## The Weather

Partly cloudy today, with highs of 76 to 82. Thursday partly cloudy, with scattered showers and little change in temperature.

# Hoover Celebrates 80th Birthday

## 533 To Graduate As Summer School Ends

### Hilton To Present Commencement Talk At Program Tonight

Commencement exercises for 533 graduates of SUI will close the regular summer session of the university tonight at 7:30 in the Iowa fieldhouse.

Today's graduates will hear brief comments by Pres. James H. Hilton of Iowa State college, according to Ted McCarrel, director of convocations. University President Virgil M. Hancher will deliver the charge to the graduates and award the degrees.

Prof. Robert S. Michaelson, director of the SUI school of religion will give the invocation and benediction. Music for the ceremony will be provided by the university symphony orchestra under the direction of Prof. William Gower.

### 78 Counties Represented

Candidates for degrees represent 78 Iowa counties, 37 other states and 11 foreign countries. The foreign students are from Australia, Canada, China, Denmark, Egypt, El Salvador, Formosa, India, Norway, the Philippines and Spain.

Seventy-six doctor of philosophy degrees, 238 masters' degrees and 119 liberal arts' degrees will be awarded. Sixty-six degrees will be conferred on graduates in nursing, 18 in commerce, 11 in law, two each in engineering and pharmacy and one in dentistry.

Six army and air force reserve officer training corps cadets will receive commissions as second lieutenants in their respective branches during morning exercises.

### To Administer Oath

Lt. Col. J. A. Scott, acting head and professor of military science and tactics, will administer the oath to the army cadets. Col. C. G. Kirk, professor and head of air science, will swear in the air force cadets.

Among those receiving commissions are:

Donald D. Hartzell, air force, Clinton; James A. Uratt, army, Council Bluffs; Harlan R. Dubansky, army, Des Moines; LeRoy A. Ebert, air force, Iowa City; Joseph K. Furukawa, air force, Maui, Hawaii; Gerald M. Herbert, army, Temple City, Calif.

### Broadcast by WSUI

Beginning at 7:15 p.m., university radio station WSUI will broadcast its traditional on-scene account of the commencement exercises, with Prof. Orville A. Hitchcock, of SUI speech department as commentator. WSUI is heard at 910 kilocycles.

Approximately 150 students are expected to remain on the campus until nearly time for the fall semester to open, doing graduate work under the university's independent study program. Most of the students will devote their time to continuation of thesis research.

### U Heights To Remain On Fast Time

By IRA KAPENSTEIN  
University heights will not return to standard time with Iowa City but will remain on daylight saving time until Sept. 19, the heights council has decided.

The small, independent West Lucas township municipality, located west of the stadium, which has a population of about 700 is not "going to just follow the crowd," Councilman Russell Ross, SUI professor of political science, said Tuesday.

Ross, who was referring to the trend of other communities in the Iowa City area to follow Iowa City's lead in the time question, said that the council saw no reason to return before the set date. He speculated that most of the residents would set their clocks back with Iowa City anyway.

### Council Decides

The decision was made at the council's regular monthly meeting Monday night and was unanimously agreed upon with one council member absent, Mayor Nate Moore Jr., reported.

Six other towns to date have acted to return to standard time since Iowa City's decision, July 29. They include Coralville, Solon, Hills, Swisher, North Liberty and West Liberty.

Other members of the University heights council are Lee Cochran of the SUI extension division and director of audiovisual instruction, F. L. Hamborg, university treasurer, and Forrest Allen. The fifth council member, Chan Coulter, was not present at the meeting.

### November Vote Sought

Meanwhile, approval of the proposal to bring the daylight saving time question to a vote in November in Iowa City was given Tuesday by Miss Alice Stewart, chairman of the committee which successfully fought for the return to standard time in this area.

In commenting on the suggestion of Robert Yetter, local businessman who led the original June campaign for daylight saving time, Miss Stewart said, "I'd like to see what a vote would show." She added that she believed daylight saving time would be defeated overwhelmingly if it ever were brought to a vote.

A letter from Yetter to the city council was read at Monday night's council meeting, proposing a special referendum at the November election on the question, "Should the City of Iowa City adopt daylight saving time from the last Sunday in April to the last Sunday in September?"

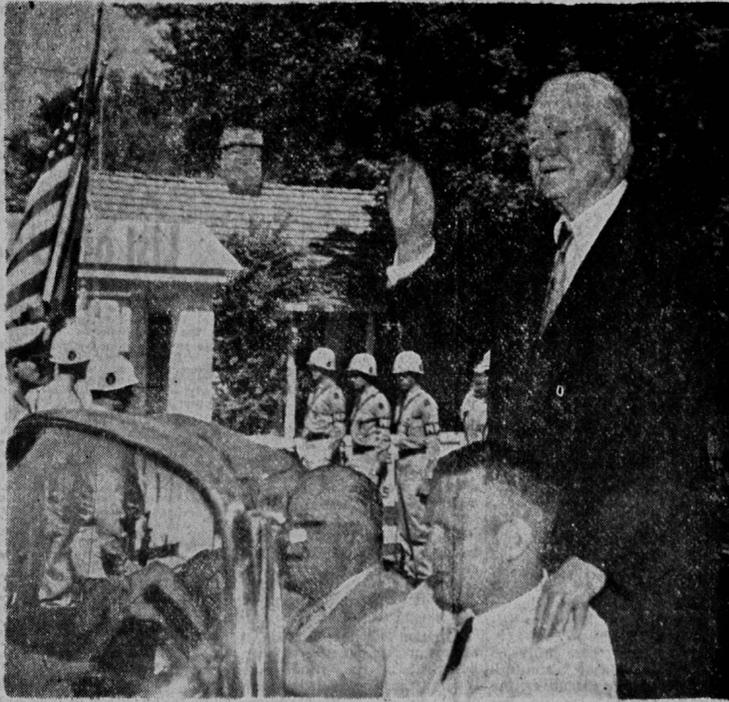

Yetter's letter told the council that he believed a ballot "would help the council avoid government by petition which has recently been decry by two members of the council."

### No Action Taken

The council took no action on the letter at Monday night's meeting other than voting to acc-

### Hoover Waves to Crowd at His Birthplace

FORMER PRESIDENT HERBERT HOOVER waves to the crowd that lined the street in front of his West Branch birthplace Tuesday. After arriving from Cedar Rapids, Hoover rode through the town and Hoover park before starting the day's activities.

### Dulles Asks Russia For Final Answer On Atomic Pool

WASHINGTON (AP) — Secretary of State John Foster Dulles said Tuesday Russia has been requested to give a final yes-or-no answer on whether it will join the United States in setting up a pool of atomic materials for "life-giving purposes" throughout the world.

Dulles disclosed this latest move by the United States at a news conference where he assailed Russia's attitude, expressed in an April 27 note, as "99 per cent negative."

