## Conference Will Adjourn Tuesday

### 12 Polish Leaders Found Guilty by Reds

Sentences Range From Ten Years To Six Months

LONDON, Thursday (AP)—Twelve of the 16 Polish underground leaders accused of subversive activities behind Red army lines in Poland were found guilty in Moscow early today and sentenced to prison terms ranging from 10 years to six months, the Moscow radio said.

Three were acquitted and the trial of another, Anton Paidak, was postponed because he was ill.

Maj. Gen. Bronislaw Okulicki, Polish home army commander and principal defendant among the 16 accused of subversive activities, received the heaviest sentence—10 years.

Three defendants were acquitted, the broadcast said. They were S. F. Mikhalowski, K. S. Kobylanski and J. H. Stember-Dombrowski.

The chief defendant, Maj. Gen. L. Bronislaw Okulicki, Polish home army commander, staged and completed his own defense, "declaring he had committed no crimes, and that 'my one great mistake, I know now, was my distrust of the Soviet Union.'"

"That played a major role in this business. We were not aware of changes which have taken place in Russia—that it is no threat to Poland now—and we could not believe that it was not a threat."

Charged with subversive acts behind Russian lines, Okulicki said:

"I consider myself guilty of not giving orders to hand over radios, guns, and ammunition to the Red army. I consider myself guilty for forming the 'NE' (A politico-military organization), that I maintained communications with London, and carried out propaganda against the Soviet Union and Red army, but I am not guilty of carrying out terror, espionage, and acts of diversion."

The Soviet prosecutor asked for prison terms but not the death penalty in the trial of the Polish underground leaders, and asserted that the Polish government in London bore "the main guilt" for trying "to create a Poland in opposition to the Soviet Union."

In another part of Moscow, the three Polish factions meeting to reorganize the Polish provisional government conferred again in what was termed "the best atmosphere" in a long while.

All three groups of Poles met cordially at a reception at the British embassy, and there was optimism among foreign observers that concrete proposals for reorganizing the Warsaw regime might soon be given to the Big Three powers.

### Former Nazi Guard Says Hitler Burned

MONTGOMERY'S HEADQUARTERS, Germany (AP)—A guard in Adolf Hitler's Berlin Reichschancellery claimed yesterday that he saw the bodies of the German Fuehrer and his supposed bride, Eva Braun, burning at the exit to Hitler's underground shelter May 1. Four empty gasoline cans were beside the couple, he asserted.

The guard, 32-year-old Hermann Karnau, said he recognized Hitler by his mustache and Eva Braun by her black suede, cork-soled shoes. He said he believed they had been previously poisoned.

This new account of Hitler's fate was described by Karnau at an allied press conference. Headquarters did not explain why it was released, since Soviet Marshal Georgi K. Zhukov said in Berlin June 9 that "we found no corpse that could be Hitler's."

### Belgians Negotiate To Form Government

BRUSSELS (AP)—Negotiations to form a Belgian government which would support the return of King Leopold proceeded in an atmosphere of secrecy yesterday with only Catholics and Conservatives seemingly considered in the running.

The king's third emissary, M. Weemans, who arrived only yesterday, already had started back to Salzburg to report to the monarch.

### EISENHOWER ADDRESSES CONGRESS

BEFORE a crowded House chamber, Gen. Dwight D. Eisenhower modestly disclaimed personal credit for the destruction of the German war machine, giving all credit to the GI Joes and their allies. Eisenhower was cheered by the congressmen and high government and diplomatic officials who packed the historic house of representatives to hear him.

### New Landing Made By Aussies at Head Of Brunei Bay

MANILA, Thursday (AP)—In a shore to shore operation units of the Australian Ninth division have landed at the northern head of Brunei bay, northwest Borneo, giving them control of both sides of the entrance to the waterway, General MacArthur announced today.

The landing was preceded by an artillery bombardment from Labuan island, seized by the Aussies early in their invasion of Borneo. The island is five miles west of the new beachhead.

Medium bombers supported the ground operations.

Heavy bombers and fighters made another of their daily strikes in the Balikpapan area, where the Tokyo radio says, without allied confirmation, that an allied naval force has been operating for several days.

There was no mention in the communique of allied ships shell Balikpapan nor of mine sweepers operating in the bay, as Tokyo reported yesterday.

The Aussies who landed at Weston on the eastern side of the bay several days ago drove inland two and a half miles without meeting more than minor patrol contacts.

### Senate Passes Bill Extending Reciprocal Trade Agreement Law

WASHINGTON (AP)—Smashing down a series of restrictive amendments, the senate yesterday passed 54 to 21 and sent to the White House legislation extending the reciprocal trade agreements law three more years with added power for the president to cut tariff rates.

Already authorized under the old law to cut import duties in half, the president will be empowered under the new legislation to reduce them another 50 per cent below the rates prevailing on Jan. 1, 1945.

Where the full power is used, duties thus could be trimmed to one-fourth of the Smoot-Hawley schedules of 1930.

### A Beautiful Day For a Change

It is going to be beautiful today, no doubt about it. That cold front has passed and all the rain is gone. There is nothing unpleasant in sight. There may be some ground fog this morning but that will be burned away in short order. Because it will be warmer today, considerably warmer than yesterday.

Yesterday's rain lasted a long time but left only 23 inches of water to refresh gardens and depress people's spirits. The high temperature was 71 and the low was 59.

### Hoover Proposes Program to Remedy Meat Shortages

Suggests Concentration Of Much Authority Under Agriculture

WASHINGTON (AP)—Herbert Hoover declared yesterday that meat controls have broken down and proposed a sweeping 12-point program to remedy shortages in animal products.

In brief, the program includes an "administrative revolution" in control agencies; concentration of much authority under the secretary of agriculture; a system of ceiling and floor prices on meats, poultry, eggs and dairy products designed to increase production without subsidy payments; and self-policing by representatives of livestock growers, packers commission men and retailers.

The proposals of the former president and food administrator of World War I were made in a letter read to the house by Representative Jenkins (R., Ohio).

Hoover referred to "local famines" of animal products in the cities, and had this to say of black markets:

"The existence of black markets in meats and fats (except milk) in every city of the country is sufficient evidence of a break-down in control of both distribution and price."

As a remedy he proposed "to reconstruct the whole method of organization and administration," as follows:

1. The secretary of agriculture should be not only food administrator, as the president has already announced, "but in my view the secretary of agriculture should also have physically transferred to him all of the price and other powers and staff of OPA which are concerned in any way with animals and animal products including feed, except the mechanical job of rationing. That the OPA should continue."

2. He should have transferred to him the control of all allocation and buying of major animal products for the armed forces, lend-lease and relief.

3. The secretary should appoint an administrator of animal products.

4. In order to coordinate official buying, the secretary should have an advisory committee representing the army, navy, lend-lease and relief allocation and buying, except for purely local purchases.

5. There should be "genuine organized cooperation" with the farmers and the legitimate traders. "They have the know how," Hoover said. "The trades do not want black markets."

To bring this about they should be asked to create from their own organizations:

A. A national war committee of livestock growers; B. A national war committee of packers; C. A national war committee of animal products' retailers.

(See HOOVER, page 5)

### Truman Plans Longer Stay In Northwest

OLYMPIA, Wash. (AP)—President Truman decided last night to remain over in the Pacific northwest until Monday after receiving word the San Francisco security conference cannot be concluded until next week.

White House Press Secretary Charles G. Ross made the announcement upon the president's return from a 90-mile, two-and-a-half-hour automobile drive in the Puget Sound area.

The president, he said, informed that the delegates to the United Nations conference will be ready to sign the projected charter Monday, will fly into San Francisco that afternoon to witness the signing and to meet the delegates. He will address the closing session of the conference at 2 p. m. (CWT) Tuesday.

The president was represented as pleased with yesterday's developments and State Secretary Edward R. Stettinius' assurances the conference will be brought to an end next week. He will fly the charter back to Washington in hope of senate ratification in advance of his first "Big Three" meeting at Berlin in mid-July.

### 691,018 New Passenger Cars—Quotas for Auto Production

WASHINGTON (AP)—The war production board yesterday announced production quotas for the 10 automobile manufacturing companies totaling 691,018 new passenger cars in the nine months following July 1.

Production of 241,916 cars will be permitted in the last half of this year, WPB said, and 449,102 automobiles in the first quarter of 1946.

General Motors corporation was assigned a production ceiling nearly twice as high as its nearest competitor, Chrysler. Ford was in third place.

No company was granted a quota of fewer than 8,000 cars in the coming six months, on the theory that production should be started at "a reasonable rate"

from the profit making standpoint. Any new companies entering the passenger car field also will receive the 8,000 quota.

"The over-all ceiling on passenger car production is limited by the amount of steel that will be available for such production without material allotments or preference (priority) ratings," WPB said.

Several of the smaller producers would have received lesser quotas but for the 8,000-car limit.

For the period Jul 1-Dec. 31, the production ceilings follow: General Motors corp., 95,096; Chrysler Corp., 49,635; Ford Motor Co., 39,910; Studebaker Corp., 9,275; Hudson Motor Car Co., Packard Motor Car Co., Nash Kelvinator Corp., Willis-Over-

land Motors, Inc., Graham-Paige Motor Corp. and Crosley Corp., 8,000 each.

For the three-month period Jan. 1, 1946 to March 31, 1946, the production ceilings are: General Motors, 190,192; Chrysler 99,270; Ford, 79,820; Studebaker, 18,550; Hudson, 13,602; Packard, 12,118; Nash Kelvinator, 11,550; Willis-Overland, Graham Paige, and Crosley, 8,000 each.

The figures on total production thus assigned to the industry runs about 10 per cent higher than the expected production level as previously announced. In addition, it does not include special type vehicles such as taxicabs, ambulances or hearses. The quotas for special vehicles will be established later, the WPB said.

### 67 Men to Teach Peace Officers Course

20 Organizations Represented on Staff Of Conference

An instructional staff of 67 men, representing 20 varied institutions and organizations, will handle the program of the ninth annual peace officers' short course at the University of Iowa Monday through Friday.

Prof. R. M. Perkins of the college of law, the course director, has selected the staff from the ranks of experts in various phases of law enforcement and allied specialties. Many of the men have participated in previous Iowa short courses.

The FBI, United States secret service, Iowa department of public safety, federal bureau of narcotics and the national safety council are some of the organizations which will be represented on the staff, Professor Perkins said.

The FBI will send E. R. Fletcher and E. E. Kuehnel from Des Moines, Sam Hardy from St. Paul, Minn., and two other special agents; the United States secret service will be represented by Fremont Strout of Omaha, Neb., and Charles Mazey of St. Paul, Minn. Allyn Crisler will come from the federal bureau of narcotics in Minneapolis, Minn.

The Iowa department of public safety, with 11 men, will have the largest delegation, including Chief R. W. Nebergall of the criminal investigation division; Commissioner R. B. Laird and Director Bert Woodcock of the safety education division.

Staff members also will be present from such groups as the County Attorneys' association; police departments of Cedar Rapids, Des Moines, Iowa City, Davison, Dubuque, Mason City and Sioux City; automobile protective and information bureau, Chicago and St. Paul; Purdue and Drake universities; Iowa highway patrol, Iowa City Bar association and National Junior Bar conference.

12 Polish underground leaders found guilty.

Hoover proposes 12-point program to alleviate meat shortage.

Inter-American affairs conference opens today.

### U. S. Light Cruiser, Severely Damaged, Returns to Action

WASHINGTON (AP)—The light cruiser Nashville, severely damaged in a Japanese suicide plane attack which cost 133 officers and men killed and 190 others wounded, has had her wounds repaired and is back in action.

The navy revealed yesterday the story of the attack which occurred last Dec. 13 near the island of Negros, in the Philippines, as the Nashville was screening a convoy bound for the invasion of Mindoro. Only seven weeks earlier the proud ship had disembarked Gen. Douglas MacArthur at Leyte on his triumphant return to the islands.

