U. S. BOMBERS HIT AXIS OIL FIELDS

FLAME AND SMOKE rise from the Steaua Romana oil refinery at Campina, Rumania, just north of the heavily bombed Ploesti oil fields, during an air raid by United States army Liberator bombers. Note huge fire burning, center left. OWI radiophoto.

AS TANKMEN BAG 'JULIUS CAESAR'

"WE'VE PULLED IN Julius Caesar," Tommies of the British Eighth army reported back to headquarters in the fighting in Sicily. "Julius Caesar" proved to be Gen. Giulio Caesar Gotti-Portinari, commander of the Fifth Napoli division. The Italian general, veteran of the north African campaigns, is seen seated with an aide atop a General Sherman tank, the crew of which captured him.

American Troops Seize Troina; British Units Take Biancavilla

ALLIED HEADQUARTERS IN NORTH AFRICA (AP)—U. S. troops in Sicily have seized Troina, threatened to split Nazi forces in half, and British units squeezing up from the southeast have taken Biancavilla from Italians running up the white flag of surrender, headquarters and field reports announced yesterday.

These two important strategic victories on the central sector narrowed the Sicilian front to only 45 miles in width, and the allied bag of prisoners soared to 125,000.

Routed from the mile-high fastnesses in Troina by American guns, bayonets and bombs, remnants of the German 29th motorized division fled toward the Messina straits last night in the closing phase of the Sicilian campaign.

Maj. Gen. Terry Allen's first division veterans, who sealed the last rocky heights to Troina and crushed the surviving Germans with rifle butt and bayonet, "disjointed" the German line and American troops "are threatening to prevent the junction of the German 15th armored and Herman Goering divisions retreating to the east coast," headquarters announced.

British armored columns moved forward over mined roads and past blown-up bridges in pincer sweeps in two directions around the dusty foot of Mt. Etna, taking in the bomb-battered Italian garrison at Biancavilla 15 miles northwest of Catania.

Gen. Sir Bernard L. Montgomery's Canadian and British advance guards were throwing back the 15th and Goering divisions into a possible trap if the Americans succeeded in reaching Bronte or Randazzo on the circular Mt. Etna road before the enemy's withdrawal to the Messina area is completed.

Under a blazing night and day attack, both sides of the Straits of Messina were littered with wrecked boats, craft which might have been used for a Nazi Dunkerque.

The Americans were meeting "stiffening resistance," the communiqué said, adding that "in the coastal sector to the north, naval units continue to cooperate."

The mountain fortress town fell before a withering artillery barrage and infantry charges, posing the first division for thrust to Randazzo 20 miles east.

Government Worker Named In Espionage

WASHINGTON (AP)—A 35 year old South American employed by the Office of Coordinator of Inter-American Affairs was arrested yesterday on charges of espionage.

The accused is Roberto Lanus Vallecilla, a native of Cali, Colombia, who worked for the Inter-American bureau as a foreign language translator.

J. Edgar Hoover, director of the federal bureau of investigation, whose agents made the arrest, said that Lanus admitted he had written three letters in secret ink transmitting information concerning the national defense efforts of the United States.

The department of justice said its investigation disclosed that Lanus frequently received large sums of money from sources in Lisbon, Portugal.

Further, the department said, the wavy-haired South American tried unsuccessfully to recruit an attractive New York model as an agent for Nazi Germany at \$450 a month.

Coup to Replace Hitler Hinted In German Military Conference

New Agency Under Wallace Proposed

WASHINGTON (AP)—A campaign to make Vice-president Wallace head of a proposed new food production, price control and rationing agency has been launched, D. C. Speaker said yesterday, by some groups in agriculture who describe themselves as "liberals" in their field.

The agency would supplant the war food administration and the office of price administration, and Speaker, unofficial authority, cited especially these lines in the latest issue of "Spade," an agricultural publication having support among advocates of the Agricultural Adjustment agency and circulating among local AAA committeemen:

"On the theory that Marvin Jones didn't want to be food administrator and was talked into it on the basis of a temporary receivership, there's much speculation over who may succeed him as top man—if FDR proclaims a new combined food-processing-rationing-pricing outfit to take the wind out of opposition sails.

"All things considered, the biggest bet is Henry Wallace. Rumors persist that FDR will call on him to take over general direction of food."

Active in Campaign

Particularly active in the we-want-Wallace move are several former officials of the Agricultural Adjustment agency, Speaker said. This is the bureau which Wallace, as secretary of agriculture during the early days of the Roosevelt administration, helped create to adjust farm production to available markets.

Reports have reached Washington that many local AAA committeemen likewise are talking of Wallace as a possible food boss.

"This campaign for the former cabinet member bobs up amidst signs of significant changes in agriculture—changes which are not to the liking of advocates of the AAA set-up," Speaker said.

"The AAA has been pushed pretty much into the background under wartime food production programs. Its power began to wane under Secretary of Agriculture Wickard before it lost control of the food program. Indications are that it will have even less to do under the 1944 program now being drafted by Food Administrator Jones."

Tentative plans for next year's food program call for the elimination of such AAA devices as benefit payments, acreage allotments and marketing quotas, except in the case of the non-food tobacco crop.

"But assuming a larger role in farm programs," Speaker continued, "are elements in agriculture which often have been critical of the AAA. They include the American Farm Bureau federation, the state extension services and state commissioners and secretaries of agriculture."

"This shift, which has been encouraged by some members of the congressional farm bloc, has caused concern among groups who feel that the AAA should be retained to help agriculture adjust its post-war production to a possible smaller market."

1 Japanese Cruiser, 2 Destroyers Sunk Off Central Solomons

ONE DESTROYER ALSO CLAIMED AS PROBABLE IN HOUR-LONG ACTION

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC, Sunday (AP)—A Japanese cruiser and two destroyers have been sunk in the Vella gulf of the central Solomons by units of the United States navy, the high command announced today.

A third destroyer probably was sunk in the hour-long action, the morning communiqué added.

"Shortly before midnight, our naval surface units intercepted an enemy force of one cruiser, and three large destroyers apparently attempting to run supplies to Vila (air and supply depot on south Kolombangara)," it said.

Sustain No Losses

"In an action lasting an hour with torpedoes and gunfire a cruiser and two destroyers definitely were sunk and a fourth, a destroyer, probably. We sustained no losses."

The Vella gulf is between Vella Lavella and Kolombangara islands above American conquests on New Georgia.

Sixty Japanese divebombers and fighters raided Rendova island south of New Georgia and hit a hospital. Six Japanese planes were downed.

On New Georgia, where Munda's airbase is in American hands, United States infantry were unopposed in a drive north of the field.

The enemy's beleaguered garrison at Bairoko harbor lies north of Munda.

Bombers Blast Bairoko

American bombers blasted Bairoko and at the other end of the 750 mile battlefield struck at Salamaua, on northeastern New Guinea.

The sinkings brought to at least 23 and possibly 26 the number of enemy cruisers and destroyers which have been sunk in the central Solomons since the offensive opened June 30.

