FBI Nabs Second Youth Linked To \$4,500 Iowa Bank Holdup

Agents Find Joe Banning In Ft. Worth

DES MOINES (AP)—Two teen-age youths, both of whom had been in the service, were in custody last night charged with robbery of a Carlisle, Iowa, bank in which a woman employee was shot and \$4,527.90 taken last Saturday.

Percy Wyly II, FBI agent, announced at Ft. Worth, Tex., last night the arrest of Joe Doyle Banning, 19, in connection with the robbery, only a few hours after FBI agents here announced the arrest of handsome, curly-haired Jay Earl Willis, 17.

Both boys have admitted, the FBI here and at Ft. Worth said, the robbery, and each has been charged here with bank robbery under a federal statute which carries a maximum penalty of 25 years.

The two boys lived in Des Moines. Willis had been living with a sister and Banning had been rooming there.

Wyly said that Banning was arrested by a squad of city detectives and FBI agents in front of the home of his mother. He said officers had been alerted since a telegram from Banning arrived here addressed to his mother which stated "Do not open until I get home."

An airmail package containing \$210 in bills \$20 and less arrived at Ft. Worth this morning, Wyly reported, and was intercepted by officers.

The 17-year-old Willis who had implicated Banning in his confession here won a medal as a machine gun expert in the army when he was 14.

Willis entered the army at nearby Camp Dodge in December, 1943, by falsifying his age. After he had served about two months, his real age was discovered and he was given an honorable discharge. In October, 1944, he went to Santa Fe, N. M., and enlisted in the navy. He was given another honorable discharge after five months when his true age was again discovered.

Willis, whose parents are dead, admitted, the FBI said, that he was the bandit who unleashed a 3-shot machine gun volley as the robbers entered the bank. One of the shots struck Florence Hinrichs, 19, a bookkeeper. She is recovering in a Des Moines hospital.

Story of Holdup

The FBI gave this account of the case:

Willis and Banning decided last Friday night to rob a bank. They discussed banks in the Des Moines vicinity, then agreed on the Carlsbad bank.

They thought it best to rent a car. Banning obtained the car by giving his own name. Then the youths went home and changed clothes. They got the machinegun and the two revolvers, and went directly to Carlisle.

Banning looked the situation over before they entered. Willis fired the machinegun when he thought an employee of the bank had turned in an alarm. Then they ordered those in the bank to put up their hands.

After scooping up the money, the youths drove west out of Carlisle, then back to Des Moines. They changed back to the clothing they were wearing when they rented the car, and returned the car. They had the automobile only about two and a half hours, returned it an hour and a quarter after the holdup, and had driven it less than 50 miles.

Since Willis is a minor, the FBI explained it will be up to the justice department in Washington to determine whether he shall be prosecuted under indictment or under the federal juvenile delinquency act.

Puerto Ricans Strike

SAN JUAN, Puerto Rico (AP)—Approximately 3,000 teachers in thirty Puerto Rican towns went on strike yesterday for higher salaries.

CAPTURED IN FT. WORTH—Joe Doyle Banning, 19, IN POLK COUNTY JAIL—Jay Earl Willis, 17.

THIS IS THE ARSENAL captured in Des Moines yesterday along with Jay Earl Willis. The FBI says the guns were used in the Carlisle, Iowa, bank robbery. (AP WIREPHOTO)

E.L. O'Connor Named Deputy Prosecutor in Knifing Case

Edward L. O'Connor, former Iowa attorney general, yesterday was appointed special deputy to assist County Attorney Jack C. White in presenting first degree murder charges against William W. Patton of Iowa City.

O'Connor, who has been practicing law in Iowa City, was appointed by the district court at White's request.

A preliminary information

charging Patton with murder was filed Sunday after Ernest R. Brown, Kansas City welder, was fatally stabbed during a scuffle in the Patton home early Sunday.

Condition Good

Patton received stab wounds in the chest and was taken to University hospital, where his condition is reported as good. It is expected he will be released from the hospital this week.

Lewis Stucker, 36, and Dora Parsons, 24, who were at the Patton home, were held as material witnesses.

Miss Parsons was released late yesterday on \$1,000 cash bond posted by Scott Swisher.

County Attorney White said he questioned Stucker at length yesterday, but that Stucker had not completed his formal statement.

Wife in Buffalo, N. Y.

Efforts to contact relatives of the dead man have met with little success, but Kansas City police report he has a wife in Buffalo, N. Y.

According to statements received by County Attorney White, Patton had gone home from an all-night cafe where he worked about 2 a.m. Sunday.

When he found Stucker, Brown, Mrs. Patton and Miss Parsons there, he ordered Brown to leave. When Brown protested, Patton went into the kitchen and returned with a knife in each hand.

Brown drew a pocket knife and the scuffle began, the statements say. Mrs. Patton then went to a neighbor's house and called police.

District Judge Harold D. Evans has called the grand jury into session for 10 a.m. this morning to hear testimony in the case.

All Students Invited To Cage Preview Today

Everybody's invited to watch the Hawkeye basketball squad in its practice session this afternoon at 4:30. A photographer will be there to take pictures for a special article on the Iowa team which is to appear in a future issue of Collier's magazine.

No admission fee.

