The new drive, tearing head-
on into the Germans from the
east, was forcing them back to-
ward regions of southern Poland
and Rumania already threatened
by the Russians.
Still a third action, announced
by the communiqué, was a drive
southwest of Berdichev in which
the Russians captured the town of
Ulanov, 26 miles southwest of
Berdichev. This drive links with
the easternmost wing of the Rus-
sian forces fighting at Tarnopol
and Staro-Konstantinov.
Capture of more than 340 lo-
calities was announced today,
200 of them in the four-day ac-
tion in which Stalin disclosed
that Gen. Rodion Y. Malinovsky's
third Ukrainian front
forces had broken through the
German front southwest of Kri-
vii Rog.
A "heavy defeat" was inflicted
on nine German divisions, and the
Soviet line rolled westward 19 to
37 miles across the Ingulets river
capturing Novy Bug, 55 miles
above Nikolaev at the mouth of
the Bug river, and Kazanka, 17
miles northeast of Novy Bug,
Stalin said.
The Russians not only cut the
Dolinskaya-Nikolaev railway but
the communiqué, recorded by the
Soviet monitor, announced that in
the fighting which began Monday
8,000 Germans have been killed,
1,000 more taken prisoner and im-
portant German war material cap-
tured, including 67 tanks, 175
guns, more than 2,000 trucks and
ten stores of supplies.

New Russian Offensive Pushes On in Ukraine

Reds Eliminate 105-Mile Gap

Capture Important Strongpoint; Batter Streets of Tarnopol

LONDON, Friday (AP)—Mosev announced early today that a new Soviet offensive had opened a 105-mile gap through German lines in the southeastern Ukraine—threatening the big Black sea port of Nikolaev and Kherson—and that 300 miles to the northwest other Russian troops had captured the "important strongpoint" of Staro-Konstantinov and battered into the streets of the strategic junction of Tarnopol.

Hundreds of thousands of German troops in the Dnieper bend were menaced by the latest developments, announced in two orders of the day by Premier Joseph Stalin and the Moscow communi- que.

The new drive, tearing head- on into the Germans from the east, was forcing them back to- ward regions of southern Poland and Rumania already threatened by the Russians.

Still a third action, announced by the communiqué, was a drive southwest of Berdichev in which the Russians captured the town of Ulanov, 26 miles southwest of Berdichev. This drive links with the easternmost wing of the Rus- sian forces fighting at Tarnopol and Staro-Konstantinov.

Capture of more than 340 lo- calities was announced today, 200 of them in the four-day ac- tion in which Stalin disclosed that Gen. Rodion Y. Malinovsky's third Ukrainian front forces had broken through the German front southwest of Kri- vii Rog.

A "heavy defeat" was inflicted on nine German divisions, and the Soviet line rolled westward 19 to 37 miles across the Ingulets river capturing Novy Bug, 55 miles above Nikolaev at the mouth of the Bug river, and Kazanka, 17 miles northeast of Novy Bug, Stalin said.

The Russians not only cut the Dolinskaya-Nikolaev railway but the communiqué, recorded by the Soviet monitor, announced that in the fighting which began Monday 8,000 Germans have been killed, 1,000 more taken prisoner and im- portant German war material cap- tured, including 67 tanks, 175 guns, more than 2,000 trucks and ten stores of supplies.

NEW YORK (AP)—As The As- sociated Press took the first step yesterday to appeal to the United States supreme court from the de- cision in the government's civil anti-trust suit, the government itself disclosed plans for a cross appeal.

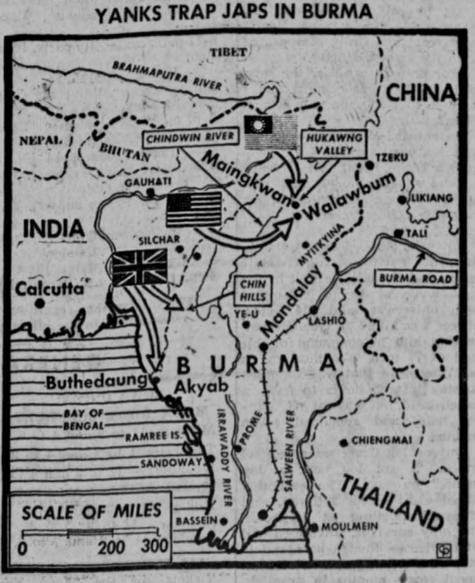

Lawrence S. Apsey, chief of the anti-trust division of the depart- ment of justice, said he had made arrangements to apply at 2:30 p. m. Monday in court here for leave to appeal.

Attorneys for The Associated Press, non-profit, news coopera- tive, obtained such permission yester- day in an order signed by Cir- cuit Court Judges Thomas W. Swan and Augustus N. Hand.

A similar but separate order was signed in behalf of the Trib- une company of Chicago and Col. Robert R. McCormick, who also are defendants. Colonel McCor- mick is editor and publisher of the Tribune and also an AP director.

The fact that the suit was brought by the United States in equity under the Sherman act made it possible to appeal directly to the supreme court from the federal district court decision.

Discharged
DETROIT, (AP)—While high officials of the United Automobile Workers (CIO) looked on, the Ford Motor Co. yesterday dis- charged ten men for participating in a Rouge plant disturbance in which a plant protection man was beaten and a labor relations office damaged.

VETERAN AMERICAN jungle fighters, battling for the first time as a major unit on the Asiatic continent, have completed a block on the main Burma road linking Wawalburn with Maingkwan (see map above), thus hastening extinction of 2,000 trapped Jap troops. Further to the south, allied troops made a successful raid against an enemy position on the coastal plain of Maungdaw.

Nazi Forces Prepare For 4th Major Drive

'Germans Appear To Be on Watch For Any Opening'

ALLIED HEADQUARTERS, NAPLES, (AP)—German forces opposing the allied beachhead below Rome were reported yesterday to be regrouping their strong resources of men and armor, possibly in preparation for a fourth major drive against a selected point in the allied defenses.

A headquarters spokesman said the Germans "appear to be on the watch for any opening in our forward positions." It was two weeks ago today that the Nazis launched their costly assault on the beach- head and saw their total casualties in that area mount to 24,000.

Lowland mud and mountain snows held ground fighting to a minimum throughout Italy yester- day while allied heavy and medium bombers blasted the Toulon naval base in southern France and railroad yards and airdromes at Florence and Rome.

Photographs showed hits on a munitions factory at Toulon, and several warships anchored there were thought to have been dam- aged. The allies flew 1,300 sorties in all and lost five planes while destroying an equal number of enemy craft.

War Ships to Russia

LONDON (AP)—The immed- iate transfer of war ships to Rus- sia from either the American or British navies or from the Italian navy has been under considera- tion, Prime Minister Churchill told the house of commons yesterday, but he said the question of ulti- mate disposal of Italy's ships may not be settled until the end of the war.

Some members were critical over the method by which Pres- ident Roosevelt made the first an- nouncement on the subject of the Italian navy at his press confer- ence last Friday, and Churchill said he was speaking about it now because of "a certain degree of urgency" which had developed over the problem.

Immediate Reinforcement
"As President Roosevelt has said," declared Churchill, "the question of the future employment and disposal of the Italian fleet has been the subject of some dis- cussion, and in particular consid- eration has been given to the im- mediate reinforcement of the Sov- iet navy either from Anglo-Amer- ican or Italian resources.

"It may well be found that the general question of enemy or ex- enemy fleet disposal should best be left over to the end of the war against both Germany and Japan when the entire situation can be surveyed by the victorious allies

British Coal Strike Spreads To Scotland

LONDON (AP)—Britain's coal strike, which virtually has paral- yzed the rich south Wales mine- fields, spread yesterday to the Swansea anthracite region and to Scotland units in apparent rejec- tion of the fuel minister's insis- tence upon a return to work be- fore arbitration.

