The Weather

Partly cloudy with showers and thunderstorms here late tonight. High today 70-75. Scattered showers and a little cooler Sunday.

Tito Reported Resisting Soviet Wooing

BELGRADE, Yugoslavia (AP)—President Tito demanded Friday that Soviet Comunist boss Nikita Khrushchev put the Belgrade talks strictly on a governmental plane, an informed source said.

Tito was described as resenting efforts by Khrushchev to woo him through a Communist party line appeal.

Khrushchev's "Dear Comrade" approach apparently has misfired and Tito's National Communism remains intact, the source said.

Khrushchev holds no office in the Moscow government but Soviet Premier Nikolai Bulganin is here with him.

The informant said Tito took his first opportunity Friday to reply to Khrushchev's arrival speech of yesterday. Tito was quoted as telling the Moscow delegates he had agreed to their coming to Belgrade on the understanding that the talks would be purely governmental.

But, the informed source said, Khrushchev responded to Tito in about the same vein as his speech of Thursday when Tito listened without expression to Khrushchev's appeal to return to the Moscow fold.

Tito, a Croatian peasant's son with a long record of Communist activity, was trained in the same tough school as his Soviet visitors. He presumably saw in Thursday's speech an effort to lure him back into the Cominform, something he has declared he would never do. Yugoslavia was expelled from the Cominform in 1948.

Informed circles here suspected from the time Khrushchev was named head of the Soviet delegation that the Russians were coming here mainly to persuade the Yugoslav President to give up some of his independence. It was doubted that the Russians were actually coming as they said to discuss primarily problems of state.

Friday Tito was believed to have made an effort with his usual forcefulness to sidetrack the Russians.

Fischers Receive Word Son Moved

SWEA CITY (AP) — The parents of Capt. Harold Fischer Jr., received comforting news Friday that their son and three other American fliers held by the Chinese Reds have been transferred from Mukden to Peiping, capitol of Red China.

Mr. and Mrs. Harold Fischer said they received this word in a letter which had been written April 15.

"We feel it brings him closer to home," Mrs. Fischer said.

The move is a possible indication that the Reds are planning to release the four fliers, among whom are: 1st Lt. Lyle Cameron, Lincoln, Neb.; 1st Lt. Ronald Parks, Omaha, Neb. and Lt. Col. Edwin Heller, Wynnwood, Pa., near Philadelphia.

Fischer's letter said that he enjoyed a first class train ride from Mukden to Peiping, that the food was good and that the four Americans were billeted in the home of a "former well-to-do resident."

The letter indicated that the move took place about April 8.

The American pilots were shot down during the final stages of the Korean War. Heller had suffered serious injuries and was hospitalized not far from the jail area in Mukden where the other three jet pilots were held.

Truck Kills 7 in San Francisco

(AP Wirephoto)

THE RAMPAGING PATH OF DEATH crashed by a huge moving van as it rolled out of control from the top of one of San Francisco's steepest hills is shown by the black arrow paths. The solid path ends where the truck began its destruction after rolling miraculously clear for several blocks. Seven persons including the driver of the truck, William McCandless of Davenport, Iowa, were killed between the start and the end of the broken arrow path where the truck stopped in a mass of flaming wreckage including eight automobiles.

Brakeless Van Kills 7 in San Francisco

SAN FRANCISCO (AP) — A big interstate moving van driven by an Iowan ran wild five blocks through the heart of San Francisco Friday after its brake failed.

Seven persons, including driver William Russel McCandless, Davenport, were killed in the flaming wreckage of the truck and the dozen cars it wrecked.

The truck ended its terrible journey crashing and exploding on the sidewalk near the Hall of Justice.

Down Nob Hill

The huge yellow Mayflower van roared down the steep side of Nob Hill on Clay street at an estimated 80 miles-per-hour.

The truck ran miraculously clear for several blocks. All death and damage came in the final block.

The van scraped a half block of store fronts and wrecked a dozen automobiles. At least eight, including three police cars, were smashed into junk. Street signs, lights and poles toppled in crazy confusion.

Hits Pedestrians

Pedestrians along the sidewalk scattered like startled quail, but some could not escape in time.

The unlucky were crushed beneath the wreckage and splashed with flaming gasoline from the shattering explosion of the truck's fuel tank.

Flames shot an estimated 50 feet high. Shattered windows showered the entire area.

One man's body burned on the sidewalk as rescuers tried to edge near.

Police patrolman Henry Eidler was one of the dead.

Two San Francisco women suffered broken legs and a third a possible broken back.

The co-driver, Wayne D. Wolfe of Littleton, Colo., saved himself by leaping from the cab in the second block. He said the big rig's brakes failed just after it started down hill on the narrow one-way street.

According to Davenport police, the Scott county sheriff is holding a warrant charging McCandless with deserting his family. Police said McCandless had not been in the area for several years.

Lone Gunman Robs Bank of Chicago

CHICAGO (AP) — A lone gunman held up the Bank of Chicago in the busy Wilson Avenue-Broadway district Friday and fled on foot with $5,000 or $6,000 in cash.

The holdup man, about 30 to 35 years old, and in need of a haircut, walked up to the window of teller Audrey Fleming at 2:30 p.m.

He zipped open a brief case he was carrying, drew a gun and whispered:

"Don't make any sound and don't step on the warning button, or I'll kill you. Give me the money."

Miss Fleming had two bundles of cash in her drawer. She seized the smallest bundle and handed it to him.

State OK's Work on 3 City Streets

Approval has been given by the Iowa state highway commission for widening Burlington street from 40 to 50 feet and two other street improvement projects.

The other projects include an unspecified amount of work on North Dodge street and resurfacing North Dubuque street between Ronalds street and the Park bridge.

Burlington street will be widened from Madison street to Linn street, five feet on each side—about the present location of the sidewalks. Since the city owns an 80-foot right-of-way, no land purchases will be necessary.

Estimated cost of the projects is $57,600. Since all three streets carry primary highways, the state will pay half the cost.

Plans for the work will now be submitted to the city council for consideration. If approved, the city will let contracts and supervise the work.

Resurfacing will be asphaltic concrete, applied as a hot mix, similar to that applied to the Riverside drive-Iowa avenue intersection. Plans call for Burlington street to be re-paved from Madison to Gilbert streets.

UAW Calls Top Policy Conference

DETROIT (AP) — The CIO United Auto Workers (UAW), seemingly far from winning their guaranteed annual wage demand, called a top policy meeting Friday night to map further moves on the industry.

Members of the UAW international executive board were summoned from around the country to a special meeting.

UAW President Walter Reuther gave no hint as to what action the board might take. Speculation was that the group, composed of the union's top officers and regional directors, would set a policy to follow if the industry remains firm against giving a guaranteed wage.

Brief union sessions with the industry's two biggest producers —General Motors and Ford— produced no announcement results.

Ford and the UAW, faced with a contract expiration deadline Tuesday midnight, recessed until Sunday. General Motors and the union, with an extra week's grace, put off further talks until Tuesday.

The UAW has not said it will follow a "no contract, no work" policy if either agreement runs out without a settlement. But it has indicated that unless it feels some progress is being made the union will not agree to any contract extension.

So far, such progress appears to be lacking. The UAW blasted Ford's offer of a bargain stock purchase plan and other benefits as a "phony." Ford called its counterproposal one of the "most challenging and comprehensive" in auto industry history.

No Iowan Tuesday

The Daily Iowan will omit publication Tuesday to allow employes and staff to observe Memorial Day. The Iowan will resume publication Wednesday.

U.S. Clears Polio Vaccine, Orders New Safety Tests

Canoers, Governor Wave to Crowd

GOV. LEO A. HOEGH and the seven men who canoed from Iowa Falls to Iowa City for the Iowa Falls Centennial celebration wave to the 200 people who greeted them upon arrival Friday afternoon.

200 Greet River 'Pioneers' As Canoe Journey Ends Here

A tired party of modern pioneers ended its seven-day trip down the Iowa river Friday, disembarking at the dock behind the Iowa Memorial Union.

The journey began May 20 at Iowa Falls to publicize that town's centennial celebration June 16-18.

Approximately 200 spectators, including Gov. Leo A. Hoegh and SUI President Virgil M. Hancher, were on hand to greet the bearded travelers.

Hoegh Commends Men

Hoegh commended members of the flotilla on having demonstrated that any objective can be accomplished.

"The hardships encountered on this trip can make us more appreciative of the finer things in life," said Hoegh.

Hoegh narrowly escaped a ducking in the river when he was accidently pushed as the welcoming party crowded onto the dock to meet the Iowa Falls group, but he regained his balance and kept from falling.

Hancher, Mercer Speak

Greetings were also extended by Hancher and Iowa City Mayor LeRoy S. Mercer.

Highlighting the event was the presentation of a century-old rifle to Hoegh by representatives of the Iowa Falls fleet. The rifle will be placed in the museum at the state capital.

According to flotilla chairman Harve Everett, the group traveled about 300 miles down the Iowa river. He said 10 boats and canoes started from Iowa Falls with seven men, making the complete trip. Others worked in relays.

Everett said about 26 men landed and the whole trip involved approximately 45 participants.

The seven men who went all the way are: Emerson Calkins and his son Kent; group leader Paul Hodgson, Hardin county sheriff; Don Klaaren; Art Schmacker; Dallas Alldredge; and Gilbert Cuplin.

All seven were pushed into the river by other members of the party after docking.

After climbing from the water, group leader Hodgson commented, "This community isn't as dry as you think, Governor."

The flotilla will travel back to Iowa Falls in an easier fashion—the men by car and the boats by truck.

Investigating Air Industry

WASHINGTON (AP)—A House Armed Service subcommittee has started an investigation of 11 major aircraft manufacturers to determine if they are making excessive profits on multi-billion dollar government contracts, it was learned Friday.

Subcommittee investigators have begun a check of company books, in what qualified informants said would be the most sweeping review of aircraft contracts in three years.

The purpose is to determine whether profits are too large or whether there is any hidden profit in funds paid for standard aircraft contracts on the cost-plus-fixed-fee basis.

The investigation would cover all major manufacturers holding contracts for military combat and transport plans.

Contracts for developing guided missiles, held also by leading aircraft companies, are not involved.

Contracts with these 11 major companies are primarily under scrutiny but the probe might include other manufacturers:

Douglas Aircraft Co., Lockheed Aircraft Co., Boeing Airplane Co., Glenn L. Martin Co., Curtiss-Wright Corp., Fairchild Engine and Airplane Corp., Republic Aviation, North American Aviation, Consolidated-Vultee Aircraft, Grumman Aircraft Corp., General Dynamics Co. (Convair).

Student's Car Hits Barracks

Terrence G. Miller, A1, Des Moines, Friday night left the road at the intersection of River street and Riverside drive and rammed into a Templin park barracks.

Miller was charged by Iowa City police with failure to have his vehicle under control.

Miller's car hit the barracks at 119 Templin park, occupied by the family of Darrel Loan, E1, Iowa City. The Loans were not at home. The car received minor damage.

House Fire Here Blamed On Toaster

A fire, believed to have been started by an electric toaster, did damage estimated at several thousand dollars to the Alfred N. Scales home, 302 Melrose ave. Friday morning.

Scales, a University hospitals ambulance driver, and Robert Hamilton, 308 Melrose ave., discovered the fire about 11:25.

Scales, who had just returned from an ambulance trip to Mason City, entered the house after noticing smoke streaming from a rear window in the kitchen.

He said that when he entered the house a column of flames was starting up the cupboard between the kitchen and the dining room. The fire had spread throughout the kitchen when firemen arrived.

The toaster, blamed for the fire, burned down through the top shelf of the cupboard, firemen reported. Mrs. Scales, who was downtown when the fire started, said that she had used the toaster Friday morning.

"Just before I left I thought I smelled something hot," Mrs. Scales said.

The walls, cupboards and furniture of the kitchen were charred by the fire. The ceiling had been burned through to the floor supports above.

Wallpaper and paper throughout the house were damaged by smoke, and water damaged the dining room furniture. Some new rugs, which had been delivered Thursday, and were still rolled in the living room, were not believed to be damaged.

Scales said the loss was covered by insurance.

Danger from Polio Shots Over: Official

DES MOINES (AP) — A state Health department official said Friday that any existing danger to children who received the first polio vaccine injections of contracting the disease from the vaccine has passed.

Dr. Ralph H. Heeren, director of the department's division of preventable diseases, said that of the approximately 140,000 children receiving the Salk vaccine there are no reports of severe reactions to the vaccine.

The first shots were given three weeks ago in Iowa.

