CIO, the powerful American Federation of Labor, and the newly born Congress of Industrial Organizations, agreed to end a wage dispute for management of Chrysler Corp. today.

Mr. John L. Ragan, the veteran CIO organizer who is District Director of the United Electrical Workers, had been attempting to arrange a settlement with the automobile company over the question of rent control. Such control, it was agreed, would allow some residents to remain in their homes instead of being thrown out in order to provide room for new employees.

"This is an important step forward," said Mr. Ragan. "It will be a great relief to many families who have been threatened with eviction."

College, University Veteran Enrollment Exceeds Expectations

NORMAN, Okla. (AP)—Veteran enrollment in Oklahoma colleges and universities this year is larger than was ever anticipated. This is the result of efforts by the State Veterans Commission in cooperation with the college veterans associations.

The survey conducted by Mrs. Virginia H. Blake, director of the state veterans affairs program, indicates that the number of veterans enrolled in the state’s educational institutions has surpassed the previous high of 1941, which was 11,500.

Legislators are pushing for additional funding in next year’s budget, designed to augment each college’s veteran enrollments. Federal and state governments have been asked to rent veteran services.
