## A New Partner—

West Germany, fresh from winning her sovereignty after 10 years of occupation, this week will formally become a member of the North Atlantic Treaty Organization (NATO) and the Western European Union. The event will be an unprecedented victory for the free world in its struggle against communism.

It took more than five years to lay the groundwork for bringing West Germany into NATO. They were five hard years, marked by periods of agreement and disagreement, progress and retreat, hope and despair.

Diplomats from the United States deserve much of the credit for ironing out the difficulties. They often lost patience, they sometimes bungled, but they never gave up in their efforts to bring West Germany into the Atlantic fold.

Throughout the period of negotiations West Germany's chancellor, Konrad Adenauer, withstood attacks from opposition Socialists and other powerful neutralist blocks. At times defeat seemed inevitable, but the aging chancellor carried on a dogged campaign which ultimately brought victory.

Another leader was not so fortunate. Pierre Mendes-France, fiery French premier, was tumbled from office partly because of his efforts to bring West Germany into NATO.

West Germany's admittance to NATO is a bitter defeat for the Communists. They tried every trick in the book — and added a few new ones — in an effort to prevent the union. They accused the U.S. of creating NATO as a base to be used for aggression against the Soviet Union. They tried — and almost succeeded — in turning France against a rearmament Germany by recalling fearful memories of 1870, 1914 and 1940.

The strategic importance of West Germany can largely be measured in terms of the Ruhr, a vast industrial complex which stretches for almost 40 miles over the most productive single coal field in the world. Much of this coal is of the high quality necessary for iron and steel production. It is indispensable for the economic health of Western Europe.

By making West Germany a partner in NATO, the West has greatly increased its power position in the cold war. It virtually insures the free world of a preponderance of power with which to meet any future Communist aggression.

## Morocco To Get 'Little TVA'

MARRAKECH, French Morocco (AP) — At the edge of the snow-capped Atlas mountains, French enterprise is building a "little TVA" for Morocco who were fighting France to the death 25 years ago.

France shows off the project proudly as an answer to Arab nationalists clamoring for independence. The nationalists, however, don't let it keep them from their favorite sport of throwing bombs at pro-French Moroccans. They say it doesn't answer their demand for freedom and that anyhow the French are building to make a profit, not for love of Morocco.

Few Nationalists Nationalists are few, however, among the Berber mountaineers of the Atlas. To celebrate the dedication of Bin-el-Ouidane dam, 800 turbaned horsemen put on an exuberant display of riding and noise, repeatedly firing their ancient rifles in honor of a French cabinet minister.

Energie Electrique du Maroc (Moroccan Electric power) is a French firm, working with French government aid. It has just completed nine years of work on the project, designed to produce both electric power and water for irrigation.

Development Small By American standards the development is small. The artificial lake holds less than 400 billion gallons of water, compared with more than 10 trillion at Hoover dam.

Still, Bin-el-Ouidane is the biggest multipurpose dam in Africa, the sixth largest in all French territory. And on Morocco the impact can be immense. The land to be irrigated, for example, is expected eventually to provide homes and a living for 500,000 of the nine million Moroccans in the Tadla plain, about 100 miles northeast of Marrakech.

It will grow wheat, rye and — if successful experiments can be repeated on a large scale — valuable long staple cotton.

## Old Capitol Remembers

### One Year Ago Today

Members of the American Federation of Musicians, Local No. 450 in Iowa City, defeated a joint Central Party committee and Union board proposal that a sliding wage scale be adopted for musicians playing at university dances.

The Iowa City council moved to grant a permit to build a gas station across from the Horace Mann elementary school. Previously 254 residents of the school district signed a petition opposing the project.

### Five Years Ago Today

Rollie Williams, Iowa assistant athletic director and former Hawkeye basketball coach, returned to his old job, received an appointment as new cage leader by the board in control of athletics.

Alderman James M. Callahan denied a charge reportedly made to the city council by Ira W. Montgomery that Callahan told Montgomery that he would not get the local garbage collection contract unless he paid Callahan.

### Ten Years Ago Today

Reichsmarshal Herman Wilhelm Goering, head of the Nazi air force, and Field Marshal Albert Kesselring, German commander-in-chief on the Western front, surrendered to the seventh army.

Capt. Clyde E. Herring, former SUI student and son of former Sen. Clyde L. Herring, was reported to have been liberated from a German prisoner-of-war camp by the Russians.

### Twenty Years Ago Today

Forty-six American fighting planes on a secret naval maneuver through the air from Honolulu to Midway in the greatest ocean mass flight ever undertaken were overdue at Midway and thought to be lost or forced down.

The Johnson county grand jury described moral conditions in Iowa City "as good as may be expected," and indicated that most of a group of indictments returned were for liquor law violations.

# Yugoslavia Is 'Friend' Of U.S., Envoy Says

(EDITOR'S NOTE: This is the sixth of 12 interviews by Central Press correspondent Mark Leonard with foreign ambassadors to the United States.)

By MARK LEONARD WASHINGTON — Leo Mates, Yugoslavia's ambassador to the United States, said that despite past differences between his nation and the United States, Yugoslavia considers itself to be a true friend to this country.

The spokesman for the Communist government of Marshal Tito stressed that "the development of friendly relations between the United States and Yugoslavia has not only been beneficial to the two countries but has proved to be a welcome development for the general cause of better international relations and the safeguarding of peace in the world.

"This, of course, does not mean that there has been no disagreement as to the specific attitudes of the United States," Mates said. "Feelings in Yugoslavia ran high, particularly in connection with the succession of events preceding the settlement of the Trieste question.

"The general attitude, however, is to consider the U.S. as a friendly country." The envoy laid stress on "the understanding of the U.S. for the economic difficulties of my country resulting from the hardships of the past, the tremendous sacrifices of Yugoslavia for the maintenance of her threatened independence and increased by a series of bad harvests caused by droughts."

Mates noted the "generous assistance" given to his country by the U.S. and emphasized that "our friendly relations are founded on much more valuable and profound foundations than the indeed invaluable material assistance could ever be."

Treasure Independence The spokesman for the Yugoslavians "treasure" their independence and said, "having known the horrors of wars at their worst," they place the highest values on peace.

"We consider that no price is too high to pay for our freedom," Mates declared, "but we prefer to co-operate in the strengthening of peace.

"This is the foundation of our foreign policy; on this basis we develop our friendly relations with the U.S. and other countries; this is the basis on which is built our alliance with Greece and Turkey; this is the basis of our participation and our reliance on the UN.

"I have heard questions as to whether the normalization of our relations with the Soviet Union could affect our friendly relations with the U.S. I believe that what I said is an adequate answer to such questions."

He added, however, that "there can be no question as to the shifting of our foreign policy" and stated: "We wish to have normal and as good as possible relations with all countries and we do not consider that this should be inconsistent with further developing our relations with our friends."

The ambassador stated further that "the position of Yugoslavia in the world is not that of a neutral country. We stand firmly for peace and the peaceful solution of international problems and we stand firmly for the defense of peace against aggression."

Trieste Question Mates said his country has demonstrated this "in making the most painful sacrifices and concessions to contribute to the settlement of the Trieste question"—which he describes as "a most valuable and promising act of statesmanship on the lines of peaceful settlement of a dispute."

The envoy also emphasized that "the fruits of this act are already being felt in the constantly improving relations between Yugoslavia and Italy."

The diplomat said his government believes that other international problems can and should be solved in a similar manner. To this end, he added, Yugoslavia is willing to contribute as much as it can.

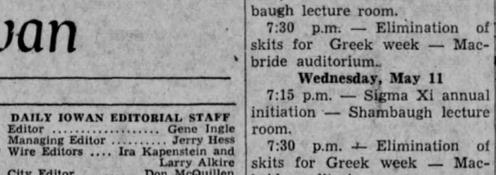

Balkan Alliance "We do not belong and do not intend to join defense agreements outside the Balkan alliance which we consider as a factor strengthening peace and security in our part of Europe," Mates declared. "We believe we can thus best serve the cause of peace."

The ambassador stressed in conclusion that "although we have learned from history that we have to be strong in order to preserve our independence and to enjoy the fruits of peace in a troubled world, we are aware that a major war cannot solve any problem, but only cause utter destruction."

Mates added that "the emphasis has to be placed on peaceful solutions, international co-operation and co-existence. The alternative, if reason should fail, could only be mutual annihilation in war."

NEXT — Ambassador Sadao Iguchi explains Japanese policy.

## Interpreting the News—

### Full-Scale Big 4 Confab May Follow Austria Talks

By J. M. ROBERTS Associated Press News Analyst Reports from Paris indicate strongly that when the Big Four foreign ministers meet in Vienna this weekend they will pass directly from completion of the Austrian treaty to consideration of a full-dress conference on European settlements.

French sources appeared confident the treaty would be cleaned up in short order, although the British and Americans still were cautious, remembering the last-minute monkey wrenches thrown by Molotov on other occasions.

Soviet authorities, though still bitterly critical of Germany's affiliation with the North Atlantic Alliance, continued to talk of negotiated settlements, and West Germany's Chancellor Konrad Adenauer predicted a period of conferences.

There was a suggestion of compromise in the air between the British view that the European conference should be conducted by the chiefs of state and the American stand that all preliminary work should be done at the foreign minister level. One outcome might be a brief meeting of the prime ministers and the President to give the foreign ministers a sendoff. That would be akin to the procedure often used by the foreign ministers and their deputies.

