Fair and a little warmer today. Cloudy with rain or snow Sunday. High today, 46; low, 23. High Friday, 36; low, 23.

7 Industry Members Resign From Wage Stabilization Posts

CHICAGO (P) — Seven industry members of the regional wage stabilization board tendered their resignations Friday because the President gave the coal miners their full \$1.90 a day pay raise.

Thomas P. Whelan, chairman of the Region Seven board, said he did not accept the resignations which were submitted to him because only the national WSB has the power to appoint regional board members or to accept resignations.

The regional board has jurisdiction over Illinois, Indiana and Wisconsin.

Cox Resigns, Also

The mass resignation here followed the resignation Thursday at Washington of Archibald Cox, chairman of the national WSB.

Whelan said that, as far as he knew, the Chicago resignations were the only ones submitted by industry members of the national and fourteen regional boards.

The resigning regional members said in a statement that "The President's action of Dec. 3 in overruling both the national wage stabilization board and the director of economic stabilization irrevocably ruined any hope for effective control of inflation by direct wage controls."

Ex-Members Listed

Members who announced they have quit were: Cyrus MacKinnon of Chicago, Robert Ewens of Milwaukee and Hoyt P. Steele of Chicago, and alternate members John Meade of North Chicago, Harold Schuman of Indianapolis, Edward Miller of Chicago, and Melvin King of Racine, Wis.

The regional board was composed of four principal members

and four alternates for industry, the same number for labor and an equal number for the public. Steele said that John Clark of Indianapolis was another principal member, but Clark could not be reached immediately.

"It is the feeling of the industry members of the Chicago board that it is hopelessly unrealistic to believe that the overruling decision of the President will not have a serious destabilizing effect on industry in general," the statement issued by the resigning members said.

Grand Jury Indicts Former Agriculture Department Official

WASHINGTON (P) — A federal grand jury Friday indicted Jack Cowart, former agriculture department official, on charges of taking pay for exerting his official influence.

Atty. Gen. McGranery, who announced the indictment, said it also named Tom Foster and Jack Motley, both of Center, Tex., charging that they "aided and abetted in the compensation to Cowart."

The indictment was returned at nearby Alexandria, Va.

Cowart was accused of receiving a stock certificate for 183 shares of stock in the Baton Rouge Warehouse company, operating a plant near Center, Tex., as compensation for services rendered the company when he was assistant to the administrator of the production and marketing administration in the agriculture department.

Cowart is now in federal prison, serving an 18-month sentence in another case. He was convicted last April on a charge of accepting payment from a private firm to help it recover a claim against the government.

The new indictment is based upon allegations that while Cowart was still in the department, and a stockholder in the warehouse company, the company applied for and obtained contracts for the storage of commodity credit corporation goods.

Envoy Recalled After Criticizing Economic Policy

WASHINGTON (P) — Edwin A. Locke Jr., roving ambassador in the Middle East, was recalled by the state department Friday to explain his public criticism of American economic policy.

Locke is due in Washington Monday night for "consultations," the department said.

In a speech at Beirut, Lebanon, Friday, Locke cited what he called "failures" of the Point Four program of technical assistance in the Middle East and called for large capital investments.

His Arab audience rose and applauded him when he finished talking.

Michael J. McDermott, state department press officer, said in answering questions by reporters that "there are obvious differences in viewpoint" between Locke and the department.

Appoint Whitlock To SUI Band Job Replacing English

John B. Whitlock

John B. Whitlock has been appointed assistant director of SUI bands replacing Albert V. English, who resigned Dec. 1 to accept another teaching position, Charles B. Righter, director of SUI bands, has announced.

Whitlock has been director of bands at Loyola university in New Orleans since 1946. He served in the U. S. navy from 1942 to 1946 and has directed school bands in Illinois and Iowa.

Whitlock holds an M.A. in music from SUI.

Humphrey Learns About New Job

INDUSTRIALIST GEORGE M. HUMPHREY (right) of Cleveland, next secretary of the treasury, confers with Treasury Secretary John Snyder in the treasury department, Washington, in preparation for taking up his new duties in January. Said Humphrey to reporters, "I am going to wait until I am in office to tell anything about my programs or plans."

Highlanders' Director Receives Elgin Award

Named the "Outstanding Scot of 1952," William L. Adamson, director of the SUI all-girl Scottish Highlanders bagpipe band, will receive the Lord Elgin award at the 107th annual Feast of the Haggis tonight in Chicago's Conrad Hilton hotel.

Adamson was chosen for this year's award, explains John C. Clasper, president of the St. Andrew society of Illinois, in recognition of the stimulus given American and Scottish relations when the plaid-clad lassies visited Scotland last summer.

The 1951 Lord Elgin award to the outstanding Scot or descendant of a Scot went to Bobby Thomson, long-ball hitting third baseman whose ninth inning homerun in a playoff game with the Brooklyn Dodgers put the New York Giants into the world series that year.

Highlanders to Entertain

In tonight's ceremonies, Drum Major Mary Lou Mortensen, A4, Des Moines, will reign as Heather queen, and 30 members of the band will play the pipes and drums and sing for the Americans of Scottish ancestry who feast annually to benefit their old people's home in Riverside, Ill.

Gwen Seales, A4, Iowa City, will do a drum dance for the 1,500 diners, who will include Lord Provost James Miller and Lady Miller from Edinburgh.

In behalf of the 60 girls who spent two weeks in the land of the lochs and glens, Miss Mortensen will accept a special plaque honoring the band's part in cementing relationships between the two countries. Skeptical at first about American girls wearing the traditional kilts, the Scottish people rapidly became fond of the Iowa lassies clad in the authentic tartans of Caledonia's clans.

To Aid March of Dimes

A month after their appearance

tonight to benefit Scottish old people, the Highlanders will assist in the nation's campaign against poliomyelitis. They will march and play on the March of Dimes program in Springfield, Ill., Jan. 9.

Iowa's Highlanders, the largest bagpipe band in the world, march at SUI home football games and between halves perform the Highland fling, sword dance, reels and hornpipes. In addition to playing pipes and drums, they sing Scottish folk songs in harmony.

Organized by Adamson in 1937 as a male marching group, the Highlanders became a feminine contingent during World War II when male enrollment dropped. The kilted lads performed at the New York World's fair of 1939.

Mother-in-Law Of Truman Dies At White House

WASHINGTON (P) — Mrs. David Willock Wallace, mother-in-law of President Truman, died at the White House Friday after an illness of several months. She was 90 years old.

Mrs. Truman was at the bedside when her mother died at 11:35 p.m. (CST). An aide said the President got there "just at the end."

The White House said the President and Mrs. Truman will leave here by train at 6:30 p.m. today en route to Independence, Mo. for the funeral.

The funeral is tentatively scheduled for Monday. It will be strictly private. A presidential aide said the Trumans requested that no flowers be sent.

All presidential engagements for the next several days were cancelled.

Eisenhower Boards Ship On Return Trip To U.S.

MacArthur Sees Solution To Conflict

NEW YORK (P) — Gen. Douglas MacArthur said Friday night "there is a clear and definite solution to the Korean conflict" without unduly increasing casualties or furthering the risk of world war.

He declined to disclose his plan publicly in a speech prepared for delivery before the National Association of Manufacturers at the Waldorf-Astoria hotel, but implied a willingness to present his views to President-elect Eisenhower.

The former far east commander, who withheld any endorsement of Eisenhower during the recent political campaign, made several friendly references to him in his speech.

Discusses Korea

Discussing Korea, MacArthur said:

"Our respected President-elect has announced his intention to go there in search of an honorable end to so tragic a slaughter, and all Americans join in prayer that he may safely pass through the hazards involved and accomplish his self-appointed task with vision and wisdom."

MacArthur, ousted from his far east post by President Truman, and now chairman of the board of Remington Rand, Inc., said the present course in Korea was leading toward a world war.

"There has been a material change in conditions from those of 20 months ago when I left the scene of action," he said, "and the solution then available and capable of success is not now entirely applicable."

Problems Involved

"A present solution involves basic decisions which I recognize as improper for public disclosure or discussion, but which in my opinion can be executed without either an unduly heavy price in friendly casualties or any increased danger of provoking unilateral conflict."

MacArthur's proposals 20 months ago included bombing of Red Chinese bases in Manchuria, blockading the Red China coast, and utilizing Chiang Kai-Shek's Nationalist Chinese forces stationed on Formosa.

His speech before the manufacturers gave no hint of how the "change in conditions" might alter the proposals he made then.

MacArthur blasted the Truman administration's handling of the Korean war in the same fashion that he did in a series of speeches in various sections of the country prior to the national political conventions.

