## U.S., Britain to Pool Resources

## German Troops Repulsed After Gains in Hand-to-Hand Fighting

### Factory, Farm of Both Nations To Be Joined

### Roosevelt, Churchill Make Joint Statements in Washington, London

WASHINGTON (AP)—The factories and farms of the United States and the United Kingdom were pooled yesterday in such a manner that their operations may be directed toward winning the war as if the two countries were one.

This was accomplished by the establishment of two joint boards, announced simultaneously by President Roosevelt and Prime Minister Churchill in Washington and London. One is a "combined production and resources board" and the other a "combined food board."

Donald M. Nelson, chairman of the war production board, and Oliver Lyttelton, British production minister now on a mission here, comprise the production and resources board. Secretary of Agriculture Wickard and R. H. Brand, head of the British food mission here, compose the other.

The production and resources board is to combine the production programs of the two nations "into a single integrated program, adjusted to the strategic requirements of the war, as indicated to the board by the combined chiefs of staff, and to all relevant production factors," President Roosevelt told Nelson in a memorandum.

The duties of the food board, as outlined in a memorandum from the president to Wickard, are to investigate and formulate plans "relating to the supply, production, transportation, disposal, allocation or distribution, in or to any part of the world, of foods, agricultural material and equipment."

"In principle," this memorandum said, "the entire food resources of Great Britain and the United States will be deemed to be in a common pool, about which the fullest information will be interchanged."

### U.S. Planes Bombard Jap Rail Supplies, Airdrome, at Lashio

WASHINGTON (AP)—The war department announced last night that American bombers carried out an attack on the Japanese at Lashio, terminus of the Burma road, scoring hits on the airdrome and planes on the ground, as well as on railway equipment and supplies.

None of the bombers was lost by enemy action, said a delayed report from Major General Lewis H. Brereton, but four of the planes crashed in the Burmese mountains because of bad weather on a return trip to the base in India.

Enemy fighters attacked the planes without success during the raid, Brereton reported to the department.

### No Immediate Gas Ration Expansion—F.R. Orders Scrap Rubber Drive

WASHINGTON (AP)—A nationwide campaign to collect scrap rubber was announced yesterday by President Roosevelt. The chief executive set no date for the drive, but expressed hope that it could be started shortly and completed in two weeks.

He indicated there would be no expansion of the present eastern seaboard gasoline rationing until after the results of the campaign were known.

No Accurate Estimate  
One of the major problems involved in the current gasoline-rubber situation, the president told his press conference, is the fact that there are no accurate estimates

### Interpreting The War News

### Premier Tojo Must Be Whispering Grim Tidings to Hirohito

By KIRKE L. SIMPSON  
Wide World War Analyst

Whatever else Premier General Hideki Tojo, the real ruler of Japan, told Emperor Hirohito in his report on the war yesterday, he had only bleak tidings from the Midway island area. The scope of the Japanese disaster there has swelled day by day, hour by hour as the returns came in.

Jarring Blow  
Tokyo's failure even to admit there has been a battle at all is proof positive that a jarring blow has been struck not only in grim retaliation for Pearl Harbor, but at the very foundations of the Japanese conquest dream. How serious a blow Tojo himself may not have known nor been able yet to reveal even to his nominal sovereign.

The Japanese sea force plight was so desperate once the Midway trap was sprung upon it that its laggard units, battered lamel-duck craft, must have become a menace.

Spoor of Sea Trails  
They were the spoor of sea trails. Falling behind uninjured or less damaged craft, they gave clues to the far-ranging American air scouts as to where their more fortunate fugitive comrades might be seeking refuge. That could bring American submarines on scouting duty into their path.

Nor could Japanese pride permit surrender of injured craft even when hopelessly cut off. What happened to those enemy lame-ducks may never be known; but the ancient Sumarai code to which Japan's military caste still clings suggests wholesale hari-kiri for ships and crews somewhere in those tide waters.

### Inter-City Bus Travel Drastically Curtailed By New ODT Order

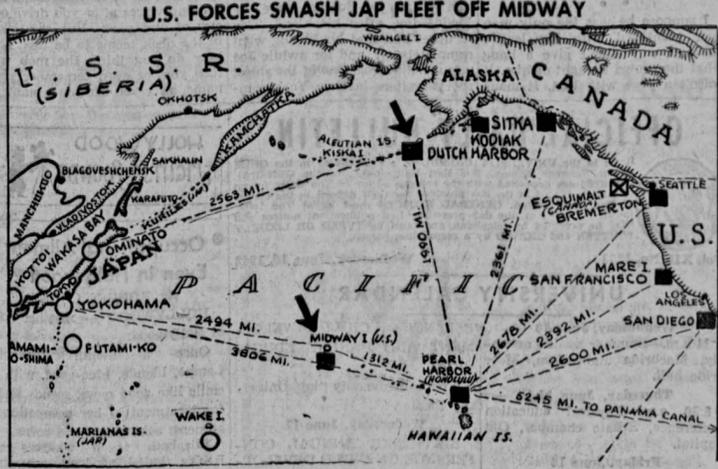

WASHINGTON (AP)—Sharp curbs on inter-city bus service throughout the nation were announced yesterday as the office of defense transportation moved to conserve travel facilities vital to the war program.

Taking command of all such bus lines, the ODT directed that beginning July 1 present routes shall be frozen, competitive service pooled, all express runs abolished, and service to places of amusement drastically restricted.

Under the last-named clause in the order, no inter-city buses may be operated for the "primary purpose" of serving places of amusement or entertainment. Under places of amusement are included such things as golf courses, athletic fields, race tracks, theatres, dance pavilions and beaches.

### Offer Services to Mexico

MEXICO CITY (AP)—Gen. Jose Maja, the Spanish republican leader who held Madrid for years before General Franco's nationalist victory in the civil war, yesterday offered to serve Mexico in the war against the axis.

Powerful American naval forces aided by a substantial air arm have scored a crushing victory over Japanese fleet units in the waters surrounding Midway island. Although Tokyo has failed, as yet, to report the battle, there is little doubt that the Nipponese suffered their greatest naval setback of the entire war in this battle. Declaring that Pearl Harbor has now been "partially avenged," Admiral Nimitz, a naval veteran noted for his conservatism, stated that at least three enemy warships had been sunk and eleven more "badly damaged." As if to prepare the Japanese people for the big losses off Midway, the main Tokyo newspaper Asahi has reportedly published an article which expounded the theory that "we can't win all the time," then dipped into naval history to show that the Jap navy can "take it."

## Jap Propagandists Gird Nation For Announcement of Sea Losses

### Doctors to Aid In Emergency

### Urged to Organize In Handling Medical Necessities of Nation

ATLANTIC CITY, N. J. (AP)—America's physicians were told directly and bluntly yesterday that they must organize immediately to take over the emergency military and civilian medical needs of the nation—or else.

The "or else" phrase was laid down bluntly by Paul V. McNutt, federal security administrator, in a brief and pointed address before the house of delegates of the American Medical Association at its opening meeting here.

"There is an apparent lack of interest on the part of your profession to volunteer," he declared, "because of reluctance to give up private income for army pay. That lack of interest is, in a large measure, based upon the failure to drive home to the average physician the magnitude of the need."

McNutt also declared that medical practice as it has been carried on before the war will be altered drastically—the first statement made by a government official on the much-disputed question of government regulated medical care.

The administrator declared: "Their economy will certainly sag after the war and there is need for governmental assistance to provide clinical equipment,—facilities for medical care and otherwise to help in bearing the capital costs of servicing these communities," after the war.

### 'We Can't Win All The Time,' Nippon Newspaper Expounds

### Allied Planes Down 13 Jap Fighter Craft

NEW YORK (AP)—The Japanese people were being told guardedly yesterday that they must be able to withstand the news of naval losses, and competent propaganda analyst saw in this a significant indication the Tokyo government was preparing to announce some of its heavy reverses in the battle of Midway.

With the country generally in complete ignorance of this great and destructive engagement at sea, the big Tokyo newspaper Asahi came out with an article by an unidentified admiral which not only expounded the theory that "we can't win all the time," but also dipped into history to show that the Japanese navy can "take it."

"Complete Silence"  
This article was broadcast by radio Berlin, not by radio Tokyo, and shortly thereafter the German broadcasters were reminding their listeners that "complete silence is still preserved in Tokyo on the naval battle alleged by U. S. A. quarters to have taken place off Midway island."

PEARL HARBOR (AP)—An American fighting man, from the historic air and naval engagement off Midway island, has brought back a vivid story of unrelenting punishment that turned a Japanese attack into a rout.

This stirring saga, related by Ensign George J. Gay of Houston, Tex., left no doubt that another inspiring chapter of American fighting history was written around the enemy attempt to seize a strategic outpost.

Gay was typical of the many men in the navy who are "tough and full of fight," said Admiral Chester W. Nimitz, commander of the Pacific fleet, in disclosing his first eye witness account of the battle.

Shot down early in the fight, Gay witnessed from the surface of the sea what took place.

News of the great victory was taken in stride by Pearl Harbor and Honolulu, scene of the enemy sneak attack that brought war a half-year ago. A victory message to the population by Lieut. General Delos C. Emmons, brought no great celebration among Honoluluans, such as might have been expected. People who had worked 24 hours a day for days simply went home and slept.

### Expansion of Defense Instruction in State Schools Contemplated

### SUI One of 4 Iowa Colleges Offering Emergency Courses

An estimated 5,000 persons will be enrolled in engineering, science and management defense training courses in Iowa schools during the next fiscal year beginning July 1, the office of education, Washington, D. C., announces.

Four Iowa educational institutions are already cooperating in the program—the University of Iowa, Iowa State college, Drake university and St. Ambrose college—but A. A. Potter, United States education office expert consultant, indicates that additional colleges might be designated if the needs warrant such action.

Plans are being made to step up the training of engineers and scientists in state educational institutions as a part of a nationwide program to meet an "acute shortage" of technical and supervisory personnel in war industries and the armed forces.

University of Iowa, cooperating with the United States office of education, started its first defense training course Jan. 6, 1941, at Rock Island, Ill. This was a course in "Airport Engineering."

Since then the university has offered 57 different defense courses, including a total of 79 classes. The college of engineering reports that 2,595 students have been enrolled in the various classes.

In addition to Iowa City, the university has sponsored defense training courses in Burlington, Dubuque, Davenport, Cedar Rapids, Ft. Madison, Waterloo, Clinton, Decorah, Moline, Ill., and Rock Island, Ill.

Defense courses being offered by the university which are now in progress are "Chemistry of Powder and Explosives," "Alternating Current Circuits" and "Tool Engineering." Sections of the latter being conducted in Rock Island. (See WAR COURSES, page 7)

### British Air Command Calls Previous Raids Mere 'Gentle Zephyrs'

### Mere 'Gentle Zephyrs'

LONDON (AP)—The RAF bomber command last night was marshalling its incalculable air strength for assaults on Germany's vital war industries of the Ruhr and Rhineland which Air Chief Marshal A. T. Harris predicted would make the 1,000-plane raid on Cologne look like "a gentle zephyr of a past summer."

