Light Showers

IOWA—Mostly cloudy, occasional light showers today; tomorrow cloudy, occasional rain, colder.

VOLUME XLII NUMBER 31

THE DAILY IOWAN

Iowa City's Morning Newspaper

Details Listed for Iowa-to-Illinois Student Trip

Details of the Iowa-to-Illinois student trip on the week end of Nov. 1 were listed and discussed yesterday by Col. Homer H. Slaughter, head of the department of military science and tactics, chairman of the student-band committee.

Here is the train schedule:

Leave Iowa City, 12:15 p.m.

Nov. 7

Arrive Chicago, 5:15 p.m.

Leave Chicago, 7:50 a.m. Nov. 8
Arrive Champaign, 10:50 a.m.

The Stevens hotel will be the Chicago headquarters for the group, where members will stay at the rate of \$1.50 per person. Students who attend the game but who do not go on the special may stay at the Stevens for the same rate provided they make reservations directly with the

hotel, in groups of four, before Nov. 6. Colonel Slaughter pointed out.

All students should carry their activity tickets for identification, he warned.

The uniformed groups (Iowa's band and Scottish Highlanders) will eat breakfast together in the Stevens grill on Saturday before

NOTICE
TRAIN TICKETS: Student special train tickets are on sale at the Rock Island depot. Beginning Saturday they also will be on sale at the treasurer's office in University hall. Cost: \$7.30 plus a five per cent tax, or \$7.67. This ticket covers only fare, does not include meals, hotel or admission to the game.

The special will stop in Champaign there, proceeding directly to the stadium thereafter. Colonel Slaughter pointed out that eating

spots are not plentiful in the vicinity of the Illinois stadium (a mile and a half from downtown Champaign) and that the majority of students will want to get off in town as the special passes through. (The special arrives in Champaign at 10:50 a.m. Game time is at 1:30 p.m.)

Band instruments will be loaded at the stadium immediately following the game. The special will

be standing on the tracks at the Champaign station and may be boarded after 9 p.m. Saturday night. It will leave for Iowa City at 11:30 p.m., arriving at 8 a.m. on Sunday morning.

Students' train tickets will be honored, he pointed out, on any special train (of which there will be several) returning to Chicago from Champaign following the game. Those tickets also will

be honored on all Rock Island trains, with the exception of the Rockets, for the return to Iowa City on Sunday, enabling students to return at their leisure without taking the special back to Iowa City.

Entertainment in Champaign on Saturday night will include a number of Illinois campus dances at fraternity and sorority houses, Colonel Slaughter said.

Germans Beaten Back at Moscow

'No Class Cutting' After Grid Wins

Administration Outlines Policy On Celebrating

Nazi Artillery Batters Leningrad Endlessly

Report Red Thrusts 'Hurled Back'; Claim New Gains in Donets

BY THE ASSOCIATED PRESS
BERLIN—Violent German shelling of besieged Leningrad, apparently as the prelude to a big tank and infantry assault, and repulse of desperate Soviet counter-attacks on the Moscow front were reported last night after the high command announced the fall of Kramatorsk, key southern Soviet industrial city.

The Soviet thrusts of recent days in the central sector here were supported by "almost all the artillery they still possess" in that sector and by many tanks, said DNB, official news agency, but nevertheless were hurled back. Hand-to-hand fighting was reported at some stages of the battle.

The agency said one German division on Oct. 25 took several thousand prisoners during the Russian thrusts, and destroyed 33 tanks and 36 guns.

Thick clouds of smoke were said to be hanging over Leningrad as German batteries fired on Soviet defenses outside the city and war factories and food depots within. Military quarters said the bombardment began 24 hours ago.

Other units claimed direct hits on a Russian naval airrome, the destruction of a large hangar, and the silencing of one of the fort's batteries at Kronstadt, big red fleet base west of Leningrad.

The high command, which said the capture of Kramatorsk, 100 miles southeast of Kharkov in the Donets basin, meant the loss to Russia of the Stalin plant, one of its biggest tank factories, made no mention of the Moscow front.

Mussolini Predicts U.S., Great Britain To Perish With Reds

ROME (AP)—Premier Mussolini told a blackshirts fascist throng last night that "the shady European and American allies" of Bolsheviks would perish with the Russian system which he termed "struck to the heart" and dying.

Il Duce's brief address was the climax of the day's celebration of the 19th anniversary of the Blackshirts' march on Rome. Thousands gathered below his balcony overlooking the Piazza Venezia took his remarks as a prediction that the United States and Britain would go down with Russia.

(See ADMINISTRATION, page 7)

While the new submarine combat craft PC-480, background, still slides across the Harlem river in New York after launching, workmen already are laying the keel of a sister ship, above. The PC-480 is one of 11 of the new-type ships being built.

Roosevelt Considers Legislation For Suspending Defense Strikes

3rd Attempt to Settle Strike of 53,000 CIO Coal Miners Fails

WASHINGTON (AP)—President Roosevelt, whose threecoice plea to John L. Lewis has failed to end a strike of 53,000 CIO coal miners, said yesterday that he was considering new legislation to cope with defense strikes in general.

The president made this disclosure at a press conference while on capitol hill a wave of angry feeling produced suggestions that troops be called out and that persons conducting strikes with "intent" to retard defense production be punished as saboteurs.

A reporter asked Mr. Roosevelt whether he was considering a law calling for compulsory arbitration and suspension of the right to strike on defense work.

If the query were confined to general terms, and omitted specific methods, the answer would be in the affirmative, the chief executive replied. Ten specific methods might have to enter into the study instead of just two, he said.

Asked what existing powers he had, he referred to the fact that two struck plants already had been taken over by the government. But he hastily continued that this did not mean the government was going to seize all the coal mines.

The president said he had not received any reply from Lewis, he left to accept a position in the music department of Carleton college. The present conductor, Professor Clapp, has been a member of the orchestra since its inception and he served as principal viola for 14 years.

The membership of the orchestra this season is the largest in its history, with 110 players. Members are selected from the student body.

(See CONCERT, page 4)

F.R. Declares Nazi Protests Over Speech 'Most Amusing'

WASHINGTON (AP)—President Roosevelt said yesterday that Nazi protestations of "fake" at his statement that he had a German map for the partition of South America were most amusing.

It's a scream, he told his press conference, it's good.

Told that German sources had said a map purporting to show how Latin America would be divided by the axis was a fake, Mr. Roosevelt said the charge was in the same class as that a week or ten days ago that he was responsible for torpedoing the American destroyer Kearny.

