Greeks Claim Albanians Aid Rebel Forces

ATHENS, GREECE (UPI) — The Greek general staff charged last night that Albanian troops had entered Greece to aid the Communist rebels and that artillery had been fired across the frontier at government troops.

A special general staff statement said that bodies of Albanian troops had been found in captured rebel positions, that Greek army troops suffered casualties in a bombardment from Albania and that rebels attacked government positions from Albanian soil.

The statement said:

"In reply to repeated Albanian charges and broadcasts regarding invasions of Albania by Greek troops, the following facts are listed:

"1 — Our troops found bodies of 20 Albanian regular soldiers, as well as the records of an Albanian company, in the Vitsi area near the Greek villages of Kroustalopiyi.

"2 — On Aug. 14 artillery from Albania fired on our troops in the Vitsi area, causing casualties.

"3 — Four attacks were launched

from Albania by the guerrillas during the last week in our positions in the Grammos mountains."

The big summer offensives which the Greek army is now conducting in the Vitsi and Grammos mountains in northwestern Greece are designed in part to cut the guerrillas off from their Yugoslav and Albanian supply routes, especially the Albanian route.

Gen. James A. Van Fleet, chief of the United States military mission in Greece, said yesterday that an estimated 60 percent of the 7,000 guerrillas in the Vitsi area had been annihilated in the fighting.

Federal Employees May Not Get Pay

WASHINGTON (AP) — The house voted yesterday to extend no more credit to the armed services and other government agencies which have been forced to operate "or the cuff" since July 1.

It took that action in refusing to approve another "stopgap" measure which would permit the departments involved to sign for their bills until congress supplies their regular appropriations for the current fiscal year.

This means that after midnight last night millions of government workers face the prospect of payless paydays — unless the lawmakers come up with a quick solution to break the senate's legislative log jam which capitol hill observers describe as the worst in history.

Some \$27-billion in money bills is now tied up in the senate or is blocked by the senate — house disagreement. These appropriations not only are to finance the armed forces but also such things as foreign aid and a score of other government activities.

Hospital Not Part Of Hoover's Plans

NEW YORK (AP) — Herbert Hoover, whose gall bladder attack apparently worried the nation more than it did him, arrived here yesterday ruddy cheecked and smiling.

Hoover showed more interest in the state of the nation and his losses at cards than in the state of his health.

"Nothing of the kind," the nation's only living former president replied, when asked if he planned to enter a hospital for a check-up, after the attack which struck him in a transcontinental train.

Hoover said he planned to resume work on his government reorganization plan. He estimated he would spend "at least a year more" on it.

Senate Dispute Hot On Power Line Bill

WASHINGTON (AP) — Sparks flew in the senate yesterday as it opened debate on a \$590-million bill, part of which would finance building of government-owned power lines in the western areas of the country.

Opponents claimed the proposal was a step toward "nationalization of electricity" in the United States. But its backers said rejection of the plan would mean a reversal of the nation's public power policy and give private utilities "monopoly."

Workmen Swab, Remove Wax on Floor at Union

VACATION TIME IS FLOOR CLEANING TIME at the Iowa union this year. Because of all the wax that is put on the floor for dances, the job of scouring down to the wood is not an easy one. Here, one workman is using a large circular electric brush with

soap and water while the other men follow up with a suction machine and mops. The foreman said that the job is tedious because the warm, soapy water, if left on the floor too long might damage the wood.

German Right Wing Plans Organization Of Coalition Cabinet

FRANKFURT, GERMANY (UPI) — Konrad Adenauer, prospective chancellor of the new west German republic, yesterday summoned right-wing leaders to a meeting Saturday to organize a coalition cabinet.

Adenauer's dominant Christian Democratic party and other rightist groups won such a sweeping victory in Sunday's parliamentary elections — the first since the pre-Hitler era — that not a single Communist candidate was elected outright.

The rightists, with 256 of the 402 seats in the lower house (Bundestag), hold a two-thirds majority over the Socialists and Communists. The Communists got 15 seats under the proportional representation system; the Socialists elected 130.

Adenauer, frozen-faced after 50 years of politics, set the organizational meeting tentatively for Saturday and its probable meeting place as Bonn, proposed capital of the "federal republic" and of non-Russian Germany.

The composition of the first cabinet was blueprinted by Adenauer and Theodor Heuss, chief of the rising free Democrats, more than a week before the voting. Under their agreement, Heuss will become the first president and Adenauer will take the more powerful chancellor's post.

Senate Dispute Hot On Power Line Bill

WASHINGTON (AP) — Sparks flew in the senate yesterday as it opened debate on a \$590-million bill, part of which would finance building of government-owned power lines in the western areas of the country.

Opponents claimed the proposal was a step toward "nationalization of electricity" in the United States. But its backers said rejection of the plan would mean a reversal of the nation's public power policy and give private utilities "monopoly."

Forty-Nine Saved, Nine Die As Plane Crashes into Sea

GALWAY, IRELAND (AP) — Forty-nine persons were saved in a tense, flare-lit air-sea rescue operation yesterday after a transoceanic airliner ran out of gas and landed in the Atlantic 15 miles off the Irish coast.

Nine others of the 58 aboard were killed or lost trying to escape from the four-engined skymaster (C-54).

The plane bellied into the ocean so gently that survivors said they were not shaken from their seats.

One of the dead was an American crewman from Brooklyn.

The plane carried 47 Italian emigres going to settle in Venezuela, and 11 Americans, all Transoceanic personnel. Eight of those lost were Italians.

Among the unhurt survivors was the famous American woman pilot, Ruth Nichols. She had signed on the crew in Rome as a work-a-way stewardess to return to the United States.

The rescue was organized quickly by alert ground personnel at Shannon in radio communication with ships at sea and planes flying the skies where the skymaster was vanishing.

Alerted to watch for the lost Skymaster when it failed to find Shannon for refueling while en route from Rome to the United States, other pilots rallied around in the air. One tried to lead it back to Ireland, then dropped flares and life-saving equipment and finally directed the surface craft to the floating survivors.

Cards Clip Cubs, Advance On Idle Dodgers

Musial Clubs Homer Inside Park to Help Triumph, 5-2

CHICAGO (AP) — The St. Louis Cardinals whittled the idle Brooklyn Dodgers' first-place lead in the National league race to a half game here yesterday when they whipped to Chicago, Cubs, 5 to 2, before a crowd of 19,754.

Harry "The Cat" Brecheen throttled the Cubs by scattering six hits for his 10th triumph of the season. He also contributed three hits with a double and a pair of safe bunts.

The Cardinals collected a dozen blows, including Stan Musial's 20th homer. It was an inside-the-park blow down the left field line that caromed around in the corner. Hank Sauer injured his left wrist colliding with the wall while he charged the ball.

The hitting of the St. Louisans was far from timely. Bob Chipman, Dewey Adkins and Bob McTigue generously added seven walks to the barrage of hits. But the Cardinals left a dozen stranded on the baselines.