The new losses inflicted on the Japanese airforce over Rendova boosted the enemy plane total in that sector above 350 for the same period.

Seventy-Eight Missing In Sinking of Largest Brazilian Merchantman

RIO DE JANEIRO (AP)—The Brazilian passenger steamer Bage was torpedoed and sunk off the state of Sergipe the night of July 31, it was announced officially here last night, and 78 of her passengers and crew are missing.

The Bage—the largest Brazilian merchant ship—was carrying 129 passengers, of whom 41 were unaccounted for after the sinking, and a crew of 192. The passenger list included women and children.

Loss of the Bage brought to 24 the number of Brazilian ships announced as having been sunk by enemy submarines.

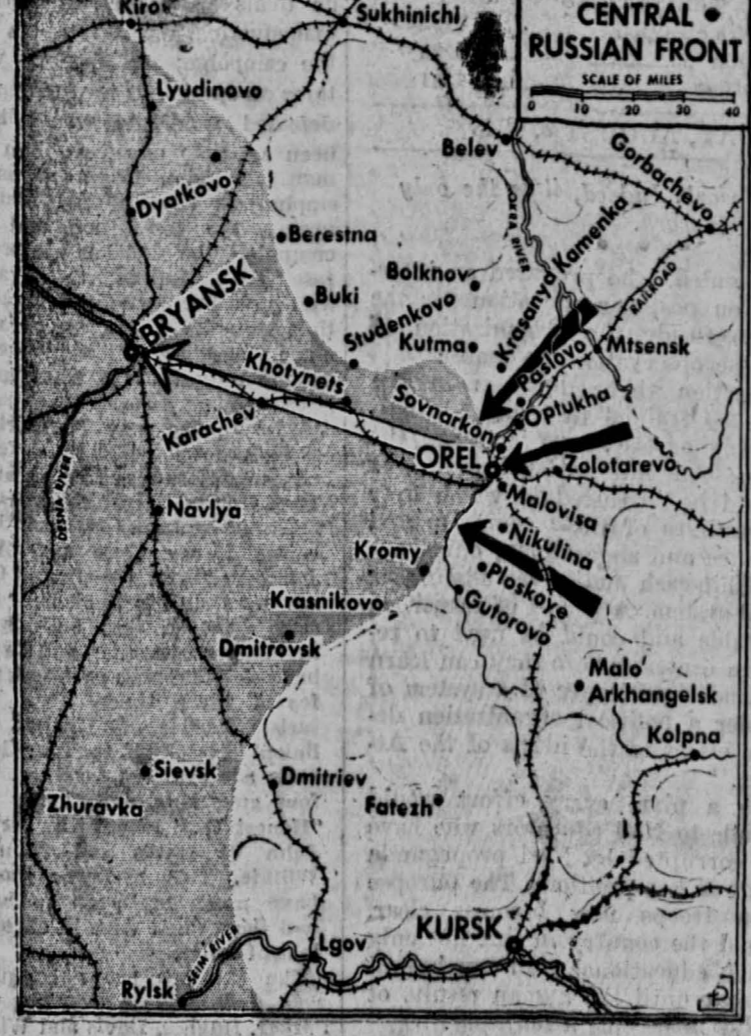

Philip Murray Requests Reconsideration Of Biddle's Employee Strike Ballot Decision

WASHINGTON (AP)—CIO Company where last Wednesday a majority of employees voted for a strike. The notice of a labor dispute and call for a strike ballot was filed by district 50 of John L. Lewis' United Mine Workers, rival of the CIO United Farm Equipment and Metal Workers of America. The CIO group was certified by the NLRB in June of last year as collective bargaining agency for employees of the plants.

The NLRB had asked Biddle whether it should conduct a strike ballot on notice from a "minority group."

Previously, the NLRB had rejected a petition from district 50 for a collective bargaining election to determine whether it should replace the CIO union as the employees' representative. District 50 contended the result of the strike ballot showed it was supported by a majority of employees.

RUSSIANS BATTLE WAY INTO OREL

LONG BATTLE FOR OREL is ending with Russian troops now battling a desperate German rearguard action in the streets of the city. Capture of the city may bring collapse of a large section of the Nazi defense lines, which may be forced back to Bryansk, possibly the next Soviet objective, as indicated on this map.

Russian Units Take Graivoron In Move to Throttle Kharkov

Overrun 70 Villages In Pincers Movement Throughout Ukraine

LONDON (AP)—Red army shock troops, plunging deeper into the Ukraine in a wide flanking movement to throttle the big German defense pillar of Kharkov, yesterday captured Graivoron, 45 miles to the northwest, a special Soviet communiqué announced.

Gaining nine miles and over-running 70 villages the Russians thus cut another point on the Kharkov-Bryansk railway, while directly north of Kharkov Soviet units pushing down the Uby river from Zolochev were within 25 miles of Russia's third largest city.

Berlin announced a second threat to their Kharkov base in broadcasting a report that a big Russian army massed at Chuguev, 25 miles to the southeast, had gone over to the offensive and made initial gains. This pincers movement was similar to the tactics that conquered Orel and Belgorod.

Above the Ukraine, Bryansk was menaced by Soviet troops spilling through the gap at Orel. Gains of seven miles were made during the day, the special Soviet bulletin said, and the Red army was believed to be within 30 miles of that hinge of the German central and southern fronts.

Graivoron, like Zolochev, is on the Kharkov-Bryansk railway, and its capture indicated the Russians were cutting a wide swath after their earlier break-through at Belgorod on a 43-mile front.

The sweep west and southwest of Orel was so swift yesterday that 100 villages were wrested from the Germans.

The bulletin, recorded by the Soviet Monitor, said the Russians captured Shamardino, 10 miles west of Orel, Gnzdilovo, 39 miles to the southwest, and the railway station of Stakhanskava five miles to the south.

The Nazi-controlled Paris radio,

Award \$300,000

WASHINGTON (AP)—The war department announced yesterday that a contract involving expenditure of approximately \$300,000 has been awarded to the Tunicliff Construction Co. of Davenport, Iowa.

Slemp, 72, Republican Leader of Va., Dies

KNOXVILLE, Tenn. (AP)—Death yesterday afternoon ended the long political career of Campbell Bascom Slemp, 72, distinguished Republican leader of Virginia and once secretary to the late President Calvin Coolidge at the White House.

Slemp was returning to his home at Big Stone Gap, Va., from Florida, where he had gone for an eight months rest vacation, when a cardiac condition forced him to enter a Knoxville hospital more than ten days ago. He had received medical care in Atlanta.

Broadcasts Term Discussions At Hitler Quarters 'Important'

Head Nazi Party Members, Jap Ambassador Said to Have Attended Meeting, But Italians Unmentioned

LONDON, (AP)—Amid widespread speculation that something big was about to happen in Germany—perhaps a military coup to replace Adolf Hitler with some army veteran—German broadcasts reported today that an important military and political meeting had been in progress at the fuhrer's headquarters.

Both the German international information bureau, a propaganda agency, and DNB, official news agency, broadcast that it was "understood in Berlin that a number of important discussions of a military and political nature have taken place in the fuhrer's headquarters the last few days."

