GOOD MORNING, IOWA CITY

Mostly cloudy and much colder today with occasional rain this morning. Rather windy today. Clearing and much colder tonight.

## Iowa Colleges Ask Big Hike in Funds

### Russia Shuns Disarmament Plan

#### City Teachers Get \$17.50 Wage Boost

Answer to a plea for higher salaries was made last night to Iowa City public school teachers. The school board granted a \$175 raise payable on a 10-month basis to the 101 teachers and 15 janitors employed by the local school district.

The pay raise is earmarked for the salary of the superintendent of schools, the superintendent of grounds and buildings and four school clerks as well as for that of teachers and janitors.

Board action followed a formal appeal submitted Nov. 6 by the local Teachers club for a salary hike of \$25 a month plus the present cost of living bonus, retroactive to Sept. 1, 1946.

The grant made by the board figures at \$17.50 monthly. Neither janitors nor school officials were mentioned in the Teachers club request. Raymond J. Schlicher, 407 S. Dodge, president of the Teachers club, declined to comment last night on the salary raise.

Clark R. Caldwell, co-chairman of a school board committee, appointed Nov. 6 to investigate a teacher salary raise, reported that the wage boosts would be financed by an estimate (See CITY TEACHERS, Page 6)

#### Big Power Ministers Plan London Meet To Hear Small Nations on German Lot

NEW YORK (AP)—The big power foreign ministers council, following up a major concession by Soviet Foreign Minister Molotov, agreed last night that a commission of deputies should meet in London Jan. 14 to start hearing small nation views on a German peace settlement.

In their busiest session to date, the Big Four also decided these other important points in connection with the German and Austrian treaties:

1. Laid down a six-point agenda for the Moscow foreign ministers' meeting next March on the German settlement—including a

#### Chicago-Bound Special Scheduled for Dec. 20

A Chicago, Rock Island and Pacific special train to accommodate students going east for the holidays will leave Iowa City for Chicago at 3 p. m. Friday, Dec. 20.

Ticket Agent F. E. Meacham announced yesterday that the train will arrive in Chicago at 8 p. m., in time to make eastbound connections.

Eight coaches, a diner and two baggage cars will compose the student special.

Meacham said he was trying to arrange for a second eastbound special to leave Iowa City at 9:45 a. m. Saturday, Dec. 21, but he emphasized this was not yet scheduled.

#### Hope Fades For Action On Census

NEW YORK (AP)—Soviet Russia was reported authoritatively last night to have rejected completely an attempt to untangle by compromise the snarled world troop census and arms reduction questions.

This apparently ended hopes of United Nations delegations that some concrete action on disarming would be taken at this session of the assembly, now nearing final adjournment.

An informant who would not permit identification said that Andrei Y. Vishinsky, Russian Deputy Foreign Minister, told a secret meeting of a drafting committee on disarming that his delegation could not accept the compromise offered earlier yesterday by Paul-Henri Spaak of Belgium, president of the assembly.

Spaak apparently gave up his sustained efforts to reach a successful conclusion on the arms limitation question. He frankly told the disarmament sub-committee that his proposal had not been accepted.

Some sources have indicated that an Anglo-Russian "gentlemen's agreement," providing for an accounting of armaments, would smoke out United States atomic secrets "almost immediately."

However, it was noted that the McMahon act in the United States makes it illegal to divulge atomic secrets and that such a step undoubtedly would meet considerable opposition in congress unless effective safeguards were established.

The United States agreed yesterday to pay 39.89 percent of the \$23,000,000 United Nations administrative budget for 1947 but warned that thereafter the Americans could be counted on for no more than 33 and one-third percent.

The United Nations advanced a step closer to establishment of a trusteeship system for the 15 million inhabitants of areas formerly mandated by the old League of Nations with approval last night by a general assembly committee.

#### Azerbaijan to Admit Iranian Troops

TEHRAN (AP)—The pro-Soviet Azerbaijan regime at Tabriz suddenly abandoned its defiance of Premier Ahmed Qavam in the second day of Iran's "civil war" yesterday and announced it would allow central government troops to enter the province as a security force during the forthcoming national elections.

With four columns of government troops advancing into Azerbaijan, the Tabriz radio said Dr. Sallamallah Javid, the Communist governor-general of the province, had messaged the premier that the provincial council had agreed to receive the troops.

Qavam's orders to his troops to advance into Azerbaijan yesterday was reported by the rightist newspaper Atash to have brought a new protest from the Russian ambassador, who was said to have declared the military operation was "contrary to the agreement between Russia and Iran."

#### Rockefeller Jr. Offers U.N. Permanent Site

LAKE SUCCESS, N. Y. (AP)—John D. Rockefeller Jr., yesterday made a surprise gift-offer of a \$8,500,000 permanent home for the United Nations in mid-town New York, tossing the city back among the top contenders and causing a speedy change in committee plans. Sen. Warren R. Austin, U.S. delegate, presented the Rockefeller offer: a gift of an area bounded by First avenue and Franklin D. Roosevelt drive (the East River) between 42nd and 48th streets.

#### STUDENTS PARADE FOR SCHOOL STRIKE SETTLEMENT

CHANTING "WE WANT SCHOOL," 100 placard-bearing St. Paul, Minn., high school seniors marched on the city council yesterday to demand settlement of the 17-day-old strike of public school teachers who are asking a pay increase. The seniors said they faced the possibility of delayed graduation. (AP WIREPHOTO)

#### Schools Seek Fifty Percent Budget Boost

Also Want \$11-Million For Buildings; Predict 'Flood of Students'

DES MOINES (AP)—State-supported colleges want 50 percent more money with which to operate and more than \$11,000,000 additional for buildings.

These higher askings were included in budgets filed yesterday with Gov. Robert D. Blue and State Comptroller C. Fred Porter. The state officials will use the budgets in figuring recommendations for the forthcoming legislature which meets in January.

The governor and comptroller were told that present enrollments, high as they are, are certain to be topped in the 1947-48 school year.

There's a real flood of students ahead of us, in addition to those

President Virgil Hancher of the University of Iowa filed this series of requests for operating expenses: (request per year given first and increase over last budget second).

Request	Per Year	Increase
Salaries, support and maintenance	\$3,757,500	\$1,532,000
Repairs, replacements, etc.	296,000	104,000
University hospital	1,976,000	876,000
Psychopathic hospital (increased capacity)	206,000	144,000
Bacteriological laboratory	125,000	42,300

we have now," said President Charles E. Friley of Iowa State college.

The various presidents told the state officials that they are getting substantial sums of money in GI tuition, but such payments do not cover the real cost of instruction.

Among them, the University of Iowa, Iowa State and Iowa State Teachers requested a total of \$8,614,500 a year for salaries, support and maintenance.

Two years ago their combined appropriations totaled \$5,740,000.

**Higher Building Costs**  
In 1945 the legislature voted \$5,500,000 for new buildings at the three major institutions. But building costs have risen 75 percent since then, board of education members estimated. Thus the three institutions said they need \$4,383,775 to construct buildings authorized by the last session.

In addition, the university and the state college each requested an additional \$3,000,000 for new buildings and the teachers college requested \$1,387,750.

