## 'On Iowa Club' Sees Football Films Tonight

### Hawkeye-Wolverine, Iowa-Drake Games Shown for Members

Members of On Iowa club will meet at 7:30 tonight in Macbride auditorium for the first time this year to see moving pictures of the Iowa-Michigan game played in Ann Arbor last Saturday.

As an added attraction, films in color of the Iowa-Drake game of Sept. 27 will be shown to club members immediately following the showing of the Hawkeye-Wolverine battle.

Overcast skies and frequent rain were the order of the day at Michigan last Saturday, creating conditions which made the use of color film impossible. "We took black and white pictures of the game," Photographer Lee Cochran announced, "from the top of the press box in the rain, keeping our lenses as clear of moisture as we could."

But he's hoping that by the time the Wisconsin battle rolls around at Madison Oct. 18, weather conditions will permit a color record of that game.

Members of On Iowa club will hear a play-by-play commentary of the game tonight furnished by Jim Dover, WSU's sports commentator.

Next meeting of the club will be Wednesday, Oct. 22, when game pictures of the Iowa-Wisconsin tussle will be shown. Other contests scheduled for On Iowa club members are Iowa's games with Indiana, Illinois, Minnesota and Nebraska.

Season tickets at 50 cents still are available at four places on the campus: the general extension division office, room C 107, East hall; the department of visual instruction, room C 5, East hall; the alumni office, Old Capitol; and the main desk at Iowa Union.

Faculty members, students and friends of the university may buy.

On Iowa club, now in its third year, is sponsored by the alumni office, the extension division, the athletic department and The Daily Iowan.

## British See Possibility Of Returning Several United States Tankers

WASHINGTON (AP)—Secretary of Interior Ickes, the petroleum coordinator, announced yesterday that Britain "due to greatly diminished sinkings" in the Atlantic, "believes that it can within a short period release temporarily 10 to 15 American tanker ships now hauling oil for the embattled British."

The coordinator made no estimate of any possible easement the return of these ships might have on the reported east coast petroleum emergency. The oil situation on the Atlantic seaboard was created by transfer of American tankers, estimated to number 50 to 80, to British service.

## Chimney Swifts Cause Virtual Blackout

Thousands of Birds Make Annual Iowa City Stop On Southern Migration Flight

A virtual blackout, caused by repeated attempts to enter the thousands of chimney swifts hovering about the smokestack, has settled over the engineering building for the last three nights. The birds are making their annual stop at Iowa City on their migration flight to the south. Prof. C. J. Lapp of the physics department, who has watched them come and go for the past 10 years, said that the birds usually descend into the chimney at approximately the same day and hour each year. Wheeling in their peculiar flight, the birds circle about the stack in a radius of 400 feet. They dive in

## Mussolini Decrees Death Penalty For Plotting Against State

ROME (AP)—Premier Mussolini last night decreed the death penalty for plotting against the state in all Italian-annexed territories.

As commander of Italian troops on all fronts, Mussolini issued the decree dated Oct. 3, fixing the death penalty for the following crimes in annexed territories: Acts aimed at disturbing the unity, independence and integrity of the state; Destruction, plunder and massacre aimed against the security of the state; Promoting, leading or participating in armed insurrections against the state; Organizing or leading associations aimed at overthrow of the political, economic or social order of dismemberment of the state; Terrorism or political crimes tending to create public danger; And serious damage to communications or public services.

## Germans Admit New Revolts Flaring Up In Old Yugoslavia

Mass armed revolt in the heart of old Yugoslavia, led by a Serbian girl, was acknowledged by Berlin last night, along with announcements of new troubles and repressive measures in other occupied countries east and west of the Reich.

Rebel bands of guerrilla soldiers and armed farmers in the Serbian region of former Yugoslavia stormed the town of Sabac, only 25 miles west of Belgrade, and according to Berlin's own account seriously threatened it until German regular army troops aided by the uniformed guard of the pro-axis Croat leader Pavelic were rushed into battle.

