

Four Jap Cities Bombed by Superforts

Chinese Troops Seize Part of U. S. Airfield South of Liuchow

Recapture of Former Base From Japanese Reported by Chiang

CHUNGKING (AP)—Chinese troops battling for Liuchow have seized part of the former United States airfield south of the city and have captured a rail station in the western suburbs, the Chinese high command announced last night.

These gains in the struggle for the big south-central China rail hub were reported as Generalissimo Chiang Kai-Shek declared allied forces were preparing for the final blow against Japan.

Chiang urged that Chinese forces be equipped to carry the brunt of the fighting on the Asiatic mainland. He said that if this were done, the complete collapse of Japan might be achieved in one year, instead of the 18 months he otherwise estimated for the victory.

The Chinese leader said he believed United States landings on the China coast were necessary to open ports for supplies, and declared the sooner such landings came "the better."

The Chinese command said two sizeable Chinese columns were pushing on the city from the northwest, and had reached points six miles north and two northeast of Liuchow, a stronghold on the Kweichow-Kwangsi railroad 11 miles northwest of Liuchow.

A Chinese communique said reinforced Japanese troops counter-attacked southeast of Liuchow, but were repulsed, and that many enemy remnants had been mopped up northwest and southwest of the Kwangsi province city.

American headquarters announced United States 14th air force planes had bombed and strafed Chinese installations along an 850-mile front from northern Hunan province to Peiping, where an airfield was attacked.

On the east China coast, the Chinese high command said, the Japanese have withdrawn farther north along the Chekiang coastal highway from Wenchow. Two days ago Chinese troops occupied Linhai, 65 miles north of Wenchow, and 35 south of Ninghai, toward which the Japanese were withdrawing, the Chinese said.

Chiang, in his first general foreign press conference since 1941, declared American-trained Chinese divisions would be able to enter combat soon.

AFL, CIO Reach Agreements to End Ten Labor Strikes

Agreements to end major strikes in Detroit and in the glass industry in 10 cities were reached yesterday but still overshadowing the national labor scene was the threat of three railroad strikes.

An AFL-CIO jurisdictional dispute settled at Detroit had involved 40,000 workers and the CIO glass strike 17,000. Full compliance with the agreements would trim the national total of strike idle down to 35,000.

The CIO maintenance workers who had been on strike in the automobile city included 22,000 employees of Packard Motor Car company, 16,170 at three Ford motor company plants, and 7,500 at Budd Wheel company plants.

R. J. Thomas, international president of the CIO United Automobile Workers, said the International union directed "all workers to return to their plants without delay."

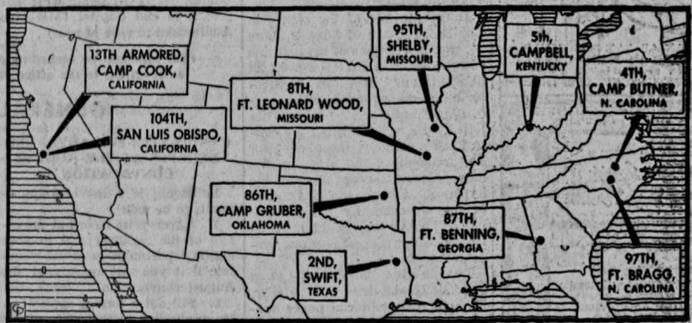

The dispute was between the CIO organization and the AFL principally over which union should handle certain types of re-conversion jobs at automobile plants.

Postal Rates Continue

WASHINGTON (AP)—Congress finally approved and sent to the White House yesterday legislation continuing for two years the temporary increases in first-class postage rates, including the 3-cent rate of out-of-town letters.

The 3-cent rate on local or in-town letters, by provision of the 1944 revenue act, is effective until six months after the end of the war.

RETRAINING AREAS IN U. S. FOR RETURNING YANKS

HERE ARE THE RETRAINING locations for the divisions back or scheduled to come back to the United States from Europe in the redeployment program. Records here and dispatches from overseas indicate that at least six of these divisions will arrive within the next five weeks.

Senate Approves Compromise—

Anderson Given Veto Over OPA

WASHINGTON (AP)—The senate last night beat down an attempt to send a senate-house agreement on price control legislation back to conference and approved the compromise 40-8.

Senator Wherry (R., Neb.) contended the legislation did nothing to assure the public greater supplies of meat and other scarce food but another Republican, Senator Taft of Ohio, said a move of Wherry to send the measure back to the conference would be futile.

The compromise, giving incoming Secretary of Agriculture Clinton P. Anderson veto powers over OPA price orders on processed foods and agricultural commodities, now needs house assent as the only remaining necessary congressional action.

There were predictions of a fight in that chamber, however, as an original chamber version of the legislation to extend price controls for a year after Saturday midnight had met drastic changes.

Most of these hotly-directed changes had been greatly modified under the compromise

reached in senate-house conference. Senator Wherry contended that the proviso respecting the new secretary of agriculture would take a "Philadelphia lawyer" to interpret.

The house, certain that price control would be continued for another year, despite the senate delay had earlier voted the agency \$174,500,000.

On the fast-developing food front, these were the day's other developments:

1. Clinton P. Anderson, New Mexico congressman who becomes agriculture secretary July 1 with vast powers over food, promised an immediate check on the criticized war food administration—"and a cleanup if necessary."

2. Representative Anderson (R., Minn.) author of a house-approved amendment to the OPA legislation which would have voided the nation's food larder, declared the house-senate compromise on the issue had "emasculated" the amendment.

3. The OPA had good news

about meat, announcing that the supply in July will be 5 per cent greater than in June. But, OPA added, this is not enough to cut ration values.

The \$174,000,000 appropriation for the OPA still must be acted on by the senate. An unsuccessful effort was made in the house to put the sum of \$180,000,000 to conform to OPA's budget estimate.

Anderson made his WFA "cleanup" and "cleanup if necessary" statement to newspapermen after a house appropriations subcommittee accused the food administration of responsibility for food losses running into millions of dollars, criticized WFA's warehouse practices, said its records were inadequate and incorrect and accused some officials of deliberately giving false information to congress.

The compromise gives the secretary veto power over the new food price orders, but removes any authority by the secretary over rationing. It eliminates the power for the secretary to void prior government food orders.

OPA Predicts More Meat During July

WASHINGTON (AP)—OPA yesterday predicted slightly more meat in July. At the same time it cut point values for cheese, but increased the ration cost of margarine and canned fish.

The point revisions are effective for the period from next Sunday through July 23, OPA said, adding that no downward adjustment for meat are included because the supply increase is only 5 per cent. Margarine goes from 12 to 14 points a pound, but the butter value is unchanged and current point costs for canned fruits and vegetables are being continued for the new ration period.

The increase for canned fish is two to three points a pound, resulting from a 35 per cent slash in supply. Such varieties as salmon, shrimp and tuna go from six to nine points a pound, while mackerel and sardines get a new value of six points, up two.

The July outlook, OPA reported, is for 81,100,000 pounds of pork a week as compared with 91,240,000 this month, and 10,030,000 pounds of lamb weekly, down 980,000 from the June average.

Six Marianas Isles Invaded

GUAM (AP)—Reconnaissance landings on six small northern Marianas islands by American Negro troops were disclosed Thursday.

These were scouting operations in the backwash of the American advance on Japan. Only one shot was fired during these landings. A native guide used his pistol to eliminate a Japanese who refused to surrender.

After clearing about 24 Japanese civilians and 38 natives from the six islands—Anathan, Saigran, Alamagan, Agrihan, Ascension and Magsaysay—the two platoons of Negro infantry and their guides returned south to Saipan.

United States Tenth army troops continued their mopping up operations on conquered Okinawa.

Men Return From Pacific SAN FRANCISCO (AP)—The largest southwest Pacific group of fighting men yet to be returned to San Francisco were on their way to separation centers tonight, soon to be out of the army and back in civilian life. There were 824 in the group, which debarked yesterday.

News Analyst to Lecture on Russia Tonight

"Russia and the San Francisco Conference" will be the topic of the lecture tonight at 8:30 by Carroll Binder, noted foreign news analyst who attended the conference as a newspaper representative. The lecture will take place on the west approach to Old Capitol if the weather is favorable; otherwise, Binder will speak in Macbride auditorium.

The news analyst will not conduct the Saturday morning round-table discussion which usually follows each lecture in the summer series, since he must return to Minneapolis immediately after his lecture tonight.

Editorial editor of the Minneapolis Star-Journal, Binder formerly was head of the Chicago Daily News foreign service. As a world-covering correspondent he

took a 25,000 mile flight in 1941 to Australia and other strategically situated parts of the southwestern Pacific area. Still active as a correspondent, he is in close touch with nerve centers of world affairs.

While a foreign correspondent, Binder covered wars and revolutions, major diplomatic, economic and disarmament conferences and the negotiations culminating in the reconciliation of church and state in Italy. He saw Europe wage war and attempt to make peace; he watched the rise of the totalitarianism and the coming of the second world war.

Binder's column interpreting the war, "The Trend of Foreign Affairs," has appeared in leading newspapers of the United States, Great Britain, Canada and South America.

Churchill Pledges Aid In War Against Nips

GLASGOW (AP)—Prime Minister Churchill yesterday pledged his full support to Britain's prosecution of the war against Japan regardless of whether he is returned to power in the general election July 5.

He told a crowd here that "the Americans stood by us nobly in the European struggle and we are going to stand by them in the Japanese war—and may our two nations always work together in a great bond of brotherhood."

Apparently striking back at critics who maintained his campaign tactics had cheapened the esteem he had gained as the nation's leader in the war against Germany, Churchill declared: "You can't expect me to stand aside and be a fluttering cherub, waiting to see which way the cat jumped and which was the safest way for me to come down."

Clement Attlee, leader of the Labor party, warned that organization's parliamentary candidates to beware of any eleventh hour attempts by conservatives "to stampede public opinion."

In a letter to Labor candidates, Attlee said "nothing would be more harmful to the future economic and social welfare of Britain than a victory by Churchill and his supporters."

In London, Sir William Beveridge, Liberal leader, attacked as a "hollow sham" the argument that British voters must back not only Churchill but all his supporters "in order that he may finish the job of the Japanese war . . ."

Truman to Confer With Alf M. Landon Today in Kansas City

KANSAS CITY (AP)—President Truman will confer here today with former Governor Alf M. Landon, 1936 Republican presidential nominee. Press Secretary Charles G. Ross announced last night.

The conference will take place in the president's temporary apartment in the Hotel Muehlebach at 4 p. m. today.

It will concern whatever subjects the former Republican standard-bearer may wish to take up with the president.

Connally Urges Charter Okay

Senate Applauds Plea For Early Ratification Of New World Plan

WASHINGTON (AP)—The usually-reserved senate burst into applause yesterday after silver-haired Tom Connally declared that future world peace may depend on its acceptance of the United Nations charter.