The Ruhr, one of the chief citadels of the German arms industry, was battered Monday night for the fourth time in eight nights. This was one of the series of "medium" raids in which the RAF is employing several hundred planes, but not so many as in the earlier four-figure attacks on Cologne and Essen.

Harris, commander in chief of the bomber command, said in a news reel that these raids sound testing attacks reported to have cost them 6,300 dead and 74 tanks in ten days.

Other sectors of the 2,000 mile front appeared quiet.

### 'Martyr' Heydrich Buried With Honors

### 1,000 Planes a Night

"Do not imagine we can yet put a thousand planes a night whenever we please," Harris declared. "That time will come. It may not long be delayed. But it is not yet."

"Let the nazis take good note of the western horizon. There will see a cloud as yet no bigger than a man's hand. Behind it lies the whole massive power of the United States of America."

### Raid Alarm Sounds On Canadian Coast

VICTORIA, British Columbia (AP)—Planes approaching the northerly Canadian Pacific port of Prince Rupert yesterday caused a sudden "imminent danger alarm," the first in Canada, but it was lifted when the aircraft were identified as friendly.

### Russian High Command Acknowledges Early Nazi Gains by Sheer Weight of Numbers, But Claims 2,500 Killed

### Germany Due For Greater RAF Assaults

MOSCOW, Wednesday (AP)—Soviet defenders of Sevastopol killed 2,500 Germans yesterday in savage hand-to-hand fighting as the nazis hurled wave upon wave of infantrymen at the approaches of the Black sea naval base, the Russians announced officially early today.

By sheer weight of numbers the Russians said the Germans blasted their way forward in one sector of the mountain-studded battlefield but that counter-attacking red forces hurled them back again.

Twenty-four German tanks were knocked out, the midnight communique said. It listed six German planes shot down and 14 damaged.

Under siege seven months, the defenders of Sevastopol have been subjected to a series of extremely vigorous assaults for five days by planes, tank and infantry in what appeared to be an all-out German assault. But nowhere was there a sign of wavering in the Russian lines.

Upward of 50,000 picked German troops already had died before Sevastopol since last fall, and the toll mounted swiftly by the hour, the Russians reported.

While veteran red troops parried every thrust of Germans the civilian population went into cata-

combs deep under the city to weather the fiery and explosive storm of the German air force.

A correspondent for Izvestia, official newspaper, said all vital industries and institutions were established under a thick protective layer of rock leaving the ground free for full development of the defense.

Some 800 miles to the north, fighting intensified before Moscow where the Germans made several testing attacks reported to have cost them 6,300 dead and 74 tanks in ten days.

'Jap-Russian Front Unusually Peaceful'  
BERLIN (From German Broadcasts) (AP)—The German radio broadcast a Tokyo dispatch last night which said life on the Siberian-Manchukuoan frontier is "unusually peaceful" and that the Russians "are carefully avoiding any incidents and treating the Japanese most amiably."

(Though Russia is at war with Germany—an ally of Japan—Moscow and Tokyo have been adhering strictly to their year-old neutrality pact. Chinese intelligence reports have told of massing of great numbers of troops on the Russian Siberian border. The Chinese predicted an imminent battle.)

The Berlin account said "there no longer is any sign of military activity on the Russian side of the frontier."

"Factories are idle and husky Soviet soldiers who formerly were serving as frontier guards have been replaced by frail-looking youngsters," the German radio quoted the Tokyo dispatch.

### Twelve Lose Lives As Two Naval Blimps Crash Over Atlantic

LAKEHURST, N. J. (AP)—The nation's first fatal blimp accident in nine years was logged yesterday as one of its worst when rescue boats found only one survivor among 13 men aboard two lighter-than-air ships which collided and fell into the Atlantic.

Both blimps were engaged in a secret experiment when they plunged into the ocean late last night.

The training ship G-1 apparently carried to the bottom all eight men in its cabin. The one man rescued yesterday was from a smaller training craft, the L-2. Bodies of three of the other four men aboard this airship were taken from its tangled but floating wreckage.

# NEWS BEHIND THE NEWS

By PAUL MALLON

## Not Armed Violence, But Armed Peace Should Prevail After War

WASHINGTON—A clergyman in Massachusetts has written me:

"I read your column regularly with interest and mostly with profit. I am, however, deeply discouraged with your remarks on the international situation after the war . . .

"It is positively immoral to believe that we must remain definitely in a state of armed violence, and that the world must remain under the dominance of the rich and powerful . . . You despair of leagues of nations to preserve world order, claiming that they are the dreams of idealists and cannot be achieved.

"But you completely fail to appreciate that such a condition has already been achieved in large areas of our life—witness the civil community and the national state. Only in the international order do we have the chaos and anarchy which you wish to preserve . . . I am sorry to see you sponsor any such idea."

Dear Dr. . . . You did not note the limitations in my column. I did not advocate armed violence, but armed peace. I did not want American conquest of the world or the creation of an American empire, but only security against the violence of others.

Yes, we have had, as you say, for 6,000 years in the international order something approximating chaos and anarchy in varying degrees, but I do not wish to preserve that.

I want to stop it by making our own Christian country with its ambitions limited to its own shores, with no appetite for conquest anywhere else in the world, a supremely self-sufficient military authority and a powerful example for good. I want armed Christianity and armed Americanism, as against passive Christianity and a weak America.

We have tried it your way many times, and, as your letter concedes, it never has worked. Just trace the history of our efforts with Japan since the disarmament conference of 1922, and you will see precisely what I mean.

I came to Washington for that historic conference. It initiated me as a reporter here. I then held the same views as you, even more strongly.

I was impressed deeply with the sincerity of Charles Evans Hughes, then secretary of state, who set an example to the world by scrapping our ships and thus causing other nations to adopt our policies of disarmament and good fellowship. It seemed silly for all of us foolishly to support great fleets.

Now I know that what Japan is doing to us was made possible only by our own leadership and love for disarmament, which began in that conference.

Japan acquired islands in the Pacific under the Versailles treaty, (Marshalls, Gilberts and Marianas) which were called "mandates", a term which assumes a facetiousness now in view of the use to which these islands have been put. She promised not to fortify them, but did. They are the air bases and the sea bases which made possible the Japanese program of aggression, the fall of Singapore and the Philippines and the threatening of Australia.

We gave more islands to her in our disarmament treaty along with a 3 to 5 ratio in naval craft (they would have 3 capital warships to our 5 capital ships) as a gesture of friendliness and good will to inspire the bargain. Japan did not then have 3 ships to our 5.

But under the promise she made that we were all going to live peacefully thereafter, we held our fleet at the index of 5. We stopped building while she built up to a relationship of 3 to 5 with us.

In other words, by our own disarmament leadership, she held our fleet static, so that she could build up to three-fifths of what we had. When she acquired that ratio in a few years, she then openly broke the treaty. She continued on building until she acquired equality with us if not actual supremacy, and started the war at the time of her choosing by a treacherous attack.

I think you will agree if you look at this matter fairly that our own disarmament policy is at fault and is the root cause of our present predicament in the Far East which has cost so many lives and will cost so many more.

If we had not stopped building our navy for fifteen years, if we had not scrapped ships while others scrapped only blueprints, if we had not been lulled into a false sense of security and trust, we would never have allowed Japan the opportunity to make her far eastern conflict possible.

Why, we even shipped scrap iron and oil to her up to a few months before the break of her treacherous attack at Pearl Harbor, so great were our hopes of peace by treaties and of justice by example. Shells made of that scrap iron are now killing our boys. That oil is being used against us.

I have heard it said that the Sixth avenue elevated in New York, sold to our junk dealers, finally reached Japan and is now being fired back at us in the form of shells and bombs. It could be, under our policy.

Is not the lesson of all this too plain and too fresh to be forgotten? Can we now say these lessons which are multi-

## Sugar Beet Industry Is Flourishing In Nineteen States of the Union

Here in the United States we've been so used to getting all the sugar we want that we haven't given much thought to the little white crystals we put into our coffee, or stir into our cakes. But now things are different. When we have to get along with eight ounces of sugar a week per person, we will think about where it's coming from, and is there any danger of our being obliged to do with even less.

In times past, we've been largely dependent on cane sugar grown in tropical, off-shore areas. If we had been entirely dependent on the sugar from those sources, we might be facing a sugar famine today, since those sources are now obviously unreliable. Fortunately, however, we are growing sugar right here in our own country, in 19 states from Ohio to California. This sugar is obtained from beets, a product identical with cane sugar. This year our beet sugar farms and factories will furnish us with 1,750,000 tons of sugar.

Sugar beet factories have in the past sliced between 8,000,000 and 10,000,000 tons of beets a year, extracting from them enough sugar for the normal needs of 30,000,000 Americans. During the 1942 season they will produce enough sugar to fill the rations of 80,000,000 persons.

In another way also the sugar beet industry in the United States is helping to carry the load brought on by the war. The "Beat the Axis with Beets" slogan recently adopted by the beet growers in Ohio expresses this other need.

Every time one of our 16-inch guns is fired it takes three tons of sugar beets to replace the sugar used. Nine hundred and fifty pounds of raw sugar is used to make the alcohol, which, in turn, goes into the powder used in each of the projectiles fired from our coastal defense guns. This industry, in its infancy during the first world war, has become an important factor for us in the present war.

It is good for us to think about how we get our sugar and too, the other products now being rationed. Usually they are the result of scientific planning and hard work. Nothing good that we get or achieve in these war years will be a miracle. It will be the result of our all getting together and working twenty-four hours a day to beat Hitler and the Japs.

## Farmers of Washington State Employing High School Students

Farmers of the mid-west, faced with a shortage of labor for the fall harvest, are watching with interest an experiment in the state of Washington involving use of junior and senior high school students in tending and harvesting truck garden, berry and other crops which contribute heavily to the food reservoir of that defense industry area.

The majority of the workers needed at the peak of the harvest are already in the fields—recruits from schools throughout the state under a state-wide "Food for Victory" program. In the Seattle and Tacoma areas, representatives of schools, the Parent-Teachers association and the U. S. employment service have been marshaling for some time the potential farm labor capacity of high schools.

Though the farmers of the mid-west do not require the thousands of extra hands during harvest season that are required by truck gardening areas, they do need extra help and they are going to have a difficult time finding it. Their problem has to be settled, and the army of high school students seems to many to be the logical answer.

plied by all the history of the human race back to the beginning of time should be swept aside and we should do it all over again with more treaties and more disarmament!

Never in the history of the world has a nation lived up to a treaty which was against its interests. Let us not deceive ourselves about that or believe that even we are superior men in that respect.

You and I would be the first to advocate it was against what we deemed the best in-breaking of a treaty by the United States if interests of our country. How, then, can we be foolish enough to put our trust in the treaties of others?

