## Founder of Bank of America, Amadeo Giannini, Dies at 79

SAN MATEO, CALIF. (AP) — Amadeo Peter ("A.P.") Giannini, who rose from a boy produce peddler to head the world's richest bank, died in his sleep yesterday morning. He was 79.

Founder and chairman of the Big Bank of America, Giannini died at his San Mateo home, "Seven Oaks." He had been ill for nearly a month with a cold. Doctors said the illness put too much strain on a weakened heart.

Giannini retired in 1945 from chairmanship of the bank, a six billion dollar corporation. He was promptly named "founder-chairman" by its directors.

His only son, L.M. Giannini, succeeded him as president of the bank. He also leaves a daughter, Mrs. Claire G. Hoffman of San Mateo.

Giannini also served, until his retirement in 1930, as president of Trans-American Corporation, a vast holding company affiliated with Bank of America.

Giannini was a fighter in the world of business. He battled California banking interests with one hand and government regulations with the other. Trans-American corporation even now is embroiled in government accusations of policies which have a monopolistic tendency.

His career constantly verged on the spectacular. Two years after he opened his bank (then the Bank of Italy) it was burned out by San Francisco's great fire of 1906.

Giannini hauled its cash and records to safety — hidden under a carload of produce. With this stake he reopened his bank and was strong enough to weather the 1907 panic.

Every branch of his bank survived depression and panic, and Bank of America's 500 branch banks serve more than 3-million depositors in 300 California cities. Resources total more than \$6-billion.

Giannini liked to say the "best bargain" of his career was Clorinda Cuneo, whom he married in 1892, when she was 22. She died in 1941.

A solemn requiem mass will be held in San Francisco Monday.

## U.S. May Dismiss Judith Coplon Trial

WASHINGTON (AP) — Federal attorneys said yesterday the government may have to drop the six-weeks-old espionage trial of Judith Coplon if the trial judge rules they must disclose "vital secrets."

Judge Albert L. Reeves recessed the trial until Monday to study the critical decision. It centers on a demand by Defense Counsel Archibald Palmer that the government submit secret FBI reports in full.

Prosecutor John M. Kelley Jr. said the judge's ruling will determine whether the government faces "the sad choice of exposing vital secrets to the world or nolle prossing this case." ("Nolle pros" is the legal term meaning to be unwilling to prosecute.)

The documents Palmer demand ed are the full FBI reports — some of them relating to espionage and counter-espionage in this country — which Miss Coplon is alleged of having copied in abbreviated form and removed from the justice department.