Cops and Robbers

DUBUQUE (P) — Mrs. Ray McDonald of Peosta had an explanation for outrunning policemen in an automobile chase which officers said reached up to 85 miles an hour.

She said she thought the cops were robbers and that they were after a large amount of cash and checks she was carrying.

Mrs. McDonald pleaded innocent to a charge of speeding before Justice of the Peace J. Edward Whelan who said he will announce his decision Monday.

The chase took place last Sunday. Squad car officers said they stopped Mrs. McDonald at a Dubuque street intersection but she took off again and finally eluded them at Peosta. She said their car did not look like a police car.

Beardsley Calls for Discussion Of Iowa Educational Television

Gov. William S. Beardsley Friday called a meeting of Iowa leaders to discuss possible future developments of educational television in Iowa. The meeting is set for Dec. 16 in the house chamber of the State Capitol in Des Moines.

In letters sent to nearly 50 Iowa organizations, the governor said, "The official leadership of all state-wide organizations devoted to the promotion of education are being invited to consider the future of television and its effect upon the cultural and educational values offered the citizens of the State of Iowa."

Beardsley's meeting was called as a direct outgrowth of recent activities of the Iowa joint committee on educational television. IJCET is a committee established by the state board of education and the state department of public instruction for the purpose of studying statewide educational television service for Iowa. The eight member committee is composed of representatives of the board of education and its three major institutions, and of the department of public instruction.

Since its establishment in September, IJCET has made an intensive study of the need for providing educational television services in Iowa and of the development of the state-wide educational television system.

At Beardsley's Dec. 16th meeting, the committee will report on its investigation and reveal a proposal for the network of educational television stations in Iowa.

Harry Hagemann, member of the state board of education, is chairman of IJCET. Other mem-

Leaves Hope, Confidence in Frozen Korea

GUAM (Saturday) (P) — President-elect Dwight D. Eisenhower completed his three-day search for a "positive and definite" victory formula in war-ravaged Korea Friday night and flew today to balm Guam, where he boarded the heavy cruiser Helena for a six-day trip to Hawaii.

Eisenhower left the frozen Korean war zone Friday night and arrived here 8 hours and 30 minutes later.

The President-elect, in three dramatic days, packed with action, saw the war up close, talked to high military advisers and men in the ranks and with officials of the Korean Republic. He left behind him:

'No Easy Solution'

1. A statement that, while there was no easy solution to the Korean problem, "much can be done, much will be done" to improve the situation — without spreading the war to the Chinese Communist mainland.

2. A promise that the South Korean army will get "bigger and better" during his administration, and that economic aid will continue.

3. A vastly cheered President Syngman Rhee, described by a spokesman as "more confident than ever" after his talks with the general.

Talks With Officials

Eisenhower also held private discussions about Formosa with Maj. Gen. William Chase, head of the U. S. military mission to the Chinese Nationalists.

He left at 8:01 p.m. Friday night, (5:01 a.m. Friday, CST) as quietly and secretly as he had come Tuesday night.

At a press conference in Seoul he said that "we came over to learn. We have no panaceas, no trick ways of settling any problems."

Soldiers' Hopes Lifted

The visit skyrocketed hopes of soldiers bogged down in the near-zero cold of Korea's third winter of war. Soldier after soldier told correspondents the trip gave them hope that if a way to peace can be found, Eisenhower would find it.

Eisenhower began his secrecy-shrouded flight before dawn Saturday. He slipped out of New York and drove under cover of darkness to Mitchell Field air base on Long Island.

Members of his 16-man official party met him there. Included were Charles E. Wilson of Detroit, who will be the new secretary of defense; Gen. Omar N. Bradley, chairman of the Joint Chiefs of Staff, and Herbert Brownell of New York, who will be attorney general in the new Republican administration.

Arrives Tuesday

Eisenhower arrived in Korea at 7:57 p.m. Tuesday to begin three days of conferences which could be vital to Korea — and the world.

He visited combat units and talked for many hours with Gen. Mark W. Clark, U. S. and United Nations Far East commander, and Gen. James A. Van Fleet, chief of the U. S. eighth army in Korea.

His trips to combat units did not carry him into the front lines. The military and secret service were careful to see that he did not go beyond division headquarters — usually three or four miles from the actual battlefield — for security reasons.

On the general's last day in Korea he held a news conference, then spent the rest of the day talking with military leaders. At 8:01 p.m. he left for the U. S.

Reaction to Visit

I asked soldier after soldier how he felt about the President-elect's visit — and there was not one who did not say he was glad the general had made the trip and that he had hoped Eisenhower would find a way to end the war.

At the 3d Division command post, Eisenhower ate lunch with members of the 15th Regiment — the battalion which he commanded only 12 years ago as a lieutenant colonel. The soldiers didn't know they were to lunch with Eisenhower until they saw him climb from a jeep.

Junior Law Club To Begin Arguments In Practice Court

The first in a series of Junior Law club arguments will be held Tuesday at 7:30 p.m. in the practice court room in the Law building, according to Arthur O. Leff, Iowa City attorney and SUI instructor who is in charge of the practice court arguments.

Leff said the first case would be an appeal tried before a district court judge, involving the criminal statutes on the sale of beer. Judge Kildee of Waterloo will preside, he said.

The appellant side will be presented by Paul Goodland, L3, Davenport and Barry Minsar, L3, Maxwell. Donald Conney, L3, Dubuque and David J. Butler, L3, Mason City, will represent the appellee.

The purpose of the practice court cases is to give the law students experience in presenting cases to a district judge on points of law, Leff said.

The winners of the arguments will be allowed to compete in further competition next year. Winners in their freshman year of law school try cases in their junior year. Winners in the junior year have the honor of trying a case before the Supreme Court of Iowa their senior year on the annual Supreme Court Day each spring.

Leff said three other cases will be tried before Christmas vacation.

620 Couples Attend 'Winter Fantasy' Formal

(Daily Iowan Photo)

DUKE ELLINGTON AND HIS ORCHESTRA PLAYED for 620 couples at "Winter Fantasy," all-university formal Friday evening at the Iowa Memorial Union. The evening was highlighted with the presentation of a cake to Ellington, commemorating the 25th anniversary of his orchestra. The presentation was made during a half hour broadcast over WSUI. A Christmas skit was presented during intermission by Delta Delta Delta and Kappa Kappa Gamma social sororities, and Delta Tau Delta and Sigma Alpha Epsilon social fraternities.

World News Briefs

A Condensation of Late Developments

SEOUL (SATURDAY) (P) — Dozens of Allied planes smashed at Chinese Communist positions on the Sniper Ridge sector of the Korean central front Friday for the third straight day. Fighter-bombers heaped destruction on the entrenched Reds with bombs, rockets and jelled gasoline. Other fifth air force planes slashed at Communist rail lines, hit boxcars, bridges, artillery pieces and supply points. Action was light on the ground. The Reds continued to probe in small force at Pinpoint Hill, dominant peak of Sniper Ridge.

TUNIS, TUNISIA (P) — Assassins who struck from a motor car Friday killed Farhat Hached, 39, Tunisia's top labor leader, an outspoken advocate of independence and a trusted adviser of the Bey of Tunisia. Police theorized that the killing might have been organized by Communists or by extreme nationalists who feared that Hached's influence in the neo-Destour Independence party was becoming dominant.

BUENOS AIRES (P) — The director of Argentina's national atomic energy commission denied Friday that Dr. Ronald Richter, supervisor of this country's atomic pilot plant, had been arrested. The New York Times said in a dispatch from Buenos Aires that engineers on the project had reported the firing of 300 workers at the plant on Huemul island. Navy Capt. Pedro Iraola, the atomic energy commission's director, said there are "absolutely no grounds" to the reports.

MIAMI, FLA. (P) — The strike of Eastern Air Lines' flight engineers ended Friday, and normal service will resume with the company's big four-engine Constellation planes Saturday. Leverett Edwards of the National Mediation Board, Washington, reported that both the company and the flight engineers' union agreed to place the dispute over pay in mediation. Edwards said he sent a telegram at 4:30 p.m. (CST) to both sides calling on them to end the strike and let the matter be handled in mediation under the terms of the Railway Labor Act.

Industry, Armed Forces Team Up

By CENTRAL PRESS
NEW YORK—Fantastic new industrial developments—for peace use as well as war—are in the making. And chiefly because of a hitherto unpublicized partnership between industry and the government.

The idea was that of the late James Forrestal. He saw the need for an organization to retain the working relationship which existed between industry and the navy during World War I.

