

The Daily Iowan

Est. 1868 — AP Leased Wire, AP Wirephoto, UP Leased Wire — Five Cents

Iowa City, Iowa, Sunday, July 3, 1949 — Vol. 83, No. 183

No Paper Tuesday

In order to give the staff a vacation over the Fourth of July, The Daily Iowan will not be published Tuesday, July 5.

The Weather

Mostly fair and continued hot and humid today. Partly cloudy and warmer tomorrow. High today 98; low 75. Yesterday's high 95; low 67.

Sweltering Heat Hits Iowa Citizens, Nation

Iowa Citizens — reeling from the temperatures which reached 95 degrees here yesterday — braced themselves for a sizzling hot Fourth of July weekend.

Of some consolation was the fact that most of the nation was receiving the same heat treatment.

For this part of the state, the weatherman predicted more of the same thing—heat. Temperatures were expected to range well in the high 90's again today and tomorrow.

Hot weather settled upon most of the midwest yesterday after winds of near tornado force swept through parts of Missouri, Iowa, Illinois and Wisconsin late Friday, destroying communication lines and other property, according to The United Press.

The winds lowered temperatures as much as 30 degrees Friday night, but most of the midwest was sweltering in 90 degree heat again yesterday.

Northwest of Chicago, at Stockton, Ill., a roof construction crew knocked off work yesterday when a thermometer against a brick wall broke after reaching 120 degrees.

Holiday travelers in the midwest saw the long stretches of rapidly growing corn and wheat benefiting from the hot July sun. But in the east, the effects of the multi-million dollar drought were visible. The hay fields were parched and truck crops were withering.

Easterners and midwesterners, alike, left the cities by the thousands to find relief from the heat in the country and in beach resorts.

With highways jammed with vacationers' autos, the accident toll of lives and property damage zoomed to startling proportions.

Over 125 deaths were reported throughout the nation by late last night. Most of the deaths resulted from auto accidents, but drowning and heat also took their toll. In Iowa the holiday death toll by last night stood at two, one from drowning and one from the heat.

Czechs Guard Their Priests

PRAGUE (AP) — Slovak peasants armed with scythes, pitchforks and clubs stand guard around their Roman Catholic priests to shield them from Communist police.

This was the picture given yesterday by reliable Slovak sources to responsible church circles and diplomats in this nation, torn by state-church conflict.

It was difficult, if not impossible, for westerners to go to the intensely Catholic eastern province to have a personal look at the situation because of travel restrictions suddenly announced by the government for diplomatic personnel.

These restrictions for the time being appeared to have sealed off troubled Slovakia with a little iron curtain.

The best possible sources of information in Slovakia reported villagers up in arms in various parts of the province, however, to prevent a repetition of the riotous scenes of last weekend.

At that time—according to reports from these informants and which since have been confirmed by reliable Czechs here — enraged Slovaks clashed with police who attempted to intimidate and arrest priests who were loyal to Archbishop Josef Beran, the nation's primate.

These reports said at least two police were fatally beaten.

UAW Votes Approval Of Strike against Ford

DETROIT (AP) — Defiant members of the UAW-CIO's largest local voted overwhelming approval yesterday for a strike against the Ford Motor company in the event the international union decides this action is necessary to back current contract demands.

Results of the secret ballot at the Rouge plant, announced by UAW Ford Director Kenneth Bannon, showed 2,902 in favor of a strike and 172 opposed.

However, there seemed little likelihood of an immediate walk-out by Ford's 106,000 employees.

The tension was eased Friday after the company and union agreed to extend the current contract on a day-to-day basis after it expires July 15.

McCLOY OPTIMISTIC

BERLIN (AP) — John J. McCloy said today he hopes to see Berlin and Germany united during his term as American high commissioner.

McCloy officially took over the job once held by Gen. Lucius D. Clay upon his arrival in Berlin by air yesterday morning.

Fears Arms Demand To Cause Trouble For Atlantic Treaty

WASHINGTON (AP) — A top senate Democrat last night cautioned administration leaders to soft pedal demands for early action on arms-for-Europe or risk "serious trouble" for the north Atlantic defense pact.

The senate opens debate on the 12-nation pact anti-aggression treaty Tuesday. Ratification by the required two-thirds vote now appears assured.

But Sen. Walter George (D-Ga.) told a reporter that pressure for action in this session of congress on the plan to send \$1.45-billion in American arms to the pact powers and other "free nations" could cause trouble.

George is a top ranking member and former chairman of the foreign relations committee and one of the senate's most influential Democrats. In an oblique warning to President Truman and Secretary of State Acheson he said:

"There will be no serious trouble in ratifying the pact unless they (the administration) insist too strongly on the arms program and bring in immediate demands for arms implementation of the pact."

It is known that Foreign Relations Chairman Tom Connally (D-Tex.), shares George's view to a large degree.

Connally has expressed "hope" that congress will be able to authorize and appropriate money for the arms aid plan before it quits for the year. But he steadfastly has insisted that the military program be withheld until the pact is ratified.

He reasons that premature presentation of the arms issue will cause many senators to regard the treaty in the light of a "military alliance," and he wants the two issues kept separate.

Acheson has urged publicly that Europe be assured that U.S. military supply assistance is on the way.

Elections in Mexico Open with Confusion

MEXICO CITY (AP) — Mexico elects a new federal chamber of deputies today.

There is plenty of confusion. Until the last minute the three legal parties charged there was fraudulent registration. They complained of incomplete voters' lists and poor location of polling booths.

There are 283 candidates for the 147 seats in the lower house of congress. The official party, Partido Revolucionario Institucional (PRI), with 147 candidates, is the only one with a full slate for the 28 states, three territories and the federal district.

The conservative Partido de Accion Nacional (PAN) has 69 in the running.

A new party participating in elections for the first time is leftist Partido Popular (PP) organized by labor leader Vicente Lombardo Toledano.

Pickets Hampered, Dairy Union Says

SHAWANO, WIS. (AP) — A pitched battle between strikers and law officers Friday was denounced by union spokesmen yesterday as "unprovoked" interference with peaceful picketing.

Ten AFL dairy workers faced criminal charges in county court yesterday morning as an out-

growth of the melee at the strikebound Consolidated Badger Dairy cooperative.

Nine were charged with resisting an officer, trespassing on railroad property and disorderly conduct. The other, union business agent Martin Young, was charged with advising and procuring other persons to resist officers. None of the 10 entered a plea and all were released on bond of \$100 each pending a preliminary hearing July 13.

