Iowa City, Iowa, Thursday, August 17, 1950 - Vol. 84, No. 267

Weather

Partly cloudy and much cooler today. Fair and cool Friday. High today, 55; low, 54. High Wednesday, 59; low, 57.

Police Captain Takes Vehicle Checkup

JUST TO BE ON THE SAFE SIDE, Iowa City Police Capt. Laurance Ham put his DeSoto through the paces Wednesday afternoon in the safety lane conducted by the Junior Chamber of Commerce.

Iowa Citizens Report Pilgrimage To Van Hoof Farm 'Inspiring'

A group of Iowa Citizens Tuesday heard a Necedah, Wis., farm wife say she saw the Virgin Mary 'radiantly beautiful, clothed in white, with a shining gold star above her head.'

Railway Trainmen, Two Iowa Unions Go Out on Strike

The Brotherhood of Railroad Trainmen ordered a five-day strike on three important terminal railroads today, while in another labor development some progress was reported toward settling the Packard Motor Car company walkout.

Temperatures

Table with 2 columns: City and Temperature. Includes cities like Chicago, Cincinnati, Detroit, Indianapolis, Memphis, Milwaukee, Des Moines, Kansas City, St. Paul, Omaha, Sioux City, Boston, Miami, New York, Fort Worth, New Orleans, Denver, Phoenix, San Francisco, Seattle, and Winnipeg.

House Okays Restoring City Mail Service

WASHINGTON (AP) - A bill to cancel a postoffice economy order and put city mail service back on a schedule of two deliveries a day was passed Wednesday by the house, 264 to 108.

It took time and some legislative de-ours to get the house on record. But in the end, it approved the bill to nullify the order issued last April by Postmaster General Jesse Donaldson.

One a Day Service
The order reduced mail deliveries in cities to one a day and trimmed other services. Donaldson put it out after the house appropriations committee directed a reduction in deliveries and the committee, and the house itself, slashed postoffice department funds.

Then there were cries of protest in congress when Donaldson followed through with his economy move.

Now it's up to the senate to say what it thinks of the order. A senate committee has okayed a bill to rescind it but there are no signs the senate itself will vote any time soon.

Might Be Vetoed
And President Truman might very well veto such a bill, because it takes a slap at something one of his cabinet did.

Wednesday's house action was more evidence of the ever-present tendency in congress to talk big about saving money and then vote for more spending.

Republican congressmen were about three to one for the bill to restore full postal service and Democrats supported it about two to one.

Des Moines Man Taken Off Batory

SOUTHAMPTON, ENGLAND (AP) - A Des Moines man and another American were yanked off the Polish liner Batory Wednesday by British police and jailed pending a check of fingerprints in Washington.

Immigration officials here said they were pretty well satisfied that the Des Moines man, Howard Campbell, 29, is a harmless eccentric, but they were still studying the case of William Jesse Newton.

Newton, 26, boarded the Batory from a rented seaplane more than 100 miles from New York Aug. 8.

Campbell arrived in England as a stowaway for the second time in four months. He came ashore under arrest from the liner Queen Mary last May 4 and served 28 days on conviction of stowing away - a criminal charge in Britain. He declared then he was a Communist organizer fleeing from the U.S. federal bureau of investigation.

It was aboard the Batory, pride of Communist Poland, that Communist Gerhart Eisler fled New York in May, 1949.

Red Troops Launch Drive Near Waegwan; Americans Hit Back

American Gls Attack Reds At Changnyong

ON THE YONGSAN FRONT (THURSDAY) (AP) - Marines joined infantrymen in launching the second American counter-offensive of the Korean war today after a secret withdrawal on the Chinju front.

Elements of the 24th division and the First Marine brigade made an attack, with the support of a record number of planes on the Changnyong bridgehead, across the Nakdong river on the central front.

They "shot the works" in the attack which was preceded by

Navy Reserves ...

WASHINGTON (AP) - The navy said Wednesday it is calling reserve officers and enlisted men to active duty with or without their consent. It declined to say how many had been summoned.

The navy said recall orders "consistent" with its needs have gone to officers qualified in critical specialties such as electronics, communications, and intelligence. Medical corps, dental corps and nurse corps reserves also are being called involuntarily.

Enlisted personnel are being recalled for general assignment by district commanders.

An intense artillery and bombing attack accompanied by close air support of the largest number of planes yet assembled in Korea.

The presence of the Marines on the Changnyong front was the first news that they had been pulled out of the Chinju area, where they helped launch the first American counter - offensive Aug. 7.

All of Task Force Kean withdrew on the southern front on Monday.

The Marines moved 35 miles northeast for this new counter-offensive. They received their marching orders Sunday.

The Eighth army told them to withdraw after they had fought the North Koreans for a week on the plains and in the mountains and valleys which lead to the port of Pusan and Masan.

There was no doubt that the Americans are shooting the works on this counter - offensive to break up the central front bulge established by the Communists 12 days ago. A three - pronged American squeeze has kept the force from breaking through in its push toward the ports of Masan and Pusan to the south, but the Communists had crept forward in several places.

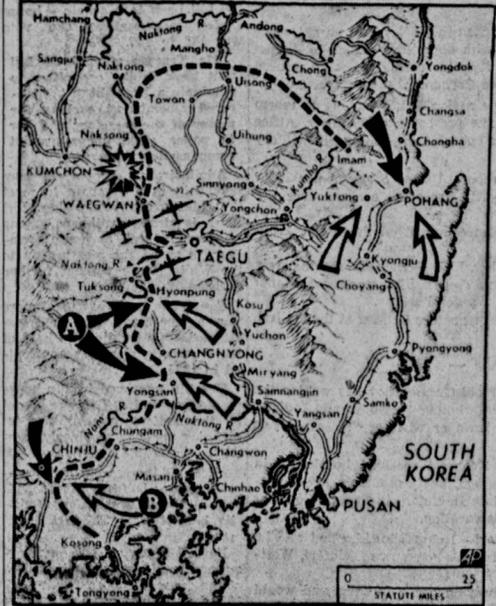

Man Injured Near Oxford

A Webster City man received head injuries in an automobile accident about 10 p.m. Wednesday on a gravel road three miles south of Oxford.

Deputy Sheriff Don Wilson said the man, Jack R. Morgan, about 25, told him he "didn't know" how the accident happened.

The car, damaged considerably, was found on an embankment of a ditch about 25 feet from the road.

Officials were unable to locate two other persons Morgan claimed were in the car with him, Wilson said.

NINETY-EIGHT B-29s (PLANE SYMBOLS) Wednesday blasted a 60,000-man concentration of North Korean troops near Waegwan. Meanwhile 24th division troops continued the fight against Reds holding two bridgeheads (A) across the Nakdong near Changnyong. American reinforcements arrived at the Chinju front (B). Pohang area situation was unchanged.

Johnson Asks Congress To Pass UMT Legislation

WASHINGTON (AP) - Defense Secretary Louis Johnson asked congress Wednesday night to enact a universal military training law providing for six months to one year of service for 17 year olds.

The bill would provide for deferment of youths still in school. Johnson, who acted with the approval of President Truman, urged congress "most strongly" to pass UMT at this session with a provision giving President Truman authority to say when it will be used.

The recent events in Korea have only served to emphasize the fact that universal training is an essential element of an integrated and balanced system of national security," Johnson wrote Sen. Millard Tydings (D-Md), chairman of the senate armed services committee.

"It is vitally necessary that there be a program which will assure the nation that all mentally and physically qualified young men are subject to a period of active training."

After the 17-year-olds have completed their training, he said, they should be available for service "in such capacities where they would be most needed in event of national emergency."

Youths called up under the program would be given six months of basic training. They then would be given alternatives of six more months of training or of joining the army, navy or air force regulars, national guards or reserves.

Trainees would get \$30 a month, and \$50 per month additional for one dependent. Those with two or more dependents would get \$65 a month.

A defense spokesman said that costs of the program had not been estimated. But he pointed out that 1948 estimates for a similar program were \$800 - million for the first year and \$1.7-billion per year after it got fully underway.

Army's Draft Calls May Be Maintained At 50,000 Per Month

WASHINGTON (AP) - The army's expected call for 50,000 men in November probably will be followed by similar monthly draft quotas for some time to maintain an even flow of men into uniform, it was disclosed Wednesday.

While emphasizing that the armed forces have not yet made any requests for men beyond the 100,000 scheduled for induction in September and October, top draft sources said there is no reason to believe calls will taper off after November.

They said the selective service machinery is geared to maintain a smooth flow of men from civilian to military life to meet the manpower needs of the Korean war and the general rearmament program.

These sources refused to reveal how many men may be drafted over the next several months, however, pointing out that the figure will hinge on world developments.