Ask If Allies Ready to List Atom Weapons

LAKE SUCCESS, N.Y. (AP)—Soviet Foreign Minister V. M. Molotov bluntly asked the United States and Great Britain yesterday if they were ready to report immediately on atomic and jet-propelled weapons in the peacetime war machines.

Philip J. Neol-Baker, Britain's chief delegate to the United Nations assembly, heatedly replied that he was no more ready to report on such matters than was Molotov.

U.S. Senator Tom Connally (D., Tex.), chairman of the senate foreign relations committee, let the question pass without direct answer from his government.

The request, voiced by Molotov in answer to Neol-Baker's contention Monday that Russia's resolution calling for a troop census was not "adequate," tossed into the United Nations political committee a new and complicating factor. The committee adjourned after three hours of warm debate until today (9:30 a.m. CST) without any apparent solution to the deadlock over what kind of a troop count should be made.

Russia rejected the demand that any troop count include home forces. However, as apparent evidence of willingness to discuss this later, Molotov offered a proposal for the general assembly to call on member states to submit information on armed forces and armaments "in their own territory," this information to be submitted when the security council will consider the proposals for general reduction of armaments.

Molotov said that the new ideas—atomic and jet propelled weapons—called for study and reserved his right to discuss them after hearing the attitude of the other delegates.

Connally again voiced the United States demand for an all-encompassing troops census, emphatically insisting on including home forces.

Connally attacked Molotov's proposal that the information on home forces be submitted to the security council when it considers general disarmament.

"Why not submit it now?" Connally asked.

"The United States is willing to reveal it," he continued. "We have no screen, no hidden obstruction to our armed forces."

Manpower Solution Steeplejack Weds 6 In 4 Years

Providence, R. I. (AP)—Thomas A. Robertson, 23-year-old steeplejack who police said has taken six wives in the last four years, was held in \$10,000 bail for future trial when he pleaded innocent yesterday in district court to a charge of bigamy.

Just before his arraignment, Robertson embraced his sixth wife, June Ivy Castrovna Robertson, and called her, "the best of all."

June had said she was going to stick by him "because he is so romantic."

Court attaches described Robertson as a "likeable" chap.

"He is quiet, he is humble, and he does not think he is a wise guy," one of them said.

Three of Robertson's previous marriages, two in Kansas City and one in Corpus Christi, Texas, have been annulled, police said, but subsequent marriages in Spartanburg, S. C., and Springfield, Mass., still are intact.

Robertson served 22 months of a one-to-five year jail term in Kansas for polygamy.

SCHOOL BY RADIO—Coal shortages forced Denver schools to close but there was no vacation for these students. The pupils were given homework assignments and lessons via radio. Teachers will check results when the schools reopen.

(AP WIREPHOTO)

Many Students Join Workers In 'Vacation'

By THE ASSOCIATED PRESS
Effects of the six-day-old walkout of 400,000 bituminous coal miners extended into the educational as well as the industrial life of the nation yesterday with students from many schools and colleges joining about 70,000 in enforcing vacations.

From point as far west as the Pacific coast some reports of lack of fuel to keep the nation's halls of learning open.

Denver's public and Catholic schools, Colorado's College of Education at Greeley and Colorado's Women's college already have closed their doors, while the University of Colorado will shut down Saturday.

Four thousand students at Brigham Young university, Utah, who have been shivering for three days, started their Thanksgiving vacation two days early. Heat for the school buildings is supplied by gas from the coking ovens at Ironwood, Utah. Public schools in Utah county also were closed as the mountain fuel supply company conserved its reserves for domestic users and hospitals.

In the state of Wisconsin, where only 14,000 tons of coal are available, the schools of Walla Walla and several smaller communities are closed.

In the heart of the soft coal region, Pittsburgh school authorities have used the solid fuels administration in Washington for authority to buy 500 tons enough to tide the city's 119 schools over a two-week period.

Meantime, unemployment in industries depending on coal rapidly reached the 70,000 mark as additional blast furnaces and open hearths ceased operations. The tri-state industrial association figured that fabricating plants in Pennsylvania, West Virginia and Ohio would be reduced to 50 percent of capacity within another week but that it would take at least a month for 100 percent ineffectiveness.

The Bethlehem Steel Company has furloughed 8,000 of its 14,000 employees at Johnstown, Pa., and expects to drop soon to the near-maintenance level of only 3,000. In addition, Bethlehem has laid off 5,000 at its Sparrows Points, Md., plant.

Ten thousand workers already are out at the Youngstown, Ohio, Sheet and Tube company plant and the figures in this industrial city were expected to reach 20,000 by Thanksgiving.

British Squelch Jewish Rebellion On Refugee Ship

HAIFA, Palestine (AP)—Bombs blazed atop Mount Carmel last night as Haifa Jews demonstrated their support of 3,370 immigrants who fought a frenzied but unsuccessful battle aboard their blockade runner yesterday afternoon with club-wielding British Tommies.

Ten soldiers were injured and one was missing and believed dead in the hour-long melee which broke out a half hour after the immigrant ship, the 2,000-ton Hamer Haivra (Lochita), entered Haifa harbor under the escort of two British destroyers. Army sources confirmed the death of one 16-year-old Romanian Jew, from injuries suffered when he jumped from the ship. Five injured Jews were rushed to a hospital, and 17 others to a sick bay. Scores were puffed-eyed from tear gas.

