Meetings Banned in Polio Fight

HARRINGTON, Sept. 15 — Polio patients from the county's five hospitals were ordered Thursday that all infected children be kept in isolation, according to the health department. The order was issued in response to the county's recent experience with a polio outbreak.

The county has already lost three children to the disease, and the health department is urging parents to keep their children out of crowded places.

Refugees Jam Hong Kong in Flight from Red China

Dr. CENTRAL PRESS

The British Crown colony of Hong Kong was crowded with more than 300 refugees who fled from the United States in order to escape from Red China.

The United States government said Friday that it was considering taking further action, but that no final decision had been made.

Dr. James E. Knoyle, ambassador to the United States, said the situation was "very serious" and that the United States was "concerned." He added: "The United States is doing everything possible to help the refugees..."}

Interpreting the News — Election Has Little Effect On U.S. Foreign Policy

Dr. J. M. ROBERTS JR., Associate Press News Analyst

Europeans are impressing no more than the United States, who is, in fact, more interested in the elections here than elsewhere.

The result of the elections in Britain has little effect on U.S. foreign policy, according to Dr. J. M. Roberts Jr., associate professor of political science at the University of Wisconsin.

"The elections in Britain have little effect on U.S. foreign policy," he said. "The United States is more concerned with its own problems than with those of its European allies.

The results of the elections in Britain will have little effect on U.S. foreign policy, Dr. Roberts said. The United States is more concerned with its own problems than with those of its European allies.

"The United States is doing everything possible to help the refugees..."
Scottish Woman Assured of Title by Legal Change to Male Status

In a historic move, Scotland's first female doctor, 50-year-old Dr. Emma Constance Smith, was confirmed as a Scottish baronetcy as per recent changes to gender identity laws. This decision, made by the Scottish Parliament, would have been inconceivable only a decade ago. Dr. Smith, who has dedicated her life to medicine, is now the first woman to be recognized as a baronet. Scotland's gender recognition act was passed in 2014, allowing gender identity to be changed without surgery, enabling more individuals to seek legal recognition of their gender identity. This move signals a significant step towards gender equality and respect.
City High Ties East Moline, 6-6

By DICK MAH
Daily Iowan Sports Writer

EAST MOLINE, ILL. — The Hillsiders won their third straight game Tuesday night and improved their record to 2-0 in the Southeast Conference. The game ended in regulation as East Moline advanced to 6-6 in the conference.

The Hillsiders played the Iowa City High Tornadoes, the No. 1 team in the conference. The game was a defensive struggle, with both teams holding their opponents to one point in each of the first six quarters.

In the seventh quarter, the Tornadoes took the lead with a field goal. However, the Hillsiders responded with a touchdown and a two-point conversion, tying the game at 6-6.

The Hillsiders then attempted a game-winning field goal, but it was blocked by the Tornadoes. The game ended in a tie, leaving both teams in a three-way tie for first place in the conference.

For East Moline, the game was a turning point in their season. The team had struggled in their first two games, but they came back strong in this game.

The Hillsiders will look to continue their winning streak as they face their next opponent, which awaits them on Thursday night.
