War Enters Final Phase--Marshall Yanks Threaten Jap Base in New Guinea

U.S. 'Chutists Within Twenty Miles of Lae

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC—American paratroopers who landed Sunday in the Markham valley and seized an airfield now have advanced to within 20 miles of the Japanese sea and air base of Lae, New Guinea, General MacArthur announced today.

These troops, who "chuted from transports which had the biggest escort of fighters and bombers ever employed in the south Pacific, made their original landings at the Nadzab airstrip of the Markham river.

Ground reinforcements are being flown into the sector, which is behind Lae. The original landings were witnessed personally by Gen. Douglas MacArthur, who flew in a Flying Fortress over the Owen Stanley mountains.

Australian forces which landed Saturday above Lae from boats

which had an escort of American warships now have pushed forward from their beachheads to a point near the Busu river only a few miles east of the enemy base. Previous reports had placed their advance units within 10 miles of Lae.

Mitchell medium bombers dropped 65 tons of bombs in the Malahang plantation area of Lae. The enemy has an airfield at Malahang.

Enemy positions and bivouacs were the targets.

Two miles northwest of Lae in the Markham valley, 80 tons of explosives were dropped by four-engined bombers on another enemy stronghold, Jacobson's plantation. Fires set in fuel and supply dumps were visible for 30 miles.

The Japanese airforce, which was absent during Sunday's paratroop landings, so complete was MacArthur's surprise, put in a belated appearance. Out of an enemy force of 30 planes, allied fighters shot down two Japanese bombers and five fighters for certain and probably destroyed six other planes. Only one allied fighter was lost.

Today's communiqué, in referring to operations of the Australians above Lae, said these troops, many of them veterans of the African campaign, "are pushing rapidly forward."

In an engagement 10 miles from Lae with an enemy force at Singau plantation, the Japanese were defeated.

"Our western ground forces in the Markham valley have brushed aside enemy outward resistance and secured the airfield at Nadzab," the communiqué said.

The airfield had not been in use and was overgrown with grass but American engineers said it could be rendered serviceable quickly.

At Salamaua, 18 miles southeast of Lae, where Americans and Australians have been inching forward, at some points within rifle range of the airfield, the allied troops are maintaining their presence, the communiqué added.

Hull Raps Argentina In Refusing Appeal For Lend-Lease Aid

WASHINGTON (AP)—Secretary of State Hull has turned down in brusque language an Argentine bid for lend-lease aid, declaring that in this country's opinion Argentina "has indicated clearly that the Argentine armed forces will not under present conditions be used in a manner designed to forward the security of the New World."

The refusal was contained in an exchange of letters with Foreign Minister Segundo Storni of the South American republic, made public last night at the state department.

Storni in the letter opening the exchange assured the secretary of state that Argentine sentiment is "firmly opposed to totalitarian regimes" and that "axis countries have nothing to hope for from our government."

No News on Sumner Welles **WASHINGTON** (AP)—President Roosevelt told reporters yesterday he had no news on the status of Sumner Welles, whose resignation as undersecretary of state is said to have been submitted to the chief executive.

Soviets Claim Over 420,000 Nazis Killed

1,080,000 Wounded, 38,600 Captured In Two-Month Offensive

LONDON, Wednesday (AP)—

The Russians announced in a special official statement last night that more than 420,000 Germans had been killed, at least 1,080,000 wounded and 38,600 captured in the first two months of the Red army's big summer offensive, which swept on today unchecked along a 600-mile front.

The Red army also took a great toll in material from the retreating Germans, including 5,729 planes, 8,400 tanks, 5,192 guns and more than 28,000 trucks, Moscow's announcement said.

Indicating perhaps the haste of the German retreat as well as its extent, the Moscow statement listed among the captured material 1,041 tanks, 2,018 guns, 5,382 machine-guns and 7,953 trucks.

30,000 Square Miles

Unofficial calculations based on the Russian advances as recorded in the daily communiques show that the Red army in the offensive begun last July 12 had recovered approximately 30,000 square miles of territory from the Nazis.

The Russians advanced generally Tuesday, the Soviet daily communique reported today, driving through the Donets basin despite increasing German resistance to cut an important railway behind embattled Stalin.

A total of nearly 6,000 Germans were listed as killed on the various fronts in Tuesday's fighting alone. Both Berlin and Moscow in their accounts of the day's fighting stressed the ferocity of the battles, the Russians emphasizing the Germans' "desperate resistance" and reporting Nazi counter-attacks launched with large forces of tanks.