At his suggestion the Navy Industrial association was founded in 1944, when Forrestal was secretary of the navy. When the department of National Defense was established in 1949, the organization's name was changed, again at Forrestal's suggestion—one of his last as secretary of defense—to National Security Industrial association and its functions were enlarged to serve the army and the air force as well as the navy.

Know-How Pooled
By pooling know-how, by extending laboratory research to new horizons, tremendous advancement has been made in harnessing atomic power for constructive purposes, in finding new chemical elements that will perform tasks believed unattainable, in causing food and forests to grow where none grew previously through magic fertilizers, and in transforming waste agricultural products into valuable goods.

The process is long, difficult, tedious. It is best described by Crawford H. Greenewalt, president of E. I. du Pont de Nemours & Company, speaking at a meeting of the association in New York.

Product of Patience
"Research is the product of patient men and patient money, and even the most brilliant laboratory success is only the beginning. On the average I would guess that in our company it takes five to seven years after the first successful laboratory demonstration to nurse a new product or process through the growing pains of process development and pilot plant operation to the first commercial unit. . . . The development of nylon, for example, took something like 11 years from a successful laboratory demonstration to the first commercial unit, and that in spite of the fact that we knew very well and at an early stage we had in our hands a development of great commercial importance and were prepared to spend whatever money was needed to bring it to fruition.

New Metal Developed
"A current example is titanium metal, a development of special interest to the armed forces. Today, at their direction, we are expanding to increase our output of this new metal which we understand has military applications of great significance. The point is that we started formal research work on titanium metal in 1946 and after six years of intensive effort are still only at the stage where we can manufacture in pilot plant quantities. Without that background, development of a commercial plant even on an emergency basis would have been impossible. We need recall that the development of aluminum to a practical stage took more than 25 years."

Greenewalt pointed out that "fully half of du Pont's present sales arise out of products that were laboratory curiosities or in their commercial infancy 20 years ago."

Top Priority Training
In the association's partnership with the defense department, the training and pooling of scientists and their helpers assumes top priority.

"As industry has become more complex and more highly mechanized, just so have the demands increased for specialized training among its people," Greenewalt said. "To build a modern chemical plant, for example, requires the services of more than 100 kinds of engineers. To operate it requires an even more bewildering array of special talents.

"These special abilities, mostly technical in character, are the result of long years of training and experience. They cannot be cre-

DUPONT PRESIDENT CRAWFORD H. GREENEWALT (above) says "Today virtually every product has in some way a military potential."

ated when the need arises; they must be available and ready to turn their talents to the nation's needs.

Personnel Limited
"At the start of World War II du Pont's military explosives supervisory personnel could all have sat down together in one small room. To do what was required of us, we transferred some 1,500 supervisory and technical personnel from other activities — not counting 600 that went off to help make ammunition and another group that went into the desert to make plutonium. We had the talent — it was necessary for us only to change the direction of its activities.

"A few weeks ago I visited the site of a new plant our company is building for the Atomic Energy commission. Some 1,800 technical and supervisory personnel already are on the job, to serve as a nucleus of the operating force to come. Their professional talents cover a wide range, but I think I make my point best by telling you that until recently they were concerned with such non-atomic and non-military activities as paints, insecticides, textile fibers, motion

Ike Representative Invited to Talks
WASHINGTON (AP)—The Truman administration—committed to keeping the stabilization program going until the Republicans take over—suggested Thursday that President-elect Eisenhower may want to send representatives to sit in on handling of wage-price controls.

Michael DiSalle said he had made that suggestion to Henry Cabot Lodge, who is Eisenhower's general liaison man here. DiSalle made his announcement at the White House after a visit with President Truman.

DiSalle, former price administrator, is now serving as a consultant to Stabilization Director Roger Putnam.

Lindquist Is Confident of 'Happy Life'

OMAHA (AP)—Ernest "Ole" Lindquist, once the "loneliest lifer" at the Iowa state penitentiary, Thursday looked forward to a "wonderful married life" with the woman who refused to let him stay in prison.

Lindquist, 63, and Mrs. Addie L. Jackson, a 68-year-old Indianola, Ia., widow were married in a civil ceremony by Douglas County Judge Robert R. Troyer Thursday morning.

For Ole, marriage was something he never dreamed of during 38 of his 42 years in the Iowa penitentiary, where he was sentenced to life for the slaying of a Carroll, Ia., policeman.

Prays for Freedom
But after he met Mrs. Jackson, the first person in more than 30 years to write him a letter, he prayed for life outside the walls "like other people."

Mrs. Jackson, who says "our romance bloomed with every meeting at Ft. Madison, was instrumental in obtaining his parole and later in getting permission from the board of parole for their marriage.

"After we met, I never missed a visiting day (once a month) at the prison," she said. "I went through all kinds of weather to be with him."

Stops at Indianola
When Ole left the prison last summer, his first stop was at Indianola. Ten days after he arrived in Omaha, Mrs. Jackson joined him here. She got a hospital kitchen job and planned for their marriage.

"We went down Wednesday to get the rings. I had been after him to do it for a month. So we picked a day with bad weather," she said, proudly displaying a yellow gold diamond solitaire.

The newlyweds went out for a breakfast of "hot cakes — the best in town," but Mrs. Lindquist couldn't eat. "Ole ate everything, though," she said.

1st Weeks Tough
It is nice to be outside, Lindquist said. But, the first three weeks were tough. He missed the boys and it was hard getting adjusted to everything again.

For example: Ole had never ridden in a car until his trip to Omaha after his release. "I went in in the horse and buggy days," Ole is out of a job right now, but isn't worried. It's the slack season right now at the shoe repair shop where he has been working.

Awaiting Parole End
"We're looking forward to next April when my parole is up. We're going to her home town, Indianola, where I hope to start up a shoe repair shop."

After luncheon they started home to a rooming house just across the street from the hospital where she works.

"You can go home and turn on the faucet and make out like it's Niagara Falls, N.Y.," he joked. "We may get there sometime for a belated honeymoon."

Right now, for instance, the Commonwealth conference in London is reported to be against any extension of the Korean war to Red China itself, and Britain feels unable to provide larger forces for the fight in Korea. Yet both of these are now considered in the U. S. as strong alternatives to a continued stalemate after the latest UN truce offer has been formally turned down by the Reds.

The greatest problem before Britain and the Commonwealth is economic. The London conference has been held to decide what position Britain should take with regard to trade negotiations in Europe and the United States.

This sort of thing tends to put Britain in one compartment and the United States in another.

Both nations now take steps at times which lead to public disputes rather than calm conferring. Some of this is inevitable. Some of it could be eliminated if there were more conferring before public stands are taken.

There are differences in political attitudes toward areas such as China where trade is vastly important to the British and much less important to the U. S., just as there are differences where the two economies meet head-on in world markets.

There are traditional differences in approach to such things as the Russian problem, with Britain inclined to wiggle and squirm and negotiate where the U. S. inclines to be more direct.

Nurses Compare Uniforms

THE OLD VERSUS THE NEW. Some changes have taken place in the new nurses uniforms issued this year. The new uniform worn by JoAnn Muto, N2, Des Moines, (right), has a four-gored dress with a detachable belt, a gregained tie and an overseas style cap. The new dress is designed for class wear as well as for clinical practice. The old version, worn by Mary Lou Hoover, N4, Oskaloosa, (left), has a two-gored dress. Both outfits have the same white bib, collar and apron.

Dancers to Be Featured In Christmas Program

A modern dance group will interpret two Christmas carols at the Christmas Vespers to be held in the Methodist church Sunday at 7:45 p.m.

Directed by Jean Smith, G. Cherokee, N. C., the SUI dancers will present two verses of "Oh Come All Ye Faithful" and "Oh Come Ye Emanuel." The dances will be interpretations of the words of the carols.

The choir will sing the carols as they are interpreted by Zora Cernich, G. Normal, Ill.; Susan Morse, A3, Cedar Rapids; Mary Thompson, A4, Leland; Bonnie Beekman, A4, Atlantic; Lorraine Huisenga, A4, Wall Lake; Marge Hoffman, A4, Monticello, Edie Mae Staley, A3, Denison, and Rita Perry.

70 to Participate
Seventy students will participate in the vespers which will include an original pageant, arranged and directed by the Rev. Nancy Forberg, minister to students at the Congregational church.

The story of the Nativity will be portrayed in scenes, linked by choral reading and music.

Members of the cast are: Mary, Patricia Jipson, A4, Iowa City; Joseph, William Hall, G, White River Junction, Vt.; Inkeeper, John Barr, G, Cades, S. C.; Wise Men, Richard Buxton, A3, Iowa City; Wayne Jipson, A4, Elkader, and Willis Volkmer, C4, Washington, D. C.; Shepherds, Sherman Nelson, A1, Fargo, N. D., and John

Sherer, A4, Hampton; Angel, Margaret Waery, A3, East Haven, Conn.