Tommy Glaviano singled, moved up on Brecheen's safe bunt and counted on Roy Smalley's error in the third inning. Brecheen followed him across on a single by "Nippy" Jones. Glaviano and Brecheen both bunted safely in the fourth and the former tallied on a wild pitch.

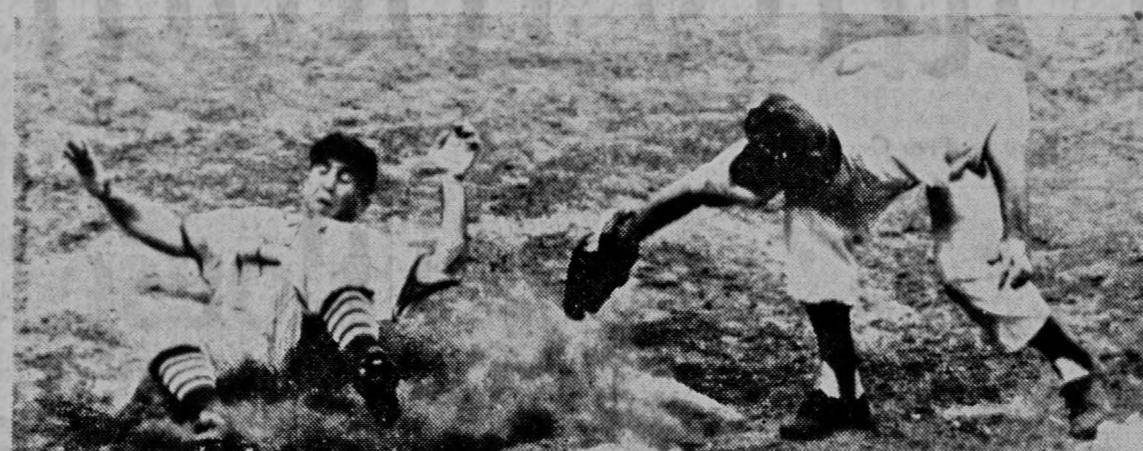

Musial's homer and a triple by Jones set up the final two runs in the fifth that routed Chipman for his eighth loss of

the season.

Only one run off Brecheen was earned. Sauer's single and errors by Glaviano and Marion handed the Cubs one in the fourth. Herm Reich doubled and Mickey Owen singled for the other in the eighth. It was the first earned run for the Cubs in 32 innings.

St. Louis 602 120 5-2
Chicago 600 100 610-2 6 1

INSIDE-THE-PARK HOMER—Stan Musial, Cardinal right fielder, slides across home plate after belting an inside-the-park homer in the fifth inning against Cubs yesterday. Catcher Mickey Owen (10) takes Roy Smalley's relay from Hank Sauer in left field. Umpire is Art Gore. Card First Baseman Nippy Jones (3) watches the play.

WILD PITCH COSTLY—St. Louis Cardinals' Third Baseman Tommy Glaviano slides safely across home plate in the fourth inning of Card-Cub game yesterday, scoring on a wild pitch by Cub Hurler Bob Chipman. Chipman (right) came in to take throws from Catcher Mickey Owen.

Seeded Stars Gain in Net Play

BROOKLINE, MASS. (AP) — Wimbleon Champions Richard (Pancho) Gonzales and the Veteran Frankie Parker launched their bid for the national doubles tennis titles in heavy-handed fashion yesterday at Longwood.

They were one of the eight seeded teams called on to play out of the first round in the men's and women's division and neither appeared to be breathing hard after they raced through Blair Hawley of Boston, and Henri Salau, Wesleyan College star, in 6-3, 6-0, 6-2 fashion.

Fourth-seeded Irvin Dorfman of New York, and Bill Vogt of Los Angeles, were extended more than a bit getting past Chauncey Steele and Bob Stewart, the experienced Cambridge tandem, 6-2, 6-8, 6-2, 7-5.

Buddy Berhens of Fort Lauderdale, Fla., and Jim Brink of Seattle ranked sixth in the domestic draw, had to go the five-set limit for a 3-6, 6-3, 6-2, 3-6, 6-3 win over persistent Hal Burrows of Charlottesville, Va., and Straight Clark of Pasadena, Calif.

Half of the six women's seeded pairs were spotted in the first round and each of them survived in impressive fashion.

Mrs. Patricia Canning Todd of LaJolla, Calif., and Gertrude (Georgeous Gussie) Moran of Los Angeles, rated just behind Defenders Louise Brough and Mrs. Margaret Osborne Dupont, who are seeking their eighth straight victories, moved into the second round by sweeping 12 games in a row from Louise Warfield of Baltimore, and Rachel Francke of Philadelphia.

A's Rally to Whip Leading Yanks, 9-5

PHILADELPHIA (AP) — A five-run sixth inning rally gained the Philadelphia Athletics a 9-5 victory last night over New York's Yankees as Righthander Carl Scheib picked up his fourth straight pitching decision.

The defeat shaved New York's American league lead to three games over the second place Boston Red Sox.

The victory gave the Athletics the last two of the five-game series with the league leaders.

Frank Leahy's Perennial Sob Story

Says Irish Will Lose 3 Games

Note Dame university's football brochure arrived in the mail yesterday with a tearful prediction from Coach Frank Leahy, saying he doesn't see how the Irish "can fail to lose at least three games."

We quote the following, adding that Leahy's eleven went through an undefeated season several years back, after the coach had predicted sadly that he wouldn't doubt if the team lost at least seven games:

"Although the Irish have 27 monogram men returning, the figure is misleading. In four games last year, Pittsburgh, Navy, Indiana and Washington, the first team was not used in the second half. Therefore, many lads of ordinary reserve status were en-

sabled to earn monograms. Speaking of the opposition, Coach Leahy had the following to say:

"Indiana is on the upgrade under Coach Clyde Smith. Washington will be a rejuvenated club with many junior college transfers. We were lucky to edge Purdue a year ago and would willingly settle for a one-point win again. Tulane is being touted as the outstanding team in the Southeastern conference.

"Coach George Sauer got the Navy battleship underway at the very end of last year and this season they'll give everybody trouble. Michigan State figure as one of the outstanding teams in

the country. Charley Justice will powerhouse North Carolina to a great season.

"Eddie Anderson, at Iowa, always comes up with a rugged club."

"Southern California is expected to have the outstanding team on the coast. Southern Methodist ranks with the very best.

"With such an array of opponents, it is hard to see how we can fail to lose at least three games."

FLINT WINS

NORMAL, ILL.—Flint, Mich., defeated East Chicago, Ind., 8-7, last night in the first game of a regional American Legion junior baseball tournament.

Palmer's 68 Cops Tam 'World' Playoff

Bags Rich \$10,000 Prize with Aid of Phenomenal Shots

CHICAGO (AP) — Johnny Palmer, belting phenomenal recovery shots, plucked a four-under-par 68 to Jimmy Demaret's 70 yesterday to bag the \$10,000 top swag in a playoff for the Tam O'Shanter "World" golf championship.

