

No Cut-Rate Bargains, Please

TOKYO (AP)—Inflation has caught up with Dan Cupid. Japanese marriage brokers won't talk business with men earning less than 7,000 yen (\$140) monthly. Women looking for a mate want him to have: 1. A good job; 2. A house.

Brokers charge 200 to 300 yen to process applications. They expect a similar amount if marriage results. That happens in about one of each 10 applications.

## Politics — Stassen Says He Opposes Idea of MVA

Endorses Pick-Sloan Program With More Authority for States

OMAHA (AP)—Harold E. Stassen last night announced his opposition to the "authority" type of program for developing river basins.

He said he favors the Pick-Sloan plan for development of the Missouri river valley and declared "I am opposed to the MVA method."

The Pick-Sloan plan, now in progress of development, is the work of the army engineers and bureau of reclamation. An MVA similar to the Tennessee Valley authority is favored in some quarters.

The former Minnesota governor, campaigning for support in Nebraska's April 13 presidential preference primary, outlined a method of administering a complete Pick-Sloan program which would give much authority to the states in the basin.

"I believe that our Republican party, to be true to the vigorous and pioneering quality of our country, should make a definite pledge for the development of the Missouri valley in its next national platform.

"This pledge should increase the investment of federal and state funds to the extent of approximately \$2.5-billion for the next six years, and a sufficient amount after 1954 to carry out the proposed Pick-Sloan development of this vast area."

"I am opposed to having these resources administered with an overriding federally created authority. I am opposed to the MVA method. I think it is very important that we should constantly guard against too great centralized authority in this huge country of ours."

The completed Missouri basin program, he said, "can best be administered by the states of the area involved."

"I do not consider, however, that it can be efficiently administered if it is split up between the ten different states. Therefore, I propose that the state concerned should establish their own organization.

"Each of the states, by appointment of the governor, with the approval of their individual legislatures, could place one member upon the governing body of their regional organization.

"The board should decide the policies as to the various uses of the water by a two-thirds vote, and appoint an executive head as the active manager of Missouri Valley Regional Development."

Labor —

## Strike Forces ICC To Slash Rail Service

WASHINGTON (AP)—A new slash in railroad service was ordered yesterday as a result of the 10-day-old soft coal strike, and President Truman named a three-man board to investigate the causes of the walkout.

The interstate commerce commission ordered a 25 percent reduction in coal burning freight service, effective midnight next Tuesday and continuing through April 30, unless the order is modified.

About 67 percent of freight movement is by coal burners. An office of defense transportation order for a similar cut in coal-burning passenger train service became effective last Sunday.

The railway express agency said curtailed rail operation were "seriously affecting" shipments to the west and midwest.

The United Mine Workers' chief wants \$100 a month for miners over 60 years of age, with 20 years service. This would be paid from a welfare and retirement fund, which now totals \$30-million.

The board consists of Federal Judge Sherman Minton of the seventh circuit court of appeals, Chicago; Mark F. Ehrbridge, publisher of the Louisville (Ky.) Courier-Journal; and Dr. George W. Taylor, labor relations professor at the University of Pennsylvania, former war labor board chairman.

## Vacation-Bound Students Use Thumbs . . .

GOING MY WAY? Highways leading out of Iowa City were lined with hitch-hikers yesterday as students trekked homeward for Easter vacation. "Thumbing" above are (left to right) Richard Dutchie, Anita, Jack Mell, Pocahontas, and Kenneth Grobe, Oakland.

## Hoover Endorses ERP

### Describe Shipments Of Planes to Russia

WASHINGTON (AP)—Testimony that American warplane engines have been shipped to Russia within the last six months and that shipping boxes marked for Russia are lying "all over the New York water-front" was presented to congress yesterday.

In rapid-fire order, witnesses made these salient points before a house subcommittee:

1. Forty-six new B-24 engines "suitable for bombers or troop-carrying planes" were shipped from New York to Russia and Poland starting last May and continuing to the end of 1947.

2. Since V-J day, the war assets administration has sold 21,278 combat-type planes for scrap, at scrap prices, "some of which were obviously new."

3. President Truman is expected to issue a proclamation "within a few days" banning the export of all airplane engines and other supplies used "predominately for military purposes."

4. The state department has "not yet worked out its policy on the distinction between shipment of American goods to friendly and unfriendly countries."

Clarence Carruthers, president of the wall street aeronautical supplies firm of Carruthers, Inc., told the committee:

"Everybody in New York knows there are boxes and cases marked for Russia lying all over New York waterfront. They are being loaded every day. They're being loaded this afternoon, for that matter, and they've been loaded for the last three days I know of."

### Finnish Prime Minister Confers With Molotov

MOSCOW (AP)—Finnish Prime Minister Mauno Pekkala met briefly with Foreign Minister V.M. Molotov last night to start off delayed negotiations for a mutual aid treaty between their countries.

Pekkala, who has been ill, arrived yesterday accompanied by his physician. At 8 o'clock last night he sat down with Molotov for a 15-minute talk. The actual working conferences on the treaty will begin today.

### 'Wants 'Dam' Against Russ

WASHINGTON (AP)—Herbert Hoover endorsed the \$5.3-billion European recovery program yesterday as "a major dam against Russian aggression."

The former president said the program "should produce economic, political and self-defense unity in western Europe."