He said that medical authorities connected with the vaccine generally agreed that any reaction would come within five to nine days after the vaccination. He said 21 days would be a maximum period to develop a reaction from the vaccine.

Dr. Heeren said parents whose children received the vaccine had no need to worry about a reaction now.

Says Ex-Governor In Line for Cabinet

WASHINGTON (AP) — Marion B. Folsom, Georgia-born undersecretary of the treasury and former Eastman Kodak Co. official, was reported Friday in line to succeed Oveta Culp Hobby as secretary of health, education and welfare.

An informed source said Folsom is "virtually certain" to be named in the near future. Folsom declined comment and Mrs. Hobby, asked if she has resigned or is about to do so, replied with a smiling "I have nothing to say."

Safeguards Strengthened In New Lots

WASHINGTON (AP) — The government cleared the way Friday for a fresh start in polio vaccinations — with new, extra-sensitive safety tests.

But chances were dim that all children aged 1 to 9 could get their Salk vaccine shots before the peak of this year's polio season.

Surgeon General Leonard A. Scheele announced vaccine would start flowing from the laboratories "in a very short time" under tight new safety standards established by the government and accepted finally by all the manufacturers Friday.

Denies Rumor

Secretary of Welfare Oveta Culp Hobby called the agreement a heartening "ray of sunshine."

She also took occasion to deny categorically a rumor of high level political intervention on behalf of one vaccine manufacturer whose product has been withdrawn from circulation temporarily.

Mrs. Hobby and Scheele appeared before the House Commerce committee as the number of confirmed polio cases among persons receiving Salk vaccine jumped to 111 — an overnight increase of 17. Thirteen of the new cases were nonparalytic.

List New Cases

Friday's Public Health service report listed the first cases—two nonparalytic ones, both in Nebraska—among persons inoculated with vaccine made by Pitman-Moore Co., Zionsville, Ind.

Scheele described himself as "very optimistic now" about the program's future.

Scheele and Dr. Jonas E. Salk, developer of the vaccine, both said it will not be necessary for children who have received their first shot to start all over before getting the second and third shots.

No Pressure

Mrs. Hobby gave her answer—a firm no — to a question raised earlier by Rep. Klein (D-NY). The question: did "a very, very prominent California politician" later identified as Vice President Nixon, bring pressure on her to license Cutter laboratories, the firm whose vaccine was withdrawn after a number of polio cases followed its use.

★ ★ ★

Delay County Polio Shots

The Johnson county polio inoculation committee announced Friday that no vaccinations are scheduled in the county next week.

The second series of Salk polio vaccine inoculations had originally been scheduled to begin Tuesday.

Indefinite postponement of the planned shots has resulted from delays in releasing additional supplies of the vaccine. The schedule of inoculations will be announced when the vaccine is received.

SUI Student Critical After Auto Crash

AUDUBON (AP) — Charles Mumgaard, A2, Audubon, one of two SUI students involved in a traffic accident near here Friday morning, was reported in critical condition at a Des Moines hospital Friday night.

Mumgaard was riding with Donald Jensen, A2, also from Audubon, who was enroute to Des Moines to enroll in the Drake University summer school. Both are about 20.

Authorities said an unidentified motorist pulled on to highway 64 about 16 miles east of Audubon without stopping and that Jensen swerved his car to avoid a collision. The car landed in a ravine. Both men were thrown out.

Khrushchev Outranks Bulganin in Belgrade

WASHINGTON (AP) — President Eisenhower, it now appears, will not be dealing with Russia's real leader, when he meets Premier Nikolai Bulganin at the Big Four conference this summer.

If there was an doubt remaining in the minds of American experts on who the boss of the Soviet system now is, it was dispelled Friday as they studied reports of the remarkable arrival in Belgrade of a Soviet delegation to visit Marshal Tito.

The conclusion here is that Nikita Khrushchev, leader of the Communist party in the Soviet Union, is Russia's No. 1 man. Bulganin probably ranks No. 2.

Khrushchev is not regarded as a new Stalin, however. Experts in the American government rate him rather as a kind of chairman of the board in the Kremlin setup.

He probably cannot dictate decisions, but must consult with others like Bulganin, Foreign Minister V. M. Molotov and similar members of the inner circle.

At Belgrade Thursday Khrushchev was the first off the airplane, preceding Bulganin, although the delegation was going from the Soviet government to the Yugoslav government and the honor of first arrival properly belonged to the Russian premier.

Khrushchev also spoke at the airport while Bulganin stood silent. He was clearly the man who was dealing with Tito, and Bulganin was pushed into the background.

U.S. officials said they had expected, since Tito is Yugoslavia's Communist party leader as well as its government chief, the Soviet visitors would emphasize the importance of the party relationship which they hope to re-establish.

Nevertheless, the scene in Belgrade has raised a question in the minds of diplomats whether the Soviets attached more real importance to the visit to Tito than to the prospective negotiations with the President of the United States and the Prime Ministers of Great Britain and France.

Russia's acceptance Thursday of the Western invitation to the meeting provided fresh evidence of a developing fight between Moscow and Washington over which can roll back the other's power from the heart of Europe.

Russia's acceptance note appeared to be the latest in a series of moves designed to hurt American prestige in Western Europe and compel the withdrawal of American forces across the Atlantic.

Officials Concerned About Engineer Shortage

Proposed Draft Legislation Would Exempt Engineers

By CARL HINSHAW
U. S. Representative from California
In Planes Magazine

If this nation and the freedom of the world are to survive in this age of peril, then the alarming shortage of scientific manpower in the ranks of United States industry must be eliminated.

The creation of modern weapons for defense, air power in particular, is a gigantic and complex operation, that once having gained momentum, cannot be aborted without incalculable waste of irretrievable time.

Yet today, we are falling behind Russia in the production of scientists and engineers. Our schools and universities have not met the need, so it is imperative that we preserve to the utmost our present supply.

Security Threatened

But, tragically, interpretation of our present selective service system forces those charged with its administration to threaten the very security of our homeland. In their interpretation of the Universal Military Training and Service act, they must implacably demand the induction of young scientific manpower, knowing full well they may be already engaged in research and development critical to the defense of the nation.

Much speculation has appeared in the press as to whether the Communists are overtaking us in the race for new and improved airborne weapons. Unfortunately, even if we just hold our lead, we may be slipping toward defeat, because if we should lose the cold war in which we are now engaged, we would have no choice but to depend first and most heavily upon aerial superiority.

$140,000 per Minute

Our existing air power must always be the product of research and development action taken years past. Currently, the defense department—army, navy and air force—spends just for the development and production of weapons and equipment approximately $140,000 every working minute.

Despite this great expenditure, the most serious limitation on progress in our overall defensive position, according to Asst. Secretary of Defense Frank Newberry, "is the scarcity of qualified research and engineering and production organizations, and the scarcity of qualified scientists and engineers to man them."

Searching Examination

Because of the fundamental issues involved in the alarming shortage of scientific manpower facing the nation today—and for years to come—the congress is conducting a searching examination which it is hoped will lead to overhaul of the selective service law through enactment of pertinent new legislation.

This proposed legislation would amend the present draft law to provide for the discharge and continuing deferment of certain persons of exceptional scientific, technical and engineering ability or aptitude. It would provide that each individual inducted or enlisted in the armed forces "shall within 30 days from the date of his induction or enlistment, be afforded an opportunity to apply to a scientific specialist board . . . for suspension of his obligation for training and service in the armed forces."

This legislation would simultaneously create a scientific specialists board, composed of five members appointed by the President, who would have the sole power of determining whether an individual's obligation to serve in the armed forces would be suspended.

The board would be charged with the prompt examination of the inductee or enlistee applicant for technical ability or aptitude, "to warrant suspension of his obligation to serve in the armed forces . . . because he is actually or potentially more valuable to the interests of the national security and defense as a scientist, technician or engineer, than as a member of the armed forces."

Suspend Obligation

The proposed legislation further provides that "prior to the expiration of the 85th day from the date the applicant was enlisted or inducted, the board shall notify him of its decision with respect to his application."

If the board decides that an individual who has applied for a suspension is "actually or potentially" more valuable to the interests of the national security and defense as a scientist, technician or engineer, than as a member of the armed forces, then the secretary of defense will suspend the obligation of the individual to serve in the armed forces not later than the 85th day after the date on which he was inducted or enlisted.

Full Powers

The board would be autonomous with full power of decision. It would not act in an advisory capacity. It would decide whether an individual's obligation would continue to be suspended, and it would be up to the board to decide if an individual should be reinducted should he fail to fulfill the purpose which justified the suspension of his military obligation. The legislation further provides that an individual who receives such a suspension would remain liable for induction up to age 35.

It is the conviction of the congress that every American young man would benefit from military training and that it is his privilege to serve in the armed forces for the defense of his country. But this need not and should not be carried to the point of impairing the national security by depriving it of the services of the irreplaceable men who have spent from four to seven years acquiring training and experience that can and must be utilized as efficiently as possible in the national welfare.

Enlisted Man

Not long ago I brought to the attention of the assistant secretary of the air force an enlisted man who in civilian life had been working nearly four years on the national advisory committee for aeronautics at Langley air force base, Virginia.

This brilliant young man, holding a master of science degree in aeronautical engineering, figured the computations on the skin friction of the air force's X-1A, the highest speed research plan known to exist. He tried for a year to be assigned to Wright-Patterson air force base where his education and experience would. in his opinion, be valuable. He had been unable to effect a transfer until I found him. He had, incredible as it seems, been assigned to blowing a bugle in the air force band because he could blow a bugle, too.

Research Spending

Every year, the government spends in the neighborhood of $4 billion in research and development, most of which is farmed out to industries and colleges. When we look at these industries and institutions and the brilliant men and women in them, a great surge of pride in their accomplishment rises within us.

If we approach them stating "let's pour some more money into this effort and get more and better results," we learn the blunt truth that pouring any more money into a project won't bring any more results because there are not enough trained brains available for the project. In a recent edition of the New York Times there were more than five pages of display advertisements for scientists and engineers. In a recent edition of the Los Angeles Times large portions of nine pages of classified advertising space pleaded for scientists and engineers of all types for critical activities.

'Only Salvation'

I am firmly convinced that this nation's only salvation in the technological race for aerial supremacy rests with the scientifically educated youth of America whom we are presently drafting into the armed forces for menial tasks.

Because there are those who would doubt the real worth of youth 18-25 years, to scientific and engineering efforts of critical industry I asked for the advice of an expert on the subject—Dr. Lee DuBridge, president of the California Institute of Technology and a distinguished member of the National Academy of Sciences. (DuBridge did his undergraduate college work at Cornell college, Mt. Vernon, Ia.).

Young Scientists

DuBridge declared, "Some of the most brilliant scientists in history have made their most outstanding contributions while they were still in their early or middle twenties. Einstein developed the theory of relativity in 1905 when he was 26 years old.

"One of the most brilliant theoretical nuclear physicists in the country, who is to join the Cal Tech staff next year and has already made important contributions to the theory of nuclear forces, is now only 25 years old. He received his Ph.D. while only 21 or 22. (Incidentally he is not at all sure that he will receive further deferment from his draft board)."

Replacement System

At first glance it would seem that a replacement program would be feasible, even for men with four to eight years of academic training and two years practical experience in nuclear procedures. However, at present the project has a shortage of 35 engineers and if it could find 15 more chemists it would be able to meet the requirements of its schedule — but only if it loses none of the men it presently has to military assignment.

America is built upon the principle of equality of all men, but we must not lose sight of the fact that, though all men are conceived to be equal, they are not equal in terms of their talents or the character of the contributions they can make to our society. Any system of manpower control which we establish must accept the distinctions which do exist between individuals. We cannot afford to reduce all our manpower to the lowest common denominator.

Talents Rare

Such men—these irreplaceable talents — are rare indeed. How exceptional must a nuclear scientist be to be considered critical to the national defense? Scarcely a score of theoretical physicists complete their training in any year in the entire U.S. by achieving their Ph.D.

We have been told that the size of our armed forces may be cut because of the superiority of our new weapons. Yet our draft boards seem bent on placing these very men whose scientific genius and technical skills make possible the invention and manufacture of such weapons into this reduced army.

Shall we kill the eagle that lays the atomic eggs?

SUI Engineering Graduates 1945-1955

Dawson Says Solution Lies in High Schools

By DAVE STEVENS

Dean Francis M. Dawson of the SUI college of engineering said Friday there is a shortage of engineers in the United States, but he warned the public not to get panicky.

"Quantity," he said, "does not necessarily mean quality. Bigger engineering classes might result in less thorough training."

One of the major factors for the decline of engineer graduates in American colleges is the switch of thinking by educators on the secondary school level, he said.

