The Weather

Mostly sunny and warm today. High, 90-95. Continued fair and warm Thursday.

Communists Restricted Red Cross

MUNSAN (AP) — The spokesman for Allied Red Cross teams just back from North Korea prison camps said Tuesday they were hampered at every turn and were trailed by "a lot of nasty little thugs with submachine guns."

R. M. Jerram of Britain told newsmen the Allied Red Cross workers were permitted by Communist authorities to talk only to a few prisoners and not one lodged a single complaint. He "strongly suspected" they were hand-picked.

Declaring that his report will go to his superiors who may file a protest, Jerram added: "The general frustration of the whole thing was a result of an aggregate of restriction, delays and petty arguments."

Reds Counter Charge

Communist Red Cross workers also have charged that Allied officials have interfered in their work. A team of neutral nations investigators left Panmunjom Tuesday for South Korea to look into the charges.

Jerram and his co-workers were allowed "a closely conducted tour" of Camps 1 and 3 and found them virtually empty. They were not allowed to visit Camps 2—where Allied officers are held—and 4. They were allowed to talk with "representatives" from the latter two.

He was able to learn nothing about Maj. Gen. William F. Dean, U.S. 24th division commander captured early in the war, although he made four inquiries.

Reported Healthy

Returning prisoners have said Dean was last reported in good health and in an unnamed camp. Jerram said that everywhere he and his teams went they were "herded" by Communists — "a swarm of interpreters and the little boys with the machine guns."

Jerram also said the living quarters where American and other non-Korean prisoners were held were "remarkably good considering the rugged country they were in."

He said the men lived in mud bunks divided into 9-foot square rooms and slept six to a room in double-decker bunks. Each company had a kitchen and a company club room where there were ping pong and Chinese billiard tables.

Jerram reported medical facilities in the teams inspected were "very adequate."

Hopes for Break in Hot Weather Vanish for Iowa

DES MOINES (AP) — Any hopes for a break in Iowa's hot, dry weather have vanished up through Canada.

A storm center from the Pacific northwest was on its way to Iowa earlier but Tuesday its path was pushed northward to the southern part of Canada by a high pressure system the weather bureau reported. This system is causing the warmer temperatures and dry conditions in the state.

The prospects for today are for another hot, dry day with afternoon temperatures ranging from low to upper 90's and very little change is expected until the weekend when another storm center from the Pacific northwest should move into Iowa.

Temperatures over the state Tuesday afternoon ranged from 87 at Mason City to 96 at Burlington. Readings Tuesday night were expected to range from 65 to 70.

'Progressive' Admits It

EX-POW CORPORAL HAROLD DUNN of Balwinville, N.Y., is interviewed by newsmen on his arrival at New York's La Guardia field. Dunn freely admitted that he had been a "progressive" during his imprisonment, but denied emphatically that he had ever informed on fellow-American prisoners.

New Repatriates 'Nervous' Upon Reaching Freedom

PANMUNJOM (Wednesday) (AP)

Eager and impatient American, British and South Korean war prisoners came back from the Red northland today, singing and shouting in the rain.

They appeared in good health. The fourth week of Operation Big Switch began promptly at 9 a.m. (6 p.m., Tuesday, CST) with the first of 133 American and 250 South Korean repatriates treading to get out of Communist trucks.

"You have to wait until your name is called," exchange officers cautioned one over-eager GI about to disembark.

"I'm just nervous to get out of here," the American answered.

Reds Also Sing

The 2,400 North Korean Reds headed for home today also

More Ships Head Home from Korea Carrying Repatriates

SAN FRANCISCO (AP) — More ships were heading across the Pacific from Korea Tuesday night carrying to San Francisco hundreds of Americans just released from prisoner of war camps.

On Saturday morning the transport Gen. William F. Hase will dock here with close to 450 U.S. soldiers freed from Red camps. In addition, some 1,400 army troops are coming home on rotation.

The hospital ship Haven is due here Sept. 4, the navy said Tuesday, with 371 patients, including 104 POW's. The rest were the regular war sick or wounded.

The troopship Marine Adair should dock here Sept. 4 or 5 with 367 repatriated prisoners of war. In addition, she carries 1,475 servicemen returning on the rotation program.

The transport Gen. John Pope was ready to depart from Korea Tuesday evening with 428 war prisoners. It should reach San Francisco early in the week of Sept. 6.

In the meantime, one freed GI had to decide soon, just what name he will use in civilian life. Maybe the soldier can be himself now.

Sammy Turner, used his older brother's birth certificate to enlist in the army in 1950 when he wasn't quite 16.

He enlisted, served and spent 33 months in a Red prison under the name of Abner Lewis Turner. The older son of Mrs. Cora Turner was drafted and discharged in Sammy's name.

U.S. Declares India's Presence Would Imperil Peace Meetings

3 More Iowa POW's Freed

MUNSAN, Korea (AP) — The Communists turned over three more Iowans in the prisoner of war exchange in Korea Tuesday night (Iowa time).

They were Cpl. John E. Ryan, 23, son of Emmett J. Ryan, New Albin farmer; Pfc. Frank M. Briggs, husband of Mrs. Jane Briggs, of Des Moines, and Cpl. Louis Stick Jr., whose brother William Stick, lives at 1025 1/2 W. Second, Davenport.

The three returnees raise to 40 the number of Iowans released since Operation Big Switch was begun three weeks ago.

Stick was taken captive in June, 1950, while serving with Co. I, 21st regiment, 24th division. In the army since 1948, Stick was the first Davenport soldier listed as missing in action in Korea.

Ryan also was captured on Dec. 3, 1950 while with the 3d division. A reservist who was called back to active service in September, 1950, Ryan was sent to Korea in October of that year.

Ryan's father said he received his last letter from his son on May 11.

SUI Receives Gifts, Grants Of \$49,000

Gifts and grants valued at more than \$49,000 have been accepted for SUI by the finance committee of the state board of education, President Virgil M. Hancher has announced.

The largest single grant was \$27,324 from the department of health, education and welfare of the National Institute of Health to support a study directed by Prof. Ralph H. Ojemann, Child Welfare Research station. Ojemann's study deals with the effects of teaching programs on human behavior and emotional development of children of different age levels and backgrounds.

A grant of \$3,996 was made by the same department of the National Institute of Health to support research by Prof. Judson Brown and Prof. I. E. Farber, both of the psychology department. Their research deals with factors influencing the acquisition and extinction of fear and its effect on human and animal behavior.

For Leaf Research

A grant of \$5,400 from the National Science Foundation will support work by Prof. Emeritus Robert B. Wylie of the botany department on new methods in leaf research.

The finance committee accepted a gift of \$3,000 from the Hubert E. and Anne E. Rogers Foundation Inc. for a fellowship for Dr. Ignacio Purpon in the department of urology.

A grant of \$2,500 from the Dow Chemical Co. was accepted for the continuation of research in biochemistry by Prof. Clarence P. Berg of the biochemistry department. Swift and Co. contributed \$2,000 for a fellowship in nutrition to be supervised by Berg.

The Eli Lilly Co. of Indianapolis provided \$1,800 for research on amino acids by Prof. Ralph Shriner of the chemistry department.

Maytag Provides Scholarships

A \$1,156 grant from the Maytag Co. foundation will provide scholarships for Lois Joanne White and Carol Larsen, both of Newton.

Kraus Periodicals Inc. contributed \$855 to the pediatrics education fund for the purchase of materials to aid teaching, for books for the departmental library and other items.

A grant of \$600 from the J. T. Gillick scholarship committee of the Chicago, Milwaukee, St. Paul and Pacific Railway Co. will provide a scholarship for Roger Norman Coe, Tama, who will be a freshman in chemical engineering in the fall.

The Iowa Obstetrics and Gynecologic society has granted \$500 for research by Prof. William C. Keettel, of the obstetrics and gynecology department.

Gifts Accepted

Two gifts accepted from the Iowa Centennial Memorial scholarship committee are \$100 for a scholarship for Sally Sue Chastain, N3, Des Moines, and \$300 for a scholarship for Manly Michaelson, M2, Humboldt.

Also accepted was a gift of \$25 from Mrs. Kathryn E. Geil, Des Moines, to be used by University hospitals.

JOINING OTHER LATIN-AMERICAN countries in backing the U.S. position regarding India in the United Nations debate on the Korean situation, the Dominican Republic's "man of God" Msgr. Dr. Oscar Robles Teledano (left) squarely accuses Russia's Andrei Vishinsky of a deliberate attempt to torpedo the shaping of the Korea parley.

