## Steel Workers Union Will Call For Strike Vote, Says Murray

### \$2 Wage Boost Demand to Be Enforced By Strike Petitions of 1,042 Local Unions

By THE ASSOCIATED PRESS  
President Philip Murray of the CIO announced yesterday the steel workers union would call for strike votes to enforce demands for a \$2 a day wage boost in the steel industry.  
Murray, also president of the United Steel workers, said he hoped to have the strike vote petitions filed with the proper government authorities no later than Monday. He said they would cover 766 companies and 643,595 members of 1,042 local unions. United States Steel, Jones & Laughlin and the Youngstown Sheet & Tube company are among those rejecting the union's demand for the \$2 raise.  
Murray made his announcement at a news conference after the union's wage policy committee, meeting in Pittsburgh, authorized the union executive officers to "take whatever action they deemed necessary" including strike votes, to obtain the increase.  
Other prime developments in the labor field included:

1. Chrysler Corporation workers voted 19,870 to 2,359 in favor of a strike to support demands for a wage rate increase of 30 percent.
2. The CIO United Automobile workers, empowered to strike at General Motors, declared wage demands would not be compromised unless GM could prove it could not meet them.
3. Picketing ended at all Hollywood film studios and the leaders of the recent AFL strike called for Warner Brothers to pay claims to strikers hurt while picketing.
4. Montgomery Ward and Company was threatened with a nationwide strike by the CIO union involved in disputes which led to two government seizures of some of the mail order concern's properties.

### Service Restored

5. American Airlines restored service interrupted by strikes of CIO maintenance workers in three cities.
6. The number on strike or not working because of strikes over the nation rose to 234,000, about 12,000 more than on Thursday.

### Strike Threatened

Montgomery Ward and Company, its properties in seven cities recently restored to private operation after nine months under army control, was threatened with a nationwide strike involving 75,000 employees in 650 retail stores and nine mail order houses.  
Federal mediators strove to settle a dispute between CIO United Automobile workers and American Airlines that had disrupted service between New York, Chicago and Detroit. The strike began in New York early this week when a union negotiating committee said it was unable to reach an agreement with American Export Airlines, a subsidiary, on wage increases. Employees in Chicago and Detroit struck in sympathy.

### Revolt Rumors Grow In Brazil's Capital

RIO DE JANEIRO (AP)—Amid widespread rumors of impending revolution, the Brazilian minister of war directed the armed forces yesterday to keep clear of politics and withstand "all political passions that would plunge the nation into a civil war."  
Armed forces and the police were placed on the alert and tension in the Brazilian capital was high.  
Some newspapers were using the word "revolution" in broad headlines over stories and interviews dealing with the political situation, which has been growing more heated with the approach of the presidential and congressional elections on Dec. 2.  
The pro-government evening newspaper A Noite in a signed editorial said "after a meeting of army generals next week will come the D day and H hour of the revolution."  
The same newspaper declared it had knowledge of a telegram from Maj. Gen. Edeardo Gomes, a candidate for president in the coming election, ordering "suspension" of a revolution which had been scheduled to be launched yesterday against the present regime of President Getulio Vargas.

## Congress Informed President Wishes To Retain Controls

WASHINGTON (AP)—Congress was informed yesterday that President Truman wants to retain, for an indefinite period, his power to continue rationing, priorities, the draft and other wartime controls.  
The president's principal trouble-shooter, John W. Snyder, told a house judiciary subcommittee that revocation of war powers would be a "serious" threat to reconversion.  
Snyder, war mobilization and reconversion director, was the main witness at the opening of hearings on bills to declare the war legally at an end. When that date is fixed, much of the president's emergency powers are void.  
Speaking for the administration, Snyder assured the lawmakers that "no wartime control will be exercised one day longer than is absolutely necessary."  
Two bills before the committee would abandon the president's wartime powers by fixing the legal end of hostilities as of last Aug. 14 or Sept. 2.

## MacArthur May Visit U. S. in Near Future

WASHINGTON (AP)—War department officials said yesterday they assumed that Gen. Douglas MacArthur, Pacific theatre commander, would come home for a visit "in the near future."  
The general has been invited by the house and senate to address a joint congressional session whenever he returns. Reports were current that MacArthur would be here between Nov. 1 to the 8th.

## Eight Taverns Raided In Solon and Hills

### Special Agents Seize Liquor, Slot Machines In Sudden Clean-Up

By HARVEY INGHAM III  
Twenty-two slot machines were seized by state and county agents yesterday afternoon in raids on eight taverns and cafes in Solon and Hills. Punchboards and other gambling devices as well as quantities of various kinds of liquor were also confiscated.  
The raids, which started simultaneously at 2 p. m., were conducted by nine special agents from the state bureau of criminal investigation, Sheriff Preston Koser and County Attorney Jack C. White.  
Sheriff Koser and White, with two state agents, conducted the raids in Hills. They seized three slot machines and two bottles of whiskey at the Red Rose tavern operated by D. M. Hill, and two slot machines, a dice machine, and several punchboards at Schmidt's City Club tavern operated by Cliff Hirt.  
Six places were raided at Solon. Special agents confiscated three slot machines, three jars of weather tickets and several bottles of liquor at Hamm's Beer tavern operated by Bill Scanlon. Three slot machines and several bottles of liquor were seized at the Budweiser Beer tavern operated by Harold Diehl. Three slot machines and several bottles of liquor were brought in from Ray's Beer tavern operated by R. E. Krall. Three slot machines and several bottles of whiskey were seized at the Schlitz Beer tavern operated by Monk Myers. Three slot machines, money jars, and bottles of liquor were seized at the Country Club tavern, operated by Kessler and son. Two slot machines were seized at the Solon cafe, operated by Roy Eastwood.  
The property is being held in a vault at the courthouse pending further investigation.  
No charges have been filed.

