Weather

Partly cloudy with scattered thundershowers today. High today, 90; low, 65. High Wednesday, 83; low, 65.

Counterfeit Money Flooding Country, Baughman Asserts

WASHINGTON - Secret service chief U.E. Baughman has told congress that a counterfeiting ring centered in New York and Chicago is using criminals from all over the United States to flood the country with bogus money, it was disclosed Wednesday.

Baughman said counterfeiters cost the public \$472,474 during the seven months ended last Jan. 31—a sharp increase over previous years.

Baughman previously had told the house appropriations group that the secret service is seizing counterfeit money at the rate of \$100,000 a month. He said there is more counterfeit money in the United States now "than at any time during the past 10 years."

He said manufacture of bogus bills is "concentrated in the midwest and the Chicago area and in New York" but that the counterfeiters call on outside "criminal connections" to dispose of the bad money.

Testified Feb. 7

"Anyone that has a criminal tie-in in another section apparently can go to these cities and purchase a certain amount of counterfeit notes and then go off to an area and pass them," he told the Senate Appropriations committee Feb. 7. His testimony was made public Wednesday.

Baughman said the large post-war increase in counterfeiting has been traced to "new offenders" who began making fake OPA ration coupons and stamps during the war.

Ex-Black Marketeers

He said the Chicago counterfeiting ring is directed by "former OPA violators" and includes a "number of gamblers and also people who deal in narcotics."

Baughman said his agents seized more than \$1-million in counterfeit notes last year, and in the first five months of this year they captured \$550,000. About one-third of the "money" was already in circulation when confiscated.

Baughman's testimony is expected to provide a new avenue of inquiry for a special senate crime investigating committee, headed by chairman Estes Kefauver (D-Tenn.), which has been looking into hookups between big-time gambling and crime.

To Try Erickson ...

NEW YORK (AP)—Frank Erickson, one of the biggest names in American gambling Wednesday was ordered to trial on Monday as the first major target of the government's new drive to break up organized crime.

The plump New Yorker could be jailed for 60 years and fined \$30,000 if found guilty on all the 80 counts of bookmaking and conspiracy which a grand jury listed in indicting him.

Indictive of the top government interest in the case, District Attorney Frank Hogan, who rarely appears in criminal courts, will prosecute Erickson personally.

COMPENSATION SUIT FILED

Suit was filed in district court Wednesday against Albert A. Ehl and company, Iowa City, for \$80.40 allegedly not paid on a workmen's compensation policy between Oct. 1, 1948, and Oct. 1, 1949. The plaintiffs, the Employers Mutual Liability insurance company of Wisconsin, are represented by Atty. Emil G. Trott.

Switzer to Appear For Senate Judiciary Hearing Saturday

DES MOINES (AP)—Federal Judge Carroll O. Switzer said Wednesday he will fly to Washington, Friday to appear before the senate judiciary committee.

U.S. Sen. Pat McCarran (D-Nev.), chairman of the judiciary committee considering Switzer's nomination to the district court bench in southern Iowa, scheduled a second hearing Saturday.

Judge Switzer received the wired invitation from McCarran to appear at Saturday's hearing. At the same time Jake More, Iowa democratic chairman, received an identical wire.

More, who already is in Washington, will try to attend the hearing, his office said.

More had asked that Judge Switzer and he be heard by the committee, which had heard objections by U.S. Sen. Guy M. Gillette (D-Iowa) to the appointment at a hearing in Washington, April 25.

More is to make the keynote address to the Wisconsin state Democratic convention in Eau Claire Friday. He intends to fly back to Washington.

Gillette announced in Washington Tuesday his intention to campaign in Iowa this fall.

Files Protest ...

WASHINGTON (AP)—Sen. Harry Flood Byrd, No. 1 man of Virginia's state-conscious Democratic organization, filed a sharp protest Wednesday against President Truman's selection of Byrd's 1946 primary opponent as a member of the federal trade commission.

Sen. A. Willis Robertson, Virginia's other Democratic senator, joined Byrd in objecting to the appointment of Martin A. Hutchinson, a Richmond attorney.

"Mr. Hutchinson's nomination is political and made for a definite and obvious political purpose," the two old dominion lawmakers charged in a letter to the senate commerce committee which is considering the nomination.

Byrd and Robertson also declared that Hutchinson "lacks judicial temperament and exhibits a blind support of public policies merely because such are advocated by certain party leaders."

Neither senator appeared in person at the hearing. Hutchinson, however, was on hand and answered the committee's questions before the Byrd-Robertson letter was read.

The nominee said he considers himself qualified to handle the job.

JAYCEES PICK MIAMI CHICAGO (AP)—The U.S. junior chamber of commerce opened its 1950 convention Wednesday by choosing Miami, Fla., for its next meeting place.

McCarthy Snubs Irate Californian

SEN. JOSEPH MCCARTHY had a brief encounter Wednesday in a senate office building with Robert Beresford, a California lawyer who said he was national chairman of the committee of unorganized Americans. Beresford said he had been trying to see McCarthy for three weeks. When he saw McCarthy Wednesday, the Wisconsin senator walked away when Beresford demanded that the senator retract several of his charges.

Sheriff 'Purged' in Red Day Celebration

"COMMUNIST GUERRILLAS" took over Hartley, Iowa Wednesday in a flag day demonstration of Red oppression. "Commissar" James F. Green ordered his "Red" troops to shoot the sheriff. Sheriff Robert O'Brien was the "victim" of the liquidation. "Red troopers" were Edward Leemkuil and Lloyd Waltersdorf. Other city officials were similarly dealt with in the "invasion."

'Red Invaders' Seize Small Iowa Town In Flag Day Fete

HARTLEY (AP)—This typical cornbelt town — population 1,600 — got a lesson in how the liberties America prizes could be lost.

It was in a mock Communist invasion, arranged by the American Legion post, as a celebration for flag day.

For more than five hours communism ruled as Hartley's way of life.

Detachments of "troops and guerrillas" wearing paper "Soviet" armbands swung into main street, seized the city hall, threw town officials, civic leaders, the weekly newspaper editor, clergymen and school teachers into an improvised stockade.

Despite a heavy rain, the demonstration went on to picture what might happen when Communists take over and the "iron curtain" falls. Red banners bearing the hammer and sickle replaced American flags along main street.

Big, pink-colored proclamations in stores, offices, and public buildings declared that Hartley's capitalist government had been overthrown and the community was now part of the United Soviet Republics of America.

All citizens were warned to learn the new national anthem, "Russia," and were forbidden to sing "The Star Spangled Banner" in private or public gatherings.

By evening the lesson was completed. Hartley returned gladly to its normal American way and held its conventional flag day program.

SUGGESTS MACARTHUR NEW HAVEN, CONN. (AP)—Sen. William Knowland (R-Calif) proposed Wednesday night the appointment of Gen. Douglas MacArthur as coordinator of American policies in the Far East.

Seventy-Five Register For Physics Colloquium

SUI's 11th annual Colloquium of College Physicists opened Wednesday with more than 75 physicists representing 20 states registering for the opening session.

Today, Prof. Harold C. Urey of the University of Chicago will lecture on "Some Chemical Evidence Relative to the Origin of the Earth." Urey is a 1934 Nobel prize winner in chemistry and has done research with heavy water and U235 for the atom bomb.

Tonight the annual exhibit of new devices in experimental and non-experimental teaching classifications will be displayed in the physics building by colloquium members.

G. W. Stewart, director of the course, said this will be one of the "high spots" in the colloquium.

Besides Urey's lecture, there will be two laboratory round table discussions and another lecture today.

Prof. Robert L. Sinsheimer of Iowa State college opened the sessions Wednesday with a lecture on "Problems in Radiation Biology."

He said that his field — biophysics — has emerged as a distinct science in the last 20 or 30 years from the unexplored area between biology and physics.

He pointed out that biophysics is a relatively young science, and cited three or four significant developments that have taken place since World War II to further establish this new field.

The remainder of the afternoon was spent in the presentation of four research reports.

Wind, Rain, Classes Bring Joy to SUI

SUI students received a double blow Wednesday — the beginning of classes and a severe thunderstorm.

After the temperature reached a high of 83 degrees, rain began beating down about 8 p.m. and the thermometer plunged to 65 degrees.

By 10 p.m. Iowa City had received .74 inches of rain, according to the Civil Aeronautics authority.

Wind velocity reached 30 miles an hour during the evening, CAA authorities said.

Better not put away the umbrellas, though, because today's prediction is for scattered thundershowers with temperatures warm and atmosphere humid.

Jan Smuts, Ill, Resigns As United Party Head

JOHANNESBURG, UNION OF SOUTH AFRICA (AP)—Field Marshal Jan Christian Smuts, who has been seriously ill of pneumonia, resigned Wednesday night as leader of the United Party.

Smuts, 80, is a former prime minister. In Cape Town, the United Party unanimously elected J. G. N. Strauss, 50, as Smuts' successor.

Would Replace U.S.-Employed Aliens Abroad

WASHINGTON (AP)—A senate Foreign Relations subcommittee recommended Wednesday night that all aliens now employed abroad in United States embassies, consulates and legations be replaced as rapidly as possible by Americans.

"Aliens are the most likely means of foreign penetration and the effort to penetrate our security abroad is constantly growing," the subcommittee said in a report to the senate.

Two Sign The report was signed by the two members of the subcommittee, senators Theodore Green (D-R.I.) and Henry Cabot Lodge (R-Mass.).

The senators said that in Germany alone 50 of 2,000 American employees screened since Dec. 1 have been fired for "various security reasons." Of 1,000 aliens screened, they said, 100 have been discharged.

Green and Lodge are members of the foreign relations subcommittee investigating Sen. Joseph R. McCarthy's communist charges against the State department. They held hearings in Paris, Frankfurt, Germany, Washington and New York.

Unanimous Agreement "There was unanimous agreement among all the witnesses that all aliens now employed in American embassies, consulates and legations abroad should be replaced as rapidly as possible by Americans," Green and Lodge said in their report. They added:

"There was no evidence that any other nation had so large a proportion as the United States of alien employees."

The subcommittee said that of 3,000 aliens employed by the United States throughout the world outside of Germany and Austria, about 15 to 20 percent "are engaged in actual clerical work, the rest being drivers, janitors, charwomen, elevator operators, telephone operators, etc."

In the American embassy in Paris, the report said, 50 percent of the employees are aliens.

Green and Lodge said the Soviet establishments abroad, on the other hand, are "so far as is known staffed completely by Russians."