SUI Seeks Proposals For Union Addition Preliminary Services

Sealed proposals for the construction of preliminary services for the new addition to the Iowa Memorial Union will be accepted through 1:30 p.m. Sept. 8, George L. Horner, SUI superintendent of planning and construction announced Monday.

The various proposals for the preliminary services, which include the relocation of power, sewer and water lines now preventing construction, will be publicly opened and read Sept. 8 at 1 p.m. in the Old Capitol.

Copies of the plans, specifications and other contract documents may be obtained from Horner; the sealed proposals will be accepted at his office in the Old Dental building.

Horner stated that bids for the actual construction of the new addition to the union will probably be opened sometime early in September.

Andrei Vishinsky Holds Hot Spotlight

Police Find Girl Sought as Suspect in Bizarre Killing

NEW YORK (AP) — A pretty Massachusetts girl, wanted for questioning in the bizarre slaying of the teen-aged sister of her former boy friend, was picked up by a traffic cop Tuesday night near Times Square.

Police later said they found a gun of the type used in the Massachusetts killing, a knife, loaded cartridges and six discharged cartridges in her possession.

Fourteen-year-old Mary Di Rocco, found dead in her home at Somerville, Mass., Monday, had suffered five bullet wounds and police found a sixth slug which had gone wild.

Weeping and at first denying her identity, attractive 25-year-old Mildred McDonald later admitted who she was and that she had been in the Di Rocco home Monday. She repeatedly denied having anything to do with the killing.

Massachusetts police were reported on their way here with a murder warrant for the girl. (See earlier story on page 2)

Director of WSUI To Attend Seminar On Educational TV

Prof. Carl Menzer, director of station WSUI, has been chosen by the National Association of Educational Broadcasters to attend an educational television station management seminar at Iowa State college, Ames, Sunday through Sept. 5.

Menzer is one of eleven successful candidates selected to take part in the meeting.

Prof. Richard B. Hull, manager of WOU-AM-FM-TV at ISC and Merril Ludwig, assistant manager of the ISC stations will be in charge of the meeting. Consultant for the seminar will be Graydon Ausmus, NAEB president.

The objective of the session is to help train and provide high level professionally skilled management and production personnel for educational and community television stations. These are made possible by the federal communications commission's reservation of channels for non-commercial broadcasting in the U.S. on an equal basis with commercial stations.

Carl Menzer Chosen for Seminar

Hershey Confirms Draft of Fathers To Meet Quotas

DES MOINES (AP) — Maj. Gen. Lewis B. Hershey, national director of selective service, said Tuesday the 1,100,000 presently deferred fathers "will have to be tapped for military duty in a couple of years or less."

He made the statement at a news conference while on a visit to state headquarters of the service. He previously addressed selective service personnel on general terms liberally sprinkled with humor.

The general's remarks about calling up fathers came the day after deferments on grounds of fatherhood ended. He said fathers will be needed before too long to fill quotas.

Smaller Induction Rate

"We are running along now at a smaller induction rate than last year," he explained. "We called up about 1,100,000 men in fiscal 1953. In fiscal 1954 the total probably will be 850,000 to 900,000. But in fiscal 1955 it will take about as many men as 1953 to maintain a force of 3,300,000 men, regardless of Korea."

Asked about the outlook for high school graduates and those in college, Hershey said: "If he were my boy I'd tell him he is going to have to do two years some time, unless he is physically handicapped or exempt for some reason. It's all right for him to go to school. He can stay in one year if his work is satisfactory. But he shouldn't think he is exempt from service, because he isn't."

Local Board Has Authority

Hershey emphasized, in discussing the authority of the local board, that the local board can determine when a registrant shall be called up, but it can't give exemptions.

"Those who shall go is up to congress; the when is up to the local board," he commented.

He added that he anticipates no further changes in regulations in the immediate future, and commented: "The future is in operations rather than in regulations."

Giant Planes Can Carry Atomic Bombs to Any Target in World — Secrecy Surrounds Mass Flight of B-36 Bombers to Japan

TOKYO (AP) — A mass flight of giant U.S. B-36 bombers, capable of carrying the atomic bomb to any target in the world, landed in Japan Tuesday in almost wartime secrecy.

The great 10-engine intercontinental bombers on a pioneering non-stop flight from the United States droned in to nearby Yokota air base.

Some others may have landed at other bases in Japan or in Okinawa. The number taking part in this training operation was not disclosed. The original Washington announcement of the flight said "several" were taking part.

Gen. O. P. Weyland, commander of the Far East air forces, said in a statement that "a number" of the B-36s "have completed a non-stop flight across the Pacific

ocean on a training mission and have landed in the Far East."

The fact that these planes, built to carry America's atomic punch, had landed in Japan caused much comment among the Japanese.

Some thought it significant that the bombers landed close to Russian Siberia so quickly after Moscow's announcement that the Soviet Union now has the hydrogen bomb.

The B-29s that normally base at Yokota, just west of Tokyo, were hastily flown to Okinawa Monday night.

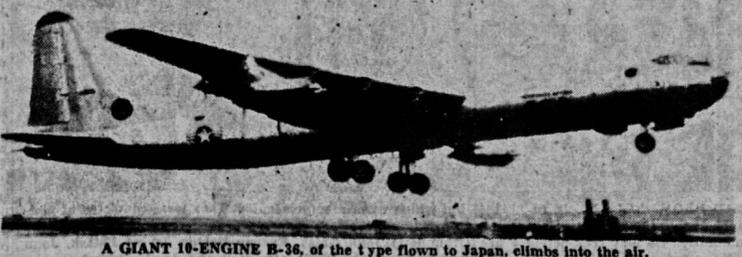

Japanese newspapers, which headlined the arrival, noted that

Yokota is the war base from which Superforts bombed Communist North Korea almost nightly. It is one of three huge air force bases west and southwest of Tokyo. The others are Tachikawa and Johnson.

From first to last, the mass flight was made under strict secrecy simulating wartime conditions. The exact takeoff times and U.S. bases whence they came are still not known.

Special restrictions were imposed at Yokota. Guards were posted, troops were at least partly restricted to the base and there was even a ban on telephone calls.

The B-36 is powered by six pusher-type piston-driven, 3,500-horsepower engines and four jets of 5,200-pounds thrust each. Its wingspan is 250 feet.

A GIANT 10-ENGINE B-36, of the type flown to Japan, climbs into the air.

World News Briefs

A Condensation of Late Developments

ATHENS, Greece (AP) — Rescue workers in Greece's devastated Ionian islands reported heavy tremors Tuesday again rocked the area where 130,000 earthquake victims lost their homes two weeks ago. There was no report on damages or whether there had been any casualties. The earlier quakes brought death to an estimated 1,000 persons and left hundreds injured seriously.

Buenos Aires, Argentina (AP) — The man without a country reached Buenos Aires Tuesday, but wasn't immediately permitted to come ashore, Michael Patrick O'Brien, who traveled back and forth for nearly 11 months between Hong Kong and Macao, thought he had found a home in Brazil, but he was denied admittance when he arrived there last week. When his ship, the French liner, Bretagne, reached Buenos Aires Tuesday he lacked documents to gain admittance and was held inconspicuously aboard the vessel.

ATHENS, Greece (AP) — Greece will double her forces in Korea by sending another battalion of troops, it was officially announced Tuesday. The announcement said the increase is being made "with a view to facilitating the needs of the United Nations occupation and rehabilitation forces."

Bradley Asks Greater Voice For Scientists

WASHINGTON (AP)—Gen. Omar N. Bradley advocated Tuesday scientists be given a greater voice in the Pentagon's strategic military planning.

The 60-year-old retired soldier said the nation's protection lies in the wise application of America's scientific and technical superiority over Soviet Russia.

He added that the rapid development of new atomic weapons and guided missiles already had shaken old concepts of strategy and ideas on the division of responsibilities between the three services.

Gives Views in Post

The former chairman of the joint chiefs of staff gave his views in an article written for the current issue of the Saturday Evening Post.

"New weapons are now beginning to have a great effect on our strategy," Bradley said. "And the time has come for scientists to take a greater part in strategic planning. In my opinion, the advice and knowledge of scientists must be contributed to the joint staff and to the special committees working for the joint chiefs of staff."

He urged this country to increase its scientific and technological lead over the Russians, adding:

"Soviet technical progress, like ours, is moving at an even faster tempo. As the pace gets faster, the choices of what we must do become harder. Some of these choices, touching the question of our very survival as a nation, now loom close ahead of our civilian and military leaders."