## Stalin in Good Health; Talks With Harriman

MOSCOW (AP)—Generalissimo Stalin, it can be authoritatively stated tonight, is in good health and has received U. S. Ambassador W. Averell Harriman and discussed with him at length current American-Russian questions.  
A dispatch from London tonight quoted the Moscow radio as saying that Harriman had delivered a message to Stalin from President Truman on Oct. 24 and had had two talks with the Russian leader before returning to Moscow.

## Two Eldora Youths Wounded in Scuffle

### One School Inmate Critically Injured in Gun Accident

ELDORA (AP)—James Porter, 15, of Council Bluffs, one of two inmates wounded in what officials called an accidental shooting at the State Training School for Boys earlier yesterday, remained in a critical condition in an Eldora hospital last night.  
Dr. D. M. Nyquist, Eldora physician, described the youth's chances for recovery as "pretty dubious."  
"The boy's condition is critical and it may remain that way for 24 hours," the doctor said.  
Porter was wounded in the chest and arm when, an employe of the institution said, the youth tried to take a sawed-off shotgun away from an unidentified state guardsman. During the ensuing scuffle, the guardsman's gun accidentally discharged wounding Porter and a companion, Hugh Riddle, 16, of Dow City, who suffered a slight wound in the left wrist.  
Lt. Col. Earl C. Wickham of Marshalltown, the State Guard's commanding officer here, reported to Gov. Robert D. Blue in Des Moines that the shooting was "an accident" and occurred when the boys were being moved from the stockade.  
The scuffle and the accidental discharge of the gun followed, it was reported.  
Five former officers and employes of the training school are under indictment on charges ranging from conspiracy to second degree murder. Their trials are scheduled to start at Fort Dodge Nov. 23.

## Baby Abandoned in Downtown Iowa City

### Police Believe Child Left by Transients; FBI to Investigate

The parents of a four-weeks-old baby girl abandoned in the business district of Iowa City Wednesday afternoon are still being sought by local police. An investigation, which caused information of the case to be withheld until yesterday, has convinced the authorities here that the child's parents were transients passing through Iowa City.  
The baby was discovered in a buggy parked in front of McNamara's Furniture store by Mrs. Roy Gruwell, matron for the city restroom. Mrs. Gruwell, who lives in the Iowa Apartment building, was on her way to the City hall about 1 p. m. Wednesday when she heard the baby crying, she said.  
The child was clothed only in a shirt and had a man's white handkerchief for a diaper when she first saw it lying in the buggy, Mrs. Gruwell said, and its body was blue from cold and neglect. There was no bedding in the buggy, and the only blanket was a small cotton one pushed into one corner of the carriage. A little blue sweater was under the baby's head.  
Mrs. Gruwell took the baby into the restroom of the City hall and made it comfortable. City firemen fed the infant some milk.  
The child was later taken to Mercy hospital where its condition was reported yesterday as good.

## Japs Question Allied Orders

TOKYO (AP)—The Japanese yesterday questioned the propriety of Allied orders to disband their diplomatic network abroad, while General MacArthur's headquarters expressed ignorance of the prospective arrival of British and other troops to share in the occupation of this conquered country.  
Simultaneously American authorities seized new caches of precious metals and other treasures of doubtful title and pressed a campaign to confiscate all arms held by Japanese. While most Japanese military stores have been handed over, disarming of individuals is expected to take until Dec. 1.  
Disbandment of the Japanese diplomatic and consular services—long notorious among the Allies as fronts for spies—was ordered by MacArthur Thursday on instructions from the joint chiefs of staff in Washington.  
The agency said that as soon as hostilities ceased the Allies had "requested" cessations of relations with neutral powers but Japan regarded this as inconsistent with the Potsdam declaration and therefore had continued to maintain relations with many other countries.

## Einstein Favors World Government

BOSTON (AP)—Prof. Albert Einstein says in an interview published in the Atlantic Monthly that atomic bombs could kill perhaps two-thirds of the people of the earth, but that there always will be enough thinking men and books left to start again.  
He favors a world government, to be set up soon and jointly by the United States, Great Britain and the Soviet Union, to reduce the peril of a war waged with atomic bombs.  
In a foreword to the article, the magazine recounts that Einstein, discoverer of the theory of relativity, wrote to President Roosevelt in 1939, predicting that uranium soon might be turned into "a new and important source of energy," that would lead to construction of "extremely powerful bombs."  
"I do not believe the secret of the bomb should be given to the United Nations organization," says

## American Traitors Will Be Returned To U. S. For Trials

WASHINGTON (AP)—The justice department said yesterday that the Americans indicted in 1943 on treason charges as Axis propaganda broadcasters will be returned here for trial if enough witnesses can be found. Only four of the eight are reported in custody so far.  
Ezra Pound of New York City, Robert H. Best of Sumter, S. C., Edward Delaney of Olney, Ill., and Constance Drexel of Philadelphia are held. Frederick Kaltenbach of Dubuque, Iowa, is believed dead. Still at large are Douglas Chandler of Baltimore, Jane Anderson of Atlanta and Max Otto Koischwitz of New York City.

