Ask Arbitrator For Troubled Greek Area

GENEVA (AP)—The 11-nation Balkans' investigation commission recommended to the United Nations security council yesterday that it establish a commission of commissioner on the troubled frontier area of Greece for at least two years to observe incidents and settle disputes.

With Russia and Poland dissenting and France abstaining, the commission fixed upon Yugoslavia the primary blame for support of Greek guerrilla warfare, and held Albania and Bulgaria blame-worthy to a lesser degree. Disturbed political and economic conditions and persecution of minorities inside Greece were cited as contributing factors.

With Russia and Poland opposed, the commission held also that support of frontier-violating bands should be considered a menace to world peace subject to U. N. action. On that vote France joined with the majority members—the United States, Britain, China, Belgium, Australia, Colombia, Brazil and Syria.

The recommendation on this phase said that "future cases of support of armed bands formed on the territory of one state crossing into the territory of another state, or refusal by the government in spite of demands of the state concerned to take all possible measures on its own territory to deprive such bands of any aid or protection, should be considered by the security council as a threat to peace within the meaning of the charter of the United Nations."

To the majority report that Yugoslavia was the chief offender, the Russian and Polish delegations affixed a minority report asserting that the Greek government was primarily to blame.

The report now goes to the security council, which created the commission last Dec. 19 to investigate the Greek complaint that guerrilla bands supported by her neighbors on the north were inciting near civil war in Greece.

Threat of Russian Veto Hangs Over UN Report

LAKE SUCCESS, N.Y. (AP)—The threat of a Russian veto popped up last night over a United Nations Balkans investigation commission's report criticizing three Soviet satellites for their part in the trouble along Greece's northern border.

The commission completed work on its report yesterday in Geneva and the United Nations looked to a battle expected to begin here in the security council about June 9.

Soviet Russia's council delegate, Andrei A. Gromyko, has maintained throughout debate on the Balkans problem that Yugoslavia, Albania and Bulgaria have done nothing to warrant criticism by the council. His declarations indicated that Russia would not permit the council to approve any report blaming those countries.

Capture Nazi After 2 Years

MUNICH (AP)—Two years of search for Brig. Gen. Eric Neumann, former principal adjutant to Nazi gестапо chief Heinrich Himmler, has ended with his capture on a farm in Bavaria, American war crimes investigators disclosed yesterday.

Neumann, who held high priority among top Nazis still sought for prosecution on war crimes charges, had been commander of German security police in the Netherlands and Belgium, and a combat commander at Nuernberg. The former SS (elite guard) general was working under an assumed name as a farmer in the vicinity of Berchtesgaden near the Austrian border when he was seized on May 9. He had \$62,500 in Swiss and British money in his possession.

It was believed he would be brought before U. S. war crimes tribunals either at Dachau or Nuernberg, although it was possible the Dutch or Belgians might try to extradite him. He is being held at Regensburg in custody of U. S. war crimes prosecutors.

GOP Backs Slash in Agriculture Funds

Truman Appeals For Continuation Of War Powers

WASHINGTON (AP)—President Truman appealed to congress yesterday to change its mind and grant him authority to control the import, export and use in this country of certain scarce items until next year.

Otherwise, his message said, the flow of foods and goods to friendly nations overseas may be hampered and his foreign policy endangered.

The powers he seeks continued were originally in a law called the second war powers act which expired March 31. In January, Mr. Truman urged that they be continued for a full year beyond that date. But congress granted only a stop-gap extension until this coming June 30, strictly limiting the items Mr. Truman might manage.

The president asked continued power to allocate tin, antimony, cordage and quinine among domestic users, to limit imports of such goods, and to get American goods needed for overseas shipment from the manufacturers through government priorities where necessary.

Through the Greek-Turkish program and the \$350,000,000 foreign relief bill, Mr. Truman declared, "congress has already recognized the importance of supporting our foreign policy with financial assistance." But, he added, "financial assistance alone, without occasional priority backing, may be useless in instances where speedy aid in concrete form is necessary."

The "tragic conditions" of hunger and scarcity in many foreign countries, "with their enormously important political and social implications," he wrote, make it necessary to retain "a very limited portion of our wartime power over materials."

President's Mother A 'Little Weaker'

GRANDVIEW, Mo. (AP)—President Truman said yesterday that his mother was "a little weaker" last night.

Looking gravely worried, the president told newsmen that was "about all I can say" as he returned to his hotel penthouse in Kansas City from another day of watchful waiting at the bedside of his 94-year-old mother.

