## U.S. Forces in Germany May Form Part of Pact Defenses

HEIDELBERG, GERMANY (UP)—American war planes and troops based in Germany may become part of western Europe's permanent defense organization under the Atlantic pact, officers of the United States joint chiefs of staff indicated yesterday.

Gen. Omar N. Bradley, chief of staff of the army, said that the mission of German-based American troops probably would be worked out on the basis of information gathered during the tour he, Adm. Louis Denfeld, navy chief of operations, and Gen. Hoyt Vandenberg, airforce chief of staff, are making in Europe.

Vandenberg said that German-based American air power probably would play a part similar to that of the army in the western European defense organization. Commanders of the American forces in Europe gave facts and figures regarding American army and airforce strength in Germany and it was believed they were given intelligence reports on the strength of Russian forces in eastern Europe and especially in eastern Germany.

Bradley, Denfeld and Vandenberg opened talks with military leaders of western Europe at Frankfurt yesterday morning on the organization of the military might of Atlantic pact countries into a unified defense force. The talks were held in what was once the "war room" of Gen. Dwight D. Eisenhower, allied commander in chief, in the building of the former I.G. Farben chemical trust. The great battle maps, showing the high-point of the American advance to the Elbe river, were discreetly curtailed.

## Howley Quits Berlin Job; Taylor Hinted As His Successor

BERLIN (AP)—Brig. Gen. Frank L. Howley, the square-jawed Philadelphia who jousted with the Russians for four years as American military commandant of Berlin, is quitting to go back to civilian life.

The U.S. military government for Germany announced it has accepted his request to be relieved so he can go back home with his family next month.

Sources in the military government predicted his successor in Berlin would be Maj. Gen. Maxwell D. Taylor, chief of staff for American army forces in Europe and ex-commandant of the U.S. military academy at West Point. Howley won praise from John J. McCloy, the new U.S. military governor for Germany. The tough decisions he had to make in long dealings with the Russians earned him some respect from them as well.

In Frankfurt it was announced the new west German state will have an eight-member cabinet when it is formed to replace the present U.S. military government setup.

McCloy, who made the announcement yesterday, will become civilian high commissioner. He said the new government's eight major departments will be: economic affairs, political affairs, military security, labor, intelligence, public affairs, general counsel and administration.

## Berlin Airlift Slackens; End of Flights Oct. 31

FRANKFURT (AP)—The Berlin airlift began tapering off yesterday for its announced close down Oct. 31.

Three groups of the big C-54 transport planes which have been hauling supplies to Berlin for more than a year quit flying. They began packing up to go back to the United States.

The lift tonnage dropped to 4,800.7 tons in 540 flights.

## U.S. Ambassador Implicated in 'Five Percenter' Inquiry

WASHINGTON (AP)—John Maragon, a key figure in the senate's "five percenter" inquiry, yesterday urged an investigation of former Democratic National Treasurer George Killion and Henry F. Grady, present U.S. ambassador to Greece.

The former Kansas City bootblack who once was a familiar White House visitor, said the senate subcommittee checking his affairs should look into their part in the 1941 reorganization of the old Dollar steamship lines, San Francisco.

He made the statement at another impromptu news conference during which he also accused some members of a 1946 U.S. mission to Greece of "disgraceful" conduct, including drunkenness and fraternization with Communists. Maragon served on the mission.

Grady, who headed the mission and who now is in this country temporarily to work on the administration's \$1,450,000,000 arms aid program, said he had "no idea what Maragon was driving at."

"He never talked to me about anybody on the mission drinking excessively," the veteran diplomat said.

Grady said he was equally at a loss over Maragon's reference to the Dollar steamship lines. When the Dollar lines were reorganized by the U.S. maritime commission in 1941 as the American President lines, Grady was named president.

He held that post until the summer of 1947 when he was appointed ambassador to India. Killion succeeded him as president of the steamship company and still holds that job.

## Times-Herald Gets Woman Boss Again

NEW YORK (AP)—The Washington Times-Herald, guided for years by the late Eleanor Medill Patterson, again will have a woman at its helm.

Col. Robert R. McCormick announced yesterday his 28-year-old niece, Mrs. Maxwell Peter Miller Jr., will be put in charge of the round-the-clock newspaper.

Mrs. Miller — "Bazy" to her friends — is the daughter of a U.S. senator and the granddaughter of another. She is active in Arabian politics and breeds Arabian horses on her Peru, Ill., farm.

The Chicago Tribune, of which Col. McCormick is president and publisher, recently bought the Times-Herald from seven executives who inherited it under the will of Mrs. Patterson.

Col. McCormick said he will be president of the Times-Herald. Mrs. Miller will be vice-president and her husband will be secretary or treasurer. Chairman of the board will be F.M. Flynn of the New York Daily News.

## OKAYS FORT TRANSFER

WASHINGTON (AP)—The house yesterday passed and sent to the senate a bill authorizing the transfer of Fort Des Moines to the state of Iowa.

## Congress to Shun Excise Tax Action, House Leader Predicts

WASHINGTON (AP)—Congress won't kill any wartime excise taxes this session in spite of repeated demands and a request from President Truman himself, House Democratic Leader John McCormack (Mass) predicted yesterday.

Opening up the question might lead to repeal of all such levies and loss of \$1.7-billion in revenue, he said.

"You can't lose this much revenue without further unbalancing the budget and without levying other taxes," McCormack observed.

The lawmaker spoke to reporters as he emerged from a White House conference with President Truman where he and other congressional leaders talked about the congressional program Senate Democratic Leader Scott Lucas said "all agreed" there will be no early adjournment. This apparently meant another month or more.

McCormack doused cold water on the only tax reduction proposed in the President's economic

Maragon Holds Press Conference

FORMER KANSAS CITY bootblack, John Maragon (center, facing camera) told newsmen in Washington yesterday that a senate committee is checking a bank account he had three years ago in San Antonio, Texas. The committee is investigating "five percenters"—agents who arrange for contracts with the government.

## Romanian Catholics Ordered To End Charity Work Aug. 15

BUCHAREST (AP)—Romania's Communist-led government yesterday gave all Roman Catholic welfare orders in the country until Aug. 15 to wind up their affairs.

An official announcement said Catholic monks and nuns are no longer needed for welfare work, because the state now takes care of all their former functions.

It said the personnel of some 15 organizations devoted to charity, hospital and other social work among Romanian Catholics were dissolved as of yesterday. Their members are given 15 days to decide on:

1. Retiring to three cloisters and two monasteries set aside for them.

2. Entering old age homes.

3. Quitting clerical life and registering for regular jobs at local employment bureaus.

Catholic sources said the ban would affect about 1,400 nuns and 100 monks, all Romanians except for about 20 foreigners. The nursing sisters of St. Vincent De Paul is one of the best known organizations affected. Most religious Romanians belong to the Orthodox church, but there are a number of Roman Catholic churches and religious centers.

Catholic sources said foreign members of the orders have been leaving Romania regularly under the present regime. Those who remain will have to register with the militia as foreigners, a procedure from which they have been exempt.

The sources said the quarters assigned by the government for retiring monks and nuns will be "very cramped" for 1,500 persons.

## New Jobs Accepted By Clark, McGrath

WASHINGTON (AP)—A Chinese mob which laid siege to the U.S. consulate in Shanghai, plied American Consul Reuben R. Thomas with "senseless questions" and refused for 20 hours to let him sleep, the state department reported yesterday.

Department spokesman Lincoln White said the Chinese did permit Thomas to eat and "carefully saved the dirty dishes as evidence of their generosity." But they prodded him constantly to keep him awake, White said.

WASHINGTON (AP)—Tom Clark yesterday formally accepted nomination to the supreme court and Sen. J. Howard McGrath (D-RI) agreed to take Clark's job as attorney general.

President Truman himself disclosed their acceptances as informally as he had announced the offer of the posts at last Thursday's news conference.