Lists Causes

The SUI dean agreed with other experts that some of the causes for the shortage are the Korean War, the continued distribution of out-dated Bureau of Labor Statistics fiures, the draft and the fact that the low number of "depression babies" are now of college age. However, Dawson pointed out, the trend for students in high schools is to avoid difficult subjects and just "skim by."

Anything that takes more than the usual amount of brainwork and outside studying is shunned by students, he said, and the teachers are not helping the situation.

"The result has given the college of engineering here its biggest headache," Dawson continued. "They just do not know how to study. We have to teach them how to learn before we can teach them what to learn."

Start Early in Life

To be proficient in language, science or mathematics, the student must start early in life, he stated. The best time for learning a foreign language is in high school or before and mathematics is just a different kind of language with a different set of symbols.

Dawson denounced those who give the young students too much freedom in selecting school courses. He said that "liking a subject is a poor way of judging it." Whether or not the student likes the subject, he must learn to develop his abilities to their fullest degree, he added.

Dawson believes that if the secondary schools can not remedy the situation that industry can lessen the effects. He said that if engineering graduates were used where they should be used, that a shortage would not be as noticeable.

Sub-Professional Job

He agrees with his former student, F. W. Trezise of the University of Illinois, who states in a Time magazine article (columns 6, 7, 8, this page) that many companies are putting engineers in sub-professional jobs which could be handled by technicians.

Companies and colleges cooperate in several ways. SUI, like other colleges, schedules classes at times that are opportune to promising "company men" being sent to school on company time. Some companies donate money for individual scholarships also.

Dawson doesn't agree with one expert who said that the big companies are grabbing off all of the new engineers. Dawson said that many small companies offer as much or more money than some of the big companies. One big advantage of the large plants is their better training programs, he explained.

His Solution

The solution to the engineer shortage, he said, lies indirectly in the high schools, which must set a high standard of performance and create a spirit of scholastic competition. "It is a complete fallacy that students should attend school solely for a good time," he said.

"I am not very interested in expansion here at Iowa," Dawson stated. "Our staff is able to have a close relationship with their comparatively small classes and the SUI graduate is prepared to take his place anywhere in the Engineering field." However, a large engineering freshman class at Iowa means that the output of SUI graduates will be increased.

Shortage of Engineers Called Threat to National Security

From Time Magazine

The United States is currently in the grip of a shortage that Assistant Defense Secretary Donald Quarles ominously calls "potentially a greater threat to national security than any aggressor weapons known."

That is the shortage of trained engineers. Just to keep pace with normal growth, the U.S. requires 30,000 new engineers annually; the new production burdens of the cold war require another 10,000 a year.

But last year accredited U.S. schools graduated only 19,650 engineers—less than half the required number. Lacking engineers, U.S. companies have begun refusing government research projects. Caterpillar Tractor alone turned down six armed forces contracts.

Losing Race

Not only is the engineer supply falling behind America's needs; it is also failing the U.S. in the military-technological race with the Soviet Union.

Last year the Russians, who produced only about 9,000 engineers in 1928, have stepped up graduations until last year 53,000 were turned out—a rate 2½ times greater than that of the U.S.

Behind the U.S. engineering shortage lie a number of causes. One of the biggest is a survey made by the Bureau of Labor Statistics (BLS) in 1949.

Too Many in 1949

It found that the U.S., then graduating close to 50,000 engineers a year, had too many. But shortly afterward, the Korean war and the boom in electronics and guided missiles transformed the picture.

The industrial ration of engineers to factory workers, which stood at one to 100 during the late 1920's, has increased to one to 60, and is rising with every new automated process.

But though the BLS retracted its 1949 warning, the damage was done. Says A. A. Potter, engineering dean emeritus of Purdue: "I've talked to high school counselors no more than three weeks ago, and that BLS report was still in their minds."

High School Training

High school training is another cause of the shortage. Training in the sciences and higher mathematics should begin no later than the junior year in high school.

But in the last 50 years, the proportion of high school students studying algebra has dropped from 50 per cent to 20 per cent, physics from 20 per cent to 4 per cent.

Says University of Illinois Engineering Dean William Everitt: "We can't teach these boys algebra and geometry or primary physics and chemistry in colleges."

Freshmen Unprepared

Today MIT (Massachusetts Institute of Technology) reckons one in four of its freshman engineering students to be poorly prepared, while Illinois Institute of Technology is only 60 per cent filled for lack of properly qualified applicants.

Finally, when the comparative handful of engineering students do graduate, the U.S. swoops down and puts 10,000 yearly into uniform.

This leads to the peculiar spectacle of defense officials screaming for more engineers while inducting them into the armed forces, often to serve in jobs where their skills are not fully used.

Mad Scramble

The result has been a mad scramble by U.S. companies for engineers. Teams of recruiters are swarming over every campus, wining, dining and tempting seniors with beginning salaries 36 per cent higher than in 1949 and about 4 per cent above last year.

An engineer-to-be can consider anywhere from 7 to 30 offers at salaries ranging from $320 monthly to twice that figure.

One company even tried to hire MIT's entire graduating class. Zenith, in desperation, sent two executives to Holland on a shopping trip; they returned with 10 good Dutch engineers. But the initial high pay gives a false impression of salaries for the long pull; 10 years out of college, the average bachelor-of-science engineer earns only about $750 a month.

Big Companies Win

In the frenzied competition, it is usually the big companies that win, while small companies, which are also conducting original research, are starved for talent.

Many engineering school faculties are working intensively with secondary schools to improve their pre-engineering curriculums.

Many companies are cooperating with colleges to develop training facilities—e.g., erection of a joint study center in South Windsor, Conn., to train 200 graduate students was jointly announced last week by United Aircraft corporation and Rensselaer Polytechnic institute.

'Sub-Professionals'

But the greatest contribution that industry can make toward meeting the shortage is to use engineers as they should be used, and not on marginal tasks that could be handled by lesser-trained personnel.

Says F. W. Trezise, associate dean of the University of Illinois' undergraduate engineering division in Chicago: "Many companies are putting engineers in as sub-professionals in jobs which could be handled by technicians."

Some experts estimate that the companies could cut in half the number of engineers they employ if they used them only for engineering jobs, stopped wasting them on drafting and lesser tasks that men without degrees could do just as well.

Sooner or later, corporations will have to change their ways simply because there is no quick solution of the shortage in sight.

GENERAL NOTICES

General Notices should be deposited with the editor of the editorial page of The Daily Iowan in the newsroom, room 201, Communications center. Notices must be submitted by 2 p.m. the day preceding first publication; THEY WILL NOT BE ACCEPTED BY PHONE, and must be typed or legibly written and signed by a responsible person. No General Notice will be published more than one week prior to the event. Notices of church or youth group meetings will not be published in the General Notices column unless an event takes place before Sunday morning. Church notices should be deposited with the Religious news editor of The Daily Iowan in the newsroom, room 210, Communications center not later than 2 p.m. Thursday for publication Saturday. The Daily Iowan reserves the right to edit all notices.

REGISTRANTS, EDUCAtional Placement office, are requested to leave their summer addresses in the office, C-103, East hall, before leaving the campus.

THE 1955 HAWKEYES WILL be distributed beginning on Tuesday, May 31, in the Campus stores on Iowa ave. Distribution hours each day are 8:30 a.m. to 4 p.m. Be sure to pick up your Hawkeye before leaving for home. All students must present ID cards to receive their books.

STUDENTS WHO WISH TO receive the Foreign Studies certificate by the end of the semester should contact Prof. Erich Funke, room 106, Schaeffer hall, not later than June 1.

HILLEL IS DISCONTINUing Sunday supper for the duration of the year. Services will be held as usual Friday at 7:30 p.m. Details for the essay contest can be obtained at Hillel house. This contest is open to everyone.

THE UNIVERSITY SCHOLarship Awards committee reminds all undergraduate students now holding scholarships and those who are interested in scholarship opportunities to see either Mr. Ballantyne or Miss Reich in the office of student affairs. Applications for scholarships must be submitted by students now enrolled in the university before the close of the current semester.

CANDIDATES FOR DEGREES in June: Commencement announcements have arrived. Pick up your order at the Alumni house, 130 N. Madison st.

LAW WIVES' ASSOCIATION will hold its final meeting of the year on Tuesday, May 31, at 7:30 p.m. in the Law Student lounge. A brief business meeting will be held and party bridge will be played.

ALL LOCKERS AT THE Women's gymnasium should be emptied before Wednesday, June 8. Anything left after then will be confiscated.

ALL LOCKERS IN THE field house must be checked in by June 9. Lockers not checked in by this time will have locks removed and contents destroyed.

SELECTIVE SERVICE REminder: Prior to the close of the present session, students in liberal arts, commerce, engineering, law, nursing and the graduate college, who desire deferment for the next academic year, should secure a form in the registrar's office and file a request to have Selective Service form 109 sent to their local draft board as soon as grades for the present session are available.

THE SEMESTER MEETING of the University Cooperative Baby-Sitting league will be held at 8 p.m., Tuesday, May 31 at the home of Mrs. W. D. Snodgrass, 136 Templin park.

LIBRARY HOURS FOR THE Memorial day weekend:
Saturday, May 28: 8 a.m.-5 p.m
Sunday, May 29: 2 p.m.-5 p.m.
Monday, May 30: 8 a.m.-5 p.m.
Departmental libraries will post their hours on the doors.

THE LAST UNION BOARD free movie of the semester, "Them!" — the horror horde of killer ants, with Edmund Gwenn and James Whitmore, will be shown at 7:30 p.m. Sunday, May 29, at the Union.

THE FINAL MEETING OF Phi Eta Sigma will be held at the home of Adviser Harry H. Crosby, 125 River st., at 2 p.m., May 30. Old members and new initiates are asked to attend. Members who have not received their membership shingles are especially urged to attend.

THE FINAL CHESS CLUB meeting of the school year will be held Tuesday, May 31, at 7:30 p.m. in room 122, Schaeffer hall.

APPLICATION FORMS FOR the week-in-Washington trip may be obtained at the office of Prof. Donald Johnson, room 310A, Schaeffer hall. Applications must be submitted before June 7.

INTERNATIONAL CENTER will hold a farewell open house Sunday evening, May 29. Guests of honor will be students leaving for their homelands. Foreign students and American friends are invited to stop in any time from 7 to 10 p.m.

official daily BULLETIN

SATURDAY, MAY 28, 1955

UNIVERSITY CALENDAR

UNIVERSITY CALENDAR items are scheduled in the President's office, Old Capitol.

Saturday, May 28
8 p.m. — University play, "Mister Roberts" — University theater.

Sunday, May 29
7:30 p.m. — Union board free movie, "Them!" — Main lounge, Iowa Memorial Union.

Monday, May 30
Memorial day — Classes suspended.

Wednesday, June 8
5 p.m. — Close of second semester.

Friday, June 10
9:30 a.m. — University Commencement.

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol).

Old Capitol Remembers

✓ One Year Ago Today

Roy M. Cohn, top aid to Sen. Joseph R. McCarthy (R-Wis.), charged under oath that Secretary of the Army Robert Stevens and Army Counsel John G. Adams tried to "take the heat off" the army by proposing senate investigations of the navy and air force.

The SUI Student Council moved to allot a number of seats at home football games to the newly-organized Hawk-I-Pep club for a "card" section.

✓ Five Years Ago Today

The switchmen's union cancelled a threatened June 1 strike against 10 western railroads.

Nearly 8,000 poppies were sold during the American Legion Poppy day in Iowa City.

✓ Ten Years Ago Today

The army air forces announced that the $100,000,000 Willow fire and rioting at the Bergen Manufacturing company, Canton, O., of four-engined bombers and would be closed in June.

A membership drive to enroll 50 new members into the Iowa City chamber of commerce, with war bonds as prizes, was announced by Ed J. Berwick, secretary.

✓ Twenty Years Ago Today

Burns and McDonnell Enginering company, consulting enginers for Iowa City's proposed municipal light plant, estimated the plant could be built for $915,000.

Twenty persons were injured, one seriously, in a burst of gunfier and rioting at the Bergen Manufacturing company, Canton, O., where a strike was in progress.

WSUI

At 910 Kilocycles

PROGRAM NOTES

Saturday, May 28

FROM FRANCK TO FRANCAIX, a program of French instrumental music of the past hundred years, will feature the music of Gabriel Faure at 1 p.m.

It's jazz from the east coast school with Al Cohn, Bobby Scott, Mile Davis, the George Shearing quintet and other east coast favorites on TEATIME SPECIAL at 4 p.m.

