Iowa City, Iowa, Friday, April 22, 1955

The Weather

Continued low humidity and a little warmer today. Highs, 72 to 83. Partly cloudy and warmer with increasing humidity for Saturday.

## Prof. Wade Resigns; Head of Accounting

Prof. Harry H. Wade, head of the accounting department of the college of commerce, announced Thursday that he has submitted his resignation and will leave for "points south" shortly after this year's summer session. He has been at SUI 29 years.

"I have always enjoyed my work and many associations during my 29 years at Iowa City," Wade said, "and the main reason I am leaving is to locate in a milder climate."

Wade did not elaborate on what he intends to do upon leaving SUI. "My plans are still in the making," he said.

### Testimonials

Prof. Sidney G. Winter, dean of the college of commerce, said Thursday that whatever is said now of Wade's work at SUI "is of less importance than are the testimonials evident in the professional training which hundreds of students received from him."

"The many years we experienced as colleagues and friends are the context in which to express my appreciation for the help he has given, my regret at his leaving us, and my hope that he will be entirely happy in any new venture," Winter said.

Wade came to the university as a professor of accounting in 1926 from the University of Pittsburgh.

### 1950 Promotion

In 1950, he was named head of accounting in the college of commerce, replacing Winter who was named head of the college.

Wade became a certified public accountant in 1929 and was awarded an M.A. degree at SUI in 1931. He did his undergraduate work in industrial engineering at the Carnegie Institute of Technology.

### Organizations

Wade is a member of the Society of Certified Public Accountants, the Order of Artus and Sigma Nu, Delta Sigma Phi, Delta Alpha Phi and Delta Gamma Sigma fraternities.

A specialist in federal income tax and auditing, Wade is author of the book "Fundamentals of Accounting" and is a contributor to the "Journal of Accountancy."

## Student's Pennies Pay \$4 Fine

Two records were broken Wednesday by traffic violators paying fines at the Iowa City traffic bureau.

Clifford Freyermuth, E3, Muscatine, broke the first record when he paid a \$4 parking ticket early in the afternoon — all in pennies.

Mrs. Irene Shalla, traffic bureau clerk, said that Freyermuth walked up to the window and counted out 400 pennies from a quart container. She later counted them on the bureau's automatic machine, she said, and returned Freyermuth's three cent error.

A 1955 record for a total day's receipts from traffic tickets was set Wednesday at \$119. Forty-four motorists paid parking fines to beat the previous record, one year ago.

Wednesday's total was the largest amount collected since the new parking system came into use Jan. 1, which allows a free ticket for the first offense.

## Fight Seen To Restore Board Askings

DES MOINES (AP) — A floor fight in the house today for more money for the three state colleges and other State Board of Education institutions was indicated Thursday.

The State Board of Education asked for \$28,397,806 a year for its six institutions. The house appropriations committee cut the askings by \$1,658,556.

Eight representatives Thursday filed an amendment to restore the cuts made by the committee.

The appropriations bill is expected to come up for house action today.

The board said the committee reductions would eliminate a number of programs at its institutions, including \$70,000 worth of agricultural research at Iowa State college and \$33,000 worth of graduate research at SUI.

SUI officials claimed a \$150,000 cut in salary funds would result in loss of key faculty members.

## Urges Passage Of Toll Road Bill

DES MOINES (AP) — The house appropriations committee recommended unanimously Thursday afternoon the passage of the senate toll road bill — but with some confining strings attached.

The committee proposed some amendments, chief of which is one which would make this restriction:

The toll road authority which the bill would create would not acquire property, issue bonds until an adjoining state has created an authority, made plans for toll road and negotiated sale of bonds to construct a toll road to the Iowa border.

## Enjoys Sun Teen-Ager Subject Of River Drama

A teen-age youth sunning himself on the bottom of a motor boat on the Iowa river about 5 p.m. Thursday sent the Iowa City police and fire departments into fast action.

Eddie Hale, 13, son of Dr. and Mrs. Merle L. Hale, SUI director of oral surgery, reportedly took his father's motor boat out on the river to enjoy the sun.

Eddie said that he made several trips up and down the river and then lay down in the bottom of the boat with the motor off. He said that he was floating near the Park bridge when he heard "the commotion."

"I had been out about an hour," he said, "when the fire and police department came. I went over to tie-up and see what was going on."

Police a few minutes earlier received a call from a resident in the neighborhood who reported an empty boat floating down stream. Firemen took the emergency boat to the scene and the police went to keep busy with 5 p.m. traffic.

Asked if he planned to go out on the river today, Eddie replied, "I don't think so." He wasn't quitting boating as a pastime, he just has track practice, he said.

# Nationalists Speculate Result Of U.S. Envoy's Formosa Visit

## Fear Yielding Of Islands To Reds

TAIPEH, Formosa (AP) — Some worried Nationalist officials Thursday guessed that a U.S. envoy now flying to Formosa will ask them to yield Quemoy and the Matsus without a fight.

The reason for the hurry-up visit of Walter S. Robertson, assistant secretary of state, was not known here.

There were reports in Washington Robertson would sound out the Nationalists on a cease-fire line in the middle of Formosa strait. The Nationalists have opposed any cease-fire.

### Radford Goes Along

Adm. Arthur W. Radford, chairman of the joint chiefs of staff, is accompanying Robertson. Radford has opposed withdrawals from off-shore islands. Some Nationalists even guessed there was a U.S. decision to defend the islands.

However, Robertson has frequently been the bearer of what the Nationalists consider bad news. He was here last fall. There followed a "coastal sanctuary" ruling which stopped the Nationalists from attacking the Red mainland by sea or air.

Nationalists from President Chiang Kai-shek on down have vowed to defend both Quemoy and the Matsus, 120 and 140 miles from Formosa.

### Reds Building

A Nationalist official said privately he was surprised at Washington by the "fiendish speed" with which the Reds are building airfields across Formosa strait.

Four fields are reported nearing completion within easy operational range of Formosa.

The official said that supply lines to these fields — whose completion had not been expected for months — also were completed or nearly finished.

Furthermore, he said Red planes already are at both ends of the Formosa strait or would be soon. Press reports Thursday said 800 Red planes — including late model Russian jet fighters and twin-jet bombers, have been moved along the southeast coast of Red China.

## George Says Trip To View Situation

WASHINGTON (AP) — Sen. Walter F. George (D-Ga.), chairman of the senate foreign relations committee, said Thursday he thought the primary reason for the sudden dispatch of a high-ranking U.S. mission to Formosa was just to get a first hand view of the situation.

He said the question of the possible evacuation of Quemoy and Matsus islands "might come up" but he didn't think anything would come of it.

One of Engineering Exhibits

SETTING UP A MODEL of a distillation column, 1 of 34 exhibits for high school students and other visitors at the college of engineering "open house" this weekend, are (left to right) Filipino graduate students Keng Chin Uy and Francisco Cheng; junior Matthew T. Callahan, New York, Om Parakash Piplan, Meerut, India, senior, and graduate student James T. Brady, Tipton.

## Engineers To Hold Tours For School Youths Today

Hundreds of high school students are expected to attend the "open house" activities of the SUI college of engineering today and Saturday.

General chairman Don Goetz, E4, Washington, said several thousand letters have been sent to high school students who have indicated an interest in engineering. Additional letters have been sent to the principals of schools not covered by the college's field trips and to other Iowa colleges.

This is the first year that the open house will not be in conjunction with the state high school basketball tournament, which is now held in Des Moines. Although the annual affair is primarily for high school students, everyone is invited.

### Tours

Tours through the five departments — civil, mechanical, electrical, and aeronautical — will start each day at 9 a.m. The tours will continue throughout the day, excepting during assemblies, which will be held at 11:30 a.m. and 3:30 p.m. both days.

After visitors register at the main engineering building at Washington and S. Capitol, they will be assembled in small groups. Student guides will direct the tours.

### 35 Exhibits

Thirty-five exhibits will be on display in the various engineering buildings.

Those visiting the electrical department will be among the first members of the public to see the initial units of the new Iowa electronic test processing equipment now being installed in the SUI college of education.

This high-speed test scorer will be capable of scoring as many as 1,400 tests per minute. Designed by Prof. E. F. Lindquist, director of the Iowa testing program since 1929, the new electronic equipment will eventually be used in scoring and reporting a variety of standardized testing programs.

### Other Departments

The civil engineering department will exhibit bridge structures, a highway and dam display, soil mechanics laboratory, materials testing laboratory and surveying instruments.

Included in the mechanical engineering exhibits will be the time and motion study laboratory, Corliss steam engine, GE twin turbo-generators, 150 HP motor-generator set, machine shop, aeronautical power laboratory, wind tunnel, foundry, heat-

engineering exhibits will be the time and motion study laboratory, Corliss steam engine, GE twin turbo-generators, 150 HP motor-generator set, machine shop, aeronautical power laboratory, wind tunnel, foundry, heat-

treatment laboratory and the welding shop. The chemical engineers will display the unit operations laboratory, vacuum drier, Oliver filter, heat engine, Cottrell precipitator, oil testing equipment and a distillation column.

## Science Training Lacking: Noyes

Lack of scientific training in the secondary schools, general apathy toward science, and economic factors were the reasons cited by chemist Albert Noyes Jr. as the reasons why more young people are not attracted to science as a profession.

Noyes, professor of chemistry, and dean of the graduate college at the University of Rochester, Rochester, N.Y., told members and guests of the Iowa section of the American Chemical society that a better attempt must be made to interest more young people of college and high school age in the fields of science.

In his speech, "Some Problems in the Training of Scientists," Noyes pointed to the meager and sometimes non-existent training of people in secondary schools in the subjects of chemistry, physics and mathematics as one of the major factors which limit persons entering college in pursuing a science major.

### Lack Trained Teachers

He also indicated the lack of adequate training of high school teachers contributed to the problem.

Speaking on the teaching problem, Noyes commented: "How can teachers in secondary schools influence young people to become scientists if they are not specifically trained in the subjects they are teaching?"

He stated that only five per cent of high school students in the United States enroll in courses in physics and chemistry. Noyes added that this figure is dropping.

Criticizes Education Practices "Fewer high schools," he said, "are teaching chemistry, physics or mathematics. People coming to college really don't know much about these subjects. They haven't had an opportunity to find out if they are interested in

## Ceylon Leader Raps Reds' 'Colonialism'

BANDUNG, Indonesia (AP) — Ceylon's Prime Minister Sir John Kotelawala told the Communists Thursday to dissolve the Cominform if they really want peaceful coexistence with the West.

He singled out the Cominform as a main organ of "Communist colonialism."

He called for dissolution of the Cominform on two occasions Thursday — in a speech to the conference's important political committee and later in a statement to correspondents.

Kotelawala got the jump on Red China's Premier Chou En-lai and India's Prime Minister Nehru, who supports the Communists' drive for coexistence.

The Ceylon prime minister gave out his statement in advance of discussions of East-West coexistence by the political committee. Chou insisted in his remarks at the conference's plenary session that the Communists are eager to coexist peacefully with the West.

Informants said that when the 58-year-old Ceylon leader first brought up his proposal for dismantling the Cominform in an address to the political committee's closed session, Chou leaped to his feet and demanded time to reply today.

Kotelawala said most countries in the Orient have learned that "local Communist parties, wherever they exist, regard themselves as the agents of the great Communist powers, Russia and China."

