Report Urges Admission Of Refugees to Palestine

Asks Opening Of Holy Land To Homeless

Requests Continuance Of Mandate Pending Trusteeship Agreement

WASHINGTON (AP) — An official British-American committee of inquiry on Palestine recommended yesterday that the gates of the Holy Land be thrown open immediately to 100,000 European Jews—homeless victims of Axis persecution.

In a 30,000 word report on its four-month investigation, the committee went firmly on record against making Palestine either a Jewish or an Arab state, and said that the government ultimately established there "under international guarantees" must protect Christian, Jew and Moslem.

It called for continuance of Palestine under a mandate held by Britain since 1922 "pending the execution of a trusteeship agreement under the United Nations." This, if accepted, would nullify Britain's plan to terminate the mandate by establishment of an independent Palestine state.

Simultaneously, the committee said that, if its report is accepted, "it should be made clear beyond all doubt to both Jews and Arabs that any attempt from either side, by threats of violence, by terrorism, or by the organization of use of illegal armies to prevent its execution, will be resolutely suppressed."

Arab Leaders Object To Committee Report

JERUSALEM (AP) — Arab leaders declared last night that the British-American inquiry committee's report on Palestine would plunge the Holy Land into bitter strife and drive "the entire middle east into the bosom of Soviet Russia."

Lewis Serves Notice For Anthracite Strike

WASHINGTON (AP) — Dissatisfied with Secretary of Labor Schenck's handling of the soft coal strike, a federal conciliator threw up his job today, while John L. Lewis flung new demands at the operators and served notice of a strike of 75,000 anthracite miners.

Housing Officials Deny High Ceilings on Homes

The government's veterans and housing bosses jointly stated yesterday it "is not substantiated" that government ceiling prices on new houses "are generally higher" than valuations.

All Goes Well During May Day In Japan; Plotter Still at Large

TOKYO, Wednesday (AP) — Japan's vast May day celebration proceeded in good order today—although the reputed plotter of an attempt to assassinate General MacArthur remained at large and the general disdained any unusual personal safety precautions.

Police and occupation forces sought the accused ringleader, Hideo Tokayama. He was charged with planning a burst of pistol fire and grenades for the allied commander, possibly at his nearby headquarters, during May day confusion.

The mood of the throng was happy and respectful, however. MacArthur almost stole the early part of the show when the car in which he was riding to his office passed through lines of parades. The crowd recognized his five-starred vehicle, and parted respectfully to permit his passage.

There were no extra guards around MacArthur's downtown headquarters, which was in plain view of the parades.

Japanese police, who mingled with the throng, laughed like others in the huge audience.

Sen. Taft Suggests— New List For OPA

Freak Blasts Destroy Ship At Navy Depot

Board Investigates Causes of Disaster Injuring 150 People

WASHINGTON (AP) — Senator Taft (R., Ohio) suggested yesterday that OPA submit its list of items that could be removed from price control as certain production levels are reached.

Saul Sells, representing OPA before the senate banking committee, said Taft's idea seemed "worth exploring." Taft then recommended that economic stabilizer Chester Bowles "bring me a list."

Bowles has protested that the schedule of price control removals voted by the house would mean the virtual death of OPA.

The senate banking committee is considering legislation, which if unchanged, would give OPA another year of life after its June 30 scheduled expiration date.

Butcher Shops to Post New Meat Price List

OPA Chief Paul Porter announced last night that beginning today butcher shops would post new retail meat price list to help stores and housewives "in fighting off the black market."

OPA Raises Ceilings On GM Automobiles

OPA yesterday raised retail price ceilings for General Motors automobiles by \$16 to \$60 to compensate for wages increases in the past.

The price hikes, effective immediately, range from \$16 to \$30 on Pontiacs and Oldsmobile models; from \$18 to \$38 on Buicks; and from \$24 to \$60 on Cadillacs.

Price Boosts Possible In White Bread Sale

Price boosts for white bread and other kinds may follow the increases allowed yesterday by OPA on most loaves of rye bread.

An OPA official disclosed this privately to a reporter as the agency permitted an immediate two-cent per one-pound loaf rise in the ceilings for rye bread up to a maximum of 12 cents.

During the day OPA also approved increases in the selling prices of imported Spanish olives, washing machines and electric irons.

Council Bluffs (AP) — The agriculture department yesterday ordered a 40 percent reduction in the use of grains by distillers during May to conserve cereals for famine-stricken areas abroad.