The map, Mr. Roosevelt said, came from a source which was undoubtedly reliable. There is no

question about that, he said.

But he declined to make public the map or a document he said described Nazi plans to suppress religions, both of which he mentioned in his Navy day speech last night. It might choke off sources of information, he said, remarking that the map contained some notations which might permit tracing the channels through which it moved.

To a question as to whether the map had been made available to South American countries, the president replied in the negative and said it would only be done in the strictest confidence so there could be no tracing to the poor devil from whom it was obtained.

"I know you have it hard today," he wrote. "You must all work as never before."

"Your wives sometimes stand for hours before stores in order to buy some vegetables. Your children frequently are sent into the country and separated from you for months."

BERLIN (AP)—Propaganda minister Paul Joseph Goebbels in a published appeal yesterday to Berlin residents pointed to "the coming of certainly not easy weeks" and asked them to "keep your heads high and never give in."

"I know you have it hard today," he wrote. "You must all work as never before."

"Your wives sometimes stand for hours before stores in order to buy some vegetables. Your children frequently are sent into the country and separated from you for months."

PARIS, Occupied France (AP)—A "last chance" offer to spare the lives of 100 French hostages and release war prisoners whose families turn informer on the assassins of two Germans was announced last night by Gen. Otto von Stuelpnagel, commander of the German occupation forces.

Suspension of the "hundred-for-one" reprisal system for an indefinite period was ordered by Adolf Hitler personally, the general said, to give the French more time to deliver information on the six assassins.

This was the third appeal sent yesterday after Lewis had turned down two previous pleas. A conference is scheduled for tomorrow between Lewis and Myron C. Taylor, retired chairman of the United States steel corporation.

PARIS,

Administration Acts on Celebrations--

The university has taken a stand on this business of football celebrations after big games. It's a sensible stand, the stand the administration might have been expected to take.

Those of you who were here in 1939, and certainly last year, can understand this declaration of policy and the reasons behind it. The celebrations of those two years weren't very creditable. They angered more students than they pleased. Classes were routed out into the open where there was nothing to do but rout out other classes. Property was destroyed in a spirit which stepped far over the bounds of pep over a gridiron victory. All in all, those performances weren't very successful.

Naturally no university will stand by and watch rules violated over victories which should be taken in reasonable stride. Some kind of action is necessary if uninhibited student activity makes it necessary. This has been the case.

It may seem unusual that this declaration of policy should come at this par-

ticular time, when there hasn't been anything victorious about the 1941 season to date. Well, the 1941 season is just half over now. This Saturday and on Nov. 15, the Hawks will have the benefit of crowds cheering for them instead of the opposition on foreign fields, and our talks with team members these past couple of days have indicated that there's no defeatism among the Hawkeyes—far less than among the fans. So victories may well be in the offing.

It is nice to know, therefore, that the foggy air which surrounded past student celebrations has been clarified. The university will sanction no unexcused absences from classes. Nothing can be clearer than that. Furthermore, it's to be expected that appropriate action will be taken should students violate that policy.

But there is something far more important about that declaration of policy than its limitations upon a certain kind of student demonstration. The adminis-

stration has left the doors wide open for the arrangement of victory celebrations infinitely more to be desired than the destructive outbreaks of 1939 and 1940.

Paraphrasing the administration's statement, gives it to us something like this: "Victory celebrations are a fine thing if you students wholeheartedly want them. When you do want them, we, the faculty, will go the limit in cooperating. We ask only two things: (1) that celebrations must not disrupt regular university activity, and (2) that you get together with us to make arrangements for them on that basis."

Now we'd like to see the leaders of Iowa's student body take the administration up on this business. When the time arises, when Iowa's students feel called upon to blow their tops as we did after Notre Dame and Minnesota in 1939, we hope the responsible student leadership on this campus will get busy with the administration and set up an appropriate celebration on the proper basis.

snake dances, pep rallies, yelling, victory dances and everything.

Who is the responsible student leadership? Well, there's plenty of it to be found among the names of the student presidents who already have endorsed this policy. (See Page 1.)

Students in general ought to voice their sentiments to those people—fraternity men to the presidents of their houses and to the president of Interfraternity council; Quad men to their president, and so on. Let those people, who hold the responsible spots on this campus, get together with President Hanmer, Dean Newburn and the others to set up something that's worthy of the entire student body.

And that principle, once established, will do more than anything we can think of to instill a vital spirit into students and faculty—an awareness of their responsibilities to one another. That awareness is needed—sadly needed—on both sides of Iowa's fence.

A Man About Manhattan—

By GEORGE TUCKER

• A Slap at the People Who Live Only by Rumor and Half-Truths—

NEW YORK—Some people live almost entirely by rumor and half-truths. They never learn that most of the mirrors they gaze into are trick mirrors. They hear something, manufacture a few trimmings of their own to go with it, and pass it along as gospel truth. That's how distortions get bruited about.

I have in mind a couple of remarks I heard after a broadcast the other night. They weren't very important at first hearing. But on second thought, they were important. Because they weren't quite true.

After this broadcast I heard a guy ask, "What's Kay Kyser gonna do, now that Ginny Simms has walked out on him?" A few moments later he said, "I hear he's gonna remake all the old Harold Lloyd pictures, that he's gonna adopt Lloyd's mannerisms."

Actually, Ginny Simms didn't "walk out" on anybody. Actually, Kay Kyser isn't going to "ape" anybody's mannerisms.

When Ginny Simms signed a film contract not long ago and launched a career of her own, nobody was happier about it than Kay. It was something they had both worked for. There never has been a time that he didn't push her forward and give her every break. He kept her in the spotlight. He took her from the obscurity of a college campus and put her where her talents would thrive best, and that was inevitable.

Then he went out and hired two new girls—vivid contrasts. He wasn't trying to "replace" Ginny; he had too much savvy for that. He got different types—one is half-Spanish and dark. Her name is Dorothy Dunn. The other is a sort of blond campus hoyden, not too tall, collegiate, cute. Her name is Trudy Irwin.

This isn't Trudy's first job. She used to sing with the Kraft Music Hall Maids for John Scott Trotter. Trotter gave her his blessings when Kay said he could make a place for her in his organization. It was as simple as that.

UNIVERSITY CALENDAR

Wednesday, October 29

7:30 p.m.—Iowa club, visual instruction motion pictures, Macbride auditorium.

8 p.m.—University Symphony orchestra concert, Iowa Union.

8 p.m.—University play, university theatre.

Thursday, October 30

2 p.m.—University Club, University Club Rooms, Iowa Union.

