Iowa City, Iowa, Wednesday, June 23, 1954

The Weather

Fair and warmer today. High, 85 to 90. Cooler tonight with lows of 55 to 60. Increasing humidity and warmer temperatures Thursday with possible scattered showers.

## Planes Bomb Honduran City Near Guatemalan Frontier

**BULLETIN**  
**TEGUCIGALPA, Honduras (AP)**—The foreign ministry said Tuesday night unidentified planes Tuesday bombed the town of Santa Rosa de Copan, Honduras, about 21 miles from the Guatemalan border.

**TEGUCIGALPA, Honduras (AP)**—Official spokesmen for Guatemala's leftist government claimed Tuesday their forces are beating back the anti-Communist invaders in all areas, but the rebels disputed this.

Despite the government's claim of victory, the Guatemalan delegate to the United Nations, Ambassador Eduardo Castillo-Arriola, announced at UN headquarters in New York he was asking for another urgent meeting of the security council to deal with continuing "aggression."

He acted after the UN had released a cable from Guatemala stating officially "acts of aggression" were continuing despite the security council's resolution Sunday calling for a cease fire.

**Protest Withdrawn**  
It was also disclosed in Washington Tuesday that Guatemala has withdrawn the protest resolution previously lodged with the Inter-American Peace commission, apparently to give the security council a freer hand. However there were indications the five-nation commission might not be willing to drop the case immediately.

Any major fighting in Guatemala appeared still in the future. There were indications that the first big fight may come around Zacapa, important rail town 70 miles northeast of Guatemala.

Jacobo Arbenz Guzman  
Guatemalan President

City and about 20 miles west of the Honduran border. Several bombing and strafing attacks on Zacapa by rebel planes have already been reported.

**May Change Strategy**  
Reports here, where Col. Carlos Castillo Armas, the rebel leader, has headquarters for his "liberation" movement, said the invaders may change within 48 hours their strategy of hitting forces of President Jacobo Arbenz Guzman's Communist-supported government in widely separated spots.

In Washington, the U.S. state department said Guatemalan troops were moving eastward from the capital toward Zacapa and Puerto Barrios, important port to the Atlantic.

State department press officer Lincoln White said reports had been received indicating the Arbenz regime had armed Communist-dominated labor groups and a pro-government political party, while "some peasant elements outside Guatemala City have been armed with sub-machine guns."

**Rebels Claim Gain**  
Rebel sources claimed their forces hold Morales, 50 miles from Puerto Barrios, and that one of their planes had machine-gunned and dropped grenades on San Jose, naval air base on the Pacific side.

Meantime, the Soviet press unleashed a bitter attack on the United States Tuesday, accusing it of touching off civil war in Guatemala and conspiring to start a new world war. Pravda, Izvestia, the Trud all carried articles blaming the fight on Washington.

In Buenos Aires, Argentine President Peron's government unofficially indicated sympathy for the Arbenz regime in its fight against the invaders. Semi-official newspapers accused the U.S. of "imperialism" and mixing in Guatemala's civil war.

### Battle in Guatemala One of Strangest, Correspondent Says

**By BEN F. MEYER**  
**WASHINGTON (AP)**—One of the world's strangest wars is being fought in Guatemala.

Five days after it started, neither side has reported a single one of its soldiers killed in action on any battlefield.

Up to now, the bloodiest battles apparently have been those described on the radio. Both the government and the anti-Communist invader forces have been busy on the airwaves.

**Reports Claim Casualties**  
There have been reports, second-hand through British Honduras, that the Guatemalan army chiefs are claiming to have inflicted heavy casualties. These reports didn't mention that their side was suffering casualties itself.

Perhaps the world will have to wait for first-hand reports to get the true story of what is going on down in the little Central American republic.

Censorship has not permitted a clear story of events to get out of Guatemala.

**Elements Haven't Appeared**  
Several elements usually necessary for success have not appeared in the reports reaching the outside world.

Regardless of the source and the extent of financial backing, and of the amount and quality of war weapons, the reports indicate the attackers are ill-equipped to fight a war.

Another element usually necessary in the overthrow of a government in power is a widespread uprising of popular support inside Guatemala itself. Normally, such help means overwhelming support from the civilian population and, more important the cooperation of the army.

**Defections Announced**  
The radio announcements of the "liberation" forces have claimed some defections, but apparently they have not been numerous.

The farther from Guatemala, the worse the war appears. Not even the government of Guatemala, nor the forces seeking to overthrow the regime of President Jacobo Arbenz Guzman, have issued such baleful accounts of things.

One Guatemalan here offered one theory about the war: "Maybe," he said, "everybody down there is shooting blanks."

### Tuition Fees Due Thursday, Friday

Payment of tuition fees for the 1954 summer session will begin Thursday and continue Friday in the treasurer's office, room 2, University hall.

Students whose last names begin with A through M are scheduled to pay fees Thursday, with N through Z scheduled for Friday. Fees can be paid from 8:30 to 12 noon and from 1 to 4:30 p.m.

Summer session fees are: Full work, 4.1 hours or more, \$53; one-half work, 2.1 to 4 hours, \$34.20; and, one-fourth work, 2 hours or less, \$21.87. This does not include special fees for students in music.

## Ike Upholds Hiss' Right To Pension

**WASHINGTON (AP)**—The Eisenhower administration took the position Tuesday that Alger Hiss has a legal right to a \$700-a-year government pension despite his conviction of falsely denying that he gave secrets to a Communist spy ring.

Both the Civil Service commission and the Budget bureau, a White House office, held that the government is obliged to go through with retirement pay to federal employees even though they are imprisoned for criminal acts. They opposed pending legislation to deny the pension to Hiss.

Rep. Kit Clardy (R-Mich.) author of one of several bills designed to make sure that the imprisoned ex-official gets no retirement benefits, said the administration attitude "leaves me aghast, enraged, boiling mad."