Tear gas and night sticks were used by officers in Friday's battle on a railroad siding. One picket was taken to the hospital with a head injury.

Tall Corn Skyrockets as Kids Beam

AS THE FOURTH OF JULY nears, Iowa's corn is skyrocketing beyond the "knee high" stage. The corn above, on Lawrence Wilford's farm near Long Grove, has reached the tasseling stage. The Wilford children, Anna, 3 (left), and Patricia, 4, beam their approval.

New China Aid Bill Proposed

WASHINGTON (AP) — A group of senators yesterday planned to challenge the state department's China policy with a multi-million dollar program of military and economic aid to the Nationalist forces in China.

Sen. William Knowland (R-Calif.) told a reporter a "large number" of senators — both Republicans and Democrats — will support this new move to fight communism in Asia. The precise amount of aid to be asked has not been determined.

Secretary of State Acheson has said it would be disastrous for the United States to become involved in any large-scale effort to salvage the battered Nationalist government.

But Knowland, Sen. Stiles Bridges (R-NH), and others disagree sharply.

Knowland said the group will fight for an amendment to the foreign aid bill or some other appropriation measure to give Nationalist China the money, food, supplies and arms to continue the fight against the Communist armies.

The tentative plan also calls for

an American military mission similar to one sent to Greece to help in the fight against the Communist guerrillas.

Knowland said no American fighting troops would be sent to China, but the mission would advise the Nationalist armies and supervise use of the military and economic aid.

He took issue with a state de-

partment statement of March 21 showing the United States had given China \$1,000,300,000 in grants and credits for military aid since August, 1945.

Knowland said this figure is misleading. He said reports show that less than half this amount actually went into military equipment for China's armies.

Sees CP Underground

WASHINGTON (AP) — House investigators say there is evidence the Communist party will dive underground if its leaders are convicted of conspiring to overturn the American government.

Eleven of them are on trial now in New York and a twelfth will be tried later.

But, house un-American activities committee members believe that if the party decides to go underground in an effort to avoid additional prosecutions, it will leave some "expendables" out in the open to disguise the shift of the bulk of the membership. Com-

mitteemen believe arrangements may already be complete.

The committee has an idea that the men who would take over the party controls already have been picked and their assignments worked out.

Members say they have some supporting evidence developed in two separate investigations.

FIND ATOM ORES

GRAND JUNCTION, COLO. (AP) — A new discovery of vanadium and uranium bearing ore has been made near Rico, Colo., Blair Burwell, head of the Minerals Engineering company, said yesterday.

Philip Murray Urges War On T-H Backers

Calls Turnout At Polls in '50 To Out Foes

WASHINGTON (AP) — Philip Murray last night ordered the CIO to mobilize at once for political war against the congressmen who have blocked repeal of the Taft-Hartley act.

The CIO president said in a press statement that "apparently when the people's victory in 1948 was not decisive enough."

He called for a vote turnout in the 1950 congressional elections "that will remove the obstructionists and will insure the complete enactment of the people's program."

Murray lashed bitterly at

Taft-Hartley proponents as Democratic political strategists got set to make repeal of the law a top issue in 1950 as it was in 1948.

The Republican party gave every sign of being willing and ready to accept the challenge.

Murray said the "odious and malignant Taft-Hartley law," which he asserted was "conceived in malice and dedicated to the complete destruction of our free trade unions," has been kept on the books by a "reactionary bipartisan coalition in congress."

The issue was drawn this week when the senate, rejecting repeal, passed and sent to the house a 1949 model of the Taft-Hartley act written by Sen. Robert Taft (R-O). It faces certain death, either by the house or by presidential veto. That means the Taft-Hartley law stays on the books.

Even before the final vote,

the AFL and CIO had boldly announced plans to take the issue to the polls next year in the 1950 congressional campaign.

A.F. Whitney, president of the Brotherhood of Railroad Trainmen, said the workers will "pass final judgment at the polls upon Robert Taft and his fellow-supporters."

Democrats figured they are sure to benefit by labor's reaction.

They regard the Taft-Hartley law as the one issue that will insure intense political activity by organized labor in an off-year campaign when interest in political issues usually falls below the level of presidential election years.

The Republicans believe their position will have some appeal, too, although not to active opponents of the Taft-Hartley law.

SUI Removes Campus Political Ban

President Virgil M. Hancher and the SUI board of deans have approved new regulations governing the use of university buildings and facilities by political candidates and others.

The university regulations, based on the new policy set by the Iowa state board of education in January, state:

"Each political party, recognized as such under the laws of the state, may have equal opportunity to hold public meetings on the campus consistent with the educational program of the university."

Five general sponsoring groups are recognized under the new rules: the university departments, faculty and employe organizations, student organizations, governmental and other public educational agencies and non-university organizations.

Non-university groups may use available facilities upon the invitation or sponsorship of a university department or the university administration.

Payment will be a fixed rental fee to cover costs plus an additional amount to be fixed with the approval of the finance committee of the Iowa state board of education. Appearance of outside groups will be subject to the approval of President Hancher.

The other sponsoring organizations will be allowed use of facilities on the same terms as for university departments, but they must pay a charge to cover costs when using the Iowa Union, the fieldhouse, or the auditoriums.

Student sponsored meetings must comply with the regulations of the university's committee on student life through the director of student affairs.

Profiling the Hard Way

PARIS, TEX. (AP) — Rebecca Ann Allen, 2, got her nickel back with interest.

The small daughter of Mr. and Mrs. C. B. Allen of Antlers, Okla., was brought to a Paris doctor after a nickel lodged in her esophagus.

The doctor operated to remove the nickel—and found a penny lodged there, too.

Coplon's Passport Is Revoked As She Awaits New York Trial

NEW YORK (AP) — Overseas airlines and other travel outfits were advised yesterday that Judith Coplon's passport has been lifted.

Airlines officials at first interpreted this as an alert to prevent her from fleeing from the United States. But Lincoln White, state department press officer, said in Washington that passports of persons convicted of a crime always are taken up.

Symington Claims Airforce Welcomes Policy Investigation

CHICAGO (AP) — The chief of staff of the airforce said yesterday that the airforce is minding its own business and the secretary of the airforce said it welcomes the chance to show the job is being well done.

Gen. Hoyt S. Vandenberg, the airforce chief of staff, said that the force does not want the duties and problems of the army or the navy and W. Stuart Symington, airforce secretary said his department will show at a forthcoming congressional investigation the effectiveness of its program and policy.

