

### Leads Guilty Forged

oyd Coblenz, 19, Iowa City, pled guilty Friday in Johnson district court to a charge of uttering a forged check. Judge James Gaffney continued the case until Coblenz undergoes a voluntary mental examination at the SUI Psychopathic hospital. Coblenz pleaded innocent to the charge at a preliminary argument January 19. He already passed a forged check \$60 in Dec., 1954. John W. Oden, Exline, already per grand jury indictment for a charge of rape contained in a city attorney's information, is under examination at the Psychopathic hospital. He pled innocent to the incest charge Nov. 24.

## Nugent Acquitted of Collaboration Charges

FT. SILL, Okla. (AP) — A nine-member court-martial board, after deliberating 29 hours and 15 minutes, Monday acquitted Maj. Ambrose H. Nugent on all specifications and charges accusing him of collaborating with the enemy while a prisoner in the Korean war.

The dramatic climax came after the longest military trial in history, which started its seventh week.

More than a million words of testimony and 47 witnesses were heard.

Nugent, a career artilleryman from Merrill, Wis., had maintained confidence throughout the lengthy hearing although he once broke down and wept on the stand as he told of hardships he endured in Korea.

can POWs have been tried on collaboration charges and all were convicted.

Nugent could have received up to life imprisonment if he had been convicted.

The court-martial completed final arguments at the start of its seventh week Monday.

Lt. Col. Donald L. Manes of Ft. Sam Houston, Tex., the law officer, took an hour after closing arguments to instruct the colonels, seven of whom are veterans of the Korean war.

Final arguments at the start of its seventh week Monday.

Lt. Col. Donald L. Manes of Ft. Sam Houston, Tex., the law officer, took an hour after closing arguments to instruct the colonels, seven of whom are veterans of the Korean war.

After finishing deliberation Col. Ferdinand T. Unger, president of the court-martial board asked the greying, bespectacled Nugent to step forward. Nugent flanked by his two counselors, saluted and Unger informed him of the verdict.

## A-Blast Visible In Twelve States

LAS VEGAS, Nev. (AP) — The biggest blast of the new atomic test series flashed visible in a dozen states Monday, caused an earth rumble 380 miles away, and sent scientists and soldiers scurrying for safety from the Nevada test site.

The predawn flash of a nuclear device believed to be at least 1 1/2 times the strength of the standard A-bomb was seen in the Black Hills of South Dakota, more than 800 airline miles northeast, south of the border in Mexico, and in all 11 Western states. The brilliant fireball blazed for 20 seconds.

AN EARLY STAGE of the atomic column and mushroom cloud is shown after the AEC detonated the nuclear weapon on Yucca Flat, Monday. The flash from the blast, was seen as far away as the Black Hills in South Dakota.

Shock Causes Scare  
The shock caused a minor earthquake in Salt Lake City. One man in Murray, a Salt Lake City suburb, reported the concrete on his front porch cracked. Windows and plates rattled sharply in the Utah city a half hour after the explosion, which was set off at 7:30 a.m. (CST).

The only radiation threat from the big shot came to the testers themselves.

A sudden wind shift forced more than 100 Atomic Energy commission scientists and 575 army and marine personnel to evacuate Yucca Flat 10 minutes after the detonation. A dangerous radioactive fallout from the lower part, or stem, of the atomic cloud was predicted for near the control point.

No Radiation Reported  
Six hours after the blast, however, there was no report of dangerous radiation.

The soldiers and marines had taken the impact of the blast well-protected in six-foot trenches 5,500 yards away from ground zero—the 500-foot tower from which the device was exploded. No casualties were reported.

It was the highest tower ever used for a nuclear explosion here; 300 feet was the previous high. That and the clear weather accounted for the amazing distances at which the flash was visible.

Speculation on the device it-

self centered on the possibility it was a new atomic trigger for the hydrogen bomb. The AEC would say only it was a major effort for the Livermore, Calif., laboratory, with an assist from Los Alamos, N.M. Livermore in the past has specialized on H-bomb developments, but no H-bombs have been tested here.

The 20-second fireball compares with 10 seconds for the standard A-bomb. The AEC said this was not the most powerful weapon tested here, but indicated it was well above the 20-kilowatt power of the nominal bomb.

## 1954-55 BIG TEN CHAMPIONS

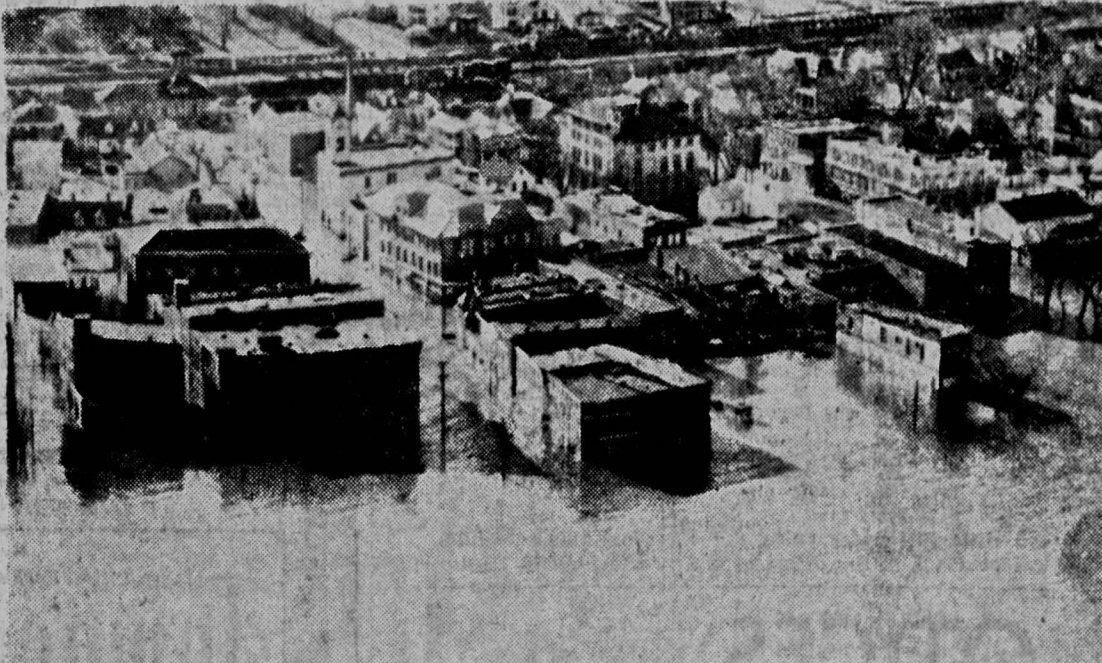

THE SUI STUDENT COUNCIL presented a personal scroll of recognition to Coach Bucky O'Connor and each of his Big Ten basketball champion Hawkeyes at the victory party early this morning.

## 1,600 Homes Are Damaged By Rampaging Ohio River

CINCINNATI, (AP) — The Ohio river crept toward its highest level in seven years Monday night, forcing thousands of families along its banks to find new shelter.

American Red Cross officials in Columbus, Ohio, said the river has reached "disaster" proportion. Some 1,600 homes in Ohio, Kentucky and West Virginia have suffered damage, Mrs. Helen Evans of the Columbus chapter reported.

CATLETTSBURG, KY., gets a bath from the over lowing waters of the Ohio river. The community of 5,000 persons near Ashland, Ky., in the eastern part of the state, had the majority of its business district covered by the rampaging waters. Catlettsburg was one of the towns hardest hit by the water.

However, in Cincinnati, Col. J. L. Person, Ohio River engineer, did not view the damage as disastrous.

Says No Catastrophe  
"There has been a good deal of scattered damage," he said. "But there has been nothing like a catastrophe. The low-lying areas which get wet every few years are in the water now."

He estimated damage at several million dollars.

Pomeroy, Ohio, population 4,000, and Catlettsburg, Ky., population 5,000 were hit hard, he said.

He recalled that the river is at about the same level now as it was during the early stages of the 1937 flood when the Ohio rampaged to 80 feet.

21 Specialists  
The Red Cross has sent 21 disaster specialists from its Eastern area headquarters to strategic points along the Ohio in West Virginia, Kentucky, Ohio and Indiana.

Ten shelter centers were distributing food and clothing to 1,200 persons.

At Catlettsburg, 100 families already have been evacuated and another 200 will be moved out if the river goes beyond expected levels.

Clear Weather  
Clear weather brought hope that the U.S. Weather bureau crest predictions would hold. In that event, there appeared to be slight danger of any major damage.

In Washington, the American Red Cross said it considers the flood of disaster proportions for the purpose of providing shelter, food and clothing to victims.

It said the flood has affected 1,000 families in West Virginia. From 500 to 600 in Kentucky, 500 in Ohio and 200 in Indiana.

## Stock Market Chiefs Cite Lack of Teachers Here Tell Views on Boom

WASHINGTON (AP) — Two western stock market presidents told the senate banking committee Monday there is no guarantee that the present market boom will go on forever.

"I have no crystal ball," said James E. Day of Chicago, president of the Midwest Stock Exchange. "I do believe in the future progress of business, but I want to point out that the market can go down—and substantially."

A serious shortage of teachers faces Iowa City schools, School Board President Robert Osmundson told members of the SUI-city committee Monday.

Osmundson cited the teacher shortage as being the most immediate and most pressing problem facing Iowa City schools. The increase in enrollment and the shortage of school facilities were also discussed.

The shortage is being felt throughout the country and this has led to "open bidding" for the services of good teachers, Garner said. "The city must be prepared to allocate enough money to obtain these teachers," he added.

The expected increase in enrollment will cause another serious problem, Garner said, with a high school enrollment of 1,600

expected by 1960. This problem would probably be alleviated by limiting City high to students from the tenth grade on. The ninth graders would remain in a junior high school.

"The amount of money spent upon educational facilities and teachers will have to rise in order to maintain our high standards," Garner said. The taxpayers must realize that the budget will also have to rise and that they must accept this burden.

The state supplies the city with \$30,000 which is 20 per cent of the amount spent on education. The taxpayers must supply the other 80 per cent.

Garner said, "Iowa City is in as sound a financial condition as any town in the state."

The committee, formed in May, 1954, is composed of SUI faculty members and Iowa City residents. Its function is to better relations between the city and the university.

## Jury Indicts FCC Witness For Perjury

WASHINGTON (AP) — Mrs. Marie Natvig, who set off a sensation in a Federal Communications commission hearing by denouncing her own testimony, was indicted Monday on nine charges of lying under oath.

The grand jury charged that she knowingly swore to a lie

Earlier in the evening, a variety show sponsored by the Hawk-I pep club, student council, union board and U.W.A. was presented. King's combo played in the main lounge, and movies of the earlier Iowa-Michigan game and other basketball seasons highlights were shown in the river room.

Many of the building's facilities, including the bowling alleys in the new addition, table tennis and the television lounge were open to students. Soft drinks and coffee were available in the sun porch.

The party ended at 1:55 a.m.

Report Chiang Set To Defend Matsus

TAIPEH, Formosa (AP) — The Matsus islands, 100 miles northwest of Formosa, will be defended and are steadily being reinforced, junior Nationalist officers stated Monday.

Apparently this meant with or without U.S. support. The United States has not committed itself publicly to defend the islands 20 miles off the Red mainland.

The officers said strong fortifications are being thrown up in the Matsus. The islands are being laced by a system of military roads.