## Bevin Urges Relief For Hungry Europe

### Warns of Disaster Unless U. S. Congress Votes Funds to Aid

LONDON (AP)—Foreign Secretary Ernest Bevin declared yesterday that Europe had been brought to near chaos by a deliberate Nazi plan, and faced disaster soon unless the United States congress voted \$1,800,000,000 to the United Nations relief and rehabilitation administration.  
Hunger and privation in Europe may bring "further prolific human loss more devastating than gun or atomic bomb," he told commons.  
Bevin drew attention to congressional debate on funds for UNRRA, and declared "if that vote is not granted, UNRRA will be broke and the situation we have to face in a few weeks' time will be disastrous."  
President Truman has asked congress to give \$550,000,000 to UNRRA, the remaining portion of America's first authorized contribution of \$1,350,000,000. Truman said that after this action was completed, he would ask congress to authorize a second \$1,350,000,000 contribution. This with the \$550,000 would total \$1,900,000,000, rather than the figure Bevin gave.  
A second contribution from member nations was voted at the recent UNRRA council meeting in London.  
Bevin said that "difficult as our own situation was, we agreed to pay the same equivalent amount with America—one percent of our national income."  
"We, by ourselves, can do very little to relieve conditions in Europe," he said.  
Bevin estimated that between 14,000,000 and 15,000,000 persons were wandering through Europe, homeless, ill-clothed and without food. He said "terrible epidemics" threatened this winter which "cannot be limited by frontier or strategic post."

## Truman to Deliver 'Most Important' Talk in New York Today

WASHINGTON (AP)—President Truman will deliver his "most important" speech on foreign policy at New York today.  
The White House gave the address that description yesterday and set off speculation that he may make a bid for American leadership in carrying peace organization even beyond the stage of international cooperation provided for in the United Nations.  
Eben Ayers, White House news spokesman, said that in his opinion the address will be the "most important speech from a new standpoint since the president entered the White House."  
Whether it will deal directly with the subject of possible international measures aimed at prevention of some future atomic bomb war was one of the first points raised. On this the White House was silent.

## Officials Discuss End To Rationing of Shoes

WASHINGTON (AP)—Top officials of OPA and WPB conferred yesterday on when to end shoe rationing, but declined afterward to discuss possible dates.  
WPB chief of staff John D. Small reiterated that no announcement would be made before the eve of whatever date is set.  
Termination of the program either on Sunday or by Nov. 1 has been recommended by the shoe division of both OPA and WPB.

## Truman Acts To Speed Up Rehabilitation

### 11 Directives Issued To Agencies Involved To Improve Situation

WASHINGTON (AP)—President Truman issued directions right and left yesterday to speed up the pace of the Philippine rehabilitation program.  
One day after conferring with commonwealth President Sergio Osmena, the president made public 11 messages instructing interested government agencies to take prompt action in helping the war-wrecked islands get back on their economic feet.  
One of his directives instructed newly-appointed high commissioner Paul V. McNutt to institute a swift investigation of "agrarian unrest" in cooperation with the Philippine government and "to recommend the remedies and reforms which ought to be taken."  
The president disclosed a share cropper guerrilla army "which reportedly did good work against the enemy" has not disbanded yet in the provinces near Manila.  
"Today they constitute a special problem which threatens the stability of the government," he said.  
Truman specified "they not be dealt with in a ruthless manner" because their work against the Japanese entitled them to "legitimate claim to fair treatment."

Philippine sources in Washington said the president might be referring to a guerrilla group known as the "kukbalahap" in Luzon which reportedly is led by several liberal college-trained officers dissatisfied with the progress of social reforms since liberation.  
Philippine officials, however, stressed that President Osmena was not responsible for Truman's action in this field nor for another directive to the attorney general to help the Filipino government speed up arrest and conviction of collaborators.  
"Reports have appeared in the press which indicate that a number of persons who gave aid and comfort to the enemy are now holding important offices in the commonwealth government," Truman said.  
His seven other directives asked:

1. The surplus property administrator to make available without cost part of the large stocks of American surplus in the islands especially those "badly needed" for road construction, hospitals and medical treatment.
2. The treasury and war department to study the occupation-snarled currency situation and submit recommendations on how the United States should redeem its obligations without "any windfall to speculators."
3. The veterans affairs administration to "make a careful analysis of all phases of past and current benefits" to Filipino war veterans and to recommend any new legislation needed.
4. The president of the export-import bank "to work out a program to operate in the islands on a purely business basis which would be of great assistance in restoring normal economic conditions."
5. The war shipping administrator to estimate the tonnage needed to supply adequate shipping for the islands.
6. The chairman of the reconstruction finance corporation to use its resources and personnel "to sell goods on credit terms not exceeding two years in duration" in an effort to combat inflation.
7. The treasury department to draw up a schedule "showing the relative trend of the purchasing power and exchange rates of the Japanese Philippine peso during the period of invasion."

THE PARENTS OF THIS four-weeks old baby girl, shown with a Mercy hospital nurse, are still being sought by Iowa City police. The baby was found abandoned in a buggy in front of McNamara's Furniture store Wednesday afternoon. Police believe that the parents came to Iowa City on a bus from Omaha Wednesday morning. Anyone with information which might lead to the identity of the parents is requested to contact Police Chief Ollie White.

## CZECH CLOTHING DRIVE OPENS

MRS. WAITSTILL SHARP, extreme right, whose Information First lecture inspired the Czech clothing drive, receives the donations of Peggy Mutchler, A3 of Buffalo, N. Y., seated; Topsy Carberry, A2 of Cedar Rapids, left, and Pat Lightfoot, A2 of Ft. Madison, right. The containers are located in front of the west entrance of Old Capitol. Mrs. Sharp spoke for American Relief for Czechoslovakia, Inc., a member agency of the National War Fund. Her tour through Iowa is made possible by the Iowa War Chest and the local Iowa City Community Chest and War Fund agency.

Editorials:

Lel Us Help Czechoslovakian Students

Czechoslovakia, one of the greatest sufferers in this war, is turning to other, less-destitute nations for relief.

We in this country sometimes find it hard to picture the condition of another nation vividly enough that it prompts us to immediate action.

More than anything else that students have to give, the Czechs need clothing, particularly heavy clothing for the cold winter ahead.

The Czechs face this winter without adequate food or fuel. And the winter will be doubly hard on the undernourished bodies unless they are warmly clothed.

Clothing isn't the only need of the Czechoslovakians. But it is one of the direst, and one that for many is a life or death issue.