Urging speed, the Texas senator called the San Francisco-born instrument "the best document that the wisdom of the peace loving nations could devise."

"Let us be among the architects of a temple of law and reason and justice and peace to serve the people of the world," he said.

Repeatedly the chairman of the foreign relations committee and a delegate to the San Francisco conference, injected the idea of speed into his preliminary report on the charter he helped frame, advising his colleagues:

KANSAS CITY (AP)—President Truman called last night for United States ratification first of the projected United Nations peace charter.

"We are going to have to ratify that charter, and I want to see the United States be the first to do it," the President said.

"Early ratification here will stimulate and encourage ratification by other nations. Foreign nations know that the United Nations organization for peace and security will face failure and futility unless the United States is a member. We have leagued our armed might for war. Now let us league our moral and material might for peace."

While he spoke the 63 senators present sat silent. When he had concluded they broke into long applause and many trooped back to the Texas senator's desk to shake hands and congratulate him.

Expressing confidence that the necessary two-thirds approval will be obtained, Connally said he had no doubt that the American people will "overwhelmingly support" the charter drafted by 50 allied nations in nine weeks of work at San Francisco.

To implement his and President Truman's desire for speedy senate action, Connally plans to call the foreign relations committee together tomorrow to fix hearings.

The administration wants these to start next Tuesday, thinks they can be concluded in a little over a week. Republican members, however, apparently desire to put off the start of hearings until July 9. Connally's goal for a final vote on the charter is Aug. 1.

Premier T. V. Soong En Route to Russia To Strengthen Ties

LONDON (AP)—China's Premier T. V. Soong is en route to Moscow, it was announced yesterday, for a visit which Chungking leaders hope will strengthen Russian-Chinese relations and perhaps sound out the Russian attitude on a number of important matters.

A Moscow dispatch said Tass news agency reported Soong left Chungking Wednesday.

At a Glance— Today's Iowan

Superfortresses bomb four Jap cities in drive to knock Nippon out of war.

Chinese troops regain part of former United States airfield near Liuchow.

Early ratification of charter for world organization urged in senate.

New dean of liberal arts, Earl McGrath, to arrive Monday.

Dean Earl McGrath To Arrive Monday

To Assume Position As Director of College Of Liberal Arts Here

Dean Earl J. McGrath, new administrator of the college of liberal arts, will arrive Monday or Tuesday to assume the position vacated by Harry K. Newburn.

The college has been without a dean actually on the campus since Newburn left June 11 to become president of the University of Oregon.

Dean McGrath comes from the University of Buffalo, N. Y., where he has been dean of administration. Previously he was on leave of absence as a lieutenant commander in charge of the navy's education services section.

The 42-year-old dean, who has been on faculties of three universities, has had wide experience in higher education with the American council on education and on institutional survey commissions. He has written extensively on administration of higher education, veterans' education and postwar educational planning.

Japs Brag Of Weapons For Suicide

SAN FRANCISCO (AP)—Radio Tokyo bragged yesterday of new suicide weapons to repel an expected homeland invasion which war commentators said would be welcome.

"The sooner the enemy comes, the better for us, for our battle array is complete," declared Ichiro Baba in a broadcast recorded by the FCC. The commentator added that the "future is indeed bright," although all Japanese "regret" the loss of Okinawa.

An unnamed Domei news agency correspondent chimed in: "I even hope for an early landing of enemy forces on our mainland just to sense the thrill when we strike a deadly blow to the enemy."

Domei reported that suicide weapons passed their experimental stage at Okinawa and would attain full results against homeland invasion.

U. S. Fleet In Makassar

MacArthur Announces Crafts Near Borneo Shot 3 Jap Planes

MANILA (AP)—Presence of the United States Seventh fleet in the hostile waters of Makassar straits between Celebes and southeast Borneo was disclosed today by Gen. Douglas MacArthur. He announced that surface craft had shot down three Japanese planes there Monday.

There was no further report on the action and no confirmation of persistent Tokyo radio reports that an allied fleet had been bombarding Japanese positions around the Borneo southeast coast port of Balikpapan since June 15. The Japanese have contended landing attempts already had been made on that coast.

MacArthur's communique did disclose that planes of the United States Fifth and 13th airforces and the Royal Australian airforce continued heavy neutralizing attacks on gun positions and airbases on the coast of Dutch Borneo.

More than 90 Liberators and 40 Mitchell medium bombers and a score of Lightning fighters dropped 286 tons of bombs on Balikpapan, as well as on the hangar airfield 12 miles northeast, and in the Redeb sector 70 miles south of the Australian-conquered island of Tarakan.

Mention of allied surface craft activity in Makassar straits was the first in nearly three and one-half years.

While the present significant return of American warships to Makassar straits was being disclosed, MacArthur announced that American Sixth division troops and Filipino guerrillas were maintaining steady pressure on all sides of the remnants of Japanese forces on the island of Luzon.

The major phase of the Luzon campaign has been closed, he announced yesterday.

In the mountains of northwest Luzon, guerrillas attacking nine and one-half miles southeast of Cervantes in Ilocos province won possession of high ground after beating off three Japanese Banzai charges.

Sixth division troops, pushing west from the Cagayan valley, scene of the final Japanese disaster on Luzon, made a 400-yard gain against still-resisting Japanese in the mountain stronghold of Kiangnan.

On the island of Mindanao, the United States 24th infantry division took Kibangay and Unapan on the western edge of the Davao gulf salient and seized considerable Japanese stores.

Slightly Cooler Weather Today

There is some small relief from this heat in sight for Iowa Citizens; today it will be slightly cooler—just slightly, you understand. Thunderstorm activity will also continue in this vicinity and it is just possible that we will get in on some of it. There will also be quite a few clouds overhead today.

Yesterday the mercury tied its record jump of the year so far, 88 degrees. It set a new record for the highest low mark, 74. And at 11:30 last night it was still at the 73 degree mark.

Raid Splits to Hit Sasebo, Nobeoka, Moji and Okayama

Incendiary Destruction Levelled on 18 Towns To Knock Out Nippon

GUAM, Friday (AP)—Marianas-based American Superfortresses spread their incendiary destruction to four more Japanese cities today. Between 450 and 500 tons of them rained more than 3,000 tons of fire bombs on Sasebo, Moji, Nobeoka and Okayama.

The pre-dawn raids brought to 18 the number of Japan's cities hit in the B-29's campaign to burn Nippon out of the war.

Two previous raids this week, on Tuesday and Thursday, were explosive bomb attacks on specific factories and oil refinery centers.

This first large-scale incendiary mission since June 20 split our ways to hit at Sasebo, Moji and Nobeoka, Kyushu island ports, and the vital industries of Okayama on Honshu island.

The blows were a continuation of attacks on industrial areas on which Japan is more dependent than ever since destruction of great areas of Tokyo, Nagoya, Osaka and Kobe.

Sasebo, with a population of 206,000 ranks with Kobe, Kure and Yokosuka as homeland naval bases. It is located on northwest Kyushu, north of Nagasaki.

The most important single target in Sasebo was the naval dockyard. The naval base city's industries, including the ship-building and ship repair yards, are concentrated on the waterfront.

Moji, with a population of about 140,000 is one of Japan's vital transportation cities. It is the southern terminus of the Kammon tunnel under the Shimonoeki strait, linking Honshu and Kyushu and thus is important as both a land and water transportation city. Before the war it was the fifth ranking Japanese port.

Moji's transportation facilities are highly concentrated in one of the most inflammable target areas in Japan. Fire bombs were dropped on a large night club at the city's northern outskirts.

Okayama, a population about 163,000 is 100 miles west of Osaka. Seven railroads radiate from the city, making it an important target. It has many small industries, particularly devoted to producing airplane parts.

New Polish Rule Expects Acceptance By Allied Nations

Formation of the new Polish government of national unity, headed by Edward B. Osobka-Morawski, former premier of the Lublin provisional government, was announced last night by the Warsaw radio.

The two vice-premiers are Stanislaw Mikolajczyk, former premier of the London Polish government, and Wladyslaw Gomułka, deputy premier of the Lublin regime. Cabinet members immediately took their oaths, and held their first meeting.

The new government was agreed upon by Polish leaders and allied representatives at Moscow. Britain and the United States are expected to recognize it, abandoning the Polish government in London.

Amsterdam welcomed home Queen Wilhelmina in a liberation celebration.

Mark Clark to Head Occupation in Austria

WASHINGTON (AP)—The command setup for the American zones of occupation in Europe was completed yesterday with the designation of Gen. Mark W. Clark as chief of the United States area in Austria.

Clark, veteran commander of the 15th army group, will assume in Austria a position comparable to the one Gen. Dwight D. Eisenhower holds in the occupation of Germany.

Similarly, the occupation of Austria will follow the same pattern established in Germany—with each of the four powers, Russia, Britain, France and the United States, occupying a separate zone.

SLEEP OF EXHAUSTION AFTER OKINAWA VICTORY

THESE EXHAUSTED, bearded troops of the 10th Army's company L, 383rd infantry, 96th division, fell asleep in their foxholes where they were following their winning fight for Big Apple hill on Okinawa. In the fierce fighting that ensued following the Yanks' landing on the Ryukyu island's beaches, April 1, these doughboys and their buddies cost the Japs 101,853 dead sons of Nippon.

Service Men Losing Letters

Every day many thousands of service men who might have received letters from home don't get them—because the writer has not properly addressed the letter. Undelivered letters due to incomplete, incorrect or illegible addresses amount to more than 5,000 a day at the San Francisco fleet postoffice alone. And this means that just many lonely men are waiting and wondering why their mail isn't coming through.

The navy has performed a remarkable task of mail service. It handles mail for millions of men, scattered throughout the world on untold numbers of war ships. But—the mail must be addressed correctly.

Mail addressed to amphibious craft seems to give the most trouble. But if the sender addresses the letter properly, the navy will get it through.

In the first place, there are at least 10 different types of amphibious craft—LSD, (landing ship, dock), LSV (landing ship, vehicle), LCI (landing craft, infantry), LSM (landing ship, medium), LCT (landing craft, tank), LCS (landing craft, support) and LCO (L) (landing craft, infantry—for more personnel).

Each type of craft, many have

News Behind The News

By Paul Mallon

WASHINGTON—A Boston reader wrote me asking what is this thing called communism and why should it not dominate Europe.

The Russians seem to be fairly agreeable peasant people. As general Eisenhower said, they like to laugh and enjoy life. They are not a warlike people.

Yet their government comes at you with the grimmest manner ever known to man, from a hole so deeply walled with censorship that it will never let escape a single verifiable statistic about itself, or even a sincere convincing statement of its purpose.

What is this thing with which we are faced? What does it want?

Broad Consequences

This raises the prime question of the world today, for it is the question behind war or peace, behind the strength or weakness of the San Francisco peace formula, behind prosperity and world trade, world politics—everything that is ahead of us economically, politically and spiritually.