The anticipated November draft quota of 50,000 men was revealed by Maj. Gen. Lewis B. Hershey, national selective service director, in testimony before the house appropriations committee on the need for more money for the draft program.

CHINESE AID FOR REDS
TAIPEI, FORMOSA (AP) - A military aid agreement between Soviet Russia and Red China which would send 150,000 Chinese Communist troops into the Korean war was reported Wednesday by Chinese Nationalist sources.

War at a Glance

Air war - Some Korean Reds seen in demoralized flight from smoking 25-mile area hit in massive B-29 attack; patrols find scattered foemen digging in after 98 Superforts drop more than 1,000 tons of bombs in war's biggest air smash.

The fronts - First large scale reinforcements for U.S. Negro infantrymen arrive at battlefield; little ground action reported anywhere; American commanders hope North Korean offensive plans smashed by air attack.

Washington - U.S. accepts offer of 4,000 Siamese troops for UN forces in Korea.

Formosa - Chinese Nationalists say Chinese Reds and Soviet Russia have agreed 150,000 Chinese Communist troops would be sent to Korea if Communists are pushed back beyond 38th parallel.

CHINA HIT BY FLOOD
HONG KONG (AP) - Nearly 10-million people in east central China are suffering from the country's worst flood in a century.

Two Nurses to Aid In Polio Patient Care At U-Hospitals

Two nurses are scheduled to arrive in Iowa City by plane today to help alleviate the polio situation. The nurses are being brought here in answer to a recent request by the American Red Cross for help during the present polio season.

Mrs. Harold Ruppert, secretary of the Johnson county Red Cross chapter, said another nurse was brought to Iowa City earlier this week.

Last week's call was for four nurses needed immediately at University hospitals. Mrs. Ruppert said Wednesday it was hoped that the fourth nurse might be recruited from this area.

Mrs. Charles Pitfingher, acting chairman of the local Red Cross polio nursing committee, pointed out last week that recruitment stemmed from an increase in need of individual polio patients, not from an unusual increase in the number of patients.

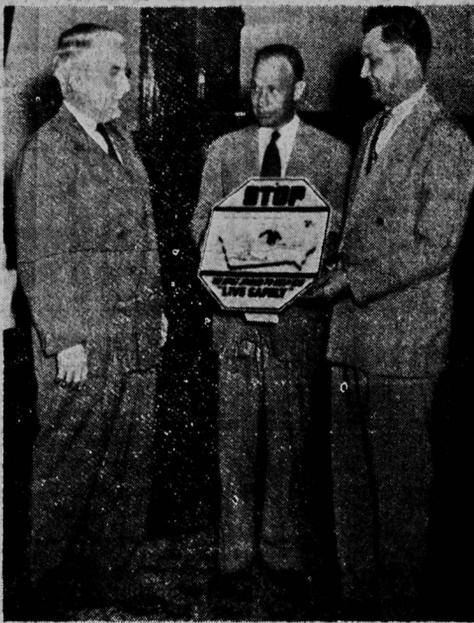

Five patients have been admitted to University hospitals and three others discharged after a period on the inactive list.

Those admitted were John Griffionen, 40, Cedar Rapids; Amos Coblenz, 17, Downey; Janice Joslin, 9, Anamosa; Mary Louk, 2, Wilton Junction, and Georgia Bell, 2, Wellman.

Discharged from the hospital were Loren Schneider, 8, Cedar Rapids; Gary Headington, 5, Decorah, and Mariame Deppe, 4, Bellevue.

Three other patients were transferred from the active to the inactive wards.

Governor Gets Safety Poster

GOV. WILLIAM BEARDSLEY (left) receives the first safety poster in the department's year-round campaign against accidents from retiring safety commissioner Alfred W. Kahl (right) and his successor Pearl McMurry, who will take over Sept. 1. Kahl has accepted the chairmanship of the Iowa Safety Congress.

Truman, Aides Plan Home-Front Mobilization

WASHINGTON (AP) - President Truman called in the heads of six federal agencies Wednesday to make plans for the home - front mobilization program which will get underway in earnest when congress completes action on the pending economic control bill.

It was part of a series of top-level White House talks in which Mr. Truman is laying the groundwork for swift use of the emergency powers he seeks to win the Korean war and give the nation for possible Red aggression elsewhere.

White House Press Sec. Charles G. Ross revealed meanwhile that

Mr. Truman still believes that total mobilization is not necessary now. His statement was prompted by a plea from Sen. Francis J. Myers, Pa. senate Democratic whip, for immediate all-out mustering of the nation's economic might.

Mr. Truman has consistently taken the position that higher taxes, credit controls and priorities on industrial materials are the only new powers needed at this time.

The house already has passed, and the senate is debating, a bill that would grant all those powers plus standby authority for the President to invoke wage - price

ceilings and rationing. Senate action on the bill was bogged down again Wednesday by a partisan quarrel over a GOP move to add anti - Communist curbs as a rider. A vote on the bill is scheduled for next Monday.

The agencies whose top officials conferred with the President Wednesday afternoon all are semi - independent regulatory commissions, and presumably would not be directly involved in administering wage-price controls or rationing.

But White House aides said they may play important roles in other aspects of the overall program to prepare the home front.

Wire Service Briefs

From The Iowan's Leased Wires

Quake Leaves Thousands Homeless

NEW DELHI (THURSDAY) — Thousands were left homeless today in one of history's greatest earthquakes that rocked the "roof of the world" of remote Tibet.

Tremors continued in the surrounding area, high in the Himalayas, hours after the first great shocks were felt Tuesday night.

At least six northeastern Indian villages were damaged. Official Indian reports said damage was "considerable" through northwest Burma.

But the center of the quake was believed to have been in eastern Tibet, about 350 miles north of the Assam-Tibet border and one of the remotest areas of the world. Authorities said hundreds could have perished in forbidden Tibet and the outer world might never know.

British Slow to Aid?

LONDON — Prime Minister Clement Attlee held an extraordinary conference Wednesday night with opposition leaders to discuss charges that Britain is moving too slow in rearming, but he refused to yield to their demands to convene Parliament next week.

In the face of criticism that the nation is not moving to rearm itself with anything like the speed the present crisis requires, Attlee decided that Sept. 12 would be soon enough to resume parliamentary work.

Meanwhile, according to one report, United States Ambassador Lewis Douglas bluntly and forthrightly expressed concern over the situation.

The British foreign office had no comment on the report about Douglas.

Evidence of the slowness with which Britain is moving was seen in reliable reports that said the first British troops would not leave England for Korea for at least several weeks.

They will not be in combat positions before October at the earliest.

Wants to Know About Iowa

DES MOINES (AP) — A 14-year-old German boy has written the secretary of state's office to find out whether "cowboys and Indians, bears and buffaloes still exist" in Iowa or whether "these are just stars."

Secretary of State Melvin D. Synhorst received the letter, in German handwriting, several weeks ago, but was unable to promptly to find anyone who could translate it. Before the translation was made Synhorst left for a northwoods vacation.

The writer gave his name as Karl - Heinz Schneider and said he is in the seventh grade at the school in his hometown Bielefeld, West-fall a.

"The youth said his class was studying North America and would like to hear from an American student of his own age.

"We would like to know about the manufacturing, agricultural and political management," the letter said. "What are the crops in your part of the country? Does everyone there have employment and do people earn enough to support their families? What class of people are the majority in America?"

40,000 Troops to Korea

WASHINGTON — More than 40,000 American fighting men have been funneled from the United States into Korea during the first seven weeks of the war, a navy spokesman said Wednesday.

He told the Pentagon briefing that the navy-operated sea transport service has moved more than 1.5-million tons of cargo and some 2-billion barrels of fuel since the Communist invasion on June 25.

The 40,000 men moved to the aid of the South Korean defenders included soldiers, sailors, marines and airforce personnel.

Commenting on the heavy petroleum shipments, the spokesman said the Korean fighting has resulted in a heavy demand for fuel for mechanized equipment, particularly aviation gasoline.

"Aviation gas is the most pressing, but as of today the situation is satisfactory," he said.

House Passes Bill To Expand Benefits Of Social Security

WASHINGTON — The house approved a sweeping overhaul of the social security program Wednesday by a vote of 374 to 1 after rejecting President Truman's plea for last-minute changes.

The bipartisan bill, raising old age benefits by an average 90 percent and bringing 10 - million additional workers under coverage, now goes to the senate for final congressional action.

The lone "no" vote was cast by Rep. John W. Byrnes (R-Wis). The real test had come earlier when the chamber narrowly defeated a Democratic move to send the bill back to a senate - house conference committee. The vote was 188 to 185.