The OPERA P. M. curtain will rise on the complete performance of Gian-Carlo Menotti's most recent operatic success, the powerfully dramatic, "The Saint of Bleecker Street," at 7.

Catholic Executive Council Meets

Newmanites Enjoy Intellectual Activity

Geared to a program of religious, educational and social activities, the SUI Newman club exists to assist and direct Catholic students attending the university.

Newman club activities are the nucleus of Catholic social events on campus, the stimuli for increased religious development and a source of intellectual culture.

At the Catholic Student center, 108 McLean st., students congregate throughout the week for discussion sessions, television entertainment and recreational enjoyment.

Meet on Sunday

Sunday evenings during the year have been set aside as the regular meeting time with a supper served each week following the meeting.

Once a week the club conducts a religious discussion meeting at which time the students talk about subjects such as church history, moral theology or doctrines.

Other activities at the center include inquiry classes, Legion of Mary meetings, a graduate student-faculty group and a married students organization.

Social Events

Socially, the Newman club calendar is a continuous bee hive of events.

From the first "Welcome" parties in the fall for freshmen and returning students, until finals demand a slack in activities, John and Mary Newmanite seldom lack the opportunity to participate in a Newman club project.

Throughout the year holiday parties, seasonal activities and Sunday evening programs are planned by the social committee.

Lectures, Guest Speakers

Illustrated lectures, guest speakers and student groups from Iowa colleges are also scheduled throughout the social program.

Even before school begins the club starts plans for the Iowa-Notre Dame football game.

If the year happens to bring the tussel to Iowa City, local club members undertake the task of serving as hosts and hostesses to the many spectators who come from Newman clubs at the other Iowa colleges and universities.

Football trips also are scheduled for the out-of-town games.

Communion Breakfast

Spiritual direction of the Newman club is under the leadership of the Rev. Robert J. Welch, the club chaplain.

Each month the club sponsors a communion breakfast at which time the members attend a designated mass on the first Sunday of the month and breakfast is served after the service.

Newmanites also are in charge of the May crowning ceremonies at St. Thomas More chapel.

Once a year there is a three-day retreat conducted at St. Thomas More.

Library

A sizeable library is maintained at the center which is supplied with texts on theology and philosophy as well as church history and Catholic fiction.

Current Catholic periodicals and newspapers also are available at the center library.

As a part of the religious program of the club, each year a delegate is named to attend the Newman School of Catholic Thought at Notre Dame university.

A study week during the summer, the Newman school is designed to develop Catholic leadership among college students.

Marriage Lecture Series

Local activities also include the marriage lecture series, conducted each Sunday during the Lenten series.

Final event of the school year is the annual awards banquet. At the banquet announcement is made of the local Newmanites elected to the National John Henry Newman honorary society.

Presentation of local honors is also made at the awards banquet.

In addition to club activities on the SUI campus, local Newmanites are active in regional, provincial and national club programs.

Students Active

William Gill, G, Dallas, Tex., is chairman of the Iowa region, which includes Newman clubs at Iowa State college, Drake university, Iowa State Teachers college and Upper Iowa university.

Patricia O'Donnell, A3, Williamsburg, will serve next year as publicity director for the Central States Province, which includes Iowa, Illinois, Nebraska, Missouri and Kansas.

Large delegations from SUI have attended regional and provincial meetings this year.

The national convention will be held at Boulder, Colo., Aug. 31 to Sept. 4, and local Newmanites are making plans to attend this meeting.

Inter-Club Social Events

In addition to regional meetings, which are held in the fall and spring, the Iowa region of Newman clubs has initiated a program of inter-club social events.

In the spring, club members meet for an annual picnic. This spring, SUI Newmanites were hosts to the region at a picnic at Ellis park in Cedar Rapids.

During the summer session a limited Newman club program is maintained. The usual activities include Sunday picnics and informal meetings during the week at the center.

New officers for the club are Donald Brown, A3, Ruthven, president; Charles Green, Jr., E2, East Hampton, N.Y., vice president; Robert Strawn, A1, River Grove, Ill., treasurer; Carolyn Roush A3, Chariton, corresponding secretary, and Maureen Steele, N2, Cedar Rapids, recording secretary.

Church OK's Lady Pastors

LOS ANGELES (AP) — Presbyterians this week approved a proposal to ordain women as ministers and criticized what they call a Roman Catholic "trend to exalt the figure of the Virgin Mother."

The group also endorsed the United Nations as "an instrument by which sovereign nations can meet together, plan together and act together to save succeeding generations from the scourge of war."

The 167th General assembly of the Presbyterian church in the United States approved the women-preachers proposal by a standing vote which appeared to be about three or four to one. The proposal now goes to the church's 256 presbyteries, or local groups, for a final vote.

The assembly ended Wednesday after taking stands for universal disarmament and desegregation. "We warn our churches and church members against malicious attacks on the UN on the part of persons and groups whose avowed purpose is 'to get the U.S. out of the UN and the UN out of the U.S.'." the assembly said.

The assembly declared, "We believe that lasting peace requires the elimination and prohibition of all weapons of mass destruction."

On the desegregation issue, the assembly declared, "The church must act now to abolish from its practices all forms of segregation."

Approval of the women-preachers proposal followed a lively debate by the 905 voting delegates. Proponents declared, "The Bible teaches 'in Christ Jesus there is neither male nor female'." Opposition arguments included: 1. Women are confused as to their intended role in life and 2. A woman couldn't give a church the strong leadership it needs.

The statement critical of the Catholics was adopted by an "aye" vote, with no "nays" heard. There was no debate.

Fellowship To Lead WSUI Chapel

Intervarsity Christian Fellowship, a non-denominational religious group, will conduct the WSUI Morning Chapel services Tuesday through Friday this week. There will be no chapel services Monday because of the Memorial Day holiday.

The theme for the week is "Christian Peace." The schedule for the week is:

Tuesday — Dr. William Howell, Iowa City.

Wednesday — Prof. Samuel R. Harding of the SUI mechanical engineering department.

Thursday — William Allos, C3, Mason City.

Friday — Howard Anderson, A3, Des Moines.

Saturday — Mary Nocero, G, Wheaton, Ill.

Preps Register For Music Camp

More than 150 high school musicians have already registered for the All State Music Camp which will be held at SUI this summer, according to Frederick C. Ebbs, SUI band director.

Ebbs reports that 115 students have registered for the band and twirling division of the camp, which will be in session from June 19 to July 2. Another 37 have registered for the orchestra, vocal, and small ensembles division, which will meet from July 5 to July 16.

Approximately 200 students are expected to register for the band and twirling camp before the June 1 deadline, Ebbs says. He expects 200 high school musicians to register for the orchestra, vocal, and small ensembles division before the June 15 deadline.

Four states, Iowa, Illinois, Michigan and Minnesota, are represented in the registration thus far, Ebbs says.

Lutheran Group Elects Officers

The annual election of officers of the board of trustees of the Lutheran Student association was held recently at the Lutheran Student house, 122 E. Church st.

Those elected were: Prof. William A. Knoke of the SUI marketing department, president; Prof. Clarence P. Berg of the SUI biochemistry department, vice-president; Mrs. Merald Wrolstad, Iowa City, secretary; Mrs. Warren Johnson, Iowa City, treasurer; A. Carroll Cahill, Iowa City, representative to the Lutheran Student Foundation board; and Charles Wittenberg, G, Cedarburg, Wis., president of the Lutheran Student association, student representative to the board.

Thinks Patrolman Works for Lord

PRESTONSBURG, Ky. (AP) — A religious friend gave this explanation to editor Norman Allen of the Floyd county Times after being cited for driving 50 miles an hour in a 35 mile zone.

"I had just bought a nice new car and was driving along thanking the Lord I was able to own such a nice car. And while I was doing this, paying no attention to the speed and surroundings, I also asked God to keep me from being proud. I asked him to whittle me down to size and just that very moment the state trooper pulled me to the side of the road."

Parade, Other Events Set For Memorial Day

The Iowa City Memorial Day association, composed of 25 organizations, has planned several religious ceremonies and a program and parade for Monday.

The association has replaced all flags and other supplies which were destroyed in the Community building fire last winter. They have also donated money to buy markers for veterans' graves in the 73 Johnson county cemeteries. A committee from the Sons of Union Veterans, the American Legion, V.F.W. posts, and Boy Scouts will decorate veterans' graves Sunday at 7 a.m.

ROUTE OF PARADE

Route of parade: Start: College and Gilbert streets. Parade will follow College street west to Clinton street, then north to Church street, east to Linn street, north to Brown street, east to Governor street and south to Oakland cemetery.

The religious program for the day will open with the Knights of Columbus field mass at 8 a.m. in St. Joseph's cemetery. In event of rain, the mass will be held in St. Wencelaus church.

The Rev. William Meyer, St. Mary's Catholic church, will be celebrant for the mass, with other Iowa City area priests assisting him.

Bridge Ceremony

Exercises in honor of the sailor dead are scheduled for 8:30 a.m. at the Iowa avenue bridge. The Iowa City high school band will play, with invocation and benediction by the Rev. J. A. Pacha, St. Patrick's Catholic church. The Women's Relief corps will strew flowers on the Iowa river as part of the ceremonies.

The Memorial Day parade will start at 9 a.m. under the direction of Veterans of Foreign Wars post 3949. The parade will form on the corner of College and Gilbert streets. The parade will continue west to Clinton street, north on Clinton to Church street, east to Linn street, north on Linn to Brown street, east on Brown to Governor street, and south on Governor to Oakland cemetery.

The parade will march behind the remaining six Iowa City veterans of the Spanish-American war and auxiliary. Twenty-two organizations are listed to march in the parade.

Drum and Bugle Corps

The drum and bugle corps of the local lodge of the Loyal Order of Moose will provide music for several of the days events. Two local national guard units will provide a firing squad for the cemetery services. One service will be held at the Grand Army of the Republic plot and the other will be held at the grave of Paul J. Prybil.

Rep. Scott Swisher of Iowa City will preside at the Oakland cemetery program and Attorney Charles A. Barker will be the speaker. The Rev. Leonard Goranson, Bethany Baptist church, will lead the religious services during the program.

Final Ceremony

At an 11 a.m. service in Memory Gardens cemetery, Barker will also preside. Irving B. Weber, Iowa City, will address the group. The Rev. Alfred Henricksen, Unitarian church, will lead the religious parts of the second program. This will be the final ceremony of the Memorial Day celebration which will last from 8 a.m. to noon Monday.

Units of the first division of the parade marching behind Parade Marshal Will J. Hayek and three honorary marshals will be the Moose drum and bugle corps, the Spanish-American war veterans and their auxiliary, the Women's Relief corps, the Daughters of the American Revolution, the Disabled American Veterans, and American War Dads and their auxiliary, and the clearing company of the 109th medical battalion of the Iowa National guard, led by commanding officer Capt. Berton D. Brown.

The 34th reconnaissance company of the Iowa National guard, led by its commanding officer, Capt. William Fischer, will lead the second division of the parade.

Following the guard unit will be the Roy L. Chopek post of the American Legion, its auxiliary, and junior auxiliary, the Walter Johnson post of Coralville, the Iowa City high school band, the Veterans of Foreign Wars posts No. 2581 and 3949 with their auxiliaries, the Moose and Eagles lodges and their auxiliaries; the Iowa City Saddle Club will be the best unit in the parade.

Coat of Arms In a Window

SUI is one of 96 universities and colleges throughout the world whose coats of arms appear in a $15,000 university window, recently installed in the Westwood Hills Christian church which adjoins the campus of the University of California at Los Angeles.

Three years in preparation, the 12- by 14-foot stained-glass window will be dedicated Sunday. Representing Iowa at the dedication will be Dean L. Dale Coffman of the UCIA law school, a 1928 graduate of the SUI college of law.

The Rev. Jesse Randolph Kellems, minister of the church and designer of the window, says it "memorializes the saga of the birth of the colleges and universities out of the Christian faith. The arrangement of the 96 coats of arms in 18 panels, beginning with the first European university at Salerno, makes possible the tracing of the ancestry of the colleges and universities from the various denominations by which they were established."

Represented in the window are 26 British colleges and universities, 10 universities from the British Commonwealth, 18 European universities and 42 American educational institutions. Appearing in the same panel with Iowa are the Carnegie Institute of Technology and the universities of Illinois, Indiana, Cincinnati and Missouri.

Swim Class Rolls Open Next Week

Registration for Red Cross swimming lessons at the Iowa City pool will be held at the City Junior high school gymnasium from May 31 to June 8.