They will be restricted to three days mashing capacity in May, compared with five days each in March and April. The department said the May restriction will limit total use of grains to not more than 2,500,000 bushels.

Under restrictions already in effect, no wheat and wheat products may be used.

Grains which may be used include low grade corn—corn grading below number 3—limited quantities of rye and oats, and grain sorghum.

40 Percent Grain Cut Ordered for Distillers

PARIS (AP) — The four-power foreign ministers conference clashed yesterday on two Italian issues, with Russia supporting Yugoslav demands for Trieste and most of Istria, but opposing Austria's request for the South Tyrol.

Opposed by the British, United States, and French delegations, Soviet Foreign Minister Vyacheslav M. Molotov demanded that the Adriatic port of Trieste and the greater portion of the Istrian peninsula be taken from Italy and given to Marshal Tito's Yugoslav regime.

Conference sources said the foreign ministers examined four different proposals for the new Italian-Yugoslav frontier.

They were taken into custody yesterday morning along with Mr. and Mrs. Jesse Middleton of Omaha, at whose home Miss Blyth died two days after the operation, according to the four persons' signed statements released today by Detective Chief Fred Franks of Omaha.

They were taken into custody yesterday morning along with Mr. and Mrs. Jesse Middleton of Omaha, at whose home Miss Blyth died two days after the operation, according to the four persons' signed statements released today by Detective Chief Fred Franks of Omaha.

Sign Confessions

Franks said the signed confessions told this story:

Miss Blyth was operated upon by Doctor Anderson April 23, after which she was taken in a cab to the Middleton home to recuperate. Both doctors attended her there.

Two days later, Thursday, she died at 3:15 p.m.

That night the doctors and Middleton placed her body in Dr. Anderson's car, drove to Council Bluffs, and threw the body into the river along with her handbag and shoes.

Soviet Leader Says Reaction Hatching War

Calls on Red Workers To Exceed Production Goals of New Plan

LONDON (AP) — Prime Minister Stalin promised last night that the Soviet Union would be true to a policy of peace and security but charged that what he described as "international reaction" was hatching plans for the new war.

In an order of the day broadcast by the Moscow radio the Russian leader also declared that "the nations of the world do not wish a repetition of the calamities of war." He added:

"It is necessary to be constantly vigilant, to protect as the apple of one's eye the armed forces and defensive power of our country (Russia)."

Calls on Workers

Stalin called on Soviet workers to reach—and exceed—the production goals set up in the Soviet Union's new five-year plan.

Addressing the Russian people, Stalin said:

"We should not forget for a single minute the intrigues of international reaction, which is hatching plans of a new war."

Soviet armed forces would be successful in defending peace, Stalin said, only if there was a "further growth of military culture and military skill of the Red army, navy and air force."

His broadcast order, issued in connection with the Soviet Union's May day celebration, was heard in London by the Soviet monitor, official Soviet news distribution agency.

In one passage of the order Stalin declared:

Soviet Might

"The entire world has had an opportunity to convince itself, not only of the might of the Soviet state, but also of the fairness of its policy based on the recognition of the equality of all peoples, on respect for their freedom and independence."

There is no reason to doubt that in the future too the Soviet Union will be true to its policy—the policy of peace and security, the policy of equality and fraternity of peoples."

Stalin said the first postwar May day—"the international holiday of the working people"—would be celebrated in conditions of a peaceful life won in the hard struggle against the enemies at the cost of heavy sacrifices and privations.

Soviet Planes Swoop on B-17

VIENNA (AP) — Two Soviet fighter planes buzzed Gen. Mark W. Clark's personal plane three times yesterday, making several swoops but not firing their guns, and Clark immediately lodged a third protest with the Russians.

The American commander in Austria was not aboard the plant, a flying fortress, at the time. Last week Clark protested the firing upon two C-47 transports by Russian fighters. Marshal Ivan S. Konev, Soviet commander in Austria, assured Clark that every step would be taken to prevent further attacks on U.S. planes over Austria.

Clark's plane was being flown from Vienna to Linz by Brig. Gen. Ralph A. Snively, commander of the air division of American forces in Austria, when the Russians made their runs at the plane. The radioman aboard the flying fortress messaged details back to Vienna as the aircraft went on to Linz.

The Russian fighters appeared as the plane was flying over St. Polten, 25 minutes after leaving an airport outside Vienna at 9:50 a.m.

Col. Howard Moore of Farmersburg, Ind., was co-pilot on the plane, which was on a mission for United States forces in Austria. Names of others aboard were not disclosed.

