dollars or buying surplus coffee for distribution in this country under relief stamp plans or otherwise, acknowledge the necessity for different methods.

Even the workings of our reciprocal agreement with our best neighbor, Canada, has been quietly interrupted by action in friendly Ottawa. Announcement has been made there of a 10 per cent excise tax on the imports of all non-empire products.

Canada conformed to her agreement with us by notifying this government of her intended action. It was recognized here as a step to conserve dollar exchange by discouraging Canadians from purchasing luxury products from us particularly. But it throws the old trade agreement out of kilter, and keeps it from functioning.

As Mr. Hull pointed out, the change of name effected a few days ago in the trade agreements section does not of itself mean official recognition yet by the department that the policy is obsolete. The name was changed from "The Trade Agreements Division" to "The Division of Commercial Treaties and Agreements." This was originally suggested last December 4 by Assistant Secretary Messersmith, who recommended it to a congressional committee.

At that time the chances of congress continuing Mr. Hull's reciprocal trade authority were not good.

In any event the new name will more accurately describe the new foreign-trade policy to which this administration has been forced in fact, although not yet in announcements.

Small Near East nation has decided not to change their cabinet. Probably came to the conclusion it couldn't make the front page these days, anyway.

# Carl Sandburg to Present Fifth Summer Lecture Friday

## Noted Poet To Lead Forum, Roundtable

### Lincoln Biographer, Pulitzer Prize Winner, Speaks on Campus

Carl Sandburg, 1940 Pulitzer prize winner and popular contemporary poet-biographer, will present the fifth of the summer lecture series at 8 p.m. Friday night on the south Iowa Union campus.

Often called the American folk song recitalist, Carl Sandburg gained wide recognition through his "Chicago Poems" of 1915, translating the phases of modern city life into verse.

Most recent of his works is "Abraham Lincoln: The War Years" which appeared in four volumes in 1939 and won the 1940 Pulitzer prize for him. It is the conclusion of the fullest of all the Lincoln biographies, beginning where his "Abraham Lincoln—The Prairie Years" ended.

**Varied Career**  
His "Rootabaga Stories" were widely read in the early 1920's. More recently, "Potato Face," "Early Moon" and "The People, Yes" have delighted poetry lovers throughout the country.

Now 62 years old, Sandburg's varied career includes service as a poet, secretary, associate editor, newspaper correspondent, editorial writer, lecturer, soldier, author and recitalist.

**Awarded Prize**  
Sandburg was awarded the Levenson prize by the Poetry Magazine in 1914, and shared prizes from the Poetry Society of America in 1919 and 1921. In 1928 he became a Phi Beta Kappa poet at Harvard university.

Prof. M. Willard Lampe, director of the school of religion and summer lecture chairman, will introduce the speaker Friday night. If the weather is unfavorable, the lecture will be held in Macbride auditorium.

A Saturday morning round-table discussion will be conducted by Sandburg at 9 a.m. in the house chamber of Old Capitol.

Installation of officers will be held at the regular meeting of Iowa City Rebekah lodge No. 416 tomorrow. The group will meet at 8 p.m. in the I. O. O. F. hall.

## R. E. Raleigh Stresses Importance Of Good Accident Reports by Police

"One of the essentials in achieving better driving conditions is to stress the importance of good accident reports," asserted R. E. Raleigh, director of field service, International Association of Chiefs of Police, at the fourth annual peace officers' short course here yesterday.

Pointing out the necessity of city ordinances setting up compulsory reporting of accidents, Raleigh stated that peace officers must know where, when and how the accident occurred.

In discussing helpful methods of eliminating traffic hazards, Raleigh suggested the use of trained accident squads to investigate reports and to discover the scope of the problem.

## Professor Will Head Planning Board

### C. Thompson Given Leave Of One Year

Prof. C. Woody Thompson of the college of commerce has accepted a position as head of the Omaha, Neb., office of the national resources planning board, it was announced yesterday.

Professor Thompson will be in charge of the activities of resource planning in the eight states comprising the great plains region.