One of the miners' leaders said this ultimatum, if complied with, would "give the government a blank check."

A few workers in Monmouth- shire and south Wales collieries returned to their jobs in response to urgent appeals by union lead- ers, but by mid-day new walkouts had increased the number of strik- ers to 90,000 out of 100,000 miners in the entire field and had closed 165 mines.

With Britain's war industries being deprived of sorely needed coal and the country's entire trans- portation system threatened, press editorials and cartoons reflected the nation's concern.

There appeared little chance of a break in the deadlock until a scheduled meeting of the strike leaders is held on Saturday.

Crash in Cedar Rapids

CEDAR RAPIDS (AP)—Two airplanes operating under the war training service in connection with the army air crew at Coe college collided at an altitude of about six hundred feet at 4:30 yesterday afternoon about ten miles south- west of Cedar Rapids.

One plane fell and the two oc- cupants, an instructor and an air- crew student, were killed. Their names were withheld pending no- tification of next of kin.

Chinese-U. S. Troop Wall Traps Japanese

Enemy Thrown Back With Heavy Losses; Few Allied Casualties

NEW DELHI, (AP)—Trapped Japanese in the Maingkwahpun- gnye-Wawalburn triangle smashed futilely yesterday against the Chi- nese-American troop wall around them, choking the Numpyek river near Wawalburn with 300 bodies as sharp-shooting Americans pic- ked them off in the moonlight.

Artilery Preparation

After fierce artilery prepara- tion, the Japanese attempted to force a crossing of the Numpyek and escape southeast toward Myi- kyina. Brig. Gen. Frank Merrill's marauders had "good hunting," throwing the enemy back with heavy losses while suffering few casualties themselves, Associated Press correspondent Thornburn Wiant reported in a dispatch from the north Burma front.

Chinese Columns

The Chinese columns pushing southward on the broad front from Hpunnye to Lashu Ga made steady progress capturing Ningku Ga, three miles north of Wawal- burn. At least half the Japanese compressed in the Hukwang valley have been killed or wounded, the Chinese said in a Chungking com- munique.

Admiral Lord Louis Mountbat- ten's communique said allied patrols operating in the Fort Hertz area northeast of Myitkyina had successfully ambushed Japanese forces. This is the first time allied forces have been reported south of Wawalburn.

Harry Hopkins At Mayo Clinic

WASHINGTON (AP)—Harry L. Hopkins, close friend and ad- visor of President Roosevelt, ar- rived late yesterday at the Mayo clinic in Rochester, Minn., for a checkup on his physical condition.

Hopkins has been in Florida for several weeks. He went there after an attack of influenza and a stay in naval hospital here.

Hopkins, chairman of the Anglo- American munitions assignment board and former secretary of commerce and works progress ad- ministrator, has been in somewhat poor health for years. He had been at the Mayo clinic before for a serious operation, and Presi- dential Secretary Stephen Early said he had returned there "for the purpose of having himself checked over."

The presidential advisor spent some time in the hospital after Anglo-American war conferences at Quebec. Soon after additional conferences at Cairo and Teheran last November and December, he contracted the flu and again went to the hospital.

Liquor to Be Raised 75 Cents a Quart

WASHINGTON (AP)—The new excise taxes will hike the retail price of bottled liquor as much as 75 cents a quart beginning April 1, the office of price administration announced yesterday.

The tax base will rise to \$9 per 100 proof gallon from the present \$6.

American Forces Tighten Hold on Admiralty Isles

U. S. May Have Asked Neutral Eire To Break With Nazis

State Department Declines to Discuss Circulating Reports

WASHINGTON (AP)—Reports circulated in Washington last night that the United States has asked neutral Eire to cut her ties with Germany.

The state department declined to discuss the matter.

While the six northern counties in Ireland have joined in the war since Great Britain entered hostil- ities and large allied bases are established there, Eire has main- tained strict neutrality.

F. D. R. Nomination Might 'Force' South To Offer Candidate

ATLANTA (AP)—Harry H. Woodring, who resigned as secre- tary of war in 1940, asserted yester- day that if President Roosevelt were nominated for a fourth term, opposition Democrats might be forced to hold a separate conven- tion in the south and offer a southern Democrat for the presi- dency.

A banker and a former govern- or of Kansas, Woodring came into the south seeking support for the American Democratic National committee, organized in Chicago six weeks ago to block a fourth term for Roosevelt and "to restore the party to Jeffersonian prin- ciples."

If unsuccessful in stopping Roosevelt's renomination at the Democratic convention in July, Woodring said the committee, of which he is chairman, would hold its own convention and nominate candidates for president and vice- president.

He added, "We might adopt the 1860 formula," hold a convention below the Mason and Dixon line and nominate a southern Demo- crat for president. A party split of this nature, even if it meant the election of a Republican president, would be "preferable to the de- struction of our democracy," he said.

Jap Workmen May Have Supplied Vital Information

WASHINGTON, (AP)—Jap- anese workmen employed at the Pearl Harbor navy yard may have supplied the enemy fleet with the vital information which made the Dec. 7, 1941 attack so successful, a house committee was told yester- day.

The possibility that the Japanese obtained their information on the disposition of the ships in the harbor and the weather from that source was suggested at hearings of the LEA committee investigat- ing the federal communications com- mission.

Replicans Rejoice Over Election Victory

WASHINGTON, (AP)—Repub- licans rejoiced yesterday over a- nother special congressional elec- tion victory—this time in Colorado where a business man defeated a war hero-political neophyte. Dem- ocrats, while unhappy, refused to concede that it indicated a national trend.

Republicans have won eight of the ten such elections held since the general elections of 1942 and five more are coming up. They now have 210 house seats against 216 for the Democrats, with 218 a clear majority.

Berlin Hit Second Day In Succession

LONDON (AP)—Strong forces of American heavy bombers with their fighter escort—roaring through a sky virtually free of German planes—attacked Berlin industrial targets for the second day in succession yesterday and struck also against a plant in central Germany in operations which cost only seven bombers and one fighter.

It was the fourth time in six days that the indomitable armada of U. S. heavy bombers returned to bomb the fire-blackened Ger- man capital.

An army communique an- nounced the losses and said only "a few of our bombers reported minor encounters with the enemy." None of the crews of the participa- ting Fortresses and Liberators or fighter pilots claimed to have de- stroyed a single German plane—a further index of the weakness of the Germans' air defenses.

Mustangs, Thunderbolts, and Lightnings of the U. S. Eighth and Ninth air forces and RAP Mus- tangs of the allied expeditionary air force provided the escort and support.

The communique declared, "the targets were bombed through the overcast by means of scientific instruments." The industrial tar- get in central Germany which was hit was not specified in the war bulletin.

An indication that the RAF night bomber fleet was making a prompt follow-up attack on Ger- man targets came last night when the Frankfurt radio broadcast an air alert. The broadcast said "en- emy planes are approaching our area of warning, coming from a westerly direction."

Apparently referring to one of the seven missing bombers, the Swedish radio said an undamaged American bomber made a forced landing near Ronneby, a Baltic port near the southern tip of Swe- den, and that the 10 crew members escaped injury. They were taken into military custody.

'U. S. War Casualties Total 162,282' Stimson

WASHINGTON (AP)—The na- tion's battle casualties—of which Secretary of War Stimson says "every community has its sad and honorable share"—now stand at more than 162,282.

This combines 121,458 army casualties up to Feb. 23, the latest total reported, and 40,824 of the navy up to yesterday.

