Britain's Labor Chief, Clement Attlee, Quits

LONDON (AP) — Clement R. Attlee resigned as leader of Britain's Labor party and Queen Elizabeth II promptly made him an earl.

The father of Britain's welfare state resigned at a party caucus Wednesday. The Queen announced the earldom early today. The peerage is the traditional reward for long and outstanding political service.

His resignation triggered a bitter power struggle between leftist Aneurin Bevan and party moderates for his party mantle.

Attlee, 73, stepped down because of age and uncertain health after 20 years in the post, six of them as Prime Minister in crisis-ridden times after World War II.

Follows Churchill

The bespectacled, pipe-smoking Socialist retired only seven months after Sir Winston Churchill, his friend and rival for political dominance, into private life.

Within minutes after Attlee announced his retirement, leftist Bevan began openly canvassing for support in balloting which began Friday to name a new leader.

Most politicians, however, said the odds favored victory for Hugh Gaitskell, 49, a Socialist intellectual, or Attlee's lieutenant, Herbert Morrison, 67, a professional politician. Both are moderates.

Gaitskell Leads

The consensus appeared to be that Gaitskell has the edge.

The outcome, which may be known by next Wednesday, was seen as likely to determine whether Labor retains its present policy of intimate friendship with the United States in foreign affairs or swings toward the independent line advocated by Bevan. A Bevanite victory would be sure to mean Labor demands for sweeping new nationalization schemes and government controls.

Labor remains a strong challenger to the government of Prime Minister Eden, and the victor in the present struggle for power in the party could emerge as the country's next Prime Minister. Elections now are planned for in 1959.

Glum After Defeat

Disheartened after the Conservatives dealt Labor a decisive defeat in the May national elections, Attlee indicated several months ago that he planned to make way for younger leadership.

As Prime Minister from 1945 to 1951 Attlee commanded a government that nationalized railroads, coal mines, the gas and electricity industries, public transport and the Bank of England, and introduced a nationwide socialized medicine scheme.

His regime reshaped the centuries-old British Empire, granting freedom to the former prized colonies of India, Ceylon and Burma and setting up the new state of Pakistan.

Welfare Chief Tells Of School Aid Plan

NEW YORK, N.Y. (AP) — A cabinet member said Wednesday that the Eisenhower administration would soon send to Congress a program to "help build thousands of schools" across the nation.

Welfare Secretary Marion B. Folsom outlined government intentions on the school problem at the founding convention of the AFL-CIO. He said that it will be possible for the federal government to help build schools without endangering the freedom of local school systems.

He said that the program would be based upon the needs of the individual states although all states would be aided. He termed the measure a major expansion and improvement in education under the education office.

But Folsom counseled that we should carefully avoid tax increases which undermine or weaken support for the system in the future. "We should remember," he said, "there is a limit to the social security taxes that people may be willing to pay to support the program in the future."

Clement Attlee
Hands in Resignation

The Weather

Cloudy
&
Colder

The 42 degree high which came to Iowa City Wednesday will prove to be fickle and move on to other areas today, the weatherman predicted.

Readings below normal are expected for today. In the Iowa City area the high will be near 30 degrees.

The low in Iowa City Wednesday was 14 degrees.

UN Unit Approves 18 for Membership

25 Killed in German Blast

FRANKFURT, Germany (AP) — A mysterious explosion at dawn Wednesday demolished a new five-story apartment building in mid-town Frankfurt, killing 25 of its 32 occupants. Seven of the dead were children.

German police reported they were investigating the possibility political assassins were responsible for the blast which trapped sleeping tenants.

Among the dead was the Slovak-born architect-owner of the building, Mathias Stenzel, 58, and police were attempting to learn whether he had political enemies in Slovak exile circles.

Aerial Bomb

Other possibilities investigated by police were that a dud aerial bomb from World War II exploded under the building into which 12 families moved two weeks ago; that gas seeped from a city main into the structure, or that a tenant had unlawfully tried to tap the gas main.

The explosion, at 5:40 a.m., was the worst disaster in West Germany's vast postwar building program. All that was left of the structure was a 20-foot high mound of broken concrete and splintered wood.

German police and firemen and U.S. military police and engineers copped down into the wreckage under floodlights with bare hands and picks and shovels until the arrival of motorized U.S. Army cranes.

7 Rescued

Seven persons — three men, two women and two children — were rescued from the wreckage. Hearing faint cries, rescuers uncovered a 12-year-old pajama-clad boy who for six hours had huddled beneath a supported piece of concrete.

Another pajama-clad survivor, a man, found shelter beneath an overturned bathtub. A 28-year-old woman was wedged between two blocks of concrete which had formed protection.

Investigating the possibility of a political motive behind the tragedy, police recalled that it was from Frankfurt that an assassin's bomb was mailed last July to Matti Cernak, chairman of the anti-Communist National Council of Slovakia.

The parcel blew Cernak to bits when he started to open it in a Munich post office. A German woman standing nearby was killed and 14 other persons injured. The Prague government had attacked Cernak as a spy and a traitor. His killer has never been caught.

CHRISTMAS BASKETS

About 40 bushel baskets will be placed in Iowa City grocery stores today by the Junior Chamber of Commerce to collect food for the distribution to needy families at Christmas.

Shoppers are asked to donate food when they visit the stores.

Inquest Held In Entombed Wife Mystery

CASPER, Wyo. (AP) — A coroner's jury was told Wednesday that Mrs. Barbara Alexander, 27, whose body was dug out of a concrete tomb, suffered several skull fractures which could have caused her death.

Mrs. Alexander's body was uncovered Tuesday when police chipped through 4 1/2 inches of concrete floor and 6 inches of ground in the basement of her home here.

Dr. Donald L. Becker, pathologist, said his examination showed two large fractures were on the right temple and base of the woman's skull.

Wife Testifies

Also testifying at Wednesday's inquest was Mrs. Rose Alexander, first and present wife of Barbara's husband, James, 48. She said Barbara accidentally tripped at her home July 18, 1953, and caused a six-foot pile of bricks and concrete blocks to fall on her.

Rose told the coroner's jury she buried the woman's body in the basement two days later and that Alexander had covered up the grave a month later when he laid the concrete for the basement floor. She did not bring out whether Alexander knew the woman was dead.