Letter to the Editor—

(Editor's Note: Letters to the editor must contain the name and address of the writer. The writer's name will not be printed if so requested, however.)

A policy restricting the exit of those who wish to leave a concert is as unwise and undemocratic as it is unnecessary and ludicrous.

At the first university concert last Wednesday, it was apparently established rule, carried out by the members of the ushering-reception committee, to prohibit members of the audience from leaving when they wished to do so—before the program was formally completed.

This was in overt evidence when at least four members of the audience walked to the main exit door at the end of the second and third sketches of the Chadwick. They were stopped by the ushers and told they could not leave.

He got a job but couldn't hold it with his bungled-up hand. He got another, had to quit—another, and had to quit that too.

Certainly, when one decides he has had enough, no restriction should be imposed on this rightful esthetic judgment. From the committee's standards, it must be surprising that a restriction of this kind is not present in probably most of the concert halls in the country.

Attendance at a concert is wholly an optional matter for most of us; we don't attend because we hate the stuff. However, the choice of leaving should remain an individual one, decided by each member of the audience for himself.

I strongly urge that the committee reconsider its views in this matter, and revise them for the most democratic procedure, with the good sense we know it is capable.

A Chance to Kill Opium Trade

(Milwaukee Journal) One of the most inhuman things the Japanese militarists and state monopolists ever did was to promote the opium trade and opium consumption in conquered areas of Asia.

There were precedents, unfortunately, that had been set by some western nations—Britain, for instance—but those nations were interested in the trade alone. Japan was the first to use opium for the deliberate destruction of a people, just as the Nazis used gas chambers, starvation and beatings.

In Manchuria, Japan, under state monopoly, opened innumerable opium dens in Harbin and other centers. The more Manchurians and southern Chinese immigrants who became addicts and died, the better. The head of the monopoly at one time was a gentleman named Tojo, who even then was getting ready for Pearl Harbor.

General MacArthur has struck the first blow against this trade by ordering the destruction of the opium crop. If his policies

can accommodate only about 5,000. And even for those 5,000 there are no books, no equipment and only meager classroom facilities.

Yet as many as there is room for are attending universities. They go, despite the fact they face a shivering winter in cold classrooms.

The Czech students will be more than glad to accept what United States students no longer need. The unused articles of clothing that lie in our closets may well mean life for some and undoubtedly greater comfort for many, many others.

And we will be helping erase some of the scars that the German conqueror left. Mrs. Sharp told of a man still wearing the striped clothes of a concentration camp who was attending school.

More than anything else that man probably wants to rid himself of those prison clothes—the mark of the Nazis. Our unwanted clothing would mean more than just warmth to him. It would be a symbol.

The campus drive for clothing for the Czechoslovakians already is underway and will last only a week. But in that week we should be able to give a great amount.

The clothing will be shipped to Europe immediately, in time to help the Czechs battle the hard winter. It will be shipped to Czechoslovakia by the United Nations relief and rehabilitation administration in vessels that are returning to Europe to bring American soldiers home.

are followed up vigorously and are extended to Korea and Manchuria, and if the Chinese government cooperates, here is an opportunity to rid eastern Asia, once and for all, of the human degradation that flows from the opium habit.

It is a bigger opportunity than was created by all the international conferences that ever were held on the subject of opium.

Covering The Capital

By HERMAN R. ALLEN (Jack Stinnett Is III)

WASHINGTON—Three of the veteran's fingers and half his hand had been blown off. They told him when he was discharged from Walter Reed hospital that the other finger might have to be amputated and a mechanical hand fitted.

He got a job but couldn't hold it with his bungled-up hand. He got another, had to quit—another, and had to quit that too. He was getting \$23 a month disability pension, was apparently entitled to more but had to wait while wheels turned at the veterans administration. His case was delayed at the unemployment compensation office.

Broke, hungry, homeless, he heard about Red Cross home service. Home service fixed him up with meals and a room and a little cash until things started breaking his way.

Another man, badly disfigured by combat injuries, refused the pleas of his family to return home. The family got in touch with home service, which sent a case worker to look him up.

An interview disclosed that it was not the man's disfigurement that stopped him from going home. It was the fear that he wouldn't be able to find a job he could handle. He had been trained as an architect, but the depression had prevented him from working at it very much before he went into military service.

The Red Cross case worker took the unusual step of requesting a Washington architect to place the man in a branch office in his home town. Usually home service sends a man to see a veterans representative at the United States employment office.

Home service was originally set up to help a service man handle problems that arose at home while he was away. A mother had to go to the hospital, and home service arranged for the care of her children. A wife was without money when her husband's allotment check was late, and home service loaned her enough to get by.

A soldier was notified of a serious illness at home. He applied for a furlough, and his commanding officer asked home service to make the necessary check-up so that the furlough could be granted.

More and more, however, home service is swinging into the job of helping veterans make a smooth return to civilian life. It figures that if it takes a year to make a civilian into a soldier, it must take at least that long to make him into a civilian again.

The local Washington office of home service has been handling about 7,000 cases a month during the war. In July 1944 of these involved veterans' problems. Now such cases are running about 1,000 a month.

One of home services most touching problems is that of the young man who has never held a job or moved in the adult civilian world. Some of these young men have lived for four or even five years in an atmosphere of danger and excitement. Their lives have been governed in general by regulations and in particular by commands.

To enter a humdrum civilian existence, with a speeding auto perhaps the greatest danger, is not attractive to some. When that is coupled with the fact that for the first time it will be necessary to make the major decisions that mean livelihood, the gap is just a little more than some can face calmly.

As the millions of bristling guns disappear from the face of the globe, the Man in the Moon must have the impression that the Earth is getting a shave.

# For and About WOMEN

By Marni Clayton

## Plan for Wise Hostess—

# Homecoming Supper

Band playing, crowds standing, regally-waving flag rising above the beginning of another exciting football event and the first score goes to the woman who has planned an after-the-game supper to climax the day.