The flashy Demaret, gleefully accepting bets on nearly every green from Promoter George May while Palmer ignored them, won \$7,000 as runner-up.

Making each shot he took worth nearly \$150, the 31-year-old Palmer easily stole the vault keys on the 17th. His drive was in the heavy rough, with fir trees directly hiding a clean shot to the pin.

The Badin, N.C., pro picked an eight-iron, and although he was unable to take a free swing without ticking branches, he uncorked

Don't Take Cameras, Radios to Grid Games

Iowa's athletic department is advising fans attending the five football games here at the stadium this fall to leave their portable radios and movie cameras at home.

It is against Western conference rules to take movies from the stands. Portable radios have been ruled out as a nuisance to other spectators.

Any fan bringing either of these items will be requested to check them until the game is over.

Pirates 4-Run 6th Topples Reds, 9-7

CINCINNATI (AP) — The Pittsburgh Pirates overtook Cincinnati with a four-run sixth inning last night and then went on to defeat the Reds, 9-7, before a crowd of 11,371. Rip Sewell, who took over from Starter Bill Werle during a fifth-inning Redleg uprising, gained credit for his sixth victory as against one defeat.

Hurling against Hall Newhouse before 44,510, Feller entered the ninth inning with a 2-1 margin. But in that frame he walked Dick Wakefield and Vic Wertz put the Tigers in front with his 13th home run over the fence in right field.

In Cleveland's half of the ninth, Right Fielder Bob Kennedy slammed a home run over the fence in left to tie the game.

Peek batted for Johnny Berardino and ended the game with his single that scored Larry Doby.

Cleveland went ahead in the seventh when Joe Gordon belted his 16th homer into the left field stands.

It was Feller's 12th victory against eight losses. Newhouse now has 11 victories and eight defeats.

SUI Graduate Weds

NEWLYWEDS MR. AND MRS. JOHN W. DOOLEY are shown at the reception following their wedding at 9 a.m. Saturday in St. Thomas More Catholic student center. Mrs. Dooley, the former Edna Ann Mellieck, is a 1949 graduate of SUI and has been employed as a pharmacist at Mercy hospital here and Mr. Dooley, A4, is news director of radio station WSUI-KSUI. They will be at home in Iowa City after Saturday.

Opera Writer?

Machinist's Dreams May Come True

NEW ORLEANS (P) — A wintry night next December will be a fateful one for Timothy di Domenica, a 46-year-old milling machinist who has a boyhood dream come true.

For 20 years, the 46-year-old Domenica has been laboriously composing an opera in three acts. Into it has gone his hope, talent, money and spare time. The opera is now completed and its premiere is scheduled for December. The exact date has not been set.

The opera, based on a biblical character, will be the first musical drama in English by a native American to open in New Orleans — a city famous for introducing French and Italian opera into this country.

In all the 20 years, Domenica has never given up hope — "not for a single minute." When he got low, he always read a line from one of the arias in his opera — "If bodies fail, the hearts never will."

Domenica has taken so long to write the opera because he had to compose it in his spare time. He had to work every day as a milling machinist to keep "the wolf from my door."

Although his "night of a lifetime" is still months away, Domenica, slender, balding and bespectacled, already is jittery and haunted by sleepless nights.

"It means so much to me," he smiled sadly. "If it's not successful, I don't know what I might do... 20 years is a long time."

The theme of the opera is the biblical King David's sinful love for beautiful Bathsheba and his punishment by the Lord. The narrative of the opera — in biblical English — is derived from chapters 41 and 42 of the book of Samuel.

The work calls for five principal roles — King David, Bathsheba, Michael, Uriah and Manid — and three major parts — Abigail, Nathan, the prophet and God's servant, and a messenger. There is a chorus of 15 males and 20 women's voices.

Domenica, born in Newark, N.J., went to Italy at an early age where he received his musical start.

From the time he was six, Domenica said he had always dreamed of writing an opera.

In 1921, he returned to Philadelphia after studying voice with a graduate of Rome's famed Saint Cecilia Academy of Music. But because he had a voice break (white voice), his singing efforts failed. He came to New Orleans in 1926.

Then he fell back on his original idea of writing an opera. One day while reading the Bible, Domenica ran across the 51st Psalm.

"I thought it was so beautiful; the man who wrote it must have suffered," he said.

"I checked through the Bible and discovered the psalm was written by David to God to atone for his sins with Bathsheba."

In 1929, Domenica wrote the plot for his opera. From then on until last week he lived and worked for one thing — its completion.

During that time, Domenica held numerous jobs as a mechanic.

"My best creative hours were from 3 to 5 a.m., but this was bad," he said. "It made me nervous and tired for my daily routine. I was fired from several jobs, but I didn't mind. When I got that low feeling, I always thought it might be worse. That cheered me up."

Prof. Aspel to Go To Paris to Study Writing, Language

Ground breaking ceremonies for the new Evangelical Free church at Coralville will be held Sunday at 2 p.m. tomorrow. Miss Louise Miller, missionary in India, will speak on the importance of language in India in keeping with the topic, "Importance of Language in All Mission Fields, particularly in Liberia." Hostess will be Mrs. J. R. Hotka and Mrs. Vernon Roose will be leader.

Aspel will make three series of recordings on French language and literature. During a year's stay in Paris, he plans to study different phases of the French prose sentence of the 19th century.

The first of the series of recordings will be passages of modern French literature read by the authors themselves. The second will cover passages of 19th century French prose recited by actors or university professors, while the third will be spontaneous French speech as commonly used on the street, Aspel said.

Recording equipment for the project is being furnished by SUI. The study, under SUI sponsorship, is being conducted for better understanding of literary criticism.

Aspel will be accompanied to Paris by his wife. He lived in that city 10 years and once studied at the University of Paris before he received his doctorate.

Judging Entrants Have 4-H Banquet

High ranking 4-H judging contestants and other winners of the county 4-H show last week were honored last night at the annual Johnson county 4-H banquet in the Hotel Jefferson.

First place in the boys judging contest went to Eldon Moss, Iowa City; Kenneth Burns, Oxford; Keith Hemingway, route 7; and Don Wood, Tiffin, tied for second place. County Extension Director Emmett C. Gardner announced yesterday.

Pauline Dohrer won first place in the girls judging contest, followed by Vivian Lacinia, Ruby Lacina and Alice Lord.

Market lambs, market pigs, dairy heifers, purebred beef heifers and baby beef steers were the five classes judged by the contest entrants, Gardner said.

WHERE WAS DEER?

MILFORD, IOWA (P) — Add farm hazards:

George Anderson, who farms northwest of Milford, reports his tractor tire was punctured recently when one side of a set of four-point deer antlers entered the casing while he was working in a field.

U-Hospitals Admit New Polio Patients

Marlene Mclem, 18, Northwood, died of polio Saturday at University hospitals; hospital officials reported yesterday.