Red Losses Unmentioned

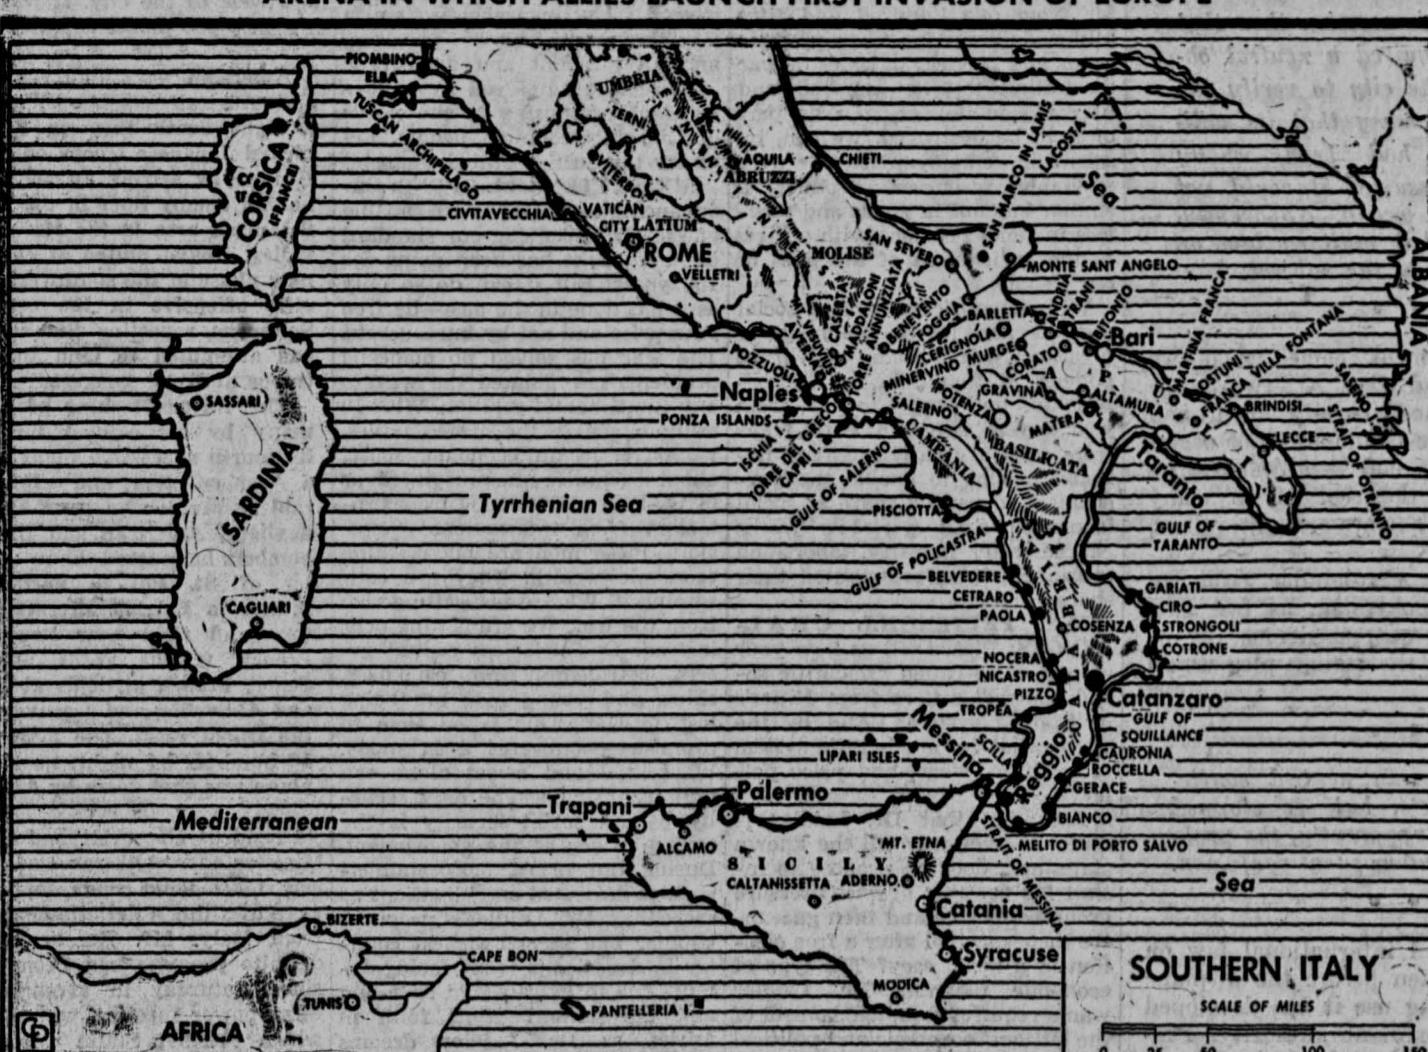

Russian losses were not mentioned in the statements, which covered the period from July 5 to Sept. 5. It was on July 5 that the Germans launched the summer's heavy fighting with a drive in the Orel-Belgorod-Kursk area. This blow was absorbed by the Russians, who just a week later opened their own offensive, a steamerroll drive still under way, now pushing the Germans back upon the Dnieper river defense line.

Tonight's daily communique recorded continuing gains on four active fronts—the Donets basin, the northern Ukraine, the Bryansk front, and south of Kharkov—with advances of up to 12 miles and the recapturing of approximately 300 towns and villages.

Capt. David Hanrahan Aboard Train

Captain David Hanrahan, commander of the Iowa Navy Pre-Flight school, was aboard the eastbound 20th Century Limited, Chicago-New York train, which was wrecked near Canastota, N. Y., yesterday, the navy public relations office announced here tonight. He was not injured.

ARENA IN WHICH ALLIES LAUNCH FIRST INVASION OF EUROPE

SHOWN ON THE ABOVE MAP is the southern half of the Italian peninsula, where the allied armies began their invasion of the continent of Europe last week. Troops have now pushed their way 60 miles up the coast from the point on the Strait of Messina where first landings were made, captured Palmi and dug into the interior in an advance which took Delanuovo.

126 Die in Fire, Train Wrecks

Houston Hotel Blaze Causes 45 Deaths; 32 Persons Injured

Origin Undetermined In Most Deadly Texas Disaster Since 1937

HOUSTON, Tex. (AP)—Fire sweeping a small, ancient hotel trapped and burned the life out of 45 screaming, terrified men yesterday.

Forty-three of them never got out of the three-story Gulf hotel at Preston and Louisiana streets in midtown Houston.

They died fighting to get down the one fire escape not blocked off by the flames. Two died in hospitals. Thirty-two were injured, several probably fatally. Sixteen men were released after hospital treatment.

It was Houston's most deadly fire and the costliest disaster in the state since the New London schoolhouse explosion which took 294 lives March 18, 1937.

"It was the most horrible thing that I have ever seen in my life," said Assistant Fire Chief George Richardson, 50 years a fireman.

Lloyd Brown, an eyewitness, said he heard men scream in agony.

"I saw men crawling down the fire escape," he related. "Some of them didn't have clothes on. I saw others run down their stairway and out into the street. Many of those were unclothed also."

City Detective H. R. Blanchard told of a man leaping from the second floor to land on an awning and pitch out onto the sidewalk. "He was burned and crushed," Blanchard said.

The old building had many wooden partitions, accounting for the fact that it burned so quickly, said H. L. Matthews, deputy city fire marshal.

Cause of the blaze had not been determined.

The hotel, located on the second and third floors of the three-story building, was used mostly by transients but a number of regular tenants also were registered there. Some were old men, some were cripples.

Few of the dead men had been identified.

Government Favors 'Cooling' Period

BY THE ASSOCIATED PRESS

WASHINGTON—The American government was said on high authority yesterday to favor a "cooling off" period of at least several months between the cessation of hostilities and the post-war writing of the peace treaties.

This was disclosed on a day which also brought these other developments in the field of foreign affairs:

1. President Roosevelt hinted that a meeting attended by Prime Minister Churchill, Premier Stalin and himself may not be far off.

He told his press-radio conference that progress toward such a meeting had been made since his Quebec talks with Mr. Churchill, and that he hoped for additional progress in the next 24 to 48 hours.

2. The president, also at his press conference, developed the thought that nations receiving lend-lease aid from this country will be under post-war obligation to repay as far as possible, but made clear that this did not mean payment would be expected in money. Mr. Roosevelt did not go so far himself, but a possible projection of his remarks was that lend-leases might well be remembered when the United States advances its ideas for a post-war world.