As the Nashville proceeded on the extreme right flank of the convoy, lookouts spotted a single engine plane about 1 p. m., diving out of scattered clouds at about 5,000 feet. Shooting toward the convoy at a speed estimated by observers at 400 knots, it appeared at first to be aiming for a ship astern of the Nashville.

### Jap Remnants Held To Three Pockets

Second U. S. General Killed in Action In Ryukyus Fighting

Japanese remnants on bloody Okinawa have been packed into three small pockets along the southern coast, Fleet Admiral Chester W. Nimitz reported today and American soldiers and marines went about the job of killing off the die-hard Nipponese as the campaign neared its end.

Nimitz disclosed that Japanese fatalities on the island up to the close of June 19, Okinawa time, totaled 87,343 while 2,565 were made prisoners.

In Washington the war department reported the death in action of a second general on Okinawa, Brig. Gen. Claudius M. Easley, assistant commander of the 96th infantry division. Almost simultaneously the navy announced the death of Rear Admiral Forrest B. Royal, 52, of natural causes. Royal commanded amphibious operations in the Borneo invasion.

The largest of the three Japanese pockets on Okinawa was but 1,200 yards in diameter. Marines and soldiers were rapidly reducing the traps. In one sector the Yank soldiers were meeting stubborn resistance for concrete pillboxes but were advancing.

Radio Tokyo said two allied naval task forces were on the move near Miyaka island, southwest of Okinawa, and that more than 100 transports were anchored in the Kerama islands. The latter are 20 miles west of Okinawa.

On Mindanao island guerrillas seized the Arusan river valley town of Baylo while American soldiers pressed mopping up operations.

American planes, striking from the Philippines, blasted Formosa and the Shanghai, Canton and Hong Kong areas of China.

### Russia Accepts Compromise On Debating

World Organization Charter to Be Signed By Delegates Monday

SAN FRANCISCO (AP)—Russian acceptance of an Australian compromise on what a 50-nation general assembly can talk about enabled the United Nations conference last night finally and formally to set next Tuesday for completion of a world charter to maintain peace.

Secretary of State Stettinius announced after a steering committee meeting that a speech by President Truman late Tuesday afternoon will end this historic gathering, two months and a day after it began its deliberations.

The Australian compromise accepted by Soviet Ambassador Andrei Gromyko provides that the assembly may discuss any matter within the scope of the charter of the world organization, or the powers or functions of its organs (assembly, council etc.).

The charter of a new world organization dedicated to peace probably will be signed by all the delegates of 50 United Nations Monday afternoon and night. It will bring into being, when enough governments ratify it, an international league empowered to settle disputes peacefully or to use armed might to prevent war or aggression.

It will set up a new international court of justice, and a council for cooperation in removing social and economic stresses which have fomented war in the past.

To a compact security council of 11 members—all the five big world powers and six others—will be entrusted the primary responsibility for maintaining peace. A conference committee considering the council's structure and duties completed its task yesterday.

All that remained was to put into charter language sections dealing with a general assembly to serve as the "town meeting of the world."

Russia cleared the way for that and a successful conclusion of the conference by accepting an Australian suggestion that the assembly be allowed to debate anything within the sphere of the world charter.

Russia's action was announced by Secretary of State Stettinius at the end of a Big Five meeting. Stettinius said that big powers and Australia "have reached full and satisfactory agreement" on the question of how broad a debating field should be permitted a world assembly in which every United Nations would have a voice. He said the agreement would go before a conference committee for disposition yesterday.

### Carl Menzer Attends Parley to Discuss Use Of Radio Equipment

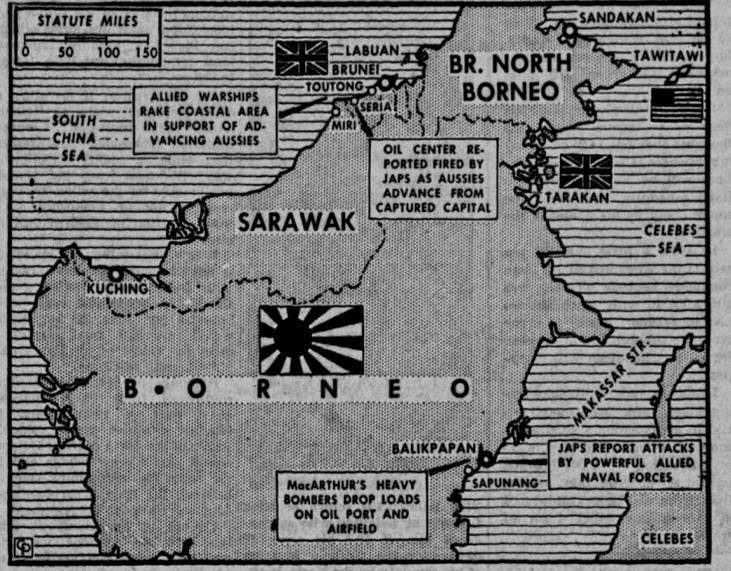

WASHINGTON (AP)—An eventual system of more than 800 broadcasting stations devoted entirely to education was envisioned yesterday by educators planning school use of surplus radio equipment.

The educators were called into conference by Dr. John W. Studebaker, United States commissioner of education, at request of the surplus property board.

In addition to educational broadcasts the school leaders discussed use of other surplus radio and electronic equipment for study in classroom and laboratory.

Among those attending was Carl Menzer, of the State University of Iowa, representing university-owned radio stations.

### AUSTRALIANS PUSH THROUGH JAP LINES ON BORNEO

IN THE RECONQUEST campaign on northern Borneo, veteran Australian infantrymen have pushed to within sight of Soutong, gateway to Seria's rich oil fields. Supporting and paving the way for these Aussies were allied warships which raked the town of Tontong and the port of Miri. Seria, some 25 miles below captured Brunei, is said to have been set afire by the Japs, while the enemy radio insists that a powerful allied armada is shelling Balikpapan, in apparent preparation for new landings. Map above shows Borneo action to date.

### Belgians Negotiate To Form Government

BRUSSELS (AP)—Negotiations to form a Belgian government which would support the return of King Leopold proceeded in an atmosphere of secrecy yesterday with only Catholics and Conservatives seemingly considered in the running.

The king's third emissary, M. Weemans, who arrived only yesterday, already had started back to Salzburg to report to the monarch.

## Inter-American Conference—

The university's third annual conference on inter-American affairs could not come at a more opportune time—nor could it be held at a better place. With the San Francisco peace meeting nearing a close, the world is more conscious than ever before of the vitalness of a thorough understanding of the relationships between nations. More and more we are coming to realize the importance of knowing our neighbors. UNIVERSITY OF IOWA STUDENTS AND IOWA CITY RESIDENTS THIS WEEK HAVE AN UNEQUALED OPPORTUNITY TO IMPROVE THEIR UNDERSTANDING OF OUR SOUTH AMERICAN ALLIES. This isn't the first time something has been said about better "understanding" of the other nations and peoples of the world. But in the past we have been too apt to let warnings that we must know more about the rest of the world go unheeded. AND WE HAVE LIVED TO REGRET OUR MISTAKE. Not "understanding" the people concerned has been one of our great faults in our political dealings with other nations in the present war. It has been at the bottom of such mistakes and problems as the non-fraternization rule in Germany, our strained relations with Russia and the De Gaulle fiasco. What's more, we've discovered we don't know much about even our close neighbors—the Latin American countries—let alone those separated from us by oceans. Clearly we need to find out more about what is going on "south of the border." Much of what we should know will be dish up in sugar-coated offerings on silver trays at the conference which opens here today. The inter-American conference is designed to "strengthen the bonds of friendship with our American neighbors," and "to further the long-term program of better understanding in inter-American affairs," President Virgil M. Hancher said. Those words have been reprinted on the cover of the conference program as a guide to the conference's goal. The University of Iowa enjoys an almost unequalled position for sponsoring a conference on inter-American affairs. This university has long been a leader in promoting good relationships between the Americas. THE SUCCESS OF THE UNIVERSITY'S LATIN-AMERICAN PROGRAM IS ATTESTED TO BY THE GREAT NUMBER OF LATIN-AMERICAN STUDENTS WHO ATTEND THIS SCHOOL. Dr. Bruce Mahan, acting director of the summer session and chairman of the conference committee, said few universities in the country have more Latin-American students than Iowa. Iowa easily ranks in the upper fifth, he said. It has been the high scholastic reputation of the university and its interest in inter-American affairs which have attracted so many South Americans, and not many South Americans, and not a "recruitment" program, Dr. Mahan said. Of especially high repute in South America are the university's departments of education, hydraulics and medicine. The son of Brazil's President Vargas spent considerable time here studying under Dr. Arthur Steindler in the college of medicine. The inter-American conference, based on as good authority as any such conference, is filled with golden opportunities.

## What Is Aviation's Future?

Recent studies of aviation's immediate postwar future dash much cold water on the enthusiasts who see a small airplane in every home garage and thousands of giant commercial craft winging their way to all cities. "The cold water comes in the form of sober business considerations and of present experience and knowledge," comments the New York Times. Careful investigation has disclosed many practical developments which are likely to be put into operation soon after the war ends. Most important changes are these: We shall see small "feeder planes" operating on side or "feeder" lines. These planes probably will carry 10 to 15 passengers. Small 20 to 25 passenger planes will fly locally between the larger cities, such as New York and Chicago. The bulk of the airline travel will be in planes of 40 to 60 passenger-carrying capacity. Hundred-passenger planes will cross the oceans regularly. There probably will be somewhat over 100,000 private planes by 1950. There were 20,000 before the war. All the increased commercial business to be expected by 1950 can be carried by 570 planes. These carefully investigated predictions of what aviation will be like by 1950 explode the imaginative bubbles of dreamers. They don't leave much room for thoughts of scurrying at will through the air. The studies which resulted in these predictions were made by aviation experts and are based on facts. The 20,000 private planes in service before the war were used like sailing yachts and motor boats—intermittently and at much expense to their owners. There is little reason to believe that the expense of a private plane will be reduced greatly in the immediate future. As for the aerial argosies that capture the imagination, studies by the Curtiss-Wright corporation indicate that by 1950 air travel probably will amount to seven billion passenger-miles, which is exactly what Pullman cars achieved in 1940. Although this is a 700 per cent increase, it does not call for vast fleets. Even if we assume that all mail and much cargo will be carried by air, there is no reason to change this figure greatly, the New York Times says. Planes with more than 100-passenger capacity probably are not forthcoming because the larger ships cannot afford to have more than 25 per cent of their seats empty. Since speed is expensive, we cannot expect to exceed 300 miles an hour. Although this picture is a little dark when compared to the thoughts that have filled many minds, there is another side. Airlines will be able to maintain fixed schedules and won't be tossed about by the whims of the weather. In 1941, a little over 90 per cent of the scheduled flights were completed because weather was still a factor with which airlines had to reckon. There is every reason to suppose that in the near future this handicap will disappear. Moreover, radar will make flying much safer over mountains and in approaching a field when there is a fog. Add new ways of preventing ice from forming on wings, and we may assume that flying will be as regular and as safe as any other form of travel.

"The situation," Tadachiko Okada, Japanese statesman, is quoted as saying, "requires us (Japs) to sit and think." Don't sit too long, Tada, there are more B-29's bound your way.