These are all types of casual- ties, dead, wounded, missing and prisoners of war. The dead total 37,853—20,592 army men and 17,261 of the navy, marines and coast guard. The soldier wounded are 47,818; those in the sea services 9,910.

These 57,228 wounded men, however, have a better chance for living than their predecessors in World War I. The army reported yesterday that the chance for sur- vival of American soldiers wounded in this war is nearly twice that in the World War. Although World War II uses the most destructive weapons ever invented, only 3.7 percent of American wounded have died, compared with 6.1 in the last conflict.

CAA Jobs Open To Married Couples In Alaska

WASHINGTON (AP)—Married couples with a yen to be all alone should see the Civil Aeronautics administration about a job in Alaska.

The CAA announced yesterday that it wants 30 couples who are willing to live at remote outposts of the federal airways. Fifty cou- ples, in all, will be hired. Twenty couples already are in training at Seattle, Wash., for the Alaskan work.

Yale Soph at 12

MERRILL KENNETH WOLF, 12-year-old Cleveland prodigy, who has an IQ of 182, is now enrolled in the college of liberal arts at Yale university as a sophomore. He will graduate from college at the age of 14 and expects to have a doctor's degree in philosophy before he is 16.

Nazi Casualties Total 40,000 Since Jan. 22

By EDWARD KENNEDY
ALLIED HEADQUARTERS, NAPLES (AP)—German forces have bought a temporary stalemate on the two Italian fighting fronts at a cost of approximately 40,000 cas- ualties—killed, wounded and cap- tured—since the latter part of Jan- uary, it was estimated yesterday.

Added to 24,000 casualties on the Anzio beachhead since the allied landing there Jan. 22, the enemy has lost another 9,000 men in the savage fighting in and around Cassino on the lower Fifth army front, allied headquarters announced. Possibly 7,000 more German troops were estimated to have been put out of action along the Garigliano river and in the mountains near the Adriatic sea.

(The strength of the average Nazi division after five years of war has been estimated at 10,000 men, which would mean that Field Marshal Albert Kesselring has lost the equivalent of four divisions in less than two months. He was believed to have had around 20-22 divisions at his disposal before Rome.)

Cassino Defenders
Of 9,000 casualties inflicted upon the stubborn defenders of Cas- sino by Lieut. Gen. Mark W. Clark's forces, 1,500 have been taken prisoner, the allied an- nouncement said.

American submarines knifing in to cut Japan's jugular vein—the sea routes from the home islands to the widely scattered defense lines—sank five transports, a large tanker and ten freighters. Since Pearl Harbor Tokyo has lost 447 ships to submarines. More than 1,000 Japanese vessels have been destroyed, and another 1,000 hit.

Is It Spring Fever Or Just Delinquents?

All is not routine for the tick- et clerk in a railroad depot.

Last night the telephone in the Rock Island depot rang and the ticket clerk promptly an- swered it. From the other end of the wire came a feminine voice, with the question "How far south can I go on \$25?"

Somehow taken aback, the clerk reached for the schedule and then inquired, "Just where would you like to go?"

"It doesn't make any differ- ence," was the dejected reply. "I just want to leave school and I thought that south would be the best place to go. I thought I'd get a job after I arrived."

"Are you serious?"
"Of course—my roommate wants to go too."
There was a slight pause. Then the ticket clerk said in a kindly voice: "You bring your roommate down sometime and we'll talk over the situation." The feminine voice uttered a weak affirmative and the re- ceiver clicked.

Jap Collapse Threatened

Yank Warships, Supply Craft Steam In Unmolested

ALLIED HEADQUAR- TERS, Southwest Pacific (AP)—Abrupt collapse of the entire Japanese position in the Admi- ralty islands was threatened yester- day as American warships and supply craft steamed un- molested into Seadler harbor, a 50-mile-long lagoon large enough to accommodate the en- tire United States fleet.

While American forces tight- ened their hold on the Admi- ralties and the northern shores of nearby New Britain, Japanese planes made their first counter- attack on Eniwetok atoll, Marshall island spearhead of the American central Pacific offensive. And submarines, the navy announced sank 16 more Japanese merchant ships needed to supply extended outposts throughout the Pacific war theater.

Gen. Douglas MacArthur today announced the entrance of warships into Seadler harbor while dismounted Texas caval- rymen expanded their positions on Los Negros island, which snuggles around one end of the harbor.

Seadler is comparable to Rabaul harbor, which a spokesman for MacArthur said has been denuded of ships and almost stripped of planes. Raiders from the Solomons islands found no undamaged ships in the harbor Tuesday and only 50 airplanes on her six airdromes. Five of these were hit by bombs.

Seventeen other Japanese air- craft were shot down by allied warplanes raiding Wewak's chain of airdromes on northeast New Guinea.

Without the usual overwhelm- ing aerial and naval support, United States marines drove powerful Japanese forces back through the jungles of Willa- meze peninsula on northern New Britain toward the Talasea air- strip. The marines have ad- vanced three miles since they scrambled over coral reefs through concentrated machine gun and mortar fire Monday and are only two miles from the field, their objective. Their drive is closing the gap between Mac- Arthur's southwest and south Pacific offensives.

Successive waves of Japanese planes raided Eniwetok, western- most of the Marshalls, on Wednes- day but inflicted only slight dam- age.

Isolated Nipponese troops on by- passed Marshall atolls are still putting up dangerous anti-aircraft barrages against daily attacks by United States army and navy bombers and fighters. One plane was shot down and several others hit Monday when five enemy positions in the Marshalls were hit. Fires were started in barracks and runways.

American submarines knifing in to cut Japan's jugular vein—the sea routes from the home islands to the widely scattered defense lines—sank five transports, a large tanker and ten freighters. Since Pearl Harbor Tokyo has lost 447 ships to submarines. More than 1,000 Japanese vessels have been destroyed, and another 1,000 hit.

Mayor Wilber Teeters Witness at Trial

IDA GROVE (AP)—Testimony that a large quantity of strychnine, more than enough to kill a person, was found in two capsules taken from a bottle supposedly containing vitamin tablets being used by Mrs. William Lorenzen, was presented in district court here yesterday afternoon in the trial of Mr. Lorenzen, Ida county farmer, charged with the murder of his wife.

Mayor Wmber J. Teeters of Iowa City gave the testimony as one of the four witnesses called during the afternoon.

Teeters testified that each of the two capsules contained five and a half grains of strychnine; one grain, he said, would prove fatal. There were more than 200 cap- sules in the bottle, he testified, two of them containing poison.

Progressive Education—No Scapegoat

Yesterday morning there appeared on this page an article by Paul Mallon, a nationally-syndicated columnist, in which the blame for this country's juvenile delinquency troubles was laid to progressive education.

Washington in Wartime New Tax Tokens Are Giving OPA a Large Headache

WASHINGTON — The first ration token headache already is building up at the office of price administration, but just how much of a pain it is probably won't be known until the latter part of May, possibly even July.

Chi Omega Elects Officers

Gloria Huenger, A2 of Whiting, Ind., was elected president of Chi Omega sorority at a meeting Monday night in the chapter house.

Other officers elected were Vivian Fowler, A3 of Brooklyn, vice-president; Eleanor Billings, A3 of Rockford, Ill., secretary,

Gloria Huenger

Beverly Jones, A3 of Rock Island, treasurer; Kathryn Eggers, A4 of Whiting, pledge mistress; Rita Steichen, A3 of Dwight, Ill., chapter correspondent.

Harriet Arnold, A1 of Valparaiso, Ind., rushing chairman; Doris Scott, A3 of Sterling, Ill., senior pan-hellenic delegate; Muriel Mansfield, A3 of Moline, Ill., junior pan-hellenic delegate; Gloria Weiser, A3 of Burlington, vacations chairman.

