Weather

Partly cloudy, warm and humid today. Partly cloudy Thursday with widely scattered thundershowers. High today, 82; low 65. High Tuesday, 89; low, 62.

Bids Received For Infirmary

Bids for construction of the SUI student infirmary were received Tuesday, according to George L. Horner, superintendent of planning and construction at SUI. General construction bids were submitted by the Ralph Wildman company, with a \$12,900 bid; the M.D. McCreedy construction company, with a bid of \$14,500, and Hubert Miller with \$20,950. All are Iowa City firms. Bids submitted on the plumbing and heating contract were from Carstens brothers, Ackley, with a bid of \$9,984, and the Larew company, Iowa City, with a \$15,496 bid. Two lowest bids of six submitted on the electrical contract were from the Olds electric company, Davenport, with a bid of \$3,200, and from Geg's electric service, Iowa City, with a \$3,714 bid. The single-story building, 55 feet wide and 104 feet long, should be ready for occupancy some time this fall, Horner said. Located directly behind University hospitals, it will be constructed from four barracks-type buildings, he said.

Warn Russia War Will Be Carried to Her Soil: Stassen

HAROLD E. STASSEN Answer to Red Aggression

WASHINGTON (AP) - Harold E. Stassen said Tuesday night Russia should be notified that war will be carried directly to her soil if "Communist imperialist forces" launch further aggression anywhere in the world. He said this should be done by congressional resolution and petition to the UN general assembly. Stassen, president of the University of Pennsylvania and candidate for the GOP presidential nomination in 1948, called for sweeping foreign and domestic policy changes. He said the United States clearly cannot permit non-Communist nations to be picked off one at a time. But he added that if Moscow follows up the Korean attack with Red satellite aggressions elsewhere and if the United States attempts to meet the attacks where they occur, its armed strength will be dissipated at distant points of the world. "Do not these two alternative facts mean," he asked, "that it must be American policy that if further aggressions occur at any point in the world by these Communist imperialist forces, we shall hold the Kremlin strictly responsible?" "Must it not be our policy to ask the UN assembly to fix that responsibility upon the Kremlin? Should we not make it clear that an attack on Indo-China, or Burma, or Greece, or Turkey, or Germany, or Austria, will not simply mean that war comes to (those countries), but will mean that war will come to Moscow, to the Urals, and to the Ukraine?"

Unions Ask Truman To Seize Railroads To Avert Walkout

By UNITED PRESS Two big rail unions Tuesday asked the White House to avert a threatened nationwide rail strike in the day's major labor development. At Detroit, the CIO united auto workers union shut down Packard Motor Car company in a strike. The president of unions representing 300,000 railroad trainmen and conductors, acting after a last-ditch conference collapsed, asked President Truman to seize the railroads to head off a walkout. "No Point" in Talking W. Park Kennedy of the trainmen and Roy O. Hughes of the conductors said they saw "no point" in continuing talks with carrier representatives presided over by Presidential Assistant John R. Steelman. They accused the carriers of a "defiant, high-handed attitude" in a wage and hour dispute. The unions legally are free to strike. The White House, in announcing failure of the talks, said earlier that both sides agreed to resume conferences only if Steelman "can find a basis for negotiations."

B-29s Blast Red Troops Massed For Impending All-Out Attack

U.S. to Call Up 85,000 More Men in Draft

WASHINGTON (AP) - The nation's selective service boards expect to call another 85,000 men in November and at least 35,000 more over the next seven months, it was disclosed Tuesday. Maj. Gen. Lewis B. Hershey, national selective service director, gave the estimate to a closed-door meeting of the house appropriations committee on Aug. 1. His testimony was just made public. The new draftees would be in addition to the 100,000 already ordered to report to military training camps in September and October. Hershey, who appeared to support requests for additional money to operate the draft during the current fiscal year, said the call for 50,000 men in November would leave him 35,000 "to finish seven months with." He refused to predict the future of the draft after that, pointing to a "Little Cassino" in the North Korean power drives Tuesday.

Enemy Expands Bridgeheads Across Nakdong

TOKYO (WEDNESDAY) (AP) - Nine hundred sixty tons of 500-pound bombs today blasted Red troops massed for an impending all-out attack on America's key base of Taegu in North Korea. They were dropped in a saturation assault by 98 U.S. B-29s. This big air blow fell in the Waegwan sector, 12 miles northwest of Taegu, where one Red company already has crossed the Nakdong river to a hill point only nine miles from the provisional South Korean capital. Eighth army headquarters in Korea said the Superfortresses bombed a 21-square mile sector on the west bank of the Nakdong where two Red Korean divisions probably are poised for action. Reds Expand Bridgeheads While American air and ground forces focused attention on the Waegwan developments, two Red bridgeheads across the Nakdong were expanded southwest of Taegu, with one of them expanded in depth to seven miles. Associated Press Correspondent Leif Erickson at Eighth army headquarters reported a Red company held a hill nine miles from Taegu, the provisional South Korean capital. The Reds were reported surrounded by troops of the U.S. First Cavalry division. This Communist unit was one of several which has made unopposed tank-supported crossings of the Nakdong near Waegwan, 12 miles northwest of Taegu. The North Koreans have massed some 60,000 troops west of the river in the Waegwan area for an expected all-out offensive to crack the UN defense. Gen. Douglas MacArthur's headquarters has said all the Red crossings on the Waegwan sector have been "contained."

Missouri Man Named Principal Of City High School

Bufo W. Garner, Maryville, Mo., has been appointed principal at Iowa City high school, it was announced Tuesday. Garner succeeds Ralph A. Austerlitz, who resigned in June to become "director of curriculum" in the Waterloo public schools. Garner's appointment, approved by the Iowa City school board, fills the last major vacancy in the public school system. Robert K. Sorenson, Spooner, Wis., was named principal at the Junior high school Monday. Garner has been supervisor since 1947 in the educational department of business at Missouri State Teachers college, Maryville, Mo. His 13 years of teaching experience includes six years as superintendent of schools in northwestern Missouri. He is a graduate of the teachers college at Maryville and received his M.A. degree in education administration and supervision from the University of Kansas. Garner is married and has two children.

Mundt-Ferguson Bill Tacked on Senate's Economic Legislation

WASHINGTON (AP) - Sens. Karl E. Mundt (R-SD) and Homer Ferguson (R-Mich) tacked their tough Communist control bill onto senate economic controls legislation Tuesday in hopes of forcing an early vote on it. They said they would press for a vote on the amendment to get a showdown on internal security legislation as soon as possible. Senate Democratic Leader Scott W. Lucas appealed to them, however, not to press the issue at this time. He had said earlier after a Democratic policy committee meeting that the senate would not act on anti-subversive legislation until controls and taxes are out of the way. There was some indication that Mundt and Ferguson took the step in order to insure an earlier vote either on their bill or an all-inclusive Communist control measure by Sen. Pat McCarran (D-Nev.). Meantime, the senate judiciary committee voted 7 to 3 to act Thursday on some kind of internal security bill. McCarran said the delay would give administration supporters time to present their own security legislation. He said Ferguson and Sen. Alexander Wiley (R-Wis) joined him in voting against the motion to put off action. Ferguson said controls should be placed on subversives as well as on the nation's economic life. "If we are going to push around decent Americans," Mundt said, "we had better start pushing around disloyal Americans too." The Mundt-Ferguson-Nixon bill also is pending in the house un-American activities committee. The Mundt-Ferguson maneuver came after Chairman Emanuel Celler (D-N.Y.) of the house judiciary committee disclosed that he and Lucas are drafting an internal security bill to replace senate legislation which is objectionable to President Truman.

Senate to Vote on Controls Monday

WASHINGTON (AP) - The senate agreed Tuesday to vote next Monday on far-reaching economic controls legislation which includes standby authority for President Truman to impose wage and price ceilings and consumer rationing. The agreement was reached after administration leaders pressed for a vote as soon as possible to equip the government with economic powers to meet the Korean war emergency. In addition to the standby authority to invoke wage-price rationing controls, the bill would give the President power to invoke credit controls as a brake on inflation, and establish priorities or industrial materials and production. Walsh's bill would force Donaldson to repeal his four-month-old economy order and restore regular twice-a-day residential mail deliveries and other discontinued services.

House to Vote Today On Mail Deliveries

WASHINGTON (AP) - Rep. John R. Walsh (D-Ind) made a dramatic flight back to Washington Tuesday to enable the house to vote on his bill canceling Postmaster Jesse M. Donaldson's recent economy cutback in mail service. But after Walsh flew into town and went through the necessary parliamentary maneuvers, house leaders decided not to call for a vote on the bill until today. Walsh was already on his way back to Green Bay, Wis., to fulfill a speaking engagement where they made the decision. However, Walsh's flight was not futile. Under a tricky house rule, he was the only member with authority to bring the measure to the floor. Had he not done so Tuesday, the legislation probably could not have been acted on this session. Walsh's bill would force Donaldson to repeal his four-month-old economy order and restore regular twice-a-day residential mail deliveries and other discontinued services. ASK BRITISH STAND LONDON (AP) - The United States in urgent language, has asked Great Britain to make clear just what stand it will take if Communist China sends an invasion fleet against the Nationalist island of Formosa, high sources said Tuesday.