Both appointments are subject to senate confirmation. White House officials said the nominations will go to Capitol Hill today.

McGrath will resign as Democratic senator from Rhode Island and as chairman of the Democratic National committee as soon as the senate approves his nomination.

## Committee Compromises On Aid-to-Education Bill

WASHINGTON (AP)—House labor committee Democrats worked out a compromise aid-to-education bill yesterday but disagreed on its chances of winning full committee approval today.

The senate-approved \$300-million-a-year education bill has been backed up behind a bitter religious controversy in the house labor committee. Eleven Democratic committee members met secretly yesterday in an effort to find a formula for breaking through the deadlock.

## Streelighting Action Delayed for Further Study by Merchants

Iowa City aldermen last night postponed action on downtown streetlighting until next Monday's council meeting to give business property owners time to inspect fighting systems in nearby towns.

The hearing last night was to determine whether property owners wanted to repair or replace and extend the present lighting system. The council July 12 decided property owners should pay for what improvements are made.

Cost estimates presented last night varied from \$12,000 to \$15,000 for repair of the present system to Mayor Preston Keener's "guess" of \$75,000 for a completely new system. Westinghouse Electric company has made a \$38,000 estimate on new streetlighting.

One reason for last night's indecision was the lack of a fair representation of property owners — only 15 were present, Koser said.

Koser also complained that he had "to apologize most every day for the lighting system we don't have."

Property owners were hesitant to commit themselves on the lighting question since definite cost estimates weren't available.

## Two Riders Stole Car, Driver Says

A Danbury, Conn., man reported his car was stolen yesterday afternoon by two hitchhikers, police said.

William M. Brown Jr. said the two men drove off with his car after he got out to check a flat tire five miles east of here on highway 6. Brown described the car as a 1939 two-tone cream Nash "600." He said the Connecticut license number was 21A1789, and that \$125 was in the glove compartment.

Brown described one hitchhiker as about 28, 5 feet, 7 inches tall, weighing 160 pounds, with red hair and freckles and wearing a white shirt and dark blue trousers.

## U.S. Demands Human Rights Violation Probe

WASHINGTON (AP)—The United States yesterday demanded three Russian satellite states permit impartial, on-the-spot inquiries into charges they are violating basic human rights.

The three are Romania, Bulgaria and Hungary, which are accused by the U.S. of breaking the terms of the peace treaties they signed at the end of the war.

## ICELAND RATIFIES PACT

WASHINGTON (AP)—Iceland yesterday became the seventh nation to deposit its ratification of the north Atlantic pact with the state department, Icelandic Minister Thor Thors handed in his country's document this afternoon.

## Marshall Urges Arms Aid For Europe Now

### Hot-Rod Cyclist Rides 'Hot' Bike

MILWAUKEE (AP)—A Milwaukee cyclist went through a traffic sign recently and was arrested. James Smith, 23, was given a suspended term for breaking traffic rules. But he was sentenced to three months in the house of correction when police found that the bike was stolen and that he was carrying a loaded revolver.

## Private Manufacturers Put Out New A-Bomb

WASHINGTON (AP)—The United States has gone into industrial production of the more effective atomic bombs tested at Eniwetok in 1948, and has made advances on other atomic fests, Congress was told yesterday.

The information was presented by the atomic energy commission in its semi-annual report. President Truman said in a statement that the nation has "reason for reassurance and faith" that the atomic program is being effectively pressed, both for defense and human welfare purposes.

This apparently was his answer to the charges of "incredible mismanagement" which Sen. Bourke Hickenlooper (R-Iowa) made against AEC Chairman David E. Lilienthal.

The AEC reported: 1. Its Eniwetok-tested bombs — more effective than those used before 1948 — are being produced on an "industrial basis." This means that they have progressed beyond the laboratory-made stage, and are being turned out by private manufacturing companies working for the AEC, and in AEC plants.

2. Fissionable uranium and plutonium — the sources of atomic energy for all purposes — are being produced in greater amounts than ever before.

3. Increasing attention was given in the past six months "to reactor development, an item of prime military and eventual civilian importance."

4. A reactor or pile is a device for the controlled release of atomic energy.

5. This nation has found new sources of precious uranium in its own backyard — "enormous tonnages" of materials having a very low content of uranium. These materials cost more to process than those of higher uranium content, said the AEC, "but they could be utilized in the future to sustain an atomic energy program for military purposes, should lower-cost uranium cease to be available."

Earlier Fred W. Hann, 75-year-old lawyer, told the court he had heard Novotny declare Rutledge "should hang and would hang if he had anything to do with it." All three testified at the opening of a hearing on a defense motion for a new trial for the 28-year-old St. Louis pediatrician convicted last May of stabbing to death Byron C. Hattman, 29, St. Louis aircraft specialist, in a Cedar Rapids hotel Dec. 14.

They gave testimony substantially the same about Novotny's alleged remarks.

## Dr. Rutledge Appears at Hearing

ST. LOUIS PEDIATRICIAN, Dr. Robert C. Rutledge Jr., convicted of slaying Byron Hattman last December, is shown on his way to a hearing on a motion for a new trial in Cedar Rapids yesterday. Person holding his hand to his nose is Rutledge's father-in-law, Dr. Howard Goodrich.

ST. LOUIS PEDIATRICIAN, Dr. Robert C. Rutledge Jr., convicted of slaying Byron Hattman last December, is shown on his way to a hearing on a motion for a new trial in Cedar Rapids yesterday. Person holding his hand to his nose is Rutledge's father-in-law, Dr. Howard Goodrich.

## Warns Funds Cut Harmful To Pact Plans

WASHINGTON (AP)—General George Marshall urged congress yesterday to send arms to western Europe nations quickly. "I am very fearful of delay," he said. Backing the full \$1,450,000,000 administration program of military assistance to friendly nations, "the wartime army chief of staff told the house foreign affairs committee it is "just a beginning" in establishing a firm front to forestall any Russian push.

Committee members have insistently asked witnesses how much cooperation for mutual defense could be expected from recipient nations. Some Republicans have spoken for positive assurance before supporting even a reduced armed program.

Marshall said it would be "a very dangerous thing" to hold up on the program until congress is assured western Europe has a program worked out. He said he doesn't believe there will be any difficulty in getting European nations to cooperate.

"Couldn't the program be cut until cooperation is guaranteed?" Rep. Walter Judd (R-Minn) asked. Marshall advised no.

Rep. Jacob Javits (R-NY) told Marshall he plans an amendment requiring President Truman to reach agreements with signers of the Atlantic treaty that there be a unified command in defense of western Europe and other unification steps.

Marshall advised Javits such a requirement "may lead us into something we're not anxious for. I can't express myself."

Other witnesses before the committee have declined public discussion of coordination details. Defense Secretary Johnson has said there would be an understanding and "working agreement," Marshall noted five western European nations, England, France, The Netherlands, Belgium and Luxembourg, already have a unified command.

Marshall declined to estimate the size of the arms program at full scale. Other witnesses have predicted it may require assistance up to five years to build defenses strong enough to discourage any assault on western Europe.

The Russians have "a dangerous advantage," he declared. Their leaders can make their own decisions without having to consult any congress, he explained.

## Des Moines Youths' Hearing Continued

Preliminary hearing has been continued until later this week in police court for two Des Moines youths who are charged with assault with intent to inflict great bodily injury.

Police Judge Emil G. Trott said yesterday the hearing "would probably come up this week." The youths were scheduled for arraignment at 5 p.m. yesterday.

Albert Lee Cady, 19, and Charles E. McCaughey, 21, are being held in the county jail under \$1,000 bond each. They allegedly started a fight with and injured Raymond Meeker, 17, 712 Kimball avenue Saturday afternoon.

Police said Meeker was hitchhiking on Muscatine avenue near Court street and the fight allegedly started after an unfriendly exchange of words between Meeker and the Des Moines youths who were in a car.