"We have in substance asked the Soviets whether they wish it to be treated as 100 per cent negative," he said.

Russia's refusal to accept the plan first proposed by Eisenhower last Dec. 8 will not kill the project, he said. The United States is now going ahead, expecting a final Soviet turnaround, to draft a program which other countries will be asked to support.

The plan will be open, he said, both to nations which can contribute fissionable materials to such a pool and to those "have not countries" who might benefit.

### Buppy Awarded \$250 In Bonds for Heroism

Buppy, Iowa City's dog heroine, was posthumously awarded \$250 in bonds as the third prize in the "dog hero of the year" contest.

The owners of the dog, Mr. and Mrs. A. F. Innes, 1828 G st., said Tuesday that the bonds will be saved for their daughter Diane, whose life was saved by the dog.

The contest is sponsored by the Ken-L-Rations division of Quaker Oats Co. Dogs that performed heroic acts during 1954 were entered in the competition.

Buppy was entered in the contest after she pushed little Diane out of the path of an oncoming truck last March. According to reports at the time of the incident, Diane had toddled out of her yard after a neighbor boy had left the gate open, and wandered onto highway 6.

At that time Buppy was presented with a gold medal and a certificate of heroism by Mayor LeRoy Mercer. The medal is inscribed "Dog Hero" and the citation certificate praised her for

"distinguished dog heroism."

The eligibility of Buppy to remain in the contest was questioned at the time of her death. The year old puppy apparently strangled to death in July when her collar became entangled in the brush while she was chasing a rabbit on a farm. A farmer found Buppy and buried her.

When the Ken-L-Rations officials were contacted they called a special meeting of the judges and it was decided that Buppy would still be eligible to win the award.

Mrs. Innes said that Diane still misses Buppy and asks about her. "We tell her that her puppy has gone to heaven, but of course she is still too young to understand what we mean," Mrs. Innes said.

The Innes family is moving and have no immediate plans for buying another dog but say that when they have space to keep a dog they will get another one. They said that Buppy was one of the best investments they have ever made.

### Senate Votes Ike Flexible Farm Plan

WASHINGTON (AP) — President Eisenhower won flexible authority to tackle the vast farm surplus problem Tuesday night as the senate passed the farm bill calling for a sliding scale of price supports ranging from 82½ to 90 per cent of parity.

The vote on the omnibus agricultural measure containing the new price support provisions was 62-28.

Voting for the bill were 44 Republicans and 18 Democrats while 25 Democrats, Independent Sen. Morse of Oregon and three Republicans voted against it. The three Republicans opposed were Senators Langer (N.D.), McCarthy (Wis.) and Thyne (Minn.).

The measure now goes back to the house, with a senate-house conference committee expected to reach a speedy compromise on differences between the two chambers.

However, there were no differences between the two bodies on the key issue of giving the President flexible powers to vary price supports on the so-called basic crops. Both voted for a scale of 82½ to 90 next year instead of the present mandatory props of 90 per cent of parity.

This did not give Eisenhower and Secretary of Agriculture Ezra Benson all the leeway they asked — their original proposal was for a range of 75 to 90. But administration men expressed jubilation that the principle of flexibility was established after a hectic battle.

The administration argues that the way to tackle the problem which has piled up large surpluses in government hands is to reduce price floors when crops are large, in order to spur consumption, and to raise them in times of scarcity, to encourage production.

Before Tuesday night's final vote, backers of the Eisenhower program hung up another in a series of preliminary victories that have characterized the struggle in the last few days.

The administration program scored two notable victories that Monday night, winning senate approval of a flexible system of price supports on basic crops, ranging from 82½ to 90 per cent of parity, and authority for Benson to continue price supports on dairy products at the reduced level of 75 per cent of parity.

Prices are now supported at a flat 90 per cent of parity on "basic" crops — cotton, corn, wheat, rice, peanuts and tobacco. Under both the senate and house bills tobacco alone would continue at 90.

### Graduate Student Arrested on OMVI Following Accident

Frank Russell Clarke, 23, Lee, Mass., was being held in city jail Tuesday night pending an 8 a.m. hearing today on a charge of operating a motor vehicle while intoxicated.

Clarke was arrested by Iowa City police after his car had collided with an auto driven by Clair Ambers Powers, 28, 715 E. Davis st., at the intersection of Washington and Dodge streets about 9 p.m.

Powers' wife, Louise, 26, received what University hospital sources described as "very slight injuries"; she was more shaken up than anything else and was treated and released by the hospital about 11 p.m. Mrs. Powers is a university IBM operator.

Police Captain Laurence Ham estimated damages to the Powers vehicle at approximately \$100, and damages to Clarke's auto at about \$300. The front ends of both cars were damaged by the accident.

Powers, who gave his occupation as a bank teller, reported that he had been driving north on Dodge street when the accident occurred. Clarke, who holds a chauffeur's license, had been going west on Washington street.

### Graduation Time—Nurses Burn Their Blues

"BURNING THE BLUES" is the name of the ceremony these senior nurses who graduate today are conducting. Senior nurses burned their blue uniforms and starched white collars and cuffs that they have worn for three years while working at University hospitals.

### Says U.S., Russian Alliances Caused Communism To Spread

WEST BRANCH—Former president Herbert Hoover, here to celebrate his 80th birthday, said Tuesday that in the 20 years before the last presidential election "our tacit alliances with Soviet Russia spread communism over the earth."

Criticizing executive agreements with other nations as encroachments upon the powers of the legislative branch, Hoover said "these unrestrained presidential actions" have resulted in a shrinking of human freedom both at home and abroad.

He referred to such executive agreements as those made at Potsdam, Teheran and Moscow.

### Freedoms Shrunk

As a by product of these agreements, Hoover said, our freedoms here at home have been shrunk "by crushing taxes, huge defense costs, inflation and compulsory military service."

Hoover traveled to West Branch from California to spend his 80th birthday among his boyhood friends and other special guests.

His train, the City of San Francisco, was 1 hour and 35 minutes late in arriving in Cedar Rapids because of diesel trouble in Wyoming. But the Hoover party arrived in West Branch almost on schedule after the caravan of nine cars and two buses traveled at speeds as high as 75 miles per hour en route to West Branch.

Immediately on arrival, Hoover visited the graves of his father, who was the village blacksmith, and his mother, who was a Quaker school teacher. With him were three younger generations of Hoovers.

### Large Crowd

A crowd estimated at 10,000 to 12,000 by Chief David Herick of the Iowa Highway Patrol applauded and cheered Hoover wherever he went.

An honor guard composed of military police from the 34th infantry division, now in training at Camp Ripley, Minn., escorted Hoover and his party into West Branch.

After a ride through the 28-acre park adjoining his birthplace, Hoover and his party dedicated the new West Branch Herbert Hoover elementary school.

### Visits Birthplace

Then Hoover visited the little white cottage where he was born. Fred Albin and Ernest Kerr, two boyhood chums of Hoover, were on hand to greet him as he approached the two-room house.

