Hawks Roar Back, Swamp Illinois

Ike Budget Allots Defense 40 Billion

WASHINGTON (AP) — President Eisenhower sent Congress Monday a slightly lower \$62,408,000,000 budget that will put two of every three dollars into defense and the largest peacetime amounts into atomic-armed air power and continental defense.

Still unbalanced for the fifth straight year, the budget blueprints costs of operating the government for the fiscal year beginning next July 1.

First Things First
Eisenhower told the legislators in a 27,000-word message the administration's objective is to be "provident," to put "first things first," to guarantee the nation's security in these days of uneasy peace, and at the same time "assure high and rising employment, a growing prosperity, and a stable dollar." The budget, he said, contains some increased funds to promote the "general well-being of the people."

Once again, therefore, the "stern requirements of our national defense" will use up two-thirds of the expenditures — 40% billion dollars. That is 186 million dollars less than this year's figure and six billions below the amount for last year.

More Air Power
The key to deterring aggression, the President said, continues to be nuclear weapons and "nuclear-air retaliatory power." Thus 22 billion dollars allowed the defense department is assigned to air power of the three armed services and related programs — more than ever before in peacetime.

More radar fingers, he said, will be probing the northern horizons for enemy planes. More guided missile battalions, he said, are rapidly being set up around vital targets. Air defense forces, he asserted, are being kept on a constant alert.

Manpower Cut
Eisenhower didn't spell out how the coming cut in military manpower from 3,200,000 to 2,900,000 will affect the number of army divisions. He pictured the army of the future as "organized into smaller, but more mobile and self-contained units with greater fire power."

The new budget, he said, will let the navy operate 400 warships and 600 other vessels — about the same as now. But the number of carrier air groups is being boosted from 16 to 17. The marine corps will remain at three divisions and three air wings.

Altogether, Eisenhower said, the number of active planes in combat and supporting units of the air force, navy and marine air corps will go up from 34,000 last June 30 to 36,000 on June 30, 1956. But whereas in last year's budget, he said the figure will rise to "more than" 40,000 during the next three years, this time he omitted the time element and mentioned an objective of "close to" 40,000 aircraft.

Not Big Enough
Some Democrats raised their eyebrows at the defense program and suggested it may not be big enough. Some did a bit of jeering because the budget still is in the red. Key Republicans commented, as did the President, that at least headway is being made toward a balanced budget.

The President estimated that in the year ahead, government spending will come down about a billion dollars, income will rise about a billion, and the deficit will add up to \$2,408,000,000. This is a little more than half the size of this year's deficit.

Eisenhower said he has no alternative but to ask for an increase in the debt limit. Congress voted last year to lift the ceiling to 281 billions, but only temporarily. Unless it acts again, the ceiling will come back down to 275 billions next July 1.

HEART DRIVE BEGINS
The 1955 Heart Fund campaign was initiated Monday when L. E. Hunn, chief of special services and information officer at Veterans Administration hospital, was appointed chairman of the drive by the Johnson county heart committee. Under Hunn's direction, the committee will stage a door-to-door campaign Feb. 30.

Sedition Fine Boost Asked By Brownell

WASHINGTON (AP) — The justice department, in the interests of internal security, asked congress Monday to double and triple the penalties for sedition and related crimes.

Atty. Gen. Herbert Brownell said the punishment prescribed in present law is "entirely inadequate."

Stiffer Penalties
He would make conspiracy to teach and advocate the violent overthrow of the government and similar subversive activities punishable by fines of up to \$20,000 or 20 years imprisonment — or both.

The Smith act now provides a maximum fine of \$10,000 or 10 years or both for advocating overthrow, and \$10,000 or five years or both for conspiracy to overthrow.

For conspiracy to sedition, that is, inciting discontent against the government, the present maximum penalty is \$5,000 or six years or both.

Good Behavior Credit
In identical letters to Vice President Richard Nixon, presiding officer of the senate, and House Speaker Sam Rayburn (D-Tex.), Brownell said the law makes it mandatory to release prisoners after they have served two-thirds of their sentences, allowing full credit for good behavior.

"The need for the increase in penalties for the offenses mentioned is readily apparent if consideration is given to the fact that approximately one-third of the sentence may never be served if a prisoner conducts himself properly in the penitentiary," the attorney general said.

"This reasoning likewise applies with respect to the offense of seditious conspiracy. It was shown in the recent trial in New York against members of the Nationalist party of Puerto Rico for seditious conspiracy that the conspiracy culminated in the house of representatives and the wounding of five congressmen."

Night Classes Out for Now

Night classes at SUI won't become a possibility until enrollment grows considerably beyond what it is now, Fred Ambrose, former SUI business manager, now studying the problem of improving present use of classroom space, said Monday.

Ambrose said the whole study is built around the question: Would holding night classes avoid additional construction of classroom buildings? Night classes wouldn't have to be held unless the building is used so extensively during the day that the classes couldn't be worked in at anytime, he said.

Expected increased enrollment has prompted this study to see how classroom space could be utilized at SUI. The study is just getting underway.

Ambrose said that during 1947-48, when the enrollment was very heavy, quite a few night classes were held.

SUI Dean Gets West Point Post

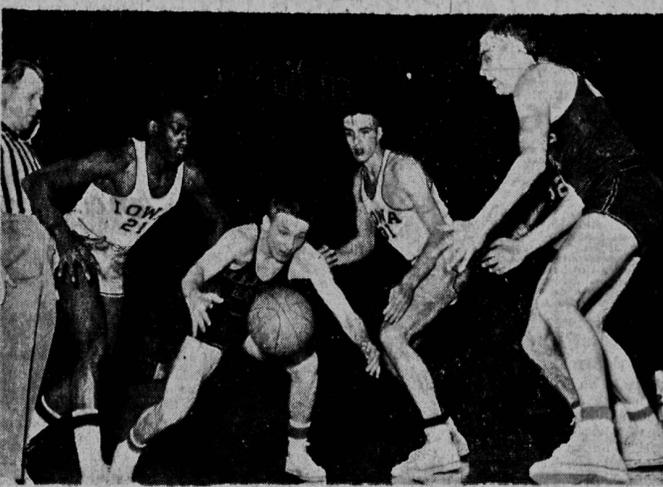

Dean Francis M. Dawson of the SUI college of engineering was notified Monday of his appointment to the board of visitors of the U.S. Military Academy at West Point, N.Y.

The appointment, made by President Eisenhower, was announced in an Associated Press report last week, though Dawson had received no official notification at that time.

The three-man board makes visits to the academy during the year and advises in the scholastic training of the cadets.

Dawson has been dean and a professor at SUI since 1936.

8 Hands Reach for Elusive Ball in Illinois-Iowa Game

LIKE A BOUNCING BUBBLE, the ball eludes the hands of, left to right, Iowa's Carl Cain (21), Illinois guard Bill Altenberger (20), Iowa's Bill Logan (31) and Illinois center George Bon Salle. Victory also eluded Illinois here Monday night as Iowa's "comeback kids" took a 92-80 victory.

Union Addition Nears Completion

The recreation area of the new addition to the Iowa Memorial Union will be opened to students sometime in February, Prof. Earl E. Harper, director of the Union, announced Monday.

This area includes 16 bowling alleys and 10 billiard tables, and is located on the ground floor of the building.

R. E. Froeschle, formerly secretary of the chamber of commerce, Bettendorf, will begin his duties as manager of the recreation area of the Union Feb. 1. This is an entirely new division and will be staffed by Froeschle, two cashiers, and a maintenance man.

Very good progress is being made on the building and the entire addition should be completed in April, Harper said. Furniture, carpets, drapes, music room equipment, and office equipment have been specially designed by Ken White associates, interior decorators of New York city, and are now being custom built.

Union board plans to sponsor a student contest to choose the name for the new soda fountain, grill and social room. A week-long program of dedication and celebration is tentatively planned for April 24 to 30.

Atom Experts Plan Geneva Conference

UNITED NATIONS, N.Y. (AP) — East-West atomic energy experts shook hands amiably Monday and quickly agreed to hold an international scientific conference in Geneva next August as part of President Eisenhower's atom-for-peace plan.

The opening session probably will be on Aug. 8.

That was as far as the group went on concrete decisions during a long morning meeting at which UN Secretary General Dag Hammarskjold presided. He opened the conference with a plea for the use of atomic energy to benefit all mankind.

Earlier Monday the Soviet Union announced in Moscow it was turning over atomic know-how and fissionable materials for peaceful uses to Communist China, East Germany, Poland, Romania and Czechoslovakia.

Bill Drafted To Change Iowa Beer Law

DES MOINES (AP) — A bill that would give the State Beer Permit board discretionary power to overrule local authorities after they have issued local licenses to sell beer was ready for introduction in the Iowa senate Monday.

It also would prohibit the sale of refrigerated beer by drug stores and grocery stores.

These provisions were part of a bill passed in the 1953 session by the senate. That measure however died in the house where it became known as the "warm beer bill."

The bill is sponsored by Sen. Jacob Grimstead (R-Lake Mills) and Henry E. Heideman (R-Rockwell City). It probably will be introduced Tuesday, Grimstead said.

Grimstead said his current bill also includes these provisions: The license fee for class B and C permits shall be at least \$100 and may be set as high as \$300 at the discretion of local authorities. The current fee for both types of permits is \$25.