"They make no bones about it. Why should we? Their loyalty is to Moscow and Peking, and their role in African-Asian affairs has been to create as much disruption as possible to prepare the way for armed insurrection or other forms of subversion more insidious but no less deadly."

He said that if the Communist countries are in earnest about wanting peaceful coexistence, they should prove it by "dissolving the Communist party in Ceylon and indeed in every other country in this region" and direct "the activities of the Communists into useful, peaceful and constructive channels."

## Repaired Jet Leaves Here For Its Base

The F-80C jet plane, which made a forced landing here due to electrical failure Tuesday, left Thursday at 5:10 p.m. for the 440th fighter-bomber wing reserve unit at Minneapolis, Minn., its base.

The plane was on a routine navigation proficiency flight (cross-country) before instrument failure forced it down at the Iowa City airport. A seven man repair crew and a pilot were flown into Iowa City early Thursday morning.

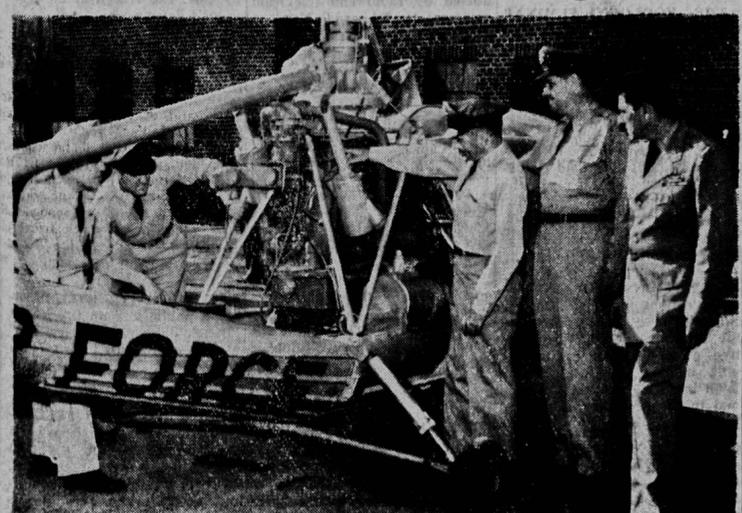

When asked about the forced landing and instrument failure, Chief Warrant Officer Van Patten, in charge of the repair crew, said, "The pilot, 1st Lt. Robert O'Conner did a masterful job in bringing the plane down; he should be commended. However," he said, "electrical failure is just one of those things that pilots have to contend with; every mechanical part has only one lifetime. After that, the pilot is on his own."

There seemed to be some question as to whether the jet could take off from the short 4,300 foot runway.

Capt. J. I. Bonini, who piloted the plane on its trip home, said jokingly, "When I become airborne, I will have about 300 feet of runway left. They (the residents) will probably call me in for a violation (flying low)."

Bonini planned to land the plane, which was refueled from the repair crew's plane, in Minneapolis 40 minutes after his take-off from Iowa City.

## Air Force Exhibit To Begin Here Today

AIR FORCE ROTC officers look at the mechanism of the YH-23 helicopter which will be displayed today and Saturday south of the field house. Officers are, left to right, Maj. Harold P. Rogers, Maj. Kenneth S. McEwen, 1st Lt. Morton C. Blaisdell, Capt. Kenneth A. Dyer and Maj. Emilio P. Ratti.

The U.S. air force display on exhibit today and Saturday south of the field house has been expanded to include a large bomb display, brought here by truck from the Savannah Ordnance depot, Savannah, Ill.

The bomb display includes a 10,000-pound "blockbuster," a 500-pound bomb, and smaller missiles, including fragmentation and anti-personnel bombs.

Feature of the exhibit is the "Lucky Lady II," the B-50 bomber that flew non-stop around the world in 1949. The plane has been dismantled for travel, but is joined on the display site, and has been modified to permit spectators to inspect the interior of the plane.

Also on display is a YH-23 helicopter, a 40-foot tactical air command exhibit, cutaway airplane engines, and air force movies.

The helicopter is the type used extensively for rescue work in Korea. The YH-23 was widely employed in evacuating wounded to rear areas.

The display is free and open to the public.

Prof. Albert Noyes Jr. Tells of Scientist Shortage

### science.

Noyes also criticized the freshman courses in chemistry in the present college curriculum. He said that many students are lost at this stage because they are not able to understand the subject adequately.

He suggested that college instructors help these people along by taking more time to present and explain material to them. Some specialized courses, Noyes urged, should be deferred to later years, and a more inclusive education given to students majoring in science.

The famed scientist also suggested that non-science majors be given courses in understanding science in order to offset the peculiar attitudes and suspicions

## Wise Council—

In a swampland near Walt Kelly's Pogo-land, the birds, animals and reptiles had joined to organize a nation which gave Democratic voice to all on matters of government of the swamp.

Because everyone admitted that the Owl families were the wisest in the swamp, they were elected to the swamp legislature to consider wisely and calmly all of the laws and policies. They appointed other committees of animals to carry on the functions of the administration.

A few miles into the gulf and completely out of the swamp territory, there were a few small islands inhabited by terns, gulls and shell fish who were friendly to the Swampland's ideas of government and tried to ape its administration.

However, these islands had long been coveted by the Kingdom of the gulf which said that they were the base for raiders — the gulls and terns — who had been wreaking depredations against the inhabitants of the Kingdom of the Gulf.

In turn, the inhabitants of the islands claimed that the Kingdom of the Gulf was their rightful possession and they were only biding their time until they could reclaim the kingdom.

Because the Swampland felt the island peoples were in danger of invasion, the Owls had dispatched part of their potent sea-force — the alligators — to patrol the waters around the islands to prevent active aggression until the claims could be considered on their merits by the United Assembly of Creatures, a world-wide debating and quasi-legislative group.

But before the case could be decided by the United assembly, it came to the attention of young Bill Screech-Owl, leader of the minority group in the legislature, that the Kingdom of the Gulf was increasing its force of savage Sea Eagles near the islands and he was afraid that the task force of alligators would be in danger.

He felt that this should be investigated by the Owls themselves rather than being left to the discretion of the president of the swamp and his military and foreign advisers who were skilled in analyzing the situation.

Wise old Walter Hoot-Owl, who was head of the foreign affairs committee of the Owl legislature and who was directly concerned with the situation as part of his job, counseled against the appointment of a special Owl committee to study the matter.

He pointed out that military advisers and naval strategists were aware of the situation and could be depended on to act wisely and with discretion if the situation became truly dangerous.

Hoot-Owl advised that the Owl legislature should be more concerned with the determination of the true facts of the basic claims and counter-claims in the dispute. The alligator force was only carrying out orders. It was the duty of the legislature to determine policy. And besides, at this time at least, there was no undue danger to the sea force.

He intimated that the Owls would be better off to leave the matters in the hands of the experts and to concentrate on their own duties.

Though most of the swamp constituents were concerned about the safety of the fleet and were heartened to find that their representatives reflected their interest, they too agreed with Hoot-Owl that the matter should be left in the hands of the expert old Owls and their corps of military and foreign affairs experts.

## More Important Business—

U.S. Congress  
Washington, D.C.  
Re: Bricker Amendment  
Gentlemen:

We regret to inform you that the senate resolution calling on congress to adopt the "Bricker amendment" was killed in the house constitutional amendments committee.

If you desire advice on any other problem of national scope, don't hesitate to call on us.

In the meantime, we will return to the matter of legislating for the state. There are a number of local problems which still require our attention.

Respectfully yours,  
The Iowa General Assembly

P.S. The family requests that no flowers be sent.

## Old Capitol Remembers

### ✓ One Year Ago Today

Sen. Joseph R. McCarthy (R-Wis.) charged assistant Secretary of Defense H. Struve Hensel with masterminding an army report blasting McCarthy, to head off a probe of Hensel's own "misconduct" and "possible law violations."

Maj. Clayton J. Boddy, fifth army headquarters, Chicago, reported the relationship between the ROTC staff and the university "outstanding" at SUU.

### ✓ Five Years Ago Today

An air force C-54 plane carrying 35 persons crashed into a mountainside and burned south of Tokyo, killing all aboard. Indiana gained a 5-4 victory over the Hawkeye baseball team in the home conference opener.

### ✓ Ten Years Ago Today

Red tanks burst into the flaming streets of Berlin, within three miles of its heart. Candidates were granted 325 degrees and 16 certificates at SUU's 85th commencement and the 13th wartime ceremony.

### ✓ Twenty Years Ago Today

President Franklin D. Roosevelt endorsed tripling of the civilian conservation corps forces engaged in combating soil erosion, as a first move in his work-relief program. The Hawkeye baseball team took the third straight game on a road trip, defeating Bradley Tech at Peoria, Ill., 5-4.

## Government Sells 2 Rubber Plants

BATON ROUGE, La. (AP) — The federal government Thursday took its first step toward getting out of synthetic rubber production, turning two plants over to private owners. The plants were purchased by

## Chinese Firecrackers

## Will Einstein's Brain Give Clue to Genius?

BY FRANK CAREY

Associated Press Science reporter WASHINGTON (AP) — It may take another 50 or 100 years before science can say "what makes a great brain tick" — for example, a brain such as that of Albert Einstein.

There are certain tentative clues — such as over-size of particular areas of the brain, richness of grey matter, and lack of a tendency to develop arteriosclerosis in the brain despite advancing years — but there is as yet no over-all pattern for the "brain of a genius."

This was the picture presented Tuesday by Dr. Webb Haymaker, chief of the neuropathology section of the Armed Forces

Institute of Pathology. He has examined brains of many persons of varying intelligence and accomplishment, after death.

"It's in this sense that the study of Professor Einstein's brain is valuable — that is, it furnishes still another opportunity to try to add to the picture of what makes a brain 'tick.'"

Einstein, who died Monday, willed his brain to science and it will be submitted to examination.

"There just haven't been enough previous studies by anyone," Dr. Haymaker said, "to warrant any over-all statement as to what constitutes a 'genius' brain."

## Interpreting the News—

## 'Great' Brains a Mystery

BY J. M. ROBERTS

Associated Press News Analyst So the scientists are going to pick the brain of Albert Einstein once more to see if it can add some last bits to their store of knowledge.

What can they find? Perhaps certain small conformities slightly different in a brain which spent its life thinking as compared with those which spend their lives contemplating pleasure or the more active impulses?

But will they be able to find the cells which provided the panoramic screen on which other cells projected the picture of a universe?

Will they be able to find the dividing line between the cells which were so coldly mathemat-

ical, and those which made the man seek and gain a place of warmth amid all humanity?

Why one is endowed as others are not is a mystery upon which Einstein himself gave up. If one could be reconstructed from his component parts, we could re-create another Einstein in a very few tomorrow.

But there would be one element lacking, one which cannot be measured even by the equations that measure the parts of a broken atom. Man may seek, but it is doubtful if he will ever find that element in the books of science.

## Council President's Report

(EDITOR'S NOTE: This is the fourth in a series of reprints from the "Report of the President," compiled and presented by Tom Choules, president, 1954-55 SUU Student Council. The entire report will be reprinted on succeeding days).

12. Homecoming: Four members of Student Council now sit as official members of the University Homecoming committee and their reports are on file. I suggest that you contact Mr. Elbe, chairman of this committee for further appointment for next year. This committee will meet this spring and those appointments should be made soon.