We cannot agree upon these answers until we can agree on what it is. We cannot handle it until we understand it.

Not Just Communism

The first penetrating glance at the Russian system will tell you it is not communism. It is not what it calls itself, because it practices the communal ownership and operation theory only on its farms.

In industry, where its government has always made greatest efforts, it follows a kind of socialism, but with "rents and profits" which are repugnant to socialism. So, it is not socialism.

Norman Thomas will be the first to tell you that. The American socialist is the bitterest enemy of the Russian system, although the official title of Russia is "the Union of Soviet Socialist Republics."

German System

The Russians called the German socialism "fascism" and we have accepted that term, but is it correct? Fascism, in theory, is a government by classes working together. The name was derived from the Italian word "fascis", denoting a handful of sticks held together.

Hitler borrowed methods from Mussolini, but not the fascist system. Indeed, Hitler had a reichstag (parliament) elected by districts, but he, too, allowed only one party to exist by force, power, terrorism.

Different Systems

Now both Mussolini and Hitler created their systems in opposition to an older political movement in Europe, using all the same methods, but still another form of "cell" representation under a dictatorship—variously called communism, bolshevism and marxism.

The theory of a dictatorship of the proletariat was conceived out of the German philosopher Marx to overthrow capitalism. The Marx theory was negative and, like most philosophies, broad enough to encourage anything going its anti-capitalist way. The bolsheviks favored immediate revolution for overthrow of capitalism and Lenin wrote the communal dogma, compromising the Marx bolshevism, and Stalin has compromised it further.

War Began in 1806

To this general staff class, he said, these wars we have known, no matter how devastating, are just another campaign in the war which they began as far back as 1806 to rule the whole of Europe.

He said, unequivocally, that every Nazi down to the gestapo errand boys and volunteer SS privates and party messengers must be rooted out.

The word he used over and over again was "destroyed," but he made it clear that he didn't know how that could be done most effectively—whether by death, imprisonment, or long periods of education.

Atrocities

Eisenhower's righteous anger at the atrocities, the brutality, the senseless horrors that the Nazis inflicted on their victims is something that can't be conveyed in words. When he speaks of them his chin juts out, his lips grow thin, his eyes strike fire.

Asked about "fraternization" with the Germans, he said it could come again when the last roots of nazism have been ripped from the national soil. He admitted he did not know when that would be but said he saw no reason at all why it should take years and years.

Loves GI's

Much has been written about the GI's affection for General "Ike," but I can say right here and now it is almost nothing compared to General "Ike's" affection for the boys in the ranks.

Not once on his visit to Washington did he tell a story of the heroism of an officer. Over and over again he recalled incidents in which non-coms and privates had proved their mettle.

Almost with tears in his eyes, he told us the one about the sergeant who groused about not being allowed to go along with him on a dangerous flying mission. The sergeant said, "My mother said if you didn't come back alive, for me not to come back either."

(Tomorrow: An All-Around Man)

She Wrote Swell Letters—But!

Military, Political Developments—

War in China

By KIRKE L. SIMPSON
Associated Press News Analyst
General MacArthur's announcement that organized Japanese resistance has ended on Luzon as well as on Okinawa, and that the

campaign to recapture the Philippines has been virtually concluded, comes in with developments of both military and political significance in China. They give point to speculation that the next major forward move against Japan in both the China sea theater and in China itself may be closer than has seemed probable up to now.

Japanese retreat in the coastal province of Chekiang below Shanghai is reaching a point warranting doubt that any formidable stand against pursuing Chinese forces is to be expected short of the Ch'ient'ang river and Hangchow bay. While the country south of that line is difficult, it is only along the north shore of the river and bay that a natural defense line for Shanghai exists.

Eisenhower's Task Cut Out—To Destroy Naziism in Germany

By JACK STINNETT
WASHINGTON—The other day I passed along the question: "What's to be done with Gen. Dwight D. Eisenhower now?" I'm sorry I asked.

Right after I wrote that column, General Eisenhower held one of the most stimulating and exciting press conferences ever held here. One old-timer who has been around since the days of President Taft made that statement and not one of us youngsters disagreed with him.

Clean Out Nazis

General "Ike" left no doubt in our minds that he is going back to lay the foundation for the tremendous task of cleaning up Nazi Germany. And we all left convinced that he is the man for the job.

In days to come some of the things the general said will be worth remembering. For example: "The German general staff must be destroyed completely."

By this he didn't mean the staff that existed when Germany collapsed, but the class of Junker war lords who have really ruled Germany.

Manpower Economy

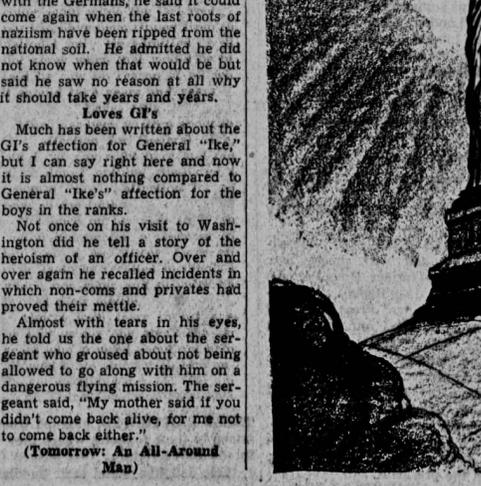

He stressed the manpower "economy" aspect of his suggestion saying that one equipped and trained Chinese soldier could serve the purpose of three Americans, it requiring two men on Pacific supply lines to maintain one American in combat. That flatly states the case for a school of military thought in Washington which has argued against American troop movements to China and for earliest possible establishment of trans-China sea communications to equip Chinese armies.

Plugs Up Ship Hole

KANSAS CITY (AP) — Lieut. Comdr. Wayne A. Parker, Oklahoma City, told of his experiences as a human plug.

Parker, engineer officer on the U.S.S. Ringgold, backed into a gaping hole two and one-half feet below the water line when fire from Japan shore batteries ripped the vessel.

BELLE OF THE BALL

Readers Forum

The Daily Iowan invites letters from its readers. It welcomes honest expression of opinion, whether or not they agree with its editorial policy. Initials or pen names will be used if requested, but the Editor must know the names and addresses of the writers.

Freedom of the Press

To the Editor:
If the purpose of the article in The Daily Iowan of Sunday, June 24, was to clarify and arrange the issues caught in the cross-cross of dissents and decisions brought forth by the supreme court concerning The Associated Press it has failed. The writer shifted the central issue, namely, the danger for our freedom of the press by the monopoly of newspapers to the hypothetical issue, the destruction of that freedom by the government. The writer would have us absolve the press and fear our government.

Despite the whimpering and bawling of our news industrialists through their editorial pages during the Roosevelt administration the freedom of the press was not touched. The fact itself that the newspapers could shout and lie to the tune of the Chicago Tribune is sufficient evidence.

This our cherished freedom to write or print freely is with us we owe rather to the people's government than to the malefactors of the press. By our constitution a man can set up a hand press and get into the newspaper business but the fate of his enterprise is determined not by his love of truth, but by his power of his advertisers and also by the might of his competitors. He has no more chance for the successful operation of his business than a neighborhood grocery, or drugstore has when it must compete with the strength of a chain store company. The danger to this man's freedom of the press comes not from the monopoly of newspapers who would do anything, clean or dirty, to restrain him.

The issue before the people is this: Can our newspapers be trusted to regulate themselves to become honorable, true and free? The court says no. The great industry of gathering news, the monopoly of the press bonded like our railroads, allied with big business can no more be expected to regulate itself virtuously for the welfare of the people than any other great industry whose primary purpose is not service but solvency, who puts "wrong-headed economy ahead of spiritual fulfillment."

The freedom of the press concerns itself with the life and soul of America and not with the profits of the business men of the press. I still have more faith in the government of the people, by the people and for the people than in a government of the newspapers, by the Chicago Tribune and for The Associated Press.

E. Stamm Cooper

CLASS ATTENDANCE

Undergraduate students in the colleges of commerce, engineering, liberal arts and pharmacy must attend classes Tuesday, July 3, and Thursday, July 5, if full credit is to be allowed. Reports of such absences will be made by instructors to the deans of the colleges. For each class missed one semester hour will be added to the total number of semester hours required for graduation.

Plugs Up Ship Hole

KANSAS CITY (AP) — Lieut. Comdr. Wayne A. Parker, Oklahoma City, told of his experiences as a human plug.

BELLE OF THE BALL

Parker, engineer officer on the U.S.S. Ringgold, backed into a gaping hole two and one-half feet below the water line when fire from Japan shore batteries ripped the vessel.

"That jagged hole was mighty uncomfortable," he admitted, adding, "it cost me five minutes of anxiety and a new pair of trousers."

The former Oklahoma City university football star was awarded the navy cross for his action, which occurred in the battle for Tarawa in 1943.

Shady Activity

NEW YORK (AP) — A dispute raging in New York city just now is whether trees should be planted on Fifth avenue. The president of one of the big department stores wrote a poem on the subject and put it in the public prints. Home town papers please copy.

Past Master
BURY ST. EDMUNDS, England (AP)—The West Suffolk war agricultural executive committee has engaged a master craftsman to give lessons in thatching to save the art from dying out. He is Harry Linnett of Bury St. Edmunds, whose family has been thatching for more than 150 years.

OFFICIAL DAILY BULLETIN

Items in the UNIVERSITY CALENDAR are scheduled in the President's Office, Old Capitol. Items for the GENERAL NOTICES are deposited with the campus editor of The Daily Iowan or may be placed in the box provided for their deposit in the office of The Daily Iowan. GENERAL NOTICES must be at The Daily Iowan by 4:30 p. m. the day preceding first publication; notices will NOT be accepted by telephone, and must be TYPED OR LEGIBLY WRITTEN and SIGNED by a responsible person.

Vol. XXI, No. 1974
Friday, June 29, 1945

UNIVERSITY CALENDAR

Friday, June 29
4 p. m. Speech and Hearing Rehabilitation conference senate chamber, Old Capitol
Peace Officers Short Course
8:30 p. m. Summer Session Lecture: "Russia and the San Francisco Conference," by Carroll Binder, News Analyst; west approach to Old Capitol (Macbride Auditorium in case of rain)

Saturday, June 30
9 a. m. Panel forum; speaker, Carroll Binder, house chamber, Old Capitol
10 a. m. Speech and Hearing Rehabilitation conference senate chamber, Old Capitol
7-10 p. m. All-University Play (Night Women's field or Women's gymnasium.)
Wednesday, July 4
Classes suspended

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol.)