Crowds were kept outside the fence that surrounds the house while Hoover posed for photographers and gazed again on the furniture he knew so well as a boy.

The photographers, wanting a big smile from Hoover, joined in a chorus of "Happy Birthday." He obliged them.

Hoover was dressed in a brown double-breasted suit and felt hat despite the balmy, sometimes hot, weather. His face is ruddy, but has strong features. He looked younger than 80 years old.

### Rests After Tour

After a tour of his former home, Hoover rested almost an hour in the home of the park caretakers, Mr. and Mrs. John Thompson.

Lunch was served to Hoover and his party in the Boy Scout shelter in the park. Two-hundred other guests ate in a nearby tent. They were served fried chicken, potato salad, and pie.

Walking from lunch to the speaker's platform, Hoover drew applause and cheers from the crowd.

One elderly lady, on seeing Hoover for the first time, said, "There he is. My, doesn't he look good? This was worth waiting for. Now we can go eat."

Prior to the formal speaking program, Dr. James H. Hilton, president of Iowa State college, presented Hoover the first autographed copy of "As Ding Saw Hoover."

"The volume contains drawings by J. N. 'Ding' Darling, retired cartoonist for the Des Moines Register and close friend of the former president.

**Degree Conferred**  
SUI President Virgil M. Hancher conferred an honorary L.L.D. degree upon Hoover. "We are not vain enough to believe that we can honor to honor of distinction to distinction," he said. "Rather we confer this degree as the university's portion

of that world-wide tribute of respect and affection accorded to him on his 80th birthday."

Of Hoover, Hancher said, "We honor him for what he is, for the example he has set before us."

Wilbur M. Bruckner, representing Secretary of Defense Charles E. Wilson, read a letter from President Eisenhower wishing Hoover a happy birthday.

### Nixon Scheduled

Vice-president Richard M. Nixon was scheduled to read it, but he remained in Washington because of important senate business, over which he presides.

Finally, it was Hoover's turn to speak. In the chief departure from his prepared text he said,

"See Complete Text of Herbert Hoover's West Branch address on Page 2."

"After listening to an hour of eulogies I'm convinced I'm not the man they're talking about."

Then he launched his hard-bitten review of the 20 years between his exit from the White House and the election of President Eisenhower.

Presidential "misuse of power," during that period assisted the Russian cause, damaged our country internally and contributed to the enslavement of millions, he said.

### Witnessed Encroachment

During the last war, he said, "we witnessed a special encroachment of the executive upon the legislative branch. This has been through a new type of commitment of the United States to other nations.

"They include international agreements which shackle our economy by limiting a free market.

"More terrible were such executive agreements as our recognition of Soviet Russia which opened the headgates for a torrent of traitors to the United States.

"Our tacit alliance with Soviet Russia spread communism over the earth.

"Our acquiescence in the annexation by Russia of the Baltic states at Moscow and the partition of Poland at Tehran extinguished the liberties of tens of millions of people.

### Yalta Was Worse

"Worse still was the surrender at Yalta of 10 nations to slavery."

The real issue, Hoover said, is "whether the president . . . can commit the American people to foreign nations without the specific consent of the elected representatives of the people."

One of the end results of these "encroachments," he said, is the growth of "a gigantic federal bureaucracy."

Hoover said he had protested "the most dangerous of our foreign political policies" during this same period. He fought against those courses of action that led the United States into the second world war, he said.

"I have no regrets. The consequences have proved that I was right," he said.

### Unconcerned Guest

Among the thousands of visitors and guests honoring Hoover, perhaps the most unconcerned about all the excitement was little Stephen Hoover, 6-year-old great-grandson of the former president.

Even though he was in the official party, Stephen's attention was drawn by the old pump in the rear of the clapboard birth place. He just had to see if the handle actually worked.

The remote television truck used by WOI-TV also fascinated the fourth generation Hoover. "I'd like to get up on top of that truck," he said.

While his great-grandfather

A Condensation of Late Developments

### Iowa Public School Tuition Rates Increase

DES MOINES (AP)—Top limits on tuition rates for Iowa public schools have been increased for the coming year, Jessie M. Parker, state superintendent of public instruction, said Tuesday. The new rates reflect higher school costs. The tuition is paid for children attending a school outside the school district in which they live. Under the new rates top monthly tuition will be \$49.50 for high school, \$42.50 for junior high school and \$28.30 for elementary school. Parents sending a child to a high school outside their own school district this fall may have to pay as much as \$445.50 tuition for the school year.

### Mendes-France Wins 2 Votes of Confidence

PARIS (AP)—The French national assembly gave Premier Pierre Mendes-France two rousing votes of confidence on major issues Tuesday. One approved his sweeping economic plans and the other granted him a postponement of debate on Tunisia and Morocco. On the economic and financial reform program, in which Mendes-France demanded special powers until March 31, 1955, to take many actions without parliamentary approval, the Premier won by a vote of 361 to 90. The assembly gave him a margin of 398 to 126 on the vote to delay discussion of the question of France's North African protectorates.

UNIVERSITY CALENDAR

WEDNESDAY, AUG. 11, 1954

UNIVERSITY CALENDAR items are scheduled in the President's office, Old Capitol

Wednesday, August 11: 5:00 p.m. — Close of summer session.

Thursday, August 12: 7:30 p.m. — University commencement, field house. Art exhibit of 60 American artists ends.

Thursday, August 12 through Friday, August 13: 8:30 a.m. to 4 p.m. — Opening of independent study unit for graduate students.

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol).

(Delivered at West Branch Tuesday on His 80th Birthday)

The legislature and the governor of Iowa did me the great honor of inviting me to a reception by my native state on this my 80th birthday.

It is more than difficult adequately to express my appreciation for such evidence of affection.

I am glad to come to West Branch. My grandparents and my parents came here in a covered wagon. In this community they toiled and worshipped God. They lie buried on your hillside. The most formative years of my boyhood were spent in this village. My roots are in this soil.

This cottage where I was born is physical proof of the unbounded opportunity of American life.

My first paid job was in this community picking potato bugs at one cent a hundred. I was not inspired by altruism to relieve the world of a pest. Such altruism as was attached to that labor was to secure firecrackers with which to commemorate properly the Declaration of Independence.

But Iowa is a progressive state. Its anxious mothers secured a law limiting that kind of a tribute to the founding fathers. Moreover, by your adoption of insecticides, the slave wage of only a cent a hundred has been overcome.

**Made Fabulous Progress**  
Iowa has made fabulous progress since I left here. I can prove it by statistics — and all speeches must have statistics because nobody can defy a statistic.

Since that time, the people of Iowa have multiplied the wealth of the state by nine times over. That statistic is weakened by the decrease in purchasing power of money. In the meantime with the blessing of "the tall corn" you have sent to market enough hogs to cover the Chicago Stock Yards 5,045 feet deep. You can vary that statistic as you like.