Seven new cases were admitted over the weekend. They were Robert Kline, 7, West Branch; Fryan Hyde, 4, Coleburg; Lois Lehmkul, 10, Leedsgrove; Lois Plasterer, 30, Waterloo; Marvin Ringen, 17, Zwingle; Ina Chapman, 32, Chillicothe, and Leonard Sternhagen, 23, Cascade.

Two patients were discharged from the hospitals and six were transferred to the inactive list, officials said.

Hailstorm Causes 48-Degree Plunge

RAPID CITY (P) — Hail stones an inch in diameter fell on Rapid City yesterday, causing extensive damage and dropping the temperature 48 degrees in 20 minutes.

The hail, accompanied by high winds, started at 1:45 p.m. (Iowa time). By 2:05 the temperature had dropped from 83 to 35. Immediately after the storm passed it rose again to 55.

The temperature at the Rapid City air base, only eight miles away, but untouched by the hail, remained at 83 degrees throughout.

Scores of windows were broken and hailstones lay an inch thick in streets and on rooftops. Observers said the storm reminded them of last winter's blizzards.

Charlotte Wexler Takes Pan-American Union Job

Charlotte Wexler, who received her M.A. degree from SUI in 1948, is now an interpreter at the Inter-American seminar on illiteracy and adult education, Prof. C. E. Cousins, chairman of the SUI romance languages department, said yesterday.

The seminar is sponsored by United Nations Educational, Scientific and Cultural organization (UNESCO) and the Pan-American Union. Miss Wexler is employed by the Pan-American Union, Washington, D.C., Cousins said.

Miss Harris Wed To Ralph Jackson In Sunday Nuptials

Miss Marilyn Harris, 1949 SUI graduate, and Ralph L. Jackson, 24, were married at 3 p.m. Sunday at the First Presbyterian church in Muscatine.

Following a short wedding trip, the couple will be at home at 630 E. Washington street.

The bride is the daughter of Mr. and Mrs. W.C. Harris of Muscatine, and Mr. Jackson is the son of Mr. and Mrs. W.N. Jackson of Missouri Valley.

The Rev. James Robertson officiated at the double-ring ceremony before an altar decorated with palms and ferns.

The bride was given in marriage by her father. She wore a white satin gown designed with long sleeves and a short train. She carried two white camellias on a white Bible and wore a lace Juliet cap.

Mrs. Fred Biere of Olin, matron of honor, wore a pastel green gown of dotted swiss.

The best man was Francis Jackson, Omaha, brother of the bridegroom. Ushers were Fred Biere of Olin and Charles A. Lindberg, Iowa City.

Coralville Church Building to Begin

WOMEN OF THE ENGLISH LUTHERAN CHURCH will meet at 2 p.m. tomorrow in room 303 of the Hotel Jefferson. This will be the first meeting of the club's year and plans will be made for the coming year.

The building, to be located west of the parsonage at 422 Patterson street, will be about 36 by 80 feet and of Spanish architecture, Rev. Streed said.

The main auditorium will seat 200 persons with 50 additional seating spaces in the balcony.

Work on the project will start this summer because of the need for church Sunday school space, Rev. Streed pointed out.

Church services have been held in the Coralville town hall because the congregation has not had its own building, Rev. Streed said.

No cost estimates of the new building have been made, Church Elder Samuel R. Harding said yesterday.

Thompson received his M.A. degree from SUI Aug. 29 and was a journalism school graduate assistant and intern in the information service.

He received his B.A. degree from Carthage college, Carthage, Ill., where he was publicity assistant.

Silver Set Presented To Rev. Dierks, Wife

The Rev. and Mrs. Elmer E. Dierks were presented with a set of silverware yesterday in honor of their silver wedding anniversary. The silver was a gift of the Baptist church and Sunday school.

The surprise observance of the Dierks' 25th anniversary was held during the annual picnic of the church and Sunday school in City Park. About 80 persons were present.

GARY (P) — AFL dairy workers and the Lake county milk dealers association yesterday signed an agreement ending a dispute which shut off milk deliveries to 500,000 residents of the county for two days last week.

The wage agreement was reached five days before a 10-day truce would have expired. The truce was arranged by mayors of affected towns in the county.

LAFF-A-DAY

"Feels like rain, Louie—did you look to see if all the windows were closed upstairs?"

Town 'n' Campus

ELKS LADIES CLUB will meet in a social session at 2 p.m. today in the Elks club rooms. Refreshments will be served. Mrs. Helen Graf will be hostess.

ZETA ALUMNAE CLUB will hold its regular meeting tonight at 7:30 in the home of Mrs. Maxine Schmidt, 221 Lowell street.

GARDEN DEPARTMENT OF THE IOWA CITY WOMEN'S CLUB will have another in the series of flower arranging classes Thursday in the community building. The class, under the instruction of Mrs. F. B. Ebersole of Davenport, will meet from 9:30 a.m. until 4 p.m. Those attending should bring flowers, container, holders, scissors and old newspapers. A sack luncheon will be held at noon. Anyone interested is cordially invited.

Mrs. Fred Biere of Olin, matron of honor, wore a pastel green gown of dotted swiss.

The best man was Francis Jackson, Omaha, brother of the bridegroom. Ushers were Fred Biere of Olin and Charles A. Lindberg, Iowa City.

Wedding Plans Announced

THE ENGAGEMENT AND APPROACHING MARRIAGE of Miss Helen Jean Latham, Ottumwa, to Robert A. Kaufman, A4, Ottumwa, has been announced by the bride-elect's parents, Mr. and Mrs. S. I. Latham. Miss Latham attended Ottumwa Heights college where she was affiliated with Phi Theta Kappa, national honor fraternity, and has been employed at the John Morrell company in Ottumwa. Mr. Kaufman is a member of Sigma Alpha Epsilon social fraternity here. The wedding will take place at 3 p.m. Sunday, Sept. 11, in the Ottumwa Wesley Methodist church.

Too-Bare Busts Raise Big Fuss

Journalism Meeting To Hear Davenport

MONTRAL (P) — City Councilor Dave Rochon came up with a suggestion yesterday for eliminating shock to Montreal's modesty caused by summer low-and-behold dresses.

He said police could carry thin, prettily-colored printed paper boleros — short jackets. They would offer one to any woman walking the avenues with too much bust or shoulder showing.

Rochon said it was mostly visitors from the United States who display too much.

"I shouldn't be surprised if those paper boleros become a big advertisement for Montreal," Rochon said. "The visiting ladies would take them back as souvenirs. Instead of being offended, they would be flattered, and Montreal's principles of modesty would be preserved."

Davenport came to SUI this summer from Indiana university to teach and carry on research and service activities in the field of publication business practices.

OPERATORS CHARGED SPIRIT LAKE (P) — Two tavern proprietors at Milford, and Arnolds Park were charged with illegal possession of intoxicating liquor yesterday.

James R. Harlan, assistant director of the state conservation commission, said yesterday that plans call for the largest wild life display in the history of the fair.