Secretary of State John Foster Dulles indicated, however, that the United States will move in all of this with extreme caution. He said the Austrian treaty would represent an important change in Russian policy, but made clear he accepted it as a tactical change, not strategic. He reminded that it was Russian procedure to zigzag toward a fixed goal, pausing to regroup her forces when necessary.

Adenauer ascribed this necessity to the new force aligned against the Communists by the Paris accords which admitted West Germany into NATO and provides for her rearmament.

Molotov Moves That the diplomats were entering a period of movement was emphasized by Russian Foreign Minister Molotov's willingness to leave a Warsaw conference with his satellite foreign ministers in order to meet the British and French foreign ministers, Harold Macmillan and Antoine Pinay.

# 11 Women Tapped By Mortar Board

Eleven junior women were tapped for membership in Mortar Board, junior woman's honorary society, in a ceremony held Saturday afternoon in the Iowa Memorial Union.

Tapped were Suzanne Reider, A3, Eagle Grove; Toby Dunitz, A3, Newton; Mary Jane Baker, A3, Iowa City; Sandra Betz, A3, Des Moines; Bonnie Erickson,

N3, Sioux City; Beth Howard, A3, Imogene.

### New Members

Cecelia Kirby, A3, Sioux Falls, S. D.; Prudence Meder, A3, Elkader; Barbara Oliver, A3, Des Moines; Margaret Rickett, N3, Mount Pleasant; and Barbara Work, A3, Homewood, Ill. The new members were chosen

by the current group on the basis of service to SUI, scholarship, leadership, recommendations from faculty and results of the junior class vote. Members had to be in the upper 35 per cent of their class in scholarship. During the ceremony Sally Rehnberg, A4, Clinton, gave an account of Mortar Board's his-

tory at SUI and told the activities of the new members.

Barbara Behrens, A4, Oelwein, was in charge of the tapping ceremony.

### Initiated Sunday

The group was initiated Sunday morning in Old Capitol, and attended a breakfast afterwards

at the home of Miss Helen Reich, advisor to the group and assistant director of the office of student affairs.

New and old members were hostesses at the Mother's Day tea held Sunday afternoon at the home of SUI President and Mrs. Virgil M. Hancher.

# Clarity, Color, Cut Important In Choosing Diamond Rings

Rare today is the young man who gets down on one knee, pops the question and pulls a sparkling diamond ring from his pocket. Chances are that he will sit nervously on a chair, that she will not be taken too much by surprise, and that the two of them will choose the engagement ring together.

If the young man fears his fiancée will choose a ring out of his financial means, he may visit the jeweler first and give him his price range.

Here are some of the basic ABC's of buying engagement and wedding rings.

### Diamond Facts

1. The diamond's weight is measured in carats. Each carat has 100 points—a half carat diamond has 50 points. The price of a diamond will depend on the number of points, on its clarity or freedom from imperfections, and on its color and cut, which determine the stone's brilliance and sparkle.

Therefore, two diamonds may cost the same, but one may be larger than the other, one may have spots of carbon or internal cracks not visible to the naked eye, or one may have slight tints of yellow or brown which mar its beauty. The bluer the tint, the more valuable the diamond.

### Popular Cuts

2. Although a diamond is one of the hardest stones known, it can be cut into several forms. The most popular with brides-to-be is the round or brilliant cut, which has 58 facets. Then there is the emerald cut, which is growing in popularity, a cut generally rectangular in shape, a modern design known for its depth and clarity.

Diamond rings also feature the marquise cut and the pear cut, each unusually shaped with 58 facets. Another new style is the heart shaped diamond.

### Settings

3. The general term "solitaire" means simply that the ring has

only one stone. When a diamond is small, side stones may be placed around it to make it appear larger, and then it is called a center stone.

4. Now for the setting. Generally this will depend on your personal preferences and the size of the diamond. A small diamond can appear larger if it has a picture frame border of white metal, and some baguettes on the sides. This illusion mounting also protects the diamond.

### Simple Setting

For rings with larger stones, jewelers advise a simple setting with all the investment going into one diamond, instead of several small ones. White metals such as white gold, platinum or palladium are popular. The Tiffany setting is one of yellow gold, with no sidestones.

As much as possible, the wedding band should match the engagement ring. The narrower the

band, the larger the stone will appear.

On your wedding day, either wear your engagement ring on your right hand, or have someone hold it for you until the ceremony is over. Traditionally the wedding band should have first place on the third finger of your left hand, and, theoretically, should never be removed.

### SUNDAY BRUNCH

Sunday brunch will be something to look forward to if you serve thin French pancakes rolled around cream cheese that has been beaten until fluffy with a little cream and topped with a fresh strawberry sauce.

## List Canoe Capers Winners

Cold weather and rain greeted entrants in the annual Canoe Capers held Saturday morning on the Iowa River. Three canoes tipped over, giving their occupants a chilly bath before the races were completed and the scores tabulated.

Kappa Kappa Gamma won first place in the women's division of the event. Delta Zeta placed second and Alpha Chi Omega third.

Phi Delta Theta and Sigma Alpha Epsilon tied for first place in the men's division while Phi Epsilon Pi placed second.

The starting line of the race was parallel with University high school and the finish line was the Union foot bridge.

Final race results were determined by comparing the times of the winners in each heat. Alpha Chi Omega was winner of the women's race and Sigma Al-

pha Epsilon won the men's race. Delta Zeta took both first and second place in the novelty race. The coed relay was won by Kappa Kappa Gamma and Phi Delta Theta.

## Mary Ann Seberg Named President Of Honorary Group

Mary Ann Seberg, Marshalltown, was elected president of Alpha Lambda Delta, honorary scholastic fraternity for freshman women, at a recent meeting of the newly initiated members. Other officers chosen were Nancy Simmons, Dubuque, vice-president; Joanne Berry, Waukon, secretary; June McLaughlin, Cherokee, treasurer; and Linda Gamble, Fairfield, historian.

Additional members of the group of 40 women who were initiated on the basis of at least a 3.5 grade point for the first semester include Sandra Bailey, Eldora; Jayne Carmichael, Columbus, Ind.; Karen Clause, Jefferson; Nancy Cogswell, DeWitt; Elaine Cohen, Des Moines; Sandra Cooper, Melbourne; Susan Elwell, Garwin; Margaret Erickson, Dayton.

Lois Fritz, Sioux Rapids; Kathleen Halloran, Cedar Rapids; Maxine Hamilton, Davenport; Carolyn Henderson, Ames; Judy Jackson, Westchester, Ill.; Sandra Johnson, Council Bluffs; JoAnn Joseph, Des Moines; Sally Klein, Des Moines; Sandra Levinson, Mason City; Roxie Mentzer, Riverton, Wyo.; Sandra Mull, Lake City.

Wylmarie Nicholson, Davenport; Sandra Parks, Des Moines; Beverly Peterson, Fort Dodge; Rosalie Samberg, Des Moines; Virginia Schauland, Muscatine; Alice Schrody, Cedar Rapids; Shirley Smith, Sibley; Kay Steintjes, Sioux City; Janis Stodola, Cedar Rapids; Sandra Swengel, Muscatine; Nancy Tolford, Dodgeville, Wisc.; JoAnn Tsitouras, Sioux City; Carol Jean Vayl, Park Ridge, Ill.; Joan Wagner, Cedar Falls; Nancy Welch, Clinton; and Laura Wittekind, Paw Paw, Mich.

### Miss Schulze Wins Tri-Delt Scholarship

Mary Louise Schulze, E3, Osan, has been awarded a \$100 scholarship by Delta Delta Delta social sorority.

The award is made to any worthy undergraduate with an accumulative grade point average of 2.5 or above, and who shows a reasonable amount of financial need. Also required is participation in valuable extra-curricular activities.

The recipient was chosen by the sorority from a list of candidates selected by the Office of Student Affairs.

### SUCCOTASH SALAD

Succotash salad is a fine accompaniment to leftover cold beef, lamb or ham. To prepare it cook frozen cut green beans and cut corn and drain; marinate in French dressing flavored with onion. Serve on salad greens.

## Plans July Wedding

Miss Charlotte Johnson

Mrs. Bessie Johnson, Clarion, announces the engagement and forthcoming marriage of her daughter, Charlotte, to Mr. James C. Wright, son of Mr. and Mrs. J. C. Wright, Des Moines. Miss Johnson is a junior in the college of nursing, and Mr. Wright is a sophomore in the college of medicine. The couple plans to be married July 10 in Clarion.

### WINS CERTIFICATE

Suzanne Reider, A3, Eagle Grove, has been awarded a special certificate of merit for her "Best-of-College" essay on sterling silver design. Her essay was entered in the Reed and Barton silversmith company's annual scholarship program conducted in March at 150 colleges and universities throughout the country.

Miss Reider's essay was selected by Reed and Barton's scholarship advisory board from more than 5,000 entries.

### CHAIRMAN NAMED

Christine Price, A2, Ottumwa, was elected Iowa district chairman of the Young Women's Christian association at the Boone spring conference held recently in Boone.

Leonard Sandvik from Iowa State college was elected Young Men's Christian association district chairman.

Miss Price will represent the Iowa YWCA at the State Ecumenical conference and at the regional meeting in June at Geneva, Wis.

