**SMASH JAP SOLOMONS FLEET**
Yanks Race Toward Tunis

**TUNISIA FIRST BATTLEGROUND BETWEEN U. S. NAZIS**

WASHINGTON (AP)—In the greatest naval battle since Jutland, United States forces have sunk 23 Japanese ships and thus smashed a tremendous enemy convoy that was on its way to supply the Germans on Guadalcanal into the sea, the navy disclosed late yesterday.

Backed by MacArthur’s bombers, surface and air units of the navy destroyed 11 Japanese warships and 12 transports and damaged seven other vessels in a three-day running battle, much of it a vicious, close-range gun duel in the darkness.

The only American vessels so far reported sunk in the engagement were two light cruisers and six destroyers, and naval men here said they did not believe American personnel losses were extremely large.

Not previously reported were 84,000 enemy soldiers who died when nine transports, part of a large force headed for Guadalcanal, were sunk in the tossing by all of the engagements of November 24 and 25. The destruction of the Japanese convoy was accomplished in getting newer ships; since the Americans discovered four large transports bound for Taifunchou, they had advanced to smash them with a concentrated air, artillery and naval gun attack.

However, only a fraction of the large force disembarked by the Japanese transport to reach its destination. Solomon Islands, and it seemed safe assumption that this battle had lessened the American dominance of that area.

Preliminary, the enemy could gather another great fleet and hit with such a concentration of European war ships that they have left in a new attack to retake the strategic Guadalcanal.

From the death of Rear Admiral D. J. Callaghan, believed “Lucky Jack,” in a secret attack at a critical moment of President Roosevelt, in the face of close-range engagements which caused the overthrow of the Japanese on November 24 could not diminish the spirit of the war and of the many ships that have received high praise in the late engagements.

PEARL HARBOR, T. H., Dec. 6—Rear Admiral D. J. Callaghan, commander of a United States transport division, has been recommended for the highest award from the president for his services in the Pacific.
Wakening Nazi Morale Evident

Today, with the broadcast of Hitler's recent discourses, the Nazi leadership is trying to boost morale and gain support among the German people. Hitler's speeches are filled with a sense of urgency and determination, emphasizing the importance of fighting for the survival of Germany. He appeals to the German people's sense of duty and patriotism, urging them to continue the fight against the Allied powers.

Geography Takes Limelight

The broadcast also highlights the strategic significance of various locations in Germany, such as the Rhineland and the East Prussian region. Hitler stresses the importance of these areas in the overall war strategy, underscoring the need for defensive measures to protect Germany's borders. The broadcast also mentions the importance of the Black Sea region, emphasizing the need for naval dominance in this strategically vital area.

The Network Highlights

Today's highlights include:

- **Alaska Adventure**
  - Joined by his four sons, the president personally inspects the Alaska Highway.
  - This initiative underscores the importance of this strategic waterway in the defense of the United States.

- **Hitler's Speech**
  - Hitler's recent discourses are broadcasted, emphasizing the need for continued resistance against the Allied powers.

- **The Rhineland**
  - The strategic significance of the Rhineland is discussed, highlighting its role in the overall war strategy.

- **The East Prussian Region**
  - The importance of the East Prussian region in the defense of Germany is highlighted, underscoring the need for strategic defense measures.

- **Black Sea Region**
  - The need for naval dominance in the Black Sea region is emphasized, underscoring its strategic importance.

The broadcast concludes with a call to arms, urging the German people to continue the fight against the Allied powers. Hitler's speeches serve as a rallying cry for the German people, reminding them of their duty and their role in the overall war effort.

---

**Notes:**

- The broadcast is part of a series of Hitler's discourses aimed at boosting morale and gaining support among the German people.
- The emphasis on geography underscores the strategic significance of various locations in Germany.
- The broadcast concludes with a call to arms, emphasizing the need for continued resistance against the Allied powers.

Tilt Is a "Natural"
80,000 Spectators
Guaranteed for Tilt
Between Grid Giants

By JOHN COLBURN
COLUMBUS, Ohio—At the very start of the season, the Michigan-Ohio State tilt seemed like a tremendous event. The attendance figures showed the game would draw large crowds, and the game did indeed pull a large audience.

For when Michigan and Ohio State met in Columbus on Saturday, the game was packed with excitement and never lacked for thrills. The Michigan team, which was led by its star quarterback, started out quickly and never let up.

The Michigan team, which was led by its star quarterback, started out quickly and never let up. The Ohio State team, which was led by its star defensive line, fought back and held on for a 20-0 victory.

The game was a classic example of the kind of football that has made Ohio State and Michigan such great rivals. Both teams played hard and gave it their all, and the game was decided by a series of turnovers and penalties.

Owners of more than 5 tires per passenger car will be denied Gasoline for passenger car operation beginning November 22

**Follow these Important Instructions**

The Government's Idle Tire Purchase Plan requires that you do two things if you wish to use gasoline in operating your passenger car:

**First.** You must dispose of 5 Idle Tires. If the Idle Tires are usable and still needed for immediate use, they may not be sold in the Government. If they are beyond repair, they should be unable to be scrapped.

**Second.** You must purchase 5 new tires at the price determined by the Government.

The war effort depends upon automobiles for transportation. Workers must get to their jobs. Farm products must get to market. Essential services must continue. Cars must be kept on the road. Until synthetic rubber production gets into full stride, every Idle Tire, new and used, even if it needs repairs, must be put to work. Your Government has, therefore, set up a fund to buy every Idle Tire in America at ceiling prices. These tires will go into a Government pool. They will be rationed to keep every possible car on the road for essential driving.

The purpose of the Idle Tire Purchase Plan is not to take cars off the road, but to help keep cars on the road for essential uses. When you need other tires, the Government will do everything possible to see that you are supplied.

That is why you must sell YOUR Idle Tires to Uncle Sam, NOW.

**Here is how to sell your idle Tires to Uncle SAM at CEILING PRICES**

**FACTS ABOUT THE IDLE TIRE PROGRAM**

**WHAT IS AN IDLE TIRE?** Under the Idle Tire Purchase Plan the ownership of passenger car tires will be limited to five tires per passenger car owner and to one tire for each running wheel of each passenger car trailer or other vehicle equipped for two or more axles.

**EXEMPTIONS:**

1. Passenger car tires intended for use on trucks, buses, railroads, police and fire cars, and other similar equipment.
2. Passenger car tires in service of other Idle Tires.
3. Any passenger car tire purchased by the Government before November 22.
4. Any passenger car tire purchased on or after November 22.
5. Any passenger car tire purchased for use in emergency.
6. Any passenger car tire purchased for use in racing.
9. Any passenger car tire purchased for use in other special services.

**DISPOSING OF IDLE TIRE—**Idle Tires that are not intended for use and are to be disposed of as follows:

(1) They must be sold to the Government in accordance with the instructions given elsewhere on this page.

(2) The owner of the Idle Tires shall be responsible for the disposal of them.

The war effort depends upon automobiles for transportation. Workers must get to their jobs. Farm products must get to market. Essential services must continue. Cars must be kept on the road. Until synthetic rubber production gets into full stride, every Idle Tire, new and used, even if it needs repairs, must be put to work.