Mr. Truman wanted the bill sent back to the committee to eliminate a Republican - sponsored amendment curbing the power of the secretary of labor to police state unemployment compensation programs.

Administration supporters may try again in the senate to meet the chief executive's wishes. But there is strong sentiment among senators, as well as house members, to speed the measure on to the White House without further revision.

Congress already has spent more than a year working on the legislation, the first major overhaul of social security since it was adopted in 1935.

The bill approved by the house is a compromise, hammered out by the conference committee, of differing versions previously passed by the senate and house.

It would increase average benefit payments from \$26 to \$45 a month, and the maximum family benefit from \$85 to \$150 a month.

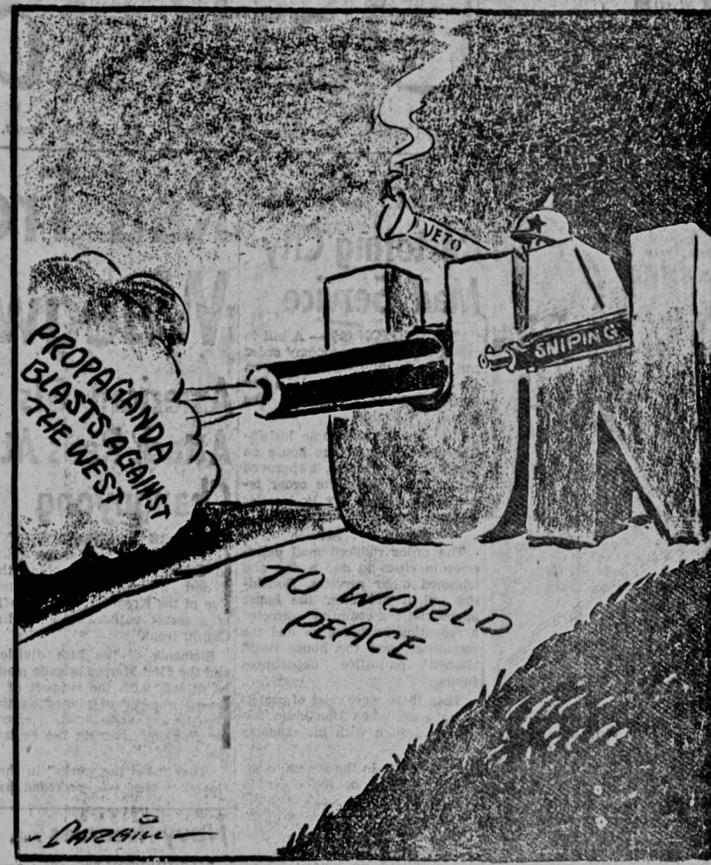

Payroll taxes on both employers and employees would be frozen at the present 1-2 percent until 1954, but the maximum salary taxable would be raised from \$3,000 to \$3,600 a year. That would mean payroll-tax boosts ranging up to \$9 a year for some of the higher-salaried workers and their employers.

It would extend coverage to a total of about 45-million persons by bringing under the act for the first time an estimated 5-million self-employed, 1-million full-time farm workers, 1-million domestic servants, 1.4-million state and city government employees, 600,000 employees of non - profit organizations and 50,000 workers on government - owned transit systems.

FISHERMAN FINED

H. W. Stuck, 1361 Muscatine avenue, was fined \$27.50 in Iowa City police court Wednesday for fishing with an illegal trot line.

Another Road Block to Clear

Indo-China Seen as Key to Southwest Asia

By ROBERT GEIGER

WASHINGTON — American military authorities have been aware for months that French Indo-China probably would be a starting point for a Communist attempt to penetrate southeast Asia.

This French - controlled area, about the size of Texas, geographically is a gateway from China to the riches of southeast Asia. Its northern boundary adjoins Red China. It flanks restless India. The French have been in a tug-of-war for it since World War II, against Indo-Chinese Nationalist-Communists.

Military and political students have said the loss of Indo-China to the Communists might be fatal to western interests in the whole of southeast Asia.

French Indo-China is composed of the states of Vietnam, Laos and Cambodia. About 22-million

of Indo-China's 27-million people live in Vietnam. In Vietnam nationalists under Communist leadership have been fighting for complete independence from France. Laos and Cambodia accepted a French protectorate.

The Japanese in World War II gained control of Indo - Chinese bases from Vichy France, then at the mercy of the Germans. Two days after the Japanese surrender in 1945 Ho Chi-Minh, Moscow trained political leader, proclaimed a republic.

The French encouraged Bao Dai, heir to the throne of Annam, of central Vietnam, to abdicate because he had retained authority under the Japanese.

Ho dissolved the Communist party in 1946 and the French decided to recognize him. During World War II he had aided the allies in guerrilla warfare against the Japanese.

But Ho demanded full independence from France and the inclusion of Chochin Cina in his republic. The Russians and Red China recognized his regime.

'Night Club Emperor' The French refused Ho's demands and recalled Bao Dai — known as the "night club emperor" because of his exile on the French Riviera — and set him up as chief of state.

The British and Americans recognized Bao Dai, although he lacked much popular support.

Thus the battle lines were drawn with the Communists supporting Ho and the western democracies Bao Dai in what has turned out to be a brutal, night time war of ambush and terror.

Nationalists went over to Ho's forces, along with the Communist, because the French insisted upon controlling the diplomacy and the defense of Vietnam.

Ho and Bao Dai each made a bid for the support of the bulk of Vietnamese — mostly rice farmers — who had neither Communists nor nationalist sentiments. Most were without politics. Many were kept by fear from joining either force openly.

The war turned Indo - China from a valuable French asset into a liability. The French have been trying to protect \$1.1-billion worth of investments and the large income therefrom. But it has been costly. It has tied up a third of the French army and it has been estimated the casualties have been around 100,000 in three years.

Damage was estimated at around \$140-million after three years of fighting, and about \$500-million a year was spent by the French on the Indo-China army.

In May 1950 the United States pledged aid to Indo-China, including military supplies for the local army of around 100,000 that Bao Dai was recruiting.

The aid was aimed not only at strengthening military forces but in boosting the Vietnam economy so the people would have more of a practical interest in the success of the Bao Dai regime.

Where the U.S. stands This evidence of U.S. interest helped strengthen the belief of many Vietnamese that one day the United States would try to persuade France to give their country full independence.

The strength of American prestige in Indo-China is debatable. There have been anti-American incidents.

The appearance of two American destroyers in the harbor at Saigon, Vietnam capital, in March 1950 drew mortar fire. There was rioting and two students were killed, although no American shots were fired.

The destroyers were part of the U.S. 11th fleet which with other ships visited Indo - China as a gesture of support for the French. Aircraft from the U.S. carrier Boxer flew over the Indo-China countryside.

Senators Favor Recess of Congress

WASHINGTON — Senate Republican policy leaders decided Wednesday that it is "possible" for congress to quit by Sept. 2 but that it will be "a tight squeeze."

Chairman Robert A. Taft (R-Ohio) of the GOP policy committee said the Republicans favor periodic recesses until the end of the year instead of outright adjournment. That would enable them to force congress to return to work if Korean developments made it necessary.

They also discussed the idea of recessing from Sept. 2 to Oct. 10 to permit members up for reelection to do some campaigning. If there were no pressing problems on Oct. 10, the recess would be extended until Nov. 15 — after the November elections.

Drills to Test Atom Bomb's Effect on Major U.S. Cities

By Central Press

CHICAGO — This city, chosen along with Seattle and Washington, D.C., as a testing area for atomic bomb defense, will stage in September the most elaborate A-bomb defense maneuver in history. After it is over, the nation should know a lot more about the menace of atomic warfare to our great modern cities.

American military strategists calculate that no enemy would be so foolish as to attack this country without planning to try to destroy Chicago with its railroad hub of the nation and its huge war production potential that accounted for 35 percent of the United States' material in World War II.

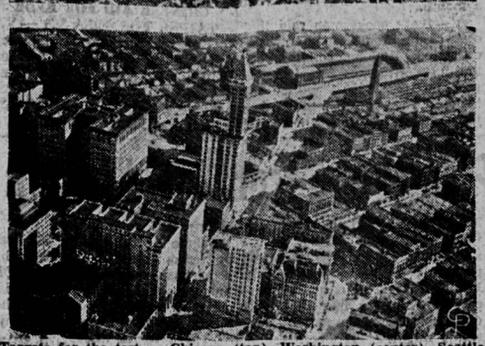

Sometime between Sept. 25 and 29, the mythical "bomb" will fall on the Windy City. It will be the climax to weeks of civilian defense activity now rushing ahead here under the leadership of national, city and state authorities.