## Strain of Heavy Work Schedule Puts Many Solons on Hospital List

By JACK STINNETT  
WASHINGTON—The joint committee on the organization of congress was just asking for suggestions on how to reorganize congress, but what it got was a suggestion on how to reorganize congressmen. It came from Dr. George W. Calver, the capitol's official medic. What he said in essence was that the members of congress are killing themselves with overwork. "Doc" Calver has had his hand on the pulse of congress ever since war broke loose. There never has been a physician at the capitol who has seen such extended sessions, so much pressure on his charges. He not only diagnosed congress as overworked, but he offered a whole alphabet of "do's and don'ts" to improve their health and prolong their lives. Both chambers are in the habit of meeting at noon or at 11 a. m. Committees almost invariably meet at 10 a. m. There isn't a member of congress who isn't on one or more committees, and some are on as many as nine. This means that a member has to be at his office between eight and nine, answer the 50 to 100 letters or other communications he will receive in an average working day, attend his committee of committees; get over to the house or senate to answer roll call by 11 or 12; stick around if the matter before the chamber is of the least importance to him or his constituents; sandwich in his errand boy work in the afternoon; answer more correspondence and take home with him all the reading matter and details on tomorrow's agenda. Dr. Calver suggests that both chambers protect the health of their membership by establishing a definite lunch hour between 12 and 1 p. m. Missing lunch and "bolting what they do eat" are number one factors in causing indigestion and blood pressure irregularities, he says. He also suggested that the members pay considerable heed to diet. Social activities require that members keep on the go a lot. Hosts and hostesses aren't thinking in terms of health foods. Dr. Calver's other principal health sub-heads were recreation, relaxation and exercise. Dr. Calver's invalid list isn't the highest it ever has been, but it's high enough to indicate that congressmen aren't the best risks for insurance companies. Unless congress comes through with that long-delayed vacation period, the doctor thinks it might very well go much higher. Washington summers aren't exactly vacation resort stuff. A few weeks ago it looked as though congress might suspend operations about mid-June. If it heeds the White House plea to take speedy action on the San Francisco United Nations' charter, it will be a month to six weeks before it can go away for awhile. Dr. Calver thinks that would be too bad if it does happen, he says, congressmen will have to try their best to take it easy or run up the longest sick list in history of our national legislature.

## The Future Presents—

### Wundermobiles

By FRANK CAREY  
(Second in a Series of Four Articles.)  
WASHINGTON (AP)—If you think that automobiles will be revolutionary in design soon after the war, you have another thing coming. "Changes in the mass-produced passenger automobile after the war," says the report, "are likely to be evolutionary rather than revolutionary." The first cars produced will be little different from the last pre-war model, except, perhaps, for "inconsequential changes in the shape of the radiator grill, fenders, or other external parts." There will be little time for extensive re-tooling, and if any manufacturer attempted to do so, he'd lose out on the expected buying boom. In the early post-war years, however, we will probably see such changes as general adoption of automatic and semi-automatic transmission systems; pistons cooled by jets of engine oil, and sealed cooling systems employing a permanent nonfreezing fluid which would eliminate the need for adding water or anti-freeze solutions. Changes in engine design may make more efficient use of high octane gasoline. Finally, investigations of radical designs and application of light metals and plastics will continue—including the placing of the engine in the rear and installing sliding doors! The bureau of labor statistics, in a report to a senate subcommittee on a study made of wartime technical developments, takes a conservative view of what the future will bring in the way of revolutionary changes in various fields, including automobiles. Basing its report on some 1,400 wartime developments and upon opinions expressed by writers in hundreds of technical journals and other publications, the labor department bureau told the Kilgore subcommittee on war mobilization of the senate's military affairs committee in a 500-page monograph: "Sometimes the impression is given that a transformed world will spring into being shortly after the cessation of hostilities. "There are strong reasons to believe that improvements will be less rapid and far reaching than is so readily assumed. There is little doubt that products for consumers will be greatly improved during the early post-war years. "On the other hand, radically new products of many types may not be produced in substantial quantities for many years after the return of peace. "Changes in the mass-produced passenger automobile after the war," says the report, "are likely to be evolutionary rather than revolutionary." The first cars produced will be little different from the last pre-war model, except, perhaps, for "inconsequential changes in the shape of the radiator grill, fenders, or other external parts." There will be little time for extensive re-tooling, and if any manufacturer attempted to do so, he'd lose out on the expected buying boom. In the early post-war years, however, we will probably see such changes as general adoption of automatic and semi-automatic transmission systems; pistons cooled by jets of engine oil, and sealed cooling systems employing a permanent nonfreezing fluid which would eliminate the need for adding water or anti-freeze solutions. Changes in engine design may make more efficient use of high octane gasoline. Finally, investigations of radical designs and application of light metals and plastics will continue—including the placing of the engine in the rear and installing sliding doors!

## Japanese on Hainan Uneasy—

By KIRKE L. SIMPSON  
Associated Press News Analyst  
Surprising earlier advices from China that Japanese forces were evacuating Hainan island, a pivotal strategic position at the mouth of the gulf of Tonkin, appear at least premature if not wholly unfounded. Yet there are evidences of growing enemy uneasiness in that sector. Chungking reports of Nipponese offensive activities on Hoihong peninsula in southern Kwangtung indicate Japanese fear that Hainan might be isolated. If that were done it could fall into allied hands as an advance base for the merging east-west air attack on enemy mainland and sea communications. In Chinese hands Hainan would offer glittering possibilities. It lies due west of northern Luzon some 700 miles and within close air striking distance of the China and Indo-China coast line along which run highly vulnerable Japanese land communications with forces to the south. For that reason if no other a desperate enemy stand on Hainan would seem indicated. Chinese military spokesmen now report that while an enemy detachment was withdrawn from the island, presumably for the action in progress on Hoihong peninsula, the main garrison on Hainan still is intact. It is a vital safeguard for what is left of enemy life line contacts with Indo-China, Thailand and the Malay peninsula; even with Sumatra and Java. Its surrender would represent final abandonment by Tokyo of all forces deployed south of China. Hoihong peninsula just due southward from the Kwangtung coast west of Hong Kong. It reaches within a virtual stone's throw of the north coast of Hainan island like a draw bridge and is the route for maintaining contact between the Hainan garrison and Japanese forces on the mainland. Chungking has disclosed that two Japanese columns were in operation north and northeast of Limkong, an important junction point of the Kwangtung coastal rail system crossing the base of the peninsula. Limkong lies over 270 miles southeast of one of the two main points of Chinese attack from the west on the China-Indo-China enemy corridor, Lichow. At last reports the Chinese had driven to within three miles of that former American 14th airforce base at two points. Its capture seemed imminent. South of the Lieuchow sector, where Chinese forces at last reports had crossed the upper arm of the west river on a broad front, they were within 60 miles of Limkong.

## Abdication Near?

The absence of Paul Mallon's column from today's Iowan is only temporary. The column, which regularly appears in this space as an exclusive feature of The Daily Iowan, will be resumed soon. THE RUMORED return of King Leopold of Belgium, who surrendered himself and his army 18 days after the German invasion of his country by the Nazis, is expected to cause a general strike in the country. The 43-year-old monarch has been in Salzburg, Austria, where he was held by the Germans until his liberation by American troops.

## THEIR SUPER-FORTRESS

## The Future Presents—

### Wundermobiles

By FRANK CAREY  
(Second in a Series of Four Articles.)  
WASHINGTON (AP)—If you think that automobiles will be revolutionary in design soon after the war, you have another thing coming. "Changes in the mass-produced passenger automobile after the war," says the report, "are likely to be evolutionary rather than revolutionary." The first cars produced will be little different from the last pre-war model, except, perhaps, for "inconsequential changes in the shape of the radiator grill, fenders, or other external parts." There will be little time for extensive re-tooling, and if any manufacturer attempted to do so, he'd lose out on the expected buying boom. In the early post-war years, however, we will probably see such changes as general adoption of automatic and semi-automatic transmission systems; pistons cooled by jets of engine oil, and sealed cooling systems employing a permanent nonfreezing fluid which would eliminate the need for adding water or anti-freeze solutions. Changes in engine design may make more efficient use of high octane gasoline. Finally, investigations of radical designs and application of light metals and plastics will continue—including the placing of the engine in the rear and installing sliding doors!

## Japanese on Hainan Uneasy—

By KIRKE L. SIMPSON  
Associated Press News Analyst  
Surprising earlier advices from China that Japanese forces were evacuating Hainan island, a pivotal strategic position at the mouth of the gulf of Tonkin, appear at least premature if not wholly unfounded. Yet there are evidences of growing enemy uneasiness in that sector. Chungking reports of Nipponese offensive activities on Hoihong peninsula in southern Kwangtung indicate Japanese fear that Hainan might be isolated. If that were done it could fall into allied hands as an advance base for the merging east-west air attack on enemy mainland and sea communications. In Chinese hands Hainan would offer glittering possibilities. It lies due west of northern Luzon some 700 miles and within close air striking distance of the China and Indo-China coast line along which run highly vulnerable Japanese land communications with forces to the south. For that reason if no other a desperate enemy stand on Hainan would seem indicated. Chinese military spokesmen now report that while an enemy detachment was withdrawn from the island, presumably for the action in progress on Hoihong peninsula, the main garrison on Hainan still is intact. It is a vital safeguard for what is left of enemy life line contacts with Indo-China, Thailand and the Malay peninsula; even with Sumatra and Java. ## Yanks Revive German Leather Industry, Get High-Prized Souvenirs

By KENNETH L. DIXON  
IN OCCUPIED GERMANY (AP)—Just southeast of Frankfurt lies the German town of Offenbach where a group of economic-minded doughboys have been experimenting successfully for a month with the old law of supply and demand. The supply was German skilled labor. The demand was that of the allied soldiers for worthwhile souvenirs. The eventual product was some of the world's finest leather articles. When the United States 19th corps doughboys moved into Offenbach they found much of the town destroyed. The local leather industry, which had been converted to full contracts for the German army, was paralyzed. Some of the boys remembered that before the war the high quality of Offenbach leather goods had been recognized all over the world. A few of them recalled they had paid fancy prices for such craftsmanship on Fifth avenue and elsewhere in America. Many small Offenbach plants were usable when the military government took over. Craftsmen still were there and needed little equipment other than their sewing machines, since their products were hand-made except for stitching. However, the leather industry was dead in Offenbach for two reasons: No raw materials and no way of distributing the article. So the military government went into action. Tanneries throughout the area were ransacked for workable leather until a small stockpile was assembled. Then the German craftsmen were called in. That took care of the production but it was only the beginning. Distribution and sales remained to be arranged. The showroom of one of the town's larger plants which had suffered the least war damage was selected as a salesroom. The Offenbach merchants were called together after having been given the same screening to eliminate the Nazis. They were told to get the salesroom cleaned up, equipped and staffed—ready for trade. Within 24 hours they were open for business. Their customers were soldiers of the United Nations. There was no time for advertising but the word spread fast and the first day was a sellout. Business hours are from 9 a. m. to 4 p. m., but the line of customers inevitably starts forming about an hour before opening time. The line consists of British tomies, American WACS, nurses and even full colonels as well as buck privates and moves slowly in and out of the building all day long, rain or shine. During the seven-hour day the store serves about 1,000 customers. At first each customer was permitted four purchases. That has been cut to two articles—but it is still a daily sellout. Despite the limited stock of goods this army-instigated enterprise now is responsible for the employment of more than 2,000 German civilian workers and does a daily volume average of 30,000 marks, representing about \$3,000.

## OFFICIAL DAILY BULLETIN

Items in the UNIVERSITY CALENDAR are scheduled in the President's Office, Old Capitol. Items for the GENERAL NOTICES are deposited with the campus editor of The Daily Iowan or may be placed in the box provided for their deposit in the office of The Daily Iowan. GENERAL NOTICES must be at The Daily Iowan by 5:30 p. m. the day preceding first publication; notices will NOT be accepted by telephone, and must be TYPED OR LEGIBLY WRITTEN and SIGNED by a responsible person.