**Rose to Influence**  
Hiss, who'll be 50 next Nov. 11, rose to an influential post in the state department in the 14 years 9 months he worked for the government. That length of service would qualify him for a \$700 pension starting Dec. 1, 1966.

On Jan. 15, 1950, after leaving the government, he was convicted of perjury in denying he ever slipped government secrets to Whittaker Chambers, a courier for a pre-war Russian spy ring.

Sentenced to five years, he entered federal prison at Lewisburg, Pa., March 28, 1951 and could get out on good behavior next November. He has been turned down twice on a parole.

**Letters Told Attitude**  
The administration attitude was expressed in letter to House Civil Service subcommittee which is considering bills applying specifically to Hiss and generally to all federal workers convicted of felonies involving moral turpitude.

The Budget bureau's letter said the courts have held that retirement rights are contractual rights and the government is under the same obligation as private citizens to carry out an employment contract.

## Free Japan Vital, Ike Tells Editors

**WASHINGTON (AP)**—President Eisenhower declared it is "absolutely mandatory" to this nation's security that Japan be spared from falling under the domination of the communism spreading over Asia.

In an address before the National Editorial association, Eisenhower indicated that the preservation of a free Japan is the keystone of American policy in southeast Asia and the Pacific.

If the Kremlin and the rulers of Red China are able to control the vast resources of Asia and give Japan the task of providing naval strength, the President said, the Pacific could become "a Communist lake."

Speaking with utmost seriousness to the convention of editors of 5,200 weekly newspapers, the President declared Japan to be the "key to the defense" of the Western Pacific.

"So it becomes absolutely mandatory for us that Japan does not fall under the domination of the Soviets."

## Record Flood Stage Expected To Hit Des Moines Thursday

THE FT. DODGE, DES MOINES and southern railroad power plant, seven miles northwest of Boone, was surrounded by flood waters of the Des Moines river Tuesday. A boiler in the plant blew up Monday night when water reached plant equipment but no one was hurt. With the plant lost, the railroad was forced to suspend operation except for some diesel service.

## Federal Aid Asked for 19 Iowa Counties

**DES MOINES (AP)**—This capital city of 178,000 was in an official state of emergency Tuesday night as residents responded to a call to prepare for their greatest flood.

Gov. William S. Beardsley, meantime, called on President Eisenhower to designate 19 flood-stricken Iowa counties as disaster areas so they may qualify for federal aid.

The Des Moines crisis mounted steadily.

The flood is due to go three feet higher than any previously known, with a crest of 29 to 30 feet by Thursday morning. It is rolling slowly down the Des Moines river basin from Boone, 60 miles upstream.

**Proclamations Issued**  
Des Moines Mayor Joseph Van Dresser's proclamation of a flood emergency was coupled with this word from City Manager Leonard Howell:

"This city is faced with the worst flood situation in its entire history. It is no time for panic. People who cannot stand the predicted flood stage should move to safety immediately."

The Des Moines river flows directly through the center of the city. It runs through a secondary residential area and past the business, commercial and railroad district. The main business district is out of reach of flooding.

**Large-Scale Sandbagging**  
Large-scale sandbagging of levees was under way. Disaster evacuation centers were being prepared.

The direct peril to Des Moines came as Iowa had its first generally fair day following two weeks of torrential rains throughout northern Iowa.

In northwestern Iowa the situation eased as Sioux City rode out a second major crest on the rampaging Floyd river. The levees protecting the east Sioux City area in which 14 lives were lost a year ago held firm this time.

**Lifts Emergency State**  
Mayor George Young lifted a four-day-old state of emergency under which 500 Sioux City families were evacuated as a precautionary move. The Big Sioux was due to cause minor flooding in the area within 24 hours at Sioux City's west edge.

At Mason City, 300 families flooded out by a flash flood on Willow Creek Tuesday began cleaning up their homes. But at Ft. Dodge, where the Des Moines river was falling slowly after inundating a 25-block residential area, some 250 families were awaiting a further fall before they could return.

National guardsmen were on emergency duty fighting to save the water plant at Boone and water and power plants at Webster City. Both cities had record flood stages Tuesday. Boone proper was not endangered but 50 families were flooded out at Webster City. Charles City had areas under water but no evacuees. U.S. 30 was closed west of Boone.

**Guardsmen on Call**  
Gov. William S. Beardsley proclaimed the Red Cross as Iowa's official disaster agency for flood-stricken families. Some 300 guardsmen were placed on flood call in Des Moines and police leaves were cancelled.

The Red Cross said it was already feeding 1,500 flood evacuees in Iowa. It laid plans to evacuate all 161 residents of Turin in western Iowa if the Little Sioux and Maple rivers rise much higher.

**Residential Areas Threatened**  
In Des Moines 30 families at the north edge of the city already had left their homes. Within the city proper, chief threatened areas were residential sections north and south of the business districts. The areas have levees for 28-foot crests. The city was acting to raise them.

Below Des Moines there was mounting apprehension at Ottumwa, a city of 34,000 which was Iowa's hardest hit place in 1947. Due to lack of rains south of Des Moines an Ottumwa crest of 17 feet is forecast for June 28 as compared with a 1947 high of 20.5 feet.

## CIO Committee Turns Down Contract Offer By U.S. Steel

**PITTSBURGH (AP)**—The CIO United Steelworkers powerful 170-member wage policy committee Tuesday flatly turned down a contract offer submitted by U. S. Steel corp., bellwether of the industry.

David J. McDonald, president of the steelworkers union, said at a news conference immediately after the policy makers meeting that U. S. Steel's proposals are "completely unsatisfactory."

The union chief declined to say what the company offer included, but it was reliably reported that he told his wage policy committee the corporation offer amounted to a package of less than five cents an hour.

**Says Some Want Strike**  
The union chief is also reported to have told the committee that some persons of high position with U. S. Steel would welcome a strike.

McDonald reportedly made no mention of these persons by name but did tell the committee that U. S. Steel chairman Benjamin F. Fairless was not included in the statement.