Both spoke at the third annual convention of the Airforce association, composed of air veterans. The convention was the occasion of a mammoth air show scheduled for today and Monday at the nation's air power at O'Hare airport near Chicago.

Vandenberg said the airforce was keeping to its own province of action.

"Hysterical statements that the airforce is on the verge of absorbing or abolishing the other services," he said, "would be merely humorous if they were not designed to mislead and confuse."

He said the airforce was the smallest of three military departments and was not engaged in any notable expansion.

"It does not cover the duties and the problems of others," Vandenberg said. "We are well occupied with our own airforce responsibilities for they are enormous."

"We are convinced," he added, "only that we can produce and would produce an airforce which would, in the long run, prove invincible."

Symington said a full-scale investigation of the airforce proposed by the house armed services committee would give the "welcome opportunity to bring before the congress and so to the American people the truth about your airforce — its policies, its practices, and its plans."

TRUMAN VIEWS ECONOMY

WASHINGTON (AP) — President Truman studied the nation's unemployment and general economic index yesterday as he cruised leisurely on the Potomac river on the presidential yacht.

Bulgaria's Dimitrov Dies in Sanatorium

SOFIA, BULGARIA (AP) — The death of Premier Georgi Dimitrov, internationally known revolutionary leader, was mourned last night by Communists the world over.

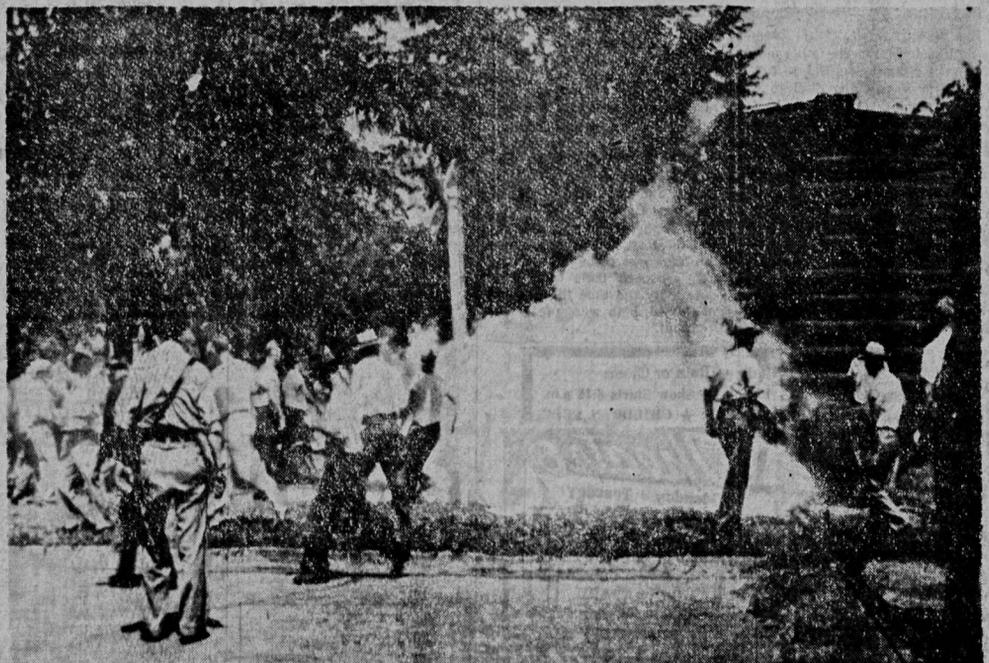

The Bulgarian Communist party's central committee announced last night the death in a sanatorium near Moscow, where Dimitrov had been under treatment for diabetes and liver ailments since April. He was 67 years old.

The communique said Dimitrov's death was a "heavy and indispensable loss for party, nation and people's republic." It called him an "outstanding fighter against fascism and imperialism."

The Kremlin itself set the pace in expressing grief at the death. The body was removed from Bordikka sanatorium to lie in state in Moscow's hall of columns in the house of union.

Prime Minister Stalin stood solemnly last night in a guard of honor before the body of his late friend, Dimitrov, the Moscow radio said.

Dimitrov had been premier since Nov. 22, 1946.

PICKETING EMPLOYEES of the strikebound Consolidated Badger Dairy cooperative in Shawano, Wis., scattered yesterday as police set off tear gas. When the pickets were dispersed, waiting freight cars

were wheeled into the plant. Before the melee was over, one man was hurt, eight others were arrested.

Dodger Homers Tip Giants, 13-5

Hermanski Hits Grand-Slam HR

NEW YORK (AP) — The Brooklyn Dodgers and the New York Giants belted eight home runs yesterday with the Dodgers socking four in the late innings to come from behind and beat the Giants, 13-5.

Gene Hermanski homered with two out and the bases loaded in the sixth inning to enable the Dodgers to tie the score at 8-8. Peeewe Reese snapped the deadlock in the eighth with his tenth homer of the season.

Carl Furillo hit an inside-the-park homer in the top of the ninth and Reese followed with his second of the game with two mates aboard to clinch the game for the Dodgers.

Rex Barney opened for the Dodgers and enjoyed a 4-0 lead going into the bottom of the third when the Giants knocked him out and tied the count on a pair of two-run homers by Bobby Thomson and Sid Gordon.

Catcher Ray Mueller hit his first homer since coming to the Giants from Cincinnati in the fourth off Paul Minner to give the Giants a 5-4 lead.

Willard Marshall tagged Minner for a three-run circuit drive in the fifth. Minner dug his own grave by walking Johnny Mize and Gordon before Marshall teed off.

Erv Palica relieved Minner after Marshall's blast and blanked the New Yorkers the rest of the way on one hit to even his record at 3-3.

Ward - Williams Meet For NCAA Golf Title

AMES (AP) — Slender Morris Williams Jr., a 19-year-old University of Texas student, and Harvie Ward of North Carolina, a tournament veteran at 23, will clash today for the National Collegiate golf championship.

They came through yesterday with semifinal round triumphs on the treacherous 6,055 yard Iowa State college course.

Ward, whose home is in Tarboro, N.C., and who was the 1948 North-South amateur champion, did not have serious trouble in eliminating Tommy Veech, the big boy from Notre Dame, 4 and 3.

Williams earned his championship match position with a sizzling comeback to oust Eli Bariteau, 20-year-old California amateur champion representing San Jose state, one up on the 18th green.

Phils Beat Braves; Tie for 3rd Again

BOSTON (AP) — Blix Donnelly, veteran righthander, tossed a six-hitter against the Boston Braves for a 3-2 victory that moved the Philadelphia Phillies back into a third-place tie with the Braves last night before a 21,661 crowd. One of the Braves' hits was Rookie Catcher Del Crandall's first major league home run.