The Nationalists seemed to be convinced that U.S. help is forthcoming in a defense of the islands. The United States, however, has given the impression this might be the case only if the attack on the offshore islands was part of a drive toward Formosa.

Before leaving for Hong Kong, Adm. Felix B. Stump, Pacific Fleet commander, made a flying visit to the Matsus Sunday. The garrison commander declared he was ready for any Communist onslaught.

(In Washington Monday, Secretary of State John Foster Dulles was working on his report to the people that he will make tonight on the results of his defense-tightening visit to the Far East.)

Mrs. Marie Natvig Indicted for Perjury

when she testified that an FCC lawyer, Walter J. Powell, coerced her into giving false testimony against Edward Lamb.

Her original testimony was that she had known Lamb as a Communist. She later repudiated it, saying "I did not willfully give false testimony. I was coerced into doing it."

Lamb is an editor and publisher whose application for a renewal of his television station license at Erie, Pa., was the subject of the hearing.

# editorial Congratulations and Good Luck—

We've been waiting to say this since the basketball season started: Congratulations Iowa Hawkeyes for winning the Big Ten basketball championship and good luck in the NCAA tournament.

The Iowa basketball team is something of a phenomenon because it is one of the few top basketball teams that is TRULY a team. Each man has been a standout in his particular department, yet none has been specifically depended upon from game to game. Everyone contributed his share to the victory.

This partially explains why none of the Hawkeyes so far has received national recognition on an all-America team.

There is a strong feeling of pride among the student body and all supporters from the state for this team-play attitude.

Now, the Hawks enter a larger arena, where national fortunes are at stake.

We are not counting on miracles. The Hawks are limited in height, and against some of the tall Eastern schools, the going will be especially tough.

However, in speed, shooting and ability to operate as a coordinated unit, the Hawks excel.

So to Coach Frank (Bucky) O'Connor we give a hearty salute and to the Iowa cagers we say congratulations and good luck.

## Letters to the Editor—

# Another Student Blast at City University

(Readers are invited to express opinions in letters to the editor. All letters must include handwritten signatures and addresses—typewritten signatures are not acceptable. Letters become the property of The Daily Iowan. The Iowan reserves the right to shorten, select representative letters when many on the same subject are received, or withhold letters. Contributors are limited to not more than two letters in any 50-day period, and should limit their letters to 300 words or less. Opinions expressed do not necessarily represent those of The Daily Iowan.)

### TO THE EDITOR:

I believe there are several of us who would like to add an enthusiastic amen to A. M. Jacobson's letter to the editor for Saturday, March 5. Eventually, of course, someone high in the Public's eye will get up and mouth a platitude or two, which, of course, is going to make everything all right. Students will rally around their community and university leaders with lumps of pride sticking in their throats, struck dumb with awe when they are

told that everything that is being done, higher rents, hundreds of parking meters, tuition raises, higher traffic fines and all the other splendid examples of executive wizardry, is being done in the spirit of brotherly love, and finally, for the student himself. Of course, it is well known that all students have independent sources of income and that any such minor additional burdens imposed by city and uni-

### BLOCKED COMMUNICATION

**FAIRFIELD, Conn. (AP)**—Hitchhiking Larry Markas, 16, arrived at his destination and asked the driver to let him out. The driver, however, kept going. Markas, thinking he was being kidnapped, jumped out of the car. Scratched and bruised, he later learned that the driver was hard of hearing.

## Interpreting the News—

# Big 3 Must Act on Israel

### As Far from Dry Land as Ever

**By J. M. Roberts**  
Associated Press News Analyst

A part of the original truce arrangement between Israel and the Arab league was a strong commitment by Britain, France and the United States, to guarantee the borders then established.

But for more than four years, border violations have been recurring. Nothing has happened except that the United Nations truce observers have investigated and reported. First the Israeli and then the Arabs have been blamed.

The Big Three, and especially Britain and the United States, have had it in their power all the time to do something about it. But both are playing politics with both sides, and have hoped that persuasion and the power of public opinion would eventually prove sufficient.

Both sides in the Arab-Israeli dispute have made vague threats from time to time that their war would be resumed. The Arabs have been most vociferous. They were the ones who lost the war. Israel has been most vigorous, frequently taking drastic steps to punish border violations.

Some of these steps, as in the case of the shooting up of Arab towns in retaliation against individual maraudings, have put the Israelis in bad odor.

Now Egypt is threatening to resume the war, claiming a reorganized army and a reorganized country as compared with 1948.

To Try Persuasion

The Big Three have finally realized they may have to act to fulfill their commitments. They are going to try persuasion once more and then take further steps if that fails.

The Western powers are doing their best to prepare for defense of the Middle East while the Arabs and Israelis ignore the Russian menace in favor of their own disputes. Only Iraq and Turkey, the latter not a member of the Arab league, have taken any steps to counter the over-all menace.

Egypt made a half-promise to do so if the British would get out of the Suez area, but reneged and fought against Iraq's treaty with a non-member of the league.

## Center of Crisis

# Now's the Time When Cost of Government Hits Home

This is the time of year when the majority of adult Americans become tax conscious, and when the phrase, "cost of government," takes on a distinctly personal meaning.

For within the next six weeks nearly 60 million persons must square their 1954 income tax account with Uncle Sam by filing a return with the Internal Revenue Service.

The deadline, formerly March 15, was pushed back a month to April 15 this year by the 1954 overhauling of the revenue laws. The introduction of withholding a decade ago has made income tax settlement date a lot easier than it was for most people. Nonetheless, millions will still sweat over their returns, as they have before, and many will have something extra to pay. Combine this with the fact that two-thirds of the states also have income tax laws, and the figure of the tax collector, so nebulous most of the year, takes on both form and substance at this time.

**Internal Revenue History**

Income taxes have become so imbedded in the average man's way of life as to seem to have always been a part of it. But it was not always so. The income tax as we know it now, both corporate and individual, is less than 50 years old. The highest number of individual returns before World War II was under 8 million, or only a small fraction of the adult population at that time.

Internal taxes, as distinct from customs levies, are as old as the republic, but only in this century did they become the big source of revenue they are today. The first sources of internal revenue were taxes on distilled spirits and horse-drawn carriages.

Over the years a variety of other excise taxes were added and some were dropped. However, during most of the nation's earlier history prior to World War I customs revenues were the No. 1 source of federal revenue; and for much of this time liquor and tobacco taxes made

## Impact of Income Tax

The coming of the income tax changed all that. The first tax of this kind was imposed during the Civil War, when the internal revenue service also was created. An emergency measure, the original income tax was in effect for only 10 years, until 1872, and total collections under it were less than \$400 million.

Congress passed another income tax measure in 1894 but the supreme court declared it unconstitutional. That is why a constitutional amendment—the 16th, which went into effect in 1913—was necessary to establish the present law.

Today the individual income tax is the biggest single source of federal revenue. Collections in the current fiscal year, which ends on June 30, are estimated at about \$28 billion, or close to half of all federal budget receipts for the period. Corporate income taxes are expected to bring in another \$18 billion. Thus the two together represent around \$3 out of every \$4 of budget receipts.

Collection alone of sums of this size, along with excises and other internal revenue, is a big operation in itself. Today the internal revenue service has some 51,000 employees, or approximately 1 out of every 50 on the federal civilian payroll; and its operating costs come to more than a quarter billion dollars a year.

## Boy, 11, Sister, 12, Keep Disappearing

**KEENE, N.H. (AP)**—When wanderlust hits Robert Kennedy, 11, and his sister, Roberta, 12, it hits them hard.

A day after they were found in Westmoreland, 23 miles from their Winchester home, they disappeared again. This time they were found in Keene, 18 miles from home. They insisted they had hiked in each instance, without a single lift.

# Old Capitol Remembers

## One Year Ago Today

The supreme court ruled that testimony by a witness before a congressional committee may not be used against him in any criminal prosecution in any court. The decision struck down a state conviction of William Adams of Baltimore on charges of conspiring to violate Maryland's anti-loyalty laws.

**Five Years Ago Today**

The continued peculiar taste and smell of Iowa City water had SUI and city engineers prolexed.

**Ten Years Ago Today**

Tanks of the American third army plunged more than 50 miles inside Germany.

**Twenty Years Ago Today**

The serious Balkan crisis flared as Bulgaria and Turkey hurled charges of war preparations at each other and Bulgaria called the situation to the attention of the League of Nations.

The University club showed "fashions for the fastidious" including trim tailcoats, frothy formals, Alpine oxfords, patent pumps and pastel felt slouch hats.

### SCIENCE MADE SIMPLE: NO. 2

Though this column is intended solely as a vehicle for well-tempered drollery, the makers of Philip Morris have agreed to let me use this space from time to time for a short lesson in science. They are the most decent and obliging of men, the makers of Philip Morris, as one would guess from sampling their product. Only from bounteous hearts could come such a pleasurable cigarette—so felicitously blended, so gratifying to the taste, so soothing to the psyche. And, as though bringing you the most agreeable cigarette on the market were not enough, the makers of Philip Morris have enclosed their wares in the Snap-Open Pack, an ingeniously contrived wrapping that yields up its treasure without loss of time or cuticle. And, finally, this paragon of cigarettes, wrapped in the paragon of packages, can be had in king-size or regular, as your taste dictates. Who can resist such a winning combination? Not I.

A few weeks ago in this column we had a brief lesson in chemistry. Today we take up another attractive science—medicine. Medicine was invented in 1066 by a Greek named Hippocrates. He soon attracted around him a group of devoted disciples whom he called "doctors". The reason he called them "doctors" was that they sat around a dock all day. Some fished, some just dozed in the noonday sun. In truth, there was little else for them to do, because disease was not invented until 1492. After that doctors became very busy, but it must be reported, their knowledge of medicine was lamentably meagre. They knew only one treatment—a change of climate. For example, a French doctor would send all his patients to Switzerland; a Swiss doctor, on the other hand, would send all his patients to France. By 1789 the entire population of France was living in Switzerland, and vice versa. This later became known as the Black Tom Explosion.

Not until 1924 did medicine, as we know it, come into being. In that year in the little Bavarian village of Pago-Pago an elderly physician named Winko Sigafos discovered the hot water bottle. He was, of course, burned as a witch, but his son Lydia, disguised as a linotype, smuggled the hot water bottle out of the country. He called on Florence Nightingale in London, but was told by her housekeeper, with some asperity, that Miss Nightingale had died in 1910. Lydia muttered something and, disguised as a feather bed, made his way to America, where he invented the blood stream. Medicine, as it is taught at your very own college, can be divided roughly into two classifications. There is internal medicine, which is the treatment of internes, and external medicine, which is the treatment of externes. Diseases also fall into two broad categories—chronic and acute. Chronic disease, is of course, inflammation of the chron, which can be mighty painful, believe you me! Last summer my cousin Haskell was stricken with a chron attack while out picking up tin foil, and it was months before the wretched boy could straighten up. In fact, even after he was cured, Haskell continued to walk around bent-over double. This went on for some weeks before Dr. Caligari, the lovable old country practitioner who treats Haskell, discovered that Haskell had his pants buttoned to his vest. Two years ago Haskell had Addison's disease. (Addison, curiously enough, had Haskell's.) Poor Haskell catches everything that comes along. Lovable old Dr. Caligari once said to him, "Son, I guess you are what they call a natural born catcher." "The joke is on you, Doc," replied Haskell. "I am a third baseman." He thereupon fell into such a fit of giggling that the doctor had to put him under sedation, where he is to this day. But I digress. We were discussing medicine. I have now told you all I can; the rest is up to you. Go over to your medical school and poke around. Bring popcorn and watch an operation. Fiddle with the X-ray machines. Contribute to the bone bank . . . And, remember, medicine can be fun!