Vol. XXI, No. 1967 Thursday, June 21, 1945

## UNIVERSITY CALENDAR

Thursday, June 21  
Conference on Inter-American Affairs, senate chamber, Old Capitol.  
8 p. m. Piano recital by Rafael de Silva, Iowa Union.  
Friday, June 22  
Conference on Inter-American Affairs, senate chamber, Old Capitol.  
4 p. m. Speech and Hearing Rehabilitation Conference, house chamber, Old Capitol.  
8:30 p. m. University lecture by George V. Denny Jr., West Approach to Old Capitol (Macbride auditorium in case of rain).  
Saturday, June 23  
Conference on Inter-American Affairs, senate chamber, Old Capitol.  
10 a. m. Speech and Hearing Rehabilitation Conference, house chamber, Old Capitol.  
Sunday, June 24  
2:30-5:30 p. m. Opening exhibition of contemporary art, Iowa Union and art building.  
4:30 p. m. Lecture by Professor L. D. Longman, Iowa Union.  
Monday, June 25  
Peace officers short course.  
Tuesday, June 26  
Peace Officers Short Course.  
1 p. m. Luncheon bridge, University club.  
4 p. m. Lecture: "Position of Russia in the Present-Day World," by Dr. Andrei Labanov-Rostovsky, senate chamber, Old Capitol.  
Wednesday, June 27  
Peace Officers Short Course.  
3 p. m. Lecture on "Mounds and Their Contents," by Professor Charles R. Keyes, Chemistry auditorium.  
Thursday, June 28  
Peace Officers Short Course.

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol.)

## GENERAL NOTICES

**CANDIDATES FOR DEGREES**  
All students who expect to receive a degree or certificate at the Aug. 8 Commencement should make formal application immediately in the office of the registrar, University hall.  
**HARRY G. BARNES**  
Registrar

**HELP NEEDED**  
Students may earn summer board by working three hours a day. Waitresses, especially, are needed, but various jobs are available. Inquire at the office of student affairs, room 9, Old Capitol.  
**ROBERT L. BALLANTYNE**  
Division of Student Placement

**CANDIDATES FOR ADVANCED DEGREES AT THE AUGUST CONVOCATION**  
Following is a list of requirements to be met:  
1. Check your record at the office of the registrar and in your major department to assure yourself that you can qualify at the August convocation.  
2. Fill out a formal application for graduation at the office of the registrar.  
3. Secure from the graduate office the instructions for typing a thesis.  
4. If you are a candidate for the Ph.D. degree, deliver copy for your examination program to the graduate office by July 6.  
5. Submit your thesis to the graduate office for checking before July 23. If you are a candidate for the doctorate, submit your abstract and pay the \$25 publication deposit.  
6. Arrange with your department for the oral examinations—July 30-Aug. 4, inclusive.  
7. Leave the original and the first copy of your thesis at the graduate office at least 24 hours before Convocation.  
**CARL E. SEASHORE, DEAN**  
The Graduate College

**RAFAEL DE SILVA CONCERT**  
Rafael de Silva, noted Chilean pianist, will play a recital in the main lounge of Iowa Union Thursday, June 21 at 8:15 p. m. Free tickets are available at Iowa Union desk.  
**EARL E. HARPER, Director**  
School of Fine Arts

**INTER-VARSITY CHRISTIAN FELLOWSHIP**  
The Rev. Stanton W. Richardson, graduate student at Wheaton college, Wheaton, Ill., will address the Inter-Varsity Christian Fellowship service Saturday, June 23, at 8 p. m. The service will be in room 207, Schaeffer hall.  
**LOUISE BURGESS**  
Program Chairman

**WOMEN'S RECREATIONAL SWIMMING**  
4-5:30 p. m. Daily.  
10-11:30 a. m. Saturday.  
Recreational swimming periods are open to all women students, faculty, faculty wives, wives of graduate students and administrative staff members. Students should present their identification cards to the matron for admittance.  
**M. GLADYS SCOTT**

**SOUND MOTION PICTURES**  
Sound pictures, including "The Boss Didn't Say Good Morning," "Maintaining Quality Standards," "The Supervisor as a Leader" (part 1) and "Supervising Women Workers" will be presented Thursday, June 21 at 1 p. m. in room 213, University hall. The public is invited.  
**GEORGE M. HITLER**  
College of Commerce

**SCHEDULE UNIVERSITY LIBRARY HOURS**  
June 13-Aug. 8, 1945  
Reading Rooms, Macbride Hall and Library Annex  
Monday-Thursday  
7:50 a. m.-12 M.  
1-6 p. m.  
Friday  
7:50 a. m.-12 M.  
1-6 p. m.  
Saturday  
7:50 a. m.-12 M.  
1-5 p. m.  
Government Documents Dept., Library Annex  
Monday-Friday  
8 a. m.-12 M.  
1-6 p. m.  
Saturday  
8 a. m.-12 M.  
1-5 p. m.  
Education - Philosophy - Psychology Library, East Hall  
Monday-Friday  
7:50 a. m.-10 p. m.  
Saturday  
7:50 a. m.-5 p. m.  
Schedules of hours for other departmental libraries will be posted on the doors of each library. Reserve books may be withdrawn for overnight use at 5 p. m. on Fridays and at 4 p. m. on Saturdays.  
**R. E. ELLSWORTH**  
Director

**OPENING OF ART EXHIBITION**  
An exhibition of contemporary paintings will be formally opened in Iowa Union and the art building Sunday, June 24 at 2:30 p. m. At 4:30 Prof. L. D. Longman will speak in the main lounge of Iowa Union interpreting the exhibition and discussing trends in contemporary art.  
**EARL E. HARPER, Director**  
School of Fine Arts

**IOWA UNION MUSIC ROOM SCHEDULE**  
Monday-11-2, 4-6, 7-9.  
Tuesday-11-2, 4-6, 7-9.  
Wednesday-11-2, 4-6, 7-9.  
Thursday-11-2, 4-6, 7-9.  
Friday-11-2, 3-5, 6-8.  
Saturday-11-2, 3-5.  
Sunday-1-5, 6-8.  
The Philharmonic and NBC symphonies may be heard in the music room Sunday afternoon at 2 and 4 o'clock respectively.  
**EARL E. HARPER**  
Director, Iowa Union

(See BULLETIN Page 5)

## DWINDLING MANPOWER SLOWS WORK ON FRANKLIN

TAKING SHAPE at the Brooklyn navy yard is the U. S. S. Franklin, historic aircraft carrier that made her way home from Japanese waters after she was torn apart by her own fuel and ammunition, exploded by a Jap suicide bomber. Due to dwindling manpower, work on the vessel is not proceeding as fast as was hoped. View above shows part of the flight deck and in the background at the left is the ship's island.

# Prof. Backus To Lecture On Cleft Palate

Prof. Ollie Backus, acting director of the speech clinic at the University of Michigan, will speak tomorrow afternoon at 4 o'clock in the house chamber of Old Capitol on "The Correction of Cleft Palate Speech."

This is the first in a series of lectures and roundtable discussions on speech and hearing rehabilitation being held in connection with the summer session program in speech pathology.

Prof. E. C. Mabee, head of the speech and dramatic art department, will open the conference series tomorrow afternoon introducing Professor Backus.

Prof. Charles R. Strother, who is conducting a cleft palate program in the speech clinic this summer, will serve as chairman for the Saturday morning roundtable, at which Professor Backus will lead a discussion dealing with special problems in the correction of cleft palate speech. In this discussion she will be assisted by Professor Strother and other members of the university staff, including Professors Gladys Lynch, Jacqueline Keaster, Scott Reger and Wendell Johnson. Members of the audience will have the opportunity to present their problems to Professor Backus and the participants in the roundtable.

The University of Michigan instructor has done distinctive work there on the problems of cleft palate speech and is nationally known for the clinical program which she has developed. Contributor of a number of articles on these problems to the Journal of Speech Disorders and other professional publications, she is also author of "Speech in Education," published in 1943. The book concerns the basic essentials of speech education and rehabilitation as these may be put to use by the classroom teacher.

Professor Backus received her Ph.D. degree from the University of Wisconsin and was a member of the staff of the speech clinic at Pennsylvania State college before assuming her present position at the University of Michigan.

The lecture will be open to students, faculty and the general public, as will the roundtable discussions on Saturday morning.

Each Friday at 4 p. m. and Saturday morning from 10 to 12 o'clock during the next five weeks, visiting authorities will give lectures and conduct roundtables on various phases of speech correction and hearing conservation. This conference series, sponsored by the departments of speech, psychology and otolaryngology, is presented under the general direction of Prof. Wendell Johnson, director of the speech clinic.

## Tea Honors National Sorority President

In honor of Mrs. J. W. Bingham of Palo Alto, Calif., national president of Delta Gamma sorority, Delta Gamma actives and alumnae of Iowa City and Cedar Rapids entertained at a tea yesterday afternoon in the home of Mrs. Dean M. Lierle, 603 River street.

Pouring were Prudence Mamlott, president of the Iowa City alumnae chapter, and Mrs. Robert Vane.

Mrs. Bingham is in Iowa City attending the workshop sessions of the Congress of Parents and Teachers of America, of which she is president. She is also a lawyer and author. She has recently been an accredited observer at the United Nations conference in San Francisco. Mrs. Bingham will return to California this evening.

## Puppet Show Concludes Activities—

# Girl Scouts Attend Day Camp

PUTTING THE FINISHING TOUCHES on their puppets are, left to right, Joan Dunlop, Marilyn Nezil, Joan Bresnahan and Barbara Coder. For their camp activity, these girls have chosen to make puppets to be used in the puppet shows to be presented the final day of camp and in shows that will be given at established camp in July.

By JOY TRAMP  
Daily Iowan Staff Writer

One hundred and seventy-five girls are participating in the third annual day camp of the Iowa City Girl Scout organization. The scouts are divided into 30 troops, 11 of which are Brownies who meet in City park, at alternate sessions.

Tomorrow will mark the last outing of day camp. As a closing feature, tomorrow afternoon the Brownies will present a puppet show, "Noah's Ark," using puppets that they have made as part of their camp activities. Tomorrow morning Miriam Taylor of the university physical education department, will present her craft class in a puppet show for the Brownies. Ten-year-old Girl Scouts have been making puppets for "Hansel and Gretel," to be presented at established camp which will be held five miles west of Iowa City during the first two weeks of July.

Tuesday through Friday nights of this week have been set aside for overnights for each unit of scouts. Overnights are spent at the scout cabins, formerly old set-

ters' cabins, given to the Girl Scouts earlier this year.

The entire group is under the supervision of Mrs. Hugh Carson, assistant counsel. Troop leaders include Mrs. S. B. Barker, unit leader of 10-year-olds; Mrs. Virgil Bowers and Mrs. Fred Boerner, assistant leaders; Mrs. Dwight Edwards, unit leader of 11-year-olds; Mrs. Charles Schindler and Mrs. Phillip Raber, assistant leaders; and Mrs. W. A. Zimmerman, unit leader of 12-year-olds and Mrs. P. W. Herrick, assistant.

Mrs. Carson is unit leader of the pioneer group, which include girls of junior high school age. These girls are experienced campers. Mrs. Carson's assistants are Mrs. M. F. Neuzil, Mrs. Lloyd Reinhart and Katherine Schaefer.

Leaders of the Brownies are Mrs. Don Harter, unit leader of seven-year-olds, and her assistants, Mrs. C. P. Harris and Pat Tarrant; Lynn Forward, unit leader of eight-year-olds, and her assistants, Mrs. L. R. Beals and Katherine Schaefer; and Mrs. Joseph Ponce, unit leader of the nine-year-olds, assisted by Mrs.

Joseph Schaefer.

Activities  
Flag raising each morning commences the activities of the Girl Scout day camp. Following this ceremony, the group disbands, dividing into individual units.

Wing scouts, girls of high school age who are interested in air activities, study planes and make models. The girls must have studied first aid and must be 15 years old in order to qualify for the Wing scout rating.

Among activities the Girl Scouts may participate in are dyeing sashes for the color guard. The work is under the direction of Mrs. Edwards. The sashes are being used at day camp here and will be later used at established camps.

Other girls may choose the activity of making cooking utensils. Among the utensils that the girls have made are toasters and broilers, woven with willow twigs. Another popular activity is that of "lashing." Here the girls learn how to live comfortably under doors, setting up their own camp. They build wash stands and tables out of wood and heavy cord for practical use in camping.