The troops used tear gas and fire hoses to subdue the immigrants. Nearly 100 Jews leaped into the water during the height of the fighting, in a last desperate attempt to reach the Holy Land, or scrambled to the deck of a tug which was warping the ship to a jetty. All were recaptured.

After order was restored, troops began transferring their refugees to three British transports. One by one, the immigrants were taken from the Hamer Haivra and searched. They were then placed aboard the transports Ocean Vigor, Empire Heywood and Empire Rival, presumably for ultimate deportation to Cyprus Island.

The immediate departure of the British ships was stayed by a habeas corpus action, brought in Palestine supreme court by Jewish Palestine residents. The action requires the government to show cause why the refugees should be deported.

Nightclub Owner Freed BOSTON (AP)—Barnett Welansky, who was jailed for manslaughter after nearly 500 persons perished in a fire that swept his coconut grove nightclub in 1942, was pardoned yesterday.

ROY C. FRAVEL, a mine inspector at the Orient No. 1 mine at Orient, Ill., goes to work piling up a supply of kindling wood in case the coal strike lasts longer than his one ton of coal in his bin. Fravel, 44, is the father of 18 children, 16 living.

Turning Our Backs to Starvation

A famine which cannot be ignored still stalks in Europe. And famine relief, as an international responsibility, will die with UNRRA on Dec. 31.

The attitude of the United States government has been to let it die, in the apparent belief that "such things should be allowed to work themselves out." And the American people — who are awfully peculiar sometimes — are unconcerned.

There will be relief, of course, but of a rather ineffective type. The export-import bank, a U.S.-operated affair, will continue to make its trade encouraging loans. A loan to stimulate trade, however, is quite different from a loan for famine relief. It doesn't quite accomplish what should be considered the desired end; namely, getting food to the starving millions in Europe now, not tomorrow, when it's too late.

Fiorello LaGuardia realized this when he suggested recently that the United Nations set up a \$400,000,000 emergency food fund to aid starving Europe after UNRRA is dissolved. But when he made this proposal, the Little Flower must have remembered that since last August the U.S. position has been clearly opposed to an international famine relief program, because he warned that the United States might drown on his proposal.

Sure enough, the U.S. position as first stated by the state department's Will Clayton at the Geneva UNRRA council session last August was reiterated as an answer to LaGuardia's plea. LaGuardia had said that the nation might decide to stay out of any international organization so it could pick and choose the recipients of its relief and thus wield food as a weapon against nations whose policies the United States did not approve. That appears to be our chosen course.

It kinda' leaves a bad taste in your mouth, doesn't it? It leaves a bad taste because it doesn't quite fit the kind of people we'd like to think we are.

And it goes even deeper than that. Such a policy represents a rather dangerous and a definitely out moded line of thought on the part of government officials. When they speak of helping this nation and ignoring that nation, they're forgetting that there are only two people in the world. Some of them happen to live in one nation, some in another, but they're all human beings — and at the present time a good many of them are hungry.

When we use that hunger as a political weapon, we are harming people directly and nations only indirectly, but most of all we are violating principles of common decency. Today we are in the key position of deciding, according to our desires, whether the rest of the world shall starve or be fed. And tragically enough, we have apparently chosen the former.

This policy reflects an unhealthy attitude by economic isolation and a cynical disregard for mankind. Perhaps we're not the kind of people we'd like to think we are, after all.

Larger Vet Enrollments Seen

Study Predicts More Critical Education Emergency

Many leading educators foresee a larger enrollment of GI's from our large universities in 1948, thus creating a more serious education emergency in those schools than exists today, it is revealed in "The G.I.'s And The Colleges," a booklet just issued by the Crowell-Collier Publishing company.

The new educational study, the fourth of a series of booklets issued by the company on veterans' problems, also discloses that G.I.'s are today the best students generally, thus contradicting the fear of many educators of a year or so ago that many of them would draw government educational allotments but be "educational bums."

The study generally indicates that the present overcrowded situation in our colleges and universities will continue for three to five years, and that college enrollments will never again drop to half to one fifth as great.

The educational study points to the need of careful, realistic vocational guidance based upon a knowledge of job opportunities as well as of aptitudes." It is said that, while engineering leads the field in veterans' interest, it is estimated that the demand for college-trained engineers will be filled by 1953. After that "only replacements will be needed."

The study generally indicates that the present overcrowded situation in our colleges and universities will continue for three to five years, and that college enrollments will never again drop to half to one fifth as great.

What should a Young Democrat in Iowa be thankful for when he stops to think things over Thursday, Nov. 28?

I am addressing this query to you in the hope that you will pass it on to Patrick Michael at the earliest opportunity — possibly during a heart-warming father-to-son conversation. Even though he may not have as yet developed an ability to read or write, I'm confident that you can get the message across satisfactorily.

Win With WALLACE.

Yours: Jake Jasper Moore Jr.

The study generally indicates that the present overcrowded situation in our colleges and universities will continue for three to five years, and that college enrollments will never again drop to half to one fifth as great.

On the basis of replies from 583 institutions of higher learning, the study reveals that "the majority of veterans wish higher education with a definite vocational interest." Engineering is said to rank first in veterans' interest, business administration a close second, and pre-medical third.

