Child Drowns In Riverside Lagoon

Educator, Architects Outline New School Recommendations

Iowa school administrators and architects joined forces at an SUI conference this week, and came up with recommendations for the community considering a new school building.

Considering the problem of selecting a site for a new high school, the group recommended a minimum of 20 acres located in area serviced by all utilities and accessible to the school population.

Any school building program, they felt, should include a master plan providing not only for new buildings, but for future renovation and remodeling. Remodeling to gain space or to improve facilities should be undertaken only after a careful investigation to determine if the buildings are educationally and structurally worth renovation.

Informal Work Rooms Desired

For youngsters in the elementary grades, the planning groups emphasized the need for informal work rooms generously equipped with bulletin and chalkboards. If the school budget allows it, such "extras" as clear glass doors, green chalkboards and advanced acoustical treatment should be planned for the effective grade room.

Looking over the lunch room provisions, the conferees observed that many Iowa schools do not have separate lunchrooms, but have the food carried on trays to their rooms. Considering the slow eating habits of the kindergarten and primary set, it was felt that this practice was acceptable in that it provided a longer lunch period for these youngsters. Elementary and secondary pupils should, however, have separate lunchrooms.

Group Plans Libraries

In considering the library requirements of the present-day elementary school, the group recommended a central library as well as extensive library facilities within each self-contained classroom. Library facilities in the secondary school should be developed in terms of enrollment and community usage of the library.

Because children like to do things with their hands, a study group suggested that all classrooms, kindergarten through sixth grade, should have shop areas. At least one teacher in each elementary school should have training in manual arts in order to offer proper instruction.

Nude Girl's Body Found In Oklahoma Creek Bed

YUKON, OKLA. (AP) — A blood splattered brassiere, a red plastic belt and a red bathing cap were the only clues officers had Thursday night to the identity of the nude and mutilated body of a teenage girl found in a dry creek bed southwest of here Wednesday.

A hundred volunteers, some using radio cars to keep in touch with each other, combed the area for other clues to her identity, or slayer. They reported their search fruitless.

Farouk on Isle of Capri

ON THE ISLE OF CAPRI, EX-KING FAROUK rides beside the driver while an attendant in the rear seat holds his infant son. Farouk announced Thursday he was resigned to the life of a "poor" man, but said he didn't know in which country he would make his future home. He did know, however, that it would not be behind the Iron Curtain.

Farouk Ready to Live 'Poor' Man's Existence

ISLE OF CAPRI (AP) — Ex-King Farouk of Egypt announced himself Thursday as resigned to the life of a "poor" man ready to eke out a simple existence away from the Oriental splendor of the palace he occupied for 16 years.

Roly-poly Farouk I, now merely Prince Farouk Fuad, wistfully told a crowded news conference that he begins his life among the ranks of exiled royalty feeling he is no longer a rich man even though admittedly he is better off than most people.

The 32-year-old dethroned monarch made his first public statement since his abdication was forced on him last weekend in Alexandria.

Fine Might Postpone Colonel's Wife's Trip

WIESBADEN, GERMANY (AP) — Counsel for Mrs. Katherine G. Reed said Thursday she might not be able to pay a \$3,982 fine, imposed on black-marketing charges, in time to accompany her officer husband when he returns to the United States Sunday for reassignment.

Judge DeWitt White of Morgantown, W. Va., who imposed the fine for five counts of illegal dealings, had warned that she would not be legally able to leave Germany until the fine was paid.

Mrs. Reed's counsel, Earl Smith of Wiesbaden, said "It is not easy to raise that kind of money on this side of the water in a hurry."

AEC Discloses New Resources Of Uranium Ore

WASHINGTON (AP) — The atomic energy commission disclosed Thursday that it is tapping major new resources of uranium.

The announcement apparently means sharp gains for the United States in the atomic race with Russia since the precious fissionable metal is the key to the world enterprise.

The commission told congress that (A) an agreement has been reached with Australia to supply the vital ore to the United States; (B) by-product uranium from South African gold fields soon will be coming for American use; (C) Canada, long a major uranium supplier for Uncle Sam, has put additional million facilities into operation at the Eldorado mine on Great Bear lake, and (D) home production is speeding up.

The 12th semi-annual report from the AEC also reported "substantial progress" in developing improved atomic weapons during the past half-year, and "progress" toward atomic-powered aircraft.

The report said, "Domestic production is increasing and new sources, both foreign and domestic, are nearly ready for initial production areas are being investigated."

The commission also told of an "accelerated" program of exploration—by land and from the air—designed to uncover further atomic treasure from such proven areas as the Colorado Plateau and perhaps find additional possibilities elsewhere.

Observers speculated that assurance of additional foreign aid in the uranium ore line — and of additional uranium riches in the United States itself—are behind the AEC's newly-approved \$3.5 billion expansion program.

Harvard Professor Begins WSB Duties

WASHINGTON (AP) — A Harvard law professor took charge of the administration's wage stabilization program Thursday, determined to "make it work" despite the fact that congress has stripped his agency of all power to settle labor disputes.

The new chairman of the reorganized WSB is Archibald Cox, a tall, 40-year-old lawyer with a crew haircut.

With 13 other members of the new board, Cox takes over the wage stabilization headcote at a time when the cost of living has reached a new peak and several key industries are mulling over possible demands for wage boosts.

Besides passing on wage increases agreed to between labor and management, the new board has the job of administering a score of broad wage regulations inherited from the old board.

Congress last month ordered the old board abolished and set up the new panel with very limited powers, telling it to stabilize wages.

The first new regulation scheduled for board consideration is a policy to allow general wage increases to compensate for increased productivity. This policy already has run into strong industry opposition.

Bargaining is under way or soon will be in several major industries the board is going to have to decide what new increases it can allow. These industries include rubber, copper, and shipbuilding.

City Rent Controls Due for Discussion

Rent controls will probably be considered by the Iowa City council at the next meeting, Monday at 7:30 p.m., according to Mayor William J. Holland.

Present controls will lapse September 30 unless the council votes before that time to continue the controls, according to a letter received by the mayor by Tighe E. Woods, federal director of rent stabilization.

The resolution would be a declaration that a substantial shortage of housing accommodations exists which would require federal rent controls to be continued.

