

Yanks Hit Japs on Makin U.S. Warplanes Superior

Have Qualitative Test Against Germany's Newest, Best Ships

By WES GALLAGHER

LONDON (AP)—The Dieppe demonstration of allied air mastery over a chosen zone of operations was followed yesterday by allied victory in a qualitative test of Germany's newest and best fighting planes against the Flying Fortresses of the United States army air forces.

Eleven of the big, four-motored B-17s were over the North sea when 20 to 25 of Germany's prized Focke-Wulf 190s tackled them. In the 20 action-filled minutes that followed six of the attackers were destroyed or damaged.

Not one of the Fortresses was lost although two engines of one were destroyed and a shell from one of the Focke-Wulfs' cannons exploded in the cockpit, killing the co-pilot and injuring the pilot. "The Fortress was hit in many other places," the U.S. army air headquarters communique added, "but no other casualties were suffered."

The North sea foray, objective undisclosed, was the fourth by the Fortresses in five days since the United States army started bombing operations in the European theater.

Fortress crews, familiarizing themselves with the European theater, previously executed precision attacks on German railway yards at Rouen on Monday, on the big flying field at Abbeville on Wednesday in concert with the combined operations against Dieppe and on railway yards at Amiens Thursday.

The North sea battle found the Fortresses unescorted for the first time.

The British have been amazed by the bombing accuracy of the Fortresses at the great heights where they operate.

Expressions of doubt were heard that bombing could be accurate from more than 20,000 feet as claimed by the confident Americans. The Fortress performances in the first four flights more than answered this.

By bringing Hitler's air force into a full-scale fight the raid had accomplished what RAF sweeps over occupied territory had rarely succeeded in doing in recent months.

But at the same time qualified aeronautical experts discouraged any belief that a single such battle could compel the Luftwaffe to withdraw any substantial strength from the Russian front.

The same sources emphasized that the great number of allied planes engaged over Dieppe represented only a fraction of those which would be needed in an invasion.

The Germans threw at least 400 planes into the Dieppe action and the superiority which the allies demonstrated indicated they were numerically stronger.

Brazil Claims Loss Of 169 Officers, Men In Tangle With Axis

RIO DE JANEIRO (AP)—The loss of 169 army officers and men in the recent axis torpedoing of the coastal vessels Baependy, Itagiba and Araraquara was officially announced yesterday as United States and Brazilian airmen searched for the 5,000-mile coastline for axis submarines, including one which accosted a small coasting vessel with demands for fuel and food.

The three ships were among five whose sinking in a space of three days was announced by the government last Monday. Eighty-eight soldiers were saved.

Nazi Reinforcements Approach Stalingrad

Soviet Army Repels Constant Nazi Attacks South of Kletska

MOSCOW, Saturday (AP)—The Nazi bid for Stalingrad reached a critical stage early today with reinforced German troops trying to erect bridgeheads across the Don 40 miles above that Volga city and attempting to exploit a wedge driven into Russian positions northeast of Kotelnikovski below the Don.

The midnight communique said the red army had repelled constant German attacks southeast of Kletska on the Don bend, but acknowledged that Nazi tanks had breached Russian positions southwest of Stalingrad in Kotelnikovski area.

"Northeast of Kotelnikovski repeated heavy attacks by tanks and mechanized infantry were repelled," the communique said, "in another sector the enemy sent 100 tanks into the attack. Only a few succeeded in breaking through."

Russian observers admit, however, that it is going to be hard to hold the Germans, especially if the Nazis realize a superiority of numbers and equipment as they have now for two months.

The banks of the Don river loop were reported strewn with dead German shock troops in a bloody fight for control of both river sides.

The red armies fighting in the Caucasian foothills south of Krasnodar on the road to the Black sea port of Novorossisk still were falling back. The Russians were officially reported to have killed more than 2,000 Germans before retiring to new positions.

The communique reported the Russians repulsed enemy attacks southeast of Pyatigorsk. There the German drive was along an asphalt road leading to Nalchik, 50 miles beyond. Nalchik in turn is only 100 miles west of the Russian city of Grozny.

Midwest's Teamsters Having Wage Dispute

CHICAGO (AP)—AEL truck drivers in six midwestern states went on strike yesterday in a dispute over wage differentials, Robert Appel, secretary of the Central States Employers' conference committee, said last night.

Appel said the strike was called in the "the states west of the Mississippi river covered in the Central States agreement." This would be Minnesota, Kansas, Missouri, Iowa and Nebraska.

Ickes Curtails Tank Car Fuel Delivery in Midwest, Southwest

AMERICAN GENERALS IN LONDON DISCUSS 'ACTION'

These American generals in the British Isles, pictured as they conferred in London, certainly are not just passing the time of day. Mote probably they are laying plans for the second European front, possibly the allied raid on Dieppe. Shown, left to right, seated, are Maj. Gen. Carl Spatz, commander of army air forces in Europe; Lieut. Gen. Dwight Eisenhower, commander of all U.S. army forces in the European theater, and Maj. Gen. Walter Frank, commanding air service command; standing, Brig. Gen. Ira Eaker, chief of the bomber command, and Brig. Gen. Frank Hunter, chief of the fighter command, and Brig. Gen. Robert Candee, chief of the ground air support command.

Seven Flyers Killed As Bombers Collide

Bomber Bursts Into Flames After Falling Into Wooded Area

BATON ROUGE, LA. (AP)—

The army announced last night that at least seven fliers had been killed in the crash of two medium bombers near Harding field, army air base here.

The planes crashed to the ground after the collision, about seven miles north of here, near Zion City, striking earth about 400 yards apart. One burst into flames immediately, the other becoming deeply embedded in the ground, according to army men.

Army rescue crews rushing to the scene were hampered in reaching the planes by the thick woods, and upon arrival through heavy underbrush, by extreme heat from (See CRASH, page 5)

CITIZENS' DEFENSE CORPS

7:30 p. m., Monday — Civil air patrol will convene at the Iowa City municipal airport.

7:30 p. m., Monday — Members of the executive staff will meet for first aid instruction in room 179, medical laboratory.

Fierce Naval and Air Scrimmage Progresses In Sea off Portugal

LISBON (AP)—A fierce naval and air battle was reported raging last night off Cape Saint Vincent, the southwest tip of Portugal 200 miles northwest of British Gibraltar.

There were no further reports. Presumably it was an engagement between German long-range bombers operating from southern France, and British ships traveling the British-Gibraltar sea route, but no particulars were given. Such clashes have been frequent.

A Reuters dispatch quoted the Vichy radio as saying that a British cruiser and four destroyers had left Gibraltar traveling northwest toward the Portuguese tip.

Work Begins on Naval Diesel School at Ames

AMES, Ia. (AP)—Work began yesterday on the new navy diesel school building on the Iowa State college campus.

The building will be a one-story brick structure adjoining the mechanical engineering laboratory.

The layout of the building includes a laboratory, office, and classrooms. College instructors will teach classes in theory, with non-commissioned specialists handling navy teaching.

U.S. Marines Kill 670 Japanese in Solomons

Yank Losses Slight; All But 30 of Enemy Landing Force Slain

PEARL HARBOR (AP)—United States marines mopping up Japanese in the Solomon islands killed 670 of an enemy force of 700 and captured the remainder yesterday, a communique issued by Admiral Chester W. Nimitz, U. S. Pacific fleet commander, said last night.

The action occurred, the communique said, after a night-time attempt by the Japanese to land 700 troops from highspeed boats in an effort to break through the marines' lines.

Marines losses were 28 killed and 72 injured.

Japanese defenders took to the hills and jungles to escape from our forces. There have been daily skirmishes between United States marine patrol and enemy detachments. In these actions, both sides have suffered casualties.

On August 19 the marines, with a loss of six killed and 13 wounded, wiped out a Japanese detachment of 92 officers and men. Enemy resistance continued until the last man was killed.

On the night of August 20 the enemy landed a force of about 700 well equipped troops from high-

Move to Ease Fuel Shortages On East Coast

WASHINGTON (AP)—The government moved yesterday to shift some of the burden of the east's petroleum shortage to other areas by forbidding local shipment of automobile fuel by railroad tank car in 20 midwestern states. The action is designed to release 5,000 to 7,000 tank cars for hauling 100,000 more barrels of fuel a day to the east.