The union president said at the news conference that the wage policy committee "voted complete confidence in and approved the report of the international union officers on the state of negotiations."

The wage policy committee adjourned after a session which lasted about an hour and a half. McDonald said the committee has a tentative date to meet here again next week.

McDonald said the union executive officers will press the industry to intensify negotia-

tions with day and night sessions from now until the contract expires June 30. The union would be free to strike after that date. No negotiations are scheduled at this time, he said.

Asked about union preparations for a strike, McDonald said such arrangements are automatic and that he assumes union leaders on a local level have already contacted the company plant managers to make arrangements for an orderly shutdown of the mills in event a settlement is not reached by the end of the month.

## No Flood Expected In Iowa City Area

The Iowa river here is expected to remain about normal throughout the week with readings of five to six feet predicted. No flooding is imminent unless heavy rains in this area add to the oncoming crest from the flooded northern parts of the state.

The river stage was 5.85 ft at 4:30 p.m. Tuesday. Readings of four to five or normal for this time of year. The stage is expected to reach 6.5 by tonight, but this is considerably lower than the ten foot readings which indicate bank full.

The upriver crest is still several days away, but the river here is expected to remain about the same with slow rises during the next few days.

## Tobacco Industry Says More Study Of Cancer Needed

**NEW YORK (AP)**—The tobacco industry said Tuesday more study is needed to determine the causes of cancer and heart disease.

It described as "preliminary" a report by the American Cancer society that indicated heavy smoking tends to reduce the life span, at least for men aged 50 to 70.

The tobacco industry research committee said data in the report "would be more useful when all the work has been completed and fully analyzed and set forth as is established custom in scientific journals."

It declared the report "points up the need for further extensive research to discover the causes of cancer and cardiovascular diseases."

Dr. Clarence Cook Little said he had the greatest respect for Dr. E. Cuyler Hammond and Dr. Daniel Horn, who drew up the Cancer society report.

But Little called attention to a "simultaneous statement" by Dr. Charles S. Cameron of the cancer society "to the effect" that the "Hammond-Horn theory" is not "entirely proved."

Hammond and Horn reported that a survey of almost 200,000 men showed that cigarette smokers have a death rate, from all diseases, as much as 75 per cent higher than that of non-smokers.

The study showed that deaths in the 50-70 age group were mostly from cancer and heart disease.

## Greek Children Send Thanks to YWCA

**By WILLARD ROTH**  
SUI, Salonica, socks and seeds—add the four and your total equals an example of Christian principle carried into practical action.

It all started last January when the local Young Women's Christian association chapter decided to send bobby socks to a YWCA-operated school for 12 to 18-year-old girls in Salonica, Greece. Simultaneously the YWCA advisory board conducted a fund-raising drive to purchase garden seeds for Greece.

The SUI coeds started out with a goal of 110 pairs of socks but ended with a collection of double the amount. Twelve pounds of 12 seed varieties were purchased with the \$16 contributed by the advisory board.

**Receive Note of Thanks**  
This week the women received their pay—a note of thanks from Salonica.

"Some days ago we received your present. It was early in the evening when two American ladies came to make the distribution. We were all moved at the thought that at the other end of the world we have friends who think of us, and more than that, send us presents."

"You could hear everywhere excited voices and merry laughter. We all want to thank you with all our hearts and we send you our best wishes."

**Former Presidents' Daughter**  
One of the American ladies referred to in the letter was Mrs. John B. Holt, wife of the U.S. consul general in Salonica. Mrs. Holt, the former Elizabeth Gilmore, is a daughter of the late Eugene A. Gilmore, SUI president from 1934 to 1940.

Both the bobby socks and the garden seeds were sent to Mrs. Holt for distribution. The socks were shipped from Iowa City on Feb. 20 and the seeds left 14 days later. Included with the footwear was a large quantity of needles and thread donated by the SUI home economics club.

Mrs. Holt, as the thank-you letter indicated, helped distribute the socks personally, but the seeds were turned over to the former head of the University of Minnesota horticulture department, Prof. W. H. Alderman.

**Seeds Divided**  
Alderman, who is now a Ful-

(Continued on Page 2)

BOBBY SOCKS MAKE A HIT with Greek girls as Mrs. John B. Holt (see arrow), daughter of the late Eugene A. Gilmore, SUI president from 1934 to 1940, helps distribute 220 pairs of socks in Salonica, Greece. The footwear was contributed by the local chapter of the Young Women's Christian association.

## Hurts Now But May Help Later

DAVID OSTRAND, 6-YEAR-OLD Ansley, Neb., boy, receives a shot of gamma globulin during the first mass inoculation of an entire community with the polio preventive. Dr. Clyde Wilcox, shown administering the shots, drives the 15 miles from Broken Bow to Ansley each day to administer the shots. The inoculation program is sponsored by the National Foundation for Infantile Paralysis.

## World News Briefs

A Condensation of Late Developments

### Studebaker, Packard Corporations To Merge

**NEW YORK (AP)**—Two of America's oldest independent auto makers—Studebaker and Packard—will combine forces in their fight for a bigger share of the car market, if their stockholders approve. Shareholders will vote on Aug. 17, on whether the two companies shall be joined in the Studebaker-Packard corporation. Plans for the consolidation were announced Tuesday by James J. Nance and Hugh J. Ferry, respectively president and board chairman of Packard, and Harold S. Vance and Paul G. Hoffman, holding the same positions with Studebaker.

### Hollenbeck, CBS Commentator, Kills Self

**NEW YORK (AP)**—Don Hollenbeck, 49, CBS TV news commentator, committed suicide by gas Tuesday in his Manhattan apartment. He had been in ill health. Hollenbeck, a University of Nebraska graduate, worked for newspapers, the office of war information, NBC and ABC before joining CBS in 1946. Clad in shorts and bathrobe, he was found lying on the kitchen floor. All burners on the gas stove were open. Dr. Samuel A. Neuren, assistant medical examiner, pronounced death suicidal. John Gude, the news-caster's agent, said Hollenbeck had been suffering from bleeding ulcers.