12. Housing: The housing report from which more complete committee chairman Bill Vandercreek to draw up due to the unavailability of any financial records or other information concerning the operation of housing. Student Housing Profits The conclusions that follow are from Bill Vandercreek's report from which more complete information may be ascertained

in the Student Council office. First, the profit margin of married students' housing is greater than that of dormitories. Second, the dormitories are approaching a marginal profit basis.

Third, Parklawn building project is not self-liquidating. Therefore, profits from these housing units are used to liquidate debts.

It is recommended that the Student Council attempt a reduction of present Parklawn rates because the feeling in the Iowa City area is that if the university can charge this amount, that the townspeople should raise theirs to equal this.

Lower Rates Proposed This does not alleviate the great shortage of apartments for married students in Iowa City. It is felt that if the Student Council contacted, and presented a proposed rate change in May that they may have some effect on student interest in this matter.

It is felt that some information concerning finances of student housing should not be made public. The Council feels the students should be consulted in other student housing matters.

14. Human Relations: The Human Relations committee under the leadership of Paul Holmes, did an excellent job this year in discussing the area in which it should work and various programs within that area.

Problem of Discrimination The following were discussed and results are listed in the Human Relations report. 1.) The Liberal Arts advisory program. It was felt that orientation leaders could help to make this a great success. Letters were sent to them in this effect. 2.) A study of a health insurance plan for the student body was discarded as being unnecessary at Iowa.

Human Rights week was sponsored by this committee. Also, investigations were made into the problem of discrimination on campus and university and community relations.

15. International Relations committee: Joanne Hotz was chairman of the International Relations committee aided by Marilyn Coleson. The Interna-

tional Relations committee can be of more help on campus if it is integrated with foreign students work.

Aid Foreign Students It is suggested that they contact Mr. Manor and work with him. Various international groups held conferences this spring on many of the other campuses.

Iowa declined to participate in some due to other conflicts. One of the recommendations of this committee is that at orientation time, perhaps a special consideration should be given to the foreign students rather than only integrating them with the other students.

16. Leadership Training program: In the spring of 1954, the leadership training program was conducted and included a series of eight lectures with prominent leaders delivering speeches to all students interested.

I feel that the program could be conducted this spring and include all the newly elected student leaders.

## Longman To Judge Chicago Art Show

Prof. Lester D. Longman, head of the SUU art department, will be one of the judges in the "58th Annual Exhibition by Artists of Chicago and Vicinity."

Longman, with Edmund D. Lewandowski, director of an art school in Milwaukee; and Ezio Martinelli, painter and printmaker; will select the works to be shown in the exhibition and award 22 prizes worth \$7,850.

The exhibition is limited to artists who lived within a hundred-mile-radius of Chicago and in Illinois.

## School Co-Ordinator To Attend Conference

David K. Stewart, co-ordinator of Iowa City elementary education, will attend a meeting for directors and supervisors of elementary schools from Iowa's 17 largest cities in Clinton on April 22 and 23.

Elementary curriculum and educational ideas will be discussed at the meeting.

## LAFF - A - DAY

## GENERAL NOTICES

General Notices should be deposited with the editor of the editorial page of The Daily Iowan in the newsroom, room 201, Communications center. Notices must be submitted by 2 p.m. the day preceding first publication; THEY WILL NOT BE ACCEPTED BY PHONE, and must be typed or legibly written and signed by a responsible person. No General Notice will be published more than one week prior to the event. Notices of church or youth group meetings will not be published in the General Notices column unless an event takes place before Sunday morning. Church notices should be deposited with the Religious news editor of The Daily Iowan in the newsroom, room 210, Communications center not later than 2 p.m. Thursday for publication Saturday. The Daily Iowan reserves the right to edit all notices.

ANNUAL IWCA MOTHER'S day corsage sale: Orders will be taken by Live-Yers in women's housing units, Y representatives in men's housing units. Orders can be given: Monday, April 25, Tuesday April 26. Orders may also be given now through April 26 at the IWCA in the Union. Corsages will be delivered to housing units on Sunday, May 8, early in the morning. If corsages are desired earlier, they may be picked up at Curtis florists, highway 218 south. Corsages: Roses — \$2 — yellow, pink or red. Gardenias (6) — \$2.50. Orchid — \$3. Money must accompany order.

TICKETS FOR THE UWA foreign student dinner may be purchased for 75 cents in the Office of Student Affairs. A Norwegian dinner will be held Saturday, April 23, at 6 p.m., at Wesley foundation.

CENTRAL PARTY SUB-committee workers are asked to come to the Old Armory to work on the Spring dance decorations, 2 to 5 and 7 to 9 p.m. daily, and 10 a.m. to 4 p.m. Saturday.

HILLEL EVENTS: FRIDAY evening service, 7:30, followed by Prof. T. Z. Koo speaking on "The Situation in the Orient," and playing the flute. Sunday at 4 p.m., council meeting for drawing up a slate of new officers for next year. Supper, 6 p.m.

THE PSYCHOLOGY COLLO-quium presents Dr. Howard Hunt, of the University of Chicago, speaking on "Some Effects of Punishment," Saturday, April 23, at 10 a.m., in Shambaugh lecture room, main library. All interested persons are invited to attend.

THE GRADUATE CLUB will have a Grad club mixer Monday, April 25, at 7:30 p.m. in the River room of the Iowa Memorial Union, including a 45-minute version of Dickens' "Tale of Two Cities," with Ronald Colman; dancing and refreshments; bridge for those desiring it. All graduate students and undergraduates of graduate age and interest are invited.

THE UNIVERSITY COOPER-ative Baby-sitting league book will be in charge of Mrs. C. R. Steward from April 19 to May 3. Telephone her at 8-0235 if a sitter or information about joining the group is desired.

A ONE-HOUR FILM OF AN interview with nuclear physicist J. Robert Oppenheimer, conducted by radio and television commentator Edward R. Murrow, will be shown in the Shambaugh lecture room in the SUU library at 4:10, 5:20, 7:30 and 8:45 p.m., Tuesday, April 26.

ATTENTION VARSITY RIFLE team members and future members!!! There will be a very important meeting Tuesday, April 26, at 8 p.m. in the Armory range. It concerns the plans and code for the 1955-56 season. Please be there and urge other members to attend also.

THE ZOOLOGY SEMINAR will meet today at 4:10 p.m., in room 201, Zoology building. Prof. William E. Hazen of the University of Chicago will speak on: The marine ecology of western North Atlantic fiords.

PROF. CHARLES G. BELL, University of Chicago, will speak on "Dante: Transition and Transcendence" Monday, April 25, at 8 p.m. in the senate chamber, Old Capitol. The graduate college and the Humanities society sponsor the talk.

ATTENTION ROTC CADETS: All interested army and air force cadets are invited to compete in the Governor's Rifle match to be held on Tuesday, April 26. Cadets can fire at either 5:15 p.m. or 7:15 p.m. Awards for the top three shooters will be presented by Gov. Leo Hoegh at the Governor's day parade.

ALL-UNIVERSITY BRIDGE tournament will be held Saturday, April 30, at 2 p.m. in the Union. Applications are due Friday, April 22, by 5 p.m. at the Union desk. Trophies will be given to the top four.

ALL SUPERS INTERESTED in folk dancing are invited to an open dancing session today from 8 p.m. to 11 p.m. in the Women's gymnasium. Special instructions will be geared for newcomers. Light, informal attire is recommended, and women are urged to wear low heels.

BILLY MITCHELL SQUAD-ron of the Arnold Air society will assist with the air force open house being held today and Saturday, April 23. All members who have been assigned duty on these days are to report to the AAS cadet on duty at the hour when they will work. Members who have not been assigned hours to work should report to Norman Smalley, Ron Crawford or Bill Vaughan before Friday!

ATTENTION STUDENT NURSES: Elections for officers of the Student Nurses' organization and for the Union board representative of the college of nursing will be held today in Westlawn lobby, 10 a.m. to 7:30 p.m., and in Currier lobby, 4 p.m. to 7 p.m.

ALL FACULTY MEMBERS are cordially invited to attend the air force open house to be held at the Armory today and Saturday, April 22 and 23.

IOWA CHRISTIAN FELLOWSHIP will show a missionary film entitled "Within the Walls," at 7:30 Tuesday evening, April 26, at conference room 1 of the Iowa Memorial Union. The film is produced by the Chinese Native Evangelistic crusade about missionary work in Hong Kong and Singapore. Ted Choy, a worker on leave from the crusade, will introduce the film.

# To Present Matrix Table Awards Tonight

University and town women will be honored for outstanding campus and community service and leadership in public affairs tonight at the first annual Iowa City Matrix table for women. The banquet will begin at 6 p.m. in the River room of the Iowa Memorial Union.

Clubs and organizations submitted names to be considered by two boards of judges who made the final selections. Miss Helen Reich, assistant director of the Office of Student Affairs, heads the campus selection committee. Assisting her are Thomas Choules, L3, Idaho Falls, Idaho, former student council president, and Vivian Hochstetter, C4, Kalona, former University Women's association president.

**Town Board**  
The board of judges for Iowa City women includes Mrs. Fred Pownall, women's page editor of the Iowa City Press-Citizen, chairman; Mrs. Paul Vermillion, president of the Iowa City League of Women Voters, and Mrs. Arthur Kern, president of the Woman's club.

**COFFEE HOUR SCHEDULED**  
The annual spring orientation coffee hour for next fall's SUI orientation group leaders and faculty hosts and hostesses will be held May 9, from 4 until 5:30 p.m. in the main lounge of the Iowa Memorial Union.

Jasper county representative to the state house of representatives, will speak on "Women's Role in the World Today."

The banquet is sponsored by Theta Sigma Phi, honorary professional fraternity for women in journalism. The banquet draws its name from the fraternity's pin, which is shaped like a lino-type matrix. It is traditional that chapters throughout the country

hold Matrix Table banquets in the spring, in honor of the group's founding.

**Committee Members**  
Jean Brown, A3, Davenport, is chairman of the awards committee. Other committee heads are Jo Murray, A4, Galesburg, Ill., and Marian Shapiro, A3, Washington, D.C., decorations; Patricia Jensen, A4, Des Moines, and Sally Werner, A3, Rock Island, Ill., invitations; Jean Leinhauser, A4, Ottumwa, and Grace Kaminkowitz, A4, New York city, publicity; Kay Cross, A4, Oelwein, and Prof. Virginia Coverdale of the school of journalism, advisor to the group, menu and hospitality.

## Presents 1st Graduate Club Card

GRADUATE CLUB MEMBER Janet Smith, G, Akron, O., receives the first membership card from the group's president, Murray Yaeger, G, Denver, Colo. The new membership cards will be available at the club's next meeting, Monday evening at 7:30 in the River room of the Iowa Memorial Union. Membership dues are \$1 for a semester.

## In the Shops I Saw...

BY JAN PAPKE

Gay plaid and print matching swim trunks and shirts. Made of cotton material for about \$10.

Salad washers made of light wire mesh. Place salad or vegetables in to the washer and hang it on a facet so water will run through freely. Can be used for straining, also. \$1.

Kitchen set containing four gay dish towels, hand-painted wooden salt and pepper shakers and a wooden fork and spoon salad set. Perfect gift for the bride for under \$3.