Lodge and Green also urged appointment of a full time "professional" security officer with practical experience in the field at every U.S. mission. Only 10 full time security officers are employed at 270 foreign service posts throughout the world, they said.

Tax Committee Hits 'Capital Gains' Angle On Actors' Income

WASHINGTON (AP)—The House Ways and Means committee voted Wednesday to crack down on so-called "collapsible corporation," a device sometimes used by big earners to avoid payment of individual income taxes.

It decided to rewrite tax laws so that individuals could not use such corporate schemes to get off with a 25 percent tax on earnings that might be taxed at rates up to 82 percent as individual income. The committee is working on a general tax bill.

In his tax message to congress earlier this year, President Truman named the "collapsible corporation" as one loop-hole that should be closed. He described it in this manner:

"Under the present law, producers of motion pictures and their star players have attempted to avoid taxes by creating temporary corporations which are dissolved after making one film."

"By this device, their income from making the film, which ought to be taxed at the individual income-tax rates, would be taxed only by the capital-gains rate. Thus, they might escape as much as two-thirds of the tax they should pay."

The committee's tax staff estimated that plugging of the loop-hole would pick up \$3-million additional annually for the treasury.

The committee voted also to require persons engaging in book writing and other artistic works to pay the ordinary income taxes, instead of using the capital gains device.

However, the committee said that such persons should have the privilege of spreading their income over three-year periods. This is to take care of cases such as an author who might spend three years or more writing a book but get most of the income from the work within one year.

GOP Ready To Vote For Social Security Expansion Program

WASHINGTON (AP)—Senate Republicans were reported Wednesday to have reached rather general agreement to vote for the social security expansion bill now before the chamber.

A considerable number, however, put a "stop-gap" label on it and said they want a study group set up to reexamine the whole subject. Most of that group leans strongly toward putting the program on a pay-as-you-go basis.

British Confusion On Schuman Plan Echoed in Europe

LONDON (AP)—British Labor's halting view of the Schuman plan raised cries of "blundering" in the opposition newspapers Wednesday and brought sharp criticism from Europe's Socialist parties.

Prime Minister Clement Attlee said Tuesday his government wished to help and not hinder the plan to integrate Europe's coal and steel.

Earlier the executive committee of the Labor party—the prime minister is an ex-officio member—put out a policy manifesto declaring against a "supra-national authority" as proposed by Foreign Minister Schuman of France. Further, it declared European union, economic or political was impossible unless all European nations adopt the socialist idea of economic planning; that is, government controls over enterprise.

Meantime, under questioning in the house of commons Wednesday, Minister of State Kenneth Younger said Britain intends to try to make "a contribution, if we can, at a later date" to the coal-steel pool.

"Folly at the helm!" exclaimed the conservative Daily Graphic Wednesday. "What a mess the government have made of their handling of the Schuman proposals! They have blundered from one false position to another."

Some newspapers, however, described Attlee's position as "prudent."

In Paris, the Central committee of the French Socialist party expressed sharp "regret" at the Labor party manifesto.

French Socialists said they could not agree with British Laborites that a unified Europe must be made exclusively by Socialists since that would mean an indefinite delay.

Part of the West German press felt the Labor party memorandum means Britain "is going to isolate herself from the Continent."

Asks to Expand Iowa City Limits

Finkbine park and Stadium park housing areas may be included in a proposed expansion of Iowa City's city limits.

Alderman Wilbur J. Teeters has suggested to the city council that the area bounded by City park and the present city limits on the east, the Iowa river on the north, Coralville's city limits on the west and the Rock Island railroad tracks on the south be included in the city limits.

Rosellinis Leave

NAPLES, ITALY (AP)—The newlywed Ingrid Bergman and Roberto Rossellini left the Isle of Capri Wednesday night and headed north.

Servants said they did not know where the actress and her film director husband were going. They had planned to visit Paris. They were married by proxy in Jaurex, Mexico, May 24.

Nine Foreign Students Enroll

Summer session brought nine new foreign students to SUI's campus, Richard E. Sweitzer, foreign student advisor, said Wednesday.

Sixteen other foreign students who have been admitted to the summer term have not arrived because of passport difficulties and sickness, Sweitzer said.

British Confusion On Schuman Plan Echoed in Europe

LONDON (AP)—British Labor's halting view of the Schuman plan raised cries of "blundering" in the opposition newspapers Wednesday and brought sharp criticism from Europe's Socialist parties.

Prime Minister Clement Attlee said Tuesday his government wished to help and not hinder the plan to integrate Europe's coal and steel.

Earlier the executive committee of the Labor party—the prime minister is an ex-officio member—put out a policy manifesto declaring against a "supra-national authority" as proposed by Foreign Minister Schuman of France. Further, it declared European union, economic or political was impossible unless all European nations adopt the socialist idea of economic planning; that is, government controls over enterprise.

Meantime, under questioning in the house of commons Wednesday, Minister of State Kenneth Younger said Britain intends to try to make "a contribution, if we can, at a later date" to the coal-steel pool.

"Folly at the helm!" exclaimed the conservative Daily Graphic Wednesday. "What a mess the government have made of their handling of the Schuman proposals! They have blundered from one false position to another."

Some newspapers, however, described Attlee's position as "prudent."

In Paris, the Central committee of the French Socialist party expressed sharp "regret" at the Labor party manifesto.

French Socialists said they could not agree with British Laborites that a unified Europe must be made exclusively by Socialists since that would mean an indefinite delay.

Part of the West German press felt the Labor party memorandum means Britain "is going to isolate herself from the Continent."

Tickets Go On Sale For Play Festival

Tickets for "The Importance of Being Earnest," the first play of the SUI fine arts festival, go on sale today at the theater ticket office, room 8A, Schaeffer hall.

Oscar Wilde's comedy will be the first of five summer theater productions. The show will run from June 20 to 23. "The Silver Whistle" originally scheduled to open the summer season will be presented at a later date.

The ticket office will be open from 9 a.m. to noon and from 1 p.m. to 4 p.m. Students must present I.D. cards to obtain tickets.

Bing's Wife Heads East; No Reunion

HOLLYWOOD (AP)—Dixie Lee Crosby is in town here and not enroute to New York City to join husband Bing, the crooner's brother disclosed Wednesday.

New York reports earlier quoted Bing as saying on his return from Europe that Dixie was enroute from California to join him at the Waldorf Astoria hotel. They also had him denying a reported separation.

South Africa is represented by Nadine Gordon-Davis, a liberal arts freshman from East London, and Thelma Stohr, graduate student in speech from Johannesburg.

Two new students from Canada are Ross Irvine, liberal arts undergraduate, Mos'e Gaw, Saskatchewan, and Agnes Waddell, a graduate from Stratford, Ontario, majoring in speech pathology.

Miss Aurora Samonte of Manila was the first of the new students to arrive in Iowa City. She plans to take graduate work in education and English.

Mohammed T. Khalili of Shiraz, Iran, is an undergraduate in civil engineering.

Wire Service Briefs

Military Public Works Bill

WASHINGTON (AP) — A \$596-million military public works bill was approved by the senate Tuesday and sent to the President. It was passed in its final form by the house Monday after differences between the original bills passed by the senate and house had been adjusted. Senate approval was by voice vote. The measure authorizes later appropriations for numerous construction projects by the armed services, some of them highly secret.

Suit Against Swift & Company

SIoux CITY (AP) — The fourth civil suit resulting from the explosion at the Swift and company plant here last December, in which 281 persons were killed and more than 90 injured, was filed Tuesday in district court.

An \$80,000 suit was filed by Joyce DeLaughter, who claimed that the Iowa Public Service company and the Northern Natural Gas company were responsible for the explosion, and the death of her husband, Arthur, 29, a Swift employe.

Her action raises the total claims by suit against the two gas companies who supply gas to the packinghouse, to \$320,000.

Vows to Starve in Public

DETROIT (AP) — A former union official picketed headquarters of the CIO united auto workers with his wife and two sons Thursday and vowed "to starve where the public can watch us unless the UAW gets my job back."

John Shures, 31, trooped back and forth in front of the union building with his wife Lucille, 28, and two boys, Norman 7, and John, 5.

Shures, expelled from UAW membership in June, 1949, charged that he had been fired from three jobs since then "because of pressure brought by the union."

Marine's 'Torso' A Winner

WASHINGTON (AP) — Marine Capt. Marion Bowers of Baton Rouge, La., won the second annual armed services photography contest with "Torso" — the photo of a nude woman.

Farm Distribution Problem

WASHINGTON (AP) — President Truman said Monday that "most of our domestic problems will be solved" if a system can be worked out for full distribution of the nation's farm products.

Greeting a group of radio farm broadcasters on the White House lawn, he said the objective of his "fair deal program" is to put business, industry, labor and the farmer on an equal basis in which all get "their fair share of the wealth of this great nation."

Record Tourist Rush in 1950 to Europe?

By the Central Press
NEW YORK — A new army of Americans will invade the European continent this year with the banner influx coming during the summer months.

However, unlike the American GIs of World Wars fame, the new Yanks will be greeted with the best that western Europe can offer. For, unlike the GIs, these Americans will be tourists, bent on seeing the country, and they'll be bringing with them that much-desired import, the Yankee dollar.

Last year, an estimated 320,000 Americans toured the continent. This year, about 450,000 will go overseas as Holy Year and devalued currencies make a European trip an attractive vacation.

The invasion is already well underway with more than 35 modern liners reporting virtually all space sold out for the peak season or from June to the end of September.

Plane space, too, is becoming a premium during the peak months, and travel agents report continued demand for space and reservations may make this the biggest travel year in history.

For European nations, this travel boom is a bonanza in helping to balance unfavorable trade ledgers between dollars and native currencies.

The Department of Commerce estimates Americans will spend well over \$220,000,000 in foreign countries; that's \$30,000,000 more than last year and well over the record-spending year of 1929.

Washington, too, is encouraging tourists to visit western Europe. The government has raised from \$400 to \$500 the amount of imports a tourist can bring back, duty free.

Most western European nations have eased red tape to the point of making travel almost as simple as riding from one American state to another. Just an American passport is all that is necessary to enter 10 countries: Great Britain, Belgium, France, Switzerland, Ireland, Denmark, Norway, Sweden, the Netherlands and Luxembourg.

At the same time, Washington has lifted the ban on entering Trizonia, the allied sectors of Germany, Eased, too, is entrance into

Government Officials To Place Emphasis On U.S. Peace Aims

WASHINGTON (AP) — Top government officials have decided future speeches by administration leaders should place greater emphasis on the peaceful objectives of American foreign policy.

