The Weather

Mostly cloudy, windy and continued cold today. Highs 30-40. Clearing and continued cold tonight. Partly cloudy and warmer Wednesday.

Prowler Admits Noises on Roof Before Slaying

Vote Today To Test Manager System

By KIRK BOYD

The city manager plan of Iowa City will get its first test at the polls today.

City voters will choose three men from among six candidates for four-year terms on the City Council.

Their choice will show whether or not Iowa City residents approve of the administration of City Manager Peter F. Roan, which has governed Iowa City since 1951.

It also may be a forecast of how Iowa City residents will feel about keeping the city manager plan when its six-year trial period provided by Iowa law ends in 1957.

Endorse Manager

Three candidates supported by the Council-Manager Association (CMA) have endorsed the program and works of Roan and the CMA-dominated council over the past four years.

They are Philip Morgan, SUI sanitary engineering professor; Louis Loria, foreman of the SUI printing service and George Dvorsky, teller at the First National Bank.

Three candidates supported by the Non-Partisan Taxpayers League (NPTL) have bitterly attacked Roan and the council throughout the campaign.

They are Lee Blodgett, technician in the SUI Physics Building; Glenn Meeks, real estate broker, and Lee Chopek, a sheet-metal worker and the only candidate who is a life resident of Iowa City.

CMA Formed

The CMA was formed in 1949 by a group of persons interested in bringing the city manager form of government to Iowa City.

It led the campaign in 1950 to install the manager system and has dominated city politics ever since.

The plan was approved by an 874-vote margin (3,132 to 2,258) in a special election.

No Opposition

Since then the CMA has been without opposition.

In 1951 its five candidates rolled over three independents in the election of the first council to serve under the city manager system.

In 1953, after two years of the manager system, no one tried to oppose the CMA. Councilmen Leroy Mercer, Ansel Chapman and Robert Stevenson were the only candidates.

No opposition to Roan or the CMA came to the surface until this past summer.

Then the widening of five blocks of Burlington Street triggered the bitter campaign.

Protest Move

Several property owners along the five block strip from Madison Avenue to Gilbert Street protested the widening. Edward O'Connor, former attorney general of Iowa, acted as their spokesman.

They lost the fight to prevent widening of the street when the City Council approved the project by a vote of 3 to 2. But they weren't finished.

NPTL Organizes

O'Connor organized a small group to provide opposition to Roan and the CMA. He was elected chairman. Mrs. Nete Whiting, a Burlington Street property owner, was named secretary.

Other prominent members were Jack White, Democratic county chairman; Ken Dunlop, former city attorney; Clarence Updegraff, SUI law professor; and Clarence Beck, former city councilman.

The NPTL adopted at its first meeting a resolution calling for the return of Iowa City to mayor-council government and the ouster of Roan as city manager.

Charge Stand

Since then the NPTL leaders and candidates have watered down their stand considerably. NPTL candidates Blodgett and Meeks have refused to commit themselves to work for Roan's ouster.

Blodgett recently said that the three NPTL candidates were in favor of bringing back the mayor-council system, but hiring a city manager to run city offices.

All three have advocated cutting Roan's salary and putting part of the cut into salaries for

Polling Places

The nine city precinct polling places will be open from 7 a.m. to 8 p.m. today.

They are:

FIRST WARD, FIRST PRECINCT — Johnson County Courthouse.

FIRST WARD, SECOND PRECINCT — SUI Communications Center.

SECOND WARD, FIRST PRECINCT — City Hall.

SECOND WARD, SECOND PRECINCT — SUI Fine Arts Building.

THIRD WARD (ONLY ONE PRECINCT) — CSA Hall.

FOURTH WARD, FIRST PRECINCT — Junior High School.

FOURTH WARD, SECOND PRECINCT — Elks Club Building.

FIFTH WARD, FIRST PRECINCT — County Welfare Building.

FIFTH WARD, SECOND PRECINCT — Longfellow School.

Rival Groups Are Confident Of Victory

Leaders of the rival Non-Partisan Taxpayers League (NPTL) and Council-Manager Association (CMA) Monday issued statements of confidence.

Edward O'Connor, chairman of the NPTL, said that the candidates of his group would win.

Thomas Farrell Jr., CMA president, went a step further and hinted at a CMA victory by "a large majority."

O'Connor said: "In my opinion, a large vote—much larger than had been anticipated a few weeks ago—will be cast. People have become vitally interested in this election."

"From reports we have received from the feeling of people we are satisfied that the candidates sponsored by the NPTL will win."

Farrell said: "The citizens of Iowa City, in their organizations and at the CMA-sponsored coffee hours, have expressed widespread interest in the current campaign. I am sure that all voters who have the interest of the city at heart will vote Tuesday. If they do, I'm equally certain that the record of council-manager government will be upheld by a large majority of votes for CMA candidates."

Russians Hint New Offers in Big 4

GENEVA (AP) — New Soviet offers on German unification and disarmament were hinted by Russian officials here Monday night as the Big Four powers reached virtual agreement to hold another conference in Geneva next spring.

The present slow-moving foreign ministers' parley — recessed 5 out of 12 days — will resume today when Russia's V. M. Molotov flies back from consultations in Moscow. The only uncertainty about the next conference apparently is the date.

Russian representatives here indicated possible softening of Soviet stands on free elections to unify Germany and President Eisenhower's proposal to exchange military plans and aerial inspections.

Chagrin and embarrassment were apparent in Russian quarters here Monday after U.S. Secretary of State John Foster Dulles' statement made with agreement of President Tito of Yugoslavia that Soviet European satellites should regain their independence.

EMPLOYMENT RECORD

WASHINGTON (AP) — Nearly 85 1/2 million Americans had jobs in October, the highest level of employment ever reached for that month, the government reported Monday.

Veto Military Trials for Men Now Civilians

WASHINGTON (AP) — Ex-servicemen cannot be subjected to military trial for crimes committed while in service, the Supreme Court ruled Monday.

By a 6-3 vote, the court struck down a key provision of the 1950 Uniform Code on Military Justice. It permitted the armed forces to put civilians back into uniform and court-martial them for serious crimes occurring before their discharge.

The ruling applied to Robert W. Toth of Pittsburgh. As a result, the Air Force cannot bring Toth, an honorably discharged veteran, to trial for the slaying of a South Korean civilian.

The decision was expected to have a direct bearing on the fate of three former GIs arrested at San Francisco last July 29 under the code of military justice. The trio — Otto G. Bell of Hillsboro, Miss., William A. Cowart of Dalton, Ga., and Lewis W. Griggs of Jacksonville, Tex. — are now held by the army at Ft. Baker, Calif.

They were captured by the Communists in North Korea and while held prisoner were said to have betrayed this country by informing and aiding the enemy in exchange for favored treatment. They later rejected the Reds and came home.

When the three first elected to stay in Red China, Secretary of Defense Charles E. Wilson designated them as deserters. Then, in January 1954, Wilson ordered them dishonorably discharged.

Justice Black, who spoke for the court majority Monday, said Congress exceeded its constitutional authority in enacting legislation to subject civilians like Toth to trial by court-martial.

The decision left the way open for Congress to provide for civil, instead of military, trials in cases such as that of Toth. Such legislation could not be made retroactive to include offenses which took place before its passage.

Miller To Quit Schools Post

Vernie D. Miller, director of School Buildings and Grounds in Iowa City since 1939, told a meeting of the School Board Monday that he will not seek another year in this position.

"When my present contract expires on June 30, I will step down in favor of my assistant, Magnus Christensen," Miller stated.

Miller, who was President of the board from 1933-34, said he has only the best of memories from his work with schools in this city over the past 25 years.

Miller recalled briefly the "worst" years for the Board. "Compared to the depression years, the problems we have to face today with school bonds are minor," he said.

The \$398,750 bond issue we voted on in 1937 to build Iowa City High School was a far bigger problem," he added.

Members of the Board expressed appreciation for the job that Miller has done over the 17 years that he has held the position.

Preliminary plans for building six-room additions at the Herbert Hoover and Mark Twain schools were presented to the Board by Kingscott Associates, Davenport architectural firm. A \$195,000 bond issue for the additions was approved by city voters Oct. 31.

The plans will be completed in about two months. Bids will be asked by Feb. 1. This will allow time for the contractor selected to order building materials.

The Board hopes the additions will be completed for the opening of the 1956 fall term.

He Pipes the Guards Along

SCOTS GUARDS PIPE MAJOR John Roe wears the full regalia of the Guards, household troops of Queen Elizabeth, who will march, play and dance tonight at Iowa Fieldhouse.

Kilted 'Kiddies' Coming To Pipe, Dance Tonight

The Kiddies are coming to Iowa City tonight. But they hardly look the part, for The Kiddies are 108 burly, uniformed Scotsmen, armed with r-r-olling brogues, bagpipes and drums.

They'll march onto the SUI Fieldhouse floor at 8 p.m. for a two-hour performance of military band music, Highland piping and dancing.

Though organized in 1642, the Scots Guards didn't take up official residence as household troops at Buckingham Palace until 1685. By then, two other regiments of foot guards—the Grenadiers and the Coldstream Guards—were well entrenched at the palace.

They met the arriving Scots with time-honored military ribbing and dubbed the kilted troops "The Kiddies."

Nickname Sticks

The nickname has been with the Scots ever since, even though the Irish and Welsh Guards have since been added to the Household Troops.

In the last 300 years, the Scots Guards have played a prominent role in British history.

Now, for the first time, the musical vanguard of the Scots Guards is touring the United States on a goodwill mission sponsored by the British War Office. They will make one other Iowa appearance—at the KRNT Theater in Des Moines Wednesday night.

8-Week Tour

When their eight-week musical tour of North America ends in New York Dec. 5, "The Kiddies" will have appeared in 48 U.S. and Canadian cities and will have tramped through some 22 states.

Tonight the Scots Guards Regimental Band will open its SUI appearance with a number indirectly inspired by earlier generations of British servicemen.

The words to the song were jotted down by a young American named Frances Scott Key detained on the deck of a British vessel off the coast of Baltimore during the War of 1812. With music added later, the song became our National Anthem.

And so, it will be British "Red-coats" playing "The Star Spangled Banner" as the Scots Guards' performance gets under way.

For two hours, the Scots will show the audience such band marches as "Garb of Old Gaul," "Golden Spurs" and "Old Comrades." Later the band will return with "The Petite Waltz," "March Slav" and Verdi's Overture, "Sicilian Vespers."

Punctuating the band numbers will be the appearances of the Highland Dancers, doing strathspeys, reel and other age-old Scottish dances, including the Highland Fling—a new experiment.

SCOTS—

(Continued on Page 7)

Ike To Leave Hospital for Capital Friday

DENVER (AP) — President Eisenhower will leave the hospital for Washington Friday — but two of his doctors said Monday it will be "late January or February" before he can decide on trying for a second term.

Dr. Paul Dudley White and Maj. Gen. Howard M. Snyder told a news conference Eisenhower's mending heart must be "exposed to considerably more strain" before the President can decide on his "physical future and whole life."

That did not rule out the possibility that Eisenhower already may have made up his mind on seeking another term. But White and Snyder said the President has mentioned no decision to them.

White, a Boston heart specialist, Snyder, Eisenhower's personal physician, and other doctors who have been attending the President since his Sept. 24 heart attack appeared at the news conference after thorough lengthy examinations of the chief executive Sunday and Monday.

Only Good News

However hazy the political future might be, White said that he had "only good news again" on Eisenhower's physical condition at this point. And he added: "We have all, myself included, decided that Friday morning will be the time for his takeoff here. So he will arrive in Washington in the afternoon."

He said the President plans to go on to his farm at Gettysburg, Pa., Monday to celebrate Mrs. Eisenhower's 59th birthday.

Plan Cabinet Meeting

White disclosed that plans are under consideration for holding Cabinet meetings next month at Camp David, the presidential retreat in the mountains near Thurmond, Md., only a few miles from Gettysburg.

James C. Hagerty, White House press secretary, said later there also are plans for the President to attend a national Security Council meeting some time before the first of the year. The time and place were not fixed.

Both the President and Mrs. Eisenhower reportedly want to spend the remainder of the chief executive's convalescence period at their Gettysburg home — the only one they have ever owned. But there is still a responsibility, Snyder acknowledged, that if the weather becomes severe there they shift to a warmer spot.

Normal Life

Once the chief executive and the first lady reach Gettysburg, the doctors say they can settle down to a fairly normal sort of existence.

There won't be doctors, nurses or attendants around at all times as there have been in the seven weeks of hospitalization here. Snyder will see the President daily but will make his headquarters in Gettysburg rather than at the farm.

Dr. White, who has been seeing the chief executive every two weeks since his Sept. 24 heart seizure, said his visits can be spaced out now. He plans to go to Gettysburg about mid-December.

Russians Call 'Voice' Shows 'Bad Goods'

WASHINGTON (AP) — Visiting Russian newsmen said Monday Voice of America broadcasts to the Soviet Union are jammed "because we do not like to have rotten goods imported into our country."