"I believe it is worth taking the chance," Hoover said in his first public statement since President Truman's stop-Communism speech last week. Mr. Truman called for quick adoption of the program as one of the most urgently needed parts of his new policy.

Hoover's statement was read to the house, which was debating the European recovery program for the second day as part of its \$6,205,000,000 foreign aid bill.

In the senate, the question of turning the atom bomb back to military control was raised during a foreign affairs discussion.

Senator Bridges (R-NJ) said he had given the matter "much thought" because "it is one of the most vital problems before America today."

And Senator Wherry of Nebraska, acting Republican floor leader, said "certainly congress ought to give some attention" to changing control of the A-bomb if the danger of war is really great.

Bridges mentioned the bomb, in answer to a question by Wherry, after a speech in which he called for an all-out fight against Communism at home and abroad.

American help should go only to countries which "irrevocably and publicly align themselves with the United States," said Bridges, chairman of the appropriations committee.

### Arab Raid Kills 37

JERUSALEM (AP)—Arab attacks on convoys and a Jewish hilltop fortress north of Jerusalem killed 37 Jews yesterday.

Fourteen Jews were killed and 10 wounded when Arabs ambushed a two-car armored convoy of Haganah fighters speeding to the relief of beleaguered Neve Yaacov, six miles north of Jerusalem.

### U. S. Silence Stalls UN Palestine Action

LAKE SUCCESS (AP)—Unexpected and unexplained United States silence stalled security council action yesterday on the urgent Palestine issue. It was put over until next Tuesday.

The council had expected to take up a United States resolution calling for a special assembly of the 57 United Nations to reconsider the Palestine partition question. The U.S. now proposes UN trusteeship for the Holy Land.

But no resolution appeared. Warren R. Austin, chief U.S. delegate, sat silent through the entire two-hour council meeting.

Austin later told newsmen there is no great significance to the lack of a U.S. resolution.

Informed sources speculated, however, on two possible reasons for the switch in plans:

1. The U.S. delegate may be waiting until after Mr. Truman's news conference in Washington today. It was said the President might then explain the U.S. decision of last Friday to ask for the special session and for trusteeship for Palestine.

2. The new switch came the day after Foreign Secretary Ernest Bevin told the house of commons that Britain cannot change her policy in Palestine because some other country makes the latest of a number of propositions.

### Minister Warns Danes Of 'Subversive Actions'

COPENHAGEN, DENMARK (AP)—Minister of Justice Busch Jensen asked all Danes last night to watch for subversive actions.

The minister spoke by radio. He asked for vigilance against "everything that might indicate actions, aimed against the security of the state or the Danish people, whether it be on land, in the air or at sea."

"I ask you to report it immediately to the nearest police authority or military unit, no matter if it is day or night," he said.

There was no official explanation for the unexpected appeal. Some sources indicated it stemmed from investigations made after unverified rumors that arms and ammunition were being landed in Denmark by night.

State —

## Appeals for Acquittal in Coppock Case

COUNCIL BLUFFS, IA. (AP)—A motion for a directed verdict of acquittal was made yesterday in the district court trial of Russell Coppock, Pacific Junction, Iowa, school teacher charged with unlawful assembly.

Coppock had appealed from a Mills county justice court conviction. An information filed against Coppock charged that he interfered with Pacific Junction Mayor John Lutter when the mayor was filing a complaint against Alfred Twitty, Baltimore Negro, in the court of Mrs. Lola Boquette, Pacific Junction justice of the peace, last Oct. 13.

The motion for directed verdict was made by Paul James, Des Moines, Coppock's attorney, at the conclusion of presentation of the state's case. District Judge Vernon Johnson said he will rule on the motion at 9:30 a.m. today.

During debate on James' motion, Judge Johnson asserted that unlawful assembly is something "so conducted that fair-minded people in the neighborhood comprehend danger." He added that such acts "would put a reasonable prudent person in fear."

Mills county attorney William Drake contended "this is a simple misdemeanor that has been enlarged and magnified to an important case." Conviction carries a maximum punishment of 30 days in jail and \$100 fine.

### Board Alters Rules for Teaching Certificates

DES MOINES (AP)—The state board of educational examiners changed the rules slightly yesterday for issuing war emergency certificates to Iowa teachers.

For elementary teachers whose regular certificates had been based on less than two years of college work, the board ordered that they be required to take eight additional semester hours of college work between September of 1946 and September of 1948.

For elementary teachers whose former certificates were based on two or more years of college, no additional hours of college work are to be required.

### Checking License Tags

DES MOINES (AP)—Commissioner of Public Safety Alfred Kahl said yesterday he had asked state law enforcement agencies to pick up all car owners driving on the highways with delinquent license plates and registrations, beginning April 1.

## Compromise Rent Law Approved by Committee

### Eisler Given 1 to 3 Years

WASHINGTON (AP)—Gerhard Eisler, alleged "No. 1 Communist" in the United States, was sentenced yesterday to serve one to three years in prison for concealing his Communist links when he applied for a permit to leave this country in 1945.

He was released on \$20,000 bond pending appeal.

Sentence was imposed by Justice James W. Morris in U.S. district court here where Eisler was convicted last August.

Sentencing had been delayed while the court considered an application for a new trial and the government made moves toward Eisler's deportation to Germany.