The local professor has been granted a year's leave of absence to accept the new position, effective July 1, officials said yesterday.

A specialist in the field of public utilities economics, Professor Thompson has taught courses in economic history and geography.

The local economist received his B.A., M.A. and Ph.D. degrees from the University of Illinois, where his father is present head of the college of commerce. He has been a member of the department here since 1925.

Secretary-treasurer of the Midwest Economics association, Professor Thompson is the national scholarship advisor for Delta Chi and national treasurer of editor, honorary economics fraternity.

Active in Iowa City's civic activities, Professor Thompson is a member of the Rotary club and Wesley Foundation.

He formerly presented two radio programs on WSUI on subjects of economics and served on the committee for student aid. He has contributed to many periodicals on economic subjects.

The Scholarly Mr. Haney -- Prophet Manager Fred Makes Four Prognostications -- All Come True

By FELIX R. McKNIGHT DALLAS, Tex., July 9 (AP)—Four months ago a troubled man in a baseball uniform squinted from a dugout and did a bit of prognosticating about a subject close to his heart—the St. Louis Browns.

heart but a better second baseman, would create a riot. The Browns would need some pitchers. Mr. Haney, the world knows now, was eminently correct.

Jacobs, Ed Updegraff Tie For Medal In Amateur Play in Tennis Meet Advances With 18 Duels

BY IKE SKELLEY CEDAR RAPIDS, July 9 (AP)—Johnny Jacobs, the husky Cedar Rapids lad who won the 1939 title, and Edgar Updegraff, Boone blond, tied for medal honors at the 40th annual Iowa amateur golf tournament here today.

The youngsters posted 142 totals each for the 36-hole qualifying round, giving them a three-stroke lead over Sid Richardson of Creston, who fell back to a 76 after a pace-setting first round 69.

Three eligible players did not start the second round, and six others started but turned in withdrawal cards. Jacobs, who opened with a par 71 yesterday, did the same thing today. Only a faulty putter on the outside kept Johnny from passing his rival for undisputed first place.

former champion, and Arne Huhta of Davenport, semifinalist in 1938, were unable to pass the qualification test. McKee failed to drop a nine-foot putt on the home hole which would have given him a 154 and Huhta was three strokes away from the select 32.

The first round pairings brought several interesting possibilities. Jacobs and Vavra, if they beat Ed Stone of Waterloo and Elmer Hightower of Cedar Rapids, respectively, will re-enact their 1939 title engagement in the second round tomorrow afternoon.

Richardson and Fannon, former Northwestern university teammates, may clash in the second round. First, however, they must eliminate Dale Smith of Cedar Rapids and Ivan Altman of Newton.

St. Mary's turned the tables on Racine's yesterday morning by ekking out a 15 to 14, 12-inning victory. Racine's seemed to regard the game as practice for their game with undefeated Maid-Rite this Thursday and as a result, got behind 13 to 1 at one time.

All-Stars Leo Durocher Proves Lucky Member

BY OSCAR KAHAN ST. LOUIS, July 9 (AP)—The National league ought to make Leo Durocher a permanent member of its all-star squad.

Today's stars: West, with his three-run homer; Bill Herman, who had a perfect day at bat with three singles; Harry the horse Danning, who drove in the National league's fourth run with a single; and the N. L.'s pitchers—Paul Derringer, Bucky Walters, Whitlow Wyatt, Larry French and Carl Hubbell, who held the hard hitting American leaguers to three safeties—a double and two singles.

Up until today, Rick Ferrell had the only sacrifice in all-star history. There were two sacrifices today, both against Bobby Feller. Larry French pulled a beautiful bunt down the first base line and Buck McCormick laid one down the third base line.

Iowa Supply Increases Lead

Jr. Odd Fellows Go Down 6 to 3 After Holding Early Lead

THE BOX table showing statistics for the Jr. Odd Fellows vs. Iowa Supply tennis match.

Iowa Supply increased their lead in the city league Monday evening by whipping the Jr. Odd Fellows 6 to 3. It was a typical Supply game, the league leaders taking advantage of opponents' errors and hitting in the pinches to come from behind to win.