Talk among White House aides reflected their belief the president may remain here indefinitely in view of the critical turn Mrs. Martha E. Truman's illness has taken.

The president, his wife and daughter now with him, is carrying on the operations of the government here and in temporary White House headquarters in Hotel Muehlebach at nearby Kansas City.

His daughter, Margaret, cancelled her concert engagements in view of her grandmother's grave condition.

The president himself was forced to cancel a speech at Memorial day exercises at the Gettysburg battle field in Pennsylvania in view of the uncertainty in the sickroom.

Youth Has Premonition of Death; Then Drowns For Fifth Family Loss

WASHINGTON (AP)—David Nicholson, a 17-year-old high school junior, in whose family there had been four deaths since Jan. 1, told a friend yesterday: "I expect I'll be next on the jinx list."

A few hours later he drowned in the Potomac river, police said. Three friends said he went down while swimming to a row boat about 25 feet off shore.

Previous deaths in the family this year were those of his grandmother, his mother, who died in a dentist's chair under anesthesia; his 5-year-old half brother, killed in an automobile accident, and a first cousin.

His father, George Nicholson, is in Riverside hospital, Newport News, Va., recovering from a broken leg and jaw received in an automobile accident May 11.

DYING BOY BECOMES EAGLE SCOUT

THE COVETED BADGE OF the Eagle scout is pinned to the pajama jacket of a dying boy scout, 15-year-old Ronald Phillips by his mother, Mrs. E.D. Phillips, while his father watches in their Saginaw, Mich., home. Doctors said that Ronald has "three days to a week" to live. (AP WIREPHOTO)

Masked Band Kidnaps Negro

JACKSON, N.C. (AP)—A young Negro prisoner was taken at gunpoint from Northampton county jail in the pre-dawn darkness yesterday by a band of masked, white men and Sheriff A.C. Stephenson said "I am afraid that a lynching has taken place."

Sheriff's deputies searched the Roanoke river area west of here in search of the Negro, 24-year-old Godwin (Buddy) Bush, but reported no success.

He was arrested Thursday night in Rich Square, a small community, 12 miles away and charged with attempted rape of a white woman, identified by Stephenson as Mrs. Dorothy Allen Bryant, a stenographer at Rich Square.

Lt. Lester Jones of the highway patrol said he expected "plenty of trouble tonight among the races" in connection with the possible lynching.

The young woman reportedly was enroute to a movie when she was chased by a Negro. High school boys, hearing her screams, went to her aid. The boys said they recognized Bush after his capture sometime later by Patrolman Frank Outland at Rich Square.

Gov. R. Gregg Cherry, in Raleigh, ordered state bureau of investigation agents and highway patrolmen to the area.

"I will not condone lynchings or play of this kind as long as I am governor. I have instructed all of the state agencies to investigate this immediately to see if there is any evidence of foul play," he said.

2 Die as Car Plunges Into Creek Near Here

Two Van Horne, Iowa, youths conscious condition last night. University hospital reported his condition as "critical."

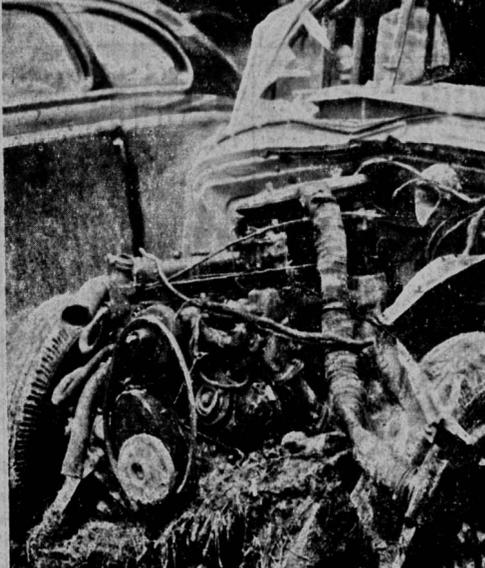

Donald Bistline, 20, driver of the car, received facial lacerations. The hospital reported his condition satisfactory.

According to Sheriff Albert J. (Pat) Murphy, the four young men were returning to Van Horne from a dance at Wellman. Bistline told the sheriff the car was traveling about 50 miles an hour and that he fell asleep while driving.

His three passengers were also asleep, he said.

The car left the highway near a small bridge, struck the creek bank, and came to rest straddling the creek and partly submerged, according to the sheriff.