©Max Shulman, 1955

# Social

Thirty-three women were pledged to social following second meeting which ended 5:30 p.m. Tuesday afternoon.

Groups and their members: Alpha Chi Omega, Alpha Phi, Alpha Xi Delta, Alpha Xi Gamma, Alpha Xi Sigma, Alpha Xi Tau, Alpha Xi Upsilon, Alpha Xi Zeta, Beta Beta Beta, Beta Gamma Chi, Beta Gamma Phi, Beta Gamma Sigma, Beta Gamma Tau, Beta Gamma Upsilon, Beta Gamma Zeta, Beta Gamma Eta, Beta Gamma Theta, Beta Gamma Iota, Beta Gamma Kappa, Beta Gamma Lambda, Beta Gamma Mu, Beta Gamma Nu, Beta Gamma Xi, Beta Gamma Omicron, Beta Gamma Pi, Beta Gamma Rho, Beta Gamma Sigma, Beta Gamma Tau, Beta Gamma Upsilon, Beta Gamma Zeta, Beta Gamma Eta, Beta Gamma Theta, Beta Gamma Iota, Beta Gamma Kappa, Beta Gamma Lambda, Beta Gamma Mu, Beta Gamma Nu, Beta Gamma Xi, Beta Gamma Omicron, Beta Gamma Pi, Beta Gamma Rho, Beta Gamma Sigma, Beta Gamma Tau, Beta Gamma Upsilon, Beta Gamma Zeta, Beta Gamma Eta, Beta Gamma Theta, Beta Gamma Iota, Beta Gamma Kappa, Beta Gamma Lambda, Beta Gamma Mu, Beta Gamma Nu, Beta Gamma Xi, Beta Gamma Omicron, Beta Gamma Pi, Beta Gamma Rho, Beta Gamma Sigma, Beta Gamma Tau, Beta Gamma Upsilon, Beta Gamma Zeta, Beta Gamma Eta, Beta Gamma Theta, Beta Gamma Iota, Beta Gamma Kappa, Beta Gamma Lambda, Beta Gamma Mu, Beta Gamma Nu, Beta Gamma Xi, Beta Gamma Omicron, Beta Gamma Pi, Beta Gamma Rho, Beta Gamma Sigma, Beta Gamma Tau, Beta Gamma Upsilon, Beta Gamma Zeta, Beta Gamma Eta, Beta Gamma Theta, Beta Gamma Iota, Beta Gamma Kappa, Beta Gamma Lambda, Beta Gamma Mu, Beta Gamma Nu, Beta Gamma Xi, Beta Gamma Omicron, Beta Gamma Pi, Beta Gamma Rho, Beta Gamma Sigma, Beta Gamma Tau, Beta Gamma Upsilon, Beta Gamma Zeta, Beta Gamma Eta, Beta Gamma Theta, Beta Gamma Iota, Beta Gamma Kappa, Beta Gamma Lambda, Beta Gamma Mu, Beta Gamma Nu, Beta Gamma Xi, Beta Gamma Omicron, Beta Gamma Pi, Beta Gamma Rho, Beta Gamma Sigma, Beta Gamma Tau, Beta Gamma Upsilon, Beta Gamma Zeta, Beta Gamma Eta, Beta Gamma Theta, Beta Gamma Iota, Beta Gamma Kappa, Beta Gamma Lambda, Beta Gamma Mu, Beta Gamma Nu, Beta Gamma Xi, Beta Gamma Omicron, Beta Gamma Pi, Beta Gamma Rho, Beta # Social Sororities Pledge 33 Women

Thirty-three women have been pledged to social sororities following second semester rushings which ended Sunday. Invitations to pledge were delivered Monday afternoon.

Groups and their pledges are Alpha Chi Omega, Virginia Bradley, A3, Bancroft; Connie Tyrrell, A1, Vinton, and Jo Anne Walters, N1, Park Ridge, Ill.

Alpha Xi Delta, Nancy Butcher, N1, Wilmington, Ill.; Janet John, A2, Davenport; Nita Melis, A1, Cedar Rapids; Donna Jo Norton, A1, Des Moines, and Betty Oosterhuis, D1, Hospers.

Chi Omega  
Chi Omega, Kay Ann Swickard, A3, Nichols. Delta Delta Delta, Geraldine Hanson, A1, Cherokee; Betty C. Henderson, A2, Belmond; Margaret Anne Herring, A3, Creston; Candance Hillgoss, A2, Huron, S. D. and Kay Norton, A3, Omaha, Neb.

Delta Gamma, Margaret Cass, A1, LeMars; Mary Ann Clark, A1, Waverly, and Sandra Shelton, A1, Des Moines.

Delta Zeta, Gail Joehimsen, A2, Wauwatosa, Wis.; and Gretchen Wiegman, N1, Cedar Rapids. Gamma Phi Beta, June Jackson, A1, Charles City, and Kathleen Murray, A2, Iowa City.

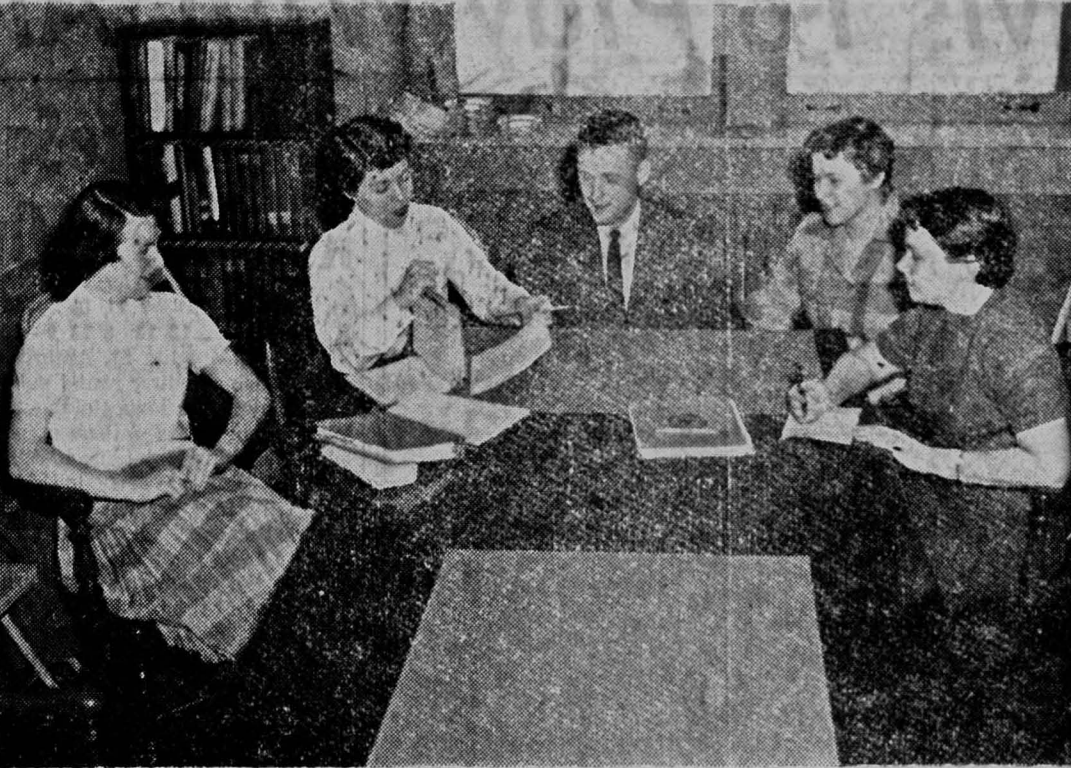

Kappa Alpha Theta  
Kappa Alpha Theta, Kay Greene, A1, Iowa City; and Marilyn Peterson, A1, Marshalltown. Kappa Kappa Gamma, Geraldine Bright, A1, Des Moines.

Pi Beta Phi, Roberta Edgecombe, A1, Beirut, Lebanon; Ann Hickerson, A1, Scarsdale, N. Y. and Martha Hickerson, A1, Scarsdale, N. Y.

Sigma Delta Tau, Nadine Breslow, A1, Omaha, Neb.; Joan Moskowitz, A1, Flushing, N. Y.; Arlene Sugarmann, A1, Chicago; and Golda Waldinger, A1, Des Moines.

Zeta Tau Alpha, Joan Garner, A1, Council Bluffs, and Shirley Roberts, A2, Mason City.

## Plans Made for Spinster Spree

MAKING PLANS FOR SPINSTER SPREE are, left to right, Cecelia Kirby, A3, Sioux Falls, S.D.; Midge Talbot, A4, Webster City; Bob Doerr, A4, Sioux City; Ida Mae Bell, A2, Donnellson, and Toby Dunitz, A3, Newton. The annual party, sponsored by University Women's association, and Central Party committee, will be held April 2 at the Iowa Memorial Union. The Most Eligible Bachelor on Campus, chosen by a vote of women students, will be announced at intermission. Doerr was last year's MEBOC.

# Wool Skirts, Slacks, Jackets Can Be Laundered Easily

The idea of washing garments made from wool is not very appealing to some women. But there is a simple technique by which most commonly used wool garments may be washed, either by machine or by hand.

Although most women customarily wash wool sweaters, socks and blankets, they are afraid to wash other woollens. But the technique permits the washing of men's and boys' trousers, utility jackets and sport shirts, as well as skirts, slacks and woven wool dresses.

**Cleaning Convenient**  
Dry cleaning is undoubtedly the most convenient means of maintaining wool garments, but for those that are frequently soiled the home washing method is an easy way to reduce cleaning bills.

When using an automatic washing machine, the garment is placed in the washing chamber with the customary amount of mild soap or detergent. The water temperature control should be set to "warm" and the time control for the washing cycle should be set for two minutes. If the garment is heavily soiled, it may be washed for three minutes, but no longer. Simple grease stains should be treated with a solvent before washing. Garments that are seriously stained should be sent to the cleaner.

**Hang To Dry**  
When the washing cycle is completed, the damp garment should be hung to dry. It should not be handled roughly, and should never be wrung, either by hand or by wringer. The centrifugal drying mechanism of automatic washing machines is ideal for washing woollens, and some standard machines have a separate spinning chamber which may be used.

Wool garments washed in a standard washing machine without a time control must be carefully timed during the washing cycle. Place the garment in the warm, soapy wash water, start the agitator, and allow the machine to run for two minutes, or three if heavily soiled. Lift the garment, without wringing, into a warm, clear rinse. Agitate the garment slightly to free it of soap, then let the rinse water drain out and refill with a second warm rinse.

standard washing machine without a time control must be carefully timed during the washing cycle. Place the garment in the warm, soapy wash water, start the agitator, and allow the machine to run for two minutes, or three if heavily soiled. Lift the garment, without wringing, into a warm, clear rinse. Agitate the garment slightly to free it of soap, then let the rinse water drain out and refill with a second warm rinse.

Now! WASHDAY'S A SNAP!

What you wash today, you can use today. Wash automatically... dry automatically in less than an hour. Save money... save on clothes... save yourself work.

HISTORY. ENGLISH. SILENCE. DEAR FOLKS - C.U. SUMMER SCHOOL IS WONDERFUL!