Nuclear Sub Launched

GROTON, Conn. (AP) — Man moved for the first time under atomic power Monday, less than 10 years after its terrifying force burst upon Hiroshima.

Under nuclear propulsion, the 3,000-ton submarine Nautilus slid smoothly from a dock at 10:01 a.m. (CST) for her first sea trials and man's first trail-blazing use of the controlled atom for transportation.

A matter-of-fact four-word message from the bridge of the black, low-lying Nautilus flashed the news of the history-making event.

It read: "Underway on nuclear power." There was no fanfare; almost no excitement.

Only an hour after the Nautilus pulled out, President Eisenhower disclosed in his budget message to congress that three more atomic submarines are planned, bringing the size of the nuclear-powered fleet to seven.

Wagner Shocks Clothing Experts

NEW YORK (AP) — Mayor Robert F. Wagner set a group of clothing men back on their heels Monday after they named him the best dressed man in public life.

The title was conferred on Wagner by the International Association of Clothing Designers.

His wife has to help him buy a suit, Wagner confessed, and she's the one who picks out his tie every morning.

"You see, I'm a little color blind," the mayor explained.

2 Killed in Lake Michigan Crash

POLICE AND FIREMEN use rope to pull wreckage of a light plane to shore after it plunged into Lake Michigan near the Illinois-Indiana border Monday. The pilot, W. Herbert Knight, president of the Knight Advertising Co., of Columbus, Ohio, and a passenger, John Coram, also of Columbus, died in the crash. They were on their way to a convention in Chicago.

\$130 STOLEN
CHEROKEE (AP) — Thieves who broke into a building housing offices of three doctors knocked the dial off the safe and fled with \$130 over the weekend.

Fear All 13 On Plane in Gulf Drowned

CORNER BROOK, Nfld. (AP) — A U.S. navy Super Constellation plane went down in the foggy Gulf of St. Lawrence Monday and all 13 persons aboard were feared drowned. Search ships and planes reported no signs of life.

A rescue plane sighted three empty life rafts and an oil slick in the Cabot straits area 29 miles off the southwest coast of Newfoundland. A ship circling the area reported finding no survivors. An air search was hampered by dense fog, but half a dozen other ships, rescue launches and tugs sped to the scene.

The plane's pilot was identified as Lt. Cmdr. L. R. Fuller Jr., of Little Rock, Ark.

The plane, heading back to its home base at the Patuxent river naval air station in Maryland, took off from the U.S. air force base at Harmon, 70 miles from here, at 3:52 a.m. The pilot radioed at 5:45 a.m. that one of his engines had failed. Moments later he said a second had cut out and he was turning back to Harmon, about 200 miles away.

Trail By 16 Points With 16 Minutes Left

By Arlo Jacobson
Daily Iowan Sports Editor

A pair of scrappy substitutes sparked the Iowa Hawkeyes to a thrilling comeback here Monday night to defeat a good Illinois basketball team, 92-80.

Bob George and Babe Hawthorne came off the bench when their Iowa teammates were in trouble and led the way to victory before 14,863 screaming Hawkeye fans.

Iowa trailed 47-35 at halftime and fell back 16 points early in the second half before stunning the Illini with its lightning burst of scoring.

George took charge of Hawkeye rebounding chores which had been sadly neglected and contributed 12 points in his spare moments. Hawthorne hit for seven points, all of them when most needed, while providing much-needed field generalship.

The Hawks had to come back a long way to win this one. And they did.

Iowa used nine men in bagging the victory, and every one of them was needed. Center Bill Logan led the Hawkeyes with 19 points, but it was another team effort with four Hawks scoring in double figures. Logan also led Iowa in rebounds, capturing 13.

Little 5-9 Bill Ridley of Illinois was the game's scoring star. He led the visitors with 32 points and proved to the Iowa crowd in every other way that a little man can play college basketball with the best.

It was a bruising contact battle all the way, with players battling for rebounds and often being dumped to the floor in the scramble.

Illinois took an early lead at 3-0, but the Hawkeyes came rushing back to a 12-6 lead with five minutes gone. The Illini were not to be denied, and came back to tie the score, 16-16, with 12 minutes remaining in the first half.

Seaberg Hits
Guard Bill Seaberg dropped in a free throw at this point to send the Hawks off on another scoring spurge, and Iowa jumped to the fore, 28-17, before Illinois began methodically racking up points for the remainder of the half.

Iowa went scoreless for nearly five minutes after the 28-17 lead while Illinois rolled to a 35-26 lead with 5:30 remaining in the period.

The Hawkeyes had poor luck in rebounding through the first half, with the ball bouncing everywhere but toward them. Iowa Coach Frank (Bucky) O'Connor credited big Bob

GEORGE, HAWTHORNE — (Continued on Page 4)

UN Rebuked By Knowland

CHICAGO (AP) — Sen. William Knowland (R-Calif.) said Monday that Red China has set "appeasement" as the price for release of 11 U.S. airmen.

The GOP senate minority leader said the recent mission of UN Secretary-General Dag Hammarskjold to Peking "was a failure by any fair yardstick that Americans can use."

Knowland told members of the Newspaper Advertising Executives association at a convention luncheon that a "massive propaganda buildup" is being waged at the UN "to silence those who would analyze" Hammarskjold's intervention with China's Communist leader, Chou En Lai.

Ask Hike in Military Pay

WASHINGTON (AP) — The Pentagon Monday sent congress its new incentive pay measure to provide selective raises ranging up to 25 per cent, increase compensation for dangerous duty and give additional allowances to members of the regular forces.

President Eisenhower last week urged congress to approve his proposals for making career service more attractive and to halt the loss of experienced officers and enlisted men.

In spelling out the detailed program for raising some salaries and increasing allowances, the defense department Monday said it would carry a price tag of \$729,700,000 for the year starting next July 1.

The pay bill specifically rules out raises for any enlisted man with less than two years' service and all officers with less than three years on active duty.

The lower grade army private and his equivalent in the other services with over three years' service would get an increase of \$7.80-7.7 per cent. The same private, who now reaches his two-monthly rate of \$98.80 in his fifth year, would attain his maximum in the fourth year under the new program.

A senior private would reach top pay of \$124.80 in his 11th year under both old and new schedules.

Driver Training Proposal—

A realistic move toward curbing highway deaths has been presented in the Iowa house of representatives. The bill would require all public high school students to take safety education and driver training courses. It was introduced by Rep. LeRoy Chalupa and 24 others.

Under terms of the bill, the studies would start in the ninth grade and continue as determined by the state superintendent of public instruction.

The public is beginning to realize that the best way to beat the mounting death toll is in the physical capability of a driver to pilot an automobile with skill. That ability, coupled with the knowledge of laws and driver courtesy which would be instilled in the public through a driver training program would be a long-range program, the results of which could not be measured immediately.

The "public awakening" type of campaign to promote safety definitely does not delve deeply into the problem. That was demonstrated recently during S-D day. After a week's build-up to one particular day through radio, TV and newspapers, the number of traffic deaths were only slightly lower than on any other given day.

But driver training does not create just one day of awakening; it develops an automatic driving response which, after all, is needed when a person is at the wheel of a high-powered engine.

The bill has the support of a safety-conscious legislature, and the chances of its passing are good. The only way to start ending traffic deaths is to start from the beginning of the problem.

Night Classes?—

The expansion of night classes has been proposed as one way to alleviate the problem of steadily growing enrollment.

Obviously, the proposal is a "feeler" to see just what reactions will be.

We think that the state could find some other way to cope with the problem. However, if the state thinks this is the only way, then we would endorse the proposal.

We would endorse the proposal on these assumptions: a student comes to college to learn. Therefore, if he is here, he will attend night classes without complaining.

The proposal is not new. Just last month, former State Senator Alden L. Doud from Douds, concluding a year's study covering enrollment, facilities, tuition and other subjects at state and private institutions, reported that public-operated schools said that they could handle between 700 and 900 additional students with present facilities.

He said, "If night classes were added, these figures could be more than doubled."

David A. Dancer, secretary of the State Board of Education, indicated last week that heavier teaching loads are not being planned for college faculty members.

Assuming that enrollment will rise in the next decade, and assuming that teaching loads won't be increased, we determine that money will be appropriated to SUI for hiring more professors to teach night classes.

We would endorse the night classes proposal as a temporary arrangement until more classrooms could be built and more instructors hired.

Interpreting the News

By J. M. Roberts
AP Foreign News Analyst

French Premier Mendes-France, who has become known among his country's allies as a man who believes in trading when the trading is best, is meeting conferees from seven other countries today.

The subject is a pool of arms production under Western European Union, a subject they thought had been put far into the future when the groundwork for the whole business was being laid in London. They turned down Mendes-France then. Now he has new support from Italy, and the United States is naturally inclined to lean toward any measure which revives some of the supranational features which were killed when France refused the old European Defense Community idea.

Britain May Balk

But Britain was just barely able to make up her mind to join the Western European Union without these supranational features giving the European members a say in her arms program, and shows no indication of going farther now.

Germany, of course, reads the Mendes-France proposal as designed to place greater restrictions on her position in WEU than she was willing to agree to in the beginning, and adoption of the production pool idea at this meeting might seriously hamper German ratification.