Highlights Given

Rose's testimony, presented in an affidavit submitted by her attorney, included these highlights:

She had gone to the Alexander home to request supplies for the children who had been living with her and was asked by Barbara to go to the side door of the house, which was above a 4-to-5 foot excavation.

Barbara walked along the catwalk leading to the door, tripped and fell into the excavation. Then loose building blocks and bricks fell on her. She said she tried to help Barbara but when she saw blood she became frightened and ran home.

Husband Returns

Two days later her former husband came to her home and explained that Barbara had apparently left home and asked Rose to take care of the three children living with them.

Rose testified that the same evening she carried Barbara's body from the excavated pit to the basement, dug a grave in the sand and gravel base and buried Barbara. She said to "add religious significance" she placed a crudely shaped wooden cross in the dead woman's hands.

Although Barbara vanished in July, 1953 her disappearance, for reasons not explained, was not reported by Alexander until "about nine months later," the county attorney said.

Navy Test Plane Crashes, 1 Killed

WASHINGTON (AP) — The SeaMaster, a multijet attack seaplane built by Glenn L. Martin Co. for the Navy, plunged into Chesapeake Bay Wednesday while on a test flight, killing at least one crewman.

A test crew of four was aboard. The Navy reported that three were civilian employees of the company and one was a Navy man.

Four hours after the crash near the mouth of the Potomac River, the Navy received a report that one body was recovered. The crew of a tugboat had reported seeing one parachute.

The Navy said a worker at a tower in the air control system for the Patuxent Naval Base, north of Point Lookout, Md., reported seeing a midair explosion. He estimated the plane was then at a height of 5,000 feet.

The SeaMaster had had over 50 hours in the air without incident, and had been acclaimed by the Navy as promising remarkable developments in air-sea power. It made its first flight July 14.

The plane was the first experimental model. A second SeaMaster has been built.

DIES ON TRAIN

A man identified from a letter in his pocket as Asa D. Scott, Omaha, Neb., was taken from a train at the Rock Island depot Wednesday afternoon and was dead on arrival at Mercy Hospital. The Rock Island agent had been notified from Marengo that the man had died on the train, according to Iowa City police reports. The hospital reported death was from a heart attack.

5 Teenagers Face Theft Ring Charge

Robs Bank, Provides His Personal Key

LAKE GENEVA, Wis. (AP) — A business-like gunman, who said he had keys to 11 more banks, imprisoned eight employees of the First National Bank Wednesday and escaped with \$74,293 in cash.

Bank President Weber Smith said an audit had established that as the loot. First estimates were upward of \$100,000.

The holdup man, muffled in a Halloween mask and heavy scarf, led the eight employees into a records vault as they arrived for work. He forced Vice-President George Allen to open the money vault, tied him up in the basement and left in cashier Warren Huber's hardtop automobile.

Find Car

The car was found several hours later parked five blocks away. Also found later was a farewell note:

"How's this for a joke? If your squad car hadn't such a squeak, I'd have had a tough time."

Local officials offered no explanation of the reference to the squad car.

They did note, however, that the squad car of this southern Wisconsin resort community of about 4,000 population was at the far end of town when the bandit left — he sent it there. The bank employees said that when he was ready to leave, he called the fire department and reported a blaze at a residence on the other side of town.

Careful Plans

But before that, the chatty gunman, armed with a Luger pistol:

Removed transmitter mouthpieces from all but one of the bank's telephones.

Answered at least one incoming call, and made at least one other outgoing call himself.

Brought a packing box from the basement in which to pile the money.

Sorted out quantities of well worn bills, to balk their identification in trade channels when spent.

Explained to the employees that he had wax impressions for keys to 12 banks in all, and that he entered the First National with one of the collection.

Gunman Departs

With Allen tied up and the seven other employees locked in the records vault, the gunman departed. The vice-president was able to free himself in a few minutes and report the holdup.

The 75-year-old bank in the middle of Lake Geneva's downtown district on busy U.S. Highway 12, has no central alarm system. It never had been held up.

Student Parking Unit Hits Lack of Interest

The Student Council Parking Committee complained of lack of student interest in the parking problem at its meeting Wednesday night.

Half of the committee members attended the meeting. James Cooney, G. Washington, D.C., chairman of the group, said "in view of the lack of student interest, perhaps the best solution to the problem would be restriction of cars on the campus."

The committee discussed a possible graduated fee on automobiles. The fee rate would be based on parking privileges granted the car-owner.

It also reviewed various solutions previously discussed but made no decisions. The group will not meet again until after Christmas vacation.

AWOL, SURRENDERS HERE

"Tired, cold and hungry," a youth identified by police as Gene Templeton, came into the Iowa City police station Wednesday and surrendered himself. He told police he has been absent without leave from Ft. Leonard Wood, Mo. for 17 days. Templeton is being held in county jail for army authorities.

Stork Closes Store

WILLIAM A. SKAFFE, G. Dubuque, who runs a Christmas tree store in downtown Iowa City during December, suspended business Wednesday while becoming a father and left a sign to let prospective customers know. Mrs. Marian Shaw, 5 Kirkwood Circle, smiles as she sees it. Skaffe's son was born Wednesday night and mother and child were doing well. The proud father said he prepared the sign two weeks in advance, but "would rather sell Christmas trees another two weeks than go through another session like this."

SUI Student Admits 10 Iowa Robberies

CEDAR RAPIDS (Special to The Daily Iowan) — Myron M. Tillman Jr., A2, Oskaloosa, signed a confession Wednesday night admitting holdups and break-ins in 10 filling stations in the past three months.

Tillman was arrested by highway patrolmen early Tuesday two miles south of North Liberty, 35 minutes after a lone, masked bandit robbed the Martin Oil Company in Cedar Rapids of \$26.

The 10 robberies admitted by Tillman would have netted him about \$600, Cedar Rapids police said.

Iowa City Holdup
One of the robberies Tillman admitted was at the Jones' Texaco Service Station in Iowa City at the corner of Burlington and Madison streets. Iowa City police report that the bandit escaped with \$125.

Three robberies were in Cedar Rapids:
The Warco Filling Station reported that \$54 was taken; The Airport filling station said that \$123 was stolen, and Martin Oil Company was the third Cedar Rapids filling station robbed.