### DINNER HELD

Delta Upsilon social fraternity entertained SUI faculty guests at a dinner Tuesday night. This is one of several faculty and staff dinners held by the group this year. Guests present were John B. Ellery, instructor in the speech department, and Mrs. Ellery; Prof. Hugh E. Kelso, political science, and Mrs. Kelso; Prof. R. T. Sanderson, chemistry, and Mrs. Sanderson, and Prof. E. W. Hills, general business.

Miss Price will represent the Iowa YWCA at the State Ecumenical conference and at the regional meeting in June at Geneva, Wis.

## Currier, Quad Win U-Sing

Currier hall and Quadrangle were chosen winners of University Sing in the finals held Sunday evening in the Iowa Memorial Union.

Judges for the contest were Mrs. June Conlogue, Cornell college, and Mrs. Frances Ireland and Mrs. Gustaf Bergmann, both of Iowa City.

Traveling trophies were presented to the winners by Mrs. Julius Kunik, SUI Mother. Acts were presented between songs by Jerry Silverman, A4, Milwaukee, Wis., and Eugene Rydahl, G, Greenville, Mich. William Smart, A4, Fairfield, was master of ceremonies. The program ended with all ten finalists singing "My Mom," directed by Ida Bell, A2, Donnellson.

The two winning groups will appear on WMT-TV Monday at 9:30 p.m.

## Newman Club Names Officers

Donald Brown, A3, Ruthven, was elected president of the SUI Newman club in the annual election which was held Sunday.

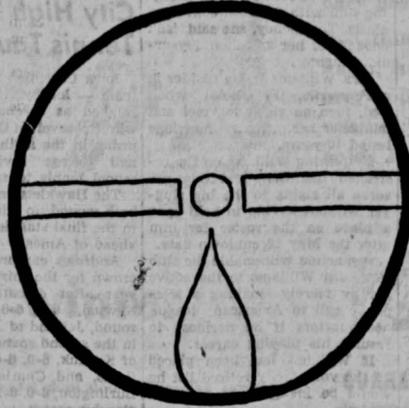

Brown will assume his new office Thursday at the regular meeting of the executive council.

Other officers elected are Charles J. Green Jr., E2, East Hampton, N.Y., vice-president; Robert Strawn, A1, River Grove, Ill., treasurer; Maurice Steele, N2, Cedar Rapids, recording secretary, and Carolyn Roush, A3, Clarion, corresponding secretary.

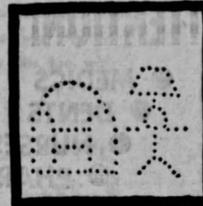

Newly elected members of the executive council include Robert Newton, A3, Muscatine; William Burns, A2, Burlington; Mary Ann Werre, A1, Washington, D.C.; James Coles, A1, Phoenix, Ariz., and Cathy Nutting, A3, Pittsburg, Pa.

Lucky Doodles are pouring in! Where are yours? We pay \$25 for all we use, and for many we don't use. So, send every original Doodle in your noodle, with its descriptive title, to: Lucky Doodle, P. O. Box 67, New York 46, N. Y.

"IT'S TOASTED"  
to taste better!

YOU GET MORE deep-down smoking enjoyment from Luckies than any other brand. The reason, plain and simple, is that Luckies taste better. They taste better, first of all, because Lucky Strike means fine tobacco. Then that tobacco is toasted to taste better. "It's Toasted"—the famous Lucky Strike process—tones up Luckies' light, good-tasting tobacco to make it taste even better... cleaner, fresher, smoother. You'll enjoy the Doodle above, too; it's titled: Three on a match—Luckies, of course. Whenever smokers put their heads together, they agree you can't match a Lucky for flavor. Come light-up time, enjoy a better-tasting Lucky yourself!

## See Blacks Top Whites In 14-6 Game

LEFT END JIM GIBBONS (80) takes off for a 20-yard gain after spearing a pass early in the Iowa intra-squad football game Saturday. Waiting for Gibbons is Collins (Mike) Hagler (32) a freshman halfback who gave a good account of himself, offensively and defensively in the game which the "Black" team won, 14-6.

STATISTICS

	Blacks	Whites
First downs	12	13
Net yards rushing	147	7
Net yards passing	102	182
Passes attempted	11	19
Passes completed	5	8
Passes intercepted by	1	2
Punts	3	2
Punting average	37	25
Yards kicked	32	20
Fumbles	3	2
Fumbles lost	1	2
Fumbles lost yards	1	0

SCORE BY QUARTERS

Blacks	Whites
0	0
7	7
14	6

SCORING SUMMARY

Blacks — Touchdowns, Wiegmann, Lear; conversions, Karras, Veit.  
Whites — Touchdown, Happel.

About 8,000 fans saw a tough defensive football game Saturday in the annual Iowa intra-squad contest which was won by the Black team, 14-6.

The Blacks and Whites fought to a stand-still through the first half giving spectators a good idea of the depth and toughness to expect when Coach Forest Evashevski fields his team for "keeps" next fall.

Freshman halfback Collins (Mike) Hagler of the Blacks brought the crowd to its feet on the opening kickoff as he fumbled then fielded the ball on his own goal line, then dodged and wiggled across the field to keep from being pushed over the line.

Halfbacks Sidelined  
Iowa's first-string halfbacks of last season, Eddie Vincent and Earl Smith watched the game from the sidelines, due to leg injuries this spring. Vincent was injured in football practice, Smith in track.

But Hagler, fast and shifty, impressed the crowd with his running, pass catching and jarring tackles very much in the style of Vincent.  
The Blacks got their first touchdown early in the third quarter when they took over on the White 32 on downs and drove the distance in six plays.

Veteran fullback Roger Wiegmann powered through on the left side of the line for the final seven yards and paydirt. Freshman Alex Karras kicked the extra point for 7-0.

The Blacks scored again in the fourth quarter as Gene Veit threw a 30-yard pass to Bob Lear. Lear speared the throw on the White 35 and led the White defenders to the goal. Veit kicked the point. Both Veit and Lear are freshmen.

Blacks Fumble  
The White touchdown came when the Blacks fumbled a White punt on their two yard-line. Bill Happel carried the ball over on the first play from scrimmage. Paul Barritt missed the conversion for 14-6.  
Freshman Bill VanBuren, starting center of the Blacks was carried off the field during the rough and tumble action. He was carried off the field following the game, apparently badly injured, but examination showed the injury to be painful but not serious.

"We all learned something from the spring game, Evashevski declared, "and now we can start thinking what we are going to do Sept. 1."

"I thought the game was pretty fair, although we showed no sustained drives and lacked polish. That might be because we had only two real workouts all week.

"Going on the theory that we want the best 11 men in our starting lineup, Mike Hagler might move into the No. 1 team at fullback," Evashevski added.  
"We still want the 11 best men and he could be one of them."

Scouts from Kansas State college, Iowa's opening opponent next fall witnessed the game.

## Michigan State Tops Hawkeyes, 9-6, 2-1

Michigan State extended Iowa's baseball woes at East Lansing, Saturday, dropping the Hawkeyes twice, 9-6 and 2-1.

The double loss knocked Iowa into the Big Ten cellar with a 1-6 conference record.

Despite five errors by the Spartans' third baseman, Earl Morrall, for a new loop mark, the Hawks fell before a five-run eighth inning in the opener after scoring five themselves in the seventh to grab a 5-4 edge. Chuck Mathews and Jimmy Sack homered in the eighth for Michigan State as eight men batted. The Hawks batted around in the seventh.

In the well-played nightcap, Dick Idzowski fired a three-hitter at the Hawks and personally scored the winning run for the Spartans in the fifth. Iowa's Tonyally came in the first.

Ron Coops and Don Dobrino collected two hits apiece in the first game for Iowa's only real offensive outputs of the day. Here are the line scores:

## A's Claim Theft of Signals By Indians with Army's Help

BALTIMORE, Md. (AP) — Is there a lie detector handy? And if so, will the Cleveland Indians kindly take a test? Manager Lou Boudreau of the Kansas City Athletics says that's the only way he can prove his contention that the Indians had help from the U.S. Army in winning a doubleheader Sunday.

Lou claims the Indians used an army telescope to steal his catcher's signs throughout the first game and part of the second. The A's lost both games 9-6 and 2-1.

In the second game Boudreau insisted that an army telescope mounted on a tripod near the Cleveland bullpen be evacuated in a jeep.

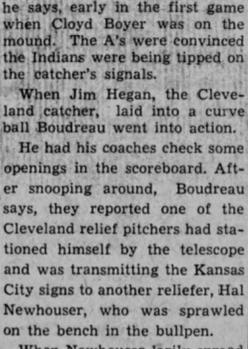

The telescope, jeep and other army equipment were part of equipment used in an army display and left beyond the center-field barrier in the sprawling Cleveland Municipal stadium during the games.

His suspicions were aroused, he says, early in the first game when Cloyd Boyer was on the mound. The A's were convinced the Indians were being tipped on the catcher's signals.

When Jim Hegan, the Cleveland ball catcher, laid into a curve ball Boudreau went into action. He had his coaches check some openings in the scoreboard. After snooping around, Boudreau says, they reported one of the Cleveland relief pitchers had stationed himself by the telescope and was transmitting the Kansas City signs to another reliever, Hal Newhouser, who was sprawled on the bench in the bullpen.