Mary Lou Higgs, A2 of Amarillo, Tex., social civic chairman; Janice Kennedy, A1 of Des Moines, personnel chairman; Jane Leland, A1 of Wichita, Kan., activities chairman, and Mrs. Doris White, alumnae advisor.

'Target for Tonight,' Film of R. A. F. Raid, To Be Shown Today

Characterized by Quentin Reynolds as the finest picture to come out of the war, "Target for Tonight," the account of an air raid by the bomber command of the Royal Air Force, will be shown to journalism students this afternoon at 3 o'clock in the projection room of East hall.

The story of six men who flew a British bomber to Germany and home again, "Target for Tonight" is enacted by actual pilots, observers, gunners, and ground staff of the bomber command.

Beginning with the aerial photographs of enemy territory brought back by reconnaissance planes, the picture unfolds through the details of staff planning, preparing the bombers, obtaining weather reports, instructing the crews and the tension of the evening take-off.

From this point, the camera stays with the big Wellington bomber and its crew of six as the plane reaches its destination, deplanes to bomb the target amidst a barrage of anti-aircraft fire, and finally, with its engine in trouble and its wireless operator wounded, limps back to headquarters.

Tickets for the movie may be obtained from Lois Randall at the Journalism office.

'Lump of Clay,' Script Winning Second Place, To Be Broadcast Today

"A Lump of Clay," a script by Mrs. K. A. Stiles of Cedar Rapids which won second place and honorable mention in the Iowa Daughters of the American Revolution script writing contest, will be presented over WSUI this afternoon at 8:30.

The story is that of two disabled marines in the Marine hospital at Ellis Island, who pick up the pieces of their shattered lives and mould new ones. "A Lump of Clay" will be produced under the direction of Prof. H. Clay Harshbarger of the speech department.

Wilanne Schneider Will Read Cuttings From 'Snow Goose'

The Reading Hour will present Wilanne Schneider, A1 of Cleveland, Ohio, reading cuttings from "Snow Goose," by Paul Gallico this afternoon at 4:15 in the University theater lounge.

"The Snow Goose" is said to be told today in London, Dover and the Channel ports. It is the story of the battle of Dunkirk and of a dark twisted man in a small boat who carried men to safety across the channel as a great white snow goose with black tipped wings conveyed the boat across the water.

A western cow was struck by lightning three times and never suffered any ill effects. American Army engineers might study her while developing a new type of tank.

U. S. SAILOR MEETS QUEEN ELIZABETH IN LONDON

Dr., Mrs. N. G. Alcock Return From Trip To Acapula, Mexico

Dr. and Mrs. N. G. Alcock, 430 Brown street, returned recently from a six week's visit in Mexico. Most of their stay was spent in the town of Acapula.

Visiting Relatives
Mrs. Frank Rimmerman and son, Barry, 1202 Kirkwood avenue, are visiting relatives in St. Louis, and will return later this week.

Visiting Parents
Mrs. John J. Duncan and daughter, Beverly Ann, of Dothan, Ala., are visiting in the home of Mrs. Duncan's parents, Dr. and Mrs. J. A. Swisher, 710 Kirkwood avenue, until the end of the month. Mrs. Duncan is the former Lois Swisher.

Returns Home
Mrs. Henry Fritze, 460 Wales street, recently returned home after an extended visit with her sister in Kanahwa.

Returns from Washington
Mrs. Alexander Ellett, 1514 Muscatine avenue, returned recently from Washington, D. C., where she visited her husband.

Spends Weekend at Home
G. V. Newcomer, Red Cross field director, spent last weekend, with Mrs. Newcomer and their daughter Helen Dot, 578 S. Capitol avenue. Mr. Newcomer has been transferred from Helena, Mont., to Lincoln, Neb.

Visit Friends
Mr. and Mrs. Earl Seeger and son, Roy, and Mrs. Seeger's mother, Mrs. Anderson, all of Oskaloosa, visited friends in Iowa City last weekend.

Quarantined
Karen Nelson, daughter of Mr. and Mrs. R. H. Nelson, 731 Grant street, is quarantined with measles.

Entertained at Dinner
Mrs. P. H. Sargood and daughter, Louise, were entertained at dinner Tuesday evening in the home of Mrs. G. D. Rarick, 219 S. Capitol avenue.

Today 7 Organizations Plan to Meet

Stitch and Chatter club—Home of Mrs. Will Slavata, Rochester road, 2 p. m.

American Legion auxiliary—Clubrooms of Community building, 10 a. m. until 4 p. m.

P. T. A. Parent conference—Assembly rooms of Iowa-Illinois Gas and Electric company, 2 p. m.

Iowa City Woman's club—Music department—Clubrooms of Community building, 2:30 p. m.

P. E. O. Chapter E—Home of Mrs. Emil Boerner, 235 Person avenue, 2:30 p. m.

P. E. O. Chapter III—Home of Mrs. George Glockler, 621 Holt avenue, 2:30 p. m.

Sarah Hart Guild—Home of Charlotte Beiswanger, 425 1/2 E. Jefferson street, 6:30 p. m.

No Weekly Papers Suspended Last Month

No Iowa newspapers were suspended during the last month, according to the latest issue of the Iowa Publisher. "It is an encouraging sign of the times when no suspensions of papers are announced in a monthly issue," the report stated.

More than 45 papers have been suspended since Pearl Harbor because editors were called into the armed forces or because of a shortage of national advertising.

'Not a Dud In the Bunch' Shell Representative Says of University Chemical Engineers

"Not a dud in the bunch" is the verdict of a representative of the Shell Development company, in speaking of the many university graduates in chemical engineering hired by Shell.

The excellent impression made by the first Iowa graduates hired by the company was cited by Prof. J. H. Arnold of the chemical engineering department as one of the factors contributing to the number of S. U. I. men hired in recent years by that west coast industry.

According to men in positions of responsibility in research laboratories, the "Iowa product has shown itself definitely superior to that of west coast schools." The reason for this is attributed to the specialized department in chemical engineering maintained by the university in contrast to the more general training offered by western schools.

Included among the Iowa graduates now employed by the company at their Emeryville, Calif., plant are Eulice M. Meyers, '42; Robert Dagley, '42; Richard Olney, '41; Elwyn S. Brown, '42, and Horace S. Knight, '41, an Iowa Citian.

The work of these men involves studying new products and processes, planning new manufacturing processes and designing pilot-plant equipment.

Pilot-Plant Work
Pilot-plant work, according to Professor Arnold, is an intermediate step between the test tube and large scale equipment stages in industrial production and includes experimentation on a moderate scale on some product or method that is eventually intended for large-plant production.

Though pilot-plant experimentation has been called "a method of losing your shirt on a small scale," nevertheless it is an economical way of determining whether methods will be successful in large scale production.

Leo V. Modrack, a '43 graduate, is employed in similar work at the Martinez refinery near San Francisco, and Dr. Sigmund J. Lawrence is with the basic data section serving designers of large-scale plants.

Also in pilot-plant work, operating units designed by the Emeryville group and finding the best methods and conditions for new refinery processes are Melvin L. Oldfather, '40; Hugh D. Guthrie, '43; George Fewson, '42, and Carl P. Strand, '42.

Iowa engineers have had similar experiences with the Phillips Petroleum company. Six recent graduates are now employed in various of the company plants over the country.

Research Laboratories
Working at Bartlesville, Okla., the headquarters of the company, in the research laboratory are George Hays, '42, and Donald R. Douslin, M.S., '41, while Charles McKnight, '43, is in the Phillips Kansas City plant.