Deferment of Students

DES MOINES (AP) - State selective service headquarters ordered Iowa draft boards Tuesday to defer induction of students for one year if they had completed one full year of college or university instruction by last spring. LONDON (AP) - A six-pound baby princess who may one day become a queen was born Tuesday to Princess Elizabeth. The nation rejoiced at the safe arrival of a second child to the heiress presumptive to the British throne and her naval officer husband, Prince Philip. Flowers and telegrams poured in to the couple. Army and navy batteries fired 41-gun salutes. A big cricket match between England and the West Indies was interrupted for several minutes while the crowd of 30,000 applauded. Men and women beamed as they passed the word: "It's a girl - a sister for Prince Charles." Prince Charles, now 21 months old, is the first child of Elizabeth and Philip. The new baby takes third place in the line of succession to the throne, behind her 24-year-old mother and Prince Charles. The excellent health of Elizabeth and Prince Charles would appear to make the new baby's chances of ever wearing the crown somewhat remote. But 12 of the 39 kings and queens since the Norman conquest in 1066 were at one time in their lives third in line. Elizabeth herself once was third, behind her uncle, now the Duke of Windsor, and her father. U.S. Army Defines Military Security TOKYO (AP) - U.S. army authorities have made their first attempt to define military security for news correspondents covering the Korean war under frequently baffling circumstances. The U.S. Eighth army has issued a new list of instructions for correspondents. The list deals with seven general subjects involving security. Even these instructions, the army says, will not cover every eventuality. At the same time, the new list of instructions, superseding others issued in the past, makes other attempt to tone down the implications of the original injunction that criticism of command decisions "would not be tolerated."

Six-Pound Baby Princess Born to Elizabeth, Philip

LONDON (AP) - A six-pound baby princess who may one day become a queen was born Tuesday to Princess Elizabeth. The nation rejoiced at the safe arrival of a second child to the heiress presumptive to the British throne and her naval officer husband, Prince Philip. Flowers and telegrams poured in to the couple. Army and navy batteries fired 41-gun salutes. A big cricket match between England and the West Indies was interrupted for several minutes while the crowd of 30,000 applauded. Men and women beamed as they passed the word: "It's a girl - a sister for Prince Charles." Prince Charles, now 21 months old, is the first child of Elizabeth and Philip. The new baby takes third place in the line of succession to the throne, behind her 24-year-old mother and Prince Charles. The excellent health of Elizabeth and Prince Charles would appear to make the new baby's chances of ever wearing the crown somewhat remote. ELIZABETH

41 More Local Men To Take Physicals

The Johnson county draft board has been ordered to send 41 more men to Des Moines for physical examinations Aug. 31 for possible drafting into the armed services. These are in addition to 14 Johnson county men examined Aug. 10, and 25 to be examined Aug. 22, making a total of 80 local men to have been examined in August. One other man, a transfer from the Paulding, Ohio, draft board, was sent to Des Moines Aug. 10. The local draft board Tuesday received word that 13 of the 15 local men examined Thursday passed their physical examinations. The board has received no orders for sending men into the armed services. Purpose of the present examinations is to provide a supply of men eligible for drafting when a call is made.

Congress Gets Bill To Pay Dependents

WASHINGTON (AP) - The administration Tuesday sent congress a bill providing for payments up to \$150 a month to dependents of enlisted men in the armed services. As submitted by the budget bureau, it would provide \$75 a month for a wife and \$25 for each child. In setting the \$150 ceiling, the bureau said that under existing law a man with more than three children could be excused from military service.

U.S. Army Defines Military Security

TOKYO (AP) - U.S. army authorities have made their first attempt to define military security for news correspondents covering the Korean war under frequently baffling circumstances. The U.S. Eighth army has issued a new list of instructions for correspondents. The list deals with seven general subjects involving security. Even these instructions, the army says, will not cover every eventuality. At the same time, the new list of instructions, superseding others issued in the past, makes other attempt to tone down the implications of the original injunction that criticism of command decisions "would not be tolerated."

Fourth Person Dies Of Polio at U-Hospital

Donald Knudson, 25, Clinton, died of polio at University hospitals Tuesday night. It was the fourth polio death at the hospital this summer. A North Liberty father and his daughter have been admitted as polio patients at University hospitals. Both Earl Stimmel, 30, and daughter Susan, 10, were reported in "fair" condition Tuesday. Six other persons also in "fair" condition were admitted. They were Daniel Kruse, 1, Monona; Mrs. Eleanor Klingaman, 27, Cedar Rapids; Clyde Twigg, 41, Long Grove; James Zech, 13, Appleton; Donald Niday, 9, Peosta, and Gary Paulline, 7, Clinton. Transferred to inactive ward were Robert Ontjes, 12, Appleton, and Marianne Deppe, 4, Bellevue. Reported discharged from the hospitals were Carl Spjut, 5, Cedar Rapids; Willard Torgrim, 14, Decorah, and Delores Allen, 4, Belle Plaine.

A Long, Long Way from Brooklyn

THE SIGN ON THE WALL points to Brooklyn - 7,368 miles off - but the front line in Korea is only a short distance in the same direction. Taking a short break from the fighting are (left to right): Pfc. Robert Collins, Norfolk, Va.; Pvt. Robert Walsh, Bristol, E.I.; Pfc. James Martin, Chicago; Pvt. Fred Pumphrey, Springfield, Ill., and Cpl. Sam Cassidy, Morehead, Ky.

As 100,000 Pilgrims Look On -

Farm Wife Says She Saw Virgin Mary

NECEDAH, WIS. (AP) - While an estimated 100,000 persons looked on, a gaunt, 40-year-old farm wife raised her eyes to the heavens Tuesday and said the Virgin Mary appeared and spoke to her. But the throngs of pilgrims from over the nation, including the lame and halt who came hoping for a miracle, apparently saw nothing. Mrs. Fred Van Hoof, mother of seven children who says the blessed mother had appeared to her six times before, emerged from her modest gray farm home at 11:55 a.m. (Iowa time) and prayed for 10 minutes. Devout Catholics knelt on the dusty ground in sweltering temperatures while Mrs. Van Hoof prayed before a statuette of the Virgin in the farmyard. She was almost hidden by the farm's weeds and banks of flowers brought to the scene. The immense crowd was hushed. Mrs. Van Hoof arose, blessed the throng with a crucifix and then spoke into a microphone the words she said the Virgin told her. "You must pray and pray hard," she said. "You must do penance and sacrifice daily. Those not of the Catholic faith, remember the Lord in your own way. The enemy of God is all over America. You'd be surprised if the sheep's clothing were taken off - they'd be all around you. All religions must work together. Pope Pius the 12th is in danger now unless we pray hard. His life will be spared him only through prayer. The enemy is not sleeping as we Christians are sleeping. The time is short, very short. Bullets will not win your peace; prayer only will win peace." The worn, plain farmwife went on to say that North and South America and Alaska are "their stepping stone," presumably of the enemy. Then she left the crude shrine, sobbing, and stumbled into the farm home on the arm of her husband. None in the crowd claimed to have seen the Virgin. The Roman Catholic church officially has cast doubt on the claims of the farm wife and frowned on Tuesday's demonstration.

Canada, Britain, U.S Forge Navies

WASHINGTON (AP) - The United States, Great Britain and Canada are forging their navies into the single largest and most powerful seagoing fighting force the world has ever seen, the U.S. defense department and British admiralty announced Tuesday. The joint announcement in London and Washington said a preliminary committee report, the first of three steps aimed at standardization of all phases of sea warfare, already has been approved. Staff discussions will open in the near future on 14 specific fields, such as anti-submarine warfare, naval air operations, communications, mine warfare, amphibious operations and logistics.

War at a Glance

Changnyong bridgehead - North Koreans stop American offensive to wipe out 12,000 Reds, stab through lines to point seven miles east of river. Waegwan sector - Enemy puts 3,000 more men and armored cars across after repeated failures to make bridgeheads stick; no sign yet of main offensive to wipe out American and South Korean forces by Sept. 1, as ordered by North Korean premier. Pohang - Allied forces recapture two towns on northeastern line, drive to within half mile of battered port on east coast. Southern front - Negro troops recapture "Little Cassino" in surprise night attack, then withdraw on orders. Air and naval war - Naval shore party blows up North Korean rail tunnel only 40 miles from U.S.S.R.; airforce flies 230 sorties, mostly in close support of troops.

Navy Raiders Blast Korean Tunnel

WASHINGTON (AP) — A U.S. naval shore raiding party has blocked enemy rail traffic on the North Korean east coast by blasting a tunnel at Chongjin, a Pentagon spokesman said Tuesday.