When Newhouser lazily spread his legs it meant a fast ball was being pitched, Boudreau said. When he crossed his legs a curve was coming.

"That telescope was so powerful you could see the white on the fingernails of the catcher," Spook Jacobs, the A's second baseman, said.

Lou Boudreau Spies in the Bullpen?

the fingernails of the catcher," Spook Jacobs, the A's second baseman, said.

## Johnson's TV Collapse Is Unsolved

PHILADELPHIA (AP) — The cause of Harold Johnson's sudden collapse in last Friday's nationally televised fight continued Monday to be boxing's No. 1 mystery.

Was he drugged? Or did Julio Mederos, credited with a second round technical knockout, tag the husky, Johnson with a paralyzing punch?

Or was Johnson suffering from a pre-fight physical ailment that was not revealed?

Another Reason? Or is there another reason? The answer to these questions remained locked in the continuing investigations of doctors, chemists, policemen and officials of the Pennsylvania Athletic commission. A full report was promised not later than today.

Meantime, Johnson remained under police guard at Hahnemann hospital where a multitude of tests, from the brain down, were completed. Doctors said Johnson was in good shape physically and mentally.

A well posted source in the hospital disclosed Saturday that first tests of Johnson's blood, urine, spinal fluid and stomach showed no traces of any common drugs, such as phenobarbital.

Not Definitely Drugged  
Klein insisted "we cannot say definitely yet, one way or another, that Johnson was under the influence of a drug when he entered the ring Friday night."

After the fight was abruptly ended Friday night after the bell sounded for the third round, both Dr. Alfred Avella, commission physician, and Klein hinted Johnson may have been drugged.

The 26-year-old Philadelphia Negro, No. 1 light heavyweight title contender, insisted an orange given him by a stranger hours before the fight was responsible for his dazed condition.

Being Examined  
Pieces of the orange found in Johnson's dressing room was given to city chemists. The result of this analysis, too, is still unknown.

Philadelphia police have intensified the search for the man who allegedly gave the orange to the fighter.

Ringsiders and TV viewers said Johnson was wobbling even before the fight began, that he tripped as he entered the ring, and that he fell clumsily in the second round without a blow being struck.

A PAIR OF 1954 STANDOUTS, Eddie Vincent, left, and Cal Jones were on the sidelines during Saturday's game due to injuries. Jones is healing from a broken arm suffered last season, and Vincent is out with a spring practice leg injury.

## Ted Williams Divorced; Undecided on Future

MIAMI (AP) — Ted Williams' wife, Doris, was granted a divorce in Circuit Court Monday but the former Boston Red Sox slugger said he had not made up his mind about returning to baseball.

There have been reports that the \$100,000 a year star would rejoin the Red Sox if his wife agreed to a lump sum settlement.

Judge George E. Holt approved Mrs. Williams' divorce petition but put off his decision on the alimony.

"I'm not sure if I'll play baseball," Williams told newsmen after the 30-minute hearing in the judge's chambers.

In Boston, Red Sox General Manager Joe Cronin said Monday Williams' name will be taken off the active list and placed on the restricted list on Wednesday.

Mrs. Williams testified that Ted has given her \$125 a week since she filed a separate maintenance suit Jan. 19, 1954, charging him with mistreatment and abuse. The money, she said, isn't enough for her and their 7-year-old daughter.

Mrs. Williams was a cashier in a Pensacola, Fla. hotel when Ted, then an air cadet, met and married her. Their marriage lasted 10 years.

By placing Williams on the restricted list, the Red Sox reserve all rights to the big slugger without having to hold open a place on the roster for him after the May 12 cutdown date.

The action will enable the club to return Williams to the active list by merely making a telephone call to American league headquarters if he decides to resume his playing career.

If Williams had been placed on the voluntarily retired list he would be ineligible to play for 60 days.

## Cockell's Manager Asks Rules Hearing For Title Match

SAN RAFAEL, Calif. (AP) — While heavyweight challenger Don Cockell sparred eight rounds Monday, the manager of the British champion sought to clarify the rules governing the 15-round title show with World Champion Rocky Marciano a week hence.

The manager, John Simpson, wrote the California State Athletic commission, asking a hearing to clear up such points as rough fighting, fouls and how many are permitted, liquids and materials to be used for cuts, and the right of the chief second to stop the fight for cuts only.

Simpson asked that E. J. Walters of the British Boxing Board of Control and two British newsmen be allowed to attend the meeting. Simpson said this would "greatly reduce any possibility of any adverse criticism appearing in our home press after the contest if your interpretation of your rules are carried out faithfully by both boxers and officials."

Cockell again made a punching bag of one sparring partner, Grant Butcher, belting him through the ropes. Cockell will rest today, box six rounds Wednesday, four Thursday, Friday and Saturday then go to San Francisco Monday for the weigh-in and the fight there at Kezar stadium.

## City High Wins Tennis Tourney

Iowa City high school's tennis team — led by Art Andrews — reigned as co-champion along with Roosevelt of Des Moines Saturday in the sixth annual Grinnell college invitational high school tennis tournament.

The Hawklets and Roughriders both wound up with eight points in the final standings, one point ahead of Ames.

Andrews captured the singles crown for the third consecutive year after defeating Davis of Newton, 6-0, 6-0, in the first round, Jerland of Ames, 6-0, 6-0, in the second round, Dick Walter of Keokuk, 6-0, 6-0, in the semifinals, and Charles Gaston, of Burlington, 6-0, 6-2, in the championship match.

## Score, Turley Testing Old Strikeout Record

NEW YORK — Bob Feller's major league strikeout record, unchallenged for eight years, faces its stiffest test this season in the strong arms of Cleveland teammate Herb Score and Bob Turley of the New York Yankees.

Score, the lefthanded rookie who set an American association strikeout record of 330 in 1954, is ahead of Feller's 1946 pace, when he fanned 348 American league batters in 372 1-3 innings. Turley is just a bit behind Feller's rate.

In his first five starts in 1946, Feller fanned 48 batters in 43 innings. Score, in five games covering 41 innings, has struck out 50. Turley has whiffed 46 in 45 innings.

In his record-breaking season, Feller won 26 games and dropped 15.

Score had 16 strikeouts against Boston May 1—a higher total than Feller compiled in any one game in '46. Bob's high was 14.

Score has won three games and dropped one so far.

Turley's 13 strikeouts against Boston May 6 was his best effort. He has won five straight.

Score and Turley primarily are fast ball pitchers. Score is considered to have the better curve ball, although Turley, who led the American league in strikeouts with 185 last season, is using a curve more often this season than last.

Robin Roberts of the Philadelphia Phillies came closest to Feller's strikeout mark with 198 in 1953. The modern National League record is 273 set by Christy Mathewson of the Giants in 1903.

Swaps Stops in the Winners Circle

JOCKEY WILLIE SHOEMAKER sits astride Swaps in the winner's circle at Churchill Downs, Kentucky, after riding the three-year-old horse in the near record time of 2:01.8, to win the 81st running of the Derby. With the now famous horse are from left to right: Mrs. Willie Shoemaker, wife of the jockey, Mrs. and Mr. Rex Ellsworth, owners of the champ, and M. A. Tenney, trainer. Approximately 100,000 watched Swaps finish a length and a half ahead of Nashua, the favorite.

Where Is Monty Stratton?  
Down on the Farm in Texas

GREENVILLE, Texas (AP) — Baseball season and you wonder what has become of Monty Stratton.

The man who pitched winning baseball on a wooden leg and had his life's story on screen, is a prosperous farmer near here.

He lives on a 52-acre farm with a five-acre lake and a few miles away are 250 acres more. Monty has most of the land in cultivation. He also has 40 head of cattle.

Stratton lost his leg in a hunt-

ing accident but returned to professional baseball because of love for the game.

There were many things the picture didn't tell about his feat. For instance, the picture showed Stratton depressed during the time he learned to pitch with one good leg. "But Monty never once showed any signs of depression, not from the first day on," says his wife.

The former Chicago White Sox pitching star threw the ball

before he got his artificial leg. "He would hobble out on a crutch and toss that baseball at a bucket on the barn," Mrs. Stratton recalls.

"Monty and Monty Jr. learned to walk together, Monty on his artificial leg and Junior as a beginner. I would stand in the door and watch them in the front yard. First Monty Jr. would fall and then big Monty would stumble and fall."

"But one day Monty received a letter from Baytown asking if he knew of any pitchers who could help the club during a Houston tournament. Without telling Monty, I wrote and told them the only one around was Monty. The manager accepted the idea and I talked Monty into going."

Stratton went to the tournament and pitched a four-hit shutout. He also drove in the winning runs.

Stratton returned to professional baseball at Sherman in the East Texas League. He remembered a night in Texarkana when he pitched against one of his best friends in baseball, Vernon Washington.

Vernon didn't pull any punches, however. He got two hits off Stratton. Then in a late inning, Monty bounced a ball off the right field fence. On the way to first, he stumbled, fell and started to crawl down the base line. Washington had time to get the ball back to first and beat Monty out.

Then the crowd saw a strange thing. Washington stood in the outfield and wept.

Stratton still loves baseball. He teaches it to the kids around here. His son is a Little Leaguer. Monty thinks maybe the youngster might someday carry on to make up for his shortened career in the majors.

In 1937 and 1938 Monty won 15 games for the Sox.