BUT SERIOUSLY... Combine vacation and study at the University of Colorado this summer. Two 5-week terms, June 17-July 22; July 25-Aug. 27, offer opportunities for accelerating study, for make-up and for refresher courses. Eight hundred courses leading to baccalaureate or advanced degrees. For information, write Director of Summer Session, Macky 324, University of Colorado, Boulder, Colorado.

## Women with 3.0 To Be Honored At Smarty Party

The annual "Smarty Party," sponsored by Mortar Board in honor of all undergraduate women who received a 3.0 or higher grade average first semester, will be held at noon Saturday in the River room of the Iowa Memorial Union.

Special recognition will be given at the luncheon to those who received a straight A average. Five hundred thirty undergraduate women received a 3.0 or higher first semester. Marjorie Hahn, A4, Cedar Rapids, party chairman, estimated that due to graduation of some of the eligible girls, only 500 invitations were issued.

**Pogo Theme**  
"Pogo's Prodigy Party" will be the theme of the luncheon. Characters from the comic strip "Pogo" will decorate the tables. A skit featuring Pogo and his friends in which they find an unaddressed invitation to the Smarty Party and argue about which one of them should go will be a part of the program.

The Margaret Fowler award will be presented to a Mortar Board member who has contributed financially to her own college education. The award of \$100 is made in memory of Margaret Fowler, a local Mortar Board alumna. The award is made by the Iowa City alumnae chapter.

**Committees**  
Committee chairmen are Vivian Hochstetler, C4, Kalona; Ruth Rowland, N4, Waterloo; and Renett Domack, A4, Oshkosh, Wis.; invitations: Ann Baker, A4, Iowa City, and Jackie Lewis, N4, Burlington, decorations: Barbara Behrens, A4, Oelwein, tickets: Helen Stoltz, A4, Ottumwa, and Mary Louise Schulze, E3, Ossian, programs: Lynn Thodi, C4, Waco, and Louise Savage, A4, Des Moines, publicity.

## Pinned, Chained and Engaged

**PINNED**  
Kay Poulter, Alpha Xi Delta, Iowa Wesleyan college, to J. Stanley Johnson, G., Blakesburg, Sigma Phi Epsilon.  
Patricia Beatty, A2, Cedar Rapids, to Robert Baker, A3, Humboldt, Pi Kappa Alpha.  
Jane Sucher, A1, Ames, Alpha Xi Delta, to Ronald Kobliska, A3, Waverly, Alpha Tau Omega.  
Helen Richmann, A4, Marion, Alpha Xi Delta, to Thomas Kerf, C4, Iowa City, Phi Delta Theta.  
Joyce Hartley, A3, Elmhurst, Ill., Gamma Phi Beta, to Robert Anderson, Alpha Tau Omega, Iowa State college.

**CHAINED**  
Sarah Olsen, A3, Spencer, Gamma Phi Beta, to Paul Parker, C4, Rock Island, Phi Delta Theta.  
Margaret Jean Rinker, N2, Burlington, Phi Beta Phi, to Edward Leidig, A2, Burlington, Beta Theta Pi.

**ENGAGED**  
Wilma Robinson, Harristown, to Donald Boldt, E3, Jessup, Delta Upsilon.  
Rogene Manvitz, A4, Omaha, Neb., Sigma Delta Tau, to Zann Pagan, Rock Island, Ill., SUU graduate.  
Mary Kinquist, A1, Sioux City, Delta Delta Delta, to Richard Anderson, P3, Sioux City, Sigma Alpha Epsilon.  
Louise Chapman, A2, Des Moines, Sigma Delta Tau, to Stanley Levinson, A4, Ottumwa.  
Sally Werner, A3, Perry, to Jack Hudson, A3, Cedar Rapids.  
Roxie Beisner, A3, Tripoli, to Chris Pippo, Wartburg college.

## Morgan To Play For Panhell Dance At Union Friday

Russ Morgan will be the band featured at the annual Panhellenic formal to be held Friday from 9 to 1 a.m. in the main lounge of the Iowa Memorial Union. The theme of the dance is "Artistry in Rhythm."

June Rotman, A4, Dubuque, is social chairman for the dance and other chairmen are Judith Stein, A3, Des Moines, decorations; Eleanor Green, A3, Omaha, Neb., invitations, and Kay Taylor, N2, Tulsa, Okla., intermission entertainment. Joyce Wardecker, A2, Lomard, Ill., has charge of the intermission tea for guests and presidents of all sororities and their escorts.

WILBUR JUST WOKE UP TO THE FACT THAT HE'S IN CLASS!

## KEEP ALERT FOR A BETTER POINT AVERAGE!

Don't let that "drowsy feeling" cramp your style in class... or when you're "hitting the books". Take a NoDoz Awakener! In a few minutes, you'll be your normal best... wide awake... alert! Your doctor will tell you—NoDoz Awakeners are safe as coffee. Keep a pack handy!

When Cost  
its Home

most of internal revenue collections.

**Impact of Income Tax**  
The coming of the income tax has changed all that. The first tax law of this kind was imposed during the Civil War, when the internal revenue service also was created. It was an emergency measure, the original income tax was in effect only 10 years, until 1872, and the collections under it were not more than \$400 millions.

Congress passed another income tax measure in 1894 but the supreme court declared it unconstitutional. That is why a constitutional amendment—the 16th, which went into effect in 1913—was necessary to establish a permanent law.

Today the individual income tax is the biggest single source of federal revenue. Collections in the current fiscal year, which end on June 30, are estimated at about \$28 billion, or close to 1/3 of all federal budget receipts for the period. Corporate income taxes are expected to bring in another \$18 billion. As the two together represent \$46 billion out of every \$100 of federal receipts.

Collection alone of sums of this size, along with excises and other internal revenue, is a big ration in itself. Today the internal revenue service has some 600 employees, or approximately 1 out of every 50 on the federal civilian payroll; and its operating costs come to more than a quarter billion dollars a year.

**11, Sister, 12, Disappearing**  
KEENE, N.H. (AP)—When wand just hits Robert Kennedy, 11, his sister, Roberta, 12, it is them hard.

A day after they were found in Westmoreland, 23 miles from Winchester home, they disappeared again. This time they were found in Keene, 18 miles from home. They insisted they had hiked in each instance, about a single lift.

## New President

Miss Kay Putney  
Alpha Delta Pi Officer

Kay Putney, A3, Waterloo, has been elected president of Alpha Delta Pi social sorority.

Other new officers include Mary Kirby, A2, DeKalb, Ill., vice-president; Carolyn Doscher, A2, West Union, corresponding secretary; Sylvia Steckler, A2, Eldora, recording secretary; Jackie Snowgren, A2, Marshalltown, treasurer and recommendation chairman.

Ginny Stewart, A2, Des Moines, registrar; Mary Van Oosterhout, A3, Wilmette, Ill., guard and activities chairman; Beth Roman, A2, Pekin, Ill., chaplain; Sharon Russell, A2, Fairfield, reporter; Jan Serbousek, A2, Swisher, judiciary chairman; Jan Hauser, A3, Cedar Rapids, rush chairman; Sally Schacht, A3, Durant, social chairman.

Helen King, A2, Greenfield, scholarship chairman and Patty Nell, A2, Jefferson, house manager.

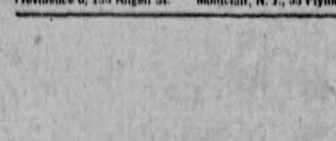

## FEWER PRAIRIE CHICKENS

LANSING, Mich. (AP)—The prairie chicken, once plentiful in Michigan, now is fighting a losing battle for existence. It's No. 1 enemy, says the state department of conservation, is civilization.

Now, the department says, the bird has been squeezed into a pocket in the northeastern part of the lower peninsula and into only two colonies in the upper peninsula.

## For a Job in Your Field

Whatever your major—from Archaeology to Zoology—Katharine Gibbs outstanding secretarial training will be an aid in obtaining a position in the field of your interest. Write College Degree for Girls Club of Work.

Still time... to remember her with TELEGRAMS!

If you've been remiss with the miss don't despair! There's always time to make amends with telegrams.

Flash her a glowing birthday greeting in your own inimitable style. Its delivery on Western Union's special blank will win her undying devotion.

Yes sir—any way you look at it, telegrams are a guy's (and a gal's) best friend. Just call your helpful Western Union office.

On any occasion it's wise to wire WESTERN UNION

110 E. Washington St.  
Iowa City, Iowa  
Tel. 3141

Want to travel and study abroad?

Take a university-sponsored tour via TWA this summer and earn full college credit while you travel!

Visit the countries of your choice... study from 2 to 6 weeks at a foreign university. You can do both on one trip when you arrange a university-sponsored tour via TWA. Itineraries include countries in Europe, the Middle East, Asia and Africa. Special study tours available. Low all-inclusive prices with TWA's economical Sky Tourist service.

banish the drudgery of outdoor drying

# 30-day FREE trial

## BENDIX automatic Dryer

You don't pay a cent for delivery, normal installation or the trial itself. There's no obligation to buy, either. No need to delay—so call or stop in now!

Indoors or out, summer or winter, drying clothes is always a big job. A clothes dryer not only takes over this chore for you, but does a far better job as well! Fluffs up towels and wash-cloths to original softness. Tumbles out deep-set wrinkles in shirts and linens—speeds ironing. Because it dries in minutes, you can wash, iron in the same day. No need for a double supply of washables!

The Bendix model DEF-NA has every standard feature—hi-airflow, lo-heat drying, Pow'r Vent, single dial control, and automatic thermostat, plus an improved pin-point pilot. Stop in—see it!

# 7 Conference Champs In NCAA Playoffs

## Iowa To Play Friday Night At Evanston

CHICAGO (P)—The Iowa Hawkeyes will be one of seven conference champions among the 18 teams which start eliminations tonight to determine the National Collegiate basketball champion. The field will include last year's defending champion and the team with the best collegiate record of the season.

Iowa, the Big Ten conference champions, and Kentucky, the Southeastern champs, will play first round matches Friday night at Evanston, Ill., against two foes to be determined tonight in a preliminary playoff tonight at Lexington, Ky.

**In 2nd Game**  
Iowa will meet the winner of a game between Penn State and Memphis and Kentucky will play the Marquette-Miami winner. The Iowa game will be the second contest Friday night.

The winner at Evanston Saturday night will advance to the national finals at Kansas City, March 18-19.

The preliminary games will be confined to four locations—New York, Lexington, Ky., San Francisco and El Reno, Okla. The eight winners will join eight conference winners that drew first-round byes in four regional tournaments next Friday and Saturday.

**Titlist Returns**

La Salle of Philadelphia, the winner last year, opens its title defense in New York's Madison Square Garden. The opposition will be supplied by West Virginia, the Southern conference champion. La Salle qualified as Middle Atlantic conference champion.

The other New York games pit Duke, runnerup to ineligible North Carolina State in the Atlantic Coast conference, against Villanova and Williams, the New England representative, against Canisius.

At Lexington Miami of Ohio, Mid-American conference champion, faces Marquette, winner of 22 out of 24 games, and Penn State meets Memphis State.

**Frisco to Compete**

The San Francisco double-header matches San Francisco, (23-1) the No. 1 team in the last four Associated Press weekly ranking polls, against West Texas State, the Border conference champ. Idaho State, Rocky Mountain conference titleholder, meets Seattle University.

