Tito to Receive Aid from U.S., Britain, France

WASHINGTON (AP)—The United States, Britain and France are making an immediate \$50 million start on an economic aid program aimed to help Yugoslavia's Marshal Tito contribute to the security of the free world.

The whole bill is expected to come to more than twice that much this year—perhaps \$150 million—with this country paying 60 to 65 per cent.

The plan is the outgrowth of conferences in London on means to bolster Tito's anti-Moscow regime and enlist it more firmly in the defense lineup against Soviet aggression.

Tito, while maintaining his Red ideology, has been turning more and more to the West as Russia and its satellites build up pressure over his refusal to accept Kremlin dictation.

A tentative agreement was reached on the plan in June among the three big powers and talks are now going on with the goal of bringing other nations of the West into the effort.

The final size of the help program and of this country's share depend somewhat on those talks.

A \$29,800,000 allocation from the economic cooperation administration to buy cotton, coke and steel was announced Tuesday as the first installment.

Striking Miners Agree To Washington Talks

DENVER (AP)—The striking International Union of Mine, Mill and Smelter workers agreed Tuesday to attend a wage stabilization board meeting in Washington to discuss the walkout of 58,000 workers that shut off supply of 95 per cent of the nation's copper supply.

President John Clark said he received an invitation from WSB Chairman George Taylor asking the union to join the board in hearings in Washington today.

Clark immediately notified union delegates throughout the country and many were on their way to the capitol before night-fall.

The union president then set out himself for a swing around locals to personally look over the scene of strike action over the country. Union headquarters here said it did not have his itinerary and did not know where he would make stops.

Members in 50 cities across the country went on strike Monday morning. Union spokesmen said the walkout was complete and no reports of trouble or violence had been received.

When he accepted the WSB invitation, Clark said "we want to cooperate in any way consistent with the interests of our membership and the general welfare."

GREENLEE CASE CONTINUED

DAVENPORT (AP)—A coroner's jury recommended Tuesday that Raymond G. Greenlee Jr., 20, be held for further investigation in the fatal shooting of Robert L. Smith, 20, at a trailer court here June 29.

New Czech Envoy

Vladimer Prochazka Gets Icy Reception

President Demands Czechs Free Oatis

WASHINGTON (AP)—President Truman gave the new Czechoslovakian ambassador a caustic tongue lashing Tuesday and forcefully demanded that the Communist dominated Czech government free American newspaperman William N. Oatis.

The new envoy, Vladimer Prochazka, called at the White House to present his credentials. He was in and out in less than five minutes and eyewitnesses to his meeting with Mr. Truman said the President dressed him down.

Prochazka, who has not had a very gay time since he arrived in the capital, told reporters that Mr. Truman received him in a "friendly fashion—relatively." But others who were present did not describe it that way.

White House Press Secretary Joseph Short said that after the usual exchange of formalities, Mr. Truman told Prochazka he would have nothing further to discuss with the envoy until Czechoslovakia does something about releasing Oatis.

Foreign Aid Bill Sent to Senate

WASHINGTON (AP)—Two senate committees recommended Tuesday that the United States spend \$7,535,750,000 building up the defenses of foreign nations allied with it against Communism.

President Truman had requested \$8 billion for the program, but the foreign relations and armed services committees cut the figure by \$964,250,000. The house sliced \$1,001,250,000 off the bill when it passed it by a 260 to 101 vote Aug. 17.

AFL Quits Policy Group, Wants CIO Merger

WASHINGTON (AP)—The AFL formally withdrew from the united labor policy committee Tuesday but simultaneously called on the CIO for early resumption of talks aimed at merging the two big labor organizations and their 11 million members.

CIO President Philip Murray promptly described the AFL action as "unfortunate" and gave no indication that his organization is ready to talk merger again. He said the whole question will have to be reviewed by the CIO executive board and convention.

The labor policy committee was set up last December to fight labor's battles in the mobilization program. It consisted of the AFL, CIO, the International Association of Machinists, which since has re-joined the AFL, and the Railway Labor Executives association.

Madness Bread Poisoning Brings Terror

PONT-SAINT-ESPRIT, France, (AP)—The French government Tuesday night ordered an investigation of a mysterious "bread madness" which has swept this Rhone-river town like a medieval plague, leaving three persons dead and 30 hospitalized with terrifying hallucinations.

Development of one case of a man who had not eaten the suspected bread raised fears the ailment may be contagious.

An appeal was made for five additional doctors and numerous nurses and psychiatrists to cope with the strange illness which has caused townspeople to commit suicide or left them screaming and trembling with delirium.

Dr. Louise Roche, chief of the health department of the guard department, confirmed the casualty figures and the seriousness of the town's plight. He said the village was in the grip of "a dangerous epidemic, apparently caused by a bread poisoning."

The national health ministry in Paris said it is possible the entire town will be quarantined.

The office of Mayor Albert Hebrard said 150 persons have been afflicted with the madness in the past 10 days.

The citizens of the town were seized with a nameless bread, unmatched since the great plagues of the middle ages. Hundreds flocked to church to pray that no more would be stricken.

Mayor Hebrard told terrifying stories of men and women who believed themselves burning, others who were trying to escape monsters and who thought there were snakes in his stomach.

Crime Probers Urge Crackdown On Rackets

WASHINGTON (AP)—Senate crime investigators urged congress Tuesday to crack down on the multi-million-dollar "treasury balance" numbers racket and impose fines and prison sentences on bootleggers shipping liquor into dry states and counties.

Chairman Herbert R. O'Connor, (D-Md.) also introduced four other technical bills to make it easier for the government committees to apprehend witnesses who avoid subpoenas.

Like a host of other legislation offered by the committee, they stem from its sensational investigation of nationwide crime. None of the bills has been considered by the senate and they stand little chance of action before next year.

Murray said the CIO does not think the labor policy committee was "incompatible" with the development of organic unity. On the contrary, he said, the chance for unity was "substantially and progressively improving" through the committee.

"It is unfortunate," he said, "that the representatives of the AFL have now seen fit to break up this useful instrument for labor unity."

The AFL action ended the life of the committee which had won for labor full representation in all agencies dealing with the defense program. Labor ended a two-month boycott of the defense program only after President Truman agreed to give the wage stabilization board jurisdiction over all types of union disputes.

Ridgway Ready To Resume Talks; Rejects Plane Probe

Nehru Denies Russia Influenced India's Boycott of Jap Pact

NEW DELHI, India (AP)—Prime Minister Nehru said Tuesday India's decision against taking part in the Japanese peace conference at San Francisco was made "quite independently of Russia."

"In fact," he continued at a two-hour news conference, "we presumed they would not go."

(Russia's decision to attend the peace conference was announced officially Aug. 13. Nehru made known last week-end India's intention to stay at home.)

Nehru told newsmen India expects to conclude a bilateral treaty as soon as possible with Japan. He said also he saw no reason India should not support an application by Japan for admission to the United Nations after peace treaties are concluded.

The proposed San Francisco treaty will make Japan independent "with limitations," Nehru said. He repeated his objections to treaty provisions for stationing United States troops in Japan and said Japan should be permitted to make any mutual defense treaties with other countries as she desired.

TOKYO, (WEDNESDAY) (AP)—Gen Matthew B. Ridgway refused a Communist demand today that he reopen an investigation of the Kaesong "bombing" incident but offered to resume the armistice talks when the Reds end their suspension of them.

The fact that Ridgway's reply to Gens. Kim Il Sung and Peng Teh-Huai was comparatively mild after the heated exchanges of the past week led observers to believe the armistice negotiations might be resumed after nearly a week of suspension.

The Communists broke off the talks at 1:45 a.m. Aug. 23 after charging an allied plane bombed and strafed the truce city of Kaesong and "tried to murder" the Red delegation. An immediate 2 a.m. on-the-spot investigation by Allied liaison officers showed the attack was a "frameup" and the evidence faked.

The Communist liaison officer refused to permit an inspection by UN officers by daylight and announced they were taking away the evidence for analysis.