Winner of 500-Mile Classic Won't Impress Bill Arnold

INDIANAPOLIS (AP) — Whoever wins the Indianapolis 500-mile auto race May 30 will have to run off from the field on the first lap to impress a hard-muscled, prosperous looking spectator from Oklahoma City.

Billy Arnold, who built his race earnings into wide business interests ranging from lumber to real estate developments, will be on hand for the 25th anniversary of his 1930 Indianapolis victory.

He was the first to win the race at better than 100 miles an hour (100.448) without relief, thus becoming the first member and president of the exclusive Champion 100-Mile-an-Hour Club.

He is the only driver who ever grabbed the lead on the second lap and stayed in front until he took the checkered flag. He was about 10 miles ahead of second place William (Shorty) Cantlon, who was killed in the 1947 race.

Shrugs Off Honors

Arnold, only a pound off his racing weight of 170, shrugs off his performance. He says his car, built by another great race driver, Harry Hartz, and Jean Marencac, now chief mechanic of the Novi crew, was years ahead of its time.

"I let Lou Meyer lead one lap, then took him on the main straightaway the only time I opened up," Arnold recalls.

It wasn't quite that simple. Arnold drove so efficiently he had to make only one pit stop and changed only two tires.

Then there was the historical wreck on the northeast turn. Seven cars piled up and Billy snaked through the mess with so little spare room that he scraped a bump cap on the concrete retaining wall. Nobody was killed but no other wreck on the 44-year-old Speedway has ever involved so many cars.

Remember 1930

The racing fraternity remembers the 1930 race for another reason. The possibility of a wreck on the southwest turn, in the flying start, always gives drivers and crews goose pimples until the bunched cars scream around the corner. A mishap to somebody up front could pile up 20 or 30 cars in a heap of flaming junk. It almost happened in 1930, when there were 38 starters instead of the present 33.

Rickliffe Decker's car wouldn't start but there were 37 racers in the pack when a Cord led the first, uncounted pace lap. The Cord got out of the way and the field roared toward the first turn.

Chet Gardner lost control of his Buckeye Special and went into a spin. Before anybody had time to faint, the car slid off the track and out of the way of the pack. Every year at the drivers' pre-race briefing, track officials remind them of what might have happened in 1930.

There were 37 riding mechanics in that 1930 field, in addition to 37 drivers. Two-place cars had been restored after

single seaters had been used for seven years.

Later in the race, Cy Marshall's Duesenberg went over the north wall and his brother riding mechanic, Paul Marshall, was killed. He was the only fatality of the race, although 12 cars were wrecked and eight other persons were hurt.

Matlock Killed

Spider Matlock, Arnold's riding mechanic, was killed a few years later in a California race. The Speedway went back to single seaters after three years.

Arnold tried twice again to win the "500" and was wrecked in both 1931 and 1932 while leading the race. In 1931 he suffered a broken pelvis and Matlock a broken collar bone. In 1932, Matlock got the broken pelvis and Arnold the cracked collar bone.

Arnold gave up auto racing after that — but not because he had lost his nerve. He was a hot pilot in the European theater in World War II.

Report Austria To Get Treaty Soon

VIENNA, Austria (AP) — The last major obstacle to the conclusion of a treaty of independence for Austria was reported out of the way Monday—and the nation may get its long-awaited freedom this weekend.

Informed sources said Western delegates to a five-nation ambassadors' conference ironing out the text of the draft treaty presented an acceptable compromise on the hotly debated future of the Austrian oilfields.

Western delegates still expressed hope that a compromise would be reached to surmount a last-minute hitch which developed Monday over the future of former German property held by the Soviets in Austria. The Russians were reported to have refused to include in the treaty the extensive concessions promised to Austria when Austrian leaders went to Moscow recently.

Conference sources said the Soviets now insist that these

concessions be made the subject of a separate agreement between the USSR and Austria, while the Western ambassadors say they should be incorporated in the treaty to be signed by all five governments.

Austrian officials also are optimistic that the treaty will be finished by Saturday when the foreign ministers of the U.S., Britain, France and Russia are to meet in Vienna.

Meet in Vienna

Reports from Paris said Soviet Foreign Minister V. M. Molotov has indicated he is willing to leave a meeting of Soviet bloc leaders in Warsaw and meet the Western foreign ministers in Vienna Saturday or Sunday.

U.S. Secretary of State John Foster Dulles, British Foreign Secretary Harold MacMillan and France's Foreign Minister Antoine Pinay are reported preparing to fly here about Thursday, although Dulles is awaiting

approval from Washington.

If Austria gets her freedom this weekend, it will be the first time in 17 years she will have been free of military occupation.

Met with Figl

In five sessions last week, the ambassadors of the Big Four, meeting with Austrian Foreign Minister Leopold Figl, settled most of the text of the independence treaty. But they were temporarily deadlocked over the oil issue when they adjourned Friday.

The oilfields belonged to American and British interests before they were sold—under duress, the oil companies say—to the Nazis in 1938. After the war, the Russians seized them as former German assets, and, in returning them now, they have insisted they remain Austrian property.

Informed sources said that the claims probably will be settled directly between the companies and the Austrian government.

Supreme Court Refuses To Rule On Burial Case

WASHINGTON (AP) — The Supreme court refused Monday to rule on the right of a widow to sue an Iowa cemetery for denying burial to an American Indian killed in Korea.

The 5-3 majority took special pains to say that the high court's 4-4 decision in the same case last year provided "no basis for any inference" that the justices were divided on whether the United Nations charter supercedes the U.S. Constitution.

One issue raised in the widely publicized appeal was whether the Iowa Supreme court had flouted the UN charter in denying the GI's widow the right to

sue the cemetery for damages. The charter was involved since the soldier was part of the UN command fighting in Korea.

Last year's decision let stand a ruling by the Iowa Supreme court issued no opinion explaining its action.

The Iowa Supreme court, in its decision, said the UN treaty "has no application to the private conduct of individual citizens of the U.S."

The Supreme court has never ruled on whether the UN charter supercedes the U.S. constitution. Lower courts have held that the UN charter in no way supercedes laws governing internal affairs.

Let Us Show You How You Can  
START ENJOYING ALL-YEAR  
GAS AIR CONDITIONING IN YOUR  
HOME, THIS SUMMER!

Why settle for "half measures" when COMPLETE comfort and health protection from air pollution can be yours every single day of the year... AT SURPRISINGLY LOW COST!

Thinking of replacing your old furnace? Or, would you like to merely add summer air conditioning to your present heating facilities?

Right now is the time to learn how All-Year GAS Air Conditioning can be yours for little more than ordinary heating.

Just think! A single, compact unit gives you clean, warm, humidified air in winter—soothing, low-moisture, pollen-free air; cooled by refrigeration, in hot weather. Every day of the year, in every room, you'll enjoy a perfectly balanced indoor climate.

heats in winter

cools in summer

EGONOMICAL! One compact dual unit utilizes the same ductwork, blower and filters, for both cooling and heating. Or, with an "add-on" cooling unit, existing heating ducts can be used. And you get both heating and cooling from the same silent, economical gas flame. Saves you money! What's more, you save on cleaning bills, doctor bills, too, with dirt-free, pollen-free "conditioned" air!

GUARANTEED LONG LIFE! There are no moving parts in a GAS heating-cooling unit! This means that your air conditioner is quiet and trouble-free... your assurance of long life and uniform high efficiency of operation.

CALL US NOW... GET THE FACTS AND A FREE ESTIMATE!

KEEPS YOU COMFORTABLE ALL WAYS

- (1) HEATS IN WINTER—just select the temperature you want and it is automatically yours.
- (2) COOLS BY REFRIGERATION IN SUMMER — let the thermometer outside skyrocket! A gas flame will keep you cool.
- (3) CLEANS THE AIR—big, Fiberglas filters trap dirt, dust, pollen. Here's cleaner living—more healthful living!
- (4) REMOVES EXCESS MOISTURE ON HOT DAYS—high humidity saps vigor... but a gas air-conditioner wrings out moisture.
- (5) CIRCULATES THE AIR—enjoy the benefits of conditioned air in every room in your house.
- (6) VENTILATES WITH OUTSIDE AIR—constant addition of outside air prevents dead, stale inside air.

Let us give you all the facts on wonderful, GAS all-year air conditioning. There's no obligation whatever. Our engineers will be glad to work out an estimate of the complete cost of installing an all-year system tailored to meet your home's individual requirements.

# Conservation Group Discusses Toll Road

DES MOINES (AP) — Iowa soil conservation leaders discussed their problems with Gov. Leo Hoegh Monday. Part of the talk was about the matter of an Iowa toll road.

O. R. McMurry, secretary of the state soil conservation committee said the discussion about the toll road was brief.

McMurry explained that the committee "is naturally concerned" about taking good land out of production, "not only for a toll road but for other things as well."

"It is a problem of the state moving ahead in a balanced economy," he said. He explained he meant agricultural and industrial development.

The proposed 180-million-dollar, four-lane, 300-mile toll road from Davenport to Council Bluffs would closely parallel U.S. Highway 6.

Along that route is much of the state's best farm land.

There has been some suggestion that the turnpike be moved farther south, to get out of the top-grade farm land area.

McMurry said most of the time of the meeting was given to discussing water and soil conservation programs in the state.