Eisler also is under sentence of a year in jail plus a \$1,000 fine for contempt of congress, in connection with his refusal to answer questions before the house committee on un-American activities.

Last month Eisler won freedom on bond from Ellis Island, N.Y., where he was held under a deportation warrant.

### Steel Mill Mishap Kills 3, Injures 14

BETHLEHEM, PA. (AP)—Three men were killed and 14 injured last night when they were trapped by a slippage of hot coke from a furnace at the Bethlehem Steel corporation works.

The company declined to give the names of the men killed and injured. Three of the injured, however, were taken to St. Luke's hospital suffering from third degree burns.

Dr. David F. Bachman, Northampton county coroner, said the three dead were so badly burned that it would be a matter of elimination to determine their identity.

A company spokesman said the accident happened while one of the furnaces was being blown out preparatory to being shut down. He explained the hot coke slipped out of the tuyere (pipe) and spread around the furnace, trapping the men.

### AMERICAN PRODUCTION

WASHINGTON (AP)—America's industrial production reached the highest rate in peacetime history during February despite bad weather, the federal reserve board reported yesterday.

### Air Force Asks for Recruits; Comments Fly on Draft, UMT

WASHINGTON (AP)—The air force unexpectedly announced a drive for 25,000 more men yesterday as a senate committee heard clashing testimony on the need for universal military training and a draft bill.

Last week the air force said it had 312,000 men and would accept no more enlistments. But yesterday it boosted its goal to 337,000 and to gain it, lifted the ban on recruiting married men.

The senate armed services committee studying President Truman's plea for a draft and UMT as a means of discouraging Communist expansion received these contradictory arguments:

1. Mrs. Eleanor Roosevelt in a letter to Chairman Gurney (R-S.D.) gave her support to universal military training as "a gesture which would be understood" by Russia.

2. Albert Einstein in a letter to Gurney said he was convinced that there was "no foreseeable . . . threat of hostile invasion . . . of the United States" and consequently he opposed UMT.

3. Dr. Isalah Bowman, president of Johns Hopkins university, favored UMT, saying "it is no good for a town without a fire department to send in a mail order for a fire engine when it hears that a house is burning."

4. Arthur H. Compton, president of Washington university, St. Louis, who helped plan use of atomic bombs in the last war, favored both draft and UMT.

5. Seymour Linfield, New York, a Henry A. Wallace supporter, bitterly opposed armed preparation.

6. Don S. Willner, Harvard senior, opposed UMT but took no stand on the draft.

7. Gerhart Seger, former member of the German reichstag but now a naturalized citizen, favored a draft but opposed UMT because he said it had ruined Germany.

### Ask Grain Ban Extension

WASHINGTON (AP)—The government asked brewers last night to continue a ban on use of wheat and table-grade rice until June 30. The purpose of the ban—adopted voluntarily last fall—is to save grains for shortage areas abroad. The request was made by Secretary of Agriculture Anderson.

### Provides for Court Appeals

WASHINGTON (AP)—A compromise rent law providing for court review of disputes over raising rent ceilings or removing controls in any area was approved last night by senate and house conferees.

The measure is still subject to a final okay by both the house and the senate. That will be sought today.

The bill would extend federal controls for a year beyond next Wednesday midnight, with no general increase in ceilings. It contains a renewal of the provision for so-called voluntary boosts up to 15 percent, however.

The compromise calls for an emergency court of appeals to review cases in which local rent boards and the federal housing expediter disagree over whether to boost rents or remove controls entirely.

Such a review would be automatic in cases where the expediter, who administers the rent law, turns down a recommendation by one of the boards in the approximately 600 rental areas in the country.

A final two and one-half hour session behind closed doors in an otherwise darkened capitol building was devoted to an argument as to the scope of the court's review. The meeting, attended by Senator Cain (R-Wash.) and six of the seven "house conferees," wound up at 10:30 p.m. CST.

Under the final wording, the court would be required to find that the evidence on which a board based its recommendations "is not of sufficient weight to justify" them in order to uphold the housing expediter's veto.

Without the bill, rent controls would expire next Wednesday night. The bill extends them, in modified form, for one year.

House members of the joint committee agreed to modification of their "home rule" provision. This would have given local rent boards complete authority to raise rent ceilings or remove controls entirely.

Senator Cain (R-Wash.) said the conferees agreed to let the emergency court of appeals conduct "a full review" when a local board and the housing expediter disagree on a recommendation to change rent levels or remove controls.

## Board Airliner To Depart From Iowa City

WHILE SOME HITCHHIKED, other students left town yesterday from the local airport. Bruce C. Blough, chief of operations, is shown checking in part of a group of 21 passengers Chicago-bound on a "student special" airliner furnished by United Airlines. (Daily Iowan Photos by Joan Liffing)

# Iowa Top Dark Horse In NCAA Swimming Meet

## Michigan, Ohio State Are Favored

By JOHN HOLWAY

Indications are that the battle for positions in the NCAA swimming championships, which open tonight at the University of Michigan, will be even more of a scramble than were the furious Big Nine competitions here two weeks ago.

Once again, Michigan, the Western conference victors by three points, and Ohio State, the hapless runners-up, have served notice that the inside positions for the team crown belong to them.