After the fight the Des Moines youths drove away but were later picked up by highway patrol, police said.

Meeker was treated for cuts and bruises at University hospital.

## Communist Agents Land Here, Committee Hears

WASHINGTON (AP)—The senate judiciary committee has received testimony that "untold numbers" of Communist agents are smuggled into this country annually for specific missions, Chairman Pat McCarran, (D-Nev) said yesterday.

He said witnesses had informed the committee that ships stop outside the New York and Boston harbors to let the agents land in small boats.

# Dodgers Pound Pittsburgh, 9-0

## Cut Card Lead To Half Game

PITTSBURGH (AP) — Brooklyn cut the St. Louis Cardinals National league place margin to a half game last night by waiting to a 9-0 win over Pittsburgh before a crowd of 29,488.

While the Dodgers were winning easily the St. Louis Cardinals were downing the Cardinals in St. Louis, 8-1. The Dodgers batted around in the first inning or six runs to take the pressure off big Ralph Branca who allowed only four hits as he won his 12th game against three defeats.

Branca was in great form and his mates supported him with a 11-hit attack, including homers by Pee-wee Reese, Duke Snider and Gil Hodges. The star Brooklyn hurler retired 16 consecutive men from the third inning to the ninth when Ralph Kiner tagged him for a double after one man was out Kiner, who had been in a batting slump, also got two singles to account for three of Pittsburgh's hits.

Big Ernie Bonham, trying for his sixth consecutive win, was batted from the box in the first without getting a man out. Murry Dickson relieved Bonham.

Brooklyn 9, Pittsburgh 0. (11 innings) Reese (1) and McCullough (1); Snider, Reese, Hodges, LF-Bonham.

## Veck May Sell Cleveland Indians

CLEVELAND, OHIO (AP) — Seeking to "buy a good sound business," the investment banking firm of Otis and company admitted yesterday it is dickering to purchase the world champion Cleveland Indians baseball team. It was believed that a difference of a half million dollars was holding up the transaction. Indians President Bill Veck was reported asking \$2,500,000, while Otis and company was believed ready to offer \$2,000,000. "Our firm has been interested in the purchase of the team for the past two or three months," said President William R. Daley of Otis and company. "But we have not reached any terms with owner Bill Veck, and, in fact, neither of us has offered terms yet."

A company spokesman said Veck had named no specific figure as his asking price, and that the company had not made a definite financial offer. Daley said that if the deal did go through, Veck would be replaced as club president.

## Oh Andy, Don't Drop That Ball!

SAFE AT THIRD is Sid Gordon, New York Giant third baseman as Andy Patko drops the ball. The action took place in the sixth inning of the Cubs-Giants game at Wrigley field yesterday. Patko fumbled on a throw from Centerfielder Hal Jeffcoat. Gordon took off for third after Jeffcoat caught Wally Marshall's fly to right center. The Giants won, 11-3.

## Browns Blank Senators, 2-0

WASHINGTON (AP) — Bob Dillinger pounded out three to lead the St. Louis Browns to a 2-0 win over Washington, behind Karl Drews' eight-hit pitching.

Drews permitted only one Senator to reach third base in out-pitching Ray Scarborough, who allowed 10 hits.

The Browns scored in the fourth inning when Jerry Priddy singled, took second after Roy Sievers fouled to deep left field and scored on Sherman Lollar's single. Singles by Paul Lehner, Ed Pellagrini and Dillinger produced the other St. Louis runs in the ninth.

St. Louis 2, Washington 0. (9 innings) Washington 100-000-0-2-10-0  
Drews and Lollar, Scarborough and Early.

## Robinson, With .364 Bat Mark, Heading For League Crown

NEW YORK (AP) — While Brooklyn and St. Louis continued their duel for the National league lead, Jackie Robinson of the Dodgers boosted his top batting average five points to .364.

Barring a complete collapse by Robinson in the heat of a tight race, Robinson appears assured of the title with a 36-point lead in averages including Sunday's games.

Enos Slaughter of the St. Louis Cardinals has become Robinson's closest rival but he is back at the .328 level. Slaughter started slowly and was benched for not hitting on the first Cardinal eastern trip but he has passed them all, except Robinson, on a tremendous surge in the past two weeks.

Back of Slaughter is another Cardinal, Red Schoendienst, at .327, a most important reason for St. Louis' lead in the pennant race.

Willie Jones of the Phils still leads the way with 24 doubles and Del Ennis' eight triples still are tops.

The rise of Don Newcombe of Brooklyn in the strikeout race has been sensational. Warren Spahn of Boston still leads with 89, but Newcombe who didn't join the Brooks until mid-May is tied with estimate Ralph Branca for second with 79.

Big Sewell, the veteran Pittsburgh right-hander, owns the best pitching record with 5-1, followed by Branca's 11-3 for the runnerup Dodgers. Branca finally pitched his first complete game since June 29 in whipping Chicago Thursday.

Bob Dillinger of the St. Louis Browns climbed five points to .342 and took over the American league batting leadership.

Averages of games through Sunday show Dom DiMaggio of Boston trailing with .342 points. Ted Williams, Boston, and George Kell, Detroit, who were tied for first a week ago with .342, each dropped a point and were tied for third with .341.

Dom DiMaggio had the most hits, 123. Dale Mitchell of Cleveland had the most triples, 14, and Dillinger had the most stolen bases, 9.

Allie Reynolds of New York was the leading pitcher on a percentage basis, with 11 victories and one defeat for .917. Virgil Trucks of Detroit led in strikeouts, with 109.

## Hartung Goes Route While Mates Club Last-Place Cubs, 11-3

CHICAGO (AP) — Bobby Thomson backed up Clint Hartung's effective six-hit pitching yesterday with a triple, two doubles and a single in the New York Giants' 11-3 romp over the last-place Chicago Cubs.

Hartung, knocked from the box in six straight starts, went the route for the first time since June 28 in a loosely played game. Four errors by the Cubs and 14 Giant hits contributed to the rout.

A three-run spurge in the third knocked out starter Bob Chipman.

Hank Sauer's 22nd homer broke Hartung's shutout in the sixth. It was the second Cub hit. They bunched Gene Mauch's double, Hal Jeffcoat's triple and a long fly for the other two in the eighth.

New York 11, Chicago 3. (9 innings) Hartung and R. Mueller; Chipman, Adkins (3), Kush (8) and Owen. HR: CHI-Sauer, LF-Chipman.

## State Legion Title Won by Waterloo

MASON CITY (AP) — Waterloo won the state junior legion baseball tournament yesterday with a 5-1 victory over Sioux Center.

The victory gave Waterloo four straight wins against no defeats in the round robin tourney. Other teams entered were Mason City and Adel.

Sioux Center's ace pitcher, Les TeGrotenhuis, struck out 12 batters but gave up 10 hits. His mates were charged with six errors.

Bob Miller and Russ Miller shared mound duties for Waterloo, giving up a total of only five hits.

## Frick Says Rhubarbs No New Trend

NEW YORK (AP) — Ford Frick, president of the National league, says the recent epidemic of fines and suspensions for managers is no new trend.

"We treat them just as the same as in the past," said Frick. "Everybody knows what happens when a man puts his hands on an umpire."

Frick did not name names or places about who put his hands on what ump but it's a matter of record that Bucky Walters of Cincinnati, Leo Durocher of New York and Frankie Frisch of Chicago has been set down for arguments with umpires.

Walters was fined \$150 and suspended for five days Sunday as the result of a dispute with Umpire Lee Ballanfant in Saturday's game.

Bucky, usually a mild easy-going fellow, argued violently with Ballanfant when Peanuts Lowrey was called out at second base on the final play of Saturday's game, won by the New York Giants, 8-7, in 10 innings.