Iowa GOP's Farm Plan

DES MOINES (AP) — A Republican spokesman said Tuesday the farm plank adopted by the state GOP at their recent convention has attracted nationwide attention.

More North Korean Atrocities

WITH U.S. 25TH DIVISION, KOREA (AP) — New North Korean atrocities were reported Tuesday along the central front.

Reserve Unit Alert for Duty

DES MOINES (AP) — Iowa military district officials said Tuesday that the 339th military police prisoner-of-war processing company of the Cuttenberg-Dubuque area has been alerted for return to active duty.

Reuther Named College Trustee

CHICAGO (AP) — Walter P. Reuther, president of the CIO united auto workers union, Tuesday night was named a member of the board of trustees of Roosevelt college, a liberal arts school here.

Wisconsin Charges Companies Delayed Insurance Rate Cut

MADISON, WIS. (AP) — Wisconsin fire insurance companies were accused of trying to use "dilatory tactics" to delay a \$1-million rate slash Tuesday.

Harry Slater, assistant Milwaukee city attorney, made the charge at a rehearing of the 10 to 25 percent statewide cut scheduled for Sept. 1. The companies requested the rehearing.

Slater said the companies had been given a full hearing and are not entitled to "retracing steps, consuming time and duplicating efforts," any further.

Robert M. Reiser, representing the companies, answered that the original hearing was based on Milwaukee rates and shouldn't be applied to the rest of the state.

State Insurance Commissioner John Lange said the reduced rates were based on a statewide investigation.

Russia Dicker for All Spain's Quicksilver

CHICAGO (AP) — Jose Barcelo, economic adviser to the Spanish government, said Tuesday that Russia has been trying to obtain all of Spain's quicksilver output.

He noted that the metal-hardening substance is used in making war weapons.

Barcelo was here to visit the international trade fair. He said Russia has been using unofficial channels, including the Arabian states, in an effort to get the quicksilver, offering grain and petroleum in exchange.

Spain needs petroleum and grain, Barcelo said, but that despite this, Premier Franco has refused to deal with Russia.

Local Youth Turned Over To Juvenile Authorities

A 16-year-old Iowa City boy was turned over to juvenile authorities by Iowa City police Tuesday on a charge of being a delinquent.

He is specifically charged with committing immoral acts with smaller children.

Reds Eye Thailand's Rice Bowl

By Central Press
The clanking of Communist chains elsewhere in Asia is beginning to be heard in Thailand (Siam). In six months, in a year, they could shackle this pleasant tropical country, whose very name means Land of the Free.

The Thai are simple, peaceful people. There is little strife among them, none of the bloody guerrilla warfare that goes on in many neighboring countries. Most of the Thai know nothing about ideology nothing about communism.

However, in Bangkok, the capital, their leaders are awakening to the threat. They must strengthen Thailand's defenses; they have come to realize, if they are to prevent Communist conquest.

Thailand is vulnerable to communism because of her geographic position. Indo-China, Burma and Malaya, all torn by Communist revolution, lie on her borders. She is also vulnerable because of her immigrant Chinese community. About 3 million, roughly one-sixth of her population, are Chinese.

Field Marshal Phibun Songgram, Thailand's wily little premier, recognizes these dangers. Phibun, who came to power through a coup d'etat in 1947, is a strong man. His job is to make his country strong.

World communism seeks to enslave Thailand, the country's leaders believe, because she is the rice bowl of Asia. This year she will export about 1.2 million tons, more than any other country. To seize and dispense this rice could win communism new friends in hungry lands.

Besides, Thailand has rubber, tin and timber, raw materials valuable either in war or peace.

Thailand's also reason that world communism would never leave their country a free vacuum among Communist countries. Russia would never leave it a storehouse of raw materials for the western democracies and a base for counter-propaganda and counter-attack against communism.

World communism, through the Peiping radio, already has made its position clear: "The Thai government is a tool of western imperialism."

Though they have no proof, Thai leaders believe that diplomats at the Soviet Legation in Bangkok (the only Russian diplomatic representation in southeast Asia) are already plotting Thailand's seizure.

They may be doing this in liaison with Chinese Communist headquarters at Kunming, Yunnan, and with Ho Chi-minh, the Indo-Chinese Communist leader.

Premier Phibun has been trying to seal Thailand's frontiers against Communist agents. However, the frontiers, thick with jungles and mountains, are long and far away.

Phibun has been trying to police the Chinese immigrants. But on a recent Chinese holiday scores of Chinese Communist flags went up on Chinese houses and shops throughout the country.

Looking for the worst, Premier Phibun recently ordained: "His Majesty's government has deemed it necessary to make all preparations for a possible state of war."

He promised that Thailand would fight communism with all

Says Reds Have 100 Atom Bombs

HOUSTON (AP) — Former U.S. Ambassador to Russia Joseph E. Davies said Tuesday he believes Russia has over 100 atomic bombs.

"They have some atomic bombs," he said. "How many is debatable but I personally would believe over 100 although most estimates we get are below that figure."

Davies visited briefly with Jesse H. Jones, publisher of the Houston Chronicle and wartime secretary of commerce.

"We are doing just what we should do," he said at a press conference. "We are resisting encroachments of the Communist, and we are building up our armed forces so we will be strong enough to protect ourselves against anything that may come."

TO MOVE CAPITAL

TOKYO (SATURDAY) (AP) — The North Koreans plan to abandon their provisional capital at Pyongyang Aug. 15 and move their seat of government to Seoul in an effort to justify their invasion of South Korea Gen. Douglas MacArthur's headquarters said today

Many Uses for Two-Way TV

By Central Press
NEW YORK — Ever been caught in the bathtub when the telephone rang?

Today, at least, you have the security of knowing you'll be heard, and not seen, as you splash your way to answer. Not so a few years from now, if some of our television research prophets are right — for they are predicting both video and audio two-way communication in every home that has a phone.

Television telephone is really not too wild a dream. Recently, a new wired television system called vericon was announced by a large manufacturer. It differs from commercial television in that its images are transmitted by coaxial cable, instead of broadcast through the air.

Here are a few applications now in operation. The medical school of the University of Kansas has installed vericon as a regular surgical training technique which permits dozens of students sitting in an auditorium hundreds of feet away from the operating room to observe delicate operations.

Army ordnance engineers have found this wired television system invaluable in the work of defusing live bombs and projectiles. For several years they have been using a remote control wrench for this delicate operation, while the vericon camera sends a picture of what is happening over a cable into a bomb-proof shelter.

Watching the television screen they can operate the remote control mechanism, thus eliminating a hazardous task that could mean death even for experts.

A spectacular example of wired television in use recently took place in a west coast jet and rocket manufacturer's plant. This company had developed a new jet motor at a cost that ran into six figures. In preparing for its first ground test, engineers calculated that there was a definite explosion hazard. To protect themselves, but still see what was happening, they devised a concrete wall and

Canada Getting Jet-Minded

By Central Press
WASHINGTON — Remember the skyways trail-blazers of the 1920s and '30s and the series of "firsts" in flights across the Atlantic?

Well, this summer the Canadians plan to blaze a trans-Atlantic jet trail. They will fly their new Jetliner, world's first inter-city jet transport, and their new long-range all-weather CF-100 fighter across to Farnborough, England, for display at the September exhibition of the Society of British Aircraft Constructors.

War conditions in the far east, with possibilities of their developing into World War III, give a new importance to Canada's new long-range jet fighter, which Canadians say is "the most advanced long-range, all-weather fighter in the world."

It is designed especially for the joint defense of North America. It is sturdy, speedy and equipped for interception in adverse weather conditions at long distance from its base. It is the type of plane that will be badly needed if Russia ever undertakes to send bombers down across Canada and the United States from the north.

"The CF-100 has been designed to meet specifications laid down by the RCAF, which considered a long-range, all-weather jet fighter necessary for Canadian defense requirements," said Brooke Claxton, Canada's minister of national defense, after the CF-100's first test flight earlier this year. "Great power is necessary to enable the aircraft to produce the high speed required by modern aerial warfare, and at the same time to allow it to carry all the necessary equipment, plus the heavy armament of a fighter aircraft."

Canadians expect their Jetliner to be flying passengers on commercial routes by 1952. After displaying it in England this summer, they expect to take it to various cities in Europe and perhaps the middle east.

The Jetliner's cruising speed at 30,000 feet is about 450 miles an hour. Its cabin, accommodating from 40 to 80 passengers, is pressurized to provide ground-level conditions up to 21,500 feet. At 30,000 feet the cabin conditions will compare to those normally encountered at 4,000 feet.