## Berlin Railway Strike Settlement Hits Snag

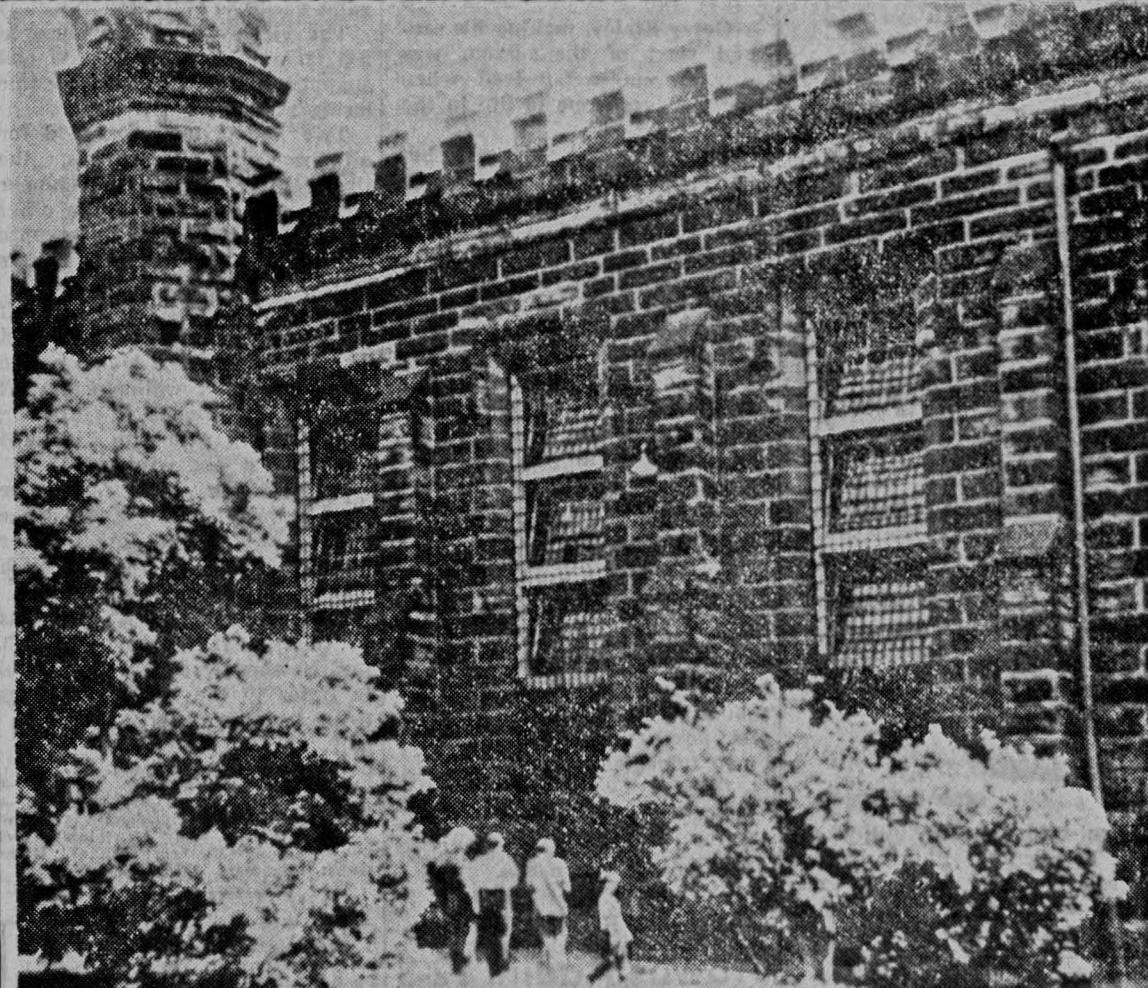

BERLIN (AP) — A conference of big four military commanders to settle the Berlin railway strike failed yesterday.

The 3 1/2 hour meeting, called at the request of the Russians, ended in a deadlock. It was the first such session of the commandants here in 50 weeks. A British spokesman said no plans were made for another.

British Maj. Gen. G.K. Bourne said six proposals for settling the 14-day walkout of 14,000 anti-Communist west Berlin workers were made by the western officers, but "it was a most unprofitable discussion."

Maj. Gen. Alexander Kotikov, the Soviet commandant, turned down all of them. He reiterated a

Fourteen Convicts Use Saws to Flee Prison

FOURTEEN CONVICTS FLED through the window on the right after sawing the bars with crude tools at the Moundsville state penitentiary at Moundsville, W. Va., yesterday. The convicts were able to make their mass escape after tying up a guard and throwing him into an empty cell.

## Desperados Flee Prison

MOUNDSVILLE, W.VA. (AP) — Fourteen "dangerous" criminals disappeared in this upper Ohio river valley area yesterday after quietly cutting their way out of the "tough section" in West Virginia's state penitentiary.

All wore plainly marked blue denim prison garb, but only one slim clue was picked up by hundreds of police from three states, a bloodhound and two scout planes.

Two guards found an abandoned stolen car and a prison cap at the edge of the Ohio river near Warwood, 12 miles north.

Warden Orel J. Skeen said some of them were "the most dangerous men in the prison." Six of them were lifers, four for being habitual criminals, and six of them were in solitary confinement.

Authorities believe Otto Neff, 38, serving a life sentence for the kidnapping of a Wheeling, W. Va., policeman, may have been the ringleader.

It was the biggest break in half of darkness.

The judge repeatedly stated that Gates, 35-year-old editor of the Communist Daily Worker, could purge himself of contempt by agreeing to answer U.S. Attorney John F.X. McGohey's questions.

The judge denied all requests to stay his remanding orders pending appeal to a higher court or to revoke them.

He asserted, "The proceedings in the United States district court over which I preside will be as orderly as I can make them."

The documents Palmer demand ed are the full FBI reports — some of them relating to espionage and counter-espionage in this country — which Miss Coplon is alleged of having copied in abbreviated form and removed from the justice department.

**China 'War Lord' Becomes Premier**

CANTON, CHINA (AP) — Marshal Yen Hsi-shan became premier of what is left of Nationalist China yesterday.

The 66-year-old marshal, famed as "last of the war lords" of another era, succeeds Gen. Ho Ying-chen, who had been trying to resign since the breakdown of peace talks with the Communists in April.

Members of the legislative yuan, which approved Yen's appointment by Acting President Li Tsung-jen, expressed hope he could unite the bickering Nationalists and continue the civil war against the Communists.

**ESTABLISH RELATIONS**

BARCELONA, SPAIN (AP) — Minister of Foreign Affairs Martin Artajo said yesterday Paraguay and Iceland had established full diplomatic relations with Spain.

Russian request that western Berlin police be withdrawn from western sector stations, where they were sent to replace Soviet sector railway police after rioting early in the strike.

Brig. Gen. Frank L. Howley, the American commandant, told newsmen "a great number of proposals were offered and discussed."