Disposable pans, holder set for frying, baking, broiling and warming food. Made similar to a skillet, the pans are made of heavy tin foil. About \$3.

Matching Bermuda shorts and sleeveless blouse sets. Solid helio shorts and solid pink blouses or striped blouses with solid brown, black, or gray shorts. Set about \$7.

Plastic phone covers in red, green, ivory or gold metallic. About \$3.

Decorating comb for simple, quick decorating of pastry and cakes. About 30 cents.

Flat top, wide brim hats of rain resistant fabric called "Wahoo" hats. In orange, helio, pink or natural with black trim and gray or black with pink trim. About \$2.

Square aluminum griddle-grills. Extra heavy weight, they hold more than the standard round griddle. About \$3.

## About The Servicemen

Capt. William J. Doherty, 438 Clark st., recently was graduated from the infantry school's company grade officer refresher course at Ft. Benning, Ga. Doherty has returned to his civilian position as a contact representative for the Veteran's administration hospital.

Lt. Col. Richard T. Feddersen, 250 Black Springs circle, recently was graduated from the command and general staff college's special associate course at Ft. Riley, Kan.

Feddersen has returned to his position as an auto dealer with Nall Motors, Inc. He is a 1941 graduate of SUI, and a member of Phi Beta Kappa.

Cpl. Stephen F. Boyle, son of Mr. and Mrs. J. Boyle, 719, E. Ronalds st., is now a member of the 8029th army unit at Camp Gifu, Japan.

Boyle, assigned with post publications, attended SUI and entered the army in March, 1953.

## Church Group Plans Meeting

Mrs. Annie Mary Allen, New York City, treasurer of the foreign missions staff of the Presbyterian church, will be the principal speaker at the annual meeting of the Iowa City Presbyterian Tuesday in the First Presbyterian church, Muscatine.

Mrs. L. R. Taylor, Iowa City, will be one of the syndical guests attending the meeting. Iowa City women wishing to make reservations may call Mrs. Hazel Miller, 9231.

**SALAD DRESSING**  
Prepared pectin may be used to make a salad dressing that will not separate.

## DZ's To Entertain At Hospital Saturday

Members of Delta Zeta social sorority will entertain at the Veterans hospital Saturday at 2 p.m., Barbara Behrens, A4, Oelwein, chairman of University Women's association service committee, has announced.

A trio of Sharon Parks, A1, Okoboji; Jacquelyn Dethmers, A2, Albert Lea, Minn., and Mary Jane Harms, N2, Vincennes, Ind., will sing "Where or When" and "Kentucky Babe," accompanied by Gretchen Wiegman, N1, Cedar Rapids.

Miss Dethmers will give a reading, and Patricia Silva, A1, Hawaii, will lead community singing with her ukelele. Miss Silva will close the program with a Hawaiian hula dance.

## Miss Fredericksen Engaged

Miss Helen Kaye Fredericksen

Mr. and Mrs. F. H. Fredericksen, Humboldt, announce the engagement of their daughter, Helen Kaye, to Mr. Neal R. Christensen, son of Mr. and Mrs. Chris Christensen, Humboldt.

Miss Fredericksen, a freshman

in liberal arts, is a member of the Alpha Delta Pi social sorority. Mr. Christensen is a sophomore in liberal arts.

No wedding date has been announced.

## Delta Sigma Pi Initiates 30

Thirty men recently were initiated into Delta Sigma Pi, professional commerce fraternity.

The new initiates are William Agnew, C3, Holstein; William Atkinson, C3, Clinton; Roland J. Blindt, C3, Marion; Frederic Bohlken, A2, Burlington; Russell Cress, C3, Iowa City; John F. Currell, A2, Cedar Rapids; Joseph Fitzgerald, A3, Ft. Madison; Charles Frandson, C3, Story City; James Gilchrist, A3, Iowa City.

Gordon Halverson, C3, Elkader; Robert Isenberger, A2, Clarion; Don Lein, C3, Maquoketa; John Mackin, C3, Mason City; Frederick Mann, A1, Wilton Junction; James Murphy, C3, Waterloo; Victor Naxera, A2, Cedar Rapids; Kenneth Otto, C4, Sheboygan, Wis.; Richard Peldo, A2, Cresco; Richard Robinson, A1, Maquoketa.

Patrick Ryan, A1, Cedar Rapids; James Santos, A1, New York city; William Schesser, C3, Davenport; Leroy Schmidt, A2, Strawberry Point; Charles Seaberg, C3, Moline, Ill.; Robert Sperverson, A2, Lake Mills; Donald Stuedeman, C3, Clinton; Gary Ulrich, C3, Garner; William Welchko, C3, Iowa Falls; Harry Wenner, C3, Des Moines, and Dean Williams, C3, Osage.

## 4 Named to UWA Council

Four SUI coeds have been named to University Women's association for 1955-1956, according to UWA president Suzanne Reider, A3, Eagle Grove.

The new council members are Phyllis Fleming, A3, Garner, executive secretary; Jobyna Rankin, A3, Tracy, Currier representative; Barbara Work, A3,

Homewood, Ill., publicity chairman, and Phyllis Fischer, A3, Elgin, Ill., chairman of student-factory coffee hours.

Miss Fischer has announced a committee of Marilyn Baxter, A1, Rockford, Ill., contact; Carol Crawford, A1, Iowa City, arrangements; Cecelia Kirby, A3, Sioux Falls, S. D., hosts and hostesses, and Kay Keith, A2, Utica, Ill., publicity.

## Miss Work Receives College Board Award

Barbara Work, A3, Homewood, Ill., has been awarded a \$10 runners-up award for the third assignment of this year's Made-moiselle magazine's college board contest.

Miss Work is in competition with college women throughout the country for 20 guest editorships which the magazine awards each June.

# Why do more college men and women smoke VICEROYS than any other filter cigarette?

BECAUSE ONLY VICEROY GIVES YOU A PURE, NON-MINERAL, NON-TOXIC FILTER WITH 20,000 FILTER TRAPS IN EVERY FILTER TIP!

- Yes, only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.
- Besides being non-mineral and non-toxic, this cellulose-acetate filter never shreds or crumbles.
- The Viceroy filter wasn't just whipped up and rushed to market to meet the new and skyrocketing demand for filtered cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.
- Smokers en masse report that filtered Viceroy has a finer flavor even than cigarettes without filters. Rich, satisfying, yet pleasantly mild.
- Viceroy draws so easily that you wouldn't know, without looking, that it even had a filter tip . . . and Viceroy costs only a penny or two more than cigarettes without filters!

That's why more college men and women smoke VICEROYS than any other filter cigarette . . . that's why VICEROY is the largest-selling filter cigarette in the world!

20,000 TINY FILTER TRAPS . . . plus Richer, Smoother Flavor

# Hawks To Play Purdue Here Today

## First Home, League Game For Iowa Nine

The Iowa baseball team opens its conference baseball season this afternoon at 3:30 p.m. against Purdue in its first home game of the season.

With a non-conference record of one victory in nine games, the Hawkeys were weakened Wednesday when ace pitcher Merle Jensen underwent an emergency appendectomy and was lost for the season.

Jensen was the top pitcher in the Big Ten in 1953 with a 4-0 conference mark but slipped last season to a 1-6 mark. In 12 innings pitched this season, Jensen had given up three earned runs, and finished sixth.

In Purdue, the Hawkeys face the team that finished in a tie for last place in 1954 with Illinois. Each had a 4-11 record. The Hawks had a 5-10 record and finished sixth.

The Boiler-makers have come out strong this season and have a 6-0-1 record. They have shown batting strength in defeating Evansville, 19-0; Butler, 19-0, 16-5 and 13-3; and Wabash, 18-7. In the tie game, Purdue and Butler played scoreless ball for 10 innings before the game was called on account of darkness.

Third baseman John Enrietto, batting .480, has been leading the Boiler-makers in their 13 runs per game average.

**Led Big Ten**  
Purdue is strengthened by a veteran infield which last season led the league in fielding. The Hawkeys will go against Purdue with a .220 batting average in nine games. Three men are batting over .300. They are Kirby Smith, .389; Ken Kurtz, .355; and Ron Capps, .314.

Coach Otto Vogel's probable starting lineup will have Hawthorne or Walters, cf; Beck or J. Leber, c; Capps, 2b; Waldron, ss; Kurtz or T. Jensen, 8b; Meek or Walters, lf; Smith or Berry, 1b; Schuerman or Dobrino, cf; and Schoof, Ben or Schaefer, p.

## Iowa To Play Illini In Twin-Bill Here

The Hawkeye baseball team will meet Illinois, shareholder of last place in the Big Ten in 1954 in a doubleheader Saturday. The first game starts at 1:30 p.m.

The Illini, like Purdue, are above .500 with a 4-3 pre-conference season record. They have defeated Valparaiso and Pensacola and have beaten Washington university of St. Louis twice. Their losses were to Loyola and Southern Illinois.

Under Coach Lee Eilbracht, the Illini won the conference championship in 1952 and 1953. The youthful Illinois coach feels that his 1955 team has improved defensively over last season, and that the overall team speed is better.

"This is the type of ball club which should improve through the season," Eilbracht said, "and there is competition for every position." Our major need is for experience.

## All Big Ten Teams Start Action Today

CHICAGO (AP)—The Big Ten's baseball championship race starts today with a full round of conference games highlighted by a clash between co-favored Wisconsin and defending champion Michigan State.

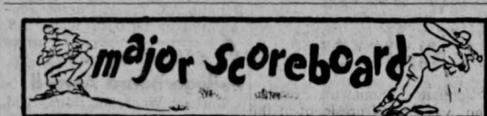

Other openers include Illinois at Minnesota, Ohio State at Indiana, Purdue at Iowa and Northwestern at Michigan.

Saturday, all teams play double headers with Wisconsin at Michigan, Illinois at Iowa, Ohio State at Indiana, Northwestern at Michigan State and Purdue at Minnesota.

The Spartans of MSC, host to the Badgers, won the title last year on the final game of the season by taking a twin bill from Ohio State to finish a half-game ahead of runnerup Wisconsin.

Michigan State is missing pitcher Bud Erickson, who won five straight games last year, and several of the solid hitters who helped the Spartans maintain a .317 batting average.

# Nats Tip Bosox, 1-0, On Single in Ninth

Bob Porterfield Pitches Shutout

## 19-Year-Old, Troy to Fight

CHICAGO (AP)—Willie Pastrano, 19-year-old fighter, will meet Willie Troy in a nationally televised fight tonight.

The 10-round middleweight scrap at the Chicago stadium (9 p.m. Iowa time) is a stiff test for the fancy-stepping Pastrano, who is from New Orleans and seeks his 10th straight victory.

Pastrano has a 30-4-3 record despite his youth. He upset rugger Al Andrews at the Chicago stadium a month ago in his first TV appearance.

After his showing against Andrews, Pastrano is rated an even choice. Troy (30-3) is a stablemate of heavyweight champ Rocky Marciano.

Pastrano may lack the punching power of Troy, who has scored 23 knockouts, but against Andrews showed some authority with a right uppercut to go with his left hand.

## Leaders Change In ABC Tourney

FT. WAYNE, Ind. (AP)—Two Chicago pairs and a man from Syracuse, N.Y., shook up the doubles and singles standings of the American Bowling Congress tournament Thursday.