GENERAL NOTICES

CANDIDATES FOR ADVANCED DEGREES AT THE AUGUST CONVOCATION

Following is a list of requirements to be met:
1. Check your record at the office of the registrar and in your major department to assure yourself that you can qualify at the August convocation.
2. Fill out a formal application for graduation at the office of the registrar.
3. Secure from the graduate office the instructions for typing a thesis.
4. If you are a candidate for the Ph.D. degree, deliver copy for your examination program to the graduate office by July 6.
5. Submit your thesis to the graduate office for checking before July 23. If you are a candidate for the doctorate, submit your abstract and pay the \$25 publication deposit.
6. Arrange with your department for the oral examinations—July 30-Aug. 4, inclusive.
7. Leave the original and the first copy of your thesis at the graduate office at least 24 hours before Convocation.

IOWA UNION MUSIC ROOM SCHEDULE

Monday—11-2, 4-6, 7-9.
Tuesday—11-2, 4-6, 7-9.
Wednesday—11-2, 4-6, 7-9.
Thursday—11-2, 4-6, 7-9.
Friday—11-2, 3-5, 6-8.
Saturday—11-2, 3-5.
Sunday—1-5, 6-8.

The Philharmonic and NBC symphonies may be heard in the music room Sunday afternoon at 2 and 4 o'clock respectively.

EARL E. HARPER
Director, Iowa Union

SCHEDULE UNIVERSITY LIBRARY HOURS

June 13-Aug. 8, 1945
Reading Rooms, Macbride Hall and Library Annex
Monday-Thursday
7:50 a. m.-12 M.
1-6 p. m.
7-10 p. m.

Friday
7:50 a. m.-12 M.
1-6 p. m.

Saturday
7:50 a. m.-12 M.
1-5 p. m.

Government Documents Dept., Library Annex
Monday-Friday
8 a. m.-12 M.
1-6 p. m.

Saturday
8 a. m.-12 M.
1-5 p. m.

Education - Philosophy - Psychology Library, East Hall
Monday-Friday
7:50 a. m.-10 p. m.

Saturday
7:50 a. m.-5 p. m.

WOMEN'S RECREATIONAL SWIMMING

4-5:30 p. m. Daily.
10-11:30 a. m. Saturday.
Recreational swimming periods are open to all women students, faculty, faculty wives, wives of graduate students and administrative staff members. Students should present their identification cards to the matron for admittance.

M. GLADYS SCOTT

NEWMAN CLUB TEA DANCE

The Newman club is sponsoring a tea dance at the Catholic student center Sunday, July 1, from 2 to 4:30 p. m. Refreshments will be served. All Catholic students are invited.

KATHLEEN REED
Social Chairman

WESTMINSTER FELLOWSHIP

Students and townspersons are invited to Westminster fellowship dinners in the Presbyterian church Sunday afternoon at 4:30. Prof. H. J. Thornton of the history department will speak on the subject, "The Birth of a Nation."

LUELLA BARE
President

THURSDAY LUNCHEON

A table will be reserved for Pi Lambda Theta members every Thursday noon in the northeast corner of Iowa Union cafeteria. Members of other chapters are invited to join Theta chapter for lunch.

EDA ZWINGGI
Publicity Secretary

INTER-VARSITY

Inter-Varsity Christian fellowship will meet Saturday, June 30 at 8 p. m. in room 207, Schaeffer hall. The meeting this week will be devoted to the fourth of a series of discussions on personal evangelism. Methods of dealing with various classes of individuals will be considered in an open forum. Guest singers for the evening will be Mrs. Helen McGee and Evelyn Lundell, who have been teaching in a daily vacation Bible school in Coralville for the past two weeks.

LOUISE BURGESS
Program Chairman

CANDIDATES FOR DEGREES

All students who expect to receive a degree or certificate at the Aug. 8 Commencement should make formal application immediately in the office of the registrar, University hall.

HARRY G. BARNES
Registrar

Hats Off to OWI's Work—

Many attacks have been leveled at Elmer Davis' office of war information. But the OWI has performed, and is continuing to perform, a useful function for this nation.

Following is an editorial from Editor and Publisher, a weekly publication for journalists. Editor and Publisher (because of its nature), is probably as well qualified as any publication to comment on OWI.

We would like to see the office of war information dissolved once and for all, but now is not the time to do it. This country still has a vicious war on its hands in the Pacific, it will continue to have many home front problems, and the situation in Europe is not one to be dropped like a hot potato right now. In all these places the OWI has been and can continue to be serviceable.

Many charges have been made against the OWI. Some of them have been true. We are now saddled with an elephantine organization that has branched out into many operations for which it was not originally intended. The funneling of government news releases through the OWI is certainly not the best arrangement.

Nevertheless, the OWI has been given the job of psychological warfare in Europe and the Pacific and has done a good job in conjunction with the psychological warfare branch of the war department. Europe is in a seething turmoil, ripe for almost any propaganda, and we should

Go West, Young Woman—

Go west, young woman! The chances for your eventual marriage are better in the west than in any other section of the country. Or, if you want to be married early, go south. About 20 per cent of the girls down there are married before they are 19 years old.

(But go where you will, girls, you won't find any better men than there are right here on the campus. Okay, so there are some exceptions—but you'll find exceptions everywhere else, too, so don't be fussy.)

Getting back to your chances for marrying (which every smart girl should know, just like every smart poker player knows his chances for hitting a straight), the odds are as high as 97 to 100 that you'll be married by the

Go West, Young Woman—

time you're 50 (if that isn't too long to wait) if you go west.

The average odds for the entire nation are only 90 to 100. The odds for girls from farms and small towns getting married are higher than for girls from cities. The national proportion varies from a low of 86.1 per cent in cities of 250,000 and over, to a high of 94.8 per cent in farm areas.

And, best news of all, "an unmarried woman of middle age is rare in the farming area of the west," statisticians of the Metropolitan Life Insurance company conclude.

All of this probably will start a wholesale exodus to the west. The trains will be packed, and long lines of lovely Iowa co-eds will be walking the highways—the biggest rush since '49.

State Asks Dismissal Of Gas Tax Case

Attorney General, County Attorney File Action in District Court

A motion for dismissal of the L. V. Carlton suit, declaring the state fuel tax act unconstitutional, was filed by the office of the state attorney general in district court yesterday. The act, which goes into effect July 4, will increase the state fuel tax from three cents to four cents a gallon.

The motion is in defense of John M. Grimes, treasurer of state and Elmer Dewey, Stanley Bernack and J. E. Pechman, members of the Johnson County board of supervisors.

Appearing in behalf of the defendants are John M. Rankin, attorney general; R. G. Yoder, first assistant attorney general; G. H. Clark Jr. and Herbert J. Ries, special assistant attorneys general; and Jack C. White, attorney for Johnson county.

The motion for dismissal stated that the petition of the plaintiff, represented by Edward L. O'Connor and D. C. Nolan, presents no issue of fact for a trial upon the evidence, but simply raises a question of law for determination by the court. The motion further stated that the petition of the plaintiff, based upon statutory enactment, shows upon its face that the plaintiff is not as a matter of law entitled to the relief demanded or to any relief.

The petition filed by the plaintiff charges that the entire legislative enactment, known as senate file 229, passed by the 51st general assembly March 26, is unconstitutional. The act is declared to be null and void and of no legal effect whatsoever because it is in violation of section 29 of article III of the state constitution.

The plaintiff's petition states that the act contains two separate, distinct, unrelated and incongruous subjects, namely the subject of optional levies for secondary road maintenance, and the subject of the "motor vehicle fuel tax or excise or license fees."

In retaliation, the state contends in its motion, that since both subjects deal with highways, they are companion subjects.

Program to Begin To Train Women In Engineering

An army airforce program for the training of women as engineering aides in aircraft radio is scheduled to begin at the University of Minnesota July 18. The program offers an opportunity for excellent instruction in basic radio engineering, with a salary while in training.

After completing the training course students are assigned to assist military and civilian engineers in research, development and testing of airborne radio at Watson Laboratories, Red Bank, N. J., an installation of this command.

SUI Women Interested
Army airforce and civil service representatives selecting candidates for this course are interested in learning of Iowa students who have had training in mathematics or physics and who might enter the course. Anyone interested in knowing about the course should call the office of student affairs in Old Capitol, X274.

In participating in this program women will have an opportunity to be of assistance in a vital phase of the war effort and at the same time to prepare themselves for a promising postwar career.

Minimum Age
Applicants for the training should be at least 18 years of age and have proof of American citizenship. They must have had experience or training equivalent to one of the following:

1. One year of practical full-

'Your Bonds Save Lives'

Store Displays Navy Survival Equipment

"Your bonds save lives!" is the theme of the unique navy survival display in Yetter's window this week.

The center-window display depicts the various types of equipment used by navy pilots for their survival when forced down during training or operational flights. It is part of the Iowa navy Pre-Flight schools war bond display being used in connection with the navy-wide Independence day extra bond sale which runs from June 22 to July 7. Included are packs now carried by all fliers which contain, literally, everything from chewing gum to fish-

hooks. Of course, different type packs are used for different zones of operation. For example, fliers encountering winter weather have winter gear packs while fliers operating in tropical zones carry equipment suitable for survival in torrid temperatures.

Even more important than this equipment, however, is the knowledge instilled into all navy pilots before they actually take off as operational units. Intensive courses in survival are followed at all navy flight schools and the navy pilot, no matter where forced down, seldom is at a loss.

If it is at sea, he can obtain from his plane his life raft, water-marking dye to reveal his position to searchers, sun goggles, sunburn ointment and other equipment in addition to certain provisions. Many cases have been noted where pilots have existed for days aboard their life rafts in comparative safety and comfort.

Once he hits the shore, however, there is more to be done. If it is a tropical zone the pilot must put into use his knowledge of vegetation, reptiles and animals, the ways to avoid potential enemies and tropical diseases. In winter climates he must act quickly to

time technical experience in some branch of engineering, showing that the applicant is able to perform sub-professional engineering work at this level.

2. Recent college graduation.

3. Successful completion of at least six credit hours in physics or mathematics in a recognized college or university.

4. Successful completion of four full years in high school including an adequate background in mathematics and physics, preferably two years in algebra, one year each in geometry, trigonometry and physics.

Physical Requirements
Candidates must pass the physical requirements and special mathematics and general aptitude tests conducted by United States civil service commission representatives. A personal interview is conducted by an army airforce representative to determine the applicant's interest and suitability. All tuition and fees are paid by the air technical service command. The cost of textbooks, drafting equipment and supplies is borne by the trainee. Normally, this cost is approximately \$30 dollars.

\$145 a Month
The trainee receives \$145 a month while in training and \$165 when transferred to Watson laboratories. After assignment to duty, opportunities are afforded personnel who display aptitudes and knowledge, for advancement to higher grades with appropriate increases in pay.

The university where training is offered makes all room arrangements for the engineering aides while on the campus. Satisfactory housing accommodation also is promised upon arrival at Red Bank.