Durocher drew his \$150 fine and five-days in the cooler after an argument with Ballanfant at Chicago in late June. Last week when Ballanfant again thumbed him out of a game—but with no suspension or fine—Durocher said he was going to complain to league headquarters.

"When Ballanfant put me out in Chicago," Leo was quoted as saying, "He told me 'I'll take care of you.' I'm just wondering if 'taking care of me' means I'm not going to be tolerated on the field to question decisions, like other managers."

## Two Iowa City Boys In National Net Meet

SUI Tennis Coach Don Klotz and four boys will participate in the national junior men's tennis tournament left Sunday for Kalamazoo, Mich., where the tourney is being held.

The boys are Jamie Andrews winner of the Missouri Valley title in the junior men's division, from Iowa City, Bill Jenna, Iowa City, Glenn Land, Tulsa, Okla., and John Been, Okmulgee, Okla.

Expenses to the meet, running all of this week, are being met by the Missouri Valley tennis association, which will also sponsor a similar trip to the national junior girls' tourney in Philadelphia later this month.

Competition in the Kalamazoo meet began yesterday.

## Favorites Win 1st Round Matches in Net Tourney

KALAMAZOO, MICH. (AP) — Gil Bogley stroke into the national junior tennis tournament and trounced his first opponent yesterday with all the firm that rated him the No. 1 spot.

The Chevy Chase boy downed Milledge Galpin, of Louisville, Ky., 6-0, 6-1, in the second round. He had a bye in the first.

Only last week, Bogley won the Western junior championship.

All other top contenders among the 179 entrants whipped their opponents yesterday.

## Lesnevich 'Happy' As Underdog in Aug. 10 Fight With Charles

NEW YORK (AP) — Ezzard Charles, who defends his NBA-heavyweight title Aug. 10 at the Yankee stadium, and challenger Gus Lesnevich were pronounced in "superb" physical condition yesterday at the customary preliminary checkup.

Dr. Vincent Nardiello, representing the New York state athletic commission, gave the usual pre-fight diagnosis after the two fighters stepped on the scale.

Charles, down to fighting weight and ready for the bell any time, weighed only 180. He said he would go into the ring at that figure. When he defeated Jersey Joe Walcott to win NBA recognition as Joe Louis' successor at Chicago June 22 he weighed 181 3/4.

Lesnevich, undisturbed by the odds that make him an underdog at prices ranging from 8 to 5 to 4 to 1, weighed 183 at the commission offices.

He had to work hard to make the light heavyweight limit, his Maxim at Cincinnati, May 23. As the Max'm bout was designated by the NBA as for the American light heavyweight crown he had to make 175. He did it with four ounces to spare but claimed it weakened him.

"I always like to be the underdog," said Lesnevich. "Let the other guy be the favorite. They made Billy Fox the favorite over me the first time we fought and I stopped him. When I fought Tami Mauriello the first time they made him the favorite. I upset him but they still made him favorite for the second fight when I knocked him out in seven.

Philadelphia (N) 8, Terre Haute 5

## Girl Criticized for Nude Channel Swim

DOVER, ENGLAND (AP) — Curvaceous Srilley May France, 16-year old Somerset, Mass., mermaid, was criticized yesterday for planning to swim the English channel in the nude.

And it was a man who disapproved the idea.

"Nudity appeals to little boys and indecent people," Edward Temme, first man to swim the 20-mile stretch of water twice, told British and American newsmen yesterday.

"I think it is unnecessary to her attempt," he added. "If it is a stunt, we can do without it. If she is serious about swimming, why, good luck to her."

The American girl had two plunges into the cold, grey channel yesterday — both with a suit covering her tall, 158-pound frame.

She has settled into a strict training routine that will prepare her for the expected swim within the next two weeks.

## Braves Shave Card Lead, 8-1

ST. LOUIS (AP) — Lefthander Warren Spahn pitched the Boston Braves to an 8-1 victory over St. Louis last night that shaved the league-leading Cardinals' margin over Brooklyn to half a game.

Ed Sauer slammed a three-run homer, and Bob Elliott hit one good for two runs.

Striking out four and walking only one, Spahn coasted to his 13th victory against eight defeats. He gave up eight hits, including a home run by Enos Slaughter to the right field pavilion in the fourth.

The two Boston homers both were hit off Harry Brecheen, the starting and losing pitcher, and both came after two were out.

The three-run homer by Sauer, an ex-Cardinal, went into the left field bleachers and was his second of the year. He scored behind Elbie Fletcher and Elliott who had singled.

In the first inning, just after Alvin Dark walked, the park lights went out for several seconds. Elliott was the next man up after the lights came on again and blasted his homer to the left field scoreboard, crossing home behind Dark. It was No. 12 for Elliott.

The Braves picked up their sixth run in the sixth on singles by Tommy Holmes, Del Crandall and Eddie Stanky.

Boston 8, St. Louis 1. (9 innings) St. Louis 000-100-000-1-8-2

## SAM SNEAD SINKS

MINNEAPOLIS (AP) — Slammin' Sam Snead, who broke the two-year-old Western open record in winning the championship at St. Paul's Keller course Sunday, wound up fifth from last among 30 professional golfers yesterday in a pro-amateur tournament at Oak Ridge.

Lesnevich, undisturbed by the odds that make him an underdog at prices ranging from 8 to 5 to 4 to 1, weighed 183 at the commission offices.

He had to work hard to make the light heavyweight limit, his Maxim at Cincinnati, May 23. As the Max'm bout was designated by the NBA as for the American light heavyweight crown he had to make 175. He did it with four ounces to spare but claimed it weakened him.

"I always like to be the underdog," said Lesnevich. "Let the other guy be the favorite. They made Billy Fox the favorite over me the first time we fought and I stopped him. When I fought Tami Mauriello the first time they made him the favorite. I upset him but they still made him favorite for the second fight when I knocked him out in seven.

### Parking Meter Experiment —

The parking meter experiment in Iowa City has apparently proved to the satisfaction of Iowa City's council.

However, the meters are now cast in a familiar role in Iowa City. They now form the core of a red-hot controversy.

About ten years ago, the parking meters popped up all over the east coast. After a five-year trial period, they began to disappear. A howl of protest from persons in towns where the meters were first placed, set off the meter-junking.

In Oskaloosa, Iowa, the meters received rough treatment.irate townspeople prevailed upon Mayor Carl Johnson to rid that town of parking meters.

Reluctantly, Johnson ordered the meters pounded into the pavement. Now, after a two-year lapse, there are new meters in Oskaloosa — but only around the town square.

Actually, the meters serve at least two very useful functions in Iowa City.

They tend to keep traffic moving in areas that were formerly all-day parking places — or very nearly so. It's a great advantage to be able to find a parking place in the heart of the downtown area. Parking meters make that possible.

Also, the meters provide a source of revenue for the city. In a community that has nearly 10,000 "transient citizens," the city is limited in the way that it can tax the transients.

The parking meters provide such a taxation method.

However, there have been some persons who claimed that the number of new parking meters is too great to be practical for a city of Iowa City's size.

They point out that there is a definite place for parking meters in the downtown area. But, they say, there is no need to set up meters outside the business district.

They feel that the city receives enough revenue from existing meters to take care of off-street parking, traffic signals and street repairs — the main channels into which parking meter funds have to be sent.

Only time will tell if the council stepped outside the confines of sound judgment in ordering the new meters.

### Ah, Ah, Mustn't Touch —

One of the most pertinent questions that could be asked of the Iowa legislature is: who's responsible for the passage of the parking meter law at the last session?

It may be that some legislators didn't realize the ramifications of what they were voting when they legalized the bill. They couldn't have known or they wouldn't have been caught dead voting for the measure.

Consider the way the law throttles officials of municipal governments all over the state: the use of the funds from meters are even more severely curtailed than they were before the passage of the law.