Attending the meetings, the broadcast reported, were all the top men in the Nazi party as well as the commanders in chief of the army, navy and air force and the Japanese ambassador, Hiroshi Oshima. There was no mention of an Italian representative.

This indication that a major decision of some kind had been or would be made soon by the Germans came on a day when a traveler just returned to Switzerland from Germany was reported to have told of "persistent" rumors that a military dictatorship might be set up in Germany in September.

The Swiss newspaper Neue Zuercher Nachrichten quoted the unidentified traveler as saying that a cleft had developed among thinking German people, one group eager to see the war end and the other wishing to avoid "unpredictable catastrophe."

Piling up the signs of unrest within axis Europe, the French Committee of National Liberation announced in Algiers that hand-to-hand fighting had broken out in Paris between the French people and German soldiers and that the Nazis had set up machine-guns at street intersections.

The Swiss newspaper Journal de Geneve reported that German troops were replacing withdrawing Italian units in southeastern and southern France and that the Germans were steadily strengthening their positions in northern Italy.

Reuters, British news service, quoted arrivals in Zurich, Switzerland, from Berlin as saying the capital's authorities were at their "wits end to control a mass stampede from the city" in fear of allied bombing.

Propaganda Minister Paul Joseph Goebbels admitted Friday in a statement broadcast by the German radio that nonessential civilians were being removed from Berlin.

The German radio and news agencies sent up some trial balloons, one of them being DNB's speculation concerning what it said was "an imminent new meeting of President Roosevelt and Prime Minister Churchill in which Premier Stalin might possibly join."

Airplant Labor Shortage Seen

700,000 More Workers For Industry Needed In Next Twelve Months

WASHINGTON (AP)—The office of war mobilization appeared yesterday to be faced with the problem of finding 700,000 new employes for the aircraft industry in the next 12 months if it hopes to meet manpower demands of the nation's plane building plants.

Bernard M. Baruch special advisor to War Mobilization Director James F. Byrnes, has undertaken a survey of the industry's needs and it is understood to have before him information which indicates the aircraft plants will need to get 58,000 additional employes each month for the next year if they are to reach their projected peak production in 1944.

A timely slant on the problem was given today in a war production board report that United States airplane production reached a new high of 7,373 military planes in July, but nevertheless fell behind goals.

Production must be increased "still faster and reach still higher quotas," the board said in reporting that July output exceeded June's by 4 percent in numbers and 4 percent in weight, with an increase of 13 percent in heavy bombers. What the July goals were was not announced.

With some male workers returning to the farm, others being drafted and women quitting because of health, transportation or other conditions, experts said Baruch's problem presents a tough nut to crack.

FRENCH AIR FORCE CHIEF LEARNS ABOUT U. S. PLANES

OPERATION OF U. S. FLYING FORTRESSES is learned by Colonel Cornington-Molinier, right above, commander of the Fighting French air force, in an operational flight with an American squadron over France. Lieut. William H. Springstein of Big Lake, Tex., is pictured before the takeoff explaining the bomber's machine guns to the French air chief and to Colonel Plagne, left.

4 University of Iowa Graduates, Former Students Announce Engagements, Weddings

Word has been received of the engagement and approaching marriage of one graduate of the University of Iowa and the recent marriages of two former students and one graduate of the university.

Among Iowa City People

Hagene-Schott

The marriage of Eldora Catherine Hagene, daughter of Mr. and Mrs. Fred Hagene of Prairie du Chien, and Staff Sgt. Harry F. Schott, son of Mr. and Mrs. Harry H. Schott of Marquette, was solemnized at St. Gabriel's church in Prairie du Chien Aug. 4. The Rev. Joseph Weiss officiated.

Dorothy Otto of Madison, cousin of the bride, was bridesmaid and Susan Dunne, another cousin of the bride, was flower girl. Capt. Robert Schott, brother of the bridegroom, was best man and Merle Miller of Cedar Rapids and Harry Lochner of Prairie du Chien were the ushers.

The bride was graduated from Prairie du Chien high school and the bridegroom is a graduate of the University of Iowa.

Diamond-Pinneo

Jeanne Diamond, daughter of Mr. and Mrs. J. F. Diamond of Lethbridge, Alberta, Canada, became the bride of Harry B. Pinneo, son of Mrs. H. B. Pinneo and the late Dr. Pinneo of Ottumwa, at a chapel ceremony in Calgary, Alberta, July 21.

Mr. Pinneo attended the University of Iowa and then trained with the Royal Canadian air forces at Lethbridge. He is now stationed at Denver as a naval air instructor.

Cox-Laufer

Novella Anne Cox, daughter of Mr. and Mrs. John Cox of Cedar Rapids, became the bride of Petty Officer Robert Keith Laufer, son of Mr. and Mrs. H. H. Laufer of Sioux City, in the rectory of St. Patrick's church at Cedar Rapids Aug. 4.

Attending the couple were Barbara Anne Wright and Cornelius Cox, brother of the bride. The Rev. D. J. Lenihan officiated at the service.

Mrs. Laufer is a graduate of Mt. Mercy academy at Cedar Rapids, and attended the University of Missouri at Columbia. Mr. Laufer, a graduate of McKinley high school at Sioux City, attended the University of Iowa. For the last 10 months he has been on active service in the Atlantic.

Wood-Keith

Mrs. George B. Wood announces the engagement and approaching marriage of her daughter, Serena E. Wood to Sgt. Clifford H. Keith, son of Mr. and Mrs. Austin A. Keith of Knoxville, Tenn.

Miss Wood received her bachelor's degree from the University of Cincinnati at Cincinnati, Ohio, and her master's degree from the University of Iowa. She is now employed as administrative dietician at the University hospital. Sergeant Keith attended Knoxville business college at Knoxville, Tenn., and George Washington university at Washington, D. C. At present he is stationed at the Richmond army air base at Richmond, Va., in the offices of special service.

Weathermen Choose Walt Disney Design For New T-Shirt

Newest addition to the wardrobes of the weathermen stationed in Iowa City is a white T-shirt with a Walt Disney design which has been adopted by the Iowa Pre-Meteorology school. Stenciled in blue, the design features Jimminy Cricket with an umbrella raised over his head, riding on the back of an eagle in the rain, and holding a weather vane in his hand. This same design is found on stationery for the meteorologists.

Production Cut— Pins, Needles Valuable

Save your pins and needles—make them last. The millions of pins and needles used in this country must come out of our wartime metal supply, so vitally required for war purposes. Production of pins has been cut but adequate stocks are available. You may have overlooked pins in the long list of articles placed under a copper ban by the war production board, but they were one of the most important items. One third of the straight pins and safety pins produced during the past two years were made of brass which consists largely of copper. The rest were made of steel, but the steel supply for straight pins has been cut 60 percent.

Jane Alcock, daughter of Dr. and Mrs. N. G. Alcock, 430 Brown street, left Thursday for Claremont, Calif., where she will attend Scripps college.