Kenny to Lead Worship
Gene Kenny, A4, Ridgewood, N. J., president of the Student Christian Council, sponsor of this service, will lead the worship. Narrators will be Nancy Burnam, A4, Medina, N. Y., and George Hairing, A2, Marshalltown.

The scriptures from the King James version of the Bible have been adapted for choral reading and will be presented by a speaking choir.

17 in Speaking Choir
The choir includes Beatrice Dierks, Iowa City; Joyce Miller, A4, North English; Ruth Coon, A3, Mason City; Aurzella Boewe, A1, Des Moines; Betty Coleman, N1, Sioux City; Pat Griggs, A2, Britt, and Mildred Hanson, A1, Knoxville.

Others are Irene Livingston, A1, Iowa City; Wilma Loan, A1, Iowa City; Margaret Greene, A1, Charles City; Jobyna Rankin, A1, Tracy; Mary Jane Mullins, A2, Adel; Ed Anderson, E1, Northboro; Bob Becker, A1, Central City; Hal Macon, A4, Cedar Falls; Jim Corwin, A3, Anamosa, and George Aumock, A4, Onalaska, Wis.

Mrs. G. W. Buxton is the organist. Ushers are Philip Botolfsen, A2, Northwood; Norman Sparrow, A2, Clemons; Wesley Pippert, A2, Mason City, and Ben Bankson, A3, Sioux City.

Norma Strunce Engaged

Mr. and Mrs. W. G. Strunce, Creston, announce the engagement of their daughter, Norma, to Pfc. Edward Jochumsen Jr., son of Mr. and Mrs. Edward Jochumsen, Waterloo.

The couple will be married Dec. 28 in Creston.

Miss Strunce is assistant station pharmacist in SUI's drug service department. She was graduated from SUI in 1952.

At SUI she was affiliated with Delta Zeta social sorority; Mortarboard, honorary for senior women; Rho Chi, scholastic honorary for pharmacy students, and Kappa Epsilon, professional pharmacy sorority.

Pfc. Jochumsen was graduated from SUI in 1951. He was affiliated with Sigma Phi Epsilon, social fraternity. He is stationed at Aberdeen Proving Grounds, Md.

Norma Strunce

COUNCIL TO MEET
Officers of the University Women's Association freshman council will be elected today at their first meeting. The meeting will be held in the North Recreation room of Currier hall.

STUDENTS TO BROADCAST
Numbers for woodwind and brass ensembles will be presented Dec. 10 on the Wednesday Evening Music hour over WSUI. Members of the faculty and advanced students will participate in the program, which will be broadcast at 8 p.m. from Studio E in the Engineering building.

Soda Shop Sustains Coeds Between Meals

SHOWN WORKING BEHIND THE COUNTER IN THE CURRIER SODA SHOP is Mrs. Darlene Gengerich of Iowa City. Serving approximately 3,000 customers a week, the fountain offers many food and drink items to the 700 girls living in the dormitory and the annex. The shop has on sale such items as second breakfast suggestions, soft drinks, malts, milk shakes, ice cream, soups and sandwiches. Also on sale are cigarettes, magazines, candy and gum.

Currier Fountain Sells Girls Snacks

Approximately 3,000 customers a week are served in the Currier soda shop, located on the main floor of the dormitory. Around 700 girls live in Currier and the annex.

Waitresses at the shop have found cokes, hamburgers, chocolate chip ice cream and Heath candy bars to be top-sellers. The most popular brand of cigarette is Chesterfield and the favorite magazine is the Saturday Evening Post.

Waitresses working full time at the fountain are Darlene Gengerich, Marie Bendar and Mable Smith.

An estimated 1,400 cokes are consumed each week by the coeds at the fountain. In complying with the demands for hamburgers, the shop uses approximately 54 loaves of bread.

The menu offers hungry students such food items as second breakfast suggestions, soft drinks, malts, milk shakes, ice cream, soups and sandwiches. The shop also has candy, gum, cigarettes and magazines on sale.

Business hours are 9 a.m. to 10 p.m. Monday through Saturday and 10 a.m. to 10 p.m. on Sunday. G. Iowa City, counselor.

Sorority Pledges To Give Dinner

The pledges of Alpha Delta Pi social sorority are giving a fire-side buffet dinner for the active members of the chapter.

The dinner will take place Sunday, Dec. 7, at 6 p.m.

Jan Houser, A1, Cedar Rapids, is in charge of arrangements. The foods chairman is Carolyn Gee, A1, Independence and Kay Van Der Sluice, A1, Ida Grove, is entertainment chairman. Preparations chairman is Phyllis Shetfield, A1, Clinton.

SUI to Present Play On WO-TV Tuesday

"Mainspring of Action," a television laboratory play, will be presented Tuesday at 10 a.m. over WO-TV, Ames.

The plot concerns a football player who finds, after he is injured and unable to play, that there are "more important things in life than football."

The cast includes: Bob Sparks, A3, Newton, coach; Tom Tilgner, C3, Hawarden, high school football player; Jim Wehr, A3, Iowa City, father, and Walter Friedhoff, A1, Clinton, counselor.

ENGLERT STARTS TODAY

Sororities to Have Christmas Project

The SUI Panhellenic groups are furnishing Christmas presents for the children at the Hospital School for Handicapped Children. Sue Starman, A4, Cedar Rapids, Panhellenic president, has been doing the contact work for the project.

Each sorority is buying and wrapping gifts for one or two children. The gifts will be given to the children at a Christmas party Dec. 16.

The Iowa City Jaycees and the 40 and 8 club are in charge of the program for the party.

SORORITY PLANS DANCE

Kappa Alpha Theta pledge class is sponsoring the annual Kappa Alpha Theta Christmas formal today from 9 to 12 p.m. at the chapter house.

Mortarboard Plans Luncheon, Speech For Conference

Plans have been completed for SUI's Mortarboard conference to start today. About 40 members from Cornell, Grinnell and Ames are expected to attend.

At 9:15 a.m. registration and a coffee hour will be held in the Iowa Memorial Union. At 10:15 a general meeting will take place in the Shambaugh lecture room in the SUI library. At 11 a.m. after the meeting there will be panel discussions at the Union dealing with "Money Making Projects," "Mortarboard's Role on Campus," and "Selection of Membership."

A luncheon in the private dining room of the Union will be at 12:15 p.m. after which, Mrs. Barthelo Crawford, Mortarboard alumna, will discuss leadership after college.

Following Mrs. Crawford's speech there will be discussion summaries led by Sally Yeates, A4, Greenfield; Jo Ellen Lane, A4, Boone, and Peggie Lutz, A4, Des Moines.

Pledges to Give Sorority Formal

The annual Delta Gamma Christmas formal, sponsored by the pledge class, will be held tonight from 9 until 12 p.m. at the chapter house.

Music will be provided by the Varsity club band of Cedar Rapids.

Colleen Murphy, A2, Sioux City, is chairman of the decorations committee and Elba DeCamp, A2, Newton, is chairman of the refreshments committee.

Lou Hruska, A3, Dubuque, is social chairman.

Chaperones will be Mr. and Mrs. M. L. Huit, Mrs. Herbert Ballard, Delta Upsilon housemother, and Mrs. Ralph E. Overholser, Delta Gamma housemother.

ALLIANCE TO MEET
Delta Delta Delta alumnae alliance will hold its annual Christmas party Monday, Dec. 8, at the home of Mrs. Erling Thoen, 1026 Kirkwood ave.

SUI Stations To Repeat Binaural Broadcasting

THIS IS HOW IT WORKS—Binaural broadcasting week will be observed by SUI radio stations WSUI and KSUI-FM Dec. 8-13. As shown in the diagram, two microphones pick up the sounds and transmit them through both the WSUI and KSUI-FM transmitters. Likewise, in the home of the listener, two radio receivers are used—a regular (AM) set and a frequency modulation (FM) set—spaced about 10 feet apart. The university stations presented the first Iowa binaural broadcast on Nov. 19, and favorable response from listeners has brought about "binaural week."

The two SUI radio stations will again broadcast binaurally next week after successfully staging the first "three-dimensional broadcast" in the state Nov. 19, Carl H. Menzer, director of the stations, announces.