The El Reno game brings together a pair of "at large" selections whose records are nothing to shout about—Oklahoma City (9-17) and Bradley (7-19). Bradley was last year's runner-up.

The regional tournaments Friday and Saturday will be played at Philadelphia, Evanston, Manhattan, Kan., and Corvallis, Ore.

## Sugar Ray Robinson Banned in Boston

BOSTON (P)—The state boxing commission Monday handed Sugar Ray Robinson, what amounts to a lifetime ban in Massachusetts for his last-minute pullout from Saturday night's scheduled bout with Georgie Small of Brooklyn.

But Robinson will be free to fight in any other state because the commission will not press for a general ban by the National Boxing Association.

Robinson withdrew shortly before the bout, complaining he had a sore throat and virus symptoms which he said made him top weak to appear. Dr. Edwin Hommel of the boxing commission examined the ex-middleweight and welterweight king and said he found "no evidence of sickness or injury which would warrant me to postpone the fight."

## Japanese Wrestlers Work Out

(Daily Iowan Photo by Jerry Moscy)

**KATUTOSHI YOKOYAMA**, Japanese amateur wrestler, attempts to throw Terry McCann, Iowa's Big Ten champion in the 123-pound class as eight Japanese amateurs worked out Monday afternoon with the Hawkeyes. Iowa will meet the Japanese Wednesday night in the field house in an exhibition. The visiting wrestlers, among the best in their homeland, are on their way to New York city to compete in the National AAU wrestling meet the first week in April. Wednesday night's meet is open to the public.

## Hawk Matmen 2d In Conference Meet

Coach Dave McCuskey's Iowa wrestlers pressed Michigan to the wire before bowing to the Wolverines, 50-46, in the Big Ten conference meet over the weekend at Minneapolis. Iowa beat Michigan, 24-5, earlier in the season.

Winning conference crowns for Iowa were Terry McCann at 123 pounds and John Winder at 177 pounds. Last year Winder won the 167-pound title. Ken Leuer of Iowa lost to Bob Konovsky of Wisconsin, 2-1, in the heavyweight finals. It marked Leuer's second loss in 15 starts for the season, both to Konovsky. Harlan Jenkinson of Iowa also placed second in the 167-pound class.

**FINAL RESULTS**  
Michigan ..... 50  
Iowa ..... 46  
Illinois ..... 37  
Wisconsin ..... 33  
Purdue ..... 15  
Michigan State ..... 13  
Ohio State ..... 14  
Indiana ..... 9  
Minnesota ..... 7  
Northwestern ..... 4

**Hawkeye results in the meet:**  
123 pounds—Terry McCann (I) beat Pat Palumbo (Mich.), 15-9; McCann beat Vera Whitney (Pur.), 6-3; McCann beat Dick Weeks (Ill.), 15-3, (title).  
150 pounds—Dick Gevig (I) lost to John Olters (Ill.) by referee's decision after tying, 1-1.  
177 pounds—Bill Clements (I) lost to Howard Fisher (Ind.), 4-0.  
167 pounds—Jerry Salmon (I) lost to Don Haney (Mich.) by referee's decision.

167 pounds—Iowa had no entry.  
157 pounds—Harlan Jenkinson (I) beat Dave Bergeson (Minn.), 2-0; Jenkinson beat Bob Reif (Wis.), 3-0; Jenkinson lost to Larry Tempas (Ill.), 2-2, (title).  
127 pounds—John Winder (I) beat Tom Krause (Mich.), 9-2; Winder pinned Ahmet Senol (Pur.) (time 6:48); Winder beat Dick Anthony (Ind.), 4-3, (title).  
Heavyweight—Ken Leuer (I) beat Dick Kubus (Minn.), 2-1; Leuer beat Ken Erick (Ind.), 4-1; Leuer lost to Bob Konovsky (Wis.), 2-1, (title).

**Gymnasts Place Third**  
Coach Dick Holzappel's Iowa gymnasts scored 89 points to win third place in the Big Ten meet Saturday at Minneapolis behind Illinois and Michigan State. Northwestern and Purdue did not enter teams.

Scoring for Iowa was paced by Walt Patterson, who won the trampoline event and tied for first in tumbling, while Sam Baillie won the horizontal bar championship and placed second in the flying rings and side horse. In addition, Baillie won third in free exercise and a seventh in parallel bars; Patterson scored eighth in flying rings; Jerry Kotlong won third in trampoline; and Dick Dohmann sixth in side horse to tally points for Iowa.

**FINAL RESULTS**  
Illinois ..... 139  
Michigan State ..... 91.5  
Iowa ..... 89  
Minnesota ..... 89.5  
Michigan ..... 38  
Ohio State ..... 35  
Wisconsin ..... 8  
Indiana ..... 1

# Says Davis To Play With 'All-Stars'

By Arlo Jacobson  
Daily Iowan Sports Editor

McKinley (Deacon) Davis, Hawkeye basketball star and member of the varsity team for the past four years, has been named by the Harlem Globe Trotters as a member of the College All-Star team which will compete with the famed Globe Trotters in the sixth annual World Series of Basketball.

According to Harry Hannin, Director of the World Series, whom The Daily Iowan contacted by phone in the Globe Trotters' Chicago office Monday, Davis will participate in 13 games on a tour which will include Iowa City and Des Moines. The teams will compete in the Iowa field house April 6.

**Talked With O'Connor**  
Hannin said he had not conferred with Davis but had contacted Iowa Basketball Coach Bucky O'Connor about Davis' availability for the tour. Neither Davis nor O'Connor were available Monday night for comment, but sources in Iowa City indicated that Davis definitely would be interested in such an offer.

Hannin said that according to present plans, Davis would join the tour in Chicago, April 3, and as the teams play virtually every night, the tour would not greatly affect Davis' schoolwork. Part of the tour would include the spring vacation at Iowa, which this year will be April 7-12, thus cutting down Davis' absence from classes.

**Starred as Frosh**  
Davis started his basketball career by making the first team as a freshman under post-war eligibility rules. He broke into a lineup loaded with such veterans as Herb Thompson, Chuck Darling, Skip Greene and Bob Clifton, present assistant basketball coach at Iowa. Davis scored 175 points that year on a team which won 19 games and lost three, finishing second to Illinois in the conference.

The following year Davis tallied 327 points with a fair Hawkeye team which came alive toward the end of the season to win seven of their final eight games.

Last season, Davis had to compete with the present championship crop, and maintained his starting position until sidelined by a head injury when he leaped up and bumped his head against the back-board.

**Starring This Year**  
This season, Davis and Bill Schoof fought it out for a starting forward position. When Schoof suffered a knee injury, Davis took over the position permanently and has been starring at it ever since.

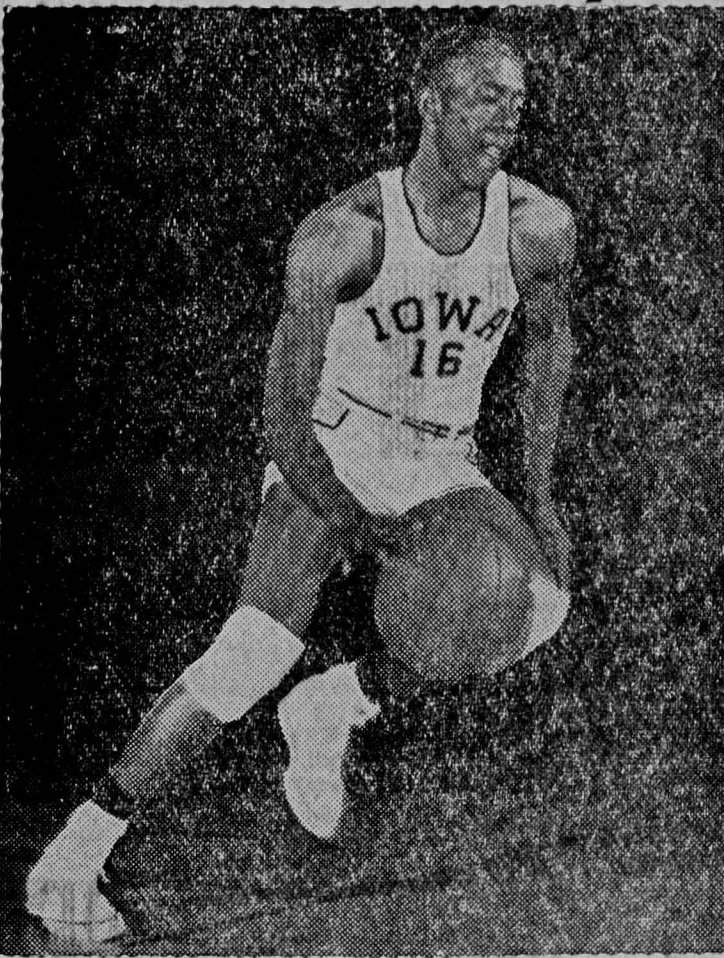

Davis played his last regular-season game with the Hawkeyes Monday night against Michigan, but the team will compete in the NCAA playoffs starting Friday night in Evanston, by virtue of winning the Big Ten title.

Whether the team wins or loses, however, the tournament will be ended March 19 in Kansas City, in plenty of time for Davis to join the Globetrotters.

Competition with the professional Globetrotters will end Davis' days as an amateur, as the organization pays participants around \$100 per game, in addition to expenses.

**Purdue Grid Practice Postponed by Weather**  
LAFAYETTE, Ind. (P)—Cold weather caused Coach Stu Holcomb to postpone the start Monday of Purdue University's spring football practice.

The temperature dropped to 10 degrees Monday morning and moderated only slightly before noon. Holcomb said practice will start as soon as weather permits.

All-Star Material

## City High Wins In Walk, 70-52

Iowa City 18 15 23 14—70  
Ft. Madison 8 11 11 22—52

City high doubled the score midway through its first-round sub-state game with Ft. Madison and then coasted to a 70-52 triumph over the Bloodhounds at the Iowa field house Monday night.

It was no contest after the

## Keokuk Downs Grinnell, 54-51

Keokuk ..... 16 17 10 11—54  
Grinnell ..... 12 9 18 12—51

Little John Copeland dropped in five points in the last minute to give Keokuk a 54-51 sub-state victory over Grinnell in the Iowa fieldhouse Monday night.

Grinnell trailed most of the way — by 13 points at one time — but the Tigers took a brief lead 50-49 with a minute remaining.

Copeland brought the lead back to the Chiefs with a field goal from the corner. He added three more free throws during a Keokuk stall while Grinnell's Ray Pearson could only sink one charity toss.

Keokuk took a 16-12 first quarter lead and lengthened it to 33-21 by halftime. Bill Robinson and Pearson hit for 15 points together in the third stanza to close the gap, 43-39, going into the last quarter.

High for Keokuk was lanky Larry Swift with 24 points. Pearson, Robison and Fred Johnson each tallied 12 for Grinnell.

## St. Ambrose Squeezes Past Keystone in Overtime, 48-46

St. Ambrose 16 7 11 12 2—48  
Keystone 12 13 8 13 0—46

High-and-mighty St. Ambrose squeaked by in first round sub-state play at the Iowa fieldhouse Monday night in an overtime game over tiny Keystone, 48-46.

Travis O'Hearn rebounded a shot with four seconds remaining in the overtime period and made a short jump shot to break a 46-46 tie, which was the score at the end of the regulation play.

It was O'Hearn's third basket in the last quarter. He did not make any in the first three frames.