Mary Jane Mackey, daughter of Mr. and Mrs. R. L. Mackey, 222 E. Davenport street, is spending the remainder of the summer in St. Louis, Mo., visiting relatives.

Another daughter of Mr. and Mrs. R. L. Mackey, Mrs. Glen Murdock, and her daughter, Joanne Kay, will leave Iowa City soon to join Glen Murdock in Colorado Springs, Col. He holds a position in the finance department of the army air corps.

Mr. and Mrs. Donald Kessler, 614 Grant street, and their sons, Dick and Jim, have been called to Cedar Rapids due to the illness of Mrs. Kessler's aunt, Mrs. Howard Anders.

Mr. and Mrs. Arnold G. Landon, 1011 Sheridan street, will spend the remainder of August in New Hampshire, Mass., visiting Mrs. Landon's father, Lovell T. Wright.

Thrill Sabotage— Pranks Give FBI New Problem

Thoughtless Fun

WASHINGTON (AP)—"Thrill sabotage" by youngsters is the newest, really serious problem for J. Edgar Hoover's FBI men. Most of the destruction is not deliberate; Hoover traces it to a perverse sense of fun, or a hunt for thrills. Yet the FBI is spending almost as much time on such cases as on the job of forestalling sabotage by genuine axis agents.

One 16-year-old lad, for example, set fire to three war plants "as a joke." He caused damage amounting to \$1,334,000, plus delays in production.

Another lad, 13, started a fire that destroyed 80,000 wooden packing cases for shipment of war supplies. Loss \$30,000.

Four boys, aged 5 to 8, piled stones on a railroad track and derailed a troop train. Fortunately, no one was injured.

An 8-year-old placed an angle iron on a railway track, then sat down on a nearby hill to "see what would happen." The iron punctured a fuel tank and started a fire. The FBI reported that the boy was considered something of a hero by his schoolmates.

No Actual Intent Hoover says the boys apparently have no actual sabotage intent. He calls their cases "thrill sabotage"—a desire to do something that is forbidden. It's akin to the old Halloween spirit—a perverted sense of mischief.

In the St. Louis area, where FBI regional chief Gerald B. Norris has had much trouble with thrill saboteurs, it's felt that the destruction occurs when parents lose control or neglect their parental duties, and allow their children to wander without supervision. Hoover goes further—he says that in many cases where FBI men have caught the miscreants cold, with all sorts of evidence against

MARITIME OFFICER RECEIVES D.S.C.

FIRST OFFICER of the Maritime service to be awarded the Distinguished Service Cross in this war is Capt. Samuel Olsen, right, shown as he received the medal from Rear Admiral A. B. Randall, commandant of the U. S. Maritime Service. Skipper of a Liberty ship, Captain Olsen attempted to ram a Jap submarine with his ship. After his craft was torpedoed he ordered the crew to the life boats while he stayed aboard with the gun crew.

Save Material Learn Laundry Secrets For Conservation

Thousands of yards of material can be saved annually if homemakers will use a professional laundering secret and dry their colored articles inside instead of outside. Experts have tests of long standing which prove that fading due to the natural bleaching action of the sun makes countless articles unsightly long before the material itself shows any other signs of wear.

At a time when women are faced with the double duty of preserving the good looks of their homes and themselves with a minimum of new fabrics, such information becomes a real factor in the success of fabric conservation plans.

Even white things should not be exposed to the direct rays of the sun for too long because the same natural action of the sun weakens fabrics as well as fades them. This is more readily noticeable with window curtains. Here testing done by laundry experts show that the central, more exposed-to-sun parts of curtains deteriorate much quicker than the tops which are partially protected by window shades.

Some More Resistant Of course, some dyestuffs are more resistant to the sun's bleaching action than others just as heavier fabrics won't "fade to please" from the weakening effect of the sun as quickly as lightweight fabrics.

One certified color fading test has shown that small pieces of material become almost colorless after fifty 20-minute periods of outdoor drying in sunlight. Other pieces of the same material dried inside showed so little fading that, until compared to a piece of the original cloth, it was thought no fading at all had occurred.

Checking the weakening effect of direct exposure to sunlight on fabrics, tests showed that the average curtain material used on average windows would lose 80 percent of its original strength during a nine-month period of exposure.

Reversible Hemmed Curtains Make your curtains last longer by selecting those with reversible hems so the tops can be turned to the bottom every time they are hung. This distributes the weakening effect of the sun and the centers don't wear out while the tops are still in good condition.

Reversing curtains in this way should add from one-quarter to one-third to their period of usefulness. This is a real contribution to the fabric conservation plans of our government.

Outdoor drying is good for things from the standpoint of airing and sterilizing the fabric by sunlight, but an excess of this process should be avoided. Home-makers should be careful, also, to see that the shades are kept down as much as possible to extend the life of their curtains.

IN FOOTSTEPS OF GRETA GARBO?

STAR IN STOCKHOLM, dreamy-eyed Signe Hasso has been brought from her native Sweden to appear in Hollywood film productions. Her studio already is predicting that she will achieve as much fame as her compatriots, Greta Garbo and Ingrid Bergman.

LAST WEEK IN IOWA CITY

SUNDAY

Thirteen R. O. T. C. graduates who received their degrees Friday left yesterday morning at 3 o'clock for officer candidate school, according to an announcement from Col. Luke D. Zech.

The regular Saturday classes program will be suspended for the year 1943-44 because of transportation problems, it was announced today.

MONDAY

The condition of Atty. Ingalls Swisher, who was attacked by an assailant in the 200 block N. Linn street Saturday night was reported as satisfactory.

Qualified players who are not enrolled in the university will be offered an opportunity to rehearse band during the month of August, it was announced today.

In the first half of a double header, Complete Auto won a 6 to 5 victory over the Bulldogs team in the City softball league.

To accommodate women who cannot do their canning during the day, the community canning center of the office of civilian defense will be open each Tuesday night, civilian defense officials announced today.

Police Judge Jack White fined eight persons for minor traffic violations over the weekend today, and two for speeding.

Mrs. Lorna Mathes resumed her duties as executive secretary of the Johnson county Red Cross today after two months' work in the Missouri flood area as a member of the national staff of the disaster relief and rehabilitation division of the Red Cross.

TUESDAY

For three days, beginning today, 450 advanced army course students and 130 meteorology and basic students will eat in Currier hall's dining rooms.

Copies of "Peter Melendy," by Prof. Luella M. Wright of the English department, latest publication of the State Historical Society of Iowa, will be distributed to all members of the society when it returns from the bindery.

An alumnus of the university, Dr. Morris M. Leighton, chief of the Illinois state geological survey at the University of Illinois, will serve on an advisory committee of geological and engineering specialists selected to advise the United States geological survey on various phases of its work.

The following members were elected to a USO board of management to be in charge of certain activities: W. W. Mercer, chairman; Harry Bremer, vice-chairman; Mrs. Joseph Braverman, recording secretary, and Irving Weber, treasurer.

WEDNESDAY

Dr. Wilbur R. Miller, director of Psychopathic hospital, spoke to

Today 6 Local Organizations Plan to Meet

Elks Noonday Luncheon—Elks Grill room, serving begins at 11 a. m.