3. The Mediterranean commission, which it was disclosed Saturday is being formed and will be the public utility commission, the purpose of bringing peace to the Mediterranean area.

Stevens Hotel Plans To Reopen in 60 Days

CHICAGO (AP)—The 22-story, 3,000 room Stevens hotel—the largest in the world—plans to reopen its doors to the public in 60 days.

The new owner, A. S. Kirkeby, president and managing director of Kirkeby Hotels, Inc., announced the program for resuming normal business at the hotel yesterday shortly after the war department accepted his cash bid of \$5,251,000 for the property.

Philadelphia Wreck Claims 76; 3 Dead in New York Rail Blast

PALMI, Italy (AP)—Seventy-eight bodies lay in the Philadelphia morgue last night—victims of the nation's worst railroad disaster since 1918, the wreck of the Pennsylvania railroad's crack Congressional limited in the northeastern section of the city Monday night.

There were 48 women, 24 men, three boys and three girls. Twenty-seven were still unidentified. The last body was believed to have been removed from the wreckage by 8 p. m. but several may still be buried in debris at the edge of the tracks.

A total of 123 were in hospitals and many were reported near death.

Meanwhile John F. Sears, district F. B. I. agent-in-charge, announced that he had taken possession, for examination and tests, of a burned out axle journal that transformed the Washington to New York express into a mass of tattered metal as it headed into a curve Monday night.

The dead in the 20th Century wreck were: Engineer George Pierce, 63, Bridgeport, N. Y.; Fireman John C. Larsen, Syracuse, N. Y., and Charles M. Wriker, 32, Albany, traveling fireman.

As interstate commerce commission, and FBI officials began an investigation into the accident to the 18-car rail liner which left Chicago at 3:30 p. m. Monday, Philip C. Agan, superintendent of the New York Central's Syracuse division, said:

"Something let loose, I don't know just what happened. Maybe we can tell when we take the boiler apart. Whether it was due to low water or what, the investigation may show."

Rita Hayworth, Orson Welles Wed In Santa Monica

SANTA MONICA, Calif. (AP)—Orson Welles and Rita Hayworth were married yesterday by Superior Court Judge Orlando Rhodes.

Welles, radio and screen actor and producer, and Miss Hayworth, screen actress, took time off from their work for a few hours and planned to be back on the job again today.

Welles, who became a Shakespearean actor and branched into a movie producer, is currently operating under a big tent a "wonder show" in which he performs feats of legerdemain.

Chief of Staff Declares Series Of Offensives Mounting; Avoids Guess at When Allies Will Win

By WILLIAM F. FRYE

WASHINGTON, Wednesday (AP)—Gen. George C. Marshall, chief of staff of the army, reported yesterday that the war has entered its final phase, with the allies mounting a series of offensives which will end only with the absolute defeat of the axis.

Avoiding any prediction of how long the war will last, but with complete assurance of the final victory to come, he submitted to Secretary of War Stimson his biennial report, sketching dramatically the nation's transition from perilous unpreparedness in the summer of 1941 to unprecedented military power certain of triumph.

In the midst of victories on every front and sweeping plans for great new offensives, the chief of the mightiest army this country has ever known—an army created, equipped and trained under his leadership—discloses that two years ago he watched the ominous aggressions of the Japanese, never in doubt of their purpose, but helpless to reinforce the Philippines because the soldiers and machines did not exist.

Marshall says that two years ago he feared disintegration of his army of 1,500,000 men, had to plead for extension of the selective service period beyond a single year.

ALLIED HEADQUARTERS IN NORTH AFRICA (AP)—The British Eighth army extended its invasion bridgehead in Italy to a width of at least 60 miles yesterday with the capture of Palmi in a 10-mile advance, while great fleets of allied bombers struck by day and night at the Naples area in a concerted effort to wither the enemy's war effort in southern Italy.

Deepening their inland thrust on the Calabrian peninsula, the British and Canadian troops pushed another 10 miles in the Santo Stefano wedge to seize Delanuovo. The village is 15 miles due east of Scilla on the Aspromonte mountain spine of the peninsula.

"Strategically the enemy in Europe has been reduced to the defensive and the blockade is complete," Marshall writes.

"In the Pacific the Japanese are being steadily ejected or rather eliminated from their conquered territory . . .

"In brief, the strength of the enemy is steadily declining while the combined power of the united nations is rapidly increasing, more rapidly with each succeeding month. There can be but one result, and every resource we possess is being employed to hasten the hour of victory without undue sacrifice of the lives of our men."

The war has entered its final phase, says Marshall—a phase which "involves the launching of allied military power" against our enemies in a series of constantly increasing offensive blows until they are beaten into complete submission.

He leaves no doubt that the plans are drawn and eventual success certain for this series of offensive blows. Without so much as a hint at the nature of these plans, he writes that decisions reached as long ago as the Casablanca conference still cannot be disclosed—presumably because the operations have not yet occurred.

Concerning Russian demands for a second land front in western Europe, Marshall has nothing to say specifically, but he asserts that the combined British-American bomber offensive against the continent "gives promise of being a decisive factor in the ultimate destruction of the German citadel."

By July this year, he writes, the Eighth air force had more than 1,000 heavy bombers based in Britain. Missions were averaging better than 300 bombers each, and the than 300 bombers each, and the greatest tribute to the heavy bomber was "the enemy's recognition of its importance." The attacks, says Marshall, forced Germany to withdraw from the Republic of Poland.

(A Berlin broadcast said the British advancing north of Palmyra had been engaged twice by German rearguards near Giola Taurio, eight miles north of Palmyra. The British on the Ionian sea were said to have failed to crack a Nazi

(See INVASION, page 5)

GOP Council Decides Upon Foreign Policy

MACKINAC ISLAND, Mich. (AP)—With all outward signs of friendly harmony, the Republican post-war advisory council wrote a foreign policy charter yesterday pledging its party to foster "responsible participation" by the United States in an organization among sovereign nations to halt future military aggression.

That done, this organization of 49 federal, state and party office holders gave speedy approval of a revised domestic front statement condemning the New Deal for what it termed "Fascist" tendencies and adjourned to await the verdict of the country on its attempt to lay the groundwork for the 1944 Republican platform.

Although representatives of Wendell L. Willkie, the 1940 presidential nominee were conspicuously absent, divergent elements of the party stamped their approval on a declaration which urged:

"Responsible participation by the United States in post-war cooperative organization among sovereign nations to prevent military aggression and to attain permanent peace with organized justice in a free world."