The discussion pointed out the need for trained technicians in the field to show farmers throughout the state conserva-

tion practices that they can use on their own farms.

Also, McMurry said, the talk included development of small watershed projects as related to a program of federal aid and recent state legislation having to do with formation of subdistricts on conservation.

Attending the meeting were members of the committee, and representatives of the Iowa Association of soil conservation district commissioners.

# Set Dinner To Honor Seniors

The Senior Dinner, given in honor of graduating seniors from eight colleges in SUI, will be held May 23 at 6 p.m. in the main lounge of Iowa Memorial Union, Loren Hickerson, director of alumni records, has announced.

This year's dinner is a revival of a custom at the university which was discontinued before World War II. Sponsored by the SUI alumni office, the dinner is open to some 700 graduating seniors from the colleges of liberal arts, commerce, dentistry, engineering, law, medicine, nursing and pharmacy.

Hickerson said that invitations have been mailed to all eligible seniors, and that the exact number planning to attend will not be known until the reservations are returned.

Hickerson said the purpose of the dinner is to acquaint the graduating seniors with the alumni association and its program, and to foster an awareness of the continuing relationship between the university and its graduates.

# Police Patrol Car In Auto Collision

DES MOINES (AP) — A Des Moines police patrol car incurred about \$400 damage Monday when it collided head-on with a car driven by Richard Henry Beebe, 33, Ft. Dodge.

Patrolman Richard Nehring said he was on an emergency call at the time. Nehring said an auto pulled to the curb in front of the Beebe auto and Beebe swung toward the center of the street where the collision occurred.

# Will Accept Hawkeye Staff Applications

Application blanks for editorial and staff positions on the 1956 Hawkeye will be distributed during an informal coffee hour tonight from 7 to 9 in the Hawkeye office, room 210, Communications center.

Positions open are: managing editor, which requires yearbook experience on the editorial staff; volume editors, yearbook experience; copy editor, editorial experience, and copywriters, no experience necessary.

Other positions open are: chief photographer, art editor, experience necessary (applicants are asked to submit samples of their work); promotion manager; identification manager and index manager, no experience necessary; office manager; sales manager; contract and book sellers, and photographers.

Prof. Wilbur Peterson of the school of journalism, Hawkeye adviser, and members of this year's staff will be present to answer questions. Anyone who wishes to apply for a position and who cannot attend the coffee hour may obtain application blanks this week at the journalism office, room 205, Communications center, and at the publications office in Close hall. Blanks should be turned in at the journalism office.

Selection of staff members will be made by Peterson, Barbara Work, A3, Homewood, Ill., editor, and Sandi Miller, A2, Rock Island, Ill., business manager. Announcement of positions filled will be made next week.

Letters have been sent to all housing units inviting students interested in positions on the 1956 Hawkeye to the open house. Doughnuts and coffee will be served.

# Girl Scout Council To Meet Tonight

The Cardinal Council of Girl Scouts will hold its annual business meeting in the gymnasium of Longfellow school this evening at 8.

Prof. Frank E. Coburn of the SUI psychiatry department will speak on the values of the scouting program. Mrs. Erich Funke, finance chairman, will present the proposed budget for the year.

Mrs. Arthur Kern, president of the council, will present the annual report of scouting activities. She will be assisted by Andrea Lubin, a brownie scout, Sally Sheridan, an intermediate scout, and Jackie Mumme, a girl scout.

# Tavern Theft Nets \$400, Other Loot

KEOKUK (AP) — James O'Conner, proprietor of the Randevoux tavern here, reported to police Monday the theft of more than \$400 and several other items from his place early Monday.

O'Conner said the other items included 18 cartons of cigarettes, six cases of beer and a box of cigars. The money was taken from a cash register. The safe was not molested. Entrance was gained by forcing a rear door.

REPUBLICAN WOMEN MEET WASHINGTON (AP)—A group of 35 Iowa women here for a national Republican Women's conference met for luncheon Monday with the Iowa congressional delegation at the capitol.

# Explains Aid Program

ADM. ARTHUR RADFORD, chairman of the Joint Chiefs of Staff, told the senate foreign relations committee Monday that the foreign military aid program permits the United States "to reduce the total number of troops that we must maintain on active duty." He said "the military aid program is part and parcel of the U.S. defense department program."

# Vitality Seeping Away?

Doctor Suggests Exercise to Remedy Loss of Pep, Oversize Tummy

WASHINGTON (AP) — So your vitality has seeped away until it almost isn't. Your ambition sags. And you have developed — you'll excuse the expression — a middle age spread.

Well, Dr. Ernst Jokl of the University of Kentucky suggested Monday these aren't so much signs that you're growing old. He said it may be no longer an indication that you no longer take vigorous physical exercise.

Jokl teaches physical medicine and rehabilitation at Kentucky. And he gave his views in the magazine put out by the American association for health, physical education and recreation. This is the muscle flexing branch of the National Education association.

People today live 3 1/2 times as long as they did back in the Stone age.

Jokl notes with approval that Olympic winners show up at what once would have been thought middle age. A Dr. Savo-Jaiken of Finland, for example, won a bronze medal in the 1952 games for excellence on the horizontal bars. He was 45.

Tennis is a young man's game,

but Bill Tilden at 47 beat the 24-year-old champion, Don Budge. A Swiss mountain climber named Chevalier went out and climbed himself a mountain at 74.

And to get away from sports, Jokl points to Toscanini and Bruno Walter who have shown a lively enthusiasm for work at an age when many are groping for a rocking chair.

# Mothballs for Birds Protect Jet Planes

NORTH WEALD, England (AP) — Britain's latest secret weapon to protect its jet planes leaked out Monday. It's mothballs.

Royal air force officials at the big fighter base here said the camphor capsules were used as a last, desperate measure to scare off the flocks of birds which menaced fast-flying planes landing and taking off.

The mothballs were spread over a 500-square-yard area in the middle of the airfield. The vapor fumes irritated the birds' lungs and after a few days they abandoned the airfield.

# Judge Rejects Sheppard Re-Trial Demand

CLEVELAND (AP) — A judge late Monday turned down the demand of Dr. Samuel H. Sheppard for a new trial.

He brushed aside as "theories" an investigator's story that he had found a stranger's blood spot in the bedroom where pregnant Marilyn Sheppard was bludgeoned to death in the early hours of last July 4.

The handsome Bay Village osteopath had moved for a new trial on the basis of "newly discovered evidence." The defense material was presented in a 50-page affidavit from Dr. Paul Kirk, professor of criminalistics at the University of California.

January Visit Dr. Kirk visited the Sheppard home in January, less than a month after a jury convicted Sheppard of second degree murder.

Judge Edward S. Blythin, who presided at the 10-week trial, overruled the motion late Monday.

# Council Accredits Journalism Courses

The SUI school of journalism has been accredited in six areas of instruction by the American Council of Education for Journalism, council officials said Monday.

Areas in which the school was accredited include advertising, community, editorial, magazine, pictorial and radio journalism. Five sequences were re-accredited. Magazine journalism was accredited for the first time.

The school of journalism was first accredited in 1948 when the accrediting council began its evaluation of schools and departments of journalism. The schools are revisited and evaluated at five year intervals.

MEMORY FOR AUTO DETROIT (AP) — For the absent-minded motorist there is a new device that automatically ejects the ignition key into the driver's hand when the switch is turned off.

day. William J. Corrigan, chief defense counsel for Dr. Sheppard, said that he would appeal Monday's ruling "with dispatch" by filing a "supplementary assignment of errors."

May 23 The lawyer said he hoped his supplementary motion could be heard in the appeals court May 23, the date set for hearing his earlier appeal.

In a 16-page memorandum, Judge Blythin declared Dr. Kirk's affidavit was "loaded with criticisms, conjectures and conclusions wholly foreign to that which is contemplated by the law to disclose a basis for a new trial on the ground of newly discovered evidence."

The judge said, "His conclusions are based on his own theories and do not necessarily eliminate Sam Sheppard nor are they necessarily consistent with the theories of the defense at the trial."

Blood Spot Dr. Kirk's affidavit centered around a spot of blood taken from a wardrobe door in the murdered woman's bedroom. He

said it belonged to neither of the Sheppards. He conceded it was the same type blood as that of the victim, but said it acted differently in test tubes.

Marilyn Sheppard bit her attacker's hand, said Dr. Kirk, and the drop of blood came from the wound.

The investigator also elaborated on defense theories that a left-handed man, intent upon a sex attack, committed the crime.

A jury convicted Dr. Sheppard of second degree murder. He was given a life sentence, under which he would be eligible for parole in 10 years.

# Atomic Test Against Submarines Planned

WASHINGTON (AP) — The U.S. will explode an atomic device in the Pacific ocean within the next few days to test new defenses against submarines.

A brief defense department announcement said the underwater blast will take place several hundred miles off the west coast in an area "completely clear of fishing grounds and shipping lanes."

It did not pinpoint the spot, nor did it give the exact time. There will be no hazard to inhabitants of the mainland or any islands in the eastern Pacific, the announcement said.

**Test Organized**  
The test was organized by the defense department and the atomic energy commission with the assistance of preliminary studies made by the Scripps Institute of Oceanography.

There was no mention of observers, foreign or domestic, in the announcement, and presumably members of the American press will not be permitted to witness the explosion.