Tillman is being charged in Cedar Rapids in connection with the Martin break-in and robbery.

Des Moines Robberies
He admitted three robberies in Des Moines in two hours on Nov. 26, escaping with \$235.

He also admitted robbing the Home Oil Company there two times in three days netting \$142.

When Tillman was arrested, detectives reported finding \$26 in cash on Tillman's person, plus a gray topcoat and cap and a triangularly folded white handkerchief in the car. He carried no weapon.

Lie Detector Test
The service station attendant at Martin's said the bandit was dressed in a gray topcoat and cap, with a handkerchief over the lower part of his face.

Tillman had previously denied any connection with the robberies, Cedar Rapids authorities reported.

He was returned to Iowa City Wednesday to take a lie detector test.

Hawk-I Pep Club Will Meet Tonight

Hawk-I Pep Club will meet at 7:30 p.m. tonight instead of Tuesday as originally announced. The meeting will be in the Recreational-Conference room of the Iowa Memorial Union.

Constitution changes which will automatically make every student who participates in the club activities a member of the club and will eliminate membership dues will be discussed in the open meeting.

The club will ask for funds from the Student Council budget since dues and homecoming badge sales have not brought in enough revenue to support club activities.

SCHOOL PROGRAM

Mark Twain Elementary School children will present a Christmas program for parents today at 2:30 p.m. The program will feature a pantomime, "O Holy Night."

Loot Total Is Estimated at Over \$5,000

By LARRY DENNIS

Charges were filed late Wednesday against five of the six Iowa City youths who were questioned Tuesday about a wave of thefts in the area.

The estimated value of the loot in the reported thefts had risen to over \$5,000 late Tuesday night.

The boys, 16 and 17 years old, are David L. Sheetz, James P. Musack, and William H. Neubauer, all charged with stealing property valued in excess of \$20 from a warehouse located on the farm property of O. C. Orris, north of Iowa City. The stolen property was owned by I. L. Orris.

Iowa City Thefts

Ralph M. Sheetz, a brother of David, was charged with stealing property of a value in excess of \$20 from Miller Sales and Service of Iowa City.

John R. Boulton was charged with having knowledge concerning the commission of numerous public offenses which are punishable by imprisonment in the penitentiary for a limited term of years and concealing this knowledge.

Investigation on a six-boy is continuing, police reported. His name was not released Wednesday.

All the boys were charged with only one offense. Iowa City Detective Harland F. Sprinkle estimated the number of thefts, break-ins and car prowlings at 35 or 40.

5-County Area

Authorities reported the larcenies were committed over a five-county area which included Johnson, Linn, Cedar, Benton and Jones Counties. The estimated value of the loot, which ranged from guns to outdoor motors to bottles of liquor, has now risen to over \$5,000, with authorities still rounding up the stolen property Tuesday night. Among the articles found Tuesday was a new phonograph and recording apparatus valued at \$1200.

Deputy Sheriff Donald L. Wilson said the loot was stashed "all over." The youths were apparently keeping the goods in their cars, Wilson said, and when they "got top heavy," were forced to dump it.

Authorities emphasized that the boys evidently were not "all together all the time" in the series of thefts. Reports indicated, however, that on the other hand the larcenies were not individual.

Arrested Today

The five youths were scheduled to be arraigned in police court this morning on the charges drawn up by County Attorney William M. Tucker.

All were held overnight Wednesday night in the jail at Iowa City police headquarters.

At least 13 new reports of thefts were filed with police Wednesday following the report of the boys' apprehension. Many other persons who had previously notified police of stolen goods filed claims of ownership of part of the loot.

Persons appearing who had not previously reported thefts included:

William E. Kiedtsch, A2, Keokuk, who told police a \$500 trumpet was stolen, probably at the SUI music building, sometime between Monday night and Tuesday morning.

Keith Winsor, A1, Vinton, who reported chrome fender skirts taken from the South Quadrangle parking lot.

Marie D. Allen, West Branch, who reported a stolen blanket.

Thomas E. Corwell, A2, Mason City, a double-barreled shotgun stolen Dec. 3.

Robert V. Vallmar, L2, Holstein, two seats and back cushions, each valued at \$5, stolen in March.

Beulah E. Brown, A4, Lincoln, Ill., a polaronid camera stolen from his car parked at the city airport in May.

Phil Engert, A3, Iowa City, another stolen camera.

Don Black, Apt. B, 115 N. Dubuque St., a box of golf clubs and golf cart taken from the trunk of his car.

Paul Scott, C3, Proppertstown, Ill., a camera and miscellaneous articles, including some men's jewelry.

Bruce Appleby, A2, Monticello, a top coat, gloves and scarf stolen from the Memorial Union, Nov. 20.

John Streib, R.R. 4, a wool blanket taken from his car two months ago.

Robert Brzezinski, A2, Burlington, a "pocket secretary" and pencil stolen from his car Nov. 15.

W. L. Martinez, Highway 61 West, who reported a shotgun stolen from Richard Evers, Corvallis, about a year ago.

General Notices

General Notices must be left at The Daily Iowan office, Room 201 Communications Center, by 2 p.m. the day preceding publication. They must be typed or legibly written and signed. They will not be accepted by phone. They will not be published more than one week prior to the event. The Daily Iowan reserves the right to edit notices.

BILLY MITCHELL — All pledges and actives are to report to squadron headquarters at 7:30 p.m. Dec. 13 in uniform. Formal activation ceremonies for Arnold Air Society will be conducted for ASLLS. Following the ceremony pictures will be taken for the Hawkeye yearbook. Attendance is required.

YMCA SALE — The YMCA Christmas card sale for funds to be sent to the United Nations Children's Fund will end Dec. 16.

SOCIOLOGY — Sociology and Anthropology Colloquium will hold a dinner meeting at the Ox Yoke Inn in Amana on Tuesday, Dec. 13. Transportation will be provided for those who desire it. Dr. David Gold will be the speaker. Please sign up for the trip at the Sociology office before noon Dec. 9.

FRENCH CLUB — The French Club's annual Christmas party will be held Monday, Dec. 12, at 7:30 p.m. There will be a play, a skit, carols, dances and refreshments. All those interested in French are cordially invited.