Drought Hits Disaster Stage In 12 States

WASHINGTON (AP) — The government took emergency action Thursday to relieve the effects of a drought which has burned up crops worth millions of dollars in at least a dozen states.

Alabama, Georgia, Kentucky and Mississippi were declared "disaster loan areas" by the agriculture department as a result of the prolonged heat and lack of rain.

Tennessee and large parts of Missouri and Arkansas already have been designated as disaster areas.

Government farm experts also were studying conditions in New England and in North and South Carolina, Louisiana, Virginia and Florida to determine whether federal help is needed.

Gov. Paul A. Dever closed the tinder-dry woods in eight eastern Massachusetts counties Thursday as it appeared no appreciable rain was in sight. Rhode Island forests were closed Wednesday.

Farmers in states designated as disaster areas will be able to borrow money from the farmers home administration to buy such things as hay and livestock feed if they are unable to obtain credit from local private or cooperative sources.

They also may obtain loans to finance production of their 1953 crops.

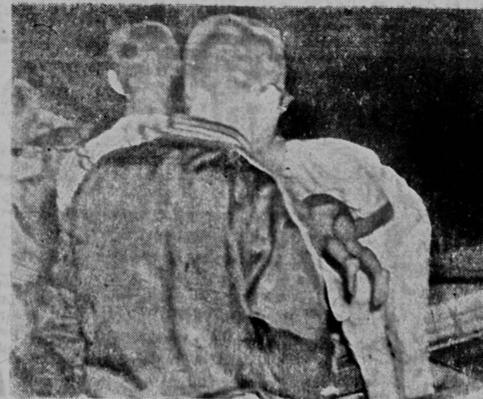

MacArthur Accepts Remington Rand Post; Retains Army Status

NEW YORK (AP) — Gen. Douglas MacArthur turned his back on politics and soldiering Thursday to begin a new career as chairman of Remington Rand Inc., \$227 million-a-year industrial corporation.

The former Pacific commander and Republican convention keynote said he would take no part in the election campaign of Gen. Dwight D. Eisenhower. He had backed Ohio Sen. Robert Taft for the nomination.

MacArthur's acceptance was announced by James H. Rand, company president, who said the post had been offered him once three years ago and again shortly after he was relieved of his Pacific command in April last year. Now for the first time, Rand said, MacArthur felt free to accept it.

Company officials declined to say what salary MacArthur would get. Informed sources had previously reported he had been offered \$100,000 a year. The army said in Washington Thursday he would continue receiving the \$19,548 annual pay and allowances of a five-star general—a rank MacArthur will retain on an unassigned basis.

DR. THOMAS P. MAGENIS is shown lifting the body of his 2-year-old son, Heath, from the Iowa City fire department rescue boat after the boy's body was found in the Riverside Park lagoon. The child disappeared from home early Thursday evening. A search was organized and the area was combed for the boy. About 8 p.m. the police were notified and about 45 minutes later firemen began dragging the lagoon. The body was recovered about 9 p.m. with grappling hooks.

Doctor Parents Help in Efforts To Revive Son

By JOE MEYER

Heath Magenis, two-year-old son of Dr. and Mrs. Thomas P. Magenis, drowned Thursday night in the Riverside Park lagoon.

Iowa City firemen recovered the boy's body at 9 p.m. about six feet from the west bank of the north end of the pond.

Mrs. Magenis notified neighbors in the Riverside Park student housing area at 6:45 p.m. that Heath was missing and a search was organized.

Students Search

Students searched the area as far north as the second pond in City Park and south through the Templin Park housing area.

Shortly before 8 p.m. police were notified and at 8:45 firemen began dragging the lagoon. Fifteen minutes later the body was recovered with a grappling hook in five feet of water.

Artificial respiration and an inhalator were used by the boy's parents in an attempt to revive the boy and later he was taken to University hospitals. At 10 p.m. he was pronounced dead.

Father Is Interned

Dr. Magenis is an interne at University hospitals. The family lives at 137 Riverside Park. Mrs. Magenis is also a doctor.

The lagoon is seepage from the Iowa river and ranges in depth from four to seven feet.

The pond separates the student housing area from North Riverside drive.

Aluminum Industry To Get Half of Price Increase Requested

WASHINGTON (AP) — Officials said Thursday the aluminum industry will be given a price increase averaging about 5.5 per cent, or approximately half the amount requested by producers.

One price official told a reporter an order will be issued Monday granting a ceiling hike of one cent per pound on raw aluminum — pig and ingot — and five per cent on semi-fabricated and fully fabricated products.

Officials said the increase undoubtedly will mean higher prices to consumers for goods made of aluminum or containing aluminum.

Higher Defense Costs

They said it also will mean higher costs for planes, ships, and other defense products.

One official said the increase was granted under existing price standards which allow price hikes to step up production in behalf of the defense effort.

The industry had applied for the increase, saying it was needed to help in the tremendous expansion program that has been undertaken since the outbreak of the Korean war.

An industry spokesman confirmed that the office of price stabilization had notified aluminum makers of the decision Thursday afternoon.

Industry Not Happy

"The industry is not happy about it but will just have to wait until the order is formally issued to decide what steps may be taken to try and get the full amount asked," the official said.

The giant Aluminum Company of America and the Reynolds Metals company had asked a 2 cents per pound increase on pig or raw aluminum, which would have raised the ceiling from 18 to 20 cents.

Spitzer to Speak At Texas Institute

Prof. Herbert F. Spitzer, of the SUI college of education, will be guest speaker at the second annual mathematics institute at the University of Houston, Aug. 28 through 31.

Spitzer's speech, to be given at a general session of the institute is entitled "The Developmental Method of Teaching Mathematics."

Spitzer, who received his Ph.D. at SUI, formerly taught at North Texas State Teacher's college in Denton.

Author of the textbook "Teaching Arithmetic in Elementary Schools," he has directed workshops and served as consultant to several public school study groups.

SUI Educator Outlines Ideal In Child-Parent Relationship

The ideal parent-child relationship during the "growing up" years is one that enables the parent to feel he is "losing a child but gaining a friend."

Boyd R. McCandless, director of the Iowa child welfare research station at SUI made this observation Thursday before more than 60 parents of children who attended SUI's 1952 summer speech clinic. The parents are attending a two-day conference on the campus coinciding with the close of the six-week clinic.