The training is based on mathematics, electrical theory, physics, drafting, shop, electronics, radio theory and laboratory, electrical measurements and supervised study.

keep from freezing, probably will have to fashion improvised snowshoes from branches and pieces of his parachute pack and take many other steps to insure his being around when rescuers come.

The parachute, incidentally, is the pilot's best friend on many an occasion. In addition to perhaps bringing him safely to earth, the chute provides cloth and cord for innumerable necessary items. It can even serve as a tent or as a sleeping bag or as clothing.

Budding pilots learn all this in their training program. First of all, they learn how to save their lives escaping from a damaged plane, swimming through oil-con-

tered or debris-strewn water. Then, after the immediate crisis is past, they must learn the art of additional survival to keep alive until they can reach friendly territory or are rescued.

Survival gear will include fishing kits, articles of clothing, K-rations, machetes, canteens and other items. If the pilot concerned winds up in fairly good terrain in a temperate climate and has most of his survival gear with him, then his lot is not a particularly difficult one in all probability. He merely "camps out" until rescue comes or until he has acquired enough knowledge of the territory and sufficient strength to make an

effort to return to civilization.

In addition to learning the ways of surviving, navy pilots all know the means by which their rescue may be effected. Tree branches in the snow may be used as a SOS signal, messages may be sent by flashing mirrors, smoke signals are utilized and so on. Each pilot also understands the courses of streams, and coastlines to aid him in finding his way "home."

So, now, where not long ago lost pilots eventually were to be found on the casualty lists, the navy's survival program is really keeping 'em flying. For when a navy pilot is down he is still a long way from being out.

Dr. C. E. Kinney To Present Hearing Lecture Today

The second in a series of visiting speakers presenting lectures and round table discussions on various aspects of speech and hearing rehabilitation will be presented this afternoon in the senate chamber of Old Capitol. Dr. Charles Edward Kinney of Cleveland, Ohio will be the speaker. His subject will be "Public School Hearing Conservation."

Tomorrow morning at 10 o'clock Dr. Kinney will conduct a round table discussion on special problems in hearing conservation following up his lecture this afternoon. He will be assisted in this discussion by members of the university staff. The meeting will be open to questions and comments from the audience. The round table discussion also will be held in the senate chamber of Old Capitol.

Both the lectures and the round table discussions are open to students, faculty and the general public.

Not a Thing to Worry About—Except Taxes

SALT LAKE CITY (AP)—When Ronnie Smith, correspondent for the Salt Lake City Deseret News at Idaho Falls, Idaho, got a letter from his employers inquiring as to his "number of dependents, draft status, etc., he was frankly worried.

Finally he wrote a letter confessing—he was only 13 years old. The News rallied to the surprise, however, congratulated their youngest correspondent on his work, and added "keep up the good work."

Lena T. Ring Circle Elects Mrs. Rarick For President

Mrs. Jess Rarick was elected president of the Lena T. Ring circle at a meeting held recently. Other newly elected officers are Mrs. Lillian Oathout, vice-president; Elizabeth McLachlan, secretary; and Mrs. Vance Orr, treasurer.

Mrs. Lyle Fountain was appointed publicity chairman, and serving on the floral committee will be Mrs. Bess Adams and Mrs. Ralph Litrell.

Plans were discussed for the annual summer picnic to be held July 19 in City park. Members are asked to bring a covered dish and their own table service.

Two Iowa City Girls Cycle to Clear Lake For Short Vacation

Bicycling is something more than a summer pastime for two Iowa City girls, Eunice M. Parizek and Wanda Paulson. For them it is a mode of transportation anywhere with in several hundred miles. They proved it last week when they cycled to Clear Lake from their homes, a distance of 203 miles.

Leaving Iowa City Saturday, they reached Mason City Sunday and went on to Clear Lake, where they stayed until Thursday. The first day out they traveled 70 miles.

Repeated offers of a lift for themselves and their vehicles were made by state highway patrolmen, truck drivers and other motorists. All were refused by the two determined girls who wanted to prove that wartime transportation difficulties are no handicap to an enjoyable vacation.

Prof. H. J. Thornton To Speak at Vespers

Prof. H. J. Thornton of the history department will be the speaker at Westminster Fellowship vespers in the First Presbyterian church Sunday at 4:30 p. m. In commemoration of the coming holiday, Professor Thornton will speak on "The Birth of a Nation."

Harold Shoemaker will be the student chairman. After the services, supper will be served in the church parlors.

Now! A DOUBLE DUTY LIPSTICKS

1. Helps Your Breath Keep Secrets
Guard your close-up charm. Get the glamor giving, dual purpose lipstick that helps mask telltale breath from smoking, cocktails, and highly seasoned foods.

2. Makes Lips Lovely and Alluring
PRISCILLA PARKER DUAL PURPOSE LIPSTICK is marvelous, too, for regular use. Just the right amount of oiliness to make it easy to shape the lips beautifully; does not smear easily; gives lips soft, alluring luster. Assorted shades. Guaranteed to please you.

ASK FOR Priscilla Parker DUAL PURPOSE LIPSTICK IT DOES DOUBLE DUTY.

Pre-Flight Orchestra To Play at USO Party Tomorrow

Maureen Farrell will head the junior hostess committee in charge of the Independence day party at the USO tomorrow night from 8 to 10:30. Music will be provided by the pre-flight orchestra, and in the lounge Leo Cortimiglia will be featured at the piano.

Serving on the junior hostess committee this weekend will be Mary Lou Yetter, Flomenia Rohner, Maxine Delsing, Ella Mae Goody, Mildred Sedlacek, Rose Marie Schrader, Jane Martin, Iris Wilken, Betty Armbruster, Jeanette Benda, Vir Jean Peterson, Dorothy Mielke, Elaine Freswick and Nadine Wharton.

Sunday activities at the USO include a movie, which is scheduled for 2 p. m., and a tea dance from 2:30 to 4:30 p. m. The public address system will provide the music.

Members of the Iowa Woman's club will serve as snack bar hostesses this weekend. Chairman will be Mrs. G. L. Boss, assisted by Mrs. R. J. Phelps, Mrs. Floyd Maxine, Mrs. R. R. Sherman, Mrs. A. K. Wesenberg, Mrs. Fred Johnson, Mrs. Ellis Crawford, Mrs. H. T. Hegland, Mrs. W. A. Meardon, Mrs. Eulalia Reid and Leavitt Lambert.

Women of the English Lutheran church will furnish cookies, and flowers will be provided by the Altruza club.

Medics, Dents, Nurses Start Classes Monday

Medical and dental students will meet Monday for the opening of the new term in their colleges, while a new freshman class of more than 100 starts work in the school of nursing.

Under the accelerated program, the three professional units are on a different term basis than the other colleges of the university. No new students will be admitted to medicine and dentistry during the summer.

son of Rock Island, Ill.; Dick Baxter, G of M. Pleasant, will act as master of ceremonies for the show. The informal open house at the Union is open to everyone on the campus, with dancing from 8:30 to 11:30. A special invitation is extended to freshmen, since the program has been planned and presented by freshmen. The floor show will begin about 10 p. m.

Freshmen to Present Campus Night Show

Freshmen will present the floor show at Campus Night this evening in the river room of Iowa Union. The program includes dance numbers by Marcia Kuyper of Pella; popular piano numbers by Betty Jo Morgan of Oxford; songs by Dorothy Kent of Lytton, and a magic act by Charles Han-

SOMETHING FOR THE BOYS

Full-skirted taffeta with pink roses over the shoulder, one of the "dream date" dresses presented by the New York Dress Institute in a recent fashion show for wounded veterans.

THE kind of clothes our fighting men like to see their girls wear added up to "all kinds" in the recent fashion show presented by the New York Dress Institute for four thousand wounded veterans in the Thomas England General Hospital in Atlantic City.

Such very feminine evening gowns as the bouffant taffeta gown pictured today got the most applause when a bevy of New York's loveliest models showed clothes for all types of girls from the "cutie" to the sophisticate. Over a hundred costumes created by such topflight New York designers as Nettie Rosenstern, Joe Copeland, Maurice Rentner, Anthony Blotta, Joseph Halpert, Anna Miller, Capri, Kivette, Clara Potter, Ren-Eta, Ben Reig and Trigere were presented, in everything from beach wear to bridal gowns.

Industrialists To End Study This Weekend

Ninety industrialists from 21 states will return to their companies this weekend, ready to put into practice the improved methods learned at the university's summer management course.

Many of these men are from plants involved in war production. During the past three weeks, they have learned notion and time study methods, job analysis and allied subjects which will help their plants to increase production.

Honorary Professional Educational Fraternity Initiates Five Men

Five men were initiated Wednesday evening into Phi Delta Kappa, honorary professional education fraternity. The new members are Frederick H. Bettner of Adrian, Minn., Donald R. Eells of Monticello, Francis M. Hartung of Cooper, Harry A. Mahannah of Spirit Lake and Morris C. Martin Jr. of Mediapolis.

Following the summer formal initiation ceremony Dr. J. L. Trump, principal of Waukegan, Ill. township high school and visiting lecturer in the college of education, spoke to the group. He emphasized the importance of a wider utilization of school facilities in summer months and evenings, in a general discussion on the extension of public school services in post war years. He suggested adult education, summer sessions, recreational activities and student work projects as possible areas for expansion.

Next meeting of the fraternity will be a luncheon Thursday noon in the cafeteria of Iowa Union.

Two Iowa Citizens in Band in France

Two Iowa City men, Staff Sgt. John L. Byers, son of Mr. and Mrs. John J. Byers, 1231 E. College street, and Corp. Leon C. Karel, son of Mr. and Mrs. C. J. Karel, Riverside, are among members of the 56-piece military band of the 13th airborne division in France.

Formerly the 144th infantry band organized in 1940, the band furnishes music for all division activities. The assigned combat task of the airborne bandmen is to serve as a defense platoon. Both men are now stationed at Joigny, France, awaiting redeployment.

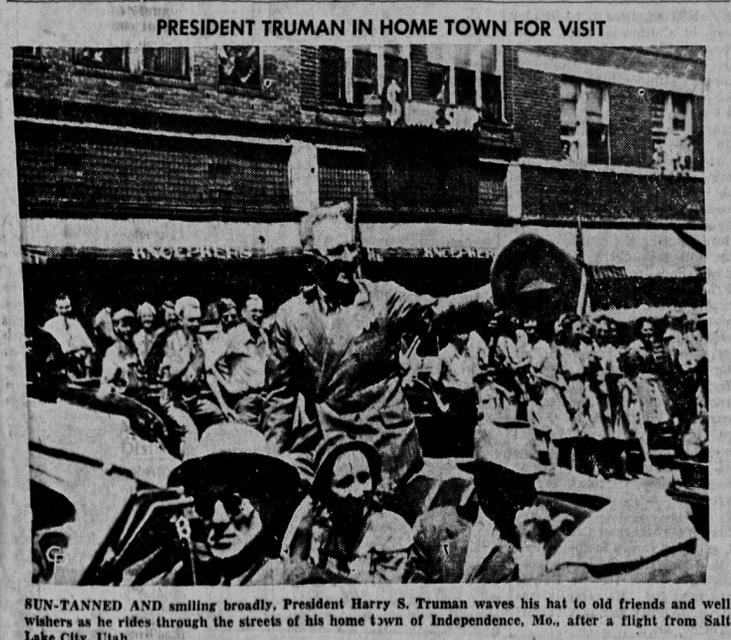

Sergeant Byers plays drums in the military band and is also leader of the organization's dance orchestra. He was graduated from St. Patrick's high school and attended the university. He has played with various units all over the country.