The Jetliner's flying time from Toronto to New York is considered about 59 minutes. Canadians estimate that the Jetliner's time from Toronto to Chicago will be an hour and 25 minutes. This is slightly more than half the time taken by the standard two-engine transport. They figure the Jetliner can make five Toronto-Chicago flights in an eight-hour flying day, carrying 250 passengers, mail and air express, compared to two flights by

a standard transport carrying about 49 passengers. Passengers on the Jetliner will not be able to hear its engines. They will be able to talk without raising their voices. Because there is no vibration, say the Canadians, passengers will not need to fear that their coffee or tea will splash out of the cup.

Kerosene is used for fuel, thereby reducing fire hazards. The Jetliner's four-engine tanks hold 2,400 gallons of fuel. Someone has calculated that this much fuel would run a small car three trips around the Equator before it ran out of gas somewhere in the Indian ocean.

Being conditions are avoided because the Jetliner's 30,000-foot cruising height is above the weather. Conditions at that height favor jet power. Normally it will reach its flying height in 15 or 20 minutes. The big transport is capable, however, of climbing 6,000 feet a minute — faster than World War II fighters.

Canadians are particularly proud of their new aircraft engine, the Orenda. Described as "one of the most powerful jet engines in the world," it has been designed primarily for the new long-range jet fighter.

During World War II Canadians built many airplanes, but had to depend on Great Britain and the United States for engines. The new development at Malton, near Toronto, will equip them to completely Canadian-built aircraft.

Sir Roy Dobson, Avro Canada's president, believes the Orenda engine more vital than even the Jetliner and new fighter. "If there did happen to be an international emergency," he asserted recently, "probably one of the deciding factors would be the production of turbo-jet engines. . . There is now a world shortage of good turbines and the Orenda has shown that it is at least as good as anything in its class in the world."

When the Jetliner and the CF-100 fighter fly the Atlantic this summer, one will be blazing a new trail in the history of transportation and the other in the science of continental defense. Both are vitally important to Americans as well as Canadians.

APPROVE ALLOWANCES
WASHINGTON (AP) — A house armed services subcommittee decided Monday to approve a system of family allowance for enlisted service men "as fast as possible" to prevent possible hardship. Chairman Overton Brooks (D-La.) said the group was unanimous in agreeing that swift action is needed.

Shortages Give Australia Growing Pains

Associated Press News Feature

SYDNEY — Australia is growing up. Everyone is working, and everyone is making more money than ever before.

If a man doesn't like his job he can change it. There were 111,000 vacant jobs in Australia at the end of last April; only 1,553 persons were then registered as unemployed.

The high price of wool is the biggest factor in this country's prosperity. The average price for greasy wool in May was 62 pence Australian a pound. Back in May, 1939, the average price for the same sort of wool was 9.5 pence.

Prices of other farm products also are up.

This has given a lot of spending money to farmers. Their heavy spending helps to keep up prices.

Living Cost High
The people of the cities, too, have more money to spend, but they are not living better. Wages of most working men and women are roughly twice what they were in 1938. But higher costs for the things they buy eat up their extra pounds.

Rents are pegged at pre-war levels, but meat, fruit, vegetables all cost two to three times what they did a dozen years ago. A new house costs three times what it did before World War II.

Two factors, however, are holding back the progress of Australia: 1. A shortage of coal, which

keeps back some industries half throttle. Coal is plentiful under the soil, but not enough is being mined.

2. An inclination on the part of the average working man to do less work per hour, and work fewer hours per week.

Flood of Migrants
Tens of thousands of people are coming into Australia each year as migrants. There are about 8-million people today in Australia's 3-million square miles. Most of them are in an area of about 1-million square miles down the east coast. Experts figure Australia eventually can hold around 30-million.

If you ever thought of coming to Australia as a migrant or tourist, you would not see a kangaroo, a stone-age aborigine, or a platypus when you stepped off the ship or plane.

If you arrive at Sydney — and that's most likely — you will find a big, bustling, modern city with a beautiful harbor and 1.5-million people. It's bigger than any city in the British Isles, except London.

There is another Australian city, Melbourne, with a population well over a million. That makes it, too, one of the big cities of world.

Both Sydney and Melbourne are outlets to the world for wool, wheat and meat.

These two cities between them house one-third of all the people in Australia. Out in the farming

and grazing land, hundreds of miles from the city, are the men with the wide open look, suntanned faces, and broad-brimmed hats. These are the men who look after millions of sheep and cattle, grow wheat, or run thriving country towns.

If you are a migrant you can make good money either in the city or the country.

Tourist Attractions Plentiful
If you are a tourist there is plenty to see outside the city. Hire an auto. Main roads are good. Airplane services are good and the Australians themselves are more air-minded than most people.

But Australia has growing pains. They are reflected in grave shortages, ranging from bricks, steel, cement, and timber for houses or city buildings, to wire for fencing farms or grazing property.

There is a shortage of telephones. A shortage of electricity and very serious shortage of coal, and a shortage of labor.

You can build a house, but it might take two years. Prices are high. A three-bedroom place costs about \$6,800, which is six years' gross salary for a bank clerk.

These shortages, combined with rising costs of food, have made many migrants discontented. Some have gone back to their homeland. Others are sticking it out, hoping for the day when Australia catches up with its rising population.

British Students to Debate Here on Socialism

Advantages of socialism will be argued by two British students this fall at the twenty-third annual international debate at SUI. The two SUI students to oppose them have not been selected.

Speech instructor Merrill Baker, SUI assistant director of forensics said the British will take the affirmative on one of the following:

"That public ownership of basic industries is in the best interests of a democratic society," or "That democratic socialism is the most effective barrier against communism."

The two Britishers are members of the combined British universities debate team.

First from Wales
John Gwynn Williams, from the University college of North Wales, Bangor, is the first student from Wales to visit this country since the war, Baker said.

A graduate student in modern history, Williams is student president of Debates union, and a member of the editorial board of the college newspaper.

Williams spoke frequently during the British general election on

numerous broadcasts of the British Broadcasting corporation. He has spent three years in the royal navy.

A medical student, Ernest Alwyn Smith, has also been selected to participate in the debate. He is a student at the University of Birmingham.

Smith is secretary of a debating society, and has taken part in inter-varsity debates. He is editor of the university literary magazine, and was a delegate to the National Union of students.

He spent three years as a lieutenant in the royal marines in Holland and Germany.

Selection of the British debaters was made by the committee of vice-chancellors, who administer

Cake-Cutting Can Be Easily Accomplished

Cutting a large cake for a crowd is a problem that must be solved in the neatest and most attractive manner. Here are suggestions for cutting a round, square and rectangular cake.

An easy method to cut a round cake, neat, attractive and assuring even pieces, is to cut a circle halfway between center and outside edge. Then cut inside portion into pie-shaped pieces; divide outer portion into twice as many slices as inside portions.

A pretty and economical way to slice a square cake is to give it a triangular cut. First divide the cake into sixteen equal squares; then cut each square once across diagonally. Be sure to use a very sharp knife.

For a rectangular cake, an interesting and unusual pattern is created by using a diamond cut. Divide the cake lengthwise into five equal strips; then cut through strips on the diagonal.

Boy Scout Troop Holds Court of Honor, Supper

Boy Scout troop 18 of St. Mary's school held its court of honor Tuesday night.

Joseph Strabala received a star merit badge and David Conwell, a first class rating. Ten second class ratings were given, and 27 merit badges awarded.

Preceding this, a pot luck supper was held. Approximately 50 boys and their parents attended the meeting.

Truman to Name N.Y. Mayor O'Dwyer Mexican Ambassador

WASHINGTON (AP) — Mayor William O'Dwyer of New York, a genial Irishman who used to be a policeman and bartender, was tapped Tuesday by President Truman to become ambassador to Mexico.

The White House announced the nomination will go to the senate around Sept. 1 and O'Dwyer will resign as mayor about the same time.

Well-Liked by Mexicans

Well-known and well-liked by the Mexicans, O'Dwyer will succeed career diplomat Walter Thurston. Poor health in recent months and prospects of perhaps a softer spot may have influenced the 60-year-old O'Dwyer to give up his \$40,000 a year job as mayor.

The ambassadorship pays \$25,000 a year plus \$10,000 for expenses. He will also draw an estimated \$14,000 to \$15,000 pension from the city.

O'Dwyer called at the White House Tuesday and heard direct from Mr. Truman that he is about to become an ambassador — subject to his acceptance by the senate.

Mayorality Scrap Seen

Now there will be a mayorality scrap in New York City in the fall election, in addition to state contests for senate and governor.

First to toss his hat into the mayor's race was Vincent R. Impellitteri who said "if the mayor retires, I will definitely be a candidate for the mayorality."

Illinois Farm Family Killed in Plane Crash

SWEETWATER, ILL. (AP) — A private passenger plane carrying a farm family to Springfield for "Flying Farmers" day at the Illinois state fair crashed and burned Tuesday, killing all five occupants.

The five-passenger Stinson plane, which took off from Monmouth, Ill., airport, crashed 25 miles north of Springfield.

The dead were Russell F. Jones, 63; his wife, Edna, 55; their two children, and a granddaughter, all of near Monmouth.