Second Day's Contributions Only \$367.62

After a successful first day, contributions to Campus Chest lagged yesterday. Collections for the day totaled \$367.62.

Sigma Nu joined the ranks of the "200 percenters" yesterday by making a \$116 donation. Members of Phi Kappa Psi pledged a 200 percent contribution last night, to be earmarked for the Nile Kinnick Scholarship fund in honor of Kinnick who was a Phi Psi.

Earmark Donation

Half of the 200 percent donation pledged by the Tri Deltas will be earmarked for the Cancer Prevention fund in honor of Betty Jane Loerke, former Tri Delta pledge who died recently of a disease of unknown cause. Through research conducted by the Cancer association, a cure for the disease might be effected. The remainder of the Tri Delta contribution will be earmarked for the Nile Kinnick Scholarship fund and the World Student Service fund.

Plans were made at a Student Council meeting last night to have university women posted as solicitors at the law college, dental building and school of medicine to facilitate canvassing of the professional schools. A door to door solicitation campaign was started at Hillcrest last night, and a similar drive for Currier is being planned.

Small Dorm Collections

Proctors will make collections at men's small dormitories, and town women organized into wards will be solicited through division heads. Other town women and men are to contribute at the booths set up on campus.

Editorials:

Time for Putting Campus Chest Over the Top is Growing Short

The lag in the second day of the Campus Chest drive probably is partly natural. In the early stages of any campaign, it takes time for the realization that considerable effort is required to sink in.

But accelerating the drive again will not be a natural occurrence. A great amount of time and work—and money—must be expended in these next three days to put the Campus Chest over its goal.

The demand for time will be made on the volunteers who are helping solicit the contributions. They must make every effort to contact every student in their area and to report their collections to the business office.

The money will have to come from the students themselves. Those students who haven't yet made their contributions have been urged by Campus Chest leaders to do so immediately.

Since it is almost a certainty that every student will not contribute, the appearance of "The 200% Club" in the Campus Chest

drive ought to be gratifying to leaders of the campaign. It indicates that many students not only want to be 100 percent behind the cause, they want to go even further.

"The 200% Club" was prompted by the original 200 percent contribution (\$2 for each resident) of Alpha Chi Omega sorority. Several other groups quickly followed with pledges, and there are others also planning to contribute 200 percent.

Any housing group—fraternities, sororities, units in the large dormitories, or the small dorms—may become members of "The 200% Club" by contributing \$2 per resident to the Campus Chest fund and by reporting their contributions to the editor of The Daily Iowan.

The time for putting the Campus Chest over the top is growing short. It is hoped students remember they can afford to be more liberal in this drive because it is the only drive for a year and that they will give, now!

Editorial Views on OPA Fight—Many Papers Critical of House

(Associated Press Roundup)

A cross section of the nation's newspaper editorial columns shows many critical of the house of representatives action in voting an amended price control act.

The Baltimore Sun, in an unusual front page editorial, said every one of the amendments "weakens the authority of the OPA to control prices." The Sun added: "It is up to the senate to stand firm for an OPA with sufficient strength"

In Philadelphia, the Record commented: "The people would be better off with no price control at all." The Bulletin said the bill passed by the house invited a "condition far worse than that which prevailed after the close of World War I"

Asserting that "the house has made sweeping changes in the OPA bill," the Inquirer said: "It is an exaggeration to say that they amount to repeal of price control."

The Washington Post said it agreed with those congressmen who said voters for the guaranteed profit amendment were "pawning the people's future for the favor of profiteers."

The New York Times declared: "If some of the house's main amendments are dubious in detail, they are nonetheless right in principle." The Herald Tribune said: "The OPA has lost much of its validity since the administration permitted itself to be swept over the dam on the basic question of wages. That, in effect, was what the house was saying"

The Atlanta Journal said it believed the amendments "would hamstring, if not destroy, price controls." The Constitution asserted: "Members of the house apparently want your prices of bread, milk and other necessities to increase about 50 percent or more"

The Chicago Sun suggested "it would have been more honest to abolish the OPA outright."

The Post said: "The reactionary Republican-Democratic coalition has wrecked the price control extension bill and left the country wide open for inflation." Declaring that the house vote "did the country a deplorable bad service," the World-Telegram said it "will be wiser."

The Denver Post said no government agency could set up "a system of price controls which would allow the seller cost plus a 'reasonable profit' on every item produced or handled."