Before the law was passed there were certain restrictions on the use of parking meter funds. But cities could and did use the funds in street maintenance and repair. Now it looks as though state legislators tired of hearing municipalities cry about not having enough parking space and decided to give their offspring a verbal spanking.

Now such, obviously, is not the case. What actually did happen we'll never know, but the fact remains Iowa cities are going to be faced with having a big chunk of revenue on their hands they can't touch until their parking troubles are all cleared up.

Maybe that's one way for the legislators to give the municipal officers a verbal spanking. But it does work a hardship on more than a few communities. Des Moines was just one of the cities in the state which had budgeted the parking meter funds and had no little trouble getting itself out of a hole.

One good thing may come of the law, but even this is left in doubt because of the dubious method needed to bring about the aim. City officials will have to buy more off-street parking lots.

And since the forced purchases will naturally artificially inflate the price of available property within the necessary distance from the metered areas, where does the good come in? The cities will have the parking lots but they'll have to pay more than the property is worth.

### A Community Problem —

Installation of parking meters with proceeds to be used for off-street parking lots was first recommended in 1946 by the community parking committee, Atty. Dan C. Dutcher said.

This committee headed by Dutcher and organized in April, 1946, had four chamber of commerce members, four city councilmen and three SUI delegates. The mayor, president of the chamber of commerce and police chief were ex-officio members.

The committee representation gave voice to the parking problems of businessmen and their clients, SUI and its students and faculty, municipal government and Iowa City's traffic control and enforcement.

The committee's goal was 750 additional parking spaces in parking lots as compared to about 450 on downtown streets. This would provide parking space for 1,200 cars.

To reach its goal, the committee set up a program of bond issues to purchase off-street parking lots. They figured revenue from parking meters would support a bond issue of \$250,000 to \$300,000.

A nation-wide average cost for a car-parking space in a parking lot is \$750 to \$800, Dutcher said. The first bond issues suggested by the committee would have provided for about half the committee's goal of 750 off-street parking spaces.

The committee also recommended a symbol to designate off-street parking lots, parking angles for attended and unattended lots and lighting and parking directions, Dutcher said.

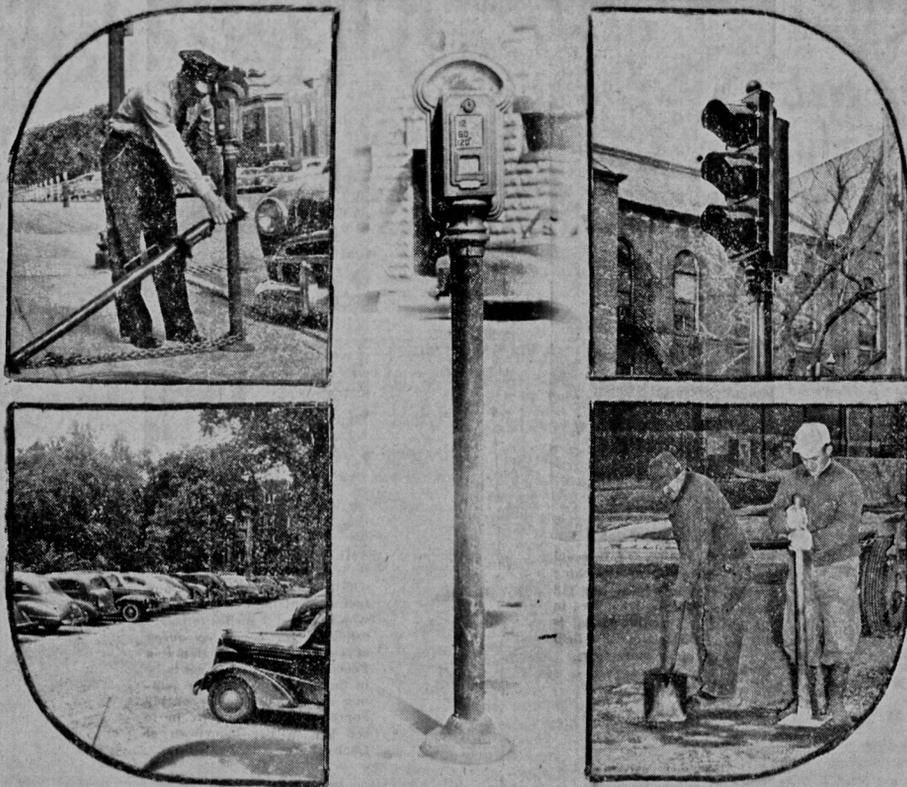

Long range, committee plans included amending building ordinances to require loading and unloading facilities for commercial buildings and private parking facilities for new buildings.

Johnson county farmers met with the committee last December to discuss the parking problem facing out-of-town shoppers.

The outcome was that the farmers generally agreed parking meters made parking on downtown streets more accessible, and were thus an advantage to the out-of-town shopper, Dutcher said.

The committee hasn't met since last December, but Dutcher would like to see the group become active again.

"There's plenty to be done," he commented.

(Daily Iowan Photomontage by Wayne Golts)  
THE PENNIES, NICKELS AND DIMES you put in parking meters help pay for such items as: Administration and maintenance (upper left), which shows an Iowa City patrolman straightening a bent meter pole. Parking lots (lower left), one of which is located in the 300 block of East College street. Traffic control devices (upper right) such as traffic signals which have been and are being installed. Street repairs (lower right) which were authorized under the old law, prohibited by the new.

## IC Parking Meter Situation Analyzed

By HUGH BALE

Iowa City's new parking meters should gross between \$555 and \$620 weekly if the collections average proportionately with collections from the meters previously installed.

Gross receipts from the present meters average from \$900 to \$1,000 weekly, according to Mrs. Edith Frederickson, city hall secretary who handles the pennies and nickels. And a check of receipt records shows that collections remain fairly constant throughout the year.

This means Iowa City drivers buy 45 to 50 hours parking weekly from each of the 400 meters, a total of 18,000 to 20,000 hours parking.

If Iowa City drivers buy as much parking from the new meters as they have from the old, they will pay for 12,555 to 13,950 parking hours weekly.

The reasoning behind this statement is that the newly metered areas will still be used for parking, but the time will be purchased by drivers instead of being free parking time as before.

At five cents an hour for two-hour meters, gross receipts should total \$414 to \$460 weekly; at 10 cents for three hours on the three-hour meters, receipts should average \$141 to \$160.

Iowa City will keep only half of the net meter revenue. The other half must be paid to the Duncan Parking Meter corporation which supplied the new meters. The parking devices cost \$67.50 each, a total of \$18,900. These new meters were installed for a 12-month trial period. According to the contract

the city must pay the Duncan corporation half the net meter revenue as a rental during that time.

If the city doesn't want the meters after the 12-month trial period, the Duncan corporation will remove them without further expense to the city. The city keeps its share of the revenue; the corporation retains its share as rental.

If the city uses its option to purchase the meters before the year is completed, it may apply the rentals paid the corporation against the value of the meters and pay the balance due on the purchase price.

The city also may extend the contract after the year is up on the same rental basis until the full purchase price is paid. In that event the meters should be paid for by November or December, 1950.

Annual collections from the 280 new parking meters should total \$29,000 to \$32,000, based on collections from the old meters.

Since during the first year of operation, half the revenue will go to the Duncan Parking Meter corporation, this leaves Iowa City about \$14,500 to \$16,000.

If the city decides to keep and pay for the meters on a rental basis until the full purchase price is paid, 16 or 17 months could elapse before the city would get to keep all collections.

Because the state legislature this spring restricted purposes for which cities could spend parking meter revenue after July 5, City Attorney William H. Bartley said the new state law would permit the city to do five things with such funds:

1. Pay for and install meters.
2. Pay for meter maintenance, repair, collections and enforcement.
3. Purchase and install other traffic control devices on streets where meters are in operation.
4. Purchase, operate and improve parking lots within a mile (about six blocks) of a metered area.
5. Retire revenue bonds which were issued for buying parking lots.