"That is the only reason," Boris Polevoy, head of the visiting delegation, declared in a copyrighted interview in the weekly news magazine U.S. News & World Report.

Polevoy compared the Voice of America radio broadcasts to laws which prohibit import of certain fruits or vegetables lest they pollute the soil.

"As I see it, it is for this same purpose of protecting our soil that we jam these various 'voices' which try to corrupt the air over our country," he said. "We jam them, so to speak, for purely hygienic purposes."

Paul Wirths Heard Death Shot

High Court Vetoes Public Segregation

WASHINGTON (AP) — The Supreme Court Monday sounded the death knell for racial segregation in all places supported by public funds.

In separate, unanimous actions the court affirmed a decision holding racial segregation illegal in public parks and playgrounds, and ordered Negroes admitted to public golf courses.

This, in effect, swept away whatever remained of the historic "separate but equal" doctrine in tax-supported facilities. The major blow to that doctrine came in the court's unanimous May, 1954, decision, holding segregation in public schools unconstitutional.

Using only 11 words, the high court affirmed a decision by the U.S. Court of Appeals in Richmond, Va., that segregation in public parks and playgrounds is illegal. All the court said was: "The motion to affirm is granted, and the judgment is affirmed."

The Virginia court had said the separate but equal doctrine for white and Negroes was dead. The Supreme Court took only 58 words to reverse decisions by two lower courts upholding segregation in city-operated golf courses in Atlanta, Ga.

The lower courts—U.S. District Court in Atlanta and U.S. Circuit Court in New Orleans—had taken the view that the separate but equal doctrine still could be applied in public recreation.

In reversing the lower courts, the Supreme Court directed that an order be issued granting Negroes admission to Atlanta's public links.

In Atlanta, city officials declined to comment on the court's ruling or say what they would do, pending further study.

Georgia Attorney General Eugene Cook, a segregation advocate, said Monday's decisions amount to another step in what he called a campaign to bring about intermarriage of the races.

The Supreme Court now has before it a case testing the validity of a Virginia law that bans interracial marriage.

The Richmond appellate court ruling affirmed Monday specifically applied to public beaches and bath houses operated by the city of Baltimore and the state of Maryland. The city and state jointly had asked the highest court to overturn the decision.

As an alternative, the city and state had asked the court for instructions on how and when to end park and playground segregation. This plea the court ignored, leaving the question in the hands of lower courts. This is the same method the high court used in ordering an end to racially segregated public schools.

Chest Collections Reach \$16,820

Contributions to the Iowa City Community Chest drive have reached \$16,820.80, Drive Chairman John H. Graham said Monday.

This amount is about half of the goal of \$35,772, with the collection almost completed. Officially the drive ended Nov. 5, but some of the funds collected are still in the hands of individual solicitors at present.

Graham expects the drive to be completed by Saturday, since calls are still being made to persons that were not at home when previously visited.

Says He Flew After Hearing Death Shot

MINEOLA, N.Y. (AP) — A prowler admitted Monday he was blundering noisily atop Mrs. Ann Woodward's bedroom roof at the very moment she shot her husband to death. She had blamed a strange noise for her panicky gunfire.

The prowler, Paul W. Wirths, was quoted by police as saying he broke a tree branch, wrestled noisily with a door and dropped a loaded shotgun on the roof of Mrs. Woodward's bedroom early on the morning of Oct. 30.

His revised story appeared to support Mrs. Woodward's claim that a noise in the night led to the accidental shooting of 35-year-old William Woodward Jr., multimillionaire owner of the great race horse Nashua.

Heard Death Blast

Detective Inspector Stuyvesant Pinnell quoted Wirths as saying he heard the roar of Mrs. Woodward's shotgun. The 22-year-old German refugee added:

"It sounded like a cannon. I didn't wait. I got the hell out of there."

Mrs. Woodward had told police her nerves were on edge because of her "fearful dread" that the prowler would return and invade her home. He already had broken into a swimming pool cabana and the six-car garage on the Woodward's 60-acre Oyster Bay, N.Y., estate.

Fired into Dark

The beautiful 39-year-old blonde told police she fired blindly into a darkened hallway outside her bedroom when she awakened in the night and heard a noise. She had taken a loaded shotgun to the bedroom with her when she retired.

Woodward was standing nude and unarmed in the door of his bedroom across the hallway. One charge from the shotgun hit him in the head and killed him.

Mrs. Woodward has been in Doctors Hospital in New York since the shooting, under treatment for shock and hysteria. Her doctors said Monday she should be able to leave this week.

Will Filing Delayed

Meanwhile, the filing of Woodward's will was delayed until Mrs. Woodward's release. It was to have been filed Monday. Under state law, she is entitled to at least one third of Woodward's estimated 10-million-dollar estate. Their two sons, 11 and 7, also are expected to share in the fortune.

Police have found nothing to contradict Mrs. Woodward's story that she shot her husband by accident. Investigation is continuing and a grand jury is expected to make a final decision on whether the death was an accident.

Wirths was arrested a week ago, two days after the shooting. At the time, police said he readily admitted prowling the Woodward estate but denied he was in the vicinity at the time of the shooting.

Set UN Study Of Radiation

UNITED NATIONS, N.Y. (AP) — UN members voted unanimously Monday night to set up a 15-nation scientists' committee for a worldwide study of how atomic radiation affects man. They overrode United States efforts to keep it from possible connection with Communist China.

The General Assembly's 60-nation Political Committee, with France absent, solidly backed an eight-nation Western resolution calling for such a group to collect reports from governments on atmospheric radioactivity and its effects.

The United States, which proposed the investigation, sought to limit the committee to 11 countries and the scope of its work to the 84 nations in the UN and its specialized agencies.

But 20 Latin-American nations pushed through an amendment to add four more countries to the group, and India sponsored another calling on "all states concerned" to give information to it. The latter change would throw the study open to Communist China. The vote on the Latin-American amendment was 48-0, and on the Indian, 25-22.

VOTE—
(Continued on Page 7)

editorials

Another Russian Overture

The world was treated Monday to another show of the "love of peace" program of the Russian government. The occasion was the celebration in Moscow of the 38th anniversary of the Bolshevik revolution.

Contrary to celebrations in the past, there was little display of military strength in the brief 20-minute demonstration.

Only 59 planes were in evidence in contrast to the sky-filling air armadas that have been the rule in the past. No tanks were in the parade though a few half-tracks pulling light artillery pieces were included.

Even more unusual, there were no new pieces of military equipment unveiled. It is a little too much to expect that there have been no new military aircraft or vehicles developed since the last celebration.

Some spectators thought the Russians were bending over backward to support their contention that they are peace-loving, unaggressive and friendly people.

The world should not be too quick to grasp this as a sign the Russians have really renounced their program of aggression. Undoubtedly it is with an eye to the Big Four foreign ministers conference in Geneva that the playing down of military strength is aimed. It is important that the world should accept Russian overtures to peace for success of their objectives.

It will take more than a show and words to convince the world of Russia's desire for peace. At Geneva the opportunity for concrete action exists. The West can put much more faith in actions there than in parades in Moscow.

Get Out and Vote

Iowa City voters will go to the polls today to decide on three candidates for City Council positions. This will be the first election since 1951 in which they will have a choice of candidates.

This election also is the first since the city manager form of government was installed here that there has been an organized group to challenge the Council Manager Association (CMA).

In 1953 the CMA candidates were unopposed on the ballot. The Non-Partisan Taxpayers League (NPTL) has built a determined campaign based on a return to the mayor-council form of city government. Much of its campaign has been against the position of City Manager Peter F. Roan.

The NPTL leaders have been very active politically. They have held many public meetings, issued many statements, and generally campaigned vigorously. They have shown evidence of their ability as politicians.

On the other hand, the CMA has preferred to base most of its campaign on the record of the Roan administration. This record has been a good one. However, a record doesn't necessarily speak for itself when the voter reaches the voting booth.

We would warn Iowa Citizens who support the city manager plan not to become too complacent about winning this election.

Regarding the 1953 election, it is quite possible that a CMA supporter might reach an erroneous conclusion that this election is just another formality and that it really wouldn't make much difference if he gets down to the polls or not. Nothing could be further from the truth.

It is certain that those voters who have personal dissatisfactions with the present city government will turn out for this election. Those without strong personal feelings may not have so strong a motivation to exercise their vote.

Over-confidence on the part of CMA partisans could very easily lead to defeat of the present administration. This type of thinking defeated pro-city manager candidates in both Rock Island and Peoria, Ill., during the past two years and crippled their city manager administrations. And it could happen here.

When you, the voters, pick up your ballots and enter the polling booths, it is your decision as to which group will get your support. But if you do not exercise this right, it will be of great help to the group seeking to turn out the city manager administration in Iowa City.

Old Capitol Remembers

✓ One Year Ago Today

The "Joe McCarthy session" of the Senate opened in an angry uproar due to a technical change in a committee report. An attempt is being made by the Senate to rebuke McCarthy's conduct.

The U.S. demanded reparations from Russia for the shooting down of an American photo-mapping bomber.

The Dixon-Yates hearings continued and it was rumored that the contract may be signed this week.

✓ Five Years Ago Today

Puerto Rican Nationalist Oscar Collazo asked a federal court to appoint a lawyer to defend him against murder charges resulting from his attempt to assassinate President Truman.

Red troops in northwest Korea eased their pressure and the U.S. first corps reported limited withdrawals by forces facing the American 24th division.

The Hawks captured Floyd of Rosedale by beating the Gophers, 13-0, Saturday.

✓ Ten Years Ago Today

Both Washington and Chungking, China denied a Communist charge that the U.S. Marines have gone into action in China's civil war.

Senate committee members dealing with use of the atomic bomb will attend classes in atomic energy.

✓ Twenty Years Ago Today

Four people were left dead by the hurricane that lashed Miami, Fla.

The five day Homecoming badge drive will end Saturday at game time when the Hawks meet Minnesota.

Quick Quotes

Words of Men, Wise and Otherwise

"We are living not merely in a state, but in a system of States, and the existence of the Soviet Republic side by side with imperialistic States for a long time is unthinkable. One or the other must triumph in the end. And before that end supervenes a series of frightful collisions between the Soviet Republic and the bourgeois States will be inevitable."

—Nikolai Lenin

Interpreting the News — Keep Alive Geneva Spirit

By J. M. ROBERTS
Associated Press News Analyst

Despite the general deterioration in the "Geneva spirit," the powers are making gestures designed to keep it alive just a little longer.

Secretary John Foster Dulles announced recently that the Communists could now be trusted to protect the personal safety of American visitors, and that passports would no longer be marked "invalid" for the Communist sphere in Europe. Russia had previously relaxed her travel regulations slightly, but visas still are not freely forthcoming, by any means.

THE RUSSIANS have been talking for a long time about better trade relations with the West, so the United States announced it was easing things up. Close scrutiny reveals, however, that it is a speeding up of business being done, rather than an actual easing.

Russia and the Western Powers are steering a steady course toward a conflict over the Middle East which threatens to tear down the facade completely.

DAY BY DAY, however, the West is hardening its attitude toward Russian maneuvers in the Middle East. The West is going to act. Among several open courses of action are:

Guarantees of present boundaries by Britain and the U.S. with strong warnings that aggression by either Israel or Egypt will not be tolerated.

Similar action by the United Nations, possibly with the stationing of U.N. troops in the demilitarized zone to repel all violators.

X-Ray Celebrates 60th Birthday Anniversary

WASHINGTON — A press dispatch from Denver reporting on President Eisenhower's hospital progress said:

"A careful examination, backed by cardiogram tracings of the President's heart action and an X-ray photograph of the chest showed no change to indicate complications. The X-ray showed that his heart had not been enlarged as the result of the moderate coronary thrombosis Sept. 24."

SIMILARLY, across the nation and around the world today, other victims of numerous ailments and maladies are being subjected to the wonders of the X-ray. Yet, until 60 years ago today, no one in the world had found a way for physicians actually to study the internal organs of the human body without subjecting the patient to the least discomfort or danger.

It was Nov. 8, 1895, just two years after the Chicago World's Fair, a couple of years before Queen Victoria's diamond jubilee, three years before the Maine was blown up in Havana's Harbor, that Prof. Wilhelm Conrad Roentgen made history and turned the medical clocks a century ahead.

According to papers and records made available to the American College of Radiology in Chicago, Roentgen had been working with unusual vigor for weeks prior to the historic Nov. 8.

Then, that evening, the obscure physicist who taught at Bavaria's University of Wurzburg led his wife Bertha to his basement home laboratory and demonstrated a mysterious ray he had produced which could pass through solid objects as though they were clear glass.

ROENTGEN'S MIRACLE was no accident. He knew he was on the trail of a new ray produced by electronic energies liberated in an electrically charged tube from which all the air had been pumped out. Other physicists had been experimenting with similar tubes to study the curious effects.

It was Roentgen, however, who became interested in the properties of the ray itself and discovered that it acted like ordinary light with the strange and important difference that it passed completely through solid objects which were opaque to ordinary light.