Donnelly pitched himself out of a deep hole in the ninth. The Braves filled the bases with none out but Donnelly escaped at the cost of only one run before ending the game by striking out Pinch-Hitter Connie Ryan.

Max, Birds Together Again

BACK WITH ST. LOUIS is southpaw Max Lanier, (left) onetime National league leading pitcher who deserted the Cardinals for the Mexican league three years ago. Owner Fred Saigh of the Cardinals hands Lanier an envelope containing a contract calling for the pitcher's old salary of \$11,500. The chunky Lanier has been playing in the Quebec Provincial league. He rejoined the St. Louis club yesterday.

Pirates Pull Triple Play, Then Rally to Overhaul Chicago, 8-3

CHICAGO (AP) — The Pittsburgh Pirates made a triple play yesterday that had even the umpires bewildered for a time while licking the Chicago Cubs, 8-3.

With Walt Dubiel, Hal Jeffcoat, and Al Walker on base in the third inning Andy Pafko scorched a liner straight into the hands of Third Baseman Pete Castiglione. In trying to run for third base in the same motion, Castiglione dropped the ball.

The runners meanwhile were charging back to their original stations. Castiglione, therefore, picked up the ball, tagged Dubiel while he stood on third for out No. 1, stepped on third to force Jeffcoat for out No. 2 and then fired to Phil Masi who was yelling for the ball at the plate, having noticed that Pafko didn't run out the ball, Masi relayed to Johnny Hopp at first base for out No. 3.

The win assured the Pirates of keeping seventh place, as they routed Walt Dubiel with a five-run uprising in the seventh. Ralph Kiner touched off the explosion with his 20th homer.

Coleman Stops Red Sox, 3-1

PHILADELPHIA (AP) — The Philadelphia Athletics defeated the Boston Red Sox, 3-1, yesterday behind the four hit pitching of big Joe Coleman.

It was Coleman's best pitching performance of the year. After Ted Williams slammed a two-out triple in the first inning and scored on Vern Stephens' single, Coleman set down the Sox with two singles. One was by Dom DiMaggio in the eighth inning and the other by Bobby Doerr in the ninth.

The A's victim was Charley Stobbs, who celebrated his 20th birthday yesterday.

Golfer Plays Politics, Makes Hole in One

OKLAHOMA CITY (AP) — "I'd rather hit this ball into the cup than be elected governor of Oklahoma, Automobile Dealer Fred Jones told his golfing companions.

The ball hit three feet short of the cup on the 176-yard par three hole at the Oklahoma City country club course and rolled in for a hole-in-one.

It was the first ace for Jones in 30 years of golfing.

Three days ago he said he was seriously considering running for governor next year.

Hawketts Win, 8-2
Dick Doran hung up his 11th win of the season last night, stopping Ft. Madison on three hits, City high winning, 8-2. He struck out 15 home club batters.

Jerry Anderson had a perfect night, with two triples, two singles and a walk, while Rox Shain chipped in with a home run.

Yankees Defeat Nats As DiMaggio Gets Two Base Hits, 10-2

WASHINGTON (AP) — Joe DiMaggio celebrated his appointment to the American league's all-star team by driving home four runs on a pair of singles yesterday to feature the New York Yankees' 10-2 blitz of the Washington Senators.

DiMaggio has slammed home 13 runs in five games and has hit safely in 18 straight games over a two year span.

The Clipper, named to the dream team by Cleveland Manager Lou Boudreau, all-star pilot, singled across two mates in the first to spark a three run rally. He drove in two more in the eighth.

Gerry Coleman and Gene Woodling led the Yanks' 5-hit attack against Sid Hudson, Mickey Haefer and Dick Welteroth with three safeties apiece.

Lefty Tommy Byrn went all the way for the Yanks.

DiMaggio Named To All-Star Team

CHICAGO (AP) — Joltin' Joe DiMaggio, now in a roaring comeback after being a fixture among the New York Yankee halt and lame, will be back doing business as usual at the all-star stand in Brooklyn July 12.

The re-winged Yankee Clipper yesterday was named to the American league squad for baseball's major league classic in a special appointment by All-Star Manager Lou Boudreau of the Cleveland Indians.

Boudreau, in a statement released through the American league office, emphasized that picking Outfielder DiMaggio was just a matter of honoring a great player. He invited DiMag to join the squad more than two weeks ago, well before Joe bounced out of the crippled list with his big war-club booming this week.

"He's a great star who deserved to be named this year just as he deserved to be named to 10 previous teams," Boudreau said.

Browns Halt Tribe Rally, 4-2

CLEVELAND (AP) — The Cleveland Indians were unable to hit effectively yesterday and Drows and the St. Louis Browns.

Drows had to retire in the ninth inning when he was seized with an attack of wildness. Ned Garver got the Tribe out after allowing one hit and two runs. Bob Lemon was the loser.

Rookie Roy Sievers nailed the victory in the ninth with a three-run homer.

Pitching his first victory since May 11, Drows was well in command until he got his final inning jitters. He allowed the world champs only three hits.

Lemon gave a fairly good account of himself until that last inning. Up to then, the Browns had only one run, an unearned marker in the third inning due to Shortstop Ray Boone's wild throw to first base.

Vander Meer 3-Hits Cards for Reds, 3-0

St. Louis (AP) — Southpaw Johnny Vander Meer was as hot as the mid-west heat wave last night as he pitched the Cincinnati Reds to a 3-0 victory over the St. Louis Cardinals. Not a Redbird base runner reached second base on the 34-year-old veteran, who gave up but three singles.

Howie Pollet started for St. Louis and only gave up six hits but the Reds capitalized on bases on balls in each of the first two innings to score single runs.

The only extra base hit was a double by Virgil Stallcup, Redleg shortstop.

The win was Vander Meer's second of the season, against four setbacks, but both of his victories have been shutout performances against the Cardinals.

Ted Wilks replaced Pollet on the mound for St. Louis in the ninth inning.

Tigers Tame Chisox With 11th Inning Single, 7-6

DETROIT (AP) — The bats of Pat Mullin and Don Kolloway furnished the punch Detroit's Tigers needed yesterday to wrest a 7-6 victory from the Chicago White Sox in 11 innings.

Mullin came in in the ninth as a pinch batter with Detroit trailing 6-5. He lined one of Howard Judson's pitches into the right center field stands to send the game into overtime.