McKECHNIE HAPPY

'Those Guys Got A Look Today'

ST. LOUIS, July 9 (AP)—William "Deacon" McKechnie, 53-year-old leader of the National league all-stars, was supremely happy at the 4 to 0 triumph of his players over the stars of the American league.

McKechnie was surrounded by his lieutenants, the veteran Casey Stengel, manager of the Boston Bees and Doc Prothro, manager of the Philadelphia Phillies. They whooped it up with boyish enthusiasm, while photographers swarmed around them for newspaper "shots."

SPORTSMAN'S PARK, St. Louis, July 9 (AP)—The National league humiliated the aces of the American league with the first shutout in the eight-year history of the all-star game today, 4 to 0, on magnificent 3-hit pitching and a first inning home run by Max West of the Boston Bees.

A sweltering crowd of 32,373, slightly less than the capacity of the park, thrilled at the throwing of five National league hurlers as they stifled the ballyhooed batting of the Americans. The only blows given up by Paul Derringer, Bucky Walters and company were two hits to little Luke Appling of the Chicago White Sox and one to pitcher Buck Newsom of the Detroit Tigers.

Hank Gober of Davenport and Bill Cordingley of Des Moines were deadlocked in fourth place with 146's. They had similar rounds of 75 and 71, Cordingley getting a 33 for his outside nine today.

Milt Beal, the Clinton redhead, slumped from a 70 to 77 to finish in a sixth place tie at 147 with the veteran Johnny Kraft of Oelwein who put together a 74 and a 73.

The Cedar Rapids Country club won the team championship with 598 strokes.

John Vavra of Cedar Rapids was reelected president of the association. Merle Stinson of Waterloo, vice-president, and Herman L. Sanio of Des Moines, secretary and treasurer, also were reelected.

Five Yankees started for the American league—Red Ruffing, Bill Dickey, Gordon, DiMaggio and Keller, but before the game was over, five Cleveland Indians were in the game at the same time—Feller, Rollie Hemsley, Ken Keltner, Ray Mack and Lou Koudeura. Five Brooklynians saw service for the National leaguers—Cookie Lavagetto, Joe Medwick, Wyatt, Babe Phelps and Pete Coscarart.

Movie Actors Joe E. Brown and George Raft were the center of attraction in their boxes near the American league dugout. Brown, for a time, was part owner of the Kansas City club of the American Association.

When Joe Medwick's name was announced in the lineup it was greeted with deep-throated boos. However, the former Cardinal star was cheered on his first appearance at bat. He fouled out.

Overlin K.O.'s Balsamo NEW YORK, July 9 (AP)—Ken Overlin of Washington, D. C., recognized in New York and California as middleweight champion, scored a technical knockout over Harry Balsamo of New York in 2:38 of the ninth round of the ten-round main bout on the Milk Fund benefit card at the Queensboro arena tonight.

Martha Darsie (Scottsdale, Pa.) defeated Evelyn Smith (Hubbell, Neb.)

Constance Mott (Iowa City) defeated Jeannette Thomas (Tampa, Fla.) 6-0, 6-1.

In cooperation with other Iowa City businesses, our summer closing hour until September 3rd, will be 5:00 p.m. daily.

# First Congressional District Democrats Meet This Morning

## Representative To Be Chosen For Congress

### June Primaries Fail To Give Candidates Necessary Majority

A total of 232 first Iowa congressional district democrats will meet in Iowa City at the community building this morning at 10:30 for the purpose of selecting a candidate for representative in congress, for the adoption of resolutions and for any other business which may come before the convention.

Thirty-five Johnson county delegates will attend the meeting along with official representatives of the other 10 counties in the district.

Charles J. Chansky, first district democratic congressional chairman, will open the meeting this morning and Attorney William R. Hart, member of the democratic state central committee of the first congressional district, will preside as temporary chairman.

**Necessary Convention**  
There will be no keynote speech with nominating addresses the main convention business. The convention was made a necessity when none of the four candidates running in the June 3 primaries succeeded in polling the necessary 35 per cent of total votes cast required for nomination.