The order, by Petroleum Coordinator Ickes, will take effect Monday in Texas, Louisiana, Mississippi, Alabama, Oklahoma, Arkansas, Tennessee, Kentucky, Missouri, Kansas, Nebraska, Iowa, Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, and North and South Dakota.

Deputy Coordinator Ralph K. Davies said it "remains to be seen" whether gasoline rationing will be necessary in these states, which will have to depend on trucks, pipelines and barges for distribution.

At the same time, officials made it clear that eastern motorists could expect no easing of gasoline rationing.

The present essential requirements of all types of petroleum in the east total 1,400,000 barrels, officials reported, including some allowance for necessary storage, and these requirements will mount to 1,600,000 barrels daily during the first three months of 1943.

Against this, current supplies are moving at the rate of some 1,000,000 or more barrels daily and the 100,000 barrels added by the additional tank cars will be augmented by 150,000 barrels after the expected completion in December of pipelines now under construction.

Davies said the number of tank cars serving the Atlantic coast had increased already from 1,000 (CQ) in January, 1941, to 70,000 currently.

He explained that the diversion would have been ordered sooner if the railroads and oil industry had been able to use the cars effectively.

"If this withdrawal of transportation creates a shortage in the areas losing it," Davies said, "then curtailment should be extended. "It has seemed only fair the burden growing out of a condition (See GASOLINE, page 6)

Government Hit Hard By Gasoline Rationing

WASHINGTON (AP)—Joy riders are not the only ones hard hit by the wartime automobile situation. The treasury said yesterday it is costing the government about \$19,000,000 a month in lost taxes.

In July collections on new automobiles were \$10,079,031 less than last year, taxes on new tires and tubes \$4,808,682 less, gasoline taxes dropped \$3,275,595, lubricating oil taxes declined \$1,089,311 and new truck taxes fell \$544,908.

Naval, Marine Units Carry Out 2nd Pacific Offensive in Month

By WALTER CLAUSEN

PEARL HARBOR (AP)—American marines and naval forces, with Major James Roosevelt, the president's son, participating, struck at Japanese forces on Makin island in the northern end of the Gilbert islands early this week, Admiral Chester W. Nimitz, Pacific naval commander, said yesterday.

Admiral Nimitz said that the marines, supported by naval forces, "made a successful landing" on the island Aug. 17 in an expedition aimed at destroying Japanese seaplane installations.

The attack was the second offensive staged by American forces against the Japanese since Aug. 7, when the Americans launched an attack on the Solomon islands.

The purpose of the attack was "accomplished in its entirety," and the attacking force "has been withdrawn," the communique said.

Willkie to Represent Roosevelt in Europe

Purpose of Journey To Straighten Picture Of Production in U.S.

WASHINGTON (AP)—President Roosevelt indicated yesterday that Wendell L. Willkie's mission on his forthcoming trip to the near east would be to sell the neutral countries to the magnitude of the United States' war effort and the advantages to them of a united nations victory. He will have the title of special representative of the president.

Discussing Willkie's trip at his press conference, Mr. Roosevelt said that in some countries of the near east, enemy propaganda had given a distorted picture of conditions here, particularly where the labor situation was concerned.

Willkie, the republican presidential nominee in 1940, is to leave shortly on an itinerary which will include Egypt, Arabia, Palestine, Syria, Turkey, Iraq and Iran, as well as Russia.

In addition to representing the president, he will report to the statesmen of those countries as the leader of the minority party in the United States. In that capacity, Mr. Roosevelt remarked, his word will carry great weight.

Some Service Men's Dependents May Get Pay Within 2 Weeks

WASHINGTON (AP)—Some dependents of service men may receive their first government allowances within two weeks or less, the war and navy departments indicated last night after President Roosevelt signed the bill permitting the allowances to be paid as soon as bookkeeping can be completed.

The war department said that checks covering the first applications to be approved would go out shortly after Sept. 1, while the navy said it was "prepared to make payment almost immediately on all applications which have been received and approved."

First payments to dependents of army men will include all sums accrued to Sept. 1 and subsequent payments shortly after the first of each month will be made on a similar basis, the war department said.

At least 80 Japanese were killed and radio installations and stores were destroyed, while two seaplanes were destroyed on the water.

The Commando-type raid also resulted in losses inflicted on the enemy by heavy bombing attacks, the communique said.

Transport Sunk United States naval ships sank one small enemy transport and one gunboat.

(Prior to Admiral Nimitz's announcement, the Tokyo radio had reported that 200 American troops effected a landing on Makin but said they were repulsed.)

Makin is the northern-most of the Gilbert island group, being located approximately 1,100 miles northeast of the Solomon islands. It is almost in a direct line between the Solomons and Hawaii.

Admiral Nimitz's communique indicated the raid caught the Japs so completely by surprise that they added to their own losses by bombing their own aircraft with bombers from nearby bases.

The text of the communique, No. 7, issued by Admiral Nimitz: "A force of marines of the United States Pacific fleet made a successful landing on Japanese held Makin island on Aug. 17. The purpose of the expedition was to destroy installations of this enemy seaplane base. The purpose was accomplished in its entirety and the force has been withdrawn. 80 Japs Killed

"Known enemy losses inflicted by the marines are at least 80 Japanese killed, radio installations and stores destroyed and one large and one small seaplane destroyed on the water. Other losses were inflicted on enemy forces by heavy bombing attacks on their own aircraft from other bases, which were attempting to assist them.

"Ships of our expedition gunned and sank one small transport and one gunboat.

"Considering the nature of this operation, our force suffered only moderate losses.

"The naval officer commanding the operation was Commander John W. Haines, U. S. N. The marines were commanded by Lieut. Col. Evans F. Carlton, U. S. M. C. Res. Second in command was Major James Roosevelt, U. S. M. C. Res. None of these officers was on the casualty list."

For Them It's 100% VICHY (AP)—Photographs purporting to show allied soldiers captured at Dieppe, published in Paris newspapers yesterday, showed them grinning at the camera and holding up two fingers in the V for victory sign.

President Roosevelt Warns Axis Officials They Will 'Answer for Acts' After War

WASHINGTON (AP)—President Roosevelt grimly warned axis officials yesterday that they would be held individually accountable for barbaric acts against the civilians of occupied nations and that a fearful retribution would be exacted.

When the war is over, he said in a formal statement, "They shall have to stand in courts of law in the very countries which they are now oppressing and answer for their acts."

Explaining his statement at a press conference, the chief executive said it had been hoped that such atrocities as the shooting of innocent hostages would decline. But on the contrary, he added, they had increased. He cited developments in Holland, France and Norway, and said that similar incidents were probable in Poland and Czechoslovakia.

Judicial Procedure Necessary He had heard, he said that some of the oppressed people were pleading that they be given just one week at their subjugators. He did not approve that method, however, because judicial procedure is necessary to insure that innocent people do not suffer along with the guilty.

The prepared statement, which he read to reporters, said that Secretary Hull had recently forwarded to him a communication from the ministers of the occupied countries in Europe calling attention "to the barbaric crimes against civilian populations" there.

"Punishment, through the channel of organized justice of those guilty and responsible for these crimes," the communication said, was one of the war aims of the governments of the conquered countries.

Mr. Roosevelt's statement went on to say that he had also received a communication from the ministers of Holland, Yugoslavia and Luxembourg which said that "these acts of oppression and terror have taken proportions and forms giving rise to the fear that as the defeat of the enemy countries approaches, the barbaric and unrelenting character of the occupational regime will become more marked and may even lead to the extermination of certain populations."

Next Mr. Roosevelt called attention to a passage from a speech which he delivered last Oct. 25. "The practice of executing scores of innocent hostages in reprisal for isolated attacks on Germans in countries temporarily under the Nazi heel revolts a world already injured to suffering and brutality," it said.

### Ten Former University Students and Alumni Announce Recent Engagements, Marriages

Announcements have been received of the marriages and engagements of 10 former students and alumni of the University of Iowa.

**Shares-Steele**  
Announcement has been made of the engagement of Ida Schares, daughter of Mr. and Mrs. Jacob Schares of Gilbertville, and Joseph Steele of San Diego, Cal., son of Mr. and Mrs. James W. Steele of Postville. The wedding will take place this month in San Diego.