Bradley also said:

1. The army's atomic cannon is not just an "elaborate toy" but "figured in terms of the wallop it can throw, it is the cheapest cannon made. Its atomic shell has an explosive force equal to that delivered by tens of thousands of guns, of similar caliber, firing ordinary ammunition."

'Jealously is Drag'

2. Competition and jealousy among the services have "become a drag on the application of the missiles to our strategy" and "we are reaching a point where full cooperation between the services is urgently required."

3. The time has come to revise the atomic energy laws to permit a greater exchange of atomic information with our allies. "At present we can give our most trusted allied friends only meager information about weapons on which their survival as well as ours may depend."

4. The United States and her allies must decide whether to stockpile emergency supplies of atomic weapons at advance bases for quick use in case of a Red attack.

5. An accumulation of evidence that cannot be faked leaves no doubt that Russia has a "growing stockpile of workable atomic weapons."

Midwest Weather Stays Warm, Dry; Mercury Hits 95

By THE ASSOCIATED PRESS

The nation's prevailing weather Tuesday was warm and dry. It was cool in eastern New England, with the mercury remaining in the 60's. Another cool area rolled eastward in a belt from the Pacific Northwest to the northwestern great plains, extending as far south as central Wyoming, the mid-Rockies and southern California.

In many areas between the southern Rockies and the Atlantic seaboard, temperatures ranged from 85 to 95 during the day.

There were rain patches scattered in the Gulf coast area and the northern parts of Michigan. Corpus Christi, Tex., reported a six-hour rainfall of 1.70 inches. During the same period New Orleans received .54 inch and Escanaba, Mich., .63 inch.

There was cloudy weather in Oregon and Washington. Chicago had its hottest Aug. 25 on record with a maximum temperature of 95.2. The previous high for the date was 85 in 1948.

The weather bureau said the northern Illinois heat wave would continue through Thursday.

New President of Air Force Group

GEORGE C. KENNEY (right) of Scarsdale, N.Y., retired four-star general and head of the Far East air forces in World War II, is congratulated by Air Force Secretary Harold E. Talbott (left) and Arthur F. Kelley after being elected president of the Air Force association at their annual convention. Kelley, of Los Angeles, sixth president of AFA, was elected chairman of the board of the national organization of air force veterans.

'Jail Romance' Broken Up

COUNCIL BLUFFS (AP)—A judge's ruling Tuesday broke up a "romance" that apparently began in jail here.

Janice Jenkins, 16, and Caroline Selders, 22, both held on vagrancy charges, were given 30 day suspended sentences by Municipal Judge Allan Ardell, on condition that the girls, who lived at a hotel here, would leave the city.

The girls and two Pottawattamie County jail trustees were picked up on the county courthouse lawn by police Monday night after residents complained of jail trustees "making love."

Officers said they found Caroline, necking with Paul Damewood, 18, Council Bluffs, serving 30 days on a charge of contributing to the delinquency of a minor.

The Jenkins girl and Walter McLaughlin, 24, also of Council Bluffs and serving 6 months for obtaining money under false pretenses, were just "standing by" police reported.

Chief Deputy Sheriff Wayne Moser termed the affair a "jailhouse romance." He said the two girls spent three days last week in the county jail on intoxication charges.

Food in the News

Crab Shuckers, Sprout Inhibitors, Sewing Machine Are Among Newest Products on Market

NEW YORK (AP)—Food is in the new products news this week—things like crab-shuckers and sprout inhibitors.

These crab shuckers are made on Cape Cod at Osterville by the Leonard Machine shop. Lots of plunging saws and spinning disks slice out the crab meat three times as fast as by hand.

To keep potatoes from sprouting in storage, Sterwin Chemicals Inc. of New York, a subsidiary of Sterling Drug, has a new compound called Fusarex. Principal ingredient is a chemical called—are you ready?—1, 2, 4, 5 tetrachloronitrobenzene. Just dust it on, and it inhibits sprouting for six months.

Sprout Deterrent
To keep potatoes and edible onions from sprouting, Naugatuck Chemical Division of United States Rubber Co. of New York, has a new chemical called MH-40 containing maleic hydrazide. It is sprayed on the potatoes and onions adds from "several months" to 12 months to storage life, depending on storage methods.

A sewing machine made by Necchi Sewing Machines Sales Corp. can also be used as a snack bar, serving table, or a tea wagon.

On top of the sewing machine is a tray that can be lifted off for serving. The whole piece of furniture can be moved around just like a tea wagon by lifting the handle on one end and rolling it on its casters fitted on the legs at the other end.

Boards From Chips

Boards of any size can be made out of wood chips and synthetic resins on a machine made by the Chipcraft Co. of Morristown, Tenn. In addition to wood chips, the machine can utilize such cellulose products as peanut shells, flax shives and bagasse. The machine forces the mixture of chips and resin through a die under moderate pressure to produce the boards. The maker says chipboard is superior to wood in resisting warping and swelling and on a par for sawing, sanding, planing, etc.

Protective helmets worn by big league baseball players now are available right on down to the sandlots. The caps are molded of fibreglass reinforced by Bakelite polyester resins in weights of 6 to 11 ounces in large, medium and small sizes. Meker is American Baseball Cap Inc. of Pittsburgh.

Benson Calls For Increase In Research

WASHINGTON (AP)—Secretary of agriculture Benson called Tuesday for a bigger program of research and education to improve the lot of the American farmer.

"The basic long-range needs of American agriculture are to reduce costs, to improve quality and to expand markets," Benson said. "The sound approach to every one of these needs is through research and education."

Benson asked all the principal farm organizations to give him the benefit of their views on the problem.

Entire Job

"We must think of the entire job, from the test tube right on through to the complicated business of running a farm and distributing farm products," he said.

"The co-operative USDA-land grant college system is the traditional and logical means of doing this job. But if this system is to meet the growing demands of modern agriculture, the system itself must grow."

The secretary said one thing that is needed is an expanded farm advisory service in each county "that will work directly with the farm people, helping them to take unrelated research findings and fit them together so that they will work profitably on a particular farm."

Research Needed

Benson said more research was needed on how to preserve the farm-fresh quality and nutritive value of products on their way to consumers.

"Millions of tons of agriculture products are left on the farm and in marketing channels as waste," he went on. "We must find economical use for more of this material."

"We need to expand research on the development of new products from agriculture raw materials, new uses for existing products, and new processes that will expand present markets."

GOP Women To Counter Demo Rally

By D. HAROLD OLIVER

WASHINGTON (AP)—Republicans are converting their big meeting of 1,500 Midwest and Southern women leaders in Chicago Sept. 18-19 into a counter offensive to the Democratic rally there Sept. 14-15.

The Republican national committee announced Tuesday that the two-day meeting, which will get the party's 1954 congressional elections campaign started months earlier than usual, has been enlarged to include representatives from 18 states. Postmaster General Summerfield will make the major address at a Sept. 18 dinner.

Consider Chairmen Meeting

Plans also are being discussed for a simultaneous meeting of the state chairmen from 21 Midwestern and Western states, which would be another counter move against the Democrats. The latter also plan a meeting of Midwest state chairmen to discuss strategy for this battleground.

With Republicans and Democrats just about dividing house and senate seats evenly these days, it is easy to see how important these Chicago meetings can be.

Party Leaders To Speak

Republican officials said their Chicago meeting will be keynoted at the Sept. 18 opening session by national chairman Leonard W. Hall. Governors William G. Stratton of Illinois and Walter J. Kohler of Wisconsin, conference hosts, also will speak, as will Sen. Dirksen (R-Ill.), head of the senate campaign committee. Republican representatives, Marguerite S. Church, Illinois, and Ruth Thomson, Michigan, will be honored along with Miss Marian Smith of Little Rock, Ark., newly-elected co-chairman of the Young Republican National Federation.

Unlike the Democrats who will feature Adlai E. Stevenson, their 1952 presidential candidate and former President Truman at a \$100 a plate dinner, the Republicans are not planning their Chicago meeting to raise funds.

Discussions and lectures on "Premedication and Anesthesia for Children," and "Technical Procedures in Pedodontics" will make up another phase of the courses. The visiting dentists will also have an opportunity to do practical clinical work in the children's clinic of the college of dentistry.

The staff for the courses will include faculty members of the SUI colleges of medicine and dentistry.

The company's active employment roll at Waterloo is about 20 per cent below that of February, the spokesman said. This would put present employment at about 5,040.