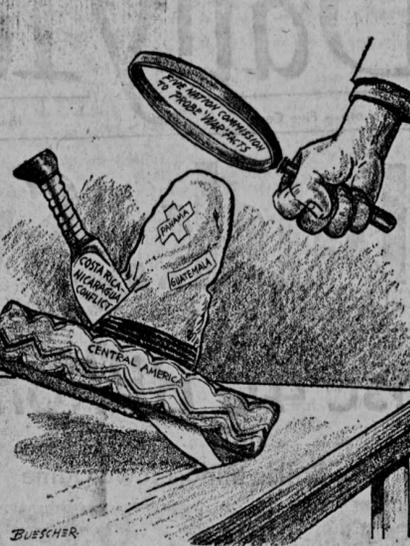

Where Did He Stand?

Observers were wondering whether Mendes-France was contributing more to European unity than to the danger that WEU might fall through after all.

He was, of course, using the French political situation to foster his idea. He had a close squeak in getting by the first assembly vote on WEU, and must yet face a final vote after senate action. The production pool should make that easier, since it would provide another guarantee against any tendency of Germany to get out of hand.

But if it brought about a German rebellion against unequal partnership in the defense of Europe, a rebellion already being fostered by important segments of German political life, the threat to ultimate formation of WEU would merely be shifted from Paris to Bonn.

The Case of the Slashed Sombrero

Letters to The Editor

Old Capitol Remembers

One Year Ago Today
Secretary of State John Foster Dulles said the United Nation's charter could stand changing, but that throwing it away to start afresh would be opening "a Pandora's box."

The Hawkeyes defeated Illinois, 79-70, to win their first victory on the Illini home floor in 25 years.

Five Years Ago Today
President Truman pledged that his senate leaders will fight "all summer" if necessary to get a vote on his civil rights program.

Ten Years Ago Today
The Russian army captured Warsaw after five years and four months of Nazi occupation.

Twenty Years Ago Today
Gov. Clyde Herring recommended that the legislature divert liquor profits into the Iowa old age pension fund.

AF of L Group Selects Officers
William Freeman, Coralville, was re-elected president of Local 12, state, county and municipal employees union, AF of L at its annual meeting in the C.S.A. hall Thursday night.

JayCees To Hear Radio Newscaster
Jack Shelley, manager of the news department of stations WHO and WHO-TV, Des Moines, and a war correspondent during World War II, will speak at 6:30 p.m. Jan. 18, at the Iowa City Junior chamber of commerce Distinguished Service Award banquet at the Mayflower Inn.

SUI Hospitals Get Gifts From 191 Iowa Cities
Christmas gifts for patients at University hospitals came from individuals and groups in 191 Iowa cities, Gerhard Hartman, superintendent of SUI hospitals said Monday.

INFLATION
MONAHANS, Tex. (AP)—Former sheriff F. L. Dyer paid \$1,600 for 80 acres recently. In 1931, he acted as auctioneer when the same tract sold for \$37.50.

FOREIGN LANGUAGE
achievement tests, spoken or reading, will be given Tuesday, Jan. 25, from 4-6 p.m. Students wishing to take the test should sign up with their respective language departments not later than Jan. 24. For particulars see bulletin boards of the foreign language departments in Schaeffer hall.

DEADLINE FOR ORDERING
the 1955 Hawkeye is Friday, Jan. 21. Orders may be placed at the information desk in the business office, University hall; publications business office in Close hall, or at the Hawkeye office or school of journalism office in Communications center. Price is \$5. Books should be paid for before picking up second semester registration materials.

CANDIDATES FOR DEGREES
in February may pick up commencement announcement orders at the Alumni house across from the Iowa Memorial Union.

THE RESERVE DESK AT THE
main library will be open for service until 9:50 p.m. Friday, Jan. 28. This is during final examinations.

PH.D. GERMAN READING
examination will be held Thursday, Jan. 20, from 3 to 5 p.m. in room 104, Schaeffer hall. Register in room 101, Schaeffer hall, by noon, January 20, to take the exam.

FRENCH PH.D. READING
examination will be given Thursday, Jan. 20, in room 221A Schaeffer hall from 3 to 5 p.m. Only those signing the sheet outside room 307 Schaeffer hall by Monday, Jan. 17, will be admitted to the examination. Next examination will be given at the close of the second semester.

PHI BETA KAPPA WILL
initiate new members today at 5 p.m. in the senate chamber, Old Capitol. Initiates will meet at 4:45 p.m. in the house chamber for instructions. A banquet will be held at 6:15 p.m. in the River room, Iowa Memorial Union.

THE GRADUATE COLLEGE
and Humanities society will present Prof. R. P. Blackmur, Princeton university, today at 8 p.m. in the senate chamber, Old Capitol, with the topic "The Language of Silence," and Wednesday, Jan. 19, at 4 p.m. in senate chamber with the topic, "James Joyce's Ulysses."

PHARMACY WIVES WILL
meet today at 8 p.m. in the club room of the Iowa-Illinois Gas and Electric company.

THE NANCY FORSBERG
will speak to Iowa Christian fellowship today at 7:30 p.m.

SUI Physicists Cooperating On Atom Smasher Project

SUI and Iowa State college physicists are working with scientists of six other institutions on designs for an atom smasher to be built in the midwest which would have at least four times the energy of any now operating in the world.

Though location and other details of the midwest cosmotron are still pending, members of the Midwest Universities Research association will soon report substantial progress toward intensifying a atom smashing beams through improved magnet designs. Their report will be delivered Jan. 27 at the American Physical society meeting in New York.

Each member university has contributed \$10,000 for business expenses, but none knows where the money to build the laboratory will come from. Some federal aid is anticipated, but how much is not known.

While the only existing atom smasher capable of generating more than one billion volts are those of the Brookhaven National laboratory in New York and the University of California radiation laboratory, the MURA scientists anticipate a 20 to 30 billion volt machine for the midwest, according to J. M. Jauch, SUI physics professor and members of the MURA board of directors.

Prof. Gerald P. Kruger of the University of Illinois heads the board of directors which includes one scientist and one administrative officer from the universities of Michigan, Minnesota, Wisconsin and Illinois, Purdue and Indiana universities, SUI and ISC.

The SUI administrative officer of the MURA board of directors is E. T. Joffile, University business manager. As now visualized, the midwest machine would involve a ring-shaped magnet field of 600 feet in diameter. Around this field, the atomic nucleus, or protons, would complete 2,000-foot circling movements as often as 400,000 times a second. Accelerated by 10,000-volt pushes, the protons would finally attain an energy of from 20 to 30 billion volts before crashing into target atoms.

Since the success of the project will depend heavily upon the willingness of scientists and their families to spend long periods of time on the location, the group's board of directors is trying to select the spot which will be most approved by the scientists involved. It is estimated that the device will require five to seven years to build.

The largest existing accelerator, the University of California's bevatron, is 160 feet across and is rated at six billion volts. The two most powerful atom-smashers in the midwest, those of the universities of Illinois and Chicago, achieve approximately 300 million volts. Super-energy machines comparable in size to the projected MURA cosmotron are now under construction at Brookhaven and at Geneva, Switzerland.

By pooling their resources in the MURA cooperative venture, the midwestern scientists hope to bring high-energy physics research in this section up to the high level of nuclear explorations now going on at the California and New York laboratories. By studying results of higher speed atomic collisions, they hope to discover other additional data about mysterious forces and particles which make up all matter.

The design group for the projected multi-billion volt cosmotron, headed by Prof. D. W. Kerst of the University of Illinois, has already produced several important findings, according to Professor Jauch.

The design improvements include five field magnets operating continuously on direct current, thus eliminating the pulsing features which have lessened the beam intensity in previous magnets, which have been operated on the alternating current common to most electric circuits.

The proposed cosmotron will be made up of 10,000 tons of the improved magnets in a circular series. Computations that eliminated much of the previous required "trial and error" approach were made by Illiac, the "electronic brain" at the University of Illinois.

In the SUI physics department, Professors Jauch and Frank Cole are investigating the orbits of accelerated nuclear particles, to determine their stability under the many thousand revolutions which the gigantic ring magnet of the projected cosmotron will make possible.

At ISC, experiments have been made on the design of the radio frequency accelerator system for the midwest machine. University of Michigan scientists have developed special devices to study the paths and characteristics of high speed particles in a magnetic field. University of Minnesota men have studied problems of getting protons into the accelerator.

YWCA Committees To Make Plans For Centennial

The Young Women's Christian association will hold an all-committee meeting today at 4 p.m. in the River room, Iowa Memorial Union. Plans for the organization of the Y centennial celebration will be discussed.

All committees of the Freshman Y have been asked to help plan the celebration, which will begin with a tea in February and climax with a birthday dinner party in March. Other plans call for an educational program, a membership drive and a cake sale.

Head Program
In charge of the centennial program are Kay Putney, C4, Waterloo, and Sandy Miller, A2, Davenport. Committees will be headed by Jane Richter, A2, Davenport, and Mary Jane Harms, N2, Vincennes, Ind., educational program; Marion Fetzner, A4, summer projects; Colleen Dolezal, A2, Ely, World Relatedness; Nancy Acheson, A2, Des Moines, Religious emphasis; Jean Alibach, A3, Spirit Lake, and Judy Jackson, A1, Westchester, Ill., publicity.

Nan Borreson, A2, Sheldon, is in charge of the birthday party. She will be assisted by Cecelia Kirby, A3, Sioux Falls, S. Dak., and Ellie Staves, A4, Fairfield.