Now, don't misunderstand me. I say make all the sideline treaties you want and do whatever else extraneous that you want, but first get yourself the biggest army and navy in the world, and keep it.

Don't sell it out. Don't scrap it. Don't try to be a defenseless big brother to the world. I say trust only your own power if you want peace and security.

# A MAN ABOUT MANHATTAN

## Terry Is Unaffected By Baseball's Crowds

By GEORGE TUCKER

NEW YORK—I once saw Bill Terry come to bat during a tense moment in a game between the Giants and the Cubs. Two men were on base and two were out. Terry swung hard and dribbled an easy infield roller to the box and was thrown out. The mob booed in disgust. Terry walked back to the dugout altogether unaffected by the boos. Later, in the same game, he drove a home run high and far over the left field wall. The crowd went wild. Terry walked back to the dugout without even knowing what the crowd was doing.

I suppose he was the only man ever identified with big league baseball who didn't give a hang what the crowd thought of him. It wasn't a pose with him. It made

absolutely no difference to him whether you liked him or hated him or were only indifferent. In this he was wise. Some players, indeed most players, are visibly affected by crowd reactions. When the crowd cheers they are in a sort of cocaine heaven. When it boos, they become morose and lapse into dejected moods.

Joe DiMaggio did this when he first came up to the Yankees. He hadn't learned, then, that the boos and the cheers, after all, were eggs from the same basket, and that a little salt with either forestalled a lot of mental indignation. Joe's hitting fell off and the mob got on him. He was hurt and bewildered. He couldn't understand why the mob that had made him a hero on Sunday were, by Wednesday, after his blood. This so upset him that his hitting went completely off, and for awhile Joe was in a dilemma. One of the ablest sports writers in New York com-

mented on this, abusing the crowd for its rough handling of Joe on the grounds that it was unwarranted, and added, "Joe can't take this, and he shouldn't be expected to."

Why couldn't Joe take this, and why shouldn't he be expected to? Why should he play into the mob's hands by caring what it thought? In this case, I don't know. Perhaps it was a matter of temperament. This much he knows now. When you're going good, you're a great guy. When you lose the touch, when you begin to boot chances at critical moments, you're a bum. It must be a thrill, I'll admit, to hear the roar of fifty thousand approving voices after you drive one out of the park. But the joker in the deck seems to be this: how long do you think the mob will feed you, or even remember your name, after you become a bum?

## OFFICIAL DAILY BULLETIN

Items in the UNIVERSITY CALENDAR are scheduled in the Office of the Summer Session, W-9 East Hall. Items for the GENERAL NOTICES are deposited with the campus editor of The Daily Iowan or may be placed in the box provided for their deposit in the offices of The Daily Iowan. GENERAL NOTICES must be at The Daily Iowan by 4:30 p.m. the day preceding first publication; notices will NOT be accepted by telephone, and must be TYPED OR LEGIBLY WRITTEN and SIGNED by a responsible person.

Vol. XII, No. 1233 Wednesday, June 10, 1942

## UNIVERSITY CALENDAR

- Wednesday, June 10
  - 11 a.m.—Summer session assembly, Macbride auditorium, Macbride hall.
  - 8:30 a.m.—Physical education conference, Senate chamber, Old Capitol.
  - Friday, June 12
    - 8:30 a.m.—Physical education conference, Senate chamber, Old Capitol.
    - 3 p.m.—Registration begins for physics colloquium.
    - 8 p.m.—University lecture by Dr. Hermann Rauschnig, former president of Danzig senate, Iowa Union campus.
    - Saturday, June 13
      - 8:30 a.m.—Physical education conference, Senate chamber and board room, Old Capitol.
      - 9 a.m.—Physics colloquium.
      - 9 a.m.—Panel forum, Dr. Hermann Rauschnig, speaker, House chamber, Old Capitol.
      - 8 p.m.—Summer session reception, Iowa Union, Informal.
      - Monday, June 15
        - 8 p.m.—University play, University theater.
        - Tuesday, June 16
          - SIXTEENTH ANNUAL CON-

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol.)

## GENERAL NOTICES

- MUSIC ROOM SCHEDULE
  - Wednesday—10 to 12 a.m., 3 to 5 p.m.
  - Thursday—10 to 12 a.m., 1 to 3 p.m., 7 to 9 p.m.
  - Friday—11 to 12 a.m., 12 to 1 p.m., 3:30 to 5:30 p.m.
  - Saturday—10 to 12 a.m.
  - Sunday—4 to 6 p.m., 7 to 9 p.m.
  - Monday—10 to 12 a.m., 3 to 5 p.m.
- JULY CONVOCATION
  - Students expecting to receive degrees at the university convocation to be held July 31 should make application as soon as possible at the registrar's office.
  - HARRY G. BARNES  
Registrar
- SUMMER SESSION ASSEMBLY
  - The annual Summer Session assembly will be held in Macbride auditorium Wednesday morning, June 10, at 11 o'clock. All classes will be dismissed during this hour.
  - F. C. PACKER  
Director
- TEXTBOOK EXHIBIT
  - The Iowa Bookmen's association will sponsor an exhibit of textbooks in rooms E-204 and E-205 East hall, during the week of June 15.
- SUMMER SESSION OFFICE
  - An informal reception for summer session students and faculty will be held in the main lounge of Iowa Union Saturday evening, June 14, at 8 o'clock. All persons connected with the summer session are cordially invited to attend.
  - P. C. PACKER  
Director
- UNIVERSITY LIBRARIES
  - The University libraries will be closed from 11:00 a.m. to 12:00 M., Wednesday June 10, during the Summer Session assembly.
  - GRACE VAN WORMER  
Acting Director
- NEWMAN CLUB
  - There will be a Newman club mixer Friday evening from 9 to 12 in the river room of Iowa Union. (See BULLETIN, page 11)

## "TWO WEEKS BETWEEN DRINKS!"

## HOLLYWOOD LIGHTS SOUNDS

## Occupational Ailment Even in Hollywood

By ROBBIN COONS

HOLLYWOOD—Another side of Hollywood:

Once a month Elizabeth Lampe, blonde, blue-eyed, with a smile like good news, spends \$2,500 for treatment of her occupational ailment: aching feet and corns.

Elizabeth is a waitress at RKO's half-block-long commissary. Three hours a day, six days a week, she hops from kitchen to tables and back again—quick cheerful, smiling.

She clears 50 cents an hour, or \$9 per 18-hour week, plus lunch and tips. Waitresses over the country who dream of Hollywood's golden coffers would be surprised. Elizabeth considers herself lucky if her weekly total, including tips, is \$16 to \$18. Last year she netted \$449, would have made more except that an operation (total cost \$201) forced her out for a month.

Tippling is better at Hollywood's big "class" restaurants, but Elizabeth serves a mixed clientele of studio white-collar workers along with stars and executives. Today Elizabeth served 29 people whose tips totaled \$1.65 an average of less than six cents per person. A quarter is considered a good tip from star. Damon Runyon is Elizabeth's best current customer. He orders a glass of milk—and tips a dollar. But many people, say Elizabeth, can't afford a tip.

Tip or no tip, the Lampe shines on. Born in Sweden, reared in the Kaiser's old Germany, Elizabeth came to America at 16, has had her final papers for three years. "Here," she says, "you can make a little money and do so much with it."

Her "so much" includes: \$20 a month for her mother and grandmother, whose little home Elizabeth and two sisters have "paid off"; \$3 a week for lodgings—at the valley home of a married fellow-waitress; 40 cents a day for carfare; \$1.50 a month union dues. Food is a small item with her: coffee for breakfast, lunch at the studio, dinner only occasionally. ("I drink milk, and feel better for eating less.")

Once Elizabeth made an occasional \$50 as a dancer while working as waitress by day, and the banked proceeds paid for her operation and left enough for two War Bonds besides. She still banks at least \$2 a week.

The easy friendliness of studio life is what appeals to her most about her job. She's Dutchie, Gretchen, Lizzie, Betty, Sonja—but seldom Elizabeth—to her customers, most of whom she calls by their first names.

After she appeared in a studio amateur play, she had a call from M-G-M for a screen test. She never "got around" to answering it.

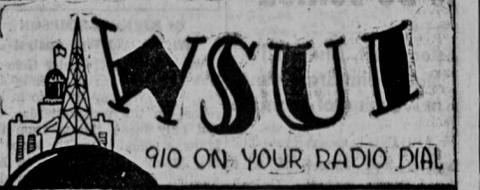

"I like it here," she says. "I like to serve people, and here it's just like waiting on brothers and sisters in your own family."

## OK IN WPB SHOW

Pint-sized Connie Haines does a full-sized job of vocalizing on the War Production Board's show, "Three Thirds of the Nation," broadcast over the BLUE Network Wednesday nights to show how the sacrifice of home products keeps the war machine running.

## TODAY'S HIGHLIGHTS

RECREATION IN WARTIME—Every Monday and Wednesday at 2:10 p.m., Prof. Elizabeth Halsey conducts a broadcast from her class on the war service program in recreation. This is one of the new courses recently added to the WSUI program and concerns public and private recreational programs as service agencies in defense areas and other communities.

VACATION ACCIDENTS—At 10 o'clock this morning Dr. John T. Hecker of Cedar Rapids will report on vacation accidents. This report is a part of the regular Iowa State Medical society program heard at this time over Station WSUI.

FARM SECURITY ADMINISTRATION—The United States Department of Agriculture-sponsored program broadcast at 11:30 this morning features the farm security administration from Iowa county. Stanton E. Currie, farm supervisor, and Elizabeth M. Sullivan, home supervisor, both of Marengo, and Mr. and Mrs. Mace Humphrey of Parnell will be the guests appearing on this program, the theme of which is "Food Will Win the Peace."

TODAY'S PROGRAM  
8—Morning Chapel, Rev. Joseph Newgard of Wilton Junction

Kay Kyser  
How'y'all? Yes—sub! It's Kay Kyser, maestro-prxy of that College of Musical Knowledge, heard with his "makes-ya-wanta-dance" music every Wednesday evening over the NBC-Red network.

Sullen People Eager for Vengeance—

Poles Await Chance to Revolt

—Against Overwhelming Nazi Domination

(Editors Note: Alvin J. Steinkopf, home after five months of internment in Germany, tells for Wide World and The Daily Iowan the impressions of Poland he gained on visits after the nazis occupied the country.)

By ALVIN J. STEINKOPF NEW YORK (Wide World)—The Poland of old isn't dead. Poland is just waiting and when the day comes, she will strike.

This sentiment, in different phrases, is expressed in all parts of Poland. Everywhere Poles are waiting for the day the nazi start to slip, and then they may be counted on to take part in an internal European revolt against German domination.

This is an impression brought back after extensive travels in Poland since the German occupation.

Eager for Vengeance German efforts to concentrate attention on some of their constructive works, and to make neutral correspondents see everything from the Wilhelmstrasse's viewpoint, cannot conceal the fact that the Poles today are a sullen, unhappy people, full of conspiracies, eager for vengeance.