In San Francisco, the Chronicle said the measure, "unless amended in the senate, will almost certainly create hardship in the months to come The Examiner said: "Congress should not try to reform the price control administration but should abolish it."

The Kansas City Star said the "terrific blows dealt by the house have been aimed at correction of the abuses by this agency."

The Dallas Morning News declared: "The best possible solution is to utilize as far as possible what is left of OPA's waning power."

The Atlanta Journal said it believed the amendments "would hamstring, if not destroy, price controls." The Constitution asserted: "Members of the house apparently want your prices of bread, milk and other necessities to increase about 50 percent or more"

Thirteenth Annual Student Art Salon Set for May 19-June 10

Work to Be Exhibited In Union Lounge; Six Awards to Be Made

The 13th annual student art salon will be held May 19 to June 10 in the lounge of Iowa Union, Shirley Throckmorton, G of Nevada, chairman of the art department committee, announced yesterday.

Sponsored by Union board, the salon is open to all students who have completed work in oil, gouache and water color, drawing, lithography, etching and engraving, or sculpture. Quality awards will be given in each of the six divisions.

Entries in each class will be limited to three a person, Miss Throckmorton said. Work may be submitted to an attendant in the main gallery of the art building Friday from 4 to 5 p.m. and Saturday from 9 a.m. to 5 p.m. No work will be accepted after this time.

All entries must have identification stickers attached and must be accompanied by entry blanks. Both may be obtained in room 104, art building. No mats or frames will be necessary, Miss Throckmorton added.

Judges

Judging will take place Monday and Tuesday. Members of the judging committee are Humbert Albrizio, Stuart Edie, James Lechay, Mauricio Lasansky and Max Ballinger, all faculty members of the art department. From the work submitted the committee will select those to be exhibited and will choose those to be given quality awards.

Miss Throckmorton pointed out that works selected to be hung must comply with the following rules:

Oils must be framed with screw-eyes and wire attached. Gouaches and water colors must be matted, glassed and framed with screw-eyes and wire attached. Etchings and engravings must be glassed and taped. Brackets for hanging will be provided by the art department. Drawings and lithographs must be matted. According to Miss Throckmorton, any piece not meeting these specifications will not be hung.

Committee

Members of the Union board subcommittee in charge of the salon are Donald Low, G of Sac City, chairman; Kay Kirby, M3 of Naugatuck, Conn.; Gloria Bremer, G of Lakewood, Ohio; Geri Hoffman, A3 of St. Louis, Mo.; Maribel Ebel, N3 of Creston; Art Devine, M3 of Bancroft, and Ken Smith, C3 of Moline, Ill.

The assisting committee from the art department includes Dale Ballantyne, A3 of Lamoni; Marie Huper, A3 of Iowa City; Jane Randolph, A4 of Marion, Ia., and Charles White, G of DeKalb, Ill.

Airport Work Starts May 4

The \$299,925 Civil Aeronautics administration's expansion program at the Iowa City municipal airport, will get under way May 4. This is the first major post-war reconstruction project in Iowa City.

According to F. C. Wilson, resident engineer for the CAA, the contract for the job was awarded to the Collignon Construction company of Davenport. Awarding of the contract was made after CAA officials reduced the planned expansion program to meet the proposed allocation.

The grading and drainage contract calls for completion in 120 days while a 100-day schedule has been allowed for the paving contract.

The new runway expansions will be 150 feet wide and nine inches thick. The taxiways will be 50 feet wide and nine inches in depth. Elimination of a 200 foot extension of the southeast-northwest runways and two taxiways, totaling 1,995 feet was made to meet the appropriated costs granted by the CAA for the project.

Grading and drainage work will be the first to get under way involving the removal of 154,700 cubic yards of dirt on the field. In order to change the channel of a small stream running along the southwest and south edges of the airport an additional 60,430 cubic yards of dirt must be removed.

Wilson announced yesterday that the minimum wage scale for unskilled labor is 85 cents an hour on the government project with a top minimum of \$1.72 an hour for bricklayers. He also said the Collignon firm would bring its own equipment along with foremen and supervisors.

When the project is completed the Iowa City airport will have a north-south runway 4,300 feet long; a southeast-northwest runway 3,900 feet long and an east-west runway 4,000 feet long and also numerous new taxiways.

Club Meetings Missionary Society Meets Today

Mrs. A. J. Page, 428 S. Johnson street, will be hostess to the Pierre Missionary society this afternoon at 2:30. The subject to be discussed will be "The Cross Over Africa." Mrs. Donovan Hart will be in charge of devotions.