Also, you have sent forth a host of men and women who have distinguished themselves in every state in the union and every foreign land. Their quality is proved by the fact that I have never seen Iowa attributed as the origin of any of our leading bank robbers, gangsters or Communists.

**A Varied Life**  
Eighty years is a long time for a man to live. Mine has been a life of work in many lands under many kinds of governments, both good and bad. I have been honored by my countrymen in many public offices and with many opportunities to serve outside the government.

I have watched the two great worlds with their holocausts of death, destruction and famine. I have taken some part in remedy of their terrible aftermaths. I have participated in the search for a healing peace.

I have witnessed the legacy of those wars in doubting minds, brutality, crime and debased morals. Moreover, I have witness on the grounds in 20 nations the workings of the philosophy of that anti-Christ, Karl Marx.

**PROBLEMS OF FREEDOM AND PROGRESS**  
After these long years and from all these experiences, there rises constantly in my mind the forces which make for progress and those which may corrode away the safeguards of freedom in our country. I want to say something about these forces but I shall endeavor to do so, not in the tones of Jeremiah but in the spirit of Saint Paul.

New forces from science and new ideas, both good and bad, constantly arise in the world. We welcome changes which advance the welfare of our people. Our system always needs repair.

Also we have to clean up the vast wreckage and disorders of two devastating tornadoes of wars which have swept over mankind during the past 40 years.

And above all, we have need to oppose constantly corruptions of the safeguards of free men. The remedies in America are not revolution. They are except for peace and war mostly jobs of marginal repairs around a sound philosophy and a steady, stout heart.

Our founding fathers did not invent the priceless bond of individual freedom and respect for the dignity of men. That great gift to mankind sprang from the Creator and not from any government.

**Fathers Welded Safeguards**  
The founding fathers, with superb genius, welded together the safeguards of these freedoms. They were concerned with the dangers of political tyranny. With the coming of the industrial age our people welded in further safeguards against economic tyranny.

And with these safeguards our people were at one time closer to the goals of human welfare than any other civilization in the whole history of the world.

**POWER OF FEDERAL AND LOCAL GOVERNMENT**  
The progress of freedom is a never-ending struggle to prevent the abuse of power whether by individuals, groups, government, or nations.

Our founding fathers created unique restraints on power by the Bill of Rights and a structure of built-in checks and balances. Among these new concepts was a division of power between the federal and state governments and the three branches of government. I do not need to tell you that. But what I have to tell you is that these separations of power became confused, corroded and weakened during the 20 years before this administration.

These confusions have included executive encroachment on the legislative and judicial branches. There has been judicial encroachment on the states rights. There has been congressional encroachment on the executive.

Some of the corruptions come from the discovery that it is easy for the federal government to light the magic power of federal loans and credit. But the flame that warms can also consume the safeguards of free men.

Some of these encroachments come from a long era of beguilement by pressure groups and local government for subsidies from the federal government.

**Growth of Bureaucracy**  
One of the end results of all this is the growth of the gigantic federal bureaucracy. It has expanded in 20 years from 600,000 to 2,300,000. Some increase is necessary. Most of them are fine men and women. But innate in bureaucracy are three implacable spirits. They are self-perpetuation, expansion of their empires, and demand for more power. Thus bureaucracy rushes headlong into the visions of the millennium and sends the bills to the treasury.

Today we have more federal employees in nearly every state than all the local officials, including constables. They penetrate every part of local government. They produce great waste of the taxpayers' money. They create a vested interest or a vested habit for some pressure group. They interfere in politics and they too often are infected with corruption.

**Remedy Offered**  
The remedy is to restore the checks and balances of power, to reinvigorate state and local governments and to deflate the bureaucratic empires.

Many of these confusions of power are today under vigorous investigation in which I have some part.

My countrymen, all these corruptions of the checks and balances of power do call for constant battle from you, the people. They must be wiped out if you would stay free.

**POWER IN OUR FOREIGN RELATIONS**  
In our foreign relations there are great dangers and also vital safeguards to free men. During the last war we witnessed a special encroachment of the executive upon the legislative branch. This has been through a new type of commitment of the United States to other nations. I am not going to argue legalisms, for

they do not go to the center of the issue.

The real issue is whether the President, through declaration or implication or by appeasement or by acquiescence, or by joint statements with foreign officials, can commit the American people to foreign nations without the specific consent of our congress.

There has been a grievous list of such commitments. They include international agreements which shackle our economy by limiting a free market.

**Executive Agreements Terrible**  
But more terrible were such executive agreements as our recognition of Soviet Russia which opened the headgates for a torrent of traitors to the United States. Our tacit alliance with Soviet Russia spread communism over the earth. Our acquiescence in the annexation by Russia of the Baltic States at Moscow and the partition of Poland at Tehran extinguished the liberties of tens of millions of people. Worse still was the appeasement and surrender at Yalta of 10 nations to slavery. And there was the secret agreement with respect to China which set in train the communication of Mongolia, North Korea and finally all of China.

These unrestrained presidential actions have resulted in a shrinking of human freedom over the whole world. From these actions came the jeopardies of the cold war. As a by-product here at home these actions have shrunk freedom — our own freedom — by crushing taxes, huge defense costs, inflation and compulsory military service.

We must make such misuse of power forever impossible. And let me say, I have no fears of this evil from President Eisenhower but he will not always be President.

**OUR PRESENT FOREIGN SITUATION**  
Our dangers from the gigantic Communist source of evil in the world are unending. All of the peace agencies we have created and all of the repeated conferences we have held have failed to find even a whisper of real peace.

Every step of these programs somewhere, somehow, stultifies the freedom, the incentives, the courage, and the creative impulse of our people.

Beyond all this, there is proof in the world that the end result of Socialism can be bloody Communism. In the iron curtain states, it was the Socialist intellectuals who weakened the freedom of men by destroying the safeguards of freedom. Thus they furnished the boarding ladders by which the Communists captured the Ship of State.

**THE WELFARE STATE**  
One of the postwar cousins of Socialism is the so-called "Welfare State." This poison gas is generated by the same sort of fuzzy-minded intellectuals. Its slogan is "Planned Economy." The phrase itself was borrowed from totalitarian governments. The end of it would at least be a government wherein whatever is not forbidden would be compulsory.

One of the annoyances of this cult is its false assumption that our nation has never been heedful of the welfare of our people. That we are our brother's keeper was rooted in religious faith long before these fuzzy-minded men were born. Since the foundation of the republic, we have recognized and practiced both private and governmental responsibility for the unfortunate and the aged; for the education of our youth and the health of our people.

**Cult Uses Gimmicks**  
Moreover, this cult has a host of gimmicks for giving away the people's money. Among their ideas the government should guarantee every citizen security from the cradle to the grave.