The university has about 9,800 students, the state college 9,280 and the teachers college 2,600.

**Higher Tuition?**  
"Have you gone into the possibility of having the students bear a larger proportion of costs through higher tuition?" The governor asked.

Hancher said the tuition at the university "is high now compared with Minnesota, Illinois and other states. I don't believe it would be advisable."

#### Plan Roosevelt Memorial

BUENOS AIRES (AP)—The Argentine chamber of deputies unanimously adopted yesterday a resolution authorizing the government to plan a memorial to the late Franklin D. Roosevelt.

#### Government Forces Quell Short-Lived Revolt in Venezuela

CARACAS, Venezuela, (By telephone to New York) (AP)—President Romulo Betancourt announced last night that his forces had put down a 12-hour revolt after the insurgents had held possession for a time of the large, Maracay airport, 50 miles west of Caracas, and had dropped a bomb which narrowly missed the presidential palace.

The insurgents apparently had intended to capture Betancourt and his cabinet and overthrow his year-old revolutionary regime.

Meeting with a group of visiting newsmen from the United States, the president smiled broadly and said that "all is O.K." now in Venezuela. The revolt ended without fatalities. Betancourt said the instigators either had been captured or had fled the country.

Many of the insurgents, seeing that their revolt had failed, took planes at the Maracay airport and attempted to fly out of the country, the president said.

Subsequently two pilots and 14 mechanics surrendered to authorities in the neighboring South American country of Colombia after making good their get-away in two planes. Maj. Carlos Maldonado Pena, described as one of the leaders of the revolt, was in one of these planes.

President Betancourt declared the revolt was led by followers of Gen. Isaías Medina Angarita, strong man of Venezuela who was overthrown by the revolutionary Junta in October, 1945.

#### U.S. Army Lifts Ban Against GI Marriages To German Frauleins

FRANKFURT, Germany (AP)—The U.S. army announced yesterday the lifting—with one reservation—of the ban against the marriages of American soldiers and German girls.

Col. George S. Eyster, who announced the removal by Gen. Joseph T. McNarney, European theater commander, said that the details of the removal still had to be worked out, but that as he interpreted it:

1. The cost of transporting German brides to the United States would be borne by the war department.

2. An American, while prohibited from marrying a German until just before he left for home, could announce his engagement at any time after the ban is lifted.

3. Every prospective GI bride would be investigated thoroughly for Nazi sympathies before marriage was authorized.

#### Soviet Trade Agreement

MOSCOW (AP)—A two-year Soviet-Norwegian trade agreement was signed yesterday, concluding three weeks' negotiations here.

#### CIO Adopts Nathan Report Urging 25 Percent Pay Hike

WASHINGTON (AP)—The CIO adopted yesterday, as basis for its new wage drive, a report contending industry can afford to raise wages up to 25 percent and still keep profits at near wartime peaks without boosting prices.

The report, prepared for the CIO by Robert R. Nathan, one-time key government economist, warned that the nation is "flirting with collapse" unless industry promptly increases wages or sharply cuts prices.

Nathan's findings immediately provoked vigorous dissents from industry sources. He argued profits have soared to record highs while prices have gone up and workers' earnings actually declined.

The former chairman of the war production board's planning committee and deputy war mobilizer contended the "unbalance" threatens a depression unless quickly corrected.

Disagreeing opinions came from the Machinery and Allied Products Institute and the Automobile Manufacturers' association. George Romney, general manager of the latter trade group, issued a statement calling the Nathan report "an economic fallacy."

#### SHOPPING DAYS LEFT

#### BULLETIN

##### 25 Fire Companies Rush To New York Blaze

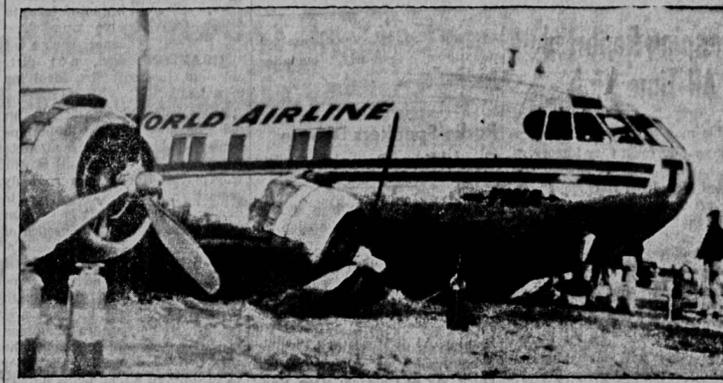

NEW YORK, Thursday (AP) Ambulances and all available New York City fire fighting equipment were rushed early today to the scene of a four alarm fire and explosion in an ice-house in upper Manhattan.

Fire headquarters reported the blast had caved in the wall of an adjoining tenement, "causing many injuries."

Fire headquarters reported at 1:55 a. m. that 25 fire companies had been rushed to the scene, and firemen had been put to work digging in the ruins of two fallen walls blown out by the explosion.

Fire officials said the explosion occurred soon after the outbreak of the fire, blowing out both the walls of the ice-house and the adjoining tenement. Fire officials said they believed many persons were buried under the debris of the fallen walls.

#### BELLY-LANDING ENDS TENSE THREE HOURS

A TWA BOEING STRATOLINER rests on its belly after gliding to a landing on a grass strip paralleling a runway at LaGuardia field in New York yesterday. None of the 12 persons aboard was injured. The landing ended three tense hours for them and emergency crews waiting on the field. The big plane gear had locked in a partially retracted position on the takeoff from Pittsburgh. (AP WIREPHOTO)

#### Death on the Highway

ONE DEAD IN THIS CRASH—The body of Charles E. Latta of Elmwood Park, Ill., may be seen through the windshield of this wrecked car in which he met death yesterday morning near Grandview, Iowa. (AP WIREPHOTO)

SEVEN DIED HERE—The body of an unidentified occupant of an automobile which collided with a bus near Corinth, Miss., is shown hanging from the smashed car. Six teen-age occupants of the car were killed immediately and another died later. (AP WIREPHOTO)

THE WORLD WATCH—

Soviets Play Yes and No Game

By STEVE PARK Daily Iowan Columnist

Of all the vital questions, which man must ponder in this post-war II atomic era, none will have greater impact upon the future of his inter-relations, his attitudes and his psychological complexion than the outcome of the disarmament question which is now being debated before the United Nations.

PARK

In retrospect, we must be aware that nearly all of the explosive fears and suspicions, which have contaminated the international atmosphere since V-J Day can be traced directly to the unsolved world problem of arms and armies and to the constantly reiterated "arm for peace" philosophy which has led the Powers to maintain huge armies, navies and "defense" budgets.

their own borders and the frequent appearance of Western naval units in disputed areas. The tensions, created by this situation combined with the belligerent attitude that each nation adopts, when it feels its interests are challenged, have grown so acute at times that the very foundations of the United Nations shudder. A continuation of these tensions will inevitably destroy that organization as a force for the maintenance of peace.

