Third Term Question Still Upmost

Two State Leaders Assert that Roosevelt Will Run Again

CHICAGO, July 18 (AP) - The question of whether or not President Roosevelt will run for a third term is still upmost. A number of Republican leaders have indicated that they will support Roosevelt, while others have hinted that they will support someone else. The issue is expected to be settled during the summer months.

University Students Know How to Be Cool in the Summertime

**Sensible Clothes, Careful Makeup, Cool Colors Minimize Heat**

**July Keep Cool Suggestions for Ladies**

**How do you keep cool in hot weather?**

Most of us turn an answer to the question, "That's easy! We just beat the heat - wear light colored clothes," to our relatives. But how do you keep cool about the weather and do the fashion thing. But we don't have to use up those precious brain cells with all that stuff.

For Miss Iowa, and the rest of us, it's a matter of being cool. The weather cooler when she wears a tennis skirt, just right for those hot afternoons.

The walls don't detract, if they're white and the weather's cool, and you're a winner. Try either costume for these hot days.

Safety Educators Convene To Hear Lectures, Discussions

Auburn Hill, Will Address Administrators

Conference Designed To Instigate Safety Consciousness Among Students

The first annual conference on safety education will commence in the second session of the new school year, according to Mr. Arthur C. Wood, educational director of the State Department of Safety Education. This is in connection with the State Board of Education's program for the upgrading of the entire educational program.

Mr. Wood believes that the educational program is the most important factor in the promotion of safety education, and that the entire community will have to be involved in the process.

"The safety problem is not the concern of one department or one group of people," he said. "It is a concern of the entire community, and it is our responsibility to involve all levels of the community in the process."