8 p.m.—Dolphin Show, Field House.

8 p.m.—University play, university theatre.

Friday, October 31

8 p.m.—University club Homecoming party, University club rooms, Iowa Union.

8:10 p.m.—Commerce mixer, cafeteria, Iowa Union.

Saturday, November 1

8 p.m.—Dolphin Show, Field House.

8 p.m.—University play, university theatre.

Saturday, November 8

All day—Midwest Hockey tournament, women's athletic field.

9 p.m.—Opening of Silver Shadow, Iowa Union.

Monday, November 10

7:30 p.m.—Pan American club, 221A, Schaeffer hall,

8 p.m.—University lecture by Dr. J. Owen Perrine, Macbride auditorium.

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol.)

GENERAL NOTICES

MUSIC ROOM SCHEDULE

Requests will be played at the following times except Saturdays from 1 to 2 p.m. and on Tuesdays from 2 to 3 p.m. when a planned program will be presented.

Wednesday, Oct. 29—10 to 12 a.m., 3 to 5 p.m.

Thursday, Oct. 30—10 to 12 a.m., 1 to 3 p.m. and 7 to 9 p.m.

Friday, Oct. 31—10 to 12 a.m., 1 to 3 p.m.

Remaining tickets will be distributed to the general public on Monday and Tuesday, Nov. 3 and 4.

PROF. EARL E. HARPER CHAIRMAN

SWIMMING TESTS

Sophomores and upperclassmen who wish to try to pass the university swimming test may do so during recreational hours, 4:45 to 5:30 p.m. on Thursdays, Sept. 24, inclusive.

Remaining tickets will be distributed to the general public on Monday and Tuesday, Nov. 3 and 4.

Band to Honor Football Stars

SUI Band to Present Star Formation For Iowa Football Greats

A huge star formation by the University of Iowa marching band will be dedicated to Iowa football stars of the past and present at the Indiana-Iowa Homecoming football game Saturday.

The colorful "redcoats," under the direction of Prof. C. B. Righter, will pay special tribute to the Ten championship teams of 1921 with a combination waltz and march version of "My Hero" overture. Featured in the center of the formation will be Jean Hendum, A4 of Des Moines, senior drum major, in a twirling exhibition.

During the pre-game routine, the band will present a traditional salute to Gov. George Wilson and his official guests, who will be present at the game.

A rendition of "You and I" by the 110-piece double-header band will be given between halves. Arrangement of the number, which is a combination of singing and playing, is the work of Assistant Director Arnold L. Oehlson.

Other formations for the game include a "HELLO" demonstration as a greeting to the fans and the structure of music lyre while the band plays "There's Music in the Air" and the "Merry Life" march.

Three separate bands will be organized to lead pep parades from various parts of the campus to the central meeting at Old Capitol Friday night at the Homecoming rally.

SUI Students to Discuss 'Why Buy Frivol' Today At Methodist Center Tea

Members of the Wesley foundation will discuss "Why Buy Frivol?" at a personality tea to be given in the Methodist student center at 4 o'clock this afternoon.

David Ash, A1 of Des Moines, and Kieth and Kenneth Ryan, A2 of New Sharon, will lead the discussion.

All university students are invited to attend.

University Med Student To Address 'Y' Today

Jack Davies, graduate student in medicine from Leeds, England, will speak to the members of the Y.M.C.A. at 4 o'clock today in the seminar room of Iowa Union.

He will speak on the "International Y.M.C.A., Tie-Up" and explain how the Y.M.C.A. is organized and operated in England. Davies was active in the association when he was doing undergraduate work there.

Fred Zeithamel Charged With Desertion of Wife

A warrant was issued by T. M. Fairchild, justice of the peace, yesterday for the apprehension of Fred J. Zeithamel, charged with desertion of his wife, Laura Nettie Zeithamel, 21½, S. Dubuque.

According to the information filed, Zeithamel abandoned his minor child, Leo R. Zeithamel, July 1, 1940, and has refused to support him since that time.

body, faculty and townspeople. At one time or another, every college and department in the university has been represented.

Today, the University Symphony orchestra is recognized as one of the finest of college or university orchestras. When Olin Downes, the noted author and music critic of the New York Times, heard the orchestra he praised it highly and remarked that it is in a class with professional organizations.

Professor Clapp, one of the country's outstanding music educators, recently discussed the problems of the early years of the orchestra and how they had been solved. He said, "In earlier days of the organization, experienced players were hard to find and players of such instruments as oboe, bassoon, French horn, viola and string bass often had to be trained from the rudiments."

"The increasing attention paid by many high schools for the training of large ensemble groups and the influence of the state and national music contests, supplemented by the summer session, in the course of years have made available a supply of performers on all orchestral instruments who have had from one to four years experience before entering college," Professor Clapp continued.

"Gradually it has come about that more and more players are available and that the average training in fundamentals is progressively better from year to year," he concluded.

Of the annual 4-billion-pound catch of fish by United States vessels, 83 per cent are salt-water species.

MORTAR BOARD MEMBERS' 'SPECIAL' SCARFS

Experimental Theater To Present Patriotic Play, 'Haym Salomon'

The life of Haym Salomon, one of America's forgotten patriots, which has been dramatized by the Rev. Marcus Bach of the school of religion, has been chosen by Prof. E. C. Mabie, University theater director, as one of the experimental plays for this year. It will be shown Jan. 12 to 17.

The Rev. Mr. Bach gave a short biographical sketch of Salomon at the Friday evening services of the Hillel foundation. Several short scenes from the play were read by members of the foundation.

Panama, British Students Speak at Newman Club

Guest speakers at the Newman club meeting held Monday night were Jack Davies, M2 of Carcroft, England, and Fernando Tapia, A1 of Panama.

"Life in Present-Day England" was the subject of Davies' talk and Tapia discussed life in Panama. Speakers were introduced by Edward Kemp, A2 of Waterloo.

To Entertain Tomorrow

Mrs. C. E. Barrett, 1216 Rochester, will entertain the Civic Newcomers club at a Kensington at 2 o'clock tomorrow afternoon.

Mrs. C. O. Davis will be assistant hostess. Reservations may be made by calling Mrs. J. W. Blessing, 7650, or Mrs. George Bell, 6331, this evening.

Educational Film Series Opens November 7

Chaplin Comedies, Early 'Talkies' to Be Presented By Art, English Departments

Films for this semester's series of programs sponsored by the university film society, from Nov. 7 to Jan. 16 are to be obtained from the Museum of Modern Art film library, New York City.