The Russians control the Berlin railway system, under a four-power agreement of 1945. The west Berlin railway men struck with a demand for full payment of wages in west marks, recognition of their independent union as their bargaining agent, and job security. They voted 13,477 to 398 Thursday against accepting a

Communist - sponsored compromise which would have provided for payment of 60 percent of their wages in west marks.

Bourne said the six proposals made by the western allies included a suggestion that the railway management and strike representatives meet under a neutral chairman. Another was for the deadlock to go to an arbitration court under a neutral judge. A third called for talks between Willy Kriekemeyer, president of the railway, and west Berlin's lord mayor, Ernst Reuter.

But Kotekov said "no" to them all. He said he wanted the west Berlin police removed from the stations and a resumption of service.

# Hawks Assured of Tie for Title As Bucks Slaughter Purdue, 13-1

## Ohio's Perini Hurls 4-Hitter

COLUMBUS, O.—Purdue lost its chance of winning the undisputed Big Ten baseball championship yesterday when Ohio State swamped the Boilermakers, 13-1.

The victory by the Buckeyes assured Iowa of a share of the title, along with Michigan and Indiana, all with 8-4 records in conference play.

A Purdue victory today would boost the Boilermakers into a four-way deadlock for the pennant, which would be the first such finish in the 53 year history of the league.

**Ohio State Pitcher Pete Perini limited Purdue to four hits, while his teammates pounded four Purdue pitchers for 18 hits. Perini, in holding the Boilermakers to one run, struck out eight and walked three.**

Purdue was never in the game. The Buckeyes scored five runs in the first inning, two in the second and third innings and added another in the fourth. For good measure the Bucks added two more runs in the sixth inning and completed their scoring with a single run in the eighth.

The two teams meet this afternoon in the final game of the conference schedule.

## Phillies, Reds Split; Remain Tied for 5th

**PHILADELPHIA (AP)—The Philadelphia Phillies and the Cincinnati Reds ended yesterday's doubleheader just where they started—tied for fifth place in the National league pennant race.**

The Reds won the opener, 3-2, on the strength of Lloyd Merriaman's triple and Pinch-Hitter Danny Littwhiler's outfield fly in the ninth. The Phils came back to square accounts, 3-1, as Andy Seminick, hero of Thursday night's home run battle with three round trippers, drove two runs home with a first inning double.

Cincinnati took a 1-0 lead in the fourth inning of the opener on Frankie Baumholtz's double and Jimmy Bloodworth's single. The Phils stepped to the front in the seventh with Richie Ashburn and Gran Hamner each driving in a run. A single, sacrifice, wild pitch and Hank Sauer's fly gave the Reds another counter in the eighth.