### \$1,750,000 Approved for Coralville Dam

**WASHINGTON (AP)**—An appropriations bill for army civil functions which includes money for the Coralville Reservoir near Iowa City and stabilization of the Missouri river banks between Omaha and Sioux City received final approval of congress Tuesday. The senate cleared the compromise measure a short time after it had been passed by the house. However, a parliamentary maneuver kept it temporarily from going to the President. It carries a total of \$467,071,900 for flood control and rivers and harbors work throughout the country. The money, for the fiscal year beginning July 1, included \$1,750,000 for the Coralville Reservoir.

# Officers Told of Traffic Index, Insanity in Maintaining Order

Raising the community's "enforcement index" to reduce traffic accidents, and relationships of insanity to crime were topics discussed at the Iowa peace officers short course at SU1 Tuesday.

Richard L. Holcomb, police scientist of the SU1 institute of public affairs, discussed Iowa traffic problems, noting that the state's accident rate in 1954 is now 20 per cent more than that of the same period of 1953 while the nation's traffic toll has dropped 4 per cent so far this year.

Alan Canty, director of the psychopathic clinic of the Detroit recorder's court, outlined types of insanity — from alcoholic "DTs" to syphilitic paresis — in analyzing "Mental and Emotional Factors in Criminal Behavior."

The "enforcement index," Holcomb explained, is the number arrived at by dividing all personal injuries and fatalities in traffic accidents into total convictions for dangerous violations.

"While traffic accidents are now the sixth major cause of death in the United States, more money is spent on heart disease or polio research in one university than is spent all over the country on methods of preventing traffic accidents," Holcomb declared.

He said that traffic accident research is now at about the same stage as medical research was during the American Revolution.

"Just as a team of several kinds of specialists may examine a single medical case in a modern hospital so do we need a team of specialists, rather than a single highway patrolman, on a traffic accident scene," he continued.

The accident may be caused by weaknesses in the skill, mental attitude or physical condition of the vehicle or the roadway, by weather or other factors, Holcomb said.

"In any factory where powerful 1 1/2 ton machines, like the average passenger car, pass within only two or three feet of each other with only steering wheel control to prevent collision, a variety of screens, grids, rails and other safety devices would be set up. In addition, the operators would probably be required to pass through a long period of apprenticeship like that of railroad engineers," he pointed out.

Outlining types of insanity which sometimes affect the work of law enforcement men, Canty said that the paranoid, a man who has delusions of persecution and feels he must defend himself against the enemies which he thinks surround him, is most

dangerous of all mentally unbalanced types.

"The paranoid might even be a prominent and well-educated citizen who is logical and responsible in most respects but is obsessed by one fixed idea," the Detroit police psychologist observed.

"But after nursing his suspicions for a time, then complaining to the police who don't find factual grounds behind the complaint, this type is likely to take matters into his own hands and shoot his supposed enemy or injure his wife for fancied infidelities or commit other violently criminal acts," Canty pointed out.

Paranoids may be difficult to discover in the early stages of their degeneration, he observed, because they often tend to be secretive, considering everyone a potential enemy in league with the persecutor.

Today's highlight of the annual police short course will be "Determining Cause of Death" presented in a series of illustrated lectures by Dr. Milton Helper, chief medical examiner for the city of New York. Another feature of the day is "Chemical Tests for Intoxication" by Dr. Kurt Dubowski, biochemist for the Iowa Methodist hospital, Des Moines, and for the Iowa Bureau of Criminal Investigation.

## Mrs. Black Sues City for \$14,500

A judgment of \$14,500 has been asked against the city of Iowa City by Mrs. Alma O. Black, 14 W. Court st., for injuries she suffered Nov. 29, 1952 when she allegedly slipped and fell at the corner of Clinton and Court streets.

In her petition filed in Johnson county district court, Mrs. Black said the city was negligent in allowing vapors from a sewer outlet to freeze on the pavement near the sidewalk crossing. The pavement was uneven and slanting, the petition says.

Mrs. Black's petition says she suffered a fractured hip in the fall, and that she was hospitalized for ten days and then confined to her home for ten weeks. She asks the judgment as compensation for medical bills, pain and suffering, loss of wages and further disability.

Arthur O. Leff is attorney for Mrs. Black.

## Frenchman To Lecture On Psychiatry

Pierre J. Pichot, clinical professor of psychiatry at the University of Paris will present three lectures at SU1 this week.

Pichot has done extensive research in the fields of psychopathology and applied psychology. He is editor of the "Revue de Psychologie Appliquee," French journal on applied psychology, and is one of the editors of "Encephale," the leading French neuropsychiatric publication.

The first of the lectures, "Current Trends in French Neuropsychiatry," will be held Thursday at 3:30 p.m. in the classroom of the psychopathic hospital. On Friday at 2:30 p.m. in assembly room 3C-63 of the Veterans hospital, Pichot will speak on "Personality Modifications Induced by Amphetamine, Mescaline and Lysergic Acid Diethylamide: Their Implications for Psychopathology." Pichot will conclude his talks Saturday at 10 a.m. in Shambaugh lecture room with "Language Disturbances in Cerebral Dysfunction."

## Whitesel To Attend Midwest Conference On Foreign Policy

Prof. R. G. Whitesel of SU1's political science department will attend a seven-day midwest seminar of U.S. foreign policy from June 27 to July 3 at Robert Alton Park, Ill. The University of Illinois will act as host at the conference, which is sponsored by four Big Ten universities.

The schools sponsoring the conference are Wisconsin, Michigan, Minnesota and Illinois. They have invited faculty members of other midwest universities, and business, labor and agricultural leaders. Representatives from civic and other groups interested in foreign policy are also invited.

It is the purpose of the conference to promote a better understanding of the problems which confront the U.S. in the field of foreign policy. U.S. foreign trade policy and U.S. policy regarding southeast Asia will be discussed.