An educational branch of the Museum of Modern Art, the film library has collected and preserved representative motion pictures of all types for study.

According to the film library's 1941 bulletin, study of the motion picture is important not only because it is ephemeral entertainment, but also a new medium of expression.

A significant reflection of contemporary aesthetics, morals and manners, the motion picture has grown more and more important to society.

The underlying purpose of the film library is to make possible an examination of the history and functions of this new art.

"Originally," the bulletin states, "the motion picture was regarded purely as a recording instrument, an extension of experience. The public was first attracted by its power to portray the external world—the movements of crowds, oceans, treetops, machines, acrobats and animals. Its dramatic possibilities were dimly perceived in those early years only when photographers turned from the everyday world of reality to improvise bits of low comedy or melodramatic incident as naive as they were brief."

The programs, to be shown in Macbride auditorium, are five Keystone comedies with Charlie Chaplin, Nov. 7; "The Cabinet of Dr. Caligari," Nov. 21; three comedies with Buster Keaton, Dec. 12.

Nine reels of "All Quiet on the Western Front" sequences from "The Jazz Singer" with Al Jolson, "Steamboat Willie," first Mickey Mouse in sound, and a Movietone newsreel with George Bernard Shaw, all on Jan. 9, and "Greed," directed by Erich von Stroheim, Jan. 16.

Prof. Curt Zimansky, Prof. Willard J. Schramm, both of the English department, and Prof. Alden F. Megrew of the art department

are in charge of the film series.

By obtaining a season ticket, the person becomes a member of the university film society. Tickets are now available through members of the Art guild and English department. Admission will be by season ticket only.

Highlights From Three Famous Iowa Football Teams Will Be Shown

Twenty-six students have been accepted into Scottish Highlanders, university pipe and drum unit Pipe Major William Adamson announced yesterday.

Those selected are Buddy Hart, Buster Hart, Philip Hardinge, Boyd Bellinger, John Christensen, Morton J. Singer, James L. Slater, Bob Wright, Charles D. Clift, Cecil L. Turner, Lowell Evans, William DeVoe, Wayne Christian, William R. Pomper, William S. Gladstone, David K. Summerville, Jack Droz, Kenneth L. Krabbenhoft, Edward F. Kipecky, James E. Odell, Robert Schneberger, Wendell E. Jeffrey, Sidney C. Guthrie, Fred E. Jones, Weston Ralston and Richard Park.

Seventeen girls were selected for further training as dancers. They are Phyllis Nissen, Marjette Fritsch, Beverly Blom, Marjorie Schenck, Helen Hospers, Lois Krupp, June Clark, Helen Hackett, Mary Knapp, Evaline Beckwith, Jackie Lorig, Mary Murphison, Bertie Randolph, Bette Jones, Patricia Patzer, Catherine Townsend and Kathryn Chase.

Comparing the Russian Pioneers," Prof. Hart, director of the group, said last night to scouts and parents, "We are proud to be the cause of the principles."

Professor Hart, of five education, went on to say, "The group, which was set up as we are organizing. Telling the Russian youth come a message of Pioneers, who are telling the story of their political doctrine, said that the American people are almost exact."

Telling the local scouts that Russian youths automatically became a member of the Young Pioneers, which is only a preparatory course for communistic political doctrines, Professor Harper said that the Russian organization is almost exactly opposite from the American one in its ideals.

The Russian organization has no particular desire to see justice done, nor does it advocate freedom of speech, truthfulness and what is more serious, freedom of religion.

Preceding the banquet, the Rev. Herman Strub of St. Mary's church gave the invocation. Before Professor Harper's talk, Owen B. Thiel, scout executive, introduced den mothers, scouts and scout masters and cub scouts.

Following the speaking program, a motion picture, "The Scouting Trail to Citizenship," outlining the scout movement, was shown. A rededication to the scout oath and law, led by the scouts, concluded the program.

Charles E. Beckman, scout council president, served as toastmaster and general chairman, and Mrs. Bruce Mahan was chairman of preparations for the dinner, which was attended by representatives from Iowa City, Williamsburg and Crawfordsville.

Mother who assisted from the various troops and packs were Mrs. Glen Huston, Mrs. George Martin, Mrs. William Hart, Mrs. D. P. Mattes, Mrs. Dan Dutcher, Mrs. M. E. Wicks and Mrs. Charles Winters, of pack 2.

Mrs. E. P. Tyndall and Mrs. I. C. Nickols, of pack 11; Mrs. Ed Schippert and Mrs. Roscoe E. Taylor of pack 6; Mrs. Irving Schaeffer and Mrs. Fred Goss, of the sea scout ship; Mrs. H. V. Meredith and Mrs. Stephen Darling, troop 2; Mrs. William Condon, troop 10.

Mrs. Elza Means, troop 11; Mrs. Frank Fryauf, troop 13; Mrs. Frank Kinney, troop 14; Mrs. Francis Suerpel, troop 18; and Mrs. Benjamin Kimmel.

Kintzinger-Beranek Case Opens Today

Petit Jury Chosen For Damage Hearing In Local Courtroom

A petit jury of nine men and three women was empaneled at 11:43 yesterday morning to hear the \$5,668 Kintzinger-Beranek damage suit, opening in the district court this morning. Judge James P. Gaffney will preside.

Members of the jury are Adolph E. Novotny, Lloyd L. Rowland, Amelia Hudacheck, Hubert Curtis, Geneva H. Libby, E. E. Miller, Albert Rosman, G. S. Adams, F. A. Reger, Mary V. Gafeller, H. B. Wright and Henry Wood.

According to the petition, John W. Kintzinger as plaintiff, asks \$5,000 for injuries to his wife and \$668 for damages to his car, received in an automobile accident with a truck driven by Lee Fredericks, employee of Fred L. Beranek.

Kintzinger claims in his petition that the truck operator was negligent. The accident occurred July 22, 1940, four miles east of Solon.

Atts. France and France of Tipton, Wm. R. Hart and John W. Kintzinger, father of the plaintiff and former state supreme court judge, represent Kintzinger.

The law firm of Dutcher, Ries and Dutcher and Atty. Robert L. Brooke, West Liberty, represent the defendant.

3 University Doctors Will Represent SUI At Surgeons Congress

R. L. Irwin, Dr. Homer S. Elmquist and Dr. J. W. Dulin will represent the University college of medicine at a surgeon's congress to be held in Boston Nov. 3.

A paper on recent investigations relating to Prothrombin and Vitamin K will be Iowa's contribution to the forum.