## Unearned Runs Put Yanks Past Chisox

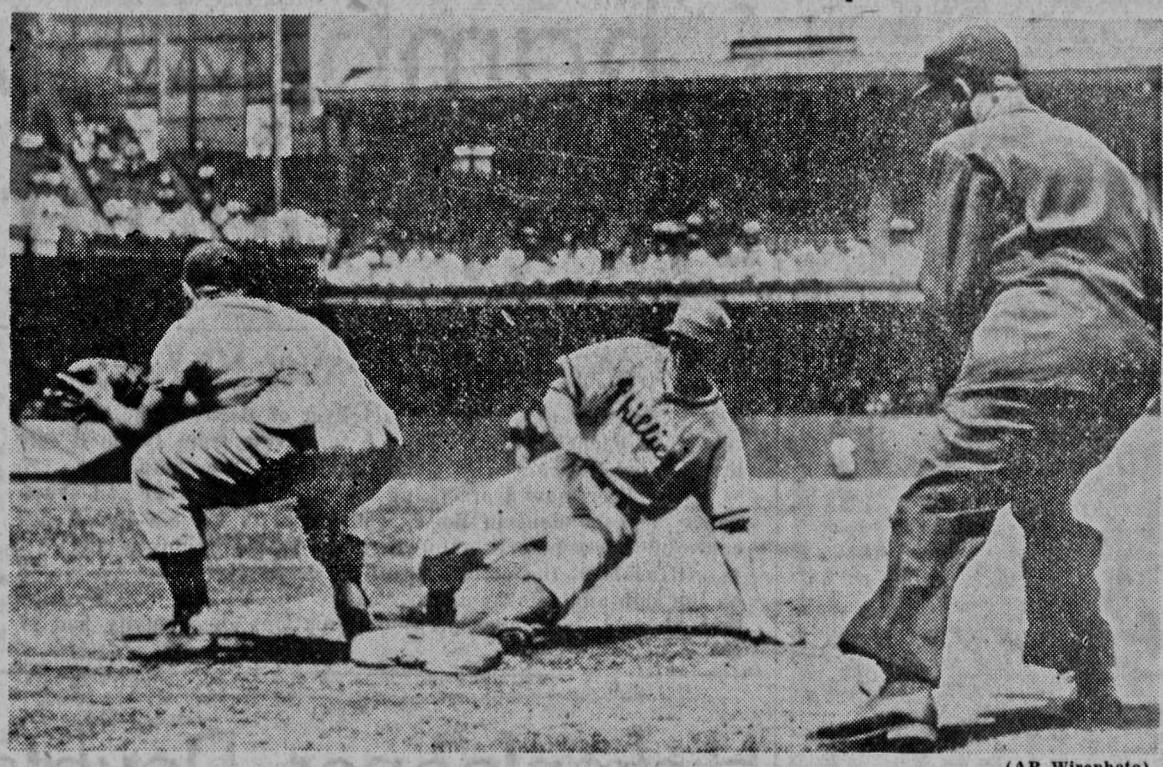

**CHICAGO (AP)—The league leading New York Yankees cashed five unearned runs on two errors by Luke Appling last night to win a three hour and 28-minute marathon contest from the Chicago White Sox, 9 to 7, before 31,560 fans.**

A total of 35 players, with the Sox using 18, added an inflation note to a raggedly played game in which four Yankee hurlers handed out 10 walks and four Sox pitchers issued seven passes.

New York . . . . . 050 001 300—9 10 3

Chicago . . . . . 140 002 000—7 10 4

## Ashburn Skids—So Do Phillies in Opener

DOING A HANDSTAND SLIDING BACK into first base is Richie Ashburn, Philadelphia Phillies outfielder, in the finest inning of the first game of yesterday's doubleheader between the Phils and Cincinnati. Waiting for the throw is the Reds first sacker, Ted Kluszewski, while Umpire Al Barlick calls the play. The Phils and the Reds ended the doubleheader just where they started—tied for fifth place. Cincinnati won the opener, 3-2, and Philadelphia the second game, 3-1.

## Six-Run First Frame Helps Indians Swamp Red Sox, 8-1

**CLEVELAND (AP)—A six-run first inning enabled big Early Wynn to coast to an 8-1 victory yesterday over the Boston Red Sox, while his Cleveland Indian teammates slashed out 10 hits.**

The victory was Wynn's third within two weeks. He had a two-hit shutout going into the eighth when Johnny Pesky's safe bunt, a ground cut and Bill Goodman's single produced the Bosox' lone marker.

The tribe fell on righthander Joe Dobson right at the start.

With one out, Thurman Tucker and Lou Boudreau walked. Larry Doby forced Boudreau, and Dale Mitchell drew a pass to fill the bases.

It was at this point that rookie Third Baseman Al Rosen got the first extra base hit of his major league career—a double down the right field chalk line that drove home three runs. Mickey Vernon followed with his sixth homer of the year to add two more scores.

Wynn, hitting in 13 previous trips to the plate this season, got the first of his two singles at the end of the first frame rally. Jim Hegan, who had walked, was able to plate the sixth run when Rightfielder Al Zarilla misplayed Wynn's hit.

The veteran lefty was handed a 2-0 lead in the first inning on Andy Pafko's fifth home run of the year but couldn't hold it.

Jack Lohrke led off the Giant half of the first with his third homer and the Giants put the game on ice in the second with a four-run attack.

Monte Kennedy, who went the distance for the Giants, singled to start the second frame uprising. Lohrke was safe on a fielder's choice. Lockman then tripled home two runs. Gordon followed with a two-bagger and came around on a passed ball and ground out.

Chipmen left for a pinch-hitter in the fourth and the Giants took to McLish like ducks to water, combing him for eight hits and ten runs.

Two of the safeties allowed by McLish were Gordon's eighth homer in the fourth inning and Bobby Thomson's eighth in the seventh inning.

Kennedy, given an early lead, cruised to his fifth victory. The southpaw granted eleven hits including Pafko's round-tripper and another by Roy Smalley.

## Dodgers Beat Cardinals, 5-2

BROOKLYN (AP)—The Brooklyn Dodgers salvaged the final game of their three game series with St. Louis yesterday, beating the Cardinals, 5-2, on the strength of a four run seventh inning run.

Gerry Staley, making his second start of the season, was working on a 2-0 lead when the Dodgers came to life in the seventh.

Staley retired the first two batters but Gene Hermanski followed with a single and Gil Hodges with his fifth home run of the season to tie the score. Carl Furillo kept the rally alive with a triple to the exit gate in right center field.

The young righthander then intentionally walked Bruce Edwards and was relieved by Ted Wilks. Winning pitcher Paul Minner followed with a single to score Furillo and Pee Wee Reese came through with another one-bagger to plate Edwards.