## Laura Talmage, Dr. Frank Sawyer to Wed Today at Noon in Catholic Student Center

In the Catholic student center, Laura Talmage, daughter of Mr. and Mrs. H. D. Halmage of Eagle Grove, will become the bride of Dr. Frank Sawyer, son of Mr. and Mrs. F. Sawyer of Presque Isle, Me., today at noon. Father J. Ryan Beiser will read the vows of the double ring ceremony before an altar banked with blue and white spring flowers. Norma Cross of the university music department, will present nuptial organ selections.

Marjorie Schumaker of Fulton, Ill., will attend the bride as maid of honor and Killian Kruse of St. Lucas will serve as best man.

Powder Blue Suit  
The bride will be given in marriage by her father and will wear a powder blue spring suit complemented with white accessories and a locket which was a gift of the bridegroom's mother. A red rose corsage will complete her ensemble.

For her daughter's wedding, Mrs. Talmage will wear a blue silk dress with blue accessories and

a corsage of pink carnations. The bridegroom's mother will be attired in a blue suit complemented with white accessories and will also wear a corsage of pink carnations.

After the ceremony, a wedding dinner will be held at the Delta Sigma Delta fraternity house. The serving table will be decorated with a three-tiered wedding cake topped with a miniature bride and bridegroom. Later the couple will leave on a wedding trip to Houston, Tex.

University Graduates  
The bride is a graduate of Eagle Grove high school and attended the University of Illinois at Champaign, where she was affiliated with Alpha Pi Delta sorority. She was graduated from the University of Iowa and has been teaching school in DeWitt.

Dr. Sawyer was graduated from Presque Isle high school, attended Ricker college in Houlton, Me., and recently graduated from the University of Iowa college of dentistry, where he was a member

## Attorney Files Petition For \$500 Payment

A petition, asking \$500 in payment for legal services, has been filed by Edward L. O'Connor against Charlie F. Smith in district court.

Asking for a judgment, he charges that he was employed by the defendant as his attorney during August, 1944, for legal services on business interests that Smith had in Muscatine.

The plaintiff charges that he devoted 10 hours of his office time in behalf of the defendant, and asks \$500 together with legal interest and costs of the suit.

of Delta Sigma Delta fraternity. He has accepted a fellowship in the dental college of the Medical School of Texas at Houston.

Out-of-town guests were Laura S. Johnson of Ottumwa, Mrs. Evelyn Golden and daughter, Mary Louise, of Los Angeles, Mr. and Mrs. H. D. Talmage of Eagle Grove, Mrs. Eva Sawyer and Mrs. Emily Turner of Presque Isle, Me., Marjorie Schumaker of Fulton, Ill., and Killian Kruse of St. Lucas.

## Single Ring Ceremony in Oakliff, Tex., Unites Marilyn Carpenter, Ens. Lawrence W. Peck

In a single ring ceremony, Marilyn Carpenter, daughter of Mr. and Mrs. Roy Carpenter of Hamburg, became the bride of Ens. Lawrence Woodrow Peck, U.S.N.R., son of Mr. and Mrs. George P. Peck of Clayton, Mo., June 2 at 4 p. m. in the Calvary Baptist church in Oakliff, Tex. Chaplain McGowan read the vows of the service before an altar decorated with palms and gladioli.

Gloria Peck, sister of the bridegroom, sang "Because" and "I Love You Truly," preceding the ceremony.

Cathleen Carpenter attended her sister as maid of honor and Lieut. (j.g.) Armin Graber of Dallas, Tex., U.S.N.R., was best man. Usher was Ens. Roger Trey. Wears White Taffeta

The bride, who was given in marriage by her father, was attired in a floor-length white taffeta gown designed with a hoop-skirt and bustle. The bodice was fashioned with a sweetheart neckline and bridal point sleeves, and she wore a fingertip tulle veil held in place by a coronet of stephanotis. Her only jewelry was a pearl and diamond lavalier, a family heirloom. She carried a nosegay of stephanotis and white roses.

The maid of honor selected a white floor-length pique and lace gown designed with a sweetheart

COOK-OUTS SUPPLY some of the big moments in the life of a Girl Scout. Here four Girl Scouts are learning to cook over an open fire with utensils of their own making. The toasters that they use are made of willow twigs woven together. Shown left to right are Jeannien Smith, Letitia Dawson, Betty Barnes and Jane Dunlop.

## W. L. Daykin Heads Lions

Prof. Walter L. Daykin of the college of commerce, was elected president of the Lions club for the term beginning July 1 at the luncheon meeting yesterday at Reich's Pine room.

Other officers elected were Clark R. Caldwell, first vice-president; R. H. Reimers, second vice-president; Harold J. Roberts, secretary; D. P. Mattes, treasurer; Frank Fryauf and Prof. William J. Petersen, directors.

## Frame Considers City Recreation Project With Degree of Hope

J. Edgar Frame, director of the city recreation program, expressed a degree of optimism yesterday regarding the completion of the play ground on Brown street, and a multiple-use area for tennis and other outdoor sports.

Frame said that these projects were affected like any other wartime undertaking. "We can plan and plan," he said, "but we never know what will come up to hinder the progress. However, we can still plan and hope."

The city playground program is now under way and the Benton street playground is doing double duty for the present. It is hoped that there can be swimming in the near future. "If enough children sign up for the swimming it might be possible, but this, unlike the other facilities, is not a public affair and maintaining a place to swim must be financed by means other than public taxes."

Frame advised all persons wishing to sign up for swimming should do so immediately, for then, and only then, can it be definitely decided whether or not it will be added to the program.

The program for next week includes the pet and hobby show, beginning of playground league schedules, making plans for the flower show to be held the following week, hiking trips, physical fitness test practice, story-telling for small children each day, practice tournaments and contest games, playground tournaments and general handcraft projects.

## Virginia Kirke Weds Philip Justin Monnig In Des Moines at St. Augustin's Church

Before an altar decorated with yellow roses, Virginia Kirke, daughter of Mr. and Mrs. B. M. Kirke of Des Moines, became the bride of Philip Justin Monnig, U.S.N.R., son of Mr. and Mrs. J. T. Monnig, 702 N. Van Buren street, Tuesday morning at 9 o'clock in the St. Augustin's church in Des Moines. The Rev. F. J. O'Connell read the vows of the single ring service and offered the nuptial high mass.

The nuptial selections sung by the choir were "Ave Maria," "The Our Father," and "Oh Lord I Am Not Worthy."

The bride's sister, Martha Ann Kirke of Des Moines, attended her as maid of honor, and James Patrick Duffy of Iowa City served as best man. The bride's brother, Richard Kirke and the bridegroom's brother, Jack Monnig, served as acolytes at the mass, and

Ben Merritt and Fletcher Miller, both of Iowa City, were ushers.

Wears Dressmaker Suit  
The bride, who was given in marriage by her father, was attired in an orchid pink dressmaker suit of light weight wool with navy blue and white accessories. A white orchid centered on a white prayer book completed her ensemble.

The maid of honor chose a yellow gold dressmaker suit of light weight wool with white accessories and carried a colonial nosegay. For her daughter's wedding, Mrs. Kirke wore a pale green dress complemented with black accessories and wore a corsage of Tallisman roses. The bridegroom's mother chose a light blue silk suit which was complemented by a corsage of gardenias.

After the ceremony, a wedding breakfast for 50 relatives and friends was held in the Green room of Hotel Ft. Des Moines. The serving table, decorated with pink and white snap dragons, was centered with a three-tiered wedding cake topped with a miniature bride and bridegroom.

Later the couple left on a wedding trip to Chicago, and for traveling the bride selected a beige suit complemented with navy blue accessories and an orchid corsage.

University Graduates  
The bride attended Roosevelt high school in Des Moines and also St. Joseph's academy and is a graduate of the University of Iowa, where she was affiliated with Phi Gamma Nu honorary commerce sorority. She has recently been employed by the Equitable Life Insurance company of Iowa.

Mr. Monnig attended the Ottumwa Catholic Central high school, received his B.A. degree from the University of Iowa, is now a senior in the university college of medicine, where he is affiliated with the Alpha Kappa Kappa, medical fraternity.

After July 1, the couple will be at home at the Piper apartments in Iowa City.

Out-of-town guests at the wedding were Mrs. Paul Porter of Neola and Mrs. Vincent Green of Council Bluffs, both of whom are aunts of the bridegroom.

## Learning to Speak— Business Men, Too

Business men enrolled in the summer management course at the university have one thing in common with other Iowa students—speech courses.

The ability to speak well is an invaluable aid to the man in business in oral communication of ideas, so the special course in public speaking is being offered. Effective business speaking, reading of reports and vocabulary study are being stressed.

The course is under the direction of Prof. Lester Thossen who has had an extensive experience in giving practical training in this subject to people in industry, as well as to college and university students.

The university's high-fidelity electrical recording apparatus will be used to make speech recordings for those enrolled in the course. The recordings will then be analyzed to suggest possible improvements in the oral presentation. Forums and group conferences will be broadcast over the university radio station as a laboratory for the public speaking work.

## Brown Will in Court

The will of Joseph H. Brown, who died May 25, was admitted to probate by Judge Harold D. Evans in district court yesterday.

Florence Brown, wife of the deceased, was appointed executrix without bond.

Messers, Hamilton and Cahill are the attorneys.

## Red Cross Board Reviews Service Given During May

Tuesday night's Red Cross board meeting was devoted to reports on service rendered during the month of May. Mrs. Charles Whipple, chairman of the home service committee, discussed the transient program in Iowa City.

Mrs. Whipple said, after interviewing various people connected with service organizations in Iowa City, "the impressions I received was that people are interested in helping the returning veterans and others, and that some planning might be done to advantage if it is needed. We plan to continue with interviews of additional representatives of community organizations, future study of the problem in our local chapter and setting up recommendation for community action."

It was reported also that a total of 267 cases were considered, during the month of May, and that \$1,236.64 was used to finance home service grants and loans, administration expenses and salaries, junior Red Cross and home nursing. Six hundred and thirty-two dollars and thirty cents was sent to the national disaster committee.

Mrs. Lorna Mathes, executive secretary of the Iowa City chapter, gave a report on her services for the national disaster project and also gave the details of a case history.

Frances Camp, head of the university placement bureau, gave a talk on Red Cross personnel. Miss Camp formerly was assistant director of national Red Cross personnel, of the midwestern area in St. Louis.

## Paris Cleaners Moving To New Location On Iowa Avenue

The Paris cleaners, now located at 115 Iowa avenue, will move to 121-123 Iowa avenue soon, according to Albert Graham, proprietor.

The building at the new location is being remodeled, with plans calling for an entire new front of glass and buff-colored brick. The interior of the building will also be remodeled with new office fixtures and furnishings.

## Sarong Bathing Suit Is Happy Idea That Saves Money for More War Bonds

You'll be happy and free as all outdoors in a sarong bathing suit. A bra top and side-wrapped skirt are ideal, done up in brilliant tropical print. There's fun plus personal satisfaction in creating your own beach fashions. And, besides, they are so inexpensive that before long you will be saving extra War Bond money.

## Suggs Falls To Germain

### Two Iowans Advance To Quarter Finals; Betty Jameson Beaten

By JERRY LISKA

INDIANAPOLIS (AP)—One medalist stumbled and the other, defending champion Babe Didrickson Zaharias, of Los Angeles, had to turn on extra-hole pressure to survive in the second-round of the 16th annual Women's Western Open golf tournament at Highland Country club yesterday.

Mrs. Zaharias got a terrific scare from lightly-reckoned Jean Hopkins of Cleveland, Ohio before winning 1 up on the 20th hole in the feature skirmish of yesterday's eight-match session.

Co-Medalist Falls

The other co-medalist, Louise Suggs of Atlanta, Ga., succumbed to the long-driving Dorothy Germain of Philadelphia, 1944 runner up, 6 and 5.

Mrs. Didrickson's quarter final opponent tomorrow will be veteran Dorothy Kirby of Atlanta, Ga., who had the day's most decisive victory, a 7 and 6 conquest of Alice O'Neal of Indianapolis.