The realization of this dangerous state of affairs has made it evident that disarmament would sooner or later have to take the foremost place upon the United Nations agenda. That it has now is due to the enlargements made upon a Soviet demand for a count of Allied troops in non-enemy countries.

disarming unilaterally," enlarged the Russian request to include all troops (both at home and abroad) and demanded inspection safeguards. The question of inspection, which had been aired previously in regard to the atomic armaments question, was at first vigorously opposed by the Soviet delegation. However, Molotov later announced that Russia would withdraw its opposition if the United States would include outlawing of atomic armaments in the agreement.

However, Molotov still demanded that the Security Council (with its veto) should have final jurisdiction in all disputes. Thus the veto would be effective in cases concerning the atom bomb. In effect the Molotov plan would have shelved the American (Baruch) plan for international control of atomic energy and left atomic energy an uncontrolled force in international politics.

Thus Moscow seeks to generate a pro-Soviet attitude among the nations of the world and simultaneously retain its unhampered right to proceed upon whatever course it considers proper or expedient, regardless of the rights of other nations.

To adopt a righteous attitude before the councils of the world and to seemingly favor the rights of all people, while actually giving no ground, is an easy method of satisfying both conditions. Apparently, this has been the object of the confusing Russian activity of the past weeks.

It Happened in Chicago

Chicago looked a little like the deep south the other day. Two Negro veterans who were good enough to fight for democracy—even a democracy they cannot fully enjoy—were mobbed when they tried to move into government housing units which were lawfully assigned to them.

The mob upset automobiles, threw stones and did its worst with threat and violence, to convince the two colored families that it would be "unhealthy" for them to live in their new homes. Hitler's secret police couldn't have put on a better demonstration.

The two families were turned away and it will take courage for them to insist upon their rights after such a display of hostility. Chicago's mayor, however, has promised that they will be protected. If he lives up to his pledge, all the police power of the city and state will be used to protect the rights of Negro Americans in Chicago.

Prejudice is bad enough by itself, but when it flares up in the form of mob discrimination and intimidation, then it must be vigorously squelched by the forces of law and decency. We must work to enlighten the unenlightened and thereby eliminate intolerance, but those who force their prejudices through violence must be answered in the single language that the mob understands—superior physical force and certain punishment.

Law Without Justice

The United States supreme court may soon be called on to decide whether landlords can legally prevent children from living in their properties. This question which is so personally vital to thousands of Americans today was decided in favor of the landlords by the Ohio supreme court last week.

The attorney for the Courts stated that he would go to Washington and file an appeal with the United States supreme court. On the surface, it appears that the high court would have to uphold the Ohio decision.

A Hard Way to Learn a Lesson

A careless smoker "dazed by liquor" has been pointed out by the Atlanta, Ga., fire marshal as the most likely cause of the Wineoff hotel fire which caused the death of 120 persons. The marshal added, however, that the definite origin of the blaze will probably never be known.

Shopping Reported At All-Time High

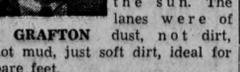

This may be the greatest shopping year in Iowa City history. A holiday shopping survey conducted by Robert L. Gage, Chamber of Commerce secretary, reveals that last month's shopping set an all-time high for November.

I'D RATHER BE RIGHT

There's No Rest Under the Sun

PUEBLO, Mex.—The driver of the car was aghast at the suggestion that we stop at the Indian village of Huejotzingo. "It is completely out," he said. He meant it was not chic. Then he argued that it would be a tactical mistake to loiter at Huejotzingo, playing upon the tourists' terrible fear of spending his time seeing the wrong things. I persuaded him, and we walked through the village. It was a stroll among pastel blocks, turning blind faces to the sun. The lanes were of adobe, not mud, just soft dirt, ideal for bare feet.

GRAFTON

The whole village was like an old shoe, and then that thing happened which happens so often to Americans in small, out of the way places; Huejotzingo suddenly seemed a wonderful village to live in, to retire to. It is the sun which does it, and the absence of street noises, but mostly the sun. It is difficult, I think, for most Americans to associate continuous year-round sunshine with hardship, or even perhaps work, for our mental images of human need are those of the cold, the dark and the damp. It is hard for us to think of a man being hungry in bright sunshine, and so the sun which pours down on Huejotzingo and seems to reveal it in very detail, really hides it.

For at the lane's turning, there was a slapping sound from an old, wood-burning steam engine; it came from a corn-grinding establishment, to which half a dozen Indian women had brought their measures of corn, to be reduced to meal. The measures were small (so were the women) and one remembered that this is the country in which the diet is, too often, beans and corn, with hot chili peppers added to keep the stomach busy, at least on the sensational level.

One remembered, too, the proprietor of a children's clothing shop, who said, for American children, take a size or two bigger, these sizes are marked for Mexican children, who are small.

had a kind of monopoly here in the field of foreign education until about four years ago, and how Roosevelt used to be hissed in the local cinema right up to the time Mexico proclaimed a state of war. Now, with state department help, more than two hundred Mexican children are being taught in the Colegio Americano.

But Puebla smiles in the bright daylight and there is nothing in the rhythm of this shining little colonial city (any more than there was on the plain behind) to tell of the struggle. And in one of Puebla's streets there stands, basking in the sun, a pottery and tile-makers establishment. Within, there is sudden dark, where the potters work, squatting. Each man kicks with a kind of dreadfully unceasing energy, at the footboard which makes his wheel turn. On the way out, one passes a little old woman, who makes, by sense of touch, the small tripods on which pottery is mounted for display. She was an expert potter until she became blind at her work. As one looks back, on the quiet, narrow street outside, one sees only the pastel-colored walls, and the furious sunlight, playing with the pretty tiles. It is very quaint.

Yells, Songs for Team Tailfeathers, university pep club, will sponsor a warm-up rally immediately before the game in the fieldhouse tonight. The cheerleaders will lead the audience in yells and the university band will play.

More Suggestions For War Memorial

May I add my vote of approval to Mr. William Carstens' plan for a memorial to Johnson county war dead. In his letter, printed in The Iowan, Mr. Carstens says, "I propose that the money be used to benefit the dependents of dead veterans. Why not a scholarship fund for Johnson county gold star kids?"

TO THE DAILY IOWAN:

I have been intensely interested in the recent controversy over whether or not to build a fine big memorial to the war dead of World War II.

That in turn brings up a second question: How much memorializing do we want for our money?

We could build a fine mortuary stone on some prominent corner, or at the county courthouse, inscribe all the names, and put a fine statue on the top, and it would look fine. But in ten years the birds and the weather has completely disfigured and discolored it, and the passing time-year-old boy of that age will probably toss a stone at it. The older people will say that is for Uncle Bill or Uncle Jake, but I don't remember him. It will remain dear as long as the present generation is alive, but it will be dead as soon as they are, and we will have a dead memorial. We are therefore getting 10 to 30 years of memorializing at most for our money.

It seems to me that if the same amount of money were put into some useful project that is used by all the people, that the boys would much rather be remembered that way, and it will live for untold generations. I remember when I was a kid that one of my fellow boy scouts died, and instead of his parents spending a fortune for a black angel to stand in the graveyard where no one looks, they built onto, and added to the Boy Scout Camp where he was used to spending his summers. The camp is still going, and every summer thousands of boys read his name

Religious Split In Marriage 'Disruptive'

A recommendation that a couple of different religious faiths should not marry was made yesterday in a Major in Marriage lecture on religion in courtship and marriage.