LAW WIVES — Law Wives' Association will meet for their Christmas party on Tuesday, Dec. 13, at 7:30 p.m. in the law students lounge. Members are reminded to bring a white elephant gift for a gift exchange and also any contributions which they can make to the Christmas box for a needy family.

PI OMEGA PI — will hold an official business meeting at 3:30 p.m. today. All new and old members are asked to attend. The meeting will be held in room 309-C University Hall.

ENGINEERS WIVES — Engineers wives will meet today at 7:30 p.m. in Studio E in the Engineering building. Dean Dawson will be the guest speaker.

SUI DAMES — The SUI Dames will hold their annual Christmas Party today at 7:30 p.m. in the River Room of the Union. The members will play court whist followed by refreshments and a program presented by the Drama and Music group. Everyone will be given the opportunity to contribute to a fund for a television set for the maternity ward at University Hospitals.

PHI BETA KAPPA — Business meeting 4:30 p.m. Monday, Dec. 12, Senate Chamber, Old Capitol. Agenda includes election of new members. Members are urged to attend.

NEWMAN CLUB — The Newman club will meet today at 7:45 p.m. A social hour will follow the discussion on "Adam the Magnificent."

HILLEL — Friday services 7:30 p.m. Saturday, Dec. 10, there will be a puppet show at 3 p.m.

ZOOLOGY SEMINAR — The Zoology Seminar will meet Friday, Dec. 9, at 4:10 p.m. in Room 201, Zoology Building. The speaker: Dr. Sheldon J. Segal, Research Associate in Zoology at SUI. His topic: Estrogen effects on the pituitary.

ALPHA DELTA SIGMA — Alpha Delta Sigma will hold its regular meeting today at 7:30 p.m. in the Communications Center Lounge. The senior booklet and other important business will be discussed. All members be present.

INTERNATIONAL FESTIVAL — The UWA and International Club will hold an "International Festival of Holidays" Sunday, Dec. 11 in the main lounge of the Union. Open house from 4:30 to 7:30 p.m. followed by a pageant at 7:30 p.m. Twenty countries will be featured. No admission will be charged but a good will offering will be taken.

PHI BETA KAPPA — Phi Beta Kappa members from other chapters who have recently arrived on campus and wish to associate themselves with the Alpha Chapter of the University of Iowa should contact Secretary M. L. Huit, 111 University Hall, extension 2191.

JOB PLACEMENT — Senior and graduate men and women students (except engineering students) who expect to receive degrees in June, 1956, or August, 1956, and want to take advantage of the services of the Business and Industrial Placement Office should have their registration materials on file in that office, 107 University Hall, before Christmas vacation. Employers coming to the campus want to see all graduates regardless of military status.

LIBRARY HOURS — The University Library will be open until 2 a.m. all days except Saturdays when it will close at 5 p.m.

STUNTS & TUMBLING — The WRA Stunts and Tumbling club will meet every Tuesday and Thursday afternoon at 4:30 p.m. in the large women's gymnasium.

DEGREE CANDIDATES — Candidates for degrees in February may now order official commencement announcements. Place your order before the holiday vacation at the Alumni House, 130 N. Madison, across from the Union.

PHYSICS — William Webber, SUI Physics Department, will speak on "A New Determination of the Intensities of Primary Cosmic Ray Alpha Particles and Li, Be, and B Nuclei" in room 301 Physics Building Dec. 13.

HOLIDAY FOLK DANCE — There will be an informal holiday folk dance at the Women's Gym Friday, Dec. 9. A teaching session will begin at 8 p.m., followed by regular dancing until 11 p.m. Instructions will be offered in many dances from foreign countries. All interested SUI students and townfolk are invited to attend.

PHI ETA SIGMA — There will be a meeting of Phi Eta Sigma, freshman honorary society, at the home of the faculty adviser, 125 River St. on Sunday, Dec. 10 at 2:30 p.m. New pledges are especially invited to attend.

PHARMACY WIVES — Pharmacy students' wives will meet today at the home of Mrs. Wendie Kerr, 236 Hutchinson Ave. Please bring a wrapped gift (75 cents to \$1) for the exchange.

AWAY FROM HOME — Place the tree so away from sources of fireplaces, radiators or television sets. Do it in a position that exits.

SEASONING — Be sure to add salt, pepper, celery leaves when you are cooking kiblets and pieces of for stock.

Fire Hazard — But it can also be an unless carefully an taken care of.

Keep the tree in a garage — an unheated garage until ready to set it up until you're ready to cut it.

Cut off the butt of diagonally — at least an the original cut. The a larger, fresh "driv face for the tree.

Keep the tree stand water — in or sand moist. Refill the container as the tree absorbs.

This keeps the tree fresh — by preventing the needles from drying and needles, and reduce hazard.

Use only approved trees — Check for worm holes. And never house with the tree in on. Use fireproof decorations.

Remove the tree — possible after the no fire danger builds up as the tree ages and dries in a warm house.

Forester Advises Careful Selection of Christmas Trees

Your Christmas tree will provide beauty and inspiration throughout the holiday season if you select it wisely and observe a few simple but necessary rules for its care.

Selecting a tree from the many offered for sale can be a problem. Fir and pine make the best Christmas trees according to Dick Campbell, extension forester at Iowa State College.

Spruce runs a close third. All these trees hold their needles well—this is an important consideration.

A pine can easily be identified by its long needles. Fir and spruce both have short needles, but you can easily discover the difference by running the back of your hand along the needles.

Sharp, Scratchy
Spruce needles are pointed and stiff and feel sharp and scratchy. Fir needles are pliable, flat, and rounded at the tips, and are soft to the touch.

Try to get a tree that has been freshly cut. Trees that have been cut recently and stored properly have a healthy green color, and the needles are shiny and waxy in appearance. As you brush over the branches, the needles do not loosen and fall.

The tree should have a full symmetrical shape. The branches should be strong enough to hold ornaments without sagging forward.

A tree that meets or closely approaches these qualifications will provide an attractive centerpiece for your home decorations.

Fire Hazard
But it can also be a fire hazard unless carefully and properly taken care of.

Keep the tree in a cold place—an unheated garage is fine—until ready to set it up. Don't set it up until you're ready to use it.

Cut off the butt of the trunk diagonally at least an inch above the original cut. This provides a larger, fresh "drinking" surface for the tree.

