

# Johnson County To Be Entitled To 5-Member Social Welfare Board as Result of Population

## 1940 Census Qualifies Area for Increase in Board Membership

Johnson county will be entitled to a five-member social welfare board during 1941, the Iowa Social welfare board announced yesterday, according to an Associated Press report.

An increase in population of the county to 33,191, shown by the 1940 census, qualified Johnson county for the increase in board membership. Counties with more than 30,000 population may use a five-member board, and those counties with population under 30,000 have a three-member board.

Story county, whose 1940 census total is 33,434, also will utilize a board of five members. According to the 1940 census figures, 16 counties will have five-member boards, and the remaining 83 counties will have boards of three members each.

**Board Duties**  
The administration of old age assistance, blind assistance and direct relief work is the responsibility of the social welfare group which is appointed by the county board of supervisors. The members are paid on a per diem basis. The new five-member social welfare board will be appointed by the county supervisors after the reorganization meeting next Thursday. Appointed on an annual basis, the present members whose terms expire Dec. 31 are Frank J. Krahl, representative for the supervisors, and Mrs. L. G. Lawyer and Charles Chansky.

## Highest Corn Yield Allotment Approved By State Committee

Approval of the highest corn yield AAA allotment in the history of Johnson county by the state agricultural conservation committee, was announced yesterday by Joe G. Raim, county AAA chairman, along with the amount of the other allotments approved.

The corn yield this year of 49.3 bushels is 5.2 bushels above that of 1938 and one above that of last year.

A productivity of 146 was approved for 1941, which is 46 per cent above the average for an 11-state north central section of the country, Raim said.

Other allotments approved are: Total soil depleting acreage allotment—138,865 acres; corn allotment—80,013 acres; grazing capacity—4.6 units, and rate per acre—22 cents.

These allotments which are approximately the same as last year are divided among Johnson county farmers by the county AAA committee. The state com-

## Receivership Office Permanently Closed

J. R. Drake, examiner in charge, announced yesterday that the receivership office in the Iowa State Bank and Trust Co. which has been handling the last three bank receiverships in Iowa City is closed permanently.

Depositors will have to call at the state banking department in Des Moines for unclaimed dividend checks. Later the checks will be available at the office of the clerk of court in the Johnson county courthouse.

## Defer Guard Mobilization Until February

### Iowa City Medical Regiment Included; Rain Causes Delay

Mobilization of the 34th division of the national guard, which includes Co. G, 136th medical regiment of Iowa City has been postponed until Feb. 10, Iowa Adj. Gen. Charles H. Grahl yesterday announced to The Associated Press.

Heavy rains preventing Camp Claiborne, La. from being ready to receive troops was given as the cause of the delay. General Grahl said that he received his information from Gen. George B. Strong, seventh corps area commander at Omaha.

First scheduled for last Oct. 16, the date for mobilization had been changed to the middle of November, to Jan. 6 and to Jan. 27 before the present change.

No change in the mobilization date for troop B, 113th cavalry horse-mechanized, the other local national guard unit, has been announced as yet. Troop B will report on Jan. 13 at Camp Bowie, Tex.

The 34th division includes 4,436 Iowa troops and units from Minnesota and North and South Dakota.

mittee determines the rates for each county after receiving the state allotment from the secretary of agriculture.

## Predict Occasional Rain for Iowa City

Occasional light rain or snow and above freezing temperatures were predicted for Iowa City and vicinity for today by state and local weather officials.

Readings at the local climatological bureau were 68 degrees for high and 32 for low. Normal readings are 30 and 13. Readings a year ago were 34 and 14.

## Committee--

mittee recommends the complete reorganization of the personnel employed by the board and the separation of those persons who have demonstrated a partial and biased attitude toward litigants, as well as those whose conduct and expressions have indicated their determined objection to the American system of government.

Smith, chairman of the committee, told newspapermen that the report had been sent to the other two committees—Representatives Healey (D-Mass) and Murdock (D-Utah). Smith said Halleck and Rutzohn had authorized him to sign it for them but he reported that he had not heard from the other two.

Healey and Murdock vigorously opposed an intermediate report of the majority last summer which was followed by approval of 17 of the majority's 21 proposals to amend the act. Those revisions have been pending in the senate ever since.