The report, covering the period between July 1, 1941, and June 30, 1943, contains 58 pages plus 38 pages of footnotes, and maps and charts

700 University Women Enroll For Service Under "Double V"

Greatest Proportion Applied to Be Junior Hostesses for USA

Yesterday's registration for participation in the "Double V" program planned for the coming year by U. W. A., W. R. A. and Y. W. C. A. revealed that by 4 o'clock approximately 700 university women had volunteered for duty in the war effort on the home front.

The greatest proportion had made application for membership in U. S. O. as junior hostesses to entertain servicemen in the weekend program at the Community building, and as hostesses for the tea dances held every Saturday afternoon in the main lounge of the Iowa Union.

Large Registration

The registration was so large that there were not enough application blanks for prospective junior hostesses, and women interested in that activity will have to pick up blanks at Old Capitol today.

Registration as volunteer hospital aides was also heavy. It was reported that 152 women had pledged themselves to work in Children's hospital. This work in-

cludes teaching Sunday school classes and providing various kinds of entertainment, as well as regular hospital duties such as carrying trays, cleaning and dusting, running errands and transporting patients to and from clinics.

The quota for volunteer nurses aides who would work in the regular wards of University hospital had been filled for Mondays, Wednesdays and Fridays, with the other specified days not far behind.

Surgical Dressings

Another popular choice of service was making surgical dressings for the Red Cross. This involves packing and rolling bandages in the conference room of Iowa Union two hours each week.

Every phase of the program had a satisfactory turnout, and University of Iowa women made it evident that in spite of increased responsibilities and heavy schedules, they are going to make the "Double V" a tremendous success.

It was expected that the registration would hit an upswing about 5 o'clock since a freshman orientation meeting at 4:10 probably kept a great many university women from registering until late.

Don't Hesitate—

Buy, Try New Meats

Culinary Adventures

When your butcher hasn't the meat you want, don't hesitate! Snap up what he has. Like one adventurous soul — come home with three veal kidneys, a lamb liver, two pounds of country-style backbones, a bacon square, and an extra.

Even if you buy only two new meats, there are dozens of ways of cooking them. To help begin an adventure in cooking, here's a starter set of recipes:

Veal Kidneys Braised With Tomatoes

3 veal kidneys

Salt

Flour

2 tbs. chopped onion

2 lbs. lard

1 cup cooked tomatoes

Cut kidneys in half lengthwise. Remove white membrane. Soak in cold water 15 minutes. Cut into 1-inch pieces. Season. Dredge with flour. Brown onion in fat. Add kidneys and cook with onions for about 5 minutes or until well browned. Add tomatoes. Cover. Simmer 10 minutes or until kidneys are tender and sauce is thickened. Serves 6.

Lamb Liver Hash

1 lb. lamb liver

6 slices bacon

4 cooked potatoes

1/4 tsp. salt

Scald and grind the liver. Grind the bacon and combine with the liver. Add diced potatoes. Brown and cook slowly about 10 minutes. Season and serve. Serves 6.

Country-Style Backbones

2 to 2 1/2 lbs. pork backbones

1/4 tsp. salt

Pepper

1/4 tsp. poultry seasoning

Brown backbones. Add seasoning, cover and cook in a moderate oven (350 degrees F.) for about one-and-a-half to two hours or until well-done. Pork always requires thorough cooking at a moderate temperature to bring out

the full rich flavor. Small potatoes may be added 45 minutes before the meat is done to cook and brown in the meat juices.

Baked Bacon Squares and Beans

1 qt. navy beans

1 1/2 lbs. bacon squares

1 cup boiling water

1 tbs. salt

3 tbs. sugar

1 tsp. mustard

1/3 cup molasses

Soak beans over night in cold water. Drain and cover with 2 quarts fresh water. Cook slowly for 1 to 1 1/2 hours or until skins burst readily when a bean is removed from the pan and blown upon. Put in a large baking dish. Pour boiling water over bacon squares and press in the top of the beans. Mix salt, sugar, mustard, molasses and boiling water, and pour over the beans, adding enough water to cover the beans. Cover the dish and bake 6 to 8 hours in a slow oven (250 degrees F.). Add hot water as needed.

During the last hour of baking, uncover to brown. Serves 12.

Oxtail Soup

1 lb. oxtails

Salt, pepper, flour

2 tbs. lard

4 cups water

3 allspice berries

1 cup diced carrots

1 cup shredded cabbage

1/4 cup minced onion

Water

Cut oxtails into small pieces, season and roll in flour. Brown in hot lard in a deep, heavy kettle.

Add water and allspice. Cover. Simmer 2 to 3 hours or until meat drops from bones. Strain. Remove all meat from the bones. To broth, add meat, vegetables and more water if needed. Simmer 20 minutes or until vegetables are tender. Serve very hot. For a thicker soup, cook 1/2 cup rice in the broth with the vegetables.

sional Women's club—D and L grill, 6:15 p. m.

Iola council No. 54, Degree of Pocahontas—K. of P. hall, 7:30 p. m.

IOLA COUNCIL

A business meeting of Iola council No. 54, Degree of Pocahontas, will be held this afternoon at 2:30 in the K. of P. hall. The committee in charge of the social hour after the business session includes Mrs. Alfred Jensen, Mrs. William Varner and Mrs. Joseph Vrana.

KAPPA PHI

Plans for social and study activities of the coming year will be formulated at the first meeting of Kappa Phi, Methodist girls sorority, this evening in the Methodist student center at 8 o'clock.

Marilyn Mote, A3 of Sioux City, president, will present an outline of programs to center around the theme for 1943, "Faith is Victory." Ideas for round-table discussions of current social problems will be submitted by last year's members.

Margaret Burdick, A1 of Iowa City, and Irene Baldwin, A2 of Des Moines, are in charge of refreshments.

MULES REFUSE TO BITE COUPON THAT FEEDS 'EM

SHELBY, N. C. (AP)—A farmer here sought a new sugar certificate on the ground that his mules had eaten the original, lost in some corn shucks. The next day he was back to report to the rationing board that he had made a mistake. His sugar-loving mules had spurned the certificate, which he found undamaged in the feed trough.

PATRIOTIC TABLE SETTING USES FLOWERS

RED ROSES and a splash of white daisies combine to make an attractive centerpiece to aid the busy hostess in carrying out a patriotic color scheme. White china with a blue pattern and blue napkins and table mats banded in white complete the popular red, white and blue idea. This setting is delightful to use when serving refreshments to your bridge foursome or giving that special luncheon, and the colors are appropriate throughout the year. It is simply designed so that every hostess will be able to arrange this table frequently. You will also find that the entire family will enjoy the flowers long after your guests have gone.