## Claim Mass Uprising Led by Serbian Girl Smashed by Nazis

Rebel bands of guerrilla soldiers and armed farmers in the Serbian region of former Yugoslavia stormed the town of Sabac, only 25 miles west of Belgrade, and according to Berlin's own account seriously threatened it until German regular army troops aided by the uniformed guard of the pro-axis Croat leader Pavelic were rushed into battle.

The rebels, said to have been led by the daughter of a Serbian attorney, were reported by the Germans to have been smashed under attack by all branches of the Reich army.

In Paris, scene of frequent attacks upon German occupation troops, the body of a woman anti-fascist leader was found in the Seine. She had been strangled, weighted and trussed in a crime which Paris authorities said was liable to "create a great sensation."

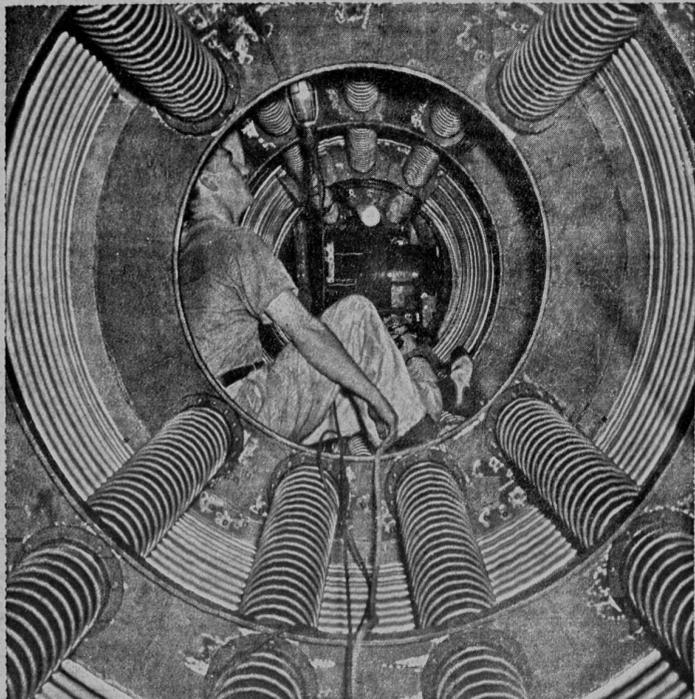

The German authorities in Paris announced that the total number of persons executed in occupied France in reprisal for attacks on Nazi troops now had risen to 73.

## Germany Will Control Turkish Chromium Output Through New Agreement

ANKARA, Turkey (AP)—A German-Turkish agreement due to be signed today will give Germany at least half of Turkey's important chromium production after 1942, diplomatic informants reported last night.

For the remainder of this year and all of 1942 Germany will get no chromium, all of which now goes to British and American interests.

## PREPARE TO BOMBARD ATOMS IN SUBTERRANEAN LABORATORY

The gigantic and intricate tank shown above is the \$25,000 atom smasher located underground near the physics building. Prof. G. J. Plain and his assistants have completed heavier construction, and preliminary experiments will begin in a few weeks. Impelled by five million volts, electrons will travel at the rate of 90 million miles per hour to smash the mysterious and powerful atoms in a target one centimeter square. More than two miles of aluminum tubing and 13,000 individual parts have gone into the generator's construction. Final installation and adjustments will take the rest of the year to complete.

## F. R. Urges Action on Neutrality

### One Killed as Train Crashes Into Station

LANSING, Mich. (AP)—A speeding eastbound grand trunk and western freight train left the rails and crashed into the main depot late yesterday afternoon, killing at least one person and injuring eight others.

A force of 100 state police and railroad employees immediately began a search of the station ruins for others who might have been trapped in the twisted debris.

About 15 persons were known to have been in the depot when several box cars, which had buckled, hurtled into the west end of the building.

### Wounded Nazi War Prisoners File Off Of Red Cross Ship

### British Charge Reich With 'Flagrant Breach Of Faith' in Exchange

NEWHAVEN, England (AP)—A gloomy file of 103 wounded German war prisoners came off the Red Cross hospital ship Dinar yesterday and headed back for the English hospitals which they had thought to leave forever.