Nevertheless, favorite sons from all over the country will have their fling at individual crowns. That means that lesser contenders behind the big two will have more of a chance to work into the charmed champion's ring.

Iowa is considered the leading dark horse for the prize. In fact, Michigan Coach Matt Mann II has gone on record as saying that the Ann Arbor meet will be a three-way struggle between his Wolverines, the Buckeyes, and Iowa's Hawks.

One of the outstanding threats to Michigan, in particular, is Joe Verdeur, breast stroker from Philadelphia's LaSalle college. In the last two seasons, he has whitened the collegiate breast stroke record from 2:22 to a practically untouchable 2:16.4.

Iowa and Ohio State, neither of whom have a breast stroker in Wolverine Bobby Sohl's class, hope that Verdeur, Penn's Don DeForrest and Purdue's Keith Carter can keep Sohl out of the top money.

Mann, who has also sunk a lot of stock in his captain, Harry Holiday, in the backstroke, may be dealt another jolt in the person of 19-year old Allan Stack of Yale. The Eli sophomore two weeks ago trimmed seven-tenths of a second from Holiday's collegiate backstroke record.

Dave Armbruster, Iowa's coach, feels Stack will be as good as his record when he faces Holiday tomorrow night, and is given the

ONE FOR THE KID — Wally Ris (right) shakes hands with his protegee, Randall Lee Odegaard, son of assistant trainer Erling Odegaard, just before the 100 yard freestyle in the Big Nine championships. He went on to break the record. Just four weeks previous, on the eve of Randall Lee's birth, Ris promised Erling that he would "win one for his son." He broke the 220 yard record, defeating Bill Smith and setting new Big Nine and National Intercollegiate records.

edge to beat the Michigan leader.

On the positive side, Armbruster hopes that Duane Draves may corner a third in the event at the expense of Ohio's Bob DeGroot. In trials at Iowa City in the conference meet, Draves led DeGroot in their heat.

Wally Ris holds most of the remaining individual honors in Iowa's hand. "Wally has the Indian sign on him in the 100," declared Armbruster.

With designs on the world record for the distance, Ris found he had things his own way in the Western conference this season, and to retain his laurels must put down the bids of several coast strikers.

Bob Anderson of Stanford, Paul Girdes of Yale and Rutgers' Bob Nugent are the untried "foreign" swimmers, who can aid Iowa's

## Dodds Thinks Layoff Will Help Training For Olympic Team

By AUSTIN BEALMEAR

NEW YORK (AP) — Gil Dodds, America's chief hope in the metric mile at the 1948 Olympics, came face to face yesterday with Jack Lovelock, Glenn Cunningham and Luigi Beccali, the men who ran 1-2-3 in the event when the games last were held at Berlin in 1936.

Galloping Gilbert did not match strides, however, with his predecessors of the cinder track. Instead, they all matched wits, words and table technique with newsmen at a luncheon held to publicize movies of the 1936 Olympics, being released for general distribution.

Despite the presence of the great runners of another decade, Dodds was the center of attraction. It was his first appearance here since being shelved by the mumps shortly after lowering his world indoor mile record to 4:05.3 two months ago.

"I think my layoff will help me in training for a place on the Olympic team," Dodds said in a somewhat surprising answer to a question of whether the mumps would hurt his chances.

"I'm about 4 pounds over my best weight and still picking up," he explained. "That means I'll have to train very hard to get back in shape. I should reach my peak in July."

The Boston A.A. star doesn't plan to return to competition, however, until he runs in the New England AAU championships in June, less than a month before the Olympic tryouts.

"I'm training again now," he said, "and I've had a number of invitations to compete in meets this spring but I'm going to take it easy until I know I'm ready."

Gil said he lost 10 pounds during his illness but now weighs 158 compared to 154 when he last competed on Feb. 7.

## BRIGHT PROSPECT — By Jack Sords

## Iowa Slams Arkansas State

(Special To The Daily Iowan)

CONWAY, ARK. — Slamming out 18 hits, the SUI baseball team ran over Arkansas State Teachers college here yesterday. The final score was 14-4.

Wes Demro of Iowa allowed the Teachers nine hits while his mates were tramping on five Arkansas pitchers. It was the second win in three games for the touring Hawkeys.

Bob Smith slammed out four hits in six at bats to pace the Hawks. Dale Erickson, John Tedore, Bob Primrose and Capt. Lyle Ebner each hit safely three times. Third Baseman Fullerton of the Teachers got three hits off Demro.

The Teachers jumped off to a two run lead in the first inning. But the Hawks ganged up on opposition pitching in the fourth and

## Valley Track Meet To Be Here Tonight

Davenport's fleet Blue Devils are favored to retain their conference title in the 18th annual Mississippi Valley conference indoor track meet held at 7 o'clock tonight in Iowa fieldhouse.

The Blue Devils are expected to find strong competition in Roosevelt of Cedar Rapids, Clinton, and the Little Hawks of Iowa City. The Hawks, weakened by the ineligibility of Distance Runner Jack Davis, expect to be strong in the 440-yard dash and in the shot put.

With Davis out of the meet, Coach Howard Moffitt plans to concentrate on the mile run rather than the medley relay. The Little Hawks captured the medley event last year with Davis leading the way.

## Coaches Name Wier All-Big 9 Forward; All-Star Tilt Tonight

The Eastern All-Stars meet the Western All-Stars tonight in the last tuneup before the Olympic tryouts this weekend.