The surprise observance of the Dierks' 25th anniversary was held during the annual picnic of the church and Sunday school in City Park. About 80 persons were present.

The timber wolves to be displayed this year were pups when shown at the 1948 fair. They now weigh more than 100 pounds and still are growing.

Interpreting the News —

Aid Needed to Halt Russ Would Wreck Economy

By J. M. ROBERTS JR
(P) Foreign Affairs Analyst

Once again Sen. Arthur Vandenberg has stepped in with a plan to help the administration put through its foreign policy, this time in an effort to send the European military assistance program for Europe is predicated on American aid totaling four or five billion dollars over several years.

It would provide nothing more than modernization of western Europe's normal military force of something over 1.5-million men. In the background would be the already-planned U.S. development of its strategic bombing and other forces, now running at the rate of something less than \$15-billion a year.

This does not envision establishment of a combined military strength which would be capable of aggression against Russia. For western Europe to match Russia's forces, military men estimate, would require many years — perhaps 20, since Russia would be striving to maintain the gap.

Gen. Pierre Billote, head of the French delegation to the United Nations military staff committee and his country's former deputy chief of staff of national defense, estimates in the current *Pageant* magazine that

Folks there want lighter colored cars, and the population shift has been that way. Light shades are better suited for western weather, he pointed out, because they reflect the sun better.

Since 1940 there has been a noticeable shift from black to other colors. Before the war about 30 percent of the car buyers wanted black cars. According to July, 1949, figures only 22.5 percent of the cars made were black.

He based his estimate on collections of the state 2 percent sales tax. He considered reports for the first two quarters of last year and this year, and estimated the final figure for the latter quarter. Revenue from sales in the second quarter of this year will not be complete until Sept. 30.

The sales volume in the second quarter of this year probably was about \$530-million, Abramson said. This compared with \$612,750,000 in sales in the corresponding period last year.

Sales volume in the first quarter of this year was \$532-million. That compared with \$538-million for the same quarter of last year. To date the commission has collected \$7,623,684 for sales last April, May and June. Abramson estimated another \$3-million would come in before Sept. 30, but he added, "That's putting it high."

According to many top economists, the main reason that prices have not declined as sharply as business conditions would warrant is because manufacturers are afraid of larger labor costs resulting from the fourth round.

Since labor has little to gain from this round, wouldn't it be more profitable to hold off their demands at this time and give the cost of living a chance to go down? The only reason to strike is to better the worker's living condition.

All the salary boosts in the world won't help the laborer if he can't buy any more groceries with the money.

Retail Sales Slump Nearly \$1-Million

DES MOINES (P) — Business in Iowa retail stores dropped nearly \$100-million in the second quarter this year, compared with last year, the state tax commission estimates.

"The decline undoubtedly was considerably sharper than the rather mild recession in the first quarter of this year," M.L. Abrahamson, commission cashier, declared.

He based his estimate on collections of the state 2 percent sales tax. He considered reports for the first two quarters of last year and this year, and estimated the final figure for the latter quarter. Revenue from sales in the second quarter of this year will not be complete until Sept. 30.

The sales volume in the second quarter of this year probably was about \$530-million, Abramson said. This compared with \$612,750,000 in sales in the corresponding period last year.

Sales volume in the first quarter of this year was \$532-million. That compared with \$538-million for the same quarter of last year.

To date the commission has collected \$7,623,684 for sales last April, May and June. Abramson estimated another \$3-million would come in before Sept. 30, but he added, "That's putting it high."

Collections for the corresponding period last year totaled \$12,254,893.

Her Lifesaver

Northwest's Tree Farms Flourish But Harvest Is 90 Years in Future

BY THE CENTRAL PRESS

PORTLAND, ORE. — Here in the Pacific northwest they are planting crops that will not be harvested for 90 years.

Each year more acres of logged-over lands are replanted or reseeded into what become "tree farms." Douglas fir trees are planted like any crop, with the main difference being in the harvest date. One of your descendants will do the harvesting.

Eight years ago there was nothing like a tree farm. You just cut down the trees and hoped that nature would grow some more. Then the large private timber companies caught the conservation fever.

After all, when you had millions of dollars invested in logging camps and sawmills you had to protect yourself with a continuous supply of raw material — trees.

So in less than 10 years, 22 states have started three farms with more than 17-million acres devoted to just growing trees.

Of course, in the southern states pine trees are harvested during your lifetime. However, in the Pacific northwest the tree crop is deferred, because Douglas firs are slow to grow.

This area, which still has the nation's largest stands of virgin timber, now has more than 3-million acres certified as tree farms. Lumbermen take their tree-farming seriously. After all, they admit, they have a responsibility to the rest of the nation.

Right now, they supply more than one-third of the nation's softwood lumber. Oregon and Washington, for example, have 46,204,000 acres of commercial forests. There's enough potential lumber for a good many million houses.

William D. Hagenstein, forest engineer for the West Coast Lumbermen's Association and Pacific Northwest Loggers' association, says tree farming is like putting money in the bank.

"The only difference," he explains, "is that in the case of growing trees, you don't draw any interest or principal for 90 years. Put the value increases nevertheless."

Restocking of logged-over or burned-over area by nature is the system advocated by the lumbermen's association. It's the cheapest by far.

In 10 years, with any luck, nature will restock an acre with from 1,000 to 3,000 fir trees.

Where does nature get the seed? Under best forest practices, a logging company now leaves stumps. That means that from 60 to 180 acres of timber are cut, then that much is skipped over, so that a place is left close enough where nature can get a supply of Douglas fir seeds to scatter on the winds.

If the logged-off area is found to be amply stocked in five to 10 years, then the logging company returns and logs off these so-called seed trees.

There are two other methods. One is to scatter minute Douglas fir seeds (they average about 40,000 to the pound) by helicopter.

But many of these are gobbed up by tiny white-footed mice before they have a chance to germinate. This rodent is the scourge of the northwest forest planters and is said to eat its weight every 24 hours.

However, ways are being found to take care of Mr. Mouse. Seeds treated with thallium sulphate are also scattered.

"Two seeds and the mouse is dead—quack!" says Forester Hagenstein.

From one quarter to a half pound of seeds are scattered per acre, depending on the moisture at the time. But the loss is great. Foresters estimate that it takes about five million seeds to produce 500 trees.

The third method is hand planting. A planting hoe is stuck into the ground and into the gash in the earth is inserted a five to seven-in. fir, with an elaborate root system longer than the tiny tree is high. But this is a costly method, about \$20 an acre as compared to \$10 or \$12 the other way.

Most of the tiny trees come from the lumbermen's association own non-profit nursery at Nisqually, Wash., established in 1942 where they are grown scientifically from seed.

Last year the nursery produced more than 8-million seedlings. One-year-old trees cost timbermen about \$5.75 per thousand.

Within a few weeks now, as soon as the fall rains start, the new crop of seedlings will be rooted about 500 to the acre. Or, if it's an acre left to nature, only enough trees are planted to supplement what nature failed to do.