The company declined to say what the production cutback amounts to in tractor units.

Tractor production at its Dubuque, Iowa, plant—smaller than that at Waterloo—has been curtailed about 15 per cent since the first of the year.

The first of six summer street paving projects—on Franklin st., between Kirkwood and Highland aves.—will be completed this week, city engineer Fred E. Gartzke said Tuesday.

College court between Court and College sts. will be the second project. The other projects include: (1) Morningside drive north of Court st; (2) Marcy st. between Kirkwood and Highland aves.; (3) College Court place between seventh ave. and College court, and (4) a straightening project for Woolf ave. south of the viaduct over 6, at the intersection of Newton road.

WASHINGTON (AP)—A man paid \$1 in municipal court here Tuesday for holding hands with a girl. When the incident occurred, police said, the man and girl were in separate cars traveling about 3 miles an hour. He was driving one car and she was a passenger in another.

Permits for residential garages were issued to the following: Lawrence Carlson, 2131 D st., \$1,000; Walter Trump, 927 S. Van Buren st., \$1,000; H. J. Moffit, 1104 Yewell st., \$600; Fred Dolezal, 912 E. Fairchild st., \$200 and Max Youcum, 225 W. Benton st., \$500.

A permit for a residence and garage was issued to Clarence Kelly, 620 Seventh ave. No estimate was given.

A permit for a residence addition was given to B. R. Hodges, 808 S. Lucas st. at a \$500 cost.

A permit for a \$250 garage addition was given to Willis Potter, 1020 Maiden Lane.

2 Graduate Courses To Be Offered by SUI In Child Dentistry

The SUI college of dentistry will offer two graduate courses in dentistry for children during the coming school year, Dean William J. Simon of the college announced Monday.

The first course will be held Oct. 12 through 17, and the second session, identical in content to the first, will be conducted March 1 through 6. Morning classes for both courses will meet in the Iowa Center of Continuation Study; clinical practice sessions each afternoon will be in the college's children's clinic.

Directed by Prof. Kenneth E. Wessels, head of the department of pedodontics and preventive dentistry, the courses will concern problems encountered by the dentist in work with children.

A psychiatrist, an expert in child behavior and a children's dentist will be featured in the presentation of "Office Management of the Child Patient." Emphasis will be on the management of the "problem child."

In another session, a practicing pedodontist will discuss the economic value of child patients in a general dental practice and will present a practical plan for sound economics.

Discussions and lectures on "Premedication and Anesthesia for Children," and "Technical Procedures in Pedodontics" will make up another phase of the courses. The visiting dentists will also have an opportunity to do practical clinical work in the children's clinic of the college of dentistry.

The staff for the courses will include faculty members of the SUI colleges of medicine and dentistry.

The company's active employment roll at Waterloo is about 20 per cent below that of February, the spokesman said. This would put present employment at about 5,040.

The company declined to say what the production cutback amounts to in tractor units.

Tractor production at its Dubuque, Iowa, plant—smaller than that at Waterloo—has been curtailed about 15 per cent since the first of the year.

The first of six summer street paving projects—on Franklin st., between Kirkwood and Highland aves.—will be completed this week, city engineer Fred E. Gartzke said Tuesday.

College court between Court and College sts. will be the second project. The other projects include: (1) Morningside drive north of Court st; (2) Marcy st. between Kirkwood and Highland aves.; (3) College Court place between seventh ave. and College court, and (4) a straightening project for Woolf ave. south of the viaduct over 6, at the intersection of Newton road.

WASHINGTON (AP)—A man paid \$1 in municipal court here Tuesday for holding hands with a girl. When the incident occurred, police said, the man and girl were in separate cars traveling about 3 miles an hour. He was driving one car and she was a passenger in another.

GENERAL NOTICES

GENERAL NOTICES should be deposited with the city editor of The Daily Iowan in the newsroom in the Communications Center. Notices must be submitted by 2 p.m. the day preceding first publication; they will NOT be accepted by phone, and must be TYPED or LEGIBLY WRITTEN and SIGNED by a responsible person.

THE UNIVERSITY COOPERATIVE Baby-Sitting league book will be in charge of Betty Wahler from Aug. 1. Telephone No. 8-3958. Information about joining the group may be obtained from this member.

THE COMMITTEE ON Growth of the National Research Council, acting for the American Cancer society, is accepting applications for grants-in-aid in support of growth and cancer research. Applications for new grants received before Oct. 1 will become effective July 1, 1954. Additional information may be obtained from the Executive Secretary, Committee on Growth, National Research Council, 2101 Constitution Ave., Washington, D.C.

FULBRIGHT APPOINTMENTS 1954-55 for visiting lecturers and research scholars in Japan. Awards will be made to 30 scholars in the social sciences, humanities, medical and biological subjects. Information and application blanks may be obtained from the Conference Board of Associated Research Council, Committee on International Exchange of Persons, 2101 Constitution Avenue, N.W., Washington 25, D.C. Applications will now be received until the closing date, Oct. 15, 1953 for awards extending from October, 1954 to June, 1955. Applications may be obtained from the same agency for appointments in Europe, the Near East and Pakistan for 1954.

POST-DOCTORAL FELLOWSHIPS. National Institutes of Health. New deadlines of Feb. 15 and Oct. 15, 1954 have been set for receipt of completed applications for Postdoctorate and Special Research Fellowships in the Medical Sciences and Related Fields offered by the Department of Health, Education, and Welfare Public Health Service. Stipend, \$3400 per year plus \$350 for each dependent. For further information and application blanks write to: National Institutes of Health, Division of Research Grants, Research Fellowships Branch, Bethesda 14, Maryland.

HOURS FOR THE INTERIM PERIOD MAIN LIBRARY Monday-Friday — 8:30 a.m.-4 p.m. Saturday—8:30 a.m.-12 Noon Sunday—CLOSED All libraries closed Monday, Sept. 7—LABOR DAY Departmental libraries will have their hours posted on the doors.

BASIC SCIENCE RESEARCH fellowships in bacteriology, biochemistry, nutrition, pharmacology, physiology, chemistry, zoology and pharmacy as related to arthritis and Rheumatism Foundation. The deadline for applications is Nov. 1, 1953. Applications will be reviewed and awards made by Feb. 15, 1954. Application blanks are available in a graduate college, 4 Old Capitol. For further information, address the Medical Director, The Arthritis and Rheumatism Foundation, 23 W. 45th St. New York 36, N.Y.

AN OPPORTUNITY FOR graduate study — AFROTC commissioned officers. Opportunities for graduate study during the coming academic year will be available to some of the students who received commissions in the air force in June 1953, and who in their senior year ranked in the upper 25 per cent of their class. A full year of graduate study in a broad range of subjects at institutions of their choice is permitted. Applications for such study, regardless of previous expressed

A teaching plan which recognizes both the marketing and the journalism aspects of advertising in the college curriculum was advocated Tuesday at the annual convention of the Association for Education in Journalism, by Prof. Ellis H. Newsome, head of the advertising sequence at SUI.

Newsome participated in the convention's workshop on new developments in the teaching of advertising. The convention is meeting on the campus of Michigan State college, East Lansing, Mich.

Newsome described the organization of the advertising curriculum at SUI, with the coordination of the school of journalism and

the marketing department of the college of commerce, saying, "I believe this approach permits the production of better balanced advertising people."

"Journalism is interested in advertising as a form of mass communications involving the creation and dissemination of advertising messages. This means, normally, that more attention is given to the creative and technical phases," he said.

"On the other hand," Newsome continued, "commerce is interested in advertising as a tool of business and as an aspect of the selling function. This emphasizes the use of advertising rather than the preparation, and this is regarded as a marketing function."

In a number of universities, it appears that the student is faced with the decision to specialize in one or the other aspect of advertising, thus affording him little or no opportunity to become familiar with the second approach, he pointed out.

Limited in Job Choice "Furthermore, when the student seeks employment he is limited in the kind of position for which he is fitted," he said.

The remedy, Newsome continued, is a marriage which will permit the student to be exposed to both aspects or approaches to advertising.

"The product, as I see it, is a better balanced advertising man or woman—a person better equipped to solve or to contribute to the solutions to advertising problems," he added.

The Association for Education in Journalism is the professional organization of teachers in all phases of journalism. Prof. Earl English, formerly of the Iowa journalism faculty and now dean of the University of Missouri school, is president of the association.

Pistol Slaying Suspicion Points To Friend of Victim's Brother

SOMERVILLE, Mass. (AP)—The bizarre, pistol-razor slaying of a 14-year-old girl in her home developed Tuesday night into a full-scale hunt for a pretty, 25-year-old girl, described as delicate, who once kept company with the victim's brother.