The idea of the simulated bombings of two of the great industrial centers on the "frontier" of the atomic bombing menace over the top of the world from Russia and of the nation's capital is part of the stepped - up civilian defense program of W. Stuart Symington, chairman of the national security resources board.

The experiment here is to be the most elaborate and realistic, because both Illinois' governor, Adlai Stevenson, and Chicago's mayor, Martin F. Kennelly, want a full scale dress rehearsal of their respective efforts to guard against "Hiroshima, U.S.A." in the country's No. 2 city.

The spectacular demonstration also will provide a test for several related defense programs, such as the new radar network which has been rigged up within 50 miles of Chicago to warn of an atomic attack, and the three - state defense scheme of Illinois, Indiana and Iowa.

The time and place of the "bomb's" fall is a carefully guarded secret. Experts have estimated that if an A-bomb hits Chicago caught unawares, as it did Hiroshima, there may be expected a total of as many as 800,000 casualties, compared with 200,000 for the Japanese metropolis.

Targets for the test — Chicago (top), Washington (center), Seattle.

Part of the purpose of the test will be to determine how this theoretical total can be cut by sheltering the population in steel reinforced structures, subways, concrete - shielded places, and other approved hideouts on the short notice provided by the radar warning system.

After the bomb has "hit" the

burns or other direct A-bomb effects, or from exposure to dangerous dosages of radiation.

They will spot on maps the areas of total, partial, and minor damage, and what vital facilities — such as power plants, waterworks, and hospitals — were knocked out.

The public will be told of the results of the experiment insofar as possible in the light of security rules designed to keep a potential enemy from learning how to deal the most devastating blow.

Planners of atomic defense from throughout the country will take part, seeking particularly to learn such things as the amount of decentralizing of industry as may seem necessary, the number of bomb shelters which should be built, and the precautions to be taken against fire.

Chicago's fire defense organization is being expanded to include more than six thousand auxiliaries. Special No. 9999 already is on every fire station call board.

Medical and health measures are being worked out by 80 committees reporting to a board headed by Dr. A. C. Ivy, vice-president of the University of Illinois and a consultant of the atomic energy commission.

In the biggest mass medical program of its kind ever undertaken, it is planned to train every head of a family in Red Cross first aid, to tattoo every newly born baby from now on with its blood type and to catch up on the existing population as quickly as possible, and to vaccinate everyone against epidemic diseases.

Avoidance of panic is classed as one of the prime objectives by Dr. Ivy, who already has appealed that in the event of an atom disaster, most of the people should "stay put" for the time being. He estimated that about 15 percent of the population may be expected to be in varying degrees of hysteria.

In fact, mass hysteria is considered one of the major problems in the staging of the A-bomb drill itself, and Chicago's defense planners want to make sure that the public understands that the drill is not the real thing when it comes off.

The Highway Story

By BOB HULLIHAN

Iowa Department of Public Safety Maybe things are getting worse. If minor signs mean anything, how are these for indications of what may be developing in the way of driver attitude:

Up in northeast Iowa, a three ton stone pillar standing in a private drive has just been knocked down for the sixth time by an automobile which bounced off the highway. No damage to the stone reported.

In north-central Iowa, a man and wife were taking their ease one evening in deck chairs on the lawn before their home. They had to jump and run when a car came roaring over the curb, cut through the lawn and crushed both chairs.

When the highway patrol stopped a 19-year-old speedster recently, he told the officers, "I was trying to kill myself." The young man said he was mad at his mother.

A young hitchhiker, picked up by an elderly Iowa driver recently, became discontented with the conservative speed the driver employed. "Is this all the faster you ever drive?" he asked. When he got an affirmative answer, the hitchhiker asked to be let out. "I'd rather walk," he said.

And to reverse an old story, another hitchhiker picked up by two men was slugged, robbed and dumped back on the highway only a few hundred yards from where he had flagged the ride.

Maybe things are getting worse.

Interpreting the News

Israel Faces Economic Crisis

By LARRY ALLEN

TEL AVIV, ISRAEL — There's a lot of talk going around that Israel is heading for an economic crisis. One thing is certain — living conditions are getting worse.

Skimpy food is getting skimpier. Clothing and footwear have just been added to an already lengthy ration list. Prices are climbing. Wages are lagging far behind the cost of living. Strikes are becoming more frequent.

The best of whatever this country produces is shipped abroad to earn hard currency. Everyone is restricted in his purchases. Israel's government chiefs are almost constantly warning that there's a tough winter ahead.

They say the answer to better conditions in a country which lives almost exclusively through foreign charity is more industrial and agricultural production.

At the moment, when the flow of dollars from American Jewry to Israel cut off, there would be ample basis for speculation as to how long the state could last. Even the dollars from the United Jewish Appeal and other organizations appear to be falling far short of what the country must have. The suggestion has been advanced by American Jewish leaders that a popular loan should be sought in the United States.

Here's a picture of living conditions.

Rents are reasonable — government controlled. But an apartment sometimes costs thousands of dollars just to move in. That's the price a tenant exacts as "key money" to move out.

Lots of people are losing weight. Thus far, the health standard has remained fairly high, but the usual complaint is, after any meal, "I'm still hungry." "Fish" has become one of the most hated words — because it's on every menu, every day.

Under clothes rationing, a woman will be lucky to get one good new dress per year. The same goes for men's suits. Generally speaking, every Israeli can buy one pair of shoes per year.

It's not unusual for a woman to pay \$40 to \$50 for a dress that could be picked up for one-fourth the price in an American store. A man's suit costs \$140 up. Blouses and shirts run around \$10 up.

Toilet soap is now limited to one bar per person per two months — and some stores don't have any for weeks at a time. Black market vendors in the streets collect from 50 to 70 cents per bar. All kinds of paper are extremely difficult to obtain.

Israelis are wild about the money.

Under clothes rationing, a woman will be lucky to get one good new dress per year. The same goes for men's suits. Generally speaking, every Israeli can buy one pair of shoes per year.

It's not unusual for a woman to pay \$40 to \$50 for a dress that could be picked up for one-fourth the price in an American store. A man's suit costs \$140 up. Blouses and shirts run around \$10 up.

Toilet soap is now limited to one bar per person per two months — and some stores don't have any for weeks at a time. Black market vendors in the streets collect from 50 to 70 cents per bar. All kinds of paper are extremely difficult to obtain.

Israelis are wild about the money.

There are plenty of concerts, but these aren't cheap, either. You can get a glass of weak, watery beer for about 35 cents. Israeli manufactured cigarettes cost 62 cents per package. A martini cocktail runs around \$1.10.

American newspapers and many other foreign publications have disappeared from newsstands. Newsdealers say they lack foreign exchange.

Many Israelis earn only 40 pounds (\$112) per month. That includes typists and other office workers. A good laborer gets about three pounds (\$8.40) per day. He can easily spend that much on a few drinks and a meal.

Officials say the nation's lopsided economy can't get healthy by depending on handouts indefinitely. Imports in 1949 were valued at \$243.6-million. Exports were around \$29-million.

Israelis are trying hard to narrow the gap. Imports the first quarter of 1950 were \$92,708,000. Exports were about \$20 - million. The latter figure represented a 15.9 percent rise over the corresponding period of 1949.

The economic strain is steadily increasing. Four hundred and twenty thousand Jewish immigrants have arrived here since Israel was set up in 1948. All have to be housed, clothed and fed. They're continuing to come at a rate of 15,000 monthly.

Jews here can expect to get still less and have less so that the new ones will have enough to get along until they are absorbed and become a productive factor in industry or agriculture.

It's also clear that Israel needs more money, and badly. The government is closing the gate wherever possible against the outflow of any foreign exchange. Military needs are adding to the load.

Senators to Check Campaign Costs

WASHINGTON (AP) — Sen. Guy Gillette (D-Iowa) said Wednesday

investigators probably will be sent to Pennsylvania again for a further check on campaign spending in the Republican senatorial primary election last spring.

Gillette is chairman of the subcommittee on privileges and elections which is policing the activities of 33 senators this year.

At the same time, Gillette told a reporter that so far his subcommittee has not supplied any data to the justice department in connection with a reported federal grand jury investigation at Scranton, Pa., of the Pennsylvania GOP primary campaign expenses.

Swallowing Balloon New Test For Finding Stomach Cancer

A "balloon test" for cancer of the stomach has been devised by a group of doctors from Cornell university medical college and New York hospital, N.Y.

The process was reported in the current Journal of the American Medical association by Drs. Frederick G. Panico, George N. Papanicolaou and William A. Cooper.

A rubber balloon covered with short pieces of braided silk and attached to the end of a tube is swallowed into the patient's stomach and then inflated, the doctors wrote.