Kiwanis club—Jefferson hotel, 12 M.

Palestine Com mandry, No. 2, Knights Templar—Masonic temple, 7:30 p. m.

American Legion—Roy L. Chopek post No. 17—Legion quarters, 8 p. m.

Women's Catholic Order of Foresters—St. Rita's Court—St. Wenceslaus church parlors, 7 p. m.

OLD GOLD Theta Rho Girls—Odd Fellow hall, 7:30 p. m.

members of the Lions club at their noon meeting today on "Mental Adjustment Relative to the War." Examinations were given at University high school from 8:30 until 12 o'clock this morning and from 1 until 4 o'clock this afternoon to pupils applying for admission to grades seven, eight or nine who did not attend University schools last year.

Dr. Zella White Stewart, 65, widely known allergy specialist and the wife of Prof. George W. Stewart, head of the physics department, died at 6 p. m. at her home, 1010 Woodlawn avenue.

Bail of \$5,000 was fixed today by District Judge H. D. Evans for Vincent Lekin, against whom County Attorney Edward F. Rate filed an information charging him with assault with intent to maim Ingalls Swisher, local attorney and former mayor of Iowa City.

Coach Edward P. Madigan said that he hoped the group of 32 players out for summer practice, who will make up the nucleus of the squad, will be augmented by a number of freshmen in September.

Harold Lyons of Burlington will succeed Albert Davis as manager of the Englert, Varsity and Strand theaters.

THURSDAY—Frank B. Selbach, 52, proprietor of Dunn's Apparel shop died at 3 p. m.

Father Bonaventure, O. S. B., has been appointed professor in the school of religion and spiritual director of the Catholic foundation at the university.

FRIDAY—Vice-president Henry Wallace discussed agricultural problems at an informal dinner meeting here of farmers and others having agricultural interests.

Opening of the new USO lounge in the basement of the Community building and the introduction of a junior hostess system to take over USO dances will take place tomorrow.

A community street dance was held just off Dubuque street near the Henry Sabin school.

SATURDAY—A commission as major in the military government division of the United States army has been offered to Clair E. Hamilton, 714 E. Burlington street.

Lieut. Comdr. Harvey Harman has named Aug. 16 as the first day of practice for the Seahawk varsity football squad at the Iowa Navy Pre-Flight school here.

FILTERED AIR CLEANING SPECIAL

HOME-FRONT MORALE MEANS "LOOK YOUR BEST" ALWAYS

You can "look your best" by keeping your clothes in spic-and-span shape with DAVIS CLEANERS moderately priced cleaning service.

Woman's Suit or Plain 1-Pc. DRESS 49¢ each
Man's SUIT 49¢ each
COAT 49¢ each

DAVIS SHOE REPAIRING CONSERVES SHOES LENGTHENS THEIR LIFE

Davis Invisible Soles will give you better looking, longer-wearing shoes. Get the most out of your shoes with Davis "Scientific shoe" repairing.

DAVIS CLEANERS DRY CLEANING SHOE REPAIRING

AN OPPORTUNITY for Mechanical Engineers...

We are presenting now an opportunity to engineers experienced in the fields of automotive or tractor engineering along the lines of design work or laboratory research work.

We, Donaldson Company, Inc., manufacturers of oil-washed air cleaners having held an engineering reputation since 1916—now find ourselves in need of additional engineers. Donaldson Air Cleaners are factory equipment on many makes of Tanks, Armored Vehicles, Army Trucks, Farm Tractors and power units—gas and diesel.

If you are not a graduate engineer, you should have the equivalent in actual experience. Only American Engineers over 38 or classified 4-F are qualified. The one exception—if you are under the 38 age limit—is that you be married, maintaining a bona fide home and have children.

This presentation is not meant to draw applicants from War Industries. However, engineers not utilizing technical training to the fullest degree may take the advantage of a release from their present employer to work for us—the Donaldson Company, Inc.

If you are so qualified and can pass an industrial physical examination, you are directly in line for immediate employment. Write us giving complete personal history and past experience. If convenient enclose a snapshot of yourself.

DONALDSON COMPANY, INC.
666 PELHAM BOULEVARD, ST. PAUL, MINNESOTA

Take a Tip—

Sugar Bowl Low!

—Substitute Molasses

★★★

If your sugar bowl is embarrassingly low due to rationing, make your program a molasses for sugar theme. Take a tip from the pioneer homemaker who relied on the sweetness of molasses for her quick breads when she had little or no sugar in her cupboard.

Besides sweetness, quick breads made with molasses have other virtues for cooks to sing about. "Slow as molasses in January" doesn't apply to the way Molasses Nut Bread and Molasses Muffins will disappear from the table.

Molasses Muffins are excellent dessert. Serve hot and spread with butter or fortified margarine for distinctive eating. On special occasions bring Molasses Muffins to the table as miniature puddings with a smooth orange sauce poured over individual helpings.

Slices of Molasses Nut Bread spread with cream cheese will end any meal in a tasty manner. They are good, too, made up as sandwiches and packed into a hot box.

For fairy-like lightness and fluffiness, mix your molasses breads with a gentle hand. Stir only enough to moisten the flour if you would have the kind of quick breads epicures praise.

Postwar Flying - A Roadable Aircraft For Every Need

★★★ Engineer Designer Foresees Flying Passenger Automobile, Trucks ★★★

SAN DIEGO, Calif. (AP)—The aerocar, or flying automobile, for family tours and trips.

The roadside airplane, for distance flights coupled with short trips on the ground.

The helicab, a new type of helicopter, to enable commuters in large cities to cut their daily travel time from, say, 40 minutes each way to ten minutes.

These, says engineer-designer William B. Stout of Detroit, are the types of mass-produced, all-purpose aircraft you may expect to find for your money in post-war showrooms, and you may choose among them according to what best suits your personal needs.

There has long been a close association between Stout and the idea of a combination airplane-automobile. Even in the pre-war era designs for such vehicles flourished frequently from his drafting board.

Now, as head of the Stout research division of Consolidated Vulteer Aircraft Corp., charged by his company with gauging trends and preparing preliminary plans for future aviation development, Stout is giving still closer attention to the question of safe, practical and economical flying for everybody.

Post-War Aerocars

He expects the post-war aerocar—which takes wings for weekend trips and vacation jaunts—will weigh 1,500 pounds, or half as much as a pre-war popular coupe. It will have a standard 60-inch wheel tread, Stout says, will do 60 to 70 miles an hour on the highway and will take about as much gas as your old car. Its transparent body will enable you to see everything in sight.

For a flying trip, you back the car into a parking lot or garage, let down the combined wing and outrigger tail assembly and hook it on. The wing spread is 35 feet. A pusher propeller is fastened at the rear of the body, in order that in the air you may get maximum forward vision.

The aerocar will travel at 100 miles an hour in the air, using approximately the same amount of gas as at 60-mile speed on the ground. Cruising range is about 250 miles.

It will be designed to be a good auto first, and an airplane second. But Stout has another machine up his sleeve, which will be a good plane first and a good auto second.