Stations WSUI and KSUI-FM will air three programs by the binaural technique during the week in response to many Iowa listeners who heard the first broadcast, according to Menzer. "Taggart's Keyboard," a 15-minute program of piano stylings by James T. Taggart, AS, Des Moines, will be heard Monday at 7:30 p.m. The second show, "The Music Hour," will be presented Wednesday at 8 p.m. "Gloria Cooke Sings" will be the last of the week's binaural broadcasts, Friday at 7:30 p.m.

Binaural broadcasting creates a three-dimensional effect comparable to that obtained with the stereoscope in vision. Program sounds appear to come from the actual location of the sound source, and if the source moves during the program the listener is immediately aware of it.

To create this effect, the station uses two microphones in the studio, spaced approximately the same distance apart as the human ears. In effect, the listener's ears are transferred to the location of

the microphones and the slight difference in time of the sounds' arrival at the two ears is maintained.

Sounds are transmitted through the microphones and through both the WSUI (amplitude modulation) and KSUI (frequency modulation) transmitters. Likewise, in the home of the listener, two radio receivers must be used to get the binaural effect—a regular (AM) set, tuned to WSUI at 910 kilocycles, and an FM set, tuned to 91.7 megacycles. The sets should be spaced about 10 feet apart in the room, with the listener seated at an equal distance from each receiver.

French Researcher To Lecture Here On Aesthetic Art

Prof Lucien Rudrauf, of the French national center of research, will speak on the aesthetic aspects of the Apostles at Emmaus, as they appear in the illustrations of this theme in western art, Monday at 8 p.m.

The lecture, sponsored by the Graduate college and the Humanities society, will be in the Shambaugh lecture room of the SUI library and will be illustrated by slides.

Rudrauf has done extensive research in the psychology of artistic creation. His main work in this field is a study on the French painter, E. Delacroix. In recent years he has done several studies on themes of art history. A volume on the theme of the Annunciation, published in 1945, has attracted wide attention among aestheticians and historians at art. A new book by Rudrauf on the Apostles at Emmaus is being printed in Paris.

Christ's appearance to the Apostles at Emmaus often has been illustrated by artists, among them Rembrandt. Rudrauf has been studying this subject for several years in France, England, Holland, Belgium and Italy.

School for Army Reserve Officers' Established Here

An army officer reserve corps school is being established in Iowa City, Beginning Thursday, it will meet the first three Thursday evenings of each month at 7:30 on the third floor of the Paul-Helen building.

All interested reserve officers, active or inactive, including medical and dental corps personnel, are invited to enroll in the school. Credits can be earned at the school for retirement, retention or both in the active reserve. Further information and application forms may be obtained from Capt. John Thomas, Veterans hospital; Maj. Frederick McDowell, English department; Maj. Jacob Wegmuller, Baron Motor supply; or Maj. Frederick Beebe, registrar's office. Officer in charge of the school is Lt. Col. Robert Schmickle.

Storm to Address Iowa Book Club

Colton Storm, associate director of the William Clements library at the University of Michigan, will speak at the Iowa Memorial Union Tuesday at 6:30 p.m. at a dinner meeting of the Iowa Book Collectors club.

Storm, an authority on early American books and midwestern history, is the author of "Invitation to Book Collecting." He is also secretary of the Clements Associates, a group of men and women interested in books and book collecting.

Members of the Book Collectors club will give a one minute report on their progress of collecting and reading, and the organizing committee will give a report on the club's constitution. Tickets for the dinner are \$2.50 and will be sold at the door.

SUI TV to Give Hydraulics Program

Hydraulics will be featured on "The University Hour" television show at 1 p.m. Sunday over WOC-TV, Davenport, according to John Ulrich, director of the show.

Included in the half-hour program will be a film on the Iowa institute of hydraulic research, which was filmed on the campus of SUI, plus an interview with three members of the institute staff.

The film will tell the history, functions, typical problems and the educational work of the hydraulics institute. It will also show much of its equipment and general activities.

Don Knoepfler, A4, Iowa City, will act as moderator and questioner for the "live" portion of the program. He will interview C. S. Yih and Phillip G. Hubbard, both research engineers at the institute, and also acting director John S. McNow.

Community Chest Deadline Extended

The Community Chest deadline has been extended indefinitely with the hope of reaching the \$35,240 goal, Prof. Robert Ray, director of SUI's institute of public affairs and head of the local campaign, said Friday.

Collections have now reached \$31,200 which is 89 per cent of the goal. Two divisions have topped their goals. The residential division, whose goal was \$5,040, has collected \$5,511 for 109 per cent of its goal. The Public Service units, with a goal of \$1,640, have collected \$2,112 which is 129 per cent of their goal.

The university division has contributions totaling \$7,232, or 96 per cent of its \$7,540 goal.

WSUI To Broadcast Classics on Wednesday

The SUI department of music, in collaboration with WSUI, will present contemporary and classical selections on the "Wednesday Evening Music Hour" at 8 p.m. Wednesday.

Included on the program will be Buonamente's Sonata from Sonata et Canzon, Dietz's Modern Moods for Brass Sextet, Hartmeyer's "Negev," tone poem for brass instruments, Mozart's Serenade No. 12 in C Minor, and Schmitt's "Lied et Scherzo."

Laundromat Helps Iowa Citizens Economize

When the Iowa City Laundromat was in need of new management shortly after World War II, Stanley Davis purchased the independent organization. He is now in his fourth successful year of ownership.

Davis has 56 machines in operation thirteen and one-half hours a day for his customers. The Iowa City Laundromat is the only one of its kind in this area. Davis has a simple formula of catering to every whim of the public, first, by his use of good equipment, and second, he goes to considerable length to provide his customers with special services.

The Laundromat is mainly a self-service operation, to provide the customer with washing equipment. It also has attendant service. With this the customer needs only place the clothes in the automatic washing machines. The rest of the washing operation is accomplished by the attendants for a 10 cent service charge.

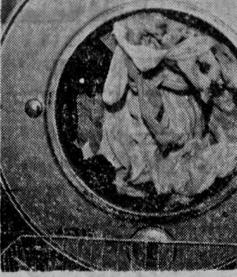

The charge for one washer is 35 cents, including the soap. If the customer wishes the attendant to add bleach, bluing, or heavy soil compound, the charge is 5 cents for each. When the automatic completes the wash the attendant places the clothes in the extractor to be damp dried.

The clothes are then ready to be fluff dried in the gas-heated dryers. The charge is 20 cents per load for the use of three machines. After this half hour of fast, efficient service, the customer's clothes are packed and ready to be taken home.

After washing at home the customer may bring his clothes to the laundromat and the attendants will put the wash through the drying process.

The price of the Laundromat's

1 of Laundromat's 11 Dryers

THE LAUNDROMAT'S HEAD ATTENDANT, Herbert Platteler, is shown operating one of the 11 gas-heated dryers. Platteler keeps things humming for the Laundromat. He maintains and operates all the Laundromat's equipment. The Laundromat, located at 24 S. Van Buren st., opens for the first wash at 7:30 a.m. with the last wash at 7:30 p.m. Monday through Thursday. Closing time on these days is 9 p.m. The first wash on Friday and Saturday is at 7:30 a.m., the last wash at 3:30 p.m. and the Laundromat closes at 5 p.m.

Triple Feature — Plus 24-Hour Service

Varsity Cleaners has been located just across from Schaeffer hall, 17 E. Washington st. for over 40 years. It is owned and operated by Cecil G. Anciaux and Glenn E. Roberts.

Anciaux purchased the cleaning plant in July of 1946 upon his discharge from the service. Roberts became a partner in the firm in January of 1952. He had formerly worked as pick-up and delivery man while attending SUI.

Varsity Cleaners provides a triple service feature. All garments are cleaned in perchlorethylene, a dry cleaning solvent. This is the latest in modern drycleaning. It does not leave odors that are caused by petroleum based solvents.

Pearson's Drugstore Specializes in Unusual Services, Gifts

Pearson's Drug Store, at the corner of Linn and Market sts. in Iowa City, is one of those friendly drug stores that offer their customers a tremendous variety of services. Located in the very center of Iowa City's convenient north side shopping district Pearson's has a distinct parking advantage. It is a rare thing not to be able to park close by.

In addition to the professional part of this drug store a number of extra services are offered. American Express company money orders are obtainable at Pearson's any time they are open, from 8:30 a.m. until 10 p.m. every day but Sunday when Pearson's is open from 8 a.m. until 8 p.m.

Pearson's also serves as a collection depot for bills payable to the Iowa-Illinois Gas & Electric company. They always sell postage stamps.

SUI Students Employed The prescription department is the most important department of this store. There are three graduate registered pharmacists employed full time. In addition to these three are an equal number of students from the SUI college of pharmacy who are helping themselves towards an education while helping Pearson's with their work.