Then in another of the series of messages between the two sides the Communists "demanded" a full investigation.

Ridgway told them today in a three paragraph message:

"The offer you now make to (Continued on Page 8)

GE Offers 2 1-2% Raise to 270,000

NEW YORK (AP)—The General Electric Co. Tuesday offered its 270,000 workers across the nation a 2 1/2 per cent wage increase plus a cost of living raise.

The offer would boost GE average wages by somewhere above a nickel an hour to about \$1.80 or more an hour.

The big electrical firm unveiled its offer at negotiations with the CIO International Union of Electrical Workers.

An officer said he didn't think the federal wage stabilization board would have any objection to the 2 1/2 per cent increase.

The CIO-IUE had demanded a general wage boost of unspecified size, plus a cost of living raise hooked to the government's price index.

U Hospitals Report 1st Polio Death Of This Summer

A five-year-old Keswick boy died of polio in University hospitals Tuesday—the first polio death at the hospitals this summer.

The boy, Michael Bender, son of Mr. and Mrs. Lawrence Bender, was admitted to the hospitals only Monday night. Last year at this time seven Iowans had died of polio at the University hospitals.

Another polio patient, Matthew Fogarty, 2, Alma, also died in the hospitals Tuesday, but officials said his death was not caused by polio.

Two Iowa Citizens were the only new polio cases reported by University hospitals Tuesday.

They were Robert Stahle, 35, 919 E. Market st., and Shirley Fetzer, 21, who is a nurse at Mercy hospital. She is the daughter of Mr. and Mrs. Walter Fetzer, Williamsburg. Both patients were reported in "fair" condition.

Another Iowa Citian, Rita Antone six-year-old daughter of Mr. and Mrs. Albert Antone, 827 Dearborn st., was discharged from the hospitals. She had been a polio patient there since Aug. 16.

Also released were Myron Ahlf, 3, Muscatine, and Dennis Hippen, 6, Buffalo Center. Transferred to the inactive list were Leonard Smith, four months, Waterloo; Lloyd Stuber, 35, St. Joseph, Mo., and Thomas Vernon, 6, Ottumwa.

Weather

Partly cloudy, warm and humid today followed by scattered thundershowers tonight and Thursday. High today, 86; low, 67. High Tuesday, 87; low, 67.

IN THE BLEAK and forbidding Greenland, where American air power has an outpost, planes fly up ice-checked Tuna fjord.

By CHARLES J. THOBABEN
Central Press Staff Writer

KEFLAVIK, Iceland—Even when you're only part way across the Atlantic en route to Europe with the first United States air force reinforcements for the Atlantic pact nations you begin to be struck by the ubiquitousness of the American armed forces.

It used to be said that the sun never set on the British empire. The same can be said today of the Stars and Stripes because American military posts are sprinkled around the globe. In fact, to be a little facetious, the sun almost literally does not set on the flag during the summer at this little outpost, it is so far north.

The first flight of the 433rd troop carrier wing made the long hop from the neat, well kept USAF base at Stephenville, Newfoundland, with only a refueling stop at Blue West 1 in Greenland.

That desolate landing strip lying at the end of long, forbidding Tuna fjord and hemmed in by icecapped mountains, is held by a lonely contingent of air force ground personnel. While it is important to the U.S., a glance at the map will show of how much greater strategic importance it would be to the Soviet Union.

On the flight from BW-1 to Iceland, two of the flight of eight C-119's crossed the barren Greenland icecap rather than follow the longer, but less hazardous route around the southern tip of Greenland.

The pilots who elected to go to the 14,500-foot altitude necessary to cross the blinding whiteness of the icecap were Col. Harry W. Hopp of Kent, Ohio, the wing CO, and Lt. Col. C. P. Chima of Akron, Ohio, group CO.

Passengers on Colonel Chima's "Rippling Rythm" got a taste of Arctic fridity when a minor gas

leak forced the turning off of the heating system during the crossing. It was only last May that the U.S. armed forces returned to Iceland under the command of the Army's Brig. Gen. E. J. McGaw after an absence of four years.

General McGaw's command includes a single battalion of the 278th Infantry and air force base units. MATS will share control of the big Keflavik airport with Icelandic civilian authorities.

The agreement between Iceland and the U.S. to permit return of American forces to the island republic was intended to promote the security of the tiny, unarmed nation and to strengthen the strategic situation of the North Atlantic powers.

However, it was obvious to correspondents that the single infantry battalion, housed in quonset huts on the wind-swept lava rock plains, couldn't defend itself against any serious attack, let alone the whole republic.

The American forces lack even any artillery, which is rather ironic in view of the fact that General McGaw has been an artillery officer all his career of more than three decades.

Of course, strengthening of these forces is planned, but time is essential to accomplish this here, as everywhere else in the NATO blueprint for its defenses against Russia.

Temporary weakness unfortunately is not the only problem confronting Americans in this barren land. To say that the populace generally looks upon the presence of Yankee troops with favor would be a rosy misinterpretation of the facts.

Officers do not hesitate to point out that two large blocs of Icelanders oppose, presently at least, the arrival of the Americans. They are comprised of the 20 per cent of Icelanders who voted for the

Communists in the last election and another 40 per cent who have violently nationalistic feelings born of the republic's recently acquired independence.

Luckily the officials running the island's government do not fall into these categories and there is a strong belief that the pro-American elements will gain a majority.

U.S. officers point out, for example, that the 20 per cent Communist vote obviously includes many who were temporarily swayed by Red arguments and who may be expected to dissociate themselves from the Moscow-guided coterie as has happened in other countries.

One thing is certain, though. Whether freedom-loving Icelanders eventually swing around to general acceptance of the American presence depends to a great extent on the diplomatic ability of the Yanks, not only the officers, but the enlisted men as well.

Putting it simply and bluntly, Iceland is an excellent place to prove that America means what she says in proclaiming a world-wide stand squarely in favor of peace without infringing upon the rights of others.

Kimball Favors Education for Vets

NEW YORK (AP) — Secretary of the Navy Dan A. Kimball thinks Korean war veterans should get a government-paid education, but not cash payments for unemployment while getting resettled as civilians.

Kimball told the 52nd annual encampment of the Veterans of Foreign Wars Tuesday that the G.I. bill of rights of World War II contained a "scattergun approach which led to outright abuses."

Senate hearings start next month on legislation to extend to Korean veterans the benefits granted World War II G.I.'s. Kimball said G.I. home loans ought to be available to "people who are still in the service."

Where World Was Flat

Zion, Ill., Famous Blue Law Town Celebrates Golden Anniversary

ZION, ILL. (AP) — A fantastic page from the history of America will be revived here this weekend when the city of Zion celebrates its 50th anniversary.

But some of the most amazing parts of the story will be skipped over lightly to avoid reopening old wounds that are only now beginning to heal.

Zion residents once believed and taught that the world was flat. Tobacco and liquor were taboo here. Women who exposed even their necks and elbows were censured. Theaters were outlawed. Card playing? Horrors!

Zealot Founded Zion

The city was founded single-handedly by John Alexander Dowie, creator of the Christian Catholic church and an intense religious zealot.

Born in Scotland, he came to Chicago by way of Australia and built a tabernacle on the near south side in the 90's. From the collection plate he amassed a fortune of \$5 million.

With the money he bought a 10-square mile area on the lake front halfway between Chicago and Milwaukee. It was there that he founded his "sinless city."

Residents were forbidden most of the enjoyments of life. Even whistling was a jail offense. And they were required to give Dowie his "tithe"—one tenth of whatever they earned.

Dowie became immensely wealthy and soon built a \$100,000 home called Shiloh mansion which still stands.

All this will be depicted in a pageant which will be staged in Zion this week. The pageant will show Zion from its founding by Dowie on July 14, 1901, to 1906 when he left for England on a preaching tour.

Blue Laws Turn Black

But the pageant will skip over the next 50 years to the present Zion, a typically-modern town where girls walk on the street in shorts, men smoke cigarettes in public and residents attend movies.