Tea Chairman
Dorothy Dow, A3, Fort Madison, is chairman of the centennial tea. She will be assisted by Marilyn Carlson, A2, Moline, Ill., Kay Wing, A3, Des Moines, and Eleanor Fleming, A4, Whitmore.

The membership drive will be headed by Irene Livingston, A4, Iowa City, assisted by Helen Stoltz, A4, Ottumwa and Marjorie Sindelar, A2, Cedar Rapids. Jobyna Rankin, A3, Tracy, is chairman of the cake sale.

ADVERTISEMENTS

A GUIDE FOR THE DATELESS
With the cost of dating rising higher and higher (seems the only pleasure that costs the same these days is Philip Morris), it is no wonder that so many of us men are turning to discuss throwing. Naturally, we would prefer nuzzling warm coeds to flinging cold discs, but who's got that kind of money? Prices being what they are, the average man today has a simple choice: dating or eating.

Unless the average man happens to be Finster Sigafoos.

Let me tell you how Finster Sigafoos, a man no smarter, no richer, than you or I, solved his dating problem. Finster came to college with the normal ambition of any average man: he wanted to find the prettiest coed on campus and make her his. He looked long and carefully, and at last he found her—a tall job named Kretchma Inskip, with hair like beaten gold.

He asked her for a date. She accepted. He appeared at her sorority house that night, smiling, eager, and carrying a bouquet of modestly priced flowers.

"Now then," said Kretchma, tossing the sleazy flora to a pledge, "where are we going tonight?"

Finster was a man short on cash, but long on ideas. He had prepared several attractive plans for this evening. "How would you like to go out to the Ag campus and see the milking machine?" he asked.

"Ick," she replied. "Well then, how about running over to the dental school to fool with the drills?"

"Bah," she replied. "Well, what would you like to do?" he asked.

"Come," said she, "to a funny little place I know just outside of town."

And away they went.

The place was Millionaires Roost, a simple country inn made of solid ivory. It was filled with beautiful ladies in backless gowns, handsome men in dickies. Waiters scurried about bearing costly eats on flaming swords. Original Rembrandts adorned the walls. Philip Morris trays adorned the cigarette girls. Chained to each table was a gypsy violinist.

Finster and Kretchma were seated. "I," said Kretchma to the waiter, "will start with shrimps remoulade. Then I will have lobster and capon in madeira sauce with asparagus spears. For dessert I will have loads of out-of-season fruit."

"And you, Sir?" said the waiter to Finster.

"Just bring me a pack of Philip Morris," replied Finster. "for if ever a man needed the soothing, steady, beneficent aromas of mild vintage tobaccos, it is me now."

So, smoking the best of all possible cigarettes, Finster watched Kretchma ingest her meal and calculated that every time her fetching young adam's apple rose and fell, he was out another 97¢. Then he took her home.

It was while saying goodnight that Finster got his brilliant idea. "Listen!" he cried excitedly. "I just had a wonderful notion. Next time we go out, let's go Dutch treat!"

By way of reply, Kretchma slashed him across the face with her house mother and stormed into the house.

"Well, the heck with her," said Finster to himself. "She is just a gold digger and I am well rid of her. I am sure there are many girls just as beautiful as Kretchma who will understand the justice of my position. For after all, girls get as much money from home as men, so what could be more fair than sharing expenses on a date?"

With good heart and high hopes, Finster began a search for a girl who would appreciate the equity of Dutch treat, and you will be pleased to hear that he soon found one.

Today Finster goes everywhere and shares expenses fifty-fifty with Mary Alice Hematoma, a lovely three legged girl with sideburns.

This column is brought to you for your enjoyment by the makers of PHILIP MORRIS. And speaking of enjoyment, try a pack today.

official daily BULLETIN

TUESDAY, JANUARY 18, 1955

UNIVERSITY CALENDAR

UNIVERSITY CALENDAR items are scheduled in the President's office, Old Capitol.

Tuesday, January 18
3-6 p.m. — Phi Beta Kappa initiation — Old Capitol.
8 p.m. — Humanities society—Speaker: Prof. R. P. Blackmur, Princeton U., "The Language of Silence"—Senate Chamber, Old Capitol.

Wednesday, January 19
4 p.m. — Humanities Society — Speaker: Prof. R. P. Blackmur, Princeton U., "James Joyce's Ulysses" — Senate Chamber, Old Capitol.
8 p.m. — University Band Concert — Main lounge, Iowa Memorial Union.

Sunday, January 23
3-5 p.m. — Union Board tea dance — River room — Iowa Memorial Union.

Monday, January 24
7:30 p.m. — University Women's club — Newcomer's club guest dessert-party bridge, University club rooms.

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol).

PROMOTION HEAD NAMED
Clarence Peters, who received his M.A. from SUI in 1934, has been appointed promotion director of Save the Children federation, Richard P. Saunders, president, announced Monday in New York.

FIND STOLEN CAR
A stolen car belonging to Piar Montes, G. Venezuela, was found by Iowa City police Monday morning near Stadium park. Montes told police the car was stolen Sunday night from a parking spot near the Law Commons.

erating Project

ookhaven and at Geneva, Switzerland.

By pooling their resources in the MURA cooperative venture, the midwestern scientists hope to bring high-energy physics research in this section up to the high level of nuclear explorations now going on at the California and New York laboratories. By studying results of high-speed atomic collisions, they hope to obtain additional data about the mysterious force and particles which make up all matter.

The design group for the projected multi-billion volt cosmotron, headed by Prof. D. W. Kerst of the University of Illinois, has already produced several important findings, according to Professor Jauch.

The design improvements include five field magnets operating continuously on direct current, thus eliminating the pulsing features which have lessened beam intensity in previous magnets, which have been operated on the alternating current common to most electric circuits.

The proposed cosmotron will be made up of 10,000 tons of the improved magnets in a circular arrangement.

Computations that eliminated much of the previous required trial and error approach were made by Iliac, the "electronic brain" at the University of Illinois.

In the SUI physics department, Professors Jauch and Frank Cole are investigating the orbits of accelerated nuclear particles, to determine their stability under the many thousand revolutions which the gigantic magnet of the projected cosmotron will make possible.

At ISC, experiments have been made on the design of the radio frequency accelerator system for the midwest machine. University of Michigan scientists have developed special devices to study the paths and characteristics of high speed particles in a magnetic field. University of Minnesota men have studied problems of getting protons into the accelerator.

YWCA Committees To Make Plans For Centennial

The Young Women's Christian association will hold an all-committee meeting today at 4 p.m. in the River room, Iowa Memorial Union. Plans for the organization of the Y centennial celebration will be discussed.

All committees of the Freshman Y have been asked to help plan the celebration, which will begin with a tea in February and climax with a birthday dinner party in March. Other plans call for an educational program, a membership drive and a cake sale.

Head Program

In charge of the centennial program are Kay Putney, C4, Waterloo, and Sandy Miller, A2, Davenport. Committees will be headed by Jane Richter, A2, Davenport, and Mary Jane Harms, N2, Vincennes, Ind., educational program; Marion Folez, A4, summer projects; Colleen Deterzal, A2, Elv, World Relatedness; Nancy Acheson, A2, Des Moines, Religious emphasis; Jean Albach, A3, Spirit Lake, and Judy Jackson, A1, Westchester, Ill., publicity.

Nan Borreson, A2, Sheldon, is in charge of the birthday party. She will be assisted by Cecelia Kirby, A3, Sioux Falls, S. Dak., and Ellie Staves, A4, Fairfield.

Tea Chairman

Dorothy Dow, A3, Fort Madison, is chairman of the centennial tea. She will be assisted by Marilyn Carlson, A2, Moline, Ill., Kay Wing, A3, Des Moines, and Eleanor Fleming, A4, Whit-timore.

The membership drive will be headed by Irene Livingston, A4, Iowa City, assisted by Helen Stoltz, A4, Ottumwa and Mar-jorie Sindelar, A2, Cedar Rapids. Jobyna Rankin, A3, Tracy, is chairman of the cake sale.

People 60 to 85 CAN APPLY FOR HOSPITAL INSURANCE

Inspect Policy Free

Kansas City, Mo.—Even men and women 60 to 85 can apply for hospitalization insurance—offered by Old American of Kansas City, a reliable well established firm.

Why borrow money, use up savings, or rely on others if you are hospitalized? Old American's policy can help you, for it covers most accidents and sicknesses.

You need send no money now. The policy will be sent for free inspection. No obligation. No one will call. Simply mail postcard or letter (giving age) to Old American Ins. Co., 5 W. 9th, Dept. H 14B1, Kansas City 5, Mo.

Miss Hauer Engaged

Miss Mary Hauer

Mr. and Mrs. Walter Carl Hauer, Sheldon, announce the engagement and approaching marriage of their daughter, Mary Margaret, to James Gregory Milani, son of Mr. and Mrs. George Arthur Milani, Centerville.

The wedding will take place at 2:30 p.m., Sunday, Jan. 30, at the First Methodist church, Iowa City.

Miss Hauer is a senior at SUI. She is affiliated with Delta Gamma social sorority.

Mr. Milani is a senior at SUI and is a member of Phi Kappa Psi social fraternity.

The couple will reside in Iowa City where Mr. Milani will attend law school.

SUI Items

BRIDAL SHOWER

Toy Chaffin, A2, Davenport, was recently honored with a personal shower by members of Pi Beta Phi social sorority. Miss Chaffin is the fiancée of Ted Jensen, A3, Exira. The couple plans to be married at 3:30 p.m. Sunday, Jan. 30, in the First Congregational church, Iowa City.