The four candidates who were entered in the primary race and whose names will probably all be placed before the convention this morning are James Bell of Burlington, Herbert Thompson of Muscatine, James France of Tipton and Mrs. Zoe Nabers of Ft. Madison.

**Limited Speeches**  
Attorney Will Jackson, Johnson county democratic chairman, yesterday explained that the procedure of the convention in Iowa City today will be the same, according to law, as a state party convention and will follow, to a certain extent, the procedure of a national party convention. Nominating speeches for the candidates will be limited in time, Mr. Jackson said, in order to save time in carrying out the work of the convention.

Counties comprising the first congressional district are entitled to representation at today's convention on the basis of one vote for every 250 voters or major fraction thereof cast for President Roosevelt in the general election of Nov. 3, 1936.

In accordance with this law, county apportionment at the convention will be Cedar county, 18; Des Moines, 28; Henry, 14; Iowa, 17; Jefferson, 15; Johnson, 35; Lee, 39; Louisa, 11; Muscatine, 26; Van Buren, 11 and Washington, 18.

**35 Delegates**

## Safety Club V. F. W. To Organize Children's Group

At the picnic sponsored by the Johnson county post of the Veterans of Foreign Wars, plans for a children's safety club will be discussed. The organization for Iowa City children will meet at 2 p.m. Saturday in the City park, according to officials.

Brief talks on traffic rules and safety will be given at the picnic by a member of the highway patrol and the local police department.

Lemonade and hot dogs will be served as refreshments.

All children expecting to attend are asked to telephone the veteran's club, 7631, before 6 p.m. Friday.

According to the committee in charge, all children are to ride their bicycles.

Those on the committee are H. I. Jennings, Robert Vogt and Ben Whitebook.

Johnson county who will be present at the meeting include F. B. Olsen, Dr. W. L. Bywater, Will J. Hayek, O. A. Byington, Rudolph Prybil, Will J. Jackson, Ingalls Swisher, Herbert J. Reichardt, Edward Lucas, Regina Hogan, Harry Shulman, W. Ross Livingston, Charles L. Berry, Grace W. Jeans, James Glenn, Charles Showers, A. A. McMillan, Anna Bittner, R. P. White, C. O. Meyers, J. M. Otto, Henry F. Willenbrock, F. J. Belger, Isabelle Hunter, Charles Chansky, M. E. Baker, James Paraden, H. O. Croft, C. G. Sample, Frank Messer, Phil Michael, Charles J. Shimon, Harry X. Sievers, Mrs. Grace Stromsten and Winifred Derksen.

These delegates were named at the county democratic convention in the courthouse June 29.

## Judge Scott Makes Decision In Summerwill Bank Case

### Order of Final Settlement To Be Filed

### Ben S. Summerwill's Offer Approved By Acting Judge

An order of final settlement in the Johnson County Savings Bank Orville and Mattie Simmons indebtedness case will be filed in Johnson county district court Friday or Saturday of this week, Acting Judge W. W. Scott of Davenport told The Daily Iowan at 1 o'clock this morning.

The settlement, in which Ben S. Summerwill, former examiner-in-charge of Iowa City banks, offered to pay an additional \$400 for a Packard automobile purchased late in 1935 for a tendered payment of \$600 which was made in June, 1939, was accepted and approved "subject to an additional payment of \$200 interest."

**Other Settlements**  
The decision by Judge Scott comes out of a hearing held in the district court June 17 and 18. Two other settlements in two other closed banks were accepted from Summerwill on June 18, and the acting judge took the Johnson county bank case under advisement to determine if there was evidence of bad faith or poor judgment in the settlement made by the receiver in the Simmons indebtedness.

At the time of the receivership the Simmons indebtedness was approximately \$12,000 for which the bank held 90 shares of D. C. Heath and Company stock. Declaring the stock nearly valueless at the time of the settlement, the shares were returned to Simmons and four automobiles were taken in settlement. These cars, three Packard 120's and one Plymouth, were sold by the receiver, one of them to Summerwill.