TO WED JAN. 25

Cupid's Proxy Tie Faces Law Challenge In SUI 'Court'

"Judy Brown" and "Frank Brocke" were married by proxy while Frank was overseas in 1945.

Judy filed for divorce and asked support from Brocke, but a lower court decreed that they were never really married.

That's the hypothetical case to be argued by four junior law students tonight before Judge George B. Richter of Waukon.

Lee Burton Blum of Hampton and Elmer E. Bloom of Muscatine are representing Judy in an appeal to the "Supreme Court of the State University of Iowa," with Judge Taylor presiding.

Two D.A.R. Groups Schedule Meetings Tomorrow, Saturday

At tomorrow's meeting of Nathaniel Fellows chapter of the Daughters of the American Revolution, the theme will be "Yarns of Our Ancestors."

The group will also sing Christmas songs. Assistant hostesses are Salome Foote, Mrs. Ella Letts McCrary and Mrs. Georgia Scott Schmidt.

Pilgrim chapter, D.A.R., will meet Saturday afternoon at the home of Mrs. James Lons, 521 N. Dubuque street.

Mrs. Scott Reger will tell the story of "The Littlest Angel," by Charles Tazewell.

SUI Artists Gain National Attention

"Saint Anthony", a print by Malcolm Meyers, instructor in prints and drawing at the university art department, was chosen last month by the Society of American Etchers as one of the 100 Best Prints of the Year.

It will be part of a collection to be circulated throughout the country by the Grand Central Galleries of New York City.

James Steg, A3 of Churchville, N.Y., received second prize last month at the Friends of American Art gallery exhibition in Grand Rapids, Mich.

"Two Forms in Space," a mixed media print by Thomas Lias, G of Dayton, Pa., received an honorable mention at the showing.

Steg won first prize at the recent Arizona state fair in Phoenix for his oil painting "The French Girl."

'MARRIED MIXER' TONIGHT The second of a series of "Married Mixers" will be held tonight at Iowa Union River room for married students and their wives.

SUI Petitions State For Hospital Grant As Prices Increase

University of Iowa officials yesterday asked the state legislative interim committee for a grant of \$294,526.60 in addition to the present budget as operating expenses for University hospital until July 30.

Increased prices present a need for \$203,306.10, university representatives said. They asked \$52,882 to meet a 7 1/2 percent salary increase expected to become effective Jan. 1, and \$38,338.50 for general operating expenses.

The committee, which acts for the legislature between sessions, said no immediate decisions would be made on the requests.

The state board of education also asked the committee for approval of an \$80,000 expenditure for services related to a new power plant at the university.

Funds were appropriated by the last legislature.

Eta Sigma Phi Party Eta Sigma Phi, classical language honorary fraternity, will have its annual Christmas party at the home of Prof. and Mrs. Gerald F. Else, 103 Grove street, tonight at 7:30.

Traditional singing Christmas carols in Latin will be featured during the program.

Mable Reminds Contest Playwrights Of Jan. 7 Deadline

Less than a month remains for university students, Iowa residents or university alumni to submit entries for the playwriting contest sponsored by the university theater for the centennial celebration in February.

All entries must be in by Jan. 7. Prof. E. C. Mable, director of the theater, said.

Plays should be based on either the inspiration, philosophy, personalities or events involved in the establishment of education in Iowa, particularly at the state university.

In addition to a prize of \$200, the winning play will be presented at the university theater from Feb. 17 to 25 in conjunction with the centennial observance.

The play must be adaptable to practical and economical production, with reasonable demands as to settings, costumes and number of characters.

Entrants must file two typewritten copies of the play with Professor Mable.

Engineering Texts to Be Translated Into French

Two textbooks by members of the electrical engineering department faculty are to be translated into French.

The texts are "Electrical Engineering Fundamentals", co-authored by Prof. E. B. Kurtz, and "Communication Circuits", of which Prof. L. A. Ware is co-author.

Other co-authors are Prof. G. F. Cocoran, now chairman of the electrical engineering department at the University of Maryland, and Prof. H. R. Reed, chief engineer of Stromberg-Carlson Co., Rochester, N.Y.

Selected by the French publishers committee as outstanding in their field, the books were published by John Wiley and Sons, N.Y.

Lumber production figures for 1946 show an increase for the first time since 1942.

Among Iowa Citizens

Mrs. R. Kenneth Jones and son, Michael, returned to Chicago yesterday after a two weeks stay at the home of Mrs. Jones' parents, Mr. and Mrs. R. J. Jones, 107 Grove street.

Mr. and Mrs. William Gower, 19 Evans street, will leave Dec. 21 to spend the holidays with Mr. and Mrs. William Gower Jr. in Denver, Col.

Margaret Green, Zeta Tau Alpha, A4 of Louisiana, Mo., will visit her parents, Mr. and Mrs. W. H. Green, this weekend.

Mr. and Mrs. Bruce Gatten of Chico, Calif., will arrive Dec. 23 to spend the Christmas holidays with their respective parents, Mr. and Mrs. M. E. Gatten, 641 S. Dodge street, and Mr. and Mrs. Fred Fry, 506 Brookland Park drive.

Prof. and Mrs. Gerald Else will entertain members of Eta Sigma Phi, honorary classical fraternity, at a Christmas party tonight in their home at 103 Grove street. About 25 guests are expected.

Mrs. J. M. Kadlec, 830 E. Ronalds street, returned to Iowa City Tuesday night from Haskins where she visited her daughter, Mrs. David McCartney.

New Microfilm Reader Added to Library Annex

A Recordak library film reader, the latest model of a machine for reading microfilm, has been added to the University of Iowa's library equipment.

Grace Wormer, assistant library director, said the film reader is especially useful for reading newspaper film. Located in the periodical department at the library annex, the reader is available for use with 600 rolls of newspaper films and 65 rolls of periodical films.

Sigma Chi's to Dance To Meardon's Music

Bill Meardon and his orchestra will play for the dinner dance presented by Sigma Chi fraternity in the River room of Iowa Union tomorrow night.

Pins bought will decorate the table for the candlelight dinner at 7:15. Chaperones are James McRath, Mr. and Mrs. John Balles and Mrs. Myra Lyons.

In charge of the dance are Jack Mangelsdorf, C3 of Rock Island, committee chairman; George Clausen, A3 of Clinton, and Glenn Cary, A3 of Burlington.

Pi Kappa Alpha Elects Pledge Class Officers

Robert Arms, A1 of Peoria, Ill., has been elected president of the Pi Kappa Alpha pledge class. Other pledge officers are Don McConnell, A3 of Big Stone, S. D., vice-president, and Richard Miller, P1 of Durant, pledge secretary.

Iowans to Get Bargain On Centennial Coin

Iowans will pay 50 cents less for the centennial half dollar than out-of-state purchasers, the Iowa centennial committee reported yesterday.