Andy Regoznica and Dick Jensen, posted 1,295 to take over second place in the doubles, and Wally Weiss and Carl Simonis moved into seventh with 1,279.

Regoznica hit 711 and Jensen helped with 584 as they moved in 70 pins behind the doubles leaders, Harry Zoeller and George Pacropis of Wilkes-Barre, Pa.

Weiss had 674 and Simonis 605 in their series.

Andrew Piraino II of Syracuse rolled 705 to take third place in the singles, 33 pins behind Eddie Gerzine of Milwaukee, whose 738 has topped the standings since the third day of the tourney.

The all-events standings, topped by 1,993 posted by Frank Bujack of Detroit Wednesday night, remained unchanged.

BROOKLYN (AP)—Brooklyn set a modern major league record for consecutive wins from the start of a season Tuesday by blasting Robin Roberts of Philadelphia for ten runs in four innings and beating the Phils, 14-4. It was their 10th victory.

The Dodgers, staging their strongest attack of the season, got to Roberts for 11 hits including three home runs before routing the Phils' righthander with seven runs in the fourth.

Brooklyn continued hitting against two more Philly pitchers and got 17 hits including 4 homers and 4 doubles.

Three other clubs, since 1900, had won nine games in a row from opening day. The New York Giants won 12 straight in 1884.

The victory was credited to Joe Black, who became the fourth Dodger relief pitcher in as many days to turn in a rescue performance.

Black permitted five hits and two runs in 6 2/3 innings as he stopped the Phils after they had routed Russ Meyer in the third. Black came in with one out, bases loaded and one run in. He forced Granny Hamner into an inning-ending double play.

Philadelphia . . . 101 002 000—4 9 2  
Brooklyn . . . 021 715 000—14 17 0  
Roberts, Greenwood (4), Mrozinski (7) and Burgess; Meyer, Black (3) and Campanella. W—Black. L—Roberts.  
Home runs: Philadelphia—Morgan, Brooklyn—Robinson, Snider, Amoros, Zimmer.

## Kell's Homer Leads Sox, 9-1

DETROIT (AP)—Mike Fornieles held the Detroit Tigers to five hits Wednesday and veteran George Kell smashed a bases-loaded home run as the Chicago White Sox whipped the Tigers, 9-1. The only Detroit tally was Al Kaline's fourth home run, tops in the league.

The Tigers walked Minnie Minoos in the third inning to fill the bases, but Kell emptied them by homering Ned Garver's first pitch.

The back ailment and knee troubles which bothered him in the past are mere memories, the 32-year-old third baseman says.

Garver, who lasted five innings, gave up six hits and six runs in dropping his second game against one victory.

Chicago . . . 005 013 000—9 10 0  
Detroit . . . 000 001 000—1 5 2  
Fornieles and Lollar; Garver, Zverink (6), Miller (6), Maas (8) and House, L—Garver.  
Home runs: Chicago—Kell, Detroit—Kaline.

## 90 Report for Grid Drill at Minnesota

MINNEAPOLIS (AP)—A dozen lettermen were among the 90 players who reported to Coach Murray Warmath Thursday, first day of spring football practice at Minnesota.

After brief individual conditioning exercises, Warmath put them into business with some passing plays followed by running against dummies.

Warmath indicated scrimmage would be the rule of practice for the 20-day run of the early training session.

# The Daily Iowan SPORTS

## WHITNEY MARTIN'S — Sports Trail

NEW YORK (AP)—Summer Tan had completed his morning workout and was cooling out, graciously permitting a groom to accompany him as he walked around and around the shed row of his Belmont Park headquarters.

At the moment he seemed quite disinterested in the fact he will meet Nashua in the \$100,000 Wood Memorial at Jamaica Saturday in what everyone expects will be a two-horse race, although a few other horses will be out on the track.

His neck was lowered and his head drooped in an "end-of-the-trail" manner which was deceiving, as Mrs. John W. Galbreath's stout three-year-old has more vim than the average horse.

"He's a very willing horse to run and to work," Sherrill Ward, his trainer, said. "He's about as easy to train as any horse I've had."

"He's very nice on the track, eager to go. He's a little impatient in his stall, though. He's an aggressive horse, and doesn't like to be rushed. Very playful, and he's so big and strong he might hurt you if you aren't careful. Not intentionally, of course."

"I never entertained any illusion about Nashua not being tough," he said. "Everyone was impressed by Summer Tan's workout the other day. I thought Nashua's workout the same day was very impressive, a perfect workout. Summer Tan ran the first half faster than I had planned."

An arterial blood clot in the intestines last year nearly shelved Summer Tan for keeps and had vets and trainer and handlers hovering over him day and night as if they were guarding a million dollars. Which they very well could have been doing, as his earnings of \$230,421 as a two-year old were only \$75 less than Native Dancer's 1952 record.

In contrast to fight managers issuing hourly bulletins from their camps as to what their respective tigers will do to the other fellow, neither Jim Fitzsimmons, who trains Nashua, nor Ward has given an opinion as to the probable outcome of the race.

## Iowa Changes Opening Day On Fishing, Hunting Seasons

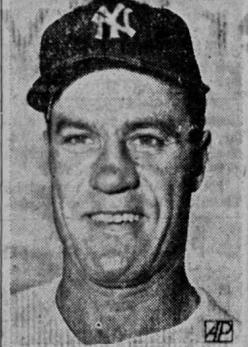

OTTUMWA (AP)—Beginning this fall, Iowa hunting and fishing seasons will open on Saturday under terms of a long time formula adopted here Thursday by the Iowa state conservation commission.

The commission said the change had been advocated by church, veterans and others in order to end the opening of outdoor seasons on Sundays.

Under the new plan, Iowa's 1955 pheasant season will open on Nov. 12 instead of Nov. 11 as has been traditional. This year's quail season will open Nov. 5 and the squirrel and rabbit season will open Sept. 17.

The formula fixed for various season openings includes:  
Pheasants—Second Saturday of November each year, between Nov. 8 and 14.  
Quail—First Saturday of November between Nov. 1 and 7.  
Partridge—Second Saturday between Nov. 8 and 14.  
Squirrel and Rabbit—Third Saturday of November between Nov. 15 and 21.  
Catfish—Second Saturday between April 8 and 14.  
Walleye and Pike—Second Saturday between May 8 and 14.  
Largemouth and Smallmouth Bass—Fourth Saturday between May 22 and 28.  
The fishing season formula will not apply until 1956 because this year's dates already have been set.

## Drives in Three

Hank Bauer Hits Homer

## Ready for 4 Minute Mile Says Santee

LAWRENCE, Kan. (AP)—Wes Santee says he feels the four-minute mile will be within his grasp Saturday if weather conditions are good.

He hopes to beat the world record of 3:58, set by Australia's John Landy last year. Santee is running in the 30th Kansas Relays.

In the Texas Relays April 2 Santee lowered his American mile record to 4:05.

Santee, who has traveled the mile under 4:10 more than any man—29 times officially—figures the home crowd will be a boost in his bid for the four-minute mile.

Bill Easton, University of Kansas track coach, says Wes is "primed" for the race.

"Given good weather conditions Wes will run the race of his life. He's primed for a supreme effort. He's rested, in perfect physical shape and will have top-notch pacing from a couple of his old teammates. This is the meet where Wes wants most of all to break the four-minute mile," said Easton.

Former Iowa trackman, Ted Wheeler will also run in the mile. He is stationed at Ft. Leonard Wood, Mo. Bob South and Ray McConnell of Drake are also entered.

## 10 Iowa Trackmen In Kansas Relays

Iowa will take 10 men to the Kansas Relays at Lawrence, Saturday, Iowa Track Coach Francis Cretzmeier said Thursday.

Rich Ferguson will enter the 3,000 meter steeplechase which he won the last two years. He set the relay record for the event last year.

Cretzmeier said his two-mile relay team of Keith Brown, Ira Dunsforth, Murray Keatinge and Ferguson will probably run close to the meet record of 7.41.

Dunsforth, Keatinge, Tom Ecker and John Mathews will represent Iowa in the mile relay. The 880 relay team is comprised of Mathews, Larry Perry, Les Stevens and Ecker. Stevens is also entered in the high jump and high hurdles and Perry will run the 100 yard dash. Mathews is also in the high hurdles.

Nick Piper and Gardner Vandye will participate in the pole vault.

## Turley Beats Orioles, 14-2

NEW YORK (AP)—Bob Turley, principal figure in last winter's 18-man trade between the two clubs, pitched the New York Yankees to a five-hit, 14-2, victory over his former Baltimore teammate Thursday at Yankee stadium.

Hank Bauer, with a leadoff home run, and Bill Skowron, with three hits, paced the Yankees' 10-hit attack on three Orioles pitchers.

The Yankees hit loser Lou Kretlow, Bob Kuzava and Bob Alexander and the Orioles helped them out with an error, several fielding lapses and some weak throws from the outfield.

Kretlow survived the four-run first inning but was knocked out in the fourth when the Yankees batted around to add six more runs. Bauer's double off reliever Kuzava drove in two of the runs.

Turley walked eight and fanned seven in his Yankee stadium debut. The attendance was 2,932.

Baltimore . . . 000 100 001—2 5 1  
New York . . . 000 010 123—14 16 0  
Kretlow, Kuzava (4), Alexander (8) and Moss; Turley and Berra. L—Kretlow.  
Home run: Baltimore—Moss. New York—Bauer.

## Iowa Net Group To Meet Saturday

The Iowa Tennis Association will hold its annual meeting in the Jefferson hotel Sunday Don Klotz, Iowa tennis coach, said Thursday.

The meeting will begin at 11 a.m., with a luncheon at noon. At 2:30 p.m. movies of the Davis Cup tournament won by the U.S. in Australia will be shown. The meeting is open to the public, Klotz said.

EVERYTHING FOR

# 'Better City' Contest Opens Today

Suggestions for improving Iowa City have already begun to arrive at the Chamber of Commerce office of the Better Iowa City contest officials.

The contest opened today and will close May 2.

Writers of winning entries will net \$1,650 in prizes. The contest, sponsored by the Iowa City Chamber of Commerce, features a grand prize of a \$500 U.S. Savings bond. First, second, and third prizes will be awarded in each of four divisions.

Judging will be done by the chamber's board of directors.

The four divisions are: high school students; University of Iowa students; adult residents of Iowa City, Coralville and University Heights, and adult residents of the rural trading area.

Entrants are required to write a letter of 500 words or less to the Chamber presenting a solution to a local problem, or a way to make Iowa City a better place in which to live.

The officials reminded entrants today to include a second sheet of paper with name, address, and division entered. No entries should have the name of the sender on them.

All entries should be brought or mailed to the Chamber of Commerce office, 104 S. Linn st.

The purpose of the competition is to find out from the people of the community what they feel to be Iowa City's most important problems, and to offer an opportunity to submit ideas for improving the community.

## SUI Geologists Study U.S. Iron Deposits

"The American iron industry will maintain its rank as the greatest of its kind in the world if groups from the Universities of Minnesota and Iowa continue to map geologically areas potentially similar to the Lake Superior region," Prof. R. A. Hoppin, geology department, said.

The professor, along with three graduate students, Ed Dryden, Roomoco City, Md., Robert Hanman, Ft. Madison, and Vijay Shirke, Biroda, India, have recently returned from an April 1 and 2 symposium sponsored by the University of Minnesota, Minneapolis.