This game will pit Murray Wier and his Western cohorts against one of the most formidable aggregations ever assembled in the Eastern's bracket of the annual classic.

Ben Carnevale of Navy, the East's mentor, has a squad that averages six feet three inches in height and weighing 194 pounds. The Western squad scales only six feet two inches, and gives up 12 pounds in weight to the East tipping the scales at 182 average.

The main reason for the difference in weights and heights is the presence of Wier on the Western squad. His 5 foot 9 inch frame tends to offset such giants as Ed Mikan of DePaul who towers 6 feet nine inches.

After watching Wier in pre-game warmups Stanley Woodward of the New York Herald-Tribune had the following to say:

"Wier looks like a child among his towering team-mates. But when he gets a basketball in his hands he is transformed. He is a dervish, completely unorthodox. He darts here and there, leaving pursuit behind or wiping it off on casual standees around the court whether team-mates or enemy. He shoots any old way and he hits with astounding frequency."

Neither coach will name his starting lineup until just before game time.

Wier added another honor to his increasing string yesterday when he was selected as a unanimous choice along with Jim McIntyre to the mythical Big Nine team selected by the conference coaches. The team was rounded out by Dwight Eddleman of Illinois at the other forward slot with Pete Elliott and Bob Harrison manning the guard positions.

## Lombardo Sets One Record

MIAMI BEACH, FLA. (AP) — Band Leader Guy Lombardo broke a seven-year-old Gold Cup powerboat speed record yesterday when he clocked 113.208 miles an hour over a measured mile in his supercharged Tempo VI.

Equipped with a new 1,300 horsepower, 12-cylinder engine, the Tempo VI officially was timed at 31.8 seconds over a mile course in Indian creek. The time beat the 100.987 miles an hour established by Herbert Mendelson in his Notre Dame in 1940.

But Lombardo's main goal, to break the U. S. unlimited hydroplane speed record held for 16 years by Gar Wood temporarily was postponed by choppy water.

After setting a new Gold Cup record, originally it was planned to make another run yesterday afternoon in an attempt to beat Wood's 124.915 mile an hour mark set Sept. 20, 1932.

## Basketball Changes Weighed

NEW YORK (AP)—The National Basketball committee of the United States and Canada met yesterday to consider seven rules changes recommended by the National Coaches association.

The committee meeting, held in conjunction with the National Association of Basketball Coaches convention, is a two-day session. Announcement of its decisions is expected today.

Among the most important proposed rules changes are abolishment of reporting to the referee or umpire by a substitute, adoption of a glass or wood rectangular backboard as the only official one and permission for players to huddle with the coach at the bench during charged time outs.

Other proposed rule changes were:

Raising of the hand by a player who has committed a foul.

Limiting the two men directly beneath the basket on a free throw to the defensive team only.

Clarification of the technical foul to designate just who is to take the free throw. Shall it be the player on whom the foul is committed or any player on the team.

Changing the present 3-minute rule, which calls for time out after a foul, the coaches agreed that it did help the game and suggested the research committee investigate the rule.

Two other proposed changes were discussed by the coaches, but were voted down. One was the return to four instead of five personal fouls in order to eject a player. The other was the moving

of the ball to the nearest six-foot restraining circle on all jump balls.

Herbert "Buck" Reed of Western Michigan, newly elected president, closed out the three-day session of the National Coaches association by selecting his various committees. Other officers elected included John Bunn of Springfield, Ohio, first vice-president; John Lawther, Penn State, second vice-president; Vadal Pederson, Utah, secretary; Jack Gray, Texas, treasurer, and Ed Hickey, St. Louis, editor of the Bulletin.

Hickey, coach of the St. Louis basketball team which captured the National Invitation tournament last week, revealed he had discussed the possibility of taking over the coaching duties of Minnesota with the university officials.

"I have been in session with Mr. Frank McCormick, director of athletics at McCormick and retiring Coach Dave McMillan in the interests of continuing relations between St. Louis and Minnesota," he said.

"During the conversation it was mentioned to me that there was a vacancy in the basketball coaching staff of the University of Minnesota, and that it possibly would be an opportunity for advancement. That I readily acknowledged, however, no commitments were made."

## NCAA Boxing Tourney Set For April 1-3

MADISON, WIS. (AP) — Five champions will defend their titles against 61 challengers in the 10th annual NCAA boxing tournament here April 1-3.

The NCAA certification committee announced the 66-man entry list from 23 colleges yesterday and revealed that the tournament will be fought at international rather than collegiate weights. The shifts are due to the Olympics, with winners in the eight classes here likely candidates for the U. S. team.

Weights designated for the meet are 112, 119, 127, 136, 147, 160, 176, and heavyweight. Under collegiate rules, the classes start at 125 pounds and go through 130, 135, 145, 155, 165, and 175 to heavyweight.

## Cards Drop Yanks in 10th

ST. PETERSBURG, FLA. (AP) — The St. Louis Cardinals broke up a free-hitting contest in the 10th inning yesterday to whip the New York Yankees, 8 to 7.

Charley Keller made a surprise pinch-hit appearance for the Yanks in the top of the ninth and hit the first pitch for a single. The blow started the Bombers on a three-run rally that tied the contest and sent it into extra innings.