Prof. Gladys Scott, SUI physical education department and water safety chairman for the Johnson county chapter of the Red Cross, said the lessons will be given from June 13 through July 25. A registration schedule can be obtained from the Red Cross office.

The free classes are open to any resident of Johnson county who is above a minimum age level. A child must have been enrolled in second grade during the present school term to be eligible. Morning classes will be open to adults.

A new feature this year is a special class for beginning and intermediate levels on Tuesdays and Thursdays at 5:30 p.m.. This class is especially for adults who work during the morning hours. It will require entrance fees to the pool since it is during the regular swimming hours.

Three Professors Elected to SUI Graduate Council

Three SUI professors have been elected to the Graduate council for three-year terms beginning in September.

Elected by faculty members of all university departments, the new council members are Prof. Ralph L. Shriner of the chemistry department; Prof. Allen T. Craig, mathematics, and Prof. Harold P. Bechtoldt, psychology.

The council, a policy-making body, makes recommendations both to the dean and to the faculty and serves as an interim graduate faculty and executive committee when school is not in session.

Other members of the council include Dean Norman B. Nelson of the college of medicine, Director Hunter Rouse of the Institute of Hydraulic Reesarch, Director Boyd McCandless of the Child Welfare Research station, Prof. Henry B. Bull, head of the biochemistry department, Prof. James Van Allen, head of physics, and Prof. Stow Persons, history.

OPEN-AIR CONCERT

An open-air concert by the SUI band, directed by Frederick C. Ebbs, will open commencement week activities. The 75-piece band will play an hour-long concert on the eastern approach to Old Capitol June 8 at 7:30 p.m. Ebbs said. The concert is scheduled to be broadcast by WSUI, university radio station.

Awards Committee Meets

MEMBERS OF THE INCENTIVE awards committee at the Veterans Administration hospital here meet with a representative of United Air lines to discuss and compare employes' suggestion programs. Seated, left to right, are Marion Dunn, chief nurse at the hospital; E. L. Sell, United air lines representative, and Claude Bowen, finance officer at the hospital.

Two Receive Hospital Awards

Cash awards were presented this week to William O. Goettle and Everett Allen, both employes of the Veterans Administration hospital in Iowa City, for suggestions they made in improving the operation of the hospital.

The awards are a part of the Incentive Awards program which is designed to encourage employes' participation in improving the effectiveness of government operations.

Goettle was awarded $25 for a paper roll attachment to a bacon slicing machine. Allen's award was $55 for a change in refrigerator drains.

The awards program is patterned after similar programs used in private industry. The committee in charge of the awards at the hospital here are investigating all types of programs to gain new ideas for improving the plan.

Dr. L. E. Stilwell, hospital manager, said "We want our employes to participate in the operation of the hospital, to know it is their ideas and their suggestions that will improve the efficiency of operation and bring about definite savings. We do all we can to encourage employe participation."

Accepts New Job

Miss Edith Daly
To Leave Trinity Church

Miss Edith Daly Takes New Post In Pennsylvania

Miss Edith Daly, who has been director of college work at Trinity Episcopal church in Iowa City, has taken a position as director of Christian education at St. Thomas Episcopal church in Whitemarsh, Pa.

Miss Daly has been with Trinity parish in Iowa City for the past four years. She will begin her new job on July 1.

Nurse Group Elects Officers

Two new officers and five board members were named at the third annual meeting of the Iowa League for Nursing which closed Thursday in Ames, and three Iowa women were elected to the group's committee on nominations.

Mrs. Ella K. Harmon, director of the Visiting Nurse association, Dubuque, was elected vice-president of the organization, and Mary Rouse, an editorial associate in SUI news and information service, was chosen secretary. Prof. Ruth Lundt, nursing, will continue in office as president of the league to complete a two-year term.

New members of the board of directors are Mrs. Fredric Lattner, Des Moines, retiring as secretary of the league; James Jack, director of the Veterans Administration hospital, Knoxville; Marjorie Gould, supervisor of orthopedic nursing, SUI Children's hospital; Sister Mary Matilda, R.S.M., director of nursing education, St. Ambrose college, Davenport; and Mrs. Eva M. Reese, director of the Des Moines Public Health association, Des Moines.

Elected to serve on the committee on nominations were Carol Madsen, director of nursing education at Burlington hospital school of nursing, Burlington; Sister Mary Carol, R.S.M., director of nursing at Mercy hospital, Council Bluffs; and Mrs. Julia Worth, clinical instructor in surgical nursing, St. Joseph's Mercy school of nursing, Sioux City.

The Iowa League for Nursing is a state division of the National League for Nursing, which was founded in 1952 by the merging of seven national nursing groups. Purpose of the organization, open to non-nurses as well as to members of the nursing profession, is to foster the development and improvement of nursing services and nursing education in order to meet nursing needs of the country.

Three To Perform In Sunday Recitals

The SUI music department will present three students in recitals in North Music hall Sunday.

Rolanda Ringo, A4, Iowa City, and Delores McPherren, A1, Peoria, Ill., will perform at 4 p.m. Mary Rumreich, Mahnomen, Minn., SUI graduate assistant in music, will accompany Miss Ringo.

Miss Ringo, a soprano, will open the program, singing "L'ane blanc" and "A des oiseaux" by Hue, "Claire de lune" by Szulc and "L'amero, saro costante (Il Re Pastore)" by Mozart with a flute obligato played by Helen Johnson, A3, Ottumwa. Miss Ringo will sing for her second appearance on the program seven classical Spanish songs by Obradors.

Miss McPherren, a pianist, will play "French Suite No. IV in E-flat major" by Bach and "Sonata in D minor, Op. 31, No. 2" by Beethoven.

Marjorie Johnson, A4, West Liberty, will be the soloist of the second recital, at 7:30 p.m.

Marjorie Pendleton, SUI music instructor, will play the piano accompaniment.

Stevens Breaks Owens' Record In 220's

Sometimes Even Hal Can't Do It

(AP Wirephoto)

THE SHOULDERS OF HAL JEFFCOAT, Cub pitcher, absorb the weight of a quartet of Cub pitchers, and it's not entirely in jest. Jeffcoat's timely relief pitching has saved many games this year for the second place Chicago team. But even Jeffcoat couldn't turn the tide Friday as the Cubs lost to Milwaukee, 7-5. The leaners are, from left to right: Bob Rush, Paul Minner, Sam Jones and Warren Hacker. Jones has a no-hitter while the others have turned in low-hit performances.

Conley Beats Cubs, 7-5, For 7th Win

CHICAGO (AP) — Towering Gene Conley of the Milwaukee Braves, calmly working out of frequent trouble, hurled his seventh victory of the season Friday, cooling off the second place Chicago Cubs 7-5.

Gene Baker of the Cubs matched a major league record for put-outs by a second baseman in a nine-inning game with 11. Six others share it.

The 6-foot 8-inch Conley yielded 10 hits in his seven-inning chore in beating the Bruins for the third time. The loss ended Chicago's three-game winning streak before 8,848 Wrigley field fans.

After rookie Bob Speake smashed a two-run homer off him in the seventh, Bob Buhl took over the mound for the Braves at the start of the 8th. He loaded the bases with two walks and a single with two out in the ninth and then struck out Ted Tappe to end the game.

The Cubs, who had won seven of their last eight games despite seventh place ranking in team batting, collected four extra base blows during the wind blwon game. They included Ransom Jackson's No. 7 homer in the 6th, Speake's blast over the right center bleachers and doubles by Baker and Ernie Banks. Banks also got a pair of singles.

Speake's blow, which scored Baker, was his eighth homer and his third in the last four games.

The Braves whittled away at five Cub pitchers for 11 hits, including homers by Bill Bruton and Johnny Logan. Starter Sam Jones who served six hits and six walks, was kayoed during a three-run fifth to absorb his fifth loss against five victories.

Milwaukee .....002 130 100—7 11 0
Chicago .....011 001 200—5 11 0
Conley, Buhl (8) and Crandall; Jones, Cohen (5), Andre (6), Jeffcoat (7) and McCullough, Chitl (7). W — Conley. L — Jones.
Home runs — Milwaukee, Bruton, Logan. Chicago, Jackson, Speake.

Cards Deny Stanky About To Be Fired

ST. LOUIS (AP) — Eddie Stanky's job as St. Louis Cardinal manager appeared Friday night to be on shaky ground.

Although the club's front office denied a copyrighted story by the Sporting News, saying that Stanky was "nearing the end of the road" with the Redbirds, the rumors persisted.

The weekly baseball newspaper in a story by its publisher, J. G. Taylor Spink, said the team's disappointing start had brought to a climax the discontend of fans and club officials over their failure to gain a contending position in the Stanky regime which began in 1952.

But Bill Walsingham Jr., vice president of the club, denied the story by saying:

"There has been no discussion about a change of managers by club officials. The recent losses were caused by a lack of hitting and you can't blame a manager for that."

The club returned Friday from a disastrous road trip of six defeats in seven games which brought the Cardinals' road record to 5-13 and dropped the Redbirds into sixth place.

August A. Busch Jr., brewery head who is president of the Cardinals, was reported unavailable for comment.

Busch twice came to Stanky's defense last year after numerous rumors that Stanky was going.

The Sporting News said "this was the season in which the Redbirds were expected to move up into a challenging position after a three-year rebuilding program."

The baseball newspaper also commented, "Stanky, who has been in hot water on a number of occasions over temper displays again 'blew his top'—according to some players—after a defeat in the opener of a twin bill at Cincinnati, May 23."

Red Wing Mentor St. Louis Bound?

ROCHESTER, N. Y. (AP) — Harry (The Hat) Walker, manager of the Rochester Red Wings of the International League, dressed and left the ballpark in the middle of a close game with Toronto Friday night.

Earlier, it had been reported that Walker would replace Eddie Stanky as manager of the St. Louis Cardinals within 48 hours.

George Beahon, sports columnist for the Rochester Democrat and Chronicle said in his column Friday night that he had "learned positively" that Walker would replace Stanky within 48 hours.

It could not be learned immediately where Walker had gone but club officials said they thought he had left town.

Big Ten Restores Eligibility Of 2 Indiana Cage Players

COLUMBUS, Ohio, (AP) — The Big Ten Friday restored eligibility of two Indiana freshmen basketball players who had been banned from a year's competition for participating in an outside tourney.

The two players, Charles Brown and Paxton Lumpkin, competed in an AAU tourney at Chicago during the Easter vacation with assurance of AAU officials their eligibility would not be jeopardized.

Commissioner K. L. (Tug) Wilson ruled the pair ineligible, pending an appeal by Indiana at the current spring meeting of faculty representatives and athletic directors.

The policy - making faculty representatives also rejected an effort by the University of Michigan to have modified a new rule on alien student competition. The rule, adopted last winter at an East Lansing, Mich., meeting, provides that all competition abroad after a 19th birthday constitutes a year of eligibility as far as the Big Ten is concerned.

Michigan has a large contingent of Canadian athletes and in recent years had Sweden's Olympic shotput champion, Fritz Nilsson.

The group considered several eligibility cases, three involving Michigan basketball players. Harvey Williams, Wolverine forward, was given another full year of competition in deference to illness which cut short his 1953 season after one game.

The faculty group denied petitions for eligibility extension for two other Michigan cagers. One is Jerome Stern, who played briefly in two 1952 games. The other is Jim Baron, who was injured after a half dozen games the past season. Baron still has 1955-56 eligibility.

A Minnesota wrestler, Edward Anderson, had two 1955 matches waived because of injury and still may compete a third season.

In a separate session, the athletic directors equalized gate losses suffered in last winter's 11-game basketball television series. Losses ranged from $1,400 to $8,000 per game and a season total of $37,000, it was reported. There was no announcement on expected discussion of a sliding scale for a split of football telecast receipts.

Repulski Homers As Cards Win

ST. LOUIS (AP)—Rip Repulski set the pace with a double and a home run as the St. Louis Cardinals regained some badly missed hitting power to hand the Cincinnati Reds a 7-4 defeat in Busch stadium Friday night. Top notch relief hurling by Paul Lapalme staved off a Redleg threat in the seventh.

Cincinnati .....000 001 300—4 8 0
St. Louis .....212 000 20x—7 12 1
Nuxhall, Podbielan (4), Valentine (7), Klippstein (7) and Landrith; Aarroyo, Lapalme (7) and Sarni. W—Arroyo. L—Nuxhall.
Home runs — Cincinnati, Landrith. St. Louis, Repulski.

Mays Homers in 8th Inning As Giants Down Brooks, 3-1

NEW YORK (AP) — Willie Mays unloaded a home run with a man on base in the eighth inning Friday night as the New York Giants broke a four-game losing streak with a 3-1 victory over the Brooklyn Dodgers.