The annual congress will differ this year from former sessions of the American College of Surgeons by allowing younger surgeons to participate actively in the program, as well as to present before the entire group samples of significant research work.

Teachers Examinations Will Be Held October 29

Regular uniform county examinations for teachers certificates will be given Oct. 29, 30 and 31 at the Johnson county court house.

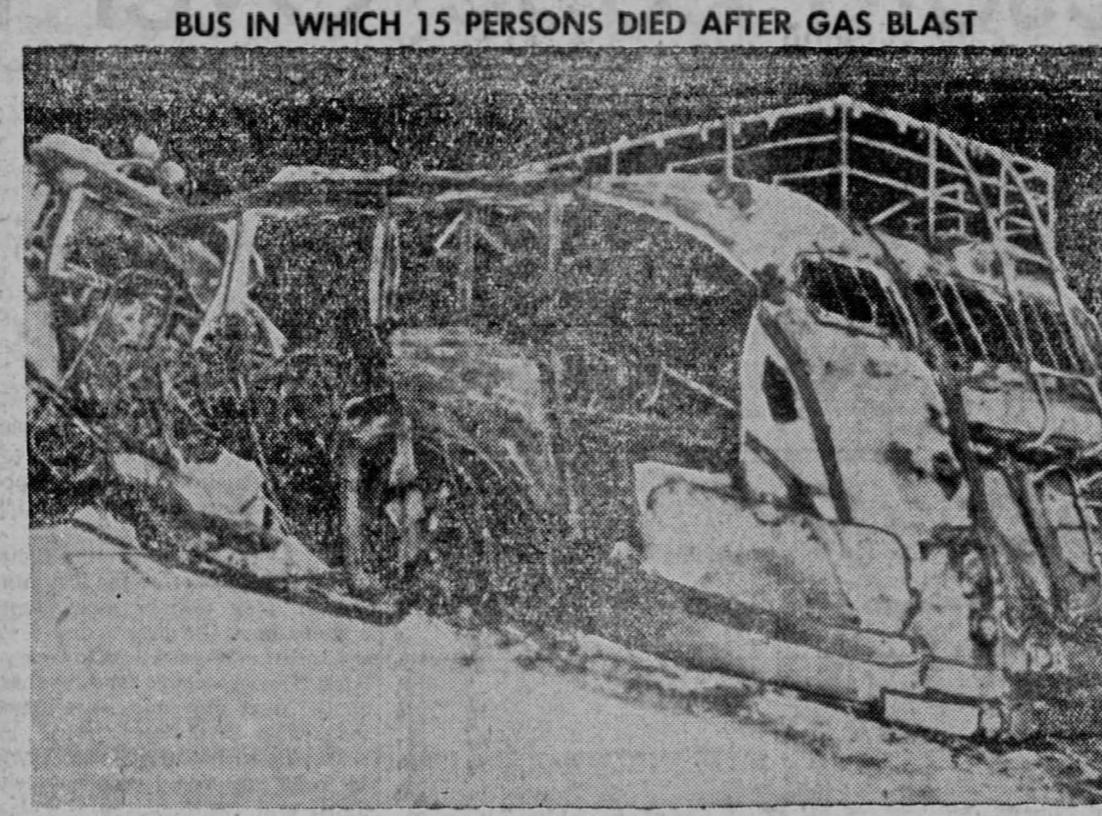

Government examinations for state teachers certificates will be offered only on Friday afternoon, Oct. 31.

22 U-High Students Named in Play Cast

Included in the tentative cast for "The Poor Little Rich Girl" are 22 University high school students, Open Munger, faculty director of the play, announced yesterday.

The Rev. Ilion T. Jones First Presbyterian Church "Wanted: More and Better Wishful Thinking"

Wishful thinking has been in dispute among us for years. And rightly so, if by wishful thinking you mean believing a thing for our own private pleasure or advantage without having any legitimate or substantial reasons for believing it.

But wrongly so, if you mean that human "wishing" is to be eliminated as an important factor in human life. For most all the great possibilities wrapped up with the human race are dependent upon human desire and determination.

That sort of wishful thinking is what Jesus had in mind when he used the term "faith." Faith is creative imagination, wanting a thing and believing you can get it and staying on the job until you get it. And faith in that sense is a social imperative.

We know enough about the wrong kind of wishful thinking to realize it is socially dangerous and demoralizing, often fatal. But the creative and constructive kind is one of the glories of man. In a half cynical mood James Branch Cabell said "Man alone of all the animals plays the ape to his dreams." It is because of that ability that man becomes under God a co-creator.

And that ability is responsible for most scientific discoveries and inventions. William James is right when he says "Hardly a law has been established in science, hardly a fact ascertained, which was not first sought after, often with sweat and blood, to gratify an inner need."

The desire for certain things, faith in certain things, creates them. Most of our moral, social and spiritual achievements were

born of desire. Over and over again the wish is father to the thought and the thought is father to the fact.

The Christian religion is a great leap in the direction of our moral, social and spiritual desires, a creative adventure to make real the things we believe ought to be in human relationships. Nothing is needed more than large numbers of people everywhere who want Christianity to become true, who wish it might become true, and who give it their vote to become true if it can.

The play will be presented in the University theater in December.

Employment Director Says Men Still Available For Fall Cleaning Jobs

Although quite a few jobs have already been filled, there are still men available for raking leaves, washing windows, and other similar jobs in preparation for the coming winter. John H. Patton, manager of the local Iowa Employment Security service asserted last night.

In addition to this, Patton announced that there were jobs open in domestic, restaurant and waitress work. He urged all people interested to report at the employment office between 8 and 11 o'clock in the morning.

Statistics Give Minnesota Edge Over Northwestern

Hawkeyes Stop Famed Indiana Passing Attack

Anderson Says Team Will Not Scrimmage Before Homecoming

Indiana's famed passing attack was on show at Iowa's practice field yesterday, and sometimes it worked against the two Hawk lineups, and sometimes it didn't.

With two freshmen, Dick Hoerner of Dubuque and Chuck Ucknes of Sioux City, impersonating the two Hoosier backfield passing aces, Billy Hillenbrand and Bob White, a mixed reserve team directed by Frank Carideo filled the air with footballs, but a new Hawkeye defense baited down about half the time.

No Contact Work

Dr. Eddie Anderson said the team would not engage in any contact work this week, but would be concentrating on its pass defense and its offense in the remainder of the drills before the Homecoming tussle Saturday.