Corporal Karel plays bell lyre for the band and piano for the orchestra. He was graduated from the university in 1940 with a bachelor of music degree and in 1941 received his master's degree here.

The number of cotton-spinning mills in the United States has declined by 179 establishments, or 17.1 per cent, in the last 10 years, from 1,046 mills in 1935 to 867 mills in 1944.

Seahawks Face Ottumwa Skyers Here Tomorrow

Ratliff Pleased With Hitting

Two Teams Have Split In Two Previous Tilts This Season

Strong hitting power, proven last weekend when the Iowa Pre-Flight Seahawk baseball team was successful in stretching their winning streak to seven straight when they battered the Clinton company 6 to 3, has given Coach Carlos Ratliff the needed uplift as he looks toward the coming weekend's play against the Skyers of the Ottumwa naval air station at Iowa City.

A heavy 10th inning downpour halted the second half of the Cadet nine's road trip to Clinton last Sunday and their game with the Schick hospital went into the record books as a scoreless 10-frame match. This, despite the fact that the Pre-Flights had scored two runs in the ill-fated and much down period. Catcher Mike Franchuk and fielder Cliff Morgan had scored when a line drive hit by second baseman Ed Dietzel but brought the catcher down allowing the pair to cross the plate.

Hopeful that the Seahawks can rack up a win in their rubber with the Flyers from the air station, Coach Ratliff is mindful, too, of the fact that their early season defeat of them by 7-6 margin was later wiped out in the occasion of their second match on the Skyers' home grounds as they fell to the tune of 9-2.

Games this season have been hard played by the Fort Madison prisoners and their combine is purported to be quite a strong one and may well give the Cadets a run for their money. In last season's two meetings with the institution baseballers, the Seahawks won 5-3 and 11-4 so the inmates will be seeking revenge.

Clifford Morgan, Shelbyville, Indiana, youth who is a former member of the Louisville club in the American association and has earned a left field job on the Seahawks, rapped out four for three against Clinton and one for three against the army hospital nine to boost his average to .333.

Mike Franchuk, he of the mask and padded chest protector, knocked out four for six against the industrial team and two were two base clouts. Against the hospitalites, he got one for three and that was the only two bagger had in the meeting. His average went to .313 from .217.

Luke Majorki, still leading the batting with a .372, got a four for five and crossed the home plate four times to lead the scoring in the meeting with the industrialists. However, he failed in four trips to the plate against the Schick nine.

Lou Rochelli and Milt McGrath each netted two hits against Clinton but failed against the hospital nine and they along with Ratliff were the trio who dropped out of the .300 club for the week.

Col. Edwin Drake discovered the first oil well in the world near Titusville, Pa. in 1859.

Cardinals Trip Phillies, 6 to 2; Only Three Games Out of First

PHILADELPHIA (AP)—The St. Louis Cardinals hammered Bill Lee for five hits and five runs in the fourth inning yesterday to pile up a 6-1 victory over the Philadelphia Phillies.

Meanwhile, Ken Burkhardt was busy limiting the Phils' to six safeties. The win pushed the Red Birds within three games of the league leading Brooklyn Dodgers.

Whitely Kurovski opened the big fourth with the single and the bases were quickly loaded when Ray Sanders walked and Ken O'Dea beat out a bunt. Kurovski scored on Emil Verban's fly and Sanders came home on Marty Marion's single. Augie Bergamo followed with a triple that sent two runners across the plate. Bergamo scored the fifth run of the inning when Red Schoendienst singled.

McSpaden, Burkemo Win Pro-Amateur Title in National

CHICAGO (AP)—Harold (Jug) McSpaden, tuning up for his defense of the \$10,000 Chicago Victory National Golf championship, came home with a two-under-par 34 on the back nine last night while his partner, Sergt. Walter Burkemo, of Evanston, Ill., was firing a 73, to win the pro-amateur championship in the preliminaries to the tournament starting today.

No University of Iowa athletes will compete in the National A.A.U. track and field championships in New York City this weekend.

By Jack Sords

Cubs Blast Dodgers, 11-8; Cut Loop Lead

BROOKLYN (AP)—With their pitchers unable to stop the Chicago sluggers, the Brooklyn Dodgers saw their National league lead cut to three games yesterday as they dropped a 11 to 8 decision to the Cubs while the second place Cardinals were whipping the Athletics.

Leroy Pfund, the Dodgers' starting hurler, was blasted from the slab in the fifth when the Cubs bunched five of their 15 hits for five runs. Claude Passeau was touched for four runs in the fourth to send the Dodgers out in front and finally was knocked from the mound in the seventh but he received credit for his eighth victory—the last seven in a row.

Two home runs figured in the hitting contest. Peanuts Lowrey got one off Ernie Rudolph in the sixth for the Cubs and Goody Rosen duplicated the feat for the Dodgers in the ninth, at the expense of Wally Signer.

Second Guess

Coach Earl Sangster
Seahawks Play Here

By ROY LUCE
Daily Iowan Sports Editor

GENIAL EARL SANGSTER is having himself a whee of a time this summer coaching the Iowa City junior American Legion diamond nine. The silver-haired Sangster is right at home on a baseball field and he's trying to transplant that same feeling in the minds of 15 or 17 boys he has on the Legion squad.

Last spring when the students of City high voted to have a baseball team, the question of who would coach the team arose. Immediately "Coach" Sangster volunteered for the job, and to the amazement of most of the city, turned out a winning team—a team that fell to the state champions, Mason City, in the finals of the district meet here, 1 to 0.

Yes, Sangster can feel proud of his boys. They have more than made him feel that his time has not been wasted.

When "Coach", as he is known to all his "boys", took over the reins of the Legion nine, practically all of his City high squad followed him and donned the uniforms of the Legion team.

Earl Sangster should be congratulated on his wonderful job. He is one of the few men in the city that is giving freely of his own time to try and develop good clean sportsmanship, and better yet—MEN out of the boys of Iowa City.

Keep up the good work, Coach! We're all for you!

Equipment Shortage

In case you've been wondering why there has been a shortage of sports equipment in the United States, here's the answer. And don't say you didn't know. Anyway, Coach Earl Sangster knows. Just ask him the trouble he has buying bats and balls for his team. It is definitely a big problem.

The army has been spending between 25 and 30 million dollars a year for sports equipment. In fact, from D-Day to V-E Day, some 18 million dollars worth of sporting goods went to Europe, alone.

Each year, the army has been purchasing the following items for use in various war theaters: one million baseballs, one million, five-hundred-thousand softballs, 15 thousand baseball uniforms, 17 thousand football uniforms, sixty thousand basketball uniforms, one hundred-fifty thousand volleyballs, 16 thousand track uniforms, five-hundred-thousand rubber sole shoes, ten-thousand sets of golf clubs, 25 thousand sets of boxing gloves, and a gym suit for every G-1 in Europe.

And that's not even including the navy, marines and coast guard. No wonder then that Earl Sangster and the rest of the coaches have to scour the country-side to find a baseball and bats. The uniforms aren't so bad. If a boy really wants to play, he won't miss not having a uniform. But, it is absolutely necessary to have balls and bats as everybody knows.

THE IOWA SEAHAWKS, back on the win-wagon once more, have a chance to add victories No 8 and 9 this weekend when they tangle with the Ottumwa naval air station nine here Saturday and the Fort Madison penitentiary team there Sunday.

At present, the Cadets have a win record of 7 won and 3 lost, which isn't too good when you compare it with last season's record of 30 wins and 5 defeats.

However, the big bats of the Seahawks are starting to boom with regularity now, whereas at the beginning of the season, they were swishing with regularity. Lou Rochelli, Coach Carlos Ratliff and Luke Majorki have all started to hit, as have some of the rest of the recent additions to the squad.

With Steve Stuka and Henry Kaiser on hand to take the slab, the Cadets shouldn't have too much trouble winning both weekend games. However, Kaiser has been known to develop a trace of wildness—in fact, quite a large trace of wildness at times. If this happens, Ratliff will be faced with the puzzling problem of "who can pitch".

At any rate, be on hand Saturday at 2:30 at the Iowa diamond. It should be interesting in more ways than one. Who knows, it might hail again!

Iowa basketball teams on which "Pops" Harrison played in 1926-27-28 broke even in 36 conference games. But the Hawkeye teams which Harrison has coached, 1943-44-45, have won 23 and lost 13 in the league, the record for the past two seasons being 20 of 24.

Survey Shows—

Basketball Has .300 Hitters Too

By WHITNEY MARTIN
NEW YORK (AP)—A .300 hitter in basketball is just about as exceptional as a .300 hitter in baseball, and if a cager can hit .250 consistently he's pretty sure of landing a regular job on almost any team.

Meaning, of course, he's hitting the basket with the ball instead of a ball with a bat. Any kid who can hit the hoop with one-fourth of his shots can consider himself no worse than average.

This rating was determined through a survey made by Howard Hobson, basketball and baseball coach at the University of Oregon. The overall average of shots made in 350 games considered was 25 per cent, and in only a couple of games did the figure reach more than 40 per cent.

Hobson has just returned from Italy where, as a member of a group of army consultants sent over to give the GI sports leaders a refresher course in their particular branch of activity, he instructed the basketball instructors.

Army Consultants
The group included Ethan Allen, former major league ball player who specialized in baseball; William Cavanaugh, West Point boxing instructor; Bill Hargiss of Kansas, track tutor; Dean Nesmith of Kansas, physical conditioning; Steward Staley of Illinois, physical education supervision; George White of New Haven, Conn., officiating; Cecil Isbell of Purdue, football, and Major Fran Welch of Emporia (Kan.) State Teachers, football.

The consultants, in addition to entertaining with sports quizzes, movies and similar shows, conducted six sports schools in Rome. Leaders chosen from the various

service units attended in groups of 60, sopping up information on the conduct of their special branch of endeavor and taking it back to impart to their units.

1,200 Cage Teams
The athletic officer of the Mediterranean area is Major Al Baggett, best remembered as coach of the towering West Texas State Teachers college basketball teams.

Major Baggett, Hobson reports, has been doing a bang-up job and had 1,200 cage teams alone competing in his area.