The purpose of the symposium, the first of its kind, was to bring geologists and scientists up to date on the iron potential of the Lake Superior region.

**Assemble Data**  
Members of the symposium, which offered the chance for geologists to assemble and publish data from geological surveys, faced the problems of locating extensive deposits of high-grade ore, and determining their origin.

In locating future deposits for the iron industry, members of the geological surveys used an airborne magnetometer to measure extensions of the iron range.

A magnetometer is a mechanical device, which, like other magnets, is attracted to iron, but measures the amount it is attracted to.

**Gravity Survey**  
Another device used was a gravity survey. Its purpose is to measure the iron deposits under glacial drifts, and facilitate actual drilling.

After an area's soft ore has been exhausted, processes used by the geological surveys make it possible to obtain iron from low-grade ore.

"Although these processes are extremely expensive," Hoppin said, "they can be used by the iron industry to obtain iron in case of national crises or destruction of high-grade ore sources."

The next symposium that specialists from the SUI geology department will attend will be at Michigan Institute of Technology, Houghton, Mich.

## Lutheran Students' Banquet Tonight

The annual spring banquet of the Lutheran Student association will be held at the Ox Yoke Inn in Amana today at 6:45 p.m.

Rev. LaVerne Grose of Bethany Lutheran church in Des Moines will speak on "The Spirit Calls — For What?" The Rev. Mr. Grose is a former officer of the Lutheran Student association of America. He graduated from Augustana seminary, Rock Island, Ill. and later studied in several European countries.

Members who want rides to Amana should meet at the Lutheran student house at 122 E. Church st. by 6:15 p.m.

**SAND DRIFTS**  
BOONE, Colo. (AP) — Winds have piled up sand so high in parts of southern Colorado that a cow walked up a huge drift and tumbled through the barn roof. Rancher J. E. Ware said the cow was uninjured.

SPRING RAINS and sunny skies spell fishing to many. Jim Clatterbaugh, 218 N. Dubuque st., is one of those. Above, he is hunting night crawlers on the lawn of Old Capitol one night recently in preparation for a day's fishing.

## Announce Annual Short Story Contest

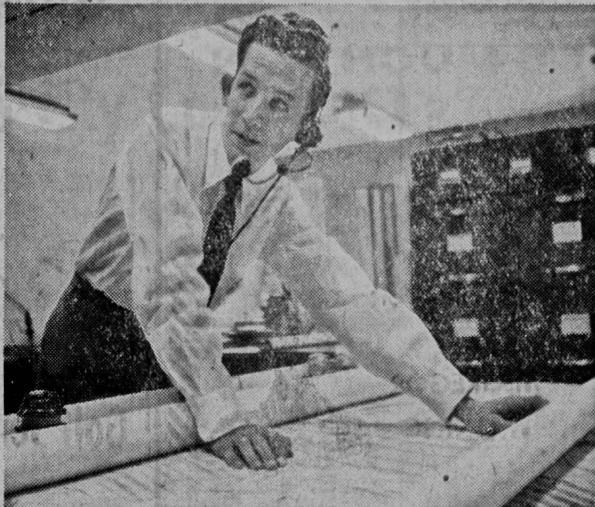

The "Octave Thanet Short Story Contest," open to all undergraduates, was announced Thursday by Paul Engle of the SUI English department. A \$50 prize will be awarded the winner.

All short stories should be placed in an envelope addressed to "Octave Thanet" and left at the English office, room 101, University hall by May 16, Prof. Engle said. An assumed name must be placed on the manuscript.

In addition to the manuscript, the envelope must contain a smaller envelope on which the writer's assumed name must also be placed. In this smaller envelope the writer should put his real name, address and phone number.

The contest is annually sponsored through the English department by the Iowa chapter of the Colonial Dames in memory of Alice French, an early Iowa writer.

## A Campus-to-Career Case History

Here Ed Chandler reviews Long Distance facilities between Atlanta and Lincoln, Georgia. He is working from a layout that shows all Long Distance lines in the state.

## "My classmates talked me out of a job"

Ed Chandler had a good job all lined up long before he graduated from Georgia Institute of Technology as an Industrial Engineer. But then he changed his mind . . .

"When I got out of college in '50, I was all set to go with a company I'd worked for during a previous summer.

"But then I got called up by the Army. During the next two years I heard a lot of good things from my Georgia Tech classmates who'd gone to work for the telephone company. As far as I was concerned this was the best recom-

mendation any company could get. "So when I got out of the Army I stopped in to talk with the telephone people. When I saw an outline of their development program, I was sold.

"My first year took me through every phase of handling and estimating costs on telephone equipment from warehouse to installation. I drew up plans for several projects, then went out in the field to see how they were carried out.

"Now I'm helping develop next year's multi-million-dollar construction program for Georgia. I've found it an interesting and rewarding job."

In the engineering department of Southern Bell Telephone & Telegraph Company in Atlanta, Ed Chandler is moving along in his career. Your Placement Officer can give you details about similar opportunities with the other Bell telephone companies like Southern Bell—also with Bell Telephone Laboratories, Western Electric and Sandia Corporation.

## Go in Fishin'?

## Red Cross To Interview SUI Women

The American Red Cross is interested in interviewing young women who are college graduates to serve as recreational workers in military hospitals and recreation clubs in this country and overseas.

The Educational Placement office is arranging for interviews with a recruiter from the national office of the Red Cross. The recruiter will be here within the next two or three weeks.

Miss Frances Camp, director of the Educational Placement office, said Thursday that applicants between the ages of 22 and 28 are preferred. Desirable qualifications, said Miss Camp, include training or experience in group leadership, music, dramatics, speech, sports and entertainment.

Two weeks specialized training is provided by the Red Cross in Washington D.C., but applicants must possess basic recreational skills.

Miss Camp said it is important that anyone interested should contact her office at C103 East hall immediately. Arrangements will then be made for interviews.

## Army Head Inspects Ft. Des Moines

DES MOINES (AP) — Lt. Gen. Hobart R. Gay of Chicago, commanding general of the 5th army area, was here Thursday to look over Fort Des Moines as a possible future site of 5th army headquarters.

He said he had been directed to make the quick inspection trip by the Pentagon.

He said the field has narrowed to Fort Des Moines, Fort Omaha at Omaha, Neb., and Jefferson barracks at St. Louis, Mo.

Asked whether he had a choice among the three, General Gay smiled and said: "Yes, but I won't say what it is."

The general said 5th army headquarters would have to have about 200,000 square feet of office space for about 2,000 army and civilian employees, and additional room for another 1,000 supporting troops.

## Hillcrest President

John Calhoun To Head Council

## Order of Artus To Hear Austin

Ruben V. Austin, instructor in the SUI Economics department, will speak to the Order of Artus at its meeting Tuesday, Apr. 26, in the middle alcove of the Iowa Memorial Union.

In the last meeting of the group, William H. Martin was elected president, and Howard Swaine secretary. Both officers have terms for 1955-56.

## Charles City To Get Fertilizer Plant

CHARLES CITY (AP) — A new fertilizer manufacturing plant will be in operation here by Sept. 1 under plans announced Thursday by the newly formed Vorhees Chemical corporation.

The corporation is to utilize the Armstrong plant in the Oak Park addition. It will have \$200,000 capital.

## John Calhoun Elected Head Of Hillcrest

John R. Calhoun, LI, Burlington, was elected president of the Hillcrest association council for the 1955-56 school year, in the dormitory's spring election Wednesday.

Calhoun and his running mate, vice-president elect Frank Craig, LI, Aurora, polled 216 votes to win over James Collins, A2, Clinton, and Randall Wickey, A3, Waterloo, the other president-vice-president ticket. Collins and Wickey polled 160 votes.

Three councilmen-at-large also elected for next year were: Darryl Granner, A1, Gilmore City, 261 votes; Nathaniel Baird, A2, DeWitt, 259 votes; and Frank Miller, A3, Milledgeville, Ill., 257 votes. Ed Dorn, A1, Grand River, was defeated with 231 votes.

This is the first time the president and vice-president have run together as a ticket. Previously the vice-president was elected by the council during the school year.

A total of 382 votes were cast in comparison to last year's record of 408 votes.

## NEWMANITES!!

Graduate and Faculty Meeting

TONIGHT, April 22 At 7:30 P.M.

at CATHOLIC STUDENT CENTER

108 McLean St. Refreshments to Be Served

## Shirley Strohm To Give Recital

A recital featuring Shirley Strohm at the piano will be given by the music department Friday, April 29, at 7:30 p.m. in the North Music hall.

Selections to be played are: Sonata in E-flat Major (1776) by Haydn, Sonata in D major, Op. 31, No. 3 by Beethoven, Nocturne in E Minor, Op. 72 by Chopin and Three Burlesques by Ferenc Farkas.

This recital is number 38 of the student series.

## POSTMASTERS CONFIRMED

WASHINGTON (AP) — The senate has confirmed the following nominations for postmaster-ships in Iowa: Robert E. Lathrum, St. Charles, and Homer I. Stearns, Sutherland.

## Chicago University Professor To Speak Here Monday

Clyde Kohn, Northwestern university specialist in geographical education, will be speaker and discussion leader Saturday at SUI when about 40 members of the Iowa Council of Geography teachers hold their annual one-day conference.

"Teaching the Geographic Aspects of your Local Community" will be Professor Kohn's topic at 1:30 p.m. in Old Army building.

Beginning at 3:30 the group will take a field trip to Amana, stopping enroute to explore geographical features of the journey.

## BECKMAN'S FUNERAL HOME

507 E. COLLEGE ST. PHONE 3240

See it—

Drive it—

WIN IT!

You'll find a world of new fun at the wheel of a new Chevrolet—and the exciting discoveries you make can help you win one!

Driving a beautiful new Chevrolet is thrilling enough any time. It is more rewarding right now, because the things you find out on your drive can help you win a 1955 Chevrolet plus a \$1,000 U. S. Savings Bond!

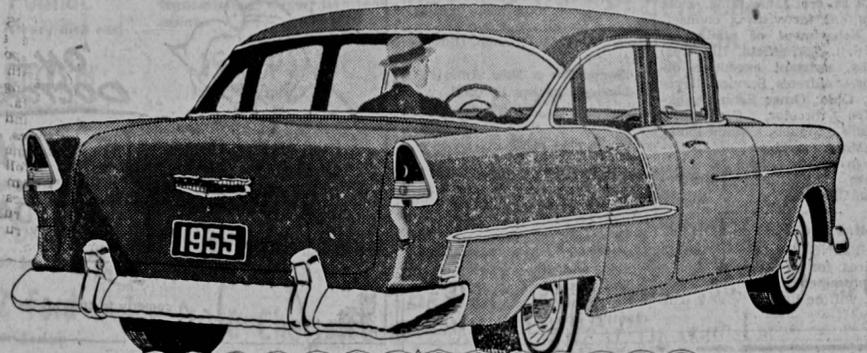

For instance, your drive will show you what it means to sit in a luxurious Fisher Body, to see all four fenders from the driver's seat, and to get a man's-size look ahead through a Sweep-Sight windshield.

You'll learn that Chevrolet puts new comfort in going! New Glide-Ride front suspension and Outrigger

rear springs. New ease to guiding the car with Ball-Race Steering. A new smoothness to all stops with Anti-Dive Braking Control. A constant flow of outside air from the new High-Level ventilation system.