Cells from the stomach lining cling to this balloon "brush". The apparatus is deflated and withdrawn and the cells removed by washing in a special solution.

Examine Cells

The cells are then examined by means of the smear test, developed by Dr. Papanicolaou and in which he is famous for detecting cancer of the cervix in women. Describing the test, Dr. Papanicolaou wrote: "Cells at the surface of the growth tend to be dislodged. A technique for collecting the cellular debris, smearing it upon glass slides, and staining it has been perfected so that the various components may be studied."

"Interpretation of the smear requires the services of a careful and discriminating cytologist, who has had experience in this field." (A cytologist is a specialist in the structure and function of cells.)

Accurate in 33 Cases

The balloon test was used in collecting cellular material from the stomachs of 33 patients in whom the diagnosis of a disease was confirmed by surgery, the doctors reported.

Of this group of 33, 17 had malignant disease and 16 had diseases other than cancer.

Reservists Begin Summer Training At McCoy Sunday

Two weeks of summer training at Camp McCoy, Wis., are scheduled to begin Sunday for 34 Iowa City reservists, members of the 410th infantry regimental headquarters.

Col. Chan F. Coulter, regimental commander, said the 20 officers and 14 enlisted men will proceed individually to the camp, 180 miles from Iowa City.

103rd Infantry Division

There they will join approximately 1,500 other members of the 103rd infantry division for the Aug. 20 - Sept. 3 training period.

During the encampment, the Iowa City men will concentrate on regimental headquarters problems — organization, processing, replacement classification, and unit training.

Grim Reality

The Korean war situation and the possibility that the 103rd division might be activated at any time add grim reality to the training and maneuvers.

In the event of activation to battle status, the 103rd would be increased from 1,500 men to 18,000. The 410th regiment, consisting of 20 units throughout Iowa, would increase in strength proportionately.

A former SUI student, Father Toomey graduated from St. Ambrose college in 1935.

Woman Architect Plans 'Dream' House

What type of a house does a woman really want? The answer to this question was found in a contest open to women students of architecture in accredited colleges in the United States and Canada, which proved that most women want simple architecture, light, airy and easy-to-care-for homes.

Of the 43 original plans submitted by the 104 entrants, all but three of the plans had a flat or semi-flat roof. There were no two-story house plans submitted, proving that women are tired of walking up stairs.

One of the winners, Sonia Jean Albert, 25, of Danbury, Conn., based her plans on appearance, comfort and convenience. She designed in the 1300 square foot area a comfortable unit for a family of four.

Miss Alberts cut corners so that an L-shaped dining - living room which was separated by low cupboards and a fireplace would give a feeling of spaciousness in either section. A playroom connects between two children's rooms, and a patio outside the dining room provides for summer dining.

Windows in Miss Albert's house are designed to give privacy and pleasure. On the street side of the home, windows are high and concealed. At the back of the house, she used as many windows as possible.

Well planned storage space is another feature of the house. Closets include built-in-sections for shoes, hats and accessories. In the bathroom, she recommends the built in clothes hamper, towel rack, shelves and drawers.

Miss Albert, who was graduated from Brown university, cum laude, studied art and architecture at the University of Oslo, Norway, studied civil engineering at Columbia university and was graduated recently from the Yale university of architecture, now has a job with a firm of architects in Sweden.

MARRIAGE LICENSE

A marriage license was issued in Johnson county clerk's office Wednesday to Peter Hipp and Gladys B. Dane, both of Toledo, Ohio.

IOWA'S GALA HOLIDAY

Join the happy crowds at Iowa's great show-of-shows. Thrill to the 8 days and nights of entertainment... the 200 acres of inspiring exhibits... the one and only

IOWA MID-CENTURY STATE FAIR

IOWA'S MID-CENTURY STATE FAIR

Edward S. Rose says—

August brings much discomfort as Hay Fever and Allergies to certain weeds and plants. If your doctor directs — let us fill your PRESCRIPTION or furnish some Drug or Medicine — please come in —

DRUG SHOP
109 S. Dubuque Street

Fair-Time Is Vacation-Time

VACATION LAND for nearly half a million midwest vacation seekers the last week of August will be the state fair grounds in Des Moines. The picture shows a part of the 378 acre fair grounds, with the race track and grandstand, and part of the auto parking areas in the foreground. With headliners scheduled such as auto races, rodeo, thrill days, motorcycle races, circus and musical revues, fair officials predict one of the largest crowds in history during the eight days of the Iowa Mid-Century exposition from August 25 through Sept. 1.

FOR THE FIRST TIME in many years, the fair will feature a huge contest rodeo as a special highlight. Wild and woolly bronc riding such as that shown above, will be commonplace as 150 cowhands compete for \$5,000 in cash prizes. Fair officials have announced that the rodeo will be conducted under stringent contest rules. The large purses offered will help make it one of the largest rodeos to be staged in the United States this season. Bronc riding, roping, steer wrestling, Brahma bull riding and other western contests will draw ace cowboys from the west. Rodeo dates are Friday evening (Aug. 25), Saturday afternoon (Aug. 26) and Sunday afternoon and evening (Aug. 27). The national stock show, held at the fair, is already breaking records, officials announced this week. Cash prizes, over \$100,000, are the largest ever offered. Famous herds of livestock from more than 20 states and Canada will be in the show ring. More than 7,000 head of horses, cattle, swine and sheep are expected.

REMEMBER Special Edition 19th Aug.

The Biggest Daily Iowan Of The Year

Your Saturday copy of The Daily Iowan will be the annual gigantic August Special Edition. Six full sections, 48 pages of facts and figures, with over 100 pictures. All about the University, Iowa City, and the people you know. Reserve your copy now, and be sure to read all about — SUI sports outlook — Expansion and construction of SUI facilities — What the well dressed SUI students will be wearing — and many other interesting features.

Phillies Thump Braves Again, Threaten Runaway In NL Race

7-Game Bulge With 5-1 Win

PHILADELPHIA (AP) — The Philadelphia Phillies threatened to make a runaway of the National League pennant race Tuesday as they trounced the runner-up Boston Braves for the second straight time, 5-1, and stretched their lead to seven games.

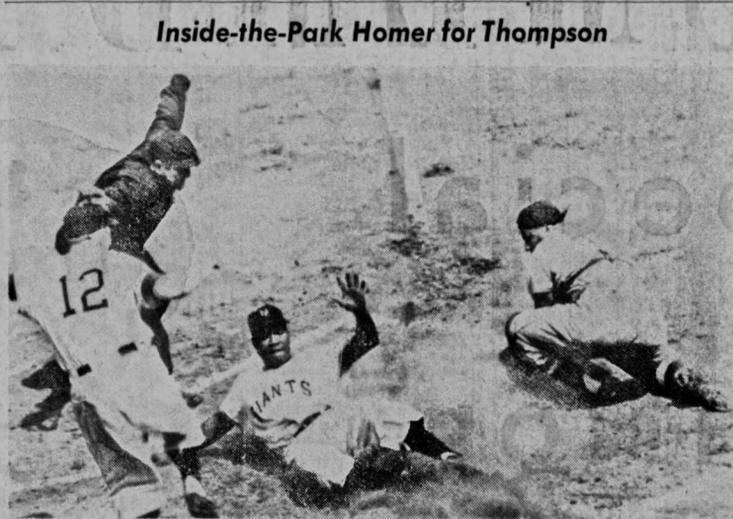

Robin Roberts held the Braves to three hits in posting his 16th victory of the season against five losses.

The Braves scored first in the second inning on Bob Elliot's triple and Sid Gordon's fly ball. But after that Roberts closed the door to cruise in the game in a four-run third inning on a walk to Eddie Waitkus, doubles by Richie Ashburn and Dick Sisler and singles by Willie Jones and Andy Semick.

Del Ennis concluded the scoring with his 26th home run of the year in the seventh.

A crowd of 23,846 saw Vern Bickford, who last Friday hurled a no hit, no run game, take the defeat. It was his ninth loss against 14 wins.

Boston 010 000 000—1 3 1
Philadelphia 001 000 10x—5 11 0
Bickford (14-9) and Cooper; Roberts (16-5) and Semick. Home run: Ennis (20th).

Inside-the-Park Homer for Thompson

(AP Wirephoto)

HENRY THOMPSON, New York Giants' third baseman, crosses home plate in the first inning with the first of his two inside-the-park home runs against the Dodgers Wednesday. The Giants scored nine runs in the first inning. Eddie Stanky (12), who scored on Thompson's blow with Don Mueller, skips out of Hank's way. Catcher Roy Campanella got the relay too late. Umpire is Jocko Conlan.