But it is solely the initiative and the labor of the physically able in the prime of life that can support the aged, the young, the sick — and the bureaucracy. And this active earning group requires the pressures of competition, the rewards of enterprise and new adventure to keep it on the job. Even if security from the cradle to the grave could eliminate the risks of life, it would be a dead hand on the creative spirit of the people. Also, the judgment of the Lord to Adam about sweat has not yet been publicly repealed.

When we flirt with the Delilah of security for our productive group, we had better watch out, lest in our blindness we pull down the pillars of the temple of free men.

The British under a Socialist

power in Moscow, the Communists have carried on an underground conspiracy against every other nation. The rank and file of our people are immune from this infection. The recruiting grounds for their agents are from our minority of fuzzy-minded intellectual and labor leaders. Over a thousand, five hundred such Communist agents have already been rooted out of responsible position in our government and other spots of influence.

**Fifth Amendment Used**  
Many of these spies and traitors when exposed sought sanctuary for their infamies in the Fifth Amendment. Such a plea of immunity is an implication of guilt. Surely these people should not have the right to vote or to hold office, for thereby they use these privileges of free men against the safeguards of freedom.

Despite the clamor over ferreting out these persons, you must not be led into the mistake that Moscow has closed down its recruiting offices for American agents. Or that continued action of the F.B.I. and congressional committees is not equally imperative.

I have little fear that these Communist agents can destroy this Republic if we continue to ferret them out. Our greater concern should be the other varieties of Karl Marx virus.

**THE SOCIALISTS**  
Among them are the Socialists. They assert they would proceed only by constitutional means.

They prattle on many fronts. They promote the centralized federal government, with its huge bureaucracy. They drive to absorb the income of the people by unnecessary government deep into enterprises which compete with the rights of free men. These enterprises are endowed with exemption from taxation and freedom from control of state and local governments. Congressional committees have listed hundreds of these Federal activities. But only a drop of typhoid in a barrel of drinking water can sicken an entire village.

A nation is strong or weak, it thrives or perishes upon what it believes to be true. If our youth is rightly instructed in the faith of our fathers; in the traditions of our country; in the dignity of each individual man, then our power will be stronger than any weapon of destruction that man can devise.

**This Whole Socialist Gamut**  
And now as to this whole gamut of Socialist infections, I say to you, the neighbors of my childhood, the sons and daughters of my native state, God has blessed us with another wonderful word — heritage. The great documents of that heritage are not from Karl Marx. They are the Bible, the Declaration of Independence and the Constitution of the United States. With them alone can the safeguards of freedom survive. Safeguard the true spirit of these guarantees for your children, that they may not become the prisoners of a hydr-headed Socialism.

If anyone rises to say that all this is reactionary, you may class him as either fuzzy-minded or an ignorant enemy of free men.

**THE NEW FRONTIERS**  
Amid this recitation of our problems, I would not have you think that there are not great fields of promise for the future if we can keep out of war.

The last few years have seen advances in science and technology which amount almost to revolution in our life and world relations. Moreover, if we maintain free minds, free spirits, and direct our steps aright, still other new horizons and new frontiers are open to us. New inventions and new applications of old knowledge will come to us daily.

These new frontiers give us other blessings. Not only do they expand our living but also they open new opportunities and new areas of adventure and enterprise. They open new vistas of beauty. They unfold the wonders of the atom and the heavens. Daily they prove the reality of an all-wise Supreme Giver of Law.

**CONCLUSION**  
There are voices in our country who daily sound alarms that our civilization is on the way out. Concentrated on the difficulties of our times, they see an early and dour end for us. But, civilization does not decline and fall while the people still possess dynamic creative faculties, devotion to religious faith and to liberty. The American people still possess these qualities of a nation in death agony.

Eighty years is a long time for a man to live. As the shadows lengthen over my years, my confidence, my hopes and dreams for my countrymen are still undimmed. This confidence is that with advancing knowledge, toil will grow less exacting; that fear, hatred, pain and tears may subside; that the regenerating sun of creative ability and religious devotion will refresh each morning the strength and progress of my country.

government tried it. Its results was a level of poverty which Britain Socialists sought to obscure with the term "austerity." Britain is now in retreat from it.

**THE COMMON MAN**  
Among the delusions offered us by fuzzy-minded people is that imaginary creature, the common man. It is dinned into us that this is the century of the common man. The whole idea is a first cousin of the Soviet proletariat. The uncommon man is to be whittled down to size. It is the negation of individual dignity and a slogan of mediocrity and uniformity.

The common man dogma may be of use as a vote-getting apparatus. It supposedly proves the humility of the candidates.

The greatest strides of human progress have come from uncommon men and women. You have perhaps heard of George Washington, Abraham Lincoln, or Thomas Edison. They were humble in origin, but that was not their greatness.

**Want Uncommon Leaders**  
The humor of it is that when we get sick, we want an uncommon doctor. When we go to war we yearn for an uncommon general or admiral. When we choose the president of a university, we want an uncommon educator.

The imperative need of this nation at all times is the leadership of the uncommon men or women. We need men and women who are not intimidated, who are not concerned with applause meters, nor those who sell tomorrow for cheers today.

Such leaders are not to be made like queen bees. They must rise by their own merit. America recognizes no frozen social stratifications which prevent the free rise of every individual. They rise by merit from our shops and farms. They rise from the thirty-five million boys and girls in our schools and colleges. That they have the determination to rise on merit is the glorious promise of leadership among free men.

A nation is strong or weak, it thrives or perishes upon what it believes to be true. If our youth is rightly instructed in the faith of our fathers; in the traditions of our country; in the dignity of each individual man, then our power will be stronger than any weapon of destruction that man can devise.

was resting. Stephen amused himself by playing with a flash bulb given to him by one of the photographers and trying to catch one of the butterflies flying around the cottage.

Leaves for Iowa City  
After a short rest at the Thompson cottage at the end of the speaking program, Hoover left immediately for Iowa City to dedicate the new Iowa City Herbert Hoover elementary school, the 32d school in the nation to be named in his honor.

A crowd of between 500 and 600 heard Hoover praise the public school system and SU as one of the greatest universities in the nation.

About the dedication, Hoover said, "There is no more honor that can come to a man than to have a school named after him."

After the dedication, Hoover flew to Mason City to dedicate another school in his name. He will dedicate his fourth school of the trip in Cedar Rapids before flying to New York today.

"I Say Old Chap, May I Pass?"

BRITAIN'S DR. ROGER BANNISTER demonstrates his tremendous finishing power as he overtakes and passes Australia's John Landy in the "mile of the century" at Vancouver, B.C., Saturday. Both ran the mile under four minutes, Bannister taking the lead at the turn into the final 100 yards. Bannister's time was 3:58.8 seconds; Landy's, 3:59.6. These pictures are from a Paramount Newsreel.

The Daily Iowan SPORTS

WHITNEY MARTIN'S — Sports Trail

NEW YORK (AP)—The heavy-weight champion got out of a car in front of the state athletic commission office and greeted reporters cordially.