Because of this, educators fear that many of today's G.I. students, who are now enrolled in junior and liberal arts colleges, will seek to matriculate in the larger universities for their professional training. Since these universities will have their own lower classes going into the professional courses, it is expected that a critical situation will arise.

"In general veterans' marks have been higher than normal prewar classes," the booklet says in reporting on the GI's as students. "Returning veterans have done better than before they left campus to enter the armed services."

The University of Richmond and many other institutions call it a pleasure to teach the GI's," the study says. Other institutions are reported as saying that the veterans are "intolerant of poor teaching" and that they "demand to know why statements (of the professors) are true."

It is reported that the GI Bill of Rights has democratized higher education by making it possible for 75 to 80 percent of our GI high school graduates to attend college as compared to less than 50 percent of high school graduates at the university.

Beebe Given Promotion

Kenneth P. Beebe, former University of Iowa student, has been appointed assistant commanding officer of the 96th malaria control detachment in the Philippines.

He was also promoted to rank of captain.

Prior to induction, Captain Beebe was a member of the Alpha Kappa medical fraternity at the university.

vailing mood of current United Nations diplomacy.

The Soviet Union, insisting on limiting the study to "troops abroad," undoubtedly wants to make a point about American troops in China, "so far away," the word "abroad" is trigger word in Soviet thinking, which is so deeply suspicious of Western imperialism.

The United States, however, well aware that the countries in which Russia is primarily interested are close to the Soviet border, wants to join the study of "troops abroad" with "troops at home" as many minutes as it takes to fly across a border.

The British position is that both questions should be sunk in a general disarmament plan, and that nobody

should have to make anything public until the world is ready to disarm.

There you have three views, in a charming tangle, and you can pick motives out of the mess as easily as you can pluck raisins out of cake. The whole thing makes a wonderful study in cross-purposes and in that curious frank unfrankness which is the pre-

ferred way on this route; he wants both questions, "troops abroad" and "troops at home"

OF CABBAGES AND KINGS—

Diaper Bloc Leaders Air Mutual Problems

By LAWRENCE E. DENNIS

Daily Iowan Columnist

Mr. L. E. Dennis

Gardening Editor

The Daily Iowan

Dear Sir:

Early this fall several politically-minded members of my community (Pink Cheek, Iowa; pop. 63) banded together and organized a Young Democrats club. We affiliated ourselves with the party's official state central committee, whose headquarters is reputed to be in Des Moines, and campaigned strenuously until election day for Frank Miles, Sewell Allen & Co., whom we understood were heading the state Democratic ticket.

We were, of course, very disappointed when Governor Blue, Harrison Spangler and their Republican associates carried Pink Cheek Nov. 5 by a vote of 80 to 3.

I am one of three remaining members in good standing of the Pink Cheek Young Democrats club. I will be two years old Thanksgiving day and am registered with the State University of Iowa's extension division for a course called Introduction to the History of Ideas (first half). The other Young Dems, left in our town are the new banker, Andrew May, and the new bowling ally proprietor, Enos Axtell, neither of whom participate very enthusiastically in our club's activities.

While talking with one of the young ladies down at the Storkland Diaper Service company the other day, I chanced to learn that your two-year-old son, Patrick Michael, is one of the outstanding leaders in Iowa's Young Republican league. It occurred to me that, as a successful politician, he might be able to answer a question that has been plaguing the club here during the past few weeks, namely:

What should a Young Democrat in Iowa be thankful for when he stops to think things over Thursday, Nov. 28?

I am addressing this query to you in the hope that you will pass it on to Patrick Michael at the earliest opportunity — possibly during a heart-warming father-to-son conversation. Even though he may not have as yet developed an ability to read or write, I'm confident that you can get the message across satisfactorily.

Paulsen, Fehling Sign Contract With Publishers

Prof. Wolfgang Paulsen and Prof. Fred Fehling of the German department have signed a contract with the Henry Holt publishing company of New York to prepare a German reader for use as a text in teaching the German language.

The book will contain three stories by modern German authors and will be published in 1947.

It might interest you to know, son, that I'm not at all lacking in an ability to read or write. As a matter of fact, I received an unusually high grade in the SU extension course known as "Comm Skills" (advanced section). "And during the Young Republican convention at Des Moines last summer, it was largely due to my pamphleteering activities that we managed to bypass the Old Guard and sneak in brother Rollo Bergeson as candidate for secretary

linked with disarmament, so that small forces at their disposal; it no nation will have to tell the world anything until the entire planet is ready to go to glory. And though Mr. Bevin sweats out idealistic phrases as he makes this point, and drops moral principles all over Lake Success, and teases the world with the dream that all nations ought to give up their sovereignty in military matters to the United Nations, his position wears the air of being what might be called the leftist evasion.

But these are inadequate reasons for secretiveness; and the American plan (at least as it stood on Oct. 30, when Mr. Austin announced it) would seem to be the best that has been put before the Assembly Committee because it is the only one lacking in evasive elements.

Danger in British Plan

The danger is that we may yet come to support the British plan; if that happens our opposition to Russia will have led us into a sour spot indeed. Mr. Bevin may be deeply convinced that disarmament is really the most important question before the world, so important that all other questions are subsidiary, but his plan still suffers from the fatal flaw that it seems to try to hide the world wants to have. This gives it, rightly or wrongly, an air of games and shenanigans; and that very coloration is, in itself, a political and moral danger.