Sal Maglie was the winner, knocking off the Dodgers for the 23rd time in 33 lifetime games against them. He survived a shaky start to register his fifth victory of the year.

Carl Erskine, who went into the game with a 6-1 record, took the defeat, once again running into too many home runs. All of the last 13 runs charged to the Brooklyn righthander have been scored on homers.

Bobby Hofman started Erskine's collapse, making his third pinch homer of the season in the seventh inning to tie the game at 1-1. It was only the fourth Giant hit of the game and it lifted the 29-year-old utility man into a tie with oldtimer Cy Williams for the most pinch-hit home runs, nine during a major league career.

Brooklyn .....100 000 000—1 7 0
New York .....000 000 12x—3 9 0
Erskine, Roebuck (8) and Campanella; Maglie and Westrum. L — Erskine.
Home runs — New York, Hofman, Mays.

WHITNEY MARTIN'S — Sports Trail

NEW YORK (AP) — For a man who has one permanently bad arm and a good arm temporarily bad, Ed Furgol shows an astonishing optimism concerning his chances in the National Open Golf tournament in San Francisco next month.

After a reluctant recitation of his troubles, as he doesn't want anyone to think he is trying to alibi, he said candidly:

"Oddly enough, I feel quite confident of making at least a good showing. I guess it's because I'm champion, and when you're champion you want to stay champion. Maybe it's pride, but whatever it is I will enter the tournament with more assurance than I ever had before."

Promoting National Golf Day —

The ruggedly good-looking pro, poised and affable, was in town briefly to help tee off the promotion for National Golf Day, scheduled for June 4. On that day Furgol will play a round at the Olympic Country club, where the open will be held, and duffers and parbusters the country over will play a round on their own respective courses and match their score with that of the champion. On a handicap basis, of course.

His optimism is even more startling when he casually tells you how the injury to his sound right arm has affected his game. His left arm, due to a playground accident as a child, is shriveled and 10 inches shorter than the right.

"I figure the right arm injury has been costing me about six strokes in a 72-hole tournament," he said.

Arm Okay First 2 Days —

"The first two days of a four-day tournament the arm feels okay. The last two days, though, it feels like there is ground glass in there. Feel this." He indicated the under side of his upper right arm. A tentative touch revealed a walnut size lump where there should be no lump.

Furgol suffered the injury, described as a ruptured muscle, last October in Australia. As he explained before, he was giving an exhibition, along with Dutch Harrison, Tommy Bolt and Marty Furgol, when they decided to try a shot which called for a 300-yard carry.

Ed made it on his fourth try, and also made a mess of himself. The protesting muscle of the arm he relies upon for power swelled like a toy balloon. It's never been the same since.

"You can't tell about the open," he said, qualifying his optimism as to his possible showing. "Last year I was giving lessons the Sunday of the week the tournament was to be held at Baltusrol. The next Saturday night I was champion."

Has Played Olympic Course —

He has played the Olympic course, but doesn't know what diabolical schemes the U.S. Golf association has to thwart the sharpshooters and make a par score something of a feat.

He isn't a'feared, though, as they say, and doesn't plan a prolonged get-acquainted period with the layout.

"I figure I'll get there about three days ahead of the tournament," he said. "Of course I'll be playing it June 4 on National Golf Day, but maybe it won't be as tough then as it will be for the open."

A confident fellow is the open champion. Candid, too. Someone asked him if he had said to his caddy in the last open: "You carry the bag; I'll pick the club." "Yes," he replied bluntly, "I said that."

Phillies Trip Pirates, 5-2

PITTSBURGH (AP) — The rebounding Philadelphia Phillies ran their winning streak to five games Friday night, beating the Pittsburgh Pirates 5-2. Andy Seminick hit a two-run homer in the ninth to send the game into extra innings.

The victory went to veteran Herman Wehmeier, his 15th in his last 16 decisions with the cellar dwellars. It gave him a 3-2 record.

Relief pitcher Bob Friend, called upon when starter Dick Littlefield pulled a muscle in his right side while pitching the second, hurled superlatively until he grooved one for Seminick in the ninth. With one out and Willie Jones on base as the result of a single, Seminick clouted the ball over the left center field wall.

In the 10th Wehmeier singled, went to second on a sacrifice by Richie Ashburn. Glen Gorbous was purposely passed but Roy Smalley singled off third baseman George Freese's glove to score Wehmeier and send Gorbous to third.

Phila'phia .000 000 002 3—5 12 0
Pittsburgh .100 000 100 0—2 7 0
Wehmeier and Seminick; Littlefield, Friend (2), King (10) and Shepard. L—Friend.
Home Run — Philadelphia, Seminick.

Billy Hoeft Helps Tigers Tip Sox, 1-0

DETROIT (AP)—Catcher Frank House lifted a fifth inning home run into the right field stands to back up Billy Hoeft's six-hit shutout pitching and give the Detroit Tigers a 1-0 victory over the Chicago White Sox Friday night.

Centerfielder Bill Tuttle saved the game for Hoeft with a dazzling running catch in deep center field in the ninth inning to rob Jim Rivera of an extra base hit with Jim Brideweser on second base with the potential tying run.

Chicago .....000 000 000—0 6 0
Detroit .....000 010 00x—1 8 0
Donovan, Chakales (7) and Lollar; Hoeft and House. L—Donovan.
Home Run — Detroit, House.

1st Inning Surge Beats Orioles, 6-2

BALTIMORE (AP) — A four-run outburst in the first inning plus sterling fielding gave the league-leading New York Yankees a 6-2 victory over Baltimore Friday night in the first of a three-game series.

New York .....400 010 010—6 11 1
Baltimore .....110 000 000—2 5 0
Ford and Berra; Pallca and Smith.
Home runs — New York, Robinson. Baltimore, Diering.

Les Stevens
Beats Owens' Record

But Validity Is Questioned Due to Wind

BY JERRY LISKA

COLMUBUS, Ohio (AP) — Two of the oldest Big Ten records in the book were bettered and another tied Friday in the wind-blown preliminaries of the 55th conference outdoor track and field meet.

The three affected records all were set 20 years ago by Ohio State's famed Jesse Owens, but because of the brisk favoring wind it was doubtful whether Friday's performances will get formal recognition.

Iowa's Les Stevens sailed over his 220-yard low hurdles test on the straightaway in 22.5, clipping one-tenth of a second off the Owens mark of 22.6.

Northwestern's Jim Golliday streaked over the 220-yard distance around one turn in 20.9, knocking .2 seconds from Owens' conference mark of 21.1.

9.4 In 100

Golliday and Minnesota's Harry Nash, running separate heats, each was clocked in 9.4 for the 100-yard dash, matching Owens' conference mark.

In the day's only final event, Jerry Helgeson of Minnesota won the discus with a throw of 159 feet 6⅜ inches.

As expected, Michigan, the indoor champion, set a strong qualifynig pace in quest of defending champion Illinois' team crown.

The Wolverines had 11 qualifiers in the six preliminaries held Friday. Finals in 13 events will be held this afternoon.

Iowa Has 5

Indiana was next with six qualifiers, followed by Iowa and Ohio State with five each; Illinois and Michigan State with four each; Minnesota and Northwestern with three each, and Wisconsin and Purdue with two each.

The track anemometer registered the strongest backing wind when Stevens turned in his sizzling low hurdles effort. The Hawkeye hurdler was backed by a 6.1 m.p.h. wind.

However, coaches on the field said they doubted the accuracy of the wind measuring device, and a few said they believed the wind was much in excess of the readings announced from the field.

For world record consideration the maximum help allowed from the wind is 4.474 m.p.h.

Aided By Wind

Golliday had an announced helping wind of 5.7 m.p.h. in the 20-yard dash, and 4.8 in the 100-yard dash, while Nash was backed by a 5.4 wind in the 100.

Defending champion Ralph Fessenden of Illinois was expected to get a stiff battle in Saturday's 440 finals from Indiana's Don Ward, who like Fessenden, was clocked in 48.5.

With considerable strength still to show in Saturday's distance events, the Wolverines got off to an excellent qualifying start with Clarence Stielstra leading the broad jump with 23 feet 5¾ inches leap, placing three men in Saturday's 100 semifinals, 100-yard dash semifinals and two each in the finals for the 440-yard dash, 880-yard, 220-yard and the broad jump.

Wolves Grab Tennis Lead At Evanston

EVANSTON, Ill. (AP) — Michigan's favored tennis team took a first-day lead in the opening of Big Ten championship matches Friday although Michigan star Barry MacKay was upset by Northwestern's Al Kuhn.

Kuhn, defending singles champion who had been beaten earlier this season by the 19-year-old sophomore, snapped MacKay's 18-set winning string, 6-8, 8-6, 6-2 in the semifinals.

Indiana I, 2d

However, the Wolves took a commanding lead with 35 points while Indiana's defending champions dropped to second with 28 points.

Illinois and Northwestern were tied for third with 25, Wisconsin followed with 21, Purdue 14½, Michigan State 11½, Minnesota 7½, Ohio State 4, Iowa 1.

Meet Ends Today

All but one of the first round doubles matches were played Friday with semi-finals and finals scheduled today along with the singles finals.

Semi-finals singles results:

No. 1 — Al Kuhn, Northwestern, defeated Barry MacKay, Michigan, 6-8, 8-6, 6-2. Warren Mueller, Wisconsin, defeated Dave Brogan, Michigan State, 6-3, 4-6, 6-1.
No. 2 — Mark Jaffe, Michigan, defeated Dick Menzel, Michigan State 6-2, 8-6. Dick Bielefeld, Illinois, defeated Bob Martin, Indiana, 7-5, 8-6.
No. 3 — Keith Anderson, Northwestern, defeated Rull Holman, Minnesota, 6-2, 6-0. Fred Most, Illinois, defeated Brad Ward, Purdue, 5-7, 6-4, 6-1.
No. 4 — Jim Van Tine, Illinois, defeated Elam Huddleston, Indiana, 6-1, 6-4. Al Mann, Michigan, defeated John Schmitt, Wisconsin, 6-2, 6-2.
No. 5 — Carl Dentice, Indiana, defeated Ray Damadian, Wisconsin, 6-3, 6-2. Bob Paley, Michigan, defeated Sanford Astor, Purdue, 6-1, 4-6, 6-4.
No. 6 — John Bartlit, Purdue, defeated Hal Swanson, Minnesota, 6-1, 6-3. George Fryman, Indiana, defeated Pete Paulus, Michigan, 10-8, 8-6.

Badgers Take Lead in Golf

LAFAYETTE, Ind. (AP) — An untouted Wisconsin team took a surprise first-round lead Friday in the 36th annual Big Ten golf championships, its 380 just two strokes under undefeated Purdue and four under Ohio State's defending champions.

Sophomore Roger Rubendall was one over par at 72 in pacing the Badgers to their 18-hole lead over Purdue's south course.

Other 18-hole individual leaders were: Joe Campbell, Purdue, 73; Bob McMasters, Michigan, 73; Francis Cardi, Ohio State, 74; Peter Angelbeck, Wisconsin, 75; Ted Vickerman, Minnesota, 75.

Shooting 76's on the first round were John Marschall, Iowa; Rudy Boyd, Northwestern; Fred Jones, Ohio State; Ed McCallum, Purdue; and Bill Redding, Purdue.

Team standings at the end of the first four rounds of medal play: Wisconsin, 380; Purdue, 382; Michigan, 382; Ohio State, 384; Minnesota, 395; Michigan State, 399; Indiana, 399; Iowa, 403; Northwestern, 406; Illinois, 408.

RETAINS TITLE

DUBLIN, Ireland (AP) — Ray Famechon of France retained his European featherweight title Friday night by gaining a decision over Billy Kelly, British and Empire champion, in a 15-rounder.

Bosox Pound Nats, 16-0, on 13 Hits

BOSTON (AP) — Norm Zauchin, a .214 hitter, drove in 10 runs with three home runs — including a grand slam — and a double Friday night to power the Boston Red Sox to a 16-0 victory over Washington while teammate Tom Brewer tossed a six-hitter.

Zauchin a 220 pound, 6-5 righthanded first baseman, took sure aim at the leftfield wall at Fenway park to come within one of the American league record for runs batted in for a single game.

Washington .000 000 000— 0 6 1
Boston .....360 331 00x—16 13 1

Nag Called Sticks To Test Nashua

By GEORGE BOWEN

BALTIMORE (AP) — There is too a race horse named Sticks.

He's here at Pimlico, ready to challenge the famed Nashua and seven other three-year-olds today in the $100,000-added Preakness.