Upstairs in a rear room the movie cameras and big lights already had been set up in a rear room, ready to record for posterity the signing of Rocky Marciano and Ezzard Charles for their second title match.

The room became quiet except for the voices of the fighters and commissioners as they delivered their trite little speeches.

Rocky and Ezzard came in and took seats behind a long table, with Commissioner Bob Christenberry between them.

The victory, 44th in their last 60 games, snapped a two-game losing streak for the second place Yankees. They haven't lost three in a row this season.

Joe Demaestri bounced a ground rule double into the stands and Don Bollweg promptly brought him home with a field out but Grim bore down and kept the A's from scoring again until the sixth. By then he owned a 3-1 lead.

The Athletics' run in the sixth came on a double by the Vic Power and a single by Wilmer Power.

Philadelphia 100 001 000—2 10 2 New York 003 002 00x—5 8 1

ST. LOUIS (AP)—Pitcher Jim Wilson really didn't need all the help but the pennant hungry Milwaukee Braves shot extra base blows, including four home runs, around Busch stadium with ease Tuesday night to back up their hurler's three-hit pitching for a 11-0 victory over the St. Louis Cardinals.

Rookie Hank Aaron drove in five of the runs with a first-inning homer and a fourth-frame double, the latter with the bases full.

Other homers were by Ed Matthews, his 31st, Del Crandall and Joe Adcock. Only two of 10 Milwaukee hitters were singles.

No Cardinal reached second as righthander Wilson gained his eighth victory without defeat. Besides the hits, one Redbird walked, Ray Jablonski in the seventh. Just 29 Cardinals came to the plate, two above the minimum possible.

With Brooklyn losing Milwaukee pulled to 3 1/2 games behind the second place Dodgers, but remained 7 1/2 games back of the victorious New York Giants.

Brooklyn 000 011 100—3 8 1 Philadelphia 330 000 00x—6 8 1

Chicago's Frank Baumholtz slugged the first pitch of Corky Valentine for a home run but the Cincinnati Redleg pitcher throttled the Cubs the rest of the route Tuesday night and the Reds won 2-1.

Valentine, 24-year-old rookie righthander permitted the Cubs only four other hits.

Chicago 100 000 000—1 5 0 Cincinnati 000 020 00x—2 5 1

Mel Parnell, making only his sixth appearance since he was injured against the Nationals April 24, pitched a brilliant four-hit shutout Tuesday night as Boston defeated Washington 4-0.

Parnell needed only Jackie Jensen's two-run double in the third inning to complete his first game of the season.

The Red Sox lefthander allowed only Clyde Vollmer to get as far as second base when the Washington rightfielder doubled.

Boston tagged the National's ace Bob Porterfield for eight hits and all its runs before Camillo Pascual came on in relief in the eighth.

Washington 000 000 000—0 4 1 Boston 003 001 00x—4 8 1

All-Stars Have Terrific Advantage Friday Night, Says Pro-Team President

CHICAGO (AP)—The College All-Stars will boast a "terrific advantage" because of limited substitution in Friday night's game with the champion Detroit Lions of the National Football League at Soldier field.

That was the assertion Tuesday by Lions' President Edwin Anderson at a luncheon honoring the All-Star squad.

"For the first time, the All-Stars have the advantage," said Anderson, perhaps forgetting that the collegians have won 6 games while losing 12 and tying 2 in the mid-summer grid classic series.

"We're going into the game with 24 tired old men," declared Anderson, who implied the pros would find it extremely difficult to match the collegians in one-way football.

The speedy, brawny array of 53 collegians including Iowa's Bill Fenton and Jerry Hilgenberg, operating under head coach Jim Tatum of Maryland had the advantage of playing under limited substitution last fall. The pros still play under free substitution rules in which offensive and defensive specialists shuttle on and off the field.

The game will be televised (DuMont) and broadcast (Mutual) starting at 7:30 p.m. (CST) Friday.

Coach Buddy Parker of the Lions summed up the pros' outlook thus:

"We are at least as well conditioned as last year when the Lions won 24-10, but I don't know whether that is good enough for this type of football. "That one-rotation is foreign to us. We will be feeling our way all night and we may make some mistakes, just like the collegians must have last fall when they switched over from free substitutions."

Bill Fenton 'Plays 24 Tired Men'

Jerry Hilgenberg Familiar With 1-Platoon

Yank Rookie Trims A's, 5-2; Tigers Shut Out Indians, 4-0

DETROIT (AP)—Ned Garver allowed only five singles Tuesday night in pitching the Detroit Tigers to a riotous 4-0 victory over the Cleveland Indians before 53,778—the largest crowd in Briggs stadium since 1952.

52 Football Names Added to Rutgers Hall of Fame Roster

NEW BRUNSWICK, N. J. (AP)—In two elections, 105 outstanding players and coaches have been named to the college football Hall of Fame, but it will be harder from now on to make the grade.

Bill Cunningham of Boston, chairman of the honors court, said:

"The first two elections have seen a large number of men inducted because of the huge backlog of players and coaches who performed at hundreds of colleges over a period of nearly 60 years.

"Future elections will be limited to the few who can equal the greatness of those already elected."

Forty players and 12 coaches were named Monday to be enshrined in the proposed Hall of Fame at Rutgers university, the birthplace of intercollegiate football.

Players must be out of college 10 years before rating consideration. Coaches must have retired from active service five years.

Midwestern players named were:

Bert Boston, Minnesota, end '17; William Heston, Michigan, back '08; Jay Berwanger, Chicago, back '36; Frank Carideo, Notre Dame, back '31; Wesley E. Foster, Ohio State, end '31; Thomas D. Harmon, Michigan, back '41; Herbert Joesting, Minnesota, fullback '28; Benjamin G. Oosterbaan, Michigan, end '28; George H. Sauer, Nebraska, fullback '34; Edwin Wiseth, Minnesota, tackle '37.

Coaches (alma mater listed first): Herbert O. Fritz, Chicago (Chicago, Minnesota, Princeton, Michigan); Charles E. (Gus) Dorais, Notre Dame (Detroit, Gonzaga); L. McBiff Jones, Army (LSU, Nebraska); Dr. John W. Wilce, Wisconsin (Ohio State).

ANDREWS ELIMINATED NEWPORT, R.I. (AP)—Art Andrews of Iowa City, Tuesday lost to Don Reid of Australia, 9-7, 6-0, in the first round of the Newport Invitation Tennis tournament.

Reliever Stops White Sox Rally; Orioles Win, 3-1

CHICAGO (AP)—Relief pitcher Bob Chakales choked off a ninth inning Chicago rally Tuesday night to preserve Lou Kretlow's third victory of the season as the Baltimore Orioles defeated the White Sox, 3-1.