Both the White Sox and Tigers went out in the tenth, but George Kell doubled for Detroit with one out in the eleventh. After Mullin was walked intentionally, Kell moved to third on a long fly and scored on Kolloway's sharp single to right.

The victory put the Bengals back in third place in the American league standings, a game ahead of Cleveland which bowed to St. Louis.

Once Again Wimbledon Tennis Champ

RECEIVING THE WIMBLEDON TROPHY is Women's Tennis Champion Louise Brough, Beverly Hills, Calif. The Duchess of Kent (left) presents the trophy. Watching presentation is Mrs. Margaret Osborne du Pont (right), who was defeated in finals, 10-8, 1-6, 10-8. It was the second straight triumph in the event for the top-seeded Miss Brough. Presentation took place in London, yesterday.

Louise Brough Wins Wimbledon Singles Title

LONDON (AP) — Louise Brough, the Beverly Hills, Calif., blonde, outlasted Margaret Osborne du Pont of Wilmington, Del. 10-8, 1-6, 10-8, in a grueling duel to win the women's singles title in the Wimbledon tennis championship yesterday.

It was the second straight Wimbledon triumph for the sturdy Miss Brough who was able to withstand the pace of the match that lasted just short of two hours better than her rival.

Miss Brough thus joined Ted Schroeder of La Crescenta, Calif., who captured the men's singles Friday, in giving Americans a

virtual monopoly on the ancient British court championships.

Frank Parker and Pancho Gonzales of Los Angeles whipped Schroeder and Gardner Mulloy of Miami, Fla., in the men's doubles, 6-4, 6-4, 6-2, while Miss Brough and Mrs. du Pont took the women's doubles with an 8-6, 7-5 victory over Gussie Moran of Santa Monica, Calif., and Mrs. Pat Todd of La Jolla, Calif.

The Brough-Osborne match was an old story. These two rivals, who have met many times in the past, produced their usual close contest. By the time the third set got started, both were pretty well tired out.

Dodgers Sell Owen To Cubs for \$10,000

CHICAGO (AP) Catcher Arnold (Mickey) Owen, one of the "forgiven" jumpers to the Mexican league, yesterday was purchased by the Chicago Cubs, from the Brooklyn Dodgers for the \$10,000 waiver price.

Owens, now 32, was a highly rated defensive catcher before he fled the Dodgers for the Mexican league in 1946. He set a record of 511 consecutive chances without an error in 1941 and appeared in two all-star games and one world series.

The Cubs have sorely needed an experienced receiver since Bob Scheffing fractured his thumb May 17. Now that Scheffing has undergone another operation for removal of a bone spur on the thumb, he may be sidelined for another month.

Meanwhile, two young catchers, Al Walker and Ralph Novotney, have been doing all the catching for the Cubs.

CAPITOL

KEEPING WARM to keep cool in a meat cooler sounds strange, but Sam Spurchise, A2, Syracuse, N.Y., says this is one of the most effective ways to beat the heat. Attired in a coat, gloves and earmuffs, Spurchise chatters through a few pages of "American Federal Government." Perhaps he's trying to find out whether or not it's constitutional to propose a university meat-cooler bill for congress to filibuster.

How to Beat...

MARK TWAIN once said everybody talks about the weather, but nobody ever does anything about it.

But this adage won't hold sweat in Iowa City where most inhabitants are doing everything about the weather, especially the hot weather.

Their strategy in combating the heat is the same in some respects, but ingenious in others. On the other hand, they all have a common objective — cut down on perspiration!

Shown on this page are some methods used by students and Iowa Citizens in their all-out drive against Old Sol.

TWO BEAUTIFUL BABES use a hose and a tubful of water to bring the temperature down to a comfortable level. Carol Simmons, 3-year-old daughter of Mr. and Mrs. George Simmons, 124 Templin park, pours water on the little lass, Pamela Jane Townsend, 11 months, daughter of Mr. and Mrs. Charles Townsend, 111 Templin park.

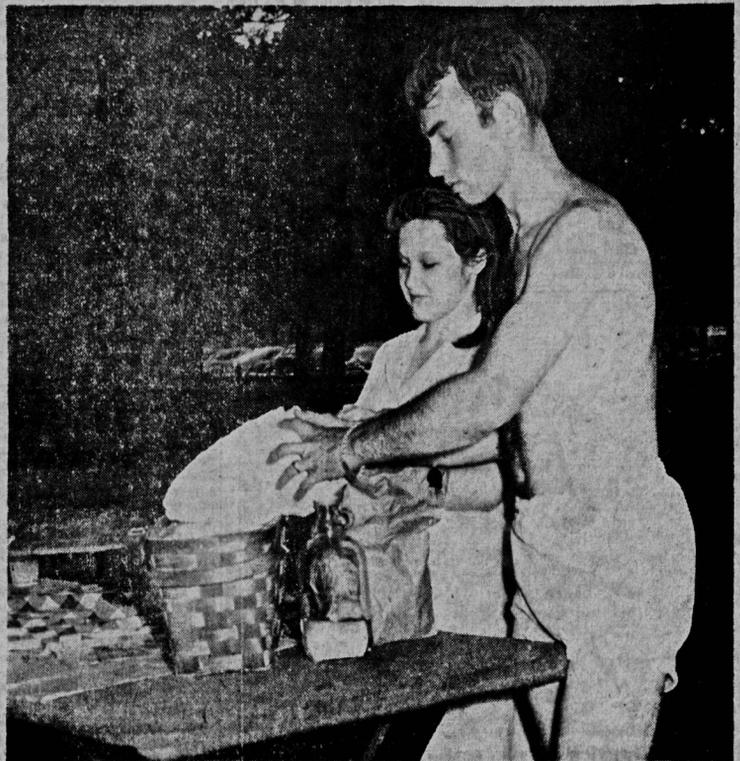

A LAZY MAN'S WAY to combat the heat is demonstrated by Sid Goldberg, G 110 Templin park. His method? Smoke four mentholated cigarettes all at once, sit in the shade of a tree, fan away the smoke and guzzle cold soft drinks.

EVERYONE COULD GET INTO THE SWIMMING POOL except the geese shown above and the photographer. Reason? "The pool is too crowded . . . too many photographers have already been here . . . we've reached our quota," said the pool director. Anyway, with a stretch of imagination the picture of the geese suggests another way Iowa Citizens are keeping cool.

...the Summer Heat

A RETREAT FROM THE HEAT. While many couples bravely perspired through meals at home, others decided to hunt cooler dining rooms. Mr. and Mrs. John Hollingshead set their table for a meal at City park.