To see America offering to tell everything, and asking both sides to reveal facts they do not seem to wish to reveal, is to see Americans functioning in world affairs as Americans like to see it function.

Mr. Bevin's plan puts the British in an anomalous position. They have been boasting (and causing happy editorial writers all over America to boast with them) that they are rapidly "getting out" of disputed areas; now they refuse to say it in figures. They may fear either that the huge forces abroad, or else that they have very

small forces at their disposal; it could be one or the other that makes them hesitate.

But these are inadequate reasons for secretiveness; and the American plan (at least as it stood on Oct. 30, when Mr. Austin announced it) would seem to be the best that has been put before the Assembly Committee because it is the only one lacking in evasive elements.

YWCA to Feature Women's Chorus In Annual Service

The annual YWCA candlelight Thanksgiving service will be held this afternoon at 4:30 in the senate chamber of Old Capitol. A special chorus of 20 women's voices, a harp solo, a vocal solo and Thanksgiving story will be included in the service, according to Chairman Phyllis Jordan, A2 of Des Moines.

Participating in the program are Mary Ellen West, A4 of Des Moines, dedication to Thanksgiving; YWCA chorus directed by Miriam Weirick, A4 of Colfax, "Come Ye Thankful People, Come"; and "We Gather Together"; Miss Jordan, "The Last Thursday in November," a Thanksgiving story; Bob Brashares, A2 of Des Moines, prayer of Thanksgiving; Betty Johnson, A3 of Duluth, Minn., vocal solo. Harpist will be Elizabeth Penningroth Cupp.

Members of the YWCA advisory board will be special guests of the social committee at the service.

Ushers for the service will be Harriet Hoegh, A4 of Atlantic; Marly Alice Mellen, A2 of Cedar Rapids; Dell Robertson, A2 of San Antonio, Tex.; Jane Lord, A2 of Burlington, and Nancy Dunlap, A3 of Webster Groves, Mo. All students and faculty members are invited to attend.

Major in Marriage will not have its regular meeting this week so members of that group may attend the Thanksgiving service.

Bevy of 14 Queens To Reign at Dance

There'll be no hard feelings at the Interfraternity Pledge dance when the "queen" is presented. Instead of the usual queen and attendants to reign over the dance, 14 "queens"—each one chosen by one of the 14 fraternity pledge classes on campus—will be honored.

The dance is scheduled for Jan. 17 at the Community building. President John Howland, A1 of Webster City, announced last night.

Larry Barrett and his orchestra will provide music for the party.

University Club to Show Christmas Handcraft At Kensington Meeting

Hand-made Christmas gifts will be displayed at a Kensington craft sale sponsored by the University club tomorrow afternoon in the clubrooms of Iowa Union.

Each member is asked to bring his gift, labeled with the name of the person contributing them, to the tea which begins at 2 o'clock. The gifts will be arranged on a display table.

Mrs. Jacob Cornog and Mrs. Chester Phillips are in charge of the function. Mrs. Clarence Berg and Mrs. Alvin Bryan will serve and Mrs. Chester Miller is chairman of the social committee.

Mrs. S. B. Barker, program chairman, asks members to bring ideas and available material for Christmas decorations.

All members planning to bring home-made gifts are asked to contact Mrs. Cornog so the proper space may be made for their displays.

First 3 of 50 Quonset Units To Be Occupied This Morning

Three university faculty members and their families will move into Quonset housing units at the City park bridge project this morning.

Dean C. Woody Thompson of the office of student affairs said yesterday that they will be the first tenants for the 50 unit project.

The faculty members—Ernest R. Ramsaur Jr. of the history department, Frank R. Kennedy, assistant professor of law and Mrs. Alta C. Howell, instructor at the university pre-school — were allowed to move first because of extreme need in their individual cases, according to Richard Sweetzer of the office of student affairs.

The majority of residents will be students, Dean Thompson said.

Kerosene cooking ranges were installed yesterday, and hot water heaters and a few electrical outlets are the only items remaining to be installed in the entire project, according to J. J. Mayor, project manager of the Kucharo Construction company of Des Moines.

J. W. James, federal public housing administration head in Iowa City, said yesterday that FPHA will probably turn over the entire project to university officials this week. The exact date will depend on completion of administrative paper work necessary to the transaction, he said.

It is understood that the Quonsets will be acceptable to the university as they now stand, and that hot water heaters and electrical outlets will be installed by FPHA as soon as they are available.

Mayor said that hot water heaters are still expected this week.

Rental for the units has been fixed at \$42 for unfurnished units, and \$48 furnished.

However, rent may be lower in certain cases, according to Richard Sweetzer of the office of student affairs.

If one-fourth of a family's income is lower than the appropriate rental figure above, rent may be one-fourth of monthly income or cost of operation for the housing unit, whichever is greater. Cost of operation has been established at \$31 and \$37 for unfurnished and furnished units respectively, he said.

Council to Petition For Thanksgiving Holiday in 1947-48

The Student council last night voted unanimously to petition President Virgil M. Hancher for a four-day Thanksgiving holiday for the 1947-48 school year.

The action was taken after a report from President Hancher to the council that a petition for a similar holiday for this year had been refused because it was submitted to the board of deans after the university calendar had been planned for the year.