Kretlow, erratic right hander, had held the Sox to three hits, all singles, until the ninth but then, with a 3-0 lead, weakened as Phil Cavarretta walked and George Kell and Jim Rivera singled for one run. Chakales relieved Kretlow at this juncture and avoided additional trouble but only because Cal Abrams made a fine running catch of a line drive by pinch batter Sherm Lollar for the final out.

Bob Keegan, bidding for his 15th victory, was the losing pitcher.

Before the game a team of old time White Sox stars won over the present team, 2-0, in an exhibition of two and one-half innings. Ted Lyons and Monty Stratton pitched for the old-timers, allowing one hit each. Johnny Mostil, star outfielder of the '20's, singled to open the game and scored on a triple by Nellie Fox, filling in at second for an error.

Baltimore 000 012 000—3 8 1 Chicago 000 000 001—1 5 2

KANKAKEE, COLUMBUS WIN

OTTUMWA (AP)—Kankakee, Ill., and Columbus, Neb., staged late inning rallies Tuesday to advance to the finals of the Little League sectional baseball playoffs here. They will meet Wednesday at 5 p.m. for the championship. Mike Wright, 12-year-old slugger, hit a two-run homer in the fifth inning and a three-run homer in the first as Kankakee edged Festus-Crystal City, Mo., 7-6.

CALL HIM SWIFTY . . . . .By Alan Maver

JOHNNY TEMPLE, CINCINNATI 2ND BASEMAN, WHOSE SPIRITED PERFORMANCE AT BAT, IN THE FIELD AND ON THE BASES HAS BEEN A BIG HELP IN THE REDS' FIRST DIVISION FIGHT—THEY'VE BEEN OUT OF IT SINCE 1943

HAS MORE THAN JUSTIFIED HIS PROMOTION FROM BENCH WARMER TO REGULAR—BOASTS ONE OF THE TEAM'S TOP BATTING AVERAGES, HIS ADEPT DOUBLE PLAY WORK HAS HELPED PUT THE REDS AT THE TOP OF THE LEAGUE IN THAT DEPARTMENT, AND HE'S SWIPED ABOUT HALF OF THEIR STOLEN BASES

Syndicate Makes 'Generous Offer,' For A's Ball Club

PHILADELPHIA (AP)—A businessmen's syndicate Tuesday made a "very generous offer" to keep the American league's Athletics in Philadelphia where they've been for 54 years.

It's the second concrete offer for the financially distressed club. Chicagoan Arnold Johnson last week said he'd buy the A's for a reported \$4 1/2 million and move the franchise to Kansas City. That would be O.K. with the New York Yankees whose American association club is now in Kansas City.

Tuesday the Philadelphia group, anxious to save the A's for the Quaker City, offered the Mack family "a plan."

The exact amount of cash involved was not disclosed, but it was intimated that if the Macks—Roy, his brother, Earle, and their father, Connie Sr., who own all the stock—are looking for the biggest dollar then Philadelphia might lose out altogether.

Albert M. Greenfield, prominent financier and chief spokesman for the businessmen's group, said flatly:

"Nothing definite has been done. We have explored the situation and have given the Mack family a basis for saving the club for Philadelphia. If the Macks feel the basis is satisfactory then we will meet again."

Now it's up to the Macks—and the first step toward eventual decision probably will be made today at a meeting of the A's board of directors.

Earle Mack has indicated an intense desire to sell—to the highest bidder. His father, now 91, also wants to get out before the A's debts, now reportedly nearly \$2 million, grow larger.

Roy Mack, however, has led the drive to keep the A's in Philadelphia.

Braves Blast Cardinals, 11-0

ST. LOUIS (AP)—Pitcher Jim Wilson really didn't need all the help but the pennant hungry Milwaukee Braves shot extra base blows, including four home runs, around Busch stadium with ease Tuesday night to back up their hurler's three-hit pitching for a 11-0 victory over the St. Louis Cardinals.

Rookie Hank Aaron drove in five of the runs with a first-inning homer and a fourth-frame double, the latter with the bases full.

Other homers were by Ed Matthews, his 31st, Del Crandall and Joe Adcock. Only two of 10 Milwaukee hitters were singles.

No Cardinal reached second as righthander Wilson gained his eighth victory without defeat. Besides the hits, one Redbird walked, Ray Jablonski in the seventh. Just 29 Cardinals came to the plate, two above the minimum possible.

With Brooklyn losing Milwaukee pulled to 3 1/2 games behind the second place Dodgers, but remained 7 1/2 games back of the victorious New York Giants.

Brooklyn 000 011 100—3 8 1 Philadelphia 330 000 00x—6 8 1

Redlegs Tip Cubs, 2-1, as Valentine Tosses 4-Hitter

CINCINNATI (AP)—Chicago's Frank Baumholtz slugged the first pitch of Corky Valentine for a home run but the Cincinnati Redleg pitcher throttled the Cubs the rest of the route Tuesday night and the Reds won 2-1.

Valentine, 24-year-old rookie righthander permitted the Cubs only four other hits.

Chicago 100 000 000—1 5 0 Cincinnati 000 020 00x—2 5 1

Parnell Shuts Out Washington, 4-0, With 4-Hitter

BOSTON (AP)—Mel Parnell, making only his sixth appearance since he was injured against the Nationals April 24, pitched a brilliant four-hit shutout Tuesday night as Boston defeated Washington 4-0.

Parnell needed only Jackie Jensen's two-run double in the third inning to complete his first game of the season.

The Red Sox lefthander allowed only Clyde Vollmer to get as far as second base when the Washington rightfielder doubled.

Boston tagged the National's ace Bob Porterfield for eight hits and all its runs before Camillo Pascual came on in relief in the eighth.

Washington 000 000 000—0 4 1 Boston 003 001 00x—4 8 1

Giants Down Pirates, 2-1; Phillies Trim Dodgers, 6-3

PHILADELPHIA (AP)—Stan Lopata smashed a three-run homer and drove in a fourth run with a single Tuesday night as the Philadelphia Phillies scored six runs in the first two innings to beat the Brooklyn Dodgers 6-3.

In the first three innings the Dodgers left eight men stranded on the bases.

The Phillies hopped on lefty Johnny Podres for all their runs in the first and second—three in each.

Curt Simmons, in and out of hot water all night, started to weaken in the late innings. The Dodgers got single runs off of him in the fifth, sixth and seventh frames.

When Simmons walked Billy Cox to open the eighth, Manager Terry Moore called Robin Roberts for the bullpen. He set the Dodgers down with one hit in the last two innings.

Brooklyn 000 011 100—3 8 1 Philadelphia 330 000 00x—6 8 1

U.S. Golfers Win 3 of 4 Matches In International

CHICAGO (AP)—American twosomes won three of the four matches in Tuesday's opening round of the international matches at Tam O'Shanter which are serving as a tuneup for the \$165,000 "world" tourney starting Thursday.

Only foreign triumph in Tuesday's round of 18 holes of match-play foursomes came as two Buenos Aires shooters, Roberto de Vicenzo and Antonio Cerda trimmed Pete Cooper and Bob Toski, 5 and 4.