NEW BLACKOUT HEADLIGHT MASK

MISS NANCY BRINCKMAN of Los Angeles, Calif., here calls attention to the new insignia which will identify cars permitted to move during blackouts or air raid alarms hereafter in California. The official Civilian Defense Insignia is illuminated in green in a mask for the right headlight. Left headlight is kept full on. (International)

The regular meeting of the Carnation Rebekah lodge will be held Friday at 8 p. m. in Odd Fellows hall.

P. E. O. CHAPTER E

A Kensington will be held for members of chapter E of P. E. O. Friday at 2:30 p. m. in the home of Mrs. J. E. Stronks, 351 Hutchinson avenue.

PLYMOUTH CIRCLE

Mrs. John C. Feltzer, 318 Ferson avenue, will be hostess to the Plymouth circle of the Congregational church this afternoon at 1 o'clock luncheon. A business meeting will take place later in the afternoon.

PILGRIM CHAPTER OF D. A. R.

Yearbooks for the 1943-44 schedule of the Pilgrim chapter, D. A. R., are now being distributed; it was announced yesterday.

Among Iowa City People

Spending the week with her mother-in-law, Mrs. Bess Adams, 419 N. Gilbert street, is Mrs. C. W. Adams of New York.

Alice E. Blake and Edna B. Thompson have arrived from Sioux City, where they have been teaching at Central high school, to make their home at 226 McLean street. Miss Thompson is a sister of Mrs. J. Hubert Scott, 701 Bayard street.

Mrs. Charles Kendall of Chicago is visiting her parents, Mr. and Mrs. A. J. Page, 428 S. Johnson street.

Janet Peterson, daughter of Dr. and Mrs. Frank R. Peterson, 604 W. Park road, left last night for Mills college, Calif., where she will attend school.

Mr. and Mrs. E. B. Reuter, 1027 E. Court street, have been entertaining Mr. and Mrs. C. W. Hart of Washington, D. C., for the past several days. Mr. Hart is director of research in the bureau of O. W. I. He was formerly a member of the faculty at the University of Iowa.

In Iowa City recently were Mrs. and Mrs. Thomas Farrell, who visited their parents, Mr. and Mrs. Thomas Farrell, 710 Summit street. Ensign Farrell was formerly a professor in the English department at the University of Iowa. He has returned to the west coast, while Mrs. Farrell is making her home with his parents.

Assisting Mrs. Howell as hostesses at the meeting will be Mrs. Paul Packer, Mrs. W. D. Arnold, Mrs. Abbie Bickett, and Lettie and Lulu Oldaker.

Newly elected officers are Mrs. D. E. Cherry, regent; Delvina Anderson, vice regent; Mrs. Harry Goodrich, chaplain; Mrs. B. E. Oathout, recording secretary; Mrs. I. A. Rankin, treasurer; Mrs. H. J. Mayer, registrar; Mary Sunier, historian; Gertrude Lewis, auditor; Mrs. Eleanor S. Biggs, parliamentarian; Mrs. W. J. McDonald, Mrs. John Cameron, and Mrs. C. E. Loghry, directors.

P. E. O., CHAPTER HI

A potluck luncheon will entertain members of chapter HI of P. E. O. Friday at 1:30 p. m. in the home of Mrs. T. M. Rehder, 1181 Hotz avenue.

In charge of arrangements are Mrs. E. E. Harper and Mrs. L. A. Van Dyke. Mrs. B. V. Crawford is chairman of the program.

STITCH AND CHATTER CLUB

Mrs. Paul Langenberg, route 5, will be hostess to the Stitch and Chatter club Friday at 7:30 p. m. Mrs. Langenberg will be assisted by her mother, Mrs. Will Slavata. Refreshments will be served during the evening.

WOMEN GOLFERS' ASSOCIATION

Friday at 9 a. m. the Women Golfers' association will meet at the country club. Golf will precede a luncheon to be held in the clubhouse. Reservations must be made by Thursday.

Rie Gaddis to Head Fairchild Cooperative

Rie Gaddis, A3 of Ft. Madison, is the newly elected president of Fairchild house, newest cooperative house for university women.

Other officers elected for the year are Fern Harris, A3 of Newton, vice-president; Martha Fisch, A1 of Sigourney, secretary; Marian Patterson, A3 of Greenfield, treasurer and judiciary chairwoman.

Tigers Win Doubleheader to Retain Fourth Place

**Trounce Sox,
5 to 0, 6 to 5**

Dizzy Trout Notches
17th Victory in Day's
Lone Major Contest

DETROIT (AP) — The Detroit Tigers beat off a challenge of the Chicago White Sox for the American League's fourth place yesterday by sweeping a doubleheader, 5 to 0 and 6 to 5, from a slim crowd of 5,962 in a bill postponed from Monday's holiday program.

It was the day's only major league action.

Paul (Dizzy) Trout gained his 17th victory and fifth shutout in the opener by scattering seven hits. In the nightcap Virgil Trucks came in as Detroit's fourth pitcher to stamp out Chicago's ninth inning rally that produced three runs and put the potential winning run on second base.

Trot was backed up by a ten-hit attack of lefty Edgar Smith that included homers by Rudy York and Pinky Higgins. It was York's 31st of the year.

In the nightcap the Tigers had given Johnny Corsica a 6-2 lead going into the ninth. Hodgin's single and an error produced two runs, and another scored on Joe Kuhel's infield out. Meanwhile, Hal White and then Trucks were rushed in from the bull pen, though Corsica got credit for his third victory when Trucks got Skeeter Webb on a fly ball to end the game.

Hits — off Newhouse 1 in 2 innnings (none out in third); Gorsica 6 in (none out in ninth). White 0 in 1/3; Trucks 0 in 2/3. Passed balls — Turner 3. Winning pitcher — Gorsica. Umpires — Grieve and McGowan. Time — 2:26. Attendance — 5,962 paid.

Sports Trail

By WHITNEY MARTIN

**★ Young Ball Players
★ May Be in Service
★ But They Can Dream**

NEW YORK (AP) — It probably is no great surprise to find that the young baseball players in the armed services are obsessed with one idea as to what they will do when they are discharged, and that is to play baseball, and this one-direction thought accounts for the fact they squeeze in the game every possible moment of their busy daily schedule. They want to be ready when it's over everywhere.

Confirmation of this post-war preparedness campaign comes from Mickey McConnell, stationed at Camp Campbell, Ky. Mickey is a former member of the Brooklyn Dodger farm club staff, and he forwards some interesting data on ball players in the service. Naturally it concerns mostly the ex-Dodger farm hands.