His experiment led him to prepare a sensitized plate which recorded the shadows produced by the X-ray and the first radiograph ever produced was of his wife's hand, showing the bones which blocked out some of the rays and were cast as shadows on the plate and her hand on the third finger.

IT WAS NOT until after the Christmas holidays that Roentgen made his first official report to a scientific body when he presented a paper "On a New Kind of Ray" at the University of Wurzburg. It was there that the motion was made that the ray which Roentgen labeled the "X" or unknown ray, should be called the "Roentgen Ray."

All kinds of fantastic stories began to circulate concerning the nature and capabilities of the X-ray. Many people who read the early press reports got the idea that Roentgen had discovered a kind of glass which used in spectacles, could enable the wearer to see right through doors, walls and clothing.

ONE LONDON FIRM, realizing that British women would be shocked at the mere thought of this, even went so far as to advertise "X-ray proof underclothing."

It would be interesting to know how heavy these undergarments were because Roentgen had already learned that only lead, the heaviest of metals, would block the passage of X-rays.

And so the world eventually learned that the X-ray would be used by men of science, not to peer through an individual, but to cast shadows upon a film which required an expert knowledge of anatomy and pathology to interpret.

Fans Riot After Soccer Team Ties; 100 Injured

NAPLES, Italy (AP) — A recount of bruised and bloody heads Monday set the number of injured in Sunday's soccer game riot here at 150.

Police riot squads fired guns over the heads of furious fans who attacked the referee and visitors from Bologna when a 3-3 tie. The tying goal was scored by Bologna on a penalty try awarded by the referee at the end of the game.

The injured included 34 policemen.

New Machine Can 'Look' Into 30 Feet of Solid Steel

WATERTOWN, Mass. (AP)—In a laboratory at the Army's big Watertown Arsenal you can see an experimental machine whose "children" may give America new war-making power.

In peacetime, the machines may cut the cost of things you buy and make life safer.

THESE MACHINES will be able to "look" through 30 feet of solid steel, according to scientists. Other machines something like these are being studied by scientists elsewhere in the hope they may seek out cancer hidden deep in the human body.

The parent machine, referred to as a "bread board" model because it's experimentally assembled, is called "Model 1 Ultrasonic Flaw Plotter." The word "ultrasonic" tells you that it does its "looking" with something more like sound waves than light waves. But their frequency — 250,000 to a million vibrations per second — can neither be heard nor felt by human sense organs.

AND UNLIKE X-rays or nuclear radiation, the ultrasonic waves can't hurt you.

Why will the offspring of Model 1 Ultrasonic Flaw Plotter increase the United States' war power? And why will they make for a better peacetime world?

Such machines can find flaws in steel and other materials at far greater depths than the most powerful X-rays — and faster — and cheaper.

Carleton H. Hastings, chief of the arsenal's Non-destructive Testing Branch, explains X-ray-type inspection with the powerful betatron can penetrate, at best, 15 to 20 inches of steel.

THE NEW ultrasonic machine, which has been under test for a year and a half, can do more than X-rays do—in one 20th of the time, Hastings says, also—the mechanism costs only a tenth of the price of X-ray equipment.

Since there are no dangerous radiations, the new machines need not be kept behind concrete-and-lead barriers.

Thus, they will increase not only the speed of inspection — which was a serious bottleneck in World War II mass production — but they'll also make possible inspection of vital items not inspected in the past.

THE MACHINE doesn't present, like most electronic "brains," a pattern which can be read only by a mathematician-physicist-engineer. On the contrary, it paints two clear illustrations: one of the shape of the flaw and one showing how deep it is.

The flaw can be "viewed" from different angles showing its three-dimensional shape and also, whether there is another flaw behind it.

60 PER CENT OF TRACTORS
Farmers in the United States use more than 60 per cent of the world's tractors.

UNIVERSITY CALENDAR

UNIVERSITY CALENDAR items are scheduled in the President's office, Old Capitol

Tuesday, Nov. 8
4:30 p.m. — University Faculty Council — House Chamber, Old Capitol.
6:30 p.m. — Triangle Club Picnic Supper — Memorial Union
8 p.m. — Royal Scots Guard Orchestra — Fieldhouse.

Wednesday, Nov. 9
8 p.m. — Civic Music Association, Gina Bachauer, Piano Recital—Macbride Hall.

Thursday, Nov. 10
12:30 p.m. — The University Club Luncheon—Bridge—University Club Rooms.
4 p.m. — Lecture: Dr. Sheila Sherlock—Medical Amphitheatre.

8 p.m. — A.A.U.P., "What's Wrong with Iowa's Tax System" by Prof. R. Johnson

Friday, Nov. 11
8-12 p.m. — Central Party Committee Fall Party—Main Lounge, Iowa Memorial Union.

Saturday, Nov. 12
6 p.m. — UWA Foreign Student Dinner — Wesley House.

Tuesday, Nov. 15
7:30 p.m. — Home Ec. Department Tea for Miss Whitehead — Iowa Memorial Union.

Wednesday, Nov. 16
8 p.m. — University Concert Course, Fernando Valenti, Harpsichord Recital — Main Lounge, Iowa Memorial Union.

(For information regarding dates beyond this schedule, see reservations in the office of the President, Old Capitol.)

GENERAL NOTICES

General Notices should be deposited with the editor of the editorial page of The Daily Iowan in the newsroom, Room 201, Communications Center. Notices must be submitted by 2 p.m. the day preceding first publication; THEY WILL NOT BE ACCEPTED BY PHONE, and must be typed or legibly written and signed by a responsible person. No General Notice will be published more than one week prior to the event. Notices of church or youth group meetings will not be published in the General Notices column unless an event takes place before Sunday morning. Church notices should be deposited with the Religious news editor of The Daily Iowan in the newsroom, Room 201, Communications Center not later than 2 p.m. Thursday for publication Saturday. The Daily Iowan reserves the right to edit all notices.

ALPHA DELTA SIGMA — Alpha Delta Sigma will hold its regular meeting Nov. 10 at 7:30 p.m. in the Communications Center Lounge. Bring all bills. Final plans for the retarded children's campaign will be discussed. All members must be present.

NEWMAN CLUB — The Newman discussion club will meet Nov. 10 at 7:45 p.m. The topic will be "The Spirit World" — a consideration of angels and devils.

ZOOLOGY SEMINAR — The Zoology Seminar will meet Nov. 11 at 4:30 p.m. in Room 201 ZB. The speaker: Dr. Theodore Winnick, Radiation Research Laboratory, SU. He will speak on "European Impressions — Scientific and Otherwise."

HILLEL SCHEDULE — Today, Newspaper Committee meeting at 8 p.m.; Nov. 9, Dramatic Group, 7:30 p.m.; Nov. 11, evening services at 7:30 p.m. at Hillel House.

COLLOQUIUM — The Physical Education Colloquium presents Dr. Herbert Spitzer, Professor of Education and the Director of the University Elementary School, on Nov. 9 at 3:30 p.m. in the Projection Room, Athletic Building, Fieldhouse. Dr. Spitzer will speak on "Physical Education and the Elementary School."

WRA CRAFT CLUB — The WRA Craft Club is open in Barlocks U.T.I. north of the Iowa Memorial Union on Tuesday evenings from 7 to 9 p.m. to anyone interested in making Christmas presents. Billboards, leather secretaries, or purses and gloves could be started and completed in the remaining meetings before Christmas vacation.

HOME ECONOMICS — A Home Economics club meeting will be held Nov. 9 in Room 203 Macbride Hall. The program will be "Opportunities in Journalism for Home Economics Majors."

FELLOWSHIP MEETING — There will be a meeting of the Iowa Christian Fellowship today at 7 p.m. in Conference Room of the Iowa Memorial Union. The program will be a panel discussion of dormitory bible studies. Everyone is cordially invited to attend.

WEEKEND RETREAT — The SU Chapter of the Inter-Varsity Christian Fellowship is having a retreat this weekend, Nov. 11-13 at Camp Wapsiee-Y in Central City, Iowa. For further information contact Jerry Nelson at x3764.

DAILY IOWAN EDITOR — An Editor for the Daily Iowan for the period beginning December 1, 1955, and ending May 31, 1956, will be chosen by the Board of Student Publications, Inc., Nov. 15. The applications must be turned in by 5 p.m., Nov. 9, in Room 205, Communications Center. The applications must include a letter from the registrar certifying good scholastic standing and stating the cumulative grade point average. Candidates must have had experience on the Iowan, must have demonstrated executive ability and must be in good scholastic standing at SU.

touring the U.S. for the first time in history. Tickets are available at the Iowa Memorial Union desk, Whetstone's and the Fieldhouse at \$1.50 for reserved bleacher seats and \$1 for general admission (balcony) seats.

UNIVERSITY CLUB — The University Club will entertain a luncheon bridge party Nov. 10 at 12:30 p.m. in the Club Rooms at the Memorial Union. Reservations may be made by calling Mrs. John Graham, 8-0798, Mrs. Leland Stillwell, 8-3230, Mrs. E. P. T. Tyndall, 8-1717 or Mrs. Lloyd Howell, 6308. Reservations **BABY-SITTING LEAGUE** — The University Cooperative Baby-Sitting League book will be in charge of Mrs. M. Levanthal from Nov. 1 to Nov. 14. Telephone her at 8-2817 for a sitter or for information about joining the group.

JAPANESE DINNER — The UWA Foreign Student Committee is sponsoring a dinner featuring Japanese food, Nov. 12 at 6 p.m., at Wesley House. Entertainment will follow the dinner. Tickets may be purchased for 75 cents at the Office of Student Affairs until 4 p.m., Nov. 11.

READING IMPROVEMENT — Students may register in Room 35 Old Army Temporary Nov. 7-11 from 8:30 a.m. to 3 p.m. Enrollment will be limited. Classes will meet Nov. 14 through Dec. 16. A 9:30 a.m. class will meet Tuesday through Friday; 3:30 and 4:30 p.m. classes will meet Monday through Thursday. Students already registered should confirm their reservations before 3 p.m., Nov. 11.

SPANISH POET — The Departments of Romance Languages and Creative Writing present Jaime Ferran, noted Spanish poet, who will speak in the Recreational Area Conference Room at the Memorial Union today at 4 p.m. His topic will be "Contemporary Spanish Poetry."

FRESHMAN Y — The next meeting of Freshman Y will be held today at 4:30 p.m. in the River Room of the Iowa Memorial Union. Marvin from Tower's Beauty Salon will present a program on hair styling.

BILLY MITCHELL — There will be a regular business meeting of the Billy Mitchell Squadron today at 7:30 p.m. in Room 121A Schaeffer Hall. Please note the change of the meeting place. This is due to the University function which will be held at the Armory. All pledges and actives are asked to attend. Flight plans will be arranged.

AUTUMN NOCTURNE — Tickets for "Autumn Nocturne," the fall party Nov. 11 sponsored by Central Party Committee are now on sale at the Union desk at \$2.25 per couple. I.D. cards must be presented. Ray Anthony and his band will play for the dance to be held from 8 to 12 p.m. in the Main Lounge of the Union.

FLYING CLUB — The Iowa Flying Club will meet Nov. 9 in the Recreation Area Conference Room at 7:30 p.m. in the Fieldhouse.

Plan Japanese Dinner

A JAPANESE DINNER will be sponsored by the UWA Foreign Student Committee Saturday at Wesley House. Left, Nancy Baker, A2, Davenport, publicity chairman, makes dinner preparations with Japanese committee members George Tokuhata, Akira Hoshino, and Mrs. Sumiko Tokuhata.

'Sukiyaki' To Be Served at UWA Foreign Student Dinner

The University Women's Association Foreign Student Committee will sponsor a Japanese dinner Saturday at 6 p.m. at Wesley House. Tickets are 75 cents per person and may be purchased at the Office of Student Affairs until Friday.

Chicago, will be shown following the dinner. They are: "Komon," "Holliday in Japan" and "Shopping for the Future." An exhibit of Japanese clothing and handicraft will also be shown.

The Japanese committee members are: Mr. and Mrs. George Tokuhata, Matsue, Japan; Tomoji Aoto, G. Tokyo, Japan; Dr. Rikuro Sasaki, resident physician

Dance Tickets

Only 500 tickets remain to be sold for "Autumn Nocturne," Al Waxenberg, A4, Davenport, president of Central Party Committee, said Monday night. Ray Anthony and his band will play at the annual fall dance Friday at Iowa Memorial Union. Tickets are on sale at the Information Desk of the Union. Price is \$3.25 per couple.

City Women Voters To Discuss National Issues This Week

The Iowa City League of Women Voters will hold the second round of unit discussions this week. The topic of all discussion groups will be "National Issues." The city-wide group will meet at 9:15 a.m. today at the home of Mrs. Glen Clasen, 319 Bloomington.

The southeast group will meet at 8 p.m. Wednesday at the home of Mrs. Alfred Castaneda, 1324 Franklin. Mrs. Morton Hammer will lead the discussion.