Noting that there is a common tendency among parents to over-protect their children, McCandless said children should be granted and encouraged to assume progressively more independence as they become older. However, this should be accomplished without giving the child a feeling of rejection, he cautioned.

Speaking on "Pushing and Pulling for Independence," he said the eventual goal of all parents should be a clear cut, friendly, happy relationship with their grown children.

Previously, McCandless had outlined some of the "independence experiences" of the child as he matures. Among them he listed "projects stage" from 18 months to three years, visiting with

friends, household chores, driving the car and dating.

A feature of today's program is a panel discussion to be conducted by parents of children with speech problems. Before the panel discussion begins, Wendell Johnson, chairman of the SUI council on speech pathology and audiology, will speak on ways to help the child gain better speech.

Helicopters Break Distance Record In Atlantic Trip

PRESTWICK, SCOTLAND (AP) — Two American helicopters completed the first flying windmill crossing of the Atlantic ocean Thursday and broke the non-stop distance record for this type of aircraft.

The two big Sikorsky H-19s, loaded down with extra gas and each carrying a pilot and co-pilot, thrashed across the 850 miles of ocean between Keflavik, Iceland, and Prestwick — the last leg of a history-making journey from Westover air force base in Massachusetts.

The crews said instruments showed they actually covered 920 miles in their efforts to evade bad weather. In any event, they bested the helicopter distance record set in 1946 in a flight of 703.6 miles between Dayton, O., and Boston.

Whirring along at a leisurely 90-mile-an-hour pace, the two craft sometimes were so low Thursday they had to dodge icebergs.

Local Occupational Therapists Plan Trip

PICTURED ABOVE ARE SIX OF THE SEVEN occupational therapists from the SUI hospitals, Oakdale sanitarium and the Iowa City Veteran's hospital, who will attend the American Occupational Therapy association convention in Milwaukee, Wis., August 9 to 16. Pictured are: (left to right) Miss Joan McNie, director of occupational therapy at Oakdale sanitarium; Mrs. Gyla Fairchild, director of occupational therapy at the Veteran's hospital; Mrs. Phyllis Henricks, acting director of SUI hospitals, occupational therapy department; Mrs. E. Huntsberry, occupational therapy supervisor, college of medicine at SUI; Miss Betty Lou Probst, assistant to Miss McNie at Oakdale and Mrs. Alora Butties, assistant therapist to Miss Lovett, chairman of the division of occupational therapy at Psychopathic hospital, who is the seventh member of the party.

World News Briefs

A Condensation of Late Development

SEOUL, KOREA (FRIDAY) (AP) — Allied troops in a bloody bayonet attack early today drove Chinese Communists off the crest of Old Baldy on the western Korean front. UN troops recaptured the muddy crest of the strategic western front hill just 10 days after a Chinese battalion drove them off. An army spokesman said about 200 Communists were knocked off the crest in seven hours of fighting, which at times was hand to hand.

MUNSAN, KOREA (FRIDAY) (AP) — Allied and Communist staff officers, after haggling five days over the wording of a Korean armistice, appeared no closer today to any discussion of the basic problems blocking a truce. The staff officers meet again at Panmunjom at 11 a.m. with only two days left before the full delegations resume talking about prisoner exchange—the main unresolved issue in the armistice talks.

DENVER (AP) — Key backers of Gen. Dwight D. Eisenhower Thursday asked the GOP presidential nominee to approve a program aimed at winning 10 million more voters than now are enrolled as Republicans. The program was outlined to the general by Walter Williams, of Seattle, and Mrs. Oswald B. Lord, co-chairmen of the national citizens for Eisenhower committee which played a leading role in helping win the nomination for him.

BEVERLY HILLS, CALIF. (AP) — Col. Jacob Arvey, political backer of the Democratic presidential nominee, Gov. Adlai Stevenson, Thursday predicted that Stevenson would win the election by a larger margin than President Truman's in 1948. "I can't see that Stevenson will lose any state that Truman won in '47," said Arvey, "and most of our committee says he ought to carry the four states in the south that Truman lost."

editorial Other Lives Can Be Saved

It's too late to save the life of little Heath Magenis.

Thursday night the two-and-one-half year old son of Dr. and Mrs. Thomas P. Magenis (he is an interne in University hospitals) drowned in a lagoon near the Iowa river. His parents live in Riverside village, a university housing area located near the lagoon.

Heath was the second youngster to fall in the lagoon this summer. Only last month Russell Lee Soper, 18 months old, was rescued by a passing motorist.

A fence had been placed half-way around the section of the lagoon nearest the village, in order

to safeguard the lives of the many young children who play in the area.

The other side of the lagoon along the street, however, remained unfenced and therefore unprotected. It was through this unguarded section that little Heath crawled to the lagoon's edge and eventually fell into the water and drowned.

In order that such a tragic happening may not occur again, the Iowan urges that a fence be erected immediately along the unprotected portion of the lagoon.

We also believe that an investigation should be begun in all housing areas on the campus where such a similar incident could occur. And that appropriate action be taken immediately.

GENERAL NOTICES

GENERAL NOTICES should be deposited with the city editor of The Daily Iowan in the newsroom in East hall. Notices must be mailed by 2 p.m. the day preceding first publication; they will NOT be accepted by phone, and must be TYPED OR LEGIBLY WRITTEN and SIGNED by a responsible person.

GERMAN PH.D GERMAN EXAMINATION will be given Friday, August 1, at 1 p.m., in room 104, Schaeffer hall. Register in Room 101, Schaeffer hall by noon, Thursday, July 31, if you wish to take examination.

GRADUATE STUDENTS please note: Books on thesis loan must be renewed or returned to the Main Library by July 30. Fines will accumulate against books which are not renewed or returned.

FROM AUGUST 6 THROUGH September 24th the hours for the Main Library will be as follows:
Monday-Friday 9:00 a.m.-5:00 p.m.
Saturday 9:00 a.m.-12:00 noon
CLOSED SUNDAYS

ATTENTION, GRADUATING seniors — Graduation announcements may now be picked up at Campus Stores. Graduating nurses are to pick up their announcements at the school of nursing.