The coin, which Iowans may purchase Dec. 18-23 by written application at local banks, will cost state residents \$2.50 each. Out-of-state applications for the coin must be made through the treasurer of state, and 50 cents will be added to the price for postage and handling.

# Hawkeyes Face Strong Detroit Tonight

## Iowa Expects Tough Battle From Titans

University of Iowa basketball fans should get a chance to see their Hawkeyes go at top speed tonight when the potent Detroit Quintet invades the fieldhouse for what is expected to be a first-rate test of the Iowa team.

Coach Harrison has been drilling his charges hard all week in an effort to remove the minor deficiencies that appeared in the Hawks' opening wins. The Hawk mentor expects the Detroit club to present a serious challenge to Iowa's 22-game home winning streak over non-conference opponents.

The Titans bring to Iowa an experienced squad long on high-scoring players with better than usual height. The average of the Detroit team is six foot, two inches as compared with the six foot, two and four fifths inch Iowa team.

Indications are that the game will center around the battle between the two giant centers with Noble Jorgensen pitting his six foot, nine inches height against Detroit's Lee Knorek who checks in at six foot, seven inches. Jorgensen is the leading Iowa scorer for the two games that have been played with 31 points.

Knorek comes highly recommended having made 243 points for the Titans in the 1942-43 season. He is supported by Sam Fortino, a smooth-working forward, who scored 454 points for Michigan State where he played the last two seasons.

Coach Harrison probably will start the same veteran combination which has led Iowa to its initial victories with Jack Spencer and Herb Wilkinson, guards; Noble Jorgensen, center, and Dick Ives and Murray Wier, forwards.

The Iowa team hopes to maintain their strong offensive record of making close to 30 percent of their shots with Murray Wier and Noble Jorgensen leading the attack. In addition the Iowa defense will try to continue its record of holding opponents to 36.5 points a game.

Probable Lineups:  
Iowa: Wier, Ives, Jorgensen, Spencer, H. Wilkinson  
Detroit: Fortino, Bartz, Knorek, Kernen, Burns  
Time and place: Tonight, 8 p. m., Iowa fieldhouse  
Tickets: General Admission only, on sale at door  
Broadcast: WSUI

LEE KNOREK, center who is 6 feet 7 inches tall, will be one of the leaders of the Detroit attack against the Hawks this evening. Knorek scored 243 points for the Titans in the 1942-43 season before entering service.

## Capitol Mourns Johnson

### Nation's Great, Small Pay Tribute to Pitcher Who Rewrote Record Books

WASHINGTON (AP)—President Truman joined millions of other sports fans in paying tribute to Walter Johnson, possibly the greatest baseball pitcher who ever lived.

Johnson, desperately ill with a brain tumor since April, died late Tuesday night in a local hospital. He was 59.

Mr. Truman said he was "greatly grieved" to hear of Johnson's death. He added that the former star pitcher of the Washington Senators had been one of his heroes.

Around Washington yesterday, wherever fans gathered, the talk was of Johnson.

People who never had seen him pitch explained exactly how he did it.

People who never had heard him talk were busy quoting him.

This town has seen the greats of all nations come and go, but Walter Johnson, who knew how

# Ramblers Victors, 43-28

## Flannery Hits For 14 Points

By DON MALONEY Staff Sports Writer  
St. Mary's Ramblers unleashed their fast break for four quarters last night as they racked up their fourth win of the season in an impressive victory, 43-28, over the fighting Greyhounds from the parlor-city Immaculate Conception high.

Paul Flannery paced the Iowa City quintet from a back court spot with six field goals and two gift shots for 14 points while Jim Stramel, one handed shot specialist for the Cedar Rapids squad, was high scorer of the evening with 15 points.

Evidently the weeks layoff was just what the doctor ordered for the Iowa City five, because their passing, rebounding and team play showed great improvement—it was the best performance of the Ramblers to date.

Homer Boyd caught the Greyhound defense napping in the opening minutes of the game, and racked up two points for the Ramblers, but Jim Stramel put the visitors' back in the ball game three minutes later with one of his one handed push shots, 2-2.

Buzz Mottet swished one from the corner and racked up a free throw for Iowa City, while Stramel hit once for the Grey-

hounds. Boyd scored again on his twirl shot under the basket and Flannery hit a free throw putting St. Mary's out in front at the quarter, 8-4.

The parlor city five had trouble with their passing and shooting in the second quarter, and the Ramblers stayed out in front at halftime, 20-10.

In the third quarter the Iowa City man for man defense was still clicking and the visitors were having trouble nailing the basket. The Ramblers enjoyed a 30-18 lead at the quarter. The fourth quarter was a different story.

Mottet and Boyd each notched one, but Flannery and Stramel exchanged shots. Stramel hit three straight one handers for the visitors, making it 38-26, but time ran out too fast and the rally fell short, leaving the final reading of 43 to 28.

## Auburn Ace Leads Nations Gridders

NEW YORK (AP)—Nationwide exploitation of the T-formation and the development of so-called kicking specialists have left college football with few triple-threat men, but there still is at least one player who stands out among both the passers and the ball carriers.

He is Travis Tidwell, the Auburn freshman, who led all the backfield men in the nation during the 1946 season in combined yardage gained both by forward passing and running with the ball.

Statistics announced yesterday by the National Collegiate Athletic bureau show that in winning the individual offensive championship, Tidwell completed more passes than any other player, finished seventh among the ball carriers in total yardage and was by far the No. 1 workhorse of the gridiron.

The ten leaders in each department:

TOTAL OFFENSE—Tidwell, Auburn, 1,715 yards in 320 plays; Layne, Texas, 1,453 in 221; Gilmer, Alabama, 1,427 in 230; Trippi, Georgia, 1,368 in 185; Chapman, Michigan, 1,265 in 180; Mobley, Hardin-Simmons, 1,262 in 225; Wedemeyer, St. Mary's, 1,233 in 204; Justice, North Carolina, 1,219 in 181; MacKrides, Nevada, 1,194 in 142; Roberts, Chattanooga, 1,122 in 188.

RUSHING—Mobley, Hardin-Simmons, 1,262 yards in 227 rushes; Roberts, Chattanooga, 1,113 in 167; Justice, North Carolina, 942 in 131; Golding, Oklahoma, 902 in 126; Jackson, Yale, 806 in 134; Stephens, Cincinnati, 774 in 101; Tidwell, Auburn, 772 in 181; Trippi, Georgia, 744 in 115; Hodges, Wichita, 735 in 152; Davis, Army, 712 in 152.

FORWARD PASSING—(Ranked on total completions)—Tidwell, Auburn, 29 completions in 153 attempts for 943 yards; Layne, Texas, 27 in 140 for 1,118; Raymond, Indiana, 25 in 138 for 958; Gilmer, Alabama, 24 in 160 for 950; Thompson, W.M.I., 23 in 126 for 832; Conroy, Mississippi, 24 in 124 for 841; Clark, Texas Mines, 21 in 107 for 691; LeForce, Tulane, 21 in 122 for 607; DeLoach, Purdue, 20 in 122 for 614; Working, Washington and Lee, 20 in 108 for 741; MacKrides, Nevada, 20 in 115 for 1,254.