Red Sox Swat A's Twice, 11-3, 12-7

BOSTON (AP) — The Boston Red Sox continued their domination of the Athletics Wednesday night, downing the Philadelphians, 11-3, and 12-7, in a two-night double-header.

The two triumphs, achieved before 22,388 paid fans, extended the Sox record to 18 consecutive Fenway park victories over the A's who haven't won here since Sept. 12, 1948.

Before the start of the second game the crowd stood silently for a minute in memory of Babe Ruth who died two years ago Wednesday.

Bob Doerr got the Sox rolling to victory in the opener when he poked a four run first-inning homer into the left field screen.

The A's who picked up a single run in the second inning of the night cap, scored six times in the third against Starter Walt Masterson and Jim McDonald before Dick Littlefield got the side out, thanks to a great one handed stab of a Wally Moses drive by First Baseman Bill Goodman.

(1st game)
Philadelphia 000 010 110—3 7 0
Boston 101 102 30x—11 14 4
Coleman (9-2) and Tipton; Stobbs (7-5) and Batts. Home runs — Coleman (14), Doerr (20th), Stephens (20th), Di-Maglie (7th).

(2nd game)
Philadelphia 010 000 000—7 10 2
Boston 010 122 20x—12 14 4
Hooper, Scheib (7) and Guerra; Tipton (7); Masterson, McDonald (8), Littlefield (5), McDermott (5) and Ross.

460 to Coaching School

BOONE (AP) — Lyle Quinn, secretary of the Iowa High School Athletic association, said Wednesday 460 reservations have been made already for the Iowa association coaching school which opens at Spirit Lake Saturday.

Robinson Says Dodgers May Trade Him Jackie Thinks He'll Be Swapped This Year

NEW YORK (AP) — Jackie Robinson has a hunch he is playing his last season as a Brooklyn Dodger.

But the star second baseman's feeling is not shared by his boss, club President Branch Rickey.

"It wouldn't surprise me if I were traded at the end of the year, Robinson said Wednesday.

"I haven't given a thought to trading Robinson or anybody else on the ball club," says Rickey.

Robinson, 31, pointed out his age and said he has slowed up a step in the field.

He also feels he may have outlived his usefulness with the Dodgers.

Robinson made known his hunch Wednesday amidst rumors of mounting tension on the Dodger team — a club that won the pennant last season, was favored to repeat but now finds itself a half dozen games off the pace.

Rickey already has publicly criticized the "complacency" of the team.

Robinson, first Negro to play major league baseball in modern times, also is aware of the Rickey policy of disposing of a star player while he still has considerable market value.

"Actually, I have no idea whether they intend to trade me or not," Jackie said. "However, I'm prepared for anything that may happen. After all, I'm

ROBINSON

BRANCH RICKEY Hasn't Given a Thought

pretty old as far as players go. "I guess I'd go wherever they sent me," he added. "But I wouldn't like to leave Brooklyn."

Robinson is in a batting slump which has cost him the National league lead.

At Boston the other night after Robinson had contributed one of seven errors, he was removed from the game.

No reason was given. Not until the next day did he learn why. Manager Burt Shotton then explained to Jackie that he was taken out of a game that was obviously lost for a rest.

"I was damned mad about it," Robinson said.

It was then that the idea was born to Jackie that he may move elsewhere next year.

Trout Hurls Tigers By White Sox, 6-2

DETROIT (AP) — The veteran Dizzy Trout who is to be given a "day" here Friday staged an advance celebration of his own Wednesday night as he pitched and batted the Detroit Tigers to a 6-2 win over the Chicago White Sox.

It was the sixth straight victory for Trout, a refugee from the Tiger bullpen, and boosted his season's record to 10-2.

Trout helped the Tiger rump-producing attack as well by knocking home two tallies with a single in Detroit's big second inning.

Chicago 200 000 000—2 5 0
Detroit 000 000 000—6 10 2
Pierce; Adams (2); Judson (8) and Mast; Trout and Swift.

24-Million Fans May See Series

DETROIT (AP) — Twenty-four million baseball fans watching the World Series at the same time.

It sounds fantastic, but that's baseball Commissioner A. B. Chandler's goal.

The game's czar is on the brink of wrapping up a history-making \$700,000 television deal for the 1950 series, a step that could make the 24,000,000 "attendance" possible.

Chandler suggests that Series battles be televised over a national motion picture network if he can arrange a long-term video contract.

Beshore's Lop-Sided Loss Hasn't Ended His Ring Career Yet

BUFFALO, N.Y. (AP) — Freddie Beshore's lop-sided loss to NBA heavyweight Champion Ezzard Charles apparently hasn't ended his ring career.

Before Tuesday night's title fight, the blond Harrisburg, Pa., challenger had told friends: "I've got to win this one; I'll either be the champ or a bum."

But Wednesday his manager, Ralph Gold, said he's already considering a \$10,000 offer from the Dapper Dan club of Pittsburgh for a bout with Bob Baker, the steel city's up and coming heavyweight.

Gold said the date planned originally was Sept. 27, but because that's the likely date for a Charles-Joe Louis bout, the promoters wanted to make it four or five days earlier.

Gold said Beshore would have taken the title from Charles Tuesday night if he weren't stale from the emotional strain and long training required by the two previous postponements.

Some of the ringside sports writers felt that Charles should have disposed of Beshore much earlier in the fight, but neither the champion nor his manager felt that way.

Both Charles and Manager Jake Mintz agreed that the champion's timing was off, but pointed out he naturally would be rusty after his long lay-off.

Mintz promised that Charles would be "ready for the next one, whoever it is."

The "next one" undoubtedly will be Louis, if terms can be reached.

Charles Holds Up Louis Bout Signing

BUFFALO, N.Y. (AP) — Signing of the Ezzard Charles-Joe Louis heavyweight title fight was delayed temporarily Wednesday while representatives of Louis and the International Boxing club hammered Champion Charles down to terms.

Charles, who received only about \$8,400 for stopping Freddie Beshore in the 14th round at Memorial auditorium Tuesday night, will be forced to take a much smaller percentage than Louis for their proposed bout at New York's Yankee stadium on Sept. 27.

It will be the first time in ring history that a heavyweight challenger receives more than the champion. Charles is recognized as champion by the National Boxing association. Louis is trying to recapture the crown he gave up on March 1, 1949. No previous heavyweight ruler ever regained the title.

Tribe Takes Double Win Over Brownies

CLEVELAND (AP) — Manager Lou Boudreau's pinch single in the ninth inning drove in the winning run as the Cleveland Indians defeated the St. Louis Browns, 2-1, Wednesday night in the second game of a two-night doubleheader.

The Indians also won the first game, 2-0.

Boudreau, in the second game, put himself in to bat for Second Baseman Bob Avila with two outs and two men on base. His winning hit was off Don Johnson, the losing pitcher.

The surprise performer in the first game was Jesse Flores, a one-time Philadelphia Athletics pitcher that Cleveland got from San Diego in the spring.

Making his first start for the Indians, Flores shut out the Browns, distributed only four hits, and fanned seven.

(1st game)
St. Louis 000 000 000—0 4 0
Cleveland 100 000 01x—2 9 0
Wilmar (3-10) and Lollar; Flores (3-3) and Hegan.

(2nd game)
St. Louis 000 010 000—1 5 0
Cleveland 000 001 001—2 9 0
Johnson and Moss; Garcia and Hegan. Home run — Rosen.

Kiner's Blast Tops Cards, 5-3

ST. LOUIS (AP) — The last-place Pittsburgh Pirates slammed three home-run balls off Floyd Boyer to hand the St. Louis Cardinals a 5 to 3 defeat Wednesday night.

Ralph Kiner hit his 34th of the year in the third inning with a man on while Tom Saffell and Johnny Hopp hit for the circuit in succession in the fifth with the sacks empty.

The defeat left the Redbirds just a game above the New York Giants and second division.

Vernon Law and Murry Dickson combined to hold the Cards to nine hits. Law went out in the sixth after Eddie Kazak and Glenn Nelson singled in order.

The Cards grabbed an early 1-0 lead in the first inning before Kiner's potent bat shot the Pirates out in front to stay in the third, 3-1.

St. Louis was still within striking distance after scoring another run in the last of the third. But Saffell and Hopp sewed it up for the Bucs with their successive homers in the fifth. The defeat moved the sagging Cards closer to the second division as the Giants whipped Brooklyn, 16-7.

Pittsburgh 003 020 000—5 15 1
St. Louis 101 000 100—3 9 0
Law, Dickson (6) and McCullough; Boyer, Munger (5), Martin (7) and Rice. Home runs—Kiner, Saffell, Hopp. WP—Law. LP—Boyer.