Louisiana Police Clear 3 Iowans of Burglary

NEW ORLEANS (AP) — Three deaf mutes from Des Moines were released Wednesday night after being cleared in a \$4,000 safe robbery from a home in Madisonville, Ky.

The three were arrested here when a filling station operator became suspicious after he saw they had a large number of coins rolled in bank wrappers.

An investigation started when police found that some of the coins were rolled in a wrapper from a Madisonville, Ky. bank where the robbery took place.

They were booked for vagrancy pending an investigation of the robbery charge and were identified as James T. Scalise, 34; Wayne L. Jones, 23, and Kenneth D. Harlan, 22, all of Des Moines.

The three protested their innocence and Scalise wrote out their explanation that they buy bank wrappers in many states to handle coin donations they receive from people who help them.

The Madisonville bank wrapper was purchased while they were on their way to Atlanta, Ga., Scalise wrote.

Detective Capt. Frank Alfortish said the men had \$150 in currency

Iowa Employment Hits Record High

DES MOINES (AP) — Iowa had 639,100 persons employed in industrial and other jobs during June before the effects of the national steel strike were felt, the state employment security commission reported Wednesday.

The state had an all-time record average of 633,000 employed during the fiscal year that ended July 1, September, 1951, was the top month during that period when total employment reached 645,800.

The lowest month was last March when the number of wage earners dropped to 619,500 due mainly to seasonal factors.

It has been estimated that 12,000 were laid this month because of the 53-day steel strike which was settled last week.

The June employment figure was an increase of 6,650 over May and 1,150 over June of a year ago.

Legion Commander Calls Korean Action 'Somewhat of a Joke'

DES MOINES (AP) — Dudley Weible of Forest City, Iowa, commander of the American Legion, told the state auxiliary convention Thursday that "this is a year of decision in national leadership and in foreign policy."

The "police action" in Korea, he said, "is turning out to be somewhat of a joke."

The auxiliary's "blue ladies" were given special recognition. Service bars were given five women who have recently completed 1,000 hours of hospital service, and to eight who have completed 500 hours.

Those completing 1,000 hours were Mrs. Nellie Pickup of Indianapolis, and Mrs. Mabel Burnstedt, Mrs. Sylvia Kloster, Mrs. Ina Danielson and Mrs. Edith Kanifen, all of Des Moines.

Those receiving the 500-hour bars were Mrs. Fae Kupelbaum, Council Bluffs; Mrs. Fern Leonard, Indianola; Mrs. Jeanette Drury, Clinton; Mrs. Ruth Livengood, Maedonia; Mrs. Florence Paulson, Boone; Mrs. Minnie Shaw, Ottumwa, and Mrs. Bessie Barr, Clarinda.

Among those scheduled to attend is Arthur E. Summerfield of Michigan, the new chairman of the Republican national committee.

Summerfield will serve also as Eisenhower's campaign manager.

Interlude with Interlandi

"Hardly the sort of rejoinder one would expect from you, professor!"

Demos Dodge Civil Rights, Lodge Claims

DENVER (AP) — Sen. Henry Cabot Lodge, an Eisenhower campaign leader, said Wednesday the Democrats' nomination of a southerner for vice-president means the party has "no intention of doing anything constructive" about civil rights.

The Massachusetts senator made the statement at a news conference on arrival here for a meeting with Gen. Dwight D. Eisenhower, the Republican presidential nominee.

Lodge managed Eisenhower's campaign for the nomination. After the convention he gave up his role as manager to devote more time to his bid for re-election to the senate. He now is chairman of the general's campaign advisory committee.

Lodge said "It will be a horse race" between Eisenhower and Gov. Adlai Stevenson of Illinois, who heads the Democratic ticket for the White House.

Lodge came to Denver for conferences with the general in advance of a round of high level strategy meetings, which Eisenhower and his running mate, Sen. Richard Nixon of California, will hold with campaign leaders, starting today.

Among those scheduled to attend is Arthur E. Summerfield of Michigan, the new chairman of the Republican national committee.

Summerfield will serve also as Eisenhower's campaign manager.

Painters Sight Flying Discs

DES MOINES (AP) — "Flying objects" were sighted over Iowa again Wednesday.

Two Des Moines sign-painters returning from Ogden said they saw "two silver, shiny discs" moving slowly south over the north edge of Des Moines at "exactly 3:30 p.m."

"We watched them until they were out of sight and at no time did we see a wing or anything else to convince us these might be planes," said Robert Shockley.

Shockley added that he and Tony Ausilio spotted a plane "about five minutes later" and noted the differences between it and the "flying disc-objects."

Cat's Cry Saves Boy From Death in Icebox

MEMPHIS, TENN. (AP) — Maud, an old gray cat of uncertain ancestry, had all the milk she could drink Wednesday — for she was a heroine.

Because she was able to mew ever so faintly but loud enough to attract Mrs. Louis E. Paul, the cat saved the life of her master, 5-year-old Louis Jr.

Louis and Maud went outside to play Tuesday. Mrs. Paul called for the boy to come in, but he didn't answer.

So she went after him. There was no sign of the boy or the cat in the yard or in the vacant but furnished house next door.

As she closed the door to the house, she heard a faint cry, like that of a cat. It was coming from an old ice box.

Mrs. Paul opened the food compartment. There was Maud, unable to stand and hardly breathing. With a trembling hand she opened the door to the ice compartment. Louis was hunched inside, his knees drawn under his chin. And he was blue with suffocation.

Mrs. Paul carried the limp child

Raids Impress Military, Not Red Truce Team

By J.M. ROBERTS JR.
Associated Press News Analyst
Chinese Nationalist sources on Formosa, which maintain liaison with anti-Communist forces on the mainland, reported even before the big raid of July 31 that stepped up Allied bombing in Korea had a heavy military and psychological impact.

But they don't seem to have had any great impact on the Communist truce negotiating team at Panmunjom. The Reds continue to stall around about words in the proposed agreement which were supposed to have been settled long ago. There is no sign of any compromise of the big war prisoner question.

General Van Fleet, commander of the UN armies in the field, said there is "less chance for an armistice than ever before."

Believe Agreement Near
Some other observers cling to the feeling of the last few weeks that, at least, the Communists might be intending to reach an agreement. But there seemed to be little more for them to go on than was the case a year ago.