HENRY

ETTA KETT

BASIC TRAYNOR

With the 4th of July on its way, the time has come to start thinking about celebrating. By this time I usually have a good supply of fire-crackers ready and have devised several fiendish tricks.

But alas, I find myself in a quiet state. Could head for the Illinois border but then again maybe it's not worth it all. Ever since a misdirected sky-rocket chased me four city blocks I have been losing interest in the things.

Think that this year I will settle for an afternoon in the new swimming pool. All it requires is forty cents and a shoe horn. The forty cents is the price of admission and the shoe horn is the means of admission.

Yes sir, they really crowd that place, but it makes it more interesting. Anyone can swim in open water, but did you ever try to swim with someone biting on your big toe?

You've got to watch your turns too. Now that I think about it, it really makes sense, but it didn't then.

I was splashing along—with one foot in contact with the bottom — and decided that I would change my course. Being an old lake swimmer, I started to engineer a very skillful turn.

(I take great pride in my turns. To those who have trouble making turns, I will throw in here, for what it's worth, that the foot on the bottom is most essential in executing a graceful turn.)

I had not turned more than fifteen degrees when I became involved in a collision. A young lady very angrily stood up and, after trying to adjust a bathing suit which refused to be adjusted anymore, put her hands on her hips and just glared at me.

"Do you know what hand signals are for, junior?" she asked. "It's jokers like you that make swimming dangerous." With that she took a hitch in her trunks and dog-paddled away.

It never occurred to me that a hand signal should be used under these conditions, but I can see now it is a very sensible thing to do. Maybe they could even come up with a swimming cap which had some kind of a rear view mirror attached to it.

I will admit that the deeper end is a little less crowded, but to venture into those waters requires the ability to stay on the top without touching the bottom. This can be difficult and can result in some very uncomfortable moments.

Then too, you've got to contend with all those people flying through the air. They have the boards at that end; and one who swims there must constantly keep an eye skyward or he is liable to end up with his nose buried in the cement floor.

It's really a fine pool, though. But on some afternoons it reminds me of some of the bathing suits you see running around there. A case of too much in too little.

ANALYSIS OF THE WORLD'S NEWS AS — IT HAPPENED LAST WEEK

Congress

Housing Bill Passes; T-H Repeal Changed

The nation's legislators got off to a roaring start with consideration and final passage of the Truman multi-million dollar housing program. All eight of Iowa's representatives voted against the bill. The senate passed the bill in April.

Federal housing officials announced construction of new low-rent public dwelling units would begin in a year and promised slum clearance could get under way shortly afterward.

In the senate, consideration of the Taft-Hartley repeal bill was the talk of the week. The bill didn't look like the administration-planned repeal after 50 senators voted to keep T-H injunctions and government plant seizure provisions in the bill.

Those close to the Presidential ear predicted a veto if the bill passes the house in the same form it passed the senate. Meanwhile labor leaders made it clear they preferred to let the issue pass until the elections, when they could take T-H repeal to the voters.

For this week at least, Sen. Taft's championship of the bill bearing his name was victorious.

Labor

Lewis' Offer Rejected; Fear Anti-Trust Laws

Fourth round wage increase were in the offing if labor leaders made their plans stick. But plenty of strikes and disputes were news because of other actions.

In De Moines, CIO-UAW John Deere men voted to strike, protesting the firing of 35 men.

But those who depended on the public transportation systems to get to work and home were luckier than other commuters have been. Governor Beardsley averted a strike threat of transit workers with a promise of a conciliator.

UMW's John L. Lewis offered the coal industry a share-the-work plan which would put his men on a three day work week. The coal operators turned him down on the grounds they feared they would be violating the anti-trust laws. Lewis' miners viewed the situation with gloom, and family men declared they couldn't get along on three days work a week.

Interpreters declared the offer was stimulated by Lewis' desire to reduce even more the supply of above-ground coal, thus strengthening his hand in contract negotiations.

Hawaii's waterfront paralysis strike dragged on through its ninth week after efforts to settle the trouble fell through when union objections to a fact-finding board caused the negotiations to collapse.

In Pittsburgh, U.S. Steel corporation asked CIO President Philip Murray to resume wage conferences between the company and steelworkers next Wednesday.

Twin city construction and transportation strikes in St. Paul and Minneapolis failed to get through the negotiation stage to settlement.

And in Britain, government wage offers to rail workers on the government-operated railroad were turned down and a slowdown voted beginning tomorrow.

The one bright spot on the labor scene was the strike settlement at the Bendix Aviation plant in South Bend, Ind.

The Economy

Catalog Prices Down; Pass Insurance Refund

Treasury Undersecretary Edward H. Foley Jr. chirped hopefully that all signs point to continued prosperity for the nation, but he was the only cheerful one.

The agriculture department revealed average farm products dropped two percent between mid-May and mid-June. The department also announced it will support the price of this year's wheat crop at a national average of \$1.95 a bushel at the farmer's gate.

Fall and winter catalogs issued this week by Aldens, Inc. and Montgomery Ward showed prices ranging up to 40 percent. People sighed their relief, but it didn't help labor men seeking to catch up with the cost of living.

The Magnavox company in Fort Wayne, Ind., reported net sales for a three month period ending May 31 were up 15 percent over those for the same period a year ago.

Determined merchants the country over sought to keep credit controls tighter than depression times and declared they would not let installment buying drop back to the dollar down, dollar-a-week system initiated in the thirties.

Cold War

Shanghai Bombed Again As Blockade Enforced

Marshall plan countries were announced as having reached 'complete agreement on everything' in their efforts to stimulate mutual trade.

Trouble flared in China as Nationalist planes bombed Communist-held Shanghai again in an effort to blockade the port from foreign shipping.

America's state department protested the move, contending all foreigners had the right to deal with Communist China. Then the Nationalists, informed the U.S. in a bluntly-worded note they did not care what the U.S. thought about their actions.

They added they intended to enforce the blockade because it wasn't a blockade so far as international law could interpret the blockade.

Elder statesman Bernard Baruch also was rebuffed when President Truman told the press this country did too have a standby mobilization for use in event of war.

Also in Washington, the army announced withdrawal of the last American occupation troops from southern Korea. Then the house voted \$150-million to the fledgling democratic government now on its own in the center of a Communist domination sphere.

While the mid-west sweltered and prayed for rain in high nineties temperatures, farm experts in southern New England believed their crops were threatened by the drought. Freakish cold weather in the far west damaged other crops, but the midwest corn crop was believed saved by the frequent occurrence of rains.