Poles have learned patience, and a lot of them are dying, but when the world holds a post-mortem on nazidom a Pole will be on the coroner's jury, a patriot in Warsaw said.

Poland probably is the most thoroughly dominated of the occupied countries—has to be, from the German viewpoint, because Russia is on the road to the vital Russian front—the Germans would tolerate nothing which could even remotely menace a flow of materials and men to the eastern battle zones.

So the Poles are, so far as appearances go, not as obstreperous as Czechs, Norwegians or even

French. A good many first string German divisions are always in Poland, or moving through, and the country swarms with Gestapo. Other occupied lands are not so directly involved in war developments, but Poland is an operations zone, and there is little patience with civilian rebels on a battlefield.

The conspiracies, consequently, are far underground, and so well concealed that the Germans themselves may be fooled into thinking that Poland is completely crushed.

But the visitor with the right introductions and able to win the confidence of the right people gets a different impression in Warsaw.

The Spirit Lives One hears stories of hidden arms, and of little groups which are ready for sabotage or assassination any time such forms of revolt promise to do the most good. Organization may be imperfect, and means lamentably small; but the spirit lives.

Warsaw is a city of smashed buildings in which a brave life of sorts goes on. It is a life of tragedy, quiet courage, some hunger and even some smiles. Streets are crowded, the population is working, Polish policemen still patrol the town and Polish postmen deliver the mail. Administration remains in the hands of Poles, but is carried out under strict German regulation.

Most striking features of the city are the many ruined buildings, and the strange new city within a city—the walled ghetto into which more than half a million Jews are crowded in a congested central district.

Within the Ghetto the Jews live precariously by themselves, able to leave their walled prison only if they have passes which are hard to get. A Jewish police force,

responsible to the Germans, maintains order.

Less Regimented Life Life is actually less regimented than it is in Germany. Marketing and rationing restrictions are less rigid, but on the other hand distribution of necessities of life less equitable. Consequently prices are high, the poor have a difficult time and there is little social service organization to take care of them.

The Germans have shown little interest in reconstruction of Warsaw. Its industries and the labor of its population have been largely absorbed into the German war machine. But any favors being distributed by the Germans go to Krakow, which the nazis say "looks like a German city" and where Dr. Hans Frank, with his seat in the Burg castle, governs the German-made Polish general government.

Dr. Frank, through his administrative machine, holds the power of life or death over every Pole still in his native land. The Poles are unfortunate in many respects, but are lucky that Dr. Frank is no such executioner as was the late Reinhard Heydrich in Prague.

He is stern enough, and uncounted Poles have faced the firing squads. But Dr. Frank's outstanding talent is not ruthlessness. A clever lawyer and able administrator, he is playing the role of a "hard-handed ruler of an inferior people." Nowhere so frankly as in Poland do German occupation forces take the attitude they are members of a master race.

Four Demands At the moment Hitler is making four major demands on Poland: First, she must produce more food, more material for his war machine. Germany is supplying quantities of fertilizer and agricultural machinery, and the Polish peasant is pushed to the limit of his productivity.

Second, Poland must provide easy access to Russia. Her railways serve Germany, and new highways built by Polish men and many women lead to the eastern front. German vehicles of every description kick up dust along these roads, and Poles watch the war go by.

Third, the country must supply some hundreds of thousands of industrial and agricultural workers for German farms and factories.

Fourth, Poland must absorb the thousands of Jews expelled from Germany by the Gestapo. What happens to them, how they get along in the region of Lublin and such communities as Litzmannstadt, without provisions, tools or friends, is a story which can't be told yet. No one outside the Gestapo knows half of it.

The highways may be of some permanent benefit to the Polish state. Agriculture improvements may last after the war. The Germans have taken some measures to improve public health.

But like all benefits of nazi administration, in the reich or abroad, they have been achieved with ruthlessness and through complete denial of liberty.

The vast majority of Poles prefers liberty, and prays for a fair chance to fight to recover it.

Air Cooled and Air Conditioned

Strub's Invites Newcomers, Returning Students and Old Residents to Make

Strub's their Downtown Headquarters

A few residents can trace our development from a "precocious infant" sixty-seven years ago to our present maturity. We've grown up... but we're not through growing! For more than a half century we've earned and held an enviable place for quality merchandise...

Shopping for the BEST at the lowest possible prices at Strub's is not an idle boast!

Slacks for Every Need

Slacks for play, slacks to relax in, slacks for gardening, slacks for down-right flattery! We have them all... in all the wanted colors... at prices you want to pay! See them now!

LEFT—a double duty garment... to be worn with or without blouses. The jumper type suit is of sanforized shrunk denim. Sizes 12 to 20. Price \$2.98.

Also sanforized shrunk slacks at \$2.29.

RIGHT—Strutter cloth suits in long or short sleeve styles. Slacks have side zipper or fly front closing. Navy, luggage and green. \$7.98 up.

3-Pc. Suits of denim at \$5.98.

Separate Slacks \$2.29 up.

Second Floor

"T" Shirts for Slacks \$1. and \$1.98

Perfect fitting shirts for wear with slacks. Shown in flower-fresh colors and pin neat tailoring and please note the pin-size prices! Included are white and blue.

STRIPED BLOUSES—choose your own stripes, your own colors. All have long sleeves! Every size. And only \$1.29.

STRUB'S—First Floor.

Warner's Alphabet Bra \$2.50

As Light and Airy as a Cloud! — the largest size weighs a bit less than an ounce! They wear and wash like no other bra you've ever seen — and they never shrink a bit! For ALL bust types.

STRUB'S — Second Floor

Jantzen KEEP THEIR SHAPE... KEEP YOUR SHAPE You can be sure your swim suit will be lovely to look at, lovely to wear, all summer long, because Jantzen hold their shape — their line — their beauty — look wonderful in the water or out. You can be sure your figure is lovely because Jantzen foundation control with "Lustex" yarn is taking care of it. \$4.98 up

Summer Skirts!

Here they are... summer's success styles! Styles for work and styles for street wear that will flatter you! Of cotton or wool... plain or prints... every color! Every size! See these new Skirts of wool, gabardine, strutter cloth and shantung, in white, blue, beige, pink and yellow. \$1.98 to \$5.98

Cissy Kay Skirts \$3.49 A new gored skirt in neat floral patterns; fast colors. Styles as sketched below.

Debcraft Blouses \$3.49 up

Original Debcrafts are smartly fashioned from tubular cottons in many styles, in stripe and plaid patterns.

STRUB'S—First Floor.

### Nine Former University Students, Alumni Announce Recent Engagements, Marriages

Word has been received of the engagements and marriages of nine former students and alumni of the University of Iowa.

**Hart-Pughe**  
The approaching marriage of their daughter, Jane Austin, of Washington, D. C., to George Arthur Pughe Jr. of Washington, son of Mr. and Mrs. George A. Pughe, of Craig, Col., has been announced by Mr. and Mrs. Clayton O. Hart of Mason City. The wedding will take place in Wilmette, Ill., June 13.

A graduate of the University of Iowa, Miss Hart was affiliated with Kappa Kappa Gamma sorority. She has been employed in the library of congress in Washington for the last two years.

Mr. Pughe was graduated from George Washington university in Washington, and was assistant director of the library of congress

**Schwartzfeger-Horst**  
The marriage of their daughter, Margaret, to Norman E. Horst of Gary, Ind., has been announced by Mr. and Mrs. H. W. Schwartzfeger of Muscatine. Mr. Horst is the son of Mr. and Mrs. E. D. Horst, also of Muscatine.

The wedding took place April 10 at the First Methodist church in Crown Point, Ind.

After being graduated from Muscatine high school and junior college, Mrs. Horst was graduated from the University of Iowa where she was affiliated with Alpha Delta Pi sorority.

Mr. Horst is also a graduate of Muscatine high school and junior college and the University of Iowa,

where he was affiliated with Tri-angle fraternity.

After June 20 the couple will live in Gary where Mr. Horst is employed as an industrial engineer for Carnegie-Illinois Steel company.

**Lounsbury-McCann**  
Mrs. Harold C. Lounsbury of Marshalltown announces the approaching marriage of her daughter, Clara Louise, to Dr. John McCann of Iowa City, son of Mr. and Mrs. E. R. McCann of Centerville. They will be married this month.

Miss Lounsbury was graduated from Iowa State Teachers college at Cedar Falls and from the school of nursing of the University of Iowa. She was affiliated with Beta Beta Beta national biological fraternity, Kappa Delta Pi education fraternity and Sigma Theta Tau honorary nursing fraternity.

After being graduated from the college of medicine at the University of Iowa, Dr. McCann served his internship at University hospital. He is commissioned as a lieutenant in the army medical corps and will be stationed at Carlyle Barracks, Pa.

**Walzem-Patterson**  
Muriel Ann Walzem, daughter of Dr. and Mrs. W. A. Walzem of Davenport was married Thursday to Lieut. John Robert Patterson of Salt Lake City, Utah, son of Mrs. Johanna Patterson of Moline, Ill.

The ceremony was performed in the Cathedral of the Madeline in Salt Lake City.

Mrs. Patterson was graduated from the Villa de Chantal and attended the University of Iowa and St. Ambrose college in Davenport. She is a member of Phi Mu Kappa sorority.

Lieutenant Patterson was graduated from Moline high school and attended Augustana college where he was a member of Phi Omega Phi fraternity. He also attended the University of Illinois. He was commissioned as a second lieutenant in the army air corps in May and is stationed in Salt Lake City, where the couple will live.

**Lybbert-Sargent**  
Mr. and Mrs. Edward Lybbert of Cresco announce the marriage June 2 of their daughter, Helen, to Orlando Sargent, son of Mr. and Mrs. Porter D. Sargent of Polk City.

Mrs. Sargent was graduated from Cresco high school and the University of Iowa.

Mr. Sargent will be employed in government construction work in Trinidad, while Mrs. Sargent will work in Washington, D. C.

**Ferguson-Schlueter**  
The approaching marriage of their daughter, Mary Frances, to Ensign Glen Robert Schlueter, son of Mr. and Mrs. P. A. Schlueter of Davenport, has been announced by Dr. and Mrs. Lawrence C. Ferguson of South Bend, Ind. They will be married June 26 in St. James Episcopal church in South Bend.

Miss Ferguson was graduated from Kemper hall in Kenosha, Wis. Ensign Schlueter has attended Iowa State college at Ames, the University of Iowa, and completed a course at Abbott hall, Northwestern university, in Evanston, Ill. He is teaching navy indoctrination at Notre Dame university in South Bend.

**Young-Taylor**  
Ada Young, daughter of W. C. Young of Zeoring, was married May 27 to O. B. Taylor, son of Mr. and Mrs. Claude Taylor of

### THEY'RE GOING HUNTING—SUBS

They've received a report of an enemy submarine off the New England coast, so the United States Navy fliers, above, are plotting the U-boat's position on their chart before taking off to search for it. Left to right are Ensign Thomas Dubose, Lieut., junior grade, J. F. Adams, Ensign A. A. Steinmetz, Ensign Stuart K. Gilbert and Lieut. R. A. Roseasco, flight commander.