Lefty Joe Hatten started for Brooklyn and yielded both Cardinal runs in the fifth when Ed Sauer singled and Nippy Jones homered. Hatten left in the sixth complaining of a kink in his shoulder blade. Minner took over and picked up his second victory of an unbeaten season.

The coed who is definitely "up par" is Marty Baker, A2, La Salle, Ill. Finalist in last year's Chicago District Women's Golf tournament, Marty "teed off" on her golfing career at the early age of

Her father, who has been a golfer for many years, made her small set of clubs and Marty began learning puts and drives one with her abe's.

I went out with the caddies every day and decided to learn to play as well as they did," Marty said.

The amateur golfer started playing seriously at the age of 12 when she entered a pro-amateur tournament in California with her father.

Dad and I played alternate shots, and we came in second," said.

At 16 Marty entered the Chicago Tam O'Shanter tournament where she sank a 150-yard four iron shot.

The most exciting part of the tournament was when Horton and Lloyd Mangrum consulted me on the shot," she said. Both are top-ranking professional golfers.

It was in the Tam O'Shanter that Marty was dubbed the "barefoot queen of the fairways" by a Chicago newspaper. Unable to get golf shoes to fit because of the war shortage, Marty began playing without them.

"It worked just as well except when I burned my feet in the sand traps," she said.

Last summer the coed-golfer won second place in the Chicago District Women's golf tournament, and was medalist with a low score of 80.

Marty prefers shorts and shirts to regulation golfing dresses.

"However, I do wear shoes now," she added.

As for summer plans, Marty expects to be touring the links again.

"If all goes well, I'll enter the state tournament and the Tam O'Shanter."

## Personal Notes

The Iowa State Dental examining board was entertained at a 6:30 dinner Thursday evening at the home of Dr. and Mrs. Frank Whinery, 1023 Kirkwood Avenue. The board has been conducting examinations in the SUI college of dentistry.

Mrs. Charles DeLung, 709 E. Davenport street, honored Earline Calta with a miscellaneous shower at her home last night. City high schoolmates of the bride-elect surprised her Thursday evening with a buffet supper. Marilyn Goode of Ottumwa is a week-end guest at Miss Calta's home, 720 E. Davenport street.

Mr. and Mrs. Paul Duffy, 319 S. Capitol street, are the parents of a girl born Thursday at Mercy hospital. The baby weighed 7 pounds 4 ounces.

# Nanking Puzzled

(This is a dispatch from Nanking describing how the people of the former Nationalist capital of China are accommodating themselves to the new Communist rule. These dispatches were brought out to Shanghai by UP's Nanking manager and sent to New York.)

By THE UNITED PRESS

NANKING — A tolerant Communist administration has brought relative economic stability, efficiency, unemployment and a mild business depression to this former Nationalist capital of China.

Unemployment and a business depression were expected as Nanking switched governments. The departure of the Nationalist regime threw 120,000 civil servants alone out of work and left, with their dependents, perhaps 500,000 inhabitants without means of support.

But the tolerance shown by the

## Dust Storms

### Bakersfield People Have Plenty

By THE UNITED PRESS  
BAKERSFIELD — The dust-bowl blight that wiped out huge chunks of midwest farming land during the mid-thirties threatens to overtake a multi-million dollar hunk of California.

The area involved, four big counties in the southern end of the rich San Joaquin valley, has not yet become a dust bowl. But it appears well on its way. Crop and property values and the health of its urban and rural residents are endangered.

Already the windy, choking plague has lifted an estimated 250,000 acres of irreplaceable topsoil from Kern county alone, according to District Conservationist Floyd Tumelson.

It has produced an increasing incidence of respiratory ailments classified loosely under the medical nickname of "Bakersfield lung." It has driven workers in the oil fields to wear masks and forced residents to move out of the area for their health.

Swirling dust storms, often as many as five in one week, have become an established part of the lives of thousands of San Joaquin valley residents. Some of the storm fronts are miles across and 5,000 feet high. The dust particles hang in the air sometimes for days, cutting the light to a dusk-like quality.

During the worst recent storm, last Christmas, the storm raged for 70 hours over Kern county. Mrs. Henry Raub, suburban resident of Bakersfield, filled 57 quart jars with fine silt from her housecleaning after a week's absence.

### I Shoulda Stood In Bed!

I'D RATHER BE RIGHT

## Noise Makers Smear

By SAMUEL GRAFTON (New York Post Syndicate)

I wonder what sort of a dreary token victory it was that has been sought against David E. Lilienthal. It is when such rumpuses as these are put on that I become most afraid that we, as a nation, are not seeing our problems clearly.