Since the Pentagon said the test is designed to strengthen defenses against submarine attack, it is probable that obsolete submarines will be used as underwater targets.

Some surface craft also may be anchored in the blast area to measure the effects of the explosion, although the announcement did not touch on this.

**Small Yield Device**  
It said a "small yield nuclear device" would be used.

The shot will be the second publicly announced underwater atomic test made by American scientists and military experts. The first one boiled the waters off Bikini in 1946. It was one of an initial series of experiments made after World War II.

Joint task force seven, commanded by Rear Adm. C. B. Momsen, will conduct the new test. Momsen is one of the Navy's leading experts on submarine warfare.

**Dropped Like Mine**  
Informed officials commented, in connection with the test, that an atomic weapon can be dropped like a World War II sea mine and timed to explode under water.

These weapons, they said, could be discharged from aircraft, submarines or surface craft. American experts conceivably will need to study them from both an offensive and defensive standpoint.

The Soviet Russian navy is known to have about 375 submarines. American officials say it is possible that the Russians also have matched U.S. development of atomic devices as tactical, or small-scale weapons.

## Executives To Visit Advertising Faculty

The advertising faculty of the SUI school of journalism will be hosts Thursday and Friday to three advertising executives from Chicago, representing the central region of the American Association of Advertising Agencies.

The visiting executives are Gordon White of Batten, Barton, Durstine and Osborn; Seymour Banks of Leo Burnett Co., Inc., and E. J. Lauesen of Fuller and Smith and Ross, Inc.

Purpose of the executives' visit is to further the cooperative effort between advertising educators and advertising agency personnel, says Prof. Ellis Newsome, SUI associate professor of marketing and journalism.

## Jauch To Lecture On Albert Einstein

Prof. J. M. Jauch of the department of physics will lecture on Albert Einstein, in room 301, Physics building at 4:10 p.m. Tuesday.

Entitled "The Scientific Work of Albert Einstein," the lecture will be a non-technical speech open to the public.

Jauch met Einstein in 1942 at Princeton, New Jersey. Jauch was a professor in the Palmer Physics laboratory and Einstein was at the Institute for Advanced Study.

## Bomb Victims In New York For Surgery

NEW YORK (AP) — Twenty-five Japanese girls, for whom the atomic horror of wartime, Hiroshima never ended, arrived Monday in quest of new faces, and new lives.

They were horribly disfigured 10 years ago in history's first atomic attack.

Said one of them, English-speaking Michiko Sako: "I'm not too expectant. If I expect too much, I'll be disappointed."

However, medical science plans to try plastic surgery on the girls, hopeful of restoring their natural looks and giving them a chance at marriage and normal lives.

They ended a 6,700-mile trip aboard an air force plane at Mitchell air force base. Their ages are from 17 to 31.

Their trip here was the brainchild of an American editor and a Japanese Methodist minister.

The girls, withdrawn from normal life because of their disfigurement, eventually became proteges of the Rev. Kiyoshi Tanimoto in Hiroshima.

Two years ago, Norman Cousins, editor of the Saturday Review, ran across them and the idea of rehabilitating them was born.

World War II was much on their minds during the long flight from Japan, but they claimed to bear no rancor for the cruelty of the atomic attack.

Minowa, 29, one of the girls, told reporters: "I feel friendship and trust, but no hatred, toward Americans."

## Delay Atomic Test; Last in '55 Series

LAS VEGAS, Nev. (AP) — Firing of the final shot of the 1955 atomic test series was postponed Monday until at least Wednesday.

The Atomic Energy Commission said weather conditions are unfavorable because of danger of radioactive fallout over inhabited areas.

The device, to be detonated from a 500-foot tower, will be the 14th of the series.

## University High To Give Concert

The University high school department of music will present a concert Friday evening at 7:30 p.m. in the school gymnasium.

Featured will be the high school orchestra directed by Claude Carlson, the high school band directed by Robert Smith, and the high school mixed chorus and vocal ensembles directed by Miss Jean Gressley.

### ECONOMY FIRE

BREVARD, N.C. (AP) — After taking bids on the razing of an outmoded house on the campus, Brevard college took a cheaper way out and had the building burned. Cooperating was the fire department, which used the flaming structure for a fire-fighting demonstration.

## Mitropoulos Here To Conduct Berlioz 'Requiem' May 26

Dimitri Mitropoulos Eager for SUI Concert

Dimitri Mitropoulos, conductor of the New York Philharmonic Symphony orchestra, will direct nearly 350 Iowa musicians in the Iowa field house at 8 p.m. May 26. The group will present the Berlioz "Requiem."

It will be the first American performance of the Requiem for Mitropoulos. "I look forward eagerly to the event in Iowa City," Mitropoulos said. "Although I have conducted this piece many times in Europe, this is the first time I will conduct it in the United States."

The work was composed in 1837 to pay tribute to French war heroes.

The SUI Symphony orchestra and chorus are being augmented for the presentation by SUI music graduates and other musicians in the Iowa City area. Approximately 120 are expected to play in the orchestra, and some 225 will sing in the chorus. Four brass bands will join the group in playing part of the composition.

James Dixon, conductor of the SUI Symphony orchestra, is rehearsing the instrumental groups, and Herald Stark, director of the SUI chorus, is conducting the choral group.

Combined rehearsals have already begun, and Mitropoulos will arrive in Iowa City May 22 to conduct final rehearsals.

The concert will be the first time that Mitropoulos has conducted the SUI Symphony orchestra, although he has appeared on the SUI campus many times. He was here twice as piano soloist with the SUI orchestra, and previously as conductor of the touring Minneapolis Symphony orchestra.

**NO DELIVERY SERVICE!**  
CANTON, Ohio (AP) — Within a few hours after a woman reported that someone stole her radio, police proudly phoned her that they had caught the thief and recovered the radio. But it took a lot of arguing to get the woman to stop at the station for it. She told the detective in charge: "I didn't bring it up here, and I can't see why I have to carry it back home."

## To File Charge In Abduction Of Girl, 11

COUNCIL BLUFFS (AP) — A child stealing charge has been prepared for filing against a man accused of taking an 11-year-old girl from her home here and later criminally assaulting her in a Stuart, Ia., motel.

County attorney Matt Walsh prepared the charges late Monday.

At Guthrie Center, Ia., charges of kidnapping and rape have been filed against the man who, authorities said, has used the names of "Louie Dumont" and "Bob Dyke" and described himself as a Hollywood, Calif., dancing instructor.

Juvenile Officer Robert Pettie said the man appeared at the Salvation army headquarters here Saturday and told a story of having lost his wife and daughter in an accident.

He was referred to a mother of six children, including the 11-year-old.

The man went to the home, gave the family the clothing, then took the whole family for an automobile ride around Omaha.

Sunday, Pettie said, the man went back to the home and asked to take the 11-year-old child to Omaha for a television appearance. Permission was granted. However, the child said the man drove east from here instead of to Omaha.

The child told Pettie that when they reached Atlantic the man said he thought she was too nervous to make an appearance. He induced her, the child related, to take two green pills.

Shortly afterward, she related, she felt dizzy.

She said she knew nothing further until after being found unconscious in the motel.

## Band Concert Chamber Singers To Aid In Romberg Tribute

University Symphony band under the direction of Frederick C. Ebbs, will present a concert Wednesday at 8 p.m. in Iowa Memorial Union.

University Chamber singers will assist the band in a tribute to Sigmund Romberg with favorite melodies from his operettas. Dennis Wilson, Al Jefferson, will be trombone soloist with the band in "Morceau Symphonique" by Gullmair.

The band will open the program with the overture to Wagner's "Die Meistersinger." Other numbers include Milhaud's "Suite Francaise," French folk tunes, the second movement of the "Nordic Symphony" by Hanson, "Joyous Interlude" by Lee, and "Spaixico" by Fred. The program will close with Sousa's "Stars and Stripes Forever."

Tickets for the concert are available free of charge at the Union. The concert will be broadcast over radio station WSUI.

## Richer Wins \$100 Prize in Speech Contest

Paul Richer Wins Ohio Contest

Paul J. Richer, A3, Mason City, won first prize of \$100 Friday at the annual Northern Oratorical league contest held at Western Reserve university in Cleveland, O. He spoke on the atomic age in a speech "Let There Be Light."

Richer has been in two University theatre productions this year and will play the role of Mr. Roberts in the coming University theatre production "Mr. Roberts." Richer was winner of the Hancher Oratorical contest held last month.

Prof. Orville Hitchcock of the SUI speech department was one of the judges in the 65th annual contest. Other participants in the contest were from Western Reserve, Minnesota, Michigan, Northwestern, and Wisconsin universities.

A member of the speech department faculty of each school

served as judge on all the speeches but the one given by his school's representative.

Hal Horstmeyer of Northwestern university won second prize of \$50 on his speech, "The Crowded Consciousness."

Herb Kanzell, a 1947 SUI graduate, and Charles Guggenheim, a 1948 SUI graduate, have also won firsts in the contest.

Prizes for the annual contest come from an endowment by the late Frank O. Lowden, former governor of Illinois.

**AIR SERVICE**  
CHATSWORTH, Ga. (AP) — Service station operator Walter Bayne says the unidentified pilot of a light plane landed on the highway near his place, taxied up to buy a tankful of gas, a soft drink and a package of chewing gum and then took off.