Mr. Steele, a graduate of the college of law of the University of Iowa, had a law practice in Postville before becoming associated with the federal bureau of justice.

**Stone-Lund**  
Louise Stone of Chicago became the bride of Edwin Lund, son of Mr. and Mrs. Edward Lund of Cedar Falls, in a ceremony Saturday in Chicago.

The bride, a graduate of Hyde Park high school, attended Wyoming seminary and the University of Chicago.

Mr. Lund is a graduate of Teachers College high school and attended Iowa State Teachers college at Cedar Falls. He received his degree from the university here and is a junior accountant at George Rosseter and company in Chicago, where the couple will live.

**Lucas-Yeakel**  
Aug. 8 was the date of the marriage of Maxine Lucas, daughter of Mrs. Charles S. Lucas of Kanawha, and Pvt. James Yeakel of Kanawha.

Mrs. Yeakel attended Stephens college at Columbia, Mo., and Iowa State Teachers college at Cedar Falls.

Private Yeakel attended the university here and was employed by the Norway rural telephone company before entering the service.

**McCarthy-McLean**  
The marriage of Ruth Ellen McCarthy, daughter of Mrs. Belle McCarthy of Greene, to Paul E. McLean of Monmouth, Ill., took place Aug. 6 at the home of the bride's mother.

Mrs. McLean attended Grinnell college at Grinnell and Iowa State Teachers college at Cedar Falls. She took graduate work at the University of Iowa and has been teaching social science in Jesup and Sac City high school for two years.

A graduate of Monmouth college at Monmouth, Mr. McLean has done graduate work at the university. He is an instructor in the Monmouth public schools.

**Schloemer-Bate**  
Mr. and Mrs. G. George Schloemer of Davenport announce the engagement of their daughter, Florence, to Robert N. Bates, son of Mr. and Mrs. Roy A. Bates of Davenport. Sept. 19 has been set as the date for the wedding.

Miss Schloemer is a graduate of Davenport high school.

Mr. Bates received his bachelor of music degree from the university in May. He is now a member of the band at the Navy Pre-Flight school here.

**Ladd-Swander**  
The marriage of Betty Jane Ladd, daughter of Mr. and Mrs. Avery S. Ladd of Newton, to Jack E. Swander, son of Mr. and Mrs. Ira Swander of Boone, took place Sunday.

Mrs. Swander is a graduate of Newton high school and the University of Iowa. While at the university she was affiliated with Alpha Delta Pi sorority.

Mr. Swander, a graduate of Boone high school, attended Iowa State college at Ames. He is a senior in the college of medicine of the university and a member of Phi Rho Sigma medical fraternity.

The couple will be at home until Feb. 1 at the Iowa apartments.

**Riegel-Gruenau**  
Ruth Ann Riegel, daughter of Mr. and Mrs. C. L. Riegel of Davenport, became the bride of Curtis Gruenau, son of Mrs. C. S. Gruenau of Davenport, Aug. 15.

The bride attended Monmouth college in Monmouth, Ill., and was graduated from the University of Iowa. She received her M. A. degree from the university in May.

The bridegroom received his B. A. degree from Wooster college in Wooster, Ohio, and for the last two years has attended the Chicago Theological seminary. He is now assistant director of the USO at Tullahoma, Tex.

**Hermanson-Meierkord**  
Aug. 16 was the date of the marriage of Helen Hermanson, daughter of Mr. and Mrs. Louis T. Hermanson of Waukon, to Dr. Meierkord of Waukon.

Dr. Meierkord, a graduate of the university college of dentistry, was recently called into military service. He is stationed at Ft. Bliss, Tex., where the couple will live.

**To Entertain Alumnae**  
Mrs. E. W. Scheldrup, 218 Melrose court, will be hostess Tuesday to the Kappa Kappa Gamma Alumnae club. The group will meet at 2:15 for business and tea.

**To Hold Quilting Session**  
The Ladies Aid of the Christian church will have an all-day meeting Tuesday in the church parlors. The quilting session will begin at 10 a. m.

### Nailheads

When summer turns to autumn, clothes become a problem. This beige crepe frock strikes just the right combination of summer comfort and fall style. Fashioned in simple shirtwaist lines with a flattering shirred waist, the nailheads make it dressy enough for evening wear.

### But Warm Clothes Just Don't Appeal

Advice to Purchase Fall Clothes Leaves The Women Cold

By EDITH GAYLORD  
NEW YORK (AP)—Your advice doctors, to buy warm winter clothing against a possible fuel shortage, leaves the women cold.

Women, known to have caused riots over possible dearth of such airy items as silk stockings, have no chills of premonition to send them buying warm garments now.

Nor are they hot and bothered by the "wear woolies" advice of doctors and the threat of lower room temperature this winter.

Uttered by city officials and engineers at a recent meeting on the fuel shortage dispute.

**Winter Must Come**  
Women's stores, in polite terms, give you to understand they know winter comes. This has been an accepted fact for many years and they buy merchandise accordingly.

The stores point out that they have on hand and more on order, such items as flannel nightgowns, brushed rayon pajamas, woolen undergarments, warm robes and enough sweaters to build a mountain.

While people still were risking their necks for fun, ski suits became standard stock. Man-hated slacks also provided an answer to the doctor scornful of short skirts and flimsy hose. Furthermore, woolen and lisle hose are not warborn inventions, they've been on the counters a long time.

Stylish leaders agree quilted fabrics will be a fashion rage, which, if you must mention it, will keep you warm. Jackets may boom, too.

**Climate Doesn't Matter**  
One Fifth avenue store offers a snugly fitting vestee, all wool covered with crepe, to wear under uniforms or sports costumes. It comes with long sleeves or sleeveless.

One expert sees greater use of the culotte (divided skirt), but she refuses to attribute this to climatic conditions.

"More people will be riding bicycles," she said. "They'll wear culottes and slacks and overalls because of the gasoline and tire shortage. The weather won't have anything to do with it."

### Mary Kupka Charges Inhuman Treatment In Suit for Divorce

Mary Kupka filed petition for divorce in district court yesterday against Rodney Kupka, charging him with desertion and cruel and inhuman treatment. R. Nelson Miller, clerk of court, announced.

They were married Sept. 10, 1932, in Moline, Ill., and have one child, for which Mrs. Kupka is asking custody.

Edward F. Rate is attorney for the plaintiff.

### L. A. Indian Sharpens Tomahawk for Japs

LOS ANGELES (AP)—Little Chief Thunderwater smashed his peace pipe and went on the war-path against the Japs—in a navy uniform.

Born on a Sioux reservation at Bonesteel, S. D., the 21-year-old Indian's Anglicized name is—John Paul Jones.

### 'After the War' We Will Buy—

# Smaller Cars Without the Frills

By CLAYTON IRWIN  
Wide World Features Writer

The greatest potential market since the automobile graduated from the chain-drive and solid rubber tire class will be ready, by tapping by the motor manufacturers when the war's over.

A big portion of the 30 to 35 million present auto owners in the United States will be customers. And what will the makers have to offer them?

The big car manufacturers still have designers at work on the cars of the future and are not telling all the things they are planning.

But experts' forecasts come down to this:  
**Smaller Cars**  
The post-war automobile, generally, will be smaller, more along the lines of the European cars— or a refinement of the midget cars now being used by the army. It will be different in design but functional. Starting from scratch, the makers will not be restricted to pre-war equipment. It will have a smaller engine that will develop as much power as the standard engine today. Price may be lower than the pre-war average.

Prophet of the smaller car is Harold F. Blanchard, technical editor of "Motor." In a recent article he predicted that heavy tax bills and economic readjustments after the war would leave the average American less money to spend for an automobile.

"Obviously," he said, "the cost of making an automobile is lessened as its weight and size are reduced."

**Size Should Increase**  
"Immediately after the war we may have to build much smaller and cheaper cars without any frills . . . but just as fast as our supply of used cars is built up, so should new car size increase until we get back to normal."

An expert who takes into consideration design alone and leaves the technical phases to the manufacturers is Raymond Loewy, New York industrial designer.

Loewy's car of the future would employ more plastics and man-made materials, would be lighter in weight, would eliminate all unnecessary hardware such as hinges and handles, would be air-conditioned and have adjustable seats.

**Engines Being Improved**  
The engine would have an improved weight-to-power ratio (partly because higher-octane gasoline may rule the future and partly because airplane research is improving engines). Due to its reduced size, it could be located fore or aft.