However, seedlings, too, have enemies being often chewed up by the rabbits or mountain beavers. This necessitates replanting but this method is successful on the average.

You just cannot declare a patch or logged-over timber land as a tree farm. Rules for operating a tree farm are rigid. A timber operator who applies to the joint committee on forest conservation of the West Coast Lumbermen's Association and Pacific Northwest Loggers' Association must agree to protect his farm from such things as fire, insects, disease and ex-

THE MOST EXPENSIVE way of planting a tree farm is by hand. It costs about \$20 an acre as compared to \$10 or \$12 the other methods cost.

Broadway Trade Hums During Lull

NEW YORK (P) — The heat

of the summer finds Broadway rocking along about as forecast in the matter of the number of plays available and their patronage.

In fact, things are just a trifle better than some of the pessimists had predicted last spring, when it was felt that August might find the play list down to 10.

Actually there are 13 attractions available. That is a good rating compared with the summers before World War II; better than some of them. Showmen became spoiled during and immediately after the war when sumertime fare included 20 or more attractions due to boom conditions.

Three of the current shows, of course, are doing the major share of the business — always sold out with standees. These are "South Pacific," which weekly grosses the limit of \$50,000 at the Majestic theater; "Kiss Me, Kate," which has a \$47,000 capacity at the Century, and "Death of a Salesman," which takes in slightly over \$24,000 at the Morosco.

That is a total of about \$122,000 weekly for the three shows.

According to the weekly box office estimates of Variety, that means that the other 10 attractions split about \$230,000 weekly at the current box office pace.

7:30 p.m. — Open House for New Students, President's home.

Thursday, September 23
7:30 a.m. — Opening of classes.

8:20 a.m. — Induction ceremony, west approach, Old Capitol.

Friday, September 24
4:30 p.m. to 12:00 p.m. — All University Party, Freshman Party, Iowa Memorial Union.

Saturday, September 25
2:00 p.m. — Football: Iowa vs. UCLA, Iowa stadium.

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol.)

GENERAL NOTICES

GENERAL NOTICES should be deposited with the city editor of The Daily Iowan in the newsroom in East Hall. Notices must be submitted by 2 p.m. the day preceding first publication; they will NOT be accepted by telephone, and must be TYPED OR LEGIBLY WRITTEN and SIGNED by a responsible person.

APARTMENTS AND ROOMS AVAILABLE for rent this fall may be listed with the Off Campus Housing Bureau by dialing 80511, extension 2191, before Aug. 15, as freshman orientation activities start Sept. 15 and classes begin Sept. 22.

11 through September 21 for McBride Reading Room and the series reserve reading room in Library Annex will be from 9:00 a.m. to 5:00 p.m. Monday through Friday, 9:00 a.m. to 12:00 noon on Saturday and no Sunday hours. Other libraries and reading rooms will have their hours posted.

LIBRARY HOURS — August

Submariner Forced To Delay Sea Dive

ABOARD VELERO IV OFF SANTA CRUZ ISLAND, CALIF. (UP) (Via Radiophone)—Submarine Explorer Otto Barton dropped 2,300 feet into the Pacific in a hollow steel ball yesterday, but was forced to postpone his attempt to break the world diving record.

Original plans to dive to 6,000 feet—twice as far down as man has ever gone—were tossed aside after the powerful lights on the outside of Barton's diving bell went out.

"It would be a farce to go down without lights," the lanky, bald-headed scientist announced over the telephone to the surface.

The failure of the lights was caused by a faulty power cable. Earlier in the descent the lights went out and the Benthoscope was hauled up several hundred feet to a point where a break was found in the cable insulation.

Assistants repaired the break and the descent was resumed, but gradually the 110-volt current in the power cable dropped to between five and ten volts and the lights went out.

Barton had been able to descend another 728 feet he would have matched the record of 3,028 feet set by himself and Dr. William Beebe in the Bathysphere off Bermuda in 1934.

Barton was down to 1,250 feet when the power drop occurred, but ordered the Benthoscope lowered to 2,000 feet to check the trouble.

At 2,900 feet, sitting in inky blackness, Barton gave the order to bring him to the surface.

When he reached the surface, Barton squeezed out through the tiny round hatch to declare he would make another attempt today provided repairs can be completed in time.

The worst part of the dive, he said, was the recurring feeling that the ball was tipping over. The sensation was caused by lack of oxygen, he said.

"I had the feeling two or three times that the ball was turning over. I didn't like it," he said with a grin.

During the dive, Barton kept a running account of his observations moving over the telephone line to the surface.

He reported "a beautiful jelly fish, swimming on its back" at the 200-foot level.

Later at 500 feet he reported the lights were fading and turning green.

Number One Criminal Captured In Killing

LOUISVILLE, KY. (UP) — The nation's number one criminal manacled and leashed like a vicious dog, was charged with murder here yesterday after he killed one policeman and critically wounded another.

Earl David Bircham, 45, tagged "public enemy number one" by the FBI, was captured late Sunday night by a husky ex-marine who disarmed him in hand-to-hand combat and tied him up until police arrived.

Bircham, wanted for three holdups totaling \$55,000 in Nashville, Tenn., three prison breaks, and other felonies, shot and killed Patrolman John H. Tennyson, 32, and critically wounded Patrolman John A. Ross, 22, before he was subdued by former marine Luther Williams, 37.

In police court yesterday morning, Bircham was charged with shooting to wound and with murder; his wife with being an accessory to murder. Additional charges of banding together to commit a felony were placed against both. Their cases were continued to Aug. 30, and they were held in Jefferson County jail without bond.

Bergman May Get Divorce in Sweden

ROME (UP) — Italian movie director Roberto Rossellini said yesterday that film star Ingrid Bergman would file a divorce suit in her native Sweden against Dr Peter Lindstrom, Hollywood brain surgeon.

The suit will be filed through attorneys, Rossellini said. The question of custody of Miss Bergman's daughter Pia has not been settled by the actress and her husband, he added.

Rossellini asserted also that he was now "free" of his own marital ties. He said that a civic annulment of his marriage, obtained in Budapest in 1942, had been recognized later by Italian courts.

Miss Bergman intends to live in seclusion in Italy until she obtains her divorce, Rossellini said.

Rossellini refused, in an interview, to discuss reports that he and Miss Bergman intended to marry. He said:

"I can only repeat what I said on Stromboli, I can neither confirm nor deny anything about these reports."

NINE ADMITTED

DES MOINES (AP) — Des Moines hospitals admitted nine new polio patients yesterday.

She Claims Ten Week Captivity

MRS. IDÁ LYONS 42, is shown lying in bed after 10 weeks of captivity by her husband, she claims. Her husband locked her up on a near-starvation diet, during which her weight went down from a normal 125 pounds to a weak and emaciated 72 pounds, she alleges.

Four Persons Pay Police Court Fines

Four persons were fined a total of \$40 in police court yesterday by Police Judge Emil G. Trott.