Wheat took a beating from heavy rains in Washington; cherries were feared a total loss in Oregon; cold weather damaged potatoes, grain and clover at Klamath Falls, Oregon; and 20 percent of the hay crop in Massachusetts, Rhode Island, and Connecticut was scorched out by the dry weather.

New York went a record-breaking 35 days without a general rainfall.

And down in Argentina, natives shivered in below-freezing temperatures as the first cold wave of the winter hit the continent.

Iowa

Agents Stop Gambling Mother Rescues Boy

State agents seized gambling equipment in a surprise raid this week. Storm Lake was the scene, and County Attorney Wendell T. Edson said charges of illegal possession of gambling equipment would be filed against operators of two establishments.

In Davenport, a Bettendorf mother averted a near-tragedy in the Vander Veer park lagoon when she waded into the water to her neck to save a young boy who 'eft the scene too quickly to give his name and age.

Her only reminder of the incident was a sore foot she nursed, as a result of bruising her foot on a stone in the water.

Iowa City

Drop 4 Week Session; Name Governing Board

SUI alumni secretary Robert Noble was acquitted of reckless homicide charges by a jury which deliberated only 10 minutes. Noble was tried in connection with the death of two persons killed when his car struck them as he returned from the Notre Dame football game in 1947.

He still faces the possibility of trial in the death of one of the persons.

The four week study period for veterans was dropped from SUI's summer schedule this year. Registrar Ted McCarrel reported 120 students asked for more than 80 courses to be offered.

Lamar Aaron, 23-year-old SUI student who disappeared the week before, phoned his mother from a summer camp in New York. Police had feared foul play or amnesia was involved in Aaron's disappearance.

SUI President Virgil M. Hancher announced the college of medicine will be governed by a five-man board until a successor is appointed.

Names in the News

Beulah Overell, tried and acquitted two years ago in the explosion death of her mother and father aboard the family yacht, got a license to marry a Los Angeles policeman.

Jennifer Jones received the French film award as the best non-French actress of 1948.

Sen. Wagner signed as senior senator of New York and set the nation's politics guessing who would be his successor.

Scraps

Marino Promises Test To Check His Story

The parents of a slain 17-year-old girl persuaded Arthur Marino to take a lie detector test to check his story that he was forced to drink searing liquids which made him lose his voice and killed the girl.

In a new anti-trust suit filed by

the government, the du Pont industrial empire will defend its controlling interest in General Motors and the U.S. Rubber company.

Once Over Lightly

Drivers Sweat and ??; Officials Explain Why

With the temperature hovering at 83 degrees Omaha motorists were puzzled to find signs on a repair project which read "No parking until snow is removed."

Street department officials explained these signs were the only ones the department had for hooding parking meters.

In Marlette, Mich., William R. Rzeznik was riding in a friends' car. Rzeznik put a leg out the car window to catch the cooling breeze.

The car sideswiped a cow and Rzeznik fractured his hip and leg.

The driver of the car was not injured. Neither was the cow.

Sports

Yanks Still Winners; DiMaggio Back Now

In baseball while the New York Yankees maintained a comfortable first place margin over the Philadelphia Athletics, Joe DiMaggio returned to the New York lineup with a bang, smashing four home runs in the first three games of the 1949 season.

His much publicized heel injury kept the Clipper out for the first 64 championship games.

In golf, the college boys gathered at Ames for the NCAA tourney, with West Texas state winning the team title. Individual titles will be determined today.

EVEN THE KIDS are excited as they wait for the jury's verdict in the trial of Judith Coplon (consulting her watch above.) Miss Coplon, former justice department employee, was later convicted of espionage and sentenced to serve from 10 months to 40 years.

WINNING SMILE OF SIGMUND ENGEL whose trail of conquest led from coast to coast is here displayed as he waits in jail to face grand theft and larceny charges. Listed at 73 by police (he claims he's 80), the silver-haired Lohario fleeced women between the ages of 35 and 40 of their money.

SECRET SERVICE CHIEF U. E. Baughman examines bogus bills seized in Washington in a raid which caused the arrest of four men and the wife of one of the men in an elaborate counterfeiting set-up. The group also had an engraving plant where they made their bills.

CHORDS AND DISCORDS

Jazz, one of the most over-worked and misused words in the English language, has been applied to all kinds of music. Generally speaking, it is used to denote that form of music which is peculiar and symbolic of America — America's gift to the culture of the world.

The evolution of jazz has been brought about by individual contributions of a host of musicians. New Orleans, home of Negro musicians who contributed the rhythm and feeling for jazz, provided the background against which the foundation of jazz was projected.

Storyville, a famous section of New Orleans that saw the birth of the blues, played an important role in jazz development.

In short, jazz did not come into being from a single source but was instead a collective process — a mixture of music, events and people.

Buddy Bolden's career may be pointed to as the starting point of jazz. Bolden moved his brass band into the dance hall in the early 1890's.

The music that his band produced was entirely un-rehearsed because few of his musicians were able to read music. At least one man, however, was carried along in order to start each song and set the tempo.

When Storyville became the mecca of musicians, jazz was given a real shot in the arm.

ARTHUR MARINO points out to disbelieving police officers who his fiancée, 17-year-old Joan Coward, lay after two men Marino was unable to identify forced the couple to drink liquids which killed the girl and made Marino lose his voice temporarily.

Sets Hearing For Anderson

A hearing on the motion asking that Oscar Anderson, 58, be returned to the men's reformatory was set for 10 a.m. July 20 by District Judge James P. Gaffney yesterday.

The motion, filed Thursday by County Attorney Jack C. White, charges that Anderson was not legally discharged from the criminal insane ward at the Anamosa institution.

Anderson was committed to the Anamosa ward after a Johnson county jury adjudged him insane in October, 1948 while he was on trial for the attempted murder of Clifford Kelly, 47, Iowa City salesman.

He was returned to the Johnson county jail by Sheriff Albert J. (Pat) Murphy June 16 after Anamosa authorities declared him sane.

Judge Gaffney ordered that notices of the hearing be served on Davis and the state attorney general.

SUI Journalism Graduates Wed

Mr. and Mrs. James R. McGuire

James McGuire Weds Miss Mary L. Moore

The marriage of Mary Lou Moore and James R. McGuire was solemnized yesterday at 10 a.m. in St. Thomas More chapel with the Rev. Leonard J. Brugman officiating.