The car would have reflectionless glass or transparent, plastic top, in addition to a dozen or so interior refinements—gadgets that have tickled the American motorist in the past.

One fact stands out in all these post-war considerations: the airplane manufacturers are making the big strides now in design, motive power and adaptation of materials. It's likely that many of these will be borrowed for the auto of the future.

erally, will be smaller, more along the lines of the European cars— or a refinement of the midget cars now being used by the army. It will be different in design but functional. Starting from scratch, the makers will not be restricted to pre-war equipment. It will have a smaller engine that will develop as much power as the standard engine today. Price may be lower than the pre-war average.

### Among Iowa City People

Mrs. T. J. Walsh, 224 N. Johnson, is spending a month in Martinsville, Va., visiting her son-in-law and daughter, Mr. and Mrs. A. G. Owen.

Helene Blattner, a member of the speech department, left yesterday for Lubbock, Tex., where she will serve as an associate professor of speech at Texas Technological college.

Mr. and Mrs. Raymond Spratt, 619 N. Johnson, are the parents of a boy born yesterday at Mercy hospital. The baby weighed seven pounds, two ounces.

Mr. and Mrs. E. J. Nelson of Iowa City are the parents of a six-pound, one-ounce, girl born yesterday afternoon at Mercy hospital.

Mr. and Mrs. Dick Jones, 107 Grove, are spending the week end at Ft. Riley, Kan., visiting their son, Pvt. Kenneth Jones.

Word has been received from Washington, D. C., of the birth of a son to Mr. and Mrs. Ray Heinen. Mrs. Heinen is the former June Herring of Iowa City. Mr. Heinen, a university graduate, was formerly associated with WSUI.

Guests in the home of Prof. and Mrs. John Hubert Scott, 701 Bayard, are Mrs. Chester L. Leese of Washington, D. C., Helen Thompson of Davenport, and Dr. John H. Scott of St. Paul, Minn.

A six-pound boy was born to Mr. and Mrs. Tom Watson of Tipton yesterday at Mercy hospital.

Mr. and Mrs. Mervin Belger, 508 S. Dubuque, are the parents of a six-pound, eight-ounce, girl born yesterday at Mercy hospital.

Mr. and Mrs. Philip Key and son, Donald, 533 S. Lucas, will leave today for Des Moines where they will visit Mrs. Key's brother, Paul Deal.

Mrs. Lena Popenga of Wellsburg will leave tomorrow after a week's visit in the home of her brother-in-law and sister, Mr. and Mrs. Lee Koser, 305 Garfield.

Mr. and Mrs. Victor Dvorsky of West Branch are the parents of a seven-pound, ten-ounce, girl born yesterday at Mercy hospital.

**Trinity Group to Meet**  
Women's blouses will be made by the Red Cross Group of the Trinity Episcopal church at their all-day meeting Tuesday. Mrs. Allen Megrew is in charge of the session which will be held at the parish house from 10 a. m. until 4 p. m.

**Ration Board Issues 6 New Car Permits**  
Six certificates for the purchase of new automobiles were issued by the Johnson county rationing board between Aug. 8 and 15, according to the regular report released yesterday.

Recipients were the University of Iowa, hospital supervision; G. Richard Black, farmer; W. E. Yavorsky, farmer; Leonard R. Leoney, farmer; Lawrence A. Jarrad, salesman, and Ensign Harold H. Johnk of the United States Navy.

erally, will be smaller, more along the lines of the European cars— or a refinement of the midget cars now being used by the army. It will be different in design but functional. Mr. and Mrs. Dick Jones, 107 Grove, are spending the week end at Ft. Riley, Kan., visiting their son, Pvt. Kenneth Jones.

Word has been received from Washington, D. C., of the birth of a son to Mr. and Mrs. Ray Heinen. Mrs. Heinen is the former June Herring of Iowa City. Mr. Heinen, a university graduate, was formerly associated with WSUI.

Guests in the home of Prof. and Mrs. John Hubert Scott, 701 Bayard, are Mrs. Chester L. Leese of Washington, D. C., Helen Thompson of Davenport, and Dr. John H. Scott of St. Paul, Minn.

A six-pound boy was born to Mr. and Mrs. Tom Watson of Tipton yesterday at Mercy hospital.

Mr. and Mrs. Mervin Belger, 508 S. Dubuque, are the parents of a six-pound, eight-ounce, girl born yesterday at Mercy hospital.

Mr. and Mrs. Philip Key and son, Donald, 533 S. Lucas, will leave today for Des Moines where they will visit Mrs. Key's brother, Paul Deal.

Mrs. Lena Popenga of Wellsburg will leave tomorrow after a week's visit in the home of her brother-in-law and sister, Mr. and Mrs. Lee Koser, 305 Garfield.

Mr. and Mrs. Victor Dvorsky of West Branch are the parents of a seven-pound, ten-ounce, girl born yesterday at Mercy hospital.

**Trinity Group to Meet**  
Women's blouses will be made by the Red Cross Group of the Trinity Episcopal church at their all-day meeting Tuesday. Mrs. Allen Megrew is in charge of the session which will be held at the parish house from 10 a. m. until 4 p. m.

**Ration Board Issues 6 New Car Permits**  
Six certificates for the purchase of new automobiles were issued by the Johnson county rationing board between Aug. 8 and 15, according to the regular report released yesterday.

Recipients were the University of Iowa, hospital supervision; G. Richard Black, farmer; W. E. Yavorsky, farmer; Leonard R. Leoney, farmer; Lawrence A. Jarrad, salesman, and Ensign Harold H. Johnk of the United States Navy.

### Naval Head Inspects Iowa Pre-Flight Base

Capt. A. W. Radford, head of all naval aviation training, made a short tour of inspection of the Pre-Flight school here yesterday.

Captain Radford was last here April 15, when the Iowa base was commissioned. He left last night for Washington, D. C., where he is now stationed.

He was graduated from the United States Naval academy in 1916 and was a classmate of Comdr. John Bloom, executive officer of the school.

### Robert P. McClure, 1941 SUI Graduate, Dies in Plane Crash

Robert P. McClure, 25, a 1941 graduate of the University of Iowa, died Thursday in the crash of a training plane at Aberdeen, S. D., where he was a civilian instructor, according to word received here yesterday.

McClure was a member of the A.F.I., senior men's honorary organization, and Sigma Nu fraternity while here at the university. He was also business manager of the Journal of Business.

He completed his secondary civilian pilot training at the Iowa City municipal airport July 16, 1942.

### Rep. T. Martin Tells Masons We Must All 'Get Tough to Win'

"In order to win this war we've got to get tough," Rep. Thomas E. Martin, member of the house military affairs committee, told members of the Masonic service club at their regular luncheon meeting yesterday.

"And when we begin to get tough," he continued, "we're going to find out that the price we will be forced to pay will be many times what we're paying now."

The Iowa congressman stated that our production of munitions had multiplied so rapidly after the Pearl Harbor attack that in a few months we will have supplied our forces with all the military equipment they need.

Our production of ships is still ahead of axis sinking, but the difference between manufacturing and sinking must be increased, he explained.

"We're going to fight this war on the assumption that it will be a long one. If it isn't—fine—but we won't be caught short again," Representative Martin concluded.

McClure was the son of Mr. and Mrs. N. Fay McClure of Des Moines.

# Get the iron out of your basement now!

## Half of every tank, gun and ship is made from scrap iron and steel

Put your scrap out—to be picked up August 20 thru duration  
Watch for Junk Round-Up Announcement Ad—August 30th

Unless the citizens of America respond at once, the war production program can bog down for lack of steel and other vital materials.

Even in peacetime, scrap provided about 50% of the raw material for steel.

It may be rusty, old "scrap" to you, but it is actually refined steel—with most impurities removed. In the steel mills this precious "scrap" is melted with pig iron to produce the steel which goes into our machines of war.

Many steel furnaces are working from hand to mouth. Others are faced with shutting down. All need great mountains of reserve scrap to see them through the fall and winter months.

Steel production has gone up...up...UP! America is now producing as much steel as all the rest of the world combined. But unless at least

6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; all the tanks, guns and ships our country is counting on cannot be produced.