Light Roadable Plane

This is a light roadable plane, weighing only 800 pounds, and with a 30-foot wingspread, which will enable you to take 400-mile cross-country hops. If you're a

ANYWAY, YOU CAN CALL IT A FOSSIL

CARLSBAD, N. M. (AP)—Here's a whiz of a quiz: What's a common fossil found in the limestone of the famous Carlsbad Caverns? Even the Cavern rangers stumble over the name but here it is: Squamulana Quadalupensis, and it comes in profile, ventral, posterior, beak and dorsal form deep in the heart of this ancient cave.

quered by air bombardment in this war except the tiny island of Pantelleria. True also, Britain survived the blitz. It would probably take years of bombardment for us to reduce every German city to ashes, but these comparisons and prospects are not convincing points.

The total bomb loads we have dropped on Hamburg are three or four times as heavy as the greatest German bomb load dropped on London. Approximately 2,300 tons hit Hamburg in a single raid, while the heaviest German load on London was 600 to 700 tons.

Our devastation, therefore, can be computed roughly as four times as great as what happened to the British capital. Our losses have been unofficially computed at about four percent, which not only makes the raids practical, but we can continue to take these losses day after day for months or years because we have

unlimited air resources.

This is an air war. Less than 10 divisions of American troops have been in actual front-line fighting, only five (under 75,000 men) in Sicily.

It may be too much to say that we have had more men in combat in the air than on land because a bomber crew is composed of only 10 men, but certainly as many men of the air forces have been involved if you count ground crews.

It is already apparent even to the Germans that they cannot hope to meet us on their air front, or even adequately defend themselves. Our pressure will increase, their resistance will diminish.

But to say they will break this month or this year calls for calculation of an internal Nazi factor we cannot possibly gauge accurately. Their known military strength

Former Student 'Chooses' Husband

Starlet Prefers Husband to Movie Fame; Content With Sergeant's Pay

"I decided that being just plain Mrs. Bob Speedy was worth a million fan letters," Jean Fitzgerald, former University of Iowa student and wife of Staff Sergeant Robert Speedy Jr., said recently in discussing her decision to give up a seven-year contract with Warner Bros. studio to be near her husband, a former University of Iowa English instructor.

"I've seen too many marriages go on the rocks out there," she explained. "The reason for so many marital failures there? Well, for one thing, the work is so exacting and requires so much of your time, that regardless of what you hear, your social activities are considerably hampered."

Studio Obligations

Mrs. Speedy pointed out that studio obligations require actors to appear where the public would expect to see them.

"If your husband happens to be a nonprofessional, he sometimes doesn't fit in with the publicity department's scheme," she said. "That's where the rub comes in. You either do as they direct you, feeling it is all part of the stakes in the game, or you take stock of yourself and ask if it's worth the price."

Being an army wife, the former starlet admitted, was not as luxuriant as a film star's mode of living by any stretch of the imagination. There is uncertainty, the constant possibility of moving quickly and the threat of his being sent overseas.

Played in Cagney Picture

The former university instructor's wife made her last appearance in "Yankee Doodle Dandy" which starred James Cagney. In the film she sang one of George M. Cohan's hits, "Forty-Five Minutes from Broadway."

Her film career began in a restaurant in Hollywood where she was approached by a movie scout who invited her to take a test. The test was successful and she was signed to a seven-year contract starting at \$125 a week. When the studio offered to take up her option she had married Sergeant Speedy of Allison and refused a new contract.

Sergeant Speedy Happy

Sergeant Speedy also is happy about his wife's choice. "When the war is over we may go back to California," he said. "I would like to teach at U. C. L. A. But until then Jean and I can get along on a sergeant's pay."

The sergeant was recently home on a 15-day furlough from Camp Hood, Tex., where he is a sergeant major of a tank battalion. He and his wife have been visiting her parents, Mr. and Mrs. Hal E. Fitzgerald of Sioux City.

businessman, you can use the plane as a light delivery truck.

The roadable plane will do two miles a minute in the air, but only about 35 miles an hour on the ground. When you land—on account of bad weather, for instance, or to reach home from the landing spot—you fold the wings to make road travel possible.

Neither the aerocar nor the roadable airplane will be used to any great extent in congested eastern cities, Stout says. In that section of the country, the helicab will provide the nearest possible thing to "personal wings."

Stout described the helicab as a sort of heavenly motorcycle, so versatile that in addition to moving in any wanted direction it will stand still in the air, hover at an aerial intersection for the sky cop's "go" signal and need nothing bigger than a tennis court to land on.

The designer predicts that a half million helicabs will be roosting on New York City rooftops, and Los Angeles people will rise like homing birds each evening flying to cool mountain retreats a few miles away—and a few thousand feet up.

Including full load, two passengers, fuel and baggage the helicab will weigh about 1,700 pounds, and will carry either airbag pontoons for landing in water or fore and aft wheels for ground use.

Aviation Industry

"The aviation industry will have plants and trained personnel ready to develop peacetime air and ground vehicles on an unprecedented scale," Stout said in a statement.

"There should be very little time lag after the war ends. It can come to pass in a matter of months, provided the industry has been able to organize for the production job and establish marketing and sales organizations.

"It is too early to talk about most of the mechanical details and changes in design on which the safe, lightweight, easy to operate and low-cost sky vehicles of post-war America will be based.

"But I see no reason why such things as electronic controls to prevent collision, constant communication from plane to plane and from plane to ground, and establishment of air levels for various types of aircraft need to be delayed for long, in peacetime aviation."

MALLON-

(Continued from page 2)

of war apparently calls for the devastation of two or three more cities on the scale with which Hamburg was reduced to ruins. That might possibly bring the break.

Nothing has ever been con-

in Russia suggests they might possibly stand another winter without retreat to Poland or even to the Dnieper. At any rate, all agree they can reasonably be expected to stand on some line through the cold winter months on that eastern land front.

It looks like a good time for us to invade the Balkans now that the Italian garrison divisions are being withdrawn to Italy, but we must first either reconquer Crete, or Turkey must declare war on our side to open the way. In either event, a blow on that front must take time for preparation.

All we can do is maintain the utmost pitch of war pressure through air bombardments, by cautious and relentless pursuance of the Italian invasion and by maintenance of a constant threat of a new second front upon the northwestern European coast, and through the Balkans.

American strategy conferences to step up the attack on the axis everywhere and take prompt advantage of all these fast-paced and favorable developments. European neutrals once confident of axis success in at least gaining a negotiated peace sharply changed their tune.

Within the week virtually every authoritative stated condition precedent to the possibility of complete defeat of the axis in Europe in a matter of months instead of years was realized or on the way to early realization.

Other allied invasion armies mustered in the middle east, in Britain, in India, waiting the signal to join the growing attack. By every indication heavy new forces of sea and air were being groomed for use against Japan far earlier than had been deemed possible in allied councils only a month or two ago.