They returned to internment because of the collapse of British-German negotiations for the first exchange of wounded prisoners since the war began—a collapse occasioned by Germany's insistence that the exchange be prisoner-for-prisoner and Britain's attitude that sick and wounded must be traded without regard for numbers.

Appearing before the house of Commons in London, Capt. H. D. R. Margesson, the secretary for war, accused the Reich government of "a flagrant breach of faith," citing the 68th article of the international convention as requiring that the exchange be made with no consideration to "rank or numbers."

The British, he added, had intended to release about 150 Germans for 1,200 Britons held in Reich territory.

All this, which previously had been arranged in an unprecedented series of radio messages between the British and German governments across the English channel, would have been accomplished over a narrow strip of water to be declared temporarily a non-belligerent zone.

### Says Panama Dispute Over Arming Nation's Ships Proves Point

WASHINGTON (AP)—President Roosevelt told reporters yesterday that new orders of the government of Panama forbidding the arming of ships flying that nation's flag made rapid revision of the American neutrality act more urgent than ever.

He made this statement at a press conference. Earlier in the day he was reported to have informed congressional leaders, mostly from the senate, that the act should be revised to let armed American ships carry supplies into British and other belligerent ports.

For two hours and a half Mr. Roosevelt and the legislators had discussed the ins and outs of the situation. One of the conferees said the prevalent opinion of the gathering was that Mr. Roosevelt's recommendations should be carried out, but there was disagreement on procedural matters. A second meeting was scheduled for tomorrow and Senator Barkley (D-Ky) predicted that a decision would be reached at that time.

The action of Panama was important because, to escape the neutrality act's restrictions, some American-owned ships have been transferred to Panamanian registry, armed and sent with cargoes to England. One of these, the Pink Star, was torpedoed and sunk recently.

### Repair Crews Speed Work on Vital Canal

SAULT STE. MARIE, Mich. (AP)—Wrecking crews and army engineers worked feverishly last night to restore the flow of defense-vital iron ore through the St. Mary's Falls canal, whose main channels had been blocked since early morning by the collapse of a lift bridge said to be one of the longest of the bascule type in the world.

Authorities estimated that by midnight tomorrow 130 vessels would be forced either to drop anchor and wait for the wreckage to be cleared away or to remove parts of their cargo.

### Manufacturers to Build 228 Commercial Planes During 18 Month Period

WASHINGTON (AP)—The supply priorities and allocations board last night voted to permit airplane manufacturers to build 228 commercial transport planes in the 18 months starting January 1, 1942.

The new craft will supplement the over-taxed fleets of the countries' commercial airlines. They will be built for swift conversion to military transport use if necessary.

The board discussed a new proposal for a seamless steel tube pipeline from Texas to the New York area but took no action.

## Say Forces Occupy Two Russian Ports on Sea Of Azov; Vital Donets 'Virtually Indefensible'

### Soviets Rush Troops To Front in Effort To Stem Nazi Drive

### Say Army Standing Up Under Pounding Of German Legions

By THE ASSOCIATED PRESS

MOSCOW—Violent fighting has developed in two main sectors of the central front before Moscow but Russian armies, supported by troops rushed up from the rear, were declared today to be breaking with counter-attacks the shock of a supreme German mechanized offensive.

Particularly heavy clashes are in progress in the directions of Vyazma, 150 miles west of the capital, and Bryansk, on the Desna river some 200 miles to the southwest, today's early morning communiqué said. Both are important rail centers, 140 miles apart.

First Such Outline

This was the first time that the Russians officially had outlined the general scope of a new and vast pincer movement launched by the Germans against the Soviet capital.

For the second successive day the Russians also announced the sinking of a German troopship in the far northern waters of the Barents sea.

On the central front the Russians acknowledged that the Germans had driven a series of small and hard-won salients into the long Red line holding the approaches to Moscow.

Reds Make Counter-Thrust

Against these wedges of steel, Marshal Semion Timoshenko hurled waves of Soviet infantry, tanks, and bombers in far-spread counter-thrusts which in three sectors alone were reported to have destroyed at least 198 Nazi tanks and 31 German planes.