**NO ONE HAS MADE** any sort of sensible case to show that Lilienthal's administration of the atomic program has been anything but brilliantly successful. He himself was willing to try to prove that fact in a complete investigation — yet still the roaring effort goes on, to score in some way against this man, as if the hunger and the need to do so were too vast to be denied.

**IT WOULD BE NAIVE** to imagine that the petty charges made

against Lilienthal fully explain the immensity of the drive that was turned upon him. A minute quantity of Uranium - 235 has been lost, in a manner now conceded to be innocent; a fellowship has been awarded, in a non-secret field, to a man described as a self-avowed Communist.

I am willing to admit that some who opposed Lilienthal are truly disturbed by these facts, but, weighing them against a handful of feathers on an apothecary's scale, one cannot escape the conclusion that for some of those voices are raised, bitter and high, in press and Congress, these facts were not the cause of the drive, but only its occasion.

**THE PRESSURE AGAINST** Lilienthal has always been there; these trivial new developments were only the "break," the signal to begin. As the noise battalions move forward, one felt that the effort was, not to solve a couple of comparatively small problems, but to get the utmost from them — the opposition was obtaining more energy from less matter than even atomic science has ever been able to develop under Einstein's immortal formula.

**BUT I FEEL** that a country is in trouble when it, or a considerable part of it, begins to pamper itself emotionally in this way. What great strokes were dealt by this campaign against the tremendous current problems of the United States of America?

**SO FAR AS** I can see, none at all; one couldn't help feeling, as one watched the more vociferous side of this campaign, and noted the almost unexampled massiveness and fury of the attack, that it was satisfaction rather than calm, orderly solution that was being sought.

Satisfaction, perhaps against the ghost of Roosevelt, four years after his death, through attack upon a man whose name is so closely linked with the atmosphere of reform and high social optimism of the early Roosevelt days. Perhaps Lilienthal must be sacrificed to reassure some of us that that era is really closed.

**BUT IF THAT'S** the way of it, if these are the feelings which

fueled at least part of the anti-Lilienthal drive, then we are, as I say, in trouble — for that means that we are moving away from objectivity and reality in considering our difficulties, that we are wandering down the empty road of token victories, of emotional satisfaction, of winning arguments rather than solving problems.

The amount of energy that has been expended against Lilienthal was, at a minimum guess, twenty times the energy that is being devoted to averting the impact of our current decline in business activity, and one feels that it is not good, or right, to see a great nation wrestling in the shadows with shadows in this way, when there is reality to be confronted and managed.

**NO ROUTINE PROPOSALS** for improving security procedures within the atomic energy commission could, of and by themselves, produce the emotion which drenches this issue. And when so much emotion saturates a problem as was true in this matter, then the emotion itself is the problem.

A drift in a real world, full of peril, we are pausing to please and pamper ourselves, and you can add the willingness of some of us to do that to the list of our problems.

To meet the demand for a system which will permit withdrawal of profits in dollars, U.S.

of events, but this "does not show that the taxpayer has not held them for breeding or that they were held primarily for sale."

The decision — now under appeal — makes capital assets of the dairy and breeding animals. Income from the sale of capital assets is taxed lower than income from regular sales.

If the decision stands, farmers everywhere can file amended tax returns covering the past three years and may recover thousands of dollars.

The big worry now is what the decision will do to the nation's agricultural way of life. Imagine trading year-old cattle in for newer models. Just visualize used-pig lots with gaudy names, like, "The Smelling Irishman." The tax court's decision may be forward-looking, but we are inclined to doubt it.

## Labor Troubles Possible

Fourth Round Demands Worry Authorities  
Not All Strikes Are for Higher Pay

By THE ASSOCIATED PRESS

WASHINGTON — Government officials who keep tabs on labor matters said recently the nation may be in for a summer burst of strikes.

They pointed to mounting union demands for fourth round postwar wage boosts, increasing employer resistance to added labor costs, and bargaining difficulties over Taft-Hartley law provisions.

These authorities list imminent negotiations in the coal, steel, automobile and maritime industries as crucial in determining if there will be labor peace or strike conflict in the months ahead.

But a rash of smaller strikes could break out, too, they said privately. During the war, government controls over wages led many smaller unions to expect they could get the "pattern" pay awards won by the larger unions.

This tendency for the smaller unions to demand, and get, the "pattern" awards has continued to some extent after the war. Most unions got the 18-cent raise the big unions negotiated in 1946. The next year the pattern was about 15 cents, and in 1948 about 12 cents.

Now, the experts say, collective bargaining results depend more and more on an employer's ability to pay, or his own economic situation. So the variation among unions is widening all the time. But this may not sit so well with some unions which see others get more.

A private labor relations advisory service recently estimated fourth round wage increases given so far average just under eight cents an hour. Government officials think this may be high, that the average may be closer to six cents.