Alden, at the Methodist church in Princeton, Mo.

Mrs. Taylor was graduated from Zeoring high school and Drake university at Des Moines, where she was affiliated with Mu Phi Epsilon honorary music sorority, and Phi Omega Pi sorority. She also attended the University of Colorado at Boulder, Col.

After being graduated from Alden high school, Mr. Taylor was

graduated from Iowa State Teachers college in Cedar Falls, where he was affiliated with Xanho fraternity and Phi Tau Theta fraternity. He is studying for his master's degree at the University of Iowa and the University of Colorado.

This summer the couple will live in Boulder where Mr. Taylor will attend the university.

### Ground School, Flight Instruction Scheduled To Open Monday in University CPT Program

Quotas Set at 50 Primary Students And 30 Secondary

Ground school and flight instruction in both the elementary and secondary courses of the university's civilian pilot training program is tentatively scheduled to begin Monday, Elmer C. Lundquist, instructor of aeronautics, reports.

Quotas of 50 primary and 30 secondary students have been requested. All university students between the ages of 18 and 26 who are able to meet the scholastic and physical requirements will be eligible.

Three credits will be given for successful completion of the elementary course and five for the secondary course. Application blanks are now available in room 109, engineering building.

The ground school portion of the program is under the supervision of university instructors. Flight training is handled by the Shaw aircraft company at the Iowa City airport.

Students are required to attend regular ground school classes and flight instruction periods, both phases of the training being conducted concurrently. Ground classes will be held one to two hours daily during the summer, and each student will attend at least one period of flight instruction per day.

Elementary CPT course includes ground school subjects of fundamental nature with particular emphasis on their practical relation to

flying, and a minimum of 35 hours of flight training.

Ground school classes in the secondary classes will deal more with the principles of airplanes, power plants and navigation. Secondary students are also given practical laboratory work on aircraft engines and radio code.

Since the first CPT courses were inaugurated at the university, 257 elementary and 83 secondary trainees have been graduated.

Australia normally has a supply of 1,750,000 horses and exports about 4,000 annually.

in 125 horsepower biplanes. The aviation laboratory here at the university is equipped with aircraft engines, propellers, engine and aircraft accessories, wing panels, fuselages, one complete airplane and a wind tunnel. The Shaw Aircraft company operates a fleet of modern training ships and is operating a shop for the repair and maintenance of these planes.

# DETROIT SLIPS BACK AS YANKEES WIN, 4-1

## Hank Borowy Limits Tigers to Four Hits

NEW YORK (AP)—One of the New York Yankees' streaks was broken but two stood up yesterday as the world champions came from behind to whip the Detroit Tigers, 4 to 1.

Hank Borowy, rookie right-hander not long out of Fordham university, limited the Tigers to four hits, only one of which was for extra bases, in chalking up his fourth victory of the season without a defeat. Joe Gordon connected with a single off Dizzy Trout in the second inning to run his hitting string to 26 successive games but Buddy Hassett's streak expired after reaching 20 games when he failed to connect safely in four trips to the plate.

## Doerr Collects 4 Hits, As Sox Beat Browns

7 to 4 Victory Gives Red Sox 2nd Place; Auker Takes Beating

BOSTON (AP)—Bobby Doerr collected four hits, including a homer and a double, out of four tries yesterday, when the Boston Red Sox regained second place by drubbing the fast-traveling St. Louis Browns, 7-4, in the series opener.

And to add to the Sockers' joy, they collected eight of their nine hits and all of their tallies against Elden Auker, one of their many troublesome discards. Doerr's perfect performance boosted his batting average to .389, and also accounted for five of the Boston runs, including two he scored himself.

Struck out—by Caster 1; by Judd 8. Hits—off Auker 8 in 6 innings; off Caster 1 in 2 innings. Passed ball—Hayes. Losing pitcher—Auker.

## Giants Halt Red Streak At 6 Straight Games On 1st Inning Spree

CINCINNATI (AP)—The Cincinnati Reds' drive upwards in the National league was brought to a halt yesterday after they had won six straight games when they bowled to the New York Giants, 3 to 1.

Both teams got only five hits, but the Giants bunched two of their blows with as many walks and an error to score three runs in the first inning and chase Junior Thompson to the showers. Clyde Shoun and Joe Beggs checked Mel Ott's men through the remainder of the game but the Reds could do little with the offerings of Bill Lohrman.

## Pittsburgh Pirates Slam Braves, 10-2

PITTSBURGH (AP)—The Boston Braves dropped their eighth straight game yesterday and gave up fifth place to the Pittsburgh Pirates who shelled out 13 hits to take an easy 10-2 decision behind lefty Kenny Heintzelman.

Heintzelman gave up nine hits and was never in serious trouble after the Bucs staked him to a four-run lead in the first inning. Singles by Bob Elliott and Al Lopez, both with the bases full, accounted for the markers.

Lopez came through with a double in the eighth inning when the Pirates garnered five runs on seven hits.

National League  
Brooklyn at St. Louis (night)—Wyatt (5-1) or French (4-0) vs. White (2-2)  
New York at Cincinnati (night)—Schumacher (2-4) vs. Vander Meer (6-3)  
Boston at Pittsburgh (night)—Tobin (5-8) vs. Klinger (2-1)  
Philadelphia at Chicago—Podgajny (2-4) vs. Lee (7-4)  
American League  
Detroit at New York—Benton (2-5) vs. Breuer (2-4)  
St. Louis at Boston—Niggeling (5-3) vs. Hughson (3-2)  
Cleveland at Washington (night)—Dean (4-2) vs. Newson (5-8)  
Chicago at Philadelphia—Ross (0-2) vs. Christopher (2-2)

## EAGLE EYE

By Jack Sords

## Philadelphia Shuts Out Chisox, 2 to 0, Behind Harris' 7-Hit Hurling

PHILADELPHIA (AP)—The Athletics made only two hits off southpaw Edgar Smith last night, but capitalized on both of them to score two runs and beat the Chicago White Sox, 2 to 0, behind the seven-hit twirling of Bob Harris.

The A's first hit came in the second inning when Bob Johnson led off with a double. Dick Siebert walked and the bases were loaded when Smith picked up Buddy Elair's bunt and threw too late to force Johnson at third. Johnson then scored as Pete Suder hit into a double play.

Harris had a five-hitter going into the ninth. He gave up two singles in this inning with two out,

## Indians Rally in 10th To Down Senators

WASHINGTON (AP)—The Cleveland Indians pushed over a score in the 10th inning to edge out Washington, 7-6, in a three-hour ball game last night.

## Pesky in Navy

PORTLAND, Ore. (AP)—Earl R. Goodwin, draft board clerk, said yesterday that Johnny Pesky, Boston Red Sox infielder, had enlisted in the navy. A telegram from Pesky read, "Enlisted in naval aviation V-5, same as Ted Williams."

but then retired pinchhitter Dickey to end the game.

## Leslie MacMitchell Featured in NCAA

To Meet Competition From LeRoy Weed, Bobby Ginn in Mile

LINCOLN, Neb. (AP)—The mile run, always a thriller in a national track meet, looms as a top attraction t the national collegiate athletic association track championship finals here Saturday, with New York university's sensational Les MacMitchell, defending champion, definitely a marked man.

Last year at Stanford MacMitchell beat Leroy Weed of Southern California by two feet. Now Weed, according to advance word from Dean Cromwell, the Trojan coach, is concentrating on evening the score. Weed is also entered in the two mile but Cromwell indicated he would not be called upon to make that race.

Home-town rivalry enters the picture through Bobby Ginn, Nebraska's mile of a distance runner who did 4:10.1 last year in a dual meet against California. The little fellow faded when illness sapped his strength after his sensational California effort, and he ran sixth in the N.C.A.A. meet.

In contrast to the "pointing" of Weed and Ginn, MacMitchell has been entered in the 880 and two-mile in addition to his specialty. MacMitchell is one of five distance runners entered in all three races, others being his teammate, William Hulse; Earl Mitchell of Indiana, Robert Nichols of Rhode Island State, and Randolph Woelk, Kansas State Teachers.

The mile also finds on hand Edward Culp of Xavier, third last year, and Paul Kendall of Indiana, another point winner a year ago.

The track meet is a twilight affair, starting at 6:30 p.m. (CWT) Friday and Saturday evening.

## Emphasis on War Aid

CHICAGO (AP)—Special emphasis on war aid was voted by members of the national professional basketball league meeting here yesterday to discuss plans for the 1942-43 season. Representatives were present from Chicago, Oshkosh and Sheboygan, Wis., Toledo, Akron, Fort Wayne and Indianapolis.

# THE DAILY IOWAN SPORTS

## Race Tracks Getting Big Play Now

For, while those gallons of gasoline and tires you can't get have cut heavily into the number of cars going to tracks like Belmont, Aqueduct, Suffolk and Delaware—some time close to 50 per cent—attendance hasn't fallen off nearly so much, if at all. What's more, with plenty of the "fresh" around these days, much of it from new jobs in de-

fense plants and such, betting has skyrocketed until it looks like this may be racing's biggest year. At Belmont, 436,966 fans bet a total of \$27,773,297 for the just concluded 24-day meeting, compared with the 405,126 who wagered \$22,311,349 a year ago. On the way to these gaudy goings-on, a new world record for one day's betting (\$2,176,071) was set May 30. So was the world high for the average daily handle over a meeting—\$1,157,221. The previous one-day tops for Delaware and Suffolk plants also have been smashed this spring.

Aqueduct opened its current meeting on a "blue Monday" this week and drew 13,797 fans, compared with the 13,150 for opening day last year. They fed \$869,469 to the hungry iron men, while the 1941 first-day turnout contributed only \$695,872.

## Great Lakes Downs Phils for 20 Straight

GREAT LAKES, Ill. (AP)—Lieut. Mickey Cochran's Great Lakes Naval Training station blue-jackets took their 20th straight victory yesterday with a 2-1 exhibition decision over Philadelphia of the National league.

John Rigney, who recently exchanged his White Sox uniform for a seaman's outfit, came out of re-entrant quarantine just in time to pitch for the Tars, holding the Phils to seven singles, striking out six men and walking only one.

## Hawkeye Basketball, Grid, Diamond Teams Top Big 10 Records

Iowa's Hawkeyes made the best record in three major sports—football, basketball and baseball—in the Western conference for the 1941-42 season, a record checkup revealed yesterday.

Old Gold teams won 22 games and lost 11 in these sports for a percentage of .667. The baseball team, which finished the season in a tie with Michigan for first place, contributed ten victories to the total.

Welcome Summer Students

We're glad to welcome another group of students to the University and Iowa City. We hope you'll like your stay here this summer . . . and will make our store your headquarters for any advice or service you may need in plumbing or heating.