Sarah Paine Hoffman, a depositor in the bank, objected to the settlement offered by Summerwill in which he would pay the additional \$400 to total \$1,000 for the car and interest on the additional sum since the purchase of the car. Judge Scott ruled that under the circumstances \$1,000 was a reasonable price for the car but he did add \$200 as interest to the sum.

In considering the Simmons settlement, the ruling which will be filed by Judge Scott states, "That there is no evidence or showing of any bad faith on the part of the receivership in effecting this settlement."

According to the ruling, the judge found that the stock was

restricted in its transferrability which impaired its marketability and that since the filing of the application for settlement in October, 1939, the receiver had made diligent and far-reaching inquiry and investigation to determine the value and marketability of the stock.

The ruling states that the objection failed to substantiate the essential allegations of her objections so as to entitle her to any relief prayed for.

**In conclusion, the final order states, "The receiver is directed to receive \$400 plus \$200 and on receipt of same Ben S. Summerwill shall stand wholly and completely discharged of any and all liability growing out of said Simmons indebtedness and this receivership."**

Summerwill will pay his own court costs and the objector is to pay hers, according to the ruling. This final action, upon filing this week, will bring to a close the extended controversies over various settlements involving Summerwill as examiner-in-charge of the closed Iowa City banks.

**G. O. P. Committee Will Cooperate In Presenting Program**

The Johnson county republican committee will cooperate in presenting a speaking program at the Lone Tree homecoming celebration in Lone Tree Thursday evening, Aug. 1, it was announced yesterday.

Also on the speaking program will be a republican candidate on the state ticket who will be named in the near future. Other republican candidates attending the celebration will be presented from the speakers' platform, it was announced.

## Safety Head Here Thursday

### Paul Hill Will Discuss Need for Education In Secondary Schools

"Problems in safety confronting the teacher of Iowa" will be discussed at the first annual conference on safety education here Thursday by Paul Hill, director of the safety education division, Iowa state department of public safety.

The need for safety education in the public schools has been recognized for a number of years. However, the problem of teaching safety in the public schools has not been clearly solved, according to Hill.

Methods of procedure are just now in the process of formulation and teachers are constantly seeking ways and means of teaching safety effectively. The results of teaching safety in the public schools to date have brought great improvements in the school child's accident situation, the safety director states.

Recent statistics released by the national safety council show that the lowest death rate in all age groups is among school children five to 14 years of age. The reduction in the accident rate among school children of this age group has been attributed to the teaching of safety in the elementary school.

The accident situation in high schools, which is included in the age range of 15 to 24 years, is not as good in comparison with the five to 14 year age range. Death rates in the 15 to 24 year age group do not show any consistent improvement in recent years, which indicates a need for greater emphasis in the teaching of safety in our secondary schools, Hill emphasized.

"During the past year Hill and his staff have been devoting almost their entire time to the improvement of safety instruction in the public schools. At the present time they are preparing a state course of study in safety instruction to be distributed to the schools in Iowa.

## Petition Filed For Payment By Blackman

A petition asking payment of a promissory note was filed in district court yesterday by Hogan Brothers of Iowa City seeking payment of \$127.80 from W. A. Blackman.

The petition also asks interest in the amount of seven per cent from July 26, 1936 as well as costs and attorney fees in the case. Atty. D. C. Nolan filed the petition for the plaintiffs.

## 22 Delegates To Convention Attend Caucus

### Republicans Choose Officers To Serve At Des Moines Meet

Twenty-two Johnson county delegates to the state republican convention in Des Moines Friday met at the Johnson county courthouse last night in a caucus for organization and discussion of the convention.

Atty. Edward F. Rate, county republican chairman, was named chairman of the local delegation and William F. Morrison was named vice-chairman. Mrs. W. F. Boiler was selected secretary and A. A. Abrahamson was named sergeant-at-arms.

Rules were adopted including a resolution whereby the delegation chairman is authorized to cast the entire votes of the delegation in accordance with the desire of delegates as expressed by those present in the caucus.