Professional Beaten

Only one of the two professional entries survived the second round. Betty Hicks of Chicago had to struggle for a 2 and 1 triumph over Betty Mims White of Dallas, while Betty Jameson of San Antonio, who recently turned pro, bowed to youthful Carol (Babe) Freese of Portland, Ore., 1 up in 19 holes.

Two Iowans were victorious. Ann Casey of Mason City edged Sally Sessions of Muskegon, Mich., 2 and 1, and Phyllis Otto of Atlantic City nipped Peggy Kirk of Findlay, Ohio, 1 up. Mrs. Albert Becker of Englewood, N. J., grabbed the eighth quarter final berth with a 4 and 2 win over Mrs. Alfred Bruno of New Rochelle, N. Y.

Mrs. Zaharias appeared headed for an easy win by taking the first four holes with a pair of birdies and two pars. She rounded the first nine three up with a par 37.

Out of the Rough

Miss Hopkins, a graduate of Smith college, came to life in the back nine, however, and trimmed Babe's advantage to one hole with a birdie three on the 17th where she holed a 20-footer. The young Clevelander then reached the 402-yard 18th green in two and carded a birdie four to even the match. Miss Hopkins matched Babe with a par four on the 19th, but her driver went awry on the 20th and she took a six while Babe came out of the rough twice for a par five.

Miss Germain did the day's fanciest shooting with two under par for the 13 holes she played against the outclassed Miss Suggs. The Philadelphia miss, accompanied by her fiancé, Lieut. Mark Porter, went six up in the first seven holes.

Miss Germain today encounters Miss Hicks in the ranking lower bracket scrap.

Miss Jameson, who won both the Western Open and Amateur in 1942, couldn't match the deadly-accurate chipping of Miss Freese, making her first tournament start outside her home state of Oregon. The latter evened their match with a birdie four on the 18th and then matched par on the 19th to win.

## Washington Downs Philadelphia, 7 to 5 In Comedy of Errors

WASHINGTON (AP)—Washington made it three in a row over Philadelphia as Mickey Haefner outkicked Buck Newsum tonight for the 7 to 5 decision in a comedy of errors. Philadelphia rang up five miscues and the Senators made one.

The Athletics went out in front in the sixth when they counted all their runs. George Kell singled, and Bobby Estalella's single brought him home after he had moved up. Doubles by Irving Hall and Greek George added to the scoring.

Washington regained the lead in their half featured by singles off the bats of Harold Cliff, Rick Ferrell and George Case and George Myatt's triple.

A floating seaport supplies our fighting forces off the Japanese homeland with everything from ice cream sodas to 16-inch shells.

## Passeau Tames Pirates, 5 to 3 For Sixth Win

CHICAGO (AP)—Phil Cavarretta and Claude Passeau of the Chicago Cubs combined their talents here yesterday to hand the Pittsburgh Pirates their fourth straight defeat, 5-3, before 10,123 fans.

Cavarretta's first-inning homer into the right field bleachers, with Don Johnson on base, aided in the difference in the final tally. Passeau, who came to the rescue of Bob Chipman in the sixth after Babe Dahlgren, Pirate first-sacker, had hit a homer into the left field bleachers to tie the score, pitched hitless ball the rest of the way.

For both Cavarretta and Dahlgren, the round-trippers were the third of the season.

The Cubs were off to a 3-0 lead in the third inning, but the Pirates came back to score a run in the fourth on a single by Johnny Barrett, two walks and a fielder's choice. They scored again in the fifth when Al Lopez walked, Max Butcher doubled to left and Lee Handley singled. Dahlgren's homer tied the count, but the Cubs came back in the last of the sixth to take the lead when Len Merullo doubled, Passeau singled and Merullo scored on Stan Hack's fielder's choice.

Andy Pafko wound up scoring for the Cubs when he walked, stole second and came home on Peanut Lowrey's single.

## Navy Enlisted Spills George's Ten, 33 to 10

Navy Enlisted climbed into a share of the top berth of the City softball league last night by slaughtering George's Standard Service, 33 to 10. The win gave the sailors a record of four wins and one loss in league play. Complete Auto and Navy Enlisted are now tied for first, with Bremers and William's Delta Sigs close behind.

The Navy teed on C. Phillips, George's hurler, in the first inning for four runs on only one hit. They continued their assault in the second with 12 runs on 8 hits; posted 11 more tallies in the fourth, 3 in the fifth, and 3 in the sixth.

Navy Enlisted's power hitters had a field day as they slammed out 21 hits, including 5 round-trippers. George's collected 15 hits off the hurling of Coulson, but some fancy fielding by the Navy ended several George's scoring threats.

The record of 22 runs in one game, set Tuesday night by Complete Auto, was night shattered by Navy Enlisted's 33 tallies. The previous high before Complete Auto's run record Tuesday night was 14 set by Navy Enlisted against the Sigma Chi ten.

The loss sent the George's ten reeling into the basement of the league, tied with Sigma Chi with 5 losses and 0 wins.

Line score:  
Navy Enlisted 4-12-0 11-3-3 0-33-21 0  
George's Standard 0-5-0 0-4-0 1-10-15 2

## Second Guess

Final Standings Hawk's New Pole Vault

By ROY LUCE  
Daily Iowan Sports Editor

IN GLANCING over the final official Big Ten standings, it's easy to see why the Wolverines retained their undisputed crown. One word describes their successful season—PITCHING.

In Louthen and Bowman they had the two outstanding pitchers in the conference. Both ended the season with four wins and no losses, indicating that the Wolverines were very proficient in this department.

There has been nothing vicious or personal about it at all, and we'd give any other team the same treatment under similar circumstances. We'd be the first to give a cheer if the Phils could shake themselves up into the first division.

However, this attempted slapstick comedy isn't funny to the guy who gets hit by a custard pie. In this case he is the Phillie fan, and no cracks, please, about a Phillie fan being three swinging strikes. We'll let this fan—Corp. Joseph A. Schmid, stationed in Tampa, Fla.—defend his club.

"After all," he writes, "The Phils have had some good years in the past—not too many I'll admit, but enough that they shouldn't be made synonymous with an eighth-place finish. I saw my first big league game, a Phils-Reds double header, when I was about 8, and I've been a rabid fan ever since. I've sweated them out in the old Baker bowl and in Shibe park, and have never regretted my loyalty. We've had good players before and we'll have 'em again. Take a look at some of these former Phils—Dick Bartell, Dolph Camilli, Chuck Klein, Curt Davis, Claude Passeau, Jimmy Wilson, Bucky

Only one Hawkeye of the regular squad managed to hit above the .300 mark, Jack Spencer compiling a .414 mark, which earned for him the honor of the third highest hitter in the conference. Wilmer Hokanson turned in a .500 average, but he was at bat only four times, thereby making him ineligible for the top spot among the leaders. Jack Wismeier, reserve first baseman, managed to end up with a .300 average too, but played in only four games and was at bat only ten times.

What happened to the University Veterans Association ten in the City softball loop Tuesday night is a mystery that will probably never be solved. Complete Auto had a field day in slamming out a 22 to 8 victory, which by the way, is a record for the season in runs scored in one game. The previous high was held by Navy Enlisted when they downed the Sigma Chi aggregation, May 31, 14 to 1.

At any rate, the defeat erased any hopes or designs that the Vets might have been entertaining about the first half title. At present they have now won two and lost three, while four teams are still in the thick of the race with only one enlisted. Complete Auto and Navy Enlisted are leading the pack with four wins and one setback apiece. Bremers and William's Delta Sigs are close behind with three wins and one defeat.

WHEN THE IOWA Hawkeyes got Charley Mason of Muscatine, they not only got one of the better basketball players of the state, but one of the best pole vault performers in the high school circle of the past season.

Mason is the boy that gave Tug Wilson of City high so much competition. In fact, the two split in their meets with each other throughout the season—each winning three and losing three.

Mason holds a top of 11 feet, 8 inches in high school competition, and with the tutoring of Coach George Bresnahan, should be able to increase his height total considerably by the time the Big Ten season rolls around. At any rate, he will give the Hawks a pole vaulter of some merit for the first time in several seasons.

Adelared Lamoureux' Momo Flag at Suffolk Downs track beat out Ruth Howie's Clansman by a head to win the \$2,500 Middlesex Purse. Oak Hill Stable's Boy Soldier was third. Momo Flag paid \$8.80 for \$2.

H. L. King's Bolo Tie, a \$19.80 for \$2 shot, took the six-furlong feature at Lincoln Fields by three-quarters of a length from Hyman Friedberg's favored Harriet Sue. S. D. Sidell's St. Jock was third.

PHILADELPHIA (AP)—Willie Joyce of Gary, Ind., smashed another obstacle from his path to the lightweight boxing crown last night with a 10-round decision over Philadelphia's Dave Freeman at the outdoor arena stadium.

The wily Gary Negro, scaling 136 pounds, fresh from his third triumph over NBA lightweight titlist Ike Williams of Trenton, N. J., continually outpunched his less experienced opponent, who had a four and one-quarter pound advantage.

# Hawkeye Football Team To Travel Less Miles

## Phillies Rate A Break

By WHITNEY MARTIN

NEW YORK (AP)—From time to time, sometimes as occasion didn't warrant, we have poked a little fun at the Phillies, prompted a little by the fact it's rather difficult to get too serious about a team that is 19 games out of first place with the season only about two months old, and that has finished no higher than seventh in the last dozen years.

There has been nothing vicious or personal about it at all, and we'd give any other team the same treatment under similar circumstances. We'd be the first to give a cheer if the Phils could shake themselves up into the first division.

However, this attempted slapstick comedy isn't funny to the guy who gets hit by a custard pie. In this case he is the Phillie fan, and no cracks, please, about a Phillie fan being three swinging strikes. We'll let this fan—Corp. Joseph A. Schmid, stationed in Tampa, Fla.—defend his club.

"After all," he writes, "The Phils have had some good years in the past—not too many I'll admit, but enough that they shouldn't be made synonymous with an eighth-place finish. PHILADELPHIA (AP)—Those unstopped Brooklyn Dodgers cracked out a double victory, 4-2 and 8-1, last night over the Philadelphia Phillies to pull three full games in front of the Pittsburgh Pirates in the National league flag chase.

Branch Rickey watched his charges stretch their victory string to ten straight games as Art Herring recorded his first victory of the year with a five-hitter in the curtain raiser and veteran Curt Davis gave up six safeties to notch his sixth triumph in the nightcap. A Shibe Park crowd of 10,473 saw rookie Eddie Basinski run his

## Squad to Go By Coaches

Longest Trip Will Be to Columbus, Ohio, For Ohio State Contest

Top position in the Western conference in one football department—saving of rail travel miles—already has been awarded to the University of Iowa.

Hawkeyes will travel 927 fewer miles in 1945 than in 1944, according to estimates of the Big Ten Service bureau. The Iowa total for the trips to Columbus, Ohio; Lafayette, Ind., and Champaign, Ill., is 7,622 as compared with 3,689 for the four jaunts of last season.

Figuring passenger miles on the basis of a party of 35 men, Iowa will save 32,340 miles over the 1944 mark. Some of the other savers are Minnesota, 24,080; Illinois, 20,930; and Michigan, 14,700.

As in 1943 and 1944, Iowans will make their trips by coaches and most of the travel will be in the daytime. For example, the longest trip, that to Columbus for the Ohio State game of Oct. 6, can be made between 9:15 a. m. and 10 p. m. The trips to Lafayette to play Purdue Oct. 13 and to Champaign for the Illinois game of Nov. 10 will be made with a Friday night layover in Chicago.

Only the three conference games are included in the mileage figures. Iowa also makes a trip to South Bend to play Notre Dame Oct. 27 and to Lincoln for the season's final with Nebraska Nov. 24. Both of these trips can be made conveniently with a Friday night stopover in Chicago and Omaha, respectively.

consecutive game hitting string to 13 games, connecting safely in both contests of the two-night twin bill.