In attempting to throw up a defense designed to stop Indiana, Iowa will be trying to stop one of the most dangerous teams in the conference, and the Hawks will be definitely red at the underdog. It's an established fact, however, that sometime this season all the offensive factors which make up the team will click at once, and at that time, Iowa will have itself a ball game.

That, evidently, is what Anderson is gambling on this Saturday, for all the Hawks are at full steam ahead with preparations for a victory. Yesterday, while one team worked on defensive formations against the reserves, the other polished up its plays against another bunch, and there was no slack in the two-hour drill.

Lineups Remain Same

Lineups of Monday remained the same, with Bob Otto, a 205-pound senior, keeping his varsity position of right tackle. At ends on the first team were Bill Parker and Bill Burkett, at tackles Jim Walker and Otto, at guards Gene Curran and Ross Anderson, at center Capt. Bill Diehl, at quarterback Al Coupe, at the halfs Tom Farmer and Bus Mertes, and at fullback Bill Green. This is the probable starting lineup.

On the second team were Jack Maher and Hank Miller at ends, Bob Knowlton and John Staak at tackles, Don Tweedell and Del Dickhoef at guards, Red Frye at center, Ben Trickey at quarter, Jim Youel and Hank Vollenweider at the halfs and Art Johnson at fullback.

For the second straight day, Bob Matthews, the sophomore place-kicker who volunteered his services to the team Monday, practiced his booting, and seemed to become better as he got his eye back.

Coach Herb Cormack Prepares Hawklets For Franklin Tilt

The cold weather halted any stiff preparations of the City high gridders for the final conference tilt of the year to be played tomorrow night at Shrader field against Franklin high of Cedar Rapids.

Coach Herb Cormack limited the activity of his boys to passing practice and running signals. Again the backs appeared without pads, but the linemen did a little contact work blocking two on one.

Cormack apparently is working with his Little Hawks play, hasn't given out any new plays this week. This is the first week since practice started that the Red and White gridders haven't been instructed in new plays designed for use against the team to be played on the week end.

Dave Danner and Bill Sangster again demonstrated their passing skill as they threw aerials all over and continually hit the ends who were far down the field.

Dean Yanush, who suffered a bruised shoulder last week and re-injured it in the Davenport game, was in full suit last night. It was at first thought that the big tackle would be out of the last conference game.

The Little Hawks are now in second place in the Mississippi Valley race, but a victory over the Thunderbolts could give them a clear title. If Dubuque beats Davenport and West Waterloo beats East Waterloo, Davenport and East are now tied for the loop lead with three conference wins and no defeats. Iowa City has three marks in the win column against one defeat.

Indiana Drills Hard To Stop Green

BLOOMINGTON, Ind. (AP)—The Indiana football team went through a strenuous drill on defensive tactics yesterday in hopes of being able to stop Iowa's Bill Green in the game with the Hawkeyes at Iowa City Saturday.

Quarterback Lou Saban did much of the place-kicking in place of injured Gene White, while Billy Hillenbrand and Earl Doloway took care of the punting. When Coach Bo McMillin turned to offense, he kept Hillenbrand busy tossing passes and leading backs through running plays.

Blaik No Magician Just Taught Army To Win, Not Lose

WEST POINT, N. Y. (AP)—Professor Red Blaik, the magician of the moleskins, wants it definitely understood that no one pulled any rabbits out of a hat to bring Army back as a football power.

Says what the majors and colonels in the far flung army outposts try to tell you about the miracles Red has worked since taking over on the plains, there was nothing to concocting the winning cocktail but a jigger of horse sense and a dash of making the players realize it was just as easy to win as to lose.

Pooh-Poohs Idea

As the entire cadet corps, from the football captain down to the rawest stiff-necked plebe, made ready yesterday for the annual big battle with high-gearred Notre Dame Saturday, Red sat back and pooh-poohed the idea that the starting shift from two years of Army losses to a so far undefeated campaign necessitated any miraculous magic on the part of himself or his staff.

"Why," he said, "we've treated these fellows just like we would any ordinary men. We've approached them from the common sense angle. We've tried to tell them why we're having them do certain things so they'd know why they were working hard on certain football fundamentals."

New Mental Attitude

"When I first arrived, the boys didn't know what the hard work was for. But after they'd won a couple, they got the idea in a hurry. That's all there was to it. They're college men and they realized that if they were going to work hard they might as well do it to win as to lose. As for saying I've done the coaching job of the year here—well, I'm no Houdini."

Veenker Says Lack Of Tradition Loses Games

DES MOINES (AP)—George F. Veenker, Iowa State athletic director, believes that lack of a "winning tradition" may be one reason why Iowa's major football teams are short of victories this fall.

He insisted the coaching staffs cannot properly be blamed because "the coach does not live who can remedy the situation over the long pull until a winning tradition is established, and that can't be done over night."

Homecoming Posters Now Available

This is a picture of the HOMECOMING card which will decorate the fraternities and sororities lounges over the homecoming week end. The card is done in gold and black and measures 14 inches wide by 22 inches high. Bishop Sign Co. is producing the cards at 75c each, and they urge decorating committees to phone in their orders by 1 p.m. Thursday in time for delivery on Friday.

Bishop Signs ... Dial 7411

Each team is allowed to run through daily workouts this week in preparation for the 20th annual State Inter-Scholastic Mile Team race to be held here Saturday morning at 10:30.

Each team is allowed to run five boys, with the first three counting. Schools are divided into three classes; Class A consisting of 400 students or over, Class B from 10 to 399, and Class C of 100 students or less. The U-high harriers will compete in Class B, in which they were last year's winners.