We can be thankful that there is enough Scrap in this country to see us through—Scrap a once wasteful nation is turning to in time of stress. It all depends on you to collect it and turn it in.

It is the greatest "Treasure Hunt" in history. Appoint yourself a committee of one to search your attic, your basement and your garage, your barnyard, your factory or your store. Then give your pile to a charity or collection agency—or sell it to a Junk dealer. The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Throw YOUR scrap into the fight!  
**HOW TO TURN IT IN**  
—Sell it to a Junk dealer... Give it to a charity... Take it yourself to nearest collection point... or consult your Local Salvage Committee... If you live on a farm phone or write your County War Board, or consult your farm implement dealer.  
LOCAL SALVAGE COMMITTEE—PHONE NUMBER 2161

### JUNK needed for War SCRAP IRON AND STEEL

Needed for all machines and arms of war. Fifty per cent of every tank, ship and gun is made of scrap iron and steel.

OTHER METALS, RUBBER, RAGS, MANILA ROPE, BURLAP BAGS

Needed for making bombs, fuses, binoculars; planes; tires for jeeps; gas masks; barrage balloons; surgical supplies for military hospitals; wiping rags for guns; insulation for electric wiring; parachute flares.

WASTE COOKING FATS—Strain into a large tin can and sell to your meat dealer, when you get a pound or more.

NEEDED ONLY IN CERTAIN LOCALITIES—Waste paper and tin cans, as announced locally. NOT NEEDED (at this time)—Razor blades; glass.

## THE DAILY IOWAN SPORTS

### Hawklet Coach Calls Gridders

Herb Cormack Starts 1st Practice Monday With Powerful Squad

Coach Herb Cormack will start his 1943 City high grid machine rolling this morning by calling all Hawklet varsity candidates together at 10 o'clock to issue equipment. Practice will get under way at 9:30 Monday morning and daily drills are scheduled up to the opening of school Sept. 8.

Although he has the best material he has had in years, Coach Cormack urges any new boys to report who are possible candidates for the varsity squad. For the first two or three days shoes and shorts will be the Hawklets' dress, but the first cool day will find the boys in their regular football equipment.

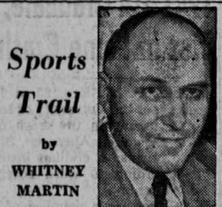

A dream backfield, each member of which at least a one letter winner, will spark the Hawklet attack this season. Big Joe Casey, an all-stater last year, will step into his fullback shoes once again while Bill Sangster, veteran Red and White passer, will resume his quarterback post. Bob Roth will supply plenty of power for one of the halfback positions and Wayne Hopp, a junior, will probably replace Dave Danner at the other half. Danner is going to be shifted to end this year probably because of his uncanny passing ability.

Newcomers to wear Little Hawk colors are Jim Bierman, Bill Frey, and George Ware, brother of Paul Ware who is a former City high griddier.

Coach Cormack will have 14 returning lettermen around whom to build this year's eleven. These boys are: Casey, fullback; Sangster, quarterback; Roth, halfback; Dean Yanush, tackle; Danner, end; Don Williams, end; Howard Brown, guard; Hopp, halfback; Arthur Cornall, guard; Joe Fackler, end; Dick Lee, tackle; Ruben Snider, center, and Tom Hirt, guard.

In addition, several who have had some varsity game experience besides those who played on the sophomore team last fall are expected to report. This list includes LaVerle Brack, Bob Todd and Don Trumpp, all of whom have had backfield experience, and George Mellicker, Bob Opfel, Bill Cray, Don Fetig, Chester Miller, Bob Strub, Arthur Campbell, Maurie Kimmel, Earl Cathcart, Bob Hein, Jim Bauer, Carl Voelckers and Howard Campbell—linemen.

by WHITNEY MARTIN

★ Les Kennedy Wins  
★ Golf Tourney  
★ By Finishing Fifth

NEW YORK — Anyone who ever has used the wrong fork at a banquet, or sat on a chair that wasn't there, or shot some stranger thinking he was a pal can sympathize with Les Kennedy.

Les Kennedy is the golfer who won the recent Rhode Island open title and finished fifth, and if you think that's like saying a fellow had a head cold in his chest you think right. It's all a little confusing.

**'Mistaken Identity'**  
It was all a case of mistaken identity. Kennedy mistook another ball for his own. On the 15th hole of the second and final round he saw a ball in a brook which he thought was his. He dropped a ball and played out the hole, getting a five. He then discovered the ball in the brook wasn't his, which was located in the rough. He played the original ball and took a four and finished the round with a 73 for 164, good for first place by a stroke.

The U. S. G. A. was asked for a ruling, and ruled that Kennedy should be penalized two strokes, as stroke rule No. 8 says a competitor playing a stroke or strokes with a ball other than his own shall be penalized two strokes. In theory, the ball dropped by Kennedy was not his own as he was substituting it for a ball not his own. The two extra strokes dropped Kennedy into a tie for fifth, with four players tied a stroke ahead of him.

**'Learn By 1 Stroke'**  
The whole affair demonstrates the complexity of this game of golf, and shows how one small, unintentional infraction of a rule, an infraction which to all practical purposes has no bearing on the actual number of strokes used, can win or lose tournaments.

USGA Secretary Joe Dey says stroke rule No. 3 was put in for a purpose.  
"When a player plays the wrong ball by mistake," he explains, "it is logical his own ball is in the immediate vicinity and, if in the rough, has a similar lie. If he played one ball out of the rough, say, he would have the advantage of a practice stroke and know how to play the other ball, wouldn't he?"

Not if he played the way we do, he wouldn't. We've been trying to learn how to play a ball out of the rough for 20 years, and he says you can learn by one stroke. Phooey.

## Cardinals Take Seventh Straight

### Homers by McCosky, York Enable Tigers To Down Browns, 4-1

DETROIT (AP)—Successful home runs in the fourth inning by Barney McCosky and Rudy York gave the Detroit Tigers the opener, 4 to 1, of a four-game series with the St. Louis Browns that may determine final occupancy of an American league first division berth. Rookie Hal White scattered eight hits for his ninth victory and barely missed his fourth shutout.

McCosky belted an inside-the-park homer with one aboard ahead of York's 20th of the season. It was McCosky's sixth. Rookie Johnny Lipon singled home elder-Anderson, removed for a pinch batter, retired to his tenth defeat against 13 victories.

The St. Louis fourth place margin over Detroit was cut to two games.

St. Louis .....000 000 010—1 8 0  
Detroit .....000 400 00x—4 8 0

### \$5,000 Investment Begins to Pay Off

HOUSTON, Tex., (AP)—Dick Wakefield, the \$5,000 outfielder who graduated from Michigan university to the Detroit Tiger farm system, has begun paying dividends on the Tigers' investment.

Wakefield was named the most valuable player of the Texas league by sports writers of the circuit.  
The Beaumont rightfielder, who is leading the league in hitting, over the .350 mark, leading in number of hits, in two-base hits and second in runs scored, was far ahead of the field with 51 points.

Paul Dean, staging a fine comeback with the Houston Buffs, was fourth with 15.

### Dick Hainline to Play S. Lord for Nebraska Tennis Championship

OMAHA (AP)—It'll be Richard Hainline of Rock Island, Ill., against Sterling Lord of Burlington, Ia., in the men's finals of the Nebraska open tennis tournament here today.  
"Lord, bespectacled Grinnell college graduate, played superb tennis yesterday to eliminate Frank Pissale, Omaha city champ, 6-2, 6-3, 6-1 to join his doubles partner in the final bracket. Hainline reached the finals Thursday by beating Ben Miller of Omaha.

### Dudley, Smith Star

EVANSTON, Ill. (AP)—Bruce Smith of Minnesota and Bill Dudley of Virginia, regarded as the college all stars' best pair of left halfbacks, pitched touchdown passes in an hour long scrimmage yesterday.

### Yankees Run Hog Wild, 17-7

NEW YORK (AP)—Back home after dropping three out of four games to the Red Sox in Boston, the New York Yankees went on their biggest scoring spree of the season yesterday, crushing the Washington Senators, 17-7, with a 21-hit attack.

The Yanks jumped on Early Wynn for seven hits and six runs in the opening frame and continued their assault against Bill Trotter until the seventh, when Ray Scarborough came in and stopped them cold the rest of the way.