At Borger, Texas, where the company is experimenting with new developments in the industry, are Darrel W. Hughes, '41; William Kistler, '42, and Howard Burman, also of the '43 graduating class.

These men are engaged in development work on synthetic rubber and in the manufacture of aviation gasoline.

Australia is the only country other than the U. S. which has any wild species of Nicotiana, or native tobacco plant.

Director Thanked For U. S. O. Services To Pre-Flight Cadets

Appreciation for the services that R. C. Tomlinson, director of the local USO center, has rendered, the aviation cadets at the Iowa Pre-Flight school was expressed today by Lieut. Comdr. Robert M. Schwyhart, Chaplain at the Pre-Flight school.

Tomlinson, who has been USO director here since last June, is being transferred to Madison, Wis.

In a statement issued today, Lieut. Comdr. Schwyhart said, "It is with great regret that I have learned of the forthcoming departure of R. C. Tomlinson, who for the past several months has been director of the Iowa City USO center."

"I know I echo the feelings of all the aviation cadets at the U. S. Navy Pre-Flight school here when I express publicly deepest appreciation for the tireless, kindly and generous service which Mr. Tomlinson has rendered our men in Iowa City."

"It has been a comfort to us at the Pre-Flight school concerned with the personal welfare of our aviation cadets to know that in Iowa City there has been a center of wholesome and uplifting recreation for our navy youth such as the USO center directed by Mr. Tomlinson. He leaves with our gratitude and best wishes for happiness and success in his new duties."

Before World War II the United States imported more than a million tons of cinnamon from Ceylon annually.

Original Compositions By Local Musicians Will Be Broadcast

Original music compositions by Prof. Philip Greely Clapp, head of the music department, and Kemble Stout, instructor of music at University high school, will be presented on the regular program sponsored by the Pilgrim chapter of the Daughters of the American Revolution over station WSUI tomorrow morning at 9 o'clock.

"Prelude and Finale," a woodwind quintet by Professor Clapp, will be the first of two selections played. The quintet was written at the request of Prof. Himie Voxman, also of the music department, and when published was dedicated to him in appreciation of his work in the music department.

The quintet will be played by Mabel Pullman, A4 of Centerville, flute; Nelson Reeds, E1 of Iowa City, oboe; Allen Sigel, A2 of Ottumwa, clarinet; Margaret Waggoner, A1 of Centerville, bassoon, and Wilma Powers, A4 of Iowa City, French horn, under the direction of George Morey of the music department.

The second feature of the program is a trio for flutes, written by Stout for the three high school girls who are to play it, Sally Clearman, Peggy Starn and Susan Winter, and named "Salpegsan" in their honor.

Tapioca Substitute

"The waxy strain of corn has come forward as a suitable substitute for tapioca," said Prof. Walter F. Loehwing, head of the botany department, recently. He said that since the beginning of the war the Japanese have cut off most the United States' supply of tapioca and until then waxy corn was merely considered a curiosity of plant-breeders.

Parents' Babbling 'Baby Talk' Helps Infants to Speak

Parental ad libbing to babies in baby talk is encouraged by Prof. Orvis Irwin of the child welfare research station, who maintains that babies are helped if parents babble right along with them.

"The babbling period is the time when the child is mastering the psychological requirements of speech—mouthing sounds and getting the feel of them with tongue, lips and cheeks," according to Professor Irwin.

It is the time when the child should hear these raw elements spoken, not only by himself but by those around him. Toward the end of the first year, parents will find that the baby is imitating them, and when the first words come, the parents should repeat them continually and pronounce them correctly.

Professor Irwin suggests that the child be allowed to handle simple objects while the parent pronounces the name correctly and describes in a single word the function of each one. These early lessons are foundations for the child's speech and language, upon which his whole physical and social world will be built, Professor Irwin declares.

Doctor to Give Talk On Health Education

Dr. Roland Rooks of the university hygiene and preventive medicine department will speak on "The Present Need for Health Education," at the first parent conference tomorrow afternoon at 2 o'clock in the assembly rooms of the Iowa-Illinois Gas and Electric company.

Mrs. M. E. Taylor and Mrs. George Hall are in charge of the program, which is open to the public. A short discussion will follow Dr. Rook's talk, which is the first in a series of four conferences for parent-education.

Kurt Lewin to Discuss Psychological Aspects Of Minority Problem

"The Psychological Aspects of the Minority Problem" will be discussed by Prof. Kurt Lewin of the child psychology department tonight at 8 o'clock in the Hill lounge. This is the regular service of the Sabbath.

Sunday afternoon the movie, "That They Shall Live," narrated by Paul Muni, will be shown at 3 o'clock. Dancing, entertainment and refreshments will follow. All university students and servicemen are invited.

Maurie Bruckman To Play for 'Gambol'

The "Leap Year Gambol" will be held tomorrow night in the main lounge of Iowa Union from 8 until 11 o'clock. Maurie Bruckman and his band from Davenport will play for the informal "girl take boy" party.

Tickets for the dance are on sale at the main desk of Iowa Union, priced at \$1.10 a couple, including federal tax.

Student Forum to Talk On Socialized Medicine

"Shall the Various States Adopt a Program of Socialized Medicine?" is the question for discussion this afternoon at 3 o'clock on WSUI's University Student Forum.

Members of the speech department taking part are Eleanor Keagy, A4 of Ottumwa; Constance Middleton, A2 of Quincy, Ill.; Peggy Banks, A3 of New York City; Louise Hilfman, A2 of Bettendorf, and Katherine Kelly, A4 of Peoria, Ill.

Mary Lou Crafts, Physiotherapist, Gets Only 'A' of Class

Mary Lou Crafts of Rochester, N. Y., one of the 18 girls enrolled in the University hospital physical therapy department, received the only A grade in the registry examination given after completion of the six-month training course.

Dr. W. D. Paul, director of the department and instructor of the class, said this was the third highest grade given to any student anywhere in the United States. Miss Crafts has a bachelor of science degree from Cornell university in Ithaca, N. Y.

The 18 girls comprise the second class in physical therapy in the hospital, and they will now take further training in the army for six months before receiving commissions as physical therapists. They are engaged under civil service and will be sent wherever they are most needed.

The importance of personnel for success in this technique was emphasized by Dr. Paul, who said that although this treatment is comparatively new, it is of utmost importance. He commented that all girls in the first class, which completed training six months ago are commissioned, and two are waiting to be sent overseas. One girl of this first group was promoted to a first lieutenant.

The didactic training involves massage, exercise and treatment in water and electricity, and students perform regular duties of a technician. The Sister Kenny treatment is now being taught and applied for the treatment of poliomyelitis (infantile paralysis).

Coon Rapids Beats Colfax, Gowrie Downs Lowden in Girls State Basketball Tourney

Semi-Finals Will Be Played Off In Today's Pairings

DES MOINES (AP)—Coon Rapids defeated Colfax 56 to 43 in the second round of the girls' state high school basketball tournament this afternoon, eliminating the only team in the meet coached by a woman.

The Keister sisters, Mary Ellen and Lois, and Colleen Davis, in the offense court for the winners, had the range from the start and were fast and clever enough to evade the opposing guards and get most of the rebounds. The Coon Rapids trio collected 23 field goals.

The losers, coached by Mrs. Esther Noeding Grosvenor, a former star of the West Bend state champions in 1938, were never ahead, although they tied the count at 4 and 4 and 6 and 6.

Gowrie moved into the semi-finals by defeating Lowden 52 to 39 on a scoring offensive in the last half powered largely by Maxine Pohl.

The victors trailed through most of the first two periods and never had more than a two point lead in the initial half, while their opponents thrice led at 10 to 6, 17 to 13 and 19 to 15. Gowrie moved in front with a field goal by Pohl at the start of the third period and were not headed again.