This decision grows out of the London foreign ministers meeting last month when a number of western European leaders told Secretary Acheson they felt some American speeches were too beligerent.

Acheson was told, officials said, that the United States was playing into Russian hands by not emphasizing enough that the aim of the American government and the west is peace and not war.

Russian propaganda, the Europeans said, has seized the chance to put a "warmonger" label on the U.S. and claim Soviet leadership for peace.

Acheson is reported to have accepted the advice. He is pulling no punches in his descriptions of Russian aims and tactics but is interlarding his hard work with statement of this country's pacific aims and of its efforts to achieve those ends.

President Truman is taking much the same line.

American officials who help draft addresses by top administration leaders say the added emphasis on the peaceful objectives will be a feature of virtually all addresses from now on.

Technicians' Strike Hits Video Shows

NEW YORK (AP) — The Columbia Broadcasting system cancelled two of its television shows Tuesday night because of a technicians' strike.

The network said the "Suspense" show and wrestling matches would not be televised because they required production skill which pinch-hitting technicians don't have.

Six television shows were cancelled last night after the walk-out began. Four were minor unsponsored programs, CBS said.

The union, the AFL International Brotherhood of Electrical Workers, claims it has halted 40 percent of CBS' television production. It also contends radio production suffered delays and "various imperfections."

The network claims radio broadcasts have not been affected, although radio technicians also walked out.

California Youth Runs Up \$5,000 Bill

HONOLULU (AP) — A Compton, Calif., youth who police said ran up a \$5,000 bill in two days at the Royal Hawaiian hotel today gave the plush tourist mecca a second jolt.

Ronald Deane Nichols, 19, blandly informed the Oahu Liquor commission the hotel had served liquor to a minor — himself.

The commission promptly warned the Royal Hawaiian to mend its ways.

Nichols checked into the hotel June 4. Two days later, the Royal Hawaiian found he was insolvent. He was charged with stealing a \$300 ring from the hotel jewelry shop.

Detective Edson Hutchinson said Nichols ran up the \$2,500-a-day bill buying jewelry and other tokens for a girl.

Yank Gets Two Years For Paris Auto Death

PARIS (AP) — George Babich, 35-year-old Milwaukee, Wis., storekeeper, was fined and sentenced to two years in jail by a Paris court today for auto theft and manslaughter.

Babich, a former American soldier, was charged with stealing a car from Raphael Namenson, another American. In a wild police chase down the Champs Elysees boulevard on July 5, 1949, Babich ran over and killed a young French student.

Babich was fined 7,000 francs (\$20) along with a Yugoslav accomplice, Emile Mimich, and they were ordered to pay Namenson 572,000 (\$1,635) for damages to his car.

Mao Demobilizing Army; Battle for China 'Over'

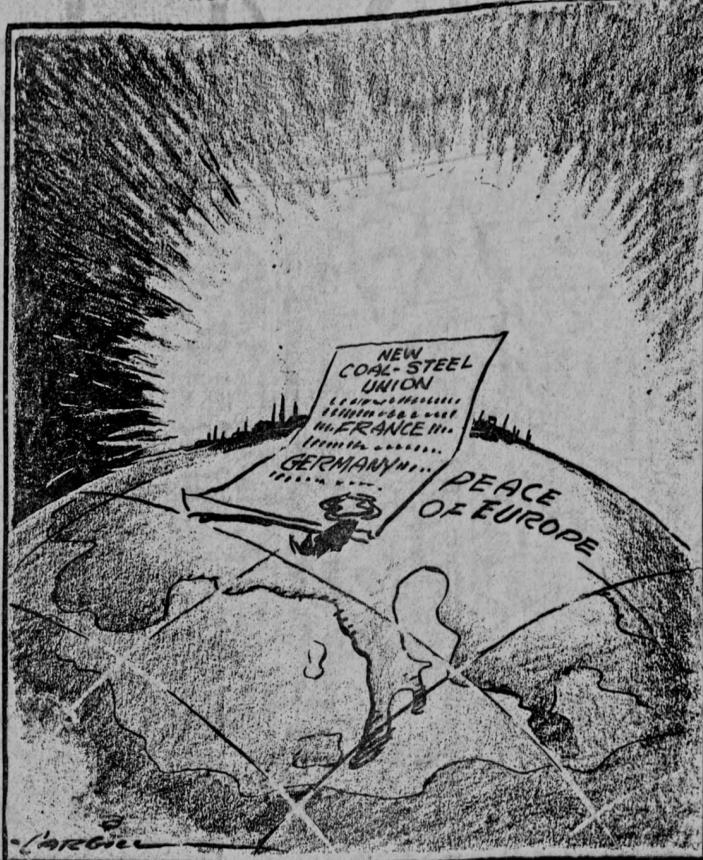

HONG KONG (AP) — Chinese Communist leader Mao Tse-tung has told party leaders he has begun demobilizing the "greatly overmanned" Red army and that it is impossible to eliminate Capitalism in China now, Peking radio said Tuesday.

The Red Army, estimated at from 4 to 6-million men, is being reduced because the battle for China is over, basically, Mao told members of the party's ruling central committee. But he said the main forces will be retained for the "serious task" of occupying Formosa and Tibet.

STRIKE CALLED OFF

NEW YORK (AP) — A mediator said Wednesday night some 370 striking technicians of the Columbia Broadcasting system will return to work this morning.

Who Knows - It Might Work!

Total Diplomacy' — 20,000 Work for Acheson

— In State Department

By Central Press

WASHINGTON — Americans everywhere need to know more about their department of state, because this is the government agency chiefly engaged in the struggle to settle disputes with Soviet Russia by diplomacy and prevent another world war.

The network claims radio broadcasts have not been affected, although radio technicians also walked out.

Secretary of State Dean Acheson has been urging the use of "total diplomacy." He has warned that we are engaged in a crucial struggle for the continued existence of our democratic way of life. He has warned that the adversary is deadly serious, that the situation demands that we play for keeps, and that in this situation "we could lose without ever firing a shot."

"There has never in the history of the world been an imperialist system that compares with what the Soviet Union has to its disposal. . . . The arsenal of Communists is varied," Acheson has warned. "I need not describe in detail the uses which they make of force, threats, infiltration, planned chaos, despair and confusion, and the enslavement of the people they dominate by a shrewd use of informers."

"Total diplomacy" is an important new concept of the magnitude of the efforts needed if the United States is to confront the present world situation successfully.

The state department has been undergoing a reorganization for several months in an effort to increase the efficiency of its diplomatic machinery.

When you compare the 20,000 employes of the state department today with the five clerks who handled the department's affairs when Thomas Jefferson was secretary of state, you get a startling insight into the tremendous expansion of the scope and tasks facing the department that handles our foreign affairs.

While about 7,000 of these employes are in the United States, most of them in Washington, about 13,000 are spread around the world in some 300 posts in 75 foreign nations.

Although the state department is small compared to some other government departments, it has grown tremendously in the last decade. It had 974 employes in Washington 10 years ago and 4,000 abroad. Only about 1,600 of the latter, however, were American citizens.

You realize, therefore, that despite streamlining to increase efficiency, the burdens and problems of postwar diplomacy have caused the home staff to be multiplied seven times and the foreign staff trebled in 10 years.

Under our constitution, the President of the United States is responsible for the nation's foreign affairs. The secretary of state and his staff, therefore, as the president's right arm in making and carrying out foreign policy.

Persons familiar with state department organization during World War II will find it considerably changed under today's streamlining, which has been done partly in accordance with Hoover commission recommendations.

Secretary Acheson himself has given the best definition of diplomacy: "It means that all branches of the government must work closely together. Congress and the departments of defense, treasury, agriculture, and commerce, the interior department with its responsibility for our natural resources, and the others, all have roles to play in our relations with other people as the role of the department of state.

"And so it is with business, agriculture and labor, with the press and with the radio, with all of our great national organizations. We must agree voluntarily to concert our efforts to this one overriding task. If we do that there can be little doubt that we shall succeed."

Scientists Believe Hawaii's Overcast Caused by Volcano

HONOLULU (AP) — That mysterious haze shrouding Hawaii and a million square miles of the Pacific is not radioactive. Scientists' best guess is that it's caused by a volcanic eruption.

But of one thing the meteorologists and other scientific men are certain: No atomic explosion has any connection with the strange cloud. The reason:

Two Geiger counters show no trace of radioactivity. The weather bureau in Honolulu said the eruption of Mauna Loa on the island of Hawaii could be responsible for the smog-like condition. It's not sure yet — but the evidence points that way.

The famed volcano began its record eruption June 1 and it hasn't stopped yet. Two sharp earthquakes were recorded there Tuesday. Volcanologist Ruy R. Fines said one was about three-fourths as strong as the one which gave first warning that Mauna Loa was ready to pop.

Reaches Wake Island
Weather Bureau Meteorologist R. H. Simpson said planes were to go up Wednesday to take air samples at several altitudes in the haze screen for content analysis tests.

The haze area, he said, extends from Wake island eastward about 2,000 to 2,500 miles. The eastern limit is about 400 miles east of Honolulu. Its north-south range is about 600 miles, with Johnston island on the southern edge.

Over Hawaii the haze blanket breaks cleanly at about 8,000 feet. The air is clear above that altitude. Over Wake, however, the condition reaches to 16,000 feet, Simpson said.

The theory that the cloud might have been caused by an atomic explosion was knocked out by Dr. George O. Burr, biochemist at the Hawaiian Sugar Planters' association experiment station.

Two Geiger counters there showed no trace of radioactivity, he said. These counters would detect even exceedingly faint traces of atomic radiation in the atmosphere, he added.

Eruption Theory
Simpson said the best theory meteorologists have so far is this: Mauna Loa's eruption threw smoke, steam and sulphur fumes high into the air. When molten lava hit the sea, steam clouds boiled up. Minute salt particles were carried into suspension miles in the air.

If the salt and sulphur particles, reached into the stratosphere — 60,000 feet high — prevailing easterly winds would have carried them westward beyond Wake.

When the particles settled into the troposphere — below 50,000 feet — prevailing winds blowing the other way carried them back toward Hawaii.

When the particles settled below 8,000 feet — where surface northeast trade winds normally blow — they thickened into the haze belt.

That would be because the trade winds stopped blowing Sunday and a virtual calm covers the entire haze area.