The surveys show a great many fourth round settlements without any pay boost at all. Others show unions settling for pension or other insurance plans, or improvements to existing plans, or extra holidays.

**John L. Lewis** is starting contract talks for a soft coal industry agreement to succeed the one expiring at the end of this month. He reportedly wants a bigger welfare fund and shorter work week. But he may run into trouble again with the Taft-Hartley law on his union shop arrangement.

Big fights are shaping up, too, in new contract demands of Philip Murray in the steel industry and Walter Reuther with Ford in the auto industry. These CIO leaders have contract talks starting soon.

Government officials are particularly worried over the possibility of a shipping strike. Three CIO unions have contracts expiring June 15. Many demands are involved, including the unions'

insistence on continuing their traditional hiring halls despite a labor board decision they are illegal under Taft-Hartley.

Complicating the negotiations where Taft-Hartley law provisions are issues will be the prospect that congress may change the law before adjourning for the summer.

Too Many Fingers?

**'Screwy' Nails Save Thumbs**

By DONALD KEY

Mashed thumbs and violent tempers should be fewer now that a new type of nail has been developed.

The nail is called a "drive screw" and is designed to reduce nail bending trouble.

The new nails are made by twisting square shaped nails which gives them a "screwy" effect. When driven with a hammer, they have a revolving action which tends to straighten the nail if it starts to bend.

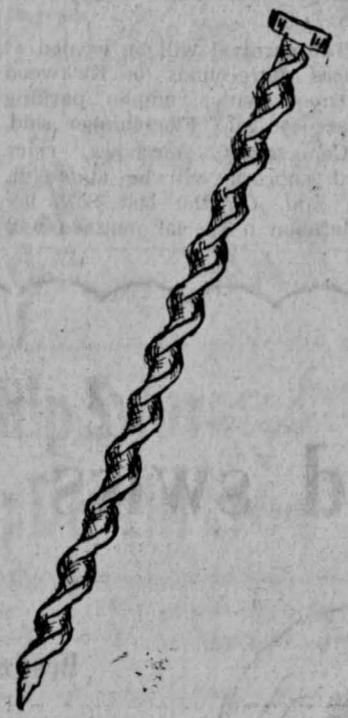

According to the U.S. Forest Service in Milwaukee, the new device will "eliminate to a large degree" the difficulties of nailing hard native lumber.

One of the big complaints concerning the use of native wood for repairs and construction has been its hardness, which makes nailing troublesome and often causes woods to split.

Harry Wagoner, farm forester in this area, said that the new type nails have a much higher holding capacity than other nails, and that wax can be used on them to make driving easier—without reducing the nail-holding ability.

Another new feature is the point, which is shaped like a small coal chisel. This reduces the prying action that sometimes causes wood to split.

Drive screws have been used effectively in large manufacturing companies, Wagoner added, to

**SUI Doctors Sent To AMA Meeting**

Seventeen staff members of the SUI college of medicine will attend the 98th annual meeting of the American Medical Association (AMA) in Atlantic City Monday through Friday.

They will represent eight departments of the college of medicine at what the AMA terms "the largest assembly of physicians in medical history." Over 16,000 doctors are expected to attend the Democratic midwest conference, said yesterday.

Brannan will give a detailed explanation of the administration's proposed farm program at a mid-western Democratic party meeting at Hotel Fort Des Moines, Jake More, Iowa Democratic state chairman and secretary of the Democratic midwest conference, said.

No definite plans have been made by Johnson County Democratic leaders to attend the meeting. The Johnson county farmers will attend as non-partisans.

## Charge Right-of-Way Violation in Accident

William D. Swain, E3, North Platte, Neb., was charged by police with failing to yield the right-of-way after his car was involved in a collision yesterday.

Swain's car and another driven by James A. Dunnigan, 1105 Kirkwood avenue, collided at the intersection of Burlington and Governor streets.

The Swain machine was going north on Governor street and the Dunnigan car west on Burlington street when the accident occurred, the drivers reported.

Dunnigan estimated \$50 damage caused to the right front fender and a tire of his car. Swain reported a bent brake pedal and a smashed right rear fender.

## Fire at SUI Laundry Causes Little Damage

Flatwork irons at the university laundry caught fire yesterday at 2 p.m. but caused very little damage, Laundry Foreman Bill Russell said.

Russell said he believed accumulated lint on the sides of the irons caused the blaze. Firemen extinguished the flames in 10 minutes.

**CONFESS BOMBING**  
MANILA, P.I. (UPI)—The national bureau of investigation said yesterday two ex-convicts had confessed to planting a time-bomb aboard the Philippine airlines plane which crashed May 7, killing 13 persons.

## McCarrel Reveals Registration Plans

Registrar Ted H. McCarrel announced the procedure for summer school registration yesterday.