With two and one-half minutes yet to play in the regular game, St. Ambrose decided to stall with a 46-45 lead. However, Darwin Oehlerich of Keystone tied up dribbling Gene Duffy and event-

ually Keystone had the ball. Tom Sundefbruck of St. Ambrose fouled Jerry Hopfeld, who made one of his free throws to deadlock the game. St. Ambrose held the ball for a final shot but missed, sending the game into the extra period.

Center Pete Schebler of St. Ambrose collected 21 points, Hopfeld and Delmer Mehler each counted 18 for Keystone.

## Turner Wins

BROOKLYN, N.Y. (P)—Gil Turner, Philadelphia middleweight contender, scored a technical knockout over Joe Miceli of New York in 44 seconds of the eighth round of a scheduled 10 at the Eastern Parkway Arena Monday night. Turner weighed 155½, Miceli 147.

## Brennan Stresses Football Simplicity

ATLANTIC CITY (P)—Coach Terry Brennan of Notre Dame said Monday a "simple as possible" offense is the best attack in football. Too many teams, he said, trip up on "fancy plays."

"You lose on mistakes," said the 26-year-old head coach. "If your attack is simple, your margin of error is cut down. Fancy plays increase chances for mistakes."

Brennan spoke at the start of the annual National Football coaches clinic.

### Committees Hold Combined Hearing--

# Legislature Debates Iowa Toll Road Question

DES MOINES (AP)—The questions of whether Iowa needs a toll road and if it could be self-financed were aired in a lengthy hearing in the house Monday.

The toll road committee of the senate and a subcommittee of the house roads committee conducted the hearing in the house chamber.

Three legislators spoke in favor of a \$180 million east-west toll road from Davenport to Council Bluffs.

Three organization representatives opposed the plan. The state highway commission said last year that the proposed toll road would be feasible in 1958 if bonds could be sold for 3 1/2 per cent interest.

#### Others Speak

Three other persons also spoke. Two of them represented engineering firms which assisted the commission in its study. The other represented a New York investment company.

Toll roads are in operation or planned from Portland, Me. to Rock Island, Ill.

Sen. Charles S. Van Eaton (R-Sioux City) told the well-filled house chamber the question is: "Do we want to be on the main line?" He added that the problem boils down to this: "If we can't sell the bonds there will be no turnpike."

#### Pennsylvania Bonds

James G. Brophy of New York, representing the firm which handled the Pennsylvania Turnpike bonds, said that in his opinion the Iowa plan definitely could be financed at reasonable rates if carried out as indicated.

Sen. George O'Malley (D-Des Moines) supported the proposed toll road. He said the more information he gets the more he sees the feasibility of the project.

O'Malley said that if a turnpike, which is certain to move on westward goes south of Iowa "we will lose a golden opportunity." He added that highway 6 which the proposed turnpike would closely parallel carries very heavy traffic now.

Robert Bliss of Des Moines, representing the Iowa Free Road association, said his organization believes a toll road is neither feasible nor necessary. He said the association is interested in improving the present road system and that there should be more investigations and surveys before Iowa undertakes any turnpike.

Also voicing opposition to the project was Robert Wright of Carroll, speaking for the highway 30 association. He said that \$100 to \$200 million invested along the present east-west Iowa highways would be destroyed if a turnpike was constructed.

## Creditors Awarded \$28,000 in Suits Against Swanks

Six creditors Monday won suits to recover more than \$28,000 from Mr. and Mrs. J. M. Swank, owners of the Swank Baking company, 210 E. College St.

Judge Harold D. Evans ordered the foreclosure of mortgages on the Swank real estate and sale of the Swank property to pay the creditors.

Evans handed down his ruling Monday in Johnson county district court.

The Iowa State Bank and Trust company holds a \$20,000 claim, the largest of the six.

Other creditors: the United States government, Johnson county, Louis Shulman, 403 Magowan ave., Russell Miller milling company of Minneapolis, Minn. and the United Mercantile agency of Louisville, Ky.

The claims against the Swanks are for payment of taxes, services, commodities and merchandise. Judge Evans said he would rule in a later decision the priority of the claims.

And So To Rest

UNHURT AND THANKFUL, Mrs. Mary Schamoon, 46, got out and walked away from her car, after it hit a patch of ice and skidded through the guard rail on the Thompson Road viaduct near Syracuse, N.Y. The rail and scraping bottom of the automobile brought the car to a halt and kept it from plunging 30 feet to the ground below.

## Baby Stays Blind and Deaf Couple To Keep Child

AKRON, Ohio (AP)—Mr. and Mrs. Harold Hathaway can neither see nor hear, but that's no reason for the Welfare department to take their infant son from them, a juvenile court judge ruled Monday.

The community must help the Hathaways care for their 2-week old child in their own home in nearby Stow, said Judge Russell Thomas.

Welfare director Leo Mulhearn, fearful of an emergency which the handicapped parents couldn't handle, had asked for Monday's hearing to "determine what is best for the child."

A friend spelled out the judge's decision on the 53-year-old father's hand. Hathaway asked to be led to the judge and shook the judge's hand.

Mrs. Hathaway, who lost her sight and hearing after an illness when she was 15, said her child is "the only thing I ever had of my own in my whole life."

Hathaway had been deaf for years and he lost his eyesight in 1947. The couple married a little over a year ago after the editor of a magazine for the deaf and blind brought them together.

Hathaway lives on a pension and a small income from hand-made leather articles which he sells from door to door.

Their child, Clarence, is healthy and has normal sight and hearing.

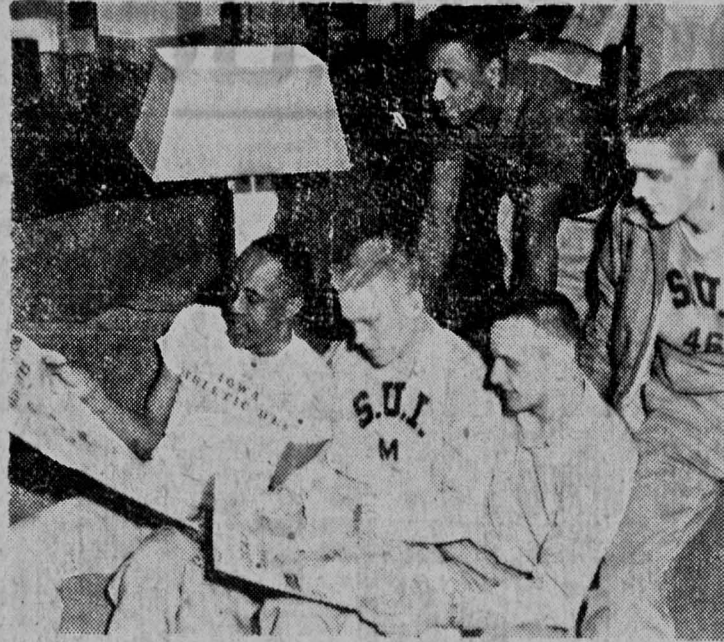

## Glad To Visit Russia With Group: Hoegh

DES MOINES, Iowa (AP)—Gov. Leo A. Hoegh said Monday he would be glad to go along if an Iowa delegation visits Russia under a proposed plan to exchange agricultural missions with the Soviet Union.

The proposal is still in the "talk" stage.

In response to a question, Gov. Hoegh told his news conference: "If our people from Iowa could talk to the common people of Russia, I think we could sell them not only our farming methods but on the idea that we are a peaceful people."

### Team Reads Congratulations

IOWA'S STARTING QUINTET, Carl Cain and Bill Logan, Dean Davis, Sharm Scheurman and Bill Seaberg were still enjoying the victory accolade this past weekend of ads published in The Daily Iowan last Tuesday. The Hawkeye Big Ten basketball champs relaxed over the weekend before flying to Ann Arbor, Mich. Monday, where they dropped a 74-58 decision to a fired-up Michigan team.

## Hoegh Tells Group To Trust Leaders

DES MOINES (AP)—Gov. Leo A. Hoegh told the Iowa Council of Republican Women Monday afternoon that they could "have full confidence in your Republican administration . . . and in your senators and representatives."

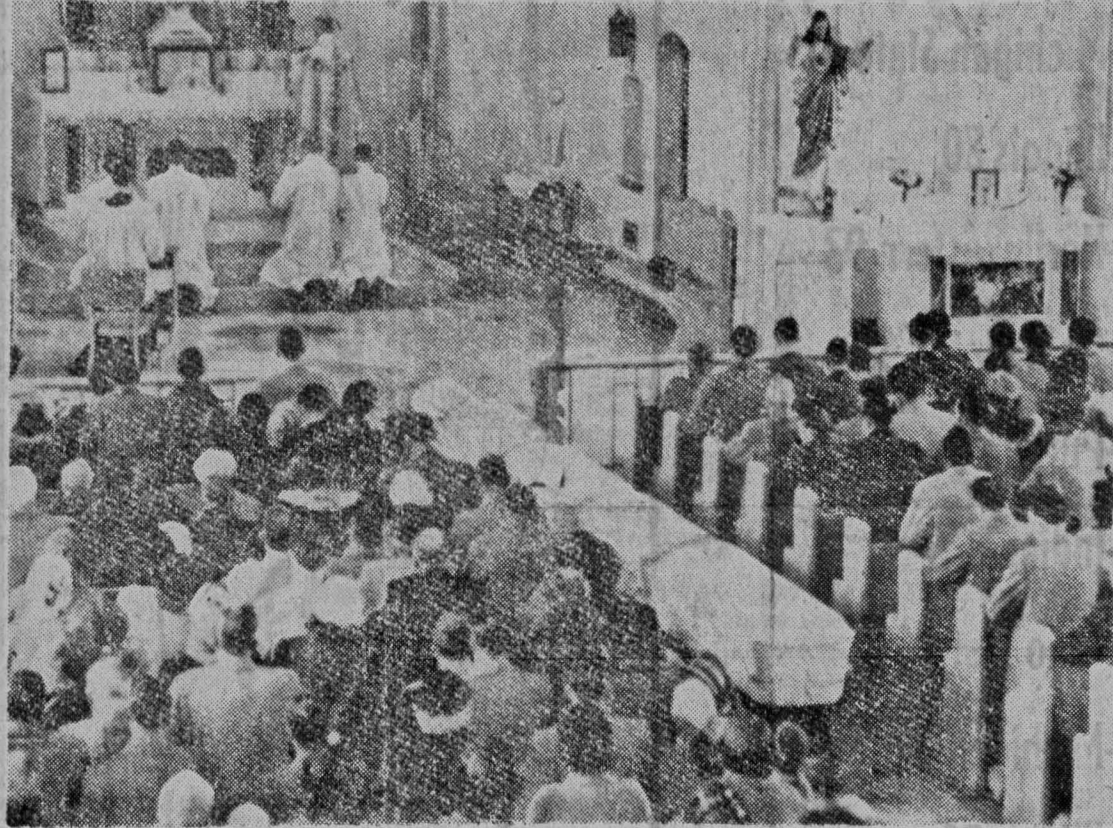

The governor said he regarded the state Republican platform as "a mandate" and added that a high priority item was that "we wanted to be sure that education was improved and expanded."

## Local Collectors' Guns On Magazine Cover

Two guns owned by Iowa City collectors were pictured on the cover of the March issue of the American Rifleman, official journal of the National Rifle association of America.