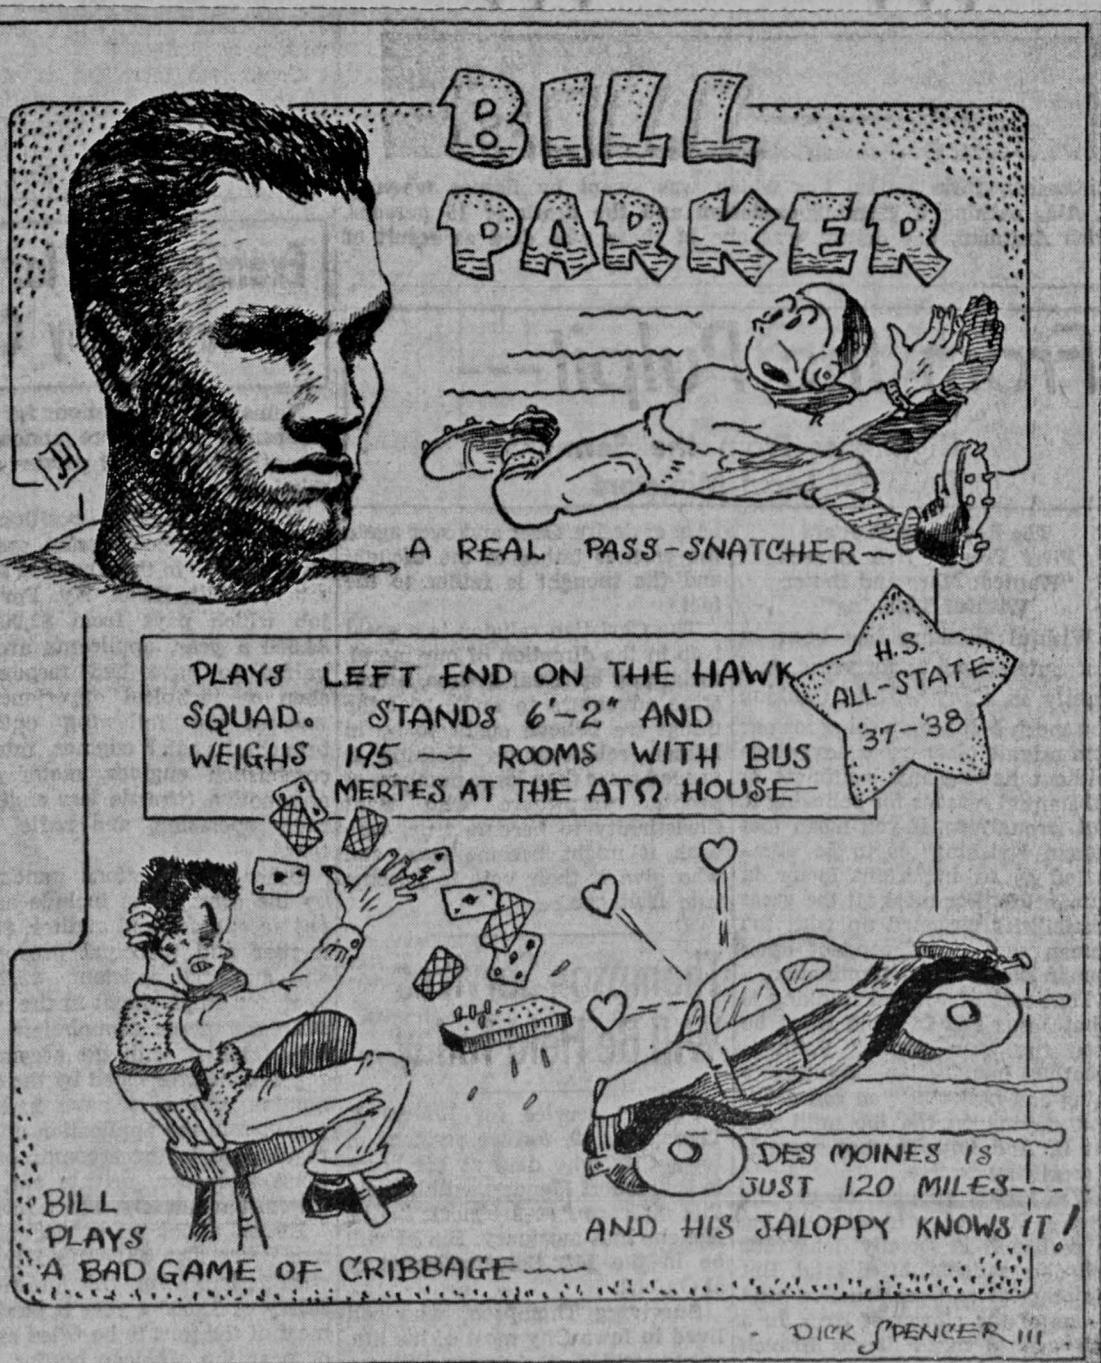

U-high tracksters to run in this state meet will be Fred Zeller, Frank Zeller, Ed Smith, Lewis Ward and Joe Arndt.

Almost automatically that lines up a great program for Saturday when, in addition to the Minnesota-Northwestern tussle of titans, Texas takes on S. M. U., Notre Dame meets Army, which is a

Coach Brechler Drills U-High on Tackling

Both Big Ten, Southwest Conference Place More Than 1 Team In First 10 of AP Poll

Dissatisfied with the U-high Bluehawks' tackling in the game with West Branch last Friday, Coach Paul Brechler yesterday sent the Rivermen through a two hour drill on tackling.

Believing the Rivermen have a sufficient amount of offensive power, Coach Brechler put great stress on the fact that they need to revert to elementary tackling drills to strengthen their defense.

"Lula," the headless tackling dummy, took her place in yesterday's practice session. The entire squad took a half hour work out on the dummy to warm up for further tackling practice.

A fresh set of backs was continuously running against the linemen in open field tackling. Bud Halvorsen, star lineman, seldom missed his man as he charged into the ball carrier consistently to mark himself as the best tackler of the U-High squad.

Friday afternoon will be the last game of the season for the U-high team and it seems determined to end the season with a victory.

Tipton will be set for revenge against the Bluehawks' last year 13-12 victory. The Tigers boast in John Wilson and Bud Wille, two fast running and passing backs. Tipton has two exceptional defensive men in the line, Capt. Carl Wehde and Virg Stinocher.

Both teams have a .500 rating in the conference standing. The Tipton Tigers have beaten Mt. Vernon and West Liberty. They have beat Monticello and lost to the high-powered Anamosa eleven and West Branch.

'Little Tokyo' Watches With Mingled Emotions U.S. Japanese Relations

LOS ANGELES (AP)—"Little Tokyo," largest Japanese colony in the United States, is watching every diplomatic move in the far east with mingled emotions—fear, hope and loyalty to two countries.

There are 40,000 persons of Japanese birth or extraction in the Los Angeles colony, which nestles, self-contained, in the shadow of the towering city hall. As war tension mounted, 250 of them left yesterday for San Francisco, hopeful of returning to their homeland aboard the *Tatsumi Maru* next Sunday.

Bankers, students, importers and exporters, treaty merchants here under government sanctions were among those who bade farewell to friends and relatives.

They are escaping the problems of the Nisei—the American-born Japanese. There are 26,500 who have had all the schooling and training of American boys and girls, yet are restricted by Japanese ancestry and tradition.

The 250 also are escaping problems of the Issei, 12,500 strong, who are irreducibly Japanese and cannot become American citizens. The

Issei have watched their sons and daughters mold their thoughts and manners to the occidental pattern.