Hartley's forwards, led by Amy Brehmer who scored 28 points to add to her total of 32 scored against Steamboat Rock in the first round, had too much all-around class for Marengo's guards, and the former team moved into the semi-finals of the girls' state tournament last night by defeating Marengo, 46 to 34.

Hartley scored first and was never behind, although the losers tied the score at 2 to 2 before the victors moved into a first quarter lead of 12 to 5 and a half-time advantage of 26 to 14.

PUSH THEM UP, TONY

CADET WHEELER, pictured above, is considered the strong boy of the Iowa Pre-Flight school. He is shown here doing a one hand lift of the bell bar.

Uncle Mike Has Difficult Problem

Angott Defeat Mixes Up New York, U. S. Boxing Championship

NEW YORK (AP)—If you think your income tax blanks was a trifle intricate and involved, you're in a fine spot to lead a bit of sympathy to Mike Jacobs, Madison Square Garden's maestro of mauling.

Not that Uncle Mike needs sympathy, for before he solves his big problem he'll have the cash registers ringing a merry tune.

It all centers around the latest muddle in the lightweight fistic world in the championship fight between Angott and Jacobs, which was scheduled for March 31, but has been postponed to May 1.

However, the contract for March 31 didn't specify Angott should have his laurels intact, so perhaps they'll go through with it. If they do, and Angott wins, he'll have the half of the title he didn't have the last two years, but will be minus the half he lost Wednesday night. Clear?

Angott's Induction Threatens Title Bouts

LOS ANGELES (AP)—Sammy Angott, dethroned Tuesday as NBA Lightweight champion in a 15-round fight with Juan Zurita of Mexico City, yesterday passed his physical examination and may be inducted any time after March 30.

Angott is scheduled to meet Bob Montgomery, recognized by the New York State Athletic Commission as the lightweight champion, on March 31.

Angott's manager, Charlie Jones, and George Parnassus, who handles Zurita, had agreed earlier on a rematch for the NBA title some time within 60 days, but Angott's examination apparently scotches those plans.

Bookie Cashes In On Freak Bet

SYDNEY, Australia (AP)—Just before the spring racing in Sydney, two bookmakers were discussing prospects. One fancied a horse called Main Topic. The other pooh-pooed his chances.

"What will you lay me?" asked the first.

"A pound a week for life, all to nothing," said the other.

Main Topic won, and the winner is collecting. His only regret is that he is 70, and "won't enjoy it long."

Incidentally, he claims to be the biggest bookmaker in the world—285 pounds.

This season's cage team is the tallest and youngest over to play for Utah university.

Badgers Face Ottumwa Navy Boxing Squad

MADISON, WIS.—The University of Wisconsin boxing squad will close its home schedule for the season facing the U. S. Naval Air Station team from Ottumwa, Ia., in the university field house on Friday night.

The Skyers have had but two matches this season, both with the Iowa Pre-Flight boxers, losing both of them in close and exciting matches. The Skyers, with several new faces added to their lineup, hope to end the Badgers' home victory string of never having been beaten in the home ring and a present win streak both at home and abroad of 24 dual matches in a row. The Badgers, incidentally, beat the Seahawks in their meet here 4½ to 3½.

The Navy boys have several outstanding performers to send against the Badgers. In the 120 pound class, Coach Joe Zaleski has two nifty little scrappers in Jim Parker and Ralph Skidmore while at 145 and 155, Dan Montague of Cedar Rapids, a former Golden Glove ringman and Paul Estep from West Virginia are outstanding. Another fine contestant of the Skyers is Tony Matarise, a New York boy who has had several years of amateur experience.

In the heavyweight division, Marion Gwizdala from Bay City, Mich., has won the highest grades in the Skyer boxing class and will probably be the coach's choice to start against Wisconsin.

Two flashy youngsters are set for the 170 pound class and Coach Zaleski must select one of them to battle it out this week to see who makes the trip to Madison.

The Skyers are strong on Estep who won his matches against Seahawk foes and he is slated as a fine crowd pleaser that Wisconsin fans will enjoy seeing in action.

Two Gridmen Hurt

CAPE GLOUCESTER, New Britain (AP)—Two marine first lieutenants who played football in 1941 were wounded a day apart during the same drive here. They are Vin Daigler, who played for Notre Dame, and Phil Bayer, ex-Columbia halfback.

When a spectator absent-mindedly stepped out on the ski course during a meet at Alta, Utah, one of the racers had to swerve, crashed into a tree and broke both legs.

Michigan Favored To Win Chicago Meet

Illini, Boilermakers Likely 2nd, 3rd Spot Winners in Races

CHICAGO (AP)—Michigan, Illinois and Purdue are expected to finish 1-2-3 in the Big Ten indoor track and field championships Saturday at the University of Chicago fieldhouse.

The Wolverines are so heavily backed to win their ninth title in 11 years that some observers give them a chance of setting an all-time point record. Michigan collected 53½ points a year ago to establish the indoor meet record and appear amply manned this season to topple it by scoring in each of the 12 events.

Michigan's main title contenders are the twins, Ross and Bob Hume, Bob Ufer and Elmer Swanson, as well as its mile relay team which has turned in the best time of the Big Ten season with Ufer running anchor.

Ross and Bob Hume may put a unique twist to the meet by crossing the finish line in the mile in a dead heat as they have done on three occasions this winter. Bob has the season's best time of 4:15.9. Bob, who is captain of the team, also looms as the fastest two-miler in the conference, and Ross is given a chance of defeating Bob Kelley of Illinois, Big Ten outdoor champion, in the half-mile. Ross beat Kelley by a foot in 1:59.6 last week.

Ufer will defend his 440 crown for the third straight year and will be out to break his own conference record of 48.1 set in 1942.

Illinois' Buddy Young, a threat to win the 70-yard low hurdles, 60-yard dash and broad jump after posting the conference's top marks in these events this season, is the only other athlete conceded much of a chance to approach Big Ten records. Young has equalled the world's 60-yard dash record of :06.1 at least three times. He also has broad-jumped 24 feet 4½ inches, which is seven inches over the Big Ten standard.

Purdue's best point-getters appear to be Eric Ericsson, Big Ten cross country champion, in the distance races; Bill Biele and Bill Haynes in the middle distances, Ben Harvey in the sprints and Nelson Klaus in the shot putt.

Haynes, a military transfer from the University of Kansas, is a strong candidate for the half-mile crown, having turned in a 1:58.8 performance last Saturday—the best 880 time of the season. Klaus has the best mark among the shot-putters with a toss of 47 feet 6½ inches.

Preliminaries in the 440, 880, 60-yard dash, and low and high hurdles will be held Saturday afternoon. The finals will start at 6:30 p. m. (CWT).