Lyle Bernard Murray, Riverdale, was fined \$15 plus costs for disorderly conduct. Clarence Lester Bahns, Davenport, was fined \$5 for illegal passing on the highways.

Walter L. Kaderka, 32 N. Lucas street, was fined \$2.50 plus costs for leaving a motor vehicle parked on a city street without license plates.

Harold Young, Kalona, was fined \$17.50 for intoxication but Judge Trott suspended the fine pending good behavior.

Judge Trott received a letter from Prof. Louis A. Turner.

Iowa TB Deaths Lowest in Nation During 1947

Iowa had the lowest number of deaths from tuberculosis per 100,000 population of any state in the nation during 1947.

According to figures released by the U.S. public health department, Iowa had 11.8 deaths per 100,000 persons. The national average was 33.5.

SOCIETY ELECTS PHYSICIANS

Five of the eight senior SUI physics students last year were elected to Phi Beta Kappa, national honorary scholarship society, in May, according to Physics Prof. Louis A. Turner.

Try and Stop Me

By BENNETT CERF

IN LONDON, shortly before the war began, the literary set turned out en masse for banquet in honor of a distinguished American publisher, just then winding up his twenty-fifth annual visit to the shores of Albion.

Numerous British luminaries felt that the occasion demanded elaborate expressions of esteem for the guest of honor, but, while they went on and on orating, the subject of their encomiums unfortunately went on and on imbibing whiskies and soda. When he finally was called upon to speak himself, only a Herculean effort enabled him to get to his feet. He swayed dizzily, blinked at his audience, and suddenly remarked very clearly, "Gentlemen, as I was saying—" With this he sat down and promptly fell asleep.

Franklin Pierce Adams, who professes to be a garden lover, reported to the singularly uninterested members of the Thanatosis Poker club that his peonies required special care. Bernie Hart, a conversation lover asked, "How about your dahlias?" "They're thriving," enthused Adams. "It proves that if you take care of your peonies, the dahlias will take care of themselves." Shortly thereafter the club was raided.

DAILY IOWAN WANT ADS

STILL GET RESULTS!

Yes, even though enrollment's down, the Want Ads are still working. There are still plenty of students around to read and use the Classifieds.

Rooms are being rented, apartments being found, and miscellaneous articles are being sold through The Daily Iowan Want Ads.

Don't miss out on this chance to sell your goods or services. Now that things have slackened off a bit, and you have more time, make a list of the things you want to advertise.

Call 4191 today and place a Want Ad.

Polio, Wrinkles, Conferences and Swimming Figure in the Week's News

Find \$7,400 in Engel's Shorts

JAIL AUTOMATICS FOUND \$7,400 in \$100 bills (bottom) sewed in the shorts of Sigmund Engel, who is awaiting trial in Chicago on charges of swindling wealthy widows. Top, the 75-year-old "professional Romeo" is shown in his cell after the "discovery." Warden Chester L. Fordney told reporters that after the money was found, Engel suffered an "emotional upheaval" and would not speak to anyone.

Jimmy Stewart Honeymoons

HONEYMOONING JIMMY STEWART and his bride, the former Mrs. Ned McLean, say farewell to Hollywood as they board Constellation plane on first part of honeymoon to attend Akron, Ohio, soapbox derby races. After the races Sunday, the couple left for a longer sojourn in Hawaii.

Stewardess Rescues 27 from Burning Plane

ON THE JOB only two weeks, Stewardess Patricia Donnellan (right) led her 27 passengers to safety through the rear door after their Northeast Airlines twin-engine Convair transport plane crashed and burst into flames at Municipal airport, Portland, Me. Pilot Roderick Cote, co-pilot Henry Wightman and Miss Donnellan all escaped.

Little Merchants Aid Polio Fight

ANXIOUS TO DO THEIR BIT in the fight against infantile paralysis, these children set up a shop on a Brooklyn, N.Y., sidewalk. Proceeds from sale of their soda, lemonade and comic books are going to the polio fighting fund. Their first customer was Abe Aspes, a mailman.

Four Swimmers — Four Nationalities

UNDER DOVER'S WHITE CLIFFS, candidates in the 1949 English Channel swim stand beneath their countries' respective flags. From left to right are: Mrs. Willi Crees van Rijsel, Holland; Philip Mickman, England; Shirley May France, U.S.A., and Elma Anderson, Denmark. Seventeen-year-old Shirley is a heavy favorite to break the 1927 record for the crossing set by Gertrude Ederle.

Quirino Visits the Cardinal

PHILIPPINE PRESIDENT Elpidio Quirino (right), visiting New York City, is shown outside St. Patrick's Cathedral with Francis Cardinal Spellman (center) and Gov. Thomas E. Dewey after lunching privately with the Cardinal. In a statement to the press, Quirino said he was returning home neither empty-handed nor empty-handed.