The state legislature further limited cities to using 25 percent of meter funds for items two and three. The remaining 75 percent must be used for buying additional parking meters and parking lots or retiring bonds.

The city must abide by such ratios until the council declares by resolution it has no need for additional meters or parking lots, Bartley explained. Then the fund can be used for any of the items without regard to the ratios.

Police Chief E.J. Ruppert has told the city council he needs two more patrolmen to assign to parking law enforcement. The council has considered one more secretary to handle receipts and records.

Under the old state law, adequate personnel to handle additional meters wouldn't have been a problem.

(That law legalized parking meters and permitted cities to use funds to pay for administrative and maintenance costs, new meters and parking and traffic control devices. Other city funds could be used for parking lots.)

The present \$50,000 city parking meter fund was set up under

the old law. From that fund came the salaries of one secretary and two patrolmen. Councilmen voted May 9 to use \$43,940 of the fund to purchase traffic signals before the new state law went into effect.

So finding money to pay one more secretary and two more patrolmen for administration of the meters is a problem city councilmen haven't yet been able to solve. And here's the reason:

The city's share of receipts from the new meters during the remaining eight months of the current fiscal year should total about \$6,500 to \$7,500.

To use the amount over \$50,000, the city would have to publish a notice of amendment to the budget, hold a hearing and get permission from the state comptroller before it could spend the money, Bartley said.

The council has proposed a \$60,000 meter fund in next year's budget which they will consider August 15. That fund will come under the 25-75 percent division authorized by the new state law.

The city in September, 1948 purchased two lots in the 300 block of East College street for off-street parking, first used early this year. Iowa City has one other parking lot, opened this spring off Burlington street south of the Community building.

Because the state law will slap restrictions on the parking meter fund of next year's budget, the city is obligated to use the lion's share for additional off-street parking.

The city has just about reached the "saturation point" for meters, Bartley said. He hopes for the time soon when the city has enough off-street parking to do away with meters entirely.

## Letters to the Editor

(Readers are invited to express opinion in Letters to the Editor. All letters must include hand written signature and address — typewritten signatures not acceptable. Letters become the property of The Daily Iowan; we reserve the right to edit or withhold letters. We suggest letters be limited to 300 words or less. Opinions expressed do not necessarily represent those of The Daily Iowan.)

TO THE EDITOR:  
Your editorial of Saturday, July 23, 1949, entitled "If Congress Wants the Facts..." was sent to me by my sister, Mrs. E. L. De Gown of your city. It dealt with my testimony before the Subcommittee of the senate rules committee holding hearings on S. Con. Res. 2.

I also made a supplementary statement calling attention to the effect of establishing new procedural rules in the light of the supreme court decision in the Christoffel case.

If a way could be found to prevent smearing and to compel fairness, thoroughness, and impartiality without, at the same time so limiting the discretion of the legislator that he could not properly discharge his fact-finding and policy-making functions, I would be for it. I wholly sympathize with Senator Lucas' objectives. I simply do not believe that S. Con. Res. 2 is the proper way to obtain them.

I fully agree that congressional committees should explore all sides and aspects of a subject in their hearing, within the limits of time available. I believe that reference to court procedure, while superficially appealing, is not a satisfactory answer to the problem of making congressional inquiries thorough and impartial. A congressional committee could not function expeditiously if confined to court procedure, even if it were feasible. In courts the issues are narrowed by the pleadings and sometimes by pre-trial hearings to specific issues of fact or law. Congressional committees deal in the broader field of policy to determine what law ought to be enacted.

George Meader  
Washington, D.C.

TO THE EDITOR:  
Paul Peterson talks about disrespect for the Catholic hierarchy by Protestants, simply because Mrs. Roosevelt disagrees with Cardinal Spellman.

Really, Mr. Peterson, any per-

son in the United States has a right to voice his opinion, even if it differs with Cardinal Spellman. If believing that federal funds should not be given to parochial schools makes me anti-catholic, it makes me anti-Hebrew, too, because there are quite a few Hebrew parochial schools.

And you see, Mr. Peterson, I happen to be a Hebrew.

Disrespect for the Catholic hierarchy has nothing to do with the issue. Catholic children can go to public schools for their secular education and Sunday school for their religious education, just as Methodists and Baptists and Unitarians and Jews do.

Federal funds should go to the public schools only: Separation of church and state should be complete.

Sylvia Burgman  
422 Riverdale Village

### IC Lodge to Attend Moose Convention

About 70 Iowa Citizens will represent the local lodge at the 11th national Moose convention in San Francisco, from Aug. 14 through 18, Leo Kohl, lodge secretary here, said recently.

Iowa City Moose Gov. Andy Kelley will "officially" represent the local lodge with Secy. Kohl as alternate at the national convention. Iowa City will have all official delegates at the state convention, Kohl said.

The local degree staff and drill team will march in the "Cavalcade of Gold" parade and street pageant in San Francisco besides entering competition there, he said. The Grenadiers, drum and bugle corps will not go to San Francisco.

The Grenadiers, however, will march in the parade and enter competition with bands and drum corps at the Sioux City meet, Kohl said.

**THESIS-LOAN BOOKS** are due at the University Libraries on Aug. 3. Please return or renew

OUR ARTIST SAW IOWA CITY'S parking meter situation as pictured. The key shows how the area of metered parking in the downtown district has grown since the first meters were installed about two years ago. New meters were placed following the general direction of the movement of the business district. Not shown are the two municipal off-street parking lots, bought with parking meter funds.

## Marla Marice Miller to Wed

MR. AND MRS. M. H. MILLER, 228 Highland drive, announce the engagement of their daughter, Marla Marice, to David Ross McLaughlin, son of Mr. and Mrs. W. H. McLaughlin, Des Moines. Both attended SUI. The wedding date has not been set.

## Junior Music Group To Present Recital

Eleven high school and grade school music students enrolled in the SUI junior music course will perform in a recital at 9:15 p.m. Aug. 6 in north music hall, Paul Behm, course instructor, said yesterday.

The junior music course is a part of the summer curriculum of the music department designed for high school and grade school pupils.

Pupils participating in the recital are Ester Miller, 670 S. Governor street; Jaunita Crow, 119 Evans street; Patti Barnes, 112 S. Dodge street; Keith Ruppert, 919 Roosevelt street; and Annette Trachsel, 1039 E. College street. Leora and Evelyn Lehman, 701 N. Gilbert street; Donald Benda, 621 N. Van Buren street; John Wicks, 528 Clark street; Marilyn Martin, West Liberty, and Maurice Fahrney, Deep River.

## Three Posts Filled In Fire Department

Fire Chief J. J. Clark yesterday announced three new appointments in the Iowa City fire department.

Al Dolezal, 52, was promoted from second to first assistant fire chief to fill the vacancy left by Ray Swanson who retired yesterday.

Dolezal has been with the department since 1923. He was appointed second assistant chief April 15, 1938.

William A. Gorbrich, 51, was appointed second assistant chief to fill the vacancy left by Dolezal. Gorbrich has been with the department since 1926.

Lester J. Rogers, 34, 1502 Yewell avenue, has been appointed fireman, filling Gorbrich's former position.

## Fifty-One Persons Take Conservation Air Tours

Fifty-one persons from Johnson county took the air tours of Johnson county sponsored by the county soil conservation commission Thursday, Friday and Saturday, said yesterday.

The tours, made with the cooperation of the Iowa City Flying service, were held to show the difference between farms on which soil conservation is practiced and farms on which it is not.

## Stadium Park Cottages Get Woodwork Painted

Porches, window frames and sashes on cottage apartments in Stadium park are being painted a "meadow" green, J. Robert Cotter, manager of SUI married student housing, said yesterday.

Cotter said that special "outdoor" paint is being used and is expected to withstand the weather better than the green varnish paint originally used on the porches and windows.