Chisox Lose Two Players

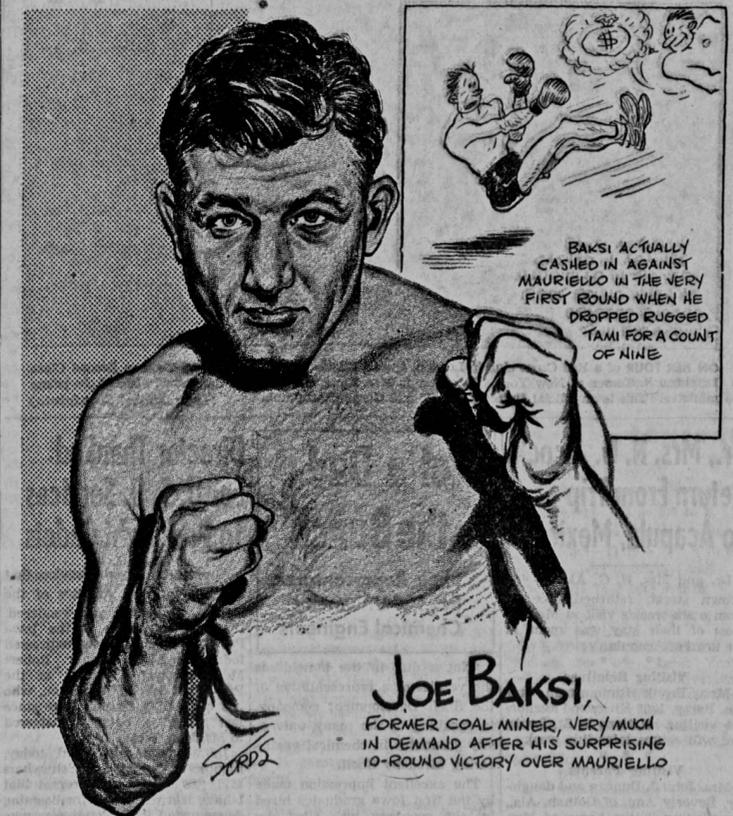

CHICAGO (AP)—The Chicago White Sox lost two additional players yesterday—Thurman Tucker, outfielder who passed his pre-induction physical examination, and pitcher Al Epperly.

Epperly, drafted from San Francisco, advised Harry Grabiner, the club's vice-president, he would not report, indicating he would either remain on his father's farm at Glidden, Iowa, or enter military service.

Tucker, in reporting from his Gordon, Tex., home that he had been accepted for service in the armed forces, did not indicate to which branch he would be assigned or when he would be inducted.

BAKSI ACTUALLY CASHED IN AGAINST MAURIELLO IN THE VERY FIRST ROUND WHEN HE DROPPED RUGGED TAMI FOR A COUNT OF NINE

JOE BAKSI, FORMER COAL MINER, VERY MUCH IN DEMAND AFTER HIS SURPRISING 10-ROUND VICTORY OVER MAURIELLO

Dodgers Lose Herman, Head To Service

NEW YORK (AP)—The Brooklyn Dodgers will have to get along without the services of Billy Herman, veteran second baseman, and Ed Head, rated No. 2 pitcher, this year, it was disclosed today by Branch Rickey as he outlined plans for spring training.

Rickey said Herman informed him he had been accepted for navy service. Head, who already had signed his Dodger contract, wrote Rickey he had been accepted for the army at Shreveport, La.

The loss of these two standbys takes another sharp tack in the already depleted Dodger ranks. Including Herman and Head, the regular Dodger roster lists 33 players, and of these only 18 can definitely be counted upon, with the other 15 either definitely not available or in the doubtful class.

Included in the regular roster are nine 4-F's, but these are balanced by nine players currently rated 3-A. There are 2 1-A's, three already in the service or about to go in, and one player who will not be available because he still is in school and expects to enter the service when he gets out.

Michigan to Enter 3 Worlds Record Men in Tank Meet

ANN ARBOR, Mich.—Three swimmers who have smashed world records this season are expected to top the field of entries in the National A. A. U. meet here March 31 and April 1. They are Bill Smith of Great Lakes, Adolph Kiefer of the Bainbridge naval station and Alan Ford of Yale.

Smith has lowered his own world 220-yard mark this year to 2:07.1. Kiefer has regained the world records for 100 yards and 200 meters after his previous marks were broken a year ago by Harry Holiday of Michigan who because of army duty is out of competition this season, and Ford has lowered his record for 100 yards to the sensational time of :50.1 seconds.

Highlight of the competition here will be the 100-yard race between Smith and Ford. Smith already holds seven world records from 200 to 800 yards, and has stated that he will try to smash Ford's mark for the shorter distance in the meet here.

Kiefer will have the chance here to try for a new mark in the 150-yard backstroke. He set the existing record of 1:30.4 in 1942. Smith also may take a crack at his 220-yard standard. He will swim this event on the first night of the meet and in the hundred April 1.

Hawkeye Highlights

Iowa and Iowa State, infrequent basketball foes, may meet in 1944 after all. The Cyclones, co-champions of the Big Six conference, will compete in the NCAA western play-offs at Kansas City, along with the Hawkeyes, sharers of second in the Big Ten. Iowa State has a record of 12 wins and 4 losses for .750, as compared with Iowa's 14-4 for .778.

Farmer's Big Ten Mark Menaced

The only Big Ten indoor record held by an Iowa athlete is endangered in the championship track and field meet in Chicago Saturday. It is the broad jump mark of 23 feet 9½ inches set in 1942 by Lee Farmer, now a U. S. cavalryman. Claude Young of Illinois, another Negro, cleared over 24 feet in a dual meet this season.

Dozen Iowans In Tourney

Twelve players, practically everyone available, will be taken to the NCAA basketball tournament by Coach "Pops" Harrison of Iowa. He said that the committee allows expenses for a 14-man group. Trainer Doyle Allsup will be the other member of the traveling party.

Sports Trail . . .

By WHITNEY MARTIN

NEW YORK (AP)—Every male adult with some dark secret in his past, such as being exposed to football, had best be on his guard. He has a price on his head and he no longer can trust even his neighbors and his best friends. Responsible for this necessity for shade-pulling and furfing whispering is the Cleveland football club of the National League, which is making gestic agents out of everyone who can use \$50 by offering that reward for the capture, dead or alive, of citizens who might be sentenced to play football with the Rams.

To our knowledge this is the first time an effort has been made to round up athletes by putting a bounty on them, like they were crows or gophers.

The nearest approach to it was the brainstrom of a New York football Giant scout who last year inserted an ad in an out-of-town paper in his efforts to line up material. One of those "bright young men, easy hours, bright future" affairs.

We don't know just how many were lined up through this medium, but we understand there were certain difficulties involved in accepting such voluntary candidates.

One burly young man showed up and they have yet to discover if he can play football. He reported faithfully three times a day, and by a happy coincidence it always was meal time. He'd stoke himself with the substantial fare required by athletes, and then disappear until the next meal. It was three days before the coaches were sufficiently familiar with the new something was wrong and that the familiar face at the table wasn't familiar on the practice field.

Colleges, in times gone by, often were not above letting a little cash trickle out if it would bring back some boys fresh out of high school who had studied hard on Saturday afternoons in the fall from 2:30 to 5, but these transactions were very much hush-hush, and without benefit of a middleman. That is, the boys got the funds direct, and there was no agent's commission or reward money involved.

The reward idea for the apprehension and conviction of men wanted for football isn't so bad, at that, the man-power situation being what it is. The age limits in football aren't so elastic as they are in baseball, and the football clubs can't go about signing 40-year olds, or even 35-year olds, as your average footballer through about the time the baseballer should be at his peak.

It will take a lot of scurrying about to locate enough 4-F's in the age bracket of, say, 18 to 32, to fill a pro football league.

THAT'S ARMY LIFE

SALT LAKE CITY (AP)—Utah University's cage team played two military teams on a recent tour and stayed at the posts overnight. "It was swell, except when they awakened us at 5:15 a. m. forchow," said one of the collegians.

Committee To Report On City Funds

A special committee to report on the general financial status of the Iowa City government was appointed by L. C. Crawford yesterday, in accordance with a motion made by Prof. Earle Waterman at the January meeting of the Iowa City post-war planning committee.

Members of the special committee are H. W. Saunders, chairman; Mrs. D. E. Cherry, representative of the Daughters of American Revolution; Mrs. F. A. Stromsten, Iowa City Planning and Zoning commission; the Rev. James A. Waery, Ministerial association representative, and C. Woody Thompson, Rotary club.