With homecoming but a week away, now's the time to think about some easy entertaining for holiday-spirited friends. Even after madly cheering on the team, they'll still have voice to cheer your invitation to hot, tempting food. This is the kind of supper that so easily fastens the tag of hospitality over your door. No ice to break, no conversation to direct—the post-game setting is perfect for a hostess who need concern herself only with an appetizing table.

### Simple, Plentiful Food

Food for such an occasion is simple—to be prepared while talk

of the game is still paramount. It's bountiful to satisfy brisk air-inspired appetites, and of course, it's tasty to keep enthusiasm flying high.

Here are some suggested menus to make you and your after-the-game supper the winning team on the entertaining field.

### Old Italian Supper

Try a combination of Italian spaghetti (that's really "old country" with pepper, garlic and cheese) with its natural counterparts—hard rolls, a green salad bowl and a dessert of crackers and tangy cheese or assorted fresh fruits.

Not-so-spicy a meal would be pigs in the blanket (basically a combination of baking powder biscuit dough and ground pork), a tomato mold filled with cottage cheese or with lettuce hearts for a cool contrast to the hot dish and, finally, banana chocolate cake.

Cheese scrambled eggs and broiled bacon would score a touchdown with your football fans. With this serve a vegetable salad bowl and orange doughnuts. A frosted sandwich loaf that you can assemble and tuck away in the refrigerator before leaving for the game is one of the simplest delights you could serve. Make it with bread-by-the-loaf, sliced, tomatoes, minced ham, tongue or salmon, lettuce and cream cheese.

### All-in-a-Dish Menu

All-in-a-dish suppers hold their own in any array of after-the-game menus—dishes like shrimp and rice au gratin, chicken ring filled with creamed mushrooms or a tuna casserole.

For recipes of any of the dishes mentioned above, just drop a card to your Iowa office. And here's a rousing cheer for those of you who take advantage of homecoming a week from tomorrow to display your hostessing abilities in an after-the-game supper!

## YOUTHFUL CHARM

—Photo courtesy N. Y. Dress Institute

YOUNG PEOPLE are going to go places this fall, as New York's fashion designers are well aware. The style pictured above, with striped gold taffeta top flaring in a peplum over an airy black marquisette skirt, is the type of date and dance dress that even the college crowd will be wearing for little evenings everywhere.

MISS FUERST ENGAGED

MR. AND MRS. Edward C. Fuerst of Clarinda announce the engagement of their daughter, Charlotte, to Pfc. Robert H. Roth, U. S. M. C., son of Mr. and Mrs. Fred W. Roth of Chicago. Miss Fuerst was graduated from Clarinda high school and is a senior in the college of liberal arts at the University of Iowa. Mr. Roth was graduated from Amundson high school in Chicago and was a sophomore in the college of engineering at the University of Iowa, where he was affiliated with Delta Tau Delta social fraternity. He entered the service in March, 1944, and now is stationed with the marine corps at Miami, Fla.

## Color Controls Home As Well as Wardrobe To Accent Individual

In your home as in your clothes, the selection of colors controls the difference between drab mediocrity and striking beauty. The color-wise homemaker will decorate most of her house in colors which will dramatize her coloring and personality.

If she is the silver gray color type, she will avoid pastels and colors close to the saturation point. She will choose instead the rich, dark colors which provide a lovely contrast to her own coloring. For the bedroom of her brown-haired daughter she will select clean, vivid tints and shades rather than strong colors which would submerge that all-American brown-haired coloring.

### Shade for Shade

Pastels or deep dark shades do the most for a blond, strong vivid colors for a brunette, and warm pastel colors for a redhead.

For example, a charming color design for the all-American "brownette" would be woven around her bedroom done in a clover print on a white ground.

### Suggestion for Brownette

The bedspread might be made with a white quilted top and flounces of the clover blossom print with the dressing table skirt also of print. Material to match the medium shade of green in the print would be lovely for draperies, and valences of the print itself, and green again, to upholster the boudoir chair. A carpet might be selected to match the dark green of the clover print, or if the room is inclined to be dark, an over-all white fluffy rug will lighten it.

Key to any interior decoration, though, is the dramatization of the

## Men Like Old-Fashioned Hash

I'm going on the assumption today that you've had a nice pot roast of beef in the last day or so. Or some kind of roast, anyway, now that roasts are showing their faces again and points on them are lower. It pays to buy just as big a roast as points and pennies will allow because of the hashes, meat pies and other good dishes that the leftovers provide.

Today's thrifty meat meal is planned around beef hash and I'm passing along some hints on hash variations, too—just in case you're about to say, "What—hash again?" For hash, prepared with care, really is a very good old-fashioned dish—one that the men in your family especially like. And to go along with the hash, here's a suggestion for cauliflower with cheese sauce, jellied tomato and celery salad, bran muffins and baked apples with raisins. The apples may be sweetened with honey if sugar is on the scarce side. And the apples and muffins both will get baked in time if you plan it that way. While the apples finish baking, you can be mixing the muffins. Then when the moist, tender apples come from their moderately hot oven, the temperature can be stepped up to 425 F and the muffins popped in.

One little secret which seems to add extra flavor to beef hash, or any hash for that matter, is to lightly brown the chopped onion in hot fat before adding the chopped meat and potatoes. Then season carefully to taste with not only salt and pepper, but celery salt and, if you'd like the merest suspicion of garlic, a sprinkling of garlic salt.

Hash usually needs a moistener to keep all the ingredients together but this need not always be cream or gravy. Vary the flavor of the hash by using tomato juice, dilute catsup or chili sauce, and condensed tomato, mushroom or vegetable soup. Instead of potatoes with the meat you might like to use carrots or a combination of potatoes and carrots. And for extra flavor try chopped green pepper and pimientos, too. First thing you know this is going to be a hash with all of the garden vegetables included—which is exactly the

way new dishes are created. A little dash, a little dare—and you have a new creation!