In Washington, weather bureau officials also leaned to the theory that the haze has tied up with a volcanic eruption.

Industry to Get Navy's 'Brain'

By the Central Press
AMERICAN industry for the first time has access to the newest mathematical automation, the Claude Neon Reac, a startling postwar development of the Special Devices center of the Office of U. S. Naval Research. The navy has lifted its top-secret, high priority rating on this "electronic brain."

The Reac, worth a million dollars, already have proven their practicability to navy problem solvers as well as to a restricted selection of co-operating industrial plants.

Now, any firm or university can purchase Reac units at from \$17,000 to \$35,000. They are no larger than five office filing cabinets, and can be plugged into an electric outlet and set immediately to work.

Developed for the navy under Harry D. Belock in the New York laboratories of the Reeves Instrument corporation, Reac is the coded form for the Reeves Electronic Analog Computer.

Belock's invention solves problems 30 times faster than old nonmechanical methods. In one case, Reac produced a complex answer in 108 man-days against an estimated 11 years required by ordinary computation.

Another example of what this single line of postwar navy research has done for private industry was the solution of a problem by Reac at a cost of only \$3,240 compared with a probable \$73,725 if it were worked out otherwise. These computers cut such operational costs by an average 95 per cent.

Thanks to Navy development and release of the "electronic brain," American industry has an instrument which makes economically feasible the solution to a wide range of the most intricate mathematical problems confronting research and engineering groups.

In the automotive field it solves problems in the performance of internal combustion engines, ignition, carburetor development work and improvement in a car's riding ability.

In civil engineering it computes and solves problems with respect to bridge vibrations and stress analyses. During the preparation for reconstruction of the old Brooklyn bridge, the chief engineer, using a Reac, found in two days answers which would have required six months' brain-taxing labor.

The Reac likewise simulates actual plant processes for automatic industrial controls and supplies valuable data in the field of hydrodynamics relating to hull design, underwater "drag" and estimation of friction.

"The 'electronic brain' tests aeroplanes, before they are built, automobiles before they are assembled, and chemical processes before they are put into operation. Designs that will give the optimum performance can be determined without actually building an aircraft or even a model.

As the patient Dr. Belock explains it for the layman: "You say to the computer, 'I'm an airplane. Then you hook up an automatic pilot which will fly by a Reac just as it would fly modern aircraft 10,000 feet above the earth's surface.

When you yourself, using the Reac, wash your face, you'll find that the water or soap is better than you want to use. Mix sugar and water to your liking. Let the natural berry from a syrup, moisten important things for deep in their skin. Sho. Ice cream popular series into serving strawberries. Cake left to refrigerate. Like to fit the tray. Place 2 cups of stand un. Add 1 tea. plain softener and sugar. Spread the over the cake. Let the heavy favored with. Another eoe refrigerate. Like pie. I. mberries

UNIVERSITY CALENDAR
UNIVERSITY CALENDAR items are scheduled in the President's office, Old Capitol

Thursday, June 15
3 p.m. — The University Club, Guest Tea — music, Iowa Union.
Friday, June 16
8 p.m. — Graduate college lecture sponsored by the department of English, senate chamber, Old Capitol.
Sunday, June 18
7:15 p.m. — Sunday evening vesper, west approach to Old Capitol. (In case of rain at Congregational church.)
Tuesday, June 20
9:45 a.m. and 2 p.m. — Iowa Conference on Child Development and Parent Education, senate chamber, Old Capitol.
7:30 p.m. — The University Club, Partner bridge, Iowa Union.
8 p.m. — Evening session, Iowa Conference on Child Development

and Parent Education, Macbride auditorium.
Wednesday, June 21
9:45 a.m. and 2 p.m. — Iowa Conference on Child Development and Parent Education, senate chamber, Old Capitol.
Thursday, June 22
4 p.m. — Graduate college and department of chemistry lecture by Prof. M. Szwarc, room 305 Chemistry building.
7:45 p.m. — Naval Reserve Research unit meeting, house chamber, Old Capitol.
Friday, June 23
8 p.m. — Summer session lecture, Robert Kazmayer, news commentator, "The Changing European Picture," west approach to Old Capitol, (or Macbride auditorium in case of rain.)

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol.)

GENERAL NOTICES
GENERAL NOTICES should be deposited with the city editor of The Daily Iowan in the newsroom in East Hall. Notices must be submitted by 2 p.m. the day preceding first publication; they will NOT be accepted by phone, and must be TYPED OR LEGIBLY WRITTEN and SIGNED by a responsible person.

NAVAL RESEARCH RESERVE
unit will meet Thursday, June 22, 7:45 p.m. in the house chamber, Old Capitol. Dr. Russell Meyers will speak on "Some Aspects of Experimental Brain Surgery." Interested naval reservists are invited.

ORCHESTRA REHEARSES
Monday, Tuesday and Thursday evenings during summer session.
CHORUS REHEARSES
Monday, Tuesday and Thursday evenings during summer session.
LIBRARY HOURS
for Macbride hall reading room, summer session, 1950 are: Monday through Thursday, 8 a.m. to 10 p.m.; Friday, 8 a.m. to 9 p.m.; Saturday, 8 a.m. to 5 p.m.; Sunday, 2 p.m. to 5 p.m. Serials-Reserve reading room — same as above except, closed Sundays. Schedule of hours of a departmental library will be posted on the door of that unit.

PH.D. FRENCH
reading examination will be given at 8 a.m. June 24. Students interested must sign application sheet on bulletin board outside room 307 Scheffer hall. No applications will be accepted after June 21. Next examination will be given at the close of summer session.

WSUI PROGRAM CALENDAR
Thursday, June 15, 1950

U.S. Communist Distribution

PRINCIPAL CONCENTRATIONS of Communists are listed by states (above) by FBI Director J. Edgar Hoover, who says the party seeks vital atomic, industrial and military secrets with a "potential fifth column of 540,000 people" — staunch party members, fellow travelers.

Strawberries Frozen Now Provide Year Around Treat

Strawberry time lasts year-around, thanks to modern freezing methods. But there's still no tastier treat than fresh strawberries straight from the garden or served in shortcake.

Strawberries are rich in vitamin C and many persons like to freeze some now and throughout the season, to have them ready for winter health-insurance. Berries should be selected at their best eating stage for successful freezing—ripe and fully colored but not soft.

Nurserymen say the eye is the best judge of strawberry perfection. The redder the berry the sweeter it is—and the greater its flavor. If redness gets clear through and there is practically no white center, then the berry is most suitable for table use and for freezing.

Washing Technique
When you pick the berries yourself, use small containers to keep the fruit from crushing. When washing strawberries either dip them gently in a good amount of water or use a strong spray.

You'll probably like berries better when sliced and look no better when crushed. Berries you want to freeze a few whole for salads and desserts. Mix sugar with the berries before you put them in freezing containers. The best way is to spread the strawberries on trays and sprinkle with sugar. One pound of sugar to every 3 pounds of fruit is the usual proportion.

Let the mixture stand till the sugar has dissolved and the sugar and syrup. Then pack into airtight, moisture-proof containers. It is important to use perfect berries for deep freeze so they maintain their shape after thawing.

Shortcake Treat
Ice cream and strawberries are a popular combination. Nutritionists suggest mixing crushed berries into refrigerator ice cream, and serving strawberry sundaes with strawberry milk drinks.

Cake leftovers can be utilized in refrigerator shortcake. Cut the cake to fit the refrigerator tray. Place the tray with waxed paper and place the cake in it. Sweeten with 2 cups of sliced berries and stand until juice forms.

Add 1 teaspoon of unflavored gelatin softened in 1 tablespoon water and dissolved over hot water.

Spread the sweetened berries over the cake and top with 1-2 cups heavy cream, whipped and flavored with sugar and vanilla. Another easy-to-prepare dessert favorite is strawberry meringue pie. Place 1 quart sliced strawberries in a 9-inch baked

SUI Political Science Professor to Study At Cornell University

Prof. Edward Lane Davis, of the SUI political science department, left Monday for Cornell university, Ithaca, N.Y., where he is scheduled to work on his Ph.D. degree thesis under the direction of Prof. Mario Einaudi.

Davis will be at Cornell about two weeks, according to Prof. Vernon Van Dyke, of the SUI political science department. He will then return to Iowa City to finish the dissertation, and will take final examinations at Cornell late this summer.

Davis, who is not teaching at SUI this summer, has been an instructor here since 1949. He received his B.A. degree from Kansas university in 1941 and his M.A. degree from Cornell in 1948.

Prof. Einaudi is the son of Luigi Einaudi, president of Italy, Prof. R. G. Whitesel, of the SUI political science department, said Wednesday.

LICENSES ISSUED

Marriage licenses were issued Wednesday in Johnson county clerk's office to Robert L. Ruppert and Maxine J. Watson, both of Iowa City; Ronald F. Haas, Waukon, and Doris A. Franson, Red Oak; Harry Wasendorf and Mary Rushek, both of Cedar Rapids; Albert Swenson and Eva Swenson, both of Cedar Rapids, and Leo F. Novak and Iva Hlavica, both of Cedar Rapids.

Marjorie Buchanan Weds SUI Student

The wedding of 1950 SUI graduate, Marjorie Buchanan, Tipton, and Orville Miller, A.S. Iowa City, took place Sunday afternoon in the Presbyterian church in Iowa City. The Rev. P. Hewison Pollock officiated at the double ring service.

The bride was given in marriage by her father, Mr. Alex Buchanan of Tipton. Ruth Roland, Tipton, attended the bride as maid of honor.

James Grissel, E2, Cedar Rapids, served as best man. Ushers included James Halliburton, C3, Des Moines; Thomas Clithero, A4, Atlantic, and Bert Buchanan, Tipton, brother of the bride.

A reception in the Presbyterian church parlor followed the ceremony. The couple will live at 741 Melrose, avenue after a trip to Chicago.

Paul Berry, California Official, Dies Here

Funeral services will be held at 2 p.m. today at the Beckman funeral home for Paul K. Berry, 43, late California state official and SUI graduate.

Mr. Berry died of a heart ailment Tuesday evening at the home of his parents, Mr. and Mrs. James W. Berry, 413 South Johnson street. He had been visiting here with his wife since May 5.

He was recently appointed to head the reorganization of California's state government.

Berry was born in Iowa City May 8, 1907, and was graduated from Iowa City high school and SUI. He also took post-graduate work at SUI.

In 1930 he married Freda Ruth Cameron of Downey, and during World War II, he served 39 months in the army.