You'll discover new fun whether you drive Chevrolet's new 162-horsepower "Turbo-Fire V8" or one of the two new 6's. (All with the only 12-volt system in their field.) You can learn about the smoothness of three great transmissions—automatic Powerglide, new Overdrive (extra-cost options) and Synchro-Mesh.

Come in soon. Pick up your entry blank and get the complete details on Chevrolet's big Miracle Mile Contest. It's easy to enter and you'll enjoy yourself. So drop in while there's still plenty of time left to win!

## MIRACLE MILE CONTEST

102 New Chevrolets plus \$1,000 U. S. Savings Bonds Given Away

It's easy! It's fun! A demonstration drive can give you clues to help you be a winner! There's no cost—nothing to buy. Come in for entry blank and complete details.

COMPLETE and OFFICIAL figures show that again in 1954—for the 19th straight year—MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR!

See Your Chevrolet Dealer

### Congratulate Honor Society Members

RECEIVING CONGRATULATIONS FOLLOWING their initiation into Phi Eta Sigma, freshman liberal arts honorary society at SUI are (left to right) Bruce Boling, Marion, John Ballard, Marion, and Warne Ramsey, Cedar Rapids. Paul Hagenson (second from right), A3, Clinton, president of the fraternity, congratulates the new members. At right is Harry Crosby, assistant professor and adviser to the group.

### Hoegh Among SUI Welfare Lecturers

Governor Leo A. Hoegh and Rolanda Artigues, associate professor in the University of Illinois school of social work, will be the featured speakers at general sessions of the seventh annual institute of the Iowa Welfare association at SUI April 28 and 29.

Some 400 welfare workers will attend workshop sections in the Iowa Center for Continuation Study, to be led by authorities in social work fields and in related areas, including education, law, mental health and medicine.

Workshop subjects to be explored include the following: meeting the needs of the mentally retarded child; building an effective mental health program; public assistance as rehabilitation; the aged—what value?; co-operation between the schools and social agencies, and strengthening family life, etc.

Out-of-state authorities who will serve as resource persons or leaders for workshops include Howard R. Kelman, consultant in community service, National Association for Retarded Children; Arthur Robins, school of social work, University of Missouri; and Geneva Mathiasen, secretary, National Committee on the Aging, National Social Welfare assembly, New York.

Others are Jane Wille, state consultant for visiting counselors, department of public instruction, Springfield, Ill.; Opal Jacobs, assistant executive director, Children's Service, Cleveland, Ohio; Omar Schmidt, executive director, Community Welfare council, Minneapolis; and Margaret Rosenheim, assistant professor, school of social service administration, University of Chicago.

**W. H. PLOCK RITES TODAY**  
BURLINGTON (AP)—Funeral services for William H. Plock, 77, prominent Burlington resident, will be held here at 2 p.m. today.

### 21 Initiated Into Freshman Honorary Society

Twenty-one freshmen men from the college of liberal arts were initiated Wednesday into the SUI chapter of Phi Eta Sigma, freshman honorary society, according to Paul Hagenson, A3, Clinton, chapter president.

Those initiated were: James Kelley, Algona; Maurice Edie, Carson; Warne Ramsey, Cedar Rapids; Richard Barber, Charles City; George Novak, Clutier; William Burgett, Des Moines; John Jackson, Farmington; Paul Krapfl, Harper's Ferry.

Bradren Stevenson, Humboldt; James Macy, Richard George, Robert Stoughton, and John Price all from Iowa City; John Ballard and Bruce Boling, both from Marion; Melvin Popofsky, Oskaloosa; James Joy, Perry; John Bouma, Pocahontas; John Bergeson, Sioux City; Jim Young, and J. Craig Cooper, from Waterloo.

### Chicago University Professor To Speak Here Monday

Prof. Charles G. Bell of humanities and western civilization at the University of Chicago, will lecture on "Dante: Transition and Transcendence" Monday at 8 p.m. in the senate chamber of Old Capitol.

Bell, who was a Rhodes Scholar, received a Ford grant for advancement of education in 1952. He spent the year under the Ford grant at Chicago University.

"Songs For a New America," a book of poetry by Bell, was published by the Indiana University press in 1953. Another book of poetry, "Delta Return," will be published next year. About one-third of the 75 poems in the book have already appeared in magazines.

Bell is a regular contributor to Harper's Magazine, Atlantic Monthly, The New Yorker, The Nation, and other magazines.

The lecture is sponsored by the graduate college and the humanities society.

## 6 SUI Art Professors To Show Work at Union Dedication

A six-man art show representing a wide range of techniques will open at 4 p.m., Sunday in the Iowa Memorial Union.

The 36-work show was prepared by SUI faculty members. The opening of the exhibition, including a public reception for artists Humbert Albrizio, Byron Burford, Stuart Edie, Mauricio Lasansky, James Lechay and Eugene Ludins, will be a feature of the first day of Dedication Week for the new addition to the Union. All of the artists are SUI professors.

The 22 oil paintings, six etchings, six sculptures and two watercolors will also be on display this weekend for the benefit of the expected 300 participants in

the 25th annual High School Art Education conference. The show will remain until May 20.

Albrizio, whose three-dimensional work has been widely exhibited in the nation's art galleries will be represented in the show by six pieces fashioned from ebony, rosewood, alabaster and marble.

Burford, who has painted murals for Iowa City high school and Trinity Episcopal church of Iowa City, will be represented by six oil paintings.

Paintings by Edie, winner of the Des Moines Art Center \$500 purchase award a year ago, will be on exhibit. Edie's oil paintings

form a part of the permanent collections of several leading art galleries and museums of the U.S.

Lasansky, whose intaglio work from copper and zinc plates has been widely exhibited throughout North and South America, will be represented by six etchings.

The work of Lechay will be represented by four oil paintings.

Ludins, another SUI artist whose work is familiar to patrons of prominent galleries of Eastern cities, is represented by Iowa and Mississippi river scenes.

# SUI Camera Club Appeals To Amateurs, Professionals

Cameras, tripods and bright lights filled room 121-A Schaeffer hall Thursday night, as the SUI Camera club took pictures of two University co-eds in a portrait lighting demonstration.

Charles Kent, of Kent Photography studio gave the demonstration using Jody Myers, A2, Waterloo, and Sheila McGinnis, A2, Creston, as models.

Kent and his assistant, Bundy Allen, held a question and answer period, and then towns-

people, students and faculty tried their hands at some portraits.

**Organized in January**

The club was organized last January, and now has about 30 members. There have been other camera clubs on campus before, but these died out during the World War II years.

The club meets regularly on the third Thursday of each month and has special meetings at various other times, averaging

about two meetings per month. In previous meetings the group has had lectures and demonstrations of correct exposure, color photography, and stereo pictures, presented by some of the professional cameramen in the club.

**Help Each Other**

The club president, Miss Agnes Costello, secretary in the SUI physics department, says that one of the best features of the club is that the members help each other to gain better photography techniques.

This attitude was again expressed by W. E. Beck, 119 E. Davenport st., when asked why he came to meetings, "Just to see how other people are taking pictures."

There are members in the club with little "Brownies" and then it goes up to members who run photography studios in Iowa City.

**Open to Anyone**

Miss Costello says the club is open to anyone who wants to join, and those interested should contact either Gordon Kent, SUI photographic service, or Prof. Edward Mason, journalism department. Dues are \$3.00 per year.

Program chairman, Howard Crew said the next meetings will consist of a field trip on a Sunday in May, and a demonstration of applying makeup to a model.

Miss Costello added that, "the club tries to make every member feel at home no matter how expensive the equipment or how much the experience."

**To Honor 9 Art Teachers Saturday**

Nine veteran Iowa art teachers will be honored Saturday at a luncheon in the SUI Iowa Memorial Union. The occasion will be one of the highlights of the 25th annual Art Education conference and High School Art exhibit being held here today and Saturday.

The art educators, who were all teaching art in Iowa schools at the time of the first conference 25 years ago, include Edna Gowens, Ames; May Hohlen, Burlington; Bernice Setzer and Julia Keeler, both of Des Moines; Ella Preston, Marjorie Oettiker, and Meta Belz Nelson, all of Davenport; Erma Oberg, Cedar Rapids, and Edith Stocker, Muscatine.

**Maner to Attend Annual International Meeting**

W. Wallace Maner, SUI foreign student adviser, will attend the annual conference on International Education Exchanges in St. Louis, Monday through Thursday.

Several hundred representatives from colleges and universities will attend the conference and will meet with representatives of foreign and U.S. agencies related to the student exchange program.

**Waterloo Man Held On Narcotics Charge**

WATERLOO (AP) — Daniel Thomas, 27, was held on a charge of illegal possession of narcotics Thursday after officers said they seized three packages of marijuana in his apartment.

The raid was made Wednesday night by Waterloo police who said the drug was in three plastic bags about the size of small packages of tobacco.

## Better Iowa City Contest

**\$1,650 IN PRIZES**

in U.S. Savings Bonds

**\$500 Grand Prize — 1st, 2nd and 3rd prizes in each of four divisions:**

- University Students
- City Residents
- High School Students
- Rural Residents

Here's all you do —

Write a letter of 500 words or less to the Chamber of Commerce telling what you think should be done about some local civic problem . . . or telling your ideas about what could be done to make Iowa City a better place.

Don't sign your letter —

or identify it in any way. On a separate piece of paper write your name and address and the division you are entering: University of Iowa Students, High School Students, City Residents, Rural Residents. Your letter will be given a code number so that the judges will not know who wrote any letter until after the winners have been chosen.

Your ideas are what count —

Just put your ideas on paper. Grammar and spelling will not be considered in the judging. Just write or type your letter plainly so that it can be read easily.

Bring or mail your letter to —

Iowa City Chamber of Commerce  
104 South Linn Street  
Iowa City, Iowa

**ENTER TODAY!**

Contest closes May 2

# Old Stone Capitol Has Interesting And Varied History

(This is another in the series about buildings on the SUI campus).

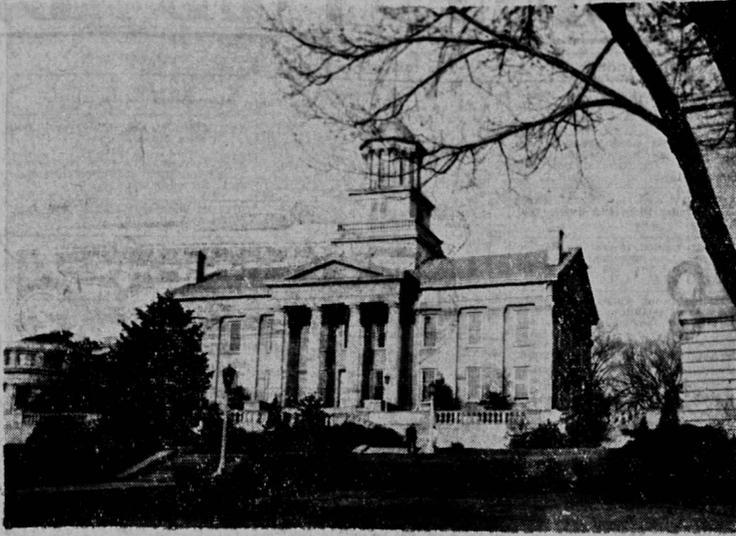

The life of the oldest building on SUI's campus has also been one of the most colorful. Old Capitol, currently the administrative core of the university, ushered-in the state of Iowa in 1846, and has been performing a useful service ever since.