**IKK WIRES HARRY**  
KANSAS CITY (AP) — A telegram from President Eisenhower Tuesday was among the many messages received by former President Harry S. Truman who is recovering from a major operation. The text of the President's telegram was not made public. Truman underwent an operation for removal of his gall bladder and appendix Sunday.

**Mennonites Get Seeds**  
Eight seed sets went to a team of Mennonite young men who are serving a group of mountain villages west of Edessa near the Yugoslavian frontier. Part of the seed was placed in a test garden from which new seed will be produced, while the rest of the Mennonite allotment was given to villagers for home garden use. A Friends domestic science school near Salonica which offers a 24-month course to village girls received five sets of the garden seeds. Seed allotted to the Quakers was sown in the school garden and distributed to graduates who are now working in their home villages.

**Seeds Used for Testing**  
The remaining two sets out of the 20 are being used by an experimental station for testing and for increasing seed of the varieties which grew most successfully. Two hundred-twenty pairs of bobby socks and 12 pounds of garden seed would only be routine business for a department or seed store manager, but for SU1 YWCA members sox and seed were a means of extending friendship circles around the globe.

And U.S. foreign relations were boosted in the same process. Mrs. Holt wrote the girls, "It makes it easy to be representing the United States abroad when one receives such loyal support."

## Lecturer Coghill Lauds Chaucer

"CHAUCER HAS TOLD US MORE about the relationship between the sexes than any other author," says Nevill Coghill, British radio and university lecturer. Coghill is delivering a series of addresses here on Chaucer and Shakespeare under the sponsorship of the SU1 English department. Today's talk will begin at 3:15 in the Memorial Union North Conference room. Remaining addresses will begin at the same time June 24, 29, 30 and July 1.

## Coghill Will Present 2d Chaucer Lecture

"Chaucer and Human Nature" will be the subject of Nevill Coghill's second in a series of six popular lectures on English literature at SU1.

The Oxford University and British Broadcasting company lecturer will describe Chaucer's unusual ability to understand and interpret the relationships between men and women this afternoon at 3:15 in the north conference room of the Iowa Memorial Union.

Tuesday Coghill gave an account of "Chaucer as an Entertainer," observing that the author of "Canterbury Tales" learned his craft as a story teller by entertaining the lords and ladies of his time. "The 14th century bard paid considerable attention to achieving beauty in the sound of his words and used the living language of his time, including slang," the lecturer said.

"Chaucer and the Church" will be the subject of Coghill's Thursday afternoon lecture, and he will devote his informal presentations Tuesday, Wednesday and Thursday of next week to Shakespeare's work and reputation.

**Greeks—**  
(Continued from Page 1)

bright appointee associated with the University of Salonica and the Near East Foundation, divided each of the 12 vegetable varieties into 20 packets. The 20 seed sets each included green bush beans, early and late cabbage, endive, kale, leaf lettuce, two kinds of spinach, Swiss chard and three varieties of tomatoes.

In a letter to the YWCA, Alderman said, "I am sure your contribution will not only produce a large amount of good food this year, but will carry over into succeeding years through seed which will be saved for future planting."

The convention will be held from Monday to Friday at the Chase hotel in St. Louis, Mo. About 300 are expected to attend from 74 colleges and 123 alumnae chapters. Mrs. Guy H. Gale, San Anselmo, Calif., national president will preside at the meetings.

Business sessions and reports from committees will be given.

## Interpreting the News

By J.M. ROBERTS JR.  
Associated Press  
Foreign Staff

Critics of the United Nations are citing the Security Council's failure to take any positive steps about Guatemala as additional evidence that something needs to be done to make the organization more effective.

Its strongest supporters would like to see that happen, too, but are not inclined to throw up their hands in futility because such strengthening is not in sight.

The extraordinary Sunday session at which the council was able merely to express a desire for a cease-fire in Latin America came just slightly more than four years after that other Sunday session in which the organization was able to make the most momentous decision of its brief life. That was to intervene in Korea.

**Trouble Indicated**  
The different circumstances of the two meetings point up perfectly the trouble with the UN. It is not united. Action at the 1950 meeting was possible only because Russia was boycotting the council for the moment. Action last Sunday was impossible because Russia was right there with her veto.

It should be remembered, however, that there wasn't much the council could do about Guatemala anyway.

What is going on in Guatemala is, in the first place, unclear. The council was faced with charges by Guatemala against two neighboring states, Nicaragua and Honduras, accused of fomenting the rebellion. But it was an appeal which the remedy sought was not very clear, and in which the charges themselves were vague.

**Soviets Accused U.S.**  
Russia took the opportunity to accuse the United States of being behind the whole thing.

That was the tip-off why the council could not decide between Central American states, nor even develop a line of inquiry which might make possible a decision between them. The U.S. wanted the whole matter turned over to the Organization of American States, and Russia vetoed that, since it would have shut off her voice in the matter.

It is this international significance of the affair which handicuffs the UN. It's all right to talk in theory about great and small nations having equal voice in such an international body. But when it comes to fundamental clashes between the great powers, the small ones can only talk, and not too loudly at that.

**SEN. SMITH NOMINATED**  
WASHINGTON (AP) — President Eisenhower Tuesday expressed pleasure over Sen. Margaret Chase Smith's resounding renomination victory in Monday's Maine Republican primary. Mrs. Smith, who served eight years in the house before her first election to the senate in 1948, kept her primary and election record unmarred by her better than 5-1 defeat of Robert L. Jones, 34.

## GENERAL NOTICES

GENERAL NOTICES should be deposited with the city editor of The Daily Iowan in the newsroom in the Communications Center. Notices must be submitted by 2 p.m. the day preceding first publication; they will NOT be accepted by phone, and must be TYPED or LEGIBLY WRITTEN and SIGNED by a responsible person.

**THE FOREIGN LANGUAGE** achievement tests will be given Wednesday, June 23, from 3 to 5 p.m. For particulars see all bulletin boards of foreign language departments in Schaeffer hall.