The constitutional amendment committee was delegated to prepare an amendment limiting the number of absences of council members from meetings. The amendment will be read at the next two consecutive meetings and will then be voted on.

The council also decided to include in the amendment a provision that representatives unable to attend a meeting shall designate someone from his constituency to represent him.

Norma Ems, P4 of Savageton, Wyo., was appointed unofficial librarian to make arrangements for exchanging student government plans and student publications with other universities in the United States.

Betty Jo Phelan, A4 of Mason City and Dorothy McKinley, A4 of Omaha, Neb., were named on a committee for arranging a reception and tea for visiting debaters from 22 universities on Dec. 6. The council-sponsored tea will be held from 5 to 6 p.m. in the River room of Iowa Union.

The council made plans to request Mortar board and Century club to assist in the sponsorship of a campus variety show, with profits and expenses to be shared one-half by the council and one-fourth each by the honorary clubs.

Miss Phelan was named to replace Dick Yoakum, G of Pittsburgh, Pa., on the central committee for the variety show.

LaVonne Stock Named Hockey Club President

LaVonne Stock, A2 of Storm Lake, has been elected president of the Hockey club. New secretary-treasurer of the club, sponsored by the Women's Recreation association, is Doris Havercamp, A2 of Muscatine.

Virginia Dix Sterling and Gail Hennis, both instructors in the women's physical education department, elected chairman and secretary-treasurer, respectively, of the Iowa City Hockey association, are representatives to the national association.

OPA to Re-Classify Hotels, Apartments Before End of Year

All transient hotels, residential and apartment hotels, rooming houses and tourist courts in Johnson county are to be placed under separate rent control classification before the end of the year, T. J. Wilkinson, area rent director, announced yesterday.

This measure, a provision of the price control extension act of 1946, requires landlords of these establishments throughout the county to file supplemental registration statements before the deadline, Dec. 31, 1946.

Attendance at the dance is limited to 600 couples. Tickets at \$1.00 per couple are on sale at the Union dance.

Women's Club

East Lucas Women's club will have a Santa Claus to deliver the gifts at the Christmas party to be held December 8 in the lounge of the Community building.

Rochester road members are in charge of arrangements.

AmVets' Jam Session

An informal jam session, third in a regular series for members of post 32, American Veterans of World War II, will be held at 3 p.m. Friday in the AmVet clubrooms.

Building Permit Issued

One building permit was issued last week by City Engineer Fred Gartzke to Kenneth Moore for a \$5,000 residence at 712 Fifth Avenue.

SUI Co-op Women Present Full Claim To Eating Better Food for Less Money

Most all of the 54 women living in the three university cooperative houses declare with much feeling that they eat better than anyone else on campus.

What is more, they can afford, literally, to be enthusiastic, for in spite of an estimated 95 percent rise in Iowa City food costs since 1942, residents of Russell, Dean and Fairchild houses eat for 72 cents each a day. Women living in one of the university's largest dormitories pay 80 cents for a Sunday dinner guest ticket.

Bare Assassination Plot

WASHINGTON (AP)—The FBI said last night that two Germans discussed the assassination of King George and Queen Elizabeth of England during their visit to the United States in 1939.

A spokesman identified the Germans as Fritz Wiedmann, then German counsel general at San Francisco, and Herman Schwinn.

An Era Passes

NEW YORK (AP)—Passing-of-an era item: Cuspidors no longer are required in New York places of business, City Health Commissioner Isreal Weinstein said yesterday.

While minor culinary errors like kerosene in the salad dressing or scrubbing cleanser in the iced tea occur occasionally, waste is cut to a minimum in coops, for any free balance in the budget is refunded to the women at the end of the semester. Since the houses operate on a cost basis, and since some of the residents go home nearly every weekend, coop women find little need to charge for guests.

The house work is distributed among the women according to their schedules and preference. Each house is self-governing and makes its own rules within university regulations. The office of student affairs chooses a woman from each house as proctor. The proctor acts as counselor and adviser to the other women in the house, although the house's own judiciary

board is responsible for "locking up" and penalizing infringement of rules. The women also direct their own social program.

That an education essentially includes learning to work, play and get along with other people is the philosophy underlying student cooperative living. And residents of Fairchild, Dean and Russell houses think it's a mighty practical, workable philosophy.

How do the co-ops do it? By careful planning and no expenditure for labor, for the women do their own cooking and cleaning.

The menus are prepared two weeks in advance and then go to Robert Cotter, co-op manager, who buys all the food. Deliveries are then made to each house.

A sample dinner menu includes meat loaf, baked potatoes, lima beans, fruit salad, milk or coffee, and tapioca with bananas.

Ex-GI's Set Big Nine Records

Bob Chappius Sets Two New Loop Records

By JERRY LISKA

CHICAGO (P)—The experts said the ex-GI footballer would be a gridiron problem child, but two of the Big Nine's most efficient performers this season were men who underwent harrowing experiences while flitting the wild, blue yonder for Uncle Sam.

Halfback Bob Chappius of Michigan, whose 21st mission as a radio operator ended in a dramatic flight from the Nazis via the Italian underground, really stole the league show with two new records.

But Halfback Art Duffelmeier of championship Illinois, who just 17 months ago was an air force gunner wasted away to 107 pounds in a Nazis prison camp, also shone into the limelight as the conference rushing leader with a brilliant eight-yard average.