## Hawlets Face Atlantic In Clinic Game Dec. 27

Atlantic high calibers will furnish the opposition for the Iowa City high quintet at the Iowa High School Athletic association coaching clinic Dec. 27, at the Dowling high gym in Des Moines.

In the afternoon before the game, Coach Gil Wilson of the defending state champions will speak to the group on offense against a zone defense. The Little Hawks will demonstrate the attack.

And standing out like a beacon was the same Walter Johnson, which typified everything that was great in the realm of baseball pitching. Mathewson approached him in greatness, in our boyhood mind, but for sheer speed and power the "Big Train" was peerless.

We got most of this information on Johnson from Al Schacht, the clown who is not being funny when he talks about the man with whom he romped for seven years, and whom he still speaks of with an undertone of personal hero-worship.

From the day back in 1907 when he eased his big frame timidly into Clark Griffith's office in Washington, looking more like a vaudeville version of a country hick than a great ball player, until he pitched one last inning, in Newark, 21 years later, his career was a saga of fabulous deeds.

Schacht will tell you of the bright day when Umpire Billy Evans called a game because of darkness in the sixth inning because Johnson's fast ball—the only pitch he had—kept going through Catcher Rip Williams and rapping him on the shins.

Or the time when Ray Chapman, seeing only a blur as two strikes and a ball whizzed by, turned and headed for the bench, calling back over his shoulder, "You can have the third one."

Or how the "Big Train," on one of the few days when his control was a little haywire, spun Jimmy Dyke's cap around, then hit Joe Dugan, and for the rest of the game had the batters virtually taking their cuts from the dugout.

Or how the opposing player would watch the big fellow warm up, and if they saw he had it would comment apprehensively, "Johnson's pst-pst today," meaning unbelievably fast, the comment being the signal for more than one player to suddenly develop a stomach ache or fallen arches or something so he might be excused for the day.

Once in a while his even temper would become ruffled, and those close enough to him would hear what to the "Big Train" was violent profanity. "Goodness, gracious, sakes alive," he would splutter. "Where was that ball?"

And here's the answer to another question. Iowa will use scouts to some extent in getting a line on conference basketball opponents. The boys who will be watching those games as a matter of business will be Tom Lind, former Hawk cage star, and Maury Kent, who also scouted for the Iowa football team.

Undoubtedly you've noticed and probably approved the almost unanimous selection of the Illinois guard, Alex Agase, on all-American football teams. The story of his rise to fame is one of inspiration to a lot of little guys all over the nation. When Alex first reported out for football to Coach Ray Elliot he weighed just 158 pounds. As a recommendation, he had won only one letter in high school. Which wasn't much to indicate that he'd develop into a great lineman any way you look at it. But the negative qualities were more than off-balanced by his dual attributes of head and heart. The spirit was there and when the necessary 30 pounds weight came along, Agase knew just what to do with it. Three times an all-American is about all a coach could ask for.

And here is one for the books even in this crazy sporting era. During and after the Kansas State game the visiting coach, Bruce Gardner, complained that the Hawkeye floor was illegal. He claimed that it was more the stage fright that made his boys shoot free throws like they hadn't learned of the art before that night. And, as a matter of curiosity, the floor was checked early this week and the claim was found to be valid. The baskets were 17 feet from the free throw line instead of the 15 feet prescribed in the rule book. What caused this error wasn't sabotage or crooked intent but an honest mistake on the part of the workmen who this fall resurfaced and repainted the Iowa floor. Undoubtedly when they replaced the basket they measured from the front of the hoop instead of the backboard. In any case the

## Martin Talks Of 'Big Train'

By WHITNEY MARTIN  
NEW YORK (AP)—We've probably written this before, but it seems only natural to write one last time of a great sports figure who no longer is with us, particularly with that figure ranked so high among boyhood idols.

We never saw Walter Johnson pitch. We saw him throw a few baseballs for Babe Ruth to hit in the stands during an exhibition at Yankee stadium a few years ago, but that wasn't Walter Johnson pitching. It was only a faint echo of the roar of the famed "Big Train."

Our circle of heroes in those days—early in the century was selected—Christy Mathewson, Frank Chance, Barney Oldfield, Walter Eckersall, Jim Jeffries and a few others whose names filled us with awe, although our only contact with them was through the printed word. We never saw any of them.

And standing out like a beacon was the same Walter Johnson, which typified everything that was great in the realm of baseball pitching. Mathewson approached him in greatness, in our boyhood mind, but for sheer speed and power the "Big Train" was peerless.

We got most of this information on Johnson from Al Schacht, the clown who is not being funny when he talks about the man with whom he romped for seven years, and whom he still speaks of with an undertone of personal hero-worship.

From the day back in 1907 when he eased his big frame timidly into Clark Griffith's office in Washington, looking more like a vaudeville version of a country hick than a great ball player, until he pitched one last inning, in Newark, 21 years later, his career was a saga of fabulous deeds.

# Sports Shots

By Bob Collins

Nope, folks, it isn't that the University doesn't have enough money to buy decent warm-up suits for the basketball team. The sweat apparel has been on order since gosh knows when and delivery is expected any day now. Publicity chief Eric Wilson tells me that the new suits will be about the same appearance as the old, familiar outfits with black trimming on gold suits. Better material this time, though—Nylon, no less. The reason why the old ones can't be used is that they were given to the baseball team last spring and Coach Vogel's boys finished the job of wearing them out. The new game suits are here and ready for use, probably starting tonight. The difficulty is getting the clothing extended to the letter sweater awards also. The sweaters awarded last spring are promised for delivery within the next three months.

Iowa isn't the only school having sporting wardrobe troubles. Eric has been having fits trying to acquire the numbers of the Detroit squad in time to put them on the game program for tonight. Not because of lack of cooperation but, rather, because they hadn't received their game jerseys which were on order. Monday, however, the jerseys arrived and Eric got his information for the programs which make everybody happy.

And here's the answer to another question. Iowa will use scouts to some extent in getting a line on conference basketball opponents. The boys who will be watching those games as a matter of business will be Tom Lind, former Hawk cage star, and Maury Kent, who also scouted for the Iowa football team.

The baskets were 17 feet from the free throw line instead of the 15 feet prescribed in the rule book. What caused this error wasn't sabotage or crooked intent but an honest mistake on the part of the workmen who this fall resurfaced and repainted the Iowa floor. Undoubtedly when they replaced the basket they measured from the front of the hoop instead of the backboard. In any case the

And here is one for the books even in this crazy sporting era. During and after the Kansas State game the visiting coach, Bruce Gardner, complained that the Hawkeye floor was illegal. He claimed that it was more the stage fright that made his boys shoot free throws like they hadn't learned of the art before that night. And, as a matter of curiosity, the floor was checked early this week and the claim was found to be valid. The baskets were 17 feet from the free throw line instead of the 15 feet prescribed in the rule book. # Evans Orders City Banks To Release Gas Tax Fund

Judge Harold D. Evans ordered two Iowa City banks yesterday to release more than \$6,000,000 in state gas tax funds to State Treasurer John M. Grimes.