## Pianist to Play Music Of Beethoven, Chopin

Kenneth Latham, A4, Sioux City, will present a piano recital at 4 p.m. next Tuesday in North music hall.

His program will include the "Sonata quasi una Fantasia" by Beethoven and six piano numbers by Chopin.

Try and Stop Me

By BENNETT CERF

ARTHUR KOBER'S five-year-old daughter, Cathy, attended a birthday party where the food had been seasoned too strongly for her liking. Quite naturally, she remarked to her hostess, "This is awful!"

"Oh no," corrected her nurse. "It's very good. It's just a little different. You'll get to like it."

"No," said Cathy. "I won't like it. It's just awful."

On the way home, the nurse explained, "When you're eating out, dear, it's all right to say the food is good if you like it; but if you don't, just leave it on your plate and don't say anything."

The next Saturday, Cathy went visiting again. For lunch, she was served creamed chicken, which she loves, and peas, which she always has hated. She finished the chicken, tasted the peas, and in her best Emily Post voice remarked, "These peas are delicious — but awful."

### Five Appointed To Commerce College Posts

Five men have been appointed to the SUI college of commerce staff for 1949-50, Dean C.A. Phillips said yesterday. They include an associate, two instructors and two part-time assistants.

The new appointees are William A. Knoke, associate in marketing; Elmer T. Lotshaw, economics instructor, and Walter P. Jahn, accounting instructor.

Others are John A. Smith, half-time assistant, chiefly in money and banking and marketing, and Eugene Jennings, quarter-time assistant in labor and management.

All will begin their new duties next semester, Phillips said.

Knoke, who has been on quarter time here, is a candidate for a Ph.D. degree in marketing. He has had considerable experience in the field of retail merchandising, Phillips said, and has done sales work for a national manufacturing firm.

Lotshaw, a graduate of Ohio university in Columbus, will receive his M.A. degree there this month. Jahn, a graduate of Creighton university, Omaha, is a certified public accountant from Nebraska and has had practical accounting experience, Phillips said.

Jennings, who is a graduate of Augustana college, has had experience with management activities of the John Deere company. Smith received his bachelor of science degree in commerce from SUI last June, Phillips said.

### Edward S. Oldis Burial Tomorrow

Funeral services for Edward S. Oldis, 58, 723 E. Jefferson street, will be held at 3 p.m. tomorrow at Oathout funeral chapel. Burial will be in Oakland cemetery, where the Iowa City American Legion post will conduct graveside services.

Mr. Oldis died at his home at 6:45 p.m. Sunday after a three-month illness.

He was born at Lyons Aug. 19, 1890; he married Emma Duhme Jan. 19, 1921. He served during World War I from Dec. 5, 1917, to July 19, 1919.

He and his family moved to Iowa City in 1935. Mr. Oldis was a member of several Iowa City organizations, including the Loyal order of the Moose, the Fraternal order of Eagles Aerie No. 695, the American Legion and the Veterans of Foreign Wars.

Survivors include the widow; a daughter, Doris, at home; three sons, Edward, Chicago; Robert, Emporia, Va., and Philip, at home, and a grandson.

### Five Civil Service Positions Available

Application may now be made for the positions of librarian, construction inspector, conservationist, guard and guard-fireman with the civil service commission, Lester J. Parizek, local civil service secretary, said yesterday.

Salaries for these positions range from \$2,350 to \$6,235 per year. Applicants will be given written and classifying examinations.

Further information and application blanks may be obtained at the civil service window in the Iowa City postoffice.

### SUI Buys Marble Figure

(Daily Iowan Photo by Carl Brahm)

'Girl Withdrawn' by Henry Kreis

### Summer Art Exhibit — 'Girl' Has Grace, Dignity

(Fifth in a Series) By CARL BRAHME

A father who didn't want his son to become a sculptor unknowingly helped him become one of America's leading artists.

Henry Kreis, whose "Girl Withdrawn" was purchased by the SUI fine arts department, was given a piece of left-over wall paper and a pencil by his father when he was a boy so he would keep busy and quiet.

This increased his drawing ability, which was recognized by his school teacher. Although his father told him he would never make a living by drawing and modeling, he became an apprentice for a stone carver.

Today, Kreis is nationally known for his architectural and creative sculpture. His work is simple and meaningful, free from interpretations which must rely on the imagination.

Kreis has no use for sculpture that creates only emotional responses without purpose. "I have wondered always the last years, whether the prevailing trends with all their theories and 'isms' were of actual benefit to sculpture," he said.

"Girl Withdrawn," in Georgia pink marble, reveals this belief. It has the grace of Grecian sculpture and the dignity of Egyptian forms with a modern vitality. Its simplicity of form suggests a sculpture.

The figure glows with life. It doesn't suggest action, but rather it reminds the viewer of the calm quiet that follows a thunderstorm. The sensitive face and straight lines, as in the smooth-falling hair, express a peaceful quality. The gesture of the arms and pose of the figure convey a sense of dignity.

When one sees "Girl Withdrawn," he is compelled to stop to study the figure. Its spiritual quality expresses something of the eternal, like a bright star shining steadily through bending trees and wind-driven clouds.

It is not by accident that Kreis' sculptures all express a definite meaning. The viewer of "Mother and Son" or the "Dream of the Broken Crook" does not have to stretch his imagination to dis-

cover what the sculptor is saying.

"Composition, form, planes and curves and textures are after all only means to convey emotion," Kreis said. "They are important but in themselves insufficient. If they have no meaning, they produce only at best an agreeable decoration."

Kreis believes that a sculptor must work and study for years before he can create rational sculpture. "The direct carving method seems to me in danger of being undermined by incompetents, fakes and theorists," he said.

Other modern artists disagree with Kreis as to what rational sculpture is. It is to be hoped that new theories and use of materials will not mean that Kreis' sculpture soon will be old-fashioned.

### BORN NOT TO WORRY

KLINE, COLO. (P) — David Slade, eight months old, takes life easy. He's not the worrying type. David was sleeping on the back seat of the car when his parents, Mr. and Mrs. Lee Slade, stopped for 20 minutes at Holbrook, Ariz. While they were gone a thief stole the car — and David. Next morning the car was found abandoned 50 miles from Holbrook. David was still asleep on the back seat.

### Second German Gets Scholarship to SUI For Journalism Study

The second German student selected by the Interfaith Scholarship committee to attend SUI will arrive early in September, Committee Chairman William Connor said yesterday.

He is Gerhard Muller, who plans to study journalism teaching methods. Hans Umstaetter, another German student who came here last February, will return to Germany in September.

Both Muller and Umstaetter were invited to study here on condition they go back to Germany to teach for five years when their education is finished, Connor said.

Muller has been awarded an international scholarship for the year 1949-50 by SUI. The Interfaith Scholarship committee will finance his living expenses including room, board and books. The passage from Germany to New York will be arranged by the American military government in Germany.

The Institute of International Education will pay transportation from New York to Iowa City, Connor said.

Muller has been a student of the University of Berlin. He was chosen from a number of applicants from the Universities of Berlin, Munich and Heidelberg.

Connor said the Interfaith Scholarship committee is sponsoring a drive for funds for the new student. The committee is fully satisfied with the work done by the first German student, he said. "Our objective of inviting Hans Umstaetter to study the educational system and life in America has been carried out," Connor said.

The committee has arranged travels for Umstaetter to see more of America before he returns to Germany, Connor said. The German student also will attend a Lutheran student assembly in Michigan in September.

If free or low-cost transportation is possible, Connor said, Umstaetter wants to make a two-week trip to California. He was among a SUI group which visited Washington and the United Nations assembly last Easter. Umstaetter will continue his work for his doctorate degree for one more year at the University of Heidelberg before taking up teaching.