Another interesting thing about this store is the wonderful ice cream they feature. The ice cream has been made especially for Pearson's for nearly 20 years, except for a time during the war years when butter fat was too scarce to make this fine product.

Ice Cream Made Specially Pearson's deluxe ice cream is made only in vanilla and is available in gallons, half gallons, or in bulk, hand dipped. All the fountain specialties are made with this superior product which explains why the malts, milk shakes, sodas and sundaes are better at Pearson's soda fountain.

During the coming Christmas season, with all the hurry and hustle, you will enjoy shopping at this courteous store. There are many lovely gifts on display. Perfumes and toiletry sets by many famous makers including Coty, Yardley, DuBarry, Richard Hudnut, Max Factor, Tabu, Ciro, Shulton, Tawn, Courtley, and many other producers of fine gifts.

Pearson's also has a huge stock of greeting cards, wrappings, tree lights, tinsel, snow and a lot of other things you'll be needing

Domby Boot Shop Has Array of Gift Slippers

Lamp-lighters by Joyce are the latest note in the at-home footwear wardrobes of beauty-loving women. For lamplight hours of luxurious relaxation these glamorous stay-at-homes with a gala going-to-a-party sparkle add a note of elegance to lounging wardrobes.

First of all, there are those indispensable cross-over scuffs so easy to slip into and so easy to pack for week-end or vacation trips. These simple tailored scuffs are available in smooth leather in navy, white, red, green, yellow, or if you want this style with just a little more glamour, you can have it in soft black velvet. These scuffs come with the new foam rubber cushioning for added comfort.

Other Styles Listed If you like your toes covered you can have a closed toe scuff in interesting poodle cloth in grey, white or black sparkled with a hair-ribbon bow of shining satin. Or, the same style comes in a new honey bear scuff as soft and cuddly as your beloved childhood teddy bear. In fact, you can have a matching honey bear, with a pert little honey bee atop its head, which will win a spot in your grown-up heart.

Joyce has designed one little lamplighter which would stay-at-home beside the fire, or go dancing gaily to the holiday parties. This is a low wedge, closed toe, velvet. Trimmed with a tailored faille bow it has a simple elegance which puts its wearer at ease in any party scene.

Gift Wrapping Free For your own lamplight hours or for a lovely gift, the Joyce lamplighters at the Domby Boot Shop would be perfect. Prices range from \$3.95 to \$10.95, and the Domby Boot Shop will gift wrap without additional charge.

While you are in the Domby Boot Shop, take time to see their beautiful shoes, many with bags made of exactly the same leather or material and designed to match the style of the shoe. You may choose from I. Miller, Johansen, British Walkers, Joyce, Grayflex, Old Maine Trotters, British Brevitts, Cobblers and others.

For the home owner, maintenance and repair man who uses a saw intermittently, this specially priced saw is the ideal buy. The saw cuts two-inch dressed lumber, stone, plastic and compositions safely and quickly. A special non-glare foot cuts reflection, has accurate sighting notches to easily follow line of cut. It is designed and built to rigid specification.

Drill Meets Requirements Nagle's famous Skill home shop one-fourth inch drill meets almost every arduous requirement for home repairs, workshop and hobby projects. Scientifically engineered for greater balance and ease of handling, it has a capacity of one-fourth of an inch in steel and one-half of an inch in hardwood. Die-cast aluminum housing provides the greatest strength and lightest weight.

When used with moderately priced Skill home shop accessories this model will also grind, buff, polish, sand, and brush. A dependable tool for all-around home use.

HERE IS WHAT THOSE WHO heed the slogan "it pays to park at Pearson's" will find when they walk through the door. The soda fountain, ice cream and candy on the right, the prescription department in the rear, magazines and newspapers to the left inside the door. One picture may speak louder than a thousand words but, one picture cannot possibly show all the things Pearson's stock to fill their customers' needs.

when you start getting ready for Christmas. Features Pens, Pencils This store has a complete line of Shaeffer pens and pencils, singly and in sets. The new Shaeffer "Snorkel" pens are now in stock and they are the newest thing in fountain pens. If you have someone on your list who would like a Ronson lighter for Christmas you will find a most complete array of pocket and table lighters at Pearson's.

Lie Fires 9 More American UN Employees

Brings Total to 18 Released This Year

UNITED NATIONS, N.Y. (AP)—UN Secretary General Trygve Lie fired nine more American employees Friday for refusing to answer questions about alleged subversive activities put to them by the McCarran committee.

He warned his 3,000 employees in a formal statement that he would take the same action in future cases, as has been recommended by a panel of three international jurists.

Friday's action brings to 18 the number fired during 1952 for the refusals which the panel told Lie created a "climate of suspicion." Assistant Secretary General Byron Price was quoted by the UN staff association as saying he drew an inference of guilt when employees refused to answer.

Firings Denounced

The association, which is the official recognized spokesmen for secretariat members, denounced the firings as being without sufficient cause and said they endangered the whole future of the UN. Sen. Alexander Wiley (R-Wis.), a member of the U.S. delegation and probable chairman of the foreign relations committee in the next senate, was pleased with the news.

Wiley has been handling the problem for the delegation and had proposed earlier that Lie be given the authority to fire recalcitrant witnesses. The legal panel decided he already had it.

Lie Accepts Resignation

In a related development, Lie accepted the resignation of Ruth Elizabeth Crawford, who told the committee when she testified that she had been a Communist during the 1930's.

All those fired had permanent UN contracts; the nine fired before were employed on a temporary basis.

9 Receive Letters

The nine who received the letters were:

Frank C. Bancroft, an editor in the documents division, \$7,300 a year; Hope Dorothy Eldridge, a population statistics expert in the department of economic affairs, \$7,500; Jack S. Harris, research on trusteeship matters \$9,000; Julia Older Baiser, an editor in the documents division, \$7,300; Jane M. Reed, library, \$5,000; Alexander Svehchansky, who prepared news broadcasts to Russia, \$8,250; Joel Gordon, a \$10,000 a year expert on current trade analysis; Sydney Glassman a \$6,000 junior economist and Leon Elverson, \$3,500 library clerk.

Government Gets Land Near Here For Flood Project

The U. S. government has been granted a judgment giving the government titles to 49 tracts of land involving a total of 2,237.14 acres for the Coralville reservoir flood control project north of Iowa City.

The judgment was entered by the U.S. district court for the southern district of Iowa at Davenport. The government filed condemnation proceedings and a declaration of taking the land on Nov. 24. The judgment provides for the possession of the land by the government on Mar. 1, 1953.

Property owners of the land will be paid from the total of \$352,460 the government has deposited with the court.

The land will become part of the huge reservoir for the flood project under construction on the Iowa river north of Iowa City. Construction on the dam has been ceased temporarily because of lack of funds, but purchasing of land for the project continues under an earlier appropriation.

Hancher Address Pamphlet Printed

"The Unexamined Life," an address by SUI President Virgil M. Hancher, now has been printed in pamphlet form.

The 16-page address was given by President Hancher at the Phi Beta Kappa dinner honoring new members of the Iowa Alpha chapter May 19.

The pamphlets were printed last summer by the SUI Alpha chapter primarily for all Phi Beta Kappa chapters in the U. S., for Iowa high school principals, and for all SUI graduates of the last 12 years who have been elected to the national honorary scholastic society. Copies may be obtained at the SUI registrar's office, University Hall.

PRISON TO BE SHRINE

MANILA (AP)—The Philippines government will convert historic Ft. Santiago—hell-hole prison for many Filipino martyrs and heroes during the Spanish and Japanese regimes—into a national shrine. President Elpidio Quirino has created a committee for the rehabilitation of the old fort, which was virtually razed during the battle for Manila in 1945.

'Miss X' to Be Revealed Soon

(Daily Iowan Photo)

WHO IS THE MAGAZINE X PIN-UP OF the month? The next issue of Magazine X will give her identity. The winner of a contest sponsored by the SUI humor magazine will get an all expense-paid date with the pin-up. SUI male students have to complete a sentence telling why they would like a date with the curvaceous girl in the picture, to enter the contest.

'Dream Girl' Called —

'Masterpiece of Simplicity'

By JIM GOLTZ

Although the SUI theater-going audience is occasionally prompted to be thoughtful and intellectual, it consistently insists upon enjoying itself. The University theater's current offering, Elmer Rice's "Dream Girl," can hardly be considered soul-inspiring, but it does succeed in being thoroughly and completely enjoyable.

Its plot is a masterpiece of simplicity. Its two acts serve as a blue-print of one day in the life of a charming, young lady who suffers from occasional fits of schizophrenia.