The east group will also meet at 8 p.m. Thursday, at the home of Mrs. Richard Popkin, 510 Oakland Ave. Co-leaders of the discussion will be Mrs. David Gold and Mrs. Max Bardenstein.

To Wed in December

Miss Phelva Berge

Mr. and Mrs. E. B. Berge, Bode, announce the engagement of their daughter, Phelva Eileen, to James A. Smith, son of Mr. and Mrs. Arlington E. Smith, Mason City. Miss Berge is a laboratory technician at St. Joseph Mercy Hospital in Mason City. Mr. Smith is a freshman in the College of Liberal Arts. The couple plans to be married Dec. 18.

Greek Pianist To Open Civic Music Season

Gina Bachauer, Greek pianist, will open the 10th season of the Civic Music Association Wednesday, at 8 p.m. in Macbride Auditorium. Mrs. Bachauer has made several tours of the U.S. since her debut here five years ago. She has played nearly 200 recitals and concerts in the United States in the last three years, many of which were return engagements.

Mrs. George Perret, Mrs. Paul Olson, Mrs. William Porter, C. J. Posey, Mrs. Charles L. Robbins, J. Bradley Rust, Mrs. C. E. Schrock, Dr. Albert J. Soucek, Mrs. Norvell Stagg, Mrs. Herald Stark, Dr. Leland Stillwell, Tom Turner, Mrs. R. F. Williams, J. Richard Wilmet and Mrs. Emil Witschi.

Student-Faculty Coffee Hour Set

The second Student-Faculty Coffee Hour, sponsored by University Women's Association, will be held Thursday from 4 to 5 p.m. in the University Library Lounge. The coffee hour will honor the library staff and faculty members of the religion, history and home economics departments. All students are invited to attend.

Chairman of the coffee-hour committee is Phyllis Fischer, A4, Elgin, Ill. Other members are: Glynis Bock, A2, Garner; Whiff Kirby, A4, Sioux Falls, S.D.; Marilyn Baxter, A2, Rockford, Ill.; Bonita Davis, A4, Corning; and Ed Cohn, A4, Waterloo.

Officers of the Iowa City Music Association are: Charles Eble, president; Mrs. E. Else, secretary; Ben E. Summerwill, treasurer. Vice-presidents are Mrs. Gustav Bergmann, Mrs. Fred Blodi, Mrs. Tom Turner, Alexander Kern, Mrs. I. A. Rankin, Mrs. Albert Luper, and John Simms.

Directors are: Mrs. Chester Alger, Mrs. Arthur Benton, Mrs. M. C. Boyer, Mrs. Dorothy Driscoll, Mrs. George Frohweh, Dayton Howe, Glenn Jablowski, Mrs. Allyn Lemme, R. J. Miller.

Future Teachers Jolted at Meeting

DES MOINES (AP)—About 250 teenagers, in Des Moines to look over the teaching profession, Monday were told they might be "too nice to teach." The suggestion was only one of a number of jolts handed out to central Iowa high school seniors, here for Drake University's annual Prospective Teachers Day, by Lawrence Flaum, Drake education professor.

In the profession today there are a lot of "battle-axes, sour-pusses, and old bags," and there isn't room for any more, Flaum said. Those in his audience who have the courage to become teachers, he continued, might someday find themselves caked in by four walls in big buildings "with 40 lions and you the only Daniel."

STICKY WAFFLES If your waffles stick it may be because you have allowed your waffle iron to become overheated, because you have cooled the iron with the grids closed, or because you have started to bake the waffles before the iron was at the correct temperature.

Miss Morehouse Weds G. Weaver

Miss Joan Morehouse, daughter of Mr. and Mrs. Paul Morehouse, Waterloo, became the bride of G. Richard Weaver, son of Mrs. George Weaver, Akron, Pa., Oct. 29 at the First Lutheran Church, Waterloo.

Mrs. Weaver is a graduate of the College of Nursing at SUI. Mr. Weaver is a graduate of Pennsylvania State College, and is a member of Delta Chi social fraternity.

The couple will make their home in Pennsylvania.

University Club Luncheon Thursday

University Club will hold a luncheon-bridge Thursday at 12:30 p.m. in the Club Rooms of Iowa Memorial Union.

Mrs. Lloyd Howell is luncheon chairman, and Mrs. Paul Sayre and Mrs. Fritz Rohrlieh are in charge of bridge party arrangements.

For reservations call luncheon committee members Mrs. John Graham, 8-0798; Mrs. Leland Stilwell, 8-3230; Mrs. E. P. T. Tyndall, 8-1717; or Mrs. Howell, 6308. Reservations will close Tuesday, Nov. 8.

Jo Gillette Enrolls in Cleveland University

Among new students who entered Western Reserve University in Cleveland, O., for the winter semester is Jo Gillette, daughter of Prof. and Mrs. Arnold S. Gillette, 4 Rowland Court.

She is enrolled as a freshman in Flora Stone Mather College, women's undergraduate division. A graduate of University High School, Miss Gillette plans to major in dramatics.

Edward S. Rose

Membership Drive Set by Town Men

The Town Men Association Monday announced plans for a membership drive, starting Thursday and ending Dec. 10. Potentially the strongest group on campus, Town Men has only 42 paid members out of an estimated 2,000 eligible men.

Leslie A. Willig, assistant counselor to men, said that the organization has been handicapped by the difficulty of reaching students spread all over Iowa City.

Any independent student living off campus is eligible for membership in Town Men, including married men, Willig said. There is a membership fee of \$1 a semester, payable at any regular meeting.

The Town Men Association meets the first and third Mondays of each month in the Recreational Conference Room of the Iowa Memorial Union. One of these meetings is held jointly with Town Women every month.

A dinner for Town Men and Women was held Monday, followed by slides of Europe. Later in the month the groups will get together for a hayride.

The Town Men officers are: Tom Robinson, A4, Iowa City, president; Larry Spillers, P2, Stuart, vice-president; John Weaver, E2, Des Moines, secretary; and Bruce Novak, E2, Cedar Rapids, treasurer.

ATTENTION ENGINEERING GRADUATES

Do you have your passport to a successful engineering career? It's available now at your placement office.

Ask for CONSUMERS POWER COMPANY'S booklet entitled OPPORTUNITY AWAITS YOU, describing the engineering positions at CONSUMERS POWER COMPANY. A representative will be on campus

November 10

to interview electrical, mechanical and civil engineering graduates.

AYE... YOU'LL SAVE AND SAVE AT DAVIS!

THRIFTY HOUSEHOLD CLEANING SPECIALS!

Now... with holidays ahead... is the time to have your household items cleaned! At Davis Cleaners, you'll not only save during this special sale, but you'll get Jet-Action Penetrol Cleaning at the same low price!

Stores at 111 S. Clinton 1 S. Dubuque

Yardley brings you a super-wetting Shaving Foam—London style

Are you looking for a finer pressure shave? This distinguished product—conceived in England and made in America—has a new super-wetting action which wets the beard in a trice. The foam washes off the face instantly (or rub it in!) and leaves a most refreshing after-feeling. Normal shaving time is cut by half. At your campus store, \$1. Makers and distributors for U.S.A., Yardley of London, Inc., New York.

SUI Items

ORDER OF ARTUS

The SUI Order of Artus will hold a meeting at noon today in the middle alcove, Iowa Memorial Union. Prof. Frank Kennedy, of the SUI College of Law, will speak on "Stormy Weather for Fair Trade."

KAPPA KAPPA GAMMA

Kappa Kappa Gamma social sorority recently initiated Jeri Bright, A1, Des Moines, and Sandra Seibert, A3, Waterloo.

KAPPA ALPHA THETA

Kappa Alpha Theta social sorority recently held its annual alumnae party. Mrs. Eugene Gilmore, wife of a former president of SUI, was presented with a Kappa Alpha Theta 50 Year Award.

DELTA SIGMA PI

Delta Sigma Pi commerce fraternity will hold a meeting for actives and pledges Thursday at 8 p.m. in the Pentacrest Room, Iowa Memorial Union.

SIGMA ALPHA EPSILON

Sigma Alpha Epsilon social fraternity recently elected Derk Simons, A1, La Grange, Ill., president of the pledge class. Other pledge officers are: Joe Gossett, A1, Madrid, vice-president; Bob Steele, A1, Cedar Rapids, secretary-treasurer, and Dave Herring, A1, Creston, social chairman.

LEFTOVER POTATOES

Mix diced leftover boiled potatoes with diced ham. Arrange in a pie plate, pour a little cream over and top with grated cheese. Heat under the broiler until hot through and the top is bubbly and lightly browned.

On Campus with Max Shulman

(Author of "Barefoot Boy With Cheek," etc.)

SCHULTZ IS A MANY SPLENDORED THING

Beppo Schultz, boulevardier, raconteur, connoisseur, sportsman, bon vivant, hail fellow well met—in short, typical American college man—smokes today's new Philip Morris Cigarettes. "Why do you smoke today's new Philip Morris Cigarettes, hey?" a friend recently asked Beppo Schultz.

"I smoke today's new Philip Morris Cigarettes," replied Beppo, looking up from his 2.9 litre L-head Hotchkiss drive double overhead camshaft British sports car, "because they are new."

"New?" said the friend. "What do you mean—new?"

"I mean modern—up-to-date—designed for today's easier, breezier living," said Beppo.

"Like this 2.9 litre L-head Hotchkiss drive double overhead camshaft British sports car?" asked the friend.

"Exactly," said Beppo.

"She's a beauty," said the friend, looking admiringly at the car. "How long have you had her?"

"It's a male," said Beppo.

"Sorry," said the friend. "How long have you had him?"

"About a year," said Beppo.

"Have you done a lot of work on him?" asked the friend.

"Oh, have I not!" cried Beppo. "I have replaced the pushrods and rockers with a Rootes-type supercharger. I have replaced the torque with a synchromesh. I have replaced the tachometer with a double side draft carburetor."

"Gracious!" exclaimed the friend.

"I have replaced the hood with a bonnet," said Beppo.

"Land o' Goshen!" exclaimed the friend.

"I have replaced the gasoline with petrol," said Beppo.

"Crim-a-menties!" said the friend.

"And I have put gloves in the glove compartment," said Beppo.

My, you have been the busy one!" said the friend. "You must be exhausted."

"Maybe a trifle," said Beppo with a brave little smile.

"Do you know what I do when I'm tired?" asked the friend.

"Light a Philip Morris?" Beppo ventured.

"Oh, pshaw, you guessed!" said the friend, pouting.

"But it was easy!" cried Beppo, laughing slyly. "When the eyelids droop and the musculature sags and the psyche is depleted, what is more natural than to perk up with today's Philip-Morris in the red, white and gold package?"

"A bright new smoke in a bright new pack!" proclaimed the friend, his young eyes glistening with tears.

"Changed to keep pace with today's changing world!" declared Beppo, whirling his arms in concentric circles. "A gentler, more relaxing cigarette for a sunnier age, an age of greater leisure and broader vistas and more beckoning horizons!"

Now, tired but happy, Beppo and his friend lit Philip Morris and smoked for a time in deep, silent contentment. At length the friend spoke. "Yes, sir," he said, "he certainly is a beauty."

"You mean my 2.9 litre L-head Hotchkiss drive double overhead camshaft British sports car?" asked Beppo.

"Yes," said the friend. "How fast will he go?"

"Well, I don't rightly know," said Beppo. "I can't find the starter."

The makers of Philip Morris, who bring you this column, assure you that whether you're in a sleek new sports car or the old family sedan, your best driving companion is new, gentle Philip Morris.

Physically Fit Hawks Have Light Workout

Behind the Sports Desk

With FRED MILLER

Last Saturday Coach Evashevski pulled his magic box onto the football field and astonished most everyone with a new bag of tricks as his team dumped Minnesota and gained possession of Floyd of Rosedale, the bronze pig.

Probably the newest trick was the passing of Eddie Vincent, a romping, cutting, long-yard gaining back from Steubenville, Ohio. Last year Eddie won Big Ten honors by capturing the conference rushing title. If he had started passing sooner this season, he might have gained considerable yardage for his total offense record.

Back in high school playing for the "Big Red" in Ohio, Eddie was a small (90-pound) quarterback in his freshman year who was looking for a chance to make good. That year he was left out of the team photograph as he was unable to stretch tall enough to be seen by the camera lens.

Seven years later he stands 5-11, a gain of seven inches, and weighs 170 pounds. He was first among ground gainers for the Hawkeyes, and now, following the Minnesota game, has ousted quarterback Jerry Reichow from that position on the 1955 squad.

VINCENT NOT ONLY excels in the offensive department, but also is a standout on defense. On the right side of the line at the halfback post, Eddie has been a threat to any opposing back who has tried to skirt the end. On pass defense, Vincent has held his own, and his feet-fee have enabled him to stop ends who have gained that extra step.

