Veterans Get Option to Buy New Homes

New housing regulations covering veteran preference and sale of abandoned rental property have been announced by Regional Housing Officer Charles J. Haverlock of Chicago.

The new regulation for veterans providing for preference applies to houses or apartments sold by Regional Housing Officers for at least seven days following announcement of the sale.

Under the new regulation, veterans may purchase a house or apartment at a price ten per cent below the advertised price prior to final enactment of the new regulation. It is predicted that at least 10 per cent of the houses sold by the Regional Housing Officers will be purchased by veterans.

The new regulations are in effect immediately.
Bands Out of Tune, Clocks Out of Time

Americans who will be vividly celebrating the Fourth of July this July 4th are already in an unusual situation. But that is not strange, nor unusual. For too often we have a July 4th holiday that is a mere name. We are so busy with our lives, our work, our family, that the time slips by in a blur of activity.

One of the most important events of the Declaration of Independence was, at least at the time it was approved by the Congress of the United States, the signing of the Declaration of Independence. The signing of this document was not an act of rebellion against the British Crown, but rather an act of obedience to the laws and customs of the American people, and it is in this spirit that we should celebrate the Fourth of July.

The Declaration of Independence was not written by a group of men who were out to upset the British Crown, but rather by a group of men who were out to create a new nation, the United States of America. This new nation was to be a land of opportunity, where all men were created equal, and that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.