Panel Discussion on 'New Internationality' Featured at Farmer-Businessman Banquet

Farmers and businessmen discussed "Town, Country and the New Internationality" during a panel discussion at a banquet given by members of the Johnson county farm bureau for Iowa City businessmen at Hotel Jefferson Monday night.

Speaking to the group of 250, D. C. Nolan, president of the Chamber of Commerce, said it was the work of the chamber to insure better Iowa City stores for rural people. Expressing the chamber's opinion that industry should not be kept out of Iowa City, the president urged the organization to try to obtain a factory that could process rural products.

Ed Kadera, president of the Johnson county farm bureau, cited the continued development of 4-H clubs as one of the best ways to build farmer-businessmen cooperation. He said that farmers should patronize firms selling good products and giving the best service.

In speaking on the theme of the discussion, Professor Addison Hickman of the college of commerce called attention to Iowa's close alignment with the welfare of the nation and the world. He called for more world-wide prosperity in the future, more free interchange of world goods, and less isolation, to maintain peace and full employment throughout the world.

Another year of prosperity for the farmer was foreseen by Byron D. Coglan, farm bureau member, speaking on "What's Ahead in Agriculture." He expressed the belief that business, industry and the farm would follow similar trends of prosperity.

Ray Smalley, chairman of the Johnson county AAA, pleaded for aid to starving nations. He de-

UWA to Give 4 Scholarship Awards Today

Scholastic achievement will be recognized on the Recognition Day program this afternoon at 4:10 in Macbride auditorium through the presentation by the University Women's association of four scholarship awards to one woman from each class.

Nineteen women in liberal arts, commerce and pharmacy received four-points last semester and 398 received three-points and above.

Sponsored by UWA

Recognition Day is sponsored annually by U. W. A. Edna Herbst, A4 of Newton, president, is in charge of the program.

Next year's officers of U. W. A. Y. W. C. A., W. R. A. and the Home Economics club will be announced. U. W. A. also will announce its project chairmen. Y. W. C. A. its cabinet and W. R. A. its intramural chairman and this year's intramural winner.

"Too many times women who work in activities receive very little more than personal satisfaction about a job well done," Miss Herbst stated. "A regular college day leaves very little time

for many of us really to express our appreciation to them. So, once a year, we do take time out on Recognition Day—to express our thanks to those who have and will contribute so much to the life of our university and to ourselves."

THE HARD WAY...

Some people sleep on nails instead of a mattress.

Some people climb stairs when there's an elevator.

Some people drive spikes with a tack hammer.

Some people save money—or try to—without any regular automatic plan for saving, for resisting the temptation to spend dough once it gets into their trouser pockets.

This is doing it the hard way. The easy way—the only sure way, as millions of us found out during the war—is to buy U.S. Savings Bonds through the Payroll Savings Plan.

Stick to the easy way. When you're collecting \$4 for every \$3, ten years from now, you'll be glad you did.

IN YOUR

NEW FREEDOM GAS Kitchen

ANY HOUR, any day, any night there's plenty of hot water, really hot, for you! New Freedom GAS Kitchen will be supplied from a new, modern, automatic GAS water heater. You'll have hot water not only for dishes but also for laundry and baths.

FOR LAUNDRY. The new GAS water heaters keep pace with the new, do-everything washing machines. Water's hot enough to really chase dirt and grime like magic. No waiting for a fresh supply of hot water. There's always an ample supply on hand.

FOR BATHS, too. Long showers, steaming tubs, Dad, youngsters and all... no one shouts, "Where's the hot water?" Your GAS water heater costs surprisingly little to run, too, and it's completely automatic.

OF INTEREST TO OUR MANY FRIENDS COMES THIS

Announcement...

I have purchased the interest of Mr. J. F. Haman in the Purity Baking Co., and effective today - May 1st - the firm will be known as

Swank Baking Co.

Since our joint ownership started 17 months ago, Mr. Haman and myself have tried to give Iowa City a real quality bake shop with plus service and added variety.

Quite naturally, material shortage has held back our plans for modernization and new facilities. I promise these to you just as quickly as they become available.

We, as an organization, are pledged to continue further improvements for your benefit.

Spring Housecleaning Brings Out Bonnets, Garden Tools★ ★ ★
Brooms, Mops, Pails, 'Elbow Grease' Hasten Brightness in Local Homes

With gardening and Easter bonnets spring housecleaning comes into the feminine foreground this time every year. Brooms, mops and mops hasten the advent of sparkling windows, shining furniture, spotless walls and dustfree rugs. To make housecleaning more painless Iowa City housewives are comparing worksavers instead of recipes.