The "Flying Farmers" day is an annual feature of the fair. Despite a low hanging fog around Springfield early Tuesday, more than 200 planes landed safely at Capital airport.

THE FROZEN BODY OF STEVEN WASSERMAN, 17, is brought down the rocky slopes of Mt. Whitney lake Monday from the 11,500 foot level where it was found to Mirror Lake base camp. The body of his companion, Christopher Reynolds, 17, was found Tuesday.

Find Missing Youth's Body

LONG PINE, CALIF. (AP) — The body of 17-year-old Christopher Reynolds, heir to a tobacco fortune, was recovered late Tuesday on the slopes of Mt. Whitney only a few hundred yards from the point where Steve Wasserman's body was found.

A search party of members from the famed Sierra club, a mountain climbing group, found the body but it was perched on so steep a slope that instead of raising it immediately they lowered it to the point where Wasserman's body was recovered Monday.

With darkness approaching, no attempt was made to take Reynolds' body down from the peak Tuesday night. It will be raised 1,000 feet to Pinnacle Pass today just as was the body of his 17-year-old companion on the ill-fated attempt to scale the huge peak.

A sheriff's posse will handle the job of raising the tobacco heir's body today, a job expected to take at least eight or nine hours.

Information that the body was located was brought to this Owens valley town less than an hour prior to the arrival in Los Angeles of the youth's mother, torch singer Libby Holman. She had flown west after arriving in New York from Europe early Tuesday.

Reds Again Boycott Jap Council Meeting

TOKYO (WEDNESDAY) (AP) — Russia boycotted a meeting of the Allied Council for Japan for the eighth straight time today, making it 16 weeks since all four members of the group have sat down together to discuss occupation problems and plans.

No reason was given for Russia's failure to show up today.

The Soviets have boycotted some meetings because the question of Japanese repatriation had been scheduled for discussion.

The Russians insist there are no more Japanese to be sent home from Russian controlled areas, while the British, Chinese and American council members claim there still are more than 300,000 Japanese in Soviet hands who still are not accounted for.

There was nothing on the agenda for today's meetings. William J. Sebald, American member and chairman of the council, noted the absence of the Russians but said the meeting would be held anyway.

The meeting consisted only of approving the minutes of the previous session two weeks ago. No procedural matters were brought up.

Reds Say Arms 'Sold'

(Jakob Malik, chief Soviet delegate to the United Nations, said in the security council last week that the only Russian arms used by the North Koreans were those "sold" to them before Soviet armed forces evacuated the country in December, 1948).

Ammunition captured during the last week's American advance on this southern front bore stenciled dates as recent as June, 1950.

The guns, tanks and other weapons are not of recent design and some guns were designed as far back as 1930. And in no case has captured equipment shown design improvements later than World War II. But in many cases the equipment is fresh out of storage and brand new.

Report More Equipment
Navy, marine and airforce fighters pounding strong North Korean buildups west and northeast of the southern sector reported more and more equipment flowing into the battle zone.

The strafing planes reported they had destroyed a column of 100 trucks speeding eastward in the Chinju area and an undetermined number of camouflaged vehicles near Uiryong, 20 miles northwest of Chinju.

Professor's Daughter Weds SUI Student

The Trinity Episcopal church was the scene of the marriage of Marjorie Jean Porter, daughter of Prof. and Mrs. Kirk H. Porter, 301 Richards street, and John L. Hady, A3, son of Mrs. John A. McGeoch, 1412 E. Court street, Friday at 2:30 p.m.

Officiating clergyman at the ceremony was the Rev. Harold F. McGee. The bride, given in marriage by her father, was attended by her sister, Mrs. Frank L. Zeller, Rosalie, N.J., who served as matron of honor.

Mrs. Robert Bickel, sister of the bridegroom, served as bridesmaid. Robert Bickel was best man. The ushers were Fred E. Zeller, Newton, Thomas Hulme and Lombard Sayre, both of Iowa City.

Following the wedding reception at the Hotel Jefferson, the couple left for a short wedding trip to Wisconsin. They will live in Punta Gorda, Fla., after Sept. 19.

The bride is a graduate of University high school and attended Iowa State college at Ames. Mr. Hady attended SUI after graduating from University high school.

Iowa City Couple Wed Here Saturday

Virginia Clare Giblin, daughter of Mr. and Mrs. Elmer J. Giblin, 521 S. Governor street, was married to Harry William Jacobs, son of Mrs. W. A. Drexel, 605 E. Burlington street, and Mr. Harry B. Jacobs of Seattle, Wash., Saturday at 9 a.m. in St. Mary's church.

The Rt. Rev. Msgr. Carl H. Meinberg officiated at the double ring ceremony.

The bride was given in marriage by her father. Serving as matron of honor was Mrs. F.A. Wierzbinski, sister of the bride. Meg Wierzbinski, niece of the bride, served as flower girl.

Ellis E. Loan, Mt. Vernon, uncle of the bridegroom, was best man. The ushers were John Severa and Tom Giblin, brother of the bride.

Following the wedding, a reception was held at the Hotel Jefferson.

After a short wedding trip to Chicago the couple will live in Iowa City.

The bride attended Drake university and graduated from SUI where she was affiliated with Kappa Kappa Gamma social sorority.

Mr. Jacobs will be a senior student at SUI this fall, where he is a member of Theta Xi social fraternity.

Housewives Paying Twice War Prices For Some Foods

CHICAGO (AP) — Housewives are paying almost twice as much for some basic foods as they did when World War II price controls were launched, a United Press survey in 19 cities showed Tuesday.

Coffee, the survey showed, has more than tripled in price since April 12, 1941, when President Roosevelt set up the office of price administration.

As the survey was taken, the senate considered a measure which would give President Truman the right to impose wage and price controls in the Korean emergency.

These comparative average prices of seven foods were shown by the survey:

	Then	Now
Coffee, lb.	25.16	81.76
Pork chops, lb.	27.1	80.1
Round Steak, lb.	31.0	91.7
Potatoes, 5 lbs.	12.6	22.7
Milk, qt.	12.9	19.6
Butter, lb.	42.4	67.7
Sugar, lb.	6.3	10.3

Boy Admits Trying To Wreck Train

VERSAILLES, IND. (AP) — A rail blockade that narrowly missed wrecking a fast passenger train was set by a 16-year-old youth who "just wanted to see people killed," state police said Tuesday.

John Petro, state police detective, said the boy admitted piling heavy lumber on a switch in Sunman, Ind. A New York Central bridge crew removed it a few minutes before the Carolina Special, bound from Chicago for Cincinnati, passed through Monday night. The train goes to Charleston, S.C.

Ed Jewell, crew foreman, said the "engine would have gone right up in the air" if the train had hit the blocked switch.

The boy's name was withheld.

Amnesia Victim Is Coe Student

CEDAR RAPIDS (AP) — A 19-year-old girl, apparent victim of amnesia, was identified Tuesday as Beverly Smith, a Coe college student.

The young woman was found sitting on a sidewalk Monday evening. She said she did not know her identity nor where her home was.

A juvenile officer recalled that she was the girl who had dropped a book while coming out of the city library recently. A check of library cards led to the identification.

Cottons Right for School

SCHOOL TIME MEANS TIME for new cottons — dresses to make an impression on the first big day. Designers this fall have carefully created clothes for the junior figure. At the left is a one-piece dress in a companion textured and striped cotton. The two-piece combines a mauve and grey striped chambray blouse with a plain colored grey chambray skirt which is quilted.

Vehicle Checkup Today To Begin Safety Drive

Motor vehicles in Iowa will undergo a three-day safety inspection starting today as a prelude to the state-wide "drive right" campaign.

A checkup lane will be set up on Clinton street between Iowa avenue and Jefferson street. Dr. R. S. Leighton, chairman of the Johnson chapter, said Tuesday. The safety lane will be in operation between 1 p.m. and 9 p.m.

Check-Up by Experts
Local garagemen will send auto experts to check lighting, brakes, wheel alignment, license plates and windshield wipers. Police and highway patrolmen will assist in the inspection.

When a vehicle has passed the test, a safety sticker will be awarded. Those not passing the inspection will be asked to fix the faulty equipment. The inspection will be conducted on a voluntary basis.

North Koreans Keep Getting More Red War Equipment

ON THE MASAN FRONT, KOREA (WEDNESDAY) (AP) — New Soviet manufactured war equipment is flowing to the North Koreans as fast as the Americans and South Koreans can destroy it, intelligence officers said today.

They said although the war has ranged for seven weeks over a large area of Korea, new jeeps and motorcycles have been captured with speedometer readings of only one or two hundred miles, indicating a steady flow of equipment to the front.

Reds Say Arms 'Sold'
(Jakob Malik, chief Soviet delegate to the United Nations, said in the security council last week that the only Russian arms used by the North Koreans were those "sold" to them before Soviet armed forces evacuated the country in December, 1948).