Vacancies in the state ticket to be filled by the state convention were discussed but no action was taken to bind the delegation. The state meeting will select republican candidates for the state attorney general office and a commerce commission candidate.

The first district caucus will be held in Des Moines in the Savery hotel lounge at 9 a.m. Friday. Convention headquarters for the Johnson county delegates will be in room 438 at the Savery hotel.

## Dr. Bose Asserts India Is Overwhelmingly Anti-Hitler

India has a background of 4,000 years of culture and asks the right to hew out its own pattern of life to suit itself, Dr. Sudhendra Bose of the political science department declared yesterday in his campus lecture series in Old Capitol.

He stressed the fact India has no love for nazism or fascism. According to him, India is overwhelmingly anti-Hitler and anti-nazi.

"India was quite willing to throw its full weight on the side of freedom and democracy," he remarked, "if freedom and democracy were not denied in India."

The lecturer pointed out that to the leaders of the Indian nation, independence is not an end in itself.

"Independence is claimed to

be only a means for bringing about those social, cultural and economic reforms which England, intentionally or otherwise, neglected and stunted."

He declared that at this moment India is preparing for non-violent passive resistance.

"India's fight, according to Mahatma Gandhi and other leaders, is a part of the fight of all subjected colonial peoples against fascism, nazism and imperialism," Dr. Bose said. "They feel that though they may be personally defeated, their principles never."

The fifth lecture on the campus lecture series will be given next Tuesday afternoon, and will be on "Two Leaders of India: Gandhi and Nehru."

## Bishop Praises Local Parish As Centennial Fund Grows

Congratulations on the successful campaign in preparation for next year's St. Mary's centennial were received by the Rt. Rev. Msgr. Carl H. Meinberg, pastor of St. Mary's church, in a letter from the Most Rev. Henry P. Rohlfman, bishop of Davenport.

More than \$21,000 has been collected, according to Monsignor Meinberg, for the remodeling of the rectory and the church, with the goal of \$25,000 expected to be reached in the near future.

The bishop's letter is as follows: Dear Monsignor Meinberg:

Upon my return to Davenport after a five-days' absence the good news of your very successful campaign awaited me and I hasten to write these few lines to offer you, your faithful assistant and your devoted parishioners my heartfelt congratulations.

To have received at this early hour subscriptions amounting to \$21,000 is most gratifying, especially in view of the 150 prospective givers who had not been approached when the \$21,000 mark had been reached. May I not confidently presume that you will pass the \$25,000 mark when the solicitation is completed?

Only a half a year ago you subscribed for the religious and educational needs of the diocese a handsome sum, and now, in regard to your generous subscriptions as also in regard to the methods of campaign employed, you have set an outstanding example to the parishioners of our diocese. Not only will your noble attitude rebound upon you in glory, but it will also bring you God's best blessing in return.

My heartfelt thanks to your self, your assistant and your good parishioners. You worked together, one heart and one soul, and your success is phenomenal. Words fail me to express adequately my deep appreciation, not only of the subscriptions made, but they small or large, but also of the active part taken in the campaign which was so exceptionally well organized and conducted. To the chairman, the captains, the solicitors my deepest gratitude.

How it would have pleased Monsignor Schulte of happy memory to have been privileged to witness this manifestation of faith and zeal and interest in the welfare of St. Mary's church, to the service of which he gave so unstintingly 49 years of his own priestly life. His one ambition was to live to celebrate the centenary of the parish, if that were God's will. God willed otherwise. From his heavenly home he will smile upon you and pray God's blessing upon you for carrying out his wishes in giving St. Mary's property a festive dress for the centennial celebration.

May on that day the bells of St. Mary's ring out their peals of joy as a fitting tribute to all who in the past century have labored so well and worshipped so devoutly within its sacred walls.

May the good Lord bless your efforts and bring to a successful conclusion your campaign so auspiciously begun and so capably conducted.

Sincerely yours in our Lord, Henry P. Rohlfman, bishop of Davenport.