The body of Mary Di Rocco, with five bullet wounds and a throat slash, was found in her cellar Monday. She apparently fled from her slayer from her bedroom before she was mortally wounded. The slayer poured heavy motor oil on the corpse and lighted a magazine near the body. The oil didn't ignite.

Once Dated Brother Sought throughout New England and New York is Miss Mildred McDonald, who, police said, was in the Di Rocco home shortly before the slaying. She once "dated" Joseph Di Rocco, 25, brother of the victim, before he married another girl last April.

Di Rocco said Miss McDonald showed him a .22 calibre pistol two weeks ago. That type of weapon was used in killing little Mary.

The victim's father, Angelo Di Rocco, said he was never prosecuted. They were convicted of plotting to overthrow the U.S. government by force and violence. They are (from left) John Gates, Eugene Dennis, Irving Potash, John Williamson, Benjamin Davis, Gus Hall and Jacob Stachel.

Bandit Uses Tots As Hostages In Daylight Robbery

OKLAHOMA CITY (AP)—A bold daylight bandit using two children as hostages, forced a supermarket manager to hand over an undetermined amount of cash at gunpoint Tuesday. One of the hostages was the son of the store manager.

The gunman fled in an automobile, taking the children with him. They were found later several blocks away, unharmed.

Police said the bandit apparently planned the holdup carefully, first abducting the children near their homes then driving to the store.

Larry Dillard, store manager, notified police after the robbery, and an immediate alarm was broadcast for his son, Michael, 2½, and a playmate, Peggy Jones, 4. The bandit, Mrs. Dillard said later dictated a note to her husband which she wrote. Then, she said, he bound her hands with adhesive tape, and forced her to lie stomach down on a bed.

The note, which the bandit presented to Dillard, read: "Please do as these men tell you. They are holding me and the kids. They have Peggy and Michael with them."

1948 but which was never prosecuted. They were convicted of plotting to overthrow the U.S. government by force and violence. They are (from left) John Gates, Eugene Dennis, Irving Potash, John Williamson, Benjamin Davis, Gus Hall and Jacob Stachel.

Gartzke Announces Completion Date Of Street Paving

The first of six summer street paving projects—on Franklin st., between Kirkwood and Highland aves.—will be completed this week, city engineer Fred E. Gartzke said Tuesday.

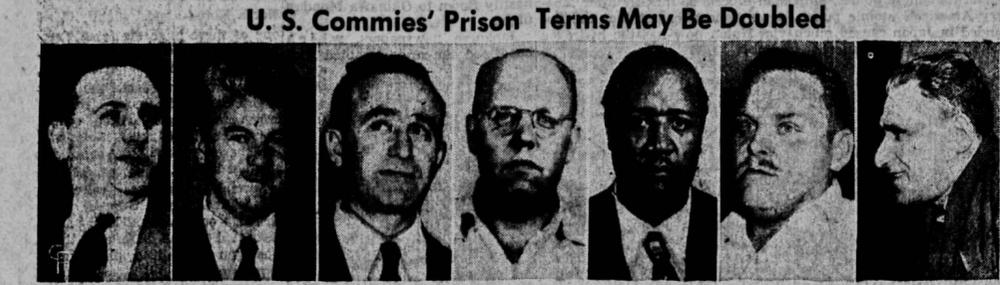

College court between Court and College sts. will be the second project. The other projects include: (1) Morningside drive north of Court st; (2) Marcy st. between Kirkwood and Highland aves.; (3) College Court place between seventh ave. and College court, and (4) a straightening project for Woolf ave. south of the viaduct over 6, at the intersection of Newton road.

WASHINGTON (AP)—A man paid \$1 in municipal court here Tuesday for holding hands with a girl. When the incident occurred, police said, the man and girl were in separate cars traveling about 3 miles an hour. He was driving one car and she was a passenger in another.

Quick Thinking Foils Kidnaper

KIDNAPED IN CHICAGO by a gunman who forced his way into their car and boasted he had just killed a man, young society woman Miss Carol Flammendon, 24, and her escort, Heaton H. Sykes, 26, of Elkhorn, Wis., foiled the kidnaper. Through purposeful erratic driving, Sykes attracted police attention and was ordered to the curb. He whispered that he and the girl were being kidnaped. The gunman was arrested.

U.S. ATTORNEY GENERAL HERBERT BROWNELL, Jr., is reportedly considering a move which could double the present prison terms of the above seven top U.S. Communists. He may seek action on a conspiracy indictment returned by a federal grand jury in

U. S. Commies' Prison Terms May Be Doubled

Pro-India Forces Gain in UN

New Zealand Asks Disregard Of Rhee Threat

UNITED NATIONS, N.Y., (AP)—New Zealand's Leslie Knox Munro called on the UN Tuesday to ignore South Korea's threatened boycott and recommended the inclusion of India in the Korean peace conference.

Munro addressed the general assembly's 80-nation political committee as more countries lined up in support of India.

South Korean Foreign Minister Y. T. Pyun said Monday his government would find it impossible to sit in the conference with India unless India was seated with the Communists.

Munro said he could not "believe the government of Korea would jeopardize the conference on the ground of Indian participation." If it does, he said, it would jeopardize its country.

Implying Abdication
"For the general assembly to decide its course on the implications of the Korean statement," Munro said, "would mean it has abdicated its independence."

Among those lining up behind Britain and her Commonwealth partners for the inclusion of India were Iraq, Ethiopia, Mexico, Syria and the Communist bloc.

The United States opposes having India at the peace table, arguing that to admit her would discriminate against such other neutrals interested in Korea as Japan and Nationalist China.

Pyun and Col. Ben Limb, South Korea's permanent observer at the UN, have declared:

"The Republic of Korea finds it impossible to collaborate with India on the same side."

"If India wants to sit on the Communist side, all right," added Pyun. "We are not vetoing who will be at the peace conference. But we certainly can say whether we will walk out or boycott the conference if the UN goes ahead and votes to sit India on our side."

India Attacked
Pyun had attacked India as an appeaser of the Communists, "not only trafficking with the Communists but intriguing with them to make the free world look contemptible."

"What India has done," Pyun declared, "is mainly appeasement to the Communist aggressors."

India sent not one single soldier to defend freedom. It has now willingly dispatched thousands of troops to guard what the Kremlin created with much of its own devotion in the midst of the free world, the Communist inquisition where tens of thousands of poor, defenseless anti-Communist prisoners will be indoctrinated or brain-washed into communism for many long months."

His violent blast visibly rocked India's chief delegate, V. K. Krishna Menon.

The Indian reply may come today.

Negotiations Stall In Penick & Ford Walkout of 300

CEDAR RAPIDS (AP)—A strike of 700 workers at the Penick & Ford Co. here continued Tuesday with no negotiations planned between the company and the AFL Grain Millers Union.

The union went out on strike Monday after a breakdown in wage negotiations.

A company spokesman said the next move is up to the union. Leonard Stastny, union local secretary, echoed the company statement.

The union is asking 7 cents an hour across the board, Stastny said. The company has offered 4 cents hourly across the board increase.

The current hiring wage is \$1.48 and the base labor rate is \$1.52, the company said.

Like To Dedicate Rio Grande Dam

DENVER (AP)—President Eisenhower and President Adolpho Ruiz Cortines of Mexico will meet on the Rio Grande border near Laredo, Tex., Oct. 19 to dedicate Falcon dam.

Eisenhower probably will make a major speech there, the summer White House said Tuesday in announcing that the President also will attend.

1. Attend the Future Farmers of America convention in Kansas City, Mo., Oct. 15, with a major address in prospect there, too.

2. Visit New Orleans Oct. 17 for the sesquicentennial celebration of the Louisiana territory purchase.

3. Be host in Washington, for three days starting Sept. 28, to President Jose Antonio Remon Cantera of Panama, and Mrs. Remon.

Ex-POW Enjoys Ma's Cooking

SERVED BY HIS MOTHER, Mrs. Simone Soto (right), and his sister Mrs. Felisa Montana (left), Sgt. Richard Solo enjoys his first home-cooked meal in three years following his release from a Red POW camp in Korea. Surrounded by other members of his Los Angeles family, he is one of 331 repatriates returned to the U.S. aboard the transport Gen. Nelson Walker.

TV Stations Resume Bitter Court Battle

WATERLOO (AP)—The legal battle between Waterloo radio stations KWVL and KXEL was resumed Tuesday afternoon in federal court here.