No Wrinkle Is New Wrinkle

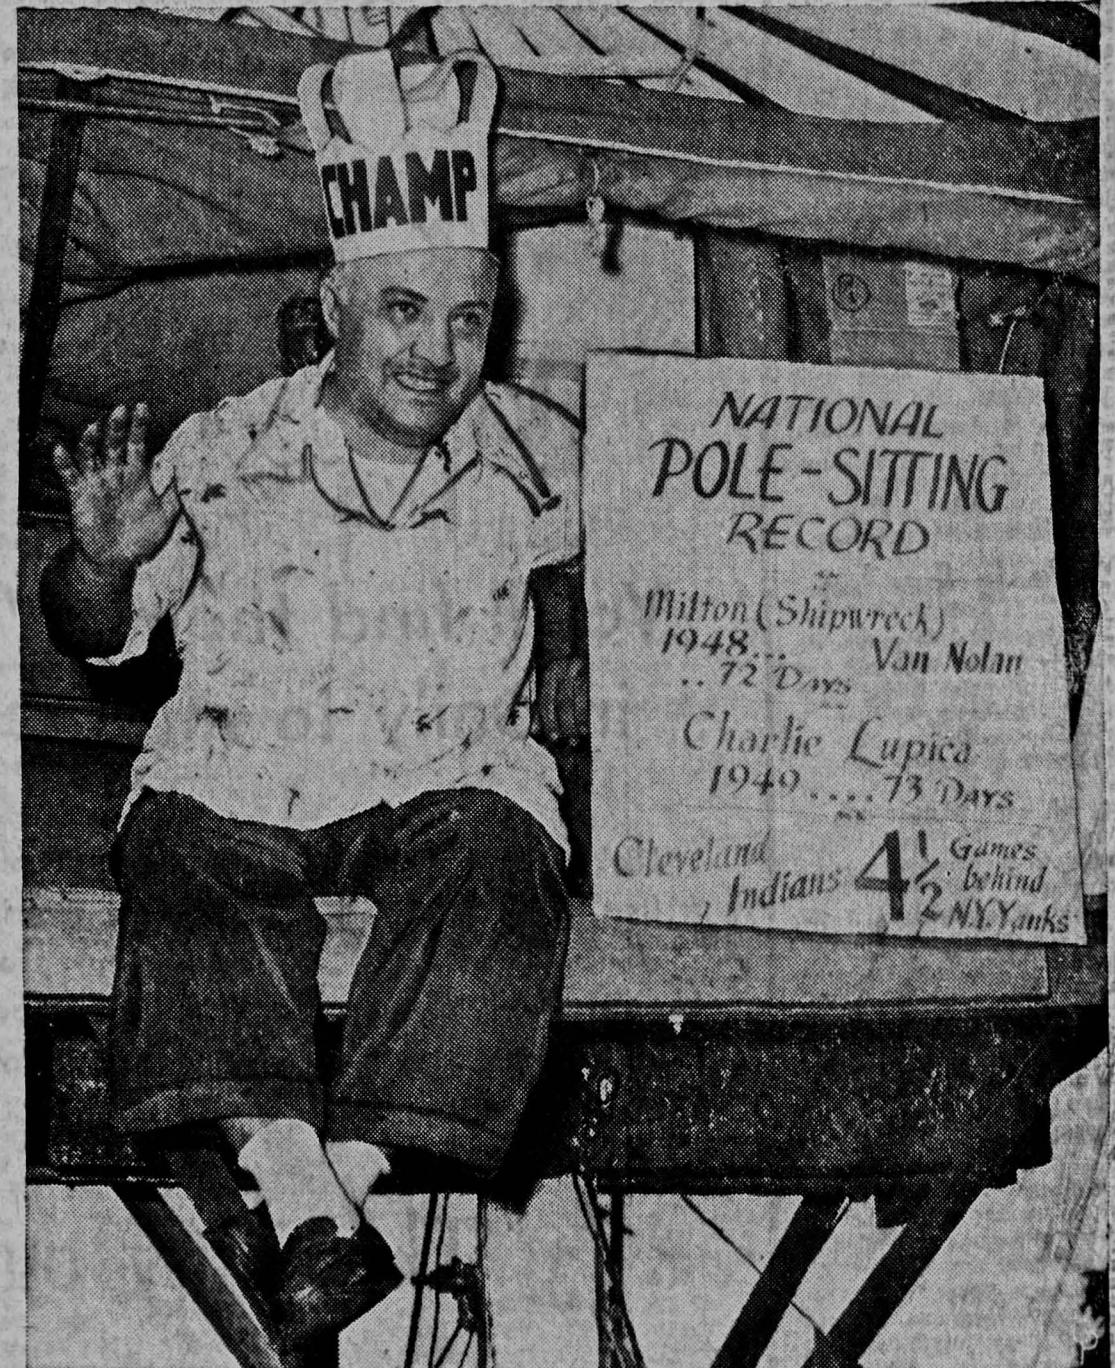

ENDING just below the curve of the leg, "follow me" clocks are an innovation in wrinkle-less, seam-free nylon stockings that will complete autumn costumes and enhance autumn shoes. The new clock eliminates twisting usually found in seamed stockings, the manufacturers claim. The hose will be made in either a deeper shade than the cloths, or in a contrasting color.

A Song, It Is

TRYING TO HELP an unknown song writer, 19-year-old Florence Bondi, "Miss Cleveland" in "Miss America" contest, undertakes to mail a song for Clevelander Johnny Gluek (right), to Glenn McCarthy, builder of the new Shamrock hotel in Houston, Texas.

New Pole-Sitting Champ Wears Crown

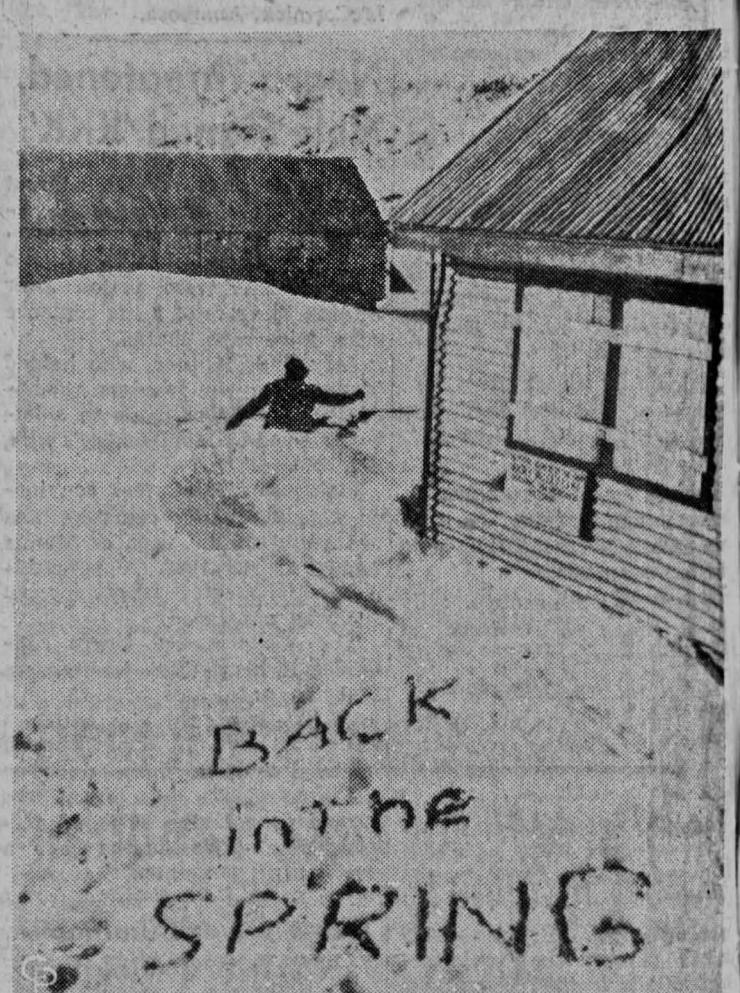

CHARLIE (JUST CALL ME "SHIPWRECK") LUPICA wears a grin and crown as he sets new pole-sitting record atop his airy Cleveland roost with more than 73 days aloft. He says he'll remain on high until his beloved Cleveland Indians gain first place in the American league, or until the season's end . . . probably the latter the way the Tribe has been dropping behind league-leading Yankees. Best previous pole-sitting record was Milton Van Nolan's of 72 days, set in 1948.

Confer on Germany's Future

SECRETARY OF STATE Dean Acheson is shown in Washington conferring with John J. McCloy (left) U.S. high commissioner for Germany. McCloy said that the administration has decided that west Berlin is eligible to receive Marshall plan aid. Following the conference, the commissioner left on a return flight to Germany.

Lotta Nerve, Those Aussies!

AFTER ALL the kind of thoughts we've had about Australia they've got the nerve to torture us with this! It's mid-winter down under, and all this snow at Rocky valley in Victoria's Australian Alps, 165 miles of Melbourne, caused 200 electricity workers to be evacuated, but as the sign in the snow says, they'll be back. However, it'll be our turn this winter—the Aussies will be having summer then, with one heat wave after another.