Both Hoke and Furler had serious head injuries. Hoke had a broken leg. He was found with the upper part of his body in the water and County Coroner Frank L. Love said he may have died of drowning.

THIS IS THE CAR in which two young men were killed and two others injured early yesterday morning on highway 218, eight miles south of Iowa City. The car hit a bridge retvetment and plunged into a creek bank when the driver fell asleep at the wheel.

Demos Vow Tough Fight

WASHINGTON (AP)—The house appropriations committee recommended a 32 percent cut in agriculture appropriations yesterday, bringing an immediate outcry from Secretary Anderson and from Democrats who vowed to fight it.

Republicans on the committee lined up behind a slash of \$383,427,742, to give the department \$805,143,576 instead of the \$1,188,571,318 asked for it by President Truman.

House Democrats said they will fight the proposed cut right up to next year's elections, if necessary.

Anderson protested that the reduction "directs a sharp cut at the interests of the American farm family and the general welfare."

Anderson said in a statement that the "greatest harm" would be to the soil conservation program, the farm price support program, and programs designed to help veterans and low income families become better established.

In proposing sharp reductions for the farmers home administration, Anderson said, the committee "severs any hope that many veterans had, or that many tenants had, of becoming farm owners in the years ahead."

The soil conservation service, the crop insurance program, the school lunch program, the farm tenancy program and the farmers' home administration, which took over most of the old farm security administration, bore the brunt of the cuts.

The committee eliminated all funds for new farm tenant loans, reduced soil conservation payments from \$267,620,754 to \$150,000,000, slashed the school lunch program from \$75,000,000 to \$45,000,000, ordered the crop insurance program put on an experimental basis, and refused to approve a single penny for conservation payments on the 1948 crop.

World Federalists Open State Meeting In Iowa City Today

Six Iowa chapters of United World Federalists will hold their first state convention in Iowa City today and tomorrow to draw up a state chapter's bylaws and to form policies.

A proposed draft of bylaws has been prepared by the state executive council of which Stanley and Virginia Anderson, local chapter vice-president, are members. Dave Fox of Ames is the third member.

Stanley said that Edison B. Dick, vice-president of the E. B. Dick company, Chicago, and national executive council member, will be interviewed on WSUI at 12:45 p. m. today. Dick is a guest speaker. URGE CUT IN CAR PRICES

U. S. to Buy British Goods For Greece

WASHINGTON (AP)—Undersecretary of State Dean Acheson disclosed yesterday that some of the dollars going to aid Greece may be spent on British goods, particularly military equipment.

But he ruled out any "kick-back" to the British for the funds they put into Greece after the March 31 deadline they originally set for their economic withdrawal.

Acheson told a news conference the British put these funds into Greece on their own responsibility and this was clearly understood by the state department and the British government.

Acheson said flatly that the United States will not reimburse Britain for these funds.

London reports yesterday had put the figure for American payment at around \$20,000,000.

Acheson said it is quite possible the United States will buy British goods for the Greek program. It may be, he said, that Britain is the only place where the United States can get certain things required in Greece. He mentioned bullets to fit Greek rifles of British manufacture.

This suggested the possibility that while there would be no "kick-back" to the British for funds advanced to Greece, some settlement may be worked out for the British to be paid in dollars for military equipment they shipped to Greece after a certain date.

Cabinet Sure Final Unity Pleas Will Fail

By ARTHUR GAVSHON
LONDON (AP)—Despairing of Hindu-Muslim unity, Britain prepared yesterday to divide India's 400,000,000 people into at least two and possibly five separate and independent nations.

British and Indian informants said the cabinet, anticipating failure of a final plea for Indian unity, approved details of an historic partition formula.

Lord Mountbatten, viceroy to India, will place the new British plan before India's political bosses on June 2 in New Delhi.

Before he does so he will ask Mahomet Ali Jinnah, Moslem league leader, for the last time if he won't change his mind and accept Britain's still-standing plan for a single constitution that would cover all of an independent India—a plan that would unite largely autonomous Moslem, Hindu and other religious areas under one central government.

If Jinnah again says "No," as he is expected to do, the territorial and political partition of India will begin, said the British and Indian informants.

Jinnah's answer has the potential of a flashpoint in Indian history, the informants pointed out, since the predominantly Hindu Congress party, largest in India, long has contended for a united India. Jinnah's 100,000,000 Moslems are the largest minority.