Judge Evans originally ordered the money impounded in the banks beginning July 4, 1945, when L.V. Carlton, Iowa City real estate dealer, challenged the constitutionality of the amendment to add a fourth cent to Iowa's gas tax.

**Immediate Jurisdiction**  
The order yesterday granted Grimes immediate jurisdiction of the trust fund but prohibits him from writing checks on the money for 15 days to give the banks time to organize their accounts for distribution.

Judge Evans said yesterday it is now possible for Carlton's attorneys to ask for a stay order on the court's release order. If granted, the order would keep the money impounded until a supreme court appeal could be made.

Speaking for Carlton's attorneys, D.C. Nolan said last night that Carlton "would appeal Judge Evans' decision to the Iowa supreme court within the next few days." That decision made Friday granted Grimes' application for release of the impounded money.

When the Iowa supreme court in July confirmed a Johnson county district court ruling that the fourth cent amendment was constitutional, Grimes made application to Judge Evans for release of the impounded money.

**Charges Unconstitutionality**  
Carlton filed objection to the release on grounds that distribution to cities on population basis and counties on area basis was unconstitutional.

Stanley W. Plank, who also filed objection to release of the money, challenged both the three-cent Iowa gas tax law and one-cent amendment.

Judge Evans dismissed both objections when he granted the Grimes application.

He also denied Plank's request that the court appoint a temporary receiver for the funds or issue an injunction restraining the banks from distributing the money if Grimes' application were granted.

# Soviet Will Okay World State—Park

Russia is showing indications that she may eventually approve of some form of world government, Steve Park, G of Iowa City, told members of the Student Federalists last night.

In a meeting held in the Methodist Student center, Park led an informal discussion centered around the proposition that some form of federal world government is essential if world peace is to be maintained.

"Unless some method of limiting armaments and providing some basis for world government is agreed on within the next five years," Park said, "the prospects of having a long period of peace seem dim."

The constitution of Iowa chapter of the Student Federalists has been submitted for approval to the office of student affairs, co-chairman David Stanley, A1 of Muscatine, reported last night.

# Philippines Out \$200,000

MANILA (AP)—A \$200,000 shortage in the account of the Philippines' government in exile while in Washington has been found by government auditors, the Times said yesterday. The audit blamed a former employe in the entourage of the late President Quezon.

# City Touches Switch, 1,063 Lights Glow

Iowa City's Christmas lights were turned on in the downtown section last night for the first time this season.

Large-size Christmas trees were imported from northern Wisconsin for this year's display by Robert L. Gage, Chamber of Commerce secretary. He said there are 1,063 assorted colored bulbs strung over streets in the downtown district.

Approximately \$1,350 was expended for decorations this year, nearly three times the amount spent in recent years. Expenditures for decorations were made from the Chamber of Commerce budget to which businessmen and merchants subscribed.

The display will remain until Jan. 1, Gage said.

# CITY TEACHERS

(Continued From Page 1)

ated \$20,000 savings in the school budget.

Ae report, submitted by Caldwell and Mrs. Howard L. Beye, board and special committee member, stated that the following items in the budget will not be used and paid for during this fiscal year:

- 1. Teachers salaries ..... \$ 5,453
- 2. Lights and bleachers.....\$10,000
- 3. Ground improvements.....\$ 4,000
- 4. Locks for Junior high school.....\$ 600

The school board announced the salary increase of \$175 will be payable in 10 installments, beginning as of Nov. 3, and that two of these installments will be paid before Jan. 1, 1947.

"Our board committee has given generous audience to the teacher pay question, has heard the views of both the public and teachers, and is following the only course open to us," Caldwell said.

Janitor salaries were raised on a recommendation stating that school maintenance men face the same increased cost of living problems as school teachers.

Iver A. Opstad, superintendent of schools, said the average salary of Iowa City school janitors before the pay raise was \$2,075, paid on a 12-month basis.

A letter from Fire Chief J. J. Clark which described the condition of a basement room under the auditorium in City high school as hazardous was read by Verne R. Miller, superintendent of grounds and buildings.

The board recommended that immediate action be taken to clean the room and that provisions be made to keep children away from lighting equipment and out of the auditorium when not supervised by a teacher.

A request that city lots in the fifth ward, Kirkwood Place addition, be made exempt from school taxes also was approved by the board.

The appointment of Ellen Westergaard Jackson as physical education instructor for six months of the remaining school year was approved.

# Czech Society Plans Sunday Election, Party

Election of officers will take place at the regular monthly meeting of the Czechoslovakian Society of America at 2 p. m. Sunday in the CSA hall.

Following the business meeting, a Christmas party for members and friends is scheduled. Mrs. Milo Novy, Mrs. John Ludwig and Mrs. Frank Novoty are in charge of decorations and food.

# Wilkinson Outlines OPA Requirements For Rent Increases

There is no foundation for the beliefs of some landlords that OPA will not grant rent increases, asserted T. J. Wilkinson, Johnson county rental area director in a statement yesterday.

"Contrary to what some landlords have claimed," he said, "OPA will grant a rent increase if the landlord can show grounds for the proposed increase under the law."

Wilkinson said that out of 15 million housing units in the United States, more than 700,000 have been granted increases. In all cases, however, landlords were required to petition their area rent office showing grounds for the requested increase.

"It is a violation of the federal law," he continued, "for a landlord in Johnson county, for instance, to increase a tenant's rent without first obtaining a written order from OPA permitting the increases."

The area rent control director listed the following grounds on which a landlord may petition for an increase in the rental rates:

- (1) Substantial alterations to the housing unit by a major capital improvement. (Major capital improvements for which a rent increase may be sought include such structural additions as a room; installation of plumbing, heating or electricity which the unit formerly lacked; improvements such as modernization of a bathroom or kitchen, and general reconstruction and reconditioning that would place the unit in a higher rental range.)
- (2) Substantial increases in services or furnishings.
- (3) If rents were substantially lower than comparable rents in the area on the maximum rent date (Jan. 1, 1944) because they were then based on special or personal relationships between the tenant and landlord.
- (4) If the rental unit was temporarily exempt from real estate taxes on the maximum rent date and the landlord passed along the benefit of the exemption in the form of lower rents.
- (5) If a lease in force on the maximum rent date began more than a year before that and provided rents substantially lower than comparable rents in the area on the maximum rent date.
- (6) If the rent on the maximum rent date was below comparable rents in the area due to a particular circumstance.
- (7) If rent on the housing unit is below comparable rents in the area and an unavoidable increase in property taxes and operating costs has cut the landlord's net income so that the present rent becomes a substantial hardship.

# Local AYD Members to Circulate Petition Asking for \$100 Monthly GI Subsistence

A petition seeking \$100 a month subsistence pay for students under the GI bill was readied last night for immediate circulation on campus by members of Wallace chapter of American Youth for Democracy.

Formulated at the Intercollegiate AYD convention in Chicago Nov. 28-30, the petition will be circulated by AYD chapters throughout the nation, according to Bernard Yadoff, A1 of New York City.