Spring brings a boom in the

• moves the old wax, leaving the floor clean and ready for a new layer. Mrs. Voss also saves work in window washing by adding a few drops of kerosene to the water.

Vacuum cleaner attachments are excellent time and energy savers, believes Mrs. W. A. Vorbrich, 1707 E. Court street. It isn't necessary to climb ladders and chairs to reach high places, for vacuum

cleaner extension rods with attachable brushes will do the reaching for you.

These attachments also make short work of closet cleaning. Easily connected brushes and crevice tools cleanse interiors and ferret dirt and dust from inaccessible corners. They are also tops for cleaning radiators, behind refrigerators and bureau drawers.

Speaking of refrigerators, Mrs. W. H. Olson, 519 Rundell street, has discovered a cleaning fluid that leaves a finish on refrigerators and stoves as well as cleaning them. Mrs. Olson also recommends adding a few drops of bleach to a sinkful of water to rouse those ugly brown stains so often left by tea and coffee.

A shortcut to glowing furniture is the household standby of Mrs. C. L. Palmer, 301 River street, who mixes equal parts of turpentine and linseed oil to provide a simple and inexpensive work saver.

Ironing 98-inch ruffled curtains used to be a hoodoo for Mrs. R. H. Nelson, 119 Pearl street, but she has found a very simple solution to this problem. Mrs. Nelson washes and starches her curtains (preferably on a brisk windy day), and then hangs them about four inches lengthwise over the line. Before they are completely dry she stretches and irons the ruffles with her fingers. The results are as perfect as if hours of ironing had been spent.

Household hints are as numerous as they are handy. One housewife likes to let dirty pots and pans simmer on the stove a few minutes before washing. This makes scouring much simpler. Another happy thought for homemakers is the metal cleaner that removes rust and tarnish by easy-on chemical action.

For fancier metal polishing such as shining up jewelry or sterling, a packet of white sheets that look like notepaper impregnated with polishing material turns the trick with only a few whisks.

So you are cleaning house? Take heed—the job is not the ordeal it once was. Spring cleaning cues come to the aid of every housewife and even homework can be fun.

Monument Wrecked

MADRID (AP)—A bomb explosion wrecked the Franco victory monument in Barcelona at dawn yesterday.

Nu Sigma Nu Holds Initiation for 10 Men

Ten men were initiated into Nu Sigma Nu professional medical fraternity Saturday.

The initiates are Roy Glise, M1 of Decorah; Maurice Gonder, M1 of Rippey; Dick Smith, M3 of Hazleton; Ned Smith, M1 of Iowa City; Jim Donahue, M1 of Centerville; Jerry Hathorne, M1 of Wichita Falls, Tex.; George Hogenson, M1 of Belmont; John Farnell, M1 of Colfax, and Dick Opfell and Dave Ivie, both M1 of Iowa City.

recommend what action, if any, the Council should take and report at the next Council meeting.

The committee, composed of Vi Hamwi, A3 of Brooklyn, N. Y.; Mary Osborne, A4 of Ottumwa, and Kay Keller, A4 of Sioux City, is to contact the recently organized social action committee and the American Veterans' committee for information on the action thus far taken by those groups on the racial situation.

The petition also suggested that the Council sponsor a rally and/or start circulating petitions among students stating that the undersigned would continue to patronize barber or beauty shops if Negroes were admitted as customers.

Ticket Distribution Report

Reporting on action of the committee appointed last week to investigate ticket distribution methods for the Minneapolis Symphony concert, Herb Olson, A2 of Winfield said that Dr. Earl E. Harper, director of Iowa Union agreed to accept the responsibility of investigating the matter and do all in its power to facilitate future distribution.

To Study Racial Situation
A three member committee was appointed to study the problem,

Soviet Press Displays Photostats of Secret German-Spanish Pact

MOSCOW (AP) — The Soviet press gave great prominence yesterday to photostatic copies of documents relating to the signing in Madrid in February, 1943, of a secret German-Spanish military protocol.

(Publication of these documents by Moscow came only a few hours after the United Nations security council voted to assign to a subcommittee investigation of charges that Spain menaces peace. The Soviet delegate, abstaining from the vote, had demanded immediate rupture by the United Nations of diplomatic relations with the Franco regime.)