"I saw a dozen of our boys in the recent semi-pro tournament at Wichita," he writes. "Naturally, Pete Reiser was the standout player, and his fielding, throwing, hitting and running carried Ft. Riley to a tie for fourth place. A stomach ailment has caused him to lose 15 pounds, but he played 'all out' anyway."

Stan Rojek, who moved up from Montreal to finish the season with the Dodgers last year, looked good at shortstop for the Las Vegas, Nev., air base, as did Pfeiffer, hefty first baseman who campaigned at Dayton until Uncle Sam tapped him.

A trio of Dodger farm hands registered increases, Detroit is about even, and the other four clubs, the first place New York Yankees, Boston, St. Louis and Cleveland, are running behind.

In the American league Washington, Chicago and Philadelphia have registered increases, Detroit is about even, and the other four clubs, the first place New York Yankees, Boston, St. Louis and Cleveland, are running behind.

When Joe Howard of Des Moines recovers from his ankle injury, he probably will take over right end, with Bill Barbour, of Mason City, a letter man, then converting to a tackle.

When Ted Williams recovers from his ankle injury, he probably will take over right end, with Bill Barbour, of Mason City, a letter man, then converting to a tackle.

Bolimakers Drill

On Aerial Strategy

LAFAYETTE, Ind. (AP) — Extended drill on aerial football strategy yesterday gave the Purdue university football squads their first respite in five successive drills from scrimmage.

Assistant Coach Cecil Isbell

gave individual players instructions on passing and cited Jimmy

Darr, Ed Cycenas, Sam Vacanti and Blaine Hibler, all V-12 trainees, for their performances.

"We face the same problems here that are faced in pro ball these days, with players moving on frequent intervals. However, the keep on playing even though their military training schedules don't leave them much time because they want to be ready for the baseball call when the war bugles cease to blow."

Ohio State Works Out

COLUMBUS, Ohio (AP) — Ohio State university's varsity gridiron plodded through a brace of workouts yesterday without incident. They concentrated on running plays in the morning and on pass offense and defense in the afternoon.

Baseball Ticket Sales Indicate Slight Drop

Experts Declare They Are Well Satisfied With '43 Fan Turnout

By JUDSON BAILEY

NEW YORK (AP) — Attendance in the major leagues is running six to eight percent behind last year's figures, which reached a total of approximately nine million paid admissions, but baseball's leaders said yesterday that they are well satisfied with the 1943 turnout of fans.

"We are having what we believe to be a remarkable season through a trying war period," Harridge commented, "despite unprecedented bad weather in the early season when the entire first trip of the eastern clubs into the west was practically wiped out. We had 16 postponements in one week in May."

The National league, which drew 4,677,183 last year, is running around eight percent behind, President Ford Frick said, but explained that "this is really better than I thought we would be able to do when we were making plans for the 1943 season."

William Cox Drowns Here

River Junction Man Discovered Tangled In Fishing Lines

Tangled in the lines of his fishing tackle, William Cox, 72, of River Junction, was found drowned in the Iowa river three miles west of Iowa City at 5:45 p.m. yesterday by two of his neighbors. Iowa City firemen, Deputy Sheriff Albert J. Murphy and the two unidentified men dragged the river for nearly three hours before the body was discovered 15 feet from where fishing equipment and catch lay on the shore.

Murphy said late last night that Cox had evidently fished for about an hour and a half before the accident occurred. "Probably he lost his footing when he threw in a sub-line and was unable to make it back to shore," Murphy surmised.

Cox left his home Monday at 5 p.m. to set his lines. Relatives did not discover his absence until yesterday morning. Sheriff President Koser was notified at noon yesterday. Assistant Fire Chief Al Dolzel and Fireman Ed Knoedel aided in the search.

The body was taken to the McGovern funeral home. He is survived by his wife, his brother, Clint, with whom he made his home; two other brothers, Arleigh of Iowa City and George of California, and three sons, Vane, Roy and Charles.

8-Day-Old Infant Dies in Hospital

Thelma Jane Evans, eight-day-old daughter of Mr. and Mrs. Stanley L. Evans, 2109 H street, died at Mercy hospital at 2:30 yesterday afternoon.

Funeral service will be held at the home at 2 o'clock this afternoon. The body will be at Oathout funeral home until that time.

INVASION-

(Continued from page 1)

hedgehog position leading east around the Italian toe from Reggio Calabria.)

Headquarters reports indicated the enemy force in Calabria was quite small. Allied fighters and bombers which constantly patrolled the combat area reported an almost complete absence of substantial enemy troop movements.

Reinforcements poured across the Messina straits. Headquarters disclosed that allied tanks and artillery now were operating in continental Italy and that supply bases were being established on the mainland.

The air blows at Naples and its environs were so heavy and persistent they appeared to be a softening-up operation, possibly a prelude to an amphibious operation. Naples is 195 airline miles north of Messina. Its airfields, port facilities and railways were attacked by American and British planes of many categories.

Big Flying Fortresses and medium bombers operated against Naples by day and British Wellingtons and Bostons struck by night to isolate the area and virtually immobilize all Italy south of that transportation bottleneck.

17 Planes Downed

In all operations, 17 enemy planes were destroyed at a price of four allied craft.