In all, I think it would be fair to name Vincent the "Iron man" of the week for his standout play against Minnesota and the other teams. Eddie's strength was hampered a little Saturday when he was knocked unconscious and had to be carried from the field, but his fighting spirit kept him sharp enough to trot from the field and receive due praise with the rest of the seniors.

I WAS ALSO impressed by Eddie when he told a Des Moines Register reporter that he could not remember what had happened in the game Saturday. Impressed may not be the correct word, but I think Vincent typifies a coaches dream of an ideal halfback for this reason.

Eddie was putting the team glory ahead of his personal glory, and that is when somebody has to praise the player as a real team worker and not necessarily as an individual standout. It can not be overlooked, however, that Vincent was a standout Saturday, even if he didn't remember.

He scored two of Iowa's four touchdowns, passed to End Jim Gibbons for the third, and picked up 36 yards to place Iowa in a strategic position in the third quarter. It was after this play that he was taken from the field, but his work had been done, and Evashevski had a suitable replacement in Collins (Mike) Hagler.

With the Hawks in good physical condition and only two games remaining, Evashevski probably will come up with more tricks from his magic box to put the Hawks back in the national limelight.

Cramming for Exams?

Fight "Book Fatigue" Safely
Your doctor will tell you—a NoDoz Awakener is safe as an average cup of hot, black coffee. Take a NoDoz Awakener when you cram for that exam... or when mid-afternoon brings on those "3 o'clock cobwebs." You'll find NoDoz gives you a lift without a letdown... helps you snap back to normal and fight fatigue safely!

SAFE AS COFFEE

Evy Holds Skull Talks; Subs Drill

A physically fit Iowa football team—the two platoons that played against Minnesota—unlimbered its muscles in a brief workout Monday.

Only the reserve teams were pads and stayed out for the scrimmage, while the first two teams retired to the locker room for a "skull" session in preparations for Saturday's game with Ohio State in Columbus.

The game against Ohio State, the Big Ten conference leaders, is the last conference game for the Hawkeyes. A year ago against the Buckeyes, Iowa failed to push across the winning touchdown in the closing minutes of the game. Iowa lost, 20-14, and probably will seek revenge Saturday.

Statistics released Monday show that Iowa has scored 16 of its 21 touchdowns on marches of more than 50 yards, including the long ones of 77 and 62 yards against Michigan, 76 and 75 against Purdue, and 78 and 68 against UCLA. Iowa marched 80, 83 and 73 against Minnesota last Saturday for three of its four TD's.

Archie Kodros, Iowa scout, brought back a glowing report about Ohio State, whom he has seen in action the last two weekends.

Like Minnesota, Kodros said, the Buckeyes are essentially a running team. "They are a well-balanced and hard-charging team."

"Halfback Howard (Hopalong) Cassidy is a sensational runner," Kodros reported. "He is very dangerous."

Against Indiana last Saturday, Cassidy contributed 80 yards to

BIG TEN STANDINGS			
	W	L	T

Illinois	2	3	0
Indiana	1	3	0
Minnesota	1	4	0
Northwestern	0	5	0

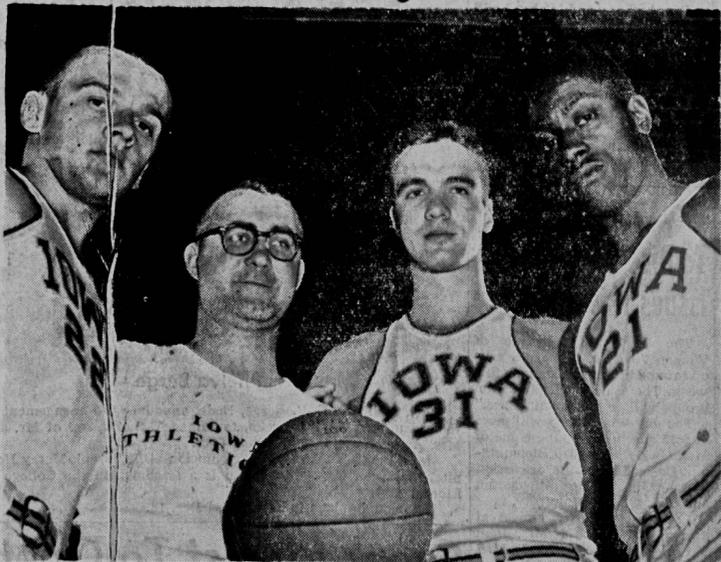

one 85-yard scoring drive, besides scoring two touchdowns.

"He can also throw from his running plays," the Iowa scout said. "But quarterback Frank Elwood is their passer. They haven't thrown much this year, but they have a good percentage of completions and we know that Ohio State can take to the air."

Unlike Minnesota, the Buckeyes have "reserve strength. Their second group is nearly as strong as their first," Kodros said.

Last Saturday, Iowa unveiled a new passer in the person of Eddie Vincent and rolled over Minnesota, 26-0, to regain pos-

New College Tri-

IOWA'S THREE BASKETBALL CAPTAINS and their Coach Bucky O'Connor pose for The Daily Iowan photographer during a practice session. For the first time on Iowa's basketball team, three men were elected as tri-captains of the team. Left to right are Bill Seaberg, O'Connor, Bill Logan, and Carl Cain. The cagers open their season against Nebraska here Dec. 3. The game will be televised.

session of Floyd or Rosedale, the bronze trophy for the traditional match.

Minnesota won the toss and kicked to Iowa in the end zone and play started on the Iowa 20-yard line. In a series of 15 plays, the Hawkeyes marched 80 yards downfield and scored their first touchdown with 8:19 remaining in the first period.

The march was climaxed when quarterback Jerry Reichow handed off to Vincent on a Statue of Liberty play, and the Iowa halfback passed to end Jim Gibbons for an 18-yard touchdown. End Jim Freeman's attempt for the point was good, and Iowa led, 7-0.

Fumble Costly
In the second period, Minnesota halfback Ken Bombardier fumbled on his own 18 and guard Dick Deasy recovered for Iowa. In four plays Iowa moved to its second touchdown, when Reichow pitched out to Vincent on an end sweep from nine yards out. Freeman's kick was blocked.

In the same quarter, Reichow moved the Hawkeyes from their own 17-yard line in eight plays

STATISTICS		
	Iowa	Minn.
First downs	17	11

Minnesota	0	0
Iowa: Touchdowns, Gibbons, Vincent 2, Ploen. Extra points, Freeman 2.		

for the third Iowa touchdown. With 1:30 left in the half, Vincent plunged over from the one-yard line for his second and the team's third touchdown. Freeman's kick was partially blocked and went astray, but Iowa had a 19-0 lead at halftime.

Vincent Injured
Iowa kept Minnesota bottled up in the third period and took possession with 4:05 left in the quarter. Vincent, picked up 36 yards to the Minnesota 37-yard line, was hit hard, and had to be carried from the field.

Six plays later, quarterback Ken Ploen faked a pass, cut around left end and back to the right side to score Iowa's last touchdown from 25 yards out. Freeman's boot was good, and the Hawkeyes held a 26-0 lead from then through the fourth quarter.

Following the game, the Hawkeyes stormed the Minnesota locker room to gain possession of the trophy, but found Floyd on the Gopher bench, and then headed for their own dressing room.

Vincent Takes Over As Rushing Leader

Right halfback Eddie Vincent has jumped into the lead among Iowa rushers with 338 yards and an average of 5.1 yards per carry. He ousted quarterback Jerry Reichow who has led for several weeks. Reichow has 330 yards and a 4.5 average. Third is fullback Roger Wiegmann with 264 yards and a 3.6 average.

Iowa Gains Tie For 20th in Poll

CHICAGO (AP) — Mark down the upsets — the season's first defeat for Michigan and ties for Georgia Tech and Navy — and that leaves Oklahoma and Maryland in splendid isolation at the top of the college football pack. Records in parentheses:

Iowa gained a tie with Miami of Florida for 20th place in the poll. It is the second time this season that Iowa has been among the leaders.

The top teams, with win-loss

1. Oklahoma (7-0)	2466
2. Maryland (8-0)	2415
3. Michigan State (6-1)	2051
4. UCLA (7-1)	1902
5. Notre Dame (6-1)	1726
6. West Virginia (7-0)	1609
7. Michigan (6-1)	979
8. Texas Christian (6-1)	531
9. Texas A & M (6-1)	448
10. Ohio State (5-2)	439
11. Georgia Tech (6-1)	392
12. Auburn (5-1)	263
13. Navy (5-1)	207
14. Mississippi (7-5)—tied with	
15. Miami (O.) (7-0)	121
16. Illinois (4-3)	35
17. Pittsburgh (5-3)	31
18. Duke (4-2)—tied with	
19. Mississippi State (6-2)	28
20. Iowa (5-3) tied with	
21. Miami (Fla.) (3-3)	23

No Soft Touch, Says Buckeye Coach

COLUMBUS, Ohio (AP) — "I'll be a whale of a game" Saturday and no soft touch for Ohio State's Buckeyes. That's how Ohio State coaches view the weekend football tilt with visiting Iowa.

Buckeye Coach Woody Hayes said at a weekly press luncheon Monday that he's going to "lighten up on practice work" this week. Not, he adds, because he's so full of confidence but because he senses a "certain tiredness" among his players.

That "tiredness" plus some injuries might upset the apple cart for Ohio. All-American Howard Cassidy has a sore back, tackle Moose Machinsky a bruised thigh and right halfback Jimmy Backfield Coach Gene Fekete, who scouted Iowa in its last three games, reported the Hawks have good speed and their potential has been "camouflaged by injuries, fumbles, penalties and imperfections."

Condensed From Associated Press Dispatches

GIOVANELLI WINS—Danny Giovannelli of Brooklyn racked up his second victory in a week Monday night by scoring a unanimous decision over Danny Jo Perez of New York in a savagely fought telecast 10-round bout at St. Nicholas Arena. Giovannelli was substituting for injured Chico Vijar who was scheduled to fight Perez.

HIGH SCORERS—The Chicago Bears have rung up at least 31 points in each of their last four games. Sunday's 52-point total was the highest of any club this season and matched Detroit's 52 against Green Bay in 1952, the most any club has ever scored on the Packers. The Bears added another record as they did not punt once during the game, the third time in National Football league this has happened.

RETURN FINES—The Ottawa, Ont., Canada, Rough Rider football club has relented and returned the \$200 fines levied earlier in the Big Four season against 20 players. They had been fined following a succession of several losses. The club's final season record was three wins and nine losses.

Playoffs Set for I-M Volleyball

Two championship games in the intramural volleyball league are scheduled for today. Phi Epsilon Kappa meets Alpha Kappa Kappa for the professional fraternity championship and Upper C meets Lower C for the Quadrangle championship.

Four intramural football games in the social fraternity league will be played today to determine the quarter-final winners.

INTRAMURAL RESULTS

TOUCH FOOTBALL
South Quad II 13, Lower D 9
Lower B over West Tower, 15-13 (Ties are decided in a sudden death overtime. Lower B gained the most yardage on four plays.)
Upper A over Upper B, 19-19 (Upper A gained most yardage in overtime.)

VOLLEYBALL
Lower B over South Tower, forfeit

TODAY'S GAMES
TOUCH FOOTBALL
(Quarterfinals)
Social Fraternity
Delta Tau Delta vs. Sigma Phi Epsilon
Sigma Alpha Epsilon vs. Delta Chi
Phi Kappa Psi vs. Phi Delta Theta
Phi Gamma Delta vs. Phi Kappa Sigma

VOLLEYBALL
(Championships)
Phi Epsilon Kappa vs. Alpha Kappa Kappa
Upper C vs. Lower B

Bowling

Jim Clewell bowled a 251 to take high individual honors in the Men's Scratch bowling league Monday night at the Iowa Memorial Union. High series went to Richard Henningfield with 564.

High team game was the Kings with 695, and high team series was also the Kings with 1914.

MEN'S SCRATCH

	W	L
Jokers	18	6
Aces	12	11
Kings	13	11
Eights	11	13
Deuces	4	20

D. Donahue with 201 and Ruth Kozler with 143 took high individual honors in the Mixed Greek Bowling league Sunday afternoon at the Iowa Memorial Union. The same pair took high individual series with 504 and 403, respectively.

High team game went to Pi Kappa-Sigma Delta Tau with 608. The same mixed team won high team series with 1654.

MIXED GREEK

	W	L
Sigma Delta Tau-Pi Kappa	16	0
Alpha Delta Pi-Delta Upsilon	8	9
Pi Beta Phi-Sigma Nu	7	9
Alpha Chi Omega-Theta Xi	7	9
Delta Zeta-Sigma Phi Epsilon	6	10
Zeta Tau Alpha-Delta Theta Pi	4	8

Harriers Point Toward Big Ten Meet, Nov. 18

Cross country Coach Francis X. Cretzmeier expressed some skepticism Monday when commenting about the Big Ten cross country meet in Chicago Nov. 18.

He said that Michigan State has an "awfully tough team" and that Illinois has "a good team, too."