The recent disposition to rehash proves that the Reds consider even the so-called "agreed" points to be highly tentative. Van Fleet says they have disposed their armies so that they can "wait out the war." Since last November they have been able to avoid large scale fighting and still not retreat from either political or military positions.

Van Fleet repeats that the best way for the Allies to win "is by pressure." The air force says the latest raid, preceded by repeated warnings to civilians to evacuate, was a calculated effort to put on pressure at Panmunjom.

Reports of 'Leaks'
There have been "leaks," correct or incorrect, that American forces in Korea now have atomic artillery with which to meet any possible new Communist ground offensive. There have been warnings that aerial assault on Allied ground forces would invite retaliation on Red air bases in Manchuria. But there is doubt, in the event of a resumption of general fighting, of Allied ability to push to the Chinese border, the one position from which they would be able to force a settlement.

Short of this, there is one remaining pressure which has not been used. That is the threat, well advertised in advance, of atom bombing, directed against military targets even though they might not be strategically worth it, with plenty of notice to civilian populations.

After all, though convention bombs did their duty in Tokyo and Berlin, the only bombings which ever brought a war to a sudden stop occurred just seven years ago in Hiroshima and Nagasaki.

Stevenson, Ike Begin Volleying Election Issues

By The Associated Press
The Republican high command cut loose Wednesday with a blast at the Democratic ticket of Gov. Adlai Stevenson and Sen. John J. Sparkman as "hand-picked candidates of President Truman."

Chairman Arthur Summerfield of the GOP national committee said the Stevenson-Sparkman team will be expected to "carry on the Truman tradition."

In Springfield, Ill., Stevenson took an oblique slap at Eisenhower with a warning against "foolish or irresponsible promises" of cutting federal taxes.

Warms Against Promises
Discussing Eisenhower's recent remarks on tax-cutting possibilities, Stevenson told his first news conference after being picked as the Democratic standard bearer he hopes neither party will "offer hopes that are forlorn" as to taxes and at the same time demand "a defense establishment to accomplish our common objective."

Stevenson said he understood Eisenhower later modified a statement made several weeks ago to the effect that federal spending could be cut by \$40 billion a year.

Asked whether he would return Secretary of State Dean Acheson in the cabinet if elected, Stevenson replied, "I haven't the faintest idea about the cabinet. I won't say anything about it until after the election."

GOP Is Uniting
GOP Chairman Summerfield told newsmen that while there is a "deep cleavage" in the Democratic party, the Republicans of once rival factions are forgetting their differences and will pull together in a great "unity" campaign.

Summerfield also made it clear at a news conference in the nation's capital that he expects Sen. Robert A. Taft of Ohio, the loser in a sprawling fight for the GOP nomination, will be one of the big guns in the campaign to put Eisenhower in the White House. Taft has promised to cooperate.

Will Attack Stevenson
As for Stevenson, who won the Democratic nomination after getting the nod from Truman, Summerfield said the Republicans will attack his record as governor of Illinois in addition to shooting at the 20-year Democratic regime generally. He declined to amplify.

The new GOP chieftain and his staff flew to Detroit to confer with Michigan Republican leaders and planned to move on to Columbus, O., Wednesday with Eisenhower's vice-presidential running-mate, Sen. Richard Nixon of California. Nixon will make a campaign speech in Columbus Thursday.

In Denver, Eisenhower was busy preparing for a series of high-level strategy conferences starting today.

Party stalwarts Scoff at Suggestions That National Conventions Be Junked

CHICAGO (CP) — Junk the nominating convention system in favor of a direct national primary for President?

An informal sounding of opinion among delegates and leaders at the recent political conventions fails to turn up any general support for the idea.

Of course, it can be said that among the participants in "the greatest political shows on earth" would hardly be the place to get an unbiased reaction to the serious suggestion advanced by some national leaders who believe that the mammoth meetings should be dropped.

Presidential Primary
These include Sen. Paul A. Douglas (D-Ill.), who, together with Rep. Charles E. Bennett (D-Fla.), has introduced a bill in congress calling for a national presidential primary, and Sen. George Smathers (D-Fla.), who has offered a constitutional amendment along that line.

Senator Estes Kefauver, after finishing one of the most active Democratic campaigns ever waged in the 16 states which have preferential primaries, got the impression that such polls should be held everywhere in the country.

Justices Dissent
Two supreme court justices, Robert H. Jackson and William O. Douglas, in a dissenting opinion to the court's recent ruling that Alabama electors could be bound to support their party's nominee, attacked the electoral college system and, by implication, favored the primary.

Nevertheless, to question those taking part in the hoopla of a national convention as to whether they should be abolished requires some physical and moral courage; many of them are inclined to feel that there is something seditious about the mere inquiry.

To press the point by saying that bills and proposed constitutional amendments are even now

pending in congress to bring that about suggests to many of them that another fantastic and dangerous rumor monger is circulating.

Truman Offers Proposal
A much more welcome proposal is that advanced last March by President Truman last party convention be held in off-years as well as during the presidential campaigns each quadrennial.

This would be like the British party system, which is carried on

more sedately and in the nature of gigantic political associations constantly keeping themselves before the voters and maintaining up-to-the-minute positions on current issues.

Aside from those who enjoy the phenomenal political display, there are those who argue that the convention system is best and should not be changed.

Ironically, one of their main points is that "the federal govern-

ment should be kept from meddling too much in this election business." It proceeds along the same general lines of any of the familiar viewpoints that the government is getting into too many things these days.

Founders Silent
They point out that the founding fathers were absolutely silent on the question of how nominations should be made for the presidency; they contended them-

selves with setting up the elaborate electoral college, assuming apparently that nominees would just appear.

Not until the Jackson era did the nominating convention emerge, used first by the anti-Masons. Soon the Democrats adopted it, and the Republicans, of course, were born and bred in the system, holding a convention in 1854 even before there was a party.

Foes Criticize
Foes of the Douglas proposal criticize its provisions that the United States attorney general enter into agreements with the states whereby national primaries would be held in all of them, the federal government contributing 20 cents for each vote cast. They maintain that it is cumbersome and calls for "more spending of money."

Most of the leaders of both parties here seem to agree, however, that Americans should "be sold more thoroughly" on becoming active participants in party activities, and mention the Texas contest in GOP delegate battle as an example that what constitutes "party membership" still is not very clear.