SORORITY RUSHING

Sorority rushing will begin Feb. 27 and last through March 5, according to Miss Helen Reich, assistant director of the office of student affairs. All girls interested in going out for rush should sign up as soon as possible in the office of student affairs.

APPLICATIONS AVAILABLE

Application blanks for the decoration subcommittee of the Central Party subcommittee are now available at the main desk of the Iowa Memorial Union, according to Dave Adams, A3, Princeton, chairman of the subcommittee. Any students who did not receive application

New Spring Suits Have Slim Look, Long Jackets

By Dorothy Roe
AP Women's Editor

NEW YORK (AP)—If you like to look like the latest fashion, this is one spring when last year's suit won't do.

Spring suits of 1955 look strictly new and different. The fitted, curved, short-jacket suits of the last few seasons are replaced by new trim, tubular silhouettes with long jackets, either fitted or boxy, slim skirts, a narrower look through the shoulders and less accentuation of waistline and bustline.

Jacket Suits

A top example of the new suit lineup is the collection of Anthony Blotta. This veteran Italian tailor likes box jacket suits in handsome nubby silks, worn with beautifully detailed over-blouses which usually match the jacket lining. The jackets have a narrow, elongated line, hug the hips and are straight as a column.

Blotta also shows long fitted suit jackets, and some costumes with full-length coat, skirt and over-blouse. For his fitted jackets he likes featherweight navy worsteds, sometimes with satin or velvet binding and handsome tucked chiffon over-blouses.

Coat Dresses

Included in the collection are a series of meticulously tailored coat dresses in sheer wools, and a group of costumes consisting of suit jacket over a slim one-piece wool dress.

Ben Reig stresses black silk dresses of every variety, giving many of them a slim, sleek look and a flattering neckline achieved either through cut or by crisp lingerie touches.

Jo Copeland, the designer credited for inventing the cocktail suit, gives this costume new elegance this season with sumptuous fabrics and new silhouette, elongating and narrowing the line.

New Officer

John R. Stephenson
SAE President

John R. Stephenson, C4, Oskaloosa, recently was elected president of Sigma Alpha Epsilon social fraternity.

Other new officers are James I. Broshar, C3, Waterloo, vice president; James Grier, A2, Ottumwa, secretary; Richard A. Jensen, A3, Oskaloosa, recorder; James Nordyke, C3, Waterloo, treasurer.

William Krause, A2, Eldora, chronicler; George Van Houten, A2, Davenport, warden; Richard Winter, A2, Sioux City, chaplain and Jerry Kitchen, A2, Oskaloosa, herald.

For Nuzzling Coughs Due to Colds, TRY BRONCHOLA

THE 3-WAY COUGH SYRUP

(1) Stops tickling in upper bronchial region. (2) Penetrates raw, sore bronchial area with soothing and coating action. (3) Has a non-irritating expectorant action to loosen and liquefy phlegm and mucus accumulations. Pleasant to take—safe, particularly helpful in children's cough. Inexpensive BRONCHOLA.

Miss Helen Huber Wed

Mrs. Ernest Eveland

Miss Helen Elizabeth Huber, daughter of Mrs. Ruth A. Huber, 1112 Muscatine ave., became the bride of Mr. Ernest E. Eveland, son of Mr. and Mrs. Claude Eveland, Oskaloosa, Sunday, Jan. 2, at the First Methodist church, Oskaloosa. Mr. Eveland is a graduate student in the school of social work. The couple is living at 928 Riverside drive.

Pi Phis Plan Annual Scholarship Dinner

The Pi Beta Phi alumnae club will hold its annual scholarship and corporation board dinner Wednesday at 5:30 p.m. at the chapter house, 815 E. Washington st.

Recognition awards will be awarded to actives who have a 3.2 or above grade point. The active who has shown the greatest improvement in her grades

during the past year and the active with the highest grade point also will be honored.

Mrs. Curtis Brown, alumnae scholarship chairman, will make the presentations.

The annual financial report of the building corporation board will be given by Mrs. Marc Stewart, treasurer. The alumnae will elect new members to the board.

Mrs. Harriet Evans, Pi Beta Phi housemother, is chairman of the dinner, with Mrs. Wayne Housel as her assistant.

Miss Focht To Speak At Theta Alum Meeting

Miss Helen Focht, counsellor to women, will speak at a meeting of the Kappa Alpha Theta Alumnae group tonight at 8 at the home of Mrs. Dale Welt, 602 Fifth ave.

Miss Focht, assisted by Sally Rehnberg, A4, Clinton, will discuss the activities of the University Women's association.

On the committee for the meeting are Mrs. Carl Johnson, Mrs. Robert Penrose and Mrs. Richard Bittner. Any new alumnae in the city or those who have not been contacted are asked to call Mrs. Paul Griffith, 2736.

League To Hear School Superintendent

Frank J. Snider, Johnson county superintendent of schools, will address a special city-wide discussion group meeting of the League of Women Voters at 8 tonight.

His topic will be "Reorganization of School Districts, Its History and Its Aims." The meeting will be held in the Elks dining room. A question period will follow his address.

The meeting will be conducted by the education workshop of the league. Mrs. George Horner is chairman of the workshop.

Refreshments will be served. The public is invited to attend.

POTATO SALAD

Ever try adding lettuce to a hot potato salad? Use the heart of an Iceberg lettuce and shred it; save the outer leaves for some other kind of salad.

AEPi Awarded Progress Plaque

Alpha Epsilon Pi social fraternity was awarded a chapter progress plaque from its national office at a dinner Thursday night at the chapter house.

Formal presentation of the award was made by Prof. Leonard Goodstein, of the psychology department, chapter adviser and a member of the fraternity. The award was announced at the fraternity's national convention in Chicago last September.

At the convention, three other awards won by the chapter were announced. A scholarship plaque was given. Charles Spielberger, who was graduated from SUI in 1954, was awarded the individual fraternity activity trophy. Ira Kapenstein, A3, New York city, won the national fraternity's outstanding scribe's key.

What young people are doing at General Electric

Young manufacturing expert pioneers in automation at General Electric

In 1964, our greatest shortage may be working people. This country's demand for electrical goods will be 100% greater than it is today. But there will be only 11% more workmen. How can production per man be boosted enough to close the gap?

For one answer, 31-year-old P.H. Alspach, Manager of Manufacturing Development at G.E., is exploring automation.

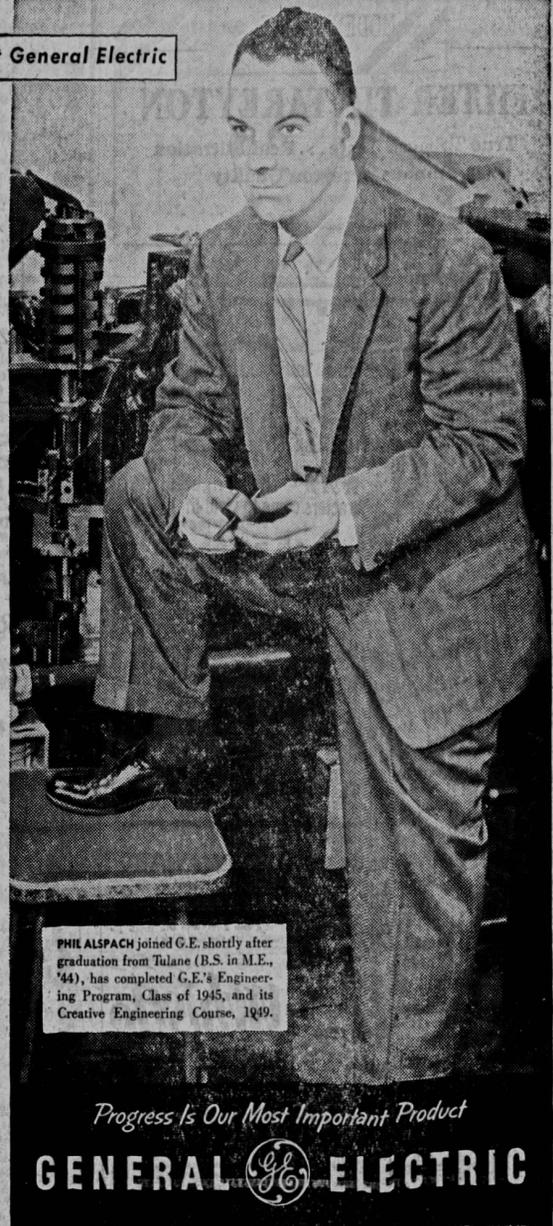

Automation: Continuous Automatic Production

Automation is a way of manufacturing based on the continuous-flow concept. Products will be made, inspected, assembled, tested, and packaged by a series of integrated machines in one uninterrupted flow. As industry evolves toward greater automation, more workmen will become skilled machine specialists or maintenance experts able to control complete systems.

Phil Alspach and the men under him now draft layouts for automatic systems, tackle the engineering problems involved, design automation equipment, and even build some.

23,000 College Graduates at G.E.

This is a big and important job. Alspach was readied for it in a careful, step-by-step program of development. Like Alspach, each of G.E.'s 23,000 college-graduate employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When fresh young minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.

PHIL ALSPACH joined G.E. shortly after graduation from Tulane (B.S. in M.E., '44), has completed G.E.'s Engineering Program, Class of 1945, and its Creative Engineering Course, 1949.