An easy way to cook the hash instead of frying it, is to bake it in the oven. This saves all the watching and turning. Bake it in a greased square pan in a 375 degree oven and when you take it from the oven, all brown crusts, cut it in squares for serving.

If you'd like your beef and potato hash southern style, make it moist and creamy by adding equal parts meat, potatoes and gravy. When well heated through, serve it on buttered toast, hot biscuits or rusks.

In spite of its name, hash is a dish worth concentrating on and this may have given you a few ideas for next hash day. It can be delicious or it can be quite insipid if it's a thrown together affair.

Do you want a list of other ideas for using leftover roast? Well, here are some: meat turnovers with a flaky lard-made crust wrapped around a savory filling, meat and biscuit roll with spiced tomato sauce, stuffed green peppers, chop suey, meat croquettes, meat pie, creamed meat and vegetables on crisp noodles, meat slices with barbecue sauce between toasted buns, and ground beef, macaroni and tomato casserole.

If you want cooking instructions for any of these meat leftover dishes, address your request to The Daily Iowan and I'll include the recipe among another week's features for women.

## Goucher Committee Censors Fashions Of Student Body

BALTIMORE—If you don't find slacks, sloppy Joe shirts, shorts, or similar casual attire among Goucher college girls, you may thank the "Tone Committee"—a sort of Hays office of fashion telling the girls "what not to wear."

The committee is selected by the student organization and at the beginning of each academic year issues solemn recommendations which are generally followed. However, the Goucher student body feels the real acid test of

## Boy Scouts to Collect Paper for Local Drive

All Boy Scouts are asked to report to the city scales this morning to assist with today's paper collection. Citizens of Iowa City should put their paper for the drive on the curbs near their homes as early as possible.

According to Owen B. Thiel, Scout executive, an estimate of 20 tons has been made for today's drive.

Tone power may be at hand. Among the 1945 suggestions was one that young ladies should refrain from smoking in public places.

### University High Turns on Power To Smother West Branch, 38-7

By JERRY BLOOM

University high turned on the power last night to overwhelm West Branch on the Bears' field, 38 to 7. Bill Greene and Steve Nusser, operating behind a line that opened big holes every place, each scored three touchdowns. Gus Helm succeeded in converting two dropkicks for extra points.

It was absolutely impossible to pick any individual stars last night, as the entire Rivermen team was really playing good ball. The line just couldn't help but drive through, and downfield blocking was the best of the season. For West Branch, Ken Lathrop and Duane Pedersen looked good on offense, while John Larson, center, and Bert Vincent, fullback, stood out on defense.

From the very start of the game it was apparent that the Blue Hawks couldn't lose. After Donovan kicked off to Vincent, the Bears made one first down and then were forced to punt to Nusser, who brought it to the U-high 36-yard line. From there it took five plays before Bill Green went across from the 3-yard marker. Nusser sparked that drive when, on a spinner play from the 38-yard line he dashed to the 3. Helm missed the try for extra point.

After the Rivermen kicked off again, the Bears still could not gain any yardage and Greene returned a long punt to the U-high 38, from where the locals made a touchdown in nine plays. Nusser hit pay dirt from a yard out as he slammed over center.

Again the Rivermen started from their own 37 in the second quarter after they forced the Bears to punt. Helm, Greene, Harper and Nusser alternated to bring the ball to the 9, where a wide hole was made for Green, who drove over to make the score 18-0. Helm's dropkick this time was good.

A pass interception by Helm gave the Rivermen the ball on the West Branch 28, but a fumble nullified that opportunity, and the half ended with the count 19-0 in favor of U-high.

The second-half kickoff was returned by Nusser to the 22 yard line. Greene dashed around left end to the 37, Harper gained a yard, and then Greene found a big hole off right guard to dash 62 yards untouched for U-high's fourth touchdown. The try for extra point was blocked.

The next kickoff gave West Branch a chance to get an offense underway, but after they had gained two first downs, a pass from Pederson was intercepted by Ralph Donovan on the 45, and he dashed down the sideline to a 1-yard line before he was finally stopped from behind by Vincent. From there Nusser took it over, and the score was 32-0 after Helm had converted.

Midway in the third frame, on a series of line bucks the Bears showed a lot of power as they started from the U-high 40-yard line on a pass intercepted by Lathrop. He, Pedersen and Vincent alternated in driving through the line, and Pedersen scored on a left end sweep from the 2-yard

### Hawklets Trip Franklin, 18 to 0

HAWKLETS CHARGE FOR LONG GAIN OVER THUNDERBOLTS

#### Long Drives, Passes Aid Scoring Spree; Errors Costly to CR

City high's Little Hawk attack was impotent against a steady but unspectacular Franklin Thunderbolt defense in the first quarter of a Dad's day affair here last night, but the Hawklets put together a series of long drives and passes to score in each of the remaining periods and defeat their Cedar Rapids foes, 18-0.

Bob Krall and Chug Wilson, the Hawklets' left half and fullbacks, and Jim Sangster, quarterback passing ace, sparked their team to its third Mississippi valley conference victory and fifth win in that many tries. It was Franklin's seventh loss.

#### Long Drive

Opening a long running attack late in the second period, the Little Hawks drove deep into Thunderbolt territory. Seconds later Sangster passed to Harold Eakes, right end, who crossed from the six. Bob Devine's kick was blocked.

In the third quarter Hawklet might came to the fore again as the Red and White took the opening kickoff and charged the length of the field. Krall scoring from the three. Troyer's pass to Devine was faulty and the Hawklets score remained 12-0.