The bride is the daughter of Mr. and Mrs. W. H. Moore, Des Moines, and has been woman's editor on the Cedar Rapids Gazette since graduating from SUI in June, 1948. Mr. McGuire received his B. A. and M. A. degrees from the university in 1948 and is farm editor of the Rock Island Argus. He is the son of Mr. and Mrs. James McGuire, Rock Rapids.

A reception was held in the Iowa Union following the ceremony.

Mrs. McGuire was a former society editor of The Daily Iowan and is a member of Theta Sigma Phi, national fraternity for women in journalism. Mr. McGuire is affiliated with Sigma Delta Chi, men's journalism fraternity.

Prof. Bach's Novel, 'The Dream Gate,' Scheduled for Fall

Prof. Marcus Bach of the SUI school of religion will have his first novel "The Dream Gate" published by the Bobbs-Merrill company in early fall.

For his first novel, Bach has dipped into the rich and hitherto unused material of the Hutterian people, one of America's foremost communal societies. During the past 10 years he visited most of the eight communities in South Dakota, two in Montana and nearly 30 in Canada.

He understood the German dialect used by these isolated groups and lived with the people and studied their life and traditions.

Bach knows the Hutterians so well that the Manitoba legislature once summoned him to testify at a legislative committee meeting. They wanted to know what he thought about the Hutterian system.

Bach was the first to record the songs of the Hutterians, hymns which have been handed down by oral tradition for 400 years. He calls the people "the last of the utopian experimenters." His story deals with the conflict between their way of life and the encroachment of the American way.

The leading character of "The Dream Gate" is a 10-year-old Hutterian boy who feels the pull of the world and longs for self-expression.

The boy is the symbol of a new generation and through him there is the conflict of two ideologies — the way of the commune and the system of private enterprise.

Bach explains the title this way: "We all have goals we would like to reach, dreams we long to have come true. We all have our inhibitions and restraints. My character, whom I call Little Mike, is just another name for the reader of 'The Dream Gate.'"

Originally the book was planned to be entitled "Little Mike" but it was felt that it might label the book as a juvenile story, Bach said.

Bach's two previous books were non-fiction, "They Have Found a Faith" and "Report to Protestants."

Town 'n' Campus

SARA HART GUILD — The Sara Hart guild will meet Thursday at 6:30 p.m. in the First Christian church.

TERESAN STUDY GROUP — Mrs. Hugo Sippel, 318 E. Jefferson street, will be hostess to members of the Teresan Study group at a buffet supper Tuesday at 6 p.m.

WOMEN OF THE MOOSE — Miss Geraldine Stimmel, new senior regent, will preside at the business meeting Tuesday at 7:45 p.m. in Moose hall. The executive meeting will be at 7:30 p.m.

NEWMAN CLUB — The July 5 meeting of the Newman club has been cancelled. The next meeting of the Catholic youth group will be July 12.

ELKS LADIES' CLUB — A business meeting followed by the installation of officers will be held Tuesday at 2 p.m. at the Elks' club.

UNIVERSITY OF IOWA DAMES CLUB — A Business meeting for the University of Iowa Dames club will be held Tuesday at 8 p.m. in the Wesley annex.

INTER-VARSITY CHRISTIAN FELLOWSHIP — Members of Inter-Varsity Christian fellowship will hold their regular meeting July 5 at 8 p.m. in conference room 1 of the union. Al Sentz will lead the Bible study and discussion.

Red Cross to Help In 'Fourth' Activities

A first aid station will be set up at the City park the Fourth of July by the Johnson county Red Cross chapter, Mrs. Lorna L. Mathes, executive secretary, said yesterday.

The first aid chairman will be W.E. Starr, 812 Kirkwood avenue. He will be assisted by Chapter Chairman Walter L. Daykin, SUI professor of commerce, and Mrs. P.C. Jeans, 207 Black Springs circle.

A trailer and tent provided by the chamber of commerce and ambulance service donated by a local firm will be available. The men from the fire station staff, trained in Red Cross first aid, will be on duty at the Red Cross station, along with other trained Red Cross volunteers, Mrs. Mathes said.

UNION OPEN FOURTH
All facilities of the air-conditioned Iowa Union except the cafeteria will be open tomorrow. The soda fountain will be open from 9 a.m. to 7 p.m.

Overseas Newsmen Returns for Degree Here After 9 Years

Robert Haney, the city editor of the New York Herald-Tribune's European edition, is spending the summer at SUI studying for his bachelor's degree in liberal arts.

Haney, an SUI undergraduate student from 1938 to 1942, was given a leave of absence in May by the Tribune to return to the U.S. for study.

ROBERT HANEY

He expects to receive his degree in August and plans to continue his schooling this fall.

Haney left SUI to enter the army in late 1942. He took his discharge overseas and in the fall of 1946 joined the Herald-Tribune's European staff as a rewrite man. He was later promoted to city editor.

"I intend to spend the next school year doing work in the field of foreign affairs, especially pertaining to Soviet Russia. I am anxious to get back to work abroad just as soon as possible," Haney said yesterday.

Knowler, Olds Write Article on Statistics

Prof. Lloyd A. Knowler, chairman of the SUI mathematics and astronomy department, and Edwin G. Olds, Carnegie Institute of Technology, have had an article published in the June issue of the Journal of the American Statistical Association.

The article, entitled "Teaching Statistical Quality Control for Town and Gown," is an explanation of four different courses in statistics as applied to industrial problems.

Statistical quality control is that part of mathematical statistics used in maintaining control of the quality of a manufactured product.

POPEYE

ANY BITES YET, WIMPY?? NO!! NO BITES YET, POPEYE!!

HOWEVER, 'TIS AN IDEAL MOMENT FOR FISHING!! NOT TOO WARM!! NOT TOO COOL!! NOT TOO WINDY!! NOT TOO STILL!! NOT TOO EARLY!! NOT TOO LATE!!

USUALLY 'TIS TOO SOMETHING FOR FISHING, BUT EVERYTHING IS JUST RIGHT NOW!! I CAN'T UNDERSTAND WHY THEY DON'T BITE!!

DO YOU SUPPOSE THE WATER IS TOO WET TODAY??

BLONDIE

WHAT ARE YOU DOING, DADDY?

I'M SEWING A BUTTON ON MY COAT.

OH-OH--WHAT DID I DO?

OH, WELL, I'LL GO TO WORK WITHOUT MY COAT THIS MORNING.

MAMA, BRING A SCISSORS--DADDY SEWED ME AND HIS COAT TO THE CHAIR.