The case opened July 17 before Judge Henry N. Graven as a hearing on a request by KWVL for a temporary injunction restraining KXEL and other defendants from continuing alleged illegal acts damaging to KWVL.

However, when the hearing was continued on July 21 to be resumed Tuesday, Judge Graven ruled that proceedings would be regarded as part of the hearing in the damage suit filed by KWVL.

Ask Triple Damages
In its suit against the Josh Higgins Broadcasting Co., KXEL and nine other defendants, the Black Hawk Broadcasting Co. (KWVL) asked triple damages in the amount of \$500,000 under provisions of the Sherman Anti-Trust act. KWVL alleges past and future damages have and will be suffered as the result of a conspiracy by the defendants.

Judge Graven Tuesday allowed KXEL to file a counter claim. The claim was filed only by KXEL and not on behalf of the other defendants.

KXEL charged Tuesday that in 1951 or early 1952 the plaintiff (KWVL) began to put into execution a plan to harass and impede and injure the defendant in the operation of its radio station.

Withdrawal Asked
This was done, KXEL charged to compel it to withdraw its application for television channel 7 and with the intent and purpose of securing a monopoly of radio and television in the Waterloo area.

KXEL asked an injunction to restrain KWVL from making charges that KXEL is a television station, from giving alleged secret rebates or allowances to advertisers from falsely representing the power and coverage of KWVL.

In other action Tuesday, KWVL, in answer to an inquiry by KXEL, introduced a list of 80 witnesses it intends to call in the case. Eighteen of the witnesses listed have been heard during the 3 1/2 days the hearing has been in session.

Judge Graven late Tuesday recessed the hearing until 9:30 today.

\$41,000 in the Kitty

RIVERHEAD, N.Y. (AP)—A woman named in a will to receive \$41,000, with the understanding she take care of three cats, appeared likely to get the money though the cats since have died.

Elsie Warts, 68, of Babylon, a retired New York schoolteacher, died July 8 and named Mrs. Alice P. Walsh of Oceanside, a friend of many years, as chief beneficiary.

But the cats were old, and before the will was read, the authorities disposed of them.

Papers filed with the will in Suffolk county surrogate's court indicated, however, that other beneficiaries of the will have agreed that Mrs. Walsh get her legacy, cats or no cats.

64 East Germans Arrested For Part in June 17 Riot

BERLIN (AP)—A wave of new arrests in connection with Germany's June 17 revolt was reported Tuesday as the Communists announced an alleged leader of the uprising had been sentenced to life imprisonment.

The West Berlin radio said Communist zone security police had arrested 64 persons suspected of taking part in the revolt. They were bagged in three steel plants and an artificial rubber plant.

A few hours earlier the German Communist ADN news agency announced that Gerhard Roemer, 26, had been sent to jail for life as a leader of the rebellion.

Burst Into Jail
According to ADN, Roemer burst into Magdeburg jail brandishing a rifle, demanded the freeing of all prisoners and later threatened Russian tanks moving into his factory with his rifle.

The West Berlin radio also reported a new kind of East zone revolt against Communist rule. The broadcast said 400,000 workers since June have refused to pay dues to their Communist trade unions.

Red authorities plan to stymie this financial rebellion by withholding union dues from wages.

2 Los Alamos Guards Lose Jobs in Probe Of Security Laxity

LOS ALAMOS, N. M. (AP)—Two guards who complained of security laxity at this atomic city Tuesday were served notice of their dismissal because they refused to answer questions of security investigators.

Andrew J. Sobien, 35, and Oscar M. Hernandez, 33, charged in letters to President Eisenhower and the joint congressional committee on atomic energy that Los Alamos security service was nearly worthless as set up.

Frank DiLuzio announced dismissal of the two Tuesday because "they refused to answer questions about official business put them by investigators who are checking charges of lax security."

The two have the right to appeal. Sobien was required to start his annual leave immediately and Hernandez was suspended pending completion of their dismissal.

Sobien May 10 wrote President Eisenhower that large amounts of government property "are being stolen or used illegally" because Los Alamos is one of the few installations where cars cannot be searched.

"An investigation at Los Alamos regarding the high turnover of personnel, disbursement of government money, contracts approved for inferior construction and the moral conduct of many employees would be worth while," Sobien wrote.

Resistance Fails As French Strike Effort Crumbles

PARIS (AP)—The force of the three-week French strike wave appeared Tuesday night to have been broken, although some unions still resisted the back to work movement.

The big break Tuesday appeared in the nationalized railway system. The Communist-led General Confederation of Labor (CGT) which has the greatest number of members among the railroad workers, called an end to the walkout. Non-Communist unions previously had asked their members to return.

The order for a general return by the CGT national office came in the face of a general crumbling of discipline in various parts of the country. Reports were coming in of local action to end the strike, and the nationwide order gave the appearance of complete unanimity.

BODIES RETURNED
SAN FRANCISCO (AP)—The steamer Massillon Victory arrived Tuesday with the bodies of approximately 200 Americans who lost their lives in Korea. The vessel docked at the Oakland army base.

Des Moines TV Company Files Incorporation Articles

DES MOINES (AP)—Des Moines Television Inc., Des Moines, filed articles of incorporation with the secretary of state Tuesday to operate television stations.

The firm, capitalized at \$100,000, paid a fee of \$199 for a permit to operate in Iowa.

Two Chicago radio men and one from Des Moines head the organization.

The president of the firm is Ralph Atlas, general manager of station WIND, Chicago. Vice president and secretary is H. W. Cassill, general manager of radio station KIOA, Des Moines. Treasurer is John T. Carey, business manager of WIND, Winnetka, Ill.

Rocket Starts 2,000 MPH Trip

LEAVING THE GROUND at the British Ministry of Supply trial establishment at Aberporth, Wales, a guided rocket missile drops its four twin-booster motors, which assisted its takeoff. The missile can do 2,000 miles per hour, the British claim.

Telephone Officials Unaware of Rumor For General Strike

NEW YORK (AP)—Negotiations continued Tuesday between the American Telephone and Telegraph Co. and long distance workers in 40 states. Available union sources said they were not aware of any plans for a general strike today.

The contract negotiations, affecting 22,000 employees, have been under way for several weeks.

In recent days there have been walkouts in several large cities because of what local union leaders termed "company stalling" in the talks here. Company spokesmen denied there was any stalling.

The old contract expired July 5 and the parties have been bargaining on a day-to-day basis since then. The union representing the long lines workers is District 1 of the CIO Communications Workers of America.

He said there is a "strong possibility" that the nine drop-outs were prompted by a recent news story. The story told of the arrest of Mrs. Mary Ann Long, 39, of Des Moines, accused of fraud in obtaining ADC payments.

The nine who asked to be dropped from ADC rolls Monday, Ahern said, included eight women and one man. The welfare office had not tabulated the amount of ADC money being paid the nine families, or the number of children involved.

Ahern said his office will continue to cooperate with the county attorney in bringing charges against persons obtaining ADC payments fraudulently.

School Administrators Set Date For Meeting with New Teachers

Iowa City school principals will meet today at 9 a.m. with Superintendent Burford Garner and David Steward, coordinator of elementary education, in their first session for the 1953-54 school year. The meeting will be in Garner's office, 121 N. Johnson st.

Iowa City public schools will open Sept. 8.

Meetings and a tea honoring teachers new to the Iowa City system will be held Thursday and Friday.

All new teachers will meet with Garner in his office at 9 a.m. Thursday. The principals of all the schools will be introduced at that time, after which the high school teachers will go to City high to confer with their principal.

A short meeting of new grade school teachers and principals will follow the 9 a.m. meeting. Then the teachers will go with their principals to their schools.

New elementary teachers will meet to discuss curriculum outlines Friday at 9:30 a.m. in the Junior high school building. A meeting of new music teachers will be held at 10:30 a.m. in the same building.

At 1 p.m. that afternoon new teachers will go to their school rooms.

Mr. and Mrs. Garner will entertain new teachers at a tea Friday afternoon from 3 to 5 in their home, 320 N. Governor st. They will be assisted by school administrators and their wives.

The first Business-Education day, Wednesday, Sept. 2, will highlight the annual pre-school workshop for teachers, which will begin Monday and continue through Sept. 4. Faculty members will be guests of local businessmen at a luncheon and other Wednesday events.

Public school registration will begin Monday. Only new pupils and high school students are asked to enroll before school starts. Others will register on the first day of school.