It was Keller's first competitive action since last June and came several weeks earlier than expected.

Johnny Lindell smashed two home runs, one of them during the ninth-inning rally, and Bill Johnson also hit for the circuit for the Yanks. Del Wilber homered for the Cardinals.

St. Louis took an early lead with four runs in the third. The Red Birds added one in the fourth and two more in the seventh, but the Yanks countered with three in the sixth, one in the seventh and then their ninth-inning contest.

## Rookies Help Phillies Squeeze By Reds, 3-2

CLEARWATER, FLA. (AP) — Two rookies combined yesterday to drive in the deciding run as the Philadelphia Phillies defeated the Cincinnati Reds 3-2 in an exhibition baseball game.

Ritchie Ashburn led off the eighth with a triple and romped home on Eddie Sanki's fly. The Phils got their other two runs off

Ewell Blackwell in the first. Ashburn was hit by a pitched ball to start the frame. A single by Bama Rowell, two infield outs and Jesse Levan's triple did the damage.

The Reds picked up one run in the fifth and another in the eighth off Blix Donnelly after being held scoreless through the first four frames by Schoolboy Rowe.

## Army Backfield Coach Switches to Miami

WEST POINT, N. Y. (AP)—Andy Gustafson has resigned as backfield coach at Army to become head football coach at the University of Miami (Fla.), the U. S. military academy announced yesterday.

Gustafson, who played his football at the University of Pittsburgh under both "Pop" Warner and "Jock" Sutherland, joined Head Coach Earl Blaik at Dartmouth in 1934 and moved with him to Army in 1941.

Gustafson is the second member of Blaik's Army staff to move into a head coaching position in the past two weeks. Line Coach Herman Hickman resigned last week to accept the head coaching berth at Yale.

## Trucks Hits Homer As Tigers Win, 3-1

LAKELAND, FLA. (AP) — Although his string of scoreless innings was ended yesterday, Virgil Trucks hurled the Detroit Tigers to a 3-1 victory over the Boston Red Sox and helped his cause with a home run.

Trucks' circuit clout started the three-run Detroit rally in the seventh inning that produced all the Tiger scores. The other two runs came on doubles by Johnny Lipon and Dick Wakefield and a single by Johnny Groh.

Boston had ended Trucks' series of run-less innings by scoring in the fifth. The Tiger righthander had gone 19 innings without a marker scored against him.

## Says Coach To 'Quit'

DES MOINES (AP) — The Des Moines Register said last night that Forrest Anderson would not coach basketball at Drake university next year.

**Urges Postal Rate Increase**

WASHINGTON (AP) — Postmaster General Jesse M. Donaldson yesterday recommended an increase in most postal rates.

Exceptions were proposed to leave the present rates in effect on first class mail and air mail, and on distribution of publications within the county where they are issued. Second class mail rates outside the county would go up.

The proposal was submitted to Chairman Reese of the house postoffice and civil service committee, but Reese indicated little enthusiasm. Donaldson told Reese in a letter that postoffice expenditures "are exceeding revenues at an ever-increasing pace." He pointed to mounting deficits in the postwar years.

The postmaster general estimated the deficit for the current fiscal year at \$345-million. He said the increase he is now proposing should yield about \$243,970,000 annually.

"While this is far short of the anticipated deficit for 1948, and the still larger deficit for 1949," Donaldson said, "it is believed to be as much as the traffic will bear."

The three-cent first class letter rate, and the five-cent domestic airmail letter rate would be retained.

# Cedar Rapids Performance of Panacea Awaits SUI Approval

A decision is due "soon" whether the Panacea show, "The Elegant Mr. Emperor," will be taken to Cedar Rapids for a one-night showing.

The question was referred to him after Larry Barrett and Herb Kanzell, music arranger and composer respectively, requested the Panacea committee to sponsor the out-of-town trip.

Panacea committee is composed of representatives from Student Council, Omicron Delta Kappa, men's honorary, and Mortar board, women's honorary.

Panacea committee met Monday night and decided they did not have sufficient financial backing to sponsor the trip. The show lost money when produced on campus, but played to more students than its predecessor, "The Dove and the Duck," produced last year.

The question then arose whether Barrett and Kanzell would have university sanction to sponsor privately the Cedar Rapids showing. Also it was discussed under what terms Panacea committee could or should share in the profits, if any, or whether the scenery should be rented outright to help make up the deficit from the campus showing.

The question of university sanction was referred to Stuit, who said he will consult with various university officials, including Prof. E.C. Mabie of the dramatics arts department, before reporting his decision.

Barrett said last night a contract has already been signed for the RKO Iowa theatre for Monday, April 12.

Barrett and Kanzell both agreed that whether they would take the show to Cedar Rapids in the event of a negative report by Stuit remains to be decided.

Also pending is a possible two-night showing in Davenport.

Barrett said three benefits would result from the out-of-town showings:

1. Opportunity for persons outside Iowa City to see the show.
2. Attraction to high school students interested in dramatic productions, who might be influenced to enroll at the university.
3. Additional prestige for the annual Panacea productions.

University officials, however, are apprehensive about allowing the show, which was sponsored by university organizations, to tour under direction of private individuals.

Some Panacea members share this opinion, while others feel that a part of the show's deficit could be made up, through either sharing in the profits, if any, or rental of scenery.