Giants Score 9 in 1st, Rout Dodgers

NEW YORK (AP) — The New York Giants smeared the Brooklyn Dodgers, 16-7, Wednesday, wrapping up the game in the first inning with a nine-run barrage.

Hank Thompson, with two inside-the-park homers, Don Mueller, with a grand slam homer, and Ed Stanky, with a bases loaded hit attack against six Brooklyn pitchers.

Sal Maglie coasted to his 11th victory and sixth straight and only Gil Hodges ruffled his feathers. Hodges drove in six Brooklyn runs on a pair of three-run homers.

The Giants sent 14 men to tie plate in the first inning against Carl Erskine, Joe Hatten and Chris Van Cuyk.

Brooklyn 004 000 030—7 2 2
New York 002 000 20x—16 13 1
Erskine, Hatten (1), Van Cuyk (1), Barney (2), Rankin (3), Lee (8) and Campanella; Maglie (11-3) and Calderone; Losing pitcher, Erskine (6-2). Home runs — Hodges (2-17th) and Rice, Thompson (12-14th and 15th), Mueller (4th).

Rizzuto Paces 11-Hit Yank Win Over Nats, 9-4

WASHINGTON (AP) — Phil Rizzuto collected four of the Yankees' 11 hits Wednesday night as they capitalized on five Washington errors to defeat the Senators, 9-4. Tom Ferrick, third New York pitcher, was credited with the win.

New York used three walks, a hit batter, two errors and two singles to score five runs against Sandalo Consuegra in the third inning. That big session boosted the Yankees into a 7-1 lead.

New York 101 500 011—9 11 3
Washington 100 120 000—4 9 5
Ernie, Sanford (3), Ferrick (7) and Berra; Consuegra, Harris (7) and Grasso. WP—Ferrick. LP—Consuegra.

Higley Ousted, 3-1, In Junior Tourney

AMES, IA. (UP) — Cross-handed Billy Sparks knocked off his first two opponents Wednesday to maintain the top ranking among players in the National Junior golf tournament.

The 17-year-old Atlanta, Ga., tourney medalist removed Charles Strack, York, Pa., in the second round, 4 and 3, after eliminating Frank Little, Greensboro, N.C., in the first match.

Wayne Higley of Iowa City was dropped from the running in the first round when he lost a 3 and 1 decision to Bill Curtis of Detroit.

Cubs Sink Redlegs In 12 Innings, 4-3

CHICAGO (AP) — Bob Ramazotti's triple and a single by Ron Northey gave the Chicago Cubs a 12-inning, 4-3, victory over the Cincinnati Reds Wednesday. Both Frank Hiller and Herman Wehrer went the full distance.

Ramazotti was making his first appearance since he twisted his right knee pivoting on a double play here July 19. He was in the game only because Hank Sauer had batted for Twig Terwilliger in the ninth inning.

The victory was the Cubs' third in succession since their return to Wrigley field Monday and their first good streak since they beat the Phillies three straight in mid-July.

The Cubs made 11 hits off Wehrer, including three singles by Bob Borkowski, and Andy Patzo's 28th homer of the season.

The Reds' 13-hit attack included Johnny Wyrostek's sixth homer of the season. It accounted for two of the three Red runs.

Cincinnati 200 000 010 000—3 15 4
Chicago 031 110 000 000—4 14 4
Wehrer (9-11) and Pacansky; Howell (8); Hiller (6-2) and Owen. Home runs — Wyrostek (6th), Patko (28th).

Sports Official Dies

KANSAS CITY (AP) — Ted J. O'Sullivan, 47, widely known sports official, died Wednesday in a Kansas City hospital.

O'Sullivan was graduated in 1927 from the University of Missouri, where he starred in both football and basketball. He captained the Missouri basketball team in 1927.

North Atlantic Chiefs of Staff Meet

NORTH ATLANTIC CHIEFS OF STAFF committee of the North Atlantic Ocean Regional Planning group, gathered at the main Navy building in Washington Wednesday to begin their third meeting. The committee is the highest level of five regional planning groups within the North Atlantic Treaty organization. Left to right: Capt. L. J. Robins, chief of staff, Belgium navy; Capt. Georges Canier, French navy; Rear Admiral Jorkheer H. A. van Foreest,

Royal Netherlands navy; Vice-Admiral H. T. W. Grant, chief of staff, Royal Canadian navy; Admiral William Fechteler, commander in chief of Atlantic fleet, U.S. navy; Sir Cyril Douglas-Pennant, head, British Joint services mission; Rear Admiral J. E. Jacobsen, Royal Norwegian navy; Magnus V. Magnusson, counselor, legation of Iceland; General J. F. de Barros Rodrigues, chief of staff, Portuguese army; and Rear Admiral E.J.C. Qvistgaard, Royal Danish navy.

Motion Picture Operator, Architect Positions Open

Civil service examinations for architects and motion picture projectionists have been announced by the civil service commission.

Architect salaries are from \$3,825 to \$5,400 a year; and projectionist salaries, from \$2,650 to \$3,825.

Positions to be filled are located in various federal agencies in Washington, D.C.

GOP Will Favor Red Control Bill, Senator Taft Says

WASHINGTON (AP) — Sen. Robert A. Taft (R - Ohio), said Tuesday that most Republicans will support a move to tack the Mundt - Ferguson - Nixon Communist control bill to the senate's economic controls legislation.

He made the statement after the senate Republican policy committee, which he heads, decided to take no formal stand on the question. Democratic leaders were confident they could defeat the GOP maneuver.

At the same time, the house un-American activities committee began drafting a five - point Communist - control bill which would require all Communists and Red front organizations to register with the justice department.

Acting Chairman Francis E. Walter (D-Pa) said members had agreed on "basic principles" and hoped to approve the bill within a week. He said it will include some provisions of the Mundt-Ferguson-Nixon bill which President Truman dislikes.

Taft said the Mundt-Ferguson-Nixon had been rewritten "to remove all constitutional objections and I will vote for it — I think the Republicans will vote for it."

No written test will be given for the architect examination. To qualify, applicants must have completed a four year college course in architecture or have had four years of appropriate technical experience.

Three Years Experience
In addition, they must have had from one to three years of professional experience. Pertinent graduate study may be substituted for two years of the required experience.

Applicants for motion picture projectionist must pass a written test and have had from one to two years of experience in the operation, maintenance, and repair of motion picture sound projection machines and equipment.

Age Limits Waived
Age limits, 18 to 62 years, will be waived for persons entitled to veteran preference.

Full information and application forms may be obtained from the local postoffice, or from the U.S. Civil Service commission, Washington 25, D.C.

Applications for architect will be accepted until further notice. Applications for projectionist must be filed with the commission's Washington office not later than Sept. 12.

CONDITION 'GOOD'
Mrs. Nellie Hilton, 61-year-old Vinton woman who suffered a broken back in a truck - car collision near North Liberty Saturday, was reported in "good" condition Wednesday by Mercy hospital authorities.

Delayed Report: Marines Withdrew 27 Miles

(The following story on a withdrawal by U.S. Marines on the south end of the Korean war front was held in Tokyo for security reasons at the army's request. Similar ones from other correspondents also were held up.)

(When Marines were identified in action in a story Wednesday on an offensive at Changnyong, The Associated Press — and presumably other services — requested clearance for the original pullback story.)

(The headquarters press information officer checked with the Eighth army and then said "everything is released.")

WITH U.S. MARINES IN KOREA (Delayed for security reasons) (AP)—Tired and angry American Marines Sunday pulled back 27 miles to new positions on the southwest Korean front.

(Presumably these are the same forces which took part Wednesday in the Changnyong offensive.) The leathernecks gave up virtually every inch of ground they had gained during a four-day attack.

It was another shortening of the line to thicken up what few forces the United States has in Korea.

Long columns of dusty Marines quit positions which were only three miles from Sachon. They had been expected to take Chinju shortly.

The order to withdraw came from the high command after the Marines had made the best advances recorded to date in Korea — and with small losses to themselves.

First the army detached one Marine battalion to clear the rear of Hawaii's fifth regimental combat team which frequently has been in combat trouble since it was committed. Then the other two were shuffled back to new positions within sight of where they jumped off.

The Marines' phase of the southern offensive now is virtually nullified insofar as ground gained is concerned. Army officers say, however, that Marines mauled the sixth North Korean division, one of the enemy's crack units, and hammered enemy armor. To that extent, it was a success.

2 Traffic Violators Pay \$17.50 Fines

Two persons were fined a total of \$17.50 for traffic violations in Iowa City police court Wednesday.

Glenn Garringer, route 1, Iowa City, was fined \$12.50 for failing to observe a stop sign.

George E. Carson, 106 E. Fairchild street, paid a \$5 fine for parking on the wrong side of the street and driving without a rear license plate.