A .38 special caliber Colt pistol owned by John R. Rohrer, 1027 E. Market st., and a Remington double derringer pistol, caliber .41, owned by Ray Rarey, 616 S. Governor st., were photographed for the magazine by Chuck Seemuth, SUI photo production supervisor.

## Hold Mass for 5 Fire Victims

CASKETS OF FIVE CHILDREN who died in a basement home fire in Portsmouth, Iowa, Saturday, stand in a line before the altar of Our Lady of Fatima church in Portsmouth during services for the victims. They are John Jr., 5; Russell, 4; Jerry, 3, and Anna Marie, 9 months, children of Mr. and Mrs. John Raymond, and baby-sitter Jean Kloffman, 11.

## Tickets Available For Band Concert

Tickets are now available for the University Band concert which will be held Wednesday at 8 p.m. in the main lounge of the Iowa Memorial Union. They may be picked up at the union desk.

Featured in the program will be Don Gillis' "Symphony No. 1 for Band" which includes four movements.

### Student Publications Inc. Petitions Ready

Nomination petitions for trustee of Student Publications, Inc., are available at the school of journalism office, room 205, Communications Center.

The completed petitions must be filed in the school of journalism office before 5 p.m., March 10.

Petitions must contain the signatures of at least 25 students from the college in which the candidate is enrolled. The petition also contains a statement of intention to remain a student in the university for the full period of the term for which the candidate plans to run.

The candidate must file a statement from the registrar that he has earned 26 hours of credit

in the university, and that the student has a grade point average equal to that required for graduation in the college in which such credits were earned.

Two board members are to be named for two-year terms and one for a one-year term. On his petition each candidate must state the length of the term for which he wishes to be a candidate, before circulation of the petition is begun.

Candidates will be voted upon at the all-campus election March 23. The three winners will take office at the first board meeting held after the end of the current semester.

### Firm May Locate Drug Plant Here

Iowa City and several of midwestern communities are being considered by Proctor Gamble as possible sites for new manufacturing plant to produce the firm's drug product.

Keith Kafer, Chamber of Commerce manager, said Monday that representation of the company have visited Iowa City recently to investigate possible industrial sites.

He said the company has not reached a decision as to the location of the plant, Kafer said. He said the company will notify the city when a decision is reached.

Firm May Locate Drug Plant Here

Iowa City and several other midwestern communities are being considered by Proctor and Gamble as possible sites for a new manufacturing plant to produce the firm's drug products, Keith Kafer, Chamber of Commerce manager, said Monday.

Kafer said that representatives of the company have visited Iowa City recently to investigate possible industrial sites and have expressed interest in an area outside the city limits along Lower Muscatine road.

The company has not reached a decision as to the location of the plant, Kafer said. He said the company will notify the city when a decision is reached.

Otto Hueschen, 44, Holstein, Sunday at University hospitals.

POLICE COURT

George P. Arkus, Chicago, Ill., and Anabelle Baker, Washington, were each fined \$52.50 on a charge of consuming intoxicating liquor on a public highway. Judge Roger Ivie suspended \$27.50 of each fine.

Charles O. Tencel, R.R. 1, Solon, paid a \$7.50 fine for towing an unlicensed trailer.

Elmer J. Nelson, 832 Roosevelt st., was fined \$17.50 on a charge of intoxication in a public place.

George J. Chadek, address unknown, forfeited a \$15 bond for failing to appear on a charge of disturbing the peace.

United Fund Survey Not Yet Completed

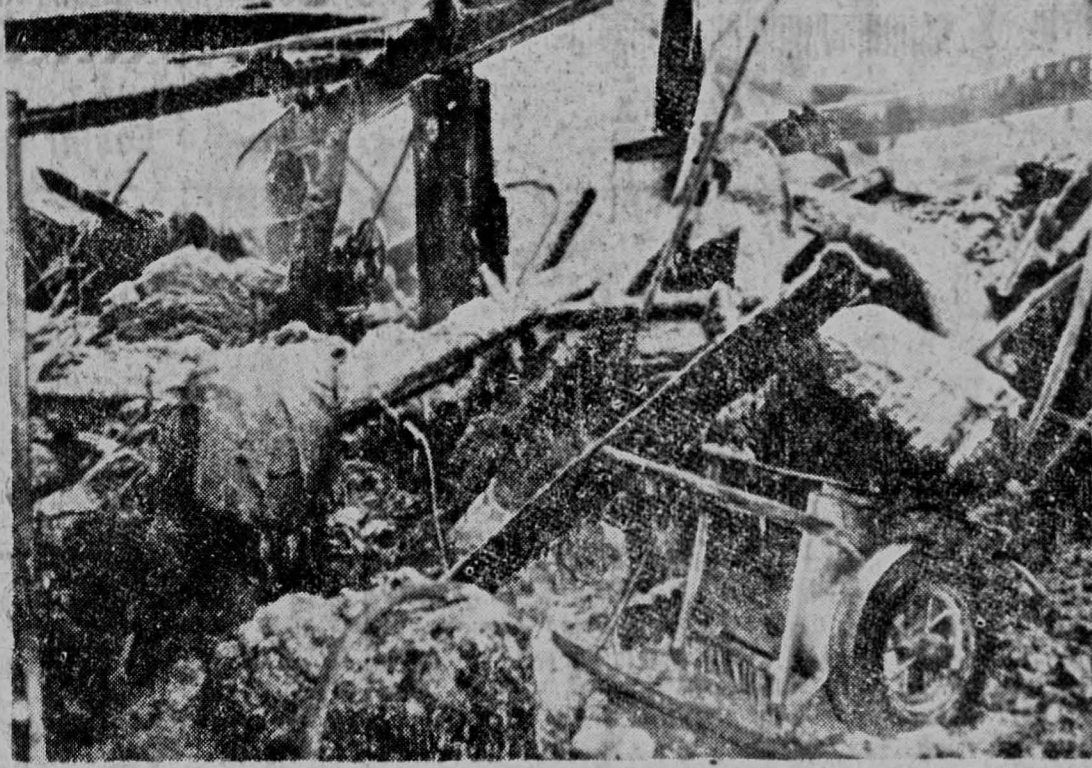

The results of a city-wide survey to determine residents' opinions on the establishment of a United Fund campaign in Iowa City will not be known until Friday or Saturday.

Prof. M. C. Boyer, chairman of the Iowa City Community Chest corporation board, reported Monday that final reports and tabulations will not be completed by the polling fraternities until then.

The 300 fraternity members will continue their survey during this week. Goal of the survey is to reach 80 per cent of the permanent residents of Iowa City, Coralville and University Heights.

Return calls are scheduled in blocks where pollsters were unable to reach all permanent residents.

Ice Covers Des Moines Fire Ruins

(AP Wirephoto)

THIS INSIDE VIEW of the west section of the Sargent & Co. feed manufacturing plant in Des Moines was taken shortly after fire burned out the section of the plant Sunday night. Ice and snow cover the office equipment which fell through from the floor above. Damage was estimated at between \$500,000 and \$600,000.

Fire Destroys Des Moines Feed Plant

DES MOINES (AP) — A spectacular fire burned out about half of the sprawling Sargent & Co. feed manufacturing plant at 1850 E. Euclid ave., Sunday night.

Ernest I. Sargent Jr., one of the three brothers who own the company, estimated damages at "between \$500,000 and \$600,000." Cause of the fire has not been determined. Officials say they believe it smoldered for several hours before being discovered at 8:30 p.m. Sunday.

Ten fire companies, hampered by freezing weather and gusty winds, brought the blaze under control about 11 p.m. Sunday. At midmorning Monday, three fire companies still were at the scene.

Fire Chief Charles L. Slade said more than half of the two-story cement block building was destroyed, as well as a wooden grain storage elevator 98 feet high.

Ernest I. Sargent Jr., estimated this damage: \$250,000 to \$300,000 to the west half of the plant.

\$125,000 to machinery and office equipment.

\$125,000 worth of finished feed destroyed.

\$75,000 worth of stored corn and oats destroyed.

Two firemen suffered minor injuries fighting the blaze.

Sargent said the plant, which has been on 24-hour production, will be rebuilt. On Aug. 29, 1943, fire swept through part of the Sargent plant, causing damages estimated at \$125,000.

NOT A PEN SCRATCH DETROIT (AP) — The familiar scratch-scratch of post office pens is a thing of the past here. Post offices have installed 1,400 ball point pens.

Rebuilt After 1953 Fire—

# Chemistry Labs Planned for Flexible Use

Flexibility is the key note in the \$300,000 reconstruction of the SUI chemistry building's fifth floor which opened for use the first week in February.

The rooms on the southeast wing of the fifth floor which were destroyed by fire Oct. 7, 1953, have been replaced by 12 rooms which are adaptable to different sizes and purposes.

By a new system of combining laboratories and classrooms, the chemistry department was able, in effect, to "have its cake and eat it too." They gained six new laboratories and much needed classroom space.

#### Temporary Arrangements

After biochemistry laboratories were destroyed in the \$375,000 1953 fire, arrangements were made for biochemistry students to use parts of the medical laboratories.

Prof. Ralph L. Shriner, head of the chemistry department, said that a preliminary survey made by the chemistry staff showed that the greatest space need for the next few years would lie in the first and second year courses.

With this prediction in mind, Prof. R. T. Sanderson, Prof. Stanley Wawzonek, and Prof. Ralph L. Shriner, all of the chemistry department, planned the present arrangement.

#### Combination Lab-Classrooms

The combination laboratory-classrooms will enable each instructor to hold his laboratory and conference sections in the same room.

Adjustable stools with padded seats are provided for students, and each laboratory bench has a pull-out "breadboard" to write on. The blackboard is raised high enough, with a platform for the instructor, so that there is visibility from all points of the laboratory. Plumbing fixtures on the laboratory benches are low enough so that they do not obstruct the view.

After the discussion period, the students pick up their stools and stack them at the side of the laboratory or on the lecture platform, thus clearing the aisles for laboratory work. The combination set-up not only adds additional space for laboratory work, Prof. Shriner said, but furnishes six additional classrooms and relieves the pressure on the use of other rooms in the building.

#### 24 Student Laboratory

Each of the six laboratory-classrooms accommodates 24 students at one time. There are sufficient lockers in each of the desks to accommodate a total of 864 students by scheduling six sessions and using all six labs.

The laboratories are separated by sound-proof steel panels. These panels are movable, so that the entire arrangement on the floor can be changed at any future time.

Two classrooms, each of which accommodates 30 students, are included in the reconstruction. These are separated by a sound-proof curtain so that the two rooms may be united into one room to take care of 60 students.