## Two SUI Students Married Yesterday

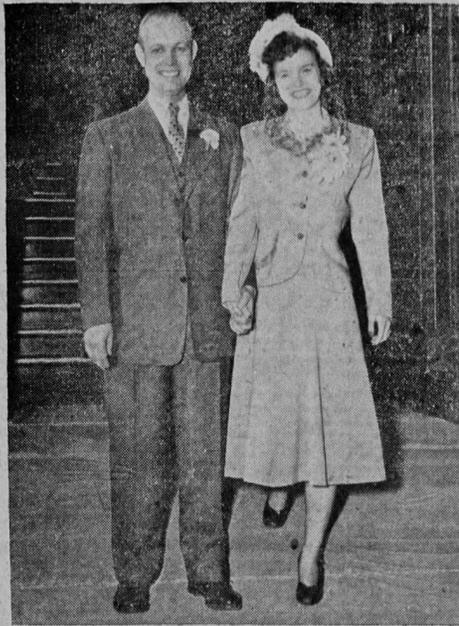

Two university students, Ray Ann Genest and Thomas A. Jerrell, were married in a double ring ceremony yesterday at 4 p.m. at the Methodist church parsonage, Dr. L. L. Dunnington officiating.

Mrs. Jerrell, daughter of Mr. and Mrs. Ory Genest, Jeanerette, La., was graduated from Jeanerette high school and Southwestern Louisiana Institute, Lafayette, La. She is now taking graduate work in the Romance language department at the university.

Mr. Jerrell, son of Mr. and Mrs. Thomas Jerrell, Nora Springs, was graduated from Nora Springs high school and is now a senior in the college of commerce.

They will live at 121 Evans street, Iowa City.

## University Students Wed

IN A SINGLE RING CEREMONY yesterday afternoon, Virginia B. Harris, daughter of Mr. and Mrs. H.B. Harris Jr., Downers Grove, Ill., became the bride of Robert Lee Carmichael, son of Mr. and Mrs. Claude Carmichael, Columbus, Ind. Dr. P. Hewison Pollock performed the ceremony at the First Presbyterian church, Beverly Harris, Downers Grove, Ill., was maid of honor and James Nilsson, Monroe, Mich., served as best man. Mrs. Carmichael was graduated from the university's college of liberal arts in June, 1947, and has recently been employed at the U.S. Gypsum company, Chicago. Mr. Carmichael was graduated from Columbus high school, Columbus, Ind., and is a senior in the college of engineering at the university. The couple will be at home at 732 E. Jefferson street after Tuesday.

## L. B. Higley, Ray Smith To Speak at April 7 Meeting of Sigma Xi

The Iowa chapter of Sigma Xi will meet April 7 under the auspices of the university's college of dentistry.

Sigma Xi President C. C. Wylie, of the mathematics department, and Prof. Virgil D. Cheyne of the college of dentistry will preside at the meeting.

The meeting will feature two talks, one by Prof. L. B. Higley on "Mandibular Studies," and another concerning "Aptitude Testing in Dentistry" by Prof. Ray V. Smith. Both speakers are instructors in the college of dentistry.

Sigma Xi is a national organization devoted to the encouragement of research in science.

## Court Grants Divorce To Mary R. Ferguson

Mary Ruth Ferguson, 702 Grant street, was granted a divorce by default from Robert Earl Ferguson, university student, in the Johnson county district court yesterday.

Judge James P. Gaffney ordered Ferguson to pay \$30 per month alimony.

Mrs. Ferguson charged cruel and inhuman treatment. She was represented by Ries, Dutcher and Osmundson.

The couple was married in Iowa City, June 12, 1943 and separated Dec. 28, 1947.

## Red Cross Drive Totals \$12,834; March Quota Short

The latest total, \$12,834.87, in the Johnson county Red Cross fund raising drive, is less than half the \$23,750 quota that was to be raised during March.

A. O. Kelley, general chairman of the drive, said bad weather and poor roads have delayed solicitings. Now that the weather has improved, a renewed effort is being launched to make the drive a success.

If the quota is not reached in March, Kelley said, the campaign will be extended until the quota is met.

Persons wishing to contribute need not wait for a solicitor, Kelley said. Anyone not contacted may telephone the Red Cross, 6933, or come to Red Cross offices at 15 1/2 S. Dubuque street. A Red Cross representative will call at any home to pick up a collection.

Two areas in the county have already exceeded their quotas. Oakdale bettered its \$100 quota by \$63 and Scott township exceeded its \$375 quota by \$13.

## House Sends Tax-Cut Bill To Truman

WASHINGTON (AP)—The house sent President Truman a \$4,800,000,000 tax reduction bill yesterday, pounding home its approval by a 289 to 67 roll call vote.

The margin was 512 votes greater than the two-thirds majority which would be required to override a veto, provided there is no change of sentiment.

Rep. Thomas E. Martin (R-Iowa) voted in favor of the measure as did six of eight Iowa Republicans on the roll call.

President Truman is expected to veto the tax cut promptly. His supporters take the stand that instead of reducing taxes, congress should maintain the current high flow of revenue to rebuild the nation's military strength in the global drive to stop communism.

But the house vote, coupled with the topheavy 78 to 11 approval given by the senate Monday, was viewed by Democrats as well as Republicans as assuring that the tax cut will become law.