Before he moved to California Mr. Berry was a certified public accountant in Iowa City. He was

a member of Elks lodge and Iowa City lodge No. 4, A. F. and A. M., and served for a period as master councillor of the DeMolay.

Mr. Berry is survived by his widow and his parents, The Rev. Leon C. England, pastor of the First Christian church, will officiate at the funeral services, and burial will be in the Downey cemetery.

Named Master Mason
BURLINGTON — Glen Radcliffe, Boone, was elected Grand Master of the Grand Lodge of Masons in Iowa Wednesday at the annual state convention.

Beachwear

A WET BATHING SUIT can be attractively hidden under this green and white candy-striped "dry-off" suit. Made of soft terry cloth, it is easy to wash and fun to wear during those after-swimming hours and for lounging.

NAMED MASTER MASON

BURLINGTON — Glen Radcliffe, Boone, was elected Grand Master of the Grand Lodge of Masons in Iowa Wednesday at the annual state convention.

Bids Okayed for Roosevelt School Addition

Contracts totaling \$59,151.15 were awarded Tuesday night for the proposed addition to Roosevelt grade school.

R. H. Wildman and company

Town 'n' Campus

LENA T. RING CIRCLE — Members of Lena T. Ring Circle will hold a business meeting and social hour at 8 p.m. today in the home of Elizabeth McLachlan, 1017 Diana street. Mrs. William Harper will assist.

PAST NOBLE GRAND'S CLUB OF CARNATION REBEKAH LODGE NO. 376 — Mrs. Charles Kriel, 112 Lowell street, will be hostess to the Past Noble Grand's Club of Carnation Rebekah Lodge No. 376 at 8 p.m. today. Assisting are Mrs. Vera Singleton, Mrs. Mary Roberts, Mrs. Gertrude Husa and Mrs. Mable Thiesen. A social hour will follow business meeting.

VETERANS OF FOREIGN WARS AUXILIARY 2581 — A meeting of Veterans of Foreign Wars Auxiliary 2581 will be held at 8 p.m. today in the Community building.

SUI Prof to Attend Switzerland Meeting

Dr. Robert L. Jackson, associate professor of pediatrics in SUI's college of medicine, left Wednesday for the International Pediatrics congress in Zurich, Switzerland.

Dr. Jackson will present a paper at the congress on diabetes research at University hospitals. He will discuss treatment of children with diabetes mellitus (sugar diabetes) and complications resulting from the disease.

The congress will meet from July 23 through 29. Jackson will sail from Montreal, Canada, June 28 and return to this country in August.

was given a \$50,794 contract for general construction work and H. L. Galbraith Co. of Cedar Rapids was awarded an \$8,347.15 heating contract, after both had submitted to the school board the low bids for the respective work.

The two contracts awarded were somewhat lower than the \$62,000 bond voted last March 13.

Five other projects and appropriations approved by the school board Tuesday night were:

- (1) Masonry repairs for the chimney at the high school, \$500.
- (2) Weather-proofing for the cafeteria, shop and chorus room at the high school, \$450.
- (3) Electrical wiring for Longfellow school, \$400.
- (4) Installation of four drinking fountains at Junior high school.
- (5) Installation of handrails for the gymnasium and auditorium steps at the high school, \$50.

Former Instructor, SUI Grad Marry

Mr. and Mrs. C. F. Brower of Cass Lake, Minn., have announced the marriage of their daughter, Patricia, 1949 SUI graduate, to John H. MacKay, former SUI instructor.

The double ring ceremony took place May 31 in Tulsa, Okla. Mrs. R. D. Barber, sister of the bride, was matron of honor, and Mr. L. C. MacKay of Pueblo, Colo., served as best-man for his son. A reception dinner followed the wedding.

The bride has been a teacher at the Lutheran Orphans' home in Muscatine since graduating from SUI.

Mr. MacKay, who received his M. A. degree at SUI, was formerly an instructor in the SUI commerce department. At present he is an instructor at Tulane University in New Orleans, La. The couple will live in New Orleans.

Six Students to Supervise Playgrounds for Children

Six SUI students will be employed this summer in Iowa City's ten-week playground program beginning Monday, recreation director J. Edgar Frame announced Wednesday.

The playground schedule will offer a variety of entertainment for children of all ages, Frame said, beginning each day from 1 p.m. until dark.

"Family nights" also will be included in the program, he said, featuring movies for the entire family each Tuesday at the Longfellow school gymnasium, each Wednesday at the Benton street playground and each Thursday at the Brown street playground.

Crafts Program

A crafts program will be included in the playground activities for the first time, under the direction of DeLores Moore, A4, 330 E. Church street. Miss Moore is scheduled to graduate from SUI at the end of the summer session.

Mrs. Dorothy Castle, SUI student from Des Moines, and Dick Jacobs, G, Atlantic, will direct the Benton street playground between Clinton street and Dubuque street.

Bill Winterble, G, 629 Iowa avenue, will serve as athletic director of the playgrounds. Winterble was assistant trainer at the SUI field-house the past year.

Pets and Hobbies

Each week during the summer the playground will hold special

events such as pet, hobby and flower shows, and at the Benton street playground, sand-box modeling contests.

Team sports, games, physical fitness programs, hiking, handicrafts, inter-playground softball meets and a track meet will be included in the summer activities.

Prof. Bodine to Preside Over Physiology Meeting

Prof. Joseph H. Bodine, head of the zoology department, will preside at the annual meeting of the Society of General Physiologists in Wood Hole, Mass., June 21 through 24.

Bodine, vice-president of the society, said one day will be devoted to a symposium on "Electrolyte Transfers in Living Cells." (Electrolytes are acid bases or salts which, when dissolved in a suitable liquid, make the liquid a conductor of electricity.)

Enjoy Your

WARM WEATHER MEALS

Whether resident or visitor, enjoy your warm weather meals in the cool friendly atmosphere of the Quadrangle Cafeteria. Luscious surroundings, variety of menu, and moderate prices combine to assure you of an enjoyable meal.

For those hurried meals and after-class snacks, you'll find the same informal hospitality in the Quad grill.

Danger of Mildew to Clothes Eased by Precautions

Unless proper precautions are taken, mildew can raise havoc with clothes, bedding and woodwork during the summer months. As most homemakers have discovered, the molds that cause mildew will grow on almost anything, including cotton, linen, silk, leather and paper. Mildew requires dampness and warmth to thrive, which accounts for the trouble it causes in summertime.

Contrary to common belief, mildew is as likely to flourish in new homes as old, because of the moisture in new building materials.

The key to preventing mildew is removing the causes of dampness.

Bailey Attending Meeting Of Congregational Youth

Mart Bailey, A3, Emmetsburg, Daily Iowan assistant news editor, and president of the Iowa Pilgrim Fellowship, is attending the group's annual conference and convention, June 11-17, on the Grinnell college campus.

Activities scheduled for the Congregational young people from all over Iowa include class periods, conferences, workshops and recreation.

The Pilgrim Fellowship conference is one of the nine religious, educational, or public service groups which will meet on the Grinnell college campus during June and July.

ness. Airing the house when the air outside is cooler and drier than inside is helpful. If airing does not seem the solution, heat the house for a short time. The warmed air absorbs the moisture and can then be forced from the house with electric fans.

To dry musty closets, burn a small electric lamp in the closet, or place an open container of solid calcium chloride in the closet with the door shut.

Shower Curtains
It is a good idea to wash or dry-clean winter clothing before storing the garments, since soiled articles are more likely to mildew than clean ones. Clothing to be stored should not be starched because molds feed on this type of fabric finish.

Cotton shower curtains, awnings, tents and other articles that will be exposed to constant moisture can be treated with chemicals to make the fabric mildew-resistant.

If a few spots appear, in spite of precautions, the garments should be brushed out-of-doors to remove the mold before it weakens or rots the material. This procedure also prevents scattering the mildew spores in the house. After brushing, sun the article and then dry-clean or wash.

Removing Mold
Mildew stains can be bleached from washable cotton, but linen or rayon should be dipped in vinegar following a short chlorine bath, in order to stop the action of the chemical.

To remove mold from outer coverings of upholstered furniture and mattresses, use a vacuum cleaner attachment and then wipe the mildewed area with a cloth wrung from diluted alcohol. Leather goods can also be wiped with diluted alcohol to remove mildew.

By sprinkling a little cornstarch between the pages of a mildewed book, the mold can be brushed off in a few hours. Paint cleaners will remove mildew stains from painted surfaces. Home decorators are advised to add a mildew-resistant compound to the paint when applying a new coat.

Fresh, Crisp, New dress arrivals ... at Towner's

Sheer, Cool Summertime Cottons

In Voiles • Dimities • Dotted Swiss — In Bemberg Prints • Cruisailanes by David Crystal and washable "Sandswep" Linen... beautifully styled by L'Aiglon, Sofie Wagner, Lynbrook, Dorothy Hubbs, Eva Carver, Betty Hartford, Justine and Astor half sizes.

You'll find a grand variety of new styles and sizes for women, for you who wear Half Sizes as well as for Misses and Juniors... In every wanted color combination for the long summer months ahead...

Choose your Summertime cotton tomorrow at TOWNER'S. Now, during the height of the cotton buying season, TOWNER'S offer them to you at these low special value prices.

995 1295 1495 1995

Peace Officers Course Offers Six Study Fields

Plans for the 14th annual Peace Officers short course were outlined for the Iowa City Optimists club Wednesday by Prof. Richard Holcomb.

Holcomb heads the bureau of safety at SUI's institute of public affairs.

Six separate curricula are included in the short course, Holcomb said. They include a recruit school, a basic investigation course, an advanced investigation course, a course in criminal abortion, a course in homicide and a course for sheriffs and constables.

The recruit school covers all phases in basic police procedure and is aimed at newly appointed police and peace officers. It will be taught by Detective Ollie White, of the Iowa City police department.

Homicide Investigation
Holcomb said the basic investigation course will use an army field manual for a textbook and will deal with such things as fingerprint identification, photographing and diagramming the scenes of crimes.

Homicide investigation will be featured in the advanced investigation course and will include the simulating of a murder with planted clues. This course is being repeated by request, he said. The criminal abortion course is being offered for the first time and it will be directed by a specialist from University hospitals.

Dr. Lemoine Snyder, former medical director of the Michigan state police, will assist in teaching the course in advance investigation and will head the course in homicide. He will demonstrate medical-legal autopsy techniques. Many small-town sheriffs and constables are unable to attend the entire week-long session and with this in mind their course was designed in one day units, Holcomb said.