Calmly agreeing that a grand Nazi offensive now had begun, S. A. Lozovsky, the official Soviet spokesman, remarked sardonically:

"Probably the Germans have several hundred thousand men they wish to lose. They shall achieve that aim."

### War Insurance Rates On British and Allied Cargoes Ordered Cut

NEW YORK (AP)—War risk insurance rates on the cargoes of British and allied combatant nation ships sailing the Atlantic from the western hemisphere were ordered reduced by American marine insurance underwriters yesterday.

Announcement of the reduction, which also affects shipments to the Atlantic ports of Spain and to Madeira, the Azores, the Canaries and Cape Verde islands, came at about the same time Secretary Ickes said that Britain "due to greatly diminished sinkings" might soon be able to release 10 to 15 American tankers now carrying oil in British service.

### Declare Ports Most Important Shipping Centers on Azov; Announce Staff of Ninth Russian Army Captured in Ukraine Drive

By THE ASSOCIATED PRESS

BERLIN—German forces pressing eastward in a massive 6-day-old offensive have flanked the rich Soviet industrial Donets basin by occupying the ports of Mariupol and Ossiipenko, two-thirds of the way across the north shore of the Sea of Azov, authoritative sources announced last night.

Mariupol, 125 miles east of the Dnieper river and 100 miles west of the Don river city of Rostov, and Ossiipenko, 40 miles southwest of Mariupol, were described by the Germans as the most important Russian grain and coal ports on the Sea of Azov.

They declared that by flanking the Donets basin, the Nazi forces had made "virtually indefensible" this wealthy industrial area upon which Russia depends for much of her war supplies.

Report Major Victory

The capture of the two important Soviet ports presumably was part of the major victory reported in a morning high command communiqué. This claimed capture of the staff of the ninth Russian army and a continuing drive against retreating Soviet columns with tanks, motorcycles and armored cars.

Mariupol is a fishing and shipping city with a large Greek population of emigrants from the Crimea. From its harbor, four miles to the southwest, corn and iron are shipped across the Black sea. Its principal industries are smelting, graphite and woolen goods.

Ossiipenko, formerly Berdyansk, was renamed in 1940 for the Soviet aviatrix Maria Ossiipenko. It has an excellent port. It is about the same size as Mariupol, with a normal population of 40,000.

Military dispatches said the German eastward offensive was under way up and down the eastern front after the greatest artillery barrage of the Russian war and dive-bombing at extreme short range.

(The British radio quoted Russian reports to the effect that one entire German division had been smashed trying to force its way through the Isthmus of Perekop above the Crimean peninsula, west of Mariupol, and that Russian naval artillery had forced units of heavy Rumanian artillery to withdraw from positions before Odessa.)

German reports during the day left untold the whole story of the present general drive.

### Roosevelt Asks AFL To Abandon Strikes

SEATTLE (AP)—President Roosevelt, in a message yesterday to the American federation of labor, said the time has come when federal machinery for adjusting labor disputes "must be used" by labor and management "before any recourse is taken to a strike or lockout."

In the interests of national defense, the President said that the establishment of peace between labor organizations would be a patriotic step toward the creation of true national unity.

That would appear to locate the main attack not on the Moscow front; but as a drive eastward from the southern bend of the Dnieper river toward the Rostov corner around which lies the road to the oil-rich Caucasus. The route of Russian forces in that sector by Nazi and "Allied" troops is proclaimed in Berlin.

In addition, Berlin announced the first air bombing of Rostov. Armament factories in that city, not oil installations, were the objective of the Luftwaffe, the Germans said.

London chimed in to say that an air field used by royal air force units cooperating with the Russians had been attacked by air for the first time; and that the German bombers were beaten off. That implies that the British dromedary is somewhere in the Rostov region, further emphasizing the probability that the main Nazi blow is being or will be delivered toward Kharkov and Rostov in the south, not toward Moscow.

The second German pincer spearhead is striking from Rostov, 60 miles south-southeast of Smolensk, along another direct rail approach to Moscow. The whole westward bulge of the Russian center lies between these two menacing thrusts.