Those intervening 50 years are perhaps the most interesting part of the story.

When Dowie went to England, his place as the city's leader was appropriated by one of his helpers, Wilbur Glenn Voliva. When Dowie died a year later Voliva had complete control.

Voliva turned Dowie's blue laws almost black.

He made it unlawful for two or more persons to congregate on the streets. Residents were forced to wear drab shroudlike clothing.

And Voliva made it a law that the world was flat.

For 23 years he held sway until the early 1930's when he began to lose power as more people moved into the area from Chicago and laughed at the strange ideas of the Christian Catholic church.

The famed Zion industries, operated by the church to produce fancy lace, cookies and candy for sale to the outside world, went bankrupt. Voliva gradually lost

power and finally was thrown out as secular and religious head of the community.

He died Oct. 11, 1942. His widow still lives here.

NYU Owns Industries

Meanwhile, the strict laws were relaxed little by little.

The town still bans liquor and pool halls, but otherwise the city is similar to any other in the nation.

New York University owns most of the controlling interest in Zion industries which is once more a going concern.

Other churches have established congregations there and the Mayor, Leer Fleming, is a Presbyterian.

"The old dissensions are ended," Fleming said. "All the churches in the city are cooperating on this weekend's celebration."

The celebration will start with a parade Saturday and will be climaxed by the pageant Labor day.

But Zion's most famous historical fugure, Voliva, won't be mentioned.

Youngdahl Named Judge

WASHINGTON (AP) — Luther W. Youngdahl, governor of Minnesota, was confirmed by the senate Tuesday as a U.S. district judge for the District of Columbia. Youngdahl is a Republican. He succeeds the late T. Alan Goldsborough.

IOWAN VOTES IN SENATE

WASHINGTON (AP) — Sen. Bourke Hickenlooper (R-Ia.) voted with the majority as the senate Tuesday passed, 55-16, and sent back to the house a bill intended to cut off military trade to Soviet Russia and her satellites by denying U. S. aid to any nation making such shipments. Sen. Guy Gillette (D-Ia.) was not reported as voting.

AEC Announces New Atom Tests for Nevada

WASHINGTON (AP) — The Atomic Energy commission announced Tuesday that a new series of super-secret tests involving atomic and conventional explosives will be held "in the near future" at its Las Vegas, Nev., proving grounds.

While the commission did not elaborate for security reasons, the experiments apparently will be designed to improve further the "streamlined" atomic charges for artillery shells and guided missiles that were involved in the earlier Nevada tests.

If this is the case, it means the commission is a long step nearer the development of atomic weapons

which can be used against enemy troops in the field to supplement powerful new A-bomb attacks on hostile cities and industrial centers.

In this connection, chairman Joseph C. O'Mahoney, (D-Wyo.) of the senate military appropriations subcommittee said only Monday that science is arming American fighting men with weapons "not even imagined during World War II."

"Guided missiles, pilotless planes and atomic weapons far more effective than we have are already here," O'Mahoney said.

Any idea that the tests would involve improved new A-bombs

or pilot models of the dread hydrogen bomb seemed to have been ruled out by AEC chairman Gordon Dean's recent statement that any really big atomic "bangs" are held at isolated Eniwetok island in the Pacific.

In its brief announcement, the AEC said only that it "has authorized a program of experimental detonations of both ordinary high explosives to begin in the near future."

"The blast wave experiments, which were announced recently and which involve detonations of small amounts of high explosives are part of the continuing Nevada activities."

'After 5' Fashions in Jersey, Taffeta, Lace, Velveteen

WOOL JERSEY AND TAF-FETA combine in a cocktail dress. The bodice is tied with bows on the shoulders. A net lining shapes the skirt, which is scattered with braid medallions.

DULL ORANGE-GOLD velveteen adds drama to this two-piece evening costume by Alan Graham. The sneath dress is ensembled with a bulky, mink-collared storm coat.

RED COTTON LACE embroidered all over in swirling circles of gold will cut a wide swath of glamour any evening. Crisp and exciting, its scalloped, bare-necked bodice may be covered up on occasion with the matching jacket. Its own red-slip and cotton crinoline petticoat make much of the dance-able bouffant skirt. The dress is by Rappi.

VELVETEEN AGAIN, in faded blue makes these whimsical dungarees by Stanley Wyllins. He combines them with a rhinestone-buttoned corduroy man's shirt.

For Stay-at-Homes or Gadabouts —

Gay 'After-Hour' Clothes Seen for Fall

After-hours relaxation means many things to many women. It may mean a glamorous evening-on-the-town; romping or studying in the college dormitory; luxuriously fire-siding, either alone or as a hostess.

Whatever your choice designers this fall offer clothes to make a gay, new woman of you.

No princess could look lovelier than the girl who dons Rappi's misty beige cotton net. Embroidered all over in non-tarnishable gold thread, its cloud-like skirt is very full and its strapless bodice draped with an unusual, sleeved stole.

In the same tradition of femininity, Filcol creates short formals in exquisite shades of cotton velveteen: burnt orange, fuschia, aquamarine, red, and black. Decollete necklines and full skirts predominate, with outstanding bodice and skirt detail giving them the couturier look.

Matching Venice lace trims the neckline of the fuschia; one strap and one bare shoulder marks the aqua; and a jacket with dropped lantern sleeves covers the burnt orange strapless. A bright red velveteen has a three-tiered, corded skirt.

The vogue for cotton petticoats, for the swirling, bouffant look under full skirts, hits its stride in evening clothes. In black, purple and emerald corduroy, Emily Wilkens designs her evening gowns with petticoats in paler, echoing shades.

One corduroy evening gown is trimmed with fake fur, and for a mixture of the ingenue and the worldly — tiny sleeves are sometimes attached to an otherwise bare-top bodice!

Rich textural effects and eye-catching trimmings show up on some of the most dramatic winter-evening clothes. Sam Friedlander adds drama to a group of fabulous formals in velveteen. Bodices are lavish with lace and jet embroidery, with "diamond" studded pin-tucking and gold bouillon inserts.

Janice Milan gets an interesting, unusual "texture-effect" through the use of narrow velveteen rope, with which she laces up the sleeves of a flare-skirted velveteen date dress.

Clothes such as these that can go anywhere for day or date are

particularly popular with active young moderns in college or city. Very popular, too, is the jumper-or-date-dress sheath, often seen in stark black or bright-colored velveteen or corduroy.

Home or dormitory "fire-sides" are brightened with delightful whimsies like faded-blue velveteen and corduroy dungarees combined with gay little tops.

Beginners Given These 5 Points In Home Canning

AP Newsfeatures

In an average year U. S. women put up about 4 million quarts of home-canned produce.

This year the total may be even more, because of Uncle Sam's blessing on a program to encourage home food production and preservation.

Each year federal and state workers, home demonstration agents and private companies initiate a new crop of home canners. Here are some of the points they teach the beginners:

1—For freezing or canning always select fully ripe, fresh, perfect fruits and vegetables. Especially such vegetables as peas, asparagus and corn must be completely fresh, as they lose quality rapidly after picking.

2—All food must be washed thoroughly, to remove bacteria.

3—For canning, jars, lids and rings should be washed thoroughly in hot, soapy water, rinsed well and boiled ten minutes in a solution of one tablespoon of baking soda to a quart of water.

4—If you use a pressure cooker, be sure you understand how it works before you start.

5—After food is canned, it should be stored in a place that is clean, cool and dry.

Detailed government bulletins on the subject are available free to the public by writing the Office of Information, U. S. Department of Agriculture, Washington 25, D. C. Two useful ones are "Home Canning of Fruits and Vegetables" and "Homemade Jellies, Jams and Preserves."

TODAY'S MENU

Celery-flavored Tomato Juice
Fried Chicken Salad Bowl
French Fried Potatoes
Buttermilk Muffins

Melon Slices Beverage
Ingredients for buttermilk muffins: 2 cups sifted flour, 3 teaspoons baking powder, 1 teaspoon salt, 2 tablespoons sugar, 6 tablespoons butter or margarine, 1 egg, 1 cup buttermilk.