Lack of Understanding
They conjecture that lack of understanding of what it means to belong to one of the two major parties, or the eight minor parties in the current hustling, contributes to low national vote totals in this country, such as in the 1948 Dewey-Truman battle when only 51 per cent of the eligible voters balloted.

However, be those things as they may, the conventioners themselves exhibit every indication that insofar as they are concerned, "there will always be a national political convention!"

Chicago convention scene. Insets are (left) Senator Paul Douglas and (right) Rep. Charles Bennett.

FRIDAY, AUGUST 1, 1952 VOL. XXVIII, NO. 212
UNIVERSITY CALENDAR items are scheduled in the President's office, Old Capitol

- Friday, August 1
8:00 p.m. — University Play, "A Doll's House," Theatre.
 - Wednesday, Aug. 6
5:00 p.m.—Close of summer session.
 - Thursday, Aug. 7
Opening of Independent Study Unit for graduate students.
- (For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol.)

Virginia's Robertson Praises Stevenson, Says He Won't Bolt Democratic Party

WASHINGTON (AP) — Sen. A. Willis Robertson of Virginia announced Thursday that he will "vote the straight Democratic ticket next November."

He tied that word in, however, with some caustic comments on party planks and doings at the Chicago convention.

In a statement, the Virginia senator said:

1. Gov. Adlai Stevenson of Illinois, the Democratic presidential nominee, is "an honest and able man who refused to be placed under obligation either to President Truman or the CIO."

2. Sen. John Sparkman of Alabama, the vice-presidential nominee, "felt so strongly about the Southern position on civil rights legislation that he bolted the national ticket in 1948."

Sparkman Denies Bolting (Sparkman promptly came back with a denial that he was really a bolter).

3. "The civil rights plank in the 1952 platform is less threatening to the Southern viewpoint than the 1948 plank."

4. The platform promise for repeal of the Taft-Hartley labor-management act is "nothing more than a gesture" because congress is strongly opposed.

5. The Chicago convention by a substantial majority "upheld the Virginia position that majority rule did not include tyranny over the minds and hearts of others."

Robertson's comments were expected to get wide attention because of the threatened Virginia rebellion at the Chicago convention and because Robertson usually is aligned politically with Virginia's senior senator, Harry F. Byrd.

Byrd Not Consulted

Neither Byrd nor Robertson could be reached immediately through their offices here, but associates said Robertson had not consulted with Byrd on his statement.

Later, however, Byrd said in a statement at Winchester, Va., "In response to many inquiries I will not at this time make a statement with respect to either presidential candidate."

"In the weeks ahead we may expect clarification of the views of both candidates on the main governmental issues which neither has yet discussed."

Asked About Stevenson

While in Chicago, Robertson said he had asked "some prominent Republican lawyers of that city about Stevenson."

"All of them assured me," the senator continued, "that in addition to being absolutely honest and very able, he was the Woodrow Wilson type of liberal who believed in the American system of private enterprise and who had demonstrated as governor of Illinois his firm allegiance to efficiency and economy in government."

Robertson said the vice-presidential nomination first was offered "to the favorite candidate of the South, Sen. Richard Russell, and then given to another Southern man, Sen. John Sparkman."

State Historical Club Elects 88 Members

Eighty-eight persons were elected to membership in the State Historical Society of Iowa, Prof. William J. Petersen, superintendent of the society announced Thursday.

Three of those were from Iowa City, C. G. Manning, Dr. Leland E. Stillwell and E. R. Williams.

Eighty of the new members are from 53 towns in 37 Iowa counties. Des Moines led this month acquiring nine new members, while Davenport was next with six.

Eight members were elected from three other states, Illinois leading with four.

Dr. J. William Dulin of Iowa City was enrolled, along with 11 others, as life members.

Union Tempers Flare at Plant Gate

SEVERAL MEN WERE STABBED AND BEATEN in a pitched battle between CIO-UAW and AFL members at the Allis Chalmers plant gate in Terre Haute, Ind. Production workers have been on strike since May 7. The fight started when 230 AFL workers attempted to return to work and about 75 CIO workers tried to stop them.

Omaha Negroes Decide Whites Can Live Nearby

OMAHA (AP) — A group of Omaha Negroes who had sought to keep a white family from moving into their neighborhood Thursday night dropped the whole thing.

"I'm withdrawing every bit of it; I'm through with it," said Mrs. Luella Blackson, who Wednesday delivered to public defender Joseph M. Lovely a protest petition signed by 17 Negroes in the south Omaha neighborhood.

She said she had talked to other signers and they, too, wanted to drop it. She said they were sorry they had made the complaint and get along fine with other white persons who live nearby.

Protests Prompt Withdrawal

Withdrawal came after a flurry of protests directed at the Negro group, mostly from other Negro groups.

"We do not subscribe to this sort of thing," said M. M. Taylor, industrial secretary of the Urban League of Omaha, an organization to protect and promote Negro interests. "It is our purpose to fight discrimination, not to promote it."

He termed the action "spur of the moment, without benefit of leadership," and said investigation indicated the racial question wasn't strongly involved.

NAACP Offers Help

From New York, the National Association for the Advancement of Colored People wired Lovely offering its help to the unidentified white family involved.

It all started when word got around that a house was going to be moved onto a vacant lot in the neighborhood and that the house would be occupied by a white family.

The petition-protest followed, only to be withdrawn less than 24 hours later.

7 Iowans Charged After Liquor Raid

SPIRIT LAKE, IA. (AP)—Charges of violating the state liquor control law were filed late Thursday against seven operators of night spots in the Iowa great lakes region.

The charges grew out of Wednesday night's mass raid of eight places in this area by four north-west Iowa county sheriffs, city police and six state agents. Authorities said they seized 153 bottles of liquor.

Canham's Talk Printed After Visit to SUI

The address given by Erwin D. Canham, editor of the Christian Science Monitor at SUI entitled "A Free Press in a Free World," is being produced in booklet form for national distribution to leading newspapers, radio stations and schools of journalism.

The lecture delivered at SUI Feb. 26, 1952, was the first to be given under the auspices of the John F. Murry fund.

