WASHINGTON—Well, folks, we've all been strong enough about the 71st Congress.

That's no news for a race horse, but 71st Congress, Second Session.

The '94 from New York City, Iowa, Iowa City, Iowa, is running strong.

That's no news either because it has been running strong since July 1017, when it began running.

Traveler Presents
Lectures on Alaska
November 19

At 8 o'clock in the evening in the Iowa Union Auditorium, Prof. E. Rees, University of Alaska, will present a series of lectures on Alaska which will be presented over a series of five nights. The series will be devoted to the Geology and Minerals, the Botany, the Zoology, the Agriculture, and the Economic Industries of the territory of Alaska. The talks will be given in a series of lectures, each of which will last about an hour, and which will be concluded with a discussion. The series will be given over a period of five nights, and will be followed by a banquet. The series will be given by Prof. E. Rees, who is a well-known geologist and mineralogist, and who has been a prominent figure in the development of the territory of Alaska. The series will be a valuable addition to the list of lectures given at the University, and will be of great interest to the students and faculty.

in the end zone all the time. All that we did just enough of the time to keep Army guessing and maybe try to steal fo tavern. It was a good day for us.

Both teams played with great determination to the bitter end. Of course, the visitors had a majority of the first downs and total yards, but the Army offense was well coordinated and the defense played well against the Irish. Notre Dame's score was made up of two field goals and one touchdown.

This was a game of strategy and tactics, and both teams were well prepared for the contest. Notre Dame, with their strong ground game and accurate passing, had the upper hand, and the visitors were unable to penetrate their defense.

The final score was 13-0 in favor of Notre Dame. The game was a great one, and both teams played well. Notre Dame's defense was strong, and their offense had a good day.

**FOOTBALL RESULTS**

East Coast: Army 12, Notre Dame 0
Boston College 24, Providence 0
Temple 14, Brown 7
Bowling Green 42, Ohio State 14

In 14 to 7 Triumph
U.S. Forces Open Second Front
Attack on French North Africa

President Roosevelt calling in the
reserves and ordering a
massive air bombardment
in support of the land
landing, was being notified by
the European theater that
the 5,000-man force
sent to Africa was
preparing for action.

The announcement was
published in the
New York Times in an
editorial comment on
the situation in Europe.

The landing, the announcement
stated, was being notified by the
European theater that
the 5,000-man force
sent to Africa was
preparing for action.

The landings were
expected to be
made at several
points along the
beaches of North Africa.

Russian Units
Hold Ground
On All Fronts

Moscow Radio (AP) — The
Russians said today
that they were holding
their ground on all fronts
in the war against
Germany.

The Germans continued
their offensive in the
eastern sector, but
were unable to achieve
any significant gains.

The British and American
forces in the
northwest sector
also held firm.

Dr. A. Carlson: To Speak Here

Will Deliver Annual Paul Reed Rockwood Lecture Tomorrow

Dr. A. Carlson, well-known American anatomist, will deliver the annual Paul Reed Rockwood lecture tomorrow afternoon at 3:15 in room U-11 of the Audubon building. The lecture will be on the subject of "Comparative Anatomy." The address "Animal Physiology: Its Relationship to Physical Education" will be of interest to the present-day student of physical education. The decrease in the number of courses in the field has made available for the student a course which is now being offered in the field.

Dr. Carlson, considered one of the world's greatest American physiological chemists, has been the subject of several papers and articles in various medical periodicals worldwide. His name is familiar in the medical advancement of the human body and the improvement of the general health of mankind.

A member of the National Academy of Sciences of the United States, Dr. Carlson is also a fellow in the American Psychological Society and the American Association of University Physicians. He is noted for his extensive medical research and his contributions to the field.

Young Negro Writer, Lecturer Will Speak in Iowa Union Today

Reydon B. Carter, young Negro writer and lecturer will speak as part of the Iowa State College of Negroes. He will give his presentation on "Youth and the War in the Word War," in the Y. W. C. A. auditorium. This is the second presentation, after the speech on "Youth and the War in the World," in the Y. M. C. A. auditorium. He will discuss a number of topics related to the war, including the role of youth in the war effort.

Quartet Will Present Music Recital Monday

The second and fourth Mondays of the month, at 7:30 p.m., will be one of the music recitals held at the Y. M. C. A. auditorium. The quartet will be under the direction of Mr. J. W. Adams. The recital will feature a variety of music, including classical and popular pieces.

Packader Head State Teachers

Dean Paul C. Davis of the State Teachers College at Davenport, head of the department of education at the college, will give an address on "The Importance of Education." The address will be part of the college's annual meeting and will be held at the college's main building.

Shirley Ann Neider, Struck by Automobile

Shirley Ann Neider, 17, was struck by a automobile on the campus of the College of Education. The accident occurred at 3:30 p.m. on the campus.