Method: Sift flour, baking powder, salt and sugar into a mixing bowl; cut in butter or margarine with pastry blender until particles are fine. Beat egg in a small bowl with rotary beater (electric or hand); add buttermilk and beat to combine.

Pour into dry ingredients all at once and stir quickly, just enough to moisten. Fill greased medium-sized muffin pans about 2/3 full and bake in hot (400F.) oven 20 to 25 minutes. Makes 12 muffins.

Coffee Conscious?

Do you make a first-rate cup of coffee?

1. Do you measure both coffee and water accurately?
2. Do you start with freshly drawn cold water?
3. Do you serve coffee as soon as possible after brewing?
4. Do you brew coffee at full capacity of the coffee maker?
5. Do you scald the coffee maker before using?
6. Do you wash the coffee maker after each use and rinse with clear hot water?
7. Do you keep the brew at serving temperature over very low heat?
8. Do you keep the cloth filter immersed in cold water when not in use?
9. Do you take special care to see that the brew is never allowed to boil?
10. Would you rather die than miss a single morning's cup of your own coffee?

If your score is 50 or less, the NCA says you're not drinking coffee — it's an atrocity; 60 to 70 — not bad, but certainly not good; 70 to 80 — fair to middlin'; 80 to 95 — good, but needs improvement.

Widows in 1950 Receive \$900 Million in Benefits

Living Space Gained By Extending Carpet

Just one more living room is the dream of many a homemaker whose active family overlap, in the family gathering place. Actually "escape" space is not a luxury but good therapy for congenial family life by relieving the pressure of being too much in one another's company.

The tendency today is to live all over the house. Rooms that function only a few hours of the day for sleeping or dining are a burden no busy household should have to carry.

It is quite possible to enlarge your living space without adding on to the house or taking a larger apartment. The trick is to make every room in the house count.

If all rooms are on one floor, continue the flow of carpet or rugs in the same design and color throughout the house for added spaciousness. The restful luxury of soft floorcovering plus today's popular dual purpose furniture will do much to change your bedroom, for example, to a quiet sitting-room retreat when teen-agers entertain their friends in the living room.

The new collections of carpets and rugs aid the homemaker achieve unity in her home decoration. Designs lean heavily toward casual patterns, practical, long wearing textures and small abstract designs.

'Strictly Stratospheric' Are Hats by Mr. John

Strictly stratospheric are the new fall hats designed by Mr. John for his "Out of This World" collection. Says this designer, who likes to be called the "Mad Hatter":

"So long as no one calls a 'Mr. John' hat down to earth I'll be a happy hatter, all day long." "What is less interesting than a woman with both feet on the ground? I want every woman who leaves my salon with a new hat to feel she's walking on air."

Women who became widows in the United States last year received \$900 million from their husbands' life insurance policies for their support and the support of their families, it is revealed in a survey by the Institute of Life Insurance.

In its new study, the first of its kind since 1949, the Institute found that women beneficiaries of life insurance receive 70 per cent of all the money which life insurance companies pay as a result of death.

Widows alone received nearly 60 per cent; sons and daughters received 13 per cent, widowers somewhat less than 5 per cent, and other relatives, 10 per cent.

The rest went to other individuals, to estates or institutions of one kind and another, or was divided among more than one beneficiary.

Benefit From 2-3 Policies

Many of the women in the United States whose husbands died last year received benefits from two or three or more policies. In 1950, there were 1,380,000 policies whose owners died; 500,000 of these policies named wives as beneficiaries. In the nation as a whole during 1950, around 450,000 women became widows.

As the Institute's new study shows, only a small proportion of life insurance benefits in America goes to institutions, business organizations or to people outside the policyholder's immediate family. The great proportion of husbands in America name their wives as the beneficiaries of their life insurance policies rather than their children.

Owned 10 Years

Most of the money which went out to life insurance beneficiaries in 1950 came from policies which had been owned for more than 10 years and from policies whose owners were over 60 years of age at their death.

For men and women between 20 and 45, the total amounted to more than \$200 million. And \$85 million came from policies which their owners had purchased less than 12 months before their death.

'Nudity Runs Riot'

News of Iowa

Speed Check Continues —

Man Vs. Machine

— 63 Motorists Fined

The test of man against machine continued on a "dry run" basis on Iowa City's streets Tuesday — and the machine appeared to be coming out the winner.

Police said they had checked 702 cars with Iowa City's new electric speed analyzer Tuesday and found 63 of them exceeding the given speed limits for the areas checked.

In a similar test Monday on different streets, police checked 1,178 cars and found 85 cars exceeding the speed limits.

Today is the last day for the "trial" of the new machine and police will begin issuing court summons Thursday to any motorist who drives his car past the machine at a rate higher than the speed limit.

Police said Tuesday Iowa City motorists were showing a healthy regard for the machine. Officers said most motorists evidently feel it would be a tough job to attempt to argue with the speed figures shown on the analyzer.

In a check conducted Tuesday morning on Melrose ave., police checked 348 cars and found 29 speed violators.

A check Tuesday afternoon on N. Dodge st. and also on Rochester ave. showed 354 cars checked and 34 violators.

The machine is set up with two rubber tubes that extend across the street. When a car crosses the first tube the machine is activated and when the second tube is crossed the machine automatically computes the speed of the car.

If the car is exceeding the speed limit, a red light on top of the device flashes a warning to an officer stationed a few blocks away and he stops the car.

Aged Local Resident John Struble, Dies; Funeral Is Thursday

John E. Struble, 75, 422 N. Dubuque st., died Tuesday at University hospitals. He had been a lifelong resident of Johnson county.

Mr. Struble was born Sept. 6, 1875, in Johnson county, the son of Mr. and Mrs. John Struble. He farmed for many years in Scott township before moving to Iowa City.

He was a member of the Eureka lodge 44 and Good Samaritan encampment of the I.O.O.F. for more than 50 years.

His wife preceded him in death in 1945. Surviving is one sister in Colorado.

Funeral services will be at 2 p.m. Thursday at Oathout funeral chapel. Odd Fellows services will also be held. Burial will be in Oakland cemetery.

Capt. A.K. Mathre Reported Killed

The defense department Tuesday reported the death of Capt. A. K. Mathre, former SUI student, who has been missing in action in Korea since last May.

Mathre received his A. B. and M.D. degrees from SUI and was a member of the Iowa State Bar association. He served four years in the European theater during World War II and was recalled to active duty in December 1950. Survivors include his wife and two children.

6 Sentenced to Death For Abdullah's Death

AMMAN, Jordan (P) — A special military court Tuesday sentenced six men—two in absentia—to die on a charge they plotted the assassination of King Abdullah, who was slain in Old Jerusalem July 20. Four others were acquitted and freed.

The doomed prisoners include Dr. Mousa Abdullah El Husseini, 35, a cousin of the exiled Former Mufti of Jerusalem.

University Hospitals Begin First Classes For Nurses Aides

University hospitals began Monday the first in a series of formal classes for beginning women nurse's aides employed in the hospitals.

Consisting of 30 to 40 hours of classwork and supervised ward training, the course of study will be carried out by graduate nurses on the hospitals staff.

The course, from 10 days to two weeks in length, is designed to teach new nurse's aides generally how to care for the sick.

While nurse's aides will not perform actual patient service during the training period, they will be preparing themselves to perform the many jobs they will later do.

All persons interested in nurse's aide training and employment are asked to contact the SUI personnel service in Old Dental building.

Washington Woman Receives School Post

Mrs. Grace Ferns, Washington, Ia., Monday was named Johnson county supervisor for rural schools. She succeeds Tim Rose who has accepted a position as grade school principal at Webster Grove, Mo.

Mrs. Ferns has had 15 years teaching experience in rural schools in Washington county and six years in the grade school at Keota. She received her B.A. degree from Iowa State Teachers college this past year.

Coralville Man Fined \$300 for Drunk Driving

Roy Fowler, 45, Coralville, Tuesday was fined \$300 and costs after pleading guilty to a charge of drunken driving in district court. His driver's license was revoked for 60 days.