General Lectures
The sheriff's course will include lectures on mental deviations, road blocks, notable Iowa crimes, drawings and an F.B.I. demonstration. A mock trial will also be held.

General lectures for all who are enrolled will be a feature of the school. These will include such subjects as chemical tests for intoxication, homicide and police public relations. Motion pictures and marksmanship demonstrations will be pre-

Yearbook Advisor's Article Published

An article by Bernard Stern, instructor in the SUI school of journalism, was published in the June issue of Scholastic Editor, official publication of the National Scholastic Press association.

In "Completing Yearbook Distribution," Stern suggested ways of moving yearbooks to those who sometimes did not receive them, such as mid-year graduates and persons who forgot to get them.

He said that left-over annuals cause storage as well as book-keeping problems. Stern is faculty advisor for SUI's yearbook, Hawkeye.

Fines Totalling \$115 Levied Against Two

Judge Emil G. Trott levied a total of \$115 in fines against two persons in Iowa City police court Wednesday.

A.F. Boyd, 219 E. Benton street, was fined \$102.50 for making improper use of his car registration. Mrs. Clara Stable, West Branch, was fined \$12.50 for operating a motor vehicle without an operator's permit.

APPROVE LOAN
WASHINGTON (AP)—The Rural Electrification administration Wednesday approved a loan of \$70,000 to the Cherokee, Iowa, Rural Electric cooperative.

North Iowa Band Queen

A WAND AND A CROWN FOR A QUEEN, Miss Kay Cayou, Livermore, was crowned queen of the North Iowa Band Festival at Mason City Wednesday. Eighty-one candidates competed for the honor which is a highlight of the annual festival.

Search Continues For U.S. Escapee Loose in Germany

MUNICH (AP)—Hundreds of police and baying bloodhounds pressed a manhunt Wednesday night for Homer Cook, 27-year-old Oklahoma badman, but American authorities admitted they were without a single clue to his whereabouts.

They said they thought the powerfully-built desperado who fled from the Dachau prison last night had eluded them and was no longer in the Dachau area. It was Cook's third jailbreak in two months.

"We just don't know where he's gone," they said. American soldiers said they were ready to shoot the badman on sight.

"If I see Cook, I'll shoot," one soldier said. "All the other guys feel the same way." Armed posses also hunted through Munich's sewers and other dark underground passages for the fugitive.

The guitar-strumming ex-soldier from Muskogee, Okla., was wearing only his shoes, thin trousers and an undershirt when he ripped a bar from a window of the prison library, scaled three high walls and scurried into the woods. He lost one of the shoes near the prison. One wall was 12 feet high and topped with barbed wire. A prison guard said he took aim at Cook, but that his rifle jammed.

Posses searched the sewers and tunnels that once sheltered Adolf Hitler's war supplies from bombing, apparently on the theory that Cook might seek shelter from the chilling rain.

Military police officials, it was understood, believed the fleet 200-pounder also may have made for the sewers to throw the howling dogs off his trail, then back-tracked through the woods to the lush farmlands around Munich.

Demos to Attend State Convention

Johnson county will send 34 delegates to the Democratic state and judicial conventions to be held in Des Moines July 13 and 26, respectively.

The state convention will be in the KRNT radio theater, and the state judicial convention will be in Hotel Fort Des Moines. The same delegates will attend each convention.

Apportionment of delegates to the Democratic conventions is made on the basis of one for each 250 votes cast for President Truman in the 1948 general election, Atty. Edward W. Lucas, county Democratic chairman said Wednesday.

Delegates will be chosen at the county conventions June 30. The county conventions will fill vacancies occurring after the primary election and make nominations where no candidate received the required 35 percent of the vote.

Another purpose of the convention is to elect delegates to the district judicial convention and to elect a district senatorial committee, a district congressional committee and a district judicial committee.

Votes Pay Increase; City to Hire Teachers

A \$4,552 increase to Iowa City's school budget will raise the pay of 16 school custodians and make possible the hiring of 10 new teachers.

The budget increase was voted by the school board at a meeting Tuesday night. The additional pay for custodians amounts to a five percent pay increase.

The school board has been able to fill 17 of the 23 vacancies which occurred during the 1949-50 school year.

New teachers named by the board are: Sterling C. Goplerud, who will teach high school chem-

Old American Game - Let's Play Pick-Up

LIGHT AS PAPER! BUT PAPER is not always light, as the owner of this new Ford would testify. The mishap occurred on Jefferson street west of Gilbert street when a truck carrying bales of paper turned the corner, dumping a loose bale on the car. The car suffered a dented door, a torn chrome strip and wounded feelings.

With Record 13,000 Telephones -

Every Second One of City's Phones Jangles

Nearly everyone makes a telephone call during the course of a normal day. In Iowa City, it is done at the average rate of 83,600 calls a day, or one call every 1.03 seconds.

Most people consider the telephone another of the small essentials of everyday life, giving little thought to the large organization and tremendous expenditures necessary to provide this apparently simple service.

In Iowa City, alone, 84 people are employed by the telephone company. Their jobs range from highly skilled technicians and engineers in the maintenance, installation and engineering departments, to typists and clerks in the front business office.

In the past five years, improvements and additions to the Iowa City exchange of the Northwestern Bell Telephone company have cost over \$600,000. Nearly \$85,000 of this was spent during the past year.

13,000th Phone Installed
The company's expansion program has brought the number of telephones in Iowa City to 13,000. The 13,000th telephone was installed in the home of Charles R. Ricketts, 630 E. College street, June 9.

This is a gain of 61 percent, or 4,950 telephones over a five-year period - more than had been installed in Iowa City in the previous 25 years.

According to Roy A. Williams, manager of the Iowa City telephone exchange, the average of 1,000 telephones installed every

year is expected to continue for a number of years.

Williams said a program of expansion was under-way which will take care of future demands. He said more than \$117,000 is scheduled to be spent for expansion of local and long-distance call equipment during the coming year.

Williams said approximately 30 customers are now waiting to have telephones installed. Some installations were delayed because telephone cables were not available near the places where these telephones were wanted. Construction, and installation, however, are going ahead as rapidly as possible, he added.

Installations Complicated
Most persons don't realize what is involved in the installation of a telephone, Williams said. They see the man who comes to their home or office to put the phone in, and no one else.

Between 15 and 20 other persons must work before the phone can begin to operate. The order for the phone must pass through the business office, the engineer's office, and the installation department before the installation man makes his appearance.

Even after the phone has been installed in the residence or office, it must be connected to the dial-switching equipment in the telephone company plant. Operators must be notified about the new number, and records made for the directory and business office.

Established in 1881
According to Williams, who has been with the telephone company for 20 years, the first telephone company in Iowa City was the Hawkeye Telephone company, established in 1881. It later was consolidated with the Johnson County Telephone company.

The Iowa City telephone company was started about the same time. Until 1909, if a person wanted complete telephone service in Iowa City, it was necessary to subscribe to both the Iowa City and Hawkeye companies.

Unify Phone System
In 1896, Northwestern Bell purchased the Iowa City Telephone company, and in 1909 the Johnson County Telephone company, making one telephone system throughout Iowa City.

Facilities were expanded con-

stantly to take care of the growing demand for telephone service. On July 31, 1932, the telephone company moved to its present location at the intersection of S. Lynn and E. Burlington streets. The dial system was inaugurated at the same time.

Announce Summer Vespers

The Rev. Elwyn A. Smith, dean of the Dubuque Theological seminary, University of Dubuque, will speak at the opening of the 1950 summer vespers series Sunday at 7:15 p.m.

The series is scheduled to be held on the west approach to Old Capitol each Sunday, June 18 through July 23 from 7:15 to 8 p.m., according to Prof. M. Willard Lampe, director of the SUI school of religion.

Campus Religion
In line with the general theme for the series, "Religion and Moral Unrest," Rev. Smith will speak on "Religion and Moral Unrest on the Campus."

He has been university pastor of the Westminster foundation for the national capitol area, Washington, D.C., and associate youth editor of the Presbyterian Board of Christian Education.

Baptist students will lead the worship for the first vesper. On June 25, Dr. E. Fay Campbell of the Presbyterian Board of Christian Education, Philadelphia, is scheduled to speak on "In Education." Presbyterian students will lead the second vesper service.

Hancher to Speak
Prof. Hew Roberts, SUI college of education, will speak on "In UNESCO" July 2, and Prof. Nicholas V. Riasanovsky, SUI history department, will lecture on "In Russia" July 9.

SUI President Virgil M. Hancher will take up the theme of the series in a discussion, "In India" July 16.

14 CHECKS DESTROYED LAST THURSDAY NITE
14 checks are expected to be ripped up tonight, as LOGHRY'S Lucky Car Nite makes its fourth appearance in Iowa City. About fourteen people are going to drive in to LOGHRY'S sometime during the evening, and find their entire check paid. One of these people could be YOU!
Here's How It Works...
Just drive in and order - order some of that famous shrimp, crisp chicken-in-a-basket, or maybe just a steakburger and coffee. After your meal is served, the total is rung up on the cash register. If the serial number on the check is divisible by 15, the check is destroyed, and YOURS IS THE LUCKY CAR!

What D'ya Mean? We Ain't Friends!

(AP Wirephoto)

CONTRARY TO TRADITION THIS DOG AND FAWN have become the best of friends. Snowflake is an 11-day-old fawn found abandoned in the woods near Dry Mills, Me. It now romps all day with its protector, Lady, at the state game farm. Deer and dogs are popularly supposed to be natural enemies.

Ex-Wac Holds Up Motorist

VANDALIA, ILL. (UP)—A blonde, green-eyed former WAC robbed a motorist of his car and money Wednesday and used a pistol and knife to resist police officers who finally captured her.

The girl, attractive and modestly dressed, gave her name as Mrs. Honora Clark Swanson, 21, Pontiac, Mich.

She said her husband and her father, a minister, lived in Pontiac, but refused to give their street address.

Deputy Sheriff Delmar Pruett answered the alarm of Motorist Gene Cartaleno, 25, that the girl robbed him of 50 cents — all the money he had — and forced him out of his car on U.S. highway 40, east of here.

Pruett said Mrs. Swanson hid behind the car, brandishing a .32 caliber pistol and a hunting knife, and shouted defiance when he tried to arrest her.

She submitted peacefully when he summoned two city policemen to help out.

Pruett said the girl acted "tough" when arrested but became "very pleasant" after she was jailed. She was charged with armed robbery.