## Tax Fund--

over on to the general fund. 4. The state may, if it has to, dip into the \$1,800,000 annual income tax to pay the full 25-mill homestead credit. Or, the tax commission may announce that the revenue is insufficient to pay 25 mills and fix the so-called "refund" at a lower rate, 22 mills for example. This is considered unlikely, however, because it would give the "outs" a talking point in the following campaign.

Close to 450,000 families and individuals share in the state distribution of three-point proceeds. More than 353,000 families living in their own homes will receive property tax credits under the homestead plan next year, while the current old age assistance load exceeds \$6,000.

## Rome--

blockade." The newspaper Avvenire said these would be the consequences of American aid to England via Ireland:

- "1. The sinking of American ships enroute to Ireland.
- "2. The end of Irish neutrality.
- "3. The spreading of the European war into a world conflagration through American interven-

tion and the entrance of Japan into the conflict under the tripartite pact." Official comment was declined pending President Roosevelt's Sunday speech.

## Raids--

across the channel, said one informed source, was no more serious than Britain's shipping situation. "We are running as much chance of being choked by the (German) blockade before United States aid reaches its peak as we are of getting a knockout blow on the chin by invasion," he added.

"You can take it that we're not going to be diverted from the job of countering these two real dangers flat-out by any side-show."

The Evening Standard, which is owned by Lord Beaverbrook,

the British minister for aircraft production, suggested a like view that invasion was but one twin of the perils facing Britain.

"It is plain," said that paper, "that Hitler's whole and urgent purpose is to batter down the defenses of Britain before next summer... the people of Britain are at this moment dependent for their lives on keeping the sea roads clear enough of bandits to let a percentage of traffic pass."

The new British bombing campaign was carried out through Friday night from Norway to southern France, over a thousand miles of German-occupied coastline, by many of the royal air force in coordination with navy fliers. Then the RAF's coastal command returned twice Saturday, the air ministry announced, to make new hits on the docks at Lorient, France. This U-boat base has been bombed four times in two days.

## Athens--

(Continued From Page 1)

court, the statement said, and then got back safely to port despite salvos of depth charges.

(Greece has six submarines, according to James Fighting Ships. It lists the Papanicolis as displacing 576 tons on the surface and carrying a normal complement of 39 men. It mounts one 3.9-inch gun, an anti-aircraft gun and six torpedo tubes.)

Other blows were reported on land. Italian resistance in defense of Tepeleli, on a junction of roads leading to the Albanian port of Valona, was said to be "crumbling."

Reports from the front said that Greeks besieging Tepeleli won domination of the town with bayonet charges and shell-fire and that the battle had reached a "decisive stage."

Under the pounding of Greek guns, it was said, Italian forts

have been smashed, their artillery has been drawn back from elevated positions and their morale has been lowered.

When Greek infantry charged the fascist lines with bayonets, one dispatch said, the Italians retreated, leaving behind prisoners, mortars, machine-guns, rifles, horses, mules and other war material.

Germany is absorbing all of Denmark's surplus bacon, according to a cabled dispatch. Well, that's one of the things Hitler promised the Germans in his book, "Mein Kampf," that he would bring home.

Zadok Dumbkopf tells of the Canadian woman who is so patriotic she has given up eating North-Spy apples.

Eight states plan to equalize their fishing laws. Wonder if they will also standardize the size of the big ones which got away?

## Food For Thought

### Typewriter Ready For Stemens' Meal; Hamburger to Rescue

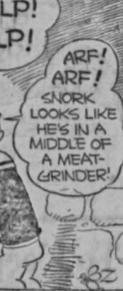

THREE RIVERS, Mich., Dec. 28 (AP)—For ten years Mr. and Mrs. Cliff Stemen have received a holiday box of fried chicken from Mrs. Stemen's mother in Iowa City, Ia.

The box came as usual this year. Since Mrs. Stemen was visiting in Fort Wayne, Ind., Stemen put it in the refrigerator to await her return.

When she arrived today the table was set for the annual feast. Cliff fried the lid off the box. Inside was a nice cold portable typewriter.

The Stemens ate hamburger sandwiches for their feast.