#### Other Rooms

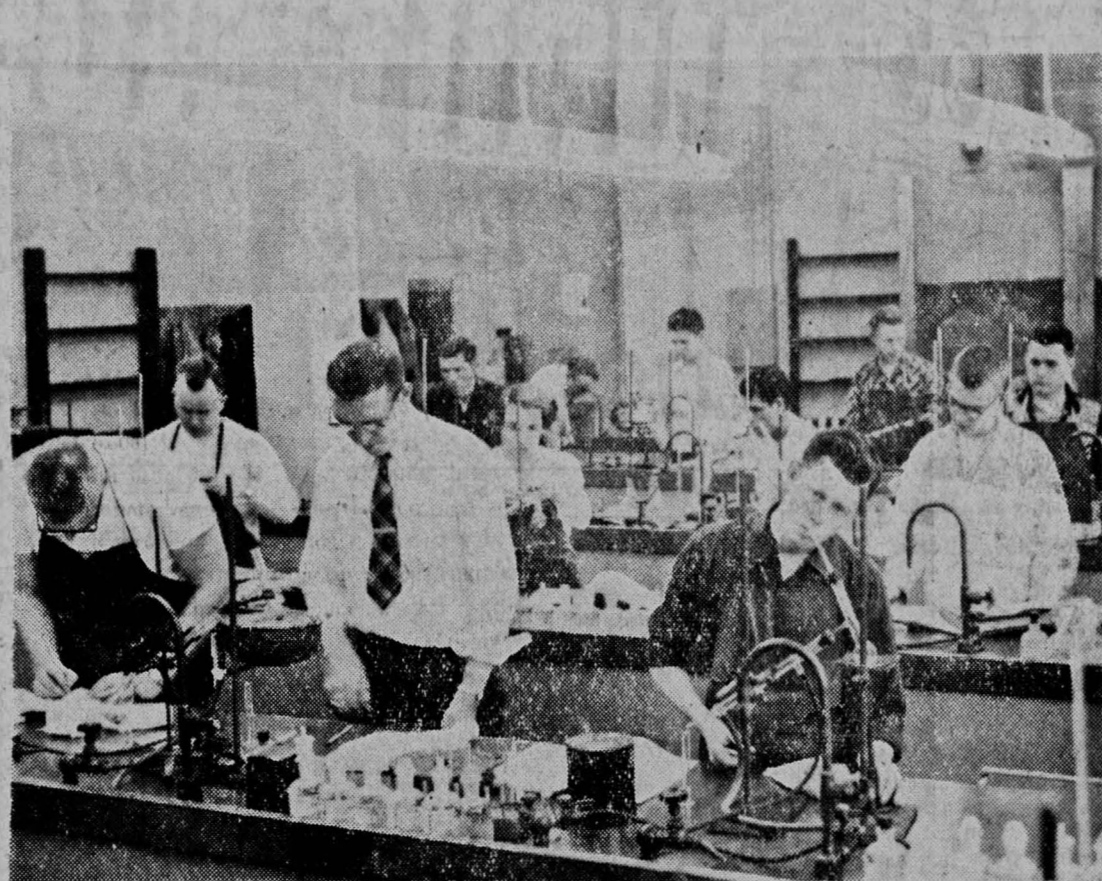

Other rooms are a small combination office laboratory for a staff member, and a stock and supply room. The college of pharmacy has a small research laboratory and the department of botany uses one room as an herb-arium annex.

Every possible precaution has been taken in the construction to prevent the recurrence of fire in the laboratories. While the pre-fire roof was wooden and had a false ceiling, the new roof is concrete, insulated, and fire-proof. The walls are steel panels. The reconstruction is planned to be durable, as well as versatile.

### Stork Catches Up With Pickup Truck

SIBLEY (P) — The stork raced along the highway west of Sibley Sunday when a son was born in a pickup truck to Mrs. George Geerdes of George. With her husband she was hurrying to the Osceola county hospital at Sibley when the infant was born 3 1/2 miles from Sibley in 3 above zero temperature.

The hospital said Monday that mother and child were doing fine.

SUI'S REMODELED CHEMISTRY CLASSROOMS are used by a group of chemistry students during a lab period. The fifth floor, which houses the bio-chemistry labs, was destroyed in a \$375,000 fire in 1953, and reopened for use early in February. The labs, which are really a laboratory-classroom combination, were remodeled for flexibility, so that the chemistry department could have rooms for both classes and lab use.

## Navy Defends Carrier's Role

WASHINGTON (AP) — Secretary of the Navy Thomas told congress Monday that mighty super-carriers are "indispensable" to modern fleets in this era of nuclear warfare.

He disputed critics' claims that the big flattops are too vulnerable to attack.

Citing the carriers' role in Korea and their "fringe war" assignments, Thomas said the recent evacuation of the Nationalist Chinese stronghold on the Tachen Islands proved the value of "a potent offensive navy, built around our carrier forces."

#### "Effective Brake"

"I am confident," he told the house armed services committee, "that the continued presence of our naval task forces in the Formosa area is an effective brake and a great deterrent to the outbreak of general war,

giving us time to work diligently for a real peace in the Far East."

Thomas pictured the navy of the future as one built around the striking power of giant carriers and consisting of widely dispersed fleets protected by screens of guided missiles.

#### Guided Missile Screen

He said that with proper ship dispersal, a screen of guided missiles coupled with conventional air defenses would make it likely that "even a mass destruction weapon could neutralize but a small part of the force."

The navy secretary went before the committee with other top officials to discuss the navy's proposed \$1,300,000,000 ship-building program for the year ending in mid-1956.

## Tito Claims Supply Of Nuclear Energy

BELGRADE, Yugoslavia (AP) — President Tito said Monday Yugoslavia has "ample raw materials" and know-how to produce nuclear energy for peaceful uses. He called for destruction of nuclear weapons and "active co-existence" among countries of the world.

Tito made a 90-minute address at the first session of parliament this year.

His statement was the first official assertion that this country has discovered within its borders the essential raw material, presumably uranium, for nuclear power. He made no reference to atomic or hydrogen bombs, confining himself to the term "nuclear energy."

#### BOTTLE STARTS BLAZE

CONWAY, Ark. (AP) — R. T. Cole, a water distributor, says a bottle of water started a fire in his home causing damages estimated at \$75. He says the bottle acted as a magnifying lens for the sun.

## Scouts Help Red Cross Drive

IOWA CITY BOY SCOUTS, left to right, Carry Gordon, Jerry Jones, Don Gordon, Garry Maske and Charles Megritt, receive Red Cross posters from David Price, district scout executive, in preparation to deliver them for publicity in the two week Iowa City Red Cross drive. The drive, which started March 1, has a goal of \$17,144.

## THINGS ARE HAPPENING IN THE CAMERA FILM WORLD

#### ANSCO

Has a new film they say "Sees Red." It is a Panchromatic film in a hermetically sealed package. It sells for the same price as the old ortho film. You can still save money on the three roll packs.

#### EASTMAN

Has the New TRI X film with speed and latitude that are unbelievable with a minimum of grain. We have some very interesting pictures taken inside and out in the 100 block on College Street. No flashes were used and exposures from 1/50th to 1/1200 at f22. See these on display in our store.

There is also the New Ektachrome color film that is three times as fast as Kodachrome. This film Eastman does not process. You can either process it yourself or bring it to us.

Not a new film, but the Eastman Plus X film now sells at the same price as Verichrome. It has always been considered a high grade, fine grain, panchromatic film.

#### LEITZ

Has three new films. ADOX KB-14, KB-17 and KB-21. KB-14 is a medium speed pan film with ultra-fine grain. Its resolution is outstanding for critical work. KB-17 and KB-21 are faster pan films and still fine grained.

YOU WILL FIND THESE FILMS AND MANY MORE IN ROLLS, PACKS, SHEET FILM—MOVIE 8 mm. and 16 mm at

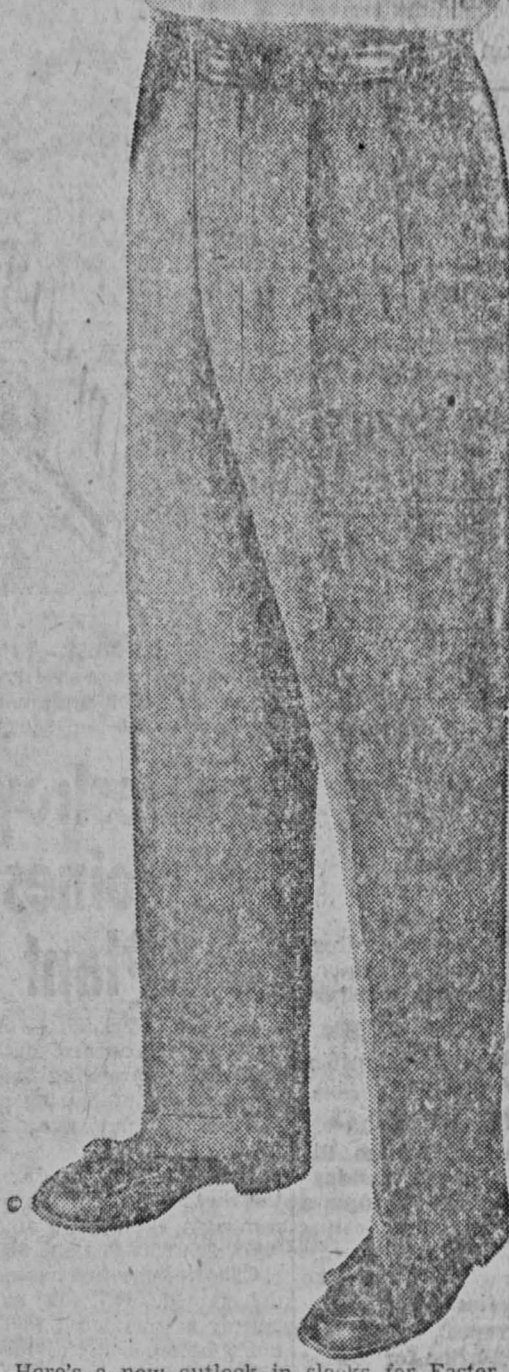

THE CAMERA SHOP of

## BREMERS

Quality First with Nationally-Known Brands

# Rec Stock After

WASHINGTON (AP) — The market broke sharply following testimony before senate banking committee stock buying ought to be on a cash basis, that there is much speculation.

However, Committee man J. W. Fulbright (D-Ia.) said of the market drop: "It has no connection with the study being made by this committee."

Some New York brokers attributed the sell-off market to testimony Tuesday by John Kenneth Galbraith, professor of economics at MIT university, who urged "precautionary measures" to avert a repetition of the tenuous market crash of 1929.

While saying there is speculation, Galbraith there are some "formidable guards" against a 1929 crash.

A reporter referred Galbraith's testimony as "gloomy statement. He said we should be cautious should be cautious when walking across the street."

Galbraith told the committee that "prevention rather than cure is our best hope."

He is the author of "The Great Crash," published next month, dealing the 1929 crash.

Harold E. Wood of St. Paul, Minn., chairman of the governors of the National Association of Securities Dealers followed Galbraith on the news stand and was asked Fulbright whether there

## Service Pay Hike OK'd

WASHINGTON (AP) — House Armed Services Committee voted 30-0 Tuesday career men in the armed pay raises running from 7 to 10 per cent.

House approval is Thursday, with senate to follow.

President Eisenhower the legislation in order down on what military described as a dangerous pervasive loss of good men leave for jobs in private industry.

The pay raises, averaging 11.9 per cent, become effective on the 1st of the month after they have been signed into law.

The house committee without change a subsequent version of the measure finally will add about 1.5 dollars a year to original estimates. This would cost to about \$745 million a year.

The bill boosts pay for enlisted men and warrant officers with more than two years' service and all commissioned officers with over three years' d

## Militarist Say Reds in

TOKYO (AP) — A top military leader said Tuesday Communists are in position to take the Nationalist Chinese islands of Quemoy and Matsu at any time.

The Chinese Communists reinforced air units in and have moved in troops to positions near the islands, officer, who cannot be identified, told correspondents.

Should the Communists be emphasized, the defense forces is up to President Eisenhower.

The officer said he Western observers were to overrate the Red China's military.

He observed that the Communists have a lar