**PLAY-NITE SCHEDULE AT** the field house for the 1954 summer session is every Tuesday and Friday from 7:30 to 9:30 p.m. for summer session students, staff, faculty and their spouses. Special instruction for non-swimmers will be offered from 7:30 to 8:00 each night.

**UNIVERSITY SYMPHONY** orchestra invites string personnel to join the orchestra for the summer concert, July 7. Rehearsals are on Monday, Tuesday, and Wednesday, June 21, 22, and 23, from 7:15 to 9:15 p.m. Call x2504 for information.

**ANY MEMBER OF SU1** Young Republicans who wishes to attend the Young Republicans state convention in Des Moines, July 22, please contact Edward Fallor at 8-3508 or Ella Mae Bartley at X2449 for further details.

**THERE WILL BE A REQUIRED** meeting for all those eligible to apply for senior privileges Monday, June 28, 4:10 p.m. in room 221A Schaeffer hall. Application for senior privileges will be made at this meeting. Any undergraduate woman having a total of 90 semester hours credit and/or at least 22 years of age and having both a cumulative 2.0 grade average and a 2.0 grade average for the previous semester, has no incompletes, and is not on indefinite campus due to social probation is eligible to apply for senior privileges.

**SECOND SEMESTER GRADES** for liberal arts, commerce and the graduate colleges can be picked up at room B-4 University hall beginning Wednesday, from 8:30 to 12 a.m. and from 1 to 4:30 p.m. Grades for pharmacy, engineering, nursing, and dental hygiene can be picked up beginning Wednesday at the dean's office of the respective colleges.

**CHORUS REHEARSALS FOR** the opera, "Love for Three Oranges," are on Monday, Tuesday, and Thursday, June 21, 22, and 24, from 7:15 to 9:15 p.m. Those interested in singing please contact Prof. Herald Stark, x2278.

**LIBRARY HOURS — SUN-** day, July 4, closed, and Monday, July 5, 8 a.m. to 4:50 p.m. Departmental libraries will post their hours on the doors.

**SUMMER HOURS FOR THE** University Library are as follows: Monday through Friday, 8 a.m. to 9:50 p.m.; Saturday, 8 a.m. to 4:50 p.m.; and Sunday, 2 p.m. to 4:50 p.m. Desks will close at 4:50 p.m. on Friday. Departmental libraries will post their hours on the doors.

**THE SCHOOL OF JOURNAL-** ism picnic will be held Wednesday, June 23, at 6 p.m. in the Fred Pownall back yard, 1602 N. (For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol).

Dubuque st. All students, faculty, staff and their wives, children, friends and guests are invited. Those with kitchens are asked to bring a pot luck dish, sandwiches and eating equipment. Those without kitchens are asked to bring either 75c to Fred Felton or something from the grocery. In case of rain the picnic will be held at the Leslie G. Moeller home, 623 E. College.

**MARSHALL SCHOLARSHIPS** — The British government is offering for study at British universities without restriction as to subject 12 Marshall scholarships valued at \$1,540 to \$2,240 each plus travel expenses to U.S. men and women graduate students under the age 28. Each award is for a period of two years. Applications should be made before Sept. 30, 1954. Further information may be obtained by writing to the British Consulate-General, 720 N. Michigan Ave., Chicago 11, Ill.

**FRENCH PH.D. READING** examination will be given Thursday, June 24, 1954, from 3 to 5 p.m. in room 321A, Schaeffer hall. Please make applications by signing sheet posted outside room 307, Schaeffer hall. No application will be accepted after Tuesday, June 22. The next examination will be given last week of summer session.

**GERMAN PH.D. READING** exam will be given on Monday, June 28, from 2 to 4 p.m. in room 104 Schaeffer hall. Please register in room 101 Schaeffer hall by noon Monday, June 28, if you intend to take the exam. The next exam will be Monday, July 19, from 2 to 4 p.m. in room 104 Schaeffer hall.

### Sound Lab Being Built

(Daily Iowan Photo by Frank Hall)  
**THE SUI MECHANICAL** engineering department wasn't experimenting with fire sirens Tuesday in its building at the corner of Washington and Madison streets, though many an Iowa City resident may have thought so. The noise was caused by workmen beginning to construct this soundproof room for analyzing noises in standard plumbing fixtures. This study, the latest in a series sponsored by the National Association of Plumbing Contractors, is under the direction of Prof. Elmer Lundquist.

### Construction Firm Brought Into City Suit

The Midwest contracting co. of Cedar Rapids has been brought into a suit filed by the City of Iowa City against the town of Coralville. The dispute concerns payment for sewage treatment.

An order bringing in the Cedar Rapids firm was approved by Judge Harold D. Evans. The city of Iowa City is asking a judgment of \$2,003.40 from Coralville, claiming that the money is due for sewage flowing into the Iowa City mains from Coralville.

In its application bringing in the contracting company, the town of Coralville claims that the involved sewage was emptied into the Iowa City mains during the period the installation was under construction; thus, Coralville claims, placing the responsibility on the construction company.

In its suit brought against Coralville on June 4, the city of Iowa City cited a contract providing for treatment of Coralville sewage at a rate of 10 cents per cubic foot. From June 18, 1951 to January 3, 1952 the city states that a total of 2,003,200 gallons flowed into Iowa City mains.

City Attorney, Edward W. Lucas is counsel for Iowa City and Roger H. Ivie is the attorney representing the town of Coralville.