Ammunition captured during the last week's American advance on this southern front bore stenciled dates as recent as June, 1950.

The guns, tanks and other weapons are not of recent design and some guns were designed as far back as 1930. And in no case has captured equipment shown design improvements later than World War II. But in many cases the equipment is fresh out of storage and brand new.

Report More Equipment
Navy, marine and airforce fighters pounding strong North Korean buildups west and northeast of the southern sector reported more and more equipment flowing into the battle zone.

The strafing planes reported they had destroyed a column of 100 trucks speeding eastward in the Chinju area and an undetermined number of camouflaged vehicles near Uiryong, 20 miles northwest of Chinju.

TRIPLETS BORN

MANCHESTER (AP) — Three new members were added to the Joseph Becker family Saturday when Mrs. Becker, 24, gave birth to triplets, two girls and a boy. The Beckers now have seven children, all under five years of age. The other four are three girls and a boy.

Miss Minnesota ...

MISS MINNESOTA at the Atlantic City Miss America contest this year will be Jeanne Traun of Minneapolis, winner over 19 contestants at Excelsior, near Minneapolis. She's 18, brown-haired and a singer.

Try and Stop Me

By BENNETT CERF

GROVER WHALEN has revived the story of the fastidious diner who objected to the way his steak had been prepared and had it sent back to the kitchen. The waiter brought it back with a message that the chef considered the steak perfectly okay in every particular.

"He does, does he," bellowed the outraged diner. "You just march that steak back to the chef and tell him to ram it down his throat."

Back came the waiter with the same old steak. "I'm very sorry, sir," he reported, "but there are two steaks and four lamb chops ahead of you."

Herb Caen cornered the late General "Vinegar Joe" Stillwell in San Francisco's Fairmont hotel one evening and asked, "Did you have any horses in that Burma operation of yours?" "We did indeed," said the general. "And how were they?" persisted Caen. The general answered, "Tasty, mighty tasty."

Charles Stops Beshore With TKO In 14th

Crowd Boos as NBA Champion Scores Unimpressive Triumph

BUFFALO, N.Y. (UP) — Ezzard Charles made an unimpressive and unpopular return to the ring Tuesday night as he kept his N.B.A. heavyweight crown by finally scoring a technical knockout over battered and bloodied Freddie Beshore at 2:53 of the 14th round.

The small crowd, estimated at 7,000, booed Charles and referee Barney Felix lustily when Felix stopped the bout because he regarded Beshore's swollen right ear as in a dangerous condition.

The ear was so badly puffed that it appeared like a huge purple bubble, attached to blond Freddie's head.

Charles, fighting for the first time since last October, failed to score a single knockdown against his awkward, light-punching opponent. However, he did have the challenger from Harrisburg, Pa., "out on his feet" on at least four occasions.

At the end of the seventh round, Dr. Louis A. Kaiser stepped into the corner to examine Freddie's battered features, for the challenger already was bleeding badly from the nose, mouth and a gash over his left brow.

Charles, who had been favored at 3 to 1 to knock out Beshore, suffered a gashed brow in the 14th round, shortly before the bout was stopped.

Despite his battering, Beshore gave an iron-man performance throughout the scheduled 15-round scrap. He rarely took a backward step, except on the occasions in the fourth, seventh, 10th and 14th rounds when he was reeling from the impact of head blows.

Beshore opened the scrap as if to score an upset. He won the first two rounds, according to United Press scoring, and he fought on even terms in the fifth. He marched into the slender, broad-shouldered Negro champion and concentrated on blasting Ezzard's midriff, which had been injured in previous training grinds forcing Tuesday night's bout to be postponed twice. It was originally scheduled for Feb. 28 and then re-scheduled for March 29.

Charles showed no signs of his fractured rib or bruised heart muscle. However, he did fight a very slow, careful battle. He opened up rarely.

None of the three ring officials gave Beshore more than three rounds. Referee Felix scored 12 for Charles, two for Beshore. Judge Leon Stachkowiak scored nine for the champion, three for Beshore and two even. Judge Carroll Ansel tallied 12 for Charles, one for Freddie and one even.

With a Joe Louis stadium practically set for Yankee match Sept. 27, Charles took few risks. He said later he had him figured out in the first round. Still the champion wound up with a cut left eye that also dripped blood.

"My timing was off," said Charles in his dressing room. "I couldn't get a good right hand shot at him. The guys I trained with were more or less stand-up guys. I didn't know he was going to fight that way."

Jake Mintz, Charles' manager said he had a conference scheduled today with New York officials of the International Boxing club to discuss the Louis match.

Ed Ford's 3-Hitter Gives Yanks Split

WASHINGTON (AP) — Ed Ford flashed a three-hitter at the Washington Senators Tuesday night to give the New York Yankees a 9-0 victory and a split in a day-night double-header at Griffith stadium. The Senators won the afternoon game, 10-5.

Ford, a rookie left hander who recently came up from Kansas City, walked only five and struck out four in gaining his third victory.

Gene Bearden took credit for his first victory in the day game when he held the Bombers to seven hits while his teammates pounded out 18 off Ed Lopat, Tom Ferrick and Joe Page.

(1st game) New York 9, Senators 5. Washington 10, Yankees 5. Lopat, Ferrick (8), Page (6) and Bearden, Bearden, Harris (9) and Orlie, Evans (9). Winning pitcher, Bearden (2-3). Losing pitcher, Ferrick (1-3). Home run — Ostrowski (24).

(Second game) New York 9, Senators 5. Washington 10, Yankees 5. Ford and Bearden, Kuszta, Sipeles (8) and Grasso, HR: NY—Bauer, LP—Jusava.

Dittmer Gets Four Hits

DENVER — Jack Dittmer, former Iowa second baseman, continued his heavy stick work in the Western league Tuesday night as he led Denver to an 11-5 victory over Sioux City. Dittmer clubbed four hits in five times at bat, including a double and triple, and batted in one run.

Stop Game Today For 'The Babe'

WASHINGTON (AP) — It'll be just another ball game, the Yankees playing the Senators, here this afternoon until the fifth inning.

And then there'll be a brief announcement over the loudspeaker, and a brief moment of silence, and everyone will remember — it was two years ago Aug. 16 that Babe Ruth died.

The Babe already was a legend when he came down with the cancer which finally ate his life away on a hot summer night in New York. So in a way the anniversary of the Babe's death isn't too important — not since that legend lives as vividly as ever.

Eight Veterans Cause 'Raff' No Worry — Iowa Loaded with Halfbacks

(This is the second of six stories about Iowa football candidates. In the next one ends will be discussed.)

Write off the halfbacks as positions to cause Coach Leonard Raffensperger much worry, for the University of Iowa coach can call upon eight lettermen, including two of the top ball-carriers in the league.

The roster shows 14 halfbacks and most necessary varieties are present, offensive and defensive, a place-kicker and even one who can pass left-handed upon occasion.

However, there are no really fast halfbacks of the "break-away" type.

Bill Reichardt of Iowa City, a 200-pound junior, was shifted to left halfback last spring after making the all-conference second team as a fullback. He also will be ready to play fullback this fall, if needed, but in the spring looked good as a left half.

Reichardt, Fiske Good Reichardt, averaged 5 yards on 68 ball-carries, scored 44 points, and place-kicked 20 of 23 attempts after touchdown. He was fourth in the conference in kick-off returns and broke the Iowa record for long returns, 99 yards against Oregon.

Senior Jerry Fiske of Brooklyn, N.Y., is the prize at right halfback who might become one of the finest backs in the nation. His 6.6-yard average was established for all games and also for conference games, to make him second in the league.

The "T" just suits stocky Fiske, who can burst through on quick-opening plays, and who is hard to tackle. He had his best day against Northwestern when he made 183 yards in 20 carries and outgained all Notre Dame backs with 82 yards. Fiske also tossed two TD passes in six trials.

Comack Can Run Don Comack, Waterloo junior of 165 pounds, played a lot of left halfback last fall when he

Wayne Higley of Iowa City posted an 81 in the second day's action to qualify for match play with a 36-hole total of 156.

Dale Kniss, of Waterloo, finished with 86-89 — 150 to qualify. Also qualifying were Dick Schultz, Boone, with 79-80 — 159, and Max Shields, Oskaloosa, 80-82 — 162. Dick Bellinger, Waterloo, finished with an 86-89 — 175 which put him out of the match play.

California won its third straight team championship with a 595 total for its four low players. Georgia was second with 599 and Kansas third with 604. Illinois, Kentucky and Wisconsin had 610's. Iowa was sixth with 614.

Reds, Pirates Tally Six In 9th, Bucs Win, 10-9

PITTSBURGH (AP) — It was a story book finish for the Pirates in their 10-9 victory over the Cincinnati Reds Tuesday. The Bucs gave up six runs in the top of the ninth, then stormed back with six runs of their own to win.