Keep the tree standing in plain water, or in sand moistened with water. Refill the container daily as the tree absorbs the water. This keeps the tree fresher, prevents drying and dropping needles, and reduces the fire hazard.

Away from Heat
Place the tree so that it is away from sources of heat, such as fireplaces, radiators, radios, or television sets. Do not place it in a position that will block exits.

Use only approved light fixtures. Check for worn or frayed cords. And never leave the house with the tree lights turned on. Use fireproof decorations.

Remove the tree as soon as possible after the holidays. The fire danger builds up in a hurry as the tree ages and gradually dries in a warm house.

SEASONING
Be sure to add salt, whole pepper, celery leaves and onion when you are cooking chicken giblets and pieces of bony back for stock.

Announces Engagement

Miss Virginia Yoder

Mr. and Mrs. Nicholas Yoder, Prairie du Chien Rd., announce the engagement of their daughter, Virginia, to Robert H. Walters, son of Mr. and Mrs. Henry B. Walters, Tipton.

Miss Yoder, a senior in the College of Liberal Arts, is a member of Chi Omega social sorority. Mr. Walters is also a senior in the College of Liberal Arts.

No wedding date has been announced.

Students Invited To Attend Christmas Pilgrimage Dec. 15

The Iowa City Woman's Club will sponsor a Community Christmas Pilgrimage Dec. 15, which will be open to the entire community including SUI students.

The object of the program is to bring more of the spirit of Christ into the Christmas season and to promote better understanding of the religious background of the community.

The pilgrimage will begin at 9:30 a.m. with the group visiting five churches at half-hour intervals. The denominations of those churches are: Congregational, Methodist, Catholic, Lutheran and Baptist, Jewish, Unitarian and Episcopal.

Following a noon recess, the group will continue the pilgrimage and visit five more churches beginning at 1:30 p.m. These churches will be Presbyterian, Baptist, Jewish, Unitarian and Episcopal.

At each church, the respective minister will address the group on the symbolic attributes of the altar of that church.

Mrs. E. T. Hubbard is chairman of the pilgrimage. Other groups cooperating in the pilgrimage include the United Council of Church Women, Sisterhood of Agudas Achim, Altar and Rosary Society and the Chamber of Commerce.

French Club Plans Christmas Party

The French Club will hold a Christmas party Monday at 7:30 p.m. in the Presbyterian Church.

L'Appollon Du Bellac, a play by Jean Giraudoux, will be given. The cast includes David Gobert, G. Decatur, Ill.; Edith Rodgers, G. Pittsburgh, Pa.; Chavarche Tchalekian, G. Alexandria, Egypt; Richard Kopp, G. Ridgewood, N. Y.; May Butrick, G. Alma, Mich.; and Vera Watson, G. Memphis, Tenn.

Prof. Janis B. Ratermanis of the Romance Languages department will direct the play.

A skit will be given by Vera Watson, Mary Jane Baker, A4, Iowa City; Phyllis Lindsay, G. Fayetteville, Tenn.; Seta Ziver, G. Istanbul, Turkey; and Lois Ives, G. Wenham, Mass.

A French Bourne will be demonstrated by folk dancers, and Prof. Joseph E. Baker of the English department will lead French-American square dances.

COFFEE CARE

Dampness and heat are enemies of instant coffee. Keep the top of the coffee jar screwed on tightly; put the jar in a cool place in your kitchen.

TAME WILDCAT

RICHMOND, Va. (AP) — Some Chesterfield county residents were alarmed when they heard that a wildcat had escaped from a local pet shop. He was found playing with some dogs and chickens and was quickly captured with a net. The pet shop owner expressed surprise that the animal, a jaguarundi, or small South American wildcat, didn't attack the chickens.

Hospitals Ask State For Gifts to Patients

Gifts will be accepted again this year from donors throughout Iowa for distribution at Christmas time to patients in the State University of Iowa Hospitals.

William A. McLees, administrative associate and chairman of the Hospitals' Christmas committee, says gifts for both children and adults will be needed.

Because of the time required to open, rewrap and designate each item for a special patient or age group, the committee urges that donors submit their contributions as soon as possible.

For adult patients, the committee suggests gifts such as the following: socks, gloves, handkerchiefs, neckties, fancy handwork, head scarves, knitting materials, sewing boxes, mittens, playing cards, toilet articles, leather or ceramic kits, shawls or new Christmas cards with stamps for mailing them.

One of the most appreciated gifts, according to hospital personnel, is the combination present of stationery and stamps. For children, members of the committee say that almost any child's game or toy will be welcomed. Dolls are especially well received.

The committee advises, however, against sending food for

any age group, since much of it arrives in an unusable condition and the restricted diets of many patients make it inappropriate.

The distribution of gifts to patients has become an annual custom at the SUI hospitals. The presents come from individuals, groups, schools, clubs — and from former patients who remember receiving gifts themselves while hospitalized at SUI during some Christmas in the past.

Any person who wishes to participate in the program by contributing a gift or cash donation may send the item to the Christmas Committee, State University of Iowa Hospitals, Iowa City, Iowa.

YWCA Will Aid Children's Fund

The YWCA World Relatedness Committee will sell Christmas cards during the next two weeks to raise money for the United Nations International Children's Emergency Fund (UNICEF).

Designed by the famous French illustrator, Eddy Legrand, the cards picture children preparing for or engaged in holiday diversions.

UNICEF, an organization entirely dependent on voluntary contributions, is sparking an attack on malnutrition, malaria, tuberculosis and other diseases that plague children all over the world.

An order for one box of cards enables UNICEF to buy a week's supply of milk for 50 undernourished children; DDT to safeguard four youngsters against malaria for a year or vaccine to help protect 50 children against tuberculosis.

Behind the Sports Desk

with FRED MILLER

Here we are in the midst of the winter sport schedule with basketball and wrestling going on, and swimming, indoor track, gymnastics and fencing starting in January. The big news of football filters in from day to day, but within a month, nearly all football news will be at an end.

IN THE FOOTBALL WORLD, however, there is big news or will be big news shortly. The last weeks of December each year are filled with the traditional bowl games. These games are of various kinds, named for various things.

Not every college football player gets a chance to play in a bowl game, and very few entire college teams have the opportunity to play in any bowl at all. Small colleges as well as the large universities across the nation compete for top honors so that they have a chance to win a bowl bid.