### Foreign Group Names 9 to Executive Board

Nine foreign students and one American have been appointed to the 1954-55 executive board of the SUI International Center, according to the center's second annual report.  
The report also listed gifts received by the center and recalled highlights of the 1953-54 school year.  
The new executive group was selected recently by outgoing board members.  
Members of the new board include: Narain R. Rihwani, E3, India, chairman; Virginia-Luz Adolfo, G, Philippines; Inge Giskegerde, E1, Norway; Penuel E. Malafa, A1, Nigeria; Mario A. Basbaum, A1, Brazil; Sangun Lim, G, Korea; Akira Noguchi, G, Japan; Ernesto D. Bacci, E4, Columbia; Norbe C. Brosel, A0, Philippines; and Silvia Sue Donelson, A2, Reinbeck.  
The International Center, at 3 E. Market st., was established by SUI in September 1953 as a non-residence social center for foreign students and their American friends.  
A card table and four chairs were purchased by four foreign students with a check given them by the Fort Madison Forum for a program called "Let's Globalize Our Thinking." The four students were: Arturo Obadia, G, Venezuela; Arne Hordve, G, Norway; Narain R. Rihwani, E3, India; and Penuel E. Malafa, A1, Nigeria.  
Among the year's highlights, according to the report, were the Pan-American day open house in April, the farewell party May 30 and the official welcoming party September 20. Additional 1953-54 highlights  
Other events included February's Girl Scout week attended by 400 girls and leaders, a reception in December by Philippine students for Gen. Carlos

### House Committee O.K.'s Farmers' Corn Price Option

WASHINGTON (AP)—The house agriculture committee voted Tuesday to let corn belt farmers choose between rigid and flexible price supports on their 1956 corn crop.  
Experts said that one probable effect of the provision, as written into the nearly completed farm bill, would be another year of rigid high price supports on corn, with continued acreage controls.  
The vote comes at a time when the Eisenhower administration is plugging for legislation providing for a gradual shift from the present rigid 90 percent of parity price supports on major crops to a more flexible system. There is considerable opposition to this in congress.  
The proposal approved Tuesday was offered by Rep. Charles B. Hoeven (R-Iowa) and backed by corn members.  
By accepting allotments, corn farmers would extend present rigid high supports on their crop for an additional year.

## Sports Views

By Gene Ingle—Daily Iowan Sports Editor

Here it is June 23d and I find I haven't stuck my neck out yet by picking my All-Star team for the game at Cleveland July 13, so here it is.

### American League

First base—Ferris Fain, Chicago White Sox. (Don't get panicky. Al Rosen will play third on my team.) Fain's .302 average is topped only by Dick Kryhoski's .303 among American league first sackers. Fain's fielding is nothing spectacular but is at least average.

Second base—This is a toughie. There are three excellent second basemen in the junior league—Nellie Fox of the Sox, Bobby Avila of the Tribe and Spook Jacobs of the A's. Although Avila's fielding average is the lowest of the three, his .384 batting average, which leads the league, will place him on my team.

Third base—Here's where Al Rosen comes in. I made the switch to get Fain in, I must admit. Rosen's .352 average and 13 homers will get him any position on my team.

Shortstop—None of the shortstops are hitting this year. I'll have to go along with aging Phil Rizzuto of the Yanks. He's still the best fielding shortstop in the league.

Center field—Rookie Bill Tuttle of the Tigers looks the best here. A .316 average is nothing to be sniffed at.

Right field—Hank Bauer has the most power and best batting average; Jim Rivera is the fastest, and Jim Piersall is probably the best fielder. Bauer gets the nod.

Catcher—Yogi Berra without a doubt is the best backstop in the league.

### National League

First base—I'd give anything if Gil Hodges or Ted Kluszewski could play the outfield. Both probably can, but I'll stick to procedure and won't switch here. Gil Hodges by a nose.

Second base—Granny Hamner's .366 is good enough for me, although Red Schoendienst and Junior Gilliam are close behind.

Third base—I'd really like to pick Randy Jackson of the Cubs. But for common sense reasons, I'll go along with Jabbo Jablonski of the Cards. The National leaguers will need his .366 batting average and eight homers. But you look at Jackson's homer record and find he has 11. My guess is, they'll both be picked, one as a regular and one as a utility player.

Shortstop—PeeWee Reese, the old master of shortstops, is tops in fielding.

Left field—It's a tough choice between two slugging Cub outfielders, Hank Sauer and Ralph Kiner. Although Kiner has a higher batting average, Sauer has over 20 homers and is fighting with Stan Musial for the top position. Kiner is leading the poll but I'll pick Sauer.

Center field—Duke Snider of the Dodgers, hitting .378 with 15 home runs has to be included.

Right field—Stan Musial, without a doubt. Unquestionably the best player in the National League.

Catcher—Roy Campanella, best in the league.

Who's going to win the 1954 All-Star game? National's power is too much for the superb American league pitchers.

### Carole Brown Qualifies in Meef

BOONE (AP) — Defending champion Carole Brown, Des Moines, duplicated her first round feat of a year ago in the Girls' State golf tournament Tuesday as she defeated Boone's Ann Clausen, 1 up.

Miss Brown bettered her medal score of the qualifying tests

to enter the second round Wednesday along with seven other young golfers. She took a 100 to qualify but shot a 92 in ousting Miss Clausen. Both co-medalists, Judy McCoy of Indianapolis and Donna Garrett of Ames won their matches Tuesday.

# Redlegs Maul Dodgers, 13-1

## Podbielan Hurls 2-Hit Masterpiece Against Champs

BROOKLYN (AP)—Cincinnati's Redlegs backed Bud Podbielan's two-hit pitching with a 17-hit attack, including two homers by Jim Greengrass, to whale the Brooklyn Dodgers, 13-1, Tuesday. It was Cincinnati's fifth straight victory, snapping a four-game Dodger winning streak.

In scoring his third victory of the year over his former teammates, Podbielan pitched one-hit ball until Carl Furillo hit his third homer of the season with two out in the eighth.

The Redlegs blasted Johnny Podres for three runs in the first inning, sent him to cover in the third with a four-run spree, and continued their rampage against Bob Milliken and Ben Wade. Ery Palica finally calmed them in the ninth.

Podbielan, a 30-year-old right-hander, became the first pitcher to beat the National league champs three times this year. He lost to the Brooks the first time out and then swept the next three.

## Gromek's Jinx Over Yankees Continues, 4-1

DETROIT (AP)—Detroit's Steve Gromek, pitching with a week's rest, stopped the New York Yankees, 4-1, Tuesday.