Fowler appeared in court on an information filed by County Atty. William L. Meardon. He was arrested last Thursday on highway 218 north of Iowa City.

WOMEN'S GROUP MEET

DES MOINES (P)—Plans to coordinate the safety activities of Iowa women's organizations with the over-all program of the Iowa safety congress were discussed here Tuesday at a meeting of officers of the safety congress' home section.

(AP Wirephoto)

BURLESQUE SHOWS LIKE THIS ONE on the midway of the Iowa State Fair drew the fire Tuesday of Iowa Democratic headquarters which complained "nudity runs riot." The State fair board said its agents had found nothing improper, but would take another look. The four girls and barker shown above put on a preview of their show in the tent. (See story below.)

Democrats Hit Burlesque

'Nudity Runs Riot' Declares State Chairman About State Fair Girlie Shows

DES MOINES (P) — Democratic state chairman Jake More charged Tuesday that farmers were being "shamefully" entertained by G-string girls at the Iowa State Fair but the hubba-hubba girl — Evelyn West — emphatically disagreed with him.

"It's not so," Miss West said. "Our costumes are perfectly alright. We wear net bras and theatrical panties padded in the appropriate places but there's nothing indecent about our performance." At least three farmers agreed with her.

Insured Bosom

The shapely burlesque queen, whose bosom was insured by Lloyds of London for \$50,000, is starring in a big all-girl show at the fair. The fair is run by a Republican-controlled state fair board.

Democratic headquarters here in 1949 posted similar objections to Sally Rand. The objection was that Sally and her troupe did not represent the achievements and the ideals of agriculture.

Miss West said she considered More's criticism "good publicity for both of us, and I want you to know that I don't have a grudge against any party."

She said she hoped the Democratic publicity man "enjoyed our show."

Nudity Runs Wild

"Nudity runs riot," More said. "Nothing but a narrow G-string and two tiny lily-pads clothed more than a dozen girls."

"The dances themselves are licentious and lascivious in extreme. They are mixtures of the hula-hula, the muscle dance, the striptease and nude posturing. It is a shame that entertainment of this kind is offered."

To which Miss West retorted: "Do you think for one minute that the state fair of Iowa would permit an indecent show to go on here? No!"

Checks Show Often

Fair board executive secretary Lloyd Cunningham backed Miss West, saying that his "spotters" were checking girlie shows on the midway several times a day.

"So far, we haven't found anything to object to, anything improper," Cunningham said. "But we'll take another close look and we'll watch them more closely from now on."

The farmers, however, apparently liked what they saw in Miss West. Although refusing to be quoted by name, three of them questioned by a reporter said they thought the West show was "pretty good, and didn't seem like nothing was wrong with it in a shameful way. We enjoyed it."

Frank Morehead, state Democratic publicity chief who reported on the midway shows to Democratic officials, is more than 70 years old.

MRS. FORD RECOVERING

DETROIT, (P) — Mrs. Henry Ford II is recovering from a mild attack of polio at the Ford home in Grosse Pointe.

Her husband, president of the Ford Motor Co., disclosed Tuesday that she entered Ford hospital a week ago Sunday and was released last Friday. He added she suffered no crippling effects from the disease.

POLICE COURT

Roy Fowler, Coralville, \$300 and costs on a charge of operating a motor vehicle while intoxicated.

'DONATION' BINGO GAMES
DES MOINES (P) — Don F. Clinger, A member of both organizations, said Tuesday that American Legion and Veterans of Foreign Wars posts here will continue to sponsor "donation" bingo games.

He said the posts' system for sponsoring bingo parties for charity purposes will conform as nearly as possible to a legal interpretation set forth in an opinion by County Attorney Clyde E. Herring.

Earlier, Herring informed Police Chief Frank Mabee that such games are in violation of law if any "coercion, intimidation, ridicule or shame" is used to obtain contributions which permit players to participate.

Clinger said the posts would strive to operate their games on a "strictly voluntary" contribution basis. It was his understanding that games would not be illegal under such conditions, he added.

FAIR IN FULL SWING

DES MOINES (P) — Judging continued in full swing at the Iowa State Fair as thousands of persons flocked to the exposition grounds Tuesday under sunny skies and warm temperatures.

Fair officials predicted an attendance Tuesday of about 40,000 persons — about 9,000 more than attended the fair on Tuesday last year.

Everything was in readiness for today's state day observance with state officials special guest of the fair management.

LIQUOR SALES RISE

DES MOINES (P) — The Iowa liquor control commission said Tuesday sales of individual liquor permit books was up 10 per cent during the first six weeks of sales this year.

The commission said 104,144 books were sold between June 15, when they go on sale annually, and Aug. 1.

Chairman Harold E. Wolfe of the commission said "inability of people to get a drink at a night club has caused lots of persons to buy a permit book and drink their liquor at home."

NEW 4-LANE HIGHWAY

DES MOINES (P) — Gov. William S. Beardsley said Tuesday the state highway commission has ordered engineers to set up a four-way traffic stop system at the dangerous intersections of highways 9 and 33 north of Sibley.

WEEKLY CROP REPORT

DES MOINES (P) — The Iowa Weekly Weather and Crop Bulletin said Tuesday 73 per cent of the corn crop has a chance of escaping frost damage if the first killing frost comes at the usual time.

The report said the corn failed to show normal development last week because of cool, wet weather. Only 23 per cent had reached the soft dough stage, compared to 47 per cent a year ago.

ART OF HEALING

DAVENPORT (P) — The vice president of the Palmer School of Chiropractic said Tuesday "chiropractic is now the only healing art that has been classed a science and philosophy."

Dr. Dave Palmer, speaking at Tuesday's program of the school's annual lecture program, said congress has established the science as the second major healing art. "It is our challenge to continue to fight for rightful recognition," he said.

The lecture program continues through tonight.

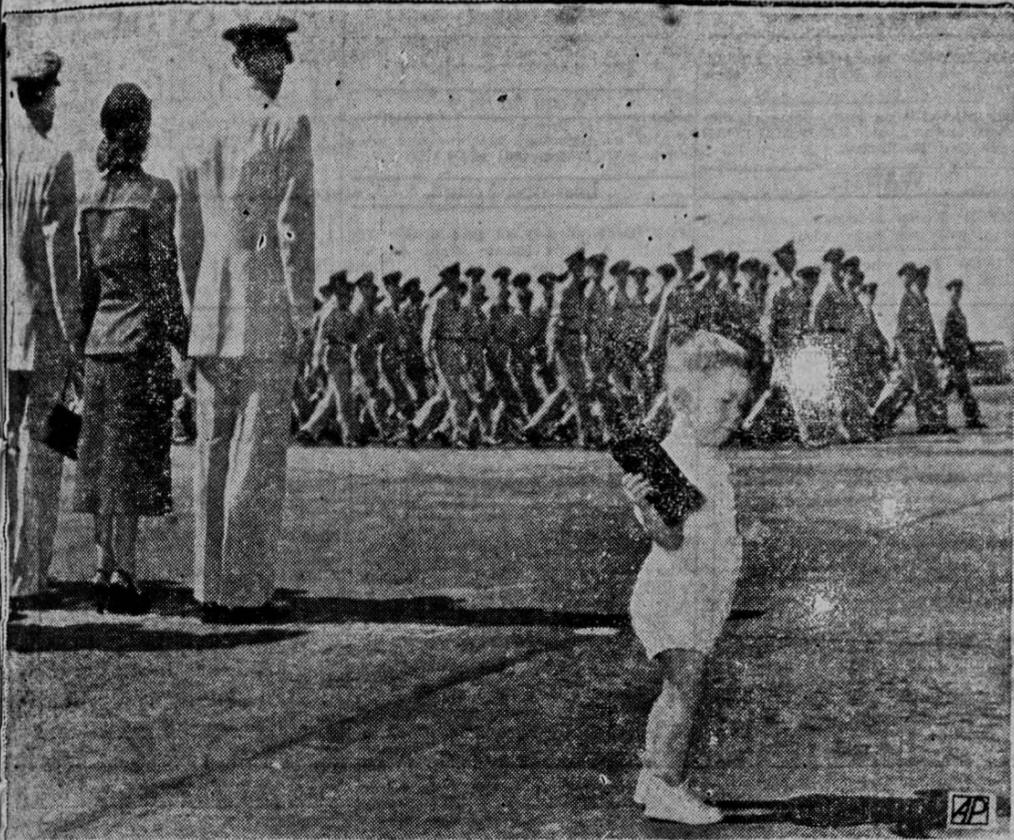

PERMISSION TO SELL NOTES

WASHINGTON (P) — The Securities and exchange commission Tuesday authorized Interstate Power Co., of Dubuque, to issue and sell an additional \$1,750,000 of its 2 3/4 per cent promissory notes to the Chase National Bank of New York and the Manufacturers Trust Co. The proceeds would be used for construction expenditures.