Progress Is Our Most Important Product

George, Hawthorne, Logan Spark Hawk Rally

(Continued from Page 1)

George for much of the Hawks' rebounding superiority in the final period.

George received a cool reception from some Hawk fans when he replaced Deacon Davis, but the big center soon proved his value and the boos turned to cheers.

The Hawkeyes got a slow start after the intermission, slipping to their biggest deficit of the game at 45-51, with 15:50 remaining, before surging to within eight points when Illinois center George Bon Salle fouled out.

Hawks Take Lead

The crowd sensed an Iowa out-burst and cheered wildly as the Hawkeyes continued to blister the net to take a 70-69 lead with 7:57 left in the game.

George proved a morale booster for the team, as did Babe Hawthorne, the diminutive Iowa guard. With George and Logan back to back under the baskets and Hawthorne matching wits with Ridley, the Illini were completely demoralized as Iowa steadily lengthened its lead.

The Illinois team, which came here touted as a balanced scoring machine, proved exactly the opposite as Ridley scored 32 points. The nearest man to him

was George Bon Salle with 13. Bon Salle fouled out early in the second half. Harvard Schmidt, who followed Bon Salle at center, also fouled out as did Iowa's Bill Seaberg.

The bluest man in the field house after the game was Illinois Coach Harry Combes, who had every right to have expected better treatment after the large leads built up by his team. The usual chatter was missing from the Illinois team as the boys shuffled to the showers.

O'Connor Comments

"It was the kids' victory," said O'Connor after the game, "I didn't even blow up the ball."

O'Connor blamed the weekend layoff for the team's poor showing in the first half. "A Saturday game," he declared, "makes us all the sharper on Monday."

He called the Illinois team a well-balanced outfit, but added that the Hawkeyes' weakness on the boards in the first half had a lot to do with the scoring.

Secret Weapon Revealed

What may be an Iowa secret weapon was also revealed in the dressing room following the game. "Doc" Pilcher, a barber from Hamilton, Ill., revealed that he was responsible for the "new look" haircuts sported by

Hawkeye Carl Cain breaks around him low and fast and Illini Bill Altenberger (20) also seems dismayed at this bit of action early in Monday night's game. The entire Illinois team was surprised and dismayed by the close of the cage action which found the Hawkeyes roaring back from a 16 point deficit in the last half to win, 92-80. Iowa is now tied with Minnesota for first place in the Big Ten cage race.

Indiana Rally Stops Michigan State, 88-79

BLOOMINGTON, Ind. (AP) — Indiana's Hoosiers hustled back from a 19-point deficit Monday night to beat Michigan State, 88-79, and maintain a record of never losing a Big Ten basketball game to the Spartans. Don Schlundt, Indiana's All-America center, scored 36 points after Michigan State's Al Ferrari and Julius McCoy dominated the early play. The big boy made 16 of 17 free throws.

Iowa Fencers Split Matches

Iowa's fencing team won its first meet of the year last Saturday when it split decisions in dual meets with Michigan State and Notre Dame. The Hawkeyes trimmed Notre Dame, 14 to 13, but fell before Michigan State by the same score. All three schools lost one match as Notre Dame defeated the Spartans, 18 to 9.

Iowa Wrestlers Win 3d Match

With Terry McCann, 123 pounds, and Jerry Salmon, 147 pounds, winning by falls to lead the way, Iowa's wrestlers trounced Colorado A&M, 26-6, here Saturday. Coach Dave McCuskey's Hawkeye matmen won six of the eight matches in winning their third straight dual meet.

Hawk Gymnasts Top Minnesota, 50-40

Versatile gymnasts Sam Bailie and Walt Patterson scored 41 of their team's 50 points to lead the way to a 50-40 dual meet victory over Minnesota here Saturday. "The victory was the first Iowa gymnastics triumph over the Gophers in seven years. Patterson's first place in the tumbling event, last one on the program, sewed up the meet but his teammate Bailie piled up 28 points, placing in six events: first in flying rings, parallel bars and side horse, second in tumbling and high bar, and fourth in trampoline. Patterson also won the trampoline event. Bailie and Patterson have gained national prominence for their outstanding performance in the early season meets. Ex-Hawk gymnastics star, Bob Hazlett, who served as a judge, commented Saturday that Bailie's flying rings routine was the best he had ever seen.

Kentucky Keeps Poll Lead; Hawks 19th

Kentucky maintained a long lead in the sixth weekly Associated Press poll of the nation's top college basketball teams Monday, which saw a few joustings of position and the invasion of a newcomer — Maryland.

Coach Adolph Rupp's Wildcats, who defeated Tulane Saturday to make the Kentucky record 9-1, romped far ahead of the field in the balloting. With 115 votes cast by the nation's sports writers and sportscasters, Kentucky received 55 for first place. On the basis of 10 points for first, nine for second, etc., Kentucky rolled up 926 points. The poll is based on records of teams through games of Saturday, Jan. 15.

North Carolina State held on to second place despite its defeat last week at the hands of coach H. A. Millikan's surprising Maryland club. Maryland jumped from 11th to 6th place.

1. Kentucky 9-1 (55)..... 926
2. North Carolina State 15-2 (6) 899
3. San Francisco 15-1 (14)..... 859
4. La Salle 15-3 (4)..... 805
5. Duquesne 10-3 (8)..... 391
6. Maryland 15-2 (15)..... 328

Northwestern Stops Purdue in Overtime

EVANSTON, Ill. (AP) — Northwestern rallied from behind a 10-point second half deficit Monday night to dump Purdue, 93-88, in an overtime game.

Sophomore guard Dick Mast dropped in a pair of free throws for Northwestern with 4 seconds left in regulation play to tie the game, 77-77, and force the overtime.

The victory avenged an earlier one-point defeat suffered at Purdue and put Northwestern in third place in the Big Ten behind Iowa and Minnesota who are tied for first with 3-1 records. Northwestern now has a 2-1 mark.

Veteran forward Hal Grant paced the victory with 26 points but it was senior guard Jim Bragiel who scored clutch baskets to keep Northwestern in the game.

Bragiel, scholastically ineligible earlier this season, tied the game at 65-65 after Northwestern had fought back from a 10-point deficit and then gave

Northwestern the lead on three occasions with set shots before Mast put on the game tying exhibition.

BADGERS EDGE BUTLER

INDIANAPOLIS (AP) — Wisconsin's Badgers rallied Monday night to defeat a Butler university team that scored one more field goal, 57-53, in a non-conference basketball game.

'Name's the Same'

The fame of Jessie James has again spread from coast to coast. But this Jessie James is SUI's own Maribeth "Jessie" James, N4, Belle Plaine. Monday night she appeared on "The Name's the Same," a TV panel program broadcast from New York.

Stories about Jessie's being named Miss SUI reached as far as California. A woman in California saw her name in the paper and sent it in to the TV program. Shortly afterward Jessie received a phone call inviting her to New York to appear on the show—expenses paid.

Files to New York Jessie, accompanied by her mother, flew to New York the first week-end in January. "I thought the program was broadcast live, but I was wrong," she said. "I'd been expecting the film to be shown every Monday night since then."

"The Name's the Same" is a panel quiz program. Guests having the same name as some well-known person are invited to appear on the show and let the panel try to guess who they are. If the panel guesses their identity they receive \$60 and if they don't the guest receives \$80.

"No Trouble" "They didn't have much trouble guessing who I was," Jessie said. "They were on the wrong track at first, but then one of the panel asked, 'Are you an unsavory character? Are you a bank robber?' He guessed my name with the next question."

Jessie and her mother spent about a day in New York. "We went shopping and site seeing in the little time we had," Jessie said. "I liked New York and wish we could have spent more time there. I didn't think the buildings were very tall, though."

Roommate Decides When asked how she got her nickname, Jessie laughed and said, "Hardly anyone ever knows my name is Maribeth anymore. When I was a freshman my roommate decided to call me Jessie. The name just stuck. Everyone started using it."

WSUI To Carry 13 Plays in Series

"My Folks Did It This Way," first radio play of a 13-program series, "How's the Family?" produced by SUI, will be carried over university station WSUI Wednesday at 10:30 a.m. and 7:30 p.m.

WSUI will carry each of the 13 programs in the series on a twice-weekly basis, at 10:30 a.m. and 7:30 p.m. each Wednesday. The series consists of eleven illustrative plays, one documentary program and a roundtable discussion.

The National Association of Educational Broadcasters will begin distribution of "How's the Family?" to its 76 member stations early in February, according to Carl Menzer, WSUI station manager.

Art Professor To Exhibit Paintings

AN UNFINISHED PAINTING by Prof. Stuart Edie of the SUI art department gets his critical attention as he prepares for a one-man show which will open Thursday at 8 p.m. in the main gallery of the Art building. The exhibition, a group of oil paintings, represents Edie's work for the past three years. His paintings have been exhibited in the Metropolitan Museum of Art and the Museum of Modern Art, New York city, the Carnegie Institute, Philadelphia, and the Des Moines Fine Art center. A reception will be held Thursday at 8 p.m. in the main gallery to honor the artist. The exhibition will continue through Feb. 20.

'Name's the Same' Features Miss SUI

The fame of Jessie James has again spread from coast to coast. But this Jessie James is SUI's own Maribeth "Jessie" James, N4, Belle Plaine, Monday night she appeared on "The Name's the Same," a TV panel program broadcast from New York.