Getting back to Hobson and his survey, he says a record of Hank Lusetti's shooting was kept over a series of games. Lusetti, it was revealed, hit about one-third of his shots. In other words, he is a consistent .333 batter, and as he is about as good as they come in scoring on a basketball court, that percentage must be nearly tops.

Overall Average
This rating was determined through a survey made by Howard Hobson, basketball and baseball coach at the University of Oregon. The overall average of shots made in 350 games considered was 25 per cent, and in only a couple of games did the figure reach more than 40 per cent.

Hobson has just returned from Italy where, as a member of a group of army consultants sent over to give the GI sports leaders a refresher course in their particular branch of activity, he instructed the basketball instructors.

Application Materials—Grid Tickets
The football ticket application material, perennial harbinger of the University of Iowa season, will be mailed to more than 20,000 persons Sept. 1, Charles Galhier, athletics business manager, said Thursday.

Included will be application forms for the four home games, for the five road contests, an information folder and schedule card. The total number of applications to be mailed will be slightly larger than last year.

Iowa's season-opener is with Ottumwa naval air station, Sept. 29. Conference games for which stadium seats will be reserved at three dollars each are Indiana, Oct. 21; Wisconsin, Nov. 3 (Homecoming), and Minnesota, Nov. 17 (Dad's day).

Applications will go to Iowa alumni, general public ticket-purchasers of recent years, and a miscellaneous list. Orders will be filled in chronological order of receipt, Galhier said.

The scheduled battle between the O. K. Tire Shop and William's Delta Sigs failed to materialize last night as most of the Delta Sig team is home on vacation from their dentistry studies.

Last night's postponement marked the third time in the last two weeks that games have been postponed. J. Edgar Frame, director of the league, said last night that the games would have to be played next week sometime, as the first half of league play will end then.

Postponed games left to be played include: Bremers vs. William's Delta Sigs (postponed from June 18th); Bremers vs. University Veteran's association (postponed from June 25th, and last night's O. K. Tire Shop-William's Delta Sig contest.

Complete Auto continues to pace the first half play with four wins and one loss. Bremers, O. K. Tire Shop and William's Delta Sigs are close behind, however, with three victories and one defeat apiece.

EVANSTON, Ill. (AP)—Stanley Clark of California Tech, Pasadena, Calif., reached the semi-finals of the National Collegiate Tennis championships yesterday with a decisive victory over youthful Carroll McCarte, University of Texas, by a score of 6-1, 6-0.

In the other lower bracket quarter-final match, Lieut. Frank Mehner of West Point defeated Bob Ryland, Wayne university, Detroit, 6-0, 6-2. Mehner, who played at the University of Utah before entering the military academy will face Clark in one of today's semi-finals.

Francisco "Pancho" Segura, the Ecuadorian ace who represents the University of Miami, and who is seeking his third consecutive title, overpowered Howard McCall, Georgia Tech, 6-2, 6-3.

By winning from McCall, Segura earned the right to play Bernard Bartzten of William & Mary college, in today's upper bracket semi-final match. Bartzten eliminated Nick Buzolich of Pepperdine college, Los Angeles, fourth seeded player, 6-2, 6-4.

Stan Mohrbacher of Cedar Rapids, guard on Iowa's football teams of 1943 and 1944, will play professional football for the Detroit Lions next fall. He recently was married to Miss Benita Overturf of Toledo, Iowa.

Hal Newhouser Hurls Tigers To 5 to 2 Win

DETROIT (AP)—The Detroit Tigers had to come from behind yesterday for their ace lefthander, Hal Newhouser, who survived a shaky fifth inning to stop the Washington Senators 5 to 2 for his 12th victory of the American league season.

Harold Cliff's fifth inning homer, followed by three straight Washington singles, put the Senators on top 2-1, offsetting the effects of Eddie Mayo's first inning four-bagger for Detroit, but Newhouser settled down to retire 15 of the last 16 men and achieve his seventh successive win on a six-hit job.

Roger Wolff, trying for his ninth win for the Senators, was charged with the four innings he worked, absorbing his fourth defeat.

Workman Homers In Ninth to Let Braves Spill Reds, 7-6

BOSTON (AP)—Chuck Workman's ninth homer, of the season, lashed with one on and two out in the ninth, yesterday enabled the Boston Braves to overhaul the Cincinnati Reds for a 7-6 triumph.

The Tribesmen entered the final frame trailing 6-4 and before Workman belted his game-winner, Ducky Medwick singled in Phil Masi.

Suspect Arrested in Mock Murder Case

Sheriff Glen Foltz Found With Revolver

'Lily White' Crime Staged for Law Enforcement Officials

Sheriff Glen Foltz of Rock Rapids was "arrested" yesterday on the suspicion that he is the murderer of "Lily White," who was found "dying" of bullet wounds in her apartment at 7 E. Market street at 8 o'clock yesterday morning.

A revolver, thought to be the one used in the fatal shooting, was discovered hidden under the shirt of the suspect by James Ryan of the Iowa City police department after Foltz was discovered mingling with police investigating the crime.

Miss White, by the way, is a department store dummy, whose murder was staged for law enforcement officials attending the peace officers' short course by the faculty of the university law school, members of the Johnson County Bar association and agents of the federal bureau of investigation.

Miss White was discovered by Sheriff Jud Caskey of Taylor county as she supposedly lay dying on the floor of her apartment. She revealed the name of her assailant to him before she died, but Caskey demurred at naming the suspect she named.

Sergt. Jim Clapp of the Iowa highway patrol, who was placed in charge of the investigation, discovered numerous clues in the murder room.

Foltz, who is sheriff of Ryan county, was discovered mixing inconspicuously with other officers in the room by Officer Ryan. He was arrested immediately and searched. A concealed pistol, a key to Lily's apartment and a letter from the victim were found on his person.

Sheriff Foltz will be tried today at a moot court presided over by Judge James P. Gaffney, Johnson County Attorney Jack C. White and D. W. Dickinson, president of the Iowa State Attorney's association will serve as prosecutors in the case, and Arthur O. Leff is in charge of the defense.

The last chance for the public to see the crime detection laboratory exhibits at the peace officers' short course will be today from 9 to 10:30 a. m.

The exhibits are on display in the river room of Iowa Union and were prepared under the supervision of Chief R. W. Nebergall of the criminal investigation division of the Iowa department of public safety.

Senator Approves Jap Peace Offers

WASHINGTON (AP)—Japanese peace offers "which would be acceptable to me personally" have been made within recent weeks, Senator Capehart (R., Ind.) said yesterday he was reliably informed.

He told a reporter he was not at liberty to reveal the terms or whether they were rejected flatly, but added: "If the Japanese promised to give up all territory they have conquered including Manchuria, wouldn't that be all right?"

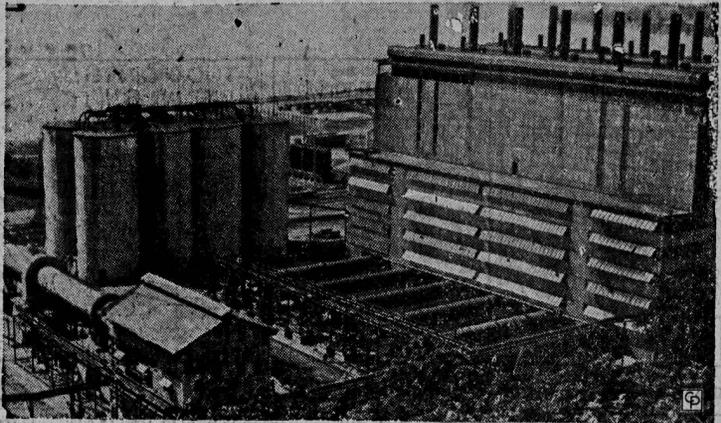

Recently returned from Europe, Capehart said he could not see "what could be gained from an unconditional surrender over what was offered." The former will come, he predicted, only after "a fight to the limit in China which will take at least two years."

Off Again

WHERE there's life, there's hope—Bob Hope. The famous comedian of screen and radio, plus his sidekick, Jerry Colonna, are off on another overseas tour to entertain the boys. The two are shown in New York as they await transportation. (International)

CUBAN 'BOOM TOWN' ANSWERS U. S. CALL FOR NICKEL

"BOOM TOWN" IN CUBA is in Nicaro where the Nicaro Nickel company produces a stream of the valuable metal for the United States at a rate of more than 27,000,000 pounds a year. Unlike most "boom towns," Nicaro is a far cry from the mud-bogged settlements near our western oil fields. Nicaro, the industrial town which was hacked out of a jungle, is clean and neat. Top photo shows attractive tile-roofed houses and clean streets built by the Nicaro Nickel company for employees at its plant. Lower photo (at right) shows the 16-hearth oil-fired Herreshoff furnaces, which are the largest of their kind in the world.

Four Women to Join Physical Education Staff in September

Further information concerning four staff appointments in the women's physical education department, announced Wednesday by President Virgil M. Hancher, has been released by the department. All appointments are effective in September.

Dudley Ashton of Louisville, Ky., will be an assistant professor. Miss Ashton received her B.S. and M.A. degrees from Teachers' college of Columbia university. She has been director of physical education in Louisville normal school and in the Theodore Ahrens Trade high school of Louisville. During the summers she has at different times been on the staff of the Universities of Colorado, Louisiana and Wyoming.

Miss Ashton has taken a prominent part in physical education organizations in Kentucky. She served as secretary-treasurer and president of the state association and as chairman of the dance section of the southern district of the physical education association. She has written numerous articles in addition to a book on characteristic rhythms for children.

Virginia Sterling comes to Iowa as an instructor in physical education. She has been teaching for five years at Radcliffe college. She received her bachelor's degree from William and Mary college at Williamsburg, Va., and her M.A. from New York university. She taught at William and Mary, Radcliffe, New York university's summer camp, and has served as visiting instructor at Wellesley college.

Miss Sterling has been active in the work of the national section of women's athletics of the American Association for Health, Physical Education and Recreation. She has been chairman of swimming on the Boston board of officials and has served as state representative from Massachusetts to the N. S. W. A. Gail Hennin, to be instructor in physical education, is a recent graduate of Purdue university. She comes to Iowa from Crawfordsville, Ind., where she has been teaching in the high school. During the past year she served as head of the department of girls' physical education there. She is also a member of the Indiana state physical fitness committee.

While an undergraduate at Purdue, she served as president of the Women's Athletic association, a member of the A. W. S. executive board and was a member of Mortar Board.

Mary Ella Critz, also to be instructor in physical education, is a graduate of the University of

Apple Trees Need Spraying This Week To Destroy Maggots

Showing up in Johnson county orchards this week is the apple maggot or "railroad worm," which should be controlled immediately by spraying the apple trees.

County Extension Director Emmett C. Gardner says the adult flies do not lay eggs for a period of 7 to 10 days after they emerge. During this period and later, while they are laying eggs, they feed on the surface of leaves and fruit. Spraying the trees thoroughly with a suitable stomach poison will destroy the flies before they can lay their eggs on the fruit.