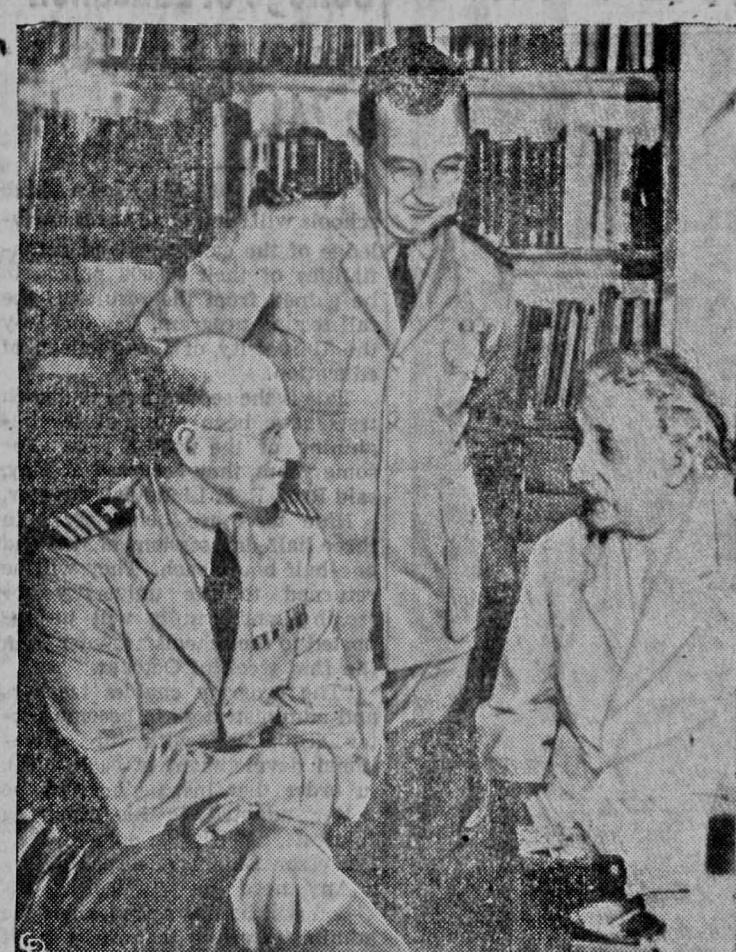

The newly-occupied Calabrian area runs along the steep cliffs of the Aspromonte mountain. The villagers had little food since the Germans had carried away all they could take. As in places occupied earlier, the natives welcomed the Eighth army as liberators.

By resorting to extensive demolition rather than active fighting, the axis apparently was playing a cautious game and seemed determined to avoid falling into a trap. It was sending no force to the Calabria peninsula which might be sacked by landing at numerous points up the Italian west coast.

The opposition encountered was mainly pockets of resistance composed almost entirely of Italians of poor fighting quality, who surrendered promptly.

Besides the attacks on Naples, allied air power continued its methodical destruction of Italian railroads. American dive-bombers tangled a rail junction at Sibari on the arch of the Italian boot. Kittybombers attacked San Fernando on the Gulf of Gioia. The axis caused slight damage at Bizerte in Tunisia, losing seven bombers. Its airfields, port facilities and rail-

ALBERT EINSTEIN WORKS FOR NAVY

ENGAGED IN RESEARCH WORK for the U. S. Navy, Dr. Albert Einstein is pictured above in conference with Navy officers in the famous scientist's study in Princeton, N. J. Officers are Capt. G. E. Sage, left, commandant of the U. S. Naval Training school at Princeton, and Lieut. Comdr. F. L. Douthit, executive officer. Official United States Navy photograph.

INTERPRETING—

ways were pounded by planes of many categories.

submarines sunk in three summer months, 29 were destroyed by the U. S., 26 by aircraft alone. Navy Secretary Frank Knox said the Germans had recalled their U-boats from the Atlantic for fitting with further anti-aircraft guns which might render useless blimps and helicopters.

The RAF's night blows at Munich were in the battle for Italy. Munich is an important war industries center and a communication hub through which traffic flows to Italy through the Brenner pass. In the south of Italy, persistent attacks by day and night on Naples and its environs suggested that the allies were softening up the pummeled port for perhaps an amphibious operation. Its airfields, port facilities and rail-

mocracy has the capacity successfully to plan for security for all. Don't you think so, Congressmen?

MR. PETTENGILL REPLIES:

Of course, unemployment must be solved. The last depression was caused not by free enterprise but by war debts, excessive tariffs, and speculative fever officially encouraged in Washington. These decisions were chiefly made by government officials or politicians, not by inventors, scientists, farmers, workers, or enterprisers. It is government planners, world wide, who are responsible for the present terrible mess. We need more free enterprise, not less; less government meddling, not more. Let us encourage risk taking and stop handing legislative feather beds to favored groups in exchange for votes. Let us release the restless, dynamic, creative Edisons, Burroughs, and Wrights of today and build a better tomorrow.

Now You Tell One

LONDON (AP) — John High, an East Anglia farmer charged with selling milk deficient in fats, pleaded in court that nearby firing of guns had disturbed his herd, thus affecting the milk.

An expert testified that that could be.

The magistrate dismissed the case.

* AVALON, N. J. (AP) — When school opens at the Avalon public school September 13 there may

not be any teachers to call the roll.

George Keen, school board president, said today the teachers of last year would not be back for the opening. Mrs. Edith Wells, principal, has retired and Mrs. Madelyn Calloway of Wildwood Crest has decided to teach in her home town. The board of education has been unsuccessful in filling the vacancies thus far, Keen said.

RICHMOND, Va. — John W. Burrell, 67, handyman, regretted today that he looked at his alarm clock yesterday morning. Burrell struck a match to see the clock, then went back to sleep and awoke later to find that the match which he believed extinguished had ignited his trousers. The trousers contained \$1,058.

ATHENS, Ga.—Burglars broke

into the University of Georgia library, ransacked the rare book room where volumes valued at thousands of dollars were kept. But they passed up the books, stole only a flashlight.

Silver Wings to Be Presented In Front of Honor Roll Tonight

Ceremony at 7:45;
Rev. L. L. Dunnington
To Be Main Speaker

The silver wings presentation program, originally scheduled for 8 o'clock tonight, will be held at Clinton and College streets in front of the Johnson County honor roll.

The Rev. L. L. Dunnington of the Methodist church will deliver the main address of the evening.

Paul Angerer of the Veterans of Foreign Wars will preside as master of ceremonies at the program which is sponsored by the Veterans of Foreign Wars and the Civil Air Patrol.

Music by the Iowa City high school band, directed by William Gower, will precede the program. The address of welcome will be given by Mayor Wiber J. Teeters.

Edward L. O'Connor will discuss the activities of the Veterans of Foreign Wars in aviation recruiting, and W. L. McArthur will summarize the activities of the Civil Air Patrol in the recruiting.

To Receive Wings

Col. Luke D. Zech will present the silver wings of the aviation reserve to Rex C. Crayne, 221½ E. College street; William G. Nusser, 330 W. Park road, and James E. Wendell, a university student, formerly of 8 E. Burlington street.

Six boys who have already received their silver wings will be presented at the ceremony. They are Fay Sexton, Hazen Moore, Robert F. Schneberger, Marvin L. Sass, all of Iowa City, Robert Young of North Liberty, and Robert E. Reeve of Tipton.

President's Speech

A loudspeaker system has been set up so that the program can include President Franklin D. Roosevelt's message at 8:45 p.m. After the president's speech, the Iowa City high school band will play the "Star Spangled Banner."

Application blanks for enlistments in the army aviation reserve will be available at the meeting.

The war department also has asked the cooperation of all high school superintendents in recruiting. A traveling board will be at the postoffice in Iowa City at 10 p.m. Sept. 16 to give three-hour examinations to the applicants.