Stories about Jessie's being named Miss SUI reached as far as California. A woman in California saw her name in the paper and sent it in to the TV program. Shortly afterward Jessie received a phone call inviting her to New York to appear on the show—expenses paid.

Flies to New York
Jessie, accompanied by her mother, flew to New York the first week-end in January. "I thought the program was broadcast live, but I was wrong," she said. "I'd been expecting the film to be shown every Monday night since then."

"The Name's the Same" is a panel quiz program. Guests having the same name as some well-known person are invited to appear on the show and let the panel try to guess who they are. If the panel guesses their identity they receive \$60 and if they don't the guest receives \$80.

No Trouble
"They didn't have much trouble guessing who I was," Jessie said. "They were on the wrong track at first, but then one of the panel asked, 'Are you an unsavory character? Are you a bank robber?' He guessed my name with the next question."

Jessie and her mother spent about a day in New York. "We went shopping and site seeing in the little time we had," Jessie said. "I liked New York and wish we could have spent more time there. I didn't think the buildings were very tall, though."

Roommate Decides
When asked how she got her nickname, Jessie laughed and said, "Hardly anyone even knows my name is Maribeth anymore. When I was a freshman my roommate decided to call me Jessie. The name just stuck. Everyone started using it."

WSUI To Carry 13 Plays in Series
"My Folks Did It This Way," first radio play of a 13-program series, "How's the Family?" produced by SUI, will be carried over university station WSUI Wednesday at 10:30 a.m. and 7:30 p.m.

WSUI will carry each of the 13 programs in the series on a twice-weekly basis, at 10:30 a.m. and 7:30 p.m. each Wednesday. The series consists of eleven illustrative plays, one documentary program and a roundtable discussion.

The National Association of Educational Broadcasters will begin distribution of "How's the Family?" to its 76 member stations early in February, according to Carl Menzer, WSUI station manager.

Child's Fear Of Dentists Discussed

"Little Johnny's" visit to the dental chair needn't be an ordeal for either the doctor or the child, a dental educator at SUI explained Monday during the first day of a post-graduate course in children's dentistry.

"There are relatively few normal children, no matter how fearful they might be, who cannot be successfully treated in the dental chair," Dr. Kenneth E. Wessels, head of children's dentistry at SUI, Monday told a group of dental general practitioners participating in the five-day course.

No Inborn Fear
Along with a psychologist and a psychiatrist from the University staff, Wessels emphasized that no child has an inborn fear of the dentist, but that this fear is usually acquired from such second-hand sources as cartoons or the exaggerations of adults.

Distinguishing between the frightened child and the problem child is of major importance in the proper handling of the child-patient, Wessels pointed out. By making this distinction the dentist is able to perform efficient dental treatment which results in greater satisfaction to himself and to the patient.

Parent Influences
It was pointed out that the parent can do much to influence the child's acceptance of dental care by a calm, matter-of-fact approach.

The principles of the psychological makeup of the normal child were explained to the dentists by Professor Ralph H. Ojemann of the Iowa Child Welfare Research station, while Dr. Frank E. Coburn, associate professor in the Iowa Psychopathic hospital, discussed the psychological principles of the problem child.

Clinton Closes Up For Judd Funeral

CLINTON (AP) — Official business in Clinton was virtually shut down Monday out of respect for the late State Rep. William N. Judd who died in Des Moines Thursday following a heart attack.

Funeral services Monday afternoon here were attended by a committee representing the state House of Representatives and the Iowa Senate.

Many city and county officials also were in attendance at the services at First Presbyterian church.

Dr. Bruce McCullough, pastor of the First Presbyterian church, delivered the funeral sermon. Masonic Services were held also in the church. Burial was in Springdale Cemetery.

Mechanic Wins Suit

The city of Iowa City was found negligent in street care by a district court jury Saturday and ordered to pay \$4,954.65 to Carroll B. Smith, an Iowa City mechanic who was injured on an icy street in January 1953.

The city, however, will not lose a cent because the same jury found the Iowa Water Service Co.—in a cross suit—negligent towards the city in not giving quick repair service to the leaking pipe which formed the ice. The company was ordered to pay the city the same amount.

In debating the case for eight hours Saturday, the jury found that any neglect on the part of Mrs. Emma Hoppe, on whose property the leaking pipe was located, was not the deciding cause of Smith's injury.

Smith's original claim for \$20,000 included removal of a damaged kidney and his subsequent inability to do heavy lifting necessary for an automobile mechanic.

UNESCO Group To Meet in Union

Iowa Citizens wishing to attend the Friday dinner and Saturday luncheon sessions of the UNESCO sponsored Citizens Consultations are requested to call SUI x2691 for advance reservations, William D. Coder, SUI conferences coordinator, said Monday.

George D. Stoddard, former dean of the SUI graduate college and later president of the University of Illinois, will address the dinner meeting beginning at 6 p.m. in the river room of the Iowa Memorial Union. At one time chairman of the U. S. National Commission for UNESCO, Stoddard will keynote the invitational conference on "What UNESCO Means to America."

Lauren' Soth, editorial page editor for the Des Moines Register-Tribune, will be the Saturday luncheon speaker, in the river room. His subject will be "American Foreign Economic Policy and Point Four."

The weekend of Citizens Consultations is sponsored by the U. S. National Commission for UNESCO to enable some 75 representative Iowans to exchange ideas and to tell their government what they think about two major aspects of international relations, "The National Interest and Foreign Languages," and "The American Citizen's Stake in the Progress of the Less Developed Areas of the World."

SUI has been named as one of 22 centers this year for the Citizens Consultants. Chairman of the SUI conference is Vernon Van Dyke, associate professor of political science.

SUI Man Collaborates On 2 Films

Prof. George L. Mosse of the history department said Monday that two documentary films for which he was educational collaborator will be released early this spring.

The films, entitled "The Reclamation" and "The Age of Discovery" were taken in Europe last summer. They will be distributed by Coronet Instructional Films, Chicago, Ill.

Mosse said that he acted as a consultant in selecting scenes included in the movies, but that he was not involved in taking the pictures.

Mosse was furnished an outline of the proposed project and completed the script by listing suggested picture sites. He will review the finished film prior to release.

The films are sent to high schools on a rental basis for instructional purposes.

Mosse said that his main duty was to suggest authentic historical sites such as Rothenburg, Germany, which is the only medieval town still in preservation.

During a European tour last summer, Mosse visited many of the areas shown in these two films. Both movies are in color and of 15 minute duration.

Critic To Speak Here Wednesday
"The Language of Silence" will be the subject of a speech by R. P. Blackmur, American literary critic and poet now teaching at Princeton university, in Old Capitol Tuesday at 8 p.m.

Blackmur will also speak Wednesday at 4 p.m.

Described as a "master anatomist of modern literature," Blackmur stresses the subtle and cumulative effects which the artist in word patterns succeeds in adding to the dictionary definitions of individual words.

In addition to previous writings interpreting the work of such 20th century poets as E. E. Cummings and Hart Crane, Blackmur recently published a collection of 21 essays under the title "Language as Gesture." In this context he defined "gesture" as the "outward and dramatic play of inward and imaginative meaning."

His earlier books include "The Double Agent: Essays in Craft and Elucidation," "The Expense of Greatness," and "The Good European."

Credit Union Elects New Officers at SUI
John McKinley has been elected president of the SUI Employees Credit union at the group's annual meeting.

Other new officers are R. S. Macy, vice-president and Miss Anne Crowley, secretary-treasurer.

Committeemen elected are Mrs. Catherine Logan, Don Sullivan, Russell Bendure, Clemens Jenn, Emmet Potter and Jacob Rallsle.

Business Digest Publishes Bloom Article

Whether an increase in the national debt is "good" or "bad" actually depends upon its effects on economic stability, according to SUI economist Clark Bloom.

Writing in the new issue of the Iowa Business Digest, published monthly by the SUI bureau of business and economic research, on "The Proper level of Government Expenditures," Bloom suggests that such concepts as a "balanced budget" are neither desirable or undesirable in themselves, apart from their influences upon the nation's economic health.

He deserves that "increases in government expenditures can be used to combat recession. On the other hand, decreases may fight inflation."

Bloom suggests that "the proper level" of government expenditures depends most upon the needs and desires of citizens. "If they want fewer services from the government, then expenditures should decline. But if they want more schools, highways, defense and other public services, the expenditures should rise, he points out.

In making their democratic contributions to public policy, individual citizens should "calculate the advantages of increased expenditures against the value to individuals and businesses of things given up in the form of private purchases," he says.

Urging that the total consequences of all changes in government activities be considered, Bloom points out that "increases in government expenditures are always stimulative — of price rises when there is full employment, of output and employment when resources are idle."

He notes that increasing federal expenditures to date, though accompanied by rising taxes, have not resulted in reduced investment or a declining output. Whether or not the result tends toward "socialism," depends, Bloom says, upon one's definition of the term, observing that few Americans would "wish to attribute the high prosperity of the last decade to 'socialism.'"

"It is certainly possible for government to increase its proportionate 'take' of total production without reducing the quantity of goods and services going to persons and businesses directly. It is only necessary that the government buy the product of resources otherwise unemployed."

"In buying more schools, highways, defense, etc., government can actually increase the flow of goods to the private area. As the government hires otherwise idle resources, the income of these resources rises. As their income rises, they buy more," he continues.