Public school registration will begin Monday. Only new pupils and high school students are asked to enroll before school starts. Others will register on the first day of school.

Public school registration will begin Monday. Only new pupils and high school students are asked to enroll before school starts. Others will register on the first day of school.

Super Market Closing Ends 88-Year Business

Closing of the Koza and McCollister super market, 115 S. Dubuque st., Sept. 5, brings to an end 88 years in the Iowa City food business for the Koza family.

The late John V. Koza opened a meat market in 1865 in Iowa City and the family has been connected with foods here ever since.

In 1927, Roy Koza and his son-in-law Otto McCollister opened a meat market on the present location of the super market. The two men remodeled it twice, in 1941 and 1947, and today it is a modern, self-service store.

The two owners have no immediate plans for the future.

FOLOIO TOTAL—75
One new polio patient at University hospitals brought the year's total to 75, the hospital reported Tuesday. One patient was discharged, leaving 38 still at the hospital.

LAFF-A-DAY

Coleman Gets a Checkup

MARINE CAPTAIN GERRY COLEMAN, former New York Yankee infielder, smilingly faces a medic at San Francisco's Treasure Island naval base prior to leaving the service. Coleman, who flew 63 bomber-fighter missions over Korea, expects to rejoin the Yanks later this week.

Bums' Rally Gains Split; Braves Divide 2

BROOKLYN (AP)—Clyde McCullough drove in all three runs as the Chicago Cubs scored their first victory of the year over Brooklyn at Ebbets field 3-1 in the first game of a twilight night doubleheader but the Dodgers fought back to win the nightcap 6-5 as Jackie Robinson blasted two home runs.

Robinson's drives saved the Dodgers from their first double bill defeat of the year. The first game loss was Brooklyn's first at home in 11 starts.

Trailing 4-1 going into the seventh Brooklyn pushed across five runs and then stood off a desperate Chicago rally in the eighth.

Pinch hitter Wayne Belardi doubled with one out in the seventh. Junior Gilliam tripled and Bobby Morgan was safe on an error. Duke Snider's single brought home the second run and after Dutch Leonard replaced starter Warren Hacker, Robinson hit into the left field stands.

PHILADELPHIA (AP)—A pair of veterans, Andy Pafko and Walker Cooper, contributed key base hits Tuesday night as the Milwaukee Braves beat the Philadelphia Phillies 6-2 in the second game of a two-night twin bill before a packed house of 31,596.

Robin Roberts chalked up his 21st win as the Phillies grabbed the opener 6-1.

Roberts was in little trouble as he went the distance in the first game. The lone run scored off him was Ed Mathews' 40th homer of the year. Robin allowed only five hits and Mathews had two of them.

Pafko contributed three singles in five trips to the plate, good for two runs batted in. He also scored a run and one of his hits led to a fourth score. Cooper hit a bases-empty homer — his third of the year in the eighth.

NEW YORK (AP)—Enos Slaughter cracked three doubles and accounted for five runs in leading the St. Louis Cardinals to a second game 9-2 victory Tuesday night after the New York Giants had won the opener of the twilight doubleheader behind the four-hit pitching of Ruben Gomez.

A slim turnout of 15,363 saw the Cardinals club four Giant hurlers for 13 hits and take advantage of five New York errors to enable righthander Gerry Staley to coast to his 16th triumph against six losses. He yielded five hits in a route-going job.

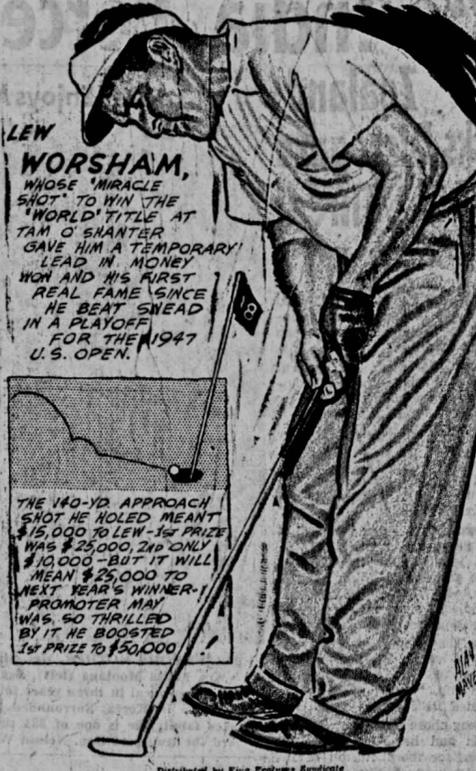

Allan (Red) Worthington, who started the second game for the Giants, lasted less than two innings and was charged with his sixth straight loss after winning his first two big league games via shutouts.

PITTSBURGH (AP)—Outfielder Bob Borkowski and shortstop Roy McMillan blasted clutch homers to give the Cincinnati Redlegs 8-6 and 9-8 victories over the Pittsburgh Pirates in a two-night doubleheader.

Borkowski belted his seventh homer of the year—a two run blast—off reliever Johnny Hetki in the seventh of the opener and McMillan connected with his fifth of the campaign in the ninth of the nightcap. The two blasts brought the Redlegs from behind for the victories.

Jackie Collum notched his seventh triumph with a one-hit relief stint in two-thirds of an inning in the first game. Fred Baczewski won his eighth, also in relief in the second contest.

Worsham Holds Golf Money Lead

LEW WORSHAM, WHOSE "MIRACLE SHOT" TO WIN THE "WORLD" TITLE AT TAM O' SHANTER GAVE HIM A TEMPORARY LEAD IN MONEY WON AND HIS FIRST REAL FAME SINCE HE BEAT SNEAD IN A PLAYOFF FOR THE 1947 U.S. OPEN.

THE 140-YD. APPROACH SHOT HE HOLED MEANT \$15,000 TO LEW—1/2 PRIZE WAS \$25,000, 2ND ONLY \$10,000—BUT IT WILL MEAN \$25,000 TO NEXT YEAR'S WINNER—PROMOTER MAY WAS SO THRILLED BY IT HE BOOSTED 1/2 PRIZE TO \$50,000.

Yanks Win in 11th; A's Top ChiSox, 4-2

DETROIT (AP)—The New York Yankees pushed across four runs in the 11th inning—three of them scoring on Gil McDougald's bases-loaded double—to defeat the Detroit Tigers 6-3 Tuesday.

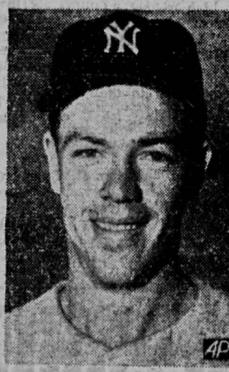

McDougald delivered his game-winning after Ray Herbert, Tiger reliever, had walked Gene Woodling with the bases loaded to force across winning pitcher Bob Kuzava with the tie-breaking run.

It was the Yankees eighth straight extra inning victory.

In the 10th inning, the Tigers filled the bases with one out. But Kuzava, a fast-balling southpaw, induced Walt Dropo to foul out and struck out Steve Souchock, a gent who has been troublesome for the Yanks in the past.

The Tigers died hard, however. In their half of the 11th, they knocked out Kuzava, scoring once and putting two other runners on base.

Johnny Sain was called in from the bullpen—he was the Yanks' fifth hurler — and retired Ray Boone on a pop fly.

Gil McDougald Bangs Sweet Triple

Pierce Beaten

CHICAGO (AP)—Two Chicago White Sox graduates, Gus Zernial and Dave Philley, hammered out a home run lesson to their former teammates tonight as the Philadelphia Athletics won a night baseball game 4-2.

Zernial accounted for three of the runs with his 32d and 33d home runs of the year and Philley scored the other with his 7th roundtripper.

A crowd of 22,358 witnessed the loss, which dropped the runnerup Sox another full game — to 9 1/2 — back of the leading New York Yankees.

Billy Pierce served the Zernial and Philley homers, plus four other safeties, thus missed an opportunity to record his 17th victory of the season. He now has lost nine.

then drove him out of the box with another four-run barrage in the fourth Tuesday night to defeat the Cleveland Indians 8-4.

Bob Porterfield went the distance for the Nats, posting his 16th victory, and fourth straight against the Indians.

Jim Busby capped the Nats' four-run rally against Lemon in the first inning with a three-run homer.

The Indians collected 10 hits off Porterfield.

Chelf, Cummins Anchor Iowa Tackle Positions

Note: Here is No. 5 in the series about Iowa football candidates by position. The final story will summarize the situation before practice starts Sept. 2.)