Mrs. Swanson said she was familiar with jails because "I used to go to jail every Friday." She explained that she accompanied her minister father every week when he conducted services in the Pontiac county jail.

Pruett said she refused to give her reasons for the holdup other than that she wanted to get to California.

Authorities found several torrid love letters in her possession, written to a soldier in California whom she said she knew when she was in the WAC.

One of the letters said that she was "going mad if I don't get to see you." The name of the soldier was not divulged.

Pruett said it appeared that Mrs. Swanson wanted to get to California to see the soldier and tried a robbery to do it. In her pocket was a dime novel murder mystery.

Council-Manager Group Seeks Okay Of Organization Plan

Articles of organization will be presented for approval tonight at a meeting of the Council-Manager Association, Atty. Clair E. Hamilton, chairman of the association, announced Wednesday.

All members of the present association are invited to attend the meeting at 8 p.m. in the main dining room of Hotel Jefferson.

The articles, including a statement of purposes and by-laws, were drawn up by a sub-committee of the existing executive committee of the Council-Manager association.

If approved, they will provide the basis for a permanent citizens organization.

Hamilton said, if the articles are approved, the executive committee hopes the association will elect a board of representatives to direct association affairs for the next two years. The board members would be elected on a precinct basis.

Under the proposed articles, the board would appoint standing committees and a candidates committee which would nominate candidates for city council to seek office in the next election in March, 1951.

Dairymen's Contest To Close July 25

Entries in the second annual Johnson county Dairy Empress contest must be filed before June 25, Howard Fountain, contest chairman, announced Wednesday.

County milk producers and processors met Monday at Swaners dairy to plan the event.

Candidates may be sponsored by any organization, community or business within the county, Fountain said.

Winner of the contest will receive a \$50 savings bond and will compete in the district contest. District winners will vie for the state title at Waterloo's Dairy congress this fall, he said.

Hummel Leaves for Science Symposium

John P. Hummel, instructor in the biochemistry division, left Iowa City Wednesday to attend a symposium on "Molecular Structure and Spectroscopy" at Ohio State university, Columbus, Ohio. (Spectroscopy is the production and study of spectra, the seven principal colors of light.)

The symposium started Monday and will end Saturday. It is being presented by the department of physics and astronomy of Ohio State university.

Prof Picks Up a Mop, Shows Janitors How

OMAHA (AP)—Floor moppers took a lesson Wednesday from a college professor who holds the degree of doctor of philosophy.

Dr. H. H. Linn, professor of school administration, Teachers college, Columbia university, New York, was an instructor at a school for custodians, attended by more than 180 persons.

"Do it without tearing your body apart," said Dr. Linn as he demonstrated with a mop. "You can cover a seven-foot sweep easily and that's plenty. No need of wearing yourself out."

To Map Scouting Plans At Friday Eve Meeting

Scouters from the Johnson county Boy Scout district council will meet Friday at 7:30 p.m. at the Boy Scout camp five miles west of Iowa City.

The group will plan the district program for the 1950-51 scout year, Martin L. Hunter, secretary of the Iowa River Valley council, said.

The group will arrive at camp at 4 p.m. to work on the camp, and will eat dinner at 6:30 p.m. Dinner is by reservation only, Hunter said.

New Orleans Times-Picayune Accused of Unfair Monopoly

NEW ORLEANS (AP)—The New Orleans Times-Picayune and States were accused in a civil anti-trust suit Wednesday of monopolistic practices injurious to the competing New Orleans Item.

The suit, filed by the justice department in U.S. district court here, is the first civil action ever brought by the government charging a newspaper with injury to a newspaper competitor.

The justice department's anti-trust suit alleges that beginning about 1933, the Times-Picayune and States "have been engaged in combination and conspiracy to monopolize trade and commerce in newspapers, in dissemination of news and advertising, in supplies and in nationally advertised products in violation of section one of the Sherman act."

The anti-trust action was filed against the Times-Picayune Publishing company, publishers of the Times-Picayune and States, and four officers: L.K. Nicholson, president of the company; John F. Tims Jr., vice president and business manager; Aubrey F. Murray, advertising director; and Donald W. Coleman, circulation manager.

Nicholson issued the following statement: "A substantial part of the charges made by the government are incorrect."

"Those which are true involve practices followed by many newspapers of this country for years and their legality has never heretofore been questioned."

"We are prepared to meet the issues on the trial of this case and are confident that the court will hold we have not violated the Sherman act."

The Times-Picayune has a daily morning circulation of 180,384 during the weekdays. The States has a daily afternoon circulation during weekdays of 99,239. And the Sunday Times-Picayune and States has a circulation of 291,409.

The Item is a six day afternoon daily and Sunday morning paper. It is published by David Stern, formerly of Philadelphia, and Camden, N.J., and has a daily weekday circulation of 99,658.

Publisher Stern said the Sunday circulation is "in excess of the daily."

Last Monday the Louisiana state senate dropped contempt proceedings against Stern and Editor Clayton Fritchey on recommendation of a special committee.

State Junior Golf Players Qualify For National

Platt Out in 1st Round Of Championship Flight

By **HOBERT DUNCAN**
Daily Iowan Sports Editor

Eight golfers who survived the first two rounds of play in the championship flight of the state junior amateur golf tournament Wednesday earned the right to represent Iowa in the national meet at Ames.

Seven of the final eight will be selected at the conclusion of the tournament to play in the nationals. The eighth member of today's quarterfinal round will be an alternate.

One of the major casualties in Wednesday's play was Don Platt, Tuesday's medalist champion. Dale Kniss of Boone put Platt among the spectators of the tournament with a 2-1 win in the first round Wednesday morning. Kniss advanced to the quarterfinals in the afternoon with a close 1 up win over Jim Robertson of Anamosa.

As tournament medalist, Platt was named as second alternate to the Ames meet.

The pairings for today's play in the championship flight are: Kniss vs. Max Shields, Okaloosa; Wayne Higley, Iowa City, vs. Don Webber, Ames; George Clark, Ottumwa, vs. Herb Klontz, Ottumwa, and Dick Belling, Waterloo vs. Dick Schultz of Boone.

Several golfers mastered par over the rolling fairways and sand trapped greens of Finkbine field Wednesday. Clark fired a par 70 for 18 holes in his morning match with Tom Davis of Cedar Rapids. He scored his third straight par round of the day in the first nine holes of the second round.

Under Par
Schultz sizzled in with a one-under par 34 on the top nine in

an afternoon match with Russ Meyer of Davenport.

Meyer was the winner of an eight way playoff for a spot in the championship flight Tuesday. He and seven others were tied with 81's and only one could be admitted to the top flight. Meyer birdied the par four first hole in the sudden death playoff to win his place.

Another player to break par was Herb Klontz of Ottumwa. He turned in a 34 in the second round.

Close Match

One of the closest matches of the day was completed in a brief late afternoon shower. Dick Belling, Waterloo, and John Beckman, Sioux City, were even after 17 holes. Belling drove the green on the par three 18th hole and then sank a 10-foot putt for a birdie two and the match.

Iowa City's only representative in the championship flight from a large list of tournament entrants scored a surprising win in Wednesday's second round. Wayne Higley ousted Tom Washburn of Davenport, 1-up. Washburn finished fourth in the high school state tournament this spring.

Hap Miller, of West Waterloo, posted a first flight win over Jerry Bailey of Mason City. Miller, high school state champion, soared to an 83 Tuesday to miss the championship flight.

Winners in all flights will be determined Friday.

(Daily Iowan Photo)

DALE KNISS TEES OFF on the 10th hole of Finkbine field Wednesday in the second round of the championship flight in the state junior amateur golf tournament. Earlier, Kniss had eliminated Tuesday's medalist winner Don Platt in the first round of the flight. Kniss is from Waterloo.

Cards Nip Phils, Extend Lead

PHILADELPHIA (AP)—Max Lanier held the Philadelphia Phillies to six hits Wednesday night as the St. Louis Cardinals won their seventh straight game by a 4-2 count. The triumph, Lanier's fourth successive mound victory, increased the Cards' lead over the idle Dodgers to three and one-half games.

In scoring their second straight at the expense of the Phils, the pace setting Cards broke a 2-2 deadlock in the eighth. Enos Slaughter singled but was forced at second by Johnny Lindell. Marty Marion came through with a triple which produced one run and Del Rice drove the St. Louis shortstop home with the other.

The Cardinals scored a run in each of the first two innings. Harry Walker's double, Red Schoendienst's bunt and a wild throw by Willie Jones accounted for run No. 1. The second inning tally came when Martin beat out a hit to Jones. Rice walked, both men

moved up on a roller by Lanier and a wild pitch.

The Phils put together singles by Del Ennis and Andy Seminick, a double by Willie Jones and an infield out for their two tallies in the sixth.

St. Louis 110 000 020-1 10 0
Philadelphia 000 002 000-2 6 1

Sixth Flight

Burkhart, Marion, def. Hanson, Iowa City, 5-3; Wicks, Iowa City, def. Edmunds, Iowa City, 1 up; Nova, Iowa City, def. Ware, Iowa City, 1 up; Sumner, Iowa City, advanced on a bye.

Passeau Pitching in Iowa

Claude Passeau, former Chicago Cub pitching star, is now playing-manager of the Fonda Cubs in the 10-team Iowa State league. Passeau's last great year with Chicago was in 1945 when the Cubs won the pennant and forced the Detroit Tigers to seven games before losing in the world series.

Passeau is apparently happy in his new role of major league ambassador to amateur baseball. One of his major values to Fonda, in addition to pitching, is his box office appeal.

Last Sunday night, in a home game with Mason City, Passeau entered the game with two out in the ninth inning to stop a threat, Mason City had the tying run on third base when Passeau came in. He forced the next hitter to fly out deep in right field and end the game. When he came to the mound, the Fonda fans gave him quite an ovation.

The Iowa State league is classed as non-professional, but everyone, including the NCAA, must realize that players such as Passeau aren't donating their time and efforts to further baseball in the state.

The question of amateurism is significant because of the number of college players participating. Even the schedules assume professional proportions. Member teams play an average of about four league games weekly and schedule games with independent teams to round out the week.

It's almost impossible to hold another summer job and play this schedule. And most college students have to earn money during the summer months. Every indication would point to professionalism in the Iowa State league and hundreds of others of the same type scattered around the country.

The NCAA has been too busy trying to enforce their controversial "Sanity Code" on a college level to bother with these apparent summer violations.