#### Last Tally

A 70-yard drive with Wilson sprinting for three successive long runs was the complexion of the last stanza. A hole opened up in the Thunderbolt line on the 22 and Wilson crossed the goal for City high's final touchdown. The center's pass was again bad and the final count stood at 18-0.

**Thunderbolt fumbles more than anything cost the visitors their scoreless defeat, for every time they started to move their drives were halted by backfield misplay.**

Jim Phillips, Franklin's left half passing star, shone on offense, along with Bill Chadima in the backfield, Bob Hoff, right end and Bob Cohrs, left end.

### Large Crowd To See Army Tackle Duke

NEW YORK (AP)—Duke, southern conference leader and a 21 to 0 victim of Navy in a game in which the Dixie club's ace back, George Clark, was unable to play, is expected to extend Army today in their polo grounds clash.

Duke was leading Army, last year's No. 1 team and currently holding the same designation, by a 7 to 6 margin at the half of their 1944 contest, Army won 27 to 7. Neither club reports any casualties for the game expected to attract 50,000.

Chicago Bears at Detroit  
Chicago Cardinals at Green Bay

### Wildcats Plan Pass Offense to Overcome Top-Ranking Purdue

EVANSTON, Ill. (AP)—Northwestern's Wildcats move out today in hopes of another surprise such as they sprang in tying Indiana a few weeks ago, when they met Purdue's pass-conscious Boilermakers.

The Wildcats, manned for the most part by freshmen, are hoping for a psychological letdown in the ranks of the Boilermakers that may make things even in the 28th meeting of the two teams in a rivalry that started back in 1895. Coach Lynn Waldorf plans to fight fire with fire by using the pass primarily in the contest.

### Notre Dame Out to Crack Old Iowa Jinx

SOUTH BEND, Ind. (AP)—Notre Dame's unbeaten Ramblers, with reserves two and three deep in each spot, will try to crack an old Iowa jinx here tomorrow afternoon.

Notre Dame hasn't beaten Iowa in three past meetings, but tomorrow expects to gain a bit of vengeance. Iowa, in three western conference games, hasn't won a game, and has scored but 20 points while foes have rolled up a total of 134. However, the Iowans have a dangerous passing attack that will keep the Ramblers on their toes.

A crowd of more than 50,000 is expected.

#### Miami Beats Miami

MIAMI, Fla. (AP)—The University of Miami Hurricanes came from the under spot in the fourth quarter to defeat the stubborn Miami university (Ohio) Indians, 27 to 13, in a thrill-packed football game last night. A crowd of 20,564 was kept on edge.

The Ohioans, in their first defeat in six starts this season, held sway through the first half with touchdowns in each of the first two quarters.

The Hurricanes returned fighting to count a touchdown in the first three minutes of the third quarter and added three more in the fourth.

CHICAGO, Ill.—If you'd ever lived in a vacuum, you'd know how 36 Iowa football players and their coaches felt last night when they arrived in Chicago on the first leg of the trip to meet the Irish of Notre Dame this afternoon.

The kids actually think they've got a chance to surprise the nation's second best football team, but they didn't find anyone else in the windy city who is willing to grant them the same chance.

Few teams are beating Notre Dame these days, you know, and a flimsy little thing like tradition isn't expected to be much help in stopping a brilliant bunch of backs and a four-deep forward wall. But what people should know is that the Hawkeyes will live up to the fine old Iowa custom of playing their very best ball game against the fighting Irish.

In an ordinary year one might look for the impudent Hawks to make it four victories in a perfect row in the Iowa-Irish series. Upsets are common, especially when a team plays its "game of the year." And all the other Iowa wins over Notre Dame came as great surprises. But the gridiron wise can't see a team that has had 134 points scored against it the last three weeks kicking the dope bucket that far.

Upon arriving here last night, Coach Clem Crowe bedded his boys down in the Morrison hotel for the night and seemed a little reluctant to talk about today's chances against his alma mater. Maybe every coach is a little nervous on the eve of the day he will take his team back to play against the school whose gold and blue colors he fought for two decades ago.

The "homecoming" coaches—line coach Bud Boeringer and backfield coach Chuck Jaskwieh—are famous Irish alums, too—still insisted that their starting lineup would be little different from the

one that began against Indiana last week.

However, rumors accompanying the Iowa squad hinted that two new tackles might start today: Leon George, who was shifted from guard this week, and Bob Knowlton, 1941 veteran who just reported to the squad. Dan Sheehan, another recently arrived dischargee, is expected to see plenty of service at left end as relief for Hal Loehlein.

In the backfield, the choice between Nelson Smith and Paul Golden had not been decided definitely, and it probably won't be until game time. Art Johnson undoubtedly will get the fullback call. "Oz" Simons will start at left half and Jerry Niles will pass and bark signals from his quarterback post.

Here in Chicago the only questions seem to be just how many points Irish coach Hugh Devore wants the boys to ring up. And everybody seems to think that Frankie Danciewicz, his star chucker, and Phil Colella, sleek-fingered left half, can give Devore just about the scoreboard he wants to come out ahead on his parlay card.

The Hawks were due to leave Chicago at 9:30 this morning, arriving in South Bend at 11:15 and ready for the starter's whistle at 1:30 (Iowa time) this afternoon. They will return to Chicago tonight and arrive in Iowa City tomorrow at 3:34 p. m.

### IOWA BOOSTERS SEND HAWKS OFF FOR IRISH

CHEERLEADERS Pat Kirby and Gloria Huenger lead students in another rousing sendoff for the Hawkeyes. Fans marched from Old Capitol to tell their team, "We're behind you" to which the Old Golders responded, "We'll do our best to beat the Irish."

### Student Rally Pleases Departing Hawkeyes

Amid cries of "Iowa Fights!" and "Good luck, guys, we're behind you!", Iowa's Hawkeyes, 36-strong, boarded the train for Notre Dame yesterday afternoon as hundreds of loyal students and townspeople crowded the station to cheer and clap their team to another royal sendoff.