Two matches went to the 18th green, including a 1-up triumph by the No. 1 American duo, Jerry Barber and Gene Littler, over Australia's Peter Thomson, 1954 British Open champion, and Flory Van Donck of Brussels, Belgium.

Orioles Bring Attendance

CHICAGO (AP)—American league attendance, despite individual decreases for four of the eight clubs, has increased more than 15 per cent over last year at the same time, President Walter Hartridge disclosed Tuesday.

Hartridge's computation through Aug. 8 games listed total home attendance of 5,877,982 against 5,086,109 for the corresponding period in 1953.

Big reason for the net increase of 771,873 is the rebirth of major league baseball in Baltimore where the former St. Louis Browns with 830,475 are running 583,837 ahead of St. Louis at 1953.

Moore Has 8-5 Odds In Title Bout Tonight

NEW YORK (AP)—Champion Archie Moore is an 8 to 5 favorite to beat off Harold Johnson's challenge for his world light heavyweight title tonight at Madison Square Garden.

Making the weight limit of 175 has been a tough job for the 37-year-old champ who has boxed as a pro since 1936. In his last outing in June he weighed 189 1/2 when he knocked out Bert Whitehurst.

The 15-round match, scheduled for 8 p.m. CST will be carried on network television (CBS).

# Council Calls Special Session To Consider 1955 Budget

A special meeting of the city council for final action on the city budget for 1955 will be held tonight at 7.

The deadline for submission of the 1955 budget to the county auditor is Aug. 15.

At Monday night's public hearing on the budget there were no comments or objections raised. However, a letter from Dr. M. L. Mosher, chairman of the recreation commission, asking the restoration of \$3,500 in the budget to his agency, was read.

**Mosher Asks for \$1,500**  
Mosher asked for \$1,500 for additional playground directors and a jeep for transportation of personnel and equipment, which would cost \$2,000.

His letter noted that "Iowa City has always taken pride in the high caliber of supervision offered, but without adequate funds, the program would need to be curtailed for the well populated sections of the city."

Yetter pointed out that the matter is "almost certain to be raised each year as the daylight saving time movement moves toward us from the metropolitan areas."

He commented Tuesday that "there isn't much more we can do until the issue comes up again next year."

**Favors State Action**  
Mayor LeRoy S. Mercer said after the city council voted to return to standard time that he favors state action on the problem, rather than local action.

"Next year, if I'm here, there won't be any daylight saving time, as far as I'm concerned unless the whole state is participating," Mercer said at the July 29 meeting.

The council apparently is in agreement with Mercer's view that if daylight saving time is to be instituted it should be done on a state-wide basis.

"I more or less feel that the state should take care of it," Councilman Walter L. Daykin said Tuesday. "I think there is a movement afoot in other parts of the state for state action," he added.

**Roan Agrees**  
City Manager Peter F. Roan has also stated that he believes the time issue should be handled by the state.

A proposal that has been placed on file can be brought up at a council meeting by any council member. If it is not specifically brought up, it remains on file indefinitely.

**Senate Should Pay Lawyer: McCarthy**  
WASHINGTON (AP)—Sen. Joseph R. McCarthy (R-Wis.) said Tuesday the senate should pay for his lawyer if he has one in the forthcoming new investigation of his conduct.

McCarthy told reporters he has asked the Library of Congress to look up the laws and precedents and prepare an opinion on "whether I am entitled to have them, the senate, pay for an attorney for me."

Unless the answer is "yes," he said, he probably will not engage a lawyer to represent him in the hearings on a resolution by Sen. Ralph Flanders (R-Vt.) asking the senate to "condemn" McCarthy's conduct.

**ROUGH PRACTICE**  
ALBERT LEA, Minn. (AP)—Bill Vig, volunteered when a first aid class needed a "victim" for artificial respiration practice. The first student to practice on him—a girl—broke one of his ribs.

# Adjournment Of Congress Faces Delay

WASHINGTON (AP)—Republican leaders Tuesday gave up all hope of adjourning congress this Saturday. They set next week as a new target but on the basis of experience declined to pinpoint an exact date.

A White House announcement indicated President Eisenhower doesn't expect the senate to complete work until Aug. 19 at the earliest.

Senate Republican Leader William F. Knowland, (Calif.) said the adjournment schedule hinges mainly on how much time opponents spend attacking compromise atomic energy legislation. He said he'd heard talk of "another filibuster."

**Knowland Predicts Date**  
Knowland raised the new target for completing legislation after he and other GOP leaders held their weekly conference with Eisenhower.

The house has been ready to quit since last week. Speaker Joseph Martin (R-Mass.) said it now was in a position to close books "in three hours," once the senate gives the signal. Senate leaders first hoped to wind up last Saturday but two weeks of atomic energy debate scotched that plan.

Knowland said the senate would remain in session as long as necessary to pass an atomic energy bill, which the house did with a minimum of fuss Monday.

**Lists Bills**  
In addition to the farm bill up Tuesday Knowland listed these as other subjects which must be disposed of: Social security, anti-subversives legislation, unemployment insurance, national debt, foreign aid and extra appropriations.

After finishing legislative activity, the senate probably will need to await a report by its special committee investigating censure charges against Sen. Joseph McCarthy (R-Wis.). That is exclusively a senate problem, and won't keep the house in session.

**HOME ON THE ROAD**  
PUEBLO, Colo. (AP)—Fidel A. Arellano was fined \$10 for illegal parking — of a house. The judge ruled that Arellano had left a house parked on highway 96 at night without proper warning signals. Arellano is a house mover.

**BIRTHS**  
To Mr. and Mrs. Edward Thoma, 207 Riverview st., a boy Monday at Mercy hospital.

To Mr. and Mrs. Bruce Glasgow, 112 S. Summit st., a boy Tuesday at Mercy hospital.

To Mr. and Mrs. Robert Geertz, Solon, a boy Tuesday at Mercy hospital.

**DEATH**  
Harry Stringfellow, 69, Okaloosa, Monday at University hospitals.

**POLICE COURT**  
Lawrence G. Rapoport, 106 S. Gilbert st., fined \$12.50 and assessed \$5 costs on a charge of speeding. Judge Emil G. Trott directed a 15-day drivers license suspension.

Eulis E. Galentine, Lone Tree, and Roy E. O'Leary, Coralville, each fined \$12.50 on charges of intoxication.

# Hoover Faces Busy Schedule On 80th Birthday

**Hoover Arrives in Cedar Rapids—**

Former President Herbert Hoover maintained a rigid and tiring schedule during the celebration of his 80th birthday Tuesday. From his arrival in Cedar Rapids at 9:45 a.m. until he departed for Mason City for another school dedication today, the elderly statesman was kept busy. Daily Iowan photographers combined to follow Hoover's schedule and present a pictorial story of the ex-president's very happy birthday.