I. C. Parent-Teachers' Council Suggests New Provisions for Curfew Ordinance

Asks for Maintenance Of Suitable Quarters Of Youth in Custody

That the curfew ordinance should make definite provision for the maintenance of suitable quarters in the juvenile home for children retained in custody by police officers, is among the suggestions offered by the Parent-Teachers council concerning the ordinance, which will have its third reading tomorrow night.

The recommendations are an outgrowth of an intensive study of the proposed ordinance conducted by Mrs. Frances Voss, legislative chairman, and approved by the council, which is composed of the presidents of the Parent-Teachers' association units in all city schools.

No Provisions

At present, no suitable quarters are provided for such cases in the juvenile home, according to Mrs. J. P. Cady, president of the council.

Section three of the ordinance, as drawn, reads: "Any member of the police force of said city, while on duty, is hereby authorized to arrest without warrant, any person found wilfully violating any of the provisions of section one of this ordinance, and retain custody of such person for a reasonable time pending the issuance and serving of the necessary information and warrant."

"But there is no statement as to where such persons will be retained," said Mrs. Cady. "The association is interested in where children will be kept in custody."

Suggests Re-Wording

The council suggests that the ordinance be changed to read: "shall be retained in suitable quarters as provided for by the state law already in existence." The state law says that no child can be placed in an enclosure with an adult prisoner, according to the council president.

The Parent-Teachers' council also recommends that the ordinance be passed as an emergency measure, repealing the existing curfew ordinance. Reasons for such proposed action are that war time, with its blackouts and the presence of strangers and transients in the city, has created conditions not present in normal times. War work and activities arising from the war have placed unusual demands on both parents and children, Mrs. Cady said.

The council believes that passing the ordinance as an emergency measure will appeal to parents and will encourage children to feel that they are helping the war effort.

Termination of Curfew

It was also suggested that a definite time for daily termination of the curfew be stated in the ordinance, and that the document be re-worded in one place to clarify the meaning.

Mrs. Cady said that the council believes the city officials are sincere in their efforts to improve the conditions of juveniles, and that it heartily approves their attempts to make Iowa City a finer place in which to live.

SOUTH AFRICA BOOSTS CORN PRODUCTION

PRETORIA (AP)—South Africa now expects maize crops of 23,000,000 bags, which is 1,000,000 bags more than expected national consumption and 6,000,000 bags more than pre-war consumption.

Danced, Ousted

FUROR created by Representative Martin L. Dies' revelation that he once was an acrobatic dancer has ended in the dismissal of John Bovingdon as principal economic analyst of the Office of Economic Warfare. Bovingdon, pictured at his desk in Washington, said he is "a victim of an anti-New Deal offensive to undermine the entire war effort." (International)

Former Students— Serving the Nation

—Former Iowa Citizens

Capt. and Mrs. John L. Keller are living at Denton, Tex. where Captain Keller is with the infantry at Camp Howze. He attended the university here for two years and then received his degree at Kemper college, Booneville, Mo. He has been in the service for two years and is the son of Mrs. George Keller, 723 E. College street.

Mr. and Mrs. Robert Yetter, 705 Grant street, report that their son, Second Lieut. Robert Yetter, is at the induction station at Baltimore, Md. He entered the army in May, 1942 after he was graduated from the college of commerce at the university.

Mr. and Mrs. Harold A. Smith and son, Norman, 311 Ronalds street, and Barbara Horrabin next weekend will visit Apprentice Seaman Ellsworth Smith at Central college, Fayette, Mo. Seaman Ellsworth was the first Iowa City man to enlist in the B-12 program of the navy. A graduate of City high school, he arrived at Central college July 1 for an eight-month training period, after which he will enter pre-flight training.

Mr. and Mrs. Edward J. Watkins, 9 E. Burlington street, have received a letter from their son, Second Lieut. John E. Watkins, stating that he is now at a replacement center of the armored force in Algiers. Lieutenant Watkins was graduated from officer candidate school at Ft. Knox, Ky. He was a student at the university before he enlisted in July, 1940.

Mrs. Paul R. Carrigg has received a letter from her husband, Lieut. Carrigg, stating that he is now on maneuvers in Louisiana. He had been stationed at Camp Gruber, Okla. In the army since May, 1941, he was graduated from the college of engineering in the university. Mrs. Carrigg and her three-month-old daughter, Jean Marie, are staying at her parents, Mr. and Mrs. Edward J. Watkins, 9 E. Burlington street.

Mr. and Mrs. M. Rosenberger arrived from Cincinnati, Ohio, this week to visit their son, Melvin Rosenberger, pharmacist mate third class who is stationed at the Iowa Navy Pre-Flight school.

Robert Allison of the Iowa Navy Pre-Flight school has been promoted to pharmacist's mate third class. He is the son of Mrs. Elizabeth Allison of Iowa Falls.

Capt. Donald R. Carlson, former University of Iowa student, has been promoted to the rank of major. Maj. Carlson, who was graduated with a degree in science in the class of 1940, was active in R. O. T. C. functions and held a captaincy in the cadet corps. At present Major Carlson is commanding officer of one of the army airforce dive bombing squadrons undergoing intensive training at Harding field, Baton Rouge, La. His home is in Rockford.

A. J. Schneider Rites Tuesday Morning at 9

Funeral services for A. J. Schneider will be conducted at 9 a. m. Tuesday in St. Patrick's church. Mr. Schneider, 81, died at a local hospital at 3:30 yesterday morning after an extended illness. His home was at 816 E. College street.

He was engaged in the furniture and undertaking business in Iowa City for many years, retiring several years ago.

Surviving are his wife; a son, Capt. John Schneider of Ft. McLean, Tex.; two daughters, Florence, of Iowa City, and Mrs. Robert Roach of Muscatine; a brother, Henry, of Iowa City, and a sister, Dora, also of Iowa City.

The rosary will be recited at 7:30 tomorrow night at the Hohen-schuh mortuary. Burial will be made in St. Joseph's cemetery.

500 A. S. T. P. Men Return From Furlough

Approximately 500 members of companies A and B of the army specialized training unit will return to Iowa City today after a seven-day furlough, it was announced yesterday by Col. Luke D. Zech, in command of all army students stationed here.

YANK GUNNERS READY FOR ATTACK NEAR SALAMAU

CHURCH CALENDAR (For Today and Next Week)

Union Services at Methodist Church
Jefferson and Dubuque streets
The third in a series of union services will be held at the Methodist church at 10:30 this morning by the Methodist, Congregational, Presbyterian, Baptist and Christian churches.
Dr. Iliion T. Jones of the Presbyterian church will deliver the sermon on the topic, "Giving Life an Eternal Setting."

Coralville Bible church Coralville
Rudolph Messerli, Pastor
9:45—Sunday school. Mrs. Rudolph Messerli, superintendent.
11 a. m.—Morning worship service. The pastor's sermon, "Christ, Our Life," is the second in a series of sermons based on the Book of Philipians.
7:30 p. m.—Evening evangelistic service, with sermon by the pastor.
Thursday, 7:30 p. m.—Prayer meeting and Bible study on the topic "The Times of the Gentiles."
Friday, 7 p. m.—Coralville Youth club.