A fairly effective secondary means of control is to pick up and destroy the fallen apples from beneath the trees before the maggots leave the fruit to burrow into the ground where they stay during the winter. To be effective, the pickup of drops should start about three weeks after the adult flies appear.

Texas at Austin, Tex. She has been teaching during the past year at the University of Colorado at Boulder and is now serving as a counselor at Camp Holiday in Hackensack, Minn.

Two Men Sought In Bathroom Slaying

BOSTON (AP)—Two young men wearing navy uniforms were sought last night by naval intelligence officers and police for questioning in the Turkish bath slaying of Chase Mac Arthur, 61, Massachusetts and Maine educator.

The battered and bleeding nude body of the former Foxboro, Mass., school superintendent, was found Wednesday night on a cot in a bathroom room, which, Police Captain Louis A. Di Sessa said had been assigned to the two uniformed men.

MacArthur had been recently named to the teaching staff of Ricker Junior college in Houlton, Me.

Marriage Licenses

Three marriage licenses were issued by the clerk of the district court yesterday.

Those issued licenses were William E. Snider and Betty Jane Snider, both of Cedar Rapids; Lyle O. Wheeler and Marcella M. Flickinger, and Robert McNabb and Patricia Baldwin, all of Iowa City.

STETTINIUS RETURNS FROM UNCIO CONFERENCE

SECRETARY OF STATE Edward R. Stettinius, whose resignation from the cabinet has been announced by the president, is shown above as he arrived in Washington after a flight from San Francisco following the end of the United Nations conference. Appointed by President Truman to head the United States representation in permanent peace organization of United Nations, Stettinius was accompanied by (L. to R.) British Ambassador Lord Halifax, Senor Pedro Veloso of Brazil; Dr. Wellington Koo of China and Ezequiel Padilla of Mexico.

USS Pinkney Under Repairs After Assault

OAKLAND, Calif. (AP)—The bomb-battered navy evacuation transport USS Pinkney, aboard which 100 wounded veterans of Okinawa helplessly underwent a blazing enemy assault, yesterday was being readied here for a return to action.

Thirty-six men, including 19 wounded, perished when a Japanese torpedo bomber sneaked through the fleet's guards and dropped a 1,000-pound bomb on the Pinkney's boat deck.

As damage parties struggled to contain flames that broke out all over the vessel, and hospital corpsmen strove to evacuate the surviving patients, the ship's doctors, by lantern-light, successfully completed an appendectomy which was underway when the bomb struck.

The door of the radio shack jammed in the blast and trapped the operator, the navy related. One crew member threw buckets of water through a porthole onto the tortured man while others battered da hole through the door with crowbars, periodically sloshing the heated irons to keep them cool enough to hold.

The Pinkney, captained by Comdr. Arnold A. Downing, Brooklyn, N. Y., who was knocked unconscious by the first blast, was under control and its wounded evacuated in 90 minutes, and was able to head for this port eight days later.

Corpsmen who braved flames repeatedly to bring the wounded from the burning wards included Ph. M. third class Joseph P. Lauf of Chicago, Ill., who saved four.

Forces List Casualties

WASHINGTON (AP)—Army and navy casualties not totaled 1,030,679, an increase of 7,226 in the last week, it was announced yesterday.

The total for 2 1-2 years of fighting included 236,735 killed; 625,288 wounded; 50,240 missing and 118,416 prisoners including those who have since been liberated.

Meanwhile, Gen. Joseph T. McNarney disclosed American casualties in the Mediterranean area from the time the allies landed in North Africa, in 1942 until the German surrender totaled 186,616, including 30,910 killed, 108,271 wounded and 47,435 missing or taken prisoner.

National Bond Sale Breaks All Records

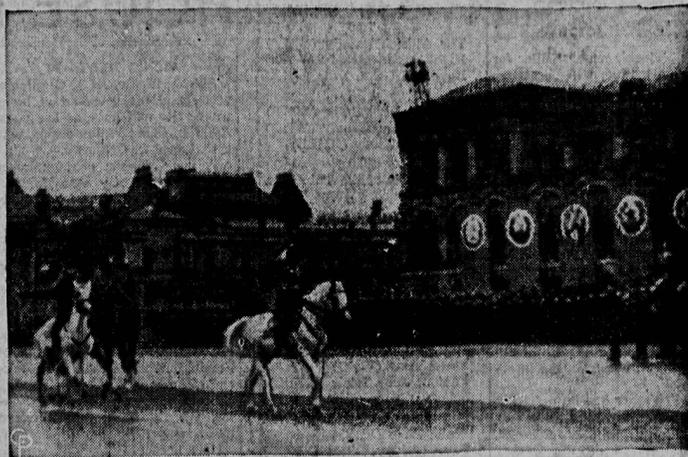

WASHINGTON (AP)—The Seventh War Loan broke all previous records for bond drives yesterday as total sales reached \$21,639,000,000.

The previous high mark was \$21,621,000,000 in the Sixth War Loan last winter.

Secretary of the Treasury Morgenthau, announcing the achievement last night said it is a "vote of confidence" in our fighting men.

He also expressed confidence that war bond volunteers "will not let down in their efforts until this campaign is over."

ZHUKOV APPEARS IN MOSCOW'S VICTORY PARADE

MARSHAL OF THE SOVIET UNION GEORGI ZHUKOV accompanied by commander of the parade, Marshal of the Soviet Union K. Rokossovsky, rides his mount past Red Army troops during the victory parade ceremonies in Moscow. It was Russia's greatest official ceremony to honor its victorious troops, 200 of which dragged swastikas through the streets. Radiophoto. (International)

First Lieut. Charles W. Pickle Awarded Bronze Star for Meritorious Service

Disregarding his personal safety to get an accurate line on enemy positions for his own artillery, First Lieut. Charles W. Pickle of the 841st field artillery battalion, 89th infantry division, distinguished himself by meritorious service and has been awarded the Bronze Star medal. On one occasion when radio contact with his battalion was impossible, Lieutenant Pickle moved to an exposed position and stayed to secure fire and destroy the enemy observation post, though he himself was bracketed with mortar fire. His wife resides at 219 S. Summit.

Veteran of seven years service with the Iowa City police department, George Riley Hall, specialist 3c, is with a navy shore patrol unit policing Honolulu in general jeep patrol work, covering this city daily. Graduate of City high school and former employe of Sidwell's dairy, Hall's wife and two

daughters live at 804 Hudson avenue. He has been overseas one year.

John L. Eaton, 28, seaman 1c, USNR, whose aunt, Sarita Robinson, lives at 15 Prospect place, is now serving aboard a carrier in the western Pacific. Veteran of 30 months Pacific duty aboard a transport before his present assignment, Eaton participated in the invasions of Tulagi, Attu, Kiska, Tarawa, Kwajalein and Hollandia.

Former commerce major at the university, First Lieut. Joe L. Parkin of Derby recently received the Distinguished Flying Cross at Ellington field, Tex., after completing a tour of 35 combat missions as navigator on a B-24 Liberator bomber. In addition to the Distinguished Flying Cross he also wears the Air Medal with three Oak Leaf clusters and the European theater ribbon with four battle stars. He is now attending courses in graduate navigation and administration at the Ellington field army air force central school for navigation.

Kelly Judy, son of Mr. and Mrs. Kelly Judy, 217 S. Governor street, was recently promoted from private first class to corporal. He is now with the United States armed forces in Europe.

Lieut. Comdr. and Mrs. Ethiel J. Amish and son have left Iowa City after a visit with Mrs. Amish's parents, Mr. and Mrs. Louis Musser, 942 E. Jefferson street. They will go to Atlantic City where Commander Amish is a dentist at a coast guard hospital.

Bilbo Begins Senate Filibuster to Prevent FEPC Amendment

WASHINGTON (AP)—Theodore G. (The Voice) Bilbo of Poplarville, Miss., strengthened his claim yesterday as the talkingest man in the United States senate.

His tonsil humming with health, his desk piled high with reading matter, the balding Mississippi Democrat announced he was preaching the funeral sermon of the fair employment practice committee. He began it Wednesday afternoon.

Bilbo said FEPC's actual funeral would be Monday. That's the first business day of the new fiscal year. He proposes to hold the floor until the present fiscal year ends Saturday midnight, to keep Senator Chavez (D., N. Mex.) from offering an amendment to the war agencies appropriation bill giving FEPC \$446,200 to finance another year's policing of industry against racial and religious discrimination.

Anybody who dropped in to the senate gallery for as long as five minutes found out that Bilbo doesn't like FEPC. He doesn't call it this bill or this measure; it's "this damnable piece of legislation."

Communion Service

In observance of the Feast of St. Peter, celebrations of Holy Communion will be held at Trinity Episcopal church this morning at 7 and 10 o'clock. The Rev. Fred M. Putnam, rector of the parish, will be the celebrant.

'Help Wanted' Signs to End

DES MOINES (AP)—For the first time in months, Des Moines employers were hopeful that they would be able to take down some of the "help wanted" signs.

Their encouragement came from the order to close the Des Moines ordinance plant July 31, which will release 9,800 workers after July 15.

During the day, 75 employers contacted the United States employment service to ask for 405 workers.

E. Lee Keyser, Des Moines area director for the war manpower commission, said employers' orders could not be filled immediately "because scheduled layoffs at the plant will be slight until July 15," "at the rate orders are coming in, there's no question we will be able to place all released workers who want new jobs," Keyser said.

Restaurants, laundries and garages were prominent among those Des Moines firms bidding for services of released war workers.

Ed Hagedorn, manager of the United States employment service, said the Lake Shore Tire and Rubber company, a war plant employing 462, had on file an order for 75 new employees, but said twice that number could be used.

Former Army Cook Homesick for Army—Returns for Visit

FT. LEWIS, Wash. (AP)—Many a soldier would give almost anything to get home to mom's home cooking but there's another side to the story.

When headquarters company of the medical training center went to mess recently, there sat Lawrence A. Zeiger, 49, former first cook who had been discharged under the "over age" regulation. "Just got homesick for the army so I put on my uniform and came out for dinner," he explained.

Bond Director Urges 100 Per Cent Response

DES MOINES (AP)—"Anything less than 100 per cent of the 'E' bond quota for each Iowa county at the end of the Seventh war loan drive July 7 will be a poor record," V. L. Clark, executive manager of the Iowa war finance committee said yesterday.

State "E" bond sales through Wednesday totaled \$74,900,000 or 91 per cent of the "E" \$82,000,000 quota. Total sales for Wednesday amounted to \$1,500,000.

Elementary Teachers Wanted California \$1900-\$3300; Michigan \$1800-\$2550; New York \$1700-\$2300. Hundreds needed for many other states. Let us place you where there is an established salary schedule. Enroll Free. Cline Teachers' Agency, East Lansing, Mich.