The case of the City of Iowa City vs. Harry Kloos, 704 Second avenue, was postponed until Monday in order that Kloos could obtain an attorney.

He is charged with maintaining a health nuisance in violation of the city code.

Senate Votes Lower Tax For War Industries

WASHINGTON (AP)—In a move to quicken rearmament, the senate finance committee Wednesday voted special tax treatment for industries which build factories or buy equipment to produce for the armed forces.

It decided to revise the World War II provision calling for "accelerated amortization" for such emergency facilities. The cost of a new arms - producing building, for example, could be amortized in five years for tax purposes.

This means that the owners of the factory could deduct 20 percent of its cost from gross income in each of the five years, before they compute their income taxes. Under existing law such amortization might have to be spread over 20 years or more.

Huibregtse Awarded \$435 Court Judgment

A \$435.43 judgment against R. E. Bromwell, operator of the Bromwell Milling company, Solon, was awarded Tuesday in Johnson county district court to E.H. Huibregtse, Johnson county. The suit for that amount had been brought for payment on an account dating from July, 1945.

Truman Says Fishing Skill, Not Luck

WASHINGTON (AP) — President Truman made it official Wednesday — fishing is a matter of skill, not luck. Not much of a fisherman himself, the President signed without comment a bill excluding fishing contests from the postal laws covering lotteries.

Iowa Casualties

WASHINGTON (AP) — The department of defense Wednesday announced the following casualties in the Korean war:

DEAD — (army) — PFC. Arlynn C. Burke, son of Clifford Burke, route 1, Thompson. (Previously reported missing in action.)

WOUNDED — (army) — Sgt. Meis A. Anderson, son of Mrs. Freida Anderson, Ruthven.

INJURED — (army) — Sgt. 1st class Wendell S. Dorman, husband of Mrs. Thelma Dorman, residing in Far East command, and son of Willie S. Dorman, 1406 4th avenue, Council Bluffs.

Judge Orders Test Of Oxley's Sanity

George D. Oxley, 23, Iowa City, Wednesday was ordered committed to Psychopathic hospital for a mental examination.

Judge James E. Gaffney of Johnson county district court issued the order on application by Oxley's attorneys.

Oxley had been held in the Johnson county jail pending arraignment on a felony charge.

He was charged Aug. 5 with breaking and entering the Chi Omega sorority house, 804 Iowa avenue.

VOTED WRONG

WASHINGTON (AP) — The CIO has reviewed the voting records in congress and declared that Sen. Bourke B. Hickenlooper (R-Iowa) seeking reelection, was one of nine senators who voted "wrong" every time from the CIO viewpoint.

Superfortress Raid 'Like Atomic Bombing'

By CHARLES CORDDRY
United Press Aviation Writer

Aboard Superfortress over Korea— If the North Koreans ever heard of the atomic bomb they must have thought this was it.

Ninety-nine B-29s, 98 of them carrying 500 pound bombs fused for instantaneous explosion, cascaded 970 tons — 1,940,000 pounds — of death and destruction in their midst.

The explosions, at carefully spaced intervals over a small piece of Communist-occupied Korea (7½ by 3½ miles), rocked our ship, Esmeralda the Worry Bird, at 10,000 feet.

The concussion was so great that Staff Sgt. James W. Wilson, 21, of Dry Branch, W. Va., our radio operator, yelled "they're shooting at us."

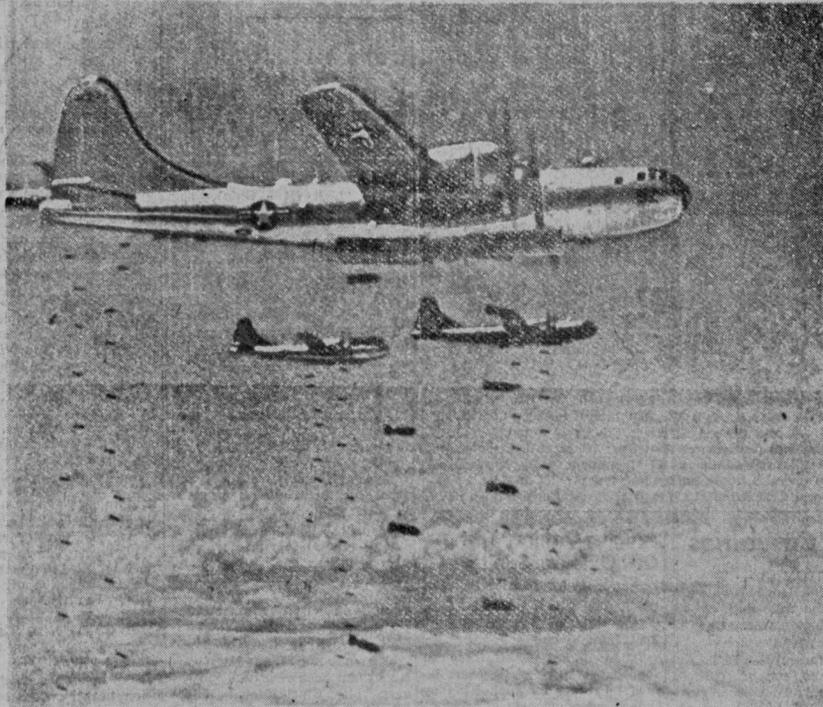

Plane Rocked

But the Communists weren't shooting. They were far too busy for that. The plane rocked from the explosion of the bombs dropped from the planes ahead and from our own.

Wilson and I watched the Esmeralda's forty 500-pound bombs plummet to earth on the area where our communiques said the Communists were concentrating across the Naktong river from Taegu.

We watched through a little hole that opens onto the bomb bay — a bird's eye view of this massive, daring, almost desperate effort to break up the enemy concentration west of the Naktong.

From 10,000 feet — uncommonly low for a B-29 — we had no

way of estimating the damage we had wrought. But on our radio we caught this report from a ground station:

"Target area completely saturated."

Col. Claude E. Putnam of Jacksboro, Texas, commanding the 92nd bomb group and leading the attack, reported perfect bombing on what was first regarded as a touch and go mission.

Maj. Gen. Emmett C. O'Donnell, far east bomber commander who observed the raid from the 99th B-29, made it clear to reporters at his headquarters Tuesday night that the mission would be carried out only with favorable weather.

Close to GI's

"We are too close to our own troops to take any chances," O'Donnell said. "We will bomb only if we can do so visually. B-29s never have done anything like this before. We sure want to help those guys (ground troops) if we can."

"If the target is there, we will hit it. If not, all we lose is some bombs."

O'Donnell himself was enroute to the target area in his B-29 well before sunrise to make his own weather observations.

Meanwhile at 4:25 a.m. the crews assembled for a briefing at bomber bases in Japan and Okinawa.

Putnam told those at the Japanese base:

"Remember. Bomb only west of the Naktong. Do not open the bomb bay doors over friendly territory. If you have any doubt, do not bomb. You will never be criticized for that. You will never hear the end of it as long as you live if you drop on friendly troops."

AMERICAN PRISONERS IN KOREA. This picture from the New China News Service, official Communist organization operating in Peiping and other cities, was obtained from the Daily Worker in London, which published it with this caption: The first batch of American prisoners marches through the streets of Pyongyang, principal town in North Korea. The London Daily Worker advised it received the picture directly from Peiping with that caption.

OIL REFINERY in Wonsan, North Korea, is a virtual explosion of flames after an attack by U.S. B-29 Superfortresses, which dropped more than 625 tons of bombs.

MEN AND EQUIPMENT were loaded on a transport plane at Pohang airfield, abandoned by the airforce after North Korean forces took the neighboring town of Pohang and threatened the field. In the foreground are cannibalized planes which had to be left on the field.

AN ENCLOSED STRETCHER bearing a wounded American soldier was mounted on the side of a helicopter in South Korea. The helicopter then transported the casualty to an evacuation hospital. This is the newest type for evacuating wounded from front.

AN AMERICAN SOLDIER (foreground) kept watch from a fortified ridge overlooking a burning village in the Pohang area of the Korean battle front, as he covers comrades (center, under gun) patrolling a hillside. A full South Korean division has been moved to this northern sector front to help hold the important Pohang airfield, which is now out of operation because of the Red advance in the area.

U.S. INFANTRYMEN moved up through a village in the Pohang area in Korea to take up positions against the Communist forces on the northern Korean front. Combined U.S. and Korean Republic troops are battling to drive the invaders back to make nearby Pohang airstrip operational again.

A NAVY F4U CORSAIR zooms off the deck of a carrier off the coast of Korea in one of the many sorties against Communist North Korean forces. Supply areas and communications facilities are targets.