Iowa will have six representatives at the Big Ten meet including Captain Ted Wheeler, Charles (Deacon) Jones, Wayne Everman, Murry Keatinge, Ira Dunsworth and Dick Allen.

The Harriers won their third straight duel meet of the season last Saturday when they beat Minnesota, 22-33. Jones finished first for the third time, with Wheeler taking second place for the third time.

Jones' time on the four-mile course run on the old Finkbine Golf Course was 20:31.6. Wheeler's time was 20:58. Everman placed third with 21:15.

Other finishers for Iowa were Keatinge in seventh, Dunsworth, ninth and Allen, 11th.

Cretz said Monday that the team "did pretty well against Minnesota," and that "Wayne (Everman) is running better than last year."

The Iowa coach said he is still looking for a good fifth man in either Dunsworth or Allen. Dunsworth has beaten Allen in the last two meets, after Allen out-distanced him in the opening meet.

Iowa has an open date this weekend, but Cretz said the team may go to Chicago to run in the Central AAU meet over a five-mile course. Last met of the season for cross country is Nov. 28, the NCAA meet in East Lansing, Mich.

(Daily Iowan Photo by Roy Walker) Deacon Jones Wins Three Meets

One-Armed Youth Is Star Athlete

SPERRY, Okla. (AP)—Donnie McCarthy, a 19-year-old senior at Sperry High School, plays three sports and plays well in each of them. He's one of the star backs on the football team, a swift baseball outfielder and an up-and-coming basketball player.

Donnie has only one good arm, however.

His football coach, Wayne Rowden, rates Donnie high as a gridiron performer. The coach recalled that in one game Donnie intercepted two passes and returned one 28 yards for a touchdown.

Pass Receiver
"Last year on extra point conversions we used him several times as a pass receiver," the coach said. "Our opponents wouldn't guard him and he caught several for us."

Donnie is not at all self-conscious about his elbow-length right arm with which he was born.

In baseball, the youngster whips the bat around with surprising speed. A veteran photographer who tried to take pictures of his swing complained the action from McCarthy's highly developed left arm was too fast.

Good Outfielder
Catching a fly ball in the outfield, Donnie snares the ball with his glove and places both under his stub then he frees his hand, grasps the ball and throws. "He has an exceptionally strong and accurate arm," his coach said.

He's the passer on the football team and is dexterous enough to use in intricate handoff plays.

As a sophomore, Donnie enrolled in an automobile driving course and made the only perfect score in the course. His manual arts instructor describes him as adept with tools and says he "turns out projects of better quality than a lot of other students."

Cold Weather Halts Cyclones' Practice
AMES (AP)—Because of below freezing temperatures Monday, Coach Vince DiFrancesca called off a workout for his Iowa State College football squad which Saturday faces Oklahoma, the team ranked No. 1 in the nation.

Instead the Cyclones attended movies of last week's 10-7 loss to Nebraska and movies and scouting reports on the Sooners. DiFrancesca said he hopes Donn Lorenzen, Gary Lutz and Brooks Young, all nursing leg or foot ailments, will be in shape for the Oklahoma game. Otherwise, he'll have only one left halfback, sophomore Jack Hansen.

Mills Resigns as Orioles' President

BALTIMORE (AP)—Clarence W. Miles who recently said he would rather be president of the Baltimore Orioles than be U.S. senator—a post to which he is believed to aspire—resigned Monday as Orioles' president.

Miles denied that his political future had anything to do with his resignation and said the "impelling reason" in his decision to quit "is my deep-rooted conviction that the services of an experienced baseball executive brought to Baltimore at this time would greatly improve the chances of the Orioles for rapid advancement."

The surprise announcement by the 58-year-old lawyer, who played the major role in bringing major league baseball back to Baltimore in 1953 after a 50-year absence, said his resignation would be effective Nov. 18.

Miles' resignation was believed to be the first of several changes scheduled for the seventh-place Orioles top brass.

Miles, a prominent Maryland Democrat, has long been mentioned as a possible candidate for the Senate.

Wilkinson Says ISC Game Vital

NORMAN, Okla. (AP)—Coach Bud Wilkinson displayed no outward emotion Monday when told that his Oklahoma Sooners had been voted the nation's top football team in the Associated Press poll.

It was just the opposite for the Sooner squad. After a 35 minute workout, the griders trooped into the dressing room and were confronted with a huge sign which read:

"Sooners first in AP poll."

This was the signal for an uproarious yell which possibly could have been heard all over the campus. The boys swatted each other on the back and general jubilation dominated the scene.

"Nobody ever wins a race when its only three-quarters over," Wilkinson said. "We've still got three games to play and the important one is coming up Saturday against Iowa State."

Today You'll Decide

Are you and your children going to be proud of your progressive city—or apologetic and dissatisfied with the town that turned its back on progress?

Drug Used for Centuries Before 'Discovery'

SUI Scientists Study Indian Heart Plant

By KAY CROSS

The root of a shrub from India which Mahatma Gandhi chewed for its pacifying effects is today helping patients suffering from coronary artery disease, an SUI scientist says.

Dr. Bernard I. Lewis, of the College of Medicine, said that a crude form of the plant, called Rauwolfia serpentina, had been used for medicinal purposes for centuries before gaining international notice.

Dr. Lewis is one of a group of SUI scientists who gave an initial report on the drug's effects on high blood pressure at the annual meeting of the American Medical Association last June in Atlantic City, N.J.

Dr. Lewis explains that an extract of the plant was used in 16th century India to reduce fevers, as a remedy for snake bites, and in the treatment of various diarrheas.

Used in India

Rauwolfia serpentina was also used by Indian medicine men for certain mental conditions characterized by states of extreme agitation and mania.

Now the drug is available with a doctor's prescription for only about nine cents a tablet.

The first modern report on Rauwolfia came in 1933 when Indian doctors discovered that an extract of the plant was effective in lowering blood pressure, Dr. Lewis says.

It was not until 1955 that the plant was studied and reported on in the United States by Dr. Robert Wilkins of Boston University. Dr. Wilkins used it to reduce high blood pressure.

Work began in the Department of Internal Medicine at SUI shortly after Dr. Wilkins' report was published.

Eases Tension

The SUI representatives to the AMA meeting told of beneficial effects on high blood pressure and that the drug seemed to be effective in some patients with headaches, of the tension and migraine type.

Benefit was also obtained by patients with coronary heart disease and angina pectoris (a specific type of chest pain that occurs in people with this type of heart disease upon unusual exertion or excitement).

Persons with so-called psychosomatic conditions, characterized by states of anxiety and tension with various bodily complaints, also reacted favorably to the drug, Dr. Lewis noted.

The AHA report was based on findings from a study of 15 persons who were known to have had angina pectoris for an average of 23 months before being seen by the SUI doctors.

'Significant Improvement'

"Fourteen of the fifteen subjects had significantly improved with many able to return to full-time employment," Lewis said.

"About one-half of them showed definite evidence of improvements in clinical tests."

The degree of improvement that these outpatients achieved varied, Dr. Lewis explains. Some were helped mildly, some moderately and some remarkably.

One of the 15 patients became worse.

For this reason Lewis emphasizes the need for extreme care in prescribing the drug and choosing the patients it is to be used upon.

Undue Optimism?

"It may be that studies on larger groups will reveal that persons receiving the drug are made worse rather than better. Hence, there is no basis for any undue optimism at this point," Lewis said.

Lewis cautions that the studies relate to one specific type of heart disease and not to heart disease in general.

The research, conducted by Doctors Lewis, Robert Lubin, Lewis January and John Wild was begun in 1953 and continued for an average period of one year on each patient.

Local Consumption

Although a comparatively new drug Rauwolfia has gained widespread usage. According to Prof. Henry L. Dean, of the Botany Department, "A considerable number of people in Iowa City have been taking Rauwolfia and expect to continue taking it indefinitely."

On future expectations for the drug, Dr. Lewis says: "Whereas the drug does appear to be useful in treatment of various conditions, nevertheless it is our belief that its major importance will be one of an investigative tool that may enable us to learn more about the functions of the central nervous system and its control of the internal organs."

FROM THE CRUDE ROOTS, left, of an ancient Indian plant called Rauwolfia serpentina is manufactured a drug that is helping patients suffering from heart ailments. The finished product on the right costs as little as nine cents a tablet. SUI Hospitals use an extract of the plant source known as Rauwloid which is produced by Riker Laboratories in Los Angeles.

Seek Bandit Who Robbed Illinois Bank

HEBRON, Ind. (AP) — A bank robber and his blonde girl friend who held a bank cashier and his wife prisoner overnight, robbed the Citizens Bank of Hebron of \$3,000 and then kidnaped the cashier were sought in Chicago Monday night.

The couple fled from Hebron in a car belonging to Robert McGinley, 60, the bank cashier, forcing him to accompany them. McGinley escaped from the car near Frankfort, Ill., after the couple had eluded a police net in Indiana.

The car was found Monday afternoon abandoned in Matteson, Ill., about 25 miles south of Chicago and 8 miles east of the point where McGinley leaped from the car as it slowed for a truck.

Rapid commuter rail service is available from Matteson into Chicago.

Indiana state police, sheriff's officers and FBI men converged on Hebron after the bandits drove out of town about 8 a.m. Monday. The search moved to the Chicago area after McGinley escaped his captors.

Forced Into Home
McGinley said the man and woman, both armed with short-barreled revolvers, came to his home about 6 p.m. Sunday and forced him to let them in.

Between 9 and 10 p.m., they said, they took him and his wife, Ruth, in the McGinley car to a country road northeast of Hebron and parked until early morning.

Then they drove back to the McGinley home, where McGinley was ordered to dress for work.

The woman bandit took Mrs. McGinley to the basement and tied her up, staying with her in the house while her companion took McGinley to the bank about 7:30 a.m.

The time lock on the bank vault was set for 9 a.m. On learning this, the man forced McGinley to open a safe which contained about \$3,000.

Employees Enter
A teller, William Mullens, and two women employees, entered the bank as the robber was stuffing the money into a black satchel. They were held at bay with a gun as the robber left with McGinley.

The robber took McGinley back to McGinley's house and picked up his woman companion. They left Mrs. McGinley tied up in the basement and headed west out of town.

McGinley Escapes
McGinley jumped from the car near Frankfort when it slowed to avoid a truck. He said they made no attempt to recapture him.

Mrs. McGinley, also unhurt, was freed from her bonds a short time after the robbery alarm was given by Mullens.

McGinley described the couple as young, the man about 28 and the woman about 20.

Hebron, a town of 1,010, is about 45 miles southeast of Chicago.

Elections in 12 States For Off-Year Posts

NEW YORK (AP) — Off-year elections today in 12 states feature contests for governor of Kentucky and mayor of Philadelphia, and an Ohio referendum to make operative a supplemental lay off pay plan for the auto industry.

Unless the Democratic candidates suffer unexpected defeats in the Kentucky and Philadelphia voting, political leaders see little in the scattered state and local elections to provide a weather-vane for the 1956 national campaigning. However, they will be looking for clues.

A referendum of national interest is one in Kentucky to lower the minimum voting age from 21 to 18.

Only one congressional seat is at stake. One Michigan district will hold Democratic and Republican primaries to nominate candidates to fill the seat left vacant by the death of Rep. John D. Dingell (D). The final choice will be made Dec. 13.

City Elections
City elections, many of them non-partisan, will be held in Boston, Cleveland, Indianapolis and dozens of smaller cities in Arkansas, Connecticut, Indiana, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, Utah and Wyoming.

In Kentucky, voters will decide whether Democrat A. B. (Happy) Chandler, governor in 1935-39, will make good his comeback attempt. Chandler, former senator and baseball commissioner, is opposed by Republican Edwin R. Denney, making his first statewide race, and two other candidates.

Chandler Favored
Although Chandler is favored to win, Denney hopes to pick up many Democratic votes as a result of a heated primary which split Democratic ranks. Chandler won that race against the combined opposition of Gov. Lawrence Wetherby's state organization and Senators Alben Barkley and Earle Clements, who backed Bert T. Combs.

However, Wetherby and the senators have said they are supporting Chandler.

Intensive grass roots campaigning by both sides is expected to bring out 70 to 75 per cent of the slightly less than one million eligible voters in Philadelphia's mayoral election. Richardson Dilworth, veteran Democratic campaigner, is opposing Republican W. Thacher Longstreth, 35-year-old advertising executive. In the 1951 election, Democrats captured the post, ending 67 years of Republican rule.

Referendum
The Ohio referendum proposal would meet the main condition of putting into effect next June 1 the auto industry agreement under which employers would augment state unemployment compensation payments to give a jobless worker 60 to 65 per cent of his usual take-home pay.

Under the agreements, rulings permitting the dual payment must be obtained from states in which two-thirds of a company's employees work. Many states have banned unemployment compensation payments while a worker still draws funds from his employer.

Enough states have already approved simultaneous private and unemployment compensation payments so that if Ohio voters approve the condition will have been met, at least as far as the 700,000 auto workers are concerned, including those at Ford and General Motors.