### Two Accidents Reported At Local Intersections

Automobiles driven by Bernard J. Alberhasky, 1129 Hotz avenue, and Paul A. Hill, North Liberty, collided Sunday at the intersection of Summit and College streets, police said. No injuries were reported.

A second collision Sunday involved cars driven by Richard R. Goody, 1515 Ridge street, and Harold Fiala, 305 1-2 S. Dodge street, at the Dubuque and Washington streets intersection. No injuries were reported.

### Jaycees to Discuss Coming Golf Meet

The Iowa City junior chamber of commerce tonight will discuss the state jaycee board meeting and golf tournament, both to be held in Fairfield next weekend, Pres. Wayne Putnam Jr. said.

A representative of the John B. Rogers Production company, Fostoria, Ohio, will speak to the jaycees in connection with their plans for a September minstrel show, Putnam said.

The jaycees will meet at 6:30 p.m. for lunch and a softball game at the lower level of City park to be followed by the business meeting, he said.

### 'Berkeley Square' Opens at 8 Tonight

"Berkeley Square," a comedy by John Calderston, opens tonight at 8 o'clock in the University theater. The play is a dramatization of Henry James' novel, "The Sense of the Past." It was first produced in this country by Leslie Howard.

The romantic fantasy concerns an American who falls in love in the 18th century with an English girl who died more than 100 years before his birth.

Leading roles are played by Bill Countryman, G. Eugene, Ore.; Ardis Kresensky, G. Algona; Ray Hill, G. Cedar Rapids; Jane Leckberg, A4, Indianola; Charles Gaupp, G. Lansing, Mich., and Jo Collins, G. Stocton, Tex.

### Solon Drug Store Sued By Ohio Paint Company

The Chansky Drug store and Ralph Chansky, Solon, have been named defendants in a \$92.20 damage suit filed in district court by the Plasti-Kote company, Inc., of Ohio.

The plaintiff charged the defendants with refusing to pay for paint products delivered to them under a purchase agreement made about Feb. 26, 1948. The plaintiff asked the court to award it the amount of the suit plus interest and court costs.

### Colfax Man Dies Here After Road Job Accident

Elmer Garrett, 51, Colfax, died at Mercy hospital Saturday afternoon from injuries received when the road construction machine he was operating west of Iowa City overturned and crushed him. The accident happened Saturday.

He was employed by the Eben Van Dusseldorf company, Colfax, contractors working on a road improvement project west of here near the county line.

### 40 Iowa Citizens Take Mississippi Excursion

Forty Iowa Citizens were among 200 State Historical society members and guests on two Mississippi river steamboat excursions Saturday and Sunday, society officials said yesterday.

The 140-mile round trips from Clinton to Bellevue were made on the Rob Roy III, commanded by O.D. Collis, Clinton, and the Alma, commanded by Alma and Dwight Seaman, also of Clinton.

### Iowa City Pool Gets Cleaned, Disinfected

A special five-day cleaning and disinfection of City park swimming pool should be completed tomorrow, Pool Manager William Boswell Jr., said yesterday.

The cleaning was necessary to rid the pool of water vegetation caused by lack of sunlight the past few days, he explained.

The pool remained open to swimmers since the chlorine compound used for disinfecting is not harmful although it has a disagreeable odor, Boswell said. He added that the special two or three-day cleaning methods would be used weekly in the future in addition to the daily sanitary measures such as filtering and purifying pool water.

Boswell termed the special measures as an "added precaution" for the benefit of people using the pool.

### Damage Suit Filed By Garage Owner

John Sterba, Iowa City, has filed a \$225 damage suit in Johnson county district court against Frank Vermace and Charles Vermace Jr.

The plaintiff claimed he leased a garage in Iowa City to the defendants about June 1, 1948, and that they agreed to pay \$75 monthly rent.

Sterba alleged the defendants used the garage for three months but paid no rent and he asked the court to award him \$225 plus interest and court costs.

### Roberts to Give Final Talk on Atomic Energy

Prof. Arthur Roberts, SUI director of research in nuclear physics, will deliver the seventh and last lecture of a series designed to explain the atomic energy to the layman in the chemistry building auditorium at 8 p.m. tonight.

Roberts will explain what an atomic secret is and what classifying atomic research as secret means to the average citizen of the United States.

### Active Polio Patients at SUI Increase to 33 for New High

The 5-year old daughter of an SUI student was one of seven patients admitted to the "active" polio ward at University hospitals yesterday.

She was Cathie Bowers, daughter of Donald M. Bowers, of Coralville. Hospital authorities reported she was in "serious" condition yesterday.

The number of patients listed as active at the hospitals was 33 yesterday, the highest of the year.

Mrs. Freda Rudisill, 39, Dubuque, died at 9:45 p.m. Saturday, the eighth polio death of the year at the hospitals.

Two other patients admitted yesterday were in "serious" condition. They were Russell Smith, 5, son of Donald Smith, Waterloo, and Steward Humphreys, 6 year-old son of Harold Humphreys, Bloomfield.

The other admissions, all reported in "fair" condition, were Jerome Simon, 2, son of Ralph Simon, Farley; Raymond Pope, 26, Fort Madison; Robert Riit, 6-year-old son of C. Riit, Waupeca; and Gilbert Tidman, 2, son of Howard Tidman, Hampton.

Transferred to the inactive lists yesterday were Doris Sloten, 22, Fort Dodge; James Lakeman, 5, Dubuque, and Marilyn Harris, 3, Panora. All were in "good" condition. Carol Sorden, 28, Lone Tree, and Alphadee Akers, 3, Iowa Falls, were released yesterday. They were admitted July 20.

### Copies of Paintings, Prints to Be Rented

Reproductions of 152 paintings and prints will be available for rent at the Iowa Union building, Sept. 5, Miss Isabelle Plum, in charge of the Iowa Union rental collection, said yesterday.

The reproductions may be rented for either one, two, or three semesters of the 1949-50 school year.

They are available for independent housing units, sororities, fraternities and business offices, but not for individual students. The rental charge is \$1 per semester and 50 cents for the summer semester.

The reproductions are now on exhibition in the main lounge and women's lounge of the Union.

### INDONESIAN FIGHTING ENDS

BATAVIA, JAVA (AP)—The end of fighting between the Dutch and Indonesian Republicans will be proclaimed tomorrow the United Nations said yesterday.

### We have come to live here...

"We have come to live here and mean to do what is right. If you want honest goods at bottom prices, call at Youngker Brothers."

The quotation at left is taken from one of our earliest advertisements, and still accurately describes our philosophy of doing business.

Beginning today we take over the Yetter Store. From now on it will be known as Youngkers.

complete resources of the largest Department Store business in Iowa are at the disposal of our Iowa City Store.

Most of the merchandise you will see today is brand new fall 1949 goods, offered for the first time. Remnants, odd lots, damaged and soiled goods have been moved to Des Moines for quick liquidation in our Basement Store. From now on in Iowa City we shall try to give you the most complete assortment possible considering present space limitations.

We shall make every attempt to fit the personnel of Yettters into our organization. We hope any construction or remodeling will be done by Iowa City firms.

We are making plans to construct an additional building just west of Yettters. We expect this to double our present capacity early in Spring 1950. At that time, it shall be our aim to give you, in the departments we carry the most complete assortments anywhere in the Iowa City area. The

Come in and shop or browse around. In spite of space limitations we will do our best to supply you with the goods you want at prices you want to pay. As time goes on physical improvements will be made to the plant fixtures.

In the meantime—remember—"We have come to Live Here"—and "Mean To Do What is Right." "Satisfaction Always" is more than just an advertising slogan. It's an expression of the way we feel and the way we mean to do business in Iowa City.

**LEICA CAMERA OWNERS ATTENTION!**

If your camera does not have a coated lens you will be glad to know that the E. Leitz Company branch in this country is now prepared to do this work as well as cleaning, polishing and recentering. See us about having your lens coated or cleaned.