IOWA IS NO DIFFERENT in this respect of trying to win a bowl bid. Some day, however, Iowa will get its chance to play the west coast power in the highly-publicized Rose Bowl in Pasadena, Calif.

Until the day arrives when Iowa meets in the Rose Bowl certain, Iowa players will have a chance to contribute to one of the finest promotions in the sports world—the charity bowl games. These games, put on by various organizations, bring together top football players the nation over to compete under new conditions for a worthwhile cause.

SPECIFICALLY I AM SPEAKING of the East-West, North-South, and Blue-Gray games. Although these games may not draw the publicity of the Orange Bowl, nor have the splendor of the Rose Bowl, the significance of having them is important.

As the players assemble from all parts of the nation the charitable purpose of the game is explained. The players are taken on tours of children's hospitals to which the proceeds of the game will go. The thrill that comes to a football player when he walks the corridors and visits the wards of a hospital like this is unforgettable.

ON THE FOOTBALL FIELD the day of the game, one easily sees why the eastern All-American would battle for the title as would the western All-American, or the northerners and the southerners. The decision of the game is important, but more important, I think, is the inner feeling a player receives when he knows that the proceeds of the game are going for a worthy cause.

Iowa Captain Cal Jones said recently that it was a great thrill for him to play in one of the charity bowl games, the East-West game. I presume that the other Iowa players in similar games—Rodger Swedberg, Jim Freeman, Jerry Reichow, Roger Wiegmann—have the same feeling.

My only further comment is that even though Iowa is not playing in a major bowl game as a team, the Hawkeyes are making one of the greatest contributions to the sport of football by sending and having representatives in the charity bowl games this year. Keep up the good work.

Big Ten Coaches Propose Tenth Game to 'Warm Up'

CHICAGO (AP)—Big Ten football coaches Wednesday recommended a change in the rules to permit the defense to advance the ball on a fumble and also proposed a 10th or "tuneup" game be added to the schedule of each conference team.

The coaches held a day-long session as the annual winter meetings of the conference got under way.

Sabus Paces South Quad I to Victory

Clutch shooting late in the game by Francis Sabus gave South Quad I a 27-25 victory over Quad East Tower in intramural basketball Wednesday night.

Sabus made three free throws and a long push shot, with one and a half minutes remaining, to give South Quad a 27-23 lead.

Jim Thompson kept East Tower in the game through the first three quarters with his sharp shooting. In the fourth quarter he teamed with Gordon Sanborn in a scoring surge that overcame a seven point third quarter deficit.

Thompson's 16 points was high for the game. Sabus paced South Quad with 11 points.

City High Matmen Lose to Franklin

Iowa City High School's wrestling suffered its third straight loss this year at the hands of Franklin of Cedar Rapids, 37-8, here Wednesday night.

Little Hawk letterman Bill Skriver scored five points by throwing his heavyweight opponent in four minutes. City High's other points came when George Turecek decisioned Ritchie Ringsmuth at 120 pounds.

Hawk Cagers Set Defense For SMU Invasion Friday

Iowa's basketball team started work Wednesday on planning defenses to stop a fast-break Southern Methodist team that invades the Iowa Fieldhouse Friday night.

Coach Bucky O'Connor handed out a scouting report to the players on SMU. It indicated that if shoot-happy SMU has a good night, Iowa's victory string of 67 over non-conference foes on the Iowa floor will be in danger.

In the first two games SMU averaged about 90 points. Tuesday night the Mustangs whipped Texas Wesleyan, 65-42.

O'Connor has been having trouble practicing his squad as a unit this week because of tests. Monday and Tuesday the emphasis was on correcting mistakes committed in the Nebraska game, particularly shifting on defense.

Iowa did not play as well as expected in its 60-51 victory over Nebraska, O'Connor said.

Guard Sharm Scheuerman, injured before the season started, has not taken part in any team drills yet although he has worked out lightly since Monday.

Although Tom Payne, 6-foot 6-inch sophomore, played most of the Nebraska game in place of Scheuerman, O'Connor has indicated he will start 5-foot 8-inch Babe Hawthorne.

All Tickets Sold For Badger Game

All tickets for the Iowa-Wisconsin basketball game here Feb. 18 have been sold, according to Francis (Buzz) Graham, Iowa business manager of athletics, Wednesday.

The Minnesota game here Jan. 14 was sold out last week.

Graham warned fans that other conference game tickets, especially the Michigan State game Jan. 27, are selling fast. The tickets, \$2 per game, may be bought through the mail from the Ticket Office, Iowa Fieldhouse, Iowa City, Iowa.

Bowling

Third-place Delta Zeta copped the high team game with a 623 and the high team series with 1196 Tuesday night in the Mixed Sorority bowling league.

Jackie Dethmers had the high individual game, 161, and Ginny Wenger's 293 was the high individual series.

Hawkeyes Enter 16 In First Gym Meet

Sixteen Iowa gymnasts open the 1955-56 season Saturday in the Midwest Open tournament at Navy Pier, Chicago.

Pacing the squad again is junior Sam Baillie, who placed fourth in the NCAA championship in all-around competition last year. He is favored Saturday to win the meet's all-around championship.

Steve Carlsson, an Iowa freshman who competed for the Swedish National gymnastics team last winter, will be entered in eight of the ten events.

Making the trip are Baillie, Carlsson, Bill Vogt, Steve Foote, Dick Dohrmann, Joe Timm, Jerry Kottong, Bill King, Dick Plato, Bob Justice, Stan Beebe, Dick Kuiper, Godfrey Styche, Obe Ross, Ralph Speas and Mike Stolte.

Binghamton, N.Y. led the Eastern League baseball teams in attendance during 1955 with 89,529 home fans. It was an increase of 40,308 over 1954.

Welsh Wins Race For Total Offense By Only 35 Yards

NEW YORK (AP)—Navy's George Welsh and Arizona's Art Luppino shared individual offensive honors in major college football for the 1955 season.

Welsh, who also won the passing title, topped the Arizona junior by 35 yards in the battle for total offense honors.

Welsh had a season's total of 1,348 yards in nine games according to figures released Wednesday by the NCAA Service Bureau. Luppino picked up 1,313 in 10 games.