# U.S. Works On Vaccine Release Program

WASHINGTON (AP)—The nationwide polio vaccination program was delayed Monday while the government set up machinery for quick stage-by-stage release of "frozen" vaccine.

In nearly every area where inoculation of school children was scheduled Monday, authorities ordered a postponement in compliance with Sunday's "strong recommendation" from the head of the public health service, Dr. Leonard A. Scheele.

Michigan was the chief hold-out. Inoculations went ahead there with the blessings of State Health Commissioner Albert Heustis. Heustis said he saw nothing in Scheele's announcement to cast a doubt on the safety of Michigan's vaccine supply.

**Voices Faith**  
Scheele, too, voiced faith in all vaccine now available for use. But he urged a postponement of vaccinations until federal inspectors make on-the-spot double checks in the five vaccine-making laboratories.

Individual lots of vaccine will be cleared for immediate use as soon as the inspectors okay them and telephone their reports to Scheele, who said he hoped the first lots can be released late this week.

In other developments:  
1. Chairman Don Magnuson (D-Wash.) of the senate interstate commerce committee said an investigation will be started early next week into what he called "muddled confusion" surrounding the vaccine.

**Continuous Flow**  
2. Dr. Jonas E. Salk, developer of the vaccine, said at Pittsburgh the public health service's action "expresses its desire to do all in its power to assure the continuous flow of safe and effective vaccine." Salk said the safety of the vaccine itself has been proved beyond question. But he said the public health service "has the ultimate responsibility in matters of this kind that have gone beyond the research stage."

3. The latest public health service report listed 51 confirmed cases of polio among those vaccinated. The report said in 44 cases the vaccine used was that of the California laboratory whose product has been withdrawn temporarily from use.

## City Record

**BIRTHS**  
Mr. and Mrs. Leslie Crow, R.R. 1, Oxford, a boy Saturday at Mercy hospital.

Mr. and Mrs. Eugene Manderfield, Oakdale, a boy Saturday at Mercy hospital.

Mr. and Mrs. Edward Rodgers, 328 S. Dubuque st., a girl Saturday at Mercy hospital.

Mr. and Mrs. Robert J. White, 820 Ronalds st., a girl Saturday at Mercy hospital.

Mr. and Mrs. Donald Johnson, West Branch, a girl Sunday at Mercy hospital.

Mr. and Mrs. William Schlopka, Lone Tree, a boy Sunday at Mercy hospital.

Mr. and Mrs. Arlo Jacobson, 212 Finkbine park, a girl Monday at University hospitals.

**DEATHS**  
Neil Wehrman, 68, Eldora, University hospitals Saturday.

Harvey Elsberry, 69, Boone, University hospitals Saturday.

William Koenig, 88, Richmond, Mercy hospital Saturday.

**POLICE COURT**  
Lawrence Gronewald, Atalissa, Saturday received two \$102.50 fines on charges of leaving the scene of an accident and failure to have his car under control. Judge Roger Ivie suspended one of the fines and recommended that Gronewald's operator's license be suspended for 30 days.

Richard J. Axmear, Delta, Monday was fined \$17.50 on a charge of disobeying a stop sign.

LaVonne Joan Oetjen, N. Sac City, Monday received a suspended \$7.50 fine on a charge of disobeying a stop sign.

## Chosen Currier Hall 'Mother'

MRS. MARGARET WANDLING, Marengo, receives a gold compact from Sally Evans, D1, Clarks-ville, after Mrs. Wandling was chosen Currier Hall Mother of the Year, Sunday afternoon. Miss Evans is president of Currier council. Standing to Mrs. Wandling's right is her daughter, Helen Ann, A4. Barbara Oliver, A3, Des Moines, president of Currier association, looks on. Mrs. Wandling was chosen on the basis of a letter written by her daughter.

## House OK's Postal Wage Bill Against President's Wishes

WASHINGTON (AP) — The house, risking a presidential veto, approved an average pay raise of 8.8 per cent for postal workers Monday.

Democratic leaders said the senate would take up the bill Wednesday, and that its chances of passage were good.

But President Dwight D. Eisenhower has indicated he would veto any increase going beyond 7.6 per cent. Postmaster General

is required to override a presidential veto.

Awaiting developments in the postal legislation is another bill to boost the pay of more than 1.2 million civil service employees. The senate has okayed 10 per cent for them. The house has not acted yet.

## SUI Debate Team Will Argue at ISC

Two SUI debaters will compete against two Iowa State college debaters Friday as part of the Iowa State college annual Veishea celebration.

James D. McKinney, A3, Muscatine, and Melvin L. Popofsky, A1, Oskaloosa, will be on the split team-cross examination debate team.

The debate, entitled "Resolved, that proceedings of international meetings should be made public," will be held in the Iowa State college Memorial Union.

**WATER CURE**  
FLINT, Mich. (AP) — Someone had been draining Cass Smith's gasoline tank almost nightly for two weeks, so he set a trap. He drained his own tank. Then he filled it with water. Next day, a 17-year-old youth whose car stalled a short distance away was picked up for questioning. He was booked on a charge of larceny when he was unable to explain the water in his gas tank.

## 9 Men Test Radiated Food

DENVER (AP)—Food purposely irradiated by nuclear fission was eaten Monday by nine volunteers.

The nine, all conscientious objectors to military service, are taking part in an experiment at Fitzsimons army hospital.

In the next several months they will eat 13 irradiated food items.

Close studies will be made of the long-term nutritional values and effects of such foods.

Irradiation is under study as a means of preserving food.

A hospital spokesman said the safety of the foods has already been determined by experiment on animals.

In Washington Monday, the army reported that use of atomic radiation to prevent decay may revolutionize GI chow—and the nation's food industry as well.

For 150 years, Maj. Gen. K. F. Hertford said, armies have marched with food preserved by the same basic method: the can, invented in Napoleon's time.

But in the atomic age, he added, radiation may preserve both fresh or cooked foods with far better taste and texture.

## Stewart—

(Continued from page 1)

Friends of the Iowa school of religion celebrated the school's 25th birthday in the traditional annual luncheon before the meeting of the trustees.

Three SUI students — Barbara Behrens, A4, Oelwein; Don Templeman, C4, Cedar Rapids, and Sandra Levinson, A1, Mason City — gave their reactions and impressions of the school.

Pointing out that problems of faith and understanding grow more complex as students reach college age, Miss Behrens observed that "we would never think of solving a difficult problem in analytical geometry with eighth grade arithmetic but we often try to solve our religious problems with an eighth grade faith."

She said that she had "benefited greatly and gained immeasurable insight" into her own faith through coursework in the school of religion.

"Though a course in religion may strengthen one's own religious beliefs," Miss Levinson continued, "it serves most to equip young people for a life of more knowledge, respect and understanding of other people's religions."

Miss Levinson told the assemblage that she "could not over-emphasize" what she had learned this year about the world's religions.

Templeman observed that "if more students realized that education in religion on a secular campus is more unique than usual they would appreciate the school even more than they do at present."

Director Robert S. Michaelsen stressed that the school's faculty "does not tell students what they should believe but tries (1) to make evidence to students that men do live by faith in something and (2) exposes them to the major faiths which are the warp of the fabric of Western and American culture."

## MALLO SPEAKS

Prof. Jeronimo Mallo of the romance languages department gave a speech on "Democracy and Liberation in Spanish Civilization" at the annual meeting of the Central States Modern Language Teachers association meeting in Minneapolis, Minn., May 7.

## Salute Airline Stewardesses On Their 25th Anniversary

A salute to 10,000 young women who pursue a career in the skies is being paid this month as the airline stewardess profession marks its 25th birthday.

It was on May 15, 1930, that United Airlines pioneered the stewardess profession by employing eight young women on the San Francisco-Chicago route of Boeing Air Transport, a predecessor company.

The stewardess idea was authorized by Miss Ellen Church, now administrator of

Miss Hamilton

Union hospital, Terre Haute, Ind. Then a nurse in San Francisco, she "sold" her suggestion to wary officials at Boeing who accepted it only on a trial basis.

Three former Iowa City young

women have been selected as United Airlines stewardesses.

Miss Coralee C. Tallman, daughter of Mr. and Mrs. William Tallman, 916 Walnut st., has won her silver wings.

Miss Tallman, a graduate of St. Patrick's high school and of SUI. She is an affiliate of Alpha Delta Pi sorority.

Having received the same training, Miss Barbara J. Beals, daughter of Mr. and Mrs. L. R. Beals, 714 Brown st., now serves aboard Mainliners flying in and out of San Francisco.

Miss Beals attended Iowa City high school and is a graduate of SUI. She is a member of Gamma Phi Beta sorority.

Miss Connie Hamilton, daughter of Mr. and Mrs. Clair Hamilton, 219 Church st., has also received her wings.

## Brownell To Talk At GOP Dinner

DES MOINES (AP)—U.S. Atty. Gen. Herbert Brownell Jr. will describe the "New Look in Law Enforcement" in his address at the annual Iowa Republican fund raising dinner here Wednesday evening.

GOP state headquarters, in making the announcement, described Brownell as "one of the leading spokesmen for the Eisenhower administration."

Brownell will arrive in Des Moines by plane Wednesday noon. He will meet with the Republican state central committee and GOP state finance committee that afternoon.

Harold Brenton, Des Moines, treasurer of the Republican national committee, will be host to Brownell.