### Summer Session Party To Be Held June 19 In Lounge of Union

An informal dance, official party of the summer session, will be given in the main lounge of Iowa Union June 19. Members of the faculty will chaperon the party which will start at 9 p.m., ending at midnight.

Paul Arthur's Count Eleven orchestra will play at the dance. The roof deck of the Union will also be open for the party.

Tickets will be available upon presentation of student identification cards at Iowa Union desk, beginning Wednesday, June 17, and may be obtained until 5 o'clock June 19, the day of the party.

### 12 Guests Entertained At Informal Breakfast

Mrs. Percy Bordwell, 111 E. Bloomington, entertained 12 guests at an informal breakfast yesterday morning in honor of Mrs. Paul Rubicam of Albuquerque, N. M.

Mrs. Rubicam is visiting her daughter, Mrs. Preston Coast, 124 E. Church.

### Mrs. Claude J. Lapp Will Talk Tomorrow Evening at Banquet

Mrs. Claude J. Lapp will be the principal speaker at the mother-daughter banquet sponsored by the Ladies Aid of the Congregational church tomorrow evening at 6 o'clock.

The program will consist of vocal solos by Mrs. Carl Seashore Jr., a reading by Mrs. Arnold Gillette and xylophone numbers by Genevieve Wendlandt.

A toast to the mothers will be given by Barbara Horrabin, with a response by Mrs. Harold Clearman. Mrs. Paul C. Packer will serve as toast master.

Mrs. James E. Waery headed the committee in charge of the program.

### KEEP COOL IN COTTON THIS SUMMER

### King Cotton Rules Supreme as Summer Heat, Priorities Knock Perennial Wools Off Market

Summer—a season that has left one of gold with a gold button trim, while the blue shantung, on the right, looks cool and fresh with a brightly flowered print blouse. Both of these suits, with a change of accessories, are ideal for the business to pleasure transition.

King Cotton has come into his own this summer. Priorities on other popular materials have brought this everyday fabric out of the kitchen, glamorized it and made it into clothes that go everywhere and do everything.

### Society News Briefs—

### Personals

#### —About Iowa City People

Ann Waterman, daughter of Mr. and Mrs. Earle L. Waterman, 231 Fairview, has returned from Carlton college in Northfield, Minn., where she attended school.

Andrea Johannsen, 614 Iowa, is visiting friends in Norway, Iowa.

Prof. J. Bajema, 431 E. Market, has returned from a fishing trip to Gresham, Wis.

Mrs. Carl Seashore Jr. and daughter, Julianne, from Pennsylvania State college in State College, Penn., will be guests in the home of Prof. and Mrs. Carl E. Seashore, 815 N. Linn, for the next few weeks.

Bette Towner, daughter of Mr. and Mrs. A. L. Towner, 200 S. Summit, has returned home from Mt. Carroll, Ill., where she attended Frances Shimer college.

Dott Porter of Gulfport, Miss., will arrive to visit Mr. and Mrs. Roscoe Taylor, 521 N. Dubuque.

Margaret Stroud, daughter of Mr. and Mrs. J. B. Stroud, 122 Grand, has returned from the University of Wisconsin in Madison, Wis.

Virginia Lampe, daughter of Prof. and Mrs. M. Willard Lampe, 8 Bella Vista, has returned from school at Monmouth college, Monmouth, Ill.

Mr. and Mrs. W. E. Murray and children, Ann, Jeanne and Jack,

returned to pay for two or three dresses.

For girls in school this summer clothes are a special problem. Comfortable cool clothing that is suitable for classwear is difficult to choose. Here cotton has solved the problem with many styles of easy-to-wash dresses that will look fresh and neat all summer.

Two piece seersucker and gingham suits, worn with or without a dickey depending on the weather, are perennial favorites. The coat dress, which buttons down the front, is another classic that has been a favorite of many years standing both on the golf course and in the classroom.

Comfort and coolness should be the keynote of summer clothes and cotton and shantung will go a long way toward solving that problem.

New trends in cotton prints are toward America and its possessions. Huge flowers and tropical colors indicate the Hawaiian influence while the American Indian is represented by tribal designs in the bright definite colors of the southwest. These fabrics are particularly popular for slacks, play suits and the ever popular dirndl skirt.

The "little wash dress" has been given a metropolitan flair. Slimness of silhouette is achieved in washable cottons by modified flared skirts, pleats, or gathered fullness. There is the softly moulded shoulder line, too a popular style this season.

Cottons have a double advantage in that they are easily kept clean and fresh with washing and they are inexpensive. Women can now purchase a whole wardrobe with what they were formerly accus-

tom to pay for two or three dresses.

### Red Cross Committee Will Meet Tomorrow

Red Cross committee on relief work will meet tomorrow morning at 8 o'clock for an all day sewing session.

The committee is now working on an emergency order of 260 soldiers' kits to be finished and shipped at once. One hundred of these kits were completed and sent off last week.

Mrs. H. H. Hoeltje will be present at the meeting to instruct the knitters.

### Mrs. R. G. Schreffler, Honored at Shower By Mrs. S. A. Neumann

Mrs. Robert G. Schreffler, bride of last Sunday, was honored Saturday evening at a miscellaneous shower given by Mrs. S. A. Neumann, 299 Magowan.

Bridge and bingo were played. Those receiving prizes were Mrs. Dorothy Miller of Davenport and Joyce Rickey. About 20 guests attended the surprise shower including the bridegroom's mother Mrs. Daisy Schreffler of Sunbury, Pa.

Tables were decorated with pink, blue and white crepe paper. A large umbrella held the gifts.

**To Discuss Program**  
Programs of physical education to condition students for war service will be discussed during the University of Iowa thirteenth conference on problems of physical education here Thursday through Saturday.

TO WED TUESDAY

Mr. and Mrs. William A. Meardon, 1851 Muscatine, announce the engagement of their daughter, Joan, to Lieut. Robert W. Cowan, son of Mr. and Mrs. Walter Cowan of Waterloo.

The Rev. Iton T. Jones will officiate at the wedding, Tuesday afternoon at 5 o'clock in the First Presbyterian church. Phyllis Myers of Norfolk, Neb., will attend Miss Meardon.

The bride-elect was graduated from Iowa City high school and is attending Iowa City Commercial college. Lieutenant Cowan is a graduate of Waterloo high school and attended the college of law of the University of Iowa. He is a member of Phi Delta Phi legal fraternity. He is in the coast artillery stationed at Camp Davis, N. C.

### Gold Star Mothers To Be Feted Thursday

By Mrs. W. F. Boiler

Johnson county Gold Star Mothers and the wives, daughters, sisters and mothers of Johnson county men in service will be honored at a tea in the Iowa Union Thursday afternoon from 2:30 to 5 sponsored by Mrs. W. F. Boiler. Flag day will be observed at the tea.

A group of junior hostesses will assist in serving.

Prince Edward Island, noted for its fur farms, is the smallest of the Canadian provinces.

# Iowa and Nebraska Petroleum Marketers Protest Gas Ration

### About 300 Dealers Agree on Resolution To Be Sent to Ickes

OMAHA (AP)—Unanimous to a man, about 300 petroleum marketers of Nebraska and Iowa adopted a resolution opposing gasoline rationing in the middle west, at a meeting here yesterday.

The resolution, which will be sent to Petroleum Coordinator Ickes, OPA chairman Henderson, ODT Chairman Eastman, WPB Chairman Nelson, and senators and congressmen from this territory, asserted that marketers "take great hopes" in president Roosevelt's expressed opinion that the rubber problem soon will be solved.

In support of their stand, the reasons: Government warning resulted in a voluntary drop in gasoline consumption of 20 per cent in April, 25 per cent in May.

Rubber that is not used deteriorates almost as rapidly as rubber that is used conservatively.

Believe Tire Will Last The marketers believed that 75 per cent of the tires now in use will last two years if given reasonable care.

District No. 2 of the petroleum coordination setup has made a "generous" contribution toward drought by assigning to that area three fourths of the tank cars formerly assigned here.

All surveys show that there is an abundance of petroleum in this country.

In making 100 octane gasoline needed for aviation, it is necessary to produce commercial gasoline.

Compulsory rationing will lower both state and federal highway funds, needed to keep up the highways essential to war effort.

Compulsory rationing would injure all types of retail business.

Rationing would disturb public morale.

Finally it is generally felt by members that congress can handle the problem by ordering the construction of plants to build syn-

thetic rubber sufficient both for military and civilian needs. Chairman of the meeting was Leroy L. Snyder, Blair, president of the Nebraska petroleum marketers' association.

# 5 Italian Ships In Libya Dash Bagged by Sub

LONDON (AP)—Britain's new submarine Turbulent has sunk an Italian destroyer and four merchant ships rushing supplies across the Mediterranean to the hard-pressed axis army in Libya, even as huge RAF bombers struck mighty blows at axis bases in Sardinia and Crete.

These offensive actions in support of the British desert army of Gen. Sir Claude Auchinleck were announced yesterday by the admiralty and RAF.

The Turbulent's depredations were in the central Mediterranean on the axis supply lines between Naples and Tripoli. At least two of the medium-sized supply ships were loaded to the gunwales. Although protected by two of Mussolini's sleek destroyers, the Turbulent sent both to the bottom and also sank one of the escorts—a 1,628-ton destroyer of the Navigatori class—the admiralty's communique said.

A third supply ship was sunk out of another convoy. A small merchant vessel, laden with explosives, also fell victim to the Turbulent in another action.

The RAF's raids struck bases 900 miles apart. The big bombers, based either in Egypt or Libya, set fires visible for 70 miles among barrack buildings at the airdrome of Candia, capital of Crete, Monday night.

# Increase on Gas Tax Rejected By House; Oil Advance Okayed

WASHINGTON (AP)—The house ways and means committee flatly rejected yesterday the treasury department's recommendation for a doubling of the present 1 1/2 cent federal tax on gasoline, but approved a slight increase in the excise tax on lubricating oils.

Chairman Doughton (D - NC) said the committee had agreed tentatively to raise the latter levy from 4 1/2 to 6 cents a gallon, with an estimated yield of \$7,500,000 in new revenue.

The treasury had asked for a jump to 10 cents a gallon which experts said would provide \$49,900,000. They figured that the gasoline revenue on a 3-cent rate would be about \$242,200,000 but that estimate was made on March 3, before consumption was reduced by rationing.

# Seven Metal Firms, Ten Persons Indicted Under Sherman Law

NEW YORK (AP)—Two indictments charging seven metal corporations, 10 individuals and the Flexible Metal Hose and Tubing Institute with Sherman anti-trust law violations in the production of important war materials were opened yesterday by Federal Judge Henry W. Goddard.

The indictments, returned recently by a federal grand jury but held sealed until yesterday at the government's request, charged conspiracy to fix and maintain prices, discounts and terms of sales of flexible metal hose and tubing, besides conspiracy to violate the Sherman act through practices of a so-called standardization committee established within the Flexible Metal Hose and Tubing Institute.