First Church of Christ, Scientist
722 E. College street
9:45—Sunday school.
11—Lesson-sermon on the topic "Spirit."
Wednesday, 8 p. m.—Testimonial meeting. The public is invited.
A reading room is open to the public between the hours of 2 and 5 o'clock every afternoon except Sundays and legal holidays.

Methodist church Jefferson and Dubuque streets
Dr. L. L. Dunnington, minister
9:15—Church school, R. L. Ballantyne, superintendent. Each department meets in separate session.
10:30—Union worship service.
Dr. Iliion T. Jones of the Presbyterian church will deliver the sermon on the topic, "Giving Life an Eternal Setting."

First English Lutheran church Dubuque and Market streets
Rev. Ralph M. Krueger, pastor
8:30—Morning worship. The subject of the pastor's sermon will be "Whom Are You Serving?"

9:30—Sunday school.
Monday 8 p. m. Sunday school board will meet at the home of Myrtle Keeley, 1190 E. Court street.
Wednesday noon—Monthly meeting of the Friendship circle 816 S. Clark street. A potluck luncheon will be served.
St. Mary's church
228 E. Jefferson street
Rt. Rev. Msgr. Carl H. Meinberg, pastor
Rev. J. W. Schmitz, assistant pastor
6—First mass.
7:30—Second mass.
9—Third mass.
10:15—High mass.
11:30—Student's mass.
Daily masses at church at 7:30 a. m., at chapel at 6:30 p. m.
St. Patrick's church
224 E. Court street
Rt. Rev. Msgr. Patrick J. A'Reilly, pastor
Rev. George E. Snell, assistant pastor
6:30—Low mass.
8—Low mass.
9:15—Low mass.
10:30—Low mass.
St. Paul's Lutheran University church
Gilbert and Jefferson streets
L. C. Wuerffel, Pastor
9:30—Sunday school, Bible classes.
10:30—Divine service with Holy communion. The pastor will speak on "Brotherly Admonition."

FORTRESSES HELP IN ALLIED CAPTURE OF CATANIA

BRITISH CAPTURE OF CATANIA, strongly defended Sicilian city, was helped by American Flying Fortresses, which bombed the German positions and the Axis airfield. A Flying Fortress is pictured above making its bombing run over the airport as bombs explode on the field. Allies now are moving toward Messina. Official U. S. Army Air Forces photo.

Iowa City Clubs

WOMEN'S RELIEF CORPS
A regular meeting of the Women's Relief corps will be held Tuesday afternoon at 2 o'clock in the community building.

CATHOLIC DAUGHTERS OF AMERICA
A picnic supper at city park will highlight the activities of the Catholic Daughters of America this week. Planned for Tuesday at 6:30 p. m., the picnic will be in charge of a committee consisting of Mrs. W. C. Hanrahan, chairman, Mrs. Philip Englert, Mrs. J. T. Monnig, Mrs. J. P. Pugh, Mrs. P. A. Dooley and Mrs. C. W. Bower.

LADIES AID OF THE CHRISTIAN CHURCH
Members of the Ladies Aid of the Christian church will meet in the church parlors Wednesday from 10:30 a. m. to 4 p. m. The time will be spent quilting. A potluck dinner will be served at noon.

EAST LUCAS WOMEN'S CLUB
Members of the East Lucas Women's club are planning a picnic luncheon at the home of Mrs. Joseph Miltner, who lives south of Solon, Wednesday at 1 p. m. Mrs.

Mrs. Elsie Serup, 51 Dies in Local Hospital

Mrs. Elsie Serup, 51, wife of M. C. Serup, 305 S. Lucas street, died yesterday afternoon in a local hospital after a lengthy illness. Surviving are her husband and a daughter, Ann. Although funeral arrangements are not yet definite, the service will probably be held in the Oath-out funeral chapel at 2 p. m. Tuesday. The body is at Oathout's.

No More Piano—Duchin's in the Navy

—On Destroyer Escort

MIAMI, FLA. (AP)—Eddie Duchin's musical ear is paying dividends to the United States navy.

A lieutenant in the naval reserve, ex-orchestra leader Duchin has been assigned to one of the new destroyer escort vessels as an anti-submarine officer.

ASW experts are comparatively new to the navy. They are the men who are summoned to the bridge when a submarine contact is in the making. The job requires, among other things, an ear that can analyze all of the notes brought in by the sound detecting gear.

They're a hand-picked group, these ASW officers—and the hand-picked night club and radio idol is prouder today than when he saw his name in lights for the first time.

MISS PIANO
"Sure, I miss playing the piano," he says, "but I'm thrilled to death about this job."

The grey-eyed pianist was playing at the Palmer House in Chicago and entertaining the boys at the Great Lakes naval station on the side when he received his commission in May, 1942.

"I was afraid I was slated for an entertainment job," he confides. "Of course the boys need recreation—but I figured there are plenty of piano players who could do that job."

He applied for sea duty, and after a training course at Northwestern university, he was assigned to the inshore patrol—which plies the coastal waters.

"It's a funny feeling," Duchin muses, "to be bouncing around in one of those little fellows, and all of a sudden hear your own recordings coming in over the radio."

Later ordered to the sub chaser training center at Miami, Duchin kept his fingers crossed.

"It's a tough course," he grins, flashing white teeth in a mahogany-tanned face, "but Commander McDaniel, he's my idea of the tops."

"All of the fellows at the school swear by him."

Comdr. E. F. McDaniel of the regular navy has been in command of the sub chaser school since it was established.

"I like the 'little navy,' Duchin says, "there's a more personal atmosphere on these smaller vessels than you possibly could get aboard a battleship."

Duchin's present job, of course, comes under the heading of re-

stricted information, but Eddie can explain this much:
"It's kind of like tuning a band. You learn to give different interpretations to different signals picked up by your equipment." He whistles through his teeth to illustrate some of the sounds.

"You learn to detect different types of vessels by the rhythm of propellers and engines.

"That's where my musical ear is useful to Uncle Sam." The smooth-styled band leader doesn't feel that he made any sacrifice in leaving his piano and baton, with which he had been earning "a good bit more than \$50,000 a year."

"What good can money possibly do anyone if we lose this war?" he demands.

Years for Son
He does, however, yearn for his six-year-old son, Peter Oelrichs Duchin. The child, whose mother died at his birth, lives with the Averill Harrimans, Duchin's best friends.

"He's learning to box..." and band leader, Naval Officer Duchin becomes just another young father bragging about his offspring.

There is no time now for Duchin to practice, even if he had a piano. But he feels that his touch will come back quickly after the war. Duchin's technique is not confined to popular music.

The great Rachmaninoff once told him he should be a concert pianist. But when Duchin mentioned the size of his income: "Stick to what you're doing," Rachmaninoff tersely advised.

ATTACK! ATTACK! ATTACK!

America's attacking on both the fighting front and the home front today!

We're giving the Axis a bitter taste of what's to come. We're fighting the inflationary 6th column that's blown prices sky high here at home, too.

And every one of us who saves at least 10% of his pay in War Bonds is an important soldier in the attack!

Join the attack yourself!