Yadoff, delegate to the convention for Wallace chapter, said that AYD hopes to have 100,000 signers to the petition and to present it at the beginning of the 80th congress. A lobby will probably be formed in Washington for the plan, he said.

Other resolutions adopted by the intercollegiate convention and approved by the local chapter are:

- 1. Support of the Murray-Morse-Pepper bill (S2499) which will ask the 80th congress to set up a national education policy and a 10-year program of federal assistance to states for education systems.
- 2. Need for an "educational bill of rights" to guarantee government financial support to education of higher learning, to remove entrance barriers based on sex, religion and national origin and to allow greater student participation in school government.
- 3. A vote of support to the United Mine Workers objecting to government use of injunctions to stop strikes.

Commenting on the "Red-baiting problem" which the 51 delegates reported faces AYD on most campuses in the nation, Yadoff said that all agreed progressive action by each chapter was the best answer that can be given of AYD purposes.

"Red-baiting is being used as a diversionary tactic to split all progressive forces leading the fight for democracy on the campus and throughout the country," he said.

Lee Dewey, A1 of Perry, was elected to fill the presidency vacated when Charles Grosser returned to New York City recently. He was previously vice-president of the group.

# Museum Methods Attract Many— From Pre-Dents to Foresters

—Learn Modeling; Taxidermy

STUDENTS IN TAXIDERMY preparing exhibits under the guidance of Homer R. Dill, director of the university museum. Pictured are Jay Johnson, U of Springfield, Mo.; Homer R. Dill; William H. Berninghausen, G of Cedar Falls and John Rohner, A3 of Iowa City.

"Emu make interesting pets." A sign above the emu in the university museum in Macbride hall proclaims this to be true. But the price of such a "companion" is as discouraging as the bird's appearance: \$1000 plus, per bird.

The emu is a minor part of the university's collection of fauna, a collection valued at one and one half million dollars, according to Homer R. Dill, director of the university museum. "It's difficult to make an estimate of the value of the collection," Dill states, "because many of the times are irreplaceable at any price."

"The war has wiped out completely many species of fauna which were formerly plentiful," Dill points out. "Many of the birds in the Laysan cyclorama, for example, are now extinct."

**Laysan Island**  
Laysan, an island northwest of the Hawaiian islands, is inhabited solely by birds, and was the goal of an expedition headed by Dill in 1911. The Laysan cyclorama is part of the museum collection.

Under the general heading of museum methods, university courses are offered embracing every phase of museum training. "We work on the theory that if a person is going to build a museum, he should know how from the ground up," Dill states.

**Modeling Popular**  
The class in anatomical modeling is one of the most popular. Pre-dental and premedical students find that this course teaches dexterity and a sense of proportion invaluable in prosthesis, the moulding of artificial parts to the human body, according to Rena Zook, assistant instructor.

Reasons for enrolling in these courses vary widely among the students. "I'm interested in taxidermy and in mounting exhibits, or perhaps curator work," states Ralph Velich, G of Omaha.

With his fingers buried in a lump of clay, pre-dental student Curtis Layton, A3 of Cedar Rapids, explains the necessity of such work in dental prosthesis, adding, "We're all quite sound mentally!"

**Study Wild Life**  
Pausing in his work of mounting a fox, John Rohner, A3 of Iowa City, says that his interest in the course lies in its relation to wild life conservation and forestry. "I would like to go to forestry school in Oregon State," he adds.

Dill believes that museum training at the University of Iowa is the only complete training in this type of work offered anywhere

in the world. He takes particular pride in the exhibit of birds.

"It has been remarked by many visiting authorities," Dill says, "that we have the finest systematic series of birds in our collection that may be found anywhere in the country."

"We are particularly proud," Dill asserts, "of the number of our graduates who have assumed responsible positions in museums throughout the country."

Most pressing problem of the moment in museum work, according to Dill, is the survey now underway by workers all over the world to determine losses to fauna resulting from the war.

**LETTERS—**  
(Continued from page 1)

tarian, but non-territorial. I think that names could be inscribed simply in a marble waiting room of such a structure much more fittingly than on the corner of the court house lawn where no one can even read the sign for the "Keep off the Grass" sign.

Again I say, let's get a fine memorial, but let's get the most of our money as most prudent Americans insist on doing. Let's get more than ten years worth of memory for money and do something constructive.

**Reporters Go on Strike**  
LAS VEGAS, Nev. (AP)—Nine reporters of the Las Vegas Evening Review Journal editorial staff, members of the Las Vegas Editorial association (AFL), went on strike yesterday and Managing Editor A. E. Cahlan said the newspaper would be forced to close temporarily.

The union demands a closed shop. Management, in refusing, cited a Nevada state law which holds the closed shop is illegal.

**Porter to Head Mission**  
WASHINGTON (AP)—Paul Porter, former price administrator, yesterday was named chief of an American economic mission to Greece.

Undersecretary of State Dean Acheson, in announcing the appointment, said the mission will study economic conditions in Greece "as they bear upon the reconstruction and development of the economy of that country."

**Gone—Suit, Four Dollars**  
Don Brown, manager of Brown's Unique Cleaners, 216 E. College street, reported to police yesterday that a grey tweed suit and three or four dollars were missing from his establishment yesterday morning. The discovery of the loss was made when the cleaners opened yesterday morning. No other loss was found.

**U.S. Prisons Fail In Reform Plans, Says Sociologist**  
An opinion that American prisons have mainly failed in their attempts to reform offenders was voiced here yesterday.

Michael Hakeem, sociology department staff member, said at a Lions club meeting that the future success of penal institutions in the United States is the public's responsibility.

Hakeem, who served three years as sociologist at the Illinois state prison at Pontiac, Ill., went on to say that the public is "utterly confused" as to how criminals should be dealt with.

"Many prisons are doing more harm than good," he explained, "because they are not applying scientific methods of correction." About 95 percent of prisoners are released after a few years and the majority of them get into trouble again.

Hakeem said the Illinois state prison system is one of several state institutions now applying a scientific program.

A person sentenced to prison under the Illinois system is first sent to a diagnostic depot. There he is examined by doctors, sociologists, psychiatrists and psychologists who study his personality and mental and physical skills.

Those who are mentally well are confined in one institution, others are put in a detention hospital for observation, and hardened criminals are confined by themselves.

A sound parole plan is made out for each man so he can get a job upon his release. The public shows a more favorable attitude toward released convicts now than in the past, Hakeem said. This is due to sympathetic movies and newspaper articles.

"How many of 'em can YOU remember?"

Some of the old-timers must look pretty strange to you. But not to me... I made all of them.

"I started making telephone apparatus of all sorts in 1877... did such a good job that I was asked to join the Bell Telephone team 'way back in 1882.

"Telephone users get more and better service for their money in this country than anywhere else in the world. I've helped to make this possible by efficient manufacturing of uniform, high quality equipment... by volume purchasing of all manner of supplies for the Bell Telephone Companies... by distributing to them, through my warehouses in 29 principal cities, the telephone equipment I make and the supplies I buy... by skillful installation of central office equipment. That is a huge job... especially now when the demand for telephone service is at an all-time peak.

"Remember my name... it's Western Electric."