A lot of Pimlico railbirds didn't believe it. They swarmed around his barn at old hilltop Friday. They shook their heads over the surprise entry owned by Frank A. Benner and Norman C. Galbraith of Chicago.

Around the corner, four grooms provided the only companionship for Belair Stud's Nashua, who has his own special mineral water to drink and probably will leave the starting gate Saturday (4:45 p.m. CST) 4-5 favorite.

Sticks has an insignificant background.

The wonder of it all might make a script for movie executive Harry M. Warner.

Warner is on hand with his own Preakness entry, Honey's Alibi. Incidentally, "Honey" is somewhat in the Cinderella class, too, what with young Carlos Gonzales up on his first Preakness entry.

Honey's Alibi is the only California horse in the mile and three-sixteenths race.

THE FIELD

PP	Horse	Prob. Odds
1.	Traffic Judge, Guerin	7-1
2.	Sticks, no boy	30-1
3.	Fleet Path, Lynch	15 1
4.	Saratoga, Shuk	5-1
5.	Nashua, Arcaro	4-5
6.	Chuck Thompson, Nelson	20-1
7.	Go Lightly, Culmone	20-1
8.	Nance's Lad, Choquette	8-1
9.	Honey's Alibi, Gonzales	15-1

All carry 126 pounds.

Sticks became the sixth of the nine Preakness entries in the same barn. He joined Nashua, Honey's Alibi, Clifford Mooer's Traffic Judge, Roslyn Farm's Go Lightly and Everglades Farm's Nance's Lad.

Off by themselves in three other barns were Gee Cohen's Chuck Thompson, Montpelier's Saratoga and Duntreath Farm's Fleet Path.

The odds makers on the day before the hilltop classic had Nashua figured at 4-5, while Saratoga was put in second choice 6-1.

Eddie Arcaro will be up on Nashua, while Nick Shuk will pilot Saratoga and Eric Guerin will be on Traffic Judge.

Sticks' trainer, John Wozneski, is only 28 years old and has been training horses for nine years.

It was Wednesday noon in Chicago when Wozneski, Benner and Galbraith finally convinced each other they ought to go to Pimlico's big race for 3-year-olds.

There must have been a lot of soul-searching before the decision. Sticks hasn't even been able to run third in six races this year and has won only $590 in fourth place money. And he is a 30-1 shot today.

CBS television and radio will cover the race.

Volunteers Help Dig Out Storm-Lashed Kansas Town

UDALL, Kan. (AP) — Public and private purses opened generously and strangers worked overtime Friday to restore life to this tornado-destroyed town.

Victim of the worst storm disaster in Kansas history, Udall was left with only one habitable structure—a small residence. Already 73 dead and more than 200 injured had been counted out of a population of 550. An estimated 50 were missing.

The casualties were part of the 114 killed and more than 700 injured in a series of twisters that ripped through Kansas, Oklahoma, Texas and Missouri Wednesday night and Thursday. Property damage in the midcontinent area was estimated in the millions.

Federal Aid

President Eisenhower, responding to an appeal from Gov. Fred Hall of Kansas, Friday authorized the Civil Defense administration to use whatever funds are necessary to aid the state's stricken.

The Red Cross, establishing a field headquarters at Arkansas City, Kan., for both Kansas and Oklahoma, reported a quick and generous public response to appeals for funds. Contributions were being received by local chapters in the two states.

Volunteers Help

Workmen from neighboring towns and cities moved in voluntarily to help clear tangled wreckage and set up temporary buildings.

In Blackwell, Okla., where 18 were killed and 500 injured by a tornado that immediately preceded the Udall disaster, most relief work was undertaken by that city's own citizens. It is a much larger community than Udall.

Flood Threat

New trouble for Blackwell, however, came Friday from the flooding Chikaskia river that loops the city north and east. It was in the northeast section that the tornado struck. The stream guaged 24.7 feet today, 2.7 feet above flood stage, and was predicted to rise to between 26 and 27 feet. At 27 feet it would flood about 15 blocks, 10 of them in the disaster area.

The full extent of Udall's destruction was measure by Ward Stuber, Winfield, Kan., Red Cross disaster committee chairman. He reported 170 homes completely wrecked, 18 so damaged they are not livable and will have to be razed; and only one relatively unscathed. Only three business and public buildings were not leveled and these three are unusuable.

50 Missing

Mayor Earl B. Rowe expressed fear more bodies would be found as the debris is cleared. He said an estimated 50 residents have *not been accounted for although* some of these may be staying with friends or relatives.

National Guardsmen were painstakingly checking the town, yard-by-yard, with the aid of hoisting cranes. As they moved along, bulldozers closed in, sweeping up the wreckage.

(AP Wirephoto)

THIS GANDER just can't seem to find a familiar place or person as he roams about the streets of the Udall, Kan., community destroyed by Wednesday's tornado. Although he accepts food from strangers in his town, he will become friendly with no one, and continues to search for his master and home.

City Record

BIRTHS

Mr. and Mrs. Donald J. Tracey, 112 Grandview ave., a boy Thursday at Mercy hospital.

Mr. and Mrs. Dale Redig, 118 Westlawn park, a boy Thursday at Mercy hospital.

Mr. and Mrs. Lambert Shuzynski, Oxford, a girl Friday at Mercy hospital.

Mr. and Mrs. Richard Terrell, Fairfax, a boy Friday at Mercy hospital.

Mr. and Mrs. Ralph Baughman, 825 Sixth ave., a girl Friday at Mercy hospital.

Mr. and Mrs. Guy Wienike, West Liberty, a girl Friday at Mercy hospital.

POLICE COURT

Junior Niffenegger, R.R. 6; Allen Ramsey, Cedar Rapids; Richard A. Salome, Cedar Rapids, and Philip R. Elting, A3, Des Moines, Friday were each assessed $2.50 court costs on separate charges of illegal parking.

Richard A. Young, R.R. 1, North Liberty, Friday was fined $12.50 on a charge of speeding.

Robert Allen Penn, Dubuque, Friday was fined $7.50 on a charge of operating a motor vehicle with an expired driver's license.

City Boy To Attend World Scout Meet

Burton Conn, son of Dr. and Mrs. Harold C. Conn, Veterans hospital, is one of three Eagle Scouts from the Iowa City area selected to attend the Scout World Jamboree at Niagara-on-the-Lake, Ontario, Canada, Aug. 18-28.

The three scouts will represent the six-county Hawkeye area Boy Scout council at the jamboree. The announcement was made by Dr. Harold Ennis, Mt. Vernon, chairman of the council selection committee.

1955 Hawkeyes Available At Campus Stores Tuesday

Copies of the 1955 Hawkeye will be available Tuesday at Campus Stores, 118 Iowa ave., to those who ordered and paid for a Hawkeye earlier this year. The books may be claimed on presentation of ID cards.

A feature of the 1955 yearbook is the color work. Dale Ballantyne, SUI art instructor, painted a four-color picture of Old Capitol which appears on the second page of the opening section.

The section, in black, yellow, gray and white, devotes four pages to SUI's Big Ten basketball champs.

The photo deadline of the Hawkeye was delayed as Hawkeye photographers followed Iowa through the NCAA finals at Kansas City.

A series of five night scenes of the campus appear as division pages throughout the 375-page volume.

These night scene pictures, a page and one half wide are outstanding, according to R. C. Walker, president of the Southwestern Engraving company, Tulsa, Okla., which produced the Hawkeye engravings. Walker's company processes about 25 yearbooks a year, including those of many large southern universities.

Walker commented that he had seen no illustrations to match the Hawkeye night pictures.

Four of these night pictures were taken between 1 a.m. and 3 a.m. Each was lit with dozens of carefully placed flashbulbs.

66 Cadets To Attend Army Camps

Sixty-six Army ROTC students in the advanced corps will leave for six weeks summer camp training at four army camps June 25, said Col. James Scott, professor of military science and tactics, Friday.

Twenty-one engineering students will attend camp at Ft. Leonard Wood, Rolla, Mo. Forty-two students in commerce and liberal arts will attend infantry camp at Ft. Carson, Colorado Springs, Colo.

Two students will go to Brooks general hospital, Ft. Sam Houston, San Antonio, Texas and one to signal corps summer camp at Camp Gordon, Augusta, Ga.

The purpose of summer camps is to give each cadet practice in the application of techniques learned in the classroom during the year. Engineering students will apply the techniques of bridge and road building and the use of heavy equipment.

The following cadets will be attending the four summer camps:

Ft. Carson, Colo.

Barry A. Ackerly, C3, Des Moines; Thomas L. Adams, A3, Des Moines; William D. Agnew, C3, Holstein; James K. Baumgartner, A2, Des Moines; Henry C. Berry, A3, Chicago, Ill.; Joseph G. Bertroche, A2, Ottumwa.

Stanley C. Davis, C3, Glenwood; Alan G. Easton, A3, Iowa City; Albert B. Fenton, A3, Centerville; Norman H. Foster, A2, Woodstock, N. Y.; Ralph J. Freeman, A3, Iowa City; James R. Harbison, A3, Columbus Junction.

John J. Hattery, A3, Ames; Francis J. Haupert, A3, Dubuque; Lester L. Hawthorne, C3, Saybrook, Ill.; Ronald K. Hosford, C3, Rowley; James E. Huser, C3, Des Moines; Harlan H. Jenkinson, C3, Fairfield; Glenn M. Johnston, C3, San Diego, Calif.

Philip W. Leahy, E2, Clinton; Kenneth C. Leuer, C3, Waygata, Minn.; Earl L. Lindanger, C3, Cresco; James A. McCullough, C3, Clinton; Wayne M. Mead, C3, Cedar Rapids; Lorin J. Meade, A3, Cedar Rapids.

Richard P. Means, C3, Des Moines; Donald W. Morrison, C3, Oskaloosa; Robert E. Newton, A3, Muscatine; Richard J. Pedersen, A3, Marshalltown; Robert E. Reed, C3, Iowa City; Dwight C. Reel, A3, Missouri Valley.

Thomas A. Robinson, A3, Iowa City; Stanley L. Roseberry, C3, Cedar Rapids; Thomas J. Salkeld, A3, West Burlington; Duane R. Totson, C3, Wisconsin Dells, Wis.; Maxwell G. Tow, A3, Cedar Rapids; Donald H. Verhille, C3, Ottumwa.

James F. Welp, A3, Bancroft; Peter C. Westergaard, A3, Des Moines; John C. White, A3, Iowa City; Ronald Zirbel, C3, Des Moines; Fred J. Zamberletti, A4, Melcher.

Ft. Leonard Wood, Mo.

James G. Andrews, E2, Iowa City; Louis E. Becker, E1, Keokuk; Milton A. Breslow, E2, New York, N. Y.; Richard L. Dunlavy, E3, Salem; Theodore F. Dunnington, E2, Iowa City; Roy F. Eberline, E2, Oskaloosa.

Fred E. Glimore, E2, North English; George R. Ginakis, E2, Keokuk; Myles J. Harai, E2, Kealabebua, Hawaii; Cullen P. Hart, E3, Centerville; John J. Hill, E3, Denison; Leonard W. Hoffman, E2, Monticello.

Don H. Jan, E3, Belle Plaine; Howard G. Judd, E3, Clinton; William A. Lundquist, E2, Marion; James F. Luth, E4, Burlington; Sherman A. Nelson, E2, Fargo, N. D.; John O. Penhollow, E3, Tama.

Bernard C. Schluter, E2, Nashua; Terry A. Shuck, E2, Des Moines; Mervin C. Stratton, E2, Oxford.

Brook General Hospital

George L. Hansel, E3, Manchester; Max E. Hoyt, P4, Ft. Dodge.

Camp Gordon, Ga.

Craig A. Gipple, E2, Columbus Junction.

2 Professors To Publish Physics Book

Two SUI physics professors will publish a book late this summer culminating three years of work.

J. M. Jauch and Fritz Rohrlich are the authors of "The Theory of Protons and Electrons."

According to Jauch and Rohrlich, the book gives a unified and consistent presentation of the radiation theory in full conformity with the principles of relativity and quantum mechanics.

There is another book in the field written by a professor in Switzerland, W. Heitler.

Jauch received his inspiration to write a book on the quantum theory of radiation from Heitler. Heitler and Jauch heard of each other's work in the field and began corresponding. Heitler, as one of the editors of a handbook of physics, asked Jauch to write an article for it. Jauch began writing his article, but Heitler resigned his editorship. Jauch then decided to expand the article into a whole book on the subject.

Rohrlich was teaching at Princeton on the same subject and prepared a set of mimeographed lecture notes for his students.