Charles Stops Beshore With TKO In 14th

CHARLES BELTS RIGHT — Ezzard Charles, defending NBA heavyweight champion slashes across with a hard right as Freddie Beshore covers up in the fourth round of their scheduled 15-round championship battle at Buffalo, N.Y., Tuesday night. Charles won an impressive victory with a technical knock out in the 14th round. The referee stopped the bout when Beshore's ear swelled to the danger point. The crowd of about 7,000 booed both Charles and Referee Barney Felix when the fight was called in the 14th. The triumph for Charles probably will line him up with a \$500,000 bout with ex-champion Joe Louis.

Dropo Beaned As Bosox Take Two From A's

BOSTON (AP) — Walt Dropo, flashy rookie Red Sox first baseman suffered a cerebral concussion Tuesday night when "beaned" by Philadelphia Pitcher Hank Wyse in the first game of a two-night doubleheader which the Boston American leaguers won by scores of 8-3 and 9-4.

At Santa Maria hospital in adjacent Cambridge doctors reported inspection of wet X-rays showed no fracture but the husky Moosup, Conn., athlete was ordered held for "at least a couple of days."

A melee at home plate followed the fifth inning incident. After it had been quieted Boston Catcher Birdie Tebbets, who had led a charge from the home club's bench, was ejected from the premises. He was not playing in the game. He snarled at Wyse, as players of both teams converged to continue pitching despite Boston protests.

Dropo had belted his 27th homer of the season in the fourth inning with a man on base. Just before he went to bat in the fifth Vern Stephens had slugged his 25th, another two-run blast.

Dropo, the American league leader in runs batted in, lined out a harsh drive which sailed foul. The next pitch hit him above the left ear.

He dropped, tried to rise, fell back again and was carried off on a litter.

(1st game) Philadelphia 8, Boston 3. Boston 9, Philadelphia 4. Wyse, Schantz (7) and Tipton; Parnell and Batts. HRs: Bos-Dropo, Stephens, Parnell, Tipton, LP-Wyse.

(Second game) Philadelphia 9, Boston 5. Boston 10, Philadelphia 6. Wyse, Schantz (7) and Tipton; Parnell (10-) and Batts. Losing pitcher, Wyse (3-11). Home runs — Dropo (27th), Stephens (25th), Tipton (3rd).

Phils Jump Lead, Beat Braves, 9-1

PHILADELPHIA (AP) — The Philadelphia Phillies increased their National league lead to six games over the runnerup Boston Braves Tuesday night, winning 9-1 before 32,215.

Army bound Curt Simmons received credit for his 15th pitching victory but needed help from the ever-reliable Fireman Jim Konstanty, making his 53rd appearance of the year.

Simmons, who has lost seven games, held the Braves in check with four hits until the eighth. Then they loaded the bases on three singles with only one out.

Konstanty came on the scene and promptly put out the fire, forcing pinch hitter Tommy Holmes to hit into a double play.

Del Ennis and Andy Seminick were the big guns in the Phils' 11 hit attack off four Boston starters.

(1st game) Philadelphia 9, Boston 1. Boston 5, Philadelphia 4. Ennis, Haefner (7), Hall (7), Antonelli (9) and Casper; Simmons, Konstanty (8) and Seminick. Winning pitcher — Simmons (15-7). Losing pitcher — Sain (16-9). Home run — Seminick.

THREE-I LEAGUE Danville 9, Decatur 2. Terre Haute 2, Evansville 1. Quincy 6, Quad Cities 1. Waterloo 15, Cedar Rapids 5.

Tigers Trip Indians, 4-1, To Stiffen League Lead

CLEVELAND (AP)—Art Houtteman pitched Detroit into a more comfortable spot atop the American league Tuesday, defeating Cleveland 4 to 1, before a crowd of 40,299.

But he needed some cool relief twirling from Marlin Stuart, right hander with a sinking fast ball, recalled only several weeks ago from the Toledo Mud Hens. Johnny Groth's grand slam homer helped, too.

Stuart saved Houtteman's 15th triumph — shoving Cleveland back to 3½ games behind Detroit — in the seventh inning, which Houtteman opened by walking the first two men.

In came Stuart and the first man he pitched to, Thurman Tucker, walked, too, filling the bases. But he then fanned Larry Doby and forced Luke Easter to roll into a double play.

Tuesday's was the second of a two-game series between the Tigers and the Indians and Detroit needed it badly. The Indians won Monday night's opener, 3 to 2.

All four of Detroit's runs Tuesday were unearned. Groth knocked them in the first inning off Bob Lemon, the losing pitcher.

Cleveland's most sensational maneuver of the day was a triple play in the fifth inning, executed by right fielder Bob Kennedy.

Kennedy caught Kell's short liner off his shoe tops, threw to shortstop Ray Boone, who caught Gerry Briddy off second. The relay to Easter at first got Don Kolloway.

Phil Cavaretta then ran for Verban and scored a moment later when Bob Borkowski singled, sending Terwilliger to third. Hal Jeffcoat beat out a squeeze bunt to Howard Pollet to score Terwilliger with the winning run.

Dutch Leonard checked the Cardinals in the ninth. Of the eight hits made off Minner, the eventual winner, and Leonard, one was Stan Musial's 17th homer of the season. The Cubs made nine hits off Pollet and Freddie Martin.

(1st game) Detroit 4, Cleveland 1. Cleveland 5, Detroit 4. Houtteman, Stuart (7) and Robinson; Lemon (18-6) and Hegan. Winning pitcher, Houtteman (15-9). Home run — Groth (9th).

(Second game) Detroit 10, Cleveland 5. New York 6, Philadelphia 2. 1. Jansen gave up only four hits to Roe's five. The Giants' ace right-hander faced only 18 batters in the last six innings. It was Roe's 16th victory.

Brooklyn 6, Philadelphia 4. New York 6, Philadelphia 2. 1. Jansen gave up only four hits to Roe's five. The Giants' ace right-hander faced only 18 batters in the last six innings. It was Roe's 16th victory.

Iowa Loaded with Halfbacks

(This is the second of six stories about Iowa football candidates. In the next one ends will be discussed.)

Write off the halfbacks as positions to cause Coach Leonard Raffensperger much worry, for the University of Iowa coach can call upon eight lettermen, including two of the top ball-carriers in the league.

The roster shows 14 halfbacks and most necessary varieties are present, offensive and defensive, a place-kicker and even one who can pass left-handed upon occasion.

However, there are no really fast halfbacks of the "break-away" type.

Bill Reichardt of Iowa City, a 200-pound junior, was shifted to left halfback last spring after making the all-conference second team as a fullback. He also will be ready to play fullback this fall, if needed, but in the spring looked good as a left half.

Reichardt, Fiske Good Reichardt, averaged 5 yards on 68 ball-carries, scored 44 points, and place-kicked 20 of 23 attempts after touchdown. He was fourth in the conference in kick-off returns and broke the Iowa record for long returns, 99 yards against Oregon.

Senior Jerry Fiske of Brooklyn, N.Y., is the prize at right halfback who might become one of the finest backs in the nation. His 6.6-yard average was established for all games and also for conference games, to make him second in the league.

The "T" just suits stocky Fiske, who can burst through on quick-opening plays, and who is hard to tackle. He had his best day against Northwestern when he made 183 yards in 20 carries and outgained all Notre Dame backs with 82 yards. Fiske also tossed two TD passes in six trials.

Comack Can Run Don Comack, Waterloo junior of 165 pounds, played a lot of left halfback last fall when he

Wayne Higley of Iowa City posted an 81 in the second day's action to qualify for match play with a 36-hole total of 156.

Dale Kniss, of Waterloo, finished with 86-89 — 150 to qualify. Also qualifying were Dick Schultz, Boone, with 79-80 — 159, and Max Shields, Oskaloosa, 80-82 — 162. Dick Bellinger, Waterloo, finished with an 86-89 — 175 which put him out of the match play.

California won its third straight team championship with a 595 total for its four low players. Georgia was second with 599 and Kansas third with 604. Illinois, Kentucky and Wisconsin had 610's. Iowa was sixth with 614.

Reds, Pirates Tally Six In 9th, Bucs Win, 10-9

PITTSBURGH (AP) — It was a story book finish for the Pirates in their 10-9 victory over the Cincinnati Reds Tuesday. The Bucs gave up six runs in the top of the ninth, then stormed back with six runs of their own to win.

Sell Record 10,000 Season Grid Tickets For 1950 Iowa Games

The record total of more than 10,000 season tickets for the University of Iowa's home football games already has been sold and the athletic department still is accepting orders.

Frank Havlicek, business manager of athletics, said that the previous record for season tickets was 8,049 set in 1949. Two years ago the total was only 5,373, he said.

Single-game orders now are being filled as quickly as possible, this job having been started Tuesday. The Notre Dame game so far has drawn the most orders, followed by Purdue, Iowa's Homecoming contest.