Phil Rizzuto set the torrid Yankee batting pace with five hits, all in the first five of his six appearances at the plate.

Every Yankee player except Lindell and his relief battery mate, Rollie Hemsley, drove in one or more runs. Joe Gordon hit a two-run homer in the second inning, his 14th round-tripper of the year, and Charlie Keller blasted his 22nd in the fourth.

The loss was the 12th for Wynn against eight triumphs.

### Cubs Chase Cincy's Ray Starr to Take Series-Opener, 6-3

CHICAGO (AP)—The Chicago Cubs exploded a five-run fifth inning yesterday afternoon to beat the Cincinnati Reds, 6 to 3, in the opener of a four-game series.

The victory enabled Bill Lee to win his 13th game of the season while Ray Starr, knocked out in the fifth, suffered his 11th loss.

The Cubs made 10 hits off Starr, Clyde Shoun and Joe Beggs while Lee held the Reds to eight hits, three of which occurred in the third when the Reds scored two of their three runs.

The Cubs couldn't do much with Starr until the fifth when he went suddenly wild and walked three batters. The Cubs made five runs with the aid of only three hits, but took advantage of five walks.

It was the third time this season the Cubs have knocked Starr out of the box. He beat them once in June.

### Rookie Beazley Whips Pirates 10-2, to Slice Idle Brooklyn's Lead

ST. LOUIS (AP)—Pointing toward a climactic series with Brooklyn next week, the St. Louis Cardinals won their seventh straight victory yesterday, defeating the Pittsburgh Pirates, 10 to 2, and cutting the idle Dodgers' lead to 6 1/2 games.

Rookie Johnny Beazley, one of the reasons why the Cardinals are hot in the pennant race, pitched his 15th triumph of the season, matching the total of Morton Cooper. The young right-hander limited the Pirates to six hits, while his teammates were pounding out 12, including homers by Stan Musial and Walker Cooper.

For six innings, the game was a duel between Beazley and Lloyd Dietz, each team scoring a run in the opening frame.

The Cardinals knocked out Dietz in the seventh and finished the job against "Hot Potato" Hamlin on Cooper's homer with one man on base in the eighth.

After a single game with Pittsburgh today and a doubleheader tomorrow, the Cards meet the Dodgers in two night games and two twilight games.

CHICAGO (AP)—The Chicago Cubs exploded a five-run fifth inning yesterday afternoon to beat the Cincinnati Reds, 6 to 3, in the opener of a four-game series.

The victory enabled Bill Lee to win his 13th game of the season while Ray Starr, knocked out in the fifth, suffered his 11th loss.

The Cubs made 10 hits off Starr, Clyde Shoun and Joe Beggs while Lee held the Reds to eight hits, three of which occurred in the third when the Reds scored two of their three runs.

The Cubs couldn't do much with Starr until the fifth when he went suddenly wild and walked three batters. The Cubs made five runs with the aid of only three hits, but took advantage of five walks.

It was the third time this season the Cubs have knocked Starr out of the box. He beat them once in June.

SEAHAWK SLUGGER—Cadet Jim Phipps, pictured above, is the hard-hitting centerfielder who will start for the Iowa Pre-Flight cadet nine against the Great Lakes team. Phipps has been a consistent hitter all season, and is especially dangerous with men on base. The 6-foot, 1 1/2-inch left handed hitter will be in the clean-up slot today.

### Zupke Tees Off On Comdr. Tunney 'Football Is Tough As Anything Tunney Teaches,' Says Zup

EVANSTON, Ill. (AP)—Bob Zupke, who has been as happy as a lark lately coaching the college all star football team, got mad yesterday at Commander Gene Tunney, navy director of physical training.

The fiery little Dutchman unlaced a shoe and kicked it across the dressing room.

"So Gene Tunney has decided again that football's no good and we can't have competitive athletics and fight a war—I'm just wondering what Tunney knows about football and other sports that require cooperation," Zupke ranted.

"Football is as tough as anything Tunney's physical education men ever thought up," Zupke continued. "Suppose I give knives to this gang of all-star linemen and turn 'em loose. Do you think they'd know how to twist their bodies and count one, two, three, four, still would wipe out a lot of Japs."

"The army and navy have to learn to cooperate in groups. Football teaches that. Ten men subordinate themselves in a plan they have learned so that one man can advance. They develop and follow a leader."

"The navy and army have to build stamina just as Tunney says and you've got to know how to use a bayonet."

**The veteran coach concluded.**  
"But football was building stamina and teaching boys to fight hard shoulder to shoulder before Tunney wrote out his plans for winning the war."

Earlier in the week Commander Tunney asked the sports world to lay off athletic stars who have entered the armed forces.

"You can't train a man to be a fighter by having him play football or baseball," he said.

### Mrs. Thomas Tracey Voted Iowa President Of Legion Auxiliary

DES MOINES (AP)—Mrs Thomas H. Tracey of Manchester, was elected president of the Iowa American Legion auxiliary at the close of the organization's annual convention here yesterday.

Mrs. Tracey who was unopposed, is the wife of Lieut. Col. Tracey of Camp Wheeler, Ga., who resigned his post as Iowa commander of the American Legion last March to go on active duty with the army.

Mrs. Frank Abraham of Mount Pleasant was elected vice president of the auxiliary. Other officers are Mrs. M. Myrton Skelley, Des Moines secretary; Mrs. Thomas R. Carr, Des Moines, treasurer; Mrs. R. A. Flanagan, Silver City, chaplain; and Mrs. G. M. Brown, Whiting, historian.

### ARMY TAKES OVER BOSTON PLANT

Officers of the United States army are shown above as they took over management of the S. A. Woods Machine company in Boston on presidential orders because of the management's refusal to obey a war labor board directive. Left to right are, front, Maj. Frank Hammond; Maj. Ralph Gow, commander of the troops; Maj. Charles P. Burnett Jr.; rear, Maj. George Walters and Harold S. Wythes. (Central Press Photograph)

### Vincent Zmunt Rites Will Be Held Today

Funeral service will be conducted this afternoon for Vincent Zmunt, 76, long time resident of Iowa City, who died suddenly Wednesday while on a fishing trip at Park Rapids, Minn.

With Dr. Elton T. Jones of the Presbyterian church officiating, the service will be held in Beckman's mortuary at 3 o'clock. He will be buried in Oakland cemetery.

Born in New York City April, 1866, Mr. Zmunt obtained a B.S.A. degree from Iowa State college and later graduated from the college of law here at the university. He practiced law in Iowa City for many years and served two terms as Johnson county attorney.

Surviving are a brother, Jerry; a nephew, Frank Zmunt of Davenport, and a sister-in-law, Mrs. Bertha Zmunt of Iowa City.

### Rev. Molzahn Found Guilty Of Treason

HARTFORD, Conn. (AP)—The Rev. Kurt E. B. Molzahn, pastor of an historic German Lutheran church in Philadelphia, was convicted yesterday of conspiracy to betray the country in which he has lived for 18 years by delivering United States military secrets to axis powers.

The federal court jury of eight men and four women who had heard the four-weeks-long trial deliberated just two hours before bringing in the verdict.

Prosecutor Thomas J. Dodd Jr., asked that the full penalty of the peacetime espionage act—20 years in prison—be invoked immediately, but Judge J. Joseph Smith continued the case until Tuesday morning to give the defense opportunity to prepare arguments on motions.

He then immediately sentenced three of Pastor Molzahn's co-conspirators, including Gerhard Wilhelm Kunze, former national leader of the German-American Bund, who had pleaded guilty to the indictment, Kunze, who now calls himself a German citizen though he is the only native born

among five conspirators, was sent to prison for 15 years as Dodd recommended.

The prosecution's recommendation also was followed in the sentence of Dr. Wolfgang Ebel, 43, El Paso, Tex., physician, who was given a seven year term. Dr. Otto Willumeit, 37, stocky Chicago Bund leader must serve five years. Dodd had asked that he be "leniently dealt with."

The fifth conspirator, Anatase A. Vonsiatsky, Russian fascist leader, was sentenced before the Molzahn trial started July 28 and is serving five years.

the flaming plane.

Crash trucks, ambulances, and fire fighting apparatus were immediately dispatched to the scene.

The Harding field public relations office said the names of those killed, three officers and four enlisted men, would not be released

### HOLLYWOOD—

(Continued from page 2)

Motors to show its war workers and their families.