All students except those in the colleges of law and pharmacy will receive their materials in the registrar's office, University hall, June 8 through 14.

Law and pharmacy students will get their materials from their college deans' offices. Materials will be given only to students presenting their student number cards.

Students entering the college of liberal arts for the first time must report to Macbride auditorium at 8 a.m., Monday, June 13.

Registration will be held in the fieldhouse Monday afternoon and Tuesday, June 13 and 14. Admission will be according to the alphabetical order determined by distribution of registration materials.

## Try and Stop Me

By BENNETT CERF

EMILY KIMBROUGH attended a luncheon in a fashionable suburb of Philadelphia where the eight-year-old daughter of the house was permitted to sit at the table after being reminded that "little pitchers are seen but not heard." She behaved like a little soldier all through the meal, never uttering a word.

As coffee was being served, however, she felt she simply had to say something. She waited for a lull in the conversation to put in her two cents worth. "Do you ladies know there are a kind of dog with two rows of buttons on its stummick?"

Mischa Elman, the violinist, played a concert at the Philadelphia Academy of Music on Dec. 1, another at Carnegie Hall Dec. 3, and then called it a day until the following January. "This is one year," he explained, "that I did my Christmas Chopin early."

### 'Take It Easy, Lady, He's Color Blind'

Lady, if your husband makes remarks about the color of your new dress, don't conk him with the nearest heavy object. Maybe he's just "color blind."

At least that was the conclusion reached by the late Prof. Selig Hecht of Columbia university in a paper prepared for the Better Vision institute.

Hecht discovered that only one in 500 women has anything wrong with her color sense compared with one out of every dozen men.

He said this "may account for many an argument about whether the dress is green or yellow, and whether the tie is red or green." Most of the trouble, he said, is with these colors.

"In fact," he said, "there is really no blindness involved at all. It is really color confusion. A 'color blind' person is not blind to colors, he merely confuses them."

So men, if the woman in your life says her new hat is red and you think it's green, you'd better take her word for it — she's probably right.

### GIRL INDICTED FOR MURDER

JOLIET, ILL. (UPI) — The Will county grand jury yesterday returned a murder indictment against Diane Allen, 13, who confessed she drowned her seven-year-old boy playmate just because she had an "urge."

She was Sherill McDonald, 4, Grinnell. Admitted to the hospitals Tuesday for diagnosis, she was reported in "fair" condition yesterday by hospitals officials.

John Rayman, 7, Elberon, was placed in the "active" ward Wednesday.

## Divorce Suit Filed By Marcia Cocking

Marcia Cocking has filed suit in Johnson county district court for a divorce from W. Glen Cocking.

Mrs. Cocking asks the court to award her a clear title to the home at 1711 Muscatine avenue and for an equitable interest in the Cocking Office Equipment and Supply store at 122 Iowa avenue. She also asks for the custody of their two minor children.

In a temporary injunction granted by Judge Harold D. Evans, Cocking is restrained from going to the home or the supply store and from molesting the plaintiff or the two children.

Judge Evans also ordered a writ of attachment issued against the defendant in the sum of \$10,000, as asked by the plaintiff.

Attorneys for the plaintiff are Messer, Hamilton, Cahill and Bartley.

### Second Polio Victim Sent to Active Ward

The second polio patient of the week and the eighth since Jan. 1 was admitted to the active ward yesterday at University hospitals, officials there said.

She was Sherill McDonald, 4, Grinnell. Admitted to the hospitals Tuesday for diagnosis, she was reported in "fair" condition yesterday by hospitals officials.

John Rayman, 7, Elberon, was placed in the "active" ward Wednesday.

## VFW to Sponsor Open-Air Carnival

Iowa City's second open-air carnival of the year will be sponsored by the Veterans of Foreign Wars Post No. 2581 from June 13 - 18. Committee Chairman George Floerchinger said yesterday.

The songs were chosen by college newspapers and radio stations and will be played by Vaughn Monroe and his orchestra.

WSUI and The Daily Iowan sent in these five songs as their selection: (1). "I've Got My Love to Keep Me Warm"; 2. "It's Magic"; 3. "You Started Something"; 4. "Far Away Places"; and 5. "It Only Happens When I Dance with You".

be held for children.

This is the second year the VFW has sponsored a show, Floerchinger said. Last year's carnival was "very successful," he added.

VFW profits will go for the junior and senior athletic fund.

### Johnson County Court Grants Tracy Divorce

Robert P. Tracy, 422 Brown street, was granted a divorce yesterday in Johnson county district court from Jean W. Tracy.

Tracy had charge cruel and inhuman treatment. The defendant failed to appear in court.

Messer, Hamilton, Cahill and Bartley were attorneys for the plaintiff.