The amateur standards now existing in other sports should be applied to summer baseball to avoid discrimination. Summer baseball has enjoyed an immunity from NCAA probing for quite some time. Years ago, college players were professionals for the summer but took the precaution of using assumed names. Now they don't even have to bother with this.

Jim Thorpe, probably the greatest American athlete, was forced to return the awards won in the Olympic games because of professional baseball in the summer. Since that time, the NCAA and NAU have turned their back on these violations.

College athletes have definitely helped baseball in the state and the present summer program couldn't continue without college manpower. However, if the rules are to remain in effect, they should be enforced.

Pinky Primrose, Iowa's third baseman for the past two seasons, is going to try out with the class B Cedar Rapids Indians this week. Primrose who follows teammate Dick Hoeksema into the Three I league, said that he was going to try professional baseball for awhile. If he isn't successful, he plans to accept a commission in the army earned in the advanced ROTC program here.

Hoeksema made an auspicious professional baseball debut for the Quad City Quads Saturday night. He pitched a three-hitter against Terre Haute but lost 1-0 when the other pitcher hurled a no-hitter.

National Tournament Qualifier

(Daily Iowan Photo)

BOONE'S DICK SCHULTZ looks at the pairings for today's quarterfinal round of the state junior amateur golf tournament. Schultz fired a one-under par 34 in the first nine holes of his second round match Wednesday afternoon. In the morning, Schultz birdied three of the last five holes to beat Don Kneeter of Des Moines, one up. Schultz is one of nine golfers who qualified for the national junior tournament at Ames.

Indians Drop Bosox In Home Run Battle

CLEVELAND (AP)—Cleveland defeated Boston Wednesday night, 7-3, in a five-home-run game. Larry Doby, Al Rosen and Lou Boudreau hit four-baggers for the Indians and Vern Stephens and Ted Williams hit round trippers for the losing Red Sox. It was the fourth victory for Mike Garcia, who gave up only five hits.

Johnny Pesky had walked before Williams belted his 19th homer of the season in the third.

In that same inning, after Dale Mitchell walked, Doby homered and then Al Rosen followed with his 16th homer to put the Tribe ahead, 5-3.

Doby and Rosen also figured in Cleveland scoring in the second and eighth innings. In the second Doby doubled, Rosen singled and both scored as a result of an error by Al Zarilla and a single by Jim Hegan. In the eighth Doby walked and went around base hits by Rosen and Boudreau.

Nats Clip Browns On Four Hitter, 4-1

ST. LOUIS (AP)—The Washington Senators turned on the St. Louis Browns and won the ball game, 4-1, Wednesday night with a four-hit pitching performance by Chico Marrero. Washington thus broke the ice after losing seven straight to the Browns, including a doubleheader Tuesday night.

As the Browns kept swinging the bat helplessly for inning after inning, there was a report in the press box that Marrero, a 33-year-old Cuban right-hander, knows only two words of English — "curve" and "money." He had plenty of English on the ball though as he turned the Browns' back.

Yanks, Tigers Both Lose; Detroit Keeps First

Page Fails Again; Chicago Wins, 5-2

CHICAGO (AP) — Joe Page failed for the second straight day as Dave Philley greeted the ace reliever with a three-run homer in the last of the ninth inning to give the Chicago White Sox a 5-2 triumph over the New York Yankees Wednesday.

Philley's smash climaxed a great rally in which the White Sox scored four times after two were out and the bases empty. The victory was the fourth in succession for the hustling Hose, their longest winning streak of the season. The long drive earned Bill Wright the decision over Allie Reynolds.

Reynolds suddenly weakened with just one putout to go and was replaced by Floyd Baker, a pass to pinch hitter Luke Appling and Chico Carrasquel's one bagger to right. Page, who yielded the win in the ninth inning in Tuesday night's Chicago victory over the Yankees, came in for his 4th relief job. His third pitch to Philley sailed into the lower left field deck.

Yankees' relief pitcher, Philley, was replaced by Bill Wright, who pitched the final out.

A Family Custom

A FOURTH FLIGHT WINNER Wednesday was Ted Burkhardt, 13, of Marion who is shown lining up a putt on the ninth green. Ted's father, Charlie Burkhardt is club professional at the Elmerest golf and country club in Cedar Rapids.

Lou Brissie Hurls A's Over Leaders

DETROIT (AP) — Lefthander Lou Brissie turned in a stout-hearted sixth hit pitching job Wednesday to lead the Philadelphia Athletics to an 8-2 victory over the Detroit Tigers and end a streak of seven losses to the Detroiters.

The set back did not cost the American league leading Tigers anything in their first place duel with the New York Yankees. The Yanks dropped their second straight decision to the Chicago White Sox and still are a half game behind the Detroit club.

Brissie, who failed to finish his last three starts, took a very unimpressive record of one victory and eight defeats into Wednesday's game. But he was mighty rough on the Detroiters as none got more than one hit.

The A's turned in some heavy stickwork against Detroit starting Pitcher Paul "Dizzy" Trout. They battered him for five runs and six hits in five innings to hand him his first setback after four straight wins. Hal White and Paul Calvert finished up for Detroit.

Elmer Valo, who bagged a pair of homers in the series opener between the teams Tuesday night, batted out his No. 5 Wednesday, while Eddie Joost hit No. 8. Both wallpops were off Trout.

Joost's two-run poke in the second inning gave the A's a lead they never relinquished. The Athletics took a 5-2 lead into the ninth but greeted Calvert with five hits for three runs in that inning to make it 8-2 and assure Brissie of his win.

Philadelphia's 1950 record is 21-10-2. Detroit is 10-10-2. Brissie (2-8) and Guerra, Trout, White (0), Calvert (0) and Robinson, LP-Trout (4-1). Home runs—Joost (8th), Valo (4th), Kellaway (2nd).

Pacific Coast League Wants Best Big Ten Team for Rose Bowl

VICTORIA, B.C. (AP) — The Pacific Coast conference will try to renew its Rose Bowl pact with the Big Ten on a basis of each conference sending its best team to the New Year's day classic each year.

This word came unofficially Wednesday from the final session of the summer meeting of the PCC, just before delegates headed for a Seattle-bound boat. None would be quoted as confirming or denying the report.

In the past, the Big Ten has limited any of its teams to one Rose Bowl appearance every three seasons, while the Coast conference always has sent its champion.

The conference announced the 1950 Rose Bowl game between Ohio State and California netted \$341,349.92, divided evenly between the conferences.

Washington Swaps Weik for Vernon

WASHINGTON (AP) — Mickey Vernon, the veteran Cleveland first baseman, returned to the Washington Senators Wednesday for a second term in a trade which sent Dick Weik, of Des Moines, Iowa, a young, promising but currently wild speedball hurler, to the Indians.

Vice President Calvin Griffith of the Senators, who announced the deal, said both players are to report to their new clubs today. There was no cash involved.

The deal ended the Washington club's quest for a first baseman to take the place of Eddie Robinson who was sent to the Chicago White Sox along with Pitcher Ray Scarborough recently for Second Baseman Cass Michaels, Pitcher Bob Kuzava and Outfielder John Ostrowski.

Hogan Tries Again

NEW ROCHELLE, N.Y. (AP) — Ben Hogan, the hottest man on the fairways, and 15 fellow professionals were poised Wednesday night for their annual knock-down and drag-out in the \$15,000 Palm Beach round robin tournament starting today at the Wykagyl club.

Hogan, before playing a final practice round Wednesday, made it clear he will not compete in the PGA championships next week at Columbus, Ohio.

Blackhawk Coach

CHICAGO (AP) — Ebbie Goodfellow, former Detroit Red Wing who led the St. Louis Flyers from the American hockey league cellar to a western division title in two years, was named coach of the National Hockey League's last place Chicago Blackhawks Wednesday.

Animals, Girls, Movie Stars Figure In The News

SOME CAN TELL 'EM, SOME CAN'T. But it's hard to say whether the bed-time story told by big game hunter Phil Carroll was effective. The seven little DG's (displaced gorillas) Carroll gathered about him showed mixed reactions. The one on the left looked pretty bored. The gorillas were in a record shipment Carroll brought from Africa for U.S. zoos.

Cartoons by Merle Walker

LOFTY LOVE. Ingrid and Roberto, giraffes with an unswerving devotion, arrived at a New York City pier from Africa recently. The fact that they were thousands of miles from home seemed to have little effect upon the lovers. They were even unmindful of the cameraman as they let the world know that nothing as insignificant as moving from the wilds to the zoo at Jacksonville, Fla., was enough to disturb them so long as they could be together.

LIVE CARGO. Miguel Roginsky of Belem, Brazil, needed no "handle with care" warning as he showed off his 25 foot, 136-pound anaconda on their recent arrival by air at Miami, Fla. The snake was part of a shipment of 216 wild animals, birds and reptiles bound for U.S. zoos.

SURPLUS SALES WERE NEVER LIKE THIS. Inventory at the annual Trade Show in Los Angeles included the usual war surplus items—life rafts, army rifles, ammunition belts, canteens and sailor hats. But the manufacturers of the equipment probably never expected to see the items on anyone as attractive as Donna Gibson. The equipment might have looked a little out-of-place to the veterans, too. No complaints were reported, however.

THINK WHAT A COKE BOTTLE COULD DO HERE. The picture above shows how umpires of 100 years ago took care of the hats belonging to players. The modeling was performed during the Cricket club's 100th anniversary at Cobham, England. A well aimed bottle by an irate fan would have a wider range of latitude if today's umpire still followed this old custom.

WITH AN ASSIST FROM HIS SCREEN ACTRESS mother, Esther Williams, little Benjamin Stanton got his first haircut

recently at the age of 10 months from Eddie Polo during a visit to a movie set at Hollywood, Calif. Benjie's dad is Ben Gage, radio announcer.

HELPING CHARITY. Rita Hayworth, American movie actress who left Hollywood and married Aly Khan, sold her autograph recently in Tulleries Gardens, Paris. Rita was whooping up business a bit for benefit of the Second French armored division. The man in the right background appears to be searching his billfold to see if he has enough money to buy the scribbled name of the famous star whose picture has been plastered all over France in advertising her old American movies.

SHELAGH KELLY, 23-year-old professional swimmer, will wed Detroit Pitcher Art Houtteman after the current baseball sea-

son. The red-haired Miss Kelly, a member of a water ballet troupe is pictured at the right preparing for her afternoon workout at Rahway, N.J. at a swimming pool near her home.