The News In Pictures

Big Day for Small Boy

Here's That Man Again

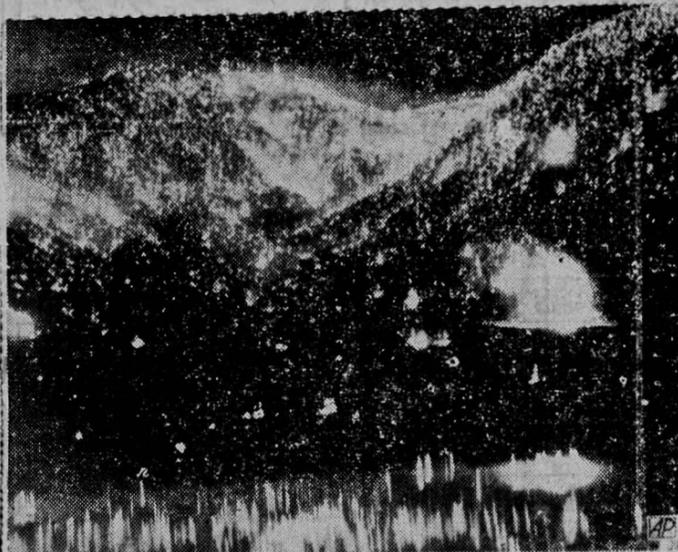

ANGUST 24 WAS A BIG DAY in the life of Louis J. Sebille III, but at 18 months of age he was too young to appreciate it. Gen. Hoyt Vandenberg gave him the Medal of Honor in the name of his father Major Louis J. Sebille, the first airman to win it in the Korean war. Louis held it in his hand as his mother, flanked by high-ranking air force officers, reviewed 4,000 airmen at March air force base, Calif. Major Sebille was killed a year ago near Hamchang.

RUSSIAN DEPUTY FOREIGN MINISTER Andrei Gromyko, complete with scowl, hurried from the gangplank of the Queen Elizabeth after arrival at New York Monday. The Soviet's veto expert man heads a 32-man delegation to the San Francisco conference on the Japanese peace treaty. Man behind Gromyko was not identified.

21 College Football Tilts—34 Teams—to Be On TV This Autumn

CHICAGO (AP) — Twenty-one college football games, involving 34 teams, will be televised alive this fall over 48 outlets, Edwin S. Reynolds, director of the experimental video program for the NCAA told the policy-making council Tuesday.

Reynolds said the full schedule of games would be announced Sept. 5. There will be three black-outs among the 10 football Saturdays in each of the video centers.

Eight teams will appear twice on the programs in conformance with the experimental plan which permits no teams to appear more than once at home and once on the road. It was known that Notre Dame would be one of these eight teams, as its home game with Southern Methodist and its road game with Navy will be on video.

Reynolds said four more video outlets on the west coast might be added to the present lineup of stations. In addition, he indicated, there might be local video of games in the southeast, southwest and the west as part of the experimental program and not on the network.

He cited New Orleans and Seattle as probable sites of local programs.

A definition of "effective control" of non-campus sites for intercollegiate sports events was approved by the council.

The definition, submitted by the extra events committee, called for institutional rent of the facility with complete control. Should this be impossible, it said, the institutions should be represented on the operational committee, handle ticket allocations and student tickets, control the concessions and arrange proper control of dressing rooms.

Won't Reaccept Own Expellees: Notre Dame

SOUTH BEND, IND. (AP) — The Rev. Father John J. Cavanaugh, president of the University of Notre Dame, said Tuesday students expelled from the university cannot be readmitted along with cadets who were expelled from West Point recently.

The Chicago Herald-American said Tuesday parents of boys expelled from Notre Dame have asked the school why their sons cannot be readmitted since acceptance has been offered the former West Pointers.

Father Cavanaugh said letters were sent to these parents explaining:

"To take back boys who have been excused from Notre Dame would hurt morale and discipline. But we hope that every boy dismissed by our school is given a chance at another institution.

"In not one instance has the cause of dismissal been of such a nature as to bar the boy from being taken in by another school."

Father Cavanaugh was not available for further comment on letters.

The school said 33 of the ousted cadets have applied for admission under an anonymous philanthropist's offer to pay their way. The cadets figured in a mass dismissal from the academy for cribbing.

Walcott Cancels Fight In Davenport Thursday

DAVENPORT (AP) — Heavyweight boxing champion Jersey Joe Walcott notified a Davenport promoter Tuesday he would not appear in a scheduled exhibition bout here Thursday.

Walcott informed Perk Purhage by telephone he is cancelling all his outdoor exhibition bouts. He said he would resume his exhibition tour this fall and would be glad to appear in an indoor exhibition here.

Walcott said he had run into so much bad weather that he had decided to wait until fall to resume the tour. Purhage said no new date was set for Walcott to appear in Davenport.

Louis Signs For 10 Rounds Vs. Marciano

NEW YORK (AP) — Unbeaten Rock Marciano, sensational Brooklyn slugger, got his big chance to earn a shot at the heavy-weight title Tuesday when he signed for a 10-round bout with ex-champion Joe Louis at the Polo Grounds on Oct. 11.

Promoter Jim Norris of the International Boxing club finally concluded the week-old negotiations by getting Marciano's manager, Marty Weill, to agree to take 15 per cent. He had been holding out for 20. Louis will get the lion's share, 45 per cent.

Norris said he expected the fight to gross over \$250,000 at a \$25 top price. Although the matter has not been settled, Norris indicated that the bout probably would not be televised. Right now it looks like another exclusive for the theaters.

Marciano, who will be 27 years old on Sept. 1, has won all 37 of his fights, 32 by knockouts, since he turned pro on July 12, 1948. He proved his merit on July 12 when he knocked out rugged Rex Layne in the sixth round at Madison Square garden.

The swarthy Massachusetts mauler won No. 37 Monday night when he kayoed rolypoly Freddie Beshore in the fourth round at Boston. Louis stopped Beshore in four rounds last Jan. 3 but he was unable to floor him.

It will be the 37-year-old Brown Bomber's ninth fight since he took the battering from Ezzard Charles on Sept. 27.

Terre Haute Clinches 3-1 Crown for 2nd Year

TERRE HAUTE, IND. (AP) — Terre Haute for the second year in a row is the Three-I league pennant winner.

The Phillies were assured of the title when Evansville's home game with Waterloo was cancelled by rain Monday night. Terre Haute is 7½ games in front with the regular ending Sept. 3. The Phils cannot be caught.

The Phillies will be favored to win the post-season Shaughnessy playoffs starting Sept. 5 among the four first division clubs.

Keokuk to Hear Veeck

KEOKUK (AP) — Bill Veeck, colorful owner of the St. Louis Browns professional baseball team, will speak at a Kiwanis club-sponsored luncheon in Keokuk today.

Keokuk, which still is interested in organized baseball, wants to enter the class B Three-I league. Burlington also is reported interested in entering the league.