Chappius, a 1942 understudy to Tomy Kuzma, skillfully blended an accurate tossing arm with a pair of nimble heels for a combined passing and rushing total of 1,039 yards. That bettered the previous record of 862 yards by Northwestern's Otto Graham in 1942.

Chappius was not as busy a leaguer "slingshot" as Indiana's Ben Raimondi and Purdue's Bob De Moss, but his remarkable feat of completing 36 of 64 passes for 596 yards stands as a new percentage record of .563. The late Dick Good of Illinois held the old record of .544, established in 1942.

Chappius' net rushing yardage of 445 in 84 attempts also was tops, although his 5.3-yard average was considerably below that of Duffelmeier, a lanky 180-pounder, whose long strike deceives would-be tacklers into believing he is just loafing along. Duffelmeier wound up with 302 yards in 28 tries after playing second fiddle to Buddy

Young and Julie Rykovich early in the season.

The Big Nine passing crown was shared by Raimondi, who connected 48 times in 89 attempts for .539, and De Moss who was just behind in number of completions with 45 out of 94 for .479, but claimed the lead in passing yardage at 612.

Other departmental leaders, according to official statistics released yesterday included: punting John Galvin, Purdue Quarterback, 43-yard average on 16 kicks; pass receiving—End Lou Mihajlovich of Indiana, 16 catches for 188 yards; and scoring—Halfback Vic Schwall of Northwestern, 40 points on five touchdowns and 10 extra points.

REMARKS OF BEARS' LINE COACH DRAWS OWNER'S CRITICISM

In fact Harris, who was "persuaded" to take the job, actually recommended Durocher to MacPhail after the final Brooklyn-St. Louis playoff game. MacPhail took the matter under advisement but five days later,

Working out in the University of Iowa fieldhouse daily is Bob Berens, middleweight, who has won 28 of 32 amateur fights.

CHICAGO (P)—Fred Mandel Jr., owner of the Detroit Lions, said last night that he had "called to the attention" of Bert Bell, National football league commissioner, remarks which the Detroit Free Press said were made by Hunk Anderson, line coach of the Chicago Bears, at a Detroit Quarterback luncheon.

The Free Press quoted Anderson as saying that something was "radically wrong" with the Lions and the club needs a change all the way through."

Mandel, who did not attend the luncheon, said that Anderson's comments "violated all rules of the league."

"I have called Anderson's re-

marks to the attention of Bell and any comment regarding them should come from him," said Mandel. "I understand it is the type of thing Bell wants to know since any public utterances of this nature definitely violate the rules of the league."

Anderson was not available for comment.

HAWK HOME CAGE RECORD

University of Iowa cagers have

one of the most impressive records at home of any school in the country. In the last 34 times out on the home court the Hawkeyes have notched 32 victories.

In one stretch the Hawks went

without a loss in the fieldhouse

from the last game in 1944 until the last game in last season's cam-

paign.

In that the 1946-47 schedule in-

cludes 13 of 19 games at home,

Coach Harrison hopes the record is maintained if not bettered.

him, Dick Witt of Des Moines.

For the record, Bob has won 27

out of 32 engagements. Of the four

losses, three were decisions and

the fourth was the T.K.O. that

started his ring career.

A lack of sparring partners has

hindered the rangy middleweight

so, if there are any ambitious stu-

dents around, Bob would be glad

to box with them any afternoon or

evening in the gym on the left side of

the fieldhouse.

Bob entered Iowa university in

September 1945 and started work-

ing out under the tutelage of Bob Rossie, the gentleman who trained his son, Bob Rossie Jr., into the

Iowa A.A.U. and Cedar Rapids

Golden Gloves welter titles. Under

the watchful eye of trainer Rossie,

Berens began rounding into shape

and has since been a headliner on

boxing cards in Cedar Rapids,

Maquoketa, Des Moines, and Rock

Island, Ill.

Since bouncing off the canvas

to win his first title, this classy

middleweight has added plenty of

laurels to his credit.

After joining up with Uncle

Sam he coped the 160 pound

championship of the 4th Replac-

ement Regiment at Ft.

Meade, Md., in 1944. This was

after returning from 27 months

of overseas service with the 34th

Division including six months

in Council Bluffs.

Vet Groups, Mayor Discuss Limiting Tag, Poppy Days

Representatives of eight veterans' organizations met with Mayor Wilbur J. Teeters last night and agreed that sales of tags and poppies in Iowa City for veterans benefit funds should be limited to one day a year.

Spokesman for the organizations also decided to meet Dec. 2 in an attempt to agree on a specific day on which poppies, marigolds and forget-me-nots could be sold.

Presented for Approval

The plan will then be presented for approval at individual organization meetings of War Dads, the two VFW posts, American Legion and the Disabled American Veterans association, said Carl Redenbaugh, chairman of the meeting.

Permission to sell marigolds next Saturday was granted to the War Dads since all other organizations which use such methods of solicitation have held their day this year.

Discuss Memorial

The proposed memorial for veterans killed in all wars which is under consideration of the War Dads came up for discussion when Redenbaugh suggested using the funds for medical research purposes instead.

Mayor Teeters suggested purchase of 100 acres of land just west of City park for use as a memorial golf course and Cliff Richards, AVC spokesman suggested the funds be used for a swimming pool.