Funds from the estate of the late Bessie Dutton Murray of Wheatland provided for the annual lecture and also for five scholarships in the colleges of law and commerce and the school of journalism. The lectureship revolves among law, commerce and journalism.

The booklet was designed by Prof. Carroll Coleman, university typographer and professor of typography and design in the school of journalism.

Senators Plan Tour Of Overseas Bases

WASHINGTON (AP)—Sen. Russell Long (D-La.) and Sen. Wayne Morse (R-Ore.) announced plans Thursday for an inspection of overseas airbases aimed at saving taxpayers millions of dollars.

Leaving here next Tuesday they will make an on-the-spot check of the network of U.S. air bases being constructed on edges of the Iron Curtain.

They will make the 25,000-mile tour under authority of the state armed services committee.

It will range from air bases in the frigid north pole area to torrid installations near and below the equator in Africa and the Middle East.

Taylor said a group of prominent south Omaha residents called on Mrs. Blackson and the others and induced them to reconsider.

To Marry

Mr. and Mrs. E. J. Carroll, 708 West 7th st. announce the engagement and forthcoming marriage of their daughter Joann, to William R. Clabby.

Mr. Clabby, son of Mr. and Mrs. J. F. Clabby, 1146 Independence avenue, and Miss Carroll will repeat nuptial vows August 9 at 9 a.m. in Sacred Heart Catholic church, Waterloo.

Miss Carroll is a senior art student at Iowa State Teachers college in Cedar Falls and is also employed by Bos Freight Lines, Inc.

The groom-elect is a senior student in the school of journalism at SUI and is editor of The Daily Iowan.

SUI Grad To Practice Medicine in Iowa City

Dr. Charles R. Eicher, 28, a 1951 graduate of the SUI school of medicine, will be associated with Dr. Andrew Garvey, 108 1/2 E. Washington st., it was announced Thursday.

He will begin practice here Monday.

Eicher is a physician and surgeon.

2 ROTC Officers Reassigned

Two ROTC officers are leaving SUI, Col. Walter E. Sewell, professor of military science and tactics, announced Thursday. Officers who have been reassigned are Lt. Col. Herbert B. Heyer and Capt. Richard O. Jett.

Heyer, who has just returned from the 1952 infantry ROTC summer camp at Ft. Benning, Ga., is being assigned to Colorado college, Colorado Springs, Col., effective today. He will be PMST of the new ROTC ground general school which is being organized at the college.

Jett, who has been at SUI for over two years, will enter the advanced infantry course at Ft. Benning, Ga., where he will be stationed for nine months.

He has been an assistant professor of infantry and S-3 officer of the SUI military department and the officer in charge of drill. Both reassignments have been effected as part of the army program of rotation of officers to and from the combat area in Korea.

new project of the department of the army which is being organized in 25 colleges throughout the United States.

Since February of this year, Heyer has been the senior infantry instructor at SUI.

Jett, who has been at SUI for over two years, will enter the advanced infantry course at Ft. Benning, Ga., where he will be stationed for nine months.

He has been an assistant professor of infantry and S-3 officer of the SUI military department and the officer in charge of drill. Both reassignments have been effected as part of the army program of rotation of officers to and from the combat area in Korea.

SUI Military Unit 1 of 188 Switched To Air University

The AFOTC unit at SUI is now part of the Air university, the world's largest educational institution, with headquarters at Maxwell air force base, Ala.

Effective today, the local unit is transferred from the continental air command to the university system, air force headquarters at Washington announced.

A new national headquarters of the AFOTC is being opened in Montgomery, Ala., the site of Maxwell air force base.

The transfer involves AFOTC units of more than 145,000 students at 188 colleges and universities throughout this country, in Puerto Rico, and Hawaii.

Raffensperger Accepts New SUI Athletic Post

Leonard Raffensperger, head football coach at SUI for two seasons before resigning early this year, was given a new job in the department of athletics Thursday.

Athletic Director Paul Brechler said Raffensperger would serve as counsellor and advisor to athletes and would handle other duties to be assigned later.

He said that Raffensperger's appointment fills a need which has existed in the SUI athletic department for some time.

Raffensperger's new duties will start at once.

Ends Speculation
The appointment, announced by President Virgil M. Hancher, ended speculation during the last six months whether Raffensperger would take a coaching job in another school or stay on at SUI.

He was offered other duties in the athletic department here after the appointment of Forest Evashevski as head football coach.

Early this spring, it was rumored that Raffensperger had applied for the head coaching job at Arizona State college, but he spiked this talk by saying that he had only inquired about the position and it was in no way an application.

Named Freshman Coach
Raffensperger was named to the head coaching job February 14, 1950, after coming to SUI in 1948 to coach freshman teams when Dr. Eddie Anderson was head varsity mentor.

Raffensperger, who won football letters here in 1924 and 1925, was the first SUI alum to run Iowa's football fortunes in 41 years and the fourth in SUI's history.

He coached East Waterloo high school for 17 years and built an impressive record of 90 wins, 41 losses and 8 ties.

During his two years at SUI, his football teams won 7, lost 8 and tied 3.

Yanks Tip Chisox, 6-2 On Raschi's 6-Hitter

CHICAGO (AP) — New York's Vic Raschi Thursday night won his 12th game of the season holding the Chicago White Sox to six hits, while the Yankees clouted three Chicago pitchers for 12 to triumph, 6-2.

The victory enabled the pace setting Yankees to maintain their lead in the American league pennant scramble to three games over Cleveland.

The Yankees boomed starter Saul Rogovin off the mound with a four hit barrage that produced three runs in the fourth. Bill Kennedy went to his rescue, but was relieved by Hal Brown at the start of the eighth.

Senators Win, 10-5

ST. LOUIS (AP) — The Washington Senators pushed across five first-inning runs before a single man was out, then went on to take a 10-5 deciding from the St. Louis Browns Thursday night.

Connie Ciesguera, who went to the rescue of Randy Gumpert in the fourth inning, was credited with the victory.

Shantz Wins Again

A's Star Records 19th Victory in 22 Games As Philadelphia Beats Tigers Twice

DETROIT (AP) — The sixth-place Philadelphia Athletics swept a doubleheader from the last-place Detroit Tigers Thursday, taking the second game, 3-2, after little Bobby Shantz recorded his 19th victory by a 2-1 margin in the opener.