Moscow reports but does not locate a third Nazi lunge in the center (See INTERPRETING, page 5)

## Speaking Before the Foreign Trade Convention, Welles Declares—

# 'Supreme U. S. Objective, the Crushing of Hitlerism'

NEW YORK (AP)—Sumner Welles, under-secretary of state, declared last night that the period following the war will be fully as critical for the nation as is the present crisis.

In a speech prepared for the 28th national foreign trade convention and broadcast by CBS (9:15 p.m. CST), he noted, however, that "for the people of this country the supreme objective of the present before which every other consideration must give place is the final and complete defeat of Hitlerism."

Welles shared speaking honors at the meeting with Lord Halifax, British Ambassador to the United States, and read to the delegates a message from President Roosevelt which, like the remarks of Welles and Halifax, emphasized the problems of rebuilding and re-

construction after the war.

"The very difficulties created by war conditions for an orderly functioning of the trade process furnish striking evidence of the significance of international commerce for the economic life of nations," said Mr. Roosevelt's message.

"The rise in the world of ruthless forces of unbridled aggression and the menace which this movement of world conquest presents to the safety of our country and of our hemisphere, have rendered the performance of our present vast task a paramount duty for all of us—for those of us who are primarily engaged in economic activity at home and for those of us who labor in the field of foreign commerce.

"I am sure that in the delibera-

tions of your convention you will explore, fully and earnestly, the ways in which you, as foreign traders, may best contribute to the success of our national defense program.

"We must make sure that no effort will be spared to place international commerce on a basis of fair dealing, equality of treatment, and mutual benefit. In no other way can it serve the function of promoting, rather than retarding, peaceful relations among nations and the economic well-being of all."

Welles told the delegates that he could conceive "of no greater misfortune than that the people of the United States and their government should refrain from devoting themselves to the study of reconstruction until the end of the war;

than that they should permit themselves to adopt the passive policy of 'wait and see'."

Referring to the post-war period, Welles said:

"There exists the danger, despite the clear lessons of the past, that the nations of the world will once more be tempted to resort to the same misguided policies which have had such disastrous consequences, and in the economic field especially there is danger that special interests and pressure groups in this country and elsewhere will once again selfishly and blindly seek preferences for themselves and discrimination against others.

"The creation of an economic order in the post-war world which will give free play to individual enterprise, and at the same time render security to men and wo-

men, and provide for the progressive improvement of living standards, is almost as essential to the preservation of free institutions as is the actual winning of the war.

"And the preservation of our liberties—all-important in itself—is essential to the realization of the other great objectives of mankind—an enduring peace.

"There can be no peace in a Hitler-ridden world."

Lord Halifax told the delegates: "More—that is the keynote of the present conflict. More ships, more aeroplanes, more guns and more tanks."

"And more food to sustain the warriors and workers alike," he went on. "This is a total war and nothing less than the total energies of our minds and bodies will be needed in its waging."

## A STORY OF A STUDENT BODY AND THEIR FOOTBALL TEAM---

The story of a university student body and their football team. A feeling which is manifest in certain ways and at certain times, nobody has ever done anything special about the team and the student body as a unit where they belong. It might be the story of any university, apply it at the University of Iowa, fits.

while it got dark—so dark cameramen took flashlight pictures, pressbox spotters couldn't tell a punt from a pass . . . and all the unquenchable spirit of the Hawks and the Hawkeye fans couldn't hold the darkness off.

That sick feeling at Dyche stadium was brought about by the fates that seemed to laugh at us that day—the darkness that swirled in and held us back from that title we wanted so desperately. The sick feeling last Saturday was brought about by something very like that—fate that wouldn't let the Hawks get far enough from our own goal to loose again the offensive which had driven Michigan back during the whole first half of the game.

We want the Hawks to know about that sick feeling. It's the same feeling you guys feel when you're on your toes, and fighting hard, but the fates frown.

Because once we know exactly how you feel, and you know exactly how we feel, then the "problem" of building student morale will vanish as though it had never been. We'll have morale—the kind that makes cheers for you Hawks, the kind that produces brilliant plays for us cheerers.