MORE HONEYMOONERS
NIAGARA FALLS, Ont. (AP) — Newlyweds seem to be taking more interest in Niagara Falls now than is usual in the fall. A total of 1,483 honeymoon certificates were issued to visitors in September and October, against 1,122 in the same two months last year. June is still tops, with 940 certificates this year.

Prospective Teachers Get Future Clues

Every community can offer its young people several ways of finding out whether they'd like teaching and would do well in front of a classroom, some 250 prospective teachers were told here Monday.

For instance, clues to teaching interest and success lie in hometown Sunday schools, Boy and Girl Scout organizations and playgrounds, Prof. Herbert Spitzer of the SUI College of Education, pointed out. His audience included high school students from 35 communities observing Prospective Teachers Day, the first day of American Education Week, at SUI.

Speaking to the young visitors on "Opportunities in Teaching," Frances Camp, director of the SUI educational placement office, noted several trends which have appeared in the search for talent through her office.

Salary Schedule

One trend, she said, is away from the notion that it is a promotion in status and salary to move from elementary to high school teaching. More and more communities are using a single salary schedule from kindergarten to the 12th grade, Miss Camp pointed out.

Another trend, she continued, is that communities are making broader and greater efforts both to attract and hold teachers. Civic organizations are joining professional and lay school persons in making their localities a better place to live as well as to teach, she said.

World Wide

And in recent years, opportunities for Iowa teachers have become worldwide. For instance, representatives of the U.S. Army come to Iowa each spring seeking experienced teachers for schools for the dependents of Army personnel abroad, Miss Camp said.

The teen-age visitors also heard an SUI senior present her points of view on teacher education at SUI. "Elementary teaching should be based on more than just a love of small children," Beatrice Dierks of Iowa City observed.

"To prepare for teaching at any level, one must first become well educated and then learn specific ways to teach," Miss Dierks said, noting that coursework in the SUI College of Liberal Arts is devised to provide basic fundamentals of human knowledge.

Police Report Three Thefts In Iowa City

An SUI fraternity house and a parked car were the scenes of thefts over the weekend, Iowa City police reported Monday.

The Delta Sigma Delta house, 108 River St., was broken into early Sunday.

William Lindquist, D4, Orion, Ill., reported someone entered his room sometime between midnight and 1:30 a.m. and took his billfold, cuff links and a tie clasp.

Russell Howard, a guest of Lindquist, reported the theft of a brown tweed coat, Nick Daskolas, another fraternity member, told police small articles of jewelry were taken from his room.

Persons who took a suitcase and clothing from a car parked in the Veterans Hospital parking lot during the Iowa-Minnesota game also used the car for a party.

Police said they found three cans of beer stuffed under the front seat, and bobby pins scattered about the front seat.

William Krause, 303 N. Riverside Drive, said the clothing and suitcase taken were valued at \$240. He was attending the football game during the time the thefts occurred.

Nothing was found missing when police investigated a break-in at the Hy-Vee food store, 227 Kirkland Ave.

Detectives said the front door of the store had been pried open sometime Sunday night to gain entrance.

Grand Jury To Hear Till Kidnap Case Today

GREENWOOD, Miss. (AP)—The Leflore County grand jury, working through a heavy docket, delayed until today consideration of kidnap charges against two white men in the Till case.

Witnesses scheduled to testify Monday were told to return this morning.

The kidnap charges grew out of the disappearance of Emmett Louis Till, 14-year-old Chicago Negro boy.

A 20-man, all-white grand jury began work Monday morning with the Till case its hottest business.

Action on the kidnap charges won't be known until the grand jury makes its report, probably Wednesday.

The jury will decide whether half brothers Roy Bryant and John W. Milam will stand trial on a charge of kidnaping the Negro boy who disappeared while vacationing in Mississippi.

Mose Wright, 64-year-old

sharecropper, who says he fled to Chicago for safety, waited in the Leflore County sheriff's office to testify. Till was abducted from Wright's farm shack in nearby Money last Aug. 28.

With Wright was Willie Reed, 18-year-old farm hand, who also left for Chicago after the trial in nearby Sumner six weeks ago when a jury found Bryant and Milam innocent of murdering Till.

Wright is the state's star witness. At the murder trial of the two white men, he identified both as the men who came to his farm shack about 2:30 a.m. and took Till away.

Reed, a farm hand on a plantation run by Milam's brother, Leslie Milam, testified that he saw Till with Milam several hours after Milam and Bryant claimed they released the Negro boy.

Capitol Lights Dark As Students See Stars

By ELDON LIBBY

One night a week the lights that illuminate the dome of old Capitol are turned off. The man-made lights are darkened every Thursday so a small group of persons in the dome of the SUI Physics building can see the distant "lights" of the universe.

The group is a class in astronomy taught by Prof. Hugh Johnson, of the department of Mathematics.

Johnson has also held "open house" at the dome for University high school students, a conference of mathematics teachers, and for SUI students.

Moon Is Bright

In the last few weeks, the moon has been the best object to observe. If the moon is full, there is too much reflected light, says Johnson, so the half moon of recent weeks has been viewed with success. Through the telescope in the dome some of the craters on the moon appear to be the size of the moon as seen by the naked eye. The moon is upside down as seen in the refractor telescope, but it doesn't make much difference to the viewer.

Prof. Johnson has also pointed the telescope at the Andromeda Galaxy, a mass of billions of stars. To the naked eye it appears as a faint star. Through the telescope, it appears as part of the "milky way" looks to the naked eye.

Eight Eyepieces

The telescope has a set of eight eyepieces which give it the power of from 30 to 400 magnifications. It has a finder telescope on it which has the power of a good set of binoculars. A motor attached to the telescope can rotate it once every 24 hours, so that when watching the moon, the telescope can follow its course.

The dome is a metal frame covered with a tarred wooden cover coated with aluminum. The whole dome rotates on an axis and has a slit two feet wide for the telescope.

The original observatory was located on the site of President Hancher's home some time before 1900. In 1900, it was moved to the northwest corner of Old Dental building, and in 1925, the present dome was constructed southwest of Quadrangle dormitory.

It was moved to its present place in 1942. At that time the telescope being used in the dome was stored, and an eleven inch reflector telescope was used on a temporary basis on the roof of the physics building.

Then last spring, a mounting purchased a few years ago, was constructed containing the lens of the old telescope. A new floor was built to hold the mounting.

Display Room

Prof. Johnson has made a display room under the telescope. In it he has photos of different stars, the moon, comets, and Nebulae (clouds of gas), astronomy books opened on shelves and a case containing a meteorite, a tektite (a glassy stone some astronomers believe to be of moon origin), and some lichens on a rock (a low form of plant life believed to exist on Mars).

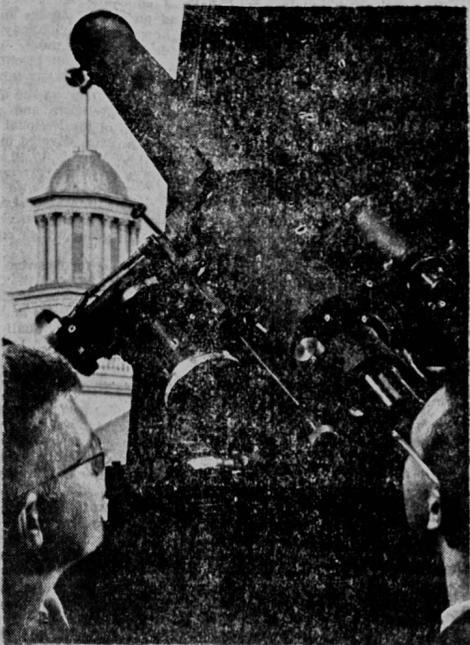

Prof. Johnson received his degrees at the University of Chicago and is a research associate of Yerkes observatory there. After getting his doctor's degree in 1953, he replaced SUI's retiring astronomer, Prof. C. C. Wylie. Johnson spent last summer at Yerkes and MacDonal Observatory at Fort Davis, Texas, doing research on galactic nebulae.

Prof. Johnson said he is going to hold another "open house" for the general public later in the semester.

Ike Sends Peace Wishes To Russian President

DENVER (AP) — President Eisenhower Monday sent a personal message to the President of the Soviet Union extending "best wishes of the people of the United States for progress toward a permanent and just peace."

The message went to K. Voroshilov, whose formal title is chairman of the Presidium of the Supreme Soviet of the U.S.S.R., on the occasion of the 38th anniversary of the October 1917 Bolshevik Revolution which marked the founding of the Soviet Union.

PROF. HUGH M. JOHNSON, left, of the SUI Department of Mathematics and Astronomy and John E. Fisher, Iowa City graduate student, try out the new five-inch telescope atop the Physics Building. The University had been without an observatory for some 13 years when these new facilities were completed recently.

Scots—

(Continued from page 1)

ence for most Americans, but a familiar sight to SUI students who have watched the SUI Scottish Highlanders perform.

Sunset Ceremony

The "Sunset Ceremony" will close out the two-hour performance. Time Magazine last week described the finale as one which would "dew the eyes of even the un-kilted."

As the band finishes its role in the stirring finale, a spotlight will shine upon a lone piper in the distance, playing the haunting strains of the "Highland Cradle Song."

"This is probably the most colorful musical organization ever to appear on the Iowa campus," said Earl E. Harper, director of the Iowa Memorial Union and Concert Course, whose recollection of concert appearances encompasses past performances of the Don Cossack Chorus, Fred Waring and His Pennsylvanians, Xavier Cugat and Spike Jones.

"Tickets for the SUI appearance are only \$1 and \$1.50," he said. "Madison Square Garden was sold out for the Guards' appearance at prices running as high as \$6.60 per seat."

New Yorkers liked the Scots Guards so well that a repeat performance has been scheduled for Dec. 5, just before the Guards' return to England, where they will resume their duties as household troops to Queen Elizabeth.

The guards' appearance on the campus is being sponsored by the Scottish Highlanders, the University Band and Concert Course.

Vote—

(Continued from page 1)

councilmen, who at present receive nothing.

Promise Improvements

Both sides have promised better police and fire protection, more recreational facilities, more offstreet parking areas, and the encouragement of more industry to come to Iowa City.

The NPPL candidates have made other promises.

They have advocated hiring operators for city ambulances, which are at present handled by the city police. They have also called for an end to the graduated scale of parking violations, a remodeling of city hall, and a relocation of the city fire station.

The voting for the council candidates will be done on one small ballot.

Annexation Ballot

On the other, which is about the size of a newspaper page, city voters will decide on the annexation of eight areas of land to the city.

City voters will have to know the names of the candidates and the areas to be voted upon when they step into the booth.

No label will appear with the names of the candidates. Six sets of ballots have been printed, listing the candidates in six different orders.

And the annexation ballots have been printed (due to state law) in such exacting terms that the average voter will probably have difficulty understanding them.

Says Atoms Can Heat Entire City

WASHINGTON (AP) — It's possible to heat a city now by atomic energy, Atomic Energy Commissioner Willard F. Libby said Monday.

But there are difficulties involved. "The reactors are potentially dangerous," he said. "One of our problems is the possibility of explosion, although the chance is very slight."

But atomic electric power will be practical "certainly" within 10 years, Libby told the Women's National Democratic Club.

Mother Commits Suicide

After Daughter Is Wed CHICAGO (AP) — Mrs. Elizabeth Kowalski, 40, was found hanging early Monday, a few hours after her daughter, Marlene, 20, was married.

"She didn't like to see Marlene leave home," her husband, Frank, 45, a steel worker, told police. Kowalski found the body of his wife hanging from torn sheets in Marlene's room about two hours after they had returned from the wedding and Marlene had left on her honeymoon.

Study No-Force Pact For U.S., Red China

GENEVA (AP) — Western diplomats said Monday the United States and Red China are considering carefully issuance of a declaration in which Red China would renounce the threat or use of force in its relations with other states.

The wording under consideration would be in line with the UN Charter provisions pledging members to refrain from the threat or use of force. As a UN member the United States is already so pledged. Red China is not in the United Nations.

U.S. officials declined any comment on the negotiations being conducted here between Ambassador U. Alexis Johnson and Ambassador Wang Ping-nan of Red China. The United States and Red China do not have diplomatic relations.

Five Drown As Car Skids Into River

MINNEAPOLIS (AP) — A car skidded across an icy highway into the Minnesota River Monday and turned into a watery tomb for five Minneapolis women en route home from a dancing party.

The five, friends of long standing, drowned in the frigid waters after their car plunged down a 20-foot embankment.

A sixth occupant, Donna Mae Wells, 24, Minneapolis, fought free from the submerged car and was guided to safety by four St. Paul youths who were first to arrive at the scene.

William Mathias, 24, St. Paul, jumped into the icy water fully clothed, and a friend, David Swanson, 24, St. Paul, stripped to his shorts and followed to make rescue attempts.

Another rescuer, John Settemgreen, 22, a freshman at St. Thomas College, stripped off his clothing and dove four times into

the dark waters. Each time he rose with one of the victims in his arms, but an hour's efforts by volunteers on shore failed to revive them. The fifth victim was brought to the surface when the car was pulled from the water.