Rohrlich came to SUI in the fall of 1953 just as Jauch had finished the first chapter of the book. The two decided to work together on the book.

The book is intended for use by graduate students and research workers in theoretical physics.

Drama Students Get Awards at Banquet

At the dramatic arts department's annual spring banquet last week, Purple and Scarlet masks were awarded for high scholarship and artistic achievement in the theater.

Awarded Purple masks were: Patricia Clift, G, New Castle; Seldon Faulkner, G, Hillsboro, Ill.; Shirley Gillespie, G, Iowa City; Elizabeth Hall, A3, Iowa City; Arthur Housman, G, Kirkwood, Mo.; Lona Ingwerson, N2, Oxford Junction; Rae Krafft, A3, Mason City; Carolyn Morgan, A4, Iowa City; and William Smart, A4, Fairfield.

Awarded Scarlet masks were: Joan Fagan, A2, Iowa City; Leo Feany, A3, Dakota City; Barry Fuller, A3, Sidney, Australia; Elizabeth J. Kidd, G, Dayton, Ohio; Virginia Peters, A4, Webster Groves, Mo.; Paul Richer, A3, Mason City; George Touliatos, G, Memphis, Tenn.; William Faulkner, G; Stockton, Mo.

Iowa History Students To Make Amana Trip

About 40 students in a course in Iowa history will tour the Amana Colonies Saturday according to Prof. William Peterson, head of the Iowa history department.

The students are to provide their own transportation to the Amanas and meet at Bill Zuber's Dugout in Homestead at 9:30 a.m., Peterson said.

Sealing It with A Kiss

(AP Wirephoto)

MISS MARIAN DAVIS, of Washington, D.C., and her sweetheart, Midshipman Emil Block Jr., celebrate Block's forthcoming graduation from the academy with a kiss under a replica of the naval academy's class of 1955 ring. This rite will be repeated hundreds of times tonight at the colorful Ring Dance, a highlight of June graduation week at Annapolis.

Zoologists Do More Than Study Bugs —

SUI Zoology Buildings Erected in 1903

THE SUI ZOOLOGY BUILDING located on the southwest corner of Dubuque and Jefferson streets was built in 1903. It was formerly known as the medical building. Together with the zoology annex, formerly known as the anatomy building, they cost $129,000. The zoology building houses classrooms, faculty offices, a library, and research laboratories.

"Many people think that all we do here is study bugs," the late Prof. Joseph J. Bodine used to say.

Bodine, until his death last year, was head of the zoology department. He was succeeded by Prof. Jerry J. Kollros.

Bodine's observation describes the misconception most SUI students have about the zoology department. Zoology, a basic experimental science, studies the fundamental units of insect and animal life.

The zoology building and the zoology annex, located on the southwest block contained by Dubuque and Jefferson streets, were built in 1903. They were originally known as the medical building and the anatomy building.

$50,000 Appropriation

Their construction began with an appropriation of $50,000 made by the 29th general assembly of Iowa in 1901. The remainder of the cost was financed by a one-fifth mill tax established for building purposes.

The medical building and the anatomy building were designed by Proudfoot and Bird, architects from Des Moines. Both buildings are of Bedford limestone. The total cost was $129,000.

The corner stone for the medical building was set in Jan. 1903. Within the stone are issues of The Daily Iowan and various college and local publications. The corner stone for the anatomy building was laid March ?, 1903.

Med Lab Until 1927

Completed in September, 1904, the medical laboratory was used by the college of medicine until 1927 when the new medical laboratories on the west side of the river were completed.

In 1913 an animal house was added to the top floor of the medical laboratory. This has been the only addition to the building.

The main building is primarily for teaching. The annex is used for research.

Activities in Building

On the first floor of the zoology building are class rooms for general study. The basic zoology classes and the biology of man classes are held there.

The second floor contains two lecture rooms and two laboratories for advanced work.

Faculty offices, two specialized laboratories, a library containing a file of zoological and related journals and magazines and a photographic room are on the third floor. There is also one room remodeled five years ago in which constant temperature is maintained for histology techniques.

On the fourth floor are Prof. Emil Witschi's laboratories and the air-conditioned amphibian room. These rooms were furnished for Witschi with money from grants.

Sex Hormone Research

Witschi has been doing research on sex hormones for more than 40 years. The frogs used in his studies are from different parts of the United States, Japan, France and Germany. The frogs are bred, raised and kept for years in the laboratories. Witschi raises flys to feed the frogs.

Graduate students also have quarters on the fourth floor.

The zoology annex, used primarily for research, also contains student quarters and animal rooms.

Much of the equipment used in the annex was built by zoology department instructors.

One such machine is the microtome. This machine slices sections of animals to use for study under microscopes. The slices run as thin as .0004 of an inch.

Threatened Industrial Strife Faces Eden's Government

LONDON (AP) — Prime Minister Eden, bolstered by a tripled majority in the house of commons by his election victory over labor, plunged straight into the pressing problem of industrial strife Friday night.

He called off plans for a weekend house party in the country celebrating his election victory. He arranged instead to spend the Whitsun day holiday in London at his official residence at No. 10 Downing street to deal with a threatened nationwide railway strike called for tomorrow midnight.

Locomotive engineers and firemen on the nationalized railway are demanding more pay.

Dock Strike

At the same time a dock strike in a jurisdictional dispute which has slowed freight handling in four major ports for a week took a turn for the worse when the men refused to endorse their leaders' agreement to call off the walkout.

Eden in a victory statement praised his Conservative party workers and promised to "Get on with the job." The job, he said, was to seek a lasting peace and greater prosperity.

Bevan's Bid Bolstered

To crushed Laborites, the verdict at the polls looked like proof that they need to end their intraparty feuding and, to some, that the party should move farther to the left. Aneurin Bevan's bid for control of the party seemed bolstered.

The electorate spurned Labor's offer of more socialism and a bigger dose of nationalization. Stock market prices soared. The returns toughened the British - American alliance and strengthened Eden's hand for the coming meeting of the Big Four.

59 Seat Majority

With results in from 624 of the 630 election districts, the Conservatives had an over-all majority of 59 in the new house of commons—enough to ensure five safe years of rule. When the old house was dissolved last month, the Tory majority stood at only 17.

Not in 90 years had the party in power been able to increase its majority in a parliamentary election.

Strengthen U.S.-British Ties

British officials view the result as sure to increase U.S. confidence in Britain. They say the voters upheld Eden's policy of strengthening the British-American partnership.

Some Laborites, goaded by a traditional Socialist suspicion of American capitalism, have wanted to loosen the ties so the British could play a more independent role in world affairs.

Big 4 Conference

Eden now will go into the coming Big Four talks with his personal prestige at its highest level and with his opposite numbers knowing he speaks for a sold majority of the British people.

Labor leader Clement Attlee, a target for many of Bevan's attacks, said the split in the party was one cause of the Socialists' defeat.

SUI Design Show To Close Today

"Heliotrope House" has been the subject of more questions from visitors to the Seventh Annual Design show at SUI than any other feature of the exhibit, John Schulze, director of the show, said Friday.

Ways to operate the triangular-shaped shutters which can admit light across the entire dome-like roof come in for the most interest, Professor Schulze says.

The design show, which has been open to the public throughout May, will close today. Show hours today are from 2 to 5 p.m.

Visitors to the show have included a number of school groups and architects from Iowa cities. The architects have been interested also in models for structures using a plastic membrane for roofing supported by steel cables strung between concrete arches.

One such design for a hillside house done by Wayne Evenson, E4, Fort Dodge, features end walls made of glass which slant inward to keep out direct sunlight. The designs for buildings were done in Professor Schulze's class in architectural design.

Stolen Safe Found; $300 Missing

MAQUOKETA (AP) — A safe and truck stolen from the Sieg wholesale auto supply here Thursday night were found Friday in a field nine miles southwest of Maquoketa.

The safe had been battered open and $300 in cash and checks were missing.

Thieves evidently rolled the 1,500 pound safe to the rear door on a car and loaded it on a company truck, using the firm's hoist.

LEGAL PUBLICATION

NOTICE OF FILING OF PLAT AND SCHEDULE

Notice is hereby given that there is now on file for public inspection in the office of the City Clerk, a plat and schedule, marked "Plat No. 90" of the following named streets and parts of streets, to-wit:

Commencing at a point on the existing 10" sewer at the extension of Porter Avenue 138' east of Parson's Avenue. Running thence Northeasterly to a manhole to be constructed in the Southeast corner of Lot 7 in Memler's Sub-Division. Thence North, and parallel to the east line of said Lot 7, to a point 5' north of the north curb line of Rochester Avenue. Thence west and parallel to the said north curb line of Rochester Avenue 585', all in Iowa City, Iowa, whereon sewer improvements constructed under a contract with Dan Christensen, Cedar Rapids, Iowa, dated the 12th day of April, 1955, have been completed.

Said plat and schedule shows the separate lots or parcels of ground or assessment for such sewer improvements, the names of the owners as far as practicable and the amount to be assessed against each lot or parcel of ground and against any railway or street railway.

Notice is further given that within twenty days after the first publication of this notice all objections to said plat and schedule or to prior proceedings on account of errors, irregularities, or inequalities, must be made in writing and filed with the City Clerk; and the City Council after the expiration of said twenty days at the first regular meeting held thereafter or at a special meeting called for that purpose, having heard such objections, and made the necessary corrections, will then make the special assessment as shown in said plat and schedule as corrected and approved.

Dated this 19th day of May, 1955.

Robert E. Meyer,
City Clerk.

165 Million!

'Census Clock' Records Population Increase

WASHINGTON (AP) — A line of blue lights flashed, signaling a birth, at 51 minutes and 51 seconds past 6 a.m. (CST) Friday, and the "census clock" in the U.S. Commerce department pointed to an American population of 165 million.

The clock had to have a little manual help, and the birth was just as a statistical average. But Robert W. Burgess, director of the census Bureau, and a gathering of newsmen and cameramen were on hand for the occasion.

The nation's population has increased five million persons in less than two years. In Auguse, 1953, a similar gathering watched the population clock signal 160 million.

By midnight Friday the clock, working mechanically on statistical averages of births, deaths, immigrations and emigrations, will have ticked on to 165,004,545. It records a net addition to the population each 12 seconds. That is 300 an hour, 7,200 a day.

Burgess told the gathering that the nation's population is now increasing at a record numerical rate more than 2,600,000 a year.

The "clock" is a large board with a map of the U.S. into which lines of colored lights run from east, north, west and south. Above the board a cabinet holds a line of large figures, similar to the mileage recorder of an automobile. They click off the steady increase in the country's population.

IOWA POSTAL HEADS

WASHINGTON (AP) — The senate has confirmed the nominations for postmasterships in Iowa of Hilbert O. Herron, Blairstown; Agnes K. Nielsen, Kimballton; Charles I. White, Oakland; Evelyn A. Tish, Searsboro.

Expect 140 At SUI Press Workshop

Reservations from about 140 Iowa high school students and journalism advisers have been received for the third annual High School publications workshop to be held June 6-11 at the SUI school of journalism.

Designed for student journalists who will be working on high school newspapers and yearbooks during the next school year, the workshop will provide instruction in news, feature and column writing, copyreading and editing, photography, business management, advertising, layout and yearbook planning and production.

Workshop director Lester G. Benz of the SUI journalism faculty said that 46 weekly and daily newspapers throughout the state have provided scholarships to send more than 70 students to the six-day workshop.

Instruction at the workshop will be provided by members of the SUI journalism faculty and invited authorities on high school journalism. Extra sessions are also planned for the high school journalism advisers.

The workshop will include a tour of the Davenport newspaper plants and the Rock Island arsenal, a picnic, swimming in the university pool, tennis, evening parties and a banquet. Students who complete the course will receive diplomas.

41 Warnings Issued In Auto Spot Check

A spot check of automobiles Thursday afternoon at Iowa City high school resulted in the issuance of 41 warning tickets for faulty or illegal equipment.

The tickets require that equipment be corrected and the highway patrol notified. Those not conforming will be summoned to court.

Highway patrolmen, Iowa City police officers, and volunteer members of the Iowa City Timers inspected 168 vehicles from 3:30 to 4:45 p.m.

4-Day Session Set For Cubmasters

A special 4-day training program for cubmasters, den mothers, committeemen and parents is scheduled at Macbride hall from May 31 through June 3.

The training program is set up under new regulations of the Wauhawk council of the Scout organization and is required for all Cub leaders before they can be recommissioned.

Robert Gregg, chairman of the four sessions, said the program will began May 31 at 8 p.m. in room 105 of Macbride hall.