The Phillies saw their two-game winning streak, equalling their longest consecutive victory record of the season, go by the boards when Goody Rosen's line single brought in Herring with the tie-breaking run in the fifth inning of the opener. The Brooks added a pair in the sixth and were never headed.

NEW YORK (AP)—William Helis' York, Elpis, scored one of the most surprising upsets of the New York racing season yesterday when she won the 29th running of the Coaching Club American Oaks before 25,121 at Belmont Park.

Col. C. V. Whitney's entry of Monsoon and Recce was backed into 1 to 4 favoritism with \$119,485 out of the total of \$166,863 wagered in the straight pool going on the pair.

In the end it was only Elpis, however, as she pulled away from Monsoon in the final furlong to win by three lengths and pay \$15.10 for \$2. Elpis raced the mile and three-eighths in 2:18 2/5 over a fast-drying track and earned a purse of \$15,275. She was ridden by Johnny Adams.

In a two-horse duel, Smiling Lass, owned by George Perr of Upper Marlboro, Md., outran the Edgell Stable's Black Object to take the mile and 70-yard Kennett Purse at Delaware Park. Smiling Lass, an \$18.80 for \$2 outsider, led all the way to finish three-quarters of a length ahead of her only challenger. Black Object took the place by three lengths over Brookmade Stable's Pressure.

Adelared Lamoureux' Momo Flag at Suffolk Downs track beat out Ruth Howie's Clansman by a head to win the \$2,500 Middlesex Purse. Oak Hill Stable's Boy Soldier was third. Momo Flag paid \$8.80 for \$2.

H. L. King's Bolo Tie, a \$19.80 for \$2 shot, took the six-furlong feature at Lincoln Fields by three-quarters of a length from Hyman Friedberg's favored Harriet Sue. S. D. Sidell's St. Jock was third.

PHILADELPHIA (AP)—Willie Joyce of Gary, Ind., smashed another obstacle from his path to the lightweight boxing crown last night with a 10-round decision over Philadelphia's Dave Freeman at the outdoor arena stadium.

The wily Gary Negro, scaling 136 pounds, fresh from his third triumph over NBA lightweight titlist Ike Williams of Trenton, N. J., continually outpunched his less experienced opponent, who had a four and one-quarter pound advantage.

PHILADELPHIA (AP)—Those unstopped Brooklyn Dodgers cracked out a double victory, 4-2 and 8-1, last night over the Philadelphia Phillies to pull three full games in front of the Pittsburgh Pirates in the National league flag chase.

## Hal Newhouser Stars as Tigers Spill Tribe, 5-0

DETROIT (AP)—Lefthander Hal Newhouser, Detroit's 29-game winner of 1944, made his 10th victory of the season his third shut-out yesterday, blanking the Cleveland Indians 5 to 0 on five hits, two of them in the ninth.

Newhouser, registering his fifth successive pitching triumph, batted in the first three Detroit runs with a double and a single, doubling in brass to help the Tigers hike their American league lead to 2 1/2 games over the idle New York Yankees.

Roy Cullenbine's sixth home run of the year accounted for the fourth Tiger run and a triple by Jim Outlaw, who hit three for three, set up the other.

## Boston Braves Wallop New York, 15-10

NEW YORK (AP)—Amassing 16 hits, at least one in each inning, the Boston Braves walloped the New York Giants, 15 to 10 last night to send the New Yorkers reeling into fifth place, half a game behind Chicago. For the Giants, it was the nineteenth loss in the last 24 games.

Joe Mack led the Braves' attack on four Giant hurlers, batting in six runs with his third homer, a double and a single. Charley Workman contributed four singles and Phil Masi and Tommy Holmes three each. Holmes ran his batting streak to 17 games in lifting his league-leading average to .385.

## Walsh Relates—Kinnick Gesture

OMAHA (AP)—An anecdote from the life of the late Nile Kinnick Jr., University of Iowa all-American football star of 1939, who lost his life when his plane crashed into the Atlantic, was related yesterday by Christy Walsh, head of the all-America football board.

At a luncheon given in his honor, Walsh told how he had once taken Kinnick to visit a New Jersey high school youth who had lost his leg in an accident.

Walsh said the boy looked up at Kinnick's All-America sweater and said: "Gee, I had always dreamed that someday maybe I would get one of those. But now I never will."

He said Kinnick replied "Oh, yes you will," and pulled the sweater over his head. "Here, this is your sweater."

Kinnick's father, Nile Kinnick Sr., was a guest at the luncheon.

### U-High Principal to Be Interviewed Today—

WSUI (910) CBS-WMT (1540) CBS-XXXL (1540)  
 E. P. Linn, principal of University high school, will appear on the Views and Interviews program at 12:45 this afternoon to discuss the summer workshop in secondary education. The purpose of the workshop to be held July 9-27, the participants and the problems to be considered in it will be discussed on this program. Jerry Feniger of the WSUI staff will conduct the interview.

**Industrial Management**  
 "What Is Modern Industrial Management?" a special discussion program will be broadcast this evening at 8:30. H. W. Hawn of Houghton, Mich., will be chairman of the discussion group.

**State Medical Society**  
 "Asthma and Hay Fever," written by Dr. George W. Rimel of Bedford will be read by Mel Baker of the WSUI staff on the Iowa State Medical society weekly broadcast to be presented at 3 o'clock this afternoon.

**Services Today For B. Zinkula**  
 Funeral services for Bernadine Zinkula, 22, who died Tuesday afternoon at a local hospital, will be held today at 9 a. m. in St. Patrick's church. She resided at 431 S. Dodge street.

She is survived by her mother, Mrs. Frances Zinkula; one sister, Mrs. Paul Donovan of Los Angeles, Calif.; one brother, Ray Zinkula, overseas, and one grandmother, Mrs. Mary Smith of Iowa City.

The body was taken to the Hohenstuhle mortuary where the Rosary was said last night. Burial will be in St. Joseph's cemetery.

One 80-mile pipeline constructed by the army in Italy handles 4,500 barrels of gasoline daily.

### Students in Hospital

 Luis Cantarero, C of Managua, Nicaragua—Isolation  
 Berdena Wells, N1 of Montezuma—2W  
**Visiting Hours**  
 Private Patients 10 a. m. to 8 p. m.  
 Ward Patients 2-4 p. m. and 7-8 p. m.  
 No visitors in isolation ward.

### Burns Pleads Guilty To Gambling Charge

Raymond Burns, proprietor of Dunkel's tavern, pleaded guilty to illegal possession of gambling devices and was fined \$100 in police court.  
 He was arrested last Saturday night at his tavern, 292 S. Duquesne street, by local police officers.

### 407 Licenses Issued

The county recorder's office reported yesterday that 407 fishing licenses have been issued, 240 combination hunting and fishing licenses and 167 for fishing only.

### 27 Students Enroll In Speech Course

Twenty-seven students have already enrolled for the university's special instruction in speech and dramatics which will begin Monday, Prof. Franklin H. Knower of the speech department has announced.

Professor Knower said that it is still possible for others to enroll for the five-week term of instruction in speech and dramatics. The work is similar to that of the all-state high school groups which gathered prior to the war.

Instruction in fundamentals of speech, oral reading, public discussion, debate and radio speech will be provided in the speech program. Special attention will be given in debate to the 1945-46 national question for high school competition. Radio programs will be prepared and presented from station WSUI.

A high school play will be produced and radio programs given in the dramatics program which will include instruction in fundamentals of dramatic art, acting, production and radio dramatics.

Work in these units will be coordinated with work in the speech clinic, summer session plays and radio programs, Professor Knower said.

### L. R. Wilson Funeral Services Today at 2

Funeral services for Luther R. Wilson, 54, former Iowa City man who died Saturday night after a long illness, will be held today at 2 p. m. in the Oathout funeral chapel.

He is survived by his wife; two daughters, Ann, a student at the University of Iowa, and Carolyn at home; one son, Ralph of Monticello; one grandson, Luther Richard of Monticello; his parents, Mr. and Mrs. Cloyce Wilson of Iowa City; one uncle and one aunt.  
 Burial will be in Brick Chapel cemetery.

### Issue Three Licenses

Three marriage licenses were issued by the clerk of the district court yesterday. Those issued licenses were Irwin Albert Saucier and Marth Jeanne Huddleston, both of Iowa City; Cornelius Gouwers, Ames, and Edna Patzig, Iowa City, and Frank H. Sawyer, Iowa City, and Emma Laura Talmage, Eagle Grove.

Special use will be made of recordings, films and other modern teaching devices.

High school students interested in enrolling should contact Professor Knower in room 13, Schaeffer hall. The course ends July 27.

### HOOVER—

(Continued from page 1)

"There should be assurance given to these committees that so long as they follow the directions of the secretary of agriculture they will be immune from prosecution under the anti-trust laws.

6. If not already done, all of the legitimate packers, commission men, and retailers should be licensed and be required under that license to deal only with other licensed dealers and to carry out certain other policies. The railroad and trucking concerns should be required to transport these products only for licensed processors and dealers.

7. The secretary of agriculture by agreement with the livestock war committee should set ceiling and floor prices, with some tolerances, upon various grades of cattle, hogs, poultry, eggs and dairy products to be paid to the farmers at the nearest point to production. If done properly no subsidies will be required."

8. The packers and commission men should be directed to pay no more than these agreed ceilings and no less than the agreed floors.

The packers and commission men can be protected against gluts by the government purchasing.

9. The packers should be given

an over-riding "mark-up" over their cost of animals to cover their costs and a proper profit.

10. The commission men and the wholesale dealers should be given their usual trade commissions or a "mark-up" over prices paid by them.

11. The retailers should be given their usual "mark-up" over cost of their commodities to cover rent, labor and profit, and this too probably should be averaged over one month's business.

12. The secretary of agriculture "should instruct these national war committees that it is their responsibility to police their own trades."

"As a consequence under such a plan," Hoover said, "production will increase" and "the people will get their animal products for lower prices than they are paying today if black market and subsidies are taken into account."

1. Hold the extension of OPA to six months, with an understanding that congress will take another look at price and rationing operations next fall before any further continuation is granted.

2. A spelling out of the "fair and equitable" clause to require prices permitting "fair" profits for the "average" manufacturer in each line of production.

### BULLETIN

(Continued from page 2)

**CLASS SCHEDULES**  
 All students registered in Child Welfare 5:254, Problems in Dissemination, and Journalism 19:254, Science Writing I, should leave copies of their class schedules in W613, East hall.

PROF. RALPH OJEMANN

### Summer Speech Clinic Aids 50 Persons

Aid toward better speech now is being provided in the university's summer speech clinic to more than 50 persons, Prof. Wendell Johnson, director of the clinic, said yesterday.

The clinic opened Monday and corrective work continues to July 27 for school children and adults. Patients come from various sections of the state.

Stutterers are in the majority, with 22, and there are a dozen persons with voice and articulation disorders. Other patients include 6 with speech and voice defects associated with impaired hearing, 6 cleft palate and 4 spastic paralysis.

A few more enrollees are expected this week, to fill the clinic to capacity, Professor Johnson declared.

### SHE LIVED TO FIGHT AGAIN

A VIEW of the mangled bridge structure of the USS Lamson, U. S. destroyer, shows damage done by a Jap suicide plane that crashed amidships in Pacific action. A few seconds after her arrival at a Puget sound pier, shipyard workers were swarming over the damaged ship, preparing to send her back into battle as good as new. A tricky job was the removal of a load of torpedoes from her twisted hull, but Puget sound yard experts did it. This is an official United States Navy photo.

### Inter-American Affairs Conference to Open Today in Old Capitol

#### Program Brings Guest Artists to Campus For 3-Day Session

The third annual conference on inter-American affairs, co-sponsored by the University of Iowa and the office of inter-American affairs, will open today with registration in Old Capitol.