Gromek, who holds 15-10 lifetime hex over the Yankees, scattered eight hits in recording his ninth victory against six losses.

The Tigers scored twice in the third and twice in the seventh, sending lefty Bob Wiesler down to defeat. The 23-year-old southpaw, who scrambled through seven innings, was recalled from Kansas City and joined the Yankees Tuesday morning.

Wiesler committed two balks in the third inning, and Casey Stengel became so irritated that he was requested to leave the premises by Umpire Ed Runge. It was the third time Stengel had been thrown out a game this year, compared to only once in his first five years as boss of the Yankee machine.

In the third, the Tigers made four hits—none of them solid—and were aided by Wiesler's two balks.

New York tallied its only run in the eighth.

## Irvin's Pinch Single In 9th Lets Giants Edge Milwaukee, 3-2

NEW YORK (AP)—Monte Irvin, hitless in his last 26 times at bat, delivered a pinch-hit single with two out and the bases loaded in the last of the ninth inning Tuesday night to give the New York Giants a 3-2 victory over the Milwaukee Braves.

The victory increased the Giants' first place margin to two games over the Brooklyn Dodgers, who were beaten 13-1 by Cincinnati in an afternoon game.

Irvin was brought in after Hoot Evers, who won Saturday's game with a pinch-hit homer, was retired on strikes on three pitches when he attempted to pinch hit. Irvin blasted Gene Conley's first pitch.

The Braves had entered the last of the ninth leading 2-1.

Whitey Lockman drew a walk, moved to second on a sacrifice and to third on a single by Don Mueller. Willie Mays, who had accounted for the first New York run with his 21st homer in the second inning, delivered a bloop double scoring Lockman.

Pinchhitter Bobby Hofman walked, setting the stage for the final thrills.

Milwaukee was held to four hits by Johnny Antonelli, who retired for a pinchhitter in the eighth, and Hoyt Williams, who pitched a hitless ninth.

Henry Aaron homered for the Braves with two out in the fourth to tie the score.

Milwaukee 000 110 000—2 4 0

## Campanella Drops the Ball

CINCINNATI REDLEG CATCHER Andy Seminick scores from second as Dodger catcher Roy Campanella drops the throw from left fielder Jackie Robinson after making the tag in the third inning of a game at Ebbets field Tuesday. The umpire is Bill Jakowski. Seminick tallied on Roy McMillan's single to left. The Redlegs won, 13-1.

# Americans Win at Wimbledon

WINBLEDON, England (AP)—Classic-swinging Maureen Connolly and the other American girls in the Du Pont-Brough-Hart-Connolly tennis dynasty breezed through their opening matches at Wimbledon Tuesday in less time than it takes to get a manicure.

Only third-seeded Shirley Fry of Akron, Ohio, had any difficulty.

Miss Fry had to play her best to defeat Mrs. V. Alvensleben-Rigollet of Switzerland in a first round match 6-4, 6-4.

Top-seeded Miss Connolly of San Diego won from Joan Scott of South Africa 6-0, 6-3 in a second round match.

Doris Hart of Coral Gables, Fla., seeded No. 2, beat one of England's best, Georgia Woodgate, 6-1, 6-1 in a second round match.

A pleasant, sunny 25 minutes passed while Louise Brough of Beverly Hills, Calif., the No. 4 seed, matched the Hart score in her first round match against

cultly as the favored Americans steam-rollered one round, and in some cases, two rounds, ahead on the historic courts.

Miss Fry had to play her best to defeat Mrs. V. Alvensleben-Rigollet of Switzerland in a first round match 6-4, 6-4.

Top-seeded Miss Connolly of San Diego won from Joan Scott of South Africa 6-0, 6-3 in a second round match.

Doris Hart of Coral Gables, Fla., seeded No. 2, beat one of England's best, Georgia Woodgate, 6-1, 6-1 in a second round match.

A pleasant, sunny 25 minutes passed while Louise Brough of Beverly Hills, Calif., the No. 4 seed, matched the Hart score in her first round match against

Mrs. D. W. Gotla of Britain. The fourth lady in the dynasty, Mrs. Margaret Du Pont of Wilmington, Del., seeded fifth, won from Viola White of Britain 6-1, 6-0 in a second round match.

## Frick Tells Owners To Curb Rowdiness

NEW YORK (AP)—Baseball Commissioner Fred Frick Tuesday advised major league club owners they are responsible for curbing spectators' rowdiness in their ball parks and called on them to add additional police protection if necessary.

The commissioner didn't name any particular club but pointed out there had been several instances where cans, bottles and knives had been thrown on the playing fields.

MIAMI BEACH, Fla. (AP)—Bob Satterfield, 178½, Chicago, spotted his opponent 25½ pounds weight advantage and knocked out Cleveland Williams, 202, of Tampa, in 1:03 of the third round in a scheduled 10-rounder at the auditorium Monday night.

Satterfield unleashed a murderous barrage of punches in the third round to flatten Williams. The final punch was a left hook to the chin.

Trucks Wins 10th As Sox Down Nats

CHICAGO (AP)—The Chicago White Sox moved up on the league-leading Cleveland Indians Monday night as Virgil Trucks scored his 10th pitching victory of the season a 7-5 decision over the Washington Senators.

Trucks, who has lost three, allowed 10 hits—two of them home runs by Jim Busby and Roy Sievers—and needed rescuing by Morrie Martin in the ninth.

## Roberts Collars Cubs; Sauer Hits 21st Homer

BALTIMORE (AP)—The Boston Red Sox pushed across two runs in the twelfth inning to eke out a 3-1 victory over the cellar-dwelling Baltimore Orioles Monday night as a crowd of 13,093 watched the losers go down to their ninth straight setback.

Bullet Bob Turley, trying for his seventh win, made the mistake of walking Harry Agganis to open the twelfth. Sammy White then ranned a double to the left field corner and when Gil Coan bobbled the ball as it caromed off the wall, Agganis raced across with what proved to be the winning tally.