### Question of Russian Religion, What a Time to Bring It Up!

The argument of Russian religion, therefore, into the picture of United States-Russia is one of the most distasteful things to have appeared to divide and alienate the American people in their thinking. It is a distasteful thing because Russia's beliefs are no different than a neighbor's wheat in the fields across the border, simply because the wheat doesn't go to your church. Like that almost deserve to have wheat burned, and therein lies an-ile, and not such a pleasant one. American people as a whole have not such saints during the last 20 years that they can afford to advise others of the earth on their religious beliefs at a time when the very right to be of religion anywhere in the world is at stake.

Godless German government may be the last hope for saving Christianity, Islam and Judaism in the United States. That is so obviously the case, the ac-cru gross stupidity grates fiercely on the souls of thinking Americans—in-Americans who can do little but watch straws float away from them by endless irrelevant argu-

## "UNITED STATES OF EUROPE"

## In the Nation's Capital—

### Roosevelt's Fight One of Punishment—

WASHINGTON — "The Fight Goes On" is the title of the president's magazine series in Colliers recounting his administration. One would expect to find that "the fight" was one for American rearmament and defense. But as each successive issue is published, it becomes more and more apparent that such is not the fight Mr. Roosevelt has in mind in this series at least.

This fight seems to be to discredit and punish all who have not supported all his policies—both foreign and domestic. Especially as to his unplanned, belated and inept effort at rearmament, he says there was a "minority" in opposition. Although they were a minority they formed a very powerful group . . . had large funds at their disposal for propaganda purposes . . . had support of some of the largest newspapers and newspaper chains . . . could command the services of a handful of United States senators who knew they had the power to filibuster.

"This group included the defeatists . . . the appeasers . . . some business men and financiers who urged that Americans could do business with Hitler and make fat profits . . . included all of the bundists, fascists and, before the war between Russia and Germany, all the subversive communists." (Where are those subversive communists now?)

The majority of American people, however has become thoroughly convinced of the fallacy—to say nothing of the immorality and degradation—of these arguments.

**THE ROOSEVELT DOGHOUSE**  
Truth of the matter is that many who have disagreed with the president, particularly on defense and rearmament were advocating the steps on which he is now crediting himself, long before, years before he was willing to heed. Proof of their correctness and his error is that he is now, step by reluctant step following their advice for example on industrial mobilization and all-out preparedness—months and years late.

That is not of much importance. The important thing is to get a unified effort of all our talent. The president's principal concern seems not so much the war but Andy Jackson's political formula "to reward all his friends and punish all his enemies." Many great men have had political doghouses, or as they used to be called "oubliettes"—cellars into which erstwhile opponents could be drowned in the rising waters of forgetfulness. It is doubtful whether any ruler or dictator ever enjoyed a more populous doghouse than F.D.R.

He never forgets and he never forgives and in more mellow moments, he boasts of this. It sticks out of every chapter in these memoirs. In his opinion this seems to be his personal war and this country his personal barony.

**NOT A GOOD METHOD**  
Past services to him and his cause, no matter how vigorous, loyal or effective cannot survive in his heart one single personal difference. Maybe it is right. Maybe it is the only way to run a country in war time. Washington didn't do it and neither did Napoleon but candor

### Today at WSUI—

**TODAY'S HIGHLIGHTS**  
Today at 12:15 another of WSUI's fire prevention week programs goes on the air. The speaker is Mr. C. S. Cathcart, Des Moines, a member of the Iowa State Fire Prevention association.

**The Fourth Estate**, at 3 o'clock this afternoon, features the subject—"Why National Newspaper Week?" Chairman of the program is Prof. C. L. Sanders of the school of journalism, and assisting him are Prof. Frank Luther Mott, director of the school of journalism; Prof. W. H. Saunders of the Sociology department; James Jordan, Des Moines Register and Tribune correspondent, and Loren Hickerson, editor of The Daily Iowan.