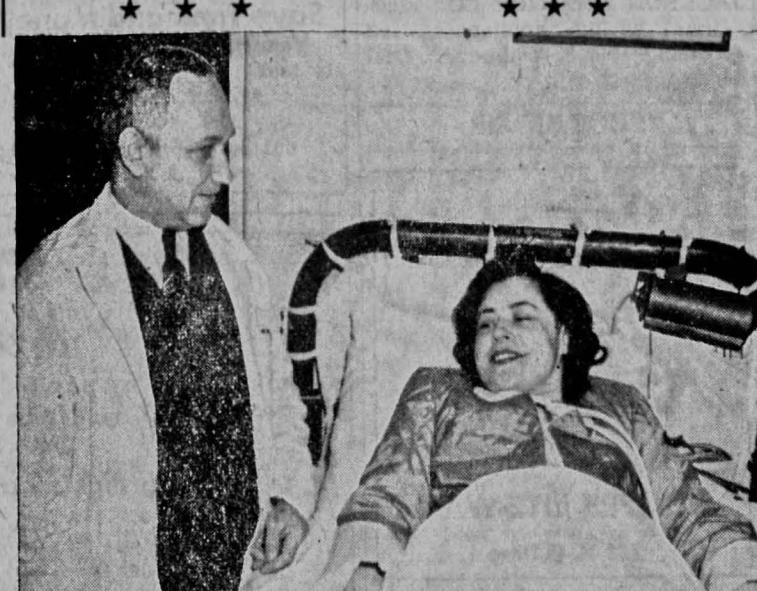

R. C. Rea, War Dads' president, pointed out there had been three meetings starting last summer at which suggestions had been welcomed but none received. He said the memorial was under consideration because that was what gold star mothers of Johnson county wanted.

To Attend Convention
Prof. Thelma Downing of the home economics department will attend a national convention of Kappa Omicron Phi, national professional honorary home economics fraternity, at Kingsville, Tex., tomorrow through Saturday. She is national secretary of the organization.

Patient Happy as—

Movies Come to Oakdale

—Via Xmas Seal Funds

DOROTHY BARDTMAN tells Dr. William Spear, superintendent of the Oakdale sanatorium, how it feels to go three years without seeing a movie. Dorothy and the other bedfast patients at Oakdale recently witnessed the first movie to be shown on the new portable 35 mm sound motion picture projector presented to the sanatorium by the Johnson county tuberculosis association.

★ ★ ★

A lot of people may have enjoyed the movie, "Harvey Girls," but chances are Dorothy Bardtmann, patient at Oakdale sanatorium, got a lot more pleasure out of than the average movie-goer.

Dorothy was admitted to the sanatorium three years ago, and the showing of "Harvey Girls" in the institution chapel recently was the first movie she has seen since she first became ill.

Movie was made possible for Dorothy and lots of other patients like her by the Johnson County Tuberculosis association, who purchased a 35 mm sound and motion picture projector with \$1,295 of accumulated Christmas seal funds.

★ ★ ★

Movies are shown in the sanatorium's main building once a week for ambulatory cases.

★ ★ ★

The annual sale of Christmas seals which made this movie machine possible is underway now, and seals were sent to residents of Johnson county Monday. This year in addition to the purchase of the movie machine the association has been:

(1) furnishing milk to one Johnson county family that cannot afford an adequate supply for their children;

(2) paying part of the salary of the county health nurse who has an extensive visitation program

without them is quite a while."

Iowa City Ministers Plan Union Services

The annual Union Thanksgiving service sponsored by the Iowa City Ministers' association will be held at 10:30 a. m. tomorrow in the Congregational church.

The Rev. P. Hewison Pollock, pastor of the First Presbyterian church will speak on "Thanks for the Cup."

Other ministers participating in the service will be Dr. L. L. Dunnigan of the Methodist church; the Rev. E. E. Clerks of the Baptist church, and the Rev. Donovan G. Hart of the First Christian church.

Presbyterian students and friends will hold a Thanksgiving party at 8 o'clock tonight, and a student potluck supper is planned for 6 o'clock tomorrow night at the church.

Lutheran church services will be observed at 10 o'clock tomorrow morning in the First English Lutheran and Zion Lutheran churches.

Services at St. Paul's Lutheran church will be at 10:30 a. m. An oyster supper will be held at 5:30 p. m. in the church and Gamma Delta, youth organization, will sponsor a 7:30 p. m. magic show open to the public.

Trinity Episcopal church will observe Holy communion at 7 a. m. and a family service at 10 a. m.

The First Church of Christ Scientist will hold regular services at 11 a. m.

Children of the Agudas Achim congregation will attend a special 10:30 a. m. Thanksgiving service.

Catholic churches will observe the following masses:

St. Thomas More chapel masses at 6, 6:30, 7, 7:30 and 8 a. m.

Masses will be held in St. Mary's church at 6:45 and 7:30 a. m.; masses at St. Patrick's church will be at 8:30 a. m. and St. Wenceslaus church masses will be at 7 and 8:30 a. m.

to stress tuberculosis prevention in county schools, and

(3) **sponsoring x-rays** for persons unable to afford them who have been recommended to the association by individual doctors. They have furnished 62 of these x-rays since November, 1945.

Sale of Christmas seals is the only fund-raising program of the tuberculosis association.