The bill would: 1. Grant relief to all the 52,000,000 taxpayers, ranging from 100 percent in the lowest income bracket to 5 percent in the higher brackets. It removes 7,400,000 low-income persons from the tax rolls completely.

2. Effective May 1, reduce all tax withholding from pay envelopes and salary checks. The tax reduction is retroactive to Jan. 1. So next year the taxpayers would get refunds on overpayments from Jan. 1 to May 1.

Here is how the tax-cutting work:

1. Increase personal exemptions from \$500 to \$600.
2. Apply the "community property" principle to all states, allowing husbands and wives to divide the family income equally for tax reporting purposes and thus gain lower rates. A dozen states now have this principle by local law.
3. After taxes had been computed on this basis at the old schedule of rates, percentage cuts would be effective—12.5 percent on the first \$2,000 of income after deductions and exemptions; 7.4 percent on that part of income above \$2,000 and up to \$136,700; and 5 percent on income above \$136,700.
4. An additional \$600 exemption would be granted persons 65 years or older, bringing their total exemption to \$1,200. Exemptions for blind persons also are increased.

The bill also adjusts estate and gift taxes.

Mrs. Lida Mae Filkins, Delta Delta Delta housemother, is visiting friends in Michigan during the weekend.

Phyllis Oltman, A4, Oak Park, Ill., underwent an appendectomy at university hospitals yesterday morning.

AP Appoints McNalley

Sherman J. McNalley, a 1923 SUI graduate, was recently appointed administrative assistant in the personnel department of The Associated Press in New York City.

McNalley, who studied journalism at the university, worked for The Des Moines Register seven years before he became associated with AP bureaus in St. Louis and Kansas City, Mo.

He was transferred to the New York AP office in 1936 where he served as feature and photo editor for three years.

## Meetings, Speeches 'n' Campus

P. E. O.—Mrs. E. P. T. Tyndall, 410 Magowan avenue, will entertain chapter E. P. E. O. at her home at 7:30 p. m. tomorrow. Assisting her will be Mrs. I. L. Pollock, Gertrude Smith and Betty Armbruster. Mrs. Otto Bowling is in charge of the program.

PRESBYTERIAN—The Wylie Guild of the Presbyterian church will hold a potluck supper at 6 p. m. tomorrow at the Presbyterian church. Hostesses include Ethel Taylor, Gertrude Denais, Vera Bacon, Dora Grace and Bertha Sparks. Charlotte Davis will lead the devotions.

WOMAN'S CLUB—Today's meeting of the Iowa City Woman's club drama department has been cancelled. The next meeting will be held Thursday, April 22. Friday's meeting of the social studies department has been postponed because of the citywide Good Friday church services. Date of the next meeting will be announced later.

AAUW—The drama study group of the American Association of University Women will meet with Mrs. W. F. Bristol, 606 S. Johnson street, today at 8 p. m. Walter Dewey of the university dramatic art department will speak. Assistant hostess will be Henrietta Safley.

## Episcopal Church To Give Program Friday

A special Good Friday service will be given by Trinity Episcopal church Friday from noon to 3 p.m.

Meditations on "The Seven Last Words" will be conducted by the Rev. Harold F. Goebe. He will be assisted in the service by Arthur Fippinger, A3, Iowa City.

The junior choir will furnish the special music at the service.

## Mrs. Means Elected

Mrs. E. R. Means was elected president of the Past Matron's club of the Order of Eastern Star at a recent meeting at the Masonic temple.

Other officers elected were Mrs. George Hunter, vice-president, and Mrs. Maude Schuchardt, secretary-treasurer.

## We Have Weapon Dwarving A-Bomb, Plane Builder Says

NEW YORK (AP)—The United States has developed a radioactive cloud that "kills anyone who comes in contact with it," Glenn L. Martin, airplane manufacturer, said yesterday.

"It is effective over a much larger area than is the atom bomb," he said, "and might make the area it touches radioactive for an indefinite time."

Martin said the cloud is spread by wind and its use requires sure knowledge of weather conditions or it might backfire on its users.

The head of the plane manufacturing company that bears his name said that the U. S. had a new A-bomb much more effective than ones dropped on Japan, which are now obsolete.

Both the cloud and the bomb use the same material, he said, but the former is a vapor, formed either by itself or by sprinkling existing clouds with the material, while the latter is a detonation instrument.

Martin told reporters the navy also has perfected guided missiles with homing devices that can search out a ship at sea and destroy it.

"We can sink the ship even if it is half way across the ocean," he said. "All we have to do is get our own ships out of the way."

The guided missiles can also be used to hit iron foundries and "it will be possible to eliminate a nation's steel industry in time."

Martin also mentioned new bacteria weapons, some of them capable of lying dormant for a time and then "making the victim ill, with an illness from which he does not recover."

He said that these latest weapons made it likely that if another war comes the ultimate course of it would be determined within 60 days. "After that it would be a matter of policy as to how long it was allowed to drag on before the final mopping up," he said.

"It will take two years before we could produce sufficient aircraft of the new type now being developed. Missiles would be ready much more quickly," he said.

"The methods by which the radioactive clouds are being made and tested are top military secrets," Martin said.

"I can mention them because they were discussed recently in a scientific magazine article," he said.