Savitt Leads Tennis Quarter-Finalists

FOREST HILLS, N. Y. (AP) — Wimbledon champion Dick Savitt of Orange, N. J., led all of the high-ranking favorites into the fourth round of the U.S. Amateur tennis championships Tuesday as six seeded foreigners were bounced to the sidelines.

In the women's singles, second-seeded Shirley Fry of Akron, O., and Jean Quertier of England, second foreign seed, upheld their ranking by pacing the women into the quarter-finals.

Seeded invaders eliminated included England's Tony Mottram, fourth foreign seed; Australian Davis copper Don Candy, ranked sixth; South African Syd Levy, seeded eighth; Canadian Brenden Macken, ranked ninth; 10th seeded Lorne Main of Canada and, in the women's singles, Pat Ward of England, ranked fifth among the foreign women hopefuls.

Candy, Macken Upset
Candy and Macken were the victims of upsets, the Australian falling before Henri Rochon, unranked Canadian, 8-6, 8-10, 6-4, 4-6, 7-5, while Macken lost a delayed second round match to Grant Golden of Wilmette, Ill., 6-3, 6-3, 6-3.

Pirates Break Giant String at 16

Pirates 2, Giants 0

NEW YORK (AP) — Howie Pollet shut out the fumbling New York Giants Tuesday on six hits as the Pittsburgh Pirates ended the longest winning streak in the National league since 1935 — 16 games in a row — by winning, 2-0.

A brilliant pitching duel between Pollet, the veteran left-hander, and the right-handed Sheldon Jones of the Giants collapsed with a loud bang in the eighth inning on errors by Eddie Stanky and Don Mueller.

Frank Thomas opened the eighth with a single and Jones promptly walked Ralph Kiner, the mighty homerun hitter. Manager Leo Durocher removed him from the game and sent in Dave Koslo when Jones ran the count to 3-1 on Gus Bell. Jack Phillips then came in to bat for Bell and grounded into a double play on the first pitch.

The wild Giant throng at the Polo grounds raised a hopeful cheer. Clyde McCullough came in to bat for Joe Garagiola and sent a routine grounder to the veteran Stanky at second base. It looked as if the inning were over, but Stanky booted the ball and Thomas scored.

Then Don Mueller dropped a fly ball from the bat of George Strickland, and McCullough, running hard from first with two out, came all the way around for the second run.

Pittsburgh . . . 000 000 020—2 3 0
New York . . . 000 000 000—0 6 3
Pollet (5-10) and Garagiola, McCullough (8); Jones, Koslo (8), Kennedy (9) and Yvars. LP-Jones (4-10).

Cubs 1, Braves 0

BOSTON (AP) — The Boston Braves, who had won nine of their last ten games, were blanked, 1-0, Tuesday night by the Chicago Cubs as only 3,831 fans paid their way into foggy Braves field. Doubles by Turk Lown and Hal Jeffcoat scored the only run in the fifth inning.

Lown, who pitched his third victory, crashed a one out two bagger to right center, took third on an infield out and scampered home when Jeffcoat belted his two-base hit into right field.

Chicago . . . 000 010 000—1 5 3
Boston . . . 000 000 000—0 4 3
Lown (3-6) and Edwards, Owen (5); Nichols (8-5) and St. Claire.

Bums 3, Reds 1

BROOKLYN (AP) — Duke Snider drove in all of Brooklyn's runs Tuesday night as rookie Clem Labine pitched the Dodgers to a 3-1 victory over the Cincinnati Reds.

Snider snapped a 1-1 tie in the eighth inning, hitting his 28th

homer of the season with a man on base. Labine yielded seven hits in his first major league start.

Snider's drive into the left-centerfield stands came after Pee Wee Reese had singled and stole second with two out.

It was the ninth straight time the Dodgers have beaten Howie Fox, who hasn't won a game from Brooklyn since 1948.

Brooklyn scored its first run in the fourth inning when Carl Furillo singled and went to second as Reese grounded out. Snider brought Furillo home when he singled through short.

Cincinnati . . . 000 001 000—1 7 0
Brooklyn . . . 000 100 02x—3 7 2
Fox (7-11) and Howell; Labine (1-0) and Campanella. HR: Bkn-Snider.

Cards 2, Phils 0

PHILADELPHIA (AP) — The Philadelphia Phillies, shutout victors in their last three games, were shut out themselves Tuesday night, 2-0, by Max Lanier and the St. Louis Cardinals.

Lanier was the fourth straight left hander to pitch a no-run game here. Rookie Niles Jordan, Jocko Thompson and Ken Johnson pitched the Phillies shut outs against Cincinnati in the second game of a Sunday doubleheader and a two-night double-header Monday.

The veteran Lanier gained his fourth straight victory and second shutout in setting the Phils down on nine scattered hits.

St. Louis . . . 100 001 000—2 8 0
Philadelphia . . . 000 000 000—0 9 0
Lanier (9-8) and D. Rice; Church (13-9) and Wilber.

Indians 1, A's 0

CLEVELAND (AP) — Right fielder Bob Kennedy lofted a homerun into the lower stands Tuesday night, giving first place Cleveland a 1-0 victory over Philadelphia.

It was Kennedy's fourth homer of the season and he got it off Sam Zoldak, ex-Cleveland southpaw.

A crowd of 23,573 watched Bob's seventh inning clout give the Indians their 12th straight victory over the Athletics.

That brought Cleveland's total attendance for the season to 1,501,187, and made it the first club to pass the million and a half mark.

This was the second time in a row the Indians have beaten Zoldak, 1-0, and the fourth time they have beaten him this season.

Philadelphia . . . 000 000 000—0 5 2
Cleveland . . . 000 000 10x—1 4 0

paved the way for two New York runs in the top of the 10th inning as the Yankees downed the Browns, 7-5, Tuesday night before 5,981 fans.

Brownie hurler Tommy Byrne walked 13 Yanks.

Reliever Bob Kuzava opened the 10th with a walk. Hank Bauer sacrificed and both runners were safe on a late throw. Phil Rizzuto also sacrificed and was safe when Hank Arft fumbled the ball at first. A long fly by Joe DiMaggio and single by Phil Silvera drove in the runs.

New York 100 310 000 2—7 9 0
St. Louis 010 010 030 0—5 9 3
Rasch, Ostrowski (8), Hogue (8), Kuzava (8) and Berra, Silvera (5); Byrne (4-8) and Batts. WP-Kuzava (10-6).

Chisox 4, Nats 3

CHICAGO (AP) — Ray Coleman's double scored Nelson Fox with the winning run with two out in the tenth inning as the Chicago White Sox defeated the Washington Senators, 4-3, before 20,008 persons in Chicago Tuesday night.

Fox set the stage for Harry Dorish's third straight victory over Washington by opening the home half of the overtime inning with a single to right.

Al Zarilla sacrificed, and Orestes Minoso was purposely passed. Dick Porterfield, the losing pitcher as the Senators' five-game win streak was ended, got the second out when Eddie Robinson popped to Cass Michaels.

Coleman followed with a sharp double down the left field foul line to score Fox with the clincher counter.

Washington 010 002 000 0—3 8 0
Chicago . . . 030 000 000 1—4 9 1
Porterfield (5-6) and Klutz; Dorish (5-3) and Sheely.

Tigers 5, Bosox 4

DETROIT (AP) — Detroit Tiger third baseman George Kell punched out a two run single in the eighth to enable the Detroiters to come from behind Tuesday and nip the Boston Red Sox, 5-4, in the opener of a three-game series.

Kell, who surged into the American league battling lead Monday, picked up a pair of singles off Mel Parnell who lost his ninth game and his second straight to Detroit.

Red Sox rookie third baseman Mel Hoderlein was the goat of the day as he came up with a pair of costly fielding errors and was called out on an interference play while the third place Boston club had the bases loaded in the fourth.
Boston . . . 000 110 200—4 9 3
Detroit . . . 021 000 02x—5 7 0
Parnell, Kinder (8) and Moss; Cain; Bearden (4), White (7) and Swift. LP-Parnell (15-10); WP-White (2-4).