Old Capitol now houses only four of the university's offices—the others have centered in University hall, where much of the actual administrative work is performed. But Old Capitol, topped by a dome which has become a familiar sight to visitors from all over the state, is the nerve center. Here President Virgil M. Hancher has his office, and Provost Harvey H. Davis, has the headquarters of the graduate college. The university's information service also has offices in the old structure.

In recent years, the building has come to be regarded more as a memorial. The main floor is devoted largely to plaques in tribute to the building's former importance in state affairs. A large scroll under the title "Old Stone Capitol Remembers" recounts the story of early government in Iowa City, and how after the legislators' departure in 1857, the Capitol became part of SUI.

**Chambers**  
On the second floor are the former chambers of the two legislative bodies. The two high-ceilinged rooms offer a meeting place for many campus and Iowa City organizations. In the original plan for the Capitol, it was proposed to erect galleries to permit spectators to attend, but financial cutbacks postponed the additions, and the galleries were never installed.

That the Capitol was built at all, is due largely to the credit of one man—an Iowa City commissioner named Chauncey Swan. In 1839 Swan was named chairman of a three-man com-

OLD CAPITOL FROM THE WEST is the University's most beautiful and famous building. It stood for many years in an incomplete stage, but was finally finished in 1924.

mittee by the territorial government of Iowa. He had power to select, within the limits of Johnson county, a suitable site for the territorial capitol.

Swan and his committee chose a high, forested bluff overlooking the Iowa river, and through five years of setbacks, kept the project alive until completion.

**Bids Asked**  
Commissioner Swan published advertisements for bids on the structure May 4, 1839, in two eastern Iowa papers (Dubuque and Burlington publications got the business), and after some discussion, John F. Rague, Springfield, Ill., architect got the job. He was also in charge of constructing the Illinois state capitol building at Springfield at

the same time. He later designed and built several Du-buque buildings.

Rague's plans, submitted and approved in 1838, called for a square building, columned on both sides. His plans lasted through most of the actual construction, but again lack of funds forced curtailment. Rague wanted the exterior heavily ornamented, but the job was never done, and the Capitol was built as it stands today, simple and symmetrical.

A plaque on the east side of the structure calls it "the last capitol of the territory of Iowa; the first capitol of the State of Iowa." The building was first occupied in 1845 by the territorial assembly, and when Iowa became a state a year later, the Capitol housed the state legislature.

**To Des Moines**

Almost before the new state government had had time to settle itself, agitation to move the government to a more centrally located site was started. The talk continued for ten years, culminating in an 1855 resolution by the general assembly to Polk county. It was 1857 before the move could be undertaken, and it was then that Old Capitol was given to SUI.

A sidelight in the early life of Old Capitol is the long wait before completion. The cornerstone was laid on July 4, 1840, and was accompanied, according to an account of the event, by "city-wide celebration and parades." The large blocks used in construction were blasted out of quarries on the bluffs of the Iowa river. The roof was going on by September, 1842, and it seemed that the structure would soon be ready for occupants. But from that point, things slowed rapidly.

**Unfurnished**

The Capitol remained unfurnished for many years. In 1848 the general assembly allotted \$5,000 for its completion, but this only provided for the fulfillment of already started projects. One historian, writing

about the troubles of the state in completing the building, dryly points out that "the territory bequeathed an unfinished building to the state in 1846, and the state did the same thing to the university in 1857."

One of the more familiar features of the Old Capitol today is the white spiral staircase. The staircase was originally intended to start in the basement, extending all the way to the second floor. But that plan was later changed, and the stairs started on the main floor.

In the first years after its donation to the university, the building served as the main classroom area. But as the university grew, buildings were erected around what was to become the pentangle, Old Capitol was relegated to office space. The construction of Old Science building (now the Geology headquarters), and Macbride hall, had by 1910 almost entirely replaced Old Capitol as classroom facilities.

**Finished in 1921**

The building was allowed to grow old quietly until 1921, when a state appropriation of \$50,000 was made by the state, the first serious effort to restore and complete the structure since its erection. During the next three years (1921-24), extensive work was done, and the building began to assume many of its present characteristics. Both senate and house chambers were carpeted, and the office space was modernized.

Through over a century, Old Capitol has achieved identification with government and education in Iowa. Its dome, which once housed the seat of pioneer Iowa, now overlooks the campus of SUI and its symbol.

It seems doubtful that any other single building is so closely allied to the state and its people.

## Strike-Bound South Sees Little Immediate Relief

BIRMINGHAM, Ala. (P)—

Strike effects spread and new violence erupted in the hard-hit south Thursday, while labor unrest elsewhere continued with little or no relief in sight.

However, in Detroit the 81-day-old strike at the Wendell Chemical company ended. Details of the settlement were not announced immediately.

Picketing of the Louisville & Nashville railroad was extended to the Seaboard railroad in Birmingham, Ala., where freight is changed between the two lines. The Seaboard canceled passenger service between Birmingham and Atlanta as its union employees declined to cross picket lines at the yards.

In another L&N development, the National Mediation board asked management negotiators to return to Washington.

The strike began over provisions of an employee health and welfare plan.

In Lake Success, N.Y., the Sperry Gyroscope Co. closed its three Long Island, electronic manufacturing plants as a strike by the CIO Electrical Workers union passed its third day.

The union seeks a pay raise of 18 cents an hour in a new contract while the company is offering 12 cents spread over three years.

Two men were injured at the plants Thursday.

In the 40-day-old strike of CIO Communications Workers of

Bell Telephone Co., a coaxial cable carrying 350 circuits between Augusta, Ga., and Jacksonville, Fla., was sawed. Another cable between Macon and Waycross, Ga., with 720 circuits, and a toll line between Charleston, S.C., and Montgomery, Ala., were damaged, the company said.

Other, dependent industries were feeling effects of the southern strikes. The rail strike directly idled 25,000 workers. Another 1,200 lumber and pulp-wood workmen were unemployed because of closed plants.

## City Record

**DEATHS**

Myrtle Krow, 73, Des Moines, Wednesday, at University hospitals.

Mable Brown, 48, Belle Plaine, Wednesday, at University hospitals.

Susan Rae Hess, 5, 1025 E. Washington st. Thursday at Mercy hospital.

Earl L. Cochran, 65, Quasqueton, Wednesday at Veterans hospital.

**BIRTHS**

Mr. and Mrs. Robert Moore, 1224 Franklin st., a boy Wednesday at Mercy hospital.

Mr. and Mrs. David Edstrom, 931 Summit st., a girl Wednesday at Mercy hospital.

Mr. and Mrs. Robert Egeland, 325 Finkbine park, a girl Wednesday at Mercy hospital.

Dr. and Mrs. Robert Utterback, 468 Grand ave., a girl Monday at University hospitals.

Dr. and Mrs. Alton Coppridge, 405 Finkbine park, a girl Wednesday at University hospitals.

Mr. and Mrs. James B. McCoy, 713 Finkbine park, a girl Wednesday at University hospitals.

**POLICE COURT**

Robert Lim, 311 S. Clinton st., Thursday was fined \$7.50 on a charge of operating a motor vehicle without valid registration.

James Lons, 521 N. Dubuque st., Thursday was fined \$10 on a charge of operating a vehicle in violation of a driver's license restriction.

Rex Dietrich, 442 Fourth ave., Thursday was fined \$7.50 on a charge of operating a motor scooter without valid registration.

Kenneth J. Parrott, 505 S. Dodge st., was sentenced Thursday to 2 1/2 days in jail in lieu of a \$7.50 fine on a charge of operating a motorcycle without valid registration.

James B. Eberhart, Dubuque, Thursday received a 12 1/2-day jail sentence in lieu of a \$42.50 fine on charges of operating a motor vehicle without registration and illegal towing of a motor vehicle.

## Noyes Talk—

(Continued from Page 1)

with which scientists are now regarded.

"There are a large number of things in the government which need the advice of scientists," Noyes stated. "The word of the scientist is not being felt where it is needed."

Noyes argued that an obstacle in attracting persons into scientific education is that those teaching in colleges and universities are not given the opportunity to conduct sufficient research in their fields.

The University of Rochester

dean concluded with three suggestions to help the problem: (1) Treat secondary school teachers with more respect so that others will be attracted to that phase of education; (2) Get courses in science back into high schools, and (3) Don't ignore the fellow who would benefit by specialized training, but try to give ordinary students in the sciences a better understanding of other non-related subjects.

Noyes is a 1917 graduate of Grinnell college. He also studied at the University of Paris in 1920. He is a former president of the American Chemical society, and is at present editor of the "Journal of the American Chemical Society" and the "Journal of Physical Chemistry."

## Will Vote Today For Ward Control

CHICAGO (P)—Louis Wolfson's struggle to seize control of Montgomery Ward & Co. will reach its climax today.

Wolfson and his entourage will attend Ward's annual stockholders meeting, where he will see for the first time the man he's trying to overthrow—Sewell Avery, Ward's chairman.

Many hundreds of other Ward stockholders will be at the meeting in Medinah Temple. If the temple's 4,200 seats are filled, it will be the largest stockholder gathering in America's corporate history.

**Wolfson Resigns**

In the last 24 hours of his campaign Wolfson, his brother Cecil, and Alexander Rittmaster III resigned as directors of Devoe & Reynolds. This was done at a hastily called meeting of the executive committee of the paint firm.

Wolfson announced the resig-

nations at a news conference.

Wolfson's action followed a statement by Ward's attorneys that Wolfson, his brother and Rittmaster might be violating the Clayton Antitrust act if they were elected to seats on Ward's nine-man board of directors.

The attorneys said the act prohibits anyone from being a director of two or more corporations, any one of which has capital, surplus and undivided profits in excess of a million dollars, where such corporations are competitors in interstate commerce and elimination of competition between them by agreement would be a violation of federal law.

Devoe & Reynolds manufacturers and sells paint, as does Ward's.

There are 67,732 stockholders of Ward's, oldest and second largest mail order firm in the world. The company conducts an extensive mail order business and has 568 retail stores in every state except Delaware and

## Van Allen To Lead Cosmic Discussion At Maryland U.

Prof. James Van Allen, head of the SUI Physics department, will be a discussion leader in a symposium at the University of Maryland, April 23 and 26, results of which will be used to formulate the detailed U.S. program in the field of cosmic rays.

The subject of the symposium is, "Cosmic Ray Observations During the International Geophysical Year."

The geophysical year is a cooperative enterprise among 39 nations, including the U.S.S.R. The nations will make a joint investigation of questions in geophysics from July 1, 1957, to Dec. 31, 1958. The questions involve world wide weather conditions, fluctuation of the earth's magnetic field, northern lights in the arctic and antarctic, and long range radio communication.

The SUI physics department will make a large number of rocket firings in both the arctic and antarctic during this period for cosmic ray research, Van Allen said.

During the symposium, Van Allen will be the discussion leader on primary spectrum and albedo under the heading of status of observations. He will also be a discussion leader on rock-

**KOO TO SPEAK**

Prof. T. Z. Koo, head of the SUI Oriental studies department, will speak on "The Situation in the Far East" today at 8:30 p.m. at the Hillel foundation, 422 E. Market st. Koo will also play the flute for his listeners.