All of Luppino's yardage was on the ground which gave him the rushing crown for the second straight year.

Michigan State's All-American Earl Morrall was the No. 1 man in average gain for rushing-passing plays with 9.1 yards. Halfback Howard (Hopalong) Cassidy of Ohio State figured in the most rushing-passing plays, 249 — one more than John Majors of Tennessee.

Gerry Planutis, Michigan State 175-pound fullback, spends Sunday mornings giving religious instruction to boys at a correctional institution in East Lansing, Mich.

Baker Tips Valdes In Dull 10-Rounder

CLEVELAND (AP)—Bob Baker methodically plodded to a unanimous decision over Cuban Nino Valdes Wednesday night in a dull 10-round match that probably eliminated both the No. 2 and No. 3 challengers from any chance of a title shot at heavyweight champion Rocky Marciano.

Boos and catcalls from the crowd serenaded the two hulking men.

Judge Herb Williams scored it 99-91, judge Charlie Bill 98-92 and referee LaBranche 97-75 all for Baker. The AP card was Baker by a 99-90 score.

COLD EVENING
HENRY, Tenn. (AP)—Star forward Janet Hays of Henry High racked up 89 points as Henry's girls basketball squad walloped Springfield, 97-79.

Experts Undecided Whether Grid Defense Up to Offense

CHICAGO (AP)—Has the defense caught up with the offense in college football? Well, yes and no.

That non-committal reply came from the 149 sports writers and broadcasters replying to the Associated Press postseason questionnaire.

Looking back on mid-season NCAA statistics that indicated there was less scoring and less forward passing this year than in recent seasons, the experts still couldn't make up their minds about the cause.

Of the writers and broadcasters, 52 definitely said the defense had caught up. Forty-five said it hadn't, 16 said "almost" or "catching up" and a

dozen who recognized a fairly even balance between the two found other explanations than mere improvement of defensive play.

A couple writers pointed out that scores still run high in many games and the good teams like Oklahoma, Notre Dame, Michigan, UCLA, etc., still pile up the points. Several others mentioned "possession" football and duller offenses.

Backing up the statistics, several writers opined that pass defense was improving and that the long "home run" pass had been pretty well stopped, but that good teams still were able to chew up a lot of yardage on the ground.

Two Seized

BERLIN (AP)—East Berliners seized the men over to the Soviet sector.

The Soviet sector soldiers attacked a line and beat him. They said the men to the West in a driver delivered Communist Peoples.

The U.S. Army inquiry to the were told an investigation was made.

Identity of the given in the Eastern officers said a quick records did not show AWOL, but they could not be sure today morning when by company command.

Army officials said "pleasantly surprised" police turned the men Russians. One officer said:

"In the light of what been doing and clear there was always the would claim their and the Soviets would up."

In that case, the have been subject Communist court.

Travel Discouraged
Casual travel by soldiers in East Berlin encouraged by the Army orders, which every new arrival repeated every 90 days.

"Free travel by French, British, Soviet, and American sectors of Berlin established by agreement. However, deemed inadvisable because of their desire to utilize the super-travel within the city.

Under the Soviet sector unless in an official member of a conducting tour. Entrant Soviet sector of Berlin conducted sight-seeing tours into the Soviet Berlin on conducted tours is recommended.

Four delegates from Interfraternity Council turned from the N conference in St. Louis.

The delegates reported discussion at the meting on "Rush 'Greek Week' projects from Roger Wiegmann, A James Cooney, G, D.C.; David Dutton, and Wayne Thoms.

They reported that the conference was panel discussions covering different fraternity life schools.

Principal speaker ley was Dr. George president of Kent State, Kent, O.

Other speakers included B. McHoney, president of American Life Insurance and Ray Tucker, m. Louis.

Reports Claim Record High '55 Economy

WASHINGTON (AP) — The government issued reports on jobs, income, and industrial expansion Wednesday as the economy raced toward the close of its biggest year.

Employment set a record for November of 64,807,000 despite the usual cold weather drop from October, the Commerce and Labor Departments said. Factory jobs took an unseasonal jump to a postwar peak.

Unemployment rose to 2,398,000 as a million workers dropped out of agriculture. But new hiring by manufacturers, retailers and wholesalers offset two-thirds of the loss in farming.

Second Report

A second report, from the Commerce Department, disclosed that the personal income of Americans climbed to an annual rate of \$309 1/2 billion in October.

This was more than 1 1/2 billion higher than in September — a billion-dollar gain in wages and salaries, because of raising pay scales and higher employment, plus a half-billion-dollar rise in interest, dividends and the income of business proprietors.

Still a third report indicated that industry's spending for new plant and equipment — outlays which make possible greater production and employment — will continue to rise through the first three months of 1956.

Plant Equipment Outlays

The plans of businessmen, as reported to the Commerce Department and the Securities and Exchange Commission, call for plant and equipment outlays at a record rate of \$31,600,000,000 annually in the January-March quarter.

Education Chairman Cites High School Problems to Lions

Problems of education in Iowa and recommendations being considered by the President's Committee for Education were outlined to the Iowa City Lions Club Wednesday.

Lawrence Wade, chairman of the Johnson County chapter, said that a recent state conference favored inclusion of all taxable property in some high school districts.

"Seventy per cent of our state is not in some high school district," Wade said. "This means that people living in this area must pay tuition to send their children to a public school."

Wade said he felt everyone should pay an equal amount for education in public schools, and that the current policy is not in line with our democratic way of thinking.

Three major objectives of re-organization outlined by the state conference included:

1. Furnishing the best possible education to all children in the area.
2. Accomplishing this with the least possible cost.
3. Providing a fair distribution of costs.

At present, 483 high schools in Iowa have less than 50 resident pupils, Wade said and 550 have less than 100.

Wade pointed out that the number of teachers graduating from Iowa colleges has decreased greatly during the past six years, and with the proposed reorganization plan in effect, fewer teachers would be needed.

FAMILY RATES at the SHERMAN CHICAGO

Now children under 14 years of age when accompanied by their parents are guests of the world-famous Sherman in one room at no extra charge. 1500 newly redecorated rooms — all with radio, T.V. available. Within walking distance of State Street and all shopping, Merchandise Mart, theaters and all amusements.