Students, faculty and townspeople are cooperating in the conference program, which brings to the campus Rafael de Silva, Chilean pianist; E. A. Gilmore Jr. of the division of River Plate affairs of the state department, and Dean Robert Redfield of the University of Chicago. A lecture by Dr. George V. Denny Jr., first in the summer series, will also be a highlight of the inter-American conference program.

Beginning this afternoon with inspection of conference exhibits of pamphlets, bulletins, posters and books on Latin America in the senate chamber of Old Capitol, the program for the conference continues through Saturday:

**Thursday, June 21**  
2 p. m. Inspection of conference exhibits.  
8:15 Piano recital, Rafael de Silva, Iowa Union lounge.

**Friday, June 22**  
**Economic and Cultural Relations**  
Presiding: Prof. Paul R. Olson, college of commerce.

10 a. m. "Postwar Economic Outlook for South America," E. A. Gilmore Jr.; senate chamber, Old Capitol (to be broadcast over station WSUI).

10:45 Questions and discussion.  
11 a. m. "Race and Class in Latin America," Dean Robert Redfield; senate chamber, Old Capitol (to be broadcast).

11:45 Questions and discussion.  
12:15 Inter-American affairs luncheon, Hotel Jefferson, main dining room. Presiding: President Virgil M. Hancher.

12:45 "Indian Civilizations in the Valley of Mexico," Prof. E. K. Mapes, romance languages department; Hotel Jefferson.

**Education**  
Presiding: Prof. Ernest Horn, college of education.

2 p. m. Symposium: "What Should Students Learn about Latin America?" Senor de Silva, Santiago, Chile; Mr. Gilmore, Washington, D. C.; Dean Redfield, Chicago; Prof. A. Craig Baird, speech department; Professor Mapes; Prof. Harold H. McCarty, college of commerce; Professor Olson; Mabel Snedaker and Katherine Hunt, University elementary school, and Prof. L. A. Van Dyke, college of education.

8:15 "Is This America's Century?" George V. Denny Jr.; west front, Old Capitol (Macbride auditorium if weather is unfavorable). Presiding: Dr. M. Willard Lampe, director of the school of religion.

**Saturday, June 23**  
9 a. m. Round table on inter-American affairs, George V. Denny Jr., leader. Presiding: Doctor Lampe; senate chamber, Old Capitol.

10:30 Panel discussion—"Inter-American Understanding Through Cultural Cooperation," Margaret Ems, counselor to foreign students, in charge. Presiding: Prof. Bruce Mahan, director of the extension division; senate chamber, Old Capitol (to be broadcast).

Participants in the last panel discussion will be students from Latin America now enrolled at the University of Iowa and a representative of the Pan American league of Iowa City, Mrs. Karl E. Leib. Students are Hilda Chen-Apy, Costa Rica; Jaime Montana, Colombia; Berta Pareja, Peru; Dr. Paulo de Barros Franco, Brazil; Carlos Troetsch, Panama, and Leonidas Saavedra, Panama.

Conference participants, visitors and the public may attend the conference luncheon tomorrow noon. Reservations should be made at the alumni office (X8414) or at the conference registration desk in Old Capitol by 5 o'clock this afternoon.

### Specifications for Late President's Memorial Announced

NEW YORK (AP)—A simple white tombstone of Imperial Danby marble, cut to specifications detailed by the late Franklin D. Roosevelt in his own handwriting, will be placed at his grave in the rose garden at Hyde Park.

The memorandum describing the stone, dated Dec. 26, 1937, was found among the late president's effects, the office of Basil O'Connor, his former law partner, said yesterday in releasing it. It read:

"A plain white marble monument—no carving or decoration—to be placed over my grave, east and west, as follows: length eight feet, width four feet, height three feet. Whole to be set on marble base extending two feet out from monument all around—but said base to be no more than six inches from the ground.

"I hope that my dear wife will go on her death be buried there also

and that the monument contain no device or inscription except the following on the south side:  
Franklin Delano Roosevelt  
1882-19—  
Anna Eleanor Roosevelt  
1884-19—"

### Capt. John C. Paulus Visits in Iowa City Before Returning to Duty at Ft. Lewis, Wash.

Capt. John C. Paulus, graduate of the University of Iowa, is visiting his mother, Mrs. Martha W. Paulus, 1039 1/2 East College street, until Thursday of this week. He is stationed at Ft. Lewis, Wash.

Pfc. Donald W. Irwin, son of Mrs. Eleanor Irwin, 118 East Bloomington street, has been promoted to corporal according to word received by his mother. Corporal Irwin is stationed at Eglon field, Fla. Before entering the service he was employed by Curtis-Wright corporation, St. Louis, Mo.

Pvt. Donald C. (Bucky) Walter, a member of the 232nd F. A. battalion of the famous 42nd infantry division, has recently been promoted to private first class. He is the brother of Mrs. Lowell Chally, 820 S. Van Buren street. Pvt. Walter joined the army in May, 1944, and has been a member of the Rainbow division since September, 1944. He now is serving with the Seventh army in Germany. He received the Purple Heart for wounds sustained on March 23, 1945. Private Walter graduated from City high school in June, 1943, and attended the university before entering the army. His brother, Pfc. Wesley Walter, is also in the service.

Leon Frederick Krouch, 23, machinist's mate, second class, USNR, of Lake View, is serving aboard a destroyer of the Atlantic fleet. He also has seen service in the Pacific. He wears the American theater, Asiatic-Pacific theater, and European-African-Middle Eastern theater ribbons, with one star on the latter.

He graduated from Lake View high school in 1939 and attended the University of Iowa for one year. He is the son of Mr. and Mrs. K. E. Krouch of Lake View.

Staff Sergt. William J. Bauer, 21, of Iowa City, gunner of a B-17 Flying Fortress of the 95th bombardment group, has been awarded the Second Oak Leaf cluster to the Air Medal for "meritorious achievement" while participating in Eighth airforce bombing attacks on vital industrial targets in Germany, an don Nazi airfields, supply dumps and gun emplacements in conjunction with ad-

#### Play Nights—

## Open To All

Weekly play nights, beginning Saturday will be open to all university students and also to the general public. Sponsored by the women's physical education department, the recreation program will feature outdoor sports as well as indoor table games and folk dancing.

The play nights will have special interest for school administrators or school recreation programs, said Florence Owens, visiting instructor in the department and director of the project.

Activities will begin outdoors on the hockey field at 7 p. m. Folk dancing, social dancing and table games will start at 8 p. m. inside the gym.

In case of rain, all activities will be held inside.

#### Stitch and Chatter Club

The Stitch and Chatter club will meet at 2 o'clock tomorrow afternoon in the home of Mrs. Paul Langenberg, route 5. The group will spend the afternoon sewing. A social hour will be held afterwards.

#### HAPPY 'IKE' GREET'S WASHINGTON

GEN. DWIGHT D. EISENHOWER, left, with Gen. George C. Marshall, army chief of staff, waves to the crowds at Washington, D. C., National airport as he starts on the first leg of his triumphant tour of the capital city.

AMONG THE FIRST group of men to be sent home from the E. T. O. for discharge under the point system is Lloyd M. Tomlin, Iowa City, 122 points, second from left, who is seen conversing with other discharges, Pvt. James E. Woodhead, 103 points, Tech. Sergt. Kenneth D. Blomberg of Storm Lake, 93 points, and Pvt. Herbert C. Knocke. They are awaiting transportation to the United States at a camp in Normandy. Blomberg is shown displaying a souvenir pistol he liberated in Germany.

#### Lloyd Tomlin Reminisces—

## 'Mister' Is His Rank

By JEAN FOWLER  
Daily Iowan Staff Writer

"It's kind of unusual to walk down a street and not have to crawl across it," said former Sergt. Lloyd M. Tomlin, back in Iowa City after 16 months overseas duty as a tank commander, supervising and directing the activities of a light anti-tank gun crew in combat operation. Then too, the sergeant is still a bit unaccustomed to his new title "Mister."

Tomlin was among the first group of men to be sent home from the European theater for discharge under the point system, with 122 points. He left Le Havre, France, May 24 for the United States aboard a ship carrying liberated airmen and wounded. He is now staying with his grandmother, Mrs. Annie Tomlin, 817 E. Bloomington street.

The former soldier entered the service February, 1941, and began his training with the Second armored division in Ft. Benning, Ga. He then went with the Third armored division at Camp Polk, La., an left for overseas duty from Camp Kilmer, N. J., in February, 1944, after completing training with the Fifth armored division in Camp Cooke, Calif.

Action in Normandy  
Arriving in Europe, he saw action at Normandy, northern France, Ardennes and central Europe. He wears the Good Conduct medal, Pre-Pearl Harbor ribbon, European-African-Middle eastern theater ribbon, five bronze battle stars, the Purple Heart with Oak Leaf cluster, the Bronze Star and the Silver Star.

"The remarkable thing is that I didn't see a single Iowa City man after I went overseas, or even while I was training in the states after I left the Third tank division," said the discharges. He stated the men from Iowa City who centered the service with him either went into the infantry, field artillery or stayed with the Third

and he didn't see them again.

#### Captured by Germans

Tomlin told of his capture by the Germans for approximately 20 hours in December, 1944. He related how at the end of this time allied planes strafed the German position, and while the Germans were busy with anti-aircraft he "took it on the lam."

With regard to German prison camps, Tomlin described conditions as unbelievable which he saw during the liberation by his division of thousands of Russians and Polish prisoners. "You know, when you read and hear about all the stuff that's been going on you're inclined to be skeptical, well, we saw it and even after you see it, it's too horrible to believe." He made particular reference to a prison in one of the camps, a full-grown man weighing 50 pounds.

#### No Grenades Needed

Tomlin recalled with amusement a pamphlet they received before their trip home which stated "When you get back to the states these people that are civilized have an invention called the doorknob. All you have to do is turn it either to the right or left and the door opens. You don't have to use a hand grenade."

Concerning future plans, he says "Peace and quiet is fine for awhile but I miss all the fellows and want to get back."

After a brief rest he intends to join the merchant marine for further service for his country.

#### Episcopal Women

#### To Picnic Thursday

Members of St. Hilda's guild of Trinity Episcopal church will have a picnic Thursday at 5:30 p. m. in City park. Those who plan to attend are asked to call Mrs. Fred M. Putnam.

### Guest Pianist to Play South American Music

#### Debussy Also Included On Program Tonight By Rafael de Silva

Rafael de Silva

Music by Debussy and South American composers will make up the program which Rafael de Silva will present this evening at 8:15 in Iowa Union lounge. The Chilean pianist appears in the opening program of the inter-American affairs conference by arrangement with the Association of American colleges, New York City.

The program includes:  
Five Preludes (2nd vol.) 1910-1913 ..... Debussy  
Bruyeres  
La puerta del vino  
La terrasse des audiences du clair de lune  
General Lavine—eccentric  
Feux d'artifice  
Two Tonadas  
..... Humberto Allende (Chile) (Poema Tragico)  
(Domingo Santa-Cruz)

..... Heitor Villa-Lobos (Brazil)  
Two Pieces  
..... Alberto Ginastera (Argentina)  
Toccata  
..... Juan Jose Castro (Argentina)  
III  
Three Etudes 1915 ..... Debussy  
pour les Sixtes  
pour les Quartes  
pour les Arpesges composes  
Pour le piano 1896-1901 ..... Debussy  
Prelude  
Sarabande  
Toccata

Free tickets for the concert are available to students, faculty and the general public at Iowa Union desk and at the alumni office.

#### Fish Causes Trouble

PHILADELPHIA (AP)—More than 500 workers-tenants in a downtown building suffered through two hot days when their water system failed.

The water bureau couldn't locate the trouble.

A plumber found a 10-inch, two-pound catfish clogging the supply line.

The building superintendent advised the bureau the trouble had been corrected. "We won't charge you for the fish," he said the bureau commented.

#### Petersons Have Guest

Mr. and Mrs. William J. Peterson, 329 Ellis avenue, have as their house guest Sylvan Rembold of Chicago, nephew of Mr. Peterson.