"These are the people I want it to reach," says Arch Oboler.

"I'm making it—for less money than I would ask ordinarily—because I couldn't live under that kind of rule and these are the people whose work can prevent its happening."

It is no secret in Hollywood that Oboler and the studios have not been entirely simpatico. Aside from scripting "Escape" he has done little for films, though he has been under contract to two or three studios with a "directing clause." He had a year on one lot without an assignment, and quit another after 11 weeks' idleness on a one-year deal.

This may have been due to his insistence that movies should have something to say—and say it. He says today that the screen's long habit of "making unreality real" may have been to blame for the country's slow awakening to its danger. "For so many years Americans have seen movies in which the hero always came out on top and the villain was foiled," he says. "Is it any wonder that

many couldn't believe it, that so many expected to wake up from the nightmare and find the war was over—like a movie on the screen the night before?"

Or his movie inactivity may have been due to a studio fear that, being a radio "genius," Oboler would be profligate with money. He suspects that every time Orsen Welles spent another \$50,000 on a movie, Oboler's chances grew dimmer. "Matter of fact," he says, "I come from the hardest school there is. In radio you use what you have—you can't run upstairs to the producer and ask for another \$30,000 or so. Comes time for the show and you go on the air—no postponing the deadline there."

Here and There In the News

Ex-Star War Worker

Once a star of the silent screen, Mrs. Eve Tellegen, above, known in the movies as Eve Casanova, has been revealed to be a war worker at a Wright Aeronautical corporation plant in Paterson, N. J. She is the widow of Actor Lou Tellegen.

Lehman Keynoter

Gov. Herbert H. Lehman of New York is pictured above delivering the keynote address at the state's democratic convention in Brooklyn. A bitter fight arose over choice of a gubernatorial candidate between supporters of President Roosevelt and James A. Farley, each of whom is backing a candidate for the nomination.

Actors—and Soldiers

Fact that they're members of the cast of the army's own show on Broadway, "This Is the Army," definitely does NOT exempt the soldier-actors from regular drill. For two hours every day they exercise and drill, above, on a school playground near the New York theater district.

Alies Can Open Second Front in France'

Military Heads Think Venture Highly Possible

Allies Must Have Air Advantage, Transports, Element of Surprise

By THOMAS F. HAWKINS BERN, Switzerland (AP)—The allied landing raid at Dieppe demonstrated, according to foreign military experts here yesterday, that a second front can be opened in France—granted sufficient superiority of land based planes, adequate transport, and the proper element of surprise.

Published neutral descriptions of the recently completed channel fortifications indicate, furthermore, that a full scale invasion effort would cost heavily, but that the allies would have a chance of advancing to the Meuse and Rhine if they outweighed the Germans in men and material.

Neutral observers raised the question whether, in view of the costly air battles over Dieppe Wednesday, allied airpower has yet attained sufficient strength to give the necessary protection to full scale landings.

The availability of transports for supplies from America to England and for supplies and troops to cross the channel also appeared to be a major problem.

The socialist newspaper La Sentinelle noted that "the psychosis of a second front has profoundly penetrated the spirit of the masses in Germany," and added that while propaganda is directed toward belittling its chances, the German high command "is convinced that sooner or later the problem will put itself in a direct manner."

With this in mind "the Germans have erected in haste bases of defense all along the coasts of occupied regions," the newspaper said.

Neutral newspapermen had a glimpse of these defenses in a recent tour of the fortification zone.

Along the coasts of France, Belgium and Holland, according to a correspondent of La Sentinelle who visited the zone, "even in places most exposed, the German disposition extends barely more than five to six kilometers (three to four miles) in depth."

He wrote that in many places protected by the nature of the terrain no artificial defense system had been established.

Such breaches were described as numerous and extending sometimes for several miles.

Boulogne, Calais, Dunkerque and Ostend were reported to be strong points guarded by powerful coastal batteries and anti-aircraft guns.

In contrast, the correspondent of La Sentinelle wrote, "the Germans have powerfully fortified the Meuse and Rhine which would tend to prove little confidence in their coastal defense."

One of the Germans' difficulties is that trained troops are not available for transfer to the coast, he wrote.

He estimated that the troops now in position in France, Belgium and Holland totaled about 30 divisions formed of "three distinct elements—young recruits of 19 to 20... insufficiently prepared and not inured to war; secondly, elements having been in Russia and actually on leave after suffering particularly heavy losses in hard combats in the Donets; and finally, a greater number of the 'grand reserve' (of an average age of 40 to 45 years.)"

It appeared here that at Dieppe the allies hit at one of the toughest spots of German resistance.

Seasoned military observers expressed the belief that the chan-

Edward E. Bomar— Interprets The News

By EDWARD E. BOMAR Wide World War Analyst

The nazis must meet the challenge of the aerial power the united nations are steadily building up in the British Isles or accept heavy odds in the prospective fight to prevent establishment of a second front in western Europe.

The manner in which the wings of the luftwaffe were clipped as a part of the Dieppe venture suggests that Herr Hitler may be obliged to accept the challenge sooner than anticipated. The German air command, it is asserted in London, was caught napping by the magnitude of the air support given the Dieppe attack, with the result that the nazis in a single day lost possibly a third or even more of their operational aircraft in the west.

To Divert Nazi Strength Inasmuch as the eastern front is the most logical ready source of luftwaffe reinforcement, the joint declaration made two months ago by President Roosevelt and Prime Minister Churchill that coming operations "will divert German strength from the attack on Russia" suddenly takes on fresh significance.

What's next in Europe is, of course, as much a matter of guesswork as the second front question. The latest trend of events, however, jibes with a theory which is taking form in the minds of some exceptionally well-informed observers. In outline the thought is:

The nazis have been able to blast their way forward in the Caucasus largely by virtue of tremendous aerial superiority over the red army, built up at the expense of the western Europe air defenses.

Even this advantage has been found insufficient to effect the destruction of Marshal Timoshenko's armies, though it has brought within sight the conquest of the north Caucasus and control of the Black sea.

Now, either from choice or necessity, Hitler very likely plans to go on the strategic defensive in Russia for the winter, thereby releasing vast manpower and permitting diversion of the bulk of his air force to western Europe and the middle east.

In the west, the first urgent necessity the nazis face is the threat from increasing British and American aerial strength. It can be met by diversions from the Russian front, and also by stepping up German aircraft production by this winter some of the skilled manpower now in the armed forces.

In challenging for control of the skies over northern France, the nazis retain the advantage they won two years ago at Dunkirk—their foes' bases are concentrated within the relatively small area of the British Isles, whereas the luftwaffe can strike from numerous widely scattered fields in western Europe.

If Hitler does have any such intent as suggested here, he had better hurry. As noted this month by Lieutenant General Henry H. Arnold, United States army air corps chief, and dramatized over Dieppe, American planes are flowing to England in large numbers.

Mrs. David Cook Dies In Iowa City Hospital

Mrs. David J. Cook, route 5, Iowa City, died yesterday afternoon in a local hospital after a short illness.

Born Ethel Helena Strub, daughter of Charles and Charlotte Strub, June 18, 1895, in Rensselaer, she married Mr. Cook March, 1922, in Rensselaer. She resided in that community until 1936, at which time she moved to Iowa City.

Mrs. Cook was a member of the East Lucas club and the American Legion auxiliary.

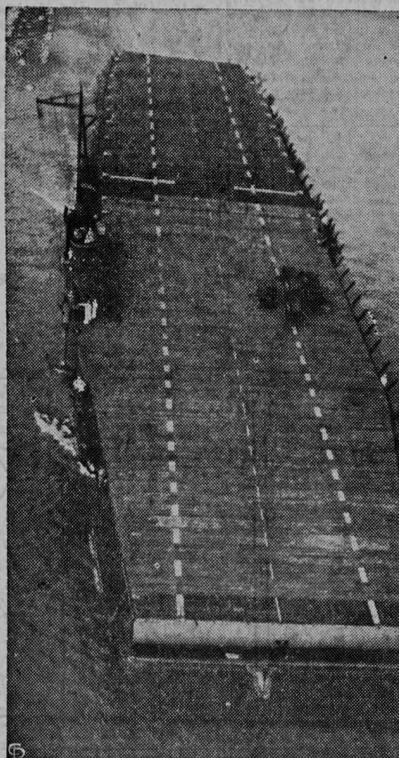

Surviving are her husband; one son, David Jr., who is now in the United States navy; one daughter, June, who is living at home, and one sister, Mrs. Jeorgon Johnson of Rensselaer.