The institute is an association composed of the defendant companies, all of which manufacture metal hose and tubing.

Companies named in the indictments were the American Brass Company, Atlantic Metal Hose Company of New York, Breeze Corporations, Inc., of New Jersey; Chicago Metal Hose Corporation of Illinois; Forsyth Metal Goods Company of New York; Pennsylvania Flexible Metallic Tubing Company and United Metal Hose Company of New York.

Commenting on the indictments, Joseph T. Quinnan, special attorney for the department of justice, asserted "the product of this industry, is most vital in America's aircraft, tank and shipbuilding program. It is imperative in the success of our all-out war effort that the practices indulged in by the institute and its members be eliminated."

The company had contended that its most profitable items were civilian items like poultry netting, wire fence and ornamental fencing, but that the war program had brought heavy orders for items returning smaller profits, such as barbed wire, galvanized wire and nails.

In a ruling which seemed to fix a precedent for other firms which might be in the same position, OPA held the company had earned "at least an adequate return on its investment" and was not entitled to relief. It said the company's profits on net worth were 38.56 per cent in February and 31.27 per cent in March, compared with 14.46 per cent for the year 1941.

# Argentina and Chile Agree Axis Threatens Western Democracy

### Join South American Republics in Naming Germany, Italy, Japan

BUENOS AIRES (AP)—Argentina and Chile, the only two American republics which still maintain diplomatic relations with the axis, agreed—although with reservations—with 19 other countries last night to name Germany, Italy and Japan as specific threats to western hemisphere democracy.

One of the principal achievements of the conference was a recommendation for creation in each nation of a committee to coordinate methods to fight fifth column activities.

The final act was signed by delegates of all 21 American republics at the closing session of the inter-American conference on coordination of police and judicial methods.

One of the principal achievements of the conference was a recommendation for creation in each nation of a committee to coordinate methods to fight fifth column activities.

# House Refuses Sale of Grain Below Parity

WASHINGTON (AP)—Rejecting an administration plea, the house yesterday refused to permit sale of government-controlled grain at prices below parity.

It also refused to accept senate increases of approximately \$100,000,000 in funds for agriculture agencies, principally the farm security administration.

The house action, sending the agriculture department appropriation bill back to the senate, came on a conference report by a senate-house committee. On virtually all items of disagreement except those involving parity and the larger appropriations, the house accepted the compromise version.

It refused to accede to the senate parity amendments by a 125-57 standing vote after Majority Leader McCormack (D-Mass) had told the house that the administration favored them in "the interests of the entire country."

Farm bloc members contended that the senate proposals would lead to ruination of the parity program, which is designed to give farmers the purchasing power they enjoyed between 1909-14.

The senate amendments would have permitted below-parity sales of government-controlled grain that has deteriorated in quality or is sold for feeding or for the manufacture of industrial alcohols. They limited to 125,000,000 bushels the amount of wheat that could be sold for feed and stipulated that the price be not less than 85 per cent of the parity price of corn, a competitive feed.

## WAR COURSES—

(Continued from page 1)

Cedar Rapids and Waterloo.

Four other defense courses are now in the process of organization and will be available in the near future. They are "Fundamental Engineering Problems," "Industrial Electricity," "Instrumental Analysis" and "Basic Analytical Chemistry."

The course in "Acoustics and Acoustic Engineering" will begin Monday, and it is expected that the second portion of "Fundamentals of Radio" will start soon.

At the present time, 404 students are enrolled in the defense training courses which have already started. The university also offers regular courses of training which are vital to the nation's defense effort such as the summer management course and civilian pilot training.

### Auto Stamps Now on Sale

Federal automobile tax stamps for the 1942-43 fiscal year go on sale today in all Iowa post offices and internal revenue offices.

All cars must display this stamp, costing \$5, by July 1. The tags will be serially numbered and gummed on the face and will have provision on the back for entry of the make, model, serial number and state number of the automobile.

The stamps will be very important in the issuance and use of gasoline rationing books, the office of price administration said.

Besides the Iowa City post office, stamps may be purchased at Whetstone's No. 1, the Quadrangle and Iowa Union.

### 2 Youthful Bandits Rob George's Buffet Of \$90 Monday Night

With many customers not knowing what was happening, two young men Monday about midnight held up and robbed George's Buffet, 312 E. Market, of \$90 and then made good their escape.

As it was reported to police, the two walked over to the bar about 12 p.m. One of the young men pulled out a revolver while the other walked around the bar and took the money from the cash register.

Both men were believed to be about 20. The man with the gun was reported to be five feet, eight inches tall, about 180 pounds. The other young man was approximately five feet, nine inches tall and 150 pounds.

### Meetings 4 I.C. Organizations Will Convene

**Wednesday, June 10**

**Lions Club**—Reich's Pine room, 12 o'clock.

**Moose Lodge No. 1096**—Moose hall, 112½ S. Clinton, 8 o'clock.

**Sea Scout Ship**— Legion hall, 7:30.

**Boy Scout Troop No. 15**— St. Wenceslaus church, 7:30.

**'Powder Puff' Squadron**  
MONTREAL (AP)—A "powder puff" squadron of six women fliers from the United States were here yesterday enroute to England to take over ferrying duties with the British air transport auxiliary. They were selected from hundreds of applicants and form "group four" of the ferrying plan.

### Seven Johnson County Youths to Leave Today For Boys' State Course

Seven youths, making up Johnson county's contingent to the annual Hawkeye Boys' State at Grinnell college, will leave this morning at 7 o'clock for the five-day period.

Iowa City boys include Lawrence D. Soens, David A. Danner, William M. Sangster, Robert Roth and Jim Pollock. The other two young men from Johnson county are Allan Michel Jr., of Hills and John Fay of Cosgrove.

Four of the boys are sponsored by the Iowa City American Legion post. One boy each is sponsored by the junior chamber of commerce, American Legion auxiliary and 40 and 8.

### W. S. Robinson Files Petition for Divorce

W. S. Robinson filed a petition for divorce from Mary J. Robinson yesterday in the office of R. Neilson Miller, clerk of court.

The couple was married August 13, 1913 at Rockwell City. They separated June 1, 1934. The plaintiff charges cruel and inhuman treatment.

### New Postage Stamp Goes on Sale July 4

"Win the War" postage stamps of three-cent denominations will soon be issued, it was announced yesterday by Postmaster Walter J. Barrow.

The stamp will go on sale in Washington, D.C., July 4. Other post offices will receive a supply

### United States Marine Corps Issues Booklet On Treatment of Flag

With the 165th birthday of the flag June 14, a book containing information as to the courtesies and respect due to the national colors is being made available to all Americans by the United States marine corps.

The booklet entitled, "How to Respect and Display Our Flag," is free to anyone requesting it, L. J. Demire, officer in charge as soon after that date as they can be printed.

The "Win the War" stamp will take the place of the present three-cent national defense stamp when remaining supplies become extinct.

of the marine recruiting station in Des Moines, said yesterday.

More than ever, with the nation now at war, will the national colors be displayed. Knowing this, the marine corps has made this booklet available as a guide for those who will display Old Glory, so that it is displayed in accordance with regulations.

The booklet not only features the respect and honor due the flag, but also tells some of the history of the colors since the day it was adopted by the continental congress in 1777. All of the illustrations are in full color.

This educational booklet may be obtained at the marine corps recruiting station, 105 Old Federal building, Des Moines, or at any of its sub-district stations.

**Bundles for Britain**  
Bundles for Britain will meet tomorrow morning at 10 o'clock in the basement of the Iowa State bank building.

### Coralville Heights Club Plans to Meet

Mrs. L. P. Carson, 18 N. Lucas, will be hostess to the Coralville Heights club at 2:30 tomorrow afternoon.

Assistant hostesses will be Mrs. L. Bender and Mrs. J. A. Brandstatter.

### Elected Officer

Mrs. Ann Pechman of Iowa City was elected to the executive board of the Women's Relief corps at a meeting in Des Moines yesterday. The Associated Press reported.

### U-Go, I-Go to Meet

U-Go, I-Go club will meet with Mrs. Earl Krell, 30 Clapp, at 8 Thursday evening.

# First Summer Session Lecture Scheduled for Friday

## Will Discuss Secret Aims Of Socialism

### Rauschnig, Former President of Danzig Senate, to Talk Here

"The Secret Aims of National Socialism" will be discussed by Dr. Hermann Rauschnig, author and former president of the Danzig senate, Friday at 8 p.m. on the south union campus.

The first lecturer of the university summer lecture series, Dr. Rauschnig is the author of such works on the present crisis as "The Revolution of Nihilism," "The Voice of Destruction," "The Conservative Revolution" and "Redemption of Democracy."

Dr. Rauschnig was born in Thorn, West Prussia, Germany, August 7, 1887, and received his education at the University of Munich, where he specialized in music. He fought in the German army during the first World war, and in 1915 married Anna Schwartz, the daughter of a hereditary city official of Thorn. They now have a son and four daughters.

After the war, he completed and published two books on music. In 1922, he became librarian of the German association in Poznan, East Prussia, a city reclaimed by Poland as a result of the Treaty of Versailles.

The Rauschnigs later returned to a large farm at Warnau, near Danzig, where Dr. Rauschnig devoted his time to animal breeding. It was through the success of his farm breeding that neighboring farmers chose him to head their grants, which in turn led to his election to the presidency of the Danzig senate in 1932.

In 1934, Dr. Rauschnig urged Hitler to make a peaceful and permanent alliance with Poland. Hitler, of course, disagreed, and further conflict developed between the two leaders when Dr. Rauschnig refused to arrest priests, disenfranchise the Jews, or suppress rival parties in Danzig.

He was finally forced to resign as president of the Danzig senate. When his active support of constitutionalism in the election of April, 1935, gained him more disfavor with Hitler, Dr. Rauschnig fled to Poland, then to London, and in October, 1941 to the United States to become an American citizen.

The lecturer's first book, "Revolution of Nihilism," appeared in Europe in 1938 and in America in 1939. Reviewers described it as a searching analysis and true account of national socialism and of Hitler's personality and policies.

Dr. Rauschnig reports his confidential talks with Hitler in "The Voice of Destruction," which was published in 1940. In "Redemption of Democracy," published in 1941, he attempts to show that the nations which succumbed to Hitler had the germs of destruction already within them.

"The Conservative Revolution," his latest work, is a defense of the validity of the statements in his earlier book. Dr. Rauschnig is now writing another book on Ger-

## Students of 41 Cities To Attend All-State Music Project Here

Representatives of 30 Iowa cities and 11 cities in four other states have already been accepted for the University of Iowa's 14th annual all-state high school music organization project beginning here Monday, and ending July 15.

Prof. Charles B. Righter of the music department, director of the affair, said that it would be possible for young musicians to apply as late as Monday. The personnel is accepted after receipt of recommendations from school officials. High school students or 1942 graduates are eligible.