Two regular veterans of 1952, a converted guard and two former squaddens of little experience are the bulwark of Iowa tackle holes.

Don Chelf, West Liberty, a 215-pound senior, is top man in all games last year and outstanding in several, such as the Ohio State affair when he was named United Press Midwest lineman of the week.

Like several other big tackles, Chelf is accustomed to playing both ways. And he is about as good in either department. Last season he was Chicago Daily News all-conference tackle on defense.

Cummins Good, Too

Right along with Chelf, is Cameron Cummins of Cedar Rapids, 200-pound junior who came up from the 1951 JV team to play as a regular.

Jerry Clark, a regular guard in 1952, now has been moved to tackle and is capable of doing as fine a job there as he did in his former spot. Clark, from Independence, is a 5-9 195-pounder who enters his senior year.

Of the new men a standout is George Kress, all-stater from Dubuque, at 235, the second heaviest on the squad. Kress for a big man is fast and quick, a tough one defensively and a smart blocker on offense.

Another good one is Rodger Swedberg, Sycamore, Ill., who has a high school fullback and so has to become acclimated to line work. Aggressive, strong and fast, he has impressed coaches with his willingness and he can be used either at tackle or guard. Swedberg is 215 and 6-1.

Third Post For Jehle

Kenneth Jehle of West Liberty, a 205-pound 18-year-old, is a former end and fullback who is somewhat behind the others because line work is new to him. But he is active and wants to learn and will fit in somewhat behind his fellow townsmen, Chelf and Kress.

Sophomores Ed Gastel of Freeport, Ill., 195, and Terry Shuck, Des Moines, round out the new candidates. Gastel was hurt in the spring so the coaches had little chance to evaluate him and Shuck, 205, is big and quick and can move in behind Clark and Cummins. He also can be played at guard.

Left Halfback Stearnes Aids Hawkeye Offense in 3 Ways

Run, throw and catch—three reasons why Bob Stearnes, junior left halfback, is valuable to the Iowa offense.

Now if he can come through on defense, the Gary, Ind., athlete easily will be one of the best of the Hawkeye all-around players.

Stearnes is one of the men who has four years of competition. He played briefly in five major games as a freshman in 1951 after being moved up from the JV squad.

Stearnes Ranks 2d

Then, in 1952, Stearnes ranked second in rushing with 241 yards for a 2.5 average. He passed 16 times with four completions, and he caught five passes for 111 yards and a touchdown.

After being switched from right to left halfback in spring practice, Stearnes continued to display improvement. He is one of the fastest players on the squad and is a good competitor.

Stearnes was a key man in a sensational play against Purdue in 1952. Jack Hess, quarterback, passed 17 yards to end Dan McBride, who immediately lateraled to Stearnes who had sprinted around behind McBride. Then the halfback scooted the remaining 62 yards for a TD.

3 Sport Star

In high school, he starred in football, basketball and track at Roosevelt of Gary. Stearnes was former all-state quarterback, runner-up for the broad jump title, and member of the state championship sprint relay team.

Lack of height is a handicap on defense, for Stearnes is only 5-8. He will be 21 years old Sept. 11.

PHYSICAL EXTREMES

Physical extremes on the Iowa football squad range from Jim Freeman, the heaviest at 239 and the tallest at 6-4, down to Phil Leahy of Clinton, lightest at 160 pounds and Guy Vena, Westmont, Ill., shortest at 5-7. Paul Kemp, Waterloo who was 22 last February, is the oldest and Jim Martinus, Spring Valley, Ill., is the youngest at 18.

Bob Stearnes 3-Way Performer

Queen Hopeful Is 2-1 In Rich Stakes

CHICAGO (AP)—Hasty House Farms Queen Hopeful is a 2-1 favorite in a field of 15 named Tuesday for the \$109,490 Princess Pat Stakes at Washington Park — richest race ever held for 2-year-old fillies.

If all 15 go to the post in the six-furlong test today the winner will hit a jackpot of \$70,320.

Queen Hopeful, with Johnny Adams aboard as usual, already has earned \$87,103. Among her five victories are a first in the \$50,000 Arlington Lassie and a dead heat with Greek Lady in the second division of the \$20,000 Mademoiselle Stakes.

Queen Hopeful, by winning the Princess Pat, can become the fourth filly to take both it and the Arlington Lassie. The others were Beaugay in 1945, Bewitch in 1947 and Fulvous last year.

Greek Lady again is expected to be a main challenger for Queen Hopeful. So is Spy Magic who romped home in the first section of the Mademoiselle.

Eddie Arcaro will be aboard Beant who was a strong third in the Lassie. Kenny Church has been assigned to Greek Lady and Layton Risley to Spy Magic.

A strong contender from the east is Clear Dawn, third to Evening Out, ranking juvenile filly in the east, in Belmont Park's National Stallion Stakes.

Also commanding public support are Chorus Khal, Jenjay and Golly.

Browns Won't Go West, Veeck Says

ST. LOUIS (AP)—Bill Veeck the St. Louis Browns' wandering president, came home Tuesday and indicated the west coast doesn't fit into the club's plans for a new residence.

"Los Angeles and San Francisco are delightful," said Veeck, "but I don't think they are for us."

Veeck is searching for a new home for his American league Browns. The hunt has been going on since league officials vetoed his proposed shift to Baltimore last spring.

WHITEY'S WINS

BOONE — Whitey of Cedar Rapids, 1952 runner-up, won the Iowa State Men's Softball tournament here Tuesday night, wallopping Sioux City Trio Body, 11-1.

Nats Thump Tribe

CLEVELAND (AP)—The Washington Senators scored four runs off Bob Lemon in the first innings

Major Scoreboard

AMERICAN LEAGUE				
	W	L	Pct.	GB

Today's Pitchers
 Chicago at Brooklyn — Church (7-7) vs. Loos (15-5).
 St. Louis at New York — Haddix (16-5) vs. Worthington (2-5).
 Milwaukee at Philadelphia (night) — Sarkent (11-5) or Hahl (10-6) vs. Drews (6-9).
 Only Games Scheduled.

Lenczyk, Lesser Pass Tests In Women's Amateur Tourney

PROVIDENCE, R.I. (AP)—Grace Lenczyk of Newington, Conn., a comebacking ex-titlist, and Pat Lesser, 19-year-old college champion from Seattle, won the big test matches Tuesday as the field in the U.S. Women's Amateur Golf tournament was reduced to 32.

The 25-year-old Miss Lenczyk, who hasn't done much since she swept the National and Collegiate crowns in 1948, survived a dogged 20-hole duel with Joyce Ziske, the first day giant-killer from Waterford, Wis.

Battle Full Route

Miss Lenczyk clinched the match with a par four on the second extra hole after the two had battled the full route without more than a single hole's difference. Miss Ziske, 19, eliminated the British champion, Canada's Marlene Stewart, Monday.

Miss Lesser took the measure of Claire Doran, Curtis Cup member from Cleveland, 3 and 2.

Other prime favorites kept pace in the 43-match eliminations over the 6,371-yard, par 74 Rhode Island country club course.

Curtis Cuppers Win

These included Mrs. Mark Porter of Philadelphia, 1949 winner; Curtis Cuppers Mrs. Marjorie Lindsay McMiller of Decatur, Ill., and Mrs. Howard Smith, the former Grace DeMoss, of Corvallis, Ore., and such well-liked contenders as Roslyn Cookie Swift of Great Neck, N. Y.; Pat Garner of Midland, Tex., 1952 semifinalist, and Mary Lena Faulk of

Thomasville, Ga.

Miss Faulk, who is playing some of the most brilliant golf of late tournament, toyed with Mary Sargent of Memphis, Tenn., winning 6 and 4.

Miss Swift had a sparkling 37, one under par, for the front side and was only one over for 17 holes as she eliminated Polly Martin of St. Clairsville, Ohio, 3 and 1.

Rally Wins

Mrs. McMillen, one down after three holes, rallied to go 2 up at the turn and then won the last four holes to oust Mrs. John Dy-

son of Conygham, Pa., 5 and 4.

Mrs. Porter, the former Dorothy Germaine, won over Mrs. H. G. Marquardt of Mt. Clemens, Mich., 3 and 2.

Mrs. Smith finished strong after a wobbly start to expel Mrs. J. J. Mason of Ridgewood, N.J., 4 and 2.

Miss Garner, won 2 up, over Mrs. Carle Robbins of Ft. Smith, Ark. She had a medal score of 82.