Written Consent

Men wishing to enter the aviation reserve must be 17 years old and have their parents' written consent and 3 character recommendations.

Those who are accepted will be allowed to finish high school, or, if they become 18 before the time, they will be allowed 6 months to finish a semester's work in high school or college.

After induction into the regular army they will be sent to a college or university for an intensive five-month course equivalent to a three-year college course. Upon passing examinations at the end of this course, they will be commissioned in the army air corps.

B, C Meteorologists Authorized to Wear Air Corps Insignia

Students in both the B and C Pre-Meteorology schools here on campus have been authorized to wear the blue patch with the gold propeller which is worn by air corps cadets, according to announcement yesterday by Maj. Clyde Hubbard.

The patch is worn on the right sleeve, four inches from the cuff.

Major Hubbard stressed the fact that the students' rank had not been changed.

Judge Evans Admits Two Wills to Probate

Two wills were admitted to probate yesterday by Judge Harold D. Evans in the district court. Laura Alexander was appointed executrix without bond of the estate of Dena Rubelman, who died Aug. 27 at Lone Tree. Messer, Hamilton and Cahill are the attorneys.

The estate of John H. Gibson, who died Aug. 26 in Iowa City, was also admitted. William Varner was appointed executor without bond. W. F. Murphy is the attorney.

Four Leave County For Induction Center

Four men from Johnson county have returned to the induction station for assignment to the army. They are Carl E. Hardiman, who left Sept. 6; William C. Buss and Bill G. Church, who left Sept. 7, and Lawrence A. Still, who left this morning.

They were inducted into the army three weeks ago and since that time have been on furlough.

Tells of Valor

SUICIDE DIVES by the crews of two American Liberator bombers into vital targets in the Ploesti oil fields of Romania are described by Tech. Sgt. Frank B. Kozak, above, as he arrives in Miami, Fla., on furlough. The sergeant said that he saw two of the bombers, apparently crippled by enemy anti-aircraft fire, flown deliberately into objectives, causing terrific explosions. (International)

Notice:

Directions for the alert to be held tomorrow noon have been issued by Civilian Defense Commander Rollin M. Perkins, 12 M. Theoretical message received. All citizens defense corps workers take their posts with their arm bands.

12:15 p.m. First caution sounded. Traffic may continue but at reduced speed.

12:20 p.m. Action signal sounds. All traffic stops except actual emergency vehicles. Pedestrians leave the streets.

12:25 p.m. Second caution signal sounds. Traffic may resume at reduced speed and pedestrians are allowed again on the streets.

12:30 p.m. The street lights will go on for five minutes. At the first appearance of the street lights, all clear is indicated.

2055 Local Students Answer Class Roll In Iowa City Schools

Iowa City students who answered when the class rolls were called yesterday totaled 2055, announced Iver A. Opstad, superintendent of schools.

The schools and their respective enrollments were: High school, 625; Junior High school, 330; Longfellow, 430; Horace Mann, 314; Henry Sabin grade school, 185; Lincoln, 31; Roosevelt, 87; Kirkwood, 53.

"A study made by the social security board shows that the cost of issuing duplicate cards in a year's time would have bought 25,000,000 rounds of ammunition," Donnelly revealed.

Valuable time often is lost by workers who are forced to apply for duplicate cards, Donnelly said, since it takes several days to check before the duplicate can be issued.

He pointed out that the card is of great importance because the number on it is the key to the individual's wage account in

High School Students Urged to Keep Social Security Cards Safe

High school students returning to classrooms after their summer jobs are urged to put their social security number cards in a safe place where they can find them immediately when work is resumed, John W. Donnelly, manager of the Cedar Rapids field office of the social security board, said yesterday.

"A study made by the social security board shows that the cost of issuing duplicate cards in a year's time would have bought 25,000,000 rounds of ammunition," he said.

Valuable time often is lost by workers who are forced to apply for duplicate cards, Donnelly said, since it takes several days to check before the duplicate can be issued.

He pointed out that the card is of great importance because the number on it is the key to the individual's wage account in

the accounting division of the bureau of old age and survivors' insurance. This record becomes the basis of the program for social security payments in later years.

Major Boice indicated that the language spoken is very difficult. Most of the people, however, speak English, as well as three or four other languages after graduation from high school. The university there is a large, complete one, he told his audience.

"The natural hot water streams are just about right for a good shower," Major Boice said. These streams are now being put to use to heat one of the larger cities.

Major Boice described Iceland as a land of many beautiful lakes and waterfalls.

Industrially, the country is pretty well socialized, Major Boice said. Many monopolies exist and various forms of insurance are compulsory. The chief occupations are raising sheep and fishing. Most commodities are imported; there is very little manufacturing, Major Boice informed his audience.

Population Literate

Weather

When asked about the weather in Iceland, Major Boice said the temperature falls to 30 degrees in

the winter and 20 or 30 below zero in the mountains. Summer temperatures never go higher than 50 degrees. The weather is foggy, windy, and rainy. Eight or 10 blizzards may occur in one day in the winter. Winds reach a speed of 130 miles per hour. Most traffic at that time is carried on by boat around the coast, the speaker explained.

Major Boice related that there is some war activity now over the island. The present target seems to be the coastal shipping.

Iceland is now an independent country politically, Major Boice said in conclusion. "It is as independent as the United States."

Industrially, the country is pretty well socialized, Major Boice said. Many monopolies exist and various forms of insurance are compulsory. The chief occupations are raising sheep and fishing. Most commodities are imported; there is very little manufacturing, Major Boice informed his audience.

Weather

When asked about the weather in Iceland, Major Boice said the temperature falls to 30 degrees in

the winter and 20 or 30 below zero in the mountains. Summer temperatures never go higher than 50 degrees. The weather is foggy, windy, and rainy. Eight or 10 blizzards may occur in one day in the winter. Winds reach a speed of 130 miles per hour. Most traffic at that time is carried on by boat around the coast, the speaker explained.

Major Boice related that there is some war activity now over the island. The present target seems to be the coastal shipping.

Iceland is now an independent country politically, Major Boice said in conclusion. "It is as independent as the United States."

Population Literate

Major Boice indicated that the language spoken is very difficult.

Most of the people, however, speak English, as well as three or four

other languages after graduation from high school. The university there is a large, complete one, he told his audience.

"The natural hot water streams are just about right for a good shower," Major Boice said. These streams are now being put to use to heat one of the larger cities.

Major Boice described Iceland as a land of many beautiful lakes and waterfalls.