In other words, Bloom observes, the "benefits" and "costs" of government expenditures include not only those narrowly related to the activity itself but those broader consequences with respect to levels of prices and employment and the fundamental nature and structure of the economy.

In fact, the "modest changes suggested by necessary shifts in government expenditures seem minor indeed when compared to those probably stemming from important unemployment or rapid inflation," the SUI economist concludes.

1st Letter Processed in New Coralville Station

CANCELING THE FIRST LETTER to go through the new Coralville rural postal station which opened Sunday is A. R. Bowers, center, Coralville postal clerk. Watching are Ellis Crawford, Iowa City assistant postmaster (left), and H. J. Rummels, Iowa City postal clerk. This is the first post office the community has had for more than 50 years.

Ex-Russian Prisoner Leaves for U.S.

BERLIN (AP)—John H. Noble, Detroit, released last week by the Russians after nine and one-half years of Soviet captivity, left for the United States Friday clutching a book on Russia. He was wearing a new gray gabardine suit from the U.S. army post exchange here as he boarded a plane for New York. "It's wonderful to be going home," he said. The book on Russia was purchased for Noble by a U.S. official at an airport bookstore when Noble indicated an interest in its title: "The Dynamics of Soviet Society." The official said it contained a chapter on Soviet slave labor camps. Noble spent four and one-half of his 31 years in the work camp at Vorkuta. Issued a U.S. passport Friday, he noted that it contains a restriction—as do all regular U.S. passports—that the bearer is not permitted to travel in the Soviet Union or Communist satellite countries without special permission. "I have no intention of going to those countries anyway," he said with a grin. Noble and his German-born father, Charles J. Noble, are American citizens who came to Dresden in 1938. The father operated a camera factory there in World War II. Both he and his son were arrested when the Russians captured the city in 1945.

Ike To Ask For Standby War Power

WASHINGTON (AP)—President Eisenhower Monday reported Monday to be planning to ask congress to give him standby authority to impose price, wage, rent and other wartime controls immediately in the event of an enemy attack.

Reversing his past policy on "club-in-the-closet" powers, the President also is expected to seek standby powers to curb consumer credit and to requisition private property.

The requests will go to congress in several weeks, informed officials said, as part of the administration's program for a two-year extension of the defense production act which expires June 30.

The cabinet approved the plan in principle last Friday, it was reported. A majority of the cabinet officers are said to be in favor of making the standby authority permanent—at least for the duration of the cold war.

Another project scheduled will be the relocation of seven miles of highway 218 near the Curtis bridge by engineers and the state highway commission. Thus far the majority of the work has been done on the dam proper. A portion of the dam's base has been constructed. The dam control tower is also near completion.

Ike Asks Funds To Continue Work On Coralville Dam

Congress was asked by President Eisenhower Monday to appropriate \$4 1/2 million to continue work on the Coralville reservoir project in Johnson county.

The request was part of Eisenhower's recommended appropriations for army engineers' projects totaling \$508,755,000.

Under a grant voted by congress last year, work will resume on the reservoir project. There has been a work stoppage of almost two years.

As now scheduled the project should be completed in 1957 if the estimated \$11 million, in addition to the 1954 grant, is appropriated.

Plans this year call for raising of road grades and railway grades in order to put them above the water level of the reservoir.

Another project scheduled will be the relocation of seven miles of highway 218 near the Curtis bridge by engineers and the state highway commission.

Thus far the majority of the work has been done on the dam proper. A portion of the dam's base has been constructed. The dam control tower is also near completion.

Army Sentences 6 On Mutiny Charge

FT. BRAGG, N.C. (AP)—A general courts-martial Monday found six Ft. Bragg privates guilty of what the army called mutiny, and sentenced them to dishonorable discharges and seven years confinement at hard labor.

They were accused of refusing to obey orders of a sergeant and a captain to fall out for a work detail.

An army public information officer said the six are Henry J. Murphy Jr. of Philadelphia, Michael De Angelo of Hoboken, N.J.; Richard J. Tkach of Wallington, N.J.; William C. Lapata Jr. of Upper Darby, Pa.; Norman J. Morrison of Philadelphia, and Richard H. Cummings of East Hampton, Conn.

In addition to dishonorable discharge and confinement, the six were sentenced to forfeit all pay and allowances. The army said the men were confined to the Ft. Bragg stockade for either being absent without leave or for insubordination at the time of the offense.

Court Delays Sending Sheppard to Prison

CLEVELAND (AP)—Sending Dr. Samuel H. Sheppard to Ohio penitentiary was delayed Monday as three judges considered whether to free him on bail pending his appeal from a second degree murder conviction.

The three appellate court judges, after hearing an argument by his defense attorney, William J. Corrigan, announced they would keep the osteopath in the Cuyahoga county jail here, staying the start of the life term to which he was sentenced. The penitentiary is in Columbus.

They did not rule immediately on whether they would free Sheppard on bail, but they did

allow Corrigan until March 12 to file a brief in the appeal. The prosecution will have 30 days after that to answer that brief.

Corrigan, in arguing for bail Monday morning, declared he had "engaged the foremost criminologist in the United States" to solve the July 4 murder of pregnant Marilyn Sheppard. On Dec. 21, Sheppard was convicted of killing his wife.

Paul Kirk, bio-chemist at the University of California and head of the criminology department there, was identified by Corrigan as the investigator he had engaged.

Contractor Settles Suit Out of Court

The law suit of Edward Sheridan, proprietor of the S. and S. Heating and Air Conditioning Co., against Mr. and Mrs. Francis Conklin, 315 N. Governor st., was settled out of court Monday.

Judge Harold D. Evans dismissed the last jurors of Johnson county district court's November term who were selected Monday morning.

Sheridan's suit sought payment for installation of gutters in the Conklin home. The Conklins, in a counter claim, said that downspouts were not installed and that a heavy rain in November, 1951, caused \$724 worth of damage.

THERE'S A BETTER WAY TO GET RID OF TRASH!

a modern Gas Incinerator

IF YOU'RE tired of hauling trash and garbage outside in all sorts of weather, tired of stuffing garbage cans and striking matches -- switch to a gas incinerator! Easily installed right in the basement, the incinerator makes disposal of every kind of household waste an inside job. Without noise or high heat, everything but glass or metal simply disappears. Disposal problems disappear too. There are no half burned papers to blow around the back yard, no chance of "losing" letters, statements or other personal papers. Why not get more complete information on this great new appliance now?

Iowa House Interim Ta

DES MOINES (AP)—About 30 members of the Iowa house decided at a meeting Tuesday to seek introduction of companion bills in the senate and house calling for an interim tax study and a special session to consider revising the state's tax structure.

Afterward, Rep. G. T. Kuester, (R-Griswold) for several sessions a leader in tax and appropriations matters, said the bills would originate as committee measures. No time will be set for the study committee to report or for the governor to call the special session.

The legislative interim committee had urged a tax study and special session next winter. Kuester reiterated the interim committee statement that the

Swisher on Committees

Scott Swisher, Johnson county representative in the Iowa house of representatives, has been appointed to seven standing house committees, including appropriations, for the 1955 session of the legislature.

In addition to the appropriations committee, house speaker Arthur Hanson appointed Swisher to the following committees: cities and towns, consolidation and coordination of state government, enrolled bills, judiciary, public health and pharmacy and railroads.

problem is too large to solve in the current regular session.

Necessary Revisions

There have been so many calls for increased appropriations by this session that tax revision will have to be made if any sizeable increase of appropriation is voted.

The group of house members who met Tuesday called for the study committee to be composed of three senators, three house members, three persons to be appointed by the governor, and one of the three members of the state tax commission.

"Any tax revision made in this session should be on a temporary basis pending a thorough study," Kuester said. "The should naturally result in no appreciable increase over present

Lattimore

WASHINGTON (AP)—U.S. District Judge Luther W. Youngdahl Tuesday threw out the indictment accusing Owen Lattimore of falsely denying he had ever been (1) a follower of the Communist line and (2) a promoter of Red interests.

Youngdahl said the charges were "so formless and obscure that to require Lattimore to stand trial on them would be unprecedented.

To sustain the indictment would "make a sham" of the Sixth amendment, according

Lujack To Speak At K of C Dinner

Former Notre Dame quarterback John Lujack will be the featured speaker at the fourth annual Iowa City Knights of Columbus dinner Thursday evening at the Knights of Columbus hall.

Lujack is the fourth prominent speaker to be featured at the dinners. Other speakers have been Bill Veeck, former owner of the St. Louis Browns, Charles Comiskey, vice-president of the Chicago White Sox, and Tommy Gibbons, heavy-weight boxer of the Dempsey era. Tickets for the dinner are on sale at Racines.

2d Heavy Plunge Hits Stock Market

NEW YORK (AP)—The stock market fell heavily Monday under the pounding of two selling waves. The break was almost as great as that of two weeks ago which was triggered by the tighter credit restrictions on speculation imposed by the Federal Reserve board.

Based on the drop in The Associated Press average, it was estimated that a little more than \$3 billion was erased from the total quoted value of all listed securities by the decline. The Associated Press average of 40 stocks lost \$3.10 at 1:14:20. On Jan. 5 the average dropped \$3.40 and fell another \$1.60 the next day to reach a bottom of \$150.00. From that point the market rallied strongly, but it has been weak for the past five sessions.