U.S. Arrests 7 Red Leaders In Hawaii

HONOLULU (AP) — The FBI Tuesday arrested seven persons as Hawaii leaders of the Communist party and charged them with conspiring to teach and advocate the overthrow of the U.S. government by force and violence.

Among the seven was Jack Wayne Hall, 36, Hawaii leader of Harry Bridges' longshore union.

The seven were rounded up at their homes in a continuation of the government's roundup of Communists.

They were arraigned before U.S. commissioner Harry B. Seiner, who set bonds of \$75,000 each despite vigorous objections of defense counsel.

When Steiner asked if the bond would be posted, Attorney Myer C. Symonds replied: "I guess they will have to be held in custody until we make arrangements to hold up a bank."

Hall has been a union leader in negotiations for a new contract with Hawaii's big sugar industry. A strike deadline has been set for Friday midnight. The union announced that negotiations would be suspended until Hall "is available to meet with us."

Ridgway Ready . . .

(Continued from page 1)

permit reinvestigation after this lapse of time could serve no purpose other than to continue this unjustifiable delay in the armistice negotiations.

"As stated in my previous message of 25 August, when you are prepared to terminate the suspensions of armistice negotiations which you declared on 23 August, I will direct my representatives to meet with yours, with a view to seeking a reasonable armistice agreement."

Ridgway's message, throwing the initiative back to the Communists, was handed to a Communist liaison officer at Pan Mun Jom, five miles below Kaesong, at 9:30 a.m. today (5:30 p.m. CST Tuesday). South Korean Lt. Col. Lee Soo Young flew to the delivery point by helicopter.

The message, written only in English with no copies in Korean or Chinese, was handed over to North Korean Col. Chang Chun-Sa and Chinese Lt. Col. Tsai Cheng-Wen. Neither of the Communist officers made any comment.

The tone of Ridgway's message was far milder than a 2,000-word statement issued earlier by his public relations office. That one repeated and sharpened up his earlier charges that the Communist charges of neutrality violations at Kaesong were a "sham."

Whereas the earlier statement derided the Communist demand for a new investigation of the alleged Allied bombing of Kaesong, Ridgway merely noted that the Communist liaison officer refused to permit a daylight inspection of the scene.

Labor Chiefs Gather in Final Meeting

LAST MEETING—AFL and CIO leaders pose together Tuesday shortly before President William Green of the AFL withdrew his organization from the united labor policy committee, an organization formed nine months ago to present a solid labor front during the defense mobilization period. Seated are Walter Reuther (left), president of the CIO auto workers and Green. Standing are James B. Carey (left), CIO secretary-treasurer, and George Meany, AFL secretary-treasurer. Story on page 1.

DiSalle Predicts Price Hike on Industrial Goods

WASHINGTON (AP)—Price Stabilizer Michael V. DiSalle said Tuesday that the controls law passed by congress last month will raise price ceilings on "practically all" manufactured goods—from processed foods to household furnishings.

He made the statement as railroad freight rates took another postwar rise and carried meat prices and possibly automobile prices along with them. DiSalle's statement also coincided with Republican charges that the administration is trying to "sabotage" the controls law.

The price chief said there is some doubt whether industry's actual selling prices will go up immediately, especially on consumer goods which have not been moving too rapidly. Another price spokesman thought new regulations required by the law might not become effective until December.

DiSalle refused to speculate on how high new ceilings might go under the so-called Caphart amendment to the price control law. It permits manufacturers to add to their selling price all direct and indirect cost increases from the start of the Korean war to July 26, 1951.

These costs include such things as overhead and advertising.

The freight rate increase was approved by the interstate commerce commission 20 days ago. The agency authorized eastern carriers to raise their rates 9 per cent and western railroads to boost rates 6 per cent to meet higher labor and other operating costs.

At the same time, meat packers were granted permission to raise their wholesale price ceilings to cover the higher freight charges. At least part of the increase is expected to show up in retail stores soon.

Italian Court Asks Extradition Of Ex-OSS Men

VERBANIA, Italy (AP) — The Verbania court requested Tuesday the extradition of two former U.S. army behind-the-lines agents for trial here on charges that they took part in the murder of OSS Maj. William Holohan, their commander on a secret mission in World War II.

Court officials said the two, former Lt. Aldo Icardi of Preakness, N. J., and former Sgt. Carlo Lodolce of Rochester, N. Y., will be tried here anyway in absentia if red tape prevents their extradition. They were accused formally of "participation in murder, participation in robbery, and participation in hiding the body of Major Holohan" who was slain in partisan-held territory of north Italy in 1944.

Red Trade Ban With 'Strings' Gets Senate OK

WASHINGTON (AP)—The senate Tuesday passed a bill giving President Truman "discretionary" authority to halt U.S. aid to nations trading behind the iron curtain after defeating GOP attempts to sidetrack the measure.

The legislation, which now goes back to the house for concurrence in senate changes, was approved by a roll call vote of 55 to 16 after two days of heated wrangling in which it was described as vital to America's allies and paternalism at its worst.

Just before the final vote, the senate voted 46 to 29 to reject a proposal by Sen James P. Kem, (R-Mo.), which would have sidetracked the bill by sending it back to the foreign relations committee.

All the votes against the legislation were cast by Republicans. Eighteen Republicans joined the Democrats in voting for the bill.

While the measure would give Mr. Truman the final voice in whether aid should be halted under most circumstances, it would make such action mandatory in the case of nations selling arms, ammunition or atomic materials to Communist-controlled countries.

On the Kem proposal to recommit the bill, seven Republicans voted with 39 Democrats against the move. One Democrat, Sen. Harry F. Byrd (Va.), voted with 28 Republicans in favor of Kem's proposal.

The senate acted on the bill with a sudden burst of speed after Democratic leader Ernest W. McFarland (Ariz.) had threatened to hold the senate overtime to finish the measure.

Solon Asks Stiffer Crime Punishment

WASHINGTON (AP)—Chairman O'Connor (D-Md.) said Tuesday the senate crime committee will seek legislation for stiffer penalties against underworld figures and broader powers for congressional investigating groups.

Gamblers, illegal liquor traffickers, lotteries and other criminal activities would be singled out as special targets under the proposed legislation, O'Connor said.

Sioux City Cemetery Halts Military Burial Of Indian Korean Vet

OMAHA (AP) — An army officer said that burial of a Winnebago Indian killed in action in Korea was halted Tuesday by authorities of the Sioux City, Ia., Memorial Park cemetery.

Lt. Edward J. Krischel said cemetery authorities stopped the burial as the body was about to be lowered into the grave because "only members of the caucasian race" could be buried in the cemetery.

The war victim was Sgt. 1/C John R. Rice, 37, who was killed in action Sept. 6, 1950, while serving with the eighth regiment, first Cavalry division. Rice was also a veteran of World War II.

Lt. Krischel is budget and finance officer of the Nebraska military district. He is a bugler who is often called on to play taps at military funerals. He said Sgt. Rice was to have been buried with full military honors.

Lt. Krischel said Sgt. Rice's wife, a white woman, had bought the lot in the cemetery and signed the contract without noticing a clause which barred her husband from burial here.

When the burial was stopped, M/Sgt. John C. Boles, attached to the army service unit escort service, called his headquarters in Oakland, Calif., for instructions. Officers in Oakland, Lt. Krischel said, called the quartermaster corps in Washington.

Finally, the lieutenant said, the body was removed to a funeral home in Winnebago, Neb. The officer said it will remain there until arrangements can be made to bury the veteran in a national cemetery.

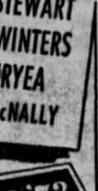

Lt. Krischel said that when cemetery authorities stopped the burial, they said they did not know Sgt. Rice was an Indian when they sold the lot to Mrs. Rice on Aug. 18. It did not occur to them to ask, they said, because Mrs. Rice was white.

Lt. Krischel said that "a lawyer for the cemetery authorities typed up a statement—a sworn statement—to have been signed by Sgt. Rice's wife, stating that she was the wife of Sgt. Rice who was killed in Korea, and that he was a member of the caucasian race."