The cabinet's latest proposals merely laid down the procedure which Indians could follow in setting up responsible authorities to which Britain could hand over their power on the deadline date of June, 1948, if the Moslems refuse to come in on the writing of a single constitution.

Romney Gets 1 to 3 Years

WASHINGTON (AP)—A "lenient" federal judge yesterday sentenced Kenneth Romney, 63, former horse sergeant-at-arms, to one to three years in prison in connection with \$143,863 shortages in his accounts dating back to the 1920s.

Justice Alexander Holtzoff said he was dealing leniently because the offense was committed many years ago and because two associates who should "stand with this defendant" cannot now be prosecuted. The maximum penalty could have been 30 years and \$30,000 fine.

The judge denied a motion for a new trial and permitted Romney to remain at liberty on \$2,500 bond pending an appeal.

Holtzoff specifically accused former Rep. John H. Smithwick (D-Fla.) and Frank J. Mahoney, onetime bookkeeper in the house "bank," of sharing the guilt that led to Romney's downfall. But because of the statute of limitations, he said, they are beyond the law.

Anti-Semitic Persons Found to Be Insecure Of Own Personalities

By HOWARD A. BLAKESLEE
AP Science Editor
NEW YORK (AP)—Abnormal anxieties and feelings of insecurity—mostly about their own personalities—are common to anti-Semitic persons, the American Psychiatric association was told yesterday.

A study by 25 psychoanalysts was reported by Drs. Nathan W. Ackerman and Marie Jahoda, of New York City, who said it was based on examinations of life histories, emotions and mentalities of 16 men and 11 women who were openly anti-Semitic.

Five of those chosen, the report said, were Jews by birth.

The psychoanalysts concluded that certain emotional predispositions underlie anti-Semitism, and that the same predispositions might account for other racial or religious prejudices.

They said these 27 persons furthermore were types likely to be easily led by propaganda and pressure groups.

THINGS LOOKED BRIGHT, as Ed Browne, Iowa catcher, slid under the desperate lunge of Bradley Catcher Don Case to successfully steal home for Iowa's first run yesterday.

BUENOS AIRES (AP) — Foreign Minister Juan A. Bramuglia told a news conference yesterday that eight more Nazi agents were deported two days ago aboard an Argentine liner enroute to Antwerp, Belgium, and Argentina "now considers she has satisfied all her hemisphere obligations."
Argentina has deported a total of 60 agents, he said.
The United States government has insisted that Argentina complete her pledges of continental solidarity by cleaning out Nazi agents within her borders.

Cautio College Vets On Unemployment Pay

Iowa veterans leaving school for the summer were warned yesterday not to apply for unemployment readjustment allowances until they are certain school subsistence allowances are cut off.

The Iowa employment security commission footnoted its warning by saying that veterans, in between school terms and during vacation periods, must be available, seeking work and ready to accept suitable work, if they apply for readjustment allowances.

The commission cautioned veterans not to accept allowances to which they are not entitled. In such cases the law provides "heavy penalties and forfeiture of future allowances," the commission said.

Scared of Ghosts This Kind Lurks in Term Papers

There are ghosts on the campus every spring but they're not from the graveyards.

They are ordinary humans who take money for writing term papers and let students take the credit and grades. That's what a "ghost writer" is.

Nobody knows how many ghost writers there are on the campus, nor the places they haunt, but many instructors are under the impression that graduate students do most of the ghost writing.

They believe undergraduates have too much of their own work to do to be bothered with ghost writing.

Some of the university ghost writers charge according to the number of pages, and still others charge a flat rate for both length and content. Some charge according to the grade the instructor marks on the paper.

It is believed that ghostly creatures have either taken the course and know what the instructor expects in a paper, or write in a style that appeals to their employer.

Some of the paid writers delve into volumes of forgotten lore in search of odds and ends to fill pages for which they get greenback compensation.

Asked what he thought of "ghostly" writing that appeared on his desk, one English professor declared: "Most of the papers I suspect are ghostwritten aren't even worth five dollars."

Summer Art Display Valued at \$100,000

The third annual Iowa summer show of contemporary art will open in the main lounge of Iowa Union and the auditorium and gallery of the art building June 15.

Paintings, drawings and prints will make up the exhibition to show through July 31.

On June 4 a three-man jury will select a dozen paintings from which the university will make purchases for its permanent collection.

They will be Prof. Dwight Kirsch, chairman of the University of Nebraska art department; Albert Christ-Janer of the Cranbrook academy of art, Bloomfield Hills, Mich., and Prof. Lester D. Longman, head of the university art department.