Havlicek said that Iowa fans can purchase tickets for road games from allotments sent by the opposing university. These include 2,000 for Southern California, 650 for Indiana, 950 for Ohio State, 5,000 for Minnesota and 750 for Miami.

Applications for single-game tickets have been dated in order of arrival and will be so filled, he explained. But none of these orders can be filled next to season tickets.

Iowa's home games are Wisconsin, Oct. 14; Purdue (homecoming), Oct. 21; Illinois, Nov. 11; and Notre Dame, Nov. 18.

Beats McKenley

STOCKHOLM (AP) — George Rhoden of Morgan State outsprung Herb McKenley in a near dead heat 400-meter dash Tuesday night and came within one-tenth of the latter's 45.9 world record.

McKenley, former Illinois star, crossed the finish line in 46.1, followed by Sherman Miller of the San Francisco Olympic club.

Crowd Flocks to Home of Woman Who Claims Visions

AS NUNS AT LEFT KNEEL AT THE SHRINE of the Virgin Mary near the home of Mrs. Anna Van Hoof at Meceadah, Wisc., early Tuesday, a crowd of curious visitors pray at right. Mrs. Van Hoof claims she has seen visions of the Virgin Mary six times. (Story on page one.)

Violent Earthquake Shakes Earth; Possibly Near Tibet

By UNITED PRESS

An earthquake described as one of the greatest in history rocked the earth Tuesday.

There were growing indications the quake was centered in the Himalayan mountains near Tibet.

The quake was so violent that seismographs in Istanbul, Turkey, were broken. Experts there estimated the quake at 3,800 miles away, possibly in India.

Reports Vary

The coast and geodetic survey in Washington said it occurred somewhere in China, probably near the China-Burma border.

Tokyo reported the quake was first recorded there at 2:16 p.m. Tuesday and that waves continued to register for nearly two hours.

The locality was not known but Tokyo officials said it was believed centered in Afghanistan, several hundred miles west of Tibet.

They said its intensity was comparable to the disastrous Tokyo earthquake of 1923.

Cities in northeast India felt a series of tremors at about 7:45

p.m. Indian time but no major damage was reported.

Calcutta, India, felt shocks lasting for 60 seconds. Other towns in eastern India reported shocks of lesser duration.

8,000 Miles Away

Washington seismographic devices that recorded the first shock at 8:24 a.m. (Iowa time) placed the disturbance at some 8,000 miles away.

The slowness with which damage reports trickled to the outside world indicated the violent disturbance occurred in some remote region, or in some area inside the Iron Curtain where its scope may never be announced.

The China-Burma border, which extends north into the mighty Himalayan mountains, runs through some heavily populated area, but toward the north there are only tiny villages and mountain peaks towering 20,000 feet.

The coast and geodetic survey said the quake probably lasted no more than half a minute at the scene, but the earth waves it kicked up continued to be recorded for nearly three hours.

Korean War Slows Plan for Airmarking Main Iowa Highways

DES MOINES (AP)—The Korean war is putting a damper on the Iowa aeronautics commission's program of marking Iowa, the first state in the nation to have all of its major highways airmarked.

"We have adopted a wait-and-see attitude since completing our second project," Commission Director Norbert Locke said Saturday. "When World War II came on all airmarkings were painted out for security reasons."

"We hope this won't be necessary now, because we planned to proceed with marking all major highways. That would make Iowa the first state in the nation to complete the safety objective. But we'll hold up on the work now."

Last year the commission marked highway 20 between Dubuque and Sioux City. Ten-foot high number 20s were painted on the pavement 10 miles apart on an experimental basis.

The commission found the yellow numerals bordered in black weathered the winter in good condition, and decided to proceed with marking all major highways.

Just completed was the task of painting 10-foot high number 2s in yellow edged in black on highway 2 between Fort Madison and the Missouri river across from Nebraska City, Neb. These numerals also were placed 10 miles apart, across the 260-mile stretch.

"By having the markings 10 miles apart, it means that a pilot can't be more than five miles from any point at which he can determine his location," Locke explained. He added:

"Highway 2 was chosen for the second project because of the lack of airports in southern Iowa and northern Missouri. We have had enough favorable comment to justify the program."

Locke said Ohio is the only other state which ever has undertaken a similar program. However, after marking only one highway several years ago, Ohio dropped its program.

May Draft Married Men Soon, Director Says

WASHINGTON (AP)—Married men, now deferred from the draft, got fair warning Tuesday that this may not last long.

The warning came from the highest authority — Maj. Gen. Lewis B. Hershey, the draft director. It was made public in published hearings by a house appropriations subcommittee.

Hershey said that married men now are deferred by regulation, not law.

IOWA DAY

DES MOINES (AP)—Gov. William S. Beardsley Monday issued a proclamation naming Sunday, Sept. 3 as Iowa day at the national sesquicentennial in Washington. The sesquicentennial celebration was provided for by congress to commemorate the 150th anniversary of the establishment of the nation's capital at Washington.

Admits Killing Child, Father

FRANKLIN, N.C. (AP)—Curtis Shedd, 30-year-old confessed child killer, was turned over to North Carolina authorities Tuesday for trial on first degree murder charges.

The ex-convict who has served two years for robbery probably will go before a jury of 12 men in the old red brick Macon county courthouse in this mountain resort city during the superior court term starting Aug. 21.

Triple Crime Shedd will be tried for the murder of Johnnie Mae Boyter, 14, who with her sister and father met death on Aug. 3 in a triple crime that aroused their home community of Walhalla, S.C., to an angry demonstration.

In the latest of a series of confessions that started before dawn Sunday, Shedd exonerated Corrine Boyter, mother of the girls. He originally charged she forced him to choke both girls to death while she stood over him with a pistol.

Hanging over Shedd's head, also is a Georgia murder charge for the slaying of the father of the girls, John Boyter. But conviction of first degree murder in North Carolina, without recommendation of mercy from the jury, means death in the state's gas chamber.

India to Introduce Peace Plan in UN Thursday

LAKE SUCCESS, N.Y. (AP)—India's plan for a small-power committee to blueprint a Korean settlement will probably be introduced as a formal resolution at Thursday's meeting of the UN security council, it was learned Tuesday.

There was no indication yet which way the Russians would vote and the whole scheme — like so many other UN schemes — hinged largely on whether the Kremlin would use its veto.

Try and Stop Me

By BENNETT CERF

A SALESMAN in Missouri was held up in a small town because heavy rains had caused a washout on the railroad. "This looks like the flood," he observed to a waitress in the local hotel. "The what?" she asked. "The flood," he repeated. "You know the flood when Noah saved the animals on the ark. You must have read about that." The waitress assured him gravely, "Mister, I ain't seen a paper in four days."

Study in mixed emotions: the man who saw his mother-in-law go over a cliff in his new convertible.

Jerry Lewis tells about the battered middleweight who refused a thousand dollar bribe to "take a dive" in the second round of a bout with a highly publicized and overrated newcomer. The battered pug's explanation was, "I never lasted till the second round yet, and I ain't gonna start now."

Two Persons Fined In Police Court

Two persons have been fined a total of \$17.50 in Iowa City police court, according to Tuesday's docket.

Gary A. Winders, 141 Koser avenue, was fined \$12.50 for failure to observe a stop sign.

Edward E. Cox, of Oxford, paid \$5 for driving a vehicle without valid registration.

Pollen Count Measures 72 Granules Tuesday

The pollen count, issued Tuesday by the SUI department of hygiene, showed 72 granules of rag weed pollen per cubic yard. A rain would wash the pollen from the air and lessen the count. Cloudy weather would have the same effect, as pollination of plants is difficult in such atmosphere, the department pointed out.

Says War Program Would Lower Auto Output 10 Percent

LONDON, ONT. (AP)—C. E. Wilson, president of General Motors, believes that a "relatively large" war production program would lower automobile output only about 10 percent in the next year.

The "guns and butter" economy will divert about that much steel and manpower from automotive manufacturing, he said.

"We won't know if we'll be at war in the next two or three years," Wilson said, "but we're going ahead with our business on the basis that our political leaders will be smart enough to avoid that catastrophe."

He said it would take automakers just about as long to convert to total war output as it did after Pearl Harbor. The GM president said planes, guns and tanks could not be rolling from auto plants in less than nine months to a year.

Wilson revealed that tooling for GM's 1951 models would be completed in about 60 days and that the 1952 models were past the planning stage.

HOW TO GET AN APARTMENT

No, we don't have any magic secret to tell you how to find an apartment. In fact, it's common knowledge that Daily Iowan Want Ads have been getting good results for apartment-hunters.

Those who advertise in the "Wanted To Rent" classification often call us and ask to cancel their ads because they've found a place. Sometimes it only takes one insertion.

It's easy to see why this happens. Iowa City property owners know the Iowan reaches thousands of students, so they keep close tabs on the Want Ad page.

You can get your message before these renters. We can't guarantee you'll get your dream apartment, but for the inexpensive rates, it's certainly worth a try. Try a Want Ad today.