Marching down Clinton street from Old Capitol, cheerleaders and fans thronged the depot to mingle with the players. Practically every Hawkeye expressed surprised gratitude at the large turnout.

"Most of the fellows just can't get over the continued student interest," admitted Ira Lund.

"We're ready and anxious to meet Notre Dame," commented quarterback Wendell Weller. "The fellows will put up a good fight."

Big, jovial Tommy Hand, today's game captain, stepped to the microphone. "We've got more Irish on our squad than does Notre Dame", he grinned and strode back to his team-

mates. Every man seemed to have that feeling of confidence, though no one would comment on what he expected to happen.

Several students also boarded the train for the Notre Dame trip. Coach Clem Crowe said that so far there were no changes in the traveling squad or starting lineup.

A reception for the Hawkeyes is planned for tomorrow afternoon when they return at 3:30.

 It's kick-off day as is every Saturday and for the Iowa Hawkeyes, it's Notre Dame! Stations WSUL, WMT, KRNT and WJJD (Chicago) will be on their respective beams with the play-by-play description at 1:30. Anything can happen so don't miss a minute of it!  
 The famous radio announcer and newsreel commentator, Andre Baruch, who was recently discharged from the army with the rank of major after receiving a decoration for distinguished service overseas, will be guest on Mutual's roundtable of romance program, "Leave It to the Girls" tonight at 8. Being the husband of Bea Wain, glamorous songstress of "Starlight Serenade," Baruch should be not at all fazed when he faces the four lovely-career girls bent on proving that the feminine is the stronger-minded sex. The distasteful contingent comprises Robin Chandler, Dorothy Kilgallen, Florence Pritchett and Eloise McElhone. Holding the humorous proceedings within reasonable check is Paula Stone.

**Catholics to Observe Eucharistic Day**  
 Eucharistic day will be observed at St. Thomas More chapel of the Catholic student center Sunday. The Blessed Sacrament will be exposed before the 10 a. m. mass. There will be Adoration of the Blessed Sacrament throughout the day, with sermon and benediction at 7:30 p. m. The Rev. J. Ryan Beiser, Ph.D., will deliver the sermon.  
 Sunday is special Communion Sunday for all Catholic students. A Communion breakfast will be served immediately after the 10 a. m. mass at the student center. The new Catholic student choir will make its first appearance at the mass.

### Prof. Funke Gives Baconian Lecture

"With the world growing smaller every day due to the development of international transportation and communication, the necessity of understanding other nations and being understood by them has become more important than ever," said Prof. Erich Funke in a Baconian lecture last night.

A new interest is being shown, he pointed out, in the development of an international language which is easy to learn and to understand everywhere on the globe. The war, coupled with modern technology, has greatly increased the vocabulary of western languages, with words like radar, jeep, sulfa and atom bomb.

The modern trends in linguistic research and language work, said Professor Funke, have been toward the spoken form. Extensive research is being carried on today in the field of African, Eurasian, Australian and Polynesian languages.

"Linguistics as a systematic science began with Sir William Jones' discovery of the similarity of Sanskrit with Greek, Latin and Persian toward the end of the 18th century," he said.

Language is "a depository of cultural concepts of all peoples and all ages, and the study of language permits us to gain a picture of a civilization," concluded Professor Funke.

### Pre-Flight Success Sets High Example —Lt. Comdr. Dunlap

"The success of the navy pre-flight training program is an outstanding example of the way in which Americans met the challenge to democracy," stated Lt. Comdr. Samuel R. Dunlap, coordinator of academics at the Pre-Flight school, speaking to members

### YWCA Receives Mum Order From Captain in Denver

Not expecting results on a national scale from their advance chrysanthemum sale for Homecoming, the local Y. W. C. A. office was more than surprised to receive an order from Denver, Col.

The letter was from Capt. Charles Gray of the medical corps, stationed at Fitzsimons General hospital. Writing that he had head a story in The Daily Iowan telling of the "Y" mum sale, Captain Gray said he wanted to order three mums for Mrs. Charles W. Gray, 335 S. Clinton street; Rosemary Gray, Hillcrest, and Mrs. D. C. Bell, "at Bell's cafe on E. Burlington street."

The "Y" chrysanthemum committee agreed not only to fill the order but to make personal delivery on the day of Homecoming.

of the Masonic service club yesterday noon.

Reviewing the remarkable achievements of the intensified cadet training course, Commander Dunlap pointed out that high schools and colleges in the United States could profit from such

strenuous programs by turning out men who had a knowledge of basic skills such as naval aviators have acquired.

"The cadets and instructors have learned not to waste time, accomplishing their studies in about one-

fourth the usual time. Cadets have been given a knowledge of technical subjects that colleges do not offer to all. Furthermore, they are prepared for almost every emergency, both physically and mentally," he said.

## Something to remember when you say "Welcome Home!"

Some of our boys have waited years to hear those two words.

What they've endured for the sake of hearing them is more than we like to dwell upon.

But those two words, "Welcome Home!" can become just an empty phrase if you forget, for one minute, your responsibility to the man you say them to... and to the several million men overseas who are still yearning to come home.

What we're talking about, of course, is your

responsibility to continue buying Bonds—and holding on to the ones you already have.

Your purchase of Victory Bonds helps the man who's just come home, helps him in a very real way. For your money, in Victory Bonds, helps prevent inflation—and that, in turn, means security for him, and a better chance to get a job.

And remember this: It will cost plenty of money to maintain and supply our forces of

occupation... to bring home the men whose period of service so richly entitles them to return... and to care for the sick and wounded in our Navy and Army hospitals.

No—the job isn't over. You didn't think it was, did you?

Then show that you know it isn't over! Show it to the boys who've come home—and to those who wish they could—by buying another Bond—today!