Funeral arrangements are as yet incomplete. The body is at the Oathout mortuary.

To Attend Convention The Rev. A. C. Proehl of the Zion Lutheran church will attend the 12th annual convention of the Iowa district of the American Lutheran church at Waverly Aug. 24 to 28, it was announced here yesterday.

nel fortifications undoubtedly were strong, but accepted as highly probably the interpretation that the Germans have not had time to erect impenetrable fortifications. They gave as an example Norway, where the German press still speaks of continued work on defenses.

FIRST LAKES CARRIER COMPLETED

The U.S.S. Wolverine, formerly the passenger steamer Seacandee, is pictured above as she made her way up the Detroit river after being converted to an aircraft carrier, the first on the Great Lakes. The ship, once the largest inland passenger vessel in the world, will be used to train naval aviation cadets.

WLB Attempts To Settle War Labor Strikes

Acts on Stoppages Of Work in Chrysler, L.A. Aluminum Plants

By THE ASSOCIATED PRESS Work stoppages at the Chrysler tank arsenal in Detroit and a Los Angeles plant of the Aluminum Company of America sent the war labor board into action yesterday to get the employees back to work on important war production.

Meanwhile further negotiations were called at Pittsburgh to head off a strike vote by the CIO Aluminum Workers of America in connection with the board's rejection of their demand for \$1 a day wage increase.

Another development on the labor front was a remark by President Roosevelt at his press conference that press dispatches were giving the erroneous impression that the nation's war production was being hampered by strikes.

A Chrysler corporation vice-president, H. L. Weckler, reported that 475 AFL construction workers stopped work at the tank arsenal on orders of Ed Talt, secretary of the Detroit building trades council, in protest against the employment of some CIO men. The WLB labor production division promptly went to work on the dispute, but an official said that prospects for immediate settlement did not appear bright.

A walkout of 300 men at the Vernon plant of Alcoa in Los Angeles, which CIO officials said was unauthorized, brought an appeal from George W. Taylor, vice chairman of the WLB, for the men to return to work at once "as loyal and patriotic citizens" in conformity with labor's no-strike pledge.

William B. Taylor, west coast director of aviation for the CIO United Automobile Workers of America, said the stoppage was precipitated by a company lock-out and George Taylor intimated in his telegram to the workers that the WLB rejection of the wage increase was the cause.

Telephone service in Elkhart and Goshen, Ind., was disrupted by an AFL strike in protest against rejection of a demand for higher wages, the amount of which was not reported.

In Boston a strike of 340 AFL wool handlers which has delayed shipments to textile plants since Aug. 11 reached a stalemate and WLB action was sought.

Sugar Stamps 6, 7 Expire at Midnight

Sugar stamps 6 and 7, good for two pounds of sugar, will expire tonight at midnight, the Johnson county rationing board announced yesterday.

Sugar stamp 8, acceptable for five pounds, is valid until Oct. 31.

Flaxseed is the only oil-producing crop now grown extensively in Canada.

Four American Rangers Say—

Dieppe Raid Looked Like Suicide Mission

By DREW MIDDLETON LONDON (AP)—The Commando raid on Dieppe "looked like a suicide mission" to four American Rangers attached to Lord Lovat's command, but as Corporal William R. Brady, of Grand Forks, N. D., put it yesterday: "Damned if we didn't make it."

The suicide idea occurred to Brady and his companions when they were ordered to storm a 75-foot cliff north of Dieppe. The others are Staff Sergeant Kenneth Stenson, of Russell, Minn.; Sergeant Alex J. Szima, of Dayton, O., and Corporal Franklin M. Koons, of Sway City, Ia.

The four said they believed they were the first United States troops to fight on French soil in this war. They believed they were ahead of other Rangers in the raid before they were assigned to a unit which was ordered to go forward and knock out a six-gun battery (apparently anti-aircraft).

They came back from the death-ridden gunnits around Dieppe with undoubted admiration for British fighting qualities, and they praised the Canadians as "one hell of a fine bunch."

Brady was in the first group to land in the beach. They scaled a cliff to knock out two German pillboxes.

"It looked like a suicide mission but damned if we didn't make it," he said.

"I was the last man over and found the first pillbox empty," he continued.

Machine-gun bullets were spraying the ground from nazi .50 calibre guns in another pill box. The party halted beside the first pillbox, as Brady said, "What the hell! We thought we'd go get the other one."

They started for it, but then paused while Bill Phinney, a British Commando, thoughtfully climbed a telegraph pole through a hail of bullets and cut the wires.

As the neared the pillbox two Spitfires came to their aid. The British planes swooped low and "neutralized" the pillbox with machine-gun bullets.

All this time the group was un-

Men With Dependent Wives Advised to Get Ready to Enter Army

EVANSTON, Ill. (AP)—Maj. Gen. Louis B. Hershey, national selective service director, yesterday advised men with dependent wives only to "begin making arrangements now" to enter the army.

Asserting that the "end is in sight" of the available supply of single men for military duty, the director said that reclassification of all married men would start "probably in October and certainly by Christmas."

"When the supply of single men is gone in the next few months," he said, "we must dip into the group of men with wives and secondary dependents."

cars are necessary there because state regulations limit interstate shipments of gasoline by truck to 100 miles.

In Wisconsin, however, the state allows truck shipments of 250 miles. This coupled with an order permitting trucks to haul 4,000 gallons, double the capacity previously allowed, will cause no serious shortage in Wisconsin.

If supplies dwindle in any of these areas, officials of the industry pointed out that the residents of the sector automatically would be rationed in accordance with the supplies available.

Throughout the rest of the 20 states especially those in the southwest, no serious transportation difficulties are expected because trucking terminals are so numerous that almost all consumer points can be reached in 100-mile hauls.

F.D.R. Tells Officials To Quarrel Privately

WASHINGTON (AP)—President Roosevelt yesterday instructed all governmental administrators to settle their disputes quietly and avoid public quarreling.

Divergent Opinions Are Being Exploited By Enemy, He Says

"Where honest differences of opinion exist," he said in a letter to the heads of departments and agencies, "no one would propose to suppress them. Nor would anyone interfere with the free use of every public official of the normal processes of information to the public and press."

"But it is no solution to a controversial question to argue it out in public. If the agencies would refrain from resorting to public debate of this kind, they would have a good deal more time to attend to their business, and the nation would have a good deal more assurance that business was being done right."

Clashing Views recalled While the president did not say what incidents he had in mind, it was recalled that many clashing views have been expressed on such subjects as the rubber shortage and the question of nationwide gas rationing.

In addition Frederick I. Libbey, an engineer-consultant for WPB, was recently dismissed on the ground that he discussed with outsiders a confidential report which is said to have been critical of WPB's iron and steel branch.

CIO members of WPB's labor advisory committee called on WPB Chairman Donald M. Nelson yesterday to reinstate Libbey. They said he was "fired for telling the truth" in a report "exposing the failure of the dollar-a-year WPB iron-steel branch men."

Enemies Exploit Releases Mr. Roosevelt, in his statement, said that divergent official opinions, given circulation through the press, had been seized upon and exploited by enemy nations.

"Disagreements either as to fact or policy," he said in his letter, "should not be publicly aired, but are to be submitted to me by the appropriate heads of the conflicting agencies."

"The policy of the government should be announced by me, as the responsible head thereof. Disagreements as to facts can be resolved, if necessary, by investigations and surveys directed by me."

"Will you please see to it that your particular department and its various bureaus and divisions comply with these instructions."

Catholic Funeral Rites Will Be Held Today For Frank M. Mullin

Funeral service will be held this morning at 8 o'clock in St. Patrick's church for Frank M. Mullin, 86, a resident of Iowa City and the past 63 years, who died Thursday afternoon after a short illness.

The Rt. Rev. Msgr. Patrick J. O'Reilly will officiate.

Surviving are two sisters, Mrs. Margaret Walsh of Iowa City and Mrs. Mary Condon of Iowa City, and several nieces and nephews.

Production in the United States between 1929 and 1941 showed a rise of 46 per cent in output per man hour.