The ambitious miss is thrown into a day-dream existence of secret love affairs with her sister's husband, jaunts to Mexico with a wealthy financier, and applause-winning performances on the Shakespearean stage—all in one day.

If this were all, "Dream Girl" might well be a fade-out of ethereal nothingness, but the University theater has transformed an almost-drab script into a comedy-drama of polished elegance.

The play eavesdrops on the young spinster's private thoughts, stages her dreams, and dramatizes her exhilarated imaginings and broodings. The contrast between the dullness of the realities and the glamorous melodramatics of her day-dreams is steadfastly funny, particularly when the girl imagines herself descending to the depths of "street-walking," only to come across the man who has betrayed her.

True to Elmer Rice fashion (i.e., his impressionistic "The Adding Machine" which was produced at SUI two years ago), the play presents weirdly-exaggerated and surrealist situations when it transcends into the realm of dreams.

In this respect, Charles A. Brandon, A3, St. Louis, might well be considered the "star" of

PURCHASES TOTAL \$1,000
Christmas Seal purchases in Johnson county have amounted to \$1,000 during the past week, Mrs. Cora Griffin, office of the county auditor, said Friday. The total purchases have now reached \$3,000 since the Christmas Seal drive began two weeks ago. The county's goal is \$8,000.

Air Force Requests More Weather Officers

Gen. Hoyt S. Vandenberg, air force chief of staff, in a brochure to presidents of ROTC colleges, states, "We are desperately in need of good minds — young and flexible minds eager to meet the rising challenge of our times, anxious to grasp the evolving meaning of air power."

The general's statement was in relation to the new opportunities available to young men and women with scientific interests who upon entry into the U. S. A. F. may receive training as weather officers.

Additional emphasis was made by Maj. Gen. W. O. Senter, commanding general of the air weather service, who made a statement in behalf of the opportunities for direct commissions in the USAF. Senter stressed the importance of the meteorologist's con-

tribution to the success of scientific advancement.

Graduates and Seniors Eligible
Senter continued by saying: "College graduates, or seniors who will graduate this June, now may apply for appointments in the air force as second lieutenants and receive government-paid weather training at one of eight colleges and universities. Upon completion of their training, they will receive assignments in the USAF air weather service as weather officers.

"These individuals must possess a baccalaureate degree with credit for one year of college physics and mathematics through integral calculus. Qualified graduates or seniors should write to Headquarters, Air Weather Service, Washington 25, D. C., for the required application forms." Members of the air force ROTC may apply for

Magazine X To Give Man Pin-Up Date

"Twenty-five words or less" — will win some SUI male student the privilege of an all-expense-paid date with Magazine X's mystery pin-up of the month.

All contestants must complete the following sentence in 25 words or less: "I would like a date with the Magazine X pin-up of the month because —"

Only SUI students are eligible and entries must be written on Magazine X entry blanks. Contest

entries must be left at the Magazine X office or mailed to Magazine X, N2, East Hall.

Entries must be in by Saturday, Dec. 13. The entries will be judged by Magazine X staff members. The winner will be announced Tuesday, Dec. 16.

On Dec. 18, the pin-up will receive a corsage from the Curtis Flower shop and the evening will begin with dinner at Curt Youcums. After dinner the couple will be guests at the annual Christmas party held at the Iowa Union. Transportation will be provided by the Deluxe Cab company.

Efficiency Is Motive For Three Steps, Commissioner Says

DES MOINES (AP)—John M. Ropes, Iowa's new state commerce commissioner who took office Wednesday, already has taken three steps toward what he says will be greater efficiency in the commerce commission.

In a letter to Grant Cunningham, secretary of the state executive council, Ropes asked Friday that orders for commission supplies not be approved unless his name appears on the order.

Ropes' letter said that "in the past it has not been the policy of the three commission members to sign requisitions for supplies. I am of the opinion these requisitions should be signed by the commissioners."

In a second letter, Ropes asked Walter Rutherford, state car dispatcher, for a list of all state-owned cars assigned to the commission, the miles driven by each car and the length of time it has been in service.

In a third move, Ropes said that as soon as David E. Long, Des Moines, another commissioner, returns from vacation he intends to ask the commission to make a "thorough-going study of its personnel."

Ropes said he feels periodic reviews of personnel "are just good business practice in any office or state department as large as the commerce commission."

Iowa, Sooners Meet There At 8

Invitational Gym, Wrestling Meets At Field House Today

NORMAN, Okla. — Iowa's basketball squad arrived here Friday afternoon, and the Hawks were run through a short drill in the Sooner field house by Coach Bucky O'Connor in preparation for their encounter with Oklahoma tonight.

The Hawkeyes enter this contest with a 1-0 record for the current season. Iowa which defeated Butler 62-52 in its opener has no way of measuring the Sooners' power since tonight's hosts will be making their first appearance of the campaign.

Oklahoma, however, is without its high scorer from the last season, Sherrn Norton, who garnered 21 points against the Hawks last year in a game which Iowa won 59-46.

6 Lettermen Back

Coach Bruce Drake has a nucleus of six returning lettermen from his 1951-52 squad which finished the season with a 7-17 record. Center Bob Waller, 6-5, is expected to be the standout man on the Oklahoma team.

Iowa's starting lineup will be much the same as the group which saw action first in the Butler game. Chuck Jarnagin and Ken Buckles will be at the guard slots, Deacon Davis and Herb Thompson are slated for opening work at the forward posts, and the center position, as of Friday after-

noon, was undecided.

O'Connor stated earlier that any three of his centers, Gene Hettrick, Bob Miller or Bob Mau, may gain the nod at that position. This trio of Hawk pivot men collected only three field goals among them in the team's opener.

Rest of Squad

The remainder of the squad of 12 Hawkeyes here are guards Dan McBride, Merle Jensen, Gerald Ridley, Paul Stark and Dick DeGunter.

A host of wrestlers will invade the Iowa field house today for the Iowa Invitational AAU wrestling meet.

This meet will be a warmup affair for nearly 200 grapplers in Iowa and surrounding states.

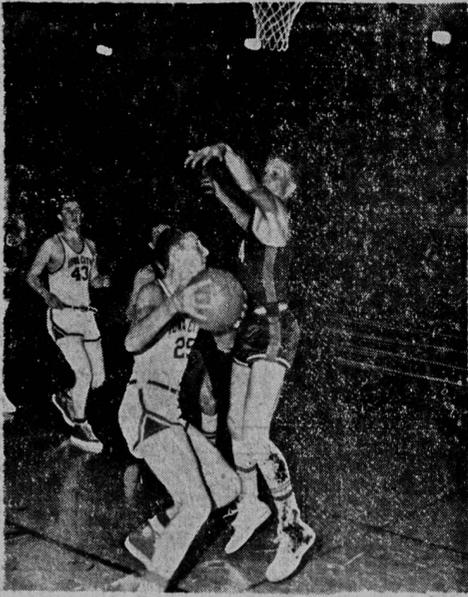

Coach Dave McCuskey of Iowa stated that there will be both a junior division for high school entrants and a senior group for collegiate wrestlers. Most entries will come as unattached.

Some of the schools represented will be Iowa State Teachers' college, Iowa State college, Minnesota and Illinois. Several, Iowa high schools are also sending entries along with some YMCA and independent athletic club groups.

CHI O'S GAIN

The Chi Omegas gained the crown in the volleyball intramural tournament by defeating the Delta Gammas in the final round of the playoffs. Although Chi Omega was only leading by a margin of one point at half time, they rallied during the last half to defeat their opponents by a score of 26-15.

Action in Hawklet-Franklin Game

CITY HIGH CENTER, RON OUTHOUT. (No. 25), on this play maneuvered for a field goal around Franklin's guard Don Peterson in the first quarter of the game at City high Friday which the Hawklets lost 68-65. Bill Stevens, Little Hawk guard (No. 43), who hit 15 points in the game is approaching in the background.

Robinson Says He Will Meet Turpin in June

NEW YORK (AP) — Sugar Ray Robinson said Friday he is not retiring and his manager announced the champion will defend his middleweight title against England's Randy Turpin in London this June.

Manager George Gainford made the announcement of the planned title bout in Boston after the New York State Athletic commission, in a startling move, declared Robinson's title vacant in New York at 12:01 Friday morning.

Some 12 hours later, the commission just about reversed itself and said, in effect, that if the champ really means to fight Turpin, then he'll get back his title recognition.

After talking to Gainford twice on the long distance telephone, Commission Chairman Bob Christenberry said "if Gainford can present documentary evidence of the Turpin-Robinson fight, we'll take the proper action."