The A's rallied with three runs in the ninth inning to win the nightcap. The twin victories gave the Athletics a record of 15 games won in the last 23 starts.

Shantz struck out seven and walked only two in outpitching young southpaw Billy Hoelt, who gave all seven of the Athletics' hits in the eight innings here

Indians Top Bosox On 6-Run Rally

CLEVELAND (AP) — A six-run rally in the eighth inning, featuring a two-run homer by Joe Tipton, gave the Cleveland Indians an 8-2 victory over the Boston Red Sox in the rubber game of a series Thursday before a crowd of 11,634.

Tipton's homer broke a 2-2 deadlock and ignited a rally that also included a two-run triple by Larry Doby and a double by Al Rosen.

Bob Lemon recorded his 12th victory against eight defeats, allowing the Red Sox seven hits, including a two-run homer in the fourth by Del Wilber. It was Wilber's first homer of the season.

The loss was charged to Maurice McDermott, who entered in the fifth and stopped a rally, but fell victim to the eighth-inning explosion.

Leonard Raffensperger
New Athletic Counsellor

Sweet Scent Mayer Catches Whiff of Prize Money

CHICAGO (AP) — Dick Mayer, a blond brawler who is lagging 17th on the PGA money winning list, Thursday caught the scent of promoter George S. May's green stuff and bolted forward in the \$30,000 All-America golf stampee with a seven-under par first round of 65.

The 28-year-old Greenwich, Conn. star, now registering unattached out of St. Petersburg, Fla., thrashed Tam's 36-36-72 standard with a blistering 32-33. This effort featured six one-putt greens, 27 putts in all and a string of five birdies on the first six holes.

The former tank sergeant, who has been playing golf 20 years and as a pro the last three, staggered only twice in his attempt to match the course record of 63.

For awhile it appeared that Ted Rhodes and Bob Gajda, a hot-and-cold shooter from Birmingham, Mich., who started out with the crowd of the rooster and finished early, might keep the lead with 67's. The start was especially impressive for Rhodes who is striving to become the first Negro ever to win a major golf tournament.

Gajda coupled 34-33 for his 67. Dead-eye approaches and several good putts gave him easy birdies.

Andrews Bows Out Of U.S. Tennis Meet

Special to The Daily Iowan
Art Andrews of Iowa City bowed out of the boys singles in the National Lawn Tennis association meet in Kalamazoo, Mich. Thursday.

He lost a fourth round match to Maxwell Brown Jr. of Louisville, Ky., 6-4, 6-4. In the second round of boys doubles, Andrews and Bob Macy of Coral Gables, Fla. defeated a duo from Kalamazoo, 6-1, 6-0, but then were taken out of the meet in the next round by Estaban Reyes of Mexico City and Joe Cowley of Salt Lake City, Utah, 7-5, 6-4.

SUI Star Swims 220 Yards in 2:34.3

Stassforth Ties Olympic Mark

By The Associated Press
HELSINKI — Bowen Stassforth, SUI's representative in the Olympic games, equalled the 200 meter (220 yards) breast-stroke record Thursday as he won his heat in the Olympic event.

His performance was overshadowed, however, by Ludevic Komadel of Czechoslovakia who raced in the heat preceding Stassforth and won in 2:33.9, a new record.

Stassforth had the second fastest time of the first four preliminary heats, only four-tenths of a second slower than the new Olympic mark.

United States' chances of overtaking Russia in the battle for unofficial team honors in the Olympic games dwindled as two American boxers were eliminated and American swimmers found increasingly tough competition from the Japanese and Europeans.

The United States, however, managed to pick up two points, but the Soviets still lead, 52 1/2 to 46 1/2, with three days of competition left.

Only heavy American scoring in

swimming plus points in basketball, boxing and equestrian events can bring the United States out on top.

The U.S. met Argentina, its arch rival in basketball from South America, and won, 85 to 76. The United States will now play Russia for the championship on Saturday. The Americans beat the Soviets, 86 to 58, in an earlier round.

Joan Harrison of South Africa won the only swimming final of the day, the women's 100 meter backstroke in 1:14.3.

Shiro Hashizume, another of Japan's great swimmers, set the pace in the 1,500-meter or metric mile, qualifying heats. He sped the distance in 18:34 as compared to the Olympic record of 19:12.4. Other heat winners under the old record included Yale's Jim McAllen, 19:09.3.

In heats for the women's 400-meter free style, Evelyn Kawamoto, from Honolulu and representing the United States, made the fastest mark of all and bettered the Olympic record of 5:17.8. She

was timed in 5:16.6. Barring an unusual upset, the United States seems assured of the basketball championship, having outclassed Russia so decisively in

Cubs Wallop Giants With 9-Run Inning To Win 3-Game Series

NEW YORK (AP) — The Chicago Cubs hammered across nine runs in a riotous seventh inning Thursday to defeat the New York Giants, 11-8, and take the series, three games to one.

Fifteen Cubs came to bat in the rally, connecting for eight hits, one of them a three-run homer by rookie catcher Harry Chitt. There also were two walks and three Giant errors in the inning.

The uprising gave the Cubs an 11-1 lead, but they had to do some ball battling to forestall the Giants. The National League champions scored three times in their half of the seventh, then came up with four more in the eighth on outfielder Dusty Rhodes' grand slam homer.

Credit for the win was credited to Minner, who was tapped for 11 hits.

Umpire Gets Close Look

UMPIRE ART GORE gets down on his knees for a close look at the play as Dodger catcher Roy Campanella tags out George Metkovich of the Pittsburgh Pirates in the seventh inning of the game at New York. Watching the play is Pittsburgh catcher Joe Garagiola.

Dodgers Widen Lead By Taking Twin Bill

BROOKLYN (AP) — Brooklyn widened its National league lead to six full games Thursday by sweeping both ends of a doubleheader from Pittsburgh, 7-6 in 11 innings and 4-1 behind rookie Joe Landrum in the second game.

Landrum, just recalled from Fort Worth where he was a 15-game winner, kept eight hits well scattered in his first major league start. Bob Morgan got him off to a good start with a first-inning homer.

The Brooks needed the breaks to take the opener, winning when relief man Paul Lapalme walked George Shuba on four straight balls to force home the tie-breaking run in the 11th.