Dead are Margaret Miskowicz, 20; her sister, Delores, 28; Ruth Ann Pulkrabek, 21; Carol Ann Krasick, 21, and Ann Mairs, 26, owner of the car.

The mishap happened moments after the women left the River Road Club near here at 1 a.m. closing time.

Witnesses said the driver signaled for a turn as the car left the parking lot. When it reached the highway, the auto appeared to skid on the icy road, swerved down the bank and toppled end over end into eight feet of water.

Hoodlum Sought In Bomb Slaying

PHOENIX, Ariz. (AP) — Sheriff L. C. Boies said Monday night he has sent out a pickup order on an underworld bomb assassination expert who is reported to have been in Phoenix when retired racketeer Willie Bioff was killed by a gangster-style explosion.

Bioff, one-time Hollywood labor boss, was killed when he stepped on the starter of his pickup truck Friday and dynamite wired to the electrical system exploded.

Boies said he wants to question the man about a tip that he flew into Phoenix 16 hours before Bioff was killed and left by plane a few hours after.

ELECTRICAL, MECHANICAL, AERONAUTICAL, PHYSICS, CIVIL
find yourself
in the most diversified aircraft company in the industry
GOODYEAR AIRCRAFT CORPORATION
The Engineering Departments in Akron, Ohio, and Litchfield Park, Arizona, areas are engaged in all phases of guided missiles, guidance systems and the development of analog computers. Specialists in microwave, servomechanism, circuitry, etc. are highly important to these operations. Other departments require electronic, electromechanical, mechanical, structural, propulsion, and aeronautical development engineers. Many opportunities exist in these departments which cater to the entire aircraft industry in the fields of simulated trainers, lighter-than-air, radar, radomes, airplane wheels and brakes, fuel cells, airframes, fuselages, canopies, laminates, large aperture antennas for ground-based and air-borne radar, and many other projects.

Opportunities Are Unlimited At Goodyear Aircraft where new ultra-modern facilities are being built in preparation for expansion of our activities. Here is where you can get general or specialized experience in keeping with your capabilities and future plans.

News Specialists Blast Suppression

WASHINGTON (AP) — Some of the nation's top news specialists told Congress Monday that information about government activities is being suppressed or "managed" to an extent that seriously impairs the public's right to know what is going on.

This was the unanimous verdict of a dozen editors, publishers, writers and others who gave informal testimony as a House Government Operations subcommittee opened an inquiry into freedom of information.

Chairman John Moss (D-Calif.) promised "a long, hard look at the amount of information available from the executive agencies for both the public and its elected representatives."

Government Tendency

James B. Reston, chief of the Washington bureau of The New York Times, told the committee news suppression is not the only problem — that "a growing tendency" by government officials to slant or "manage" news may in the long run do more harm.

For example, Reston said, a "considerable effort" was made by United States officials at the Big Four conference in Geneva last summer to give "an optimistic flavor" to conference developments — although later the word went out that "it might be a good idea to frown a little."

Columnist Joseph Alsop Jr. declared Washington newsmen are subject to reprisals including federal investigation when they publish, against the wishes of some officials, news they consider of "life or death importance" to the American people.

More Difficult

Alsop said it has become "infinitely more difficult" in recent years to get information from critical agencies even when the information is well known to unfriendly foreign governments.

"If it goes much farther," Alsop said, "the facts won't be got at all."

Basically, all those who gave their views contended too many officials misuse various "security" classifications to prevent publication of news which actually would not endanger national security.

Going beyond that, Richard W. Slocum, president of the American Newspaper Publishers Assn., said the Justice Department showed at least a "possible hostile attitude" by filing an anti-trust action against ANPA.

Willing To Change

Slocum, executive vice-president of the Philadelphia Bulletin, said Atty. Gen. Herbert Brownell filed the suit in spite of assurances from the publishers that they would willingly change any practices which the Justice Department regarded as improper.

"We didn't know," Slocum said, "whether it was a political decision to cuff the press or someone's desire to have a hand on the press."

J. R. Wiggins, chairman of the Freedom of Information Committee of the American Society of Newspaper Editors, voiced concern over an "infectious and contagious" spreading of secretiveness in official circles — particularly, he said, in the military establishment.

Safety and Freedom

Wiggins, executive editor of the Washington Post and Times Herald, said the United States can have both safety and freedom, adding:

"Unless both objectives are kept constantly in mind, there is danger that in our frantic scramble for absolute secrecy and complete safety we may destroy our own liberty."

Clark Mollenhoff of the Des Moines Register and Minneapolis Star and Tribune asserted both Democratic and Republican administrations have seen secrecy attempts backfire.

He gave as an example the gradual disclosure of how the Dixon-Yates power project was developed under the Eisenhower administration, and he said too many agencies have made a secrecy "umbrella" out of President Eisenhower's 1954 letter banning testimony in the McCarthy-Army hearings about a meeting of administration officials.

GOOD NEIGHBORS

WANHAM, Alta. (AP) — Otto Lipinski didn't have to worry long about his ripening 125-acre crop while he was in a hospital. Twelve neighboring farmers, using seven combines, moved in and harvested it for him.

A Kitnaper, Maybe?

THE SHEEPISH LOOK in Puddin's eye is quite in order: Puddin is a kitnaper. At least she took the kittens from a fellow Washingtonian, a cat named Calico Queen, and won't give them back. As a matter of fact, Calico Queen can't even get into the house. Puddin is taking care of the kittens, and Calico Queen is devoting herself to three adolescent daughters by a previous marriage.

U. of Miami Student Joyrides on Bulldozer

CORAL GABLES, Fla. (AP) — A bulldozer with a University of Miami student at the controls cut a series of capers Monday and had police literally on the jump.

When it was over, Francis Meldin Osborn, 26, was booked on charges of using the machine without the owner's consent, resisting arrest, destroying property, attempted assault with a deadly weapon, (the bulldozer), endangering life, limb and property and disturbing the peace.

Osborn said he operated a bulldozer for the Seabees from 1946 to 1951 and "just wanted to see if I could still run one."

Patrolman A. E. Raimonde said he was surprised to see a bulldozer at work on a highway-widening job at 1:45 a.m. He approached it, shone his flashlight on the operator, but the big machine went right on with its job.

Since he was in plain clothes in an unmarked police car, Raimonde radioed for uniformed officers. A car soon arrived, but got out of the way fast when the bulldozer headed straight for it. Three more police cars raced to the scene. Ten officers ringed the bulldozer. Patrolman Robert De Korte walked toward the thundering machine but beat a rapid retreat when it turned toward him, missing by inches.

Chicago Gunman in Wild Scene at Trial

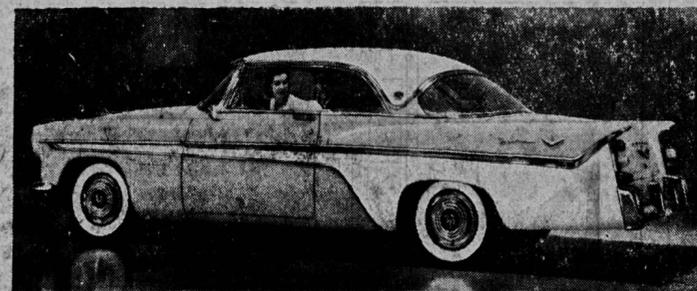

CHICAGO (AP) — Gunman Richard Carpenter screamed for help Monday as he went on trial for the subway station murder of a city detective.

He also kicked a bailiff, collapsed on the courtroom floor and moaned incoherently — antics prosecutors interpreted as an act to set the stage for an expected plea of innocent by reason of insanity. A state psychiatrist has declared him sane.

Prosecutors and defense lawyers picked four of the jurors who will decide whether Carpenter, 26, shot to death Detective William J. Murphy, 34, on the Roosevelt road subway platform Aug. 15.

Murphy's slaying set off one of the biggest manhunts in Chicago history. Carpenter was captured three days later, pleading for mercy, next door to an apartment house where he held a family of four captive for 23 hours.

Carpenter is being tried only for the killing of the police detective.

Hall Differs With Senator On Policies

WASHINGTON (AP) — GOP National Chairman Leonard W. Hall said Monday the Democratic-controlled Congress faces "repudiation" at the 1956 polls unless it corrects what he called its "miserable failure" to back President Eisenhower's domestic program.

But Sen. Hubert Humphrey (D-Minn.) replied that "the Democratic Congress will support its own program." He added that "it isn't the Democrats who will be repudiated at the polls."

Writing in the Republican National Committee's publication "Straight from the Shoulder," Hall said Eisenhower's 1954 prediction that a Democratic majority in Congress would "cause a legislative stalemate" had proved true.

Program "Ditched" — Despite wholehearted support from his own party, his legislative program was ditched, Hall declared.

Eisenhower said during the 1954 campaign that election of a Democratic Congress might bring on a "cold war" between the parties. He later acknowledged he might have gone a little too far in this prediction.

Hall acknowledged that there had been bipartisan support on foreign policy and most of the Eisenhower defense program. But, he said, when the last session closed nine of the President's 13 "must" bills lay in House and Senate pigeonholes and wastebaskets.

Names Omissions — Hall said the Democrats failed to act on Eisenhower proposals for highway building, school construction, health reinsurance, water resources, Hawaiian statehood, votes for 18-year-olds, aid for low income farmers, postal rate increases, atomic peace ship, immigration law changes, health insurance for government employees, executive pay raises, military survivors benefits, custom simplification and Taft-Hartley Act amendments.

Humphrey said he doesn't think the Democratic Congress is going to "rubber stamp" Eisenhower domestic proposals.

University Briefs

* * * * *
"TIP-O-WIT" PARTY — More than 330 SUI students who ranked in the upper 20 per cent of students taking the September entrance examinations were honored at a "Tip-O-Wit" party in the Union Wednesday. The party was sponsored by Alpha Lambda Delta and Phi Eta Sigma, national scholastic honorary fraternities for freshmen.

SCHOLARSHIP PLAQUES — Muscatine and DeWitt High Schools will be presented with Phi Beta Kappa scholarship plaques at assemblies today at DeWitt and Thursday at Muscatine. Prof. Rhodes Dunlap, president of the SUI Phi Beta Kappa chapter and M. L. Huit, SUI counselor of men will make the awards. Plaques are given annually to high schools whose students show high scholastic ability as SUI freshmen. Plaques are also to be awarded at Oskaloosa and Victor.

MARINE COMMISSIONS — Students interested in obtaining Marine Corps commissions will be interviewed by Capt. C. R. Kennington of the U.S. Marine Corps Procurement Office, Nov. 15-17. Interviews will be held in the east lobby of the Iowa Memorial Union.

PHARMACY WIVES — Pharmacy Student Wives association will meet at the home of Mrs. Gail Weise, 222 Golfview Thursday at 8 p.m. Members should bring knitting and darning work. All wives of pharmacy students are invited.

Auto Assembly Sets Production Record

DETROIT (AP) — The nation's auto assembly plants moved Monday into the highest production ground ever attained. They passed the total output mark of all 1950 and roared on to what promises to be an eight million car year.

The 1950 record toppled when this year's assemblies passed the 6,665,863 total. It went down sooner than most industry authorities expected. Even as recently as six months ago some experts were predicting a leveling off of assembly activities.

The industry's record-smashing performance this year stems largely from General Motors-Ford battle and Chrysler's tremendous comeback.

Hunt Answer To Religious Instruction

ST. LOUIS (AP) — Churchmen and educators Monday tried to find an answer to the question of how much religion may be introduced into public school classrooms without teaching the beliefs of a particular faith.

The 200 attending the Conference on Religion and Public Education of the National Council of Churches devoted much of their time Monday to 10 section meetings or study groups. Roman Catholic and Jewish groups are participating as observers at the three-day conference of the Protestant group which ends today.

Hope for Answer — Thomas H. West of the Church Federation of Greater Chicago, said there is hope for an answer to the problem "eventually if not soon."

Rabbi Arthur Gilbert, New York, of the Anti-Defamation League of the B'nai B'rith, said the league "would not oppose the study of plans for teaching about religion as a curriculum subject in the public schools."

Fundamental Truths — The Rev. James E. Hoflich, superintendent of the Roman Catholic archdiocesan schools of St. Louis, read from two Catholic statements taking the position there are seven fundamental truths that American children should be taught in the public schools.

Father Hoflich cited these as: 1. existence of God; 2. man's condition as creature dependent on his creator; 3. God, the source of the inalienable rights of man; 4. the fundamental purpose of our laws—the protection of these God-given rights; 5. the basic equality of men under God; 6. the dignity of man and sacredness of human life; and 7. man's responsibility to the moral law as formulated in the Ten Commandments.

City Record

BIRTHS — Mr. and Mrs. Floyd Gould, 612 S. Clinton St., a boy, Friday, at Mercy Hospital.
Mr. and Mrs. Ralph Murphy, R.R. 5, a boy Saturday, at Mercy Hospital.