Christenberry, and his two commissioners, Dr. C. B. Powell and Leon Swears, can take action for New York only, of course. In Minneapolis, George Barton, president of the National Boxing association, said Robinson's defense against Turpin in London next June "is good enough for the NBA."

Barton added, however, that the NBA executive committee will meet in Washington in the next two weeks or so and will expect Gainford to present proof that the Robinson-Turpin fight is something definite. The NBA had granted Robinson an extension.

Franklin Stops Hawklets In Overtime; Bailey Leads Thunderbolts to 68-65 Win

By PETER WESTERGAARD
Daily Iowan Sports Writer

City high and Franklin of Cedar Rapids battled all the way to the wire Friday night at the Little Hawks gymnasium, and even then were forced to extend the battle into an overtime before the Thunderbolts finally gained the 68-65 victory.

With both teams exhibiting well balanced offenses as the score indicates, the game showed the earmarks of a dogfight from the

Gardner Van Dyke's 23 points and all around floor play helped University high to stun Mt. Vernon 51-50 Friday night at Mt. Vernon. Van Dyke's free throw contributions in the closing minutes provided the Blue Hawks with the victory margin.

opening tip-off. The Little Hawks surged into an early lead in the first quarter but didn't enjoy it for long, due primarily to the uncanny push shot artistry of the Thunderbolts' Pete Bailey, who collected 29 points for the evening to lead all scorers.

Tied at Half

With the start of the second quarter, the Iowa City crew was able to maintain a slim advantage until about the midway point, when Franklin center Lee Woods dropped in a push shot to tie the score and finally ending 34-34 at the half.

In the third period, the score remained close up to the half way mark, when Iowa City gained a lead through superior shooting. The Hawklets, who shot 52 per cent in the first half, rammed home 11 points in quick succession to lead at the three quarters mark, 52-45.

However, a terrific scoring barrage, featuring forward Roland Tenhaus closed the gap and very nearly swamped the Iowa Cityians until a drive in shot by guard "harlie Sample brought an end to the scoring with the game knotted at 60 all.

In the overtime, a layup shot guard, followed a short time later by two free shots, also by Peterson, iced the game for Franklin.

Will Discipline Several Big 10 Schools, Wilson

CHICAGO (AP)—Big Ten Commissioner Kenneth L. Tug Wilson reported Friday on "certain disciplinary measures" taken against "several" conference schools for violating athletic codes.

Wilson made the report — details of which were not revealed — to the annual winter meeting of Big Ten athletic directors and faculty representatives.

The commissioner said he had told the meeting of the results of a "great volume of investigations" he had conducted into such things as illegal recruiting.

He did not name the schools, the discipline, or the specific violations involved.

Whether the discipline will be publicized probably will be announced later, Wilson indicated.

Under Big Ten regulations, the commissioner's office can inflict warnings or reprimands on schools involved in violations, deny them competition in certain sports, or declare specific athletes ineligible for a season.

"There is a great deal of enforcement activity going on," Wilson told reporters after the session. "We are not sure that any penalties we have decreed will be announced publicly."

Cardinals Will Get Portion of Chicago's Home TV Receipts

PHOENIX, ARIZ. (AP)—In what Fred Saigh, owner of the St. Louis Cardinals, called a "signal victory," the Chicago Cubs Friday agreed to pay a portion of their home-game television receipts to the St. Louis Cardinals and Cincinnati Reds in a reciprocal agreement with these clubs.

The clubs will televise 77 home games in '53. The Reds also will televise their home games but the Cardinals do not televise.

This was the most important announcement to come from the National league meeting which recessed this afternoon following a four-hour session and which will be resumed after a brief luncheon respite.

Spartans, Georgia Tech Place 2 on AP All-American Teams

NEW YORK, N. Y. (AP) — Michigan State and Georgia Tech, both undefeated, each placed two men on the 1952 Associated Press all-America teams.

The Southeastern conference led with five men on the two first teams, offensive and defensive, followed by the Big Ten with four and the Pacific Coast conference with three.

The AP's all-star offensive backfield is composed of Billy Vessels, Oklahoma; Paul Giel, Minnesota; Don Heinrich, Washington, and Jack Scarbath, Maryland.

2 Made It Before

There were only two men on the first teams who previously made the all-America — Marvin Matuszak, Tulsa, at guard and Heinrich, who was on the 1950 team but was sidelined last year by injuries.

Michigan State, the national champion, is represented by two stalwarts of its defensive unit — Frank Kush, guard, and Dick Tamburo, linebacker. Georgia Tech, the runner-up, placed Pete Brown at center on the offensive team and Bobby Moorhead in the defensive backfield.

The all-America is based on reports and recommendations of eight regional boards of sports writers through games of Nov. 29. The offensive line unit has big Tom Stohlhandske of Texas at one end and Frank McPhee, Princeton's 60-minute player, at the other.

Badger at Tackle

Kline Gilbert, a giant on Mississippi's surprising line, is at tackle along with David Suminski of Wisconsin. Guards are John Michels of Tennessee and Matus-

zak. The defensive team brings Don West Point cadet, at one tackle Branby of Colorado and Tom and Charlie LePradd of Florida Scott of Virginia at ends, with J. at the other. Kush and Steve Eil-

senhauer of Navy are at the guards.

Terrific Linebackers

The team has two terrific linebackers in Tamburo and Donn Moomaw of UCLA. In the defensive backfield are Johnny Latner of Notre Dame, another rare 60-minute player, Jim Sears of Southern California and Moorhead.

The backfield packs both running and passing ability. Vessels of Oklahoma rushed 168 times for 1,072 yards, leading the Big Seven in this field and setting a new school record.

He scored 18 touchdowns, completed seven out of 20 passes for 209 yards and two touchdowns, caught seven passes, and returned nine kickoffs for 145 yards.

Heinrich broke his own Pacific Coast conference passing record with 137 completions in 270 attempts for .507 percentage. Thirteen of these were touchdown passes.

Top Passer Twice

He won the major college national passing title for the second time, and had a year's total offense of 1,652 yards. He holds six conference passing records.

Giel carried the ball 201 times, gained a net yardage of 650 or 3.23 per try. He scored five touchdowns in a tough league, threw 100 passes and completed 42 for 645 yards, five going for touchdowns.

He also caught eight passes for 129 yards and one touchdown. He punted 56 times, averaging 37.6 yards. He was also a good blocker.

Only three Iowans placed on the honorable mention list. They are Capt. Bill Fenton, Iowa end; Don Chelf, Hawkeye tackle, and Rollie Arns, Iowa State center.

Spivey's Counsel Asks for Speedy Trial

NEW YORK (AP) — Counsel for Bill Spivey, former All-America basketball star at the University of Kentucky, Friday filed a written motion asking for a speedy trial or dismissal of an indictment charging Spivey with perjury.

General Sessions Judge Edward J. McCullen referred the matter to General Sessions Judge Saul S. Streit, who has presided at most of the cases growing out of the basketball fix scandal.

The indictment was returned last April 28. In June the 7-foot cage star came to New York voluntarily and pleaded innocent.

Who Called It a "Free" Election?

OR

That Stuff in the Ballot Box Ain't Hay

Once there was a Senior who faced a financial impasse. He was, in a word, broke—due to heavy extra-curricular Operating Expenses. He was discussing with his roommate ways and means of "climbing back Aboard the Gold Standard." "Simple," said the roommate, "just tap the Male Parent for an Advance." "Don't be Dull," answered Our Hero, "I'm already four months ahead on my allowance. And besides, the Head of the Clan is in a Grim Mood. He Dropped a Bundle on the election results." "Oh, ho," said his sidekick, "listen..." Our Boy listened. Twenty minutes later he steamed into the Western Union office, his brain-cells bulging with Strategy, and dispatched a vital message. To wit: "Dear Dad—Went broke backing Stevenson. Know you'll understand. Like father, like son. Please wire me fifty. Urgent. Love."

The cash arrived within the hour. By Western Union money order. Our Boy is now working for a Practical Cause—campaigning for presidential elections every year instead of every four.

The moral? Simply this—when you're Prospecting for Pesos, there's no more productive probe than a Telegram. Saves time, saves wear and tear, saves answering embarrassing questions. Try it—and don't overlook Telegrams for Dating Dates, Spreading Smooth Talk, Making an Impression. You'll be surprised what words via Western Union can do for you.

Thanks, Everybody!

We of the Hawkeye Staff wish to thank every one of you for your part in Picture Nites. It was a big project... during these three evenings, our photographers took pictures of over 90 campus groups, totaling more than 2,100 people. We apologize for the few difficulties which were bound to arise in a program of this size, but feel that Picture Nites were a big success... thanks to your patience and cooperation.