"A general picture of taxes, bonds and relative status of various funds is desirable for immediate and future activity concerning post-war plans," was given as the reason for the investigation at the planning committee meeting.

Tax levies information, assessed valuations and indebtedness will be provided at a future meeting.

William MacArthur To Command C. A. P.

William L. MacArthur will replace Tom Kelley as acting commander of the Iowa City civil air patrol squadron 722-2. Kelly is now on a 90-day leave.

The national headquarters of the C. A. P. has given Acting Commander MacArthur a commission as second lieutenant.

Floor Show Tonight

Tonight's Campus Night floor show will feature popular songs by Margie Allen, A1 of Ottumwa, with Irene Estes, A1 of Cedar Rapids as accompanist; a humorous reading by Louise Smith, A2 of Elkader; and songs from the musical comedy, "Oklahoma," by Mary Bob Knapp, A3 of Appleton, Wis., accompanied by Mary Schwarzkopf, A4 of LaGrange, Ill.

Bob and Fred Lewis, freshman cagers, are the first twins in Utah university athletic history.

USO Activities For This Weekend Listed

The weekly junior hostess dance in the USO clubrooms in the Community building will be held from 7 until 10 o'clock tomorrow night. Music will be recorded.

At 9 o'clock a dance contest will be held, and a free telephone call home will be given at 9:30. Senior hostesses for the weekend are the Post Office Clerks' auxiliary with Mrs. A. C. Horak serving as chairman.

At 4:30 tomorrow afternoon free dancing lessons will be given by Mrs. Harriet Walsh. A social hour from 10 until 11 o'clock will conclude tomorrow's events.

Entertainment for Sunday will begin at 9:30 a. m. when coffee and rolls will be served and recorded classical music will be played.

At 2 p. m. members of the Iowa City Bar association will again be available to answer questions and help service men with problems concerning their income tax.

The matinee dance to recorded music will begin at 2:30 p. m. At 3:30 p. m. refreshments will be served, and a program of music will be at 4:30 p. m.

Reduce Requirements In Some Navy Billets

An article which appeared in The Daily Iowan yesterday regarding commissions available in the United States navy was misleading in that no men who have been rejected from the army or navy will qualify. It was intended to emphasize that physical requirements for navy commissions have been reduced in some billets, and men who may not have qualified two years ago because of slight physical defects may now be commissioned if otherwise qualified.

Lieut. Comdr. W. J. Amoss, naval officer of the naval procurement office, stressed the 23 different fields for commission of naval officers and said engineers are particularly needed. Commissions are open for men interested in the reserves, and physical requirements have been lowered.

All men interested should inquire for further information from John H. Patton at the war

'South America Cannot Assist U.S.' Hall Says

The United States is due for severe disappointment if she looks to the nations of South America for material help in winning the war, according to W. Earl Hall, editor of the Mason City Globe-Gazette, who spoke yesterday afternoon at Information First.

Military aid is not forthcoming from South America, Hall said, because it is simply not there. "The South American nations are well equipped to fight the last war," he declared, "Not this war."

As regards the matter of sympathy with allied causes, Hall stated that it is well established that the common people of our neighbor nations to the south are not unfriendly to the United States. However, there is a great chasm between the people and the governments of South America.

Governmental control rests in the hands of those who control armaments, Hall stated, but unfortunately such control is not held by the common people, the majority of whom favor the United States.

With so complicated an internal situation in South America, he continued, the United States may consider itself fortunate if the South American nations manage only to keep themselves clear of Nazi influence and even if they do not contribute materially toward our war effort.

He expressed approval of the good neighbor policy as it has been carried out, and presented a two-fold plan of continuing that policy without arousing antagonism among the southern nations.

We must help them build up a good educational system so that

manpower commission office in the Community building. A college education is required in most cases, but two years of college training is acceptable where there is satisfactory compensatory experience in the particular field in which the candidate might be commissioned.

The list of the 23 special programs now offering this opportunity with experience requirements and descriptions of the duty is available from Patton.

RED CROSS Sewing kits, writing paper, cigarettes, razor blades, pencils and paper are among the items in special kits which the American Red Cross gives to soldiers embarking for foreign service, to survivors of shipwrecks and to men in hospitals at our advanced bases.

they may eventually be able to govern themselves as democracies and at the same time avoid intruding our culture on them at the expense of their own. Secondly, we must enable them to build up an industrial machine which will help them to escape from the colonial status which is now theirs.

South American agriculture, Hall stated, cannot be considered without the realization that, agriculturally speaking, there are two South Americas. The jungle tropical area does not furnish fertile soil, he said, and will not require serious concern when thinking of South American nations as agricultural competitors.

But the southern parts of South America contain soil as rich as any in the world, according to Hall, and it is this area which grows Argentine corn and beef that rival anything our own agricultural state can produce.

One great lesson we should learn from the 'South Americans,' he said, is that true neighborliness requires fluency in one another's language. The South Americans have surpassed us in this respect, and now teach English to their children beginning in the third and fourth grades.

Similar effort will be required on our part, he said, if we are to have a true good neighbor policy, and assure ourselves of the friendliness of the other nations of our hemisphere.

Ralph Edwards Drafted

NEW YORK, (AP)—Ralph Edwards, who metes out fantastic penalties to losers on his "Truth or Consequences" radio show, will take the consequences in a military production—wearing khaki.

Edwards, the National Broadcasting company announced, passed his army physical examination yesterday and expects to be inducted within a month. The 31-year-old program conductor is married and father of two children.

The number of Salt Lake City basketball referees dropped to 30 this season from 50 a year ago.

Democratic Delegates To County Convention Chosen at Caucus

Delegates to the Democratic county convention, to be held at 10:30 a. m. Wednesday in the courtroom of the Johnson county courthouse, were chosen at precinct caucuses last night in the courthouse.

At the county convention 36 delegates will be chosen to attend the state Democratic convention in Des Moines April 15, according to W. B. Jackson, Johnson county Democratic chairman. The state convention, in turn, will select delegates to the Democratic convention to begin in Chicago July 19.

Delegates to the county convention who were chosen last night are:

First ward, first precinct—W. J. Jackson, Mrs. L. H. Billick, J. J. Clark, F. J. Belger, Julia Fitzpatrick, Luke Fitzpatrick, Arnold Derkson, Mrs. James McLaughlin, George W. McInery, Samuel Markovitz, Sheriff Preston Koser and James Hogan.

E. J. Spadino Named To Associate Position In Pediatrics in East

E. J. Spadino, who took graduate work at the University of Iowa a few years ago, has been appointed to the position of associate in the pediatrics department at the Long Island college of medicine.

The former graduate student has been a member of the speech department of Hunter college in New York. He is a graduate of Carleton college at Northfield, Minn., and studied for his master's degree here and at Columbia uni-

Demonstration Planned On Rat Extermination

A demonstration on the control and extermination of rats will be made Wednesday at 1:30 p. m. The meeting, to be conducted by Harold Gunderson, extension entomologist from Iowa State college, will be held at the H. J. Dane farm, west of the Iowa City airport.

All farmers and other persons interested are invited to attend the meeting.

He received his Ph.D. degree at Columbia in 1941.

KEEP 'EM FOR THE DURATION

THEY will continue to give you good service if treated with consideration. Proper handling, cleaning and oiling will greatly increase their life and add to the quality of the service provided. Should serious trouble develop—call your appliance dealer before it's too late.

For Longer Service:

- ★ Don't drop appliances or knock them around. Treat them with care.
- ★ Never submerge an electric appliance in water.
- ★ Treat cords carefully. Grasp plug instead of cord when disconnecting an appliance.
- ★ Turn off electricity before leaving iron—even for a moment.
- ★ Tighten nuts, bolts and screws.