In the Japanese colony are 1,200 Japanese nationals, their allegiance bound to the emperor.

Omaha Speaker Declares Priorities Unemployment Threatening Thousands

OMAHA (AP)—"Priorities unemployment" threatens thousands of men and women, H. W. Prentiss Jr., of Lancaster, Pa., chairman of the board of the National Association of Manufacturers, charged in a speech here last night.

"Thousands of men and women are threatened with unemployment while small business struggles and non-defense manufacture withers in the calloused hands of governmental complacency," he declared in a banquet speech closing the annual Associated Industries of Nebraska meeting.

"Part of the industrial body cannot grow permanently if the rest is left to die. What is harmful to big business is harmful to little business; what hurts the small manufacturer hurts the large manufacturer."

Cyrus McCormick, chief of the auto and truck section of the of-

fice of price administration, was the other principal banquet speaker.

Commander L. Ellsworth Awaiting Call to Service

JACKSONVILLE, Fla. (AP)—His plans for future explorations fled away under "unfinished business" until the war ends, Comdr. Lincoln Ellsworth disclosed yesterday he is awaiting a call to active service with the navy.

Ellsworth, who holds the rank of lieutenant-commander in the naval reserve, said "I am ready at any time. I'm just sitting around waiting to handle anything the navy thinks I can do."

The noted explorer predicted expanded round-the-world air transportation facilities after the war.

A.A.A. Seeks Service Men

NEW YORK (AP)—The Amateur Athletic Union will open the door to service men for competition in A.A.U. events by waiving registration, residence rules and entry fees for national championships if the legislation committee's proposal is adopted at the annual meeting in Philadelphia, Nov. 15-17.

ADMINISTRATION

6,620 Badges Sold on First Day of Contest

Zeta Tau Alpha sorority, proving a real threat to the Alpha Xi's, winners of the Homecoming badge sale for the past three years, reported 2,350 badges sold at the end of the first day.

Reports from the three competing sororities last night are as follows:

Zeta Tau Alpha 2,350
Alpha Xi Delta 2,270
Sigma Delta Tau 2,000

The first day's sales compare favorably to those of other years," said Prof. L. C. Zopf, chairman of the badge sales committee.

The badge sale, used to finance all Homecoming activities, will continue throughout the week.

1st Ward, University Heights Hold Second Food Demonstration

First ward and University Heights met last night at the Community building for the second in this week's series of "A Stronger Staff of Life" nutrition shows.

Mrs. Eldon Miller and Mrs. Otto Vogel demonstrated whole wheat bread baking and cereal preparation. Ward chairman and co-chairman are Mrs. Arnold G. Derksen and Mrs. George D. Koser.

Hostesses at the meeting included Mrs. C. O. Paine, Mrs. Albert Sidwell, Mrs. F. M. Barker, Mrs. Norman Froiland and Mrs. Paul W. Richardson.

The same demonstration will be held tonight at 7:30 in the Community building for persons of the second ward and Caldwells Heights. Actual cooking will be done by Mrs. John Randall and Mrs. Paul Ruth.

Third ward will also meet tonight at 7:30 in the home economics rooms of Horace Mann school. Demonstrators will be Mrs. C. L. Woodburn and Mrs. LeRoy Vavra.

Mrs. Dick Jones Attends Regional Church Meeting

Mrs. R. J. (Dick) Jones, 107 Grove, left yesterday morning for Omaha, Neb., where she will represent the Davenport association of Congregational women at a midwest regional board meeting of the Iowa federation at the Congregational church at Omaha, today.

Mrs. Jones is director of the Davenport association of Congregational women. Representatives from 17 states are expected to attend the meeting.

Forgery Charge Filed Against Swartzendruber

An information charging forgery was filed in the office of J. M. Kadlec, justice of the peace, yesterday against Harry Swartzendruber by Yetter's store of Iowa City.

The information states that the defendant forged a check on the Wellman Savings bank obtaining \$10 from Yetter's store on Sept. 15, 1941.

Retailers to Meet

The Retail Grocers and Butchers association will hold their regular monthly meeting at 7:30 in the chamber of commerce office in the Jefferson hotel. Plans for the next month will be decided.

Final Games in Women's Volleyball Tournament To Be Played Tonight

Winners in the women's intramural volleyball tournament will be decided in the final round of games tonight at 7:15.

Currier teams II and V are undefeated and have a chance to tie Coast House and Eastlawn II who have won all their games.

The intramural mixed teams volleyball tournament starts tomorrow night in the women's gymnasium.

Games will be played either Wednesday or Thursday night each week of the tournament by each team.

Ruth Magill, A4 of Atlantic, W. R. Head of intramurals, is in charge of the tournaments.

6,620

"The first day's sales compare favorably to those of other years," said Prof. L. C. Zopf, chairman of the badge sales committee.

The badge sale, used to finance all Homecoming activities, will continue throughout the week.

Three Iowa City doctors, now officers in the 34th Division of the 136th Medical regiment stationed at Camp Claiborne, La., are utilizing the most modern developments of medical science to give the soldier in the United States army a far better break this time than he had in 1916.

Capt. Robert Hardin of the 34th Division, Maj. Kenneth Brinkhous, commander of the 125th Field Artillery medical detachment and Lieut. Col. Arthur S. Fourt, commander of the 136th Medical regiment, are making rapid advances in the organization of a gigantic "blood-bank" system.

Thus in case of shock or loss of blood, a doctor need only look at the type of blood and draw from great reserve stores the blood necessary for the operation. Even the serum prepared in advance and stored by means of a new refrigeration technique.

Much of the success of these new life-saving methods has been due to the work of Captain Hardin. He was in operative charge of the recent blood tests in the 34th Division and has worked out a new laboratory technique for mass testing. Major Brinkhous assisted him and was in charge of one of the two laboratories.

These transfusions are made possible by the blood-bank system. Each soldier is tested for bloodtype and the result, carefully annotated and checked, is stamped upon his vital records and upon the metal identification tag he wears around his neck.

Under the direction of Captain Hardin, one of the most prominent young specialists in the country, these men have enabled field doctors to make blood transfusions that were impossible during the last war.

Shock and loss of blood cause more deaths in battle than the actual destruction of physical tissue by a projectile. Blood trans-

fusion, under combat conditions and within the zone of fire, will decrease such cases greatly.

These transfusions are made possible by the blood-bank system. Each soldier is tested for bloodtype and the result, carefully annotated and checked, is stamped upon his vital records and upon the metal identification tag he wears around his neck.