Merry Christmas Santa

ROLES WERE REVERSED Wednesday when Janice Miller, daughter of Mr. and Mrs. Richard Miller, 1627 College Court Place, gave a present—Bugs Bunny Book—to Santa at his headquarters on the corner of Washington and Clinton Streets. She is sure Santa will enjoy it.

University Briefs

WATER BIDS — Bids for installing steam and water services and sewer lines for the new addition to Hillcrest will be accepted up to 1:30 p.m., Dec. 21, in the office of George L. Hornor, SUI superintendent of planning and construction. The bids will be opened at 2 p.m., Dec. 21.

CHEMISTRY TALK — Prof. Pierce W. Selwood of the Northwestern University chemistry department will speak Monday at a meeting of the Iowa section of the American Chemical Society in room 314 of the SUI Chemistry Building. He will talk on "Magnetism and Catalysis."

TALK ON BONES — The Turin skeletons, Mill Creek stone and bone implements and other recent archaeological discoveries in Iowa will be discussed by Prof. R. J. Ruppe, SUI anthropologist at 8 p.m. Monday in Shambaugh lecture room of the University library. One of the skeletons, still in plaster but with the bones partly uncovered, will be an exhibit in the Library foyer.

DENTISTRY HONOR — Dr. Ralph C. Appleby, acting head of prosthetic dentistry at the State University of Iowa college of dentistry, was elected to the American Denture Society at the group's recent annual meeting in San Francisco.

ATTEND SYMPOSIUM — John Cantiny and Lloyd Lovell, assistant professors at the State University of Iowa Child Welfare Research Station, are attending the 35th Anniversary Symposium of the Merrill-Palmer School, Detroit, Mich. "The Effective Family Today and Tomorrow" is the symposium topic.

tending the 35th Anniversary Symposium of the Merrill-Palmer School, Detroit, Mich. "The Effective Family Today and Tomorrow" is the symposium topic.

DENTIST TO SPEAK — Dr. Ernest A. Sals, assistant professor of clinical operative dentistry in the State University of Iowa college of dentistry, will be the guest speaker at the Clinton County Dental Society meeting. He will talk on "Dental Amalgams."

Calls for County Peace Association

In order to improve relations between elected officials and the public, Dayton Countryman, attorney general, urged the formation of a Johnson County Peace Officers Assn.

Countryman said at a luncheon Wednesday in the Iowa City airport administrative building that 10 other counties have already established such associations.

He said that a group of this kind could provide better education of both officers and the public, better coordination between police agencies and improved communication with the attorney general's office.

Course in Diabetes Starts at SUI Today

A postgraduate course in diabetes today at the SUI College of Medicine is expected to draw 50 physicians from Illinois, Nebraska and other states.

The meeting is being sponsored by the department of internal medicine.

Guest speaker is Dr. William H. Olmstead, associate professor of clinical medicine at Washington University in St. Louis.

State Employee Pays \$100 Fine for Selling Sweepstake Tickets

DEC MOINES (AP) — Robert F. Stone, 45, pleaded guilty in municipal court Wednesday to a charge of possession and sale of lottery tickets and was fined \$100.

Stone, \$4,200-a-year assistant director of the commission's sales and use tax division, was arrested Tuesday night by a state agent and accused of possessing and selling tickets on the 1956 Irish Sweepstakes.

At his arraignment, Stone sought to plead guilty. However, the judge entered a plea of not guilty since the charge represents an indictable misdemeanor. Trial was set for Dec. 20.

But as soon as a county attorney's information was prepared and Stone had signed it, State Agent G. M. Strand related, Stone returned to court and in a brief session pleaded guilty.

Stone immediately paid the \$100 fine and left the court. The maximum penalty on the charge could have been a fine of \$100, and 90 days in jail.

Earlier in the day, Commission Chairman Ray Johnson, speaking for the commission, said the agency "will not pre-judge the case," and that "further consideration will be given Stone's employment status after his case has been disposed of in the courts."

Meanwhile, State Safety Commissioner Clinton Moyer, who participated with the State Bureau of Criminal Investigation in investigating the Stone case, said the probe would continue.

Moyer said the complaint in the case, whom he declined to identify, alleged that athletic contest pools were being conducted in state offices. He stressed that he had no personal knowledge of such a situation.

ACCIDENTS
Accidents involving motorcycles account for approximately 1,000 deaths yearly in the United States.

Alexander Brailowsky's — Piano Recital — A Delight to Hear

By WILLIAM DONALDSON

A comparatively large crowd left the Iowa Memorial Union Wednesday night with sighs and words of praise that carried down the street.

One woman told an interested passer-by, "You should have heard him." And she meant it. Alexander Brailowsky, Russian pianist, had just finished a memorable recital. It included works of Chopin, a composer in whose music Brailowsky excels.

Versatile, Expert

Whether playing in clear, crisp tones the well-known "Fantasie Impromptu" or giving a lively account of the Waltz in E flat major, the pianist was in authority.

A special word is needed for Brailowsky's performance of the Nocturne in C minor (op. 58), which at time bordered the routine interpretation usually given it. But don't limit him to Chopin's music.

Take Schumann's "Carnival" for an example. It is an intricate work with a change of tempo in each of its 21 sections. Brailowsky played it with unbelievable ease, emphasizing the mood of each passage. His was a vivid interpretation, poignant and powerful.

To Be Consultant At Coast Parley

Prof. E. F. Lindquist, director of the SUI Testing Programs, will be consultant at a workshop of the Western Invitational Conference on Secondary School Problems to be held at the St. Francis Hotel, San Francisco, Friday.

The afternoon workshop is entitled "How the Iowa Tests of Educational Development Help Identify the Gifted Student."

About 350 educators, school and county superintendents, and state supervisors of education and guidance are expected to attend the meeting.

They will discuss specific problems in reading improvement and curriculum planning.

The all-day session is sponsored by Science Research Associates of Chicago, publishers of educational testing, reading improvement and guidance materials.

SUI Employees To Elect Union Officers Tonight

The SUI Employees Union, local No. 12, will elect officers tonight. The regular business meeting will be held at 7:30 p.m. at C.S.A. Hall, 524 N. Johnson St.

William Freeman, R.R. 1, is president of the group, and W. W. McGinnis, 2213 H St., is vice-president.