The "American Legion Convention" is the program theme for the American Legion Auxiliary program at 3:30 this afternoon. On this first program, Mrs. Thomas Tracy of Manchester, radio chairman of the American Legion Auxiliary, interviews Mr. Thomas Tracy, state commander of the American Legion.

The "Speech Clinic of the Air" at 4 o'clock today presents George Wischner, research assistant in the psychology department, in a discussion of "Articulatory Defects—Their Nature and Causes."

### SHE WASN'T JILTED— SHE WAS 'DELAYED'

KNOXVILLE, Tenn.—A middle-aged woman stopped before a department store floor manager and, proffering a bundle, asked him to make an exchange.

Unwrapping the package and finding a counterpane, the floor manager exclaimed: "Lady, we never had this kind of a counterpane in stock here." Blushing slightly, the woman replied: "Well, I'll explain. Twenty-five years ago I thought I was getting married. I bought this counterpane at this store. But—well, he didn't pop the question until just recently. We're married now, and I just thought I'd like to exchange the counterpane for a new one."

### FLATTERING FALL FASHIONS

A clever brim which accents an interesting profile invites a second look from college men and business executives alike. The hat is fashioned of sun-down—the new shade of brown with a gunmetal cast. You will soon be wearing it with all your favorite browns and greens. A henna grosgrain ribbon runs through the brim and around the crown of the hat. Ribbons of this type will be used extensively as trimmings on your new fall hats.

### I. C. Girls' Handicraft To Begin Tomorrow At Recreation Center

The girls' craft shop will open tomorrow afternoon at the recreational center for the 1941-42 season under the direction of Gladys Parizek of Iowa City.

Girls from eight years old through high school age may register for the classes which will be held on Mondays and Thursdays after school. Those interested are urged to see Miss Parizek tomorrow between 3 and 5 p.m.

Projects to be taken up in this year's shop include Indian bead work, doll head buttonnières and block printing. There will be small charges for raw materials on occasions.

Eugene M. Trowbridge, director of the center, announced yesterday that the boys' craft shop, which started last week under the instruction of Glen Bartow, is now fully under way. Boys who worked in the shop last year should re-register at once, he said.

**STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACTS OF CONGRESS OF AUGUST 24, 1912, AND MARCH 3, 1933**

Of The Daily Iowan, published daily and Sunday (except Monday) at Iowa City, Iowa, for Oct. 1, 1941.

State of Iowa, County of Johnson, ss.

Before me, a notary public in and for the State and county aforesaid, personally appeared Fred M. Pownall, who, having been duly sworn according to law, deposes and says that he is the publisher of The Daily Iowan and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, circulation, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are:

Publisher, Fred M. Pownall, Iowa City, Iowa.  
 Editor, Loren L. Hickerson, Iowa City, Iowa.  
 Managing Editor, Robert Noble, Iowa City, Iowa.  
 Business Manager, John J. Greer, Iowa City, Iowa.

2. That the owner is: Student Publications, Inc.—Board of Trustees: Frank L. Mott, O. K. Patton, A. C. Baird, Kirk H. Porter, Deming Smith, William Sener, James Kent, Glenn Horton, and Frank Burge, all of Iowa City, Iowa.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company but also, in cases where the stockholders or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the twelve months preceding the date shown above is 3,387.

FRED M. POWNALL, Publisher.

Sworn to and subscribed before me this 7th day of October, 1941.

LEONA M. AMELON, Notary Public in and for the State of Iowa. (My commission expires July 4, 1942.)

## Interpreting—

(Continued from page 1)

ter. It well might be northeastward up the Gomel-Bryansk-Moscow railroad.

Should the nazis stab very far on any two of the three indicated attack routes, however, a major Russian retreat would be forced. A repetition of what happened at Kiev would be possible; but the Russians would still have naturally strong and shorter lines, upon which to stand an over 150 miles outside Moscow. A German breakthrough to that center before winter sets in does not yet seem probable.

In the south, north of the sea of Azov, the Russian position is far more precarious. And it is there the nazis claim the first important gains of the new offensive. If these claims are true, the threat to the vitally important Don-Donets basin is increasing every hour.