Students will enroll either for chorus, orchestra and band or for any two organizations plus individual lessons. All regular schedules include a course in music appreciation and either chamber music or sectional practice. A sports and recreational program also is planned.

The instructional staff will be composed of members of the regular faculty and visiting instructors including Thomas Stone of Boston, H. C. Stump, Morgantown, West Va., and David Robertson, Hendrix college, Ark.

Iowa towns represented so far are Cedar Rapids, Muscatine, Ft. Madison, Marshalltown, Charles City, Des Moines, Davenport, Algona, Burlington, Washington, Independence, Tipton and Sidney.

many.

"Germany is beginning to crack; she has strength enough left for one more offensive," Dr. Rauschnig said recently. "But the Russians will hold them and that will be the beginning of the end for Hitler."

Prof. M. Willard Lampe, director of summer school lectures, reports that in case of bad weather Friday night, the lecture will be held in Macbride auditorium.

Dr. Rauschnig has agreed to participate in a round-table discussion Saturday at 9 a.m. in house chamber, Old Capitol. Other participants in the forum have not been announced.

## PHYSICAL EDUCATION CONFERENCE SPEAKERS

Dr. Ancel Keys, director of the physiological hygiene laboratory, University of Minnesota, and Prof. Mabel Lee, director of women's physical education at the University of Nebraska, will be visiting speakers at the 13th annual conference on problems in physical education to be held here beginning tomorrow and ending Saturday in the senate chamber, Old Capitol. Dr. Keys will talk on "Vitamin Requirements for Severe Muscular Work," and "Tests of Physical Fitness and Their Interpretation." Professor Lee's subjects will be "Physical Education's Opportunity in the Present War Emergency" and "Co-operation on an Intensive Scale." The conference is held through the cooperation of the university physical education department, summer session and extension division.

## College Physicists To Attend Colloquium

### Authorities to Speak At 2-Day Conference Of Annual Iowa Series

College physicists from mid-western university will participate in the series of lectures and forums at the annual Iowa physics colloquium here Friday and Saturday.

The colloquium is being continued despite the war because of the need for physics and physics education in the war effort, according to Prof. G. W. Stewart.

Registration will begin Friday morning in room 109 of the physics building and will be followed by the latest physics movies in room 301.

Programs during the two-day conference will feature reports on war courses, a lecture on the de-

velopment of the betatron by Prof. D. W. Kerst of the University of Illinois, kodachrome studies of fluid motion and panel discussions and lectures on airplane development and aspects of the field of physics.

Speakers at the colloquium will include Prof. P. L. Copeland of the Illinois Institute of Technology, Prof. R. L. Dolecek of South Dakota State college, Prof. L. B. Ham of the University of Arkansas, Prof. Z. V. Harvalik of St. Ambrose college, Prof. W. J. Hooper of Principia college.

Prof. J. C. Jensen of Nebraska Wesleyan university, Prof. Roy A. Nelson of Cornell college, Prof. Robert L. Price of Joliet Junior college, Prof. V. F. Swaim of Bradley Polytechnic institute, Prof. C. N. Wall of North Central college.

Jack Logan of the East Waterloo Public schools, Prof. Louis Wirth of the University of Chicago, Prof. Clyde W. Hart of the University of Iowa, Ben Wood of the Civil Aeronautics administration.

M. N. States of the Central Scientific company, Elmer C. Lundquist of the University of Iowa,

## 25 Lecturers From 10 States Added to Staff

Twenty-five visiting lecturers from ten states have been added to the university's staff for the summer session ending July 31.

Some of the guest professors joining the Iowa staff have been summer faculty members here several times before.

Prof. Hardin Craig of Stanford university, California, is again teaching courses in Shakespeare. Professor Craig was formerly head of the English department here.

Prof. James R. Glass of Rollins college, Florida, is teaching again in the college of education. Thompson Stone, Boston, Mass., is directing the all-state high school chorus, and Prof. Lester Thonssen of the College of the City of New York is teaching in the speech department. Professor Thonssen is also offering a special course to engineers and managers taking the summer management course in the college of engineering.

The list of guest lecturers this summer includes Prof. Bert E. Hopkins of the University of Idaho, college of law; Prof. Troyer S. Anderson of Swarthmore college,

Prof. Hunter Rouse of the Iowa Hydraulic laboratory, and Prof. J. A. Eldridge of the University of Iowa.

An exhibit of new devices and methods in physics will be presented Friday. The colloquium is open to all teachers who are interested.

history department; Prof. Wallace A. Goates of the University of Utah and Frederic McConnell, Cleveland (Ohio) Playhouse, dramatic arts; H. C. Stump of West Virginia, all-state music group, and Prof. Austin Warren of Boston university, English department.

## Modern Art Films To Be Shown Here By SUI Department

The art department has announced that films from the Museum of Modern Art will be shown this summer, with two and possibly three productions featured.

Selection of the movies is not yet determined, but one will be a Russian film, and one will be a Pare Lorentz production.

Anyone interested in buying season tickets should call the art building, extension 777. Tickets will cost 50 cents, and 150 tickets will be sold.

## University Forum To Be Aired Today

"Post War Federation of the Democracies" will be the topic of a debate at 4 o'clock this afternoon

over station WSUI on the university forum program.

With Clair Henderlinder announcing, speakers will be Michael Cuff, Betty Jean Peterson and Ruth Moyle.

The university forum program has changed its regular broadcast time from 3 p.m. Fridays to 4 p.m. Wednesdays.

Canada is the largest producer of maple sugar and maple syrup in the world.

## Student Art Work Will Be on Display

Student work will be on exhibit at the art building all summer, with changes and additions being made on the present student show.

Oil paintings, water colors, design projects and examples of the graphic arts are now showing in the exhibition lounge of the art building.

### Child Welfare Parley Slated For Next Week

Conference to Honor Dean G. D. Stoddard, Head of Department

The Iowa Child Welfare Research station will observe a three-fold occasion next week when the 16th annual child development conference meets here.

In addition to the conference events, the station will celebrate its 25th anniversary and the conference will honor Dean George D. Stoddard of the graduate college, director of the station. Dean Stoddard will leave this summer to become commissioner of education for New York state. Prof. Robert R. Sears of Yale university has been named to the post.

Seventeen child care authorities will speak during sessions of the conference. Speakers will represent child guidance and social relations centers.

Speeches, sound films and exhibits will center around the theme "Children in Wartime."

President Virgil M. Hancher will welcome visitors at the first session Tuesday morning in the senate chamber of Old Capitol. Dean Stoddard will deliver an address at the conference dinner, "The First Quarter Century."

Problems of child guidance and psychology will be discussed at the conference. Speeches and discussions on young children, personal problems of young people, marriage, education, family preparedness, the place of volunteer workers and other topics will be included.

Heading the list of speakers will be Prof. Ruth Benedict of the department of anthropology, Columbia university, New York City; Mrs. Evelyn Mills Duvall, executive director of the Association for Family Living, Chicago; Louis V. Newkirk, director of industrial arts in the Chicago public schools, and Prof. Fritz Redl, school of education, Wayne university, Detroit, Mich.

Acting as chairmen of the conference sessions will be Dr. J. D. Boyd, head of the department of pediatrics, college of medicine; Mrs. F. R. Kenison, president of the Iowa Congress of Parents and Teachers; Prof. Bruce E. Mahan, director of the extension division; Prof. Howard V. Meredith, Iowa Child Welfare Research station.

Prof. Ralph H. Ojemann, Iowa Child Welfare Research station; Lydia V. Swanson, head of the department of child development, Iowa State college, and Prof. Ruth Updegraff and Prof. May Fardee

Youtz, both of the Iowa Child Welfare Research station.

The conference is sponsored by the Iowa state council for child study and parent education, with the cooperation of the Iowa child welfare research station and the extension division of the University of Iowa, Iowa State college and Iowa State Teachers college.

Other speakers at the two-day event will include B. C. Berg, superintendent of schools, Newton; Dr. J. C. Brauer, director of the bureau of dental hygiene here; Mrs. Ronald R. Easter of Ames; Mrs. Wladislava Frost, senior civilian mobilization adviser, Omaha, Neb.; Prof. Mate Giddings of the home economics department here; H. Max Houtchens, director of the Des Moines child guidance center.

Professor Ojemann, Mrs. H. K. Painter, vice-president for the northwest central region, American Association of University Women; Dr. Erwin C. Sage, director of the district health service, Burlington; Prof. M. Gladys Scott of the university department of physical education for women, and Professor Updegraff.

### University Librarian Takes 8-Week Leave

Sarita Robinson, superintendent of the catalog department of the university library, has been granted an eight weeks' leave of absence to teach cataloging subjects in a short term summer school for librarians in Bogota, Colombia, South America.

This summer course, under the joint sponsorship of the Colombian Ministry of Education and the American Library association, will be open to librarians in Colombia, Ecuador, Venezuela, Cuba and countries in Central America.

Other librarians from the library of Congress and the University of Michigan will also be included on the Bogota staff. Funds for the project are being furnished by the Rockefeller Foundation.

### CAP Wing Commander To Visit in Iowa City

John Paul Jones, acting wing commander of the Iowa civil air patrol, will arrive by plane in Iowa City this morning at 11:15 in his tour of the second group.

The second group includes Iowa City, Dubuque, Cedar Rapids and other towns in this area.

Jones will be entertained at a luncheon today by staff officers of the local squadron.

### 6 of 7 U.S. Colleges Report Men Seniors Quit to Join Colors

"Six out of seven American colleges, universities and technical schools reported that some of their men seniors had left before graduation to join the colors," E. E. Crabb, president of Investors Syndicate, Minneapolis, Minn., declared yesterday in discussing the preliminary results of a national survey being conducted by his concern.

A total of 324 schools have replied to the questionnaires which were sent out. The survey shows that 30 schools lost 25 per cent or more of their seniors to the United States armed service before graduation, and that 248 additional schools lost from one to 25 per cent of their seniors before graduation.

"Slightly more than 1/3 of the institutions declared that some of their women seniors—as many as 10 per cent or more of the graduating class in some instances—had left for work in war industries," Crabb said.

Only 46 of the 324 schools reporting lost no men seniors to the armed forces prior to graduation. Two hundred two institutions declared that they had lost no women seniors to war industries before graduation.

### Methodists to Observe Annual Student Day

More than 8,000,000 Methodists in over 43,000 churches throughout the country will mark the 71st annual observance of Methodist Student day next Sunday.

Contributions that day will go to the student loan fund to assist those students who otherwise might not be able to continue their college education.

This year's observance of Methodist Student day, originally known as children's or college day, will serve a double purpose, Dr. Harry Wright McPherson, director of the fund in Nashville, said yesterday.

"Donations may be made in war savings stamps and bonds, he said, "not only providing for the immediate aid of our country but building toward its future security and happiness."

The Brooklyn Botanic Garden contains 2,474 irises in 362 varieties.

Every 100 pounds of food cans contain one pound of tin and 99 pounds of steel.
